NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Accounting Policies

The summary of significant accounting policies is included in the notes to consolidated financial statements set forth in the Annual Report on Form 10-K of SUPERVALU INC. (SUPERVALU or the Company) for its fiscal year ended February 24, 2001 (fiscal 2001).

Statement of Financial Accounting Standard 133, Accounting for Derivative Instruments and Hedging Activities, became effective for the Company on February 25, 2001. At that date, the Company s interest rate swap agreements were recorded on its balance sheet at fair value, resulting in recognition of a liability of \$23.5 million, a non-current asset of \$10.8 million, a debit to other comprehensive loss of \$7.7 million, and a deferred tax liability of \$5.0 million. On July 6, 2001, the swaps were terminated, which had no material impact to the Company s consolidated financial statements.

Statement of Registrant

The data presented herein is unaudited but, in the opinion of management, includes all adjustments necessary for a fair presentation of the condensed consolidated financial position of the Company and its subsidiaries at December 1, 2001 and December 2, 2000, and the results of the Company s operations and condensed cash flows for the periods then ended. These interim results are not necessarily indicative of the results of the fiscal years as a whole.

Restatement

In June 2002, the Company announced that it had identified an understatement of cost of goods sold resulting from inventory misstatements by a former employee in its pharmacy division. The effect of the correction of the misstatements was to reduce previously reported net earnings by \$1.0 million and \$1.4 million and net earnings per share diluted by \$0.01 and \$0.01 for the third quarter of fiscal 2002 and 2001, respectively, and to reduce previously reported net earnings by \$5.0 million and \$5.7 million and net earnings per share diluted by \$0.04 and \$0.04 for the 40 week period of fiscal 2002 and 2001, respectively. Impacted financial statement line items were cost of sales, income tax expense, inventory, accounts receivable, accounts payable, and other current liabilities. There was no impact on net cash from operating activities. The condensed consolidated financial statements as of February 24, 2001 and December 1, 2001 and for the quarters and year-to-date periods ended December 1, 2001 and December 2, 2000 and notes thereto included in this Form 10-Q/A have been restated to include the effects of the corrections of these misstatements, as follows:

Restructure and Other Charges

In the fourth quarter of fiscal 2001, the Company completed a company-wide asset review to identify assets that did not meet return objectives, provide long-term strategic opportunities, or justify additional capital investment. As a result, the Company recorded restructure and other charges of \$171.3 million including \$89.7 million for asset impairment charges, \$52.1 million for lease subsidies, lease cancellation fees, future payments on exited leased facilities and guarantee obligations and \$39.8 million for severance and employee related costs, offset by a reduction in the fiscal 2000 reserve of \$10.3 million for lease subsidies and future payments on exited leased facilities. These actions include a net reduction of approximately 4,500 employees throughout the organization. Management expects that these actions will be substantially completed by the end of fiscal 2002.

Details of the fiscal 2001 restructure balances, after-tax, for fiscal 2002 follow:

	Balance February 24, 2001	Fiscal 2002 Usage	Balance December 1, 2001
	(In thousa	nds, except for	r employees)
Consolidation of distribution centers	\$ 41,499	\$ 5,957	\$ 35,542
Exit of non-core retail markets	33,735	19,251	14,484
Disposal of non-core assets and other administrative reductions	16,619	5,444	11,175
Total restructure and other charges	\$ 91,853	\$ 30,652	\$ 61,201
Employees	4,500	3,000	1,500

The reserve at the end of third quarter fiscal 2002 for fiscal 2001 restructure charges was \$61.2 million, including \$45.7 million for lease subsidies, lease terminations and future payments on exited leased facilities and \$15.5 million for employee related costs.

In fiscal 2000, the Company recorded pre-tax restructure and other charges of \$103.6 million as a result of an extensive review to reduce costs and enhance efficiencies. This amount was reduced by \$10.3 million in fiscal 2001, primarily for a change in estimate for the closure of a remaining facility, which occurred in the second quarter of fiscal 2002. The restructure charges include costs for facility consolidation, non-core store disposal, and rationalization of redundant and certain decentralized administrative functions.

Details of the fiscal 2000 restructure balances, after-tax, for fiscal 2002 follow:

	Balance February 24, 2001	Fiscal 2002 Usage	Balance December 1, 2001
	(In thousa	nds, except for	r employees)
Facility consolidation	\$ 11,472	\$ 4,322	\$ 7,150
Non-core store disposal	4,404	1,817	2,587
Infrastructure realignment	1,980	557	1,423
Total restructure and other charges	\$ 17,856	\$ 6,696	\$ 11,160
Employees	463	371	92

The reserve at the end of third quarter fiscal 2002 for fiscal 2000 restructure charges was \$11.2 million, including \$7.1 million for lease subsidies, lease terminations and future payments on exited leased facilities and \$4.1 million for employee related costs.

Notes Payable

On August 16, 2001, the Company entered into an accounts receivable securitization program, under which the Company can borrow up to \$200 million on a revolving basis, with borrowings secured by eligible accounts receivable. As of December 1, 2001, the Company had \$137.3 million of borrowings outstanding under this program and \$194.8 million in eligible receivables pledged as collateral.

In November 2001, the Company sold zero-coupon convertible debentures having an aggregate initial principal amount at maturity of \$811 million. The proceeds from the offering, net of approximately \$5 million of expenses, were \$208 million. The debentures mature in 30 years and are callable at the Company s option on or after October 1, 2006. Holders may require the Company to purchase all or a portion of their debentures on October 1, 2003, October 1, 2006, or October 1, 2011 at a purchase price equal to the accreted value of the debentures, which includes accrued and unpaid cash interest. Each \$1,000 debenture will be convertible into 9.6434 shares of the Company s common stock at an initial conversion price of \$27.29 per share, if the closing price of the Company s common stock exceeds a specified price (initially, 120% of the conversion price, or \$32.75 per share) for a specified period of time in any quarter beginning after February 23, 2002, or otherwise upon the occurrence of certain events. The debentures have an initial yield to maturity of 4.5%, which is being accreted over the life of the debentures using the effective interest method. The Company may pay contingent cash interest for the six-month period commencing November 3, 2006 and for any six-month period thereafter if the average market price of the debentures for a five trading day measurement preceding the applicable six-month period equals 120% or more of the sum of the issue price and accrued original issue discount for the debentures.

Item 2: Management s Discussion and Analysis of Financial Condition and Results of Operations

The Management s Discussion and Analysis of Financial Condition and Results of Operations presented below reflects the impacts of restatements to our previously reported consolidated financial statements as of February 24, 2001 and December 1, 2001 and for the third quarter and year-to-date fiscal 2002 and the third quarter and year-to-date fiscal 2001.

In June 2002, the Company announced that it had identified an understatement of cost of goods sold resulting from inventory misstatements by a former employee in its pharmacy division. The effect of the correction of the misstatements was to reduce previously reported net earnings by \$1.0 million and \$1.4 million and net earnings per share diluted by \$0.01 and \$0.01 for the third quarter of fiscal 2002 and 2001, respectively, and to reduce previously reported net earnings by \$5.0 million and \$5.7 million and net earnings per share diluted by \$0.04 and \$0.04 for the 40 week period of fiscal 2002 and 2001, respectively. The condensed consolidated financial statements as of February 24, 2001 and December 1, 2001 and for the quarters and year-to-date periods ended December 1, 2001 and December 2, 2000 and notes thereto included in this Form 10-Q/A have been restated to include the effects of the corrections of these misstatements.

RESULTS FOR THE QUARTER:

For the third quarter of fiscal 2002, the Company achieved sales of \$4.6 billion, net earnings of \$58.0 million and diluted earnings per share of \$0.43. Last year, sales were \$5.4 billion, net earnings were \$46.1 million and diluted earnings per share were \$0.35.

Net sales

Net sales decreased 14.9 percent compared to last year. Retail food sales increased 1.7 percent and food distribution sales decreased 26.0 percent. Retail food sales increased over last year primarily due to new store openings. In addition, same-store

sales were positive 0.7 percent for the quarter. Food distribution sales decreased from last year reflecting customer losses, primarily the exit of the Kmart business. The Kmart supply agreement was terminated June 30, 2001. In addition, sales decreased as a result of the impact of restructuring activities.

Gross profit

Gross profit, as a percentage of net sales, was 12.9 percent compared to 10.7 percent last year. The increase was primarily due to the growing proportion of the Company s retail business, which operates at a higher gross profit margin as a percentage of net sales than does the food distribution business. In addition, improved merchandising execution in retail and benefits of restructuring and reconfiguration activities in distribution added to the gross profit percent increase.

Selling and administrative expenses

Selling and administrative expenses as a percentage of net sales, were 9.9 percent for the current quarter compared to 8.5 percent last year. The increase in selling and administrative expenses as a percent of sales was due to the growing proportion of the Company s retail business, which operates at a higher selling and administrative expense as a percentage of sales than does the food distribution business, as well as increases in labor and employee benefit costs.

Operating earnings

The Company s pretax operating earnings (earnings before interest and taxes) were \$136.4 million compared to \$121.0 million last year, a 12.7 percent increase. Operating earnings before depreciation and amortization were \$213.9 million compared with \$199.2 million last year, a 7.4 percent increase. Retail food operating earnings increased 38.5 percent to \$91.8 million, or 4.2 percent of sales, from last year s \$66.3 million, or 3.1 percent of sales. The increase was primarily a result of higher gross profit margins, partially offset by increases in labor and employee benefit costs. Retail food operating earnings before depreciation and amortization increased 25.7 percent to \$132.7 million, or 6.1 percent of sales, from last year s \$105.6 million, or 4.9 percent of sales. Food distribution operating earnings decreased 13.8 percent to \$54.9 million from last year s \$63.7 million. The decrease reflects customer losses, primarily the exit of the Kmart business. Operating earnings for distribution, as a percentage of net sales, increased to 2.3 percent this quarter from 2.0 percent in the prior year reflecting the benefits of restructuring and reconfiguration activities. Food distribution operating earnings before depreciation and amortization decreased 10.7 percent to \$90.9 million, or 3.8 percent of sales, from last year s \$101.8 million, or 3.1 percent of sales.

Interest expense

Interest expense decreased to \$43.7 million compared with \$49.1 million last year due to lower overall borrowing levels and lower interest rates.

Income taxes

The effective tax rate was 40.2 percent in the third quarter, comparable to last year.

Net earnings

Net earnings increased 25.8 percent to \$58.0 million or \$0.43 per share diluted compared with last year s net earnings of \$46.1 million or \$0.35 per share diluted. Weighted average shares diluted increased to 135.1 million compared with last year s 132.7 million.

RESULTS FOR THE YEAR:

Year-to-date for fiscal 2002, the Company achieved sales of \$16.3 billion, net earnings of \$165.6 million and diluted earnings per share of \$1.24. Last year, net sales were \$17.7 billion, net earnings were \$169.1 million and diluted earnings per share were \$1.27.

Net sales

Net sales decreased 8.2 percent compared to last year. Retail food sales increased 2.5 percent, and food distribution sales decreased 15.2 percent. Retail food sales increased over last year primarily due to new store openings. Food distribution sales

decreased from last year reflecting customer losses, primarily the exit of the Kmart business in the second quarter. In addition, distribution sales decreased as a result of the impact of restructuring activities.

Gross profit

Gross profit as a percentage of net sales was 12.0 percent compared to 10.8 percent last year. This increase was primarily due to the growing proportion of the Company s retail business, which operates at a higher gross profit margin, as a percentage of net sales, than does the food distribution business. In addition, improved merchandising execution in retail and benefits of restructuring and reconfiguration activities in distribution contributed to the increase in the gross profit percent.

Selling and administrative expenses

Selling and administrative expenses as a percentage of sales were 9.5 percent, compared to 8.4 percent last year. The increase in selling and administrative expenses as a percent of sales was due to the growing proportion of the Company s retail business, which operates at a higher selling and administrative expense as a percentage of sales than does the food distribution business, as well as increases in labor and employee benefit costs.

Operating earnings

The Company s pretax operating earnings (earnings before interest and taxes) decreased 3.8 percent to \$412.7 million, compared with \$428.9 million last year. Operating earnings before depreciation and amortization decreased to \$670.6 million compared with \$682.3 million last year, a 1.7 percent decrease. Retail food operating earnings increased 6.1 percent to \$270.6 million, or 3.8 percent of sales, from last year s \$255.0 million, or 3.6 percent of sales. This increase in retail earnings was attributable to improved merchandising execution resulting in an improvement in gross margins. Retail food operating earnings before depreciation and amortization increased 5.4 percent to \$402.5 million, or 5.6 percent of sales, from last year s \$382.0 million, or 5.5 percent of sales. Food distribution operating earnings decreased 13.9 percent to \$173.3 million, or 1.9 percent of sales, from last year s \$201.2 million, or 1.9 percent of sales. The decrease in operating earnings reflects customer losses, primarily the exit of the Kmart business. Food distribution operating earnings before depreciation and amortization decreased 8.7 percent to \$297.0 million, or 3.3 percent of sales, from last year s \$325.3 million, or 3.0 percent of sales.

Interest expense

Interest expense decreased to \$152.3 million compared with \$162.6 million last year due to lower overall borrowing levels and lower interest rates.

Income taxes

The effective tax rate was 40.3 percent, comparable to last year.

Net earnings

Net earnings decreased 2.1 percent to \$165.6 million or \$1.24 per share diluted compared with last year s net earnings of \$169.1 million or \$1.27 per share diluted. Weighted average shares diluted increased to 133.8 million compared with last year s 133.0 million.

Liquidity and Capital Resources

Internally generated funds from operations continued to be the major source of liquidity and capital growth. Cash provided from operations was \$437.1 million year-to-date, compared with \$338.7 million last year. The increase is reflective of positive impacts on working capital attributable to the exit of the Kmart business as well as restructuring activities. Net cash used in investing activities was \$162.7 million, compared with \$313.3 million last year. The decrease was primarily due to lower purchases of fixed assets and higher proceeds from sales of assets related to restructuring activities. Net cash used in financing activities was \$273.5 million, compared with \$26.7 million last year. The increase in cash used in financing activities reflects higher net debt reduction in fiscal 2002.

Management expects that the Company will continue to replenish operating assets and reduce aggregate debt with internally generated funds. The Company has adequate short-term and long-term financing capabilities to fund its capital expenditures plan and acquisitions as the opportunities arise. SUPERVALU will continue to use short-term and long-term debt as a supplement to internally generated funds to finance its activities. Maturities of debt issued will depend on management s views with respect to the relative attractiveness of interest rates at the time of issuance.

The Company has entered into revolving credit agreements with various financial institutions, which are available for general corporate purposes and for the issuance of letters of credit. A \$400 million revolving credit agreement expires in October 2002 and a \$300 million 364-day agreement expires in August 2002. Both credit facilities have rates tied to LIBOR plus 0.650 to 1.400 percent, based on the Company s credit ratings. As of December 1, 2001, letters of credit outstanding under the credit facilities were \$111 million and the unused available credit under these facilities was \$548 million. The Company also has \$137.3 million outstanding under an accounts receivable securitization program. Outstanding borrowings under the revolving credit facilities and the accounts receivable securitization facility are reflected in Notes Payable on the consolidated balance sheet.

In November 2001, the Company sold zero-coupon convertible debentures having an aggregate initial principal amount at maturity of \$811 million. The proceeds from the offering, net of \$5 million of expenses, were \$208 million and were used to pay down notes payable. The debentures mature in 30 years and are callable at the Company s option on or after October 1, 2006. Holders may require the Company to purchase all or a portion of their debentures on October 1, 2003, October 1, 2006, or October 1, 2011 at a purchase price equal to the accreted value of the debentures, which includes accrued and unpaid cash interest. The debentures have an initial yield to maturity of 4.5%, which is being accreted over the life of the debentures using the effective interest method. See Item 1 Consolidated Financial Statements Notes Payable for a further description of these debentures.

In the third quarter, the Board of Directors authorized the repurchase of up to five million shares of the Company s common stock to offset the issuance of shares over time under the Company s employee benefit plans and to replace the 1996 share repurchase program.

Company-Wide Asset Review

In the fourth quarter of fiscal 2001, the Company completed a company-wide asset review to identify assets that did not meet return objectives, provide long-term strategic opportunities, or justify additional capital investment. As a result, the Company recorded charges of \$240.1 million pre-tax, or \$153.9 million after tax. The charges are net of a \$10.3 million reversal of the fiscal 2000 restructure charge.

The restructure and other charges of \$171.3 million include \$89.7 million for asset impairment charges, \$52.1 million for lease subsidies, lease cancellation fees, future payments on exited leased facilities and guarantee obligations and \$39.8 million for severance and employee related costs, offset by a reduction in the fiscal 2000 reserve of \$10.3 million for lease subsidies and future payments on exited leased facilities. These actions include a net reduction of approximately 4,500 employees throughout the organization. Management expects that these actions will be substantially completed by the end of fiscal 2002.

The reserve at the end of third quarter fiscal 2002 for fiscal 2001 restructure charges was \$61.2 million, including \$45.7 million for lease subsidies, lease terminations and future payments on exited leased facilities and \$15.5 million for employee related costs.

The reserve at the end of third quarter fiscal 2002 for fiscal 2000 restructure charges was \$11.2 million, including \$7.1 million for lease subsidies, lease terminations and future payments on exited leased facilities and \$4.1 million for employee related costs.

New accounting standards

In June 2001, the Financial Accounting Standards Board approved Statement of Financial Accounting Standard No. 141, Business Combinations and Statement of Financial Accounting Standard No. 142, Goodwill and Other Intangible Assets. SFAS No. 141 requires that all business combinations initiated after June 30, 2001 be accounted for under the purchase

method and addresses the initial recognition and measurement of goodwill and other intangible assets acquired in a business combination. SFAS No. 142 requires companies to cease amortizing goodwill that existed at June 30, 2001. For the Company, this amortization of existing goodwill will cease on February 23, 2002. Any goodwill resulting from an acquisition completed after June 30, 2001 will not be amortized. SFAS No. 142 also establishes a new method of testing goodwill for impairment on an annual basis or on an interim basis if an event occurs or circumstances change that would reduce the fair value of a reporting unit below its carrying value. The adoption of SFAS No. 142 will result in the discontinuation of amortization of goodwill and goodwill will be tested for impairment under the new standard beginning in the first quarter of fiscal 2003. The Company is currently evaluating the provisions of SFAS No. 142 and has not yet determined the effect that adoption of this standard will have on its consolidated financial statements.

In June 2001, the Financial Accounting Standards Board issued Statement No. 143, Accounting for Asset Retirement Obligations, which addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. The Company is currently analyzing the effect this standard will have on its consolidated financial statements and plans to adopt the provisions of Statement No. 143 in the first quarter of fiscal 2004.

In August 2001, the Financial Accounting Standards Board approved Statement of Financial Accounting Standard No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. The Company is currently analyzing the effect this standard will have on its consolidated financial statements and plans to adopt the provisions of SFAS No. 144 in the first quarter of fiscal 2003.

Cautionary Statements for Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995

The information in this Quarterly Report includes forward-looking statements. The Company s businesses are subject to certain risks and uncertainties that could cause actual results to differ materially from those discussed in such forward looking statements. These include, but are not limited to:

competitive practices in the retail food and food distribution industries,

the nature and extent of the consolidation of the retail food and food distribution industries and our ability to grow through acquisitions and assimilate acquired entities,

our ability to attract and retain customers for our food distribution business and to control food distribution costs,

general economic or political conditions that affect consumer buying habits generally or acts of terror directed at the food industry that affect consumer behavior,

potential work disruptions from labor disputes or national emergencies,

the timing and implementation of certain restructuring activities we have announced, including our consolidation of certain distribution facilities, our exit from certain non-core markets and our disposition of under-performing stores,

the availability of favorable credit and trade terms, and

other risk factors inherent in the food distribution and retail businesses.

These risks and uncertainties are set forth in further detail in Exhibit 99(i) to this report. Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update such statement to reflect events or circumstances arising after such date.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There were no material changes in market risk for the Company in the period covered by this report.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

There are no material pending legal proceedings, other than ordinary routine litigation incidental to the business of the Registrant.

Item 2. Changes in Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

None

Item 5. Other Information

None

Item 6. Restated Exhibits filed with this amended 10-Q/A and Reports on Form 8-K.

- (a) Exhibits:
- (11) Computation of Earnings Per Common Share.
 - (b) Reports on Form 8-K:

None

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
