PROSPECTUS SUMMARY

We import and distribute through our wholly owned subsidiary Terre di Toscana, Inc. specialized truffle based food products which includes fresh truffles, truffle oils, truffle pates, truffle creams, and truffle butter. We presently generate revenues primarily from sales to restaurants.

TDT Development, Inc., is a newly-formed company, Terre di Toscana, Inc. our wholly-owned subsidiary, was owned substantially by our founder, and President, Pietro Bortolatti. Mr. Bortolatti has personally financed TDT since its inception on September 8, 2000. In order to gain further funding, TDT acquired Terre Di Toscana and sold 3,381,000 shares of our common stock in a private placement offering. Mr. Bortolatti owns an aggregate of 5,000,000 shares out of 8,381,000 shares outstanding.

The Offering

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks and uncertainties described below before you purchase any of our common stock. These risks and uncertainties are not the only ones we face. Unknown additional risks and uncertainties, or ones that we currently consider immaterial, may also impair our business operations.

If any of these risks or uncertainties actually occur, our business, financial condition or results of operations could be materially adversely affected. In this event you could lose all or part of your investment.

Risks Concerning Our Business

We started our operations in January 2000, therefore our limited operating history makes it difficult to evaluate our financial performance and prospects.

We are a new enterprise that has a short operating history upon which an evaluation of our business and prospects can be based. We must, therefore, be considered to be subject to all of the risks inherent in the establishment of a new business enterprise, including the prospective development and marketing costs, along with the uncertainties of being able to effectively market our products. We cannot assure you at this time that we will operate profitably or that we will have adequate working capital to meet our obligations as they become due. Because of our limited financial history, we believe that period-to-period comparisons of our results of operations will not be meaningful in the short term and should not be relied upon as indicators of future performance.

We are dependent upon Mr. Bortolatti, any reduction in his role in TDT would have a material adverse effect.

The success of TDT is dependent on the vision, culinary knowledge, business relationships and abilities of TDT's founder, CEO and president Pietro Bortolatti. Any reduction of Mr Bortolatti's role in the business would have a

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

material adverse effect on TDT. TDT does not have an employment contract with Mr. Bortolatti.

We may have difficulty in obtaining additional funding, if required.

Although we believe that the funds to be raised through our most recent private placement offering of common stock will be sufficient for our needs for the next twelve months, if additional funds are needed, we may have difficulty obtaining them, and we may have to accept terms that would adversely affect our shareholders. For example, the terms of any future financings may impose restrictions on our right to declare dividends or on the manner in which we conduct our business.

-4-

Also, lending institutions or private investors may impose restrictions on future decisions by us to make capital expenditures, acquisitions or asset sales.

We may not be able to locate additional funding sources at all or on acceptable terms. If we cannot raise funds on acceptable terms, if and when needed, we may not be able to develop or enhance our products to customers, grow our business or respond to competitive pressures or unanticipated requirements, which could seriously harm our business.

We are dependent on foreign sources for our products, any interruption in these sources would have a material adverse effect on our business.

All TDT products are imported from Italy, some fresh that must be air freighted and others that require refrigeration. Any interruption in this delivery process or reduction of quality in products delivered would have a material adverse effect upon TDT.

Any rejection or quarantine of our products by regulatory agencies would have a material adverse effect upon our business.

The products are processed perishable and fresh agricultural products, which must be cleared by U.S. Customs and FDA agencies for distribution in the U.S. The fresh products are subject to inspection (and rejection or quarantine) at any time by such agencies whether en route, in inventory or at shelf. Since many of the products are of a fresh and perishable nature, special handling, storage and distribution capabilities are required throughout the distribution process. Any rejection or quarantine of our products by such agencies would have a material adverse effect upon our business.

We may not be able to successfully manage our business or achieve profitability.

We expect that our sales, marketing, operations and administrative expenses will increase in the future. As a result, we will need to generate significant revenues to achieve and maintain profitability. We cannot be certain that we will achieve or sustain positive cash flow or profitability

-5-

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

from our operations. Our ability to achieve our objectives is subject to financial, competitive, regulatory, legal and other factors, many of which are beyond our control.

Larger and better funded competition may make it difficult for TDT to succeed.

There are many competitors in the truffle market which are larger and better funded than TDT. One major competitor is Urbani USA, the largest distributor of truffles and caviar in the US. These competitors could make it very difficult for TDT to succeed.

Because we sell food products, we face the risk of exposure to product liability claims.

TDT, like any other seller of food, faces the risk of exposure to product liability claims in the event that the use of products sold by it causes injury or illness. With respect to product liability claims, if TDT does not have adequate insurance or contractual indemnification available, product liability relating to defective products could materially reduce TDT's net income and earnings per share.

Because TDT does not control the actual production of truffles, TDT may be unable to obtain adequate supplies of its products.

TDT obtains all of its food service products from other suppliers. Although TDT's purchasing volume can provide leverage when dealing with suppliers, suppliers may not provide the food service products and supplies needed by TDT in the quantities requested. Because TDT does not control the actual production of its products, it is also subject to delays caused by interruption in production based on conditions outside its control. These conditions include:

- o job actions or strikes by employees of suppliers;
- o weather;
- o crop conditions;

-6-

- o transportation interruptions; and
- o natural disasters or other catastrophic events.

TDT's inability to obtain adequate supplies of its food service products as a result of any of the foregoing factors or otherwise, could mean that TDT could not fulfill its obligations to customers, and customers may then turn to other suppliers.

If TDT is unable to develop an easy to use and effective website then TDT's plan to distribute directly to individual consumers will be severely impacted and this will have a material adverse effect upon TDT's business.

The successful development of an easy to use and effective website will be key to the overall success of TDT's plan to distribute our products to individual consumers. It will be critical to clearly communicate our products and services,

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

and provide an easy format for the customer to navigate in the site to quickly find the product they seek. If TDT is unable to develop an easy to use effective web site then TDT's plan to distribute directly to the individual consumers will be severely impacted and this will have a material adverse impact upon TDT's business.

Our Lack of Product Diversification

TDT's business is centered around essentially one product, truffles. This creates a risk to TDT if truffles became less popular to the consumer or if there was some reduction in our access to the supply of truffles, either event would have seriously detrimental effect upon TDT.

-7-

Risks Concerning Our Offering

Unless a public market develops for our common stock, you may not be able to sell your shares.

There has been no public market for our common stock. There can be no assurance, moreover, that an active trading market will ever develop or, if developed, that it will be maintained. Failure to develop or maintain an active trading market could negatively affect the price of our securities, and you may be unable to sell your shares.

If our stock does become publicly traded, we will likely be subject to the penny stock rules.

Broker-dealer practices in connection with transactions in "penny stocks" are regulated by certain rules adopted by the Securities and Exchange Commission. Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the Nasdaq Stock Market provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system). The rules require that a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in connection with the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. In addition, the rules generally require that prior to a transaction in a penny stock, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the liquidity of penny stocks. If our securities become subject to the penny stock rules, investors in the offering may find it more difficult to sell their securities.

We may not qualify for Bulletin Board Inclusion, and therefore you may be unable to sell you shares.

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

We anticipate that, upon completion of this offering, our common stock will be eligible for quotation on the NASD Over-the-Counter Electronic Bulletin Board. If for any reason, however, any of our securities are not eligible for continued quotation on the Bulletin Board or a public trading market does not develop, purchasers of the shares may have difficulty selling their securities should they desire to do so. If we are unable to satisfy the requirements for quotation on the Bulletin Board, any trading in our common stock would be conducted in the over-the-counter market in what are

-8-

commonly referred to as the "pink sheets". As a result, an investor may find it more difficult to dispose of, or to obtain accurate quotations as to the price of, the securities offered hereby. The above-described rules may materially adversely affect the liquidity of the market for our securities.

We are controlled by our founder, president, CEO and chairman of the board, which may result in you having no control in the direction or affairs of TDT.

Our founder, president, CEO and chairman of the board owns approximately 60% of our outstanding common stock. As a result, he has the ability to control our company and direct our affairs and business, including the election of directors and approval of significant corporate transactions. This concentration of ownership may have the effect of delaying, deferring or preventing a change in control of our company and may make some transactions more difficult or impossible without the support of these stockholders. Any of these events could decrease the market price of our common stock.

We Do Not Expect to Pay Dividends.

We do not anticipate paying cash dividends in the foreseeable future.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Prospectus contains certain financial information and statements regarding our operations and financial prospects of a forward-looking nature. Although these statements accurately reflect management's current understanding and beliefs, we caution you that certain important factors may affect our actual results and could cause such results to differ materially from any forward-looking statements which may be deemed to be made in this Prospectus. For this purpose, any statements contained in this Prospectus which are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the generality of the foregoing, words such as, "may", "will", "intend", "expect", "believe", "anticipate", "could", "estimate", "plan" or "continue" or the negative variations of those words or comparable terminology are intended to identify forward-looking statements. There can be no assurance of any kind that such forward-looking information and statements will be reflective in any way of our actual future operations and/or financial results, and any of such information and statements should not be relied upon either in whole or in part in connection with any decision to invest in the shares.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the stockholder's shares offered by this prospectus. All proceeds from the sale of the stockholders' shares will be for the account of the selling shareholders.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Overview

We import and distribute through our wholly owned subsidiary Terre di Toscana, Inc. specialized truffle based food products which includes fresh truffles, truffle oils, truffle pates, truffle creams, and truffle butter. We commenced our operations in September 8, 2000 as Terre di Toscana, Inc. Terre di Toscana, Inc., was acquired by TDT on September 14, 2000.

Plan of Operations

TDT's plan of operations includes building its account base, building its website. TDT plans to further expand sales to restaurants and hotels. This effort will be lead by Mr. Bortolatti. TDT's product line has been reduced from 90 items to 55 items. The remaining 55 items have faster sales, thus increasing inventory turnover, which puts demands on working capital.

During fiscal year 2000, TDT produced approximately \$90,000 in revenues with Truffle oils representing approximately 70% of sales, Truffle sauces approximately 15% of sales, and all other products the balance.

There is little or no seasonal or price impact upon the majority of TDT's products (oils, creams, butters, and sauces) because these are processed foods with a small percentage of the end product comprised of the pure essence of the base product, truffles.

The website was developed primarily by contract labor with TDT staff building the databases and providing design direction at a total development cost of approximately \$6,000. Since this was not a significant outlay, the item was expensed. There have been no sales generated by TDT's website. TDT anticipates sales through the website in December 2001.

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

Within the next twelve months TDT plans to hire two telemarketers and one distribution person to handle Internet sales.

TDT believes that it does not need to raise additional funds during the next twelve months.

The \$55,000 debt to Kaplan Gottbetter & Levenson, LLP, for legal services, will be paid off from proceeds from the private placement offering conducted last winter.

-10-

DIVIDEND POLICY

We have never declared or paid any cash dividends on our common stock. We anticipate that any earnings will be retained for development and expansion of our business and we do not anticipate paying any cash dividends in the foreseeable future. Our board of directors has sole discretion to pay cash dividends based on our financial condition, results of operations, capital requirements, contractual obligations and other relevant factors.

-11-

DESCRIPTION OF BUSINESS

Corporate History

TDT was incorporated under the laws of Nevada on September 8, 2000. Our current operations are conducted through our wholly owned subsidiary Terre di Toscana, Inc., incorporated under the laws of Florida on November 10, 1999. Terre di Toscana Inc. began operations in January, 2000. TDT has had limited operations to date.

On September 14, 2000 TDT acquired all of the outstanding shares of Terre di Toscana, Inc. in exchange for 5,000,000 shares of TDT's common stock issued to Terre di Toscana, Inc.'s sole shareholder Pietro Bortolatti, who is also TDT's president, CEO, secretary, treasurer and Chairman of the Board of Directors.

Overview

TDT is an importer, marketer and distributor of specialized truffle based food products which includes fresh truffles, truffle oils, truffle pates, truffle cremes and truffle butter. TDT's target market includes retailers such as restaurants, specialty food stores, delicatessens, supermarkets, and eventually consumers direct through e-commerce via the Internet. TDT believes that the key to reaching its target market distribution goals and channels requires successful development of distributors such as specialty food brokers and specialty food wholesalers. TDT believes that the key to supporting the distributor network and generating revenues from the consumer market is the successful development and deployment of the website to handle a secure full-service, interactive e-commerce environment.

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

TDT imports products directly from several Italian producers. The Company (through its subsidiary) commenced operations in January of 2000, and is presently focusing its efforts on serving specialty food distributors and restaurants. Also, TDT continues to build its database of potential clients on both a national and an international scale. The Company is presently operating with working capital generated from the gross profits from current sales activities.

TDT markets its products in the specialty food industry. The competitors in the US market are generally traders who buy from distributors, with the exception of big companies such as Urbani USA and Bosco Vivo (both of whom buy directly from the growers). Urbani is the biggest company worldwide in the high-end culinary food market, specifically truffle products.

TDT believes that the quality of its products is at parity with the best quality of similar product lines offered by its competition. In addition, due to lower overhead and cooperative supplier payment terms and minimum quantity requirements, TDT believes that it can offer its products at prices below its competition while

-12-

keeping its inventory (and working capital requirements) at a minimum while still enjoying high gross margins.

TDT currently markets its products primarily in Florida, South Carolina, North Carolina, and California, and also has some sales in Canada, Belgium, Holland and Germany. TDT will focus its efforts with trade accounts first through distributor networks, and continue to develop its e-commerce site to encompass support of this network plus generate revenues directly with consumer market.

Key to TDT's marketing initiatives are pricing, product attributes, management culinary knowledge, and the development of a proprietary database for targeted retail and business-to-business prospects in the category. TDT is committed to offering and delivering high quality products at reasonable prices. The products will be marketed by direct methods: interactive e-Commerce on the Company's website, Telemarketing, printed catalog distribution, direct mail and catalog on CD. Currently TDT's three major sales accounts represent less than 10% of total revenues. TDT receives its products primarily from two suppliers. TDT does not have contracts with its current suppliers. Should TDT lose these suppliers TDT has three alternative sources that it believes can supply sufficient product to meet TDT's needs.

TDT's products are regulated by the FDA and the Department of Agriculture. All TDT's products are approved for distribution throughout the US. Since the Company distributes fresh agricultural products, they are subject to inspections at any time by the government agencies. In the event a tainted product is found, the finding would have a material financial impact on TDT.

Website/ e-Commerce

Key to TDT's marketing strategy is the successful development and launch of the Company's website. The effort is currently under development and may be accessed by addressing www.terreditoscana.com. The website is being developed to serve both the Business-to-Business segment ("B2B") and the Business-to-Consumer

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

segment ("B2C"). We anticipate offering our products on-line by December 2001.

The principal marketing and sales channel for B2B is direct contact with wholesale and distributor authorized buyers. The planned TDT website will serve to enhance these personally developed relationships providing "front office" activities including the ability to order the standard offerings of the Company. In addition to standard fare, trade accounts will have the ability to bid on "live lots" of fresh truffle produce. The website will provide digital photographs of actual fresh truffle offerings to be offered at auction. Due to the nature of the fluctuating market price of fresh truffles and the scarcity of the product in the marketplace, it is perceived this activity will be a significant sales tool generating very strong margins and sales nationwide. Truffles are sized based on familiar indexes, US quarters (coinage), golf balls and tennis balls. TDT will actually photograph lots with the appropriate index item and ship the exact lot represented to the high bidder.

-13-

TDT recently opened an office in Montreal, Canada. This effort is being conducted by Ms. Tiziana Di Rocco, VP of Marketing and director. The Canadian operations will be serviced (warehousing of products and distribution) from the base operation in Miami, Florida.

Employees

The present staff includes four personnel, Mr. Bortolatti, the President, Tiziana DiRocco the Vice President of Marketing, a webmaster, and a clerical distribution person. It is anticipated within the next twelve months that we will hire three additional personnel. The planned additions will include two telemarketers, and an additional distribution person to manage Internet sales. The telemarketing positions will be compensated with a performance based commission in addition to a base wage.

Competition

We believe we are price competitive, with a consistent high product quality. TDT has a customer base throughout the East Coast of the U.S. and Canada, California and Europe. The competitors in the US market are generally traders who buy from distributors, with the exception of big companies such as Urbani USA and Bosco Vivo (both of whom buy directly from the growers). Urbani is the biggest company worldwide in the high-end culinary food market, specifically truffle products. Urbani has offices in New York, Los Angeles, Toronto, Tokyo and Europe.

Intellectual Property

We have no trademark, copyright or patent protection at this time.

Properties

At present, TDT owns no real property. TDT leases approximately 1,100 square feet for its office and distribution needs in Miami, Florida, this lease expires June 2001, and is for \$950.00 per month. TDT leases approximately 700 square

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

feet in Montreal, Canada, this lease expires June 2001 and is for \$500.00 per month.

The plan provides for the grant of options intended to qualify as "incentive stock options", options that are not intended to so qualify or "nonstatutory stock options" and stock appreciation rights. The total number of shares of common stock reserved for issuance under the plan is 1,000,000, subject to adjustment in the event of a stock split, stock dividend, recapitalization or similar capital change, plus an indeterminate number of shares of common stock issuable upon the exercise of "reload options" described below. We have not yet granted any options or stock appreciation rights under the plan.

The plan is presently administered by our board of directors, which selects the eligible persons to whom options shall be granted, determines the number of common shares subject to each option, the exercise price therefor and the periods during which options are exercisable, interprets the provisions of the plan and, subject to certain limitations, may amend the plan. Each option granted under the plan shall be evidenced by a written agreement between us and the optionee.

Options may be granted to our employees (including officers) and directors and certain of our consultants and advisors.

The exercise price for incentive stock options granted under the plan may not be less than the fair market value of the common stock on the date the option is granted, except for options granted to 10% stockholders which must have an exercise price of not less than 110% of the fair market value of the common stock on the date the option is granted. The exercise price for nonstatutory stock options is determined by the board of directors. Incentive stock options granted under the plan have a maximum term of ten years, except for 10% stockholders who are subject to a maximum term of five years. The term of nonstatutory stock options is determined by the board of directors. Options granted under the plan are not transferable, except by will and the laws of descent and distribution.

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

The board of directors may grant options with a reload feature. Optionees granted a reload feature shall receive, contemporaneously with the payment of the option price in common stock, a right to purchase that number of common shares equal to the sum of (i) the number of shares of common stock used to exercise the option, and (ii) with respect to nonstatutory stock options, the number of shares of common stock used to satisfy any tax withholding requirement incident to the exercise of such nonstatutory stock option.

Also, the plan allows the board of directors to award to an optionee for each share of common stock covered by an option, a related alternate stock appreciation right, permitting the optionee to be paid the appreciation on the option in lieu of exercising the option. The amount of payment to which an optionee shall be entitled upon the exercise of each stock appreciation right shall be the amount, if any, by which the fair market value of a share of common stock on the exercise date exceeds the exercise price per share of the option.

Bortolatti in exchange for the transfer from Mr. Bortolatti to TDT all of the outstanding shares of Terre di Toscana, Inc. to TDT. The assets of Terre di Toscana, Inc. included rights in several customer agreements. TDT values the 5,000,000 shares issued to Mr. Bortolatti at par value, \$.0001 per share.

KGL Investments, Ltd. received 30,000 shares of TDT common stock in exchange for \$3,000 worth of legal services rendered by Kaplan Gottbetter & Levenson, LLP, counsel to the Company (the shares were valued at \$.10 per share). Kaplan Gottbetter & Levenson, LLP is the beneficial owner

-17-

of these shares. The legal services did not include the preparation of this prospectus or the prior private placement memorandum.

From November, 2000 through January, 2001 we sold 3,351,000 shares of our common stock at \$.10 per share in a private offering.

David Rector is a director of TDT, he is also a principal of The David Stephens Group. TDT has engaged The David Stephens Group to perform certain management consulting services for which TDT has paid The David Stephens Group \$26,243.70 as of January 31, 2001.

We believe that the terms of the above transactions are commercially reasonable and no less favorable to us than we could have obtained from an unaffiliated third party on an arm's length basis. To the extent we may enter into any agreements with related parties in the future, the board of directors has determined that such agreements must be on similar terms.

INDEMNIFICATION AND LIMITATION OF LIABILITY OF MANAGEMENT

The Nevada General Corporation Law permits provisions in the articles, by-laws or resolutions approved by shareholders which limit liability of directors and officers for breach of fiduciary duty. Our articles limit liability of officers and directors to the full extent permitted by Nevada law. With these exceptions this eliminates personal liability of a director or officer, to TDT or its shareholders, for monetary damages for breach of fiduciary duty. Therefore a director or officer cannot be held liable of damages to TDT or its shareholders for gross negligence or lack of due care in carrying out his fiduciary duties as a director or officer. Nevada law permits indemnification if a director or officer acts in good faith in a manner reasonably believed to be in, or not opposed to, the best interest of the corporation. A director or officer must be indemnified as to any matter in which he defends himself successfully. Indemnification is prohibited as to any matter in which the director or officer is adjudged liable to the corporation.

This will limit your ability as shareholders to hold officers and directors liable and collect monetary damages for breaches of fiduciary duty, and requires us to indemnify officers and directors to the full extent permitted by law. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers, and controlling persons under these provisions or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission, indemnification is against public policy as expressed in the Act and is unenforceable.

We have outstanding 8,381,000 shares of our common stock. These shares will be eligible for sale in the public market, subject to certain volume limitations and the expiration of applicable holding periods under Rule 144 under the Securities Act. In general, under Rule 144 as currently in effect, a person (or persons whose shares are aggregated) who has beneficially owned restricted shares for at least one year (including the holding period of any prior owner an affiliate) would be entitled to sell within any three-month period a number of shares that does not exceed the greater of (1)% of the number of shares of common stock then outstanding or (2) the average weekly trading volume of the common stock during the four calendar weeks preceding the filing of a Form 144 with respect to such sale. Item 24. Indemnification of Directors and Officers.

The General Corporation Law of Nevada provides for the indemnification of the officers, directors and corporate employees and agents of TDT Development, Inc. (the "Registrant") under certain circumstances as follows:

78.7502 DISCRETIONARY AND MANDATORY INDEMNIFICATION OF OFFICERS, DIRECTORS, EMPLOYEES AND AGENTS: GENERAL PROVISIONS.

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

1. A corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, except an action by or in the right of the corporation, by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with the action, suit or proceeding if he acted in good faith and in manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent, does not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and that, with respect to any criminal action or proceeding, he had reasonable cause to believe that his conduct was unlawful.

2. A corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that he is or was a director, officer, employee or agent of the corporation, or is or was serving as the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses, including amounts paid in settlement and attorneys' fees actually and reasonably incurred by him in connection with the defense or settlement of the action or suit if he acted in good faith and in a manner which he reasonably believed to be in or not opposed to the best interest of the corporation. Indemnification may not be made for any claim, issue or matter as to which such a person has been adjudged by a court of competent jurisdiction, after exhaustion all appeals therefrom, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court in which the action or suit was brought or other court of competent jurisdiction determines upon the application that in view of all the circumstances of the case, the person is fairly and reasonably entitled to indemnify for such expenses as the court deems proper.

3. To the extent that director, officer, employee or agent of the corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in subsection 1 and 2, or his defense of any claim, issue or matter therein, the corporation shall indemnify him against expenses, including attorneys' fees, actually and reasonably incurred by him in connection with the defense.

(a) By the stockholders;

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

(b) By the board of directors by majority vote of a quorum consisting of directors who were not parties to the action, suit or proceeding;

(c) If a majority vote of a quorum consisting of directors who were not parties to the action, suite or proceeding so orders, by independent legal counsel in a written opinion; or

(d) If a quorum consisting of directors who were not parties to the action, suit or proceeding cannot be obtained, by independent legal counsel in a written opinion; or

2. The articles of incorporation, the bylaws or an agreement made by the corporation may provide that the expenses of officers and directors incurred in defending a civil or criminal action, suit or proceeding must be paid by the corporation as they are incurred and in advance of the final disposition of the action, suit or proceeding, upon receipt of an undertaking by or on behalf of the director or officer to repay the amount if it is ultimately determined by a court of competent jurisdiction that he is not entitled to be indemnified by the corporation. The provisions of this subsection do not affect any right any right to advancement of expenses to which corporate personnel other than directors or officers may be entitled under any contract or otherwise by law.

3. The indemnification and advancement of expenses authorized in or ordered by a court pursuant to this section:

(a) Does not exclude any other rights to which a person seeking indemnification or advancement of expenses may be entitled under the articles of incorporation or any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, for either an action in his official capacity or an action in another capacity while holding his office, except that indemnification, unless ordered by a court pursuant to NRS 78.7502 or for the advancement of expenses made pursuant to subsection 2, may not be made to or on behalf of any director or officer if a final adjudication establishes that his acts or omissions involved intentional misconduct, fraud or a knowing violation of the law and was material to the cause of action.

3. Any insurance or other financial arrangement made on behalf of a person pursuant to this section may be provided by the corporation or any other person approved by the board of directors, even if all or part of the other person's stock or other securities is owned by the corporation.

4. In the absence of fraud:

10. Indemnification. The Corporation is authorized to provide indemnification of agents for breach of duty to the Corporation and its stockholders through bylaw provisions or through agreements with agents, or both, in excess of the indemnification otherwise permitted by law, subject to any limits on such excess indemnification as set forth therein.

Item 25. Expenses of Issuance and Distribution.

The other expenses payable by the Registrant in connection with the issuance and distribution of the securities being registered are estimated as follows:

Item 26. Recent Sales of Unregistered Securities.

In September, 2000 the Registrant issued 5,000,000 shares of its common stock to its founder and president Pietro Bortolatti in exchange for all of the outstanding shares of Terre di Toscana, Inc.

From November, 2000 to January, 2001 the Registrant issued 3,351,000 shares of its common stock at \$.10 per share. This sale was part of its private placement offering to the individuals and entities listed in selling shareholder section of this registration statement. In October, 2000 the Registrant issued 30,000 shares of its common stock to KGL Investments, Ltd, the beneficial owner of which is Kaplan Gottbetter & Levenson, LLP, counsel to the Registrants in exchange for legal services rendered. These shares were valued at \$.10 per share.

These securities were sold under the exemption from registration provided by Section 4(2) of the Securities Act. Neither the Registrant nor any person acting on its behalf offered or sold the securities by means of any form of general solicitation or general advertising. All purchasers represented in writing that they acquired the securities for their own accounts. A legend was placed on the stock certificates stating that the securities have not been registered under the Securities Act and cannot be sold or otherwise transferred without an effective registration or an exemption therefrom.

Item 28. Undertakings.

The Registrant undertakes:

(1) To file, during any period in which offers or sales are being made, post-effective amendment to this registration statement (the "Registration Statement"):

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933 (the "Securities Act");

(ii) To reflect in the prospectus any facts or events arising after the Effective Date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in this registration statement, including (but not limited to) the addition of an underwriter.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be treated as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to any provisions contained in its Certificate of Incorporation, or by-laws, or otherwise, the Registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Notes to Consolidated Financial Statements

October 31, 2000

(Information for the three months ended January 31, 2001 Unaudited)

1. Nature of Business

TDT Development, Inc. ("TDT") imports and distributes, through its wholly owned subsidiary, Terre di Toscana, Inc. ("Terre"), specialized truffle based food products which include fresh truffles, truffle oils, truffle pates, truffle cremes, and truffle butter. TDT's target market includes retailers such as restaurants, specialty food stores, delicatessens, supermarkets; distributors such as specialty food brokers and wholesalers. The Company plans to sell to consumers directly through e-commerce via the Internet.

TDT's wholly owned subsidiary Terre di Toscana, Inc. was incorporated in Florida, on November 10, 1999. Since its inception to October 31, 2000 Terre has been test-marketing products in the United States. Commencing November 2000 the Company commenced regular sales of its products.

TDT imports products directly from several Italian producers. There are no formal contracts or agreements in place. The U.S. Food and Drug Administration and Department of Agriculture regulate TDT's products. In the event that a faulted product is found, the finding would have a material financial impact on TDT.

2. Basis of Presentation and Consolidation

Terre was formed in November, 1999 and incurred start-up expenses through December 31, 1999. Terre commenced test marketing its products in January 2000. All significant operations have been conducted by Terre.

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

TDT was formed in September 2000 by the sole shareholder of Terre. On September 8, 2000, TDT acquired one hundred percent (2000 shares) of Terre common stock in exchange for 5,000,000 shares of TDT's common stock issued to Terre's sole shareholder, Pietro Bortolatti. Bortolatti, who was TDT's sole shareholder at that time, is also TDT's president, CEO and Chairman of the Board of Directors. Accordingly, this business combination was accounted for at historical cost in a manner similar to a pooling of interests. The consolidated statements of operations, of changes in shareholders' equity and of cash flows include the activities of both companies from the inception of Terre in November 1999 as if Terre had been a wholly owned subsidiary of TDT for all periods presented.

The consolidated financial statements include the accounts of TDT and Terre. All intercompany transactions and balances have been eliminated.

3. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles required management to make estimates and assumptions that affect the reported amounts of assets, liabilities and matters for disclosure at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Accrual Basis

The financial statements have been prepared on the accrual basis of accounting. Revenues are reflected when earned, net of discounts. Expenses are recognized when incurred.

TDT has test marketed its products in the United States and has recognized revenues when the merchandise is shipped to customers. In addition, TDT received brokerage commissions from certain foreign transactions that it arranged.

Development Stage Enterprise

The Company adopted the financial statement principles of a development stage enterprise from its inception and has reported its financial condition and results of operations through October 31, 2000 in accordance with the standards for such an enterprise. The Company discontinued the practice on November 1, 2000 (see Note 12)

Inventory

Inventory consists entirely of finished goods and is stated at the lower of cost (determined on the first in, first out basis) or market.

Fixed Assets

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

Fixed assets, consisting of office furniture, computers and equipment are stated at cost, net of accumulated depreciation. Depreciation is provided using the straight-line method over the estimated useful lives of the assets.

Revenue and Accounts Receivable

Revenue is recognized when goods are shipped to customers. The Company's policy is to replace returned goods, if any, with other merchandise. Anticipated returns and bad debts are considered to be immaterial by management and, accordingly, no provision for them has been provided in the accompanying financial statements.

3. Significant Accounting Policies - continued

Foreign Currency Translation

Transactions with foreign suppliers are translated at the exchange rates then in effect. At the balance sheet date, accounts payable denominated in foreign currency are adjusted to reflect foreign currency exchange rates at that date. Any resulting gain or loss is reflected in the determination of current net income (loss). The Company has no foreign customers.

Financial Instruments

Current assets and liabilities are reported at their face amount which, because of their short-term nature, approximates fair value.

Comprehensive Income

There is no difference in the Company's historical net losses as reported and comprehensive net loss.

Dividends

The Board of Directors has sole discretion to pay cash dividends based on the Company's financial condition, results of operations, capital requirements, contractual obligations and other relevant factors. TDT has not paid any dividends on common stock since inception.

Income Taxes

TDT accounts for income taxes using the asset and liability method. Under that method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities. Deferred taxes are measured by applying currently enacted tax laws. Valuation allowances related to deferred tax assets are established when, in the opinion of management, it is more likely than not that some or all of the benefits of deferred tax assets will not be realized.

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

4. Shareholders' Equity

In September 2000, TDT issued 5,000,000 shares of common stock to the Company's President, CEO, Secretary and Chairman of the Board, Mr. Pietro Bortolatti, in exchange of all of Terre di Toscana's outstanding shares of common stock. The exchange was treated as a reorganization of entities under common control, and was accounted for at historical cost in a manner similar to pooling of interests.

In addition, 30,000 shares of TDT's common stock were issued to Kaplan, Gottbetter & Levenson, LLP., TDT's legal representative, in exchange for legal services valued at \$3,000.

Holder of common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders and do not have cumulative voting rights.

5. Related Party Transactions

TDT issued 5,000,000 shares of its common stock to Pietro Bortolatti, TDT's President, Chief Executive Officer and Director in exchange for the transfer from Mr. Bortolatti to TDT of all of the outstanding shares of Terre. The exchange was treated as a reorganization of entities under common control, and was accounted for at historical cost in a manner similar to pooling of interests.

TDT also issued 30,000 shares of its common stock to Kaplan, Gottbetter & Levenson, LLP., the legal counsel of the Company in exchange for legal services valued at \$3,000 (\$.10 per share).

In addition, Mr. Bortolatti provided services to the Company during 2000 valued at \$9,000, for which he was not and will not be paid. The value of those services has been charged to expense and credited to additional paid-in capital.

David Rector is a director of TDT and is also a principal of The David Stevens Group. TDT has engaged The David Stevens Group to perform certain management consulting services, for which Terre paid \$16,244 during the period ended October 31, 2000.

6. Income Taxes

The companies have consolidated net operating losses ("NOL") for tax purposes at October 31, 2000 of approximately \$28,000. The differences between financial reporting and tax bases of assets and liabilities are not significant.

At a statutory tax rate of fifteen percent, the future tax benefit of the NOL would be approximately \$4,200. However, this has been reduced by a 100% valuation allowance because, in the opinion of management, it is more likely than not based on available information that the benefit will not

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

be realized.

7. Foreign Currency Translation

For the period November 11, 1999 to October 31, 2000 the Company's gain on payables denominated in foreign currencies was \$651.

8. Stock Options

TDT adopted its 2000 Stock Option Plan in September, 2000. The plan provides for the grant of options intended to qualify as incentive stock options; options not intended to so qualify; and nonstatutory stock options and stock appreciation rights. The total number of shares of common stock reserved for issuance under the plan is 1,000,000 subject to adjustment in the event of a stock split, stock dividend, recapitalization or similar capital change, plus an indeterminate number of shares of common stock issuable upon the exercise of reload options. TDT has not yet granted any options or stock appreciation rights under the plan.

(A Development Stage Enterprise)

Notes to Consolidated Financial Statements

October 31, 2000

(Information for the three months ended January 31, 2001 Unaudited)

8. Stock Options - continued

The plan is presently administered by TDT's Board of Directors, which selects the eligible persons to whom options shall be granted, determines the number of common shares subject to each option, the exercise price thereof and the period during which options are exercisable, interprets the provisions of the plan and, subject to certain limitations, may amend the plan.

Options may be granted to TDT's employees (including officers) and directors and certain of TDT's consultants and advisors.

9. Services Compensation

Kaplan, Gottbetter & Levenson, LLP (KGL) rendered legal services at a fair value of \$3,000. The \$3,000 was paid through the issuance of 30,000 shares of TDT's common stock valued at \$.10 per share.

10. Deferred Offering Expenses

TDT has incurred costs \$55,000 to Kaplan, Gottbetter & Levenson, LLP for the preparation of TDT's Private Offering Memorandum dated November 2, 2000.

11. Segment Information

The Company has adopted SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information." Certain information is disclosed, per SFAS No. 131, based on TDT's geographic revenues. In addition to its regular operations in the United States, TDT brokers deals for its suppliers in Italy for which the Company receives commissions. For the period ended October 31, 2000 TDT received \$33,000 in commissions from

Edgar Filing: TDT DEVELOPMENT INC - Form SB-2/A

Italy. The Company has no foreign sales.

12. Concentrations

More than half of the Company's inventory purchases have been made from two suppliers.

13. Notes Payable

On May 15, 2000 Terre borrowed \$30,000 and executed an 18% promissory note due May 15, 2001. The face value of the note was converted into 300,000 shares of TDT common stock on December 29, 2000. Accrued interest of \$3,446 on the conversion date remains a liability of the Company.

(Information for the three months ended January 31, 2001 Unaudited)

14. Information for the three months ended January 31, 2001 (Unaudited)

The interim financial information as of January 31, 2001 and for the three months ended January 31, 2001 and the period November 31, 1999 to January 31, 2000 is unaudited but includes all adjustments that TDT management considers necessary for a fair presentation of its consolidated financial position at that date and its consolidated results of operations and cash flows for those periods. Operating results for the three months ended January 31, 2001 are not necessarily indicative of results that may be expected for any future periods.

Based on achieving significant revenue during its first year of operations, management has determined that the Company no longer meets the definition of a development stage enterprise effective November 1, 2000.

In November 2000, TDT's Board of Directors authorized a private placement offering of TDT's common stock to a limited number of sophisticated investors at a price of \$.10 per share. In January 2001, TDT completed the private placement of 3,351,000 shares of its common stock, resulting in cash proceeds of \$335,100. Direct costs incurred in conjunction with this placement were \$55,000.

On November 15, 2000 Terre borrowed \$40,000 and executed an 18% promissory note due February 15, 2001. On December 29, 2000 the face amount of the note was paid by a third party in consideration of which TDT issued 400,000 shares of common stock. Accrued interest of \$877 on the conversion date remains a liability of the Company.

David Rector is a director of TDT and is also a principal of The David Stevens Group. TDT has engaged The David Stevens Group to perform certain management consulting services, for which Terre has paid \$10,000 during the three months ended January 31, 2001.
