GENERAL INFORMATION

This proxy statement is furnished in connection with the solicitation on behalf of the Board of Directors (the "Board") of Tupperware Brands Corporation (the "Company") of proxies to be voted at the annual meeting of shareholders of the Company to be held on May 14, 2008, and at any adjournment thereof. A notice regarding the availability of proxy materials for the annual meeting is being mailed to shareholders on or about March 28, 2008.

Voting at the Meeting

The Board has fixed the close of business on March 17, 2008 as the record date for determining shareholders entitled to vote at the meeting. On that date there were outstanding 61,671,578 shares of the Company's common stock, each of which will be entitled to one vote. A majority of the shares outstanding and entitled to vote at the meeting will constitute a quorum for the transaction of business.

Shares will be voted in accordance with the instructions indicated in a properly executed proxy. If no instructions are indicated, such shares will be voted as recommended by the Board. A shareholder who has given a proxy may revoke it by voting in person at the meeting, or by giving written notice of revocation or a later-dated proxy to the Corporate Secretary of the Company at any time before the closing of the polls at the meeting. The Company has appointed an officer of Wells Fargo Bank, N.A., transfer agent for the Company, as the independent inspector to act at the meeting.

The Company's Amended and Restated By-Laws require the affirmative vote of the holders of a majority of the votes cast at the meeting for the election of directors in uncontested elections and for the ratification of the appointment of the independent registered public accounting firm. The Company's Restated Certificate of Incorporation and applicable Delaware law require the affirmative vote of a majority of the shares of common stock outstanding to approve the amendment of the Certificate of Incorporation to provide for the annual election of directors. Abstentions are not treated as votes cast for purposes of director elections or the ratification of the appointment of the independent registered public accounting firm. However, an abstention will have the same effect as a vote "against" the proposed amendment to the Restated Certificate of Incorporation.

Brokers who are registered shareholders owning shares on behalf of beneficial owners are required under stock exchange rules to obtain the instructions of beneficial owners before casting a vote on certain matters. In the absence of such instructions the broker may not vote the shares on such matters, and such a situation is referred to as a "broker non-vote." No voting items for this meeting involve the potential for broker non-votes.

1. Election of Directors

Board of Directors

The Board is currently divided into three classes of directors. At each annual meeting, members of one of the classes, on a rotating basis, are elected for a three-year term. However, the Company seeks the approval of shareholders in voting matter number three to provide for the annual election of directors, so that commencing in 2009, directors who stand for election will be elected to serve a one-year term. Assuming shareholder approval to elect all directors on an annual basis occurs at this meeting, this will be the last class of directors elected to a three-year term. The Board has nominated four directors for re-election at this meeting, each for a term expiring in 2011. All of the nominees are currently directors of the Company. They are Catherine A. Bertini, Clifford J. Grum, Angel R. Martinez and Robert J. Murray.

Unless otherwise specified, proxy votes will be cast for the election of all of the nominees as directors. If any such person should be unavailable for election, resign or withdraw, the Board has authority to either reduce the number of directors accordingly or designate a substitute nominee. In the latter event, it is intended that proxy votes will be cast for the election of such substitute nominee. Shareholder nominations

of persons for election as directors are subject to the notice requirements described under the caption "Other Matters" appearing later in this proxy statement.

The following pages contain information concerning the nominees and the directors whose terms of office will continue after the meeting. Unless otherwise indicated, each such person has served for at least the past five years in the principal business position currently or most recently held.

Vote Required

To be elected, a nominee must receive the affirmative vote of a majority of the votes cast in his or her election, which means that he or she will be elected only if the votes cast "for" his or her election exceed the votes cast "against" his or her election. Even if a nominee is not re-elected, he or she will remain in office until a successor is elected or until his or her earlier resignation or removal. The Company's By-laws specify that a director who is not re-elected by the required majority vote shall promptly tender his or her resignation to the Board of Directors, which may be conditioned on acceptance by the Board of Directors. If a resignation is so conditioned on acceptance by the Board of Directors, the Nominating and Governance Committee shall make a recommendation to the Board of Directors on whether to accept or reject such resignation, or whether other action should be taken. The Board of Directors shall act on such resignation taking into account the recommendation of the Nominating and Governance Committee and shall publicly disclose its decision and the reasons for it within 90 days from the date the Inspector or Inspectors of Election certify the results of the applicable election. The director who tenders his or her resignation shall not participate in the decisions of the Nominating and Governance Committee or the Board of Directors that concern such resignation.

THE BOARD RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF ALL OF THE NOMINEES TO THE BOARD OF DIRECTORS.

Board Committees

The Audit, Finance and Corporate Responsibility Committee, which held seven meetings in 2007, reviews the scope and results of the audit by the independent auditors; evaluates, selects and replaces the independent auditors and has approval authority with respect to services provided by the independent auditors and fees therefor. The Committee monitors the independent registered public accounting firm's relationship with and independence from the Company. In addition, it reviews the adequacy of internal control systems and accounting policies, as well as reviewing and discussing with management and the independent auditors the Company's financial statements and recommending to the Board inclusion of the audited annual financial statements in the Company's Annual Report on Form 10-K filed with the United States Securities and Exchange Commission. It also reviews and makes recommendations to the Board of Directors concerning the Company's financial structure and financing needs and activities, and makes determinations regarding related party transactions, if any. Members of this Committee are Mr. Cloninger (Chairperson), Ms. Bertini, Dr. Bornstein, and Messrs. Grum, Martinez and Murray. All such members are independent in accordance with New York Stock Exchange listing standards and the Board has determined that one member of this Committee (Mr. Grum) is an audit committee financial expert as defined by applicable rules. None of the members of this Committee serve on more than three audit committees.

The Compensation and Management Development Committee, which held four meetings in 2007, makes compensation recommendations to the Board for the Company's senior management, including the Chief Executive Officer. It also directs the administration of and makes various determinations under management incentive plans, appoints members of senior management to have responsibility for the design and administration of employee benefit plans, reviews employee benefit plan investment performance and policies, and ensures that the Company has a system of developing and evaluating key executives for management succession purposes. Members of this Committee are Ms. Roché (Chairperson), Ms. Szostak and Messrs. Lee, Marbut, Parker and Spainhour. All such members are independent in accordance with New York Stock Exchange listing standards. The Compensation and Management Development Committee of the Board of Directors establishes the executive compensation objectives of the Company, and administers the Company's compensation program within the context of those objectives. This Committee approves salary and incentive structures for executive management, specifically approves salaries and incentive programs for corporate officers, and recommends for the approval of the full Board of Directors the salaries and incentive programs for those corporate officers at or above the level of senior vice president, including each of the named executive officers. While this Committee may specifically set the salary and incentive program for any key executive below the level of corporate officer, the Committee as a general matter delegates this role to senior management. The Company's Executive Vice President and Chief Human Resources Officer and Chief Executive Officer recommend all officer-level compensation actions, except that the chief executive officer is not involved in any recommendation concerning his own compensation. The Chief Executive Officer's compensation is recommended by the Committee after consultation with its compensation consultant, which it directly engages, as authorized by its charter. In 2007, the Committee engaged the services of Hewitt & Associates LLC to provide a variety of services, including evaluations of performance target practices and executive compensation trends.

The Nominating and Governance Committee, which met twice in 2007, identifies and reviews qualifications of and recommends to the Board candidates for election as directors of the Company, and also acts on other matters pertaining to Board membership. This Committee evaluates and determines the criteria for selection of a director candidate in the context of the continuing makeup of the Board of Directors based on the facts and circumstances of the Company. Once such criteria have been determined, the Committee conducts a search for qualified candidates, which may include the use of third-party search organizations or solicitations of nominee suggestions from management or the non-management members of the Board. The Committee's criteria for consideration as a candidate for selection include, at a minimum, experience in managing a consumer products business or an international business or organization, experience as a chief executive officer, chief operating officer or other senior position with a public

company, or possession of financial expertise. After compiling background material on potential nominee candidates, management provides an analysis against Committee-established criteria and promising candidates are interviewed by the chairperson of the committee, by management and, if appropriate, by other independent directors. As part of this process, a determination is made relating to a candidate's possible schedule conflicts, conflicts of interest, concerns over independence and financial literacy or expertise. If a third-party search firm is paid a fee for a search, it identifies potential candidates, meets with appropriate members of the Committee and management to clarify issues and requirements, communicates with candidates, arranges for interviews with management and directors, and prepares materials for consideration by the Committee. The Committee also considers any recommendations of shareholders as to candidates for Board membership. Any shareholder who desires to propose to the Committee a candidate for Board membership should send to the attention of the Corporate Secretary of the Company, 14901 S. Orange Blossom Trail, Orlando, Florida 32837, a letter of recommendation containing the name and address of the proposing shareholder and the proposed candidate, a written consent of the proposed candidate and a complete business, professional and educational background of the proposed candidate. Candidates recommended by shareholders following this process will be evaluated by the Committee using the same criteria used to evaluate other director candidates. The Committee also evaluates the corporate governance characteristics of the Company and makes recommendations to the Board of Directors in regard thereto. This Committee also determines compensation of non-management directors of the Company. No aspect of this determination is delegated to management, although the Committee does request the recommendation of the Company's chief executive officer. This Committee is authorized to engage directly a compensation consultant to make recommendations regarding director compensation. Members of this Committee are Mr. Parker (Chairperson), Ms. Roché, Ms. Szostak, and Messrs. Cloninger, Grum and Murray, and all such members are independent in accordance with New York Stock Exchange listing standards. Mr. Parker also serves as the Company's Presiding Director.

The Executive Committee, which did not meet in 2007, has most of the powers of the Board and can act when the Board is not in session. Members of this Committee are Mr. Goings (Chairperson), Ms. Roché and Messrs. Cloninger, Grum and Parker.

Board Meetings and Annual Meeting of Shareholders and Directors' Attendance

There were six Board meetings held in 2007. Except for Mr. Lee, who was ill during the year, no director attended fewer than 75 percent of the aggregate of Board meetings and committee meetings on which the director served as a committee member. The Board has adopted Corporate Governance Principles which are set forth on the Company's website and which provide, in part, that directors should be available to attend scheduled and special Board and committee meetings on a consistent basis and in person, as well as to attend the annual meeting of shareholders. Twelve of the Board's thirteen directors attended the Annual Meeting of Shareholders in 2007.

Corporate Governance

The Board has established corporate governance guidelines, a code of conduct for its officers, employees and directors, a code of ethics for financial executives and charters for the key committees of its Board of Directors. The codes apply to the Company's principal executive officer, principal financial officer and principal accounting officer, among others. These corporate governance documents may be viewed by accessing the Company's website at www.tupperwarebrands.com. Copies of these documents may also be obtained through a request in writing to the Corporate Secretary's Department, Tupperware Brands Corporation, P.O. Box 2353, Orlando, Florida 32802-2353, USA. The Company will, to the extent required by law or regulation, disclose on its website if and when there are any waivers of or amendments to its code of conduct or code of ethics.

In addition, the Company has implemented written, telephonic and electronic means for interested parties to communicate directly with the Company's compliance officers or with the non-management

members of the Company's Board of Directors. Communications from interested parties to non-management directors are routed to the chairperson of the Audit, Finance and Corporate Responsibility Committee of the Board of Directors, who then determines whether such communication shall be distributed to all non-management directors, make such distribution, if so determined, and oversee any reaction to such communications by the Board of Directors, if appropriate. Instructions regarding the various means to communicate with the Company's compliance officers or the Board of Directors are located at TupperwareBrands.com\Investor Relations\Corporate Governance\Code of Conduct. These procedures allow for such communications to be confidential, and if desired, anonymous. Interested parties may contact the Company's non-management directors by writing to Board of Directors, c/o Tupperware Brands Corporation, Post Office Box 2353, Orlando, Florida 32802-2353, USA. The website also includes an online form that may be used to communicate electronically. Lastly, communication may be made telephonically via a confidential toll free hotline at 877-217-6220 in the United States and Canada or by calling collect to 770-582-5215 from all other locations. If the operator asks for a name when calling collect, to remain anonymous, the caller may respond "Tupperware". The hotline is staffed by multi-lingual professionals available through an independent company called The Network. The caller may direct the report to the Board of Directors by so advising The Network.

Each regularly-scheduled meeting (excluding telephonic meetings) of the Board of Directors includes an executive session of the non-management members of the Board of Directors. The Company has established the position of Presiding Director, which position is presently filled by David R. Parker. The Presiding Director acts as the chairperson of the executive sessions of the non-management members of the Board and currently serves as the Chair of the Nominating and Governance Committee, in addition to having other duties.

The Board of Directors has affirmatively determined that each of the following non-management members of the Board (or entity with which such director is affiliated) has no material relationship with the Company, taking into consideration all relevant facts and circumstances, including without limitation, commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships and the categorical standard discussed below, and therefore that each such member is independent, in accordance with New York Stock Exchange listing standards: Catherine A. Bertini, Rita Bornstein, Kriss Cloninger, III, Clifford J. Grum, Joe R. Lee, Bob Marbut, Angel R. Martinez, Robert J. Murray, David R. Parker, Joyce M. Roché, J. Patrick Spainhour and M. Anne Szostak. The Board of Directors has adopted a categorical standard which permits a transaction, relationship or arrangement between a director and the Company to exist in which the annual financial amount involved does not exceed the greater of \$1 million or two percent of the consolidated gross revenue of the Company or the organization with whom the non-management director is affiliated, whichever is lower. Any such permitted transaction, relationship or arrangement shall be deemed immaterial and shall not constitute a conflict of interest preventing a determination that a director is independent. In determining that Ms. Roché and Dr. Bornstein are independent, the Board of Directors considered the financial contributions by the Company to Girls, Inc. and Rollins College, respectively.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers and directors, and persons who own more than ten percent of the common stock of the Company, to file with the Securities and Exchange Commission reports relating to their ownership of the Company's common stock and changes in such ownership. Based solely on a review of the reports that have been filed by or on behalf of such persons and written representations from the Company's directors and executive officers that no other reports were required, the Company believes all Section 16(a) filing requirements applicable to its officers, directors and greater than 10 percent beneficial owners were complied with for the Company's 2007 fiscal year, with the exception of Nicholas K. Poucher, an officer of the Company. The Company inadvertently failed to report all of Mr. Poucher's share ownership in his Form 3, which was corrected by a later filed amended Form 3.

TRANSACTIONS WITH RELATED PERSONS**Policy**

The Board of Directors of the Company has adopted a written policy regarding the review, approval and ratification of transactions with related persons. Under this policy, any such transaction shall be subject to review, approval and (if applicable) ratification by (1) the Chairman and Chief Executive Officer of the Company, and (2) the Audit, Finance and Corporate Responsibility Committee of the Board of Directors (or, if determined by that Committee, by all of the independent directors of the Company). Transactions which are covered by this policy include all transactions which would be the subject of disclosure under applicable securities laws and regulations. The standard of review to be employed in such

determinations shall be to take into consideration factors relevant to the transaction, such as the size of the transaction, the amount payable to, or by, the related person, the nature of the interest of the related person in the transaction, whether the transaction may involve a conflict of interest, and whether the transaction involves goods or services available to the Company from unaffiliated third parties with comparable terms and conditions.

Transactions

In October 2000, a subsidiary of the Company adopted the Management Stock Purchase Plan, pursuant to which such subsidiary loaned amounts to a group of executive officers of the Company, only four of whom continued to have loans outstanding at some point during 2007. The proceeds of the loans were used to purchase shares of common stock of the Company, which were pledged to secure the repayment of the loans. The purpose of the foregoing loan transactions was to enable the borrowers to substantially increase their ownership in the common stock of the Company and to serve as an incentive for performance to increase shareholder value. Based upon the provisions of the Sarbanes-Oxley Act of 2002, no further loans to executive officers or directors are permitted. The details of the foregoing indebtedness are as follows:

REPORT OF THE AUDIT, FINANCE AND CORPORATE RESPONSIBILITY COMMITTEE

The Audit, Finance and Corporate Responsibility Committee of the Board of Directors (under this heading, the "Committee") has reviewed and discussed with management the audited financial statements of the Company as of and for the year ended December 29, 2007, which management has represented to the Committee have been prepared in accordance with accounting principles generally accepted in the United States of America, and PricewaterhouseCoopers LLP has concurred in such representation in its opinion relating to such audited financial statements. The Committee discussed with representatives of PricewaterhouseCoopers LLP, the Company's independent registered public accounting firm, the matters required to be discussed by Statement on Auditing Standards Number 61. In addition, the Committee received from PricewaterhouseCoopers LLP the written disclosures and letter required by the Independence Standards Board Standard Number 1 (Independence Discussions with Audit Committee) and has discussed with that firm its independence, and has considered whether the provision of non-audit services is compatible with maintaining such firm's independence.

Management has responsibility for establishing and maintaining the Company's internal control system and its financial reporting process, and PricewaterhouseCoopers LLP has responsibility for auditing the Company's consolidated financial statements and its internal control system in accordance with auditing standards generally accepted in the United States of America and issuing an audit report. The Committee monitors and oversees these processes.

Based upon the foregoing disclosures, representations, reports and discussions, the Committee recommended to the Board of Directors that the audited financial statements for the Company's 2007 fiscal year be included in the Company's Annual Report on Form 10-K for the year ended December 29, 2007.

COMPENSATION OF DIRECTORS AND EXECUTIVE OFFICERS

Compensation Discussion and Analysis ("CD&A")

Executive Summary

Company performance in 2007 exceeded expectations on many fronts. Full-year sales increased 9 percent in constant currency, versus the Company's target of 5 percent, GAAP net income increased by 24 percent. Net income as measured for incentive purposes, excluding certain pre-defined unusual items and in constant currency, increased by 16 percent, reflecting a very favorable 2007 income tax rate of 18 percent that was nonetheless significantly higher than the comparable 2006 rate of 12 percent.

The strong performance of the Company in 2007 was reflected in the total compensation received by each of the Company's CEO, CFO and three other most highly compensated executive officers named in the Summary Compensation Table below (the "NEOs"). Each of the NEOs participated in the Company's 2007 annual cash incentive programs, which had a primary measure of total Company net income of \$111.3 million at target. Target net income was 2 percent higher than 2006 actual results and included a 17 percent increase in pre-tax income and a higher tax rate of 23 percent in 2007 versus the 12 percent tax rate achieved in 2006. The \$122.5 million maximum net income goal, which was 12 percent higher than 2006 actual net income, included a 29 percent increase in pre-tax income and the same 23 percent income tax rate as with the target goal. Messrs. Halversen and Drake had an additional measure of segment profit applied for their respective areas of responsibility. Net income and segment profit were measured at the foreign currency exchange rates used to set the goals and excluded unusual items. These excluded items were restructuring charges and other exit costs, dispositions of property, plant and equipment outside of the normal course of business and significant insurance recoveries, amortization and impairment of acquisition-related intangibles, costs incurred in conjunction with the refinancing of the Company's main credit agreement on more favorable terms and certain other unusual items. The actual 2007 total Company net income performance, as measured under the annual incentive plan, was \$126.6 million, which exceeded the maximum goal.

All NEOs except Mr. Hemus were also participants in a long-term cash incentive program with a three-year cycle that ended in 2007, which had target and maximum goals of cumulative earnings per share ("EPS") of \$4.60 and \$4.98, and cumulative cash flow of \$274 million and \$294 million, respectively. Actual performance under the program was EPS of \$5.56 and cash flow of \$374.6 million. As with the annual plan, actual EPS results and cash flow were measured excluding unusual items. Under this plan, EPS achievement was measured at actual foreign exchange rates. In addition, Messrs. Hemus, Halversen and Drake participated in "gainsharing" programs that were intended to reward performance beyond the objectives of the annual cash incentive plan for their areas of responsibility. Mr. Halversen received a substantial payment under this program due to the outstanding results of the Asia Pacific and Tupperware North America segments, while Messrs. Hemus and Drake did not receive a payment due to performance below the aggressive sales and segment profit goals set for the beauty segments and Tupperware Europe segments, respectively. Messrs. Goings and Poteshman did not participate in gainsharing programs in 2007.

Target versus Actual Compensation

Mr. Goings' 2007 target cash compensation, defined as current salary and target annual incentive plus the target payout under the long-term performance share program ending in 2007, was \$3,325,096. As described above, the number of units earned under the performance share plan was based on EPS and cash flow performance over the 3-year term of the program. The payout was then calculated by applying to the units earned the Company's average stock price over the last 60 trading days of the final year. Due to the above maximum goal performance under both the annual incentive plan for 2007 and under the three-year performance share plan that ended a cycle in 2007, Mr. Goings' actual cash compensation in 2007 was above target at \$5,398,728.

(in \$000)

Similar to Mr. Goings, Mr. Poteshman's actual cash compensation of \$893,788 significantly exceeded his target cash compensation of \$616,046 due to performance under the annual incentive and performance share plans above the maximum goals.

Michael S. Poteshman Target vs Actual Cash Compensation

(in \$000)

Mr. Hemus' 2007 target cash compensation of \$1,774,022 was higher than his actual cash compensation of \$1,152,022 because the annual gainshare goal was not achieved. In addition, Mr. Hemus was not an employee of the Company in 2005 when the 2005 - 2007 performance share plan was initiated. Thus, his actual compensation did not include a payout under this program.

Edgar Filing: TUPPERWARE BRANDS CORP - Form DEF 14A

Mr. Halversen's compensation reflected achievement of the maximum goals under his annual incentive program, which was based partially on total Company results and partially on results of the Tupperware Asia Pacific and North America operating segments for which he has responsibility. Aggregate profit in these segments in 2007 was 45 percent higher than in 2006, as measured for incentive purposes, and this outstanding performance also meant that Mr. Halversen achieved his 2007 gainsharing goal. Consequently, his actual cash compensation of \$1,341,924 exceeded his target cash compensation of \$1,014,469.

(in \$000)

The Tupperware Europe operating segment, for which Mr. Drake is responsible, achieved profitability above 2006, but below the 2007 annual incentive plan target and gainsharing goals. Consequently, Mr. Drake received a payout under the annual incentive plan that was less than target, but he did not receive a gainsharing payout. As a result, Mr. Drake's actual cash compensation of \$829,433 was less than the target of \$1,027,988.

Administration and Oversight

The Compensation and Management Development Committee of the Board of Directors (the "Committee" under this heading) establishes the executive compensation objectives of the Company and administers the Company's compensation program within the context of those objectives. The Committee reviews specific salaries and incentive programs for corporate officers. It recommends for the approval of the full Board of Directors salaries and incentive programs for corporate officers at or above the level of senior vice president, including the CEO. While the Committee may specifically set the salary and incentive program for any key executive below the level of corporate officer, the Committee as a general matter delegates this role to senior management. The Company's Chief Human Resources Officer and

CEO recommend all officer-level compensation actions, both equity and non-equity in nature, except for the CEO. The CEO's compensation is determined by recommendation of the Committee in consultation with Hewitt & Associates LLC, the Committee's compensation consultant, and is approved by the independent directors on the full board.

Role of the Committee Compensation Consultant

The Committee retained Hewitt Associates LLC as compensation consultant for 2007 and has renewed this engagement for 2008. The scope of services provided in 2007 were as follows:

Provided advice and counsel to the Committee regarding executive compensation design and levels given competitive market compensation for comparable companies as well as company performance, with a particular focus on CEO compensation,

Informed the Committee of compensation trends and regulations, laws and accounting pronouncements that impact executive compensation, and

Worked with the Committee and senior management to ensure proper governance processes were followed and that accurate and timely data was provided for decision making.

Impact of Company's Industry on Executive Compensation

The direct selling industry in which the Company operates requires that it recruit, train and motivate large numbers of independent sellers in a variety of geographies. The global nature of the Company's business results in a significant range of possible effective income tax rates, which increase the complexity of managing the business. The Company's executive compensation practices are structured in light of these realities, such that some or all of various NEOs' incentive compensation under its annual incentive plan is based on the operating profit and cash flow results of groups of business units, while others' is based in whole or in part on the Company's consolidated net income and cash flow. Furthermore, in order to focus NEOs' attention on the appropriate metrics and to align incentive compensation accordingly, restructuring charges and other exit costs, disposition of property, plant and equipment outside the normal course of business and significant insurance recoveries, amortization of acquisition-related intangibles and certain other unusual items are excluded from incentive measurements. Also in light of the factors described, performance measurement under the Company's long-term cash incentive plan is based on multi-year earnings per share and cash flow achievement for all participating NEOs. Cash incentive plan goals and achievement, other than cash flow, are measured at constant foreign currency exchange rates.

Executive Compensation Philosophy and Compensation Benchmarking

The Committee believes that the Company's compensation program for the NEOs serves to align executive interest with long-term shareholder value creation due to the following characteristics:

Emphasis on "at risk" pay such as annual cash incentives and stock options and the performance share plan

Emphasis on long-term compensation in the form of stock options

Rewards based on financial results rather than individual performance against individual objectives

The Company's philosophy regarding executive compensation emphasizes market competitive pay practices coupled with performance-driven programs to align the interests of management with those of shareholders.

Edgar Filing: TUPPERWARE BRANDS CORP - Form DEF 14A

To ensure that the Company is able to attract, motivate, and retain key management, the total compensation package of officers below the CEO is generally targeted to the median level of the market. For the CEO, however, the total compensation package is targeted to the 75th percentile of the market. Because of the tenure and abilities of the CEO, including his seasoned experience in the global direct selling industry, the Board of Directors has followed this practice to ensure that critical objectives for the business are addressed. The expertise of the CEO places the Company at risk as he is seen as a viable candidate to manage a much larger business. Structuring a compensation program with appropriate retention elements is therefore an important goal of the Company's compensation package for its CEO.

For the purposes of compensation benchmarking, the Committee defines the market as the 15 peer companies selected in 2006 by the Committee in consultation with Hewitt & Associates LLC ("Comparator Peer Group") and supplemental general executive compensation survey data. The Comparator Peer Group data is weighted 50% and the general survey data is weighted 50%.

The benchmarking data includes market values for salaries, bonuses, stock options, restricted stock, and other long-term incentive components. Companies included in the 2007 Comparator Peer Group are public companies with 2006 revenues of between \$0.6 billion and \$8.7 billion, a median market capitalization of \$2.6 billion, and product lines in household durables, consumer goods or beauty products or companies that operate using a direct-selling distribution method. The Committee believes that these criteria are appropriate for composing a comparator group for the Company. The median 2006 revenue of the Comparator Peer Group was \$2.2 billion. The 15 companies that make up the benchmarking Comparator Peer Group are as follows:

Direct Selling Companies: Avon Products, Inc., Blyth, Inc. (Party Lite), Herbalife Ltd., Nu Skin Enterprises, Inc.

Beauty Companies: Alberto Culver Co., Elizabeth Arden, Inc., Estee Lauder Companies, Inc.

Other Consumer Products Companies: AptarGroup, Inc., Church & Dwight Co, Inc., Clorox Co., Energizer Holdings, Inc., Jarden Corp., Newell Rubbermaid, Inc., Playtex Products Inc., Spectrum Brands, Inc.

Elements materially affected by the benchmarking process include target base salary (salary structure midpoint), target annual bonus, and target long-term stock and performance share incentives. In addition to benchmarking executive compensation to the external market, the Committee establishes executive compensation for officers in light of individual tally sheets prepared by management, which contain a complete picture of each executive's current and historical compensation elements. In 2007, NEO targeted compensation, including that of the CEO, was generally within 15% of the targeted market position. Gainsharing programs are not included in the benchmarking process as these programs are intended to promote consistent long-term profitable growth above market expectations. Gains from past equity and long-term cash incentives are not factored into the establishment of target compensation or other remuneration programs, such as for retirement.

While most of the Company's incentive compensation programs are targeted to the external market, they are considered "at risk," contingent upon either the successful completion of performance goals or an increase in the Company's stock price. Annual and long-term incentive cash compensation is based upon financial results related to the executives' scope of responsibility.

Total compensation of the CEO and other NEOs, being largely performance-based, will exceed the targeted market level when performance exceeds financial goals. Alternatively, total compensation of the CEO and other NEOs will be less than target if financial goals are not achieved.

The components of executive compensation described below are determined primarily by the following factors: (a) the level and scope of responsibility of the executive; (b) the impact the executive could

make on the business; (c) the market competitiveness of the compensation elements and total compensation; and (d) the Company's short- and long-term goals.

Annual Salary and Bonuses

The primary elements of short-term cash compensation are base salary and bonus. Annual base salary is considered a key element in the objective of attracting, motivating and retaining talented executives. Alignment with the competitive marketplace is an important element in setting objective base salary levels and individual performance is recognized through annual merit increases. Salary ranges are determined by competitive comparisons based on market surveys and data about the Company's Comparator Peer Group, the weighting of which is described above under Executive Compensation Philosophy and Compensation Benchmarking. Annual salary is set within these ranges and may be affected, on a case by case basis, by an individual's work experience, performance, level of responsibility, impact on the business, tenure, and potential for advancement. A merit increase budget is determined on an annual basis taking into consideration market trends and inflation. Individual merit increases are determined based on individual, business unit/group of business units and/or total company performance. Additional salary increases may be made to individual executives based on positioning relative to the market.

In 2007, the CEO received no salary increase as base compensation was considered at a competitive level in consideration of the CEO's performance over the prior year. The Committee recommended and the Board approved a merit increase in 2007 of 5.0% in the case of Mr. Poteshman, 4.8% in the case of Mr. Halversen, but no increase for Mr. Drake as a consequence of the lack of performance of the European business. Additionally, the Committee recommended and the Board approved a market adjustment of 7.9% for Mr. Poteshman in order to better align his base pay to the market median. At the time of increase, his salary was at 78% of the market level. An increase of 40.6% was awarded to Mr. Hemus on January 1, 2007 upon his promotion to the position of President & COO. Merit increases and salary adjustments for the other NEOs went into effect on February 25, 2007.

Effective in 2008, the Committee recommended and the Board of Directors approved a salary increase for Mr. Goings in the amount of \$25,000 or 2.6%, a 4.0% increase for Mr. Poteshman, an 8.5% increase for Mr. Hemus, a 3.8% increase for Mr. Drake and a 5.5% increase for Mr. Halversen. Additionally, a market adjustment of 4.6% was made for Mr. Poteshman in order to further align his pay toward the market median. Mr. Hemus received a 22.9% increase to both align his pay with the market, and to also compensate for the elimination of certain allowances related to his transition to living in the United States granted when he joined the Company with the acquisition of the Sara Lee Direct Selling businesses. The increase in Mr. Hemus' compensation was made to appropriately compensate Mr. Hemus for his responsibilities, given the scope of the operating activities of the Company on a worldwide basis. The Committee believes his level of compensation to be correct from a market perspective, and that the resulting levels of total compensation of the NEOs also results in internal equity.

The annual incentive program is structured to reward individual participants with the objective of driving improved financial performance. This program for the Company's NEOs includes performance goals at a threshold, target and maximum level, with the potential award increasing accordingly. Under this program, the NEOs have the potential to earn, at target payout, a percentage ranging from 55%-100% of their annual salaries, with a maximum payout opportunity of up to 200% of target. Annual incentive targets are established based on job level and are benchmarked to the competitive marketplace. In 2007, the annual incentive payout target of the CFO was increased from 50% to 55% to better align compensation to the market. In conjunction with and consistent with the responsibilities of the position, in 2008, the incentive target of the COO has been increased from 70% to 80% of annual salary. The CEO's incentive payout target is 100% of annual salary, while the incentive payout targets for Messrs. Drake and Halversen are 55% of annual salary. The differences in incentive payout targets are based on market and internal equity considerations.

Edgar Filing: TUPPERWARE BRANDS CORP - Form DEF 14A

The annual cash incentive program includes certain "tripwires" which, if not met, result in a 25% decrease in the amount of incentive compensation that would have been paid to an executive based on actual financial performance compared with program goals. In 2007, "working capital turns" served as the primary tripwire. "Working capital turns" is the specified number of times working capital, defined as the sum of current assets and long-term receivables less current liabilities (but excluding cash, debt and income tax-related items), may be divided into annual sales. The measurement is made monthly and aggregated for the year to compare with the goal. Specific working capital turns targets and achievements for the NEOs for 2007 are found in the table for Annual Incentive Plan Performance Targets and Achievement below. Further, a cash-flow goal is established for select units, groups of units and the Company as a whole that, if met, results in a 10% increase to the annual incentive award earned based on actual financial performance versus program goals.

For the 2007 performance period, total Company net income as measured for incentive purposes was \$126.6 million, versus \$109.2 million in 2006, measured on a comparable basis including constant foreign exchange rates, and target and maximum level goals of \$111.3 million and of \$122.5 million, respectively. No NEO received a reduction in annual incentive compensation based on the working capital turns tripwire, and the NEOs qualified for a 10% increase in the annual incentive award based on their cash flow goal achievements for some or all of their incentive payout. Target cash flow for 2007 was \$111.3 million, while actual cash flow for the period measured on the same basis was \$150.3 million.

Performance goals may be based on the results of individual business units, groups of business units or the enterprise as a whole. Financial measurements under the incentive program exclude restructuring charges and other exit costs, dispositions of property, plant and equipment outside of the normal course of business and significant insurance recoveries, amortization of acquisition-related intangibles and certain other unusual items that in 2007 included, among others, the impairment of purchase accounting intangibles and costs associated with refinancing the Company's main credit agreement at more favorable terms. Annual incentive plan goals and achievement, other than cash flow, are measured at constant foreign currency exchange rates. Individuals whose performance metrics are related to net income are generally limited to NEOs, senior executives and corporate staff. In addition, a NEO who has responsibility for a group of operating units may have a significant portion of his performance goals based upon segment profit of such operating units.

In 2007, the NEOs' annual incentive compensation focused on net income and segment profit. The CEO, COO, and CFO, reflective of their responsibility for the Company's overall results, each had 100% of their incentive based on consolidated net income. Mr. Halversen and Mr. Drake, reflective of their positions with responsibility for managing segments of the business, had a majority of their annual incentive tied to the segment profit of the segment(s) over which they are responsible (70%) and a lesser portion (30%) of their annual incentive tied to consolidated net income. The Committee may adjust performance goals during the performance period in the event an executive's job significantly changes. If this occurs, the NEO's original and new goals apply pro-rata and in relation to time spent in each position. In 2007, none of the NEOs experienced adjustments to performance goals during the performance period.

Generally, annual incentive plan goals are set by the Committee based upon achieving results at the prior year's actual level in constant currency to achieve threshold level, with growth rates for target and maximum payouts set in light of Comparator Peer Group past performance and Company specific factors. The 2007 targets are discussed above and outlined in a footnote to the Summary Compensation Table. Segment profit goals established for group presidents are generally based upon achieving segment profit equal to the prior year actual in constant currency to achieve a threshold level award, with growth rates for target and maximum payout set in light of the trends and opportunities in the businesses and within the context of the total company goal. In 2007, the segment profit target increase required for target payout for the Asia Pacific and Tupperware North America segments over which Mr. Halversen is responsible was 16.6%. The segment profit increase required for target payout for the Europe segment over which Mr. Drake is responsible was 18.8%.

Long-Term Cash Incentives

A long-term cash incentive program is established annually for the NEOs in February with financial goals for cumulative three-year earnings per share and cash flow performance. Under this program, earnings per share and cash flow are measured the same way as under the annual incentive program, i.e. excluding certain unusual items. These excluded items are restructuring charges and other exit costs, dispositions of property, plant and equipment outside of the normal course of business and significant insurance recoveries, amortization of acquisition-related intangibles and certain other unusual items. The earnings per share included within the three-year goal includes a net income goal equal to the target goal under the annual incentive plan, converted to earnings per share using the number of diluted shares as of the start of the program. The earnings per share used for each of the following two years in arriving at the target under the program is typically higher than the prior year by a single high digit percentage. The target cash flow goal equals the net income used to determine the earnings per share goal. In addition to a target goal determined in the manner described above, the programs include a threshold and maximum where the threshold goal is approximately 10% below the target and the maximum goal approximately 10% higher than the target. The program is referred to as the Performance Share Plan because earned awards are paid in cash, based upon a pre-defined number of performance share units at an amount dependent on the Company's stock price at the end of the three-year performance period. The number of units earned can vary from no payout for below threshold performance to 150% of target for performance at or above maximum. The value of this program is considered when determining the competitive level of the long-term incentive component of compensation, including equity. Performance targets used for this program in the 2005-2007 cycle for all NEOs are set forth under the Summary Compensation Table. In that Mr. Hemus was not an employee in 2005 when the program cycle was initiated, he was not eligible for an award payout under the performance cycle that ended in 2007.

NEOs, other than the CEO and CFO, with responsibility for large, strategic or growing markets, or groups of markets, participate in long-term "gainsharing" incentive programs that reward participants for growth in sales and profit above a targeted level. A gainsharing incentive is intended to encourage significant profit growth and also serves as a retention tool for critical leaders of units or groups of units. Both the performance share and gainsharing programs are considered key in accomplishing the Company's long-term financial objectives and implementing strategic objectives. Mr. Drake and Mr. Halversen each currently participate in three-year gainsharing programs based on the performance of the segment(s) for which they are responsible. Through 2007, Mr. Hemus participated in a gainsharing program based on the results of the Company's Beauty segments whose businesses report to him directly. Performance targets used for these plans are set forth under the Summary Compensation Table. Mr. Drake and Mr. Hemus have not received payouts under these plans, and beginning in 2008 Mr. Hemus will no longer participate in such a plan. In view of Mr. Hemus' position as President & COO, the Committee believes he should be incentivized solely on the basis of the financial results of the overall organization. Mr. Halversen received payouts of \$333,333 in each of 2006 and 2007 under his plan.

Long-Term Stock-Based Incentives

On an annual basis, the Committee grants stock-based incentive awards to executives in order to align such executives' interests with those of shareholders and to serve as another component of an executive's comprehensive total compensation package. Such awards are either in the form of a stock option, stock appreciation right, restricted stock, performance-restricted stock, or a combination of any or all of these vehicles. These awards are made to a group of executive management, officers, and other key employees that participate in the annual incentive plan. The total mix of these equity elements, coupled with cash targeted pursuant to the performance share plan, where applicable, is considered in evaluating market competitiveness of the Company's long-term incentive programs. In 2006, the Company awarded a combination of stock options and performance-based restricted stock. In 2007, only stock options were granted. The Committee returned to a grant solely of stock options for several reasons. Stock options are

performance based, yet do not require the setting of performance goals. In addition, stock options are good motivators for executives to deliver on growing the stock price and provide a good alignment with the interests of shareholders, since a stock option requires favorable company performance in order to create value in the underlying common stock. Stock options were granted with an exercise price equal to the closing price on the New York Stock Exchange of a share of common stock on the date of grant, vesting one-third on each of the first, second, and third anniversary of the grant date.

The amount of each type of long-term stock compensation is based on the level of the participant, as well as individual performance and market competitiveness in consultation with the Committee's compensation consultant. The value of the incentive is equal to the targeted value of long-term compensation award less the target Performance Share Plan award value at the time of grant. Target awards may be modified by up to 50% of the award value based on individual performance and market rate of compensation for the executive. Larger stock option awards are made to those executives that are considered critical to the business, high performers or high potential talent. The targeted value of the award is converted to an option on a number of shares based on a Black Scholes calculation using a stock price near the time of grant. The value used for determining number of shares is not the same as that used for financial statement expense recognition purposes, with the differences being that the full term of the option is used for the assumption of the amount of time the option will be outstanding and the stock price used for financial statement expense calculation being the grant date price.

Except for occasions when equity has been granted to a newly hired executive, the Committee has historically granted stock awards in November at its regularly scheduled meeting. The date of the meeting and grant has typically been after the release of third-quarter results. If there had been any material undisclosed information, the Committee would have delayed the date of making annual grants until such time as such information was disclosed.

Stock Ownership

The Committee requires that the NEOs acquire, over a five-year period following appointment, and then hold an amount of Company stock equal in value to a multiple of annual salary. For the CEO the multiple is five times annual salary and for the remaining NEOs the multiple is three times annual salary. The Company prohibits executives from hedging the economic risks involved in the ownership of Company stock through the use of derivative instruments.

Health and Welfare Plans and Perquisites

The NEOs receive certain health and welfare benefits, as well as perquisites. Health and welfare benefits include medical and dental insurance equal to that provided to other employees, basic life insurance which is available to other employees, and executive life insurance which provides an additional coverage amount equal to one year's salary.

Executive officers are also eligible for the following perquisites: car allowance, executive physical, financial and tax planning and country club membership. Perquisites are offered in order to provide a total compensation package which is competitive with the marketplace for senior level executives as determined by evaluating general market data.

Retirement Savings Plan and SERP

Savings plan programs for NEOs include a qualified retirement savings plan (401K) and a supplemental retirement savings plan. The CEO also participates in a Supplemental Executive Retirement Plan ("SERP"), which provides for an annual benefit of 3 percent of final average SERP-eligible pay multiplied by credited years of service, up to 20 years, which is offset by other Company retirement plan obligations. Final average SERP pay means the highest average cash compensation, taking into account salary plus bonus, over a consecutive three-year period during the last five years of credited service. The CEO has

15 years credited service under the SERP, and the present value of his accumulated benefit as of the end of 2007 was \$8,359,648, assuming retirement at age 65, and after offsetting other company benefits. Additional information concerning the Company's Base Retirement Plan and Supplemental Plan can be found under the heading "Pension Benefits" in this proxy statement.

Severance and Change-in-Control Agreements

The Company has entered into change-in-control agreements with its NEOs. These agreements, which have been designed by the Committee with the advice of Hewitt & Associates LLC as to the current market practices, have been implemented due to the Committee's desire to provide that in the event of a threatened change-in-control, adequate retention devices would be in place to assure that senior management continued to operate the business.

In addition, the Company has a severance agreement with the CEO for situations not connected with a change-in-control, pursuant to which he would be paid two times the sum of his base salary and target bonus and receive other benefits in the event his employment is terminated without cause. Other benefits include the vesting of all long-term incentive awards and twenty-four months of continued medical and dental insurance coverage. The payments under this contract would be reduced on a dollar-for-dollar basis by any amounts paid under his change-of-control arrangement. The Committee deemed such an agreement, including the level of benefit paid, to be appropriate in the market and to serve as a useful retention device for the CEO.

Compensation of the CEO

The Committee generally applies the compensation philosophy and policies described above in determining compensation recommendations for the CEO. Under the total compensation package for the CEO, the goal is to target a total compensation opportunity at the 75th percentile of market. In addition to the specific financial targets that apply under the compensation programs in which the CEO participates, there are personal objectives that the Board of Directors reviews to evaluate performance. Specifics on the CEO compensation are disclosed in the Summary Compensation Table.

Mr. Goings' 2007 target cash compensation, defined as current salary and target annual incentive plus the target payout under the long-term performance share program ending in 2007, was \$3,325,096. The number of units earned under the performance share plan was based on EPS and cash flow performance over the 3-year term of the program. The payout was then calculated by applying to the units earned the Company's average stock price over the last 60 trading days of the final year. Due to the results under the 2007 annual incentive and 2005-2007 performance share plans exceeding the maximum goals, Mr. Goings' actual cash compensation in 2007 of \$5,398,728 was above target.

Compliance with Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code establishes certain requirements in order for compensation exceeding \$1 million earned by certain senior executives to be deductible. The Company's executive compensation programs have been structured to comply with Section 162(m). Actions regarding compensation paid, or to be paid, to executive management have also complied with Section 162(m); however, the Committee reserves the right to forego deductibility if, in its discretion, it believes a particular compensation program or payment or action is consistent with the overall best interests of the Company and its shareholders. The Committee certifies that actual performance has been achieved as a precondition to paying any award. The Committee reserves the right to adjust any formula-based amount that, in its judgment, is inappropriate in light of overall results and circumstances. The Committee has reserved the right to interpret financial results and to determine the proper treatment of changes in accounting standards, unusual events, capital gains and losses and changes in capital structure of the Company. Committee discretion is limited to reducing or withholding awards. Performance targets are established so

as to include or exclude the effects of transactions or events, such that the Committee can only decrease awards by the use of its discretion.

Recapture of Awards and Payments

The Company has a policy to recoup from executives any bonuses paid or shares of Company stock received from a stock award, or to cancel a stock award, in the event that the executive benefits from his or her actions leading to the restatement of financial results of the Company. Any action arising from the implementation of this policy shall be determined by the Committee, in its sole discretion. In 2007, no such restatement occurred.

COMPENSATION AND MANAGEMENT DEVELOPMENT COMMITTEE REPORT

The Compensation and Management Development Committee (the "Committee") has reviewed and discussed with management the Compensation Discussion and Analysis set forth in this proxy statement. Based on this review and discussion, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's annual report on Form 10-K for the 2007 fiscal year and in this 2008 proxy statement. Members of the Committee are:

- (1) Includes amounts held in the Retirement Savings Plan that were deferred pursuant to Section 401(k) of the Internal Revenue Code (the "Code"), and amounts deferred under the Executive Deferred Compensation Plan, as well as Code Section 125 contributions to the Flexible Benefits Plan.
- (2) Includes dollar amount recognized for financial statement reporting purposes for the year ended December 29, 2007, in accordance with FAS 123 (R) and thus includes amounts from awards granted in and prior to 2006. The value of awards was determined using the closing market price per share on the date of grant of the Company's common stock on the New York Stock Exchange, which was \$14.63, \$18.23, \$23.49 and \$20.83 for 2003, 2004, 2005 and 2006, respectively. No stock awards were granted to NEOs in 2007.
- (3) Includes dollar amount recognized for financial statement reporting purposes for the year ended December 29, 2007, in accordance with FAS 123 (R) and thus include amounts from awards granted in 2007 and earlier. Represents the number of shares granted under options multiplied by their respective grant-date-fair-values. The grant-date-fair-values were, \$4.84, \$5.45, \$4.26 and \$7.79, 2004, 2005, 2006 and 2007, respectively. The grant-date-fair-values were estimated using the Black-Scholes option-pricing model with the following assumptions: dividend yield of 3.3 percent for 2007, 4.3 percent for 2006, 4.2 percent for 2005 and, 5.1 percent for 2004 grants; expected volatility of 27.6% for 2007, 27.1 percent for 2006, 31 percent for 2005, and 40 percent for 2004; risk-free interest rates of 4.01% for 2007, 4.56 percent for 2006, 4.4 percent for 2005, and 3.9 percent for 2004; and expected lives of 6 years for 2007, 2006 and 2005, and 8 years for 2004. The attribution of values with the Black-Scholes model to stock option grants requires adoption of certain assumptions as described above. While the assumptions are believed to be reasonable, the reader is cautioned not to infer a forecast of earnings or dividends either from the model's use or from the values adopted for the model's assumptions. Any future values realized will ultimately depend upon the excess of the stock price over the exercise price on the date the option is exercised.
- (4) Includes a retention bonus in the amount of \$181,952 and a special bonus of \$136,463 related to the transition of the Sara Lee direct selling businesses.

Payouts were based upon the Company's average stock price of \$34.00 per share over the last 60 trading days of the program cycle. Under the Performance Share Plan, a dividend equivalent amount is added each year to the number of units originally awarded. (3) Mr. Hemus was hired after the plan freeze date and therefore he does not participate in these plans.

Tupperware Brands Corporation Base Retirement Plan

The Tupperware Brands Corporation Base Retirement Plan (BRP) is a defined benefit plan with an annual normal retirement (age 65) benefit defined as 1% of qualified earnings (base salary plus incentive bonus) plus prior plan participation benefits. Prior plan participation benefits are for years prior to 1989 when the percentage factor was less than 1%. The BRP was frozen as of June 30, 2005, and does not provide

Edgar Filing: TUPPERWARE BRANDS CORP - Form DEF 14A

any benefit accruals after that date. Early retirement eligibility is defined as at least age 55 with 10 or more years of service upon separation from the Company. The early retirement reduction factor for an active employee entering retirement is 0.2% per month from age 62 to 65 and 0.4% per month prior to age 62.

Tupperware Brands Corporation Supplemental Plan (Defined Benefit Portion)

The defined benefit portion of the Tupperware Brands Corporation Supplemental Plan (the "Supplemental Plan") accounts for benefits that would have been earned under the BRP were it not for limits imposed under IRC Section 415 and 401(a)(17). Accruals under the defined benefit portion of the Supplemental Plan were also frozen as of June 30, 2005. Payout from this account is as elected in the enrollment materials completed by the participants.

Supplemental Executive Retirement Plan (SERP)

The CEO also participates in a supplemental executive retirement plan ("SERP"), which provides for benefits at 3 percent of final average SERP pay multiplied by the credited years of service up to twenty years. Final average SERP pay means the highest average cash compensation, taking into account salary plus bonus, over a consecutive three-year period during the last five years of credited service. The benefit under the SERP is reduced by other Company retirement plan obligations received under the BRP, the Retirement Savings Plan and the Supplemental Plan, and is paid out upon retirement in either a lump sum or an annuity, as elected by the CEO. The material factors used to determine the present value of the CEO's accumulated benefit are a 5.5% effective long-term lump sum conversion interest rate and a 6.0% pre-retirement discount rate.

2007 NON-QUALIFIED DEFERRED COMPENSATION**Executive Deferred Compensation Plan**

Pursuant to the Company's Executive Deferred Compensation Plan (the "EDCP"), certain executives, including the NEOs, may defer compensation. Elections are made by eligible executives in June of the current plan year for annual incentive payout deferral and December prior to the start of each year for salary deferral. Currently, an executive may defer up to 50% of base salary and all or a portion of his or her annual incentive compensation. Deferred amounts accrue investment gains or losses equal to the gains or losses under the participant-selected investment funds shown below, which had the following annual rates of return for the year ended December 29, 2007 as reported by Fidelity Investments, the administrator of the program:

Name of Fund	Rate of Return
Fidelity Cash Reserves	5.06%
Fidelity U.S. Bond Index Fund	5.40
Spartan® Extended Market Index Fund	5.38
Spartan® U.S. Equity Index Fund	5.43
Spartan® International Index Fund	10.72

An executive may elect an in-service distribution under the EDCP. He or she must specify the date that payments are to begin and whether distribution will be through a lump sum payment or a series of annual installments over 5, 10 or 15 years. Deferrals for each plan year must remain in the Plan a minimum of three years. In the case of retirement or termination, an executive will be paid no earlier than six months following the executive's retirement or termination date. Prior to distribution, the deferred amounts, along with any accrued investment gains or losses, are general obligations of the Company.

In 2007, the Company elected under IRC Section 409A transition rules to allow for executives to elect early distribution of funds that related to pre-2005 contributions.

Tupperware Brands Corporation Supplemental Plan (Defined Contribution Portion)

The defined contribution portion of the Tupperware Brands Corporation Supplemental Plan serves as a spill-over plan once a participant reaches the IRC Section 401(a)(17) limit. The participant may not continue to defer his or her own earnings, but receives credit for employer matching contributions and employer basic contributions. The defined contribution portion of the Supplemental Plan also provides an age-graded allocation (2 to 12 percent of earnings in excess of \$120,000; subject to age-graded maximums) to a closed group of employees who as of June 30, 2005 were in a position of director level or above (excluding the CEO) whose annual rate of base pay on June 30, 2005 exceeded \$120,000, and who are actively employed as of each fiscal year end. The interest credited to participants' accounts equals the actual return of the Tupperware Brands Corporation Retirement Savings Plan Managed Income Portfolio investment account. The annual rate of return for the calendar year ended December 29, 2007, as reported by Fidelity Investments, the administrator of the plan, was 4.37%. Payout from this account is as elected in the enrollment materials completed by the participant.

The following table sets forth the deferred compensation activity under the Executive Deferred Compensation and defined contribution portion of the Tupperware Brands Corporation Supplemental Plan, if any, for the Company's NEOs as of and for the year ended December 29, 2007.

2007 NON-QUALIFIED DEFERRED COMPENSATION TABLE (1)

In 2007, the interest earned under the Supplemental Plan was 4.37%. All NEOs participated in this program, with the following earnings in 2007: Mr. Goings, \$139,283; Mr. Poteshman, \$10,254; Mr. Hemus, \$592; Mr. Halversen, \$15,241; and Mr. Drake, \$19,778. Only two NEOs, Mr. Goings and Mr. Poteshman, participated in the EDCP, with earnings of \$49,414 (6.8% return) and \$16,699 (6.4% return), respectively.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL**Change-in-Control Payments**

Each NEO is a party to a change-in-control agreement with the Company under which payments, including perquisites and health care benefits, would be paid by the Company in the event of a change-in-control and a termination of the NEO's employment, under certain circumstances, within a two-year period after the change-in-control. A change-in-control is defined to mean an acquisition of over 20% of the Company's capital stock or the replacement of a majority of the Company's incumbent directors. The payments to an NEO under these change-in-control employment agreements would be made in a lump sum and would include a pro-rata amount of any open annual incentive program or long-term cash incentive program (excluding gainshare programs) at target level, as well an amount equal to three times the sum of the NEO's annual compensation and the annual incentive program payment that would have been payable for the last fiscal year at the target level. Modified gross-up provisions exist that provide a payment equal to the excise tax and the income tax on the excise tax if such payment is required under IRC Section 280G and 4999. The NEOs would also receive health care benefits for a three-year period and a one-time payment for outplacement services of up to \$50,000. The amounts of the benefits that the NEOs would receive under the change-in-control employment agreements were established based upon advice received by the Committee from its compensation consultant, using competitive information about the market.

Under the terms of the Company's shareholder-approved incentive plan, a change-in-control would result in the following payments or benefits in addition to those in the change-in-control agreements, except that termination of employment would not be a condition for payout: (i) long-term performance-based equity incentive plans would be deemed earned and paid in a lump sum on a pro-rata basis at target level for the period of such plan which had passed up to and including the date of the change-in-control (without any duplication for any payment under the change-in-control employment agreements described above); (ii) all outstanding stock options would be immediately vested and exercisable; and (iii) restrictions upon all outstanding restricted stock awards would be eliminated and such shares would be distributed to the NEOs.

Assuming that a change-in-control and termination of employment took place at December 29, 2007 resulting in a triggering event for all of the above-described agreements and plans, and assuming that the Company had performed at target level for the year of termination under relevant incentive plans, the payments set forth in the table below would be made to the NEOs. In the event of a change-in-control, the

Edgar Filing: TUPPERWARE BRANDS CORP - Form DEF 14A

NEOs would also receive payments disclosed under the preceding tables relating to pension benefits and non-qualified deferred compensation.

- (1) Current year annual incentive program payment calculated at target performance.
- (2) Included in this column are pro-rata portions of the 2005-2007, 2006-2008, and 2007-2009 Performance Share Plan awards, not including dividend equivalents, using the final 60-day average trading price of Company stock in 2007.
- (3) The Company determined the amount of the excise tax payment by multiplying by 20% the "excess parachute payment" that would arise in connection with payments made to the applicable NEOs upon a qualifying termination of employment following a change of control. The excess parachute payment was determined in accordance with the provisions of section 280G of the Internal Revenue Code. The Company used the following key assumptions to determine the applicable NEO's tax gross-up payment: (i) the NEO's income is taxed at the highest federal and applicable state marginal income tax rates, and (ii) all stock option awards are deemed exercised upon the applicable triggering event.
- (4) Includes a one-time outplacement fee of \$50,000, and the value of three years of healthcare insurance and life insurance premiums.
- (5) Included in such column are the in-the-money portions of outstanding stock options which are accelerated upon a change-in-control and the values of all restricted stock awards, on a pre-tax basis.
- (6) In the event of death after a change-in-control, payments are made consistent with the above except that payment is reduced by the basic life benefit paid or payable and any salary paid after the one-year anniversary of the change-in-control. In the event a NEO's employment is terminated by the Company for cause after a change-in-control, the NEO will receive none of the payments outlined above. In the event a NEO terminates employment with the Company without good reason, the NEO will receive only pro-rata amounts on any open annual incentive plan or long-term cash incentive plan at target level.

Incentive Plan Awards

Under the Company's 2006 Incentive Plan and its predecessor plans (the "Plan") under which stock awards have been granted to NEOs, payments may be triggered by certain events. Upon the death of an NEO, outstanding stock options immediately vest and become exercisable and the restrictions contained in outstanding restricted stock and restricted stock unit awards lapse immediately and shares are delivered to the NEO or the NEO receives a payment representing the value of the restricted stock unit. Upon the disability of an NEO, a stock option continues to vest and may be exercised upon becoming exercisable. Upon retirement of an NEO, if the NEO is 55 years of age and has a minimum of 10 years of service with the Company, the NEO shall have one year of continued vesting and 2 years of continued exercisability for vested options following retirement. Upon retirement and if the NEO is 60 years of age and has a minimum of 15 years of service with the Company, the NEO shall have 6 years of continued vesting and exercisability. In the event of a voluntary termination of employment, a vested stock option may be exercised for a thirty day period, and in the event of an involuntary termination (except for cause), a vested stock option may be exercised for a one-year period. Termination of an NEO for cause would result in immediate termination of all outstanding stock options. In no

event, however, shall any stock option be exercisable beyond ten years after the date of grant. In the event of termination of employment for any reason, including retirement, before the lapse of restrictions on a restricted stock award or restricted stock

unit award, such award shall be forfeited by the NEO, unless the Committee determines otherwise. Under the Plan, any annual incentive program award or long-term incentive program award would be automatically terminated, unless the Committee determines otherwise. If any event occurred resulting in the acceleration of all stock options and the exercise of such stock options or the lapse of restrictions on restricted stock or restricted stock unit awards as of December 29, 2007, the amounts payable for all outstanding stock awards for the NEOs would be as set forth above in the Change-in-Control Payments table under the column entitled "Acceleration of Equity Awards."

Severance Agreement with CEO

In addition to the above, the CEO is a party to a severance agreement with the Company, pursuant to which a severance payment would be made in the event of an involuntary termination without cause or a termination initiated by the CEO with good reason, as defined by the agreement. The severance payments under the agreement would be in the form of a lump sum payment and would include (i) unpaid salary and expenses and accrued vacation pay, (ii) a pro-rata payment for the period up to and including the date of the termination under the annual incentive plan for the year of termination that he would have earned (based upon actual full year Company performance) had he remained employed through the end of such year (\$2,145,000 as of December 29, 2007), (iii) an amount equal to two times the sum of the CEO's annual base salary (\$1,950,000 as of December 29, 2007) and the target annual bonus for the year of termination (\$1,950,000 as of December 29, 2007), irrespective of actual performance by the Company under such bonus plan, (iv) two years of medical and dental insurance coverage (\$32,328), and (v) a \$75,000 outplacement service fee. Under the severance agreement, the CEO would be bound by restrictive covenants relating to confidentiality, non-competition, non-solicitation and non-disparagement. Any payments received by the CEO under the severance agreement would reduce, on a dollar-for-dollar basis, any payments that would have been received by the CEO under the above-described change-in-control employment agreement or the Company's bonus plans. In the event of a triggering termination of employment under the above severance agreement, the CEO would also receive payments disclosed under the preceding tables relating to pension benefits and non-qualified deferred compensation. The amounts of the benefits that the CEO would receive under the severance agreement were established based upon advice received by the Committee from its compensation consultant, using competitive information about the market.

2007 DIRECTOR COMPENSATION

The value of awards was determined using the closing market price per share on the date of grant of the Company's common stock on the New York Stock Exchange, which was \$30.86. Compensation of Directors

The Company's objective is to align director compensation to the median of the competitive marketplace defined as the same Comparator Peer Group developed for executive compensation benchmarking. Annually, the Nominating and Governance Committee of the Board of Directors reviews Director compensation against the market and recommends adjustments where necessary. In 2007, an adjustment to the size of equity awards was made in order to align to the Comparator Peer Group median.

Non-employee directors of the Company receive (i) an annual retainer fee of \$40,000, (ii) for committee chairpersons, a retainer of \$15,000 per year (other than the Executive Committee), (iii) a fee of \$1,500 for each meeting of the Board and for each meeting of any committee attended (except in the case of telephonic meetings of the Audit, Finance and Corporate Responsibility Committee to review the financial statements prior to the Company's release of earnings, for which directors are paid \$500), and (iv) grants of stock options, restricted stock and/or restricted stock units, as determined by the Nominating

and Governance Committee of the Board of Directors. In 2007, the Nominating and Governance Committee approved grants of restricted stock units in the amount of 2,360 share units per Director intending to deliver a value of \$70,800.

Such non-employee directors receive one-half of their annual retainer fees in stock and the balance, at their election, in stock or cash. The Director Stock Plan also provides that a grant of 1,000 shares of Tupperware Brands Corporation common stock be made to each new non-employee director after three months of service on the Board.

Non-employee directors may also participate in the Company's Matching Gift Program. Under the Program, the Company will match dollar for dollar up to \$3,500 of a director's charitable gift to eligible organizations and institutions. Non-employee directors also receive compensation in the form of merchandise generally not exceeding \$7,000.

2. Proposal to Ratify the Appointment of Independent Auditors

All Other Fees

The aggregate fees billed by PricewaterhouseCoopers LLP for fiscal years 2007 and 2006 for services other than those described in the preceding paragraphs, were \$33,770 and \$39,500, respectively. Such fees in 2007 were for permitted services for foreign subsidiaries such as salary, workforce planning and systems services, and in 2006 were for the license of a documentation software package to the Company's internal audit department.

Approval of Services

The Audit, Finance and Corporate Responsibility Committee's policy is to approve the audit and non-audit services and the fees related thereto to be provided by PricewaterhouseCoopers LLP in advance of the service. During 2007 the Committee approved all of the foregoing services of PricewaterhouseCoopers LLP rendered to the Company.

Vote Required

To be approved, the ratification of the appointment of PricewaterhouseCoopers LLP as the independent registered public accounting firm of the Company for the fiscal year ending December 27, 2008 requires the affirmative vote of a majority of votes cast, which means that the votes cast "for" ratification must exceed the votes cast "against" ratification.

THE BOARD AND THE AUDIT, FINANCE AND CORPORATE RESPONSIBILITY COMMITTEE RECOMMEND THAT YOU VOTE FOR THE ABOVE PROPOSAL.

3. Proposal To Amend The Company's Restated Certificate Of Incorporation To Provide For The Annual Election Of Directors.

The Board has adopted, and recommends for stockholder approval, a new Restated Certificate of Incorporation that, if approved by stockholders, would amend the Company's existing Certificate of Incorporation (the "Charter") to phase out the current board structure (pursuant to which directors serve three-year staggered terms) and provide instead for the annual election of all directors. In addition, the amendments would provide that directors elected for one-year terms may be removed by the stockholders either for or without cause, amending the provision of the existing Charter that permits removal only for cause.

Under the present, classified board structure, directors of the Company are divided into three classes, with the directors in each class serving three-year terms, and are removable only for cause. The directors serve overlapping three-year terms, and the directors in only one class stand for election each year. If the

amendments are adopted by stockholders, directors will be elected to one-year terms of office after the three-years terms of the directors of each class expire at the 2009, 2010 and 2011 Annual Meetings, and the directors so elected will be removable either for or without cause.

In determining whether the amendments are in the best interests of the Company's stockholders, the Board considered arguments for maintaining, as well as for eliminating, the classified board structure. Several arguments favored its retention. The overlapping three-year terms of directors promote continuity and stability of management by ensuring that, at any given time, two-thirds of the directors have at least one year's experience on the Board. In addition, the Board believes that three-year director terms strengthen director independence by lessening the threat that a director who refuses to act in conformity with the wishes of management (or other directors) will not be renominated for office. The classified board structure also reduces the likelihood of an unsolicited and disadvantageous takeover of control of the Company, which might cause the Company's stockholders to receive less than an adequate price for their stock, because a would-be acquiror cannot replace a majority of the Board at a single annual meeting. And, because a would-be acquiror cannot easily remove directors serving on a classified board, the directors on the Board may possess greater bargaining power to obtain the best price from an acquiror and are likely to have more time to search for superior alternatives.

The Board also considered the views of investors who believe that the classified board structure reduces the accountability of directors to stockholders because the directors serving on such a board do not face annual election. Since director elections are the primary means by which the stockholders can affect corporate management, a classified board structure may diminish stockholder influence over Company policy. Furthermore, a classified board structure may negatively affect stockholder value by eliminating the possibility of proxy contests in which the stockholders have an opportunity to vote for a slate of competing nominees to replace all of the incumbent directors.

After weighing all of these considerations, the Board recommended the elimination of the classified board structure, and determined that the amendments are advisable and in the best interests of the Company and its stockholders. The amendments are described further below.

A. Beginning At The 2009 Annual Meeting, Directors Who Stand For Election Will Serve One-Year Terms.

If the Proposal is adopted by the Company's stockholders, Article VIII of the Charter will be amended to phase out the current division of the Board into three classes and to provide instead for the annual election of directors commencing with the class of directors standing for election at the 2009 Annual Meeting. To ensure a smooth transition to the new system, and to permit the current directors to serve out the three-year terms to which they were elected, the amendment to Article VIII will not shorten the term of any director elected at or before the 2008 Annual Meeting. The new procedures would, however, apply to all directors elected by stockholders after the 2008 Annual Meeting, including any current directors who are renominated after their current terms expire. Thus, the current Class I directors, who were elected at the 2006 Annual Meeting for three-year terms, would, if renominated, stand for election at the 2009 Annual Meeting for one-year terms. At the 2010 Annual Meeting, those Class I directors, together with the current Class II directors, whose three-year terms expire in 2010, would, if renominated, stand for election for one-year terms. Beginning with the 2011 Annual Meeting, the classification of the Board would terminate, and all directors would be subject to annual election.

B. The Provision Requiring That Directors Be Removed By The Stockholders Only For Cause Will Be Amended To Provide That Directors Elected For One-Year Terms Are Removable Either For Or Without Cause.

Article VIII of the Charter also provides that the Company's directors may be removed by the Company's stockholders only for cause. Under Delaware law, directors of companies that do not have

classified boards may be removed by stockholders either for or without cause. Accordingly, if the proposed amendments are adopted, Article VIII would also be amended to phase out the current limitation on director removal by providing that directors elected to one-year terms of office may be removed either for or without cause. Directors serving the remainder of their three-year terms during the time in which the Board remains classified, however, will continue to be removable by the stockholders only for cause.

The proposed amendments are set forth, in over stricken text and bold-faced type, in the pro forma Restated Certificate of Incorporation set forth in Appendix A to this Proxy Statement. The description of the amendments set forth in this Proxy Statement is qualified in its entirety by the actual provisions of the amendments.

Vote Required.

The affirmative vote of the holders of a majority of the outstanding shares of Common Stock is required to approve this proposal.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE ABOVE PROPOSAL.

4. Other Matters

Discretionary Authority

At the time of mailing of this proxy statement, the Board is not aware of any other matters which might be presented at the meeting. If any matter not described in this proxy statement should properly be presented, the persons named in the accompanying proxy form will vote such proxy in accordance with their judgment.

Notice Requirements

The Company's By-laws require written notice to the Company of a nomination for election as a director (other than a nomination by the Board) and of the submission of a proposal (other than a proposal by the Board or a proposal submitted for inclusion in the Company's proxy solicitation materials as described below) for consideration at an annual meeting of shareholders. The notice must contain certain information concerning the nominating or proposing shareholder, and the nominee or the proposal, as the case may be. Any shareholder who desires to nominate a candidate for director election or submit a proposal to be raised from the floor during the Company's 2009 annual meeting of shareholders, other than a proposal submitted for inclusion in the Company's proxy soliciting material, should send to the Secretary of the Company a signed written notice of such nomination or proposal (as applicable), which must be received no later than March 5, 2009, and no earlier than February 13, 2009, and must comply with the applicable requirements of the By-Laws. A copy of the applicable By-law provisions may be obtained, without charge, upon written request to the Corporate Secretary of the Company at its principal executive offices.

In addition to the foregoing, any shareholder who desires to have a proposal considered for inclusion in the Company's proxy soliciting material relating to the Company's 2009 annual meeting of shareholders should send to the Corporate Secretary of the Company a signed notice of intent. This notice, including the text of the proposal, must be received no later than November 30, 2008.

Expenses and Methods of Solicitation

The Company will pay the expenses of soliciting proxies. In addition to the use of the mails, proxies may be solicited personally, or by telephone or other means of communication, by directors, officers and employees of the Company and its subsidiaries, who will not receive additional compensation therefor. Arrangements will also be made with brokerage firms and other custodians, nominees and fiduciaries for

the forwarding of proxy solicitation material to certain beneficial owners of the Company's common stock and the Company will reimburse such forwarding parties for reasonable expenses incurred by them.

Georgeson Shareholder Communications Inc. has been retained by the Company to assist in the solicitation of proxies for a fee not to exceed \$8,500 plus reimbursement for out-of-pocket expenses, to be borne by the Company.

Delivery of Documents

Only one annual report to shareholders and proxy statement is being delivered to multiple shareholders of the Company sharing an address unless the Company or its agent has received contrary instructions from a shareholder. However, if under this procedure a shareholder who would not otherwise receive an individual copy of such documents desires to receive a copy, or if shareholders at the same address are receiving multiple copies of proxy materials and would like to receive one set, they may submit their request by contacting the Company's Secretary in writing at P.O. Box 2353, Orlando, FL 32802 or by calling 1-407-826-5050.

Section 1. *Vote Required for Certain Business Combinations.*

(A) *Higher Vote for Certain Business Combinations.* In addition to any affirmative vote required, by law or this Certificate of Incorporation or by any Preferred Stock Designation, and except as otherwise expressly provided in Section 2 of this Article IX:

(i) any merger or consolidation of the Corporation or any Subsidiary (as hereinafter defined) with (a) any Interested Stockholder (as hereinafter defined) or (b) any other person (whether or not itself an Interested Stockholder) which is, or after such merger or consolidation would be, an Affiliate (as hereinafter defined) of an Interested Stockholder; or

(ii) any sale, lease, exchange, mortgage, pledge, transfer or other disposition (in one transaction or a series of transactions) to or with any Interested Stockholder, including all Affiliates of the

Interested Stockholder, of any assets of the Corporation or any Subsidiary having an aggregate Fair Market Value (as hereinafter defined) of \$10,000,000 or more; or

(iii) the issuance or transfer by the Corporation or any Subsidiary (in one transaction or a series of transactions) of any securities of the Corporation or any Subsidiary to any Interested Stockholder, including all Affiliates of any Interested Stockholder, in exchange for cash, securities or other property (or a combination thereof) having an aggregate Fair Market Value of \$10,000,000 or more; or

shall require the affirmative vote of the holders of a majority of the voting power of the capital stock outstanding and entitled to vote thereon, voting together as a single class. Such affirmative vote shall be required notwithstanding any other provision of this Certificate of Incorporation, any Preferred Stock Designation or any provision of law or of any agreement with any national securities exchange or otherwise which might otherwise permit a lesser vote or no vote.

(B) *Definition of "Business Combination."* The term "Business Combination" as used in this Article IX shall mean any transaction described in any one or more of clauses (i) through (v) of paragraph (A) of this Section 1.

Section 2. When Higher Vote Is Not Required. The provisions of Section 1 of this Article IX shall not be applicable to any particular Business Combination, and such Business Combination shall require only such affirmative vote as is required by law or any other provision of this Certificate of Incorporation and any Preferred Stock Designation, if, in the case of a Business Combination that does not involve any cash or other consideration being received by the stockholders of the Corporation, the condition specified in the following paragraph (A) is met or, in the case of any other Business Corporation, the conditions specified in either of the following paragraph (A) or (B) are met:

(A) *Approval by Continuing Directors.* The Business Combination shall have been approved by a majority of the Continuing Directors (as hereinafter defined); *provided, however*, that this condition shall not be capable of satisfaction unless there are at least five Continuing Directors.

(B) *Price and Procedure Requirements.* All of the following conditions shall have been met:

(i) The consideration to be received by holders of shares of a particular class (or series) of outstanding capital stock (including Common Stock and other than Excluded Preferred Stock (as hereinafter defined)) shall be in cash or in the same form as the Interested Stockholder or any of its Affiliates has previously paid for shares of such class (or series) of capital stock. If the Interested Stockholder or any of its Affiliates have paid for shares of any class (or series) of capital stock with varying forms of consideration, the form of consideration to be received per share by holders of shares of such class (or series) of capital stock shall be either cash or the form used to acquire the largest number of shares of such class (or series) of capital stock previously acquired by the Interested Stockholder.

(ii) The aggregate amount of (x) the cash and (y) the Fair Market Value, as of the date (the "Consummation Date") of the consummation of the Business Combination, of the consideration other than cash to be received per share by holders of Common Stock in such Business Combination

shall be at least equal to the higher of the following (in each case appropriately adjusted in the event of any stock dividend, stock split, combination of shares or similar event):

(a) (if applicable) the highest per share price (including any brokerage commissions, transfer taxes and soliciting dealers' fees) paid by the Interested Stockholder or any of its Affiliates for any shares of Common Stock acquired by them within the two-year period immediately prior to the date of the first public announcement of the proposal of the Business Combination (the "Announcement Date") or in any transaction in which the Interested Stockholder became an Interested Stockholder, whichever is higher, *plus* interest compounded annually from the first date on which the Interested Stockholder became an Interested Stockholder (the "Determination Date") through the Consummation Date at the publicly announced base rate of interest of Citibank N.A. (or such other major bank headquartered in the City of New York as may be selected by the Continuing Directors) from time to time in effect in the City of New York, *less* the aggregate amount of any cash dividends paid, and the Fair Market Value of any dividends paid in other than cash, on each share of Common Stock from the Determination Date through the Consummation Date in an amount up to but not exceeding the amount of interest so payable per share of Common Stock; and

(b) the Fair Market Value per share of Common Stock on the Announcement Date or the Determination Date, whichever is higher.

(iii) The aggregate amount of (x) the cash and (y) the Fair Market Value, as of the Consummation Date, of the consideration other than cash to be received per share by holders of shares of any class (or series), other than Common Stock or Excluded Preferred Stock, of outstanding capital stock shall be at least equal to the highest of the following (in each case appropriately adjusted in the event of any stock dividend, stock split, combination of shares or similar event), it being intended that the requirements of this paragraph (B)(iii) shall be required to be met with respect to every such class (or series) of outstanding capital stock whether or not the Interested Stockholder or any of its Affiliates has previously acquired any shares of a particular class (or series) of capital stock:

(a) (if applicable) the highest per share price (including any brokerage commissions, transfer taxes and soliciting dealers' fees) paid by the Interested Stockholder or any of its Affiliates for any shares of such class (or series) of capital stock acquired by them within the two-year period immediately prior to the Announcement Date or in any transactions in which it became an Interested Stockholder, whichever is higher, *plus* interest compounded annually from the Determination Date through the Consummation Date at the publicly announced base rate of interest of Citibank N.A. (or such other major bank headquartered in the City of New York as may be selected by the Continuing Directors) from time to time in effect in the City of New York, *less* the aggregate amount of any cash dividends paid, and the Fair Market Value of any dividends paid in other than cash, on each share of such class (or series) of capital stock from the Determination Date through the Consummation Date in an amount up to but not exceeding the amount of interest so payable per share of such class (or series) of capital stock;

(b) the Fair Market Value per share of such class (or series) of capital stock on the Announcement Date or on the Determination Date, whichever is higher, and

(c) the highest preferential amount per share, if any, to which the holders of shares of such class (or series) of capital stock would be entitled in the event of any voluntary or involuntary liquidation, dissolution or winding up of the Corporation.

(iv) After such Interested Stockholder has become an Interested Stockholder and prior to the consummation of such Business Combination: (a) except as approved by a majority of the Continuing Directors, there shall have been no failure to declare and pay at the regular date therefor any full quarterly dividends (whether or not cumulative) on any outstanding Preferred Stock; (b) there shall

Edgar Filing: TUPPERWARE BRANDS CORP - Form DEF 14A

have been (I) no reduction in the annual rate of dividends paid on the Common Stock (except as necessary to reflect any subdivision of the Common Stock), except as approved by a majority of the Continuing Directors, and (II) an increase in such annual rate of dividends as necessary to reflect any reclassification (including any reverse stock split), recapitalization, reorganization or any similar transaction which has the effect of reducing the number of outstanding shares of Common Stock, unless the failure so to increase such annual rate is approved by a majority of the Continuing Directors; and (c) neither such Interested Stockholder nor any of its Affiliates shall have become the beneficial owner of any additional shares of Voting Stock except as part of the transaction which results in such Interested Stockholder becoming an Interested Stockholder; *provided, however*, that no approval by Continuing Directors shall satisfy the requirements of this subparagraph (iv) unless at the time of such approval there are at least five Continuing Directors.

(v) After such Interested Stockholder has become an Interested Stockholder, such Interested Stockholder and any of its Affiliates shall not have received the benefit, directly or indirectly (except proportionately, solely in such Interested Stockholder's or Affiliate's capacity as a stockholder of the Corporation), of any loans, advances, guarantees, pledges or other financial assistance or any tax credits or other tax advantages provided by the Corporation, whether in anticipation of or in connection with such Business Combination or otherwise.

(vi) A proxy or information statement describing the proposed Business Combination and complying with the requirements of the Securities Exchange Act of 1934, as amended, and the rules and regulations thereunder (or any subsequent provisions replacing such Act, rules or regulations) shall be mailed to all stockholders of the Corporation at least 30 days prior to the consummation of such Business Combination (whether or not such proxy or information statement is required to be mailed pursuant to such Act or subsequent provisions).

(vii) Such Interested Stockholder shall have supplied the Corporation with such information as shall have been requested pursuant to Section 4 of this Article IX within the time period set forth therein.

Section 3. For the purposes of this Article IX:

(1) A "person" means any individual, limited partnership, general partnership, corporation or other firm or entity.

(3) A person shall be a "beneficial owner" of, or shall "Beneficially Own", any Voting Stock:

(i) which such person or any of its Affiliates or Associates (as hereinafter defined) beneficially owns, directly or indirectly within the meaning of Rule 13d-3, or any successor rule thereto, under the Securities Exchange Act of 1934, as amended, or any successor act thereto; or

SERIES A JUNIOR PARTICIPATING PREFERRED STOCK

Section 1. *Designation and Amount.* The shares of such series shall be designated as "Series A Junior Participating Preferred Stock" (the "Series A Preferred Stock") and the number of shares constituting the Series A Preferred Stock shall be 900,000. Such number of shares may be increased or decreased by resolution of the Board of Directors; *provided*, that no decrease shall reduce the number of shares of Series A Preferred Stock to a number less than the number of shares then outstanding plus the number of shares reserved for issuance upon the exercise of outstanding options, rights or warrants or upon the conversion of any outstanding securities issued by the Corporation convertible into Series A Preferred Stock.

Section 2. *Dividends and Distributions.*

(a) Subject to the rights of the holders of any shares of any series of Preferred Stock (or any similar stock) ranking prior and superior to the Series A Preferred Stock with respect to dividends, the holders of shares of Series A Preferred Stock, in preference to the holders of Common Stock, par value \$.01 per share of the Corporation (the "Common Stock"), and of any other junior stock, shall be entitled to receive, when, as and if declared by the Board of Directors out of funds legally available for the purpose, quarterly dividends payable in cash on the first day of March, June, September and December in each year (each such date being referred to herein as a "Quarterly Dividend Payment Date"), commencing on the first Quarterly Dividend Payment Date after the first issuance of a share or fraction of a share of Series A Preferred Stock, in an amount per share (rounded to the nearest cent) equal to the greater of (a) \$1 or (b) subject to the provision for adjustment hereinafter set forth, 100 times the aggregate per share amount of all cash dividends, and 100 times the aggregate per share amount (payable in kind) of all non-cash dividends or other distributions, other than a dividend payable in shares of Common Stock or a subdivision of the outstanding shares of Common Stock (by reclassification or otherwise), declared on the Common Stock since the immediately preceding Quarterly Dividend Payment Date or, with respect to the first Quarterly Dividend Payment Date, since the first issuance of any share or fraction of a share of Series A Preferred Stock. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the amount to which holders of shares of Series A Preferred Stock were entitled immediately prior to such event under clause (b) of the preceding sentence shall be adjusted by multiplying such amount by a fraction, the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

(b) The Corporation shall declare a dividend or distribution on the Series A Preferred Stock as provided in paragraph (A) of this Section immediately after it declares a dividend or distribution on the Common Stock (other than a dividend payable in shares of Common Stock); provided that, in the event no dividend or distribution shall have been declared on the Common Stock during the period between any Quarterly Dividend Payment Date and the next subsequent Quarterly Dividend Payment Date, dividend of \$1 per share on the Series A Preferred Stock shall nevertheless be payable on such subsequent Quarterly Dividend Payment Date.

(c) Dividends shall begin to accrue and be cumulative on outstanding shares of Series A Preferred Stock from the Quarterly Dividend Payment Date next preceding the date of issue of such shares, unless the date of issue of such shares is prior to the record date for the first Quarterly Dividend Payment Date, in which case dividends on such shares shall begin to accrue from the date of issue of such shares, or unless

the date of issue is a Quarterly Dividend Payment Date or is a date after the record date for the determination of holders of shares of Series A Preferred Stock entitled to receive a quarterly dividend and before such Quarterly Dividend Payment Date, in either of which events such dividends shall begin to accrue and be cumulative from such Quarterly Dividend Payment Date. Accrued but unpaid dividends shall not bear interest. Dividends paid on the shares of Series A Preferred Stock in an amount less than the total amount of such dividends at the time accrued and payable on such shares shall be allocated pro rata on a share-by-share basis among all such shares at the time outstanding. The Board of Directors may fix a record date for the determination of holders of shares of Series A Preferred Stock entitled to receive payment of a dividend or distribution declared thereon, which record date shall be not more than 60 days prior to the date fixed for the payment thereof.

Section 3. *Voting Rights.* The holders of shares of Series A Preferred Stock shall have the following voting rights:

(a) Subject to the provision for adjustment hereinafter set forth, each share of Series A Preferred Stock shall entitle the holder thereof to 100 votes on all matters submitted to a vote of the stockholders of the Corporation. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the number of votes per share to which holders of shares of Series A Preferred Stock were entitled immediately prior to such event shall be adjusted by multiplying such number by a fraction, the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

(b) Except as otherwise provided herein, in any other Certificate of Designations creating a series of Preferred Stock or any similar stock, or by law, the holders of shares of Series A Preferred Stock and the holders of shares of Common Stock and any other capital stock of the Corporation having general voting rights shall vote together as one class on all matters submitted to a vote of stockholders of the Corporation.

(c) Except as set forth herein, or as otherwise provided by law, holders of Series A Preferred Stock shall have no special voting rights and their consent shall not be required (except to the extent they are entitled to vote with holders of Common Stock as set forth herein) for taking any corporate action.

Section 4. *Certain Restrictions.*

(a) Whenever quarterly dividends or other dividends or distributions payable on the Series A Preferred Stock as provided in Section 2 are in arrears, thereafter and until all accrued and unpaid dividends and distributions, whether or not declared, on shares of Series A Preferred Stock outstanding shall have been paid in full, the Corporation shall not:

(i) declare or pay dividends, or make any other distributions, on any shares of stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock;

(ii) declare or pay dividends, or make any other distributions, on any shares of stock ranking on a parity (either as to dividends or upon liquidation, dissolution or winding up) with the Series A Preferred Stock, except dividends paid ratably on the Series A Preferred Stock and all such parity stock on which dividends are payable or in arrears in proportion to the total amounts to which the holders of all such shares are then entitled;

(iii) redeem or purchase or otherwise acquire for consideration shares of any stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock, provided that the Corporation may at any time redeem, purchase or otherwise

acquire shares of any such junior stock in exchange for shares of any stock of the Corporation ranking junior (either as to dividends or upon dissolution, liquidation or winding up) to the Series A Preferred Stock; or

(iv) redeem or purchase or otherwise acquire for consideration any shares of Series A Preferred Stock, or any shares of stock ranking on a parity with the Series A Preferred Stock, except in accordance with a purchase offer made in writing or by publication (as determined by the Board of Directors) to all holders of such shares upon such terms as the Board of Directors, after consideration of the respective annual dividend rates and other relative rights and preferences of the respective series and classes, shall determine in good faith will result in fair and equitable treatment among the respective series or classes.

(b) The Corporation shall not permit any subsidiary of the Corporation to purchase or otherwise acquire for consideration any shares of stock of the Corporation unless the Corporation could, under paragraph (A) of this Section 4, purchase or otherwise acquire such shares at such time and in such manner.

Section 5. *Reacquired Shares.* Any shares of Series A Preferred Stock purchased or otherwise acquired by the Corporation in any manner whatsoever shall be retired and cancelled promptly after the acquisition thereof. All such shares shall upon their cancellation become authorized but unissued shares of Preferred Stock and may be reissued as part of a new series of Preferred Stock subject to the conditions and restrictions on issuance set forth herein, in the Certificate of Incorporation, or in any other Certificate of Designations creating a series of Preferred Stock or any similar stock or as otherwise required by law.

Section 6. *Liquidation, Dissolution or Winding Up.* Upon any liquidation, dissolution or winding up of the Corporation, no distribution shall be made (1) to the holders of shares of stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock unless, prior thereto, the holders of shares of Series A Preferred Stock shall have received \$100 per share, plus an amount equal to accrued and unpaid dividends and distributions thereon, whether or not declared, to the date of such payment, provided that the holders of shares of Series A Preferred Stock shall be entitled to receive an aggregate amount per share, subject to the provision for adjustment hereinafter set forth, equal to 100 times the aggregate amount to be distributed per share to holders of shares of Common Stock, or (2) to the holders of shares of stock ranking on a parity (either as to dividends or upon liquidation, dissolution or winding up) with the Series A Preferred Stock, except distributions made ratably on the Series A Preferred Stock and all such parity stock in proportion to the total amounts to which the holders of all such shares are entitled upon such liquidation, dissolution or winding up. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the aggregate amount to which holders of shares of Series A Preferred Stock were entitled immediately prior to such event under the proviso in clause (1) of the preceding sentence shall be adjusted by multiplying such amount by a fraction the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

Section 7. *Consolidation, Merger, etc.* In case the Corporation shall enter into any consolidation, merger, combination or other transaction in which the shares of Common Stock are exchanged for or changed into other stock or securities, cash and/or any other property, then in any such case each share of Series A Preferred Stock shall at the same time be similarly exchanged or changed into an amount per share, subject to the provision for adjustment hereinafter set forth, equal to 100 times the aggregate amount of stock, securities, cash and/or any other property (payable in kind), as the case may be, into which or for which each share of Common Stock is changed or exchanged. In the event the Corporation

shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the amount set forth in the preceding sentence with respect to the exchange or change of shares of Series A Preferred Stock shall be adjusted by multiplying such amount by a fraction, the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

Section 8. *No Redemption.* The shares of Series A Preferred Stock shall not be redeemable.

Section 9. *Rank.* The Series A Preferred Stock shall rank, with respect to the payment of dividends and the distribution of assets, junior to all series of any other class of the Corporation's Preferred Stock.

Section 10. *Amendment.* The Certificate of Incorporation of the Corporation shall not be amended in any manner which would materially alter or change the powers, preferences or special rights of the Series A Preferred Stock so as to affect them adversely without the affirmative vote of the holders of at least two-thirds of the outstanding shares of Series A Preferred Stock, voting together as a single class.
