- § The Committee approved a provision stating that the Company's Chief Executive Officer will be eligible to participate in all benefit programs made available by the Company to its most senior officers.

On August 19, 2005, subject to shareholder approval, the Committee also approved an amendment to the Company's 2003 Stock Option Plan to limit the maximum number of shares of stock issuable in respect of stock grants that may be awarded to any participant in any calendar year. The Committee directed that such amendment be submitted for approval by the Company's shareholders in accordance with to Section 162(m) of the Internal Revenue Code of 1986, as amended.

On August 19, 2005, the Committee also approved the Company's 2005 Executive Cash Bonus Plan (the "Bonus Plan") and directed that the Bonus Plan be submitted for approval by the Company's shareholders in accordance with Section 162(m) of the Internal Revenue Code of 1986, as amended. A summary of the material provisions of the Bonus Plan is as follows:

§ *Eligibility.* For the remainder of 2005 (the "Initial Period") and for each year after 2005, the participants in the Bonus Plan will be those key officers and employees who are designated by the Committee to participate in the Bonus Plan from time to time.

§ *Business criteria upon which performance goals will be based.* Specific performance goals for participating executives will be selected from among the business criteria described below. After the Initial Period, these goals must be established for each participant by the Committee prior to the 91st day of each performance period, but no later than the expiration of the first twenty-five percent (25%) of a performance period having a duration of less than one year for determining the participant's business criteria target. Under the Bonus Plan, the Committee must set one or more performance goals for each participant for the Initial Period and each subsequent year, or portion thereof, using one or more such goals established by the Committee, which will be based on the attainment of specified levels of one or any variation or combination of the following: revenues (including, without limitation, measures such as revenue per mile (loaded or total) or revenue per tractor), net revenues, fuel surcharges, accounts receivable collection or days sales outstanding, measures based on the Company's "economic engine" identified from time-to-time in the Company's strategic plan, cost reductions and savings (or limits on cost increases), safety and claims (including, without limitation, measures such as accidents per million miles and number of significant accidents), operating income, operating ratio, income before taxes, net income, earnings before interest and taxes (EBIT), earnings before interest, taxes, depreciation, and amortization (EBITDA), adjusted net income, earnings per share, adjusted earnings per share, stock price, working capital measures, return on assets, return on revenues, debt-to-equity or debt-to-capitalization (in each case with or without lease adjustment), productivity and efficiency measures (including, without limitation, measures such as driver turnover, trailer to tractor ratio, and tractor to non-driver ratio), cash position, return on shareholders' equity, return on invested capital, cash flow measures (including, without limitation, free cash flow), market share, shareholder return, economic value added, number of operations centers, number of new operations centers, or completion of acquisitions (either with or without specified size). In addition, the Committee may establish, as an additional performance measure, the attainment by a participant in the Bonus Plan of one or more personal objectives and/or goals that the Committee deems appropriate, including but not limited to implementation of Company policies, negotiation of significant corporate transactions, development of long-term business goals or strategic plans for the Company, or the exercise of specific areas of managerial responsibility. The Committee will not have discretion to increase bonus amounts over the level determined by application of the performance goal formula(s) and will be required to certify, prior to payment, that the performance goals underlying the bonus payments have been satisfied. The performance goals set by the Committee may be expressed on an absolute and/or relative basis, and may include comparisons with the past performance of the Company (including one or more divisions thereof, if any) and/or the current or past performance of other companies.

§ *Benefits under the Cash Bonus Plan.* In general, the benefits under the Bonus Plan will consist of a cash bonus payable to participants provided the performance goals established by the Committee are met (and, if met, the extent to which such goals are met.) The bonus opportunity for each participant under the Bonus Plan each performance period will be related by a specific formula to the participant's base salary at the start of such performance period, provided that the maximum bonus paid under the Bonus Plan to any individual in respect of any year will not exceed \$2 million.

§ *Administration of the Cash Bonus Plan.* The Bonus Plan will be administered by the Committee, which at all times will be composed solely of at least two directors who are "outside directors" within the meaning of Section 162(m). All determinations of the Committee with respect to the Cash Bonus Plan will be in its discretion and be binding. The expenses of administering the Cash Bonus Plan will be borne by the Company.

Finally, on August 19, 2005, the Committee established performance-based bonus criteria for 2005 for certain of the Company's officers pursuant to the Bonus Plan. Among the bonus criteria established were the following:
