EXPLANATORY NOTE

This Amendment No. 1 to American Ecology Corporation's Form 10-K for the year ended December 31, 2004 is being filed to report the results of Management's Assessment of Internal Control over Financial Reporting as well as the results of the Company's Independent Registered Public Accounting Firm's audit of Internal Controls over Financial Reporting.

Item	15.	Exhibits, Financial Statement Schedules.

3

ITEM 9A. CONTROLS AND PROCEDURES

As of the end of the quarter prior to the filing of this report, Company management, under the direction of the Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-14 of the Securities Exchange Act of 1934 (Exchange Act). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer believe that the Company's disclosure controls and procedures are effective in alerting them timely to material information required to be disclosed in the Company's Exchange Act filings.

During the year ending December 31, 2004, there were improvements to the Company's systems used to record and summarize transactions. The improvements have enabled the Company to identify and modify internal controls, operational procedures and environmental compliance programs.

MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROLS OVER FINANCIAL REPORTING. Management is responsible for and maintains a system of internal controls over financial reporting that is designed to provide reasonable assurance that its records and filings accurately reflect the transactions engaged in Section 404 of Sarbanes-Oxley Act of 2002 and related rules issued by the Securities and Exchange Commission require management to issue a report on its internal controls over financial reporting.

Management has conducted an assessment of its internal control over financial reporting utilizing the criteria set forth by the Committee of Sponsoring Organizations ("COSO") of the Treadway Commission in Internal Control - Integrated Framework and concluded that, as of December 31, 2004, the internal controls over financial reporting were operating effectively.

The Company's independent registered public accounting firm, Moss Adams LLP, has audited management's assessment of the effectiveness of internal control over financial reporting and has expressed unqualified opinions on management's assessment and on the effectiveness of the Company's internal control over financial reporting as of December 31, 2004.

Edgar Filing: AMERICAN ECOLOGY CORP - Form 10-K/A

While both Management and the Company's independent registered public accounting firm have concluded that the Company's internal control over financial reporting were effective at December 31, 2004, there were two areas, one involving revenue, and one involving financial reporting, that were identified by the Company's independent registered public accounting firm as containing "significant deficiencies," as defined by Public Company Accounting Oversight Board Auditing Standard No. 2 ("AS 2"). As required by AS 2, the Company's independent registered public accounting firm reported these significant deficiencies to the Company's Audit Committee.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors
American Ecology Corporation

We have audited management's assessment, included in the accompanying Management's Report on Internal Control over Financial Reporting that American Ecology Corporation maintained effective internal control over financial reporting as of December 31, 2004, based on criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control - Integrated Framework. American Ecology Corporation's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

4

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Edgar Filing: AMERICAN ECOLOGY CORP - Form 10-K/A

In our opinion, management's assessment that American Ecology Corporation maintained effective internal control over financial reporting as of December 31, 2004, is fairly stated, in all material respects, based on criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control - Integrated Framework. Also in our opinion, American Ecology Corporation maintained, in all material respects, effective internal control over financial reporting as of December 31, 2004, based on criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control - Integrated Framework.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements of American Ecology Corporation as of and for the year ended December 31, 2004, and our report dated January 28, 2005 expressed an unqualified opinion on those financial statements and financial statement schedule.
