State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

inTEST Corporation (the "Company") is unable to file its Form 10-Q for the period ended March 31, 2009 within the prescribed period of time because the Company requires additional time for the collection, compilation and analysis of information necessary to complete its financial statements for that period and for the other disclosures required to be included in the Form 10-Q. The delay in filing is due to the fact that the Company's staff and management have been engaged in ongoing evaluations of its several business segments and overall cash requirements. In addition, the Company's staff and management have been working to complete the Company's Form 10-K for the year ended December 31, 2008.

The deterioration in the global economy that occurred in the second half of 2008 and continued into 2009, has had a significant negative impact on the demand for automatic test equipment. As a result of this, the Company has experienced a significant decline in its revenues for the first quarter of 2009 compared to the comparable prior period. Net revenues for the quarter ended March 31, 2009 were \$4.4 million, compared to \$11.3 million in the first quarter of 2008. Our net loss for the quarter ended March 31, 2009 was \$(2.8) million or \$(0.28) per diluted share, compared to a net loss of \$(1.3) million or \$(0.14) per diluted share in the first quarter of 2008. The net loss for the first quarter of 2009 included restructuring charges of \$(35,000) or \$(0.00) per diluted share; there were no comparable charges in the first quarter of 2008. The restructuring charges recorded during the first quarter of 2009 were incurred by our Temperature Management product segment and represented one-time termination benefits paid in connection with workforce reductions in this segment. Cash and cash equivalents at March 31, 2009 were \$5.2 million, down from \$7.1 million at December 31, 2008.
