Supplemental Schedule of Non-cash Investing and Financing Activities:

For the period ended March 31, 2002:

On February 28, 2002, the Company issued 13,793,103 shares of common stock to its preferred stockholders as a payment for preferred stock dividends payable totaling \$200,000.

During the period, the Company accrued dividends on preferred stock of \$100,000 and \$14,151 of accretion on preferred stock.

For the period ended March 31, 2001:

During the period, the Company accrued dividends on preferred stock of \$100,000 and \$14,151 of accretion on preferred stock.

The accompanying notes are an integral part of these consolidated financial statements.

Edgar Filing: CROWN ENERGY CORP - Form 10-Q

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying consolidated financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and changes in stockholders' equity and cash flows at March 31, 2002 and for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2001 Annual Report on Form 10-K. The results of operations for the period ended March 31, 2002 are not necessarily indicative of the operating results for the full year.

Summary of Disputes - The Company and its joint venture partner in Crown Asphalt Distribution, L.L.C. ("Crown Distribution") and Crown Asphalt Ridge, L.L.C. ("Crown Ridge"), MCNIC Pipeline and Processing Company ("MCNIC"), executed a Settlement Agreement ("the Settlement Agreement") March 8, 2002. The Settlement Agreement is discussed in detail in the Company's December 31, 2001 Annual Report on Form 10-K. On April 30, 2002 the Company paid the amount described in its Annual Report to extend the option period. There can be no assurance that the Company will be able to obtain the requisite financing to satisfy the Settlement Agreement on terms which are acceptable to the Company. Interested persons should note the significant and material risks facing the Company, and the negative impacts the Company would experience in the event the Company does not or is not able to exercise the settlement option.

Organization - Crown Energy Corporation ("CEC") and its wholly-owned subsidiaries, Crown Asphalt Corporation ("CAC") and Crown Asphalt Products Company ("Capco") and Crown Distribution, an entity in which Capco owns a majority interest (collectively referred to as the "Company"), are engaged in the mining, production, and selling of asphalt products.

Majority Owned Subsidiaries - Capco is the majority-owner of Crown Distribution, Crown Distribution is a joint venture formed on July 2, 1998 between Capco and MCNIC for the purpose of acquiring certain assets of Petro Source Asphalt Company ("Petro Source"). Capco owns 50.01% and MCNIC owns 49.99% of Crown Distribution. Capco is the operator of Crown Distribution. Crown Distribution owns a majority interest in Crown Asphalt Terminal, L.L.C. ("CAT, LLC"). CAT, LLC is a joint venture formed on June 16, 1998 between Capco and Foreland Asphalt Corporation ("Foreland"), which owns an asphalt terminal and storage facility. Crown Distribution owns 66.67% and Foreland owns 33.33% of CAT, LLC.

Principles of Consolidation - The consolidated financial statements include the accounts of the Company and its wholly or majority-owned subsidiaries. All significant inter-company transactions have been eliminated in consolidation.

NOTE 2 - WORKING CAPITAL CREDIT FACILITY

As described in detail in the Company's Annual Report on Form 10-K for the year ended December 31, 2000, MCNIC, pursuant to its rights granted under the Crown Distribution Operating Agreement, elected to loan Crown Distribution amounts to cover its working capital requirements in lieu of it obtaining a line of credit from a third party financial institution. As of March 31, 2002, MCNIC had loaned Crown Distribution approximately

Edgar Filing: CROWN ENERGY CORP - Form 10-Q

\$14,935,222. Pursuant to a decision rendered in final arbitration it was concluded that all of the foregoing principal amounts, together with accrued interest of \$5,343,655 as of March 31, 2002 are now due and payable. A judgment for this amount was entered in favor of MCNIC against Crown Distribution which is secured by the majority of Crown Distribution's assets. As noted elsewhere, significant and materially adverse impacts on the Company would result from MCNIC's foreclosure on Crown Distribution's assets.

8

CROWN ENERGY CORPORATION NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - CAPITAL TRANSACTIONS

Preferred Stock - The Company is authorized to issue 1,000,000 preferred shares, par value \$.005 per share. The Company issued and has outstanding 500,000 shares of its Series A Cumulative Convertible Preferred Stock ("Series A Preferred"). Each share of Series A Preferred is convertible at the option of its holder, at any time, into 8.57 shares of common stock of the Company. Dividends accrue on the outstanding Series A Preferred at the rate of 8% per annum and may be paid through cash or common shares of the Company at the option of the holder. Subject to the holder's right to convert the Series A Preferred, the Company may redeem the Series A Preferred at any time from the date on which it is issued at a percentage of the Series A Preferred's stated value of \$10 per share; 130% of stated value if redemption occurs within thirty-six months of the date of issuance, 115% of stated value if redemption occurs between thirty-six and forty-eight months after the date of issuance, 110% of stated value if redemption occurs between forty-eight and sixty months after the date of issuance, and 100% if redemption occurs thereafter. The holder of the Series A Preferred may also require the Company to redeem the Series A Preferred after the eighth anniversary of the Series A Preferred's issuance. The holders of the Series A Preferred shall have the right, but shall not be obligated, to appoint 20% of the Company's Board of Directors. The Company may not alter the rights and preferences of the Series A Preferred, authorize any security having liquidation preference, redemption, voting or dividend rights senior to the Series A Preferred, increase the number of Series A Preferred, reclassify its securities or enter into specified extraordinary events without obtaining written consent or an affirmative vote of at least 75% of the holders of the outstanding shares of the Series A Preferred stock. All voting rights of the Series A Preferred expire upon the issuance by the Company of its notice to redeem such shares. The shares of common stock issuable upon conversion of the Series A Preferred are subject to adjustment upon the issuance of additional shares of the Company's common stock resulting from stock splits, share dividends, and other similar events as well as upon the issuance of additional shares or options which are issued in connection with the Company's equity investment or as compensation to any employee, director, consultant, or other service provider of the Company or any subsidiary, other than options to acquire up to 5% of the Company's common stock at or less than fair market value. In conjunction with the issuance of the preferred stock described above, the Company issued a warrant to the holders of the preferred stock. The fair value of the warrant at the date of issuance was estimated to be \$283,019 and was recorded to additional paid-in capital and as a reduction to the stated value of the preferred stock. The reduction in preferred stock is being accreted over the five-year period from the date of issuance to the earliest exercise date of

Edgar Filing: CROWN ENERGY CORP - Form 10-Q

the warrant. Upon the fifth anniversary of the issuance of the preferred stock, the warrant becomes exercisable, at \$.002 per share, into the number of common shares of the Company equal to (a) \$5,000,000 plus the product of (i) \$5,000,000 multiplied by (ii) 39% (internal rate of return) multiplied by (iii) 5 years (\$14,750,000), minus (b) the sum of (i) all dividends and other distributions paid by the Company on the preferred stock or on the common stock received upon conversion of the preferred stock plus (ii) the greater of the proceeds from the sale of any common stock received by the holder upon the conversion of the preferred stock prior to the fifth anniversary date or the Terminal Value (as defined) of such common stock sold before the fifth anniversary plus (iii) the terminal value of the preferred stock and common stock received upon conversion of the preferred stock then held, divided by (c) the fair market value of the Company's common stock on a weighted average basis for the 90 days immediately preceding the fifth anniversary date of the issuance of the preferred stock. Terminal Value is defined as the sum of (i) the shares of common stock into which the preferred stock then held is convertible, plus (ii) shares of common stock received upon conversion of preferred stock, multiplied by the fair market value of the Company's common stock on a weighted average basis for the 90 days immediately preceding the fifth anniversary date of the issuance of the preferred stock. The warrants will expire in 2007. As disclosed in the Company's Annual Report for the year ended December 31, 2001, the Series A Preferred Stock was purchased in November 2001 by Manhattan Goose, L.L.C. ("Manhattan Goose"), an entity in which Messrs. Jay Mealey and Andrew W. Buffmire own interests. Mr. Mealey is Chief Executive Officer and a director of the Company. Mr. Buffmire is a director of the Company. Also, as disclosed in the Annual Report, Manhattan Goose was issued \$200,000 of accrued dividends in the form of share dividends amounting to 13,793,103 shares of common stock.

9

CROWN ENERGY CORPORATION
NOTES TO UNAUDITED CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

NOTE 6 - LOSS PER SHARE (continued)

	2002		2001
	Loss	Per Share	Loss
Weighted average common shares outstanding - basic and diluted	18,386,539 =====		13,635,581 =====

The Company had at March 31, 2002 and December 31, 2001, incremental options and warrants to purchase, computed under the treasury stock method, 3,163,148 shares of common stock that were not included in the computation of diluted earnings (loss) per share because their effect was anti-dilutive. The Company also has preferred stock outstanding at March 31, 2002 and December 31, 2001 which is convertible into approximately 4,300,000 shares of common stock that was not included in the computation of diluted earnings per share as its effect was anti-dilutive. Accordingly, diluted earnings per share does not differ from basic earnings.

11

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of the Company's financial condition,

Edgar Filing: CROWN ENERGY CORP - Form 10-Q

results of operations and related matters includes a number of forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements include, by way of illustration and not limitation, statements containing the words "anticipates", "believes", "expects", "intends", "future" and words of similar import which express, either directly or by implication, management's beliefs, expectations or intentions regarding the Company's future performance or future events or trends which may affect the Company or its results of operations.

Forward-looking statements are subject to known and unknown risks, uncertainties and other factors, including but not limited to changes in economic conditions generally or with respect to the Company's asphalt products market in particular, new or increased governmental regulation, increased competition, shortages in labor or materials, delays or other difficulties in shipping or transporting the Company's products, continued or additional technical or operational uncertainties and difficulties at the facility of Crown Asphalt Ridge, L.L.C. ("Crown Ridge"), difficulties in integrating the Company's recent joint venture and acquisition related businesses and other similar risks inherent in the Company's operations or in business operations generally. Any such risks or uncertainties, either alone or in combination with other factors, may cause the actual results, performance or achievements of the Company to differ materially from its anticipated future results, performance or achievements (which may be expressed or implied by such forward looking statements). Consequently, the following management's discussion and analysis, including all forward-looking statements contained therein, is qualified and limited by the foregoing cautionary factors. Interested persons are advised to consider all forward-looking statements within the context of such cautionary factors.

Liquidity and Capital Resources

On March 31, 2002, the Company had cash and other current assets of \$4,460,114 as compared to cash and other current assets of \$5,502,842 at December 31, 2001. The decrease of \$1,042,728 was generally due to a reduction in cash, cash equivalents and accounts receivable. It is generally anticipated that the first quarter of the year will result in a draw of working capital. This is expected because the weather in our service area generally will not allow for asphalt distribution. The Company's wholly owned subsidiary, Capco, is the majority owner of Crown Distribution, and also conducts asphalt distribution independent of Crown Distribution. Together Capco and Crown Distribution accounted for most of the companies cash and other current assets. As of March 31, 2002, Capco and Crown Distribution had cash and other current assets of approximately \$4,318,590, consisting primarily of \$1,117,826 in cash, \$1,776,247 in inventory and \$1,087,734 in accounts receivable, excluding related party balances. The Company's business is capital intensive and requires a working capital credit facility to operate efficiently. The Company has not had such a credit facility since 1999, which has resulted in lowered profitability. Until 1999, MCNIC provided loans to Crown Distribution for inventory purchases and general working capital requirements. As of March 31, 2002, those loans had a principal balance of \$14,935,222.

As previously disclosed in the Company's public filings, the Company and MCNIC and certain of its affiliated corporations and officers have been engaged in litigation and/or arbitration concerning the collection of MCNIC's loans to the Company and other matters since March of 2000. As previously disclosed in the Company's Annual Report for the year ended December 31, 2001, the Company received an adverse result October 2001 in binding arbitration where Crown Distribution was found to owe MCNIC the amount of \$14,953,222 plus accrued interest (the "Damages Award") and the Company and its subsidiaries were found to owe \$2,609,519 (the "Fee Award").

Edgar Filing: CROWN ENERGY CORP - Form 10-Q

Crown Distribution also owed MCNIC an additional \$5,325,723 at March 31, 2002, with respect to the Preferential Capital Contribution that funded Crown Distribution's acquisition of the assets of PSAC. See Part II Item 1. Legal Proceedings. The Preferential Capital Contribution requires payment solely from 50% of the cash flow from Crown Distribution's operations until repayment of the face amount plus a 15% rate of return.

12

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

On March 8, 2002, the Company and MCNIC entered into an agreement ("Settlement Agreement") in which the execution of the Damage Award judgment and the proceedings to confirm the Fee Award in the Third Judicial Court, Salt Lake County, Utah were both stayed. The terms of the Settlement Agreement also provide that the Company will have the option to purchase all of MCNIC's interest in Crown Distribution by the payment of certain amounts on or before September 30, 2002, and that the stay of the execution of the Damage Award judgment and the proceeding relating to the Fee Award will continue as long as the option to purchase remains valid. After April 30, 2002, the Company is required to pay \$100,000 each month to renew the option for 30 days. The payment for the first extension has been made. Upon execution of the option to purchase and closing by the Company, both MCNIC and the Company will mutually release the other party from and against all claims, obligations and liabilities (including the Damage Award, Fee Award and Preferential Capital Contribution). See Part II Item 1. Legal Proceedings. The Company will be required to raise substantial additional capital to extend and to exercise the option to purchase MCNIC's interest in Crown Distribution. This may require the Company to sell all or part of its assets to finance the capital requirements. There is no assurance that the Company will be able to raise the necessary capital or that the Company will be able to complete the purchase of MCNIC's interest. This could result in the foreclosure by MCNIC of substantially all of the assets of Crown Distribution. Although the Company would vigorously defend against confirmation of the Fee Award against Crown, Capco and CAC, there can be no assurance that the Company would prevail due to the inherent risks of litigation. If MCNIC were to prevail and receive a joint and several judgment for the Fee Award, substantially all of the remaining assets of the Company would be at risk of loss to satisfy such a judgment. This would place the Company at serious risk of insolvency and interested parties are encouraged to note the significant risk of complete loss.

Crown Distribution has continued to accrue interest expense on the loans owed to MCNIC and Preferred Contributions for its asphalt distribution business. For the quarter ended March 31, 2002, \$656,233 of interest expense has been recorded. If the Company is able to complete the purchase of MCNIC's interest in Crown Distribution this amount would no longer be an expense to the Company.

As part of the Settlement Agreement, the Company assigned to MCNIC all of its interest in Crown Ridge. In return the Company received: (i) the assignment to CAC of a one percent (1%) non-cost bearing overriding royalty interest in the "A" tract at Asphalt Ridge; (ii) the assignment to CAC of a three percent (3%) non-cost bearing overriding royalty interest in Crown Ridge's other properties at Asphalt Ridge; (iii) the elimination of the promissory note from CAC to MCNIC; and (iv) the payment by MCNIC of the MK judgment and indemnification of the Company against the MK judgment. The Company will have no further costs in Crown Ridge. See Item 3. Legal Proceedings.

The Company remains open to other asphalt related business opportunities to complement its existing asphalt distribution capabilities. There can be no assurance that the Company can obtain additional capital financing required to

Edgar Filing: CROWN ENERGY CORP - Form 10-Q

finance such transactions on acceptable terms and conditions.

The Company has a portion of its accounts receivable subject to the risks and uncertainties of litigation (see Part II Item 1. Legal Proceedings) and subject to related collection risks. The Company is seeking other ways to finance its working capital requirements, but there can be no assurance that such working capital financing can be secured by the Company. In the event that the Company is unable to collect its current accounts receivables, or the Company is unable to secure the necessary working capital line of credit for its operations from third party sources, or if the Company's operating losses and working capital deficits continue, or if the Company is unable to recoup the losses, the Company may not have sufficient capital to operate through 2002.

13

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2002 vs. 2001

Total revenue increased from \$283,253 for the period ended March 31, 2001 to \$468,321 for the period ended March 31, 2002, an increase of \$185,068. Cost of sales also increased from \$1,075,897 for the period ended March 31, 2001 to \$1,312,300 for the period ended March 31, 2002, an increase of \$236,403. The increase in revenues was primarily due to an increase in sales volume of approximately 1500 tons resulting from a sales contract with an early season start. The increase in cost of sales was primarily the result of the increased sales volume and the applicable facility operating expenses to process those tons for sale. Generally, the asphalt distribution operations are seasonal and the Company does not expect significant revenues during this period. Company management expects that the asphalt terminal distribution operations will be the Company's primary means of future growth.

General and administrative expenses decreased from \$746,423 for the period ended March 31, 2001 to \$622,902 for the period ended March 31, 2002, a decrease of \$123,521. The decrease is primarily due to decreased legal expenses.

Interest and other income/expenses increased from net other expense of \$333,419 for the period ended March 31, 2001 to net other expenses of \$770,269 for the period ended March 31, 2002, a increase of \$436,850. The 2002 total was comprised of interest costs related to the Company's Credit Facility and Preferred Contribution for its asphalt distribution business of \$656,233, and other interest of \$114,036. The \$656,233 of interest costs related to the Company's Credit Facility and Preferred Contributions will be reversed if the Company is able to complete the purchase of MCNIC's interest in Crown Distribution.

Minority interest of \$8,367 represents Foreland's approximate 33% interest in the loss of CAT, LLC.

14

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company does not believe it is subject to the material risks of loss related to certain market risks, such as interest rate risks, foreign currency

Edgar Filing: CROWN ENERGY CORP - Form 10-Q

exchange rate risks or similar risks, and therefore the Company does not engage in transactions, such as hedging or similar transactions in derivative financial instruments, intended to reduce its exposure to such risks. However, the Company is subject to general market fluctuations related to the purchase of its basestock asphalt and may suffer reduced operating margins to the extent its increased costs are not passed through to its customers. Such prices generally fluctuate with the price of crude oil. The Company is prevented in certain contracts with MCNIC from utilizing any hedging strategies to minimize any market price changes. The Company believes the inability to protect itself from market fluctuations may negatively impact its profit margins.

The Company is also subject to certain price escalation and de-escalation clauses in its asphalt distribution sales contracts. The Company supplies asphalt to projects in certain states where regulations provide for escalation and de-escalation of the price for such asphalt relative to the price difference from the time the project is awarded to the successful bidding company and the time the project is completed. The Company includes such de-escalation risk into its bid process and does not believe it has material exposure to risk resulting from these regulations.

15

PART II - OTHER INFORMATION

ITEM 1. Legal Proceedings

In late July and August, 2001, the Company participated in a binding arbitration proceeding (the "Arbitration") in Salt Lake City, Utah against MCNIC, its related entities and certain of their officers. The Arbitration addressed all claims previously asserted between the parties either in the Third Judicial District Court of Salt Lake County in a proceeding entitled MCNIC Pipeline & Processing Company v. Crown Asphalt Distribution Civil No. 00904867 (the "State Action") and the proceeding filed in the United States District Court for the District of Utah Central Division entitled Crown Energy Corporation, et al. v. MCN Energy Group, Inc. et al., Civil No. 2CV-0583ST (the "Federal Action"). In summary, in the State Action, MCNIC alleged that funds previously advanced by it to Crown Distribution in an amount in excess of \$14 million, plus interest, were immediately due and payable. MCNIC also sought the appointment of a receiver for Crown Distribution's assets and sought to foreclose on security interests in the assets of Crown Distribution.

In contrast, the Company asserted that the funds previously advanced to Crown Distribution by MCNIC were part of a revolving credit facility which was not due and payable at that time and from which Crown Distribution should be able to make additional draws. Further, the Company sought recovery against MCNIC, its related entities and certain of its officers under other causes of action, including breach of fiduciary duties, economic duress, breach of implied covenants of good faith and fair dealing, breach of contracts and intentional interference with business relations.

On October 31, 2001, the Arbitrator issued a damage award (the "Damage Award") in which he held that MCNIC's loans were due and payable with interest accruing on such loans from 8% to 18%, depending upon the particular loan involved. The decision also failed to find for the Company on its claims against MCNIC, its related entities and officers. The Damage Award was subsequently confirmed by the Third Judicial District Court of Salt Lake County, State of Utah on February 7, 2002. The amount of the Damage Award as of March 29, 2002, is \$20,266,822.71, with interest accruing daily in the amount of \$5,102.84.

In addition, the Arbitrator awarded \$2,609,518.69 in fees and costs (the

Edgar Filing: CROWN ENERGY CORP - Form 10-Q

"Fee Award") to MCNIC against the Company and its related entities on a joint and several basis. The Fee Award has yet to be confirmed by the appropriate Utah state court and proceedings regarding it have been stayed as further explained below.

On March 8, 2002, the Company and MCNIC, its related entities and certain of its officers executed the Settlement Agreement. Pursuant to the Settlement Agreement, the Company transferred all of its interests in Crown Ridge and the leases relating to the Asphalt Ridge properties to MCNIC. In addition, the Company and its officers agreed not to compete with Crown Ridge in the Western United States and Western Canada in any way with regard to tar sands leasing, mining, extraction or processing for a period of three years. However, the Settlement Agreement provides that the Company may continue to conduct its present business of buying, storing, blending and selling asphalt.

In exchange for the assignment of the Crown Ridge interest, the Company received (i) MCNIC's commitment to pay the MK Judgment and its indemnification of the Company from the MK Judgment, (ii) the assignment from Crown Ridge of a 1% non-cost bearing, overriding royalty interest in the sales proceeds received by Crown Ridge or its successors and assigns from any products produced on the assigned leases of "Tract A" at Asphalt Ridge and a 3% non-cost bearing, overriding royalty interest in proceeds received by Crown Ridge or its successors and assigns from any other lands which are currently leased by Crown Ridge or the Company, and (iii) the mutual release between the parties of any known or unknown claims between them relating to Crown Ridge, including the obligation of the Company to pay the CAC Loan.

Pursuant to the Settlement Agreement, the Company also acquired an option to purchase all of MCNIC's rights, title and interests in, or relating to, Crown Distribution (including its right to receive the Damage Award and the Fee Award) for an amount equal to \$5,500,000 (the "Purchase Price"). The Settlement Agreement provides that the Purchase Price shall be paid through the payment of \$200,000 at execution with the balance due upon the closing of the Option (if such closing occurs on or before April 30, 2002). After April 30, 2002, the

16

Company shall have the right to extend the Option until September 30, 2002, by making an additional \$100,000 payment for each 30 days by which the Option is extended. On April 30, 2002, the Company did in fact pay \$100,000 to extend the option for a period of 30 days. If the Company closes under the Option, then all payments made to MCNIC shall be credited against the Purchase Price. If, however, the Company does not exercise the Option, the initial \$200,000 payment shall be credited against the Company's ultimate liability under the Fee Award.

Promptly following the execution of the Settlement Agreement, the Company and MCNIC stayed all pending litigation relating to the Arbitration or any enforcement of its conclusion issued as a result of it. The Settlement Agreement provides that if the Company does not exercise the Option, MCNIC may execute on the Damage Award and that the parties may either move to confirm or appeal, as the case may be, the Fee Award.

Management of the Company believes that under the severe legal and financial constraints facing the Company as a result of the Arbitration's outcome, the negotiation and execution of the Settlement Agreement were in the best interests of the Company and its shareholders. Management of the Company is presently taking actions intended to permit it to exercise the Option but cannot assure that it will be successful in obtaining the requisite financing on terms which are acceptable to the Company. Further, the Company cannot describe what form future financing might take.

Edgar Filing: CROWN ENERGY CORP - Form 10-Q

ITEM 2. Changes in Securities

None.

ITEM 3. Defaults upon Senior Securities

The Decision in the arbitration of the dispute between the Company and MCNIC received on November 5, 2001 held that loans from MCNIC to Crown Distribution were due and payable, along with accrued interest, and are in default. As of September 30, 2001, the Company asserts that these loans had an outstanding principal balance of \$14,935,222 and accrued interest of \$4,414,942. See Part I - Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations; Part II - Item 1: Legal Proceedings.

ITEM 4. Submission of Matters to a Vote of Security Holders

None.

ITEM 5. Other Information

None.

ITEM 6. Exhibits and Reports on Form 8-K

Report on Form 8-K dated April 23, 2002 discussing the status of the Settlement Agreement between MCNIC and Crown, and the issuance of common share dividends to Manhattan Goose.
