Solicitation of Proxies

The cost of soliciting proxies will be borne by the Company. The Company has retained the services of its transfer agent, Mellon Investor Services ("Mellon"), to aid in the solicitation of proxies from brokers, bank nominees and other institutional owners. The Company estimates that it will pay Mellon a fee not to exceed \$2,500 for its services and will reimburse Mellon and other third parties for certain out-of-pocket expenses estimated to be not more than \$10,000. In addition, the Company may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners. Proxies may be solicited by certain of the Company's directors, officers and regular employees, without additional compensation, personally or by telephone or telegram.

Deadline for Receipt of Stockholder Proposals

Proposals of stockholders of the Company that are intended to be presented by such stockholders at the Company's 2005 Annual Meeting of Stockholders must be received by the Company no later than January 15, 2005, in order to be considered for possible inclusion in the proxy statement and form of proxy relating to that meeting.

If the Company is not notified of a stockholder proposal by March 5, 2005, then the management proxies may have the discretion to vote against such stockholder proposal, even though such proposal is not discussed in the proxy statement.

General

A board of four (4) directors is to be elected at the Annual Meeting. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the Company's four nominees named below, all of whom are currently directors of the Company. In the event that any nominee of the Company is unable or declines to serve as a director at the time of the Annual Meeting (neither of which events is expected), the proxies will be voted for such nominee as shall be designated by the current Board of Directors to fill the vacancy.

Vote Required

A quorum comprising the holders of the majority of the outstanding shares of Common Stock on the Record Date must be present or represented by proxy for the transaction of business at the Annual Meeting. Each share may vote for up to four director-nominees. Votes may not be cumulated. If a quorum is present, the four nominees receiving the highest number of votes will be elected to the Board of Directors, whether or not such number of votes for any individual represents a majority of the votes cast. Abstentions and broker non-votes will be counted for purposes of determining the presence or absence of a quorum. Abstentions and broker non-votes, however, will not be counted either in favor of or against the proposal.

The term of office of each person elected as a director will continue until the next Annual Meeting or until his successor has been elected and qualified.

Executive Officers

The name, age and title of each executive officer of the Company, business experience for at least the past five years and certain other information concerning each such executive officer has been furnished by the executive officer and is set forth below. W. Brian Kretzmer, 50, has been our Chief Executive Officer since August 1999 and was appointed as our President on September 10, 2000. He also served as our Chief Financial Officer from August 1999 until March 2000. James W. Dolan, 45, has been our Chief Financial Officer since March 2000 and our Chief Operating Officer since March 2001. Previously, he served as our Vice President, Finance from September 1999 until March 2000. Board Meetings and Committees

The Board of Directors held one (1) meeting during the year ended December 31, 2003 and conducted business by written consent. The Company expects all Board members to attend its Annual Meeting. The last annual meeting was attended by each Board member. The Board of Directors has an Executive Committee, an Audit Committee and a Compensation Committee.

The Company does not have a Nominating Committee. The view of the Company's Board of Directors is that it is appropriate for the Company not to have such a committee because each member of the Board participates in the consideration of director nominees. Of the four Board members two are 'independent' under the existing standards of the American Stock Exchange and two are not independent. The Board will only consider director nominees that have the requisite industry or financial experience to be able to advise and direct senior management in the Company's operations. The Board generally relies on its network of industry and financial contacts in evaluating potential Board members. The Board members have determined not to currently consider proposed director recommendations from stockholders because of the present limited size of the Board and its view that additional candidates, if required, are available through the Board's own network of prospects.

Our Executive Committee was formed in November 1998. Mr. Loshitzer is presently the only member of this committee. This committee has all authority, consistent with the Delaware General Corporation Law, as may be granted to it by the Board of Directors. Presently, this committee's sole function is to coordinate management presentations to the Board of Directors. The Executive Committee held no formal

meetings during 2003.

Our Audit Committee currently consists of Messrs. Ross and Mayer, with one vacancy, intended to be filled after the Annual Meeting of Shareholders. None of the members of the Audit Committee have been our officers or employees and each member qualifies as an independent director under the existing standards of the Securities and Exchange Commission, the Sarbanes-Oxley Act of 2002, and the rules of the American Stock Exchange. The Board of Directors has determined that no member of the Audit Committee is an audit committee financial expert. The Company believes that the level of financial experience of the current Audit Committee members is sufficient for the purpose of their oversight of the Company's financial statements and operations. The Board of Directors adopted a written charter for the Audit Committee on June 12, 2000, which was amended and restated on March 15, 2001, and then again on March 25, 2004. A copy of the current Audit Committee Charter is set forth in Appendix A.

The Audit Committee held three (3) meetings during 2003 and also took actions by unanimous written consent. The Audit Committee has the sole authority to appoint and, when deemed appropriate, replace our independent auditors. The Audit Committee has the responsibility to evaluate the qualifications and independence of our independent auditors; to review and approve the scope and results of the annual audit; to evaluate with the independent auditors our financial staff and the adequacy and effectiveness of our systems and internal financial controls; to review and discuss with management and the independent auditors the content of our financial statements and clarity of our

5

proposed communications with investors regarding our operating results and other financial matters; to review significant changes to our accounting practices; to establish procedures for receiving, retaining and investigating reports of illegal acts involving us and supervise the investigation of any such reports; and to provide sufficient opportunity for the independent auditors to meet with the committee without management present.

Our Compensation Committee currently consists of Messrs. Loshitzer and Ressler, with one vacancy, intended to be filled after the Annual Meeting of Shareholders. The Compensation Committee held no meetings during 2003. The Compensation Committee reviews and approves the Company's executive compensation policies.

During 2003, each incumbent director attended at least 75% of the aggregate of the meetings of the Board of Directors held during his tenure and the meetings of committees of which such member was a member held during his tenure.

Shareholder Communications with Board Members

The Company encourages communications by its shareholders with Board members. Communications to Board members may be sent to the Company, to the attention of the Company's Chief Executive Officer, 26110 Enterprise Way, Lake Forest, California 92630, and such communications will be forwarded promptly to the Board member in question.

Director Compensation

We pay fees of \$3,000 per calendar-year quarter to each of our non-employee directors, and \$1,000 for each Board or Committee meeting which is attended in person or telephonically. Additionally, we reimburse directors for their reasonable travel expenses to attend meetings.

In 2001 our Company's Non-Employee Directors Stock Option Plan (the "Directors' Plan") was discontinued and our 2001 Restricted Stock Plan was implemented in lieu of the Director's Plan. Under the Director's Plan, each non-employee director was automatically granted a nonstatutory option to purchase 6,250 shares of Common Stock on the date of each annual meeting of stockholders at which each such non-employee director is reelected, provided that on such date, he or she has served on the Board of Directors for at least six months. Certain directors continue to hold options granted pursuant to the Directors' Plan.

No options were exercised pursuant to the Directors' Plan in 2003.

Our Company's Restricted Stock Plan provides for issuance to each director of 50,000 shares of Common Stock on the date of his or her appointment to the Board or his or her becoming eligible to participate in the Restricted Stock Plan. In 2001, the Board and shareholders confirmed grants of 50,000 shares of restricted Common Stock to the current directors of which one-half, or 25,000 shares, have vested as of the Record Date. An additional 12,500 shares will vest (i.e., become unrestricted) on May 21, 2004. The Restricted Stock Plan provides that upon a change of control all shares granted pursuant to the plan shall become immediately exercisable in full.

Compensation Committee Interlocks and Insider Participation

The Compensation Committee currently consists of Messrs. Loshitzer and Ressler. One of our former officers, Richard S. Ressler, but no current officer, serves on the Compensation Committee. Mr. Ressler provides, and Mr. Loshitzer has provided, consulting services to the Company pursuant to consulting agreements that are disclosed below.

Mr. Ressler's services as Chairman (and formerly as Chief Executive Officer) have been provided pursuant to a consulting agreement dated August 15, 1994 (amended as of August 16, 1997, August 31,

6

1997, August 31, 1998, August 31, 1999, August 31, 2000, August 31, 2001, August 31, 2002 and August 31, 2003) with Orchard Capital Corporation, Mr. Ressler's employer. Pursuant to that agreement, for Mr. Ressler's services Orchard was paid \$20,000 per month up through and including August 15, 1996, and was paid \$24,000 per month up until October 1, 2003, at which time Orchard voluntarily decreased its fee to \$12,000 per month.

In August, 1999, Orchard was granted options under the Company's 1993 Employee Stock Option Plan to purchase 225,000 shares of Common Stock at \$2.50 per share. All of these options are currently vested and they expire in August, 2009.

Commencing in 1999, Mr. Ressler became eligible to receive stock options under the Company's Non-Employee Director's Option Plan. He currently holds options to acquire 50,000 shares of Common Stock under the Plan. Additionally, Mr. Ressler participates in the Company's 2001 Restricted Stock Plan and has received a grant of 50,000 shares of restricted Common Stock, of which 25,000 shares are vested, and another 12,500 shares will become vested on May 21, 2004 and the balance on May 21, 2005.

The compensation paid to Orchard pursuant to the consulting agreement and the amendments thereto was determined by the Compensation Committee and the Board of Directors based upon various subjective factors such as Mr. Ressler's responsibilities, qualifications, years of experience, individual performance, and perceived contributions to the Company.

Employment Contracts and Change of Control Arrangements

We currently have no employment contracts with any of our executive officers named in the Summary Compensation Table above (but we do have a consulting agreement with Orchard Capital Corporation which supplies the services of Richard S. Ressler, our Chairman). (See "Compensation Committee Interlocks and Insider Participation.") Our 1993 Employee Stock Option Plan and Non-Employee Directors' Stock Option Plan each provide that upon a change of control all options granted pursuant to the plans shall become immediately exercisable in full. There are similar provisions in effect for warrants and restricted stock granted to officers and directors.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS ON EXECUTIVE COMPENSATION

General

The policy of the Company regarding the compensation of its executive officers is to maintain a total compensation program which would retain the services of key executives and (a) assure the availability of their skills for the benefit of the Company, (b) secure to the Company freedom from competition by such persons within reasonable and lawful limits, and (c) provide appropriate base compensation, benefits, and financial incentives through bonus, severance and other employment-related programs. The Compensation Committee of the Board of Directors recommends, subject to the Board's approval, executive compensation, including the compensation of the Chairman and the Chief Executive Officer. The Compensation Committee or the Board of Directors determines and approves stock option grants for all employees, including the Chief Executive Officer. The Committee currently comprises two non-employee directors, one of whose services are provided pursuant to a consulting agreement between MAI and his employer.

Compensation Philosophy

The Company operates in the highly competitive and rapidly changing high technology industry. The goals of the Company's compensation program are to align compensation with the Company's overall business objectives and performance, to foster teamwork, and to enable the Company to attract, retain and reward employees who contribute to its long-term success. The Committee also seeks to establish compensation policies that allow the Company flexibility to respond to changes in its business environment.

Compensation Components

Compensation for the Company's executive officers generally consists of salary, annual incentive, and stock option and restricted stock awards. The Committee assesses past performance, anticipated future contributions and various subjective factors such as their responsibilities, qualifications, and years of experience in establishing the total amount and mix of each element of compensation.

Salary. The salaries of the executive officers are determined annually by the Compensation Committee based upon various subjective factors such as the executive's responsibilities, position, qualifications, years of experience, and individual performance. In no such case does the Committee undertake a formal survey of analysis of compensation paid by other companies.

Annual Incentive. The Committee annually reviews and approves an executive compensation plan. A target, expressed as a percentage of salary, is established for each corporate officer, based on the scope of his or her responsibility. Actual payment is computed as a percentage of that target based on the Company's performance in achieving specified objectives, and the individual performance of executives.

Stock Options, Warrants and Restricted Stock. Stock option, warrants and restricted stock awards are designed to align the interests of executives with the long-term interests of the stockholders. The Committee approves option, warrant and restricted stock grants subject to vesting periods (usually over a three or four-year period) to retain executives and encourage sustained contributions. The exercise price of options and warrants, or the issue price in relation to restricted stock, is the market price on the date of grant.

Edgar Filing: MAI SYSTEMS CORP - Form PRE 14A

The Company is subject to Section 162(m) of the Internal Revenue Code, adopted in 1993, which limits the deductibility of certain compensation payments to its officers. The Company does not have a policy requiring the Committee to qualify all compensation for deductibility under this provision. The Company does not currently have any non-deductible compensation plans. The Company believes that

12

any compensation expense incurred in connection with the exercise of stock options granted under its 1993 Employee Stock Option Plan will continue to be deductible as performance-based compensation.

In awarding stock options to its corporate level executive officers, the Committee considers the executive's performance as well as options previously granted when determining additional option awards. The Committee does not currently have a targeted percentage of equity ownership for executives.

Compensation of Chairman

Richard Ressler's services as Chairman (and formerly as Chief Executive Officer) have been provided pursuant to a consulting agreement dated August 15, 1994 (amended as of August 16, 1997, August 31, 1997, August 31, 1998, August 31, 1999, August 31, 2000, August 31, 2001, August 31, 2002 and August 31, 2003) with Orchard Capital Corporation, Mr. Ressler's employer. Pursuant to that agreement, Orchard was paid \$24,000 per month up through and including September 30, 2003, at which time this amount was voluntarily reduced to \$12,000 per month, for the balance of the term through August 31, 2004.

In August 1994, Orchard was granted warrants to purchase up to 625,000 shares of the Company's Common Stock at \$1.90 per share (which Orchard immediately transferred to Mr. Ressler). Mr. Ressler exercised 157,895 of these warrants in September 1997. The remainder of the \$1.90 warrants expired on August 14, 2003 (these warrants were originally scheduled to expire on August 14, 1999, but the Committee approved two extensions). In March 1997, Orchard was issued warrants to purchase up to 50,000 shares of Common Stock at \$7.50 per share (which it immediately transferred to Mr. Ressler). In order for the Company to raise equity capital, the exercise price of these warrants was adjusted to \$3.04 on September 12, 1997 and the warrants were subsequently exercised. In August, 1999, Orchard was granted options under the Company's 1993 Employee Stock Option Plan to purchase 225,000 shares of Common Stock at \$2.50 per share. One-third of these options became exercisable on each of the first three anniversaries of the grant, and the options expire in August, 2009.

Commencing in 1999, Mr. Ressler became eligible to receive stock options under the Company's Non-Employee Director's Option Plan. He currently holds options to acquire 50,000 shares of Common Stock under the Plan. Additionally, Mr. Ressler participates in the Company's 2001 Restrictive Stock Plan and has received a grant of 50,000 shares of restricted Common Stock, of which 25,000 shares have vested.

Compensation of Chief Executive Officer

The Company considers that the compensation level of the Chief Executive Officer should be comparable to those companies in the computer software and services peer group (including certain peer companies that are included in the S&P Application Software composite index). Based upon these factors, the Committee determined that Brian Kretzmer should receive a base salary of \$240,000. For fiscal 2003, a range of between 24% to 70% of Mr. Kretzmer's salary could be earned as a bonus for achieving from 85% to over 120% of the EBITDA (Earnings Before Income Taxes, Depreciation and Amortization) objective. Because these goals were not achieved no incentive compensation was paid with respect to Mr. Kretzmer pursuant to the plan based on 2003 performance. However, the Board, based upon the Committee's recommendation, awarded a special bonus of \$90,000 in the aggregate to Mr. Kretzmer and the Company's Chief Financial and Operating Officer, James W. Dolan, for other achievements during 2003. Additionally, Mr. Kretzmer participates in the Company's 2001 Restrictive Stock Plan and has received a grant of 250,000 shares of restricted Common Stock, of which 125,000 shares have vested.

Zohar Loshitzer, Chairman

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The role of the Audit Committee is to assist the Board of Directors in its oversight of the Company's financial reporting process. The Board of Directors, in its business judgment, has determined that all current members of the Committee are "independent", as required by the listing standards of the American Stock Exchange.

The Committee operates pursuant to a Charter that was adopted by the Board on June 12, 2000, and amended and restated on March 15, 2001 and again on March 25, 2004. As set forth in the Charter, management of the Company is responsible for the preparation, presentation and integrity of the Company's financial statements, the Company's accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent auditors are responsible for auditing the Company's financial statements and expressing an opinion as to their conformity with generally accepted accounting principles.

In the performance of its oversight function, the Committee has considered and discussed the audited financial statements with management and the independent auditors. The Committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as currently in effect. Finally, the Committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, as currently in effect.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in the fields of accounting or auditing, including in respect of auditor independence. Members of the Committee rely without independent verification on the information provided to them and on the representations made by management and the independent accountants. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal control and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that the Company's auditors are in fact "independent".

Based upon the reports and discussions described in this report, and subject to the limitations on the role and responsibilities of the Committee referred to above and in the Charter, the Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2003 to be filed with the Securities and Exchange Commission.

Date: March 25, 2004

Respectfully submitted,

Steven F. Mayer

PROPOSAL 2

TO APPROVE THE MANAGEMENT EQUITY/CONVERSION TRANSACTION

Overview of Management Led Equity Investment and Investor Group Debt Conversion (the "Management Equity/Conversion Transaction")

CSA is the holder of 2,433,333 shares of the Company's common stock and \$3,694,156 of Company indebtedness. An investor group, consisting of certain members of senior management (Mr. Ressler, Mr. Dolan and Mr. Kretzmer) and certain third parties ("Investor Group"), has agreed to acquire CSA's equity position and most of the aforementioned Company indebtedness from CSA. CSA will retain \$500,000 of Company indebtedness after the closing of the transaction. CSA has agreed to this transaction in principle, subject to execution of definitive agreements. Subject to shareholder approval, and after execution of definitive agreements with CSA, the Investor Group will convert the Company indebtedness of \$3,194,156 acquired from CSA for 31,941,560 shares of the Company's common stock based upon a conversion price of \$0.10 per share, and will invest \$1,000,000 of new cash proceeds into the Company in a private placement at \$0.10 per share and receive 10,000,000 shares of the Company's common stock. The Company's common stock to be issued in the Management Equity/Conversion Transaction is subject to certain terms and conditions, including the fact that it will initially be 'restricted' stock, not available for sale. The composition of the Investor Group is set forth in the table below under "Interests of Certain Persons in the Management Equity/Conversion Transaction Change of Control."

Edgar Filing: MAI SYSTEMS CORP - Form PRE 14A

Rationale for Management Equity/Conversion Transaction

The Company has immediate and substantial working capital needs. Consolidated cash balance was \$664,000 as of December 31, 2003 and \$243,000 as of February 29, 2004. Consolidated monthly payroll alone approximates \$1 million. The conversion will reduce the current portion of the Company's long-term indebtedness by approximately \$2.8 million.

The Company has made repeated attempts over a significant period of time to raise capital from a variety of other sources and has been unsuccessful in its attempts to date to do so on acceptable terms.

Currently, the Company is not in compliance with several of its material debt covenants, and, to date, has received waivers of compliance with such covenants, but has no guarantee from its lenders that they will waive such covenants in the future, or if waived, whether such lenders will, as a condition to such waivers, make demands upon the Company which it may be forced to accept.

Conversion will strengthen the balance sheet, reduce debt service costs and help alleviate some of the concerns held by current and prospective clients regarding the Company's long term viability.

Strengthening of the balance sheet will also serve to mitigate the liquidity concerns of the Company's auditors as set forth in the Company's audited financial statements.

Once the financing is in place, management can again focus on enhancing the Company's profitability.

Special Committee of the Board of Directors and Fairness Opinion

In view of the possible conflicts of interest involved in this type of transaction, our Board of Directors unanimously decided that it would be advisable to form a special committee of independent members of the Board consisting of Messrs. Mayer and Ross, with Mr. Ross as the Chairman of the Special Committee, to evaluate such proposal and to assess whether the proposal is in the best interests

16

of the Company's shareholders. Neither of these directors are employed by or affiliated with MAI or the Investor Group or any of their affiliates (except in the capacity as a director of MAI). However, Mr. Ross' son is an employee (but not an executive officer) of CIM Group, an affiliate of the Company. The Board determined that it would be prudent for the Special Committee to retain an independent financial advisor and independent legal counsel to assist in reviewing any proposal by the Insider Group.

Through a unanimous written consent adopted on August 6, 2003, the Board formally authorized and empowered the Special Committee to consider and negotiate the Management Equity/Conversion Transaction, and determine if such transaction would be fair to and in the best interest of the Company's shareholders. The Board further authorized the Special Committee to retain an independent financial advisor and independent legal counsel to assist it in its review of such transaction.

Between August 6, 2003 and September 2, 2003, the Special Committee interviewed several financial advisors. On September 2, 2003, the Special Committee formally retained Marshall & Stevens to provide a fairness opinion pertaining to the Management Equity/Conversion Transaction. During the subsequent weeks, the Special Committee commenced the process of retaining independent legal counsel and interviewed several possible legal advisors. The Special Committee interviewed Rutan & Tucker, LLP, Costa Mesa, California on February 27, 2004 and retained this firm on March 1, 2004. On March 1, 2004, the Special Committee and its financial and legal advisors commenced discussions concerning the various aspects of the Management Equity/Conversion Transaction. The Special Committee and representatives of Marshall & Stevens met with management of MAI to obtain and discuss financial and other information concerning the Company and the proposed Management Equity/Conversion Transaction. On March 5, 2004, the Special Committee and its independent legal counsel met with representatives in the Los Angeles office of Marshall & Stevens and discussed the status of Marshall & Stevens' evaluation of MAI. They

Edgar Filing: MAI SYSTEMS CORP - Form PRE 14A

discussed Marshall & Stevens' preliminary report on the progress of its due diligence review to date and preliminary views concerning the various aspects of the proposed Management Equity/Conversion Transaction. During the course of the presentation, the Special Committee raised numerous questions and requested additional information and analysis, each of which was responded to by Marshall & Stevens and legal counsel.

During a subsequent meeting of the Special Committee on March 19, 2004, Marshall & Stevens conducted a detailed presentation of its analysis performed in preparing its fairness opinion and also submitted for review by the Committee a draft form of its fairness opinion. Following a lengthy discussion and after reviewing various factors that had been discussed over the past several weeks, the Special Committee voted unanimously to approve the Management Equity/Conversion Transaction, subject to the receipt of the final fairness opinion from Marshall & Stevens in form and content acceptable to the Special Committee.

On March 23, 2004, the Special Committee made a presentation to the full Board. The Board reviewed Marshall & Stevens's presentation to the Special Committee and the draft form of its fairness opinion. The Board asked questions and received answers regarding the Management Equity/Conversion Transaction from the Special Committee and representatives of MAI. The Special Committee advised the Board that it had approved the Management Equity/Conversion Transaction, subject to the receipt of the final fairness opinion from Marshall & Stevens in form and content acceptable to the Special Committee, and recommended to the Board that the Board approve the Management Equity/Conversion Transaction. After extensive consideration and discussion, the Board (with Richard S. Ressler recusing himself), subject to the receipt of the final fairness opinion from Marshall & Stevens in form and content acceptable to the Special Committee, unanimously adopted the Special Committee's resolutions authorizing the Management Equity/Conversion Transaction based on the Special Committee's determination that the Management Equity/Conversion Transaction was fair and in the best interests of MAI's shareholders.

Financial Analysis Performed By Marshall & Stevens

The following paragraphs summarize the financial analyses performed by Marshall & Stevens in connection with the rendering of its fairness opinion. The summary does not represent a complete description of the analyses performed by Marshall & Stevens. **THE FULL TEXT OF THE FORM OF MARSHALL & STEVENS OPINION, DATED AS OF MARCH 30, 2004, IS ATTACHED AS APPENDIX D. MAI'S SHAREHOLDERS ARE URGED TO READ THE MARSHALL & STEVENS OPINION CAREFULLY AND IN ITS ENTIRETY FOR A DESCRIPTION OF THE ASSUMPTIONS MADE, MATTERS CONSIDERED, PROCEDURES FOLLOWED AND LIMITATIONS ON THE REVIEW UNDERTAKEN AND OPINION RENDERED BY MARSHALL & STEVENS. THIS SUMMARY IS QUALIFIED IN ITS ENTIRETY BY REFERENCE TO THE FULL TEXT OF SUCH OPINION.** No limitations were imposed by MAI, its Board or the Special Committee on the scope of Marshall & Stevens's investigation or the procedures to be followed by Marshall & Stevens in rendering its opinion. Marshall & Stevens was requested to opine on the issue of whether the consideration of \$0.10 per share of common stock offered in the Management Equity/Conversion Transaction is fair to the public shareholders of MAI (exclusive of the Investor Group), from a financial point of view pursuant to the terms and conditions set forth in their opinion. The Marshall & Stevens opinion was for the use and benefit of the Special Committee and the Board in connection with its consideration of the Management Equity/Conversion Transaction. Marshall & Stevens was not requested to opine as to, and its opinion does not address, MAI's underlying business decision to proceed with or effect the Management Equity/Conversion Transaction. Further, Marshall & Stevens was not asked to consider, and its opinion does not address, the relative merits of the Management Equity/Conversion Transaction as compared to any alternative business strategy that might exist for MAI or its shareholders.

In arriving at its opinion, Marshall & Stevens relied upon and assumed the accuracy and completeness of all of the financial and other information that was used without assuming any responsibility for any independent verification of any such information and Marshall & Stevens further relied upon the assurances of MAI management that it was not aware of any facts or circumstances that would make any such information inaccurate or misleading. With respect to the preliminary financial projections utilized, Marshall & Stevens assumed that such projections were reasonably prepared on a basis reflecting the best currently available estimates and judgments, and that such projections provide a reasonable basis upon which it could form an opinion. Marshall & Stevens did not make or obtain any evaluations or appraisals of the assets and liabilities (contingent or otherwise) of MAI. Marshall & Stevens assumed that the Management Equity/Conversion Transaction will be consummated in a manner that complies in all respects with the applicable provisions of the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, and all other applicable federal and state statutes, rules and regulations. Marshall & Stevens also assumed, with MAI's consent, that the Management Equity/Conversion Transaction will be consummated substantially in accordance with the terms described to Marshall & Stevens and as generally set forth in the draft documents provided to them which describe the Management Equity/Conversion Transaction, without any further amendments thereto, and without waiver by MAI of any of the conditions to any obligations set forth therein.

The Marshall & Stevens opinion is necessarily based upon market, economic and other conditions as they existed on, and could be evaluated as of, March 26, 2004. Accordingly, although subsequent developments may affect its opinion, Marshall & Stevens has not assumed

any obligation to update, review or reaffirm its opinion. The estimates contained in Marshall & Stevens's analyses and the ranges of valuations resulting from any particular analysis are not necessarily indicative of actual values or future results, which may be significantly more or less favorable than those suggested by such analyses. In addition, analyses relating to the value of businesses or securities do not necessarily purport to be

appraisals or to reflect the prices at which businesses or securities actually may be sold. Accordingly, Marshall & Stevens's analyses and estimates are inherently subject to substantial uncertainty.

Marshall & Stevens presented six different factors in its financial analysis supporting its opinion: (1) current and historical market price of MAI's stock price; (2) MAI's going concern value; (3) MAI's earnings value (earnings times an appropriate multiplier); (4) discounted cash flow (net present value of projected cash flows); (5) net asset value (liquidation value); and (6) net book value. Each of these factors was analyzed in comparison with similar companies to MAI and similar transactions to the Management Equity/Conversion Transaction. The different factors are summarized below:

Historical Market Price Analysis. Marshall & Stevens utilized a historical stock price analysis to review and compare MAI's stock performance to the price offered by the Investor Group. In addition, Marshall & Stevens reviewed the liquidity of MAI's shares in the public trading markets and the daily closing market price and trading volume of MAI's shares for the six-month period ended March 18, 2004. While the 30 day and 180 day average price of \$.18 and \$.14 per share, respectively, were higher than the consideration price offered by the Investor Group of \$.10 per share, Marshall & Stevens concluded that trading of MAI stock on the OTC Bulletin Board may not reflect the 'fair price' of the stock because of the thin trading market, wide bid-ask spread and large volatility in historical MAI stock prices. Additionally, Marshall & Stevens noted that the shares being issued to the Insider Group as part of the Management Equity/Conversion Transaction are restricted securities that are unregistered and not able to be traded in the public marketplace. Based upon various restricted stock studies, Marshall & Stevens believes that marketability discounts for closely held or restricted securities can be significant and may range on average between 25% to 45%.

Going Concern Value. Marshall & Stevens reviewed various projections provided by the Company that assume that MAI is a 'going concern' based upon the current status of the Company. Marshall & Stevens analyzed the reasonableness of the projections based on the Company's historical performance, current financial conditions and industry research.

Earnings Value. Marshall & Stevens reviewed MAI's revenues and EBITDA and applied certain multipliers to come to a valuation for the Company. Factors considered in this analysis included the size of the Company in terms of revenues and assets, declining revenues and profitability, financial distress in terms of negative working capital and non-compliance with debt covenants, the absence of highly comparable public companies similar to MAI, and the fact that MAI is in a highly competitive software and IT consulting industry. Based on this analysis, the Investor Group's consideration price of \$.10 per share was determined to be reasonable.

Discounted Cash Flow Value. Based upon management forecasts, Marshall & Stevens developed projected cash flows that were discounted at a weighted cost of capital of 20%, which Marshall & Stevens believed to be appropriate for the Company and its industry. The implied enterprise value was determined to be lower than the value represented by the Investor Group's consideration price of \$.10 per share.

Net Asset Value (Liquidation Value). Marshall & Stevens concluded that the total debt of the Company likely exceeds any asset value upon liquidation, leaving little if any value to equity holders in liquidation. Based upon this determination, the value represented by the Investor Group's consideration price of \$.10 per share was significantly greater than the net asset value of the Company.

Net Book Value. Marshall & Stevens determined that in valuing MAI on a net book value the Company has a negative book value, and, therefore, the value represented by the Investor Group's consideration price of \$.10 per share was significantly greater than the net book value of the Company.

Other Factors. Marshall & Stevens reviewed management's information with regards to its prior unsuccessful attempts to sell, finance and restructure MAI.

Based upon its review, Marshall & Stevens concluded in its opinion that as of the date of its opinion that, "the consideration of \$0.10 per share of Common Stock to be offered in the Management Equity/Conversion Transaction is fair to the public shareholders of MAI (exclusive of the Investor Group), from a financial point of view" pursuant to the terms and conditions set forth in their opinion.

While the foregoing summary describes all material analyses and factors reviewed by Marshall & Stevens, it does not purport to be a complete description of the presentations by Marshall & Stevens to the Special Committee or the analyses performed by Marshall & Stevens in arriving at its opinion. The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Marshall & Stevens believes that its analyses must be considered as a whole and that selecting portions of its analyses and of the factors considered by it, without considering all analyses and factors, could create a misleading view of the processes underlying the opinion. In addition, Marshall & Stevens may have given various analyses more or less weight than other analyses, and may have deemed various assumptions more or less probable than other assumptions, so that the range of valuations resulting from any particular analysis described above should not be taken to be Marshall & Stevens's view of the actual value of MAI. In performing its analyses, Marshall & Stevens made numerous assumptions with respect to industry performance, general business and economic conditions and other matters, many of which are beyond the control of MAI. The analyses performed by Marshall & Stevens are not necessarily indicative of actual values or actual future results, which may be significantly more or less favorable than suggested by such analyses. The analyses performed were prepared solely as part of Marshall & Stevens's analysis of the fairness of the Management Equity/Conversion Transaction, from a financial point of view, to the shareholders of MAI, and were provided to the Special Committee solely in connection with the delivery of the Marshall & Stevens opinion. The engagement letter between the Special Committee and Marshall & Stevens provides that Marshall & Stevens will be paid a non-refundable cash fee plus out-of-pocket expenses, and that the Company will indemnify Marshall & Stevens against certain liabilities, including liabilities under the federal securities laws. Marshall & Stevens' fee is not contingent on its opinion relating to the Management Equity/Conversion Transaction or approval of the transaction by the Company's shareholders.

Disclosure of Financial Interests of Special Committee Members

As of March 1, 2004, the Special Committee members each held options to purchase 12,500 shares of MAI common stock and each are the beneficial owners of 50,000 shares of MAI common stock. Mr. Ross' son is employed by (but not an executive officer of) CIM Group, an affiliate of the Company.

Company Indebtedness after the Management Equity/Conversion Transaction

After the closing of the Management Equity/Conversion Transaction, the Company's long term secured indebtedness will be as follows (based upon outstanding balances as of March 1, 2004):

WAMCO (successor-in-interest to Coast Business Credit): \$1,223,000

Canyon Capital Advisors LLC group: \$5,662,000

CSA Private Limited: \$500,000

Totals: \$7,385,000

The total amount of long term indebtedness after the closing of the Management Equity/Conversion Transaction represents a reduction of indebtedness of approximately \$3.2 million.

Interests of Certain Persons in the Management Equity/Conversion Transaction Change of Control

After the closing of the Management Equity/Conversion Transaction, the Company's outstanding shares of common stock will be increased from 14,675,752 to 56,617,312. As a companion proposal, Proposal 3 herein, subject to shareholder approval, the Company's authorized capital stock will be increased by 75,000,000 shares to accommodate the Management Equity/Conversion Transaction.

In considering the Management Equity/Conversion Transaction and the fairness of the consideration to be received in the Management Equity/Conversion Transaction, you should be aware that certain of our executive officers and directors have interests in the Management Equity/Conversion Transaction which are described below and which may present them with certain actual or potential conflicts of interest. As of March 26, 2004, the directors and executive officers participating in the Investor Group beneficially owned 2,031,770 MAI shares, or

Edgar Filing: MAI SYSTEMS CORP - Form PRE 14A

approximately 13.67% of the outstanding shares of Common Stock, which includes 1,202,345 shares issuable upon exercise of outstanding stock options and warrants that are or will be exercisable by May 25, 2004. After completion of the Management Equity/Conversion Transaction, the Insider Group together will own more than a majority of the outstanding MAI shares and, if acting together, will be able to control all matters requiring approval of MAI's shareholders, including the election of directors. The ownership position of senior management, including officers and directors, and other members of the Investor Group will increase from 2,709,525 shares, or 18.5% of the 14,675,752 outstanding shares, to 47,084,418 shares, or 83.2% of the outstanding shares. The increased share ownership by the Investor Group will result in majority control by the Investor Group and represents a 'change in control' of the Company's ownership.

The following table sets forth the beneficial ownership of Common Stock after the closing of the Management Equity/Conversion Transaction, by each participating director, executive officer and the other participating party, and by the Investor Group as a whole:

Name	Number of Shares Beneficially Owned	Approximate Percentage Owned(1)
<i>Investor Group Individual Ownership:</i>		
Canyon Capital Advisors LLC group	1,655,100	2.92%
Richard S. Ressler	866,100	1.56%
W. Brian Kretzmer	686,033	1.21%
James W. Dolan	291,667	0.52%
Sub-total of Investor Group Individual Ownership	3,518,900	6.21%
<i>Investor Group Group Ownership(2):</i>		
	44,374,893	78.38%
Totals:	47,893,793	84.59%

(1) For each individual and group in the table, percentage ownership is calculated by dividing the number of shares beneficially owned by such person, plus shares acquirable on the Record Date by such person or group, by the sum of 14,675,752 shares of Common Stock outstanding on the Record Date, plus the number of shares of Common Stock acquirable on the Record Date by such person or group. In addition, individual beneficial ownership will be increased by each individual's proportional interest in the Investor Group. At this time, such proportional interest is not yet finalized, but for the three named individuals this is anticipated to be no less than 62.5% in the aggregate.

(2) Of this amount, 41,941,560 shares will be restricted shares.

Future Plans for MAI's Business

The Investor Group has advised our Board that, assuming completion of the Management Equity/Conversion Transaction, they have no present intention of causing us to change our fundamental business, to sell or otherwise dispose of us or all or any material part of our business, or to merge, liquidate or otherwise wind-up our business. Nevertheless, the Investor Group may initiate a review of our assets, corporate structure, capitalization, tax status, operations, properties and personnel to determine what changes, if any, would be desirable to enhance our operations and increase shareholder value following completion of the Management Equity/Conversion Transaction. It is anticipated that the persons who are presently our officers will continue in their same positions following completion of the Management Equity/Conversion Transaction.

Impact of the Management Equity/Conversion Transaction on the Company's Shareholders

Of the 56,617,312 shares of Common Stock outstanding after the closing of the Management Equity/Conversion Transaction, excluding the shares to be issued to the Investor Group through the private placement and conversion of the Company indebtedness acquired from CSA,

Edgar Filing: MAI SYSTEMS CORP - Form PRE 14A

14,675,752 shares are, or will be, freely tradable without restriction, unless held by our affiliates. The remaining 41,941,560 shares of common stock held by the Investor Group or existing stockholders are restricted securities and may be resold in the public market only if registered or pursuant to an exemption from registration. Some of these shares may be resold under Rule 144. Existing shareholders will experience significant dilution from the sale of shares of our Common Stock in the private placement to the Investor Group and from the conversion of the Company indebtedness acquired by the Investor Group. As a result, our net income per share is likely to decrease in future periods, and the market price of our common stock could decline significantly.

The net tangible net book value of the Company as of December 31, 2003 was a deficit of \$17,408,000 or (\$1.20) per share of Common Stock. Net tangible book value per share is determined by dividing the net tangible book value of the Company (total tangible assets less total liabilities) by the number of outstanding shares of Common Stock at that date. After giving effect to the Management Equity/Conversion Transaction, the Company's pro forma net tangible book value at December 31, 2004 would have been a deficit of \$13,361,000 or (\$0.24) per share.

As a result of the transactions contemplated by this Proposal 2, the Company may be viewed as less likely to be the target of a tender offer or other takeover attempt due to the concentration of ownership in the hands of existing management.

Pro Forma Financial Information Showing Effect of Management Equity/Conversion Transaction

The unaudited pro forma consolidated balance sheet set forth below give effect to the Management Equity/Conversion Transaction as if it had occurred on December 31, 2003. The unaudited pro forma consolidated statement of operations gives effect to the Management Equity/Conversion Transaction as if it had occurred on January 1, 2003. The pro forma financial information does not purport to represent what the Company's financial position or results of operations would have actually been had the Management Equity/Conversion Transaction occurred at such dates or to project the Company's financial position or results of operations for any future date or period. In addition, it does not incorporate any benefits from anticipated cost savings or revenue growth from the Management Equity/Conversion Transaction.

The pro forma adjustments do not include the effect of purchase accounting adjustments that ultimately may be recorded in connection with the Management Equity/Conversion Transaction. If purchase accounting were to be applied to this transaction, the Company's Stockholders' Deficiency would be reduced and intangible assets would be increased by approximately \$15 million each, the amount of which would be subject to a third party valuation. Additionally, the Company would be

22

required to amortize any identifiable intangible assets recorded in connection with purchase accounting over their respective useful lives which would reduce pro forma net income and income per share in the future.

Incorporation by Reference of Financial Information Required by Item 13(a) of SEC Schedule 14A

A copy of the Company's Annual Report to Stockholders for its fiscal year ended December 31, 2003, accompanies this Proxy Statement. The information required by Item 13(a) of SEC Schedule 14A that is contained in the Company's Annual Report, including the Company's financial statements and other information responsive to Items 302 through 305 of Regulation S-X, are hereby incorporated by reference in this Proxy Statement.

Required Vote and Recommendation

Approval of this Proposal 2 requires the affirmative vote of the holders of a majority of shares of Common Stock present or represented and entitled to vote at the Annual Meeting. Abstentions and broker non-votes will be counted as present for purposes of determining whether a quorum is present. Broker non-votes, however, will not be counted either in favor of or against the proposal, but abstentions will be considered as having voted against the Proposal.

THE SPECIAL COMMITTEE OF THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" PROPOSAL 2, TO APPROVE THE MANAGEMENT EQUITY/CONVERSION TRANSACTION

PROPOSAL 3

APPROVAL OF AMENDMENT OF THE COMPANY'S AMENDED AND RESTATED CERTIFICATE OF INCORPORATION TO INCREASE AUTHORIZED SHARES OF COMMON STOCK

General

Under the Company's present capital structure, the Company is authorized to issue 24,000,000 shares of Common Stock, par value \$0.01 per share, and 1,000,000 shares of Preferred Stock, par value \$0.01 per share. The Board believes the number of authorized shares of Common Stock is inadequate for the present and future needs of the Company. Therefore, the Board has unanimously approved an amendment of the Company's Amended and Restated Articles of Incorporation to increase the aggregate number of shares of Common Stock authorized for issuance by 75,000,000 shares, to an aggregate of 99,000,000 shares authorized. The text of the forms of proposed amendment to our articles of incorporation is attached to this proxy statement as **Appendix B**.

The authorization of an additional 75,000,000 shares of Common Stock will allow the Company to convert \$3,194,156 of Company indebtedness to shares of 31,941,560 Common Stock as called for by Proposal 2, and still provide a reserve of 42,382,688 additional shares of Common Stock to general corporate purposes. This increase gives the Board the ability to issue such shares of Common Stock from time to time as the Board deems necessary. The Board of Directors, however, believes that if an increase in the authorized number of shares of Common Stock were to be postponed until a specific need arose, the delay and expense incident to obtaining the approval of the Company's shareholders at that time could significantly impair the Company's ability to consummate an acquisition or to meet financing requirements or other objectives. The additional Common Stock would be available for issuance by the Board without any future action by the shareholders, unless such action were specifically required by the Company's Amended and Restated Certificate of Incorporation, applicable law or the rules of any stock exchange or quotation system on which the Company's securities may then be listed.

The proposed increase in the authorized number of shares of Common Stock could have a number of effects on the Company's shareholders, depending upon the exact nature and circumstances of any actual issuances of the authorized shares. The increase could have an anti-takeover effect, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover of the Company more difficult. For example, additional shares could be issued by the Company to dilute the stock ownership or voting rights of persons seeking to obtain control of the Company. Similarly, the issuance of additional shares to certain persons allied with the Company's management could have the effect of making it more difficult to remove the Company's current management by diluting the stock ownership or voting rights of persons seeking to cause such removal. In addition, an issuance of additional shares by the Company could have an effect on the potential realizable value of a shareholder's investment. In the absence of a proportionate increase in the Company's earnings and book value, an increase in the aggregate number of the Company's outstanding shares of Common Stock caused by the issuance of the additional shares would dilute the earnings per share and book value per share of all outstanding shares of the Company's capital stock. If such factors were reflected in the price per share of Common Stock, the potential realizable value of a shareholder's investment could be adversely affected.

Required Vote and Recommendation

Approval of this Proposal 3 requires the affirmative vote of the holders of a majority of the outstanding shares of Common Stock entitled to vote at the Annual Meeting (e.g. a total of at least 7,337,876 shares). Abstentions and broker non-votes will be counted as present for purposes of determining whether a quorum is present. Abstentions and broker non-votes, however, have the same effect as votes against the proposal.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" PROPOSAL 3, THE AMENDMENT OF THE COMPANY'S AMENDED AND RESTATED CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF SHARES OF COMMON STOCK BY 75,000,000

26

PROPOSAL 4

APPROVAL OF AN AMENDMENT TO THE 2001 RESTRICTED STOCK PLAN

General

At the Annual Meeting, the stockholders are being asked to ratify an amendment to the Company's 2001 Restricted Stock Plan (the "2001 Restricted Stock Plan"), in order to provide for an increase in the authorized shares from 1,250,000 to 5,500,000 restricted shares of Common Stock to officers, directors and consultants of the Company. The text of the proposed amended and restated 2001 Restricted Stock Plan is set out in **Appendix C**.

The 2001 Restricted Stock Plan is structured to allow the Board of Directors, the Compensation Committee or other authorized committee designated by the Board of Directors broad discretion in determining the participants and the extent of their participation in the 2001 Restricted Stock Plan for the purposes of attracting, retaining and motivating the best available talent for the successful conduct of the Company's business.

Summary of the 2001 Restricted Stock Plan

The essential features of the 2001 Restricted Stock Plan are outlined below.

Purpose

The purposes of the 2001 Restricted Stock Plan are to advance the interests of the Company and its stockholders by providing significant incentives to selected officers and directors of the Company who contribute and are expected to contribute to the success of the Company.

Eligibility

Key management, officers and directors whom the Board of Directors, the Compensation Committee or other committee designated by the Board of Directors to administer the 2001 Restricted Stock Plan deems to be of special importance to the growth and success of the Company are eligible participants in the plan.

Administration

The 2001 Restricted Stock Plan is administered by the Board of Directors, the Compensation Committee or such other committee (which are collectively referred to herein as the "Committee") as may be appointed by the Board of Directors of the Company, which committee shall consist of not less than two members, all of whom are members of the Board of Directors. The Committee shall have full and final authority (i) to interpret the 2001 Restricted Stock Plan and option agreements promulgated thereunder; (ii) establish rules and regulations concerning the 2001 Restricted Stock Plan; (iii) make all determinations necessary or advisable for the administration of the 2001 Restricted Stock Plan; and (iv) correct defects or inconsistencies between any option agreements and the 2001 Restricted Stock Plan. Committee members receive no additional compensation for their services in connection with the 2001 Restricted Stock Plan, but do receive the fee of \$1,000 for every Compensation Committee meeting they attend. See "Election of Directors-Director Compensation."

Restricted Stock

Edgar Filing: MAI SYSTEMS CORP - Form PRE 14A

The 2001 Restricted Stock Plan permits the granting of restricted shares of the Common Stock of the Company. The shares will be issued as "restricted stock" within the meaning of Rule 144 of the Securities Act of 1933, as amended. The Committee shall have the discretion to determine what terms and conditions shall apply, including the imposition of a vesting schedule.

27

Under this amended 2001 Restricted Stock Plan, in the event of termination of a recipient's employment all unvested restricted shares therefore awarded under this amended Restricted Stock Plan shall be forfeited and returned to the Company and become available for award to another participant.

Stock granted pursuant to the 2001 Restricted Stock Plan become immediately vested without any further action upon the occurrence of a "change of control" as that term is defined in the plan.

The granting of stock under the 2001 Restricted Stock Plan by the Committee is subjective and is dependent upon, among other things, an employee's and director's individual performance. Therefore, future option grants to executive officers, managers or directors under the 2001 Restricted Stock Plan are not determinable. See "Participation in the 2001 Restricted Stock Plan" below.

Adjustments for Stock Dividends, Mergers and Other Events

The Committee is authorized to make appropriate adjustments in connection with outstanding awards under the 2001 Restricted Stock Plan to reflect stock dividends, stock splits and similar events.

Amendment and Termination

The Board may amend, alter, or discontinue the 2001 Restricted Stock Plan at any time, but such amendment, alteration or discontinuation shall not adversely affect any option then outstanding without the participant's consent.

Subject to the specific terms of the 2001 Restricted Stock Plan described above, the Committee may accelerate any award or option or waive any conditions or restrictions pertaining to such award or option at any time.

In addition, no amendment which (i) increases the aggregate number of shares of Common Stock which may be issued pursuant to the 2001 Restricted Stock Plan, (ii) extends the period during which options may be granted pursuant to the 2001 Restricted Stock Plan, (iii) changes the class of individuals eligible to be granted options, (iv) materially increases the benefits provided by the 2001 Restricted Stock Plan, or (v) has the effect of any of the above, shall be effective unless and until the same is approved by the affirmative vote of the holders of a majority of the outstanding shares of the Company's voting stock, either in person or by proxy, in accordance with the applicable provisions of the charter and bylaws of the Company and applicable State law.

Certain United States Federal Income Tax Information

The following is only a brief summary of the effect of federal income taxation upon the recipient and the Company under the 2001 Restricted Stock Plan based upon the Code. This summary does not purport to be complete and does not discuss the income tax laws of any municipality, state or country outside the United States in which an optionee may reside.

A recipient will not recognize any taxable income at the time he or she is granted shares of restricted stock, until such time as the shares are vested. At that time, the recipient will recognize ordinary income measured by the then fair market value of the shares. Upon resale of such shares by the recipient, any difference between the sales price and the grant price, may be treated as capital gain (or loss). The Company will be entitled to a tax deduction in the same amount as the ordinary income recognized by the recipient.

A recipient may make an election under Internal Revenue Service Sec. 83(b) which election allows the recipient of nonvested Common Stock who received such property in return for services performed to value and include in gross income the excess of fair market value of such Common Stock, at the date of transfer, over the amount paid. The recipient can make this election even if such recipient has paid full value for the Common Stock. If the property is subsequently forfeited, the only loss allowable

28

Edgar Filing: MAI SYSTEMS CORP - Form PRE 14A

as a deduction is the amount paid for the Common Stock, not any amounts previously included in gross income by virtue of the election. The election must be made within 30 days of the receipt of the Common Stock.

Participation in the 2001 Restricted Stock Plan

The grant of options under the 2001 Restricted Stock Plan to officers and directors is subject to the discretion of the Committee. As of the date of this proxy statement, there have been grants of awards to two officers and four directors representing 600,000 shares of Common Stock. Future awards are not determinable. All officers, directors and consultants are eligible to participate in the 2001 Restricted Stock Plan. The following table sets forth information with respect to the grant of restricted stock to the Named Officers and to all current executive officers as a group:

determining whether a quorum is present. Broker non-votes, however, will not be counted either in favor of or against the proposal, but abstentions will be considered as having voted against the Proposal.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" PROPOSAL 4, THE ADOPTION OF THE AMENDMENT TO THE 2001 RESTRICTED STOCK PLAN

PROPOSAL 5

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

On November 14, 2002, we dismissed KPMG LLP as our independent auditors and on December 9, 2002 we engaged the services of BDO Seidman LLP as our new independent auditors for the fiscal year ending December 31, 2002. The Audit Committee recommended, and the Board of Directors approved, the dismissal of KPMG LLP and the appointment of BDO Seidman LLP. The Company stated in a Form 8-K filed with the Securities and Exchange Commission ("SEC") on November 21, 2002 that "During the two fiscal years ended December 31, 2000 and December 31, 2001, and the subsequent interim periods to the date of KPMG LLP's dismissal, there were no disagreements between the Company and KPMG LLP on any matters of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreement(s) if not resolved to the satisfaction of KPMG LLP would have caused that firm to make reference in connection with its reports to the subject matter of the disagreement(s)." Because of a letter subsequently submitted by KPMG LLP to the SEC on December 4, 2002, the Company filed Form 8-K/A on December 6, 2002 and stated that "to the extent (our) former accountant's December 4, 2002 letter implies a disagreement prior to dismissal, the Registrant is unable to agree with the former accountant."

The Board of Directors has selected BDO Seidman LLP to audit our financial statements for the fiscal year ending December 31, 2003. The decision of the Board of Directors to appoint BDO Seidman LLP was based on the recommendation of the Audit Committee. Before making its recommendation to the Board of Directors, the Audit Committee carefully considered that firm's qualities as independent auditors. This included a review of the qualifications of the engagement team, the quality control procedures the firm has established, and any issues raised by the most recent quality control review of the firm; as well as its reputation for integrity and competence in the fields of accounting and auditing. The Audit Committee's review also included matters required to be considered under the SEC's Rules on Auditor Independence, including the nature and extent of non-audit services, to ensure that they will not impair the independence of the accountants. The Audit Committee expressed its satisfaction with BDO Seidman LLP in all these respects.

Although ratification by stockholders is not required by law, the Board of Directors has determined that it is desirable to request approval of this selection by the stockholders. Notwithstanding its selection, the Board of Directors, in its discretion, may appoint new independent auditors at any time during the year if the Board believes that such a change would be in the best interest of MAI Systems and its stockholders. If the stockholders do not ratify the appointment of BDO Seidman LLP, the Board may reconsider its selection.

The Board of Directors expects that representatives of BDO Seidman LLP will be present at the Annual Meeting to respond to appropriate questions and to make a statement if they so desire.

The Audit Committee has established rules governing our use of BDO Seidman LLP for non-audit services.

The Audit Committee has determined that the accounting advice and tax services provided by BDO Seidman LLP is compatible with maintaining BDO Seidman LLP's independence.

31

Auditor Fee Disclosure

The Audit Committee is directly responsible for determining the compensation of the independent auditors and has established pre-approval policies and procedures for all BDO Seidman LLP. These pre-approval policies and procedures are attached as part of the Audit Committee Charter, **Appendix A**, to this Proxy Statement. All work was pre-approved by the Audit Committee. When considering matters that could bear on the independence of BDO Seidman LLP, the Committee takes into account both the nature of any potential work performed and the related fees. The Audit Committee has considered whether the provision of the non-audit services described above is compatible with maintaining BDO Seidman's independence and has concluded that it is compatible. The Committee aggregates all audit-related and recurring, non-audit costs when evaluating the potential impact of BDO Seidman fees for discretionary projects on auditor independence.

Required Vote and Recommendation

Ratification of BDO SEIDMAN LLP as the Company's auditors requires the affirmative vote of the holders of a majority of shares of Common Stock present or represented and entitled to vote at the Annual Meeting. chairperson of the Audit Committee or any other member of the Audit Committee designated by the Audit Committee to make this report.

The Audit Committee shall designate one member of the Committee as its chairperson. In the event of a tie vote on any issue, the chairperson's vote shall decide the issue. The Audit Committee shall have the resources and authority appropriate to discharge its duties and responsibilities, including the authority to select, retain, terminate, and approve the fees and other retention terms of special or independent counsel, accountants or other experts and advisors, as it deems necessary or appropriate, without seeking approval of the Board or management

The Company shall provide for appropriate funding, as determined by the Audit Committee, in its capacity as a committee of the Board, for payment of:

Ordinary administrative expenses of the Audit Committee that are necessary or appropriate in carrying out its duties.

G. Pre-Approval Policies and Procedures

The Company's Audit Committee is required to pre-approve the audit and non-audit services performed by the independent auditors in order to assure that the services provided do not impair the auditor's independence. Unless a type of service to be provided by the independent auditors has received general pre-approval pursuant to this policy, it will require separate pre-approval by the Audit Committee.

A-6

Annually, the Audit Committee reviews and pre-approves the categories and related services along with an estimated fee for each category. Separate pre-approval is required in those circumstances where the estimated actual fee for the approved category exceeds the pre-approved fee.

The Audit Committee will annually review and revise as needed the list of pre-approved categories and related services.

The Audit Committee has delegated pre-approval authority to its Chairman. The Chairman will report any pre-approval decisions to the Audit Committee at its next scheduled meeting.

The Audit Committee will not delegate its responsibilities to pre-approve services performed by the independent auditors to management.

The annual audit services engagement terms and fees will be subject to the specific pre-approval of the Audit Committee. Any changes in terms, conditions and fees resulting from a change in scope, company organization or other matters, will require pre-approval of the Audit Committee.

In addition to the annual audit services engagement, the Audit Committee may grant pre-approval of all other services when the independent auditors are deemed to be the best provider of the service. These may include audit related services, tax services, and all other services. The Audit Committee may add to or subtract from the list of general pre-approved services from time to time, based on subsequent determinations. The independent auditors have reviewed this policy and believe that implementation of the policy will not adversely affect the auditor's independence.

Requests or applications to obtain pre-approval for services or to provide services that require separate approval by the Audit Committee will be submitted to the Audit Committee through the office of the Company's Chief Financial Officer. The request must include an explanation of services in detail in order for the Audit Committee to determine that the request or application is consistent with the Securities and Exchange Commission's rules on auditor independence.

Approval will not be granted for prohibited services as defined by the Securities and Exchange Commission.
