PROSPECTUS SUPPLEMENT
(To Prospectus dated October 29, 2012)

Up to 45,000,000 Shares

Common Stock

Prospect Capital Corporation is a financial services company that lends to and invests in middle market, privately-held companies. We are organized as an externally-managed, non-diversified closed-end management investment company that has elected to be treated as a business development company under the Investment Company Act of 1940. Prospect Capital Management LLC manages our investments and Prospect Administration LLC provides the administrative services necessary for us to operate.

We have entered into equity distribution agreements, dated May 8, 2013, with KeyBanc Capital Markets Inc., or "KBCM," BB&T Capital Markets, a division of BB&T Securities, LLC or "BB&T" and BMO Capital Markets Corp., or "BMO," relating to shares of common stock offered by this prospectus supplement and the accompanying prospectus. We sometimes refer to KBCM, BB&T and BMO individually as a "Sales Manager" and together as the "Sales Managers."

The equity distribution agreements provide that we may offer and sell up to 45,000,000 shares of our common stock from time to time through the Sales Managers, as our agents for the offer and sale of such common stock. Sales of our common stock, if any, under this prospectus supplement and the accompanying prospectus may be made in negotiated transactions or transactions that are deemed to be "at the market" as defined in Rule 415 under the Securities Act of 1933, as amended, or the "1933 Act," including sales made directly on the NASDAQ Global Select Market or sales made to or through a market maker other than on an exchange.

The Sales Managers will receive from us a commission to be negotiated from time to time but in no event in excess of 2.0% of the gross sales price of all shares of common stock sold through them as Sales Managers under the equity distribution agreements. The Sales Managers are not required to sell any specific number or dollar amount of common stock, but each will use its commercially reasonable efforts to sell the common stock offered by this prospectus supplement and the accompanying prospectus. See "Plan of Distribution" on page S-69 of this prospectus supplement.

These shares of common stock may be offered at a discount from our most recently determined net asset value per share pursuant to authority granted by our stockholders at the 2012 annual meeting of stockholders held on December 7, 2012. Sales of common stock at prices below net asset value per share dilute the interests of existing stockholders, have the effect of reducing our net asset value per share and may reduce our market price per share. See "Risk Factors" beginning on page S-9 and "Recent Sales of Common Stock Below Net Asset Value" beginning on page S-57 of this prospectus supplement and on page 121 of the accompanying prospectus.

Our common stock is listed on The Nasdaq Global Select Market under the symbol "PSEC." The last reported sale price of our common stock on May 7, 2013 was \$10.875 per share. Our most recently estimated NAV per share is \$10.71 on an as adjusted basis solely to give effect to our issuance of common stock since March 31, 2013 in connection with our dividend reinvestment plan and our issuance of 4,477,037 shares of common stock during the period from April 1, 2013 to May 3, 2013 under our at-the-market offering program, the same as the \$10.71 determined by us as of March 31, 2013.

FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus may contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, or the "Exchange Act," which involve substantial risks and uncertainties. Forward-looking statements predict or describe our future operations, business plans, business and investment strategies and portfolio management and the performance of our investments and our investment management business. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about our industry, our beliefs, and our assumptions. Words such as "intends," "intend," "intended," "goal," "estimate," "estimates," "expects," "expect," "expected," "project," "projected," "projections," "plans," "seeks," "anticipates," "anticipated," "should," "could," "may," "will," "designed to," "foreseeable future," "believe," "believes" and "scheduled" and variations of these words and similar expressions are intended to identify forward-looking statements. Our actual results or outcomes may differ materially from those anticipated. Readers are cautioned not to place undue reliance on these forward looking statements, which speak only as of the date the statement was made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. These statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements, including without limitation:

our future operating results,

our business prospects and the prospects of our portfolio companies,

the impact of investments that we expect to make,

our contractual arrangements and relationships with third parties,

the dependence of our future success on the general economy and its impact on the industries in which we invest,

the ability of our portfolio companies to achieve their objectives,

difficulty in obtaining financing or raising capital, especially in the current credit and equity environment,

the level and volatility of prevailing interest rates and credit spreads, magnified by the current turmoil in the credit markets,

adverse developments in the availability of desirable loan and investment opportunities whether they are due to competition, regulation or otherwise,

a compression of the yield on our investments and the cost of our liabilities, as well as the level of leverage available to us,

our regulatory structure and tax treatment, including our ability to operate as a business development company and a regulated investment company,

the adequacy of our cash resources and working capital,

Edgar Filing: PROSPECT CAPITAL CORP - Form 497

the timing of cash flows, if any, from the operations of our portfolio companies,

the ability of our investment adviser to locate suitable investments for us and to monitor and administer our investments,

authoritative generally accepted accounting principles or policy changes from such standard-setting bodies as the Financial Accounting Standards Board, the SEC, Internal Revenue Service,

the NASDAQ Global Select Market, and other authorities that we are subject to, as well as their counterparts in any foreign jurisdictions where we might do business, and

the risks, uncertainties and other factors we identify in "Risk Factors" and elsewhere in this prospectus supplement and the accompanying prospectus and in our filings with the SEC.

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be inaccurate. Important assumptions include our ability to originate new loans and investments, ability to obtain certain margins and levels of profitability and the availability of additional capital. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this prospectus supplement and the accompanying prospectus, respectively, should not be regarded as a representation by us that our plans and objectives will be achieved. These risks and uncertainties include those described or identified in "Risk Factors" and elsewhere in this prospectus supplement and the accompanying prospectus, respectively. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this prospectus supplement or the accompanying prospectus, as applicable. These forward-looking statements do not meet the safe harbor for forward-looking statements pursuant to Section 27A of the Securities Act of 1933, as amended, or the "Securities Act."

You should rely only on the information contained in this prospectus supplement, including any pricing supplement included hereto, and the accompanying prospectus. We have not, and the Sales Managers have not, authorized any other person to provide you with information that is different from that contained in this prospectus supplement, including any pricing supplement included hereto, or the accompanying prospectus. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and the Sales Managers are not, making an offer of these securities in any jurisdiction where the offer is not permitted. You should assume that the information appearing in this prospectus supplement, including any pricing supplement included hereto, and the accompanying prospectus is accurate only as of their respective dates and we assume no obligation to update any such information. Our business, financial condition and results of operations may have changed since those dates. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we any make directly to you or through reports that we have filed with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K.

This prospectus supplement, including any pricing supplement included hereto, supersedes the accompanying prospectus to the extent it contains information that is different from or in addition to the information in that prospectus.

PROSPECTUS SUMMARY

This summary highlights some of the information contained elsewhere in this prospectus supplement and the accompanying prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under "Risk Factors" in this prospectus supplement and in the accompanying prospectus and the other information included in this prospectus supplement and the accompanying prospectus.

The terms "we," "us," "our" and "Company" refer to Prospect Capital Corporation; "Prospect Capital Management," "Investment Advisor" and "PCM" refer to Prospect Capital Management LLC; and "Prospect Administration" and the "Administrator" refer to Prospect Administration LLC.

The Company

Prospect Capital Corporation is a financial services company that primarily lends to and invests in middle market privately-held companies. In this prospectus supplement and the accompanying prospectus, we use the term "middle-market" to refer to companies with annual revenues between \$50 million and \$2 billion. We are a closed-end investment company that has filed an election to be treated as a business development company under the Investment Company Act of 1940, or the "1940 Act." We invest primarily in senior and subordinated debt and equity of companies in need of capital for acquisitions, divestitures, growth, development and recapitalization. We work with the management teams or financial sponsors to seek investments with historical cash flows, asset collateral or contracted pro-forma cash flows.

We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. First and second lien senior loans generally are senior debt instruments that rank ahead of subordinated debt of a given portfolio company. These loans also have the benefit of security interests on the assets of the portfolio company, which may rank ahead of or be junior to other security interests. Mezzanine debt is subordinated to senior loans and is generally unsecured. Our investments have generally ranged between \$5 million and \$75 million each, although the investment size may be more or less than this range. Our investment sizes are expected to grow as our capital base expands.

We also acquire controlling interests in companies in conjunction with making secured debt investments in such companies. In most cases, companies in which we invest are privately held at the time we invest in them. We refer to these companies as "target" or "middle market" companies and these investments as "middle market investments."

We seek to maximize total returns to our investors, including both current yield and equity upside, by applying rigorous credit analysis and asset-based and cash-flow based lending techniques to make and monitor our investments. Many of our investments to date have been in energy-related industries, which consist of companies in the discovery, production, transportation, storage and use of energy resources as well as companies that sell products and services to, or acquire products and services from, these companies.

We are currently pursuing multiple investment opportunities, including purchases of portfolios from private and public companies, as well as originations and secondary purchases of particular securities. There can be no assurance that we will successfully consummate any investment opportunity we are currently pursuing. Motivated sellers, including commercial finance companies, hedge funds, other business development companies, total return swap counterparties, banks, collateralized loan obligation funds, and other entities, are suffering from excess leverage, and we believe we are well positioned to capitalize as potential buyers of such assets at attractive prices. If any of these opportunities are consummated, there can be no assurance that investors will share our view of

Table of Contents

valuation or that any assets acquired will not be subject to future write downs, each of which could have an adverse effect on our stock price.

As of March 31, 2013, we held investments in 120 portfolio companies. The aggregate fair value as of March 31, 2013 of investments in these portfolio companies held on that date is approximately \$3.7 billion. Our portfolio across all our interest-bearing investments had an annualized current yield of 13.9% as of March 31, 2013.

Recent Developments

Dividends

On May 6, 2013, we announced the declaration of monthly dividends in the following amounts and with the following dates:

\$0.110125 per share for May 2013 to holders of record on May 31, 2013 with a payment date of June 20, 2013;

\$0.110150 per share for June 2013 to holders of record on June 28, 2013 with a payment date of July 18, 2013;

\$0.110175 per share for July 2013 to holders of record on July 31, 2013 with a payment date of August 22, 2013; and

\$0.110200 per share for August 2013 to holders of record on August 30, 2013 with a payment date of September 19, 2013.

Recent Investment Activity

On April 1, 2013, we refinanced our existing senior secured loans to Ajax Rolled Ring & Machine, Inc., increasing the size of our debt investment to \$38.5 million.

On April 15, 2013, we entered into an Agent Joinder Letter with Citigroup Global Markets Inc. to appoint Citigroup Global Markets Inc. as an agent pursuant to the Second Amended and Restated Selling Agent Agreement dated March 4, 2013, among us, Prospect Capital Management LLC, Prospect Administration LLC, Incapital LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated.

On April 19, 2013, we made an investment of \$43.7 million to purchase 97% of the subordinated notes in Mountain View CLO 2013-I Ltd.

On April 22, 2013, we provided \$34.4 million of senior secured financing to support the carve-out acquisition of Pegasus Financial Services ("PFS") by investment funds managed by H.I.G. Capital. PFS is the world's largest processor of commissions paid by hotels to travel agencies.

On April 25, 2013, we made an investment of \$26.0 million to purchase 50.9% of the subordinated notes in Brookside Mill CLO Ltd.

On April 30, 2013, we made a \$21.2 million follow-on investment in APH Property Holdings, LLC ("APH"), to acquire Lofton Place Apartments and Vista at Palma Sola, residential properties located in Florida. We invested \$3.2 million of equity and \$18.0 million of debt in APH.

On April 30, 2013, we sold our investment in Fischbein, LLC for net proceeds of \$3.2 million, recognizing a realized gain of \$2.3 million on the sale. In addition, there is \$0.3 million being held in escrow which will be recognized as additional gain when and if received.

On May 8, 2013, we made a \$6.1 million follow-on investment in APH, to acquire Arlington Park Marietta, LLC, a residential property located in Marietta, Georgia. We invested \$2.1 million of equity and \$4.0 million of debt in APH.

Table of Contents

Debt Issuance

During the period from April 1, 2013 to May 3, 2013, we issued \$64.2 million in aggregate principal amount of our Prospect Capital InterNotes® for net proceeds of \$62.6 million.

On May 6, 2013, we sold an additional \$21.8 million in aggregate principal amount of our Prospect Capital InterNotes® with a settlement date of May 9, 2013 for net proceeds of \$21.2 million.

Common Stock Issuances

During the period from April 1, 2013 to May 3, 2013, we sold 4,477,037 shares of our common stock at an average price of \$10.93 per share, and raised \$48.9 million of gross proceeds, under our at-the-market offering program (the "ATM Program"). Net proceeds were \$48.6 million net of commissions to the broker-dealer on shares sold and offering costs.

On April 18, 2013, we issued 138,087 shares of our common stock in connection with the dividend reinvestment plan.

Table of Contents

The Offering

Common stock offered by us	Up to 45,000,000 shares.
Common stock outstanding as of the date of this prospectus supplement	243,243,161 shares.
Use of proceeds	We expect to use the net proceeds from this offering initially to maintain balance sheet liquidity, involving repayment of debt under our credit facility, if any, investments in high quality short-term debt instruments or a combination thereof, and thereafter to make long-term investments in accordance with our investment objective. See "Use of Proceeds" in this prospectus supplement.
The NASDAQ Global Select Market symbol	PSEC
Risk factors	See "Risk Factors" in this prospectus supplement and the accompanying prospectus and other information in this prospectus supplement and the accompanying prospectus for a discussion of factors you should carefully consider before you decide whether to make an investment in shares of our common stock.
Current distribution rate	On May 6, 2013, we announced the declaration of monthly dividends in the following amounts and with the following dates:

\$0.110125 per share for May 2013 to holders of record on May 31, 2013 with a payment date of June 20, 2013;

\$0.110150 per share for June 2013 to holders of record on June 28, 2013 with a payment date of July 18, 2013;

\$0.110175 per share for July 2013 to holders of record on July 31, 2013 with a payment date of August 22, 2013; and

\$0.110200 per share for August 2013 to holders of record on August 30, 2013 with a payment date of September 19, 2013.
Based on the May 2013 distribution of \$0.110125, this represents an annualized yield of approximately 12.2% based on our May 7, 2013 closing stock price of \$10.875 per share. Such distributions are expected to be payable out of earnings. Our distribution levels are subject to change or discontinuance at any time in the discretion of our Board of Directors. Our future earnings and operating cash flow may not be sufficient to support a dividend.

Table of Contents**Fees and Expenses**

The following tables are intended to assist you in understanding the costs and expenses that an investor in this offering will bear directly or indirectly. We caution you that some of the percentages indicated in the table below are estimates and may vary. In these tables, we assume that we have borrowed \$552.5 million under our credit facility, which is the maximum amount available under the credit facility, in addition to our other indebtedness of \$1.459 billion and a maximum sales load of 2.0% pursuant to the equity distribution agreements. Except where the context suggests otherwise, whenever this prospectus contains a reference to fees or expenses paid by "you" or "us" or that "we" will pay fees or expenses, the Company will pay such fees and expenses out of our net assets and, consequently, you will indirectly bear such fees or expenses as an investor in the Company. However, you will not be required to deliver any money or otherwise bear personal liability or responsibility for such fees or expenses.

Stockholder transaction expenses:

Sales load (as a percentage of offering price)(1)	2.00%
Offering expenses borne by us (as a percentage of offering price)(2)	0.04%
Dividend reinvestment plan expenses(3)	None
Total stockholder transaction expenses (as a percentage of offering price)	2.04%

Annual expenses (as a percentage of net assets attributable to common stock)(4):

Management Fees(5)	3.65%
Incentive fees payable under Investment Advisory Agreement (20% of realized capital gains and 20% of pre-incentive fee net investment income)(6)	3.04%
Total advisory fees	6.69%
Total interest expense(7)	3.99%
Acquired Fund Fees and Expenses(8)	0.02%
Other expenses(9)	1.33%
Total annual expenses(6)(9)	12.03%

Example

The following table demonstrates the projected dollar amount of cumulative expenses we would pay out of net assets and that you would indirectly bear over various periods with respect to a hypothetical investment in our common stock. In calculating the following expense amounts, we have assumed we have borrowed all \$552.5 million available under our line of credit, in addition to our other indebtedness of \$1.459 billion and that our annual operating expenses would remain at the levels set forth in the table above and that we would pay the costs shown in the table above.

	1 Year	3 Years	5 Years	10 Years
You would pay the following expenses on a \$1,000 investment, assuming a 5% annual return	\$ 82.76	\$ 204.92	\$ 323.77	\$ 606.99

While the example assumes, as required by the SEC, a 5% annual return, our performance will vary and may result in a return greater or less than 5%. The income incentive fee under our Investment Advisory Agreement with Prospect Capital Management is unlikely to be material assuming a 5% annual return and is not included in the example. If we achieve sufficient returns on our investments, including through the realization of capital gains, to trigger an incentive fee of a material amount, our distributions to our common stockholders and our expenses would likely be higher. In addition, while the example assumes reinvestment of all dividends and other distributions at net asset value, or NAV, participants in our dividend reinvestment plan will receive a number of shares of our common stock determined by dividing the total dollar amount of the distribution payable to a participant by the market price per share of our common stock at the close of trading on the valuation

Table of Contents

date for the distribution. See "Dividend Reinvestment Plan" for additional information regarding our dividend reinvestment plan.

This example and the expenses in the table above should not be considered a representation of our future expenses. Actual expenses (including the cost of debt, if any, and other expenses) may be greater or less than those shown.

- (1) Represents the estimated commission with respect to the shares of common stock being sold in this offering. The Sales Managers will be entitled to compensation up to 2.00% of the gross proceeds of the sale of any shares of our common stock under the equity distribution agreements, with the exact amount of such compensation to be mutually agreed upon by the Company and the Sales Managers from time to time. There is no guarantee that there will be any sales of our common stock pursuant to this prospectus supplement and the accompanying prospectus.
- (2) The offering expenses of this offering are estimated to be approximately \$200,000.
- (3) The expenses of the dividend reinvestment plan are included in "other expenses."
- (4) Net assets attributable to our common stock equal net assets (i.e., total assets less liabilities other than liabilities for money borrowed for investment purposes) at June 30, 2012. See "Capitalization" in this prospectus supplement.
- (5) Our base management fee is 2% of our gross assets (which include any amount borrowed, i.e., total assets without deduction for any liabilities, including any borrowed amounts for non-investment purposes, for which purpose we have not and have no intention of borrowing). Although no plans are in place to borrow the full amount under our line of credit, assuming that we borrowed \$2.011 billion, the 2% management fee of gross assets equals approximately 3.65% of net assets. Based on our borrowings as of May 7, 2013 of \$1.459 billion, the 2% management fee of gross assets equals approximately 3.23% of net assets. See "Business Management Services Investment Advisory Agreement" in the accompanying prospectus and footnote 6 below.
- (6) Based on the incentive fee paid during our most recently completed fiscal quarter ended March 31, 2013, all of which consisted of an income incentive fee. The capital gain incentive fee is paid without regard to pre-incentive fee income. For a more detailed discussion of the calculation of the two-part incentive fee, see "Management Services Investment Advisory Agreement" in the accompanying prospectus.
- (7) On December 21, 2010, the Company issued \$150.0 million in aggregate principal amount of 6.25% Convertible Senior Notes due 2015, which we refer to as the 2015 Notes. See "Business General" and "Risk Factors Risks Related to our Business" in the accompanying prospectus for more detail on the 2015 Notes. On February 18, 2011, the Company issued \$172.5 million in aggregate principal amount of 5.5% Convertible Senior Notes due 2016, which we refer to as the 2016 Notes. Between January 30, 2012 and February 2, 2012, we repurchased \$5.0 million of our 2016 Notes at a price of 97.5% of par, including commissions. The transactions resulted in us recognizing \$10,000 of loss in the quarter ended March 31, 2012. See "Business General" and "Risk Factors Risks Related to our Business" in the accompanying prospectus for more detail on the 2016 Notes. On April 16, 2012, the Company issued \$130.0 million in aggregate principal amount of 5.375% Convertible Senior Notes due 2017, which we refer to as the 2017 Notes. On August 14, 2012, the Company issued \$200.0 million aggregate principal amount of 5.75% Convertible Senior Notes due 2018, which we refer to as the 2018 Notes. On December 21, 2012, the Company issued \$200.0 million aggregate principal amount of 5.875% Convertible Senior Notes due 2019, which we refer to as the 2019 Notes. The 2015 Notes, 2016 Notes, 2017 Notes, 2018 Notes and 2019 Notes are referred to collectively as the Senior Convertible Notes. On May 1, 2012 the Company issued \$100.0 million in aggregate principal amount of 6.95% Senior

Table of Contents

Notes due 2022, which we refer to as the 2022 Notes. On March 15, 2013 the Company issued \$250.0 million in aggregate principal amount of 5.875% Senior Notes due 2023, which we refer to as the 2023 Notes. As of May 3, 2013, the Company has issued \$263.6 million in aggregate principal amount of our Prospect Capital InterNotes®. The Senior Convertible Notes, the 2022 Notes, the 2023 Notes and the Prospect Capital InterNotes® are referred to collectively as the Notes.

(8)

The Company's stockholders indirectly bear the expenses of underlying investment companies in which the Company invests. This amount includes the fees and expenses of investment companies in which the Company is invested in as of March 31, 2013. When applicable, fees and expenses are based on historic fees and expenses for the investment companies and for those investment companies with little or no operating history, fees and expenses are based on expected fees and expenses stated in the investment companies' prospectus or other similar communication without giving effect to any performance. Future fees and expenses for certain investment companies may be substantially higher or lower because certain fees and expenses are based on the performance of the investment companies, which may fluctuate over time. The amount of the Company's net assets used in calculating this percentage was based on net assets of approximately \$2.556 billion as of March 31, 2013.

(9)

"Other expenses" are based on estimated amounts for the current fiscal year. The amount shown above represents annualized expenses during our three months ended March 31, 2013 representing all of our estimated recurring operating expenses (except fees and expenses reported in other items of this table) that are deducted from our operating income and reflected as expenses in our Statement of Operations. The estimate of our overhead expenses, including payments under an administration agreement with Prospect Administration, or the Administration Agreement, based on our projected allocable portion of overhead and other expenses incurred by Prospect Administration in performing its obligations under the Administration Agreement. "Other expenses" does not include non-recurring expenses. See "Business Management Services Administration Agreement" in the accompanying prospectus.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks described below and in the accompanying prospectus on page 11, together with all of the other information included in this prospectus supplement and in the accompanying prospectus, before you decide whether to make an investment in our common stock. The risks set forth below and in the accompanying prospectus are not the only risks we face. If any of the adverse events or conditions described below or in the accompanying prospectus occur, our business, financial condition and results of operations could be materially adversely affected. In such case, our NAV and the trading price of our common stock could decline, we could reduce or eliminate our dividend and you could lose all or part of your investment.

Our most recent NAV was calculated on March 31, 2013 and our NAV when calculated effective June 30, 2013 may be higher or lower.

Our most recently estimated NAV per share is \$10.71 on an as adjusted basis solely to give effect to our issuance of common stock since March 31, 2013 in connection with our dividend reinvestment plan and our issuance of 4,477,037 shares of common stock during the period from April 1, 2013 to May 3, 2013 under our ATM Program, the same as the \$10.71 determined by us as of March 31, 2013. NAV per share as of June 30, 2013, may be higher or lower than \$10.71 based on potential changes in valuations, issuances of securities, dividends paid and earnings for the quarter then ended. Our Board of Directors has not yet determined the fair value of portfolio investments at any date subsequent to March 31, 2013. Our Board of Directors determines the fair value of our portfolio investments on a quarterly basis in connection with the preparation of quarterly financial statements and based on input from independent valuation firms, our Investment Advisor, our Administrator and the audit committee of our Board of Directors.

If we sell common stock at a discount to our NAV per share, stockholders who do not participate in such sale will experience immediate dilution in an amount that may be material.

We have obtained approval from our stockholders for us to be able to sell, subject to the condition that the maximum number of shares salable below net asset value pursuant to this authority in any particular offering that could result in such dilution is limited to 25% of our then outstanding common stock immediately prior to each such offering, shares of our common stock at any level of discount from NAV per share in certain circumstances during the one-year period ending on December 7, 2013, as described in this prospectus supplement and in the accompanying prospectus. The issuance or sale by us of shares of our common stock at a discount to net asset value poses a risk of dilution to our stockholders. In particular, stockholders who do not purchase additional shares of common stock at or below the discounted price in proportion to their current ownership will experience an immediate decrease in NAV per share (as well as in the aggregate NAV of their shares of common stock if they do not participate at all). These stockholders will also experience a disproportionately greater decrease in their participation in our earnings and assets and their voting power than the increase we experience in our assets, potential earning power and voting interests from such issuance or sale. In addition, such sales may adversely affect the price at which our common stock trades. For additional information about recent sales below NAV per share, see "Recent Sales of Common Stock Below Net Asset Value" in this prospectus supplement and for additional information and hypothetical examples of these risks, see "Sales of Common Stock Below Net Asset Value" in this prospectus supplement and in the accompanying prospectus.

Table of Contents

Senior securities, including debt, expose us to additional risks, including the typical risks associated with leverage.

We intend to use our revolving credit facility from time to time to leverage our portfolio and we expect in the future to borrow from and issue senior debt securities to banks and other lenders and may securitize certain of our portfolio investments.

With certain limited exceptions, as a BDC we are only allowed to borrow amounts such that our asset coverage, as defined in the 1940 Act, is at least 200% after such borrowing. The amount of leverage that we employ will depend on our Investment Adviser's and our Board of Directors' assessment of market conditions and other factors at the time of any proposed borrowing. There is no assurance that a leveraging strategy will be successful. Leverage involves risks and special considerations for stockholders, including:

A likelihood of greater volatility in the net asset value and market price of our common stock;

Diminished operating flexibility as a result of asset coverage or investment portfolio composition requirements required by lenders or investors that are more stringent than those imposed by the 1940 Act;

The possibility that investments will have to be liquidated at less than full value or at inopportune times to comply with debt covenants or to pay interest or dividends on the leverage;

Increased operating expenses due to the cost of leverage, including issuance and servicing costs;

Convertible or exchangeable securities issued in the future may have rights, preferences and privileges more favorable than those of our common stock; and

Subordination to lenders' superior claims on our assets as a result of which lenders will be able to receive proceeds available in the case of our liquidation before any proceeds will be distributed to our stockholders.

For example, the amount we may borrow under our revolving credit facility is determined, in part, by the fair value of our investments. If the fair value of our investments declines, we may be forced to sell investments at a loss to maintain compliance with our borrowing limits. Other debt facilities we may enter into in the future may contain similar provisions. Any such forced sales would reduce our net asset value and also make it difficult for the net asset value to recover. Our Investment Adviser and our Board of Directors in their best judgment nevertheless may determine to use leverage if they expect that the benefits to our stockholders of maintaining the leveraged position will outweigh the risks.

Illustration. The following table illustrates the effect of leverage on returns from an investment in our common stock assuming various annual returns, net of interest expense. The calculations in the table below are hypothetical and actual returns may be higher or lower than those appearing below. The calculation assumes (i) \$4.1 billion in total assets, (ii) an average cost of funds of 5.88%, (iii) \$1.4 billion in debt outstanding and (iv) \$2.7 billion of shareholders' equity.

Assumed Return on Our Portfolio (net of expenses)	(10)%	(5)%	0%	5%	10%
Corresponding Return to Stockholder	(18.2)%	(10.6)%	(3.1)%	4.5%	12.1%

The assumed portfolio return is required by regulation of the SEC and is not a prediction of, and does not represent, our projected or actual performance. Actual returns may be greater or less than those appearing in the table.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

(All figures in this item are in thousands except share, per share and other data)

The following discussion should be read in conjunction with the consolidated financial statements and notes thereto appearing elsewhere in this prospectus supplement and the accompanying prospectus. Historical results set forth are not necessarily indicative of our future financial position and results of operations. Any discussion relating to specific investments or portfolio loans herein should be read in conjunction with endnote 3 to the Consolidated Schedule of Investments included in our financial statements in order to determine whether all or any portion of such investment or loan is owned by our wholly-owned bankruptcy remote special purpose subsidiary, Prospect Capital Funding LLC and, accordingly, held as collateral for the revolving credit facility.

Overview

We are a financial services company that primarily lends to and invests in middle market privately-held companies. We are a closed-end investment company that has filed an election to be treated as a business development company under the Investment Company Act of 1940, or the 1940 Act. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. First and second lien senior loans generally are senior debt instruments that rank ahead of subordinated debt of a given portfolio company. These loans also have the benefit of security interests on the assets of the portfolio company, which may rank ahead of or be junior to other security interests. Mezzanine debt and our investments in collateralized loan obligation ("CLOs") are subordinated to senior loans and are generally unsecured. We invest in debt and equity positions of CLOs which are a form of securitization in which the cash flows of a portfolio of loans are pooled and passed on to different classes of owners in various tranches. Our CLO investments are derived from portfolios of corporate debt securities which are generally risk rated from BB to B depending on the tranche.

We seek to be a long-term investor with our portfolio companies. The aggregate value of our portfolio investments was \$3,707,722 and \$2,094,221 as of March 31, 2013 and June 30, 2012, respectively. During the nine months ended March 31, 2013, our net cost of investments increased by \$1,695,800, or 80.8%, as a result of 56 new investments, 16 follow-on investments and six revolver advances of \$2,263,854, accrued of payment-in-kind interest of \$7,025, structuring fees of \$33,578 and amortization of discounts and premiums of \$13,624, while we received full repayment on seventeen investments, sold eight investments, impaired one investment, and received several partial prepayments, amortization payments and a revolver repayment, totaling \$609,919.

Compared to the end of last fiscal year (ended June 30, 2012), net assets increased by \$1,043,614, or 69.0% during the nine months ended March 31, 2013, from \$1,511,974 to \$2,555,588. This increase resulted from the issuance of new shares of our common stock (less offering costs) in the amount of \$1,083,618, dividend reinvestments of \$12,137, and \$138,167 from operations. These increases, in turn, were offset by \$190,308 in dividend distributions to our stockholders. The \$138,167 increase in net assets resulting from operations is net of the following: net investment income of \$232,828, net realized loss on investments of \$12,362, and a decrease in net assets due to changes in net unrealized depreciation of investments of \$82,299.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reported period. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ, and these differences could be material.

On March 15, 2013, we issued \$250,000 in aggregate principal amount of 5.875% senior unsecured notes due 2023 (the "2023 Notes") for net proceeds following underwriting and other expenses of approximately \$245,885. Interest on the 2023 Notes is paid semi-annually. The 2023 Notes matured on March 15, 2023. (See *Capitalization*.)

Investment Holdings

As of March 31, 2013, we continue to pursue our diversified investment strategy. At March 31, 2013, approximately \$3,707,722 or 145.1% of our net assets are invested in 120 long-term portfolio investments and CLOs and 9.9% of our net assets are invested in money market funds.

During the nine months ended March 31, 2013, we originated \$2,297,432 of new investments. Our origination efforts are focused primarily on secured lending, to reduce the risk in the portfolio, investing primarily in first lien loans, and subordinated notes in CLOs, though we also continue to close selected junior debt and equity investments. In addition to targeting investments senior in corporate capital structures with our new originations, we have also increased our origination business mix of third party private equity sponsor owned companies, which tend to have more third party equity capital supporting our debt investments than non-sponsor transactions. Our annualized current yield was 13.9% as of June 30, 2012 and March 31, 2013 across all performing interest bearing investments. Monetization of equity positions that we hold is not included in this yield calculation. In many of our portfolio companies we hold equity positions, ranging from minority interests to majority stakes, which we expect over time to contribute to our investment returns. Some of these equity positions include features such as contractual minimum internal rates of returns, preferred distributions, flip structures and other features expected to generate additional investment returns, as well as contractual protections and preferences over junior equity, in addition to the yield and security offered by our cash flow and collateral debt protections.

We classify our investments by level of control. As defined in the 1940 Act, control investments are those where there is the ability or power to exercise a controlling influence over the management or policies of a company. Control is generally deemed to exist when a company or individual possesses or has the right to acquire within 60 days or less, a beneficial ownership of 25% or more of the voting securities of an investee company. Affiliated investments and affiliated companies are defined by a lesser degree of influence and are deemed to exist through the possession outright or via the right to acquire within 60 days or less, beneficial ownership of 5% or more of the outstanding voting securities of another person.

As of March 31, 2013, we own controlling interests in AIRMALL USA, Inc. ("AIRMALL"), Ajax Rolled Ring & Machine, Inc. ("Ajax"), APH, AWCNC, LLC, Borga, Inc., CCPI Holdings, Inc. ("CCPI"), Credit Central Holdings of Delaware, LLC ("Credit Central"), Energy Solutions Holdings, Inc. (f/k/a Gas Solutions Holdings, Inc.) ("Energy Solutions"), First Tower Delaware, Manx Energy, Inc. ("Manx"), Nationwide, NMMB Holdings, Inc. ("NMMB"), R-V Industries, Inc. ("R-V"), The Healing Staff, Inc. ("THS"), Valley Electric Co. of Mt. Vernon, Inc. ("Valley Electric") and Wolf Energy Holdings, Inc. ("Wolf"). We also own an affiliated interest in BNN Holdings Corp., (f/k/a Biotronic NeuorNetwork) ("Biotronic"), Boxercraft Incorporated ("Boxercraft") and Smart, LLC.

On March 18, 2013, we sold our \$2,000 investment in J.G. Wentworth and realized a gain of \$75 on this investment.

On March 28, 2013, we sold our investment in Meatco for net proceeds of approximately \$1,965, recognizing a realized loss of \$10,814 on the sale.

On March 29, 2013, we received net proceeds of \$1,251 for the partial sale of our equity investment in C&H, realizing a gain of \$900 on the sale.

In addition to the repayments noted above, during the nine months ended March 31, 2013 we received principal amortization payments of \$13,583 on several loans, and \$51,078 of partial prepayments primarily related to Byrider Systems Acquisition Corp, Capstone, Cargo Airport Services USA, LLC, Energy Solutions, NMMB and Northwestern.

On January 4, 2012, Energy Solutions sold its gas gathering and processing assets ("Gas Solutions") for a sale price of \$199,805, adjusted for the final working capital settlement, including a potential earnout of \$28,000 that will be paid based on the future performance of Gas Solutions. We do not know the timing, if any, related to this potential earnout and have valued the \$28,000 at zero as of March 31, 2013. After expenses, including structuring fees of \$9,966 paid to us, Energy Solutions received approximately \$158,687 in cash. Currently, a portion of our loans to Energy Solutions remain outstanding and are collateralized by the cash held by Energy Solutions after the sale transaction. The sale of Gas Solutions by Energy Solutions resulted in significant earnings and profits, as defined by the Internal Revenue Code, at Energy Solutions for calendar year 2012. As a result, distributions from Energy Solutions to us were required to be recognized as dividend income, in accordance with ASC 946, Financial Services Investment Companies, as cash distributions are received from Energy Solutions to the extent there are current year earnings and profits sufficient to support such recognition. During the nine months ended March 31, 2013, Energy Solutions repaid \$24,250 of senior secured debt. We received a \$16,952 make-whole fee for early repayment of the outstanding loan, which was recorded as interest income during the nine months ended March 31, 2013. During the nine months ended March 31, 2013, we received distributions of \$53,820 from Energy Solutions which were recorded as dividend income. We received no such distributions during the three months ended March 31, 2013. Energy Solutions continues to hold \$23,576 of cash for future investment and repayment of the remaining debt.

During the three and nine months ended March 31, 2013, we recognized \$271 and \$1,210 of interest income due to purchase discount accretion from the assets acquired from Patriot Capital Funding, Inc. ("Patriot"). Included in the \$1,210 recorded during the nine months ended March 31, 2013 is \$840 of normal accretion and \$370 of accelerated accretion resulting from the repayment of Hudson.

As of March 31, 2013, \$812 of purchase discount from the assets acquired from Patriot remains to be accreted as interest income, of which \$271 is expected to be amortized during the three months ending June 30, 2013.

During the three and nine months ended March 31, 2012, we recognized \$964 and \$3,348 of interest income due to purchase discount accretion from the assets acquired from Patriot, respectively. Included in the \$964 recorded during the three months ended March 31, 2012 is \$726 of normal accretion and \$238 of accelerated accretion resulting from the repayment of ROM Acquisition Corp ("ROM"). Included in the \$3,348 recorded during the nine months ended March 31, 2012 is \$2,417 of normal accretion and \$931 of accelerated accretion resulting from the repayments of Mac & Massey Holdings LLC and ROM.

Investment Valuation

In determining the fair value of our portfolio investments at March 31, 2013 the Audit Committee considered valuations from the independent valuation firms and from management having an aggregate range of \$3,616,948 to \$3,908,509, excluding money market investments.

Table of Contents

In determining the range of value for debt instruments, management and the independent valuation firms generally shadow rated the investment and then based upon the range of ratings, determined appropriate yields to maturity for a loan rated as such. A discounted cash flow analysis was then prepared using the appropriate yield to maturity as the discount rate, yielding the ranges. For equity investments, the enterprise value was determined by applying EBITDA multiples for similar recent investment sales. For stressed equity investments, a liquidation analysis was prepared.

In determining the range of value for our investments in CLOs, management and the independent valuation firms used discounted cash flow models. The valuations were accomplished through the analysis of the CLO deal structures to identify the risk exposures from the modeling point of view. For each security, the most appropriate valuation approach was chosen from alternative approaches to ensure the most accurate valuation for each security. A discounted cash flow model is prepared, utilizing a waterfall engine to store the collateral data, generate collateral cash flows from the assets, and distributes the cash flow to the liability structure based on the payment priorities, and discount them back using proper discount rates that incorporate all the risk factors.

The Board of Directors looked at several factors in determining where within the range to value the asset including: recent operating and financial trends for the asset, independent ratings obtained from third parties, comparable multiples for recent sales of companies within the industry and discounted cash flow models for our investments in CLOs. The composite of all these analysis, applied to each investment, was a total valuation of \$3,707,722, excluding money market investments.

Our portfolio companies are generally lower middle market companies, outside of the financial sector, with less than \$150,000 of annual EBITDA. We believe our market has experienced less volatility than others because we believe there are more buy and hold investors who own these less liquid investments.

Control investments offer increased risk and reward over straight debt investments. Operating results and changes in market multiples can result in dramatic changes in values from quarter to quarter. Significant downturns in operations can further result in our looking to recoveries on sales of assets rather than the enterprise value of the investment. Several control investments in our portfolio are under enhanced scrutiny by our senior management and our Board of Directors and are discussed below.

AIRMALL USA, Inc.

AIRMALL is a leading developer and manager of airport retail operations. AIRMALL has developed and presently manages all or substantially all of the retail operations and food and beverage concessions at Baltimore/Washington International Thurgood Marshall Airport (BWI), Boston Logan International Airport (BOS), Cleveland Hopkins International Airport (CLE) and Pittsburgh International Airport (PIT). AIRMALL does so pursuant to long-term, infrastructure-like contracts with the respective municipal agencies that own and operate the airports.

On July 30, 2010, we invested \$52,420 of combined debt and equity as follows: \$30,000 senior term loan, \$12,500 senior subordinated note and \$9,920 preferred equity. We own 100% of AIRMALL's equity securities. AIRMALL's financial performance has been consistent since the acquisition and we continue to monitor the medium to long-term growth prospects for the company.

As a result of improved operating results, the Board of Directors increased the fair value of our investment in AIRMALL to \$51,694 as of March 31, 2013, a premium of \$374 from its amortized cost, compared to the \$3,788 unrealized depreciation recorded at June 30, 2012.

Table of Contents

Ajax Rolled Ring & Machine, Inc.

Ajax forges large seamless steel rings on two forging mills in the company's York, South Carolina facility. The rings are used in a range of industrial applications, including in construction equipment and power turbines. Ajax also provides machining and other ancillary services.

We acquired a controlling equity interest in Ajax in a recapitalization of Ajax that was closed on April 4, 2008. We funded \$22,000 of senior secured term debt, \$11,500 of subordinated term debt and \$6,300 of equity as of that closing. During the fiscal year ended June 30, 2010, we funded an additional \$3,530 of secured subordinated debt to refinance a third-party revolver provider and provide working capital. Ajax repaid \$3,461 of this secured subordinated debt during the quarter ended September 30, 2010. During the quarter ended December 31, 2012, we funded an additional \$3,600 of unsecured debt to refinance first-lien debt held by Wells Fargo. As of March 31, 2013, we control 78.01% of the fully-diluted common and preferred equity. The principal balance of our senior debt to Ajax was \$19,837 and our subordinated debt was \$18,635 as of March 31, 2013.

Due to soft operating results in the three months ended December 31, 2012, the Board of Directors decreased the fair value of our investment in Ajax to \$38,472 as of March 31, 2013, a reduction of \$6,057 from its amortized cost, compared to the \$11,151 unrealized appreciation recorded at June 30, 2012.

Energy Solutions Holdings Inc. (f/k/a Gas Solutions Holdings, Inc.)

Energy Solutions owns interests in other companies operating in the energy sector. These include operating offshore supply vessels and ownerships of a non-operating biomass plant and several coal mines. Energy Solutions subsidiaries formerly owned interests in a gas gathering and processing system in east Texas.

In December 2011, we completed a reorganization of Gas Solutions Holdings, Inc. renaming the company Energy Solutions and transferring ownership of other operating companies owned by us and operating within the energy industry with the intent of strategically expanding Energy Solutions operations across energy sectors. As part of the reorganization, we transferred our equity interests in CCEHI, CCEI, Freedom Marine and Yatesville to Energy Solutions. On December 28, 2011, we made a follow-on investment of \$4,750 to support the acquisition of a new vessel by Vessel Holdings LLC, a subsidiary of Freedom Marine.

On January 4, 2012, Energy Solutions sold Gas Solutions for a sale price of \$199,805, adjusted for the final working capital settlement, including a potential earnout of \$28,000 that will be paid based on the future performance of Gas Solutions. After expenses, including structuring fees of \$9,966 paid to us, Energy Solutions received approximately \$158,687 in cash. Currently, our loans to Energy Solutions remain outstanding and are collateralized by the cash held by Energy Solutions after the sale transaction. The sale of Gas Solutions by Energy Solutions has resulted in significant earnings and profits, as defined by the Internal Revenue Code, at Energy Solutions for calendar year 2012. As a result, distributions from Energy Solutions to us were required to be recognized as dividend income, in accordance with ASC 946, *Financial Services Investment Companies*, as cash distributions are received from Energy Solutions to the extent there are current year earnings and profits sufficient to support such recognition.

In determining the value of Energy Solutions, we have utilized two valuation techniques to determine the value of the investment. Our Board of Directors has determined the value to be \$30,942 for our debt and equity positions at March 31, 2013 based upon a combination of a current value method for the cash balances of Energy Solutions and a liquidation analysis for our interests in CCEHI, CCEI, Freedom Marine and Yatesville. At March 31, 2013 and June 30, 2012, Energy Solutions, including the underlying portfolio companies affected by the reorganization, was

Table of Contents

valued at \$7,578 below and \$63,623 above its amortized cost, respectively. We received distributions of \$53,820 from Energy Solutions that were recorded as dividend income during the nine months ended March 31, 2013. No such distributions were received during the three months ended March 31, 2013.

First Tower Holdings of Delaware LLC

First Tower is a multiline specialty finance company based in Flowood, Mississippi with over 150 branch offices.

On June 15, 2012, we acquired 80.1% of First Tower, LLC ("First Tower") businesses for \$110,200 in cash and 14,518,207 unregistered shares of our common stock. Based on our share price of \$11.06 at the time of issuance, we acquired our 80.1% interest in First Tower for approximately \$270,771. As consideration for our investment, First Tower Delaware, which is 100% owned by us, recorded a secured revolving credit facility to us of \$244,760 and equity of \$43,193. First Tower Delaware owns 80.1% of First Tower Holdings LLC, the holding company of First Tower. The assets of First Tower acquired include, among other things, the subsidiaries owned by First Tower, which hold finance receivables, leaseholds, and tangible property associated with First Tower's businesses. During the three months ended June 30, 2012, we received \$8,075 in structuring fee income. During the three months ended December 31, 2012, we funded an additional \$20,000 of senior secured debt to support seasonally high demand during the holiday season. As of January 31, 2013, First Tower had total assets of approximately \$632,681 including \$401,673 of finance receivables net of unearned charges. As of March 31, 2013, First Tower's total debt outstanding to parties senior to us was \$264,760.

Due to a reduction in public market comparables for consumer finance industry, the Board of Directors decreased the fair value of our investment in First Tower to \$295,158 as of March 31, 2013, a discount of \$12,795 to its amortized cost, compared to \$287,953 as of June 30, 2012, equal to its amortized cost at that time.

Manx Energy, Inc.

Manx was formed for the purpose of rolling up the assets of two existing Prospect portfolio companies, Coalbed, LLC ("Coalbed") and Appalachian Energy Holdings, LLC ("AEH"), bringing them under new management, restructuring the outstanding debt, and infusing additional capital to allow for future growth. Coalbed is the owner of 100% of the outstanding equity interests of Coalbed Pipelines, LLC and Coalbed Operator, LLC. Coalbed was formed in October 2009 to acquire our outstanding senior secured loan and assigned interests in Conquest Cherokee, LLC ("Conquest"). Conquest's assets consisted primarily of coalbed methane reserves in the Cherokee Basin. AEH was formed in 2006 and is the owner of 100% of the outstanding equity interests of East Cumberland L.L.C., a provider of outsourced mine site development and construction services for coal production companies operating in Southern Appalachia, and C&S Oilfield and Pipeline Construction, a provider of support services to companies engaged in the exploration and production of oil and natural gas.

On January 19, 2010, we modified the terms of our senior secured debt in AEH and Coalbed in conjunction with the formation of Manx, a new entity consisting of the assets of AEH, Coalbed and Kinley Exploration LLC. The assets of the three companies were combined under new common management. We funded \$2,800 at closing to Manx to provide for working capital. A portion of our loans to AEH and Coalbed was exchanged for Manx preferred equity, while our AEH equity interest was converted into Manx common stock. There was no change to fair value at the time of restructuring, and we continue to fully reserve any income accrued for Manx. During the year ended June 30, 2011, we made a follow-on secured debt investments of \$750 in Manx to

support ongoing operations. On June 30, 2012, Manx assigned the membership interests of Coalbed and AEH to Wolf Energy Holdings, Inc. ("Wolf"), a newly-formed company owned by us.

The Board of Directors decreased the fair value of our investment in Manx to zero as of March 31, 2013 and June 30, 2012, respectively, a reduction of \$11,028 from its amortized cost.

The Healing Staff, Inc.

During the three months ended December 31, 2012, we determined that the impairment of Integrated Contract Services, Inc. ("ICS") was other-than-temporary and recorded a realized loss of \$12,198 for the amount that the amortized cost exceeded the fair market value. Our remaining investments are in THS and Vets Securing America ("VSA"), wholly owned subsidiaries of ICS with ongoing operations. THS provides outsourced medical staffing services to governmental and commercial enterprises. VSA provides out-sourced security guards staffed primarily using retired military and police department veterans.

During September and October 2007, we provided \$1,170 to THS for working capital through our investment in ICS. In January 2009, we foreclosed on the real and personal property of ICS. Through this foreclosure process, we gained 100% ownership of THS. As part of its strategy to diversify its revenues THS started VSA as a new business in the latter part of 2009. During the year ended June 30, 2011 and the six months ended December 31, 2011, we made follow-on secured debt investments of \$1,708 and \$874, respectively, to support the ongoing operations of THS and VSA. Effective October 19, 2011, the closing date for the sale by VSA of a commercial real estate asset, \$893 of the follow-on secured debt investments were repaid. In early May 2012, we made short-term secured debt investments of \$118 and \$42, respectively, to support the operations of THS and VSA, which short term debt was repaid in early June 2012. We made no additional fundings during the six months ended June 30, 2012. In May 2012, in connection with the implementation of accounts receivable based funding programs for THS and VSA with a third party provider we agreed to subordinate our first priority security interest in all of the accounts receivable and other assets of THS and VSA to the third party provider of that accounts receivable based funding.

Based upon an analysis of the liquidation value of assets, our Board of Directors determined the fair value of our investment in THS and VSA to be zero at March 31, 2013 and June 30, 2012, respectively, a reduction of \$3,750 from its amortized cost.

Wolf Energy Holdings, Inc.

Wolf is a holding company formed to hold 100% of the outstanding membership interests of each of Coalbed and AEH. The membership interests of Coalbed and AEH, which were previously owned by Manx, were assigned to Wolf effective June 30, 2012. The purpose of assignment was to remove those activities from Manx deemed non-core by the Manx convertible debt investors who were not interested in funding those operations. In addition, effective June 29, 2012 C&J Cladding Holding Company, Inc. ("C&J") merged with and into Wolf, with Wolf as the surviving entity. At the time of the merger, C&J held the remaining undistributed proceeds from the sale of its membership interests in C&J Cladding, LLC. The merger was effectuated in connection with the broader simplification of our energy investment holdings.

Based on an increase in the liquidation value of Wolf, the Board of Directors increased the fair value of our investment in Wolf to \$811 as of March 31, 2013, a reduction of \$7,230 from its amortized cost, compared to the \$7,991 unrealized depreciation recorded at June 30, 2012.

Equity positions in the portfolio are susceptible to potentially significant changes in value, both increases as well as decreases, due to changes in operating results. Two of our portfolio companies,

Table of Contents

Ajax and First Tower Delaware, experienced such volatility and experienced meaningful fluctuations in valuation during the nine months ended March 31, 2013. The valuation of Ajax decreased due to declining operating results. The value of our equity position in Ajax decreased to zero as of March 31, 2013, a discount of \$6,057 to its cost, compared to the \$11,151 unrealized gain recorded at June 30, 2012. The valuation of First Tower Delaware decreased due to change in current market conditions. The value of our equity position in First Tower decreased to \$30,398 as of March 31, 2013, a discount of \$12,795 to its cost, compared to the value of \$43,193 recorded at June 30, 2012, equal to its cost. Seven of the other controlled investments have been valued at discounts to the original investment. Eight of the control investments are valued at the original investment amounts or higher. Overall, at March 31, 2013, the control investments are valued at \$39,996 below their amortized cost.

We hold three affiliate investments at March 31, 2013. One of our affiliate portfolio companies, Boxercraft, experienced a meaningful decrease in valuation during the nine months ended March 31, 2013 due to declining operating results. As of March 31, 2013, Boxercraft is valued at \$8,868 as of March 31, 2013, a reduction of \$7,502 to its amortized cost. Overall, at March 31, 2013, affiliate investments are valued \$7,204 below their amortized cost.

With the Non-control/Non-affiliate investments, generally, there is less volatility related to our total investments because our equity positions tend to be smaller than with our control/affiliate investments, and debt investments are generally not as susceptible to large swings in value as equity investments. For debt investments, the fair value is limited on the high side to each loan's par value, plus any prepayment premia that could be imposed. Many of the debt investments in this category have not experienced a significant change in value, as they were previously valued at or near par value. Non-control/Non-affiliate investments did not experience significant changes in valuation and are generally performing as expected or better than expected. As of March 31, 2013 and June 30, 2012, three of our Non-control/Non-affiliate investments, H&M Oil & Gas, LLC ("H&M"), Stryker Energy, LLC ("Stryker") and Wind River Resources Corp. and Wind River II Corp. ("Wind River"), are valued at a significant discount to amortized cost, due to significant decreases in the operating results of the operating companies. Overall, at March 31, 2013, other Non-control/Non-affiliate investments are valued at \$25,382 above their amortized cost, excluding our investments in H&M, Stryker and Wind River, as the remaining companies are generally performing as or better than expected.

Capitalization

Our investment activities are capital intensive and the availability and cost of capital is a critical component of our business. We capitalize our business with a combination of debt and equity. Our debt currently consists of a revolving credit facility availing us of the ability to borrow debt subject to borrowing base determinations and Senior Convertible Notes which we issued in December 2010, February 2011, April 2012, August 2012 and December 2012, Senior Unsecured Notes, and Prospect Capital InterNotes®, which we may issue from time to time, and our equity capital, which is comprised entirely of common equity. The following table shows the Revolving Credit Facility, Senior Convertible Notes, Senior Unsecured Notes and InterNotes® amounts and outstanding borrowings at March 31, 2013 and June 30, 2012:

	As of March 31, 2013		As of June 30, 2012	
	Maximum Draw Amount	Amount Outstanding	Maximum Draw Amount	Amount Outstanding

We have and expect to continue to fund a portion of our cash needs through borrowings from banks, issuances of senior securities, including secured, unsecured and convertible debt securities, or issuances of common equity. For flexibility, we maintain a universal shelf registration statement that allows for the public offering and sale of our debt securities, common stock, preferred stock and warrants to purchase such securities in an amount up to \$3,000,000 less issuances to date. As of March 31, 2013 we can issue up to \$2,004,070 of additional debt and equity securities in the public market under this shelf registration. We may from time to time issue securities pursuant to the shelf registration statement or otherwise pursuant to private offerings. The issuance of debt or equity securities will depend on future market conditions, funding needs and other factors and there can be no assurance that any such issuance will occur or be successful.

Revolving Credit Facility

On June 11, 2010, we closed an extension and expansion of our existing credit facility with a syndicate of lenders through PCF (the "2010 Facility"). The 2010 Facility, which had \$325,000 total commitments as of June 30, 2011, included an accordion feature which allowed the 2010 Facility to accept up to an aggregate total of \$400,000 of commitments, a limit which was met on September 1, 2011. Interest on borrowings under the 2010 Facility was one-month Libor plus 325 basis points, subject to a minimum Libor floor of 100 basis points. Additionally, the lenders charged a fee on the unused portion of the 2010 Facility equal to either 75 basis points if at least half of the credit facility is used or 100 basis points otherwise.

On March 27, 2012, we renegotiated the 2010 Facility and closed on an expanded five-year \$650,000 revolving credit facility (the "2012 Facility"). The lenders have extended commitments of \$552,500 under the 2012 Facility as of March 31, 2013. The 2012 Facility includes an accordion feature which allows commitments to be increased up to \$650,000 in the aggregate. The revolving period of the 2012 Facility extends through March 2015, with an additional two year amortization period (with distributions allowed) after the completion of the revolving period. During such two year amortization period, all principal payments on the pledged assets will be applied to reduce the balance. At the end of the two year amortization period, the remaining balance will become due, if required by the lenders.

The 2012 Facility contains restrictions pertaining to the geographic and industry concentrations of funded loans, maximum size of funded loans, interest rate payment frequency of funded loans, maturity dates of funded loans and minimum equity requirements. The 2012 Facility also contains certain requirements relating to portfolio performance, including required minimum portfolio yield and limitations on delinquencies and charge-offs, violation of which could result in the early termination of the 2012 Facility. The 2012 Facility also requires the maintenance of a minimum liquidity requirement. At March 31, 2013, we were in compliance with the applicable covenants.

Interest on borrowings under the 2012 Facility is one-month Libor plus 275 basis points with no minimum Libor floor. Additionally, the lenders charge a fee on the unused portion of the 2012 Facility

Table of Contents

equal to either 50 basis points if at least half of the credit facility is drawn or 100 basis points otherwise. The 2012 Facility requires us to pledge assets as collateral in order to borrow under the credit facility. As of March 31, 2013 and June 30, 2012, we had \$430,094 and \$451,252, respectively, available to us for borrowing under our 2012 Facility, of which the amount outstanding was zero and \$96,000, respectively. As additional investments that are eligible are transferred to PCF and pledged under the 2012 Facility, PCF will generate additional availability up to the commitment amount of \$552,500. At March 31, 2013, the investments used as collateral for the 2012 Facility had an aggregate market value of \$718,974, which represents 28.1% of our net assets. These assets have been transferred to PCF, a bankruptcy remote special purpose entity, which owns these investments and as such, these investments are not available to our general creditors. PCF, a bankruptcy remote special purpose entity and our wholly-owned subsidiary, holds all of these investments at market value as of March 31, 2013. The release of any assets from PCF requires the approval of the facility agent.

In connection with the origination and amendments of the 2012 Facility, we incurred \$10,955 of fees, including \$1,319 of fees carried over from the previous facility, which are being amortized over the term of the facility in accordance with ASC 470-50, *Debt Modifications and Extinguishments*, of which \$7,481 remains to be amortized as of March 31, 2013.

During the three months ended March 31, 2013 and March 31, 2012, we recorded \$2,305 and \$4,484 of interest costs and amortization of financing costs on the Syndicated Facility as interest expense, respectively. During the nine months ended March 31, 2013 and March 31, 2012, we recorded \$6,700 and \$2,706 of interest costs and amortization of financing costs on the Syndicated Facility as interest expense, respectively.

Senior Convertible Notes

On December 21, 2010, we issued \$150,000 in aggregate principal amount of our 6.25% senior convertible notes due 2015 ("2015 Notes") for net proceeds following underwriting expenses of approximately \$145,200. Interest on the 2015 Notes is paid semi-annually in arrears on June 15 and December 15, at a rate of 6.25% per year, commencing June 15, 2011. The 2015 Notes mature on December 15, 2015 unless converted earlier. The 2015 Notes are convertible into shares of common stock at an initial conversion rate and conversion rate at March 31, 2013 of 88.0902 and 88.1429 shares of common stock, respectively, per \$1 principal amount of 2015 Notes, which is equivalent to a conversion price of approximately \$11.35 per share of common stock, subject to adjustment in certain circumstances. The conversion price in effect at March 31, 2013 was last calculated on the anniversary of the issuance (December 21, 2012) and will next be adjusted on the next anniversary, unless the exercise price shall have changed by more than 1% before the anniversary. The conversion rate for the 2015 Notes is increased if monthly cash dividends paid to common shares exceed the rate of \$0.101125 cents per share, subject to adjustment.

On February 18, 2011, we issued \$172,500 in aggregate principal amount of our 5.50% senior convertible notes due 2016 ("2016 Notes") for net proceeds following underwriting expenses of approximately \$167,325. Between January 30, 2012 and February 2, 2012, we repurchased \$5,000 of our 2016 Notes at a price of 97.5, including commissions. The transactions resulted in our recognizing \$10 of loss in the year ended June 30, 2012. Interest on the remaining \$167,500 of 2016 Notes is paid semi-annually in arrears on February 15 and August 15, at a rate of 5.50% per year, commencing August 15, 2011. The 2016 Notes mature on August 15, 2016 unless converted earlier. The 2016 Notes are convertible into shares of common stock at an initial conversion rate and conversion rate at March 31, 2013 of 78.3699 and 78.5395 shares, respectively, of common stock per \$1 principal amount of 2016 Notes, which is equivalent to a conversion price of approximately \$12.76 per share of common stock, subject to adjustment in certain circumstances. The conversion price in effect at March 31, 2013 was last calculated on the anniversary of the issuance (February 14, 2012) and will next be adjusted on the next anniversary, unless the exercise price shall have changed by more than 1% before the

Table of Contents

anniversary. The conversion rate for the 2016 Notes is increased when monthly cash dividends paid to common shares exceed the monthly dividend rate of \$0.101150 per share.

On April 16, 2012, we issued \$130,000 in aggregate principal amount of our 5.375% senior convertible notes due 2017 ("2017 Notes") for net proceeds following underwriting expenses of approximately \$126,035. Interest on the 2017 Notes is paid semi-annually in arrears on October 15 and April 15, at a rate of 5.375% per year, commencing October 15, 2012. The 2017 Notes mature on October 15, 2017 unless converted earlier. The 2017 Notes are convertible into shares of common stock at an initial conversion rate and conversion rate at March 31, 2013 of 85.8442 shares of common stock per \$1 principal amount of 2017 Notes, which is equivalent to a conversion price of approximately \$11.65 per share of common stock, subject to adjustment in certain circumstances. The conversion price has been adjusted on the anniversary date of the issuance (April 16, 2012) and will next be adjusted on the next anniversary, unless the exercise price shall have changed by more than 1% before the anniversary. The conversion rate in effect at April 16, 2013 is 86.1156 shares of common stock per \$1 principal amount of 2017 Notes which is equivalent to the conversion price of \$11.61 per share of common stock. The conversion rate for the 2017 Notes is increased when monthly cash dividends paid to common shares exceed the monthly dividend rate of \$0.10150 per share.

On August 14, 2012, we issued \$200,000 in aggregate principal amount of our 5.75% senior convertible notes due 2018 ("2018 Notes") for net proceeds following underwriting expenses of approximately \$193,600. Interest on the 2018 Notes is paid semi-annually in arrears on March 15 and September 15, at a rate of 5.75% per year, commencing March 15, 2013. The 2018 Notes mature on March 15, 2018 unless converted earlier. The 2018 Notes are convertible into shares of common stock at an initial conversion rate and conversion rate at March 31, 2013 of 82.3451 shares of common stock per \$1 principal amount of 2018 Notes, which is equivalent to a conversion price of approximately \$12.14 per share of common stock, subject to adjustment in certain circumstances. The conversion price has not been adjusted since the issuance (August 14, 2012) and will next be adjusted on the first anniversary, unless the exercise price shall have changed by more than 1% before the anniversary. The conversion rate for the 2018 Notes is increased when monthly cash dividends paid to common shares exceed the monthly dividend rate of \$0.101600 per share.

On December 21, 2012, we issued \$200,000 in aggregate principal amount of 5.875% senior convertible notes due 2019 (the "2019 Notes") for net proceeds following underwriting and other expenses of approximately \$193,600. Interest on the 2019 Notes is paid semi-annually in arrears on January 15 and July 15, at a rate of 5.875% per year, commencing July 15, 2013. The 2019 Notes mature on January 15, 2019 unless converted earlier. The 2019 Notes are convertible into shares of common stock at an initial conversion rate and conversion rate at March 31, 2013 of 79.7766 shares of common stock per \$1 principal amount of 2019 Notes, which is equivalent to a conversion price of approximately \$12.54 per share of common stock, subject to adjustment in certain circumstances. The conversion price has not been adjusted since the issuance (December 21, 2012) and will next be adjusted on the first anniversary, unless the exercise price shall have changed by more than 1% before the anniversary. The conversion rate for the 2019 Notes is increased when monthly cash dividends paid to common shares exceed the monthly dividend rate of \$0.110025 per share.

In no event will the total number of shares of common stock issuable upon conversion exceed 96.8992 per \$1 principal amount of the 2015 Notes (the "conversion rate cap"), except that, to the extent we receive written guidance or a no-action letter from the staff of the Securities and Exchange Commission (the "Guidance") permitting us to adjust the conversion rate in certain instances without regard to the conversion rate cap and to make the 2015 Notes convertible into certain reference property in accordance with certain reclassifications, business combinations, asset sales and corporate events by us without regard to the conversion rate cap, we will make such adjustments without regard to the conversion rate cap and will also, to the extent that we make any such adjustment without regard

Table of Contents

to the conversion rate cap pursuant to the Guidance, adjust the conversion rate cap accordingly. We will use our commercially reasonable efforts to obtain such Guidance as promptly as practicable.

Prior to obtaining the Guidance, we will not engage in certain transactions that would result in an adjustment to the conversion rate increasing the conversion rate beyond what it would have been in the absence of such transaction unless we have engaged in a reverse stock split or share combination transaction such that in our reasonable best estimation, the conversion rate following the adjustment for such transaction will not be any closer to the conversion rate cap than it would have been in the absence of such transaction.

Upon conversion, unless a holder converts after a record date for an interest payment but prior to the corresponding interest payment date, the holder will receive a separate cash payment with respect to the Notes surrendered for conversion representing accrued and unpaid interest to, but not including the conversion date. Any such payment will be made on the settlement date applicable to the relevant conversion on the 2015 Notes, 2016 Notes, 2017 Notes, 2018 Notes and 2019 Notes (collectively, "Senior Convertible Notes").

No holder of Senior Convertible Notes will be entitled to receive shares of our common stock upon conversion to the extent (but only to the extent) that such receipt would cause such converting holder to become, directly or indirectly, a beneficial owner (within the meaning of Section 13(d) of the Securities Exchange Act of 1934 and the rules and regulations promulgated thereunder) of more than 5.0% of the shares of our common stock outstanding at such time. The 5.0% limitation shall no longer apply following the effective date of any fundamental change. We will not issue any shares in connection with the conversion or redemption of the Notes which would equal or exceed 20% of the shares outstanding at the time of the transaction in accordance with NASDAQ rules.

Subject to certain exceptions, holders may require us to repurchase, for cash, all or part of their Notes upon a fundamental change at a price equal to 100% of the principal amount of the Notes being repurchased plus any accrued and unpaid interest up to, but excluding, the fundamental change repurchase date. In addition, upon a fundamental change that constitutes a non-stock change of control we will also pay holders an amount in cash equal to the present value of all remaining interest payments (without duplication of the foregoing amounts) on such Senior Convertible Notes through and including the maturity date.

In connection with the issuance of the Senior Convertible Notes, we incurred \$27,300 of fees which are being amortized over the terms of the notes in accordance with ASC 470-50, *Debt Modifications and Extinguishments*, of which \$21,633 remains to be amortized and is included within deferred financing costs on the consolidated statements of assets and liabilities as of March 31, 2013.

During the three months ended March 31, 2013 and March 31, 2012, we recorded \$13,299 and \$5,133 of interest costs and amortization of financing costs on the Senior Convertible Notes as interest expense. During the nine months ended March 31, 2013 and March 31, 2012, we recorded \$32,529 and \$15,553 of interest costs and amortization of financing costs on the Senior Convertible Notes as interest expense.

Senior Unsecured Notes

On May 1, 2012, we issued \$100,000 in aggregate principal amount of 6.95% senior unsecured notes due 2022 for proceeds net of offering expenses of \$97,000 (the "2022 Notes"). Interest on the 2022 Notes is paid quarterly in arrears on August 15, November 15, February 15 and May 15, at a rate of 6.95% per year, commencing on August 15, 2012. The 2022 Notes mature on November 15, 2022. These notes will be our direct unsecured obligations and rank equally with all of our unsecured senior indebtedness from time to time outstanding.

Table of Contents

On March 15, 2013, we issued \$250,000 in aggregate principal amount of 5.875% senior unsecured notes due 2023 (the "2023 Notes") for net proceeds following underwriting and other expenses of approximately \$245,855. Interest on the 2023 Notes is paid semi-annually. The 2023 Notes matured on March 15, 2023. These notes will be our direct unsecured obligations and rank equally with all of our unsecured senior indebtedness from time to time outstanding.

In connection with the issuance of the 2022 Notes and 2023 Notes (collectively the "Senior Unsecured Notes"), we incurred \$7,487 of fees which are being amortized over the term of the notes in accordance with ASC 470-50, *Debt Modifications and Extinguishments*, of which \$7,254 remains to be amortized and is included within deferred financing costs on the consolidated statements of assets and liabilities.

During the three and nine months ended March 31, 2013, we recorded \$2,466 and \$6,087 of interest costs and amortization of financing costs on the Senior Unsecured Notes as interest expense, respectively.

Prospect Capital InterNotes®

On February 16, 2012, we entered into a Selling Agent Agreement (the "Selling Agent Agreement") with Incapital LLC, as purchasing agent for our issuance and sale from time to time of up to \$500,000 of Prospect Capital InterNotes® (the "InterNotes® Offering"). Additional agents appointed by us from time to time in connection with the InterNotes Offering may become parties to the Selling Agent Agreement.

These notes are direct unsecured senior obligations and will rank equally with all of our unsecured senior indebtedness outstanding. Each series of notes will be issued by a separate trust. These notes bear interest at fixed interest rates and offer a variety of maturities no less than twelve months from the original date of issuance.

During the nine months ended March 31, 2013, we issued \$178,763 in aggregate principal amount of our Prospect Capital InterNotes® for net proceeds of approximately \$174,260. These notes were issued with stated interest rates ranging from 4.00% to 6.63% with a weighted average rate of 5.70%. These notes mature between July 15, 2019 and March 15, 2043. We issued an additional \$64,216 in aggregate principal amount of our Prospect Capital InterNotes® subsequent to March 31, 2013. (See *Recent Developments*.)

In connection with the issuance of the Prospect Capital InterNotes®, we incurred \$5,975 of fees which are being amortized over the term of the notes in accordance with ASC 470-50, *Debt Modifications and Extinguishments*, of which \$5,784 remains to be amortized and is included within deferred financing costs on the consolidated statements of assets and liabilities.

During the three and nine months ended March 31, 2013, we recorded \$2,784 and \$5,462 of interest costs and amortization of financing costs on the Prospect Capital InterNotes® as interest expense, respectively.

Table of Contents**Net Asset Value**

During the nine months ended March 31, 2013, we raised \$1,083,618 of additional equity, net of offering costs, by issuing 97,916,280 shares of our common stock. The following table shows the calculation of net asset value per share as of March 31, 2013 and June 30, 2012:

	As of March 31, 2013		As of June 30, 2012
Net Assets	\$ 2,555,588	\$	1,511,974
Shares of common stock outstanding	238,628,037		139,633,870

At March 31, 2013, we had 238,628,037 shares of our common stock issued and outstanding.

Results of Operations

Net increase in net assets resulting from operations for the three months ended March 31, 2013 and 2012 was \$44,429 and \$50,209, respectively, representing \$0.20 and \$0.44 per weighted average share, respectively. Net investment income decreased on a weighted average per share basis from \$0.51 to \$0.26 for the three months ended March 31, 2012 and 2013, respectively. This decrease is primarily due the sale of our investment in NRG for which we received a \$26,936 make-whole fee for early repayment of the outstanding loan, which was recorded as interest income in the quarter ending March 31, 2012, and \$13,765 of structuring and advisory fees recognized during the quarter ended March 31, 2012 from our investments in Energy Solutions and NRG. During the three months ended March 31, 2013, we experienced net unrealized and realized losses of \$15,156 or approximately \$0.07 per weighted average share primarily from the sale of our investment in Meatco for which we realized a loss of \$10,814 and significant reductions in the market value of our investments in Boxercraft and First Tower. These instances of unrealized depreciation were partially offset by unrealized appreciation of our investment in H&M as we obtained control of this asset in April 2013. During the three months ended March 31, 2012, we experienced net unrealized and realized losses of \$7,863 or approximately \$0.07 per weighted average share primarily from significant write-downs of our investments in AIRMALL, H&M and Stryker. These instances of depreciation were partially offset by the sale of NRG for which we realized a gain of \$24,810 and unrealized appreciation of our investments in Ajax, Babson CLO Ltd 2011-I ("Babson"), CIFC Funding 2011-I, Ltd. ("CIFC"), Energy Solutions and R-V.

Net increase in net assets resulting from operations for the nine months ended March 31, 2013 and 2012 was \$138,167 and \$154,601, respectively, representing \$0.71 and \$1.39 per weighted average share, respectively. During the nine months ended March 31, 2013, we experienced net unrealized and realized losses of \$94,661 or approximately \$0.48 per weighted average share primarily due to the sale of Meatco, the other-than-temporary impairment of ICS and significant reductions in the market value of our investments in Ajax, Energy Solutions and First Tower Delaware. During the nine months ended March 31, 2012, we experienced net unrealized and realized gains of \$32,144 or approximately \$0.29 per weighted average share primarily from significant write-ups of our investments in Ajax, Energy Solutions and R-V, and our sale of NRG for which we realized a gain of \$36,940. These instances of unrealized appreciation were partially offset by unrealized depreciation in AIRMALL, Biotronic, H&M, Meatco, NMMB, Stryker, Wind River and the impairment of Deb Shops, Inc. ("Deb Shops") due to bankruptcy for which we recorded a realized loss for the full amount of the amortized cost. Net investment income increased on a weighted average per share basis from \$1.10 to \$1.20 for the nine months ended March 31, 2012 and 2013, respectively. This increase is primarily due to an increase in structuring fees recognized for new investment originations and an increase in dividend income received from Energy Solutions and R-V. We received dividends from Energy Solutions of \$53,820 and \$14,300 during the nine months ended March 31, 2013 and 2012, respectively. We received dividends

from R-V of \$11,222 and \$209 during the nine months ended March 31, 2013 and March 31, 2012, respectively.

While we seek to maximize gains and minimize losses, our investments in portfolio companies can expose our capital to risks greater than those we may anticipate. These companies are typically not issuing securities rated investment grade, have limited resources, have limited operating history, have concentrated product lines or customers, are generally private companies with limited operating information available and are likely to depend on a small core of management talents. Changes in any of these factors can have a significant impact on the value of the portfolio company.

Investment Income

We generate revenue in the form of interest income on the debt securities that we own, dividend income on any common or preferred stock that we own, and fees generated from the structuring of new deals. Our investments, if in the form of debt securities, will typically have a term of one to ten years and bear interest at a fixed or floating rate. To the extent achievable, we will seek to collateralize our investments by obtaining security interests in our portfolio companies' assets. We also may acquire minority or majority equity interests in our portfolio companies, which may pay cash or in-kind dividends on a recurring or otherwise negotiated basis. In addition, we may generate revenue in other forms including prepayment penalties and possibly consulting fees. Any such fees generated in connection with our investments are recognized as earned.

Investment income, which consists of interest income, including accretion of loan origination fees and prepayment penalty fees, dividend income and other income, including settlement of net profits interests, overriding royalty interests and structuring fees, was \$120,195 and \$95,623 for the three months ended March 31, 2013 and March 31, 2012, respectively. Investment income was \$409,866 and \$218,228 for the nine months ended, March 31, 2013 and March 31, 2012, respectively. During the three and nine months ended March 31, 2013, the increase in investment income is primarily the result of a larger income producing portfolio and the deployment of additional capital in revenue-producing assets through increased origination and increased dividends received from Energy Solutions and R-V.

The following table describes the various components of investment income and the related levels of debt investments:

	For The Three Months Ended March 31,		For The Nine Months Ended March 31,	
	2013	2012	2013	2012
Interest income	\$ 109,612	\$ 74,948	\$ 304,788	\$ 163,471
Dividend income	83	5,475	68,246	31,554
Other income	10,500	15,200	36,832	23,203
Total investment income	\$ 120,195	\$ 95,623	\$ 409,866	\$ 218,228
Average debt principal of performing investments	\$ 3,114,965	\$ 1,420,050	\$ 2,595,767	\$ 1,474,053
Weighted-average interest rate earned	14.08%	20.18%	15.43%	15.07%

Average interest income producing assets have increased from \$1,420,050 for the three months ended March 31, 2012 to \$3,114,965 for the three months ended March 31, 2013. The average yield on interest bearing assets decreased from 20.18% for the three months ended March 31, 2012 to 14.08% for the three months ended March 31, 2013. The decrease in annual returns is primarily due to the sale of our investment in NRG for which we received a \$26,936 make-whole fee for early repayment of the outstanding loan, which was recorded as interest income in the quarter ending March 31, 2012. This decrease was partially offset by an increase in our investment in CLOs. Excluding these amounts, our

Table of Contents

annual return would have been 12.93% and 12.73% for the three months ended March 31, 2012 and 2013, respectively.

Average interest income producing assets have increased from \$1,474,053 for the nine months ended March 31, 2012 to \$2,595,767 for the nine months ended March 31, 2013. The average yield on interest bearing assets increased from 15.07% for the nine months ended March 31, 2012 to 15.43% for the nine months ended March 31, 2013.

Investment income is also generated from dividends and other income. Dividend income decreased from \$5,475 for the three months ended March 31, 2012 to \$83 for the three months ended March 31, 2013. This \$5,392 decrease in dividend income is primarily attributed to a decrease in the level of dividends received from our investment in NRG. We received dividends from NRG of \$5,100 during the three months ended March 31, 2012. There were no dividends from NRG received during the three months ended March 31, 2013 as NRG has been sold.

Dividend income increased from \$31,554 for the nine months ended March 31, 2012 to \$68,246 for the nine months ended March 31, 2013. This \$36,692 increase in dividend income is primarily attributed to an increase in the level of dividends received during the respective nine month period from our investments in Energy Solutions and R-V. We received dividends from Energy Solutions of \$53,820 and \$14,300 during the nine months ended March 31, 2013 and 2012, respectively. The sale of Gas Solutions by Energy Solutions has resulted in significant earnings and profits, as defined by the Internal Revenue Code, at Energy Solutions for calendar year 2012. As a result, distributions from Energy Solutions to us were required to be recognized as dividend income, in accordance with ASC 946, Financial Services Investment Companies, as cash distributions are received from Energy Solutions to the extent there are current year earnings and profits sufficient to support such recognition. We received dividends from R-V of \$11,222 and \$209 during the nine months ended March 31, 2013 and March 31, 2012, respectively. The \$11,222 of dividends received from R-V during the nine months ended March 31, 2013 include a \$11,073 distribution as part of R-V's recapitalization in November 2012 for which we provided an additional \$9,500 of senior secured financing. The increases in dividend income from our investments in Energy Solutions and R-V were offset by a reduction in dividends received from NRG. We received dividends from NRG of \$15,011 during the nine months ended March 31, 2012, respectively. There were no dividends from NRG received during the nine months ended March 31, 2013 as NRG has been sold.

Other income has come primarily from structuring fees, overriding royalty interests, and settlement of net profits interests. Comparing the three months ended March 31, 2012 to the three months ended March 31, 2013, income from other sources decreased from \$15,200 to \$10,500, respectively. This \$4,700 decrease is primarily due to a decrease in structuring and advisory fees recognized from our investment in Energy Solutions. We received \$13,932 of structuring and advisory fees from Energy Solutions during the three months ended March 31, 2012. No such fees were received during the three months ended March 31, 2013. This decrease was partially offset by an increase of \$8,363 in structuring fees received from other investments during the three months ended March 31, 2013 primarily related to Broder, Cinedigm, Capstone and USC.

Comparing the nine months ended March 31, 2012 to the nine months ended March 31, 2013, income from other sources increased from \$23,203 to \$36,832, respectively. This \$13,629 increase is primarily due to \$33,828 of structuring fees recognized during the nine months ended March 31, 2013 primarily from the Arctic, InterDent, New Century, Progrexion, Ryan and USC originations, in comparison to \$13,530 of structuring fees recognized during the nine months ended March 31, 2012 primarily related to the Capstone, Energy Solutions and Totes Isotoner Corporation originations. This \$20,298 increase in structuring fees is partially offset by a decrease in advisory fees recognized during the nine months ended March 31, 2012 from our investment in Energy Solutions. We received \$8,949

Table of Contents

of advisory fees from Energy Solutions during the nine months ended March 31, 2012. No such fee was received during the nine months ended March 31, 2013.

Operating Expenses

Our primary operating expenses consist of investment advisory fees (base management and income incentive fees), borrowing costs, legal and professional fees and other operating and overhead-related expenses. These expenses include our allocable portion of overhead under the Administration Agreement with Prospect Administration under which Prospect Administration provides administrative services and facilities for us. Our investment advisory fees compensate our Investment Adviser for its work in identifying, evaluating, negotiating, closing and monitoring our investments. We bear all other costs and expenses of our operations and transactions in accordance with our Administration Agreement with Prospect Administration. Operating expenses were \$60,610 and \$37,551 for the three months ended March 31, 2013 and March 31, 2012, respectively. Operating expenses were \$177,038 and \$95,771 for the nine months ended March 31, 2013 and March 31, 2012, respectively.

The base investment advisory expenses were \$18,966 and \$8,949 for the three months ended March 31, 2013 and March 31, 2012, respectively. The base investment advisory expenses were \$48,500 and \$25,985 for the nine months ended March 31, 2013 and March 31, 2012, respectively. This increase is directly related to our growth in total assets. For the three months ended March 31, 2013 and March 31, 2012, we incurred \$14,896 and \$14,518, respectively, of income incentive fees. For the nine months ended March 31, 2013 and March 31, 2012, we incurred \$58,207 and \$30,614, respectively, of income incentive fees. The \$27,593 increase in the income incentive fee for the nine-month period is driven by an increase in pre-incentive fee net investment income of \$137,964 for the respective nine-month period primarily due to an increase in interest income from a larger asset base and dividend income from Energy Solutions. No capital gains incentive fee has yet been incurred pursuant to the Investment Advisory Agreement.

During the three and nine months ended March 31, 2013, we incurred \$20,854 and \$50,779, respectively, of expenses related to our Syndicated Facility, InterNotes®, Senior Unsecured Notes and Senior Convertible Notes. This compares with expenses of \$9,655 and \$28,374 incurred during the three and nine months ended March 31, 2012, respectively. These expenses are related directly to the leveraging capacity put into place for each of those periods and the levels of indebtedness actually undertaken during those quarters. The table below describes the various expenses of our Syndicated Facility and Senior Convertible Notes and the related indicators of leveraging capacity and indebtedness during these periods.

The increase in interest expense for the three and nine months ended March 31, 2013 is primarily due to the issuance of the 2022 Notes, 2023 Notes and the Senior Convertible Notes on April 16, 2012, August 14, 2012 and December 21, 2012, for which we incurred \$10,018 and \$21,816 of collective interest expense, respectively.

The allocation of overhead expense from Prospect Administration was \$2,957 and \$2,910 for the three months ended March 31, 2013 and 2012. The allocation of overhead expense from Prospect Administration was \$7,280 and \$5,143 for the nine months ended March 31, 2013 and 2012. As our portfolio continues to grow, we expect to continue to increase the size of our administrative and financial staff. Other allocated expenses from Prospect Administration will continue to increase along with the increase in staffing and asset base.

Total operating expenses, net of investment advisory fees, interest costs, excise tax and allocation of overhead from Prospect Administration ("Other Operating Expenses"), were \$1,937 and \$1,519 for the three months ended March 31, 2013 and 2012, respectively. Other Operating Expenses were \$6,772 and \$5,655 for the nine months ended March 31, 2013 and 2012, respectively.

Net Investment Income

Net investment income represents the difference between investment income and operating expenses. Our net investment income ("NII") was \$59,585 and \$58,072 for the three months ended March 31, 2013 and March 31, 2012, respectively, or \$0.26 per share and \$0.51 per share, respectively. Investment income increased from \$95,623 to \$120,195 for the three months ended March 31, 2012 and 2013, respectively. The \$24,572 increase for the three months ended March 31, 2013 is due to increases of \$34,664 in interest, due to the increased size of our portfolio for which we have recognized additional interest income. The \$24,572 increase in investment income is offset by an increase in operating expenses of \$23,059, primarily due to a \$10,395 increase in advisory fees due to the growing size of our portfolio and related income, and \$11,199 of additional interest and credit facility expenses. For the calendar year ended December 31, 2012, we elected to retain a portion of our annual taxable income and have paid \$4,500 for the excise tax due with the filing of the return. As of March 31, 2013, we have \$1,000 accrued as an estimate of one quarter of the excise tax due for the calendar year ended December 31, 2013. The per share decrease for the three months ended March 31, 2013 is primarily due the sale of our investment in NRG for which we received a \$26,936 make-whole fee for early repayment of the outstanding loan, which was recorded as interest income in the quarter ending March 31, 2012, and \$13,765 of structuring and advisory fees recognized during the quarter ended March 31, 2012 from our investments in Energy Solutions and NRG.

Our NII was \$232,828 and \$122,457 for the nine months ended March 31, 2013 and March 31, 2012, respectively, or \$1.20 per share and \$1.10 per share, respectively. The \$110,371 increase for the nine months ended March 31, 2013 is primarily due to an increase of \$141,317 in interest income, due to the increased size of our portfolio for which we have recognized additional interest income. The \$191,638 increase in investment income is offset by an increase in operating expenses of \$81,267, primarily due to a \$50,108 increase in advisory fees due to the growing size of our portfolio and related income, and \$22,405 of additional interest and credit facility expenses. The per share increase for the nine months ended March 31, 2013 is primarily due to a \$39,520 increase in the level of dividends received from our investment in Energy Solutions.

Net Realized (Loss) Gain, Increase in Net Assets from Net Changes in Unrealized (Depreciation) Appreciation

Net realized (loss) gain was (\$6,014) and \$24,812 for the three months ended March 31, 2013 and March 31, 2012, respectively. Net realized (loss) gain was (\$12,362) and \$23,703 for the nine months ended March 31, 2013 and March 31, 2012, respectively. The net realized loss for the three months

Table of Contents

ended March 31, 2013 was due primarily to the sale of our investment in Meatco for which we realized a loss of \$10,814. This loss was partially offset by a \$900 gain we recognized on the partial sale of our equity investment in C&H and a distribution of \$3,250 related to our investment in NRG Manufacturing, Inc. for which we realized a gain of the same amount. The net realized loss for the nine months ended March 31, 2013 was primarily due to the sale of Meatco, the other-than-temporary impairment of ICS, sale of our equity investments in C&H, Northwestern and Shearer's, distributions received from escrow receivable accounts, primarily NRG, and the sale of our common stock in Iron Horse for which we realized a gain of \$1,772. The net realized gain for the three months ended March 31, 2012 was due primarily to the sale of NRG common stock for which we realized a gain of \$36,940. For the nine months ended March 31, 2012 this gain was offset by our write-off of Deb Shops. During the nine months ended March 31, 2012, Deb Shops filed for bankruptcy and a plan for reorganization was proposed. The plan, which was approved by the bankruptcy court, eliminated our debt position with no payment to us. As a result, we determined that the impairment of Deb Shops was other-than-temporary and recorded a realized loss of \$14,607 for the full amount of the amortized cost.

Net increase in net assets from changes in unrealized depreciation was \$9,142 and \$32,675 for the three months ended March 31, 2013 and March 31, 2012, respectively. For the three months ended March 31, 2013, the \$9,142 decrease in net assets from the net change in unrealized depreciation was primarily driven by write-downs of our investments in Boxercraft because operating results were down during the three-month period, and First Tower due to changes in current market conditions. These instances of unrealized depreciation were partially offset by unrealized appreciation of our investment in H&M. For the three months ended March 31, 2012, the \$32,675 decrease in net assets from the net change in unrealized depreciation was primarily driven by significant write-downs of our investments in AIRMALL, H&M and Stryker as well as the elimination of the unrealized appreciation resulting from the sale of NRG mentioned above. These instances of depreciation were partially offset by unrealized appreciation of our investments in Ajax, Babson, CIFIC, Energy Solutions and R-V.

Net increase in net assets from changes in unrealized (depreciation) appreciation was (\$82,299) and \$8,441 for the nine months ended March 31, 2013 and March 31, 2012, respectively. For the nine months ended March 31, 2013, the \$82,899 decrease in net assets from the net change in unrealized depreciation was driven by reduction in the fair value of our investments in Ajax and First Tower because of changes in current market conditions and Energy Solutions for which we received a \$16,952 make-whole fee for early repayment of the outstanding loan and distributions of \$53,820 during the nine-month period, which were recorded as interest and dividend income, respectively, reducing the amount previously recorded as unrealized appreciation. These instances of unrealized depreciation were partially offset by unrealized appreciation in H&M as well as the elimination of the unrealized depreciation resulting from the impairment of ICS mentioned above. For the nine months ended March 31, 2012, the \$8,441 increase in net assets from the net change in unrealized appreciation was driven by significant write-ups of our investments in Ajax, Energy Solutions and R-V as well as the elimination of unrealized depreciation resulting from the other-than-temporary impairment of Deb Shops mentioned above. These instances of unrealized appreciation were partially offset by unrealized depreciation in AIRMALL, Biotronic, H&M, Meatco, NMMB, Stryker, Wind River and the elimination of unrealized appreciation resulting from the sale of NRG mentioned above.

Financial Condition, Liquidity and Capital Resources

For the nine months ended March 31, 2013 and March 31, 2012, our operating activities used \$1,543,236 and \$46,026 of cash, respectively. There were no investing activities for the nine months ended March 31, 2013 and March 31, 2012. Financing activities provided \$1,565,137 and \$79,512 of cash during the nine months ended March 31, 2013 and March 31, 2012, respectively, which included the payments of dividends of \$166,084 and \$93,051, during the nine months ended March 31, 2013 and March 31, 2012, respectively.

Table of Contents

Our primary uses of funds have been to continue to invest in portfolio companies, through both debt and equity investments, repay outstanding borrowings and to make cash distributions to holders of our common stock.

Our primary sources of funds have been issuances of debt and equity. We have and may continue to fund a portion of our cash needs through borrowings from banks, issuances of senior securities or secondary offerings. We may also securitize a portion of our investments in mezzanine or senior secured loans or other assets. Our objective is to put in place such borrowings in order to enable us to expand our portfolio. During the nine months ended March 31, 2013, we borrowed \$99,000 and made repayments totaling \$195,000 under our revolving credit facility. As of March 31, 2013, we had no outstanding borrowings on our revolving credit facility, \$847,500 outstanding on our Senior Convertible Notes, \$347,682 outstanding on our Senior Unsecured Notes and \$199,401 outstanding on InterNotes®. (See *Capitalization*.)

Undrawn committed revolvers incur commitment fees ranging from 0.50% to 2.00%. As of March 31, 2013 and June 30, 2012, we have \$200,539 and \$180,646 of undrawn revolver commitments to our portfolio companies, respectively.

Our Board of Directors, pursuant to the Maryland General Corporation Law, executed Articles of Amendment to increase the number of shares authorized for issuance from 200,000,000 to 500,000,000 in the aggregate. The amendment became effective July 30, 2012.

On October 29, 2012, our Registration Statement on Form N-2 was declared effective by the SEC. Under this Shelf Registration Statement, we can issue up to \$2,004,070 of additional debt and equity securities in the public market.

We also continue to generate liquidity through public and private stock offerings.

On June 1, 2012, we entered into an ATM program with KeyBanc Capital Markets Inc. ("KBCM") through which we could sell, by means of at-the-market offerings from time to time, of up to 9,500,000 shares of our common stock. During the period from July 2, 2012 to July 12, 2012, we sold 2,247,275 shares of our common stock at an average price of \$11.59 per share, and raised \$26,040 of gross proceeds, under the ATM Program. Net proceeds were \$25,779 after commission to KBCM on shares sold.

On July 16, 2012, we issued 21,000,000 shares of our common stock at \$11.15 per share (or \$11.05 per share net proceeds excluding expenses), raising \$234,150 of gross proceeds.

On July 27, 2012, we issued 3,150,000 shares in connection with the exercise of an option granted with the July 12, 2012 offering of 21,000,000 shares which were delivered July 16, 2012, raising an additional \$35,123 of gross proceeds and \$34,808 of net proceeds.

On September 10, 2012, we entered into a second ATM Program with KBCM through which we could sell, by means of at-the-market offerings from time to time, of up to 9,750,000 shares of our common stock. During the period from October 1, 2012 to October 9, 2012, we sold 1,245,655 shares of our common stock at an average price of \$11.53 per share, and raised \$14,361 of gross proceeds, under this program. Net proceeds were \$14,217 after commission to the broker-dealer on shares sold and offering costs.

On November 7, 2012, we issued 35,000,000 shares of our common stock at \$11.10 per share (or \$10.96 per share net proceeds excluding expenses), raising \$383,600 of net proceeds.

On December 21, 2012, we entered into a third ATM Program with KBCM through which we could sell, by means of at-the-market offerings from time to time, of up to 17,500,000 shares of our common stock. During the period from January 7, 2013 to February 5, 2013, we sold 10,248,051 shares

of our common stock at an average price of \$11.25 per share, and raised \$115,315 of gross proceeds, under this program. Net proceeds were \$114,162 after commission to KBCM on shares sold.

On February 11, 2013, we entered into a third ATM Program with KBCM through which we could sell, by means of at-the-market offerings from time to time, of up to 45,000,000 shares of our common stock. During the period from April 1, 2013 to May 3, 2013, we sold 4,477,037 shares of our common stock at an average price of \$10.93 per share, and raised \$48,944 of gross proceeds, under the ATM Program. Net proceeds were \$48,586 after commissions to KBCM on shares sold. (See *Recent Developments*.)

Off-Balance Sheet Arrangements

At March 31, 2013, we did not have any off-balance sheet liabilities or other contractual obligations that are reasonably likely to have a current or future material effect on our financial condition, other than those which originate from 1) the investment advisory and management agreement and the administration agreement and 2) the portfolio companies.

Recent Developments

During the period from April 4, 2013 to May 2, 2013, we issued \$64,216 in aggregate principal amount of our Prospect Capital InterNotes® for net proceeds of \$62,586.

During the period from April 1, 2013 to May 3, 2013, we sold 4,477,037 shares of our common stock at an average price of \$10.93 per share, and raised \$48,944 of gross proceeds, under the ATM Program. Net proceeds were \$48,586 after commissions to the broker-dealer on shares sold and offering costs.

On April 1, 2013, we refinanced our existing \$38,472 senior secured loans to Ajax Rolled Ring & Machine, Inc., increasing the size of our debt investment to \$38,537.

On April 18, 2013, we issued 138,087 shares of our common stock in connection with the dividend reinvestment plan.

On April 19, 2013, we made an investment of \$43,650 to purchase 97% of the subordinated notes in Mountain View CLO 2013-I Ltd.

On April 22, 2013, we provided \$34,375 of senior secured financing to support the carve-out acquisition of Pegasus Financial Services ("PFS") by investment funds managed by H.I.G. Capital. PFS is the world's largest processor of commissions paid by hotels to travel agencies.

On April 25, 2013, we made an investment of \$26,000 to purchase 50.9% of the subordinated notes in Brookside Mill CLO Ltd.

On April 30, 2013, we made a \$21,247 follow-on investment in APH, to acquire Lofton Place Apartments and Vista at Palma Sola, residential properties located in Florida. We invested \$3,247 of equity and \$18,000 of debt in APH.

On April 30, 2013, we sold our investment in Fischbein for net proceeds of \$3,168, recognizing a realized gain of \$2,293 on the sale. In addition, there is \$310 being held in escrow which will be recognized as additional gain when and if received.

On May 6, 2013, we sold an additional \$21,825 in aggregate principal amount of our Prospect Capital InterNotes® with a settlement date of May 9, 2013 for net proceeds of \$21,212.

Table of Contents

On May 6, 2013, we announced the declaration of monthly dividends in the following amounts and with the following dates:

\$0.110125 per share for May 2013 to holders of record on May 31, 2013 with a payment date of June 20, 2013;

\$0.110150 per share for June 2013 to holders of record on June 28, 2013 with a payment date of July 18, 2013;

\$0.110175 per share for July 2013 to holders of record on July 31, 2013 with a payment date of August 22, 2013; and

\$0.110200 per share for August 2013 to holders of record on August 30, 2013 with a payment date of September 19, 2013.

On May 8, 2013, we made a \$6,119 follow-on investment in APH, to acquire Arlington Park Marietta, LLC, a residential property located in Marietta, Georgia. We invested \$2,119 of equity and \$4,000 of debt in APH.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Changes in the economic environment, financial markets and any other parameters used in determining such estimates could cause actual results to differ materially. In addition to the discussion below, our critical accounting policies are further described in the notes to the financial statements.

Basis of Consolidation

Under the 1940 Act rules, the regulations pursuant to Article 6 of Regulation S-X, and the American Institute of Certified Public Accountants' Audit and Accounting Guide for Investment Companies, we are precluded from consolidating any entity other than another investment company or an operating company which provides substantially all of its services and benefits to us. Our March 31, 2013 financial statements include our accounts and the accounts of Prospect Capital Funding, LLC, our only wholly-owned, closely-managed subsidiary that is also an investment company. All intercompany balances and transactions have been eliminated in consolidation.

Investment Classification

We are a non-diversified company within the meaning of the 1940 Act. We classify our investments by level of control. As defined in the 1940 Act, control investments are those where there is the ability or power to exercise a controlling influence over the management or policies of a company. Control is generally deemed to exist when a company or individual possesses or has the right to acquire within 60 days or less, a beneficial ownership of 25% or more of the voting securities of an investee company. Affiliated investments and affiliated companies are defined by a lesser degree of influence and are deemed to exist through the possession outright or via the right to acquire within 60 days or less, beneficial ownership of 5% or more of the outstanding voting securities of another person.

Investments are recognized when we assume an obligation to acquire a financial instrument and assume the risks for gains or losses related to that instrument. Investments are derecognized when we assume an obligation to sell a financial instrument and forego the risks for gains or losses related to that instrument. Specifically, we record all security transactions on a trade date basis. Investments in

Table of Contents

other, non-security financial instruments are recorded on the basis of subscription date or redemption date, as applicable. Amounts for investments recognized or derecognized but not yet settled are reported as Receivables for investments sold and Payables for investments purchased, respectively, in the Consolidated Statements of Assets and Liabilities.

Investment Valuation

Our Board of Directors has established procedures for the valuation of our investment portfolio. These procedures are detailed below.

Investments for which market quotations are readily available are valued at such market quotations.

For most of our investments, market quotations are not available. With respect to investments for which market quotations are not readily available or when such market quotations are deemed not to represent fair value, our Board of Directors has approved a multi-step valuation process each quarter, as described below:

- 1) Each portfolio company or investment is reviewed by our investment professionals with the independent valuation firms engaged by our Board of Directors;
- 2) the independent valuation firms conduct independent appraisals and make their own independent assessment;
- 3) the audit committee of our Board of Directors reviews and discusses the preliminary valuation with Prospect Capital Management (the "Investment Adviser") proposing values within the valuation range presented by the independent valuation firms; and
- 4) the Board of Directors discusses valuations and determines the fair value of each investment in our portfolio in good faith based on the input of our Investment Adviser, the respective independent valuation firms and the audit committee.

Investments are valued utilizing a shadow bond approach, a market approach, an income approach, a liquidation approach, or a combination of approaches, as appropriate. The shadow bond and market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present value amount (discounted) calculated based on an appropriate discount rate. The measurement is based on the net present value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that we may take into account in fair value pricing our investments include, as relevant: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, M&A comparables, the principal market and enterprise values, among other factors.

Our investments in collateralized loan obligation funds ("CLOs") are classified as ASC 820 level 3 securities, and are valued using discounted cash flow model. The valuations have been accomplished through the analysis of the CLO deal structures to identify the risk exposures from the modeling point of view. For each security, the most appropriate valuation approach has been chosen from alternative approaches to ensure the most accurate valuation for each security. To value a CLO, both the assets and liabilities of the CLO capital structure have been modeled. Our valuation agent uses a waterfall engine to store the collateral data, including the collateral cash flows from the assets, and distributions of the cash flow to the liability structure based on the payment priorities, and discounts them back

Table of Contents

using proper discount rates that incorporate all the risk factors. The main risk factors are: default risk, interest rate risk, downgrade risk, and credit spread risk.

ASC 820 classifies the inputs used to measure these fair values into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, accessible by us at the measurement date.

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable inputs for the asset or liability.

In all cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to each investment. The changes to GAAP from the application of ASC 820 relate to the definition of fair value, the framework for measuring fair value, and the expanded disclosures about fair value measurements. ASC 820 applies to fair value measurements already required or permitted by other standards. In accordance with ASC 820, the fair value of our investments is defined as the price that we would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market in which that investment is transacted.

In April 2009, the FASB issued ASC 820-10-65, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* ("ASC 820-10-65"). This update provides further clarification for ASC 820 in markets that are not active and provides additional guidance for determining when the volume of trading level of activity for an asset or liability has significantly decreased and for identifying circumstances that indicate a transaction is not orderly. ASC 820-10-65 is effective for interim and annual reporting periods ending after June 15, 2009. The adoption of ASC 820-10-65 did not have any effect on our net asset value, financial position or results of operations for the three and nine months ended March 31, 2013, as there was no change to the fair value measurement principles set forth in ASC 820.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements* ("ASC 2010-06"). ASC 2010-06 amends ASC 820-10 and clarifies and provides additional disclosure requirements related to recurring and non-recurring fair value measurements and employers' disclosures about postretirement benefit plan assets. ASC 2010-06 is effective December 15, 2009, except for the disclosure about purchase, sales, issuances and settlements in the roll forward of activity in level 3 fair value measurements. The adoption of ASC 2010-06 for the three and nine months ended March 31, 2013, did not have any effect on our financial statements.

Federal and State Income Taxes

We have elected to be treated as a regulated investment company and intend to continue to comply with the requirements of the Internal Revenue Code of 1986 (the "Code"), applicable to regulated investment companies. We are required to distribute at least 90% of our investment company taxable income and intend to distribute (or retain through a deemed distribution) all of our investment company taxable income and net capital gain to stockholders; therefore, we have made no provision for income taxes. The character of income and gains that we will distribute is determined in accordance with income tax regulations that may differ from GAAP. Book and tax basis differences relating to stockholder dividends and distributions and other permanent book and tax differences are reclassified to paid-in capital.

Table of Contents

If we do not distribute at least 98% of our annual income and 98.2% of our capital gains in the calendar year earned, we will generally be required to pay an excise tax equal to 4% of the amount by which 98% of our annual ordinary income and 98.2% of our capital gains exceeds the distributions from such taxable income for the year. To the extent that we determine that our estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such taxable income, we accrue excise taxes, if any, on estimated excess taxable income as taxable income is earned using an annual effective excise tax rate. The annual effective excise tax rate is determined by dividing the estimated annual excise tax by the estimated annual taxable income. As of March 31, 2013, we have \$1,000 accrued as an estimate of excises tax due for the calendar year ended December 31, 2013.

If we fail to satisfy the Annual Distribution Requirement or otherwise fail to qualify as a RIC in any taxable year, we would be subject to tax on all of our taxable income at regular corporate rates. We would not be able to deduct distributions to stockholders, nor would we be required to make distributions. Distributions would generally be taxable to our individual and other non-corporate taxable stockholders as ordinary dividend income eligible for the reduced maximum rate applicable to "qualified dividend income" to the extent of our current and accumulated earnings and profits, provided certain holding period and other requirements are met. Subject to certain limitations under the Code, corporate distributions would be eligible for the dividends-received deduction. To qualify again to be taxed as a RIC in a subsequent year, we would be required to distribute to our shareholders our accumulated earnings and profits attributable to non-RIC years reduced by an interest charge of 50% of such earnings and profits payable by us as an additional tax. In addition, if we failed to qualify as a RIC for a period greater than two taxable years, then, in order to qualify as a RIC in a subsequent year, we would be required to elect to recognize and pay tax on any net built-in gain (the excess of aggregate gain, including items of income, over aggregate loss that would have been realized if we had been liquidated) or, alternatively, be subject to taxation on such built-in gain recognized for a period of ten years.

We adopted FASB ASC 740, *Income Taxes* ("ASC 740"). ASC 740 provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the financial statements. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing our tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. As of March 31, 2013 and for the quarter then ended, we did not have a liability for any unrecognized tax expense. Management's determinations regarding ASC 740 may be subject to review and adjustment at a later date based upon factors including, but not limited to, an on-going analysis of tax laws, regulations and interpretations thereof.

Valuation of Other Financial Assets and Financial Liabilities

In February 2007, FASB issued ASC Subtopic 820-10-05-1, *The Fair Value Option for Financial Assets and Financial Liabilities* ("ASC 820-10-05-1"). ASC 820-10-05-1 permits an entity to elect fair value as the initial and subsequent measurement attribute for many of assets and liabilities for which the fair value option has been elected and similar assets and liabilities measured using another measurement attribute. We adopted this statement on July 1, 2008 and have elected not to value other assets and liabilities at fair value as would be permitted by ASC 820-10-05-1.

Senior Convertible Notes

We have recorded the Senior Convertible Notes (See Note 5) at their contractual amounts. The Senior Convertible Notes were analyzed for any features that would require its accounting to be bifurcated and they were determined to be immaterial.

Realized gains or losses on the sale of investments are calculated using the specific identification method.

Interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis. Origination, closing and/or commitment fees associated with investments in portfolio companies are accreted into interest income over the respective terms of the applicable loans. Accretion of such purchase discounts or premiums is calculated by the effective interest method as of the purchase date and adjusted only for material amendments or prepayments. Upon the prepayment of a loan or debt security, any prepayment penalties and unamortized loan origination, closing and commitment fees are recorded as interest income. The purchase discount for portfolio investments acquired from Patriot Capital Funding, Inc. ("Patriot") was determined based on the difference between par value and fair market value as of December 2, 2009, and will continue to accrete until maturity or repayment of the respective loans.

Interest income from investments in the "equity" class of security of CLO Funds (typically income notes or subordinated notes) is recorded based upon an estimation of an effective yield to expected maturity utilizing assumed cash flows in accordance with ASC 325-40-35, *Beneficial Interests in Securitized Financial Assets*. Adjustments resulting from recording the interest income based on the effective yield are recorded to the cost basis of the investment. We monitor the expected cash inflows from our CLO equity investments, including the expected residual payments and the effective yield is determined and updated periodically.

Dividend income is recorded on the ex-dividend date.

Structuring fees and similar fees are recognized as income as earned, usually when paid. Structuring fees, excess deal deposits, net profits interests and overriding royalty interests are included in other income.

Loans are placed on non-accrual status when there is reasonable doubt that principal or interest will not be collected in accordance with the terms of the investment. Accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal and interest is paid and in management's judgment, are likely to remain current.

Dividends and Distributions

Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount, if any, to be paid as a dividend or distribution is approved by our Board of Directors each quarter and is generally based upon our management's estimate of our earnings for the quarter. Net realized capital gains, if any, are distributed at least annually.

Financing Costs

We record origination expenses related to our credit facility, Prospect Capital InterNotes®, Senior Unsecured Notes and Senior Convertible Notes as deferred financing costs. These expenses are deferred and amortized as part of interest expense using the straight-line method for our credit facility and the effective interest method for our Prospect Capital InterNotes®, Senior Unsecured Notes and Senior Convertible Notes, over the respective expected life.

We record registration expenses related to shelf filings as prepaid assets. These expenses consist principally of Securities and Exchange Commission ("SEC") registration fees, legal fees and accounting

Table of Contents

fees incurred. These prepaid assets will be charged to capital upon the receipt of an equity offering proceeds or charged to expense if no offering completed.

Guarantees and Indemnification Agreements

We follow ASC 460, *Guarantees* ("ASC 460"). ASC 460 elaborates on the disclosure requirements of a guarantor in its interim and annual financial statements about its obligations under certain guarantees that it has issued. It also requires a guarantor to recognize, at the inception of a guarantee, for those guarantees that are covered by ASC 460, the fair value of the obligation undertaken in issuing certain guarantees.

Per Share Information

Net increase or decrease in net assets resulting from operations per common share are calculated using the weighted average number of common shares outstanding for the period presented. In accordance with ASC 946, *Financial Services Investment Companies*, convertible securities are not considered in the calculation of net assets per share.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"). ASU 2011-04 amends Accounting Standards Codification Topic 820, "Fair Value Measurements" ("ASC 820") by: (1) clarifying that the highest-and-best-use and valuation-premise concepts only apply to measuring the fair value of non-financial assets; (2) allowing a reporting entity to measure the fair value of the net asset or net liability position in a manner consistent with how market participants would price the net risk position, if certain criteria are met; (3) providing a framework for considering whether a premium or discount can be applied in a fair value measurement; (4) providing that the fair value of an instrument classified in a reporting entity's shareholders' equity is estimated from the perspective of a market participant that holds the identical item as an asset; and (5) expanding the qualitative and quantitative fair value disclosure requirements. The expanded disclosures include, for Level 3 items, a description of the valuation process and a narrative description of the sensitivity of the fair value to changes in unobservable inputs and interrelationships between those inputs if a change in those inputs would result in a significantly different fair value measurement. ASU 2011-4 also requires disclosures about the highest-and-best-use of a non-financial asset when this use differs from the asset's current use and the reasons for such a difference. In addition, this ASU amends Accounting Standards Codification 820, "Fair Value Measurements," to require disclosures to include any transfers between Level 1 and Level 2 of the fair value hierarchy. These amendments were effective for fiscal years beginning after December 15, 2011 and for interim periods within those fiscal years. The adoption of the amended guidance in ASU 2011-04 did not have a significant effect on our financial statements.

In August 2012, the FASB issued Accounting Standards Update 2012-03, *Technical Amendments and Corrections to SEC Sections: Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 114 ("SAB No. 114"), Technical Amendments Pursuant to SEC Release No. 33-9250, and Corrections Related to FASB Accounting Standards Update 2010-22* ("ASU 2012-03"). The update amends various SEC paragraphs pursuant to the issuance of SAB No. 114 and is effective upon issuance. The adoption of the amended guidance in ASU 2012-03 did not have a significant effect on our financial statements.

In October 2012, the FASB issued Accounting Standards Update 2012-04, *Technical Corrections and Improvements* ("ASU 2012-04"). The amendments in this update cover a wide range of Topics in the Accounting Standards Codification. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will be effective for fiscal periods beginning after December 15, 2012. The adoption of the amended guidance in ASU 2012-04 did not have a significant effect on our financial statements.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to financial market risks, including changes in interest rates and equity price risk. Some of the loans in our portfolio have floating interest rates.

We may hedge against interest rate fluctuations by using standard hedging instruments such as futures, options and forward contracts subject to the requirements of the 1940 Act. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of higher interest rates with respect to our portfolio of investments. During the three months ended March 31, 2013, we did not engage in hedging activities.

USE OF PROCEEDS

Sales of our common stock, if any, under this prospectus supplement and the accompanying prospectus may be made in negotiated transactions or transactions that are deemed to be "at the market" as defined in Rule 415 under the 1933 Act, including sales made directly on the NASDAQ Global Select Market or sales made to or through a market maker other than on an exchange. There is no guarantee that there will be any sales of our common stock pursuant to this prospectus supplement and the accompanying prospectus. Actual sales, if any, of our common stock under this prospectus supplement and the accompanying prospectus may be less than as set forth in this paragraph depending on, among other things, the market price of our common stock at the time of any such sale, and may be for prices below our most recently determined net asset value per share. As a result, the actual net proceeds we receive may be more or less than the amount of net proceeds estimated in this prospectus supplement. Assuming the sale of all 45,000,000 shares of common stock offered under this prospectus supplement and the accompanying prospectus, at the last reported sale price of \$10.875 per share for our common stock on the NASDAQ Global Select Market as of May 7, 2013, we estimate that the net proceeds of this offering will be approximately \$484.2 million after deducting the estimated Sales Manager' commission and our estimated offering expenses.

We expect to use the net proceeds from this offering initially to maintain balance sheet liquidity, involving repayment of debt under our credit facility, if any, investments in high quality short-term debt instruments or a combination thereof, and thereafter to make long-term investments in accordance with our investment objective. We anticipate that substantially all of the net proceeds from this offering will be used for the above purposes within six months, depending on the availability of appropriate investment opportunities consistent with our investment objective and market conditions.

As of May 7, 2013, we had no borrowings under our credit facility and, based on the assets currently pledged as collateral on the facility, approximately \$497.4 million was available to us for borrowing under our credit facility. Affiliates of the Sales Managers that are lenders under our credit facility may receive a portion of the net proceeds from offerings made pursuant to this prospectus supplement and the accompanying prospectus through the repayment of any borrowings. Interest on borrowings under the credit facility is one-month LIBOR plus 275 basis points with no minimum LIBOR floor. Additionally, the lenders charge a fee on the unused portion of the credit facility equal to either 50 basis points if at least half of the credit facility is used or 100 basis points otherwise.

CAPITALIZATION

The equity distribution agreements provide that we may offer and sell up to 45,000,000 shares of our common stock from time to time through the Sales Managers, as our agents for the offer and sale of such common stock. The table below assumes that we will sell all of the 45,000,000 shares at a price of \$10.875 per share (the last reported sale price per share of our common stock on the NASDAQ Global Select Market on May 7, 2013) but there is no guarantee that there will be any sales of our common stock pursuant to this prospectus supplement and the accompanying prospectus. Actual sales, if any, of our common stock under this prospectus supplement and the accompanying prospectus may be less than as set forth in the table below. In addition, the price per share of any such sale may be greater or less than \$10.875, depending on the market price of our common stock at the time of any such sale and whether such sale is made at a discount to our most recently determined net asset value per share. The following table sets forth our capitalization as of March 31, 2013:

on an actual basis;

on an as adjusted basis giving effect to the issuance of 138,087 shares in connection with our dividend reinvestment plan on April 18, 2013, our issuance of 4,477,037 shares of common stock during the period from April 1, 2013 to May 3, 2013 under our ATM Program and the issuance of \$64.2 million aggregate principal amount of Prospect Capital InterNotes® since March 31, 2013; and

on an as further adjusted basis giving effect to the transactions noted above and the assumed sale of 45,000,000 shares of our common stock at a price of \$10.875 per share (the last reported sale price per share of our common stock on the NASDAQ Global Select Market on May 7, 2013) less commissions and expenses.

This table should be read in conjunction with "Use of Proceeds" and our "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our financial statements and notes thereto included in this prospectus supplement and the accompanying prospectus. Table of Contents**RECENT SALES OF COMMON STOCK BELOW NET ASSET VALUE**

At our 2009, 2010, 2011 and 2012 annual meeting of stockholders, our stockholders approved our ability to sell an unlimited number of shares of our common stock at any level of discount to NAV per share during the twelve-month period following such approval. Accordingly, we may make offerings of our common stock without any limitation on the total amount of dilution to stockholders. See "Sales of Common Stock Below Net Asset Value" in this prospectus supplement and in the accompanying prospectus. Pursuant to this authority and the approval of our Board of Directors, we have made the following offerings:

DISTRIBUTIONS AND PRICE RANGE OF COMMON STOCK

We have paid and intend to continue to distribute monthly distributions to our stockholders out of assets legally available for distribution. Our distributions, if any, will be determined by our Board of Directors. Certain amounts of the monthly distributions may from time to time be paid out of our capital rather than from earnings for the period as a result of our deliberate planning or by accounting reclassifications.

In order to maintain RIC tax treatment, we must distribute at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, out of the assets legally available for distribution. In order to avoid certain excise taxes imposed on RICs, we are required to distribute with respect to each calendar year by January 31 of the following year an amount at least equal to the sum of

98% of our ordinary income for the calendar year,

98.2% of our capital gains in excess of capital losses for the one-year period ending on October 31 of the calendar year, and

any ordinary income and net capital gains for preceding years that were not distributed during such years.

In December 2012, our Board of Directors elected to retain excess profits generated in the calendar year ended December 31, 2012 and pay a 4% excise tax on such retained earnings. We paid \$4.5 million for the excise tax with the filing of our tax return in March 2013. We expect a similar election to be made at December 31, 2013 and have accrued \$1.0 million in the quarter ended March 31, 2013 to accrue for one-quarter of the expected excise tax.

In addition, although we currently intend to distribute realized net capital gains (which we define as net long-term capital gains in excess of short-term capital losses), if any, at least annually, out of the assets legally available for such distributions, we may decide in the future to retain such capital gains for investment. In such event, the consequences of our retention of net capital gains are as described under "Material U.S. Federal Income Tax Considerations" in the accompanying prospectus. We can offer no assurance that we will achieve results that will permit the payment of any cash distributions and, if we issue senior securities, we will be prohibited from making distributions if doing so causes us to fail to maintain the asset coverage ratios stipulated by the 1940 Act or if distributions are limited by the terms of any of our borrowings.

We maintain an "opt out" dividend reinvestment plan for our common stockholders. As a result, if we declare a dividend, then stockholders' cash dividends will be automatically reinvested in additional shares of our common stock, unless they specifically "opt out" of the dividend reinvestment plan so as to receive cash dividends. Stockholders who receive distributions in the form of stock are subject to the same U.S. Federal, state and local tax consequences as are stockholders who elect to receive their distributions in cash. See "Dividend Reinvestment Plan" in the accompanying prospectus. The tax consequences of distributions to stockholders are described in the accompanying prospectus under the label "Material U.S. Federal Income Tax Considerations". To the extent prudent and practicable, we intend to declare and pay dividends on a monthly basis.

With respect to the distributions paid to stockholders, income from origination, structuring, closing, commitment and other upfront fees associated with investments in portfolio companies were treated as taxable income and accordingly, distributed to stockholders. For the fiscal year ended June 30, 2010, we recorded total distributions of approximately \$101.0 million. On June 18, 2010, we announced a change in dividend policy from quarterly to monthly dividends. For the fiscal year ending June 30, 2011, we recorded total distributions of approximately \$106.2 million. For the fiscal year ended June 30, 2012, we recorded total distributions of approximately \$141.4 million.

Table of Contents

Tax characteristics of all distributions will be reported to stockholders, as appropriate, on Form 1099-DIV after the end of the year. Our ability to pay distributions could be affected by future business performance, liquidity, capital needs, alternative investment opportunities and loan covenants.

Our common stock is quoted on the NASDAQ Global Select Market under the symbol "PSEC." The following table sets forth, for the periods indicated, our NAV per share of common stock and the high and low closing prices per share of our common stock as reported on the NASDAQ Global Select Market. Our common stock historically trades at prices both above and below its NAV per share. There can be no assurance, however, that such premium or discount, as applicable, to NAV per share will be maintained. Common stock of business development companies, like that of closed-end investment companies, frequently trades at a discount to current NAV per share. In the past, our common stock has traded at a discount to our NAV per share. The risk that our common stock may continue to trade at a discount to our NAV per share is separate and distinct from the risk that our NAV per share may decline.

2013, may be higher or lower than \$10.71 based on potential changes in valuations, issuances of securities, dividends paid and earnings for the quarter then ended.

(4) NAV has not yet been finally determined for any day after March 31, 2013.

(5) On May 6, 2013, we announced the declaration of monthly dividends in the following amounts and with the following dates:

\$0.110125 per share for May 2013 to holders of record on May 31, 2013 with a payment date of June 20, 2013;

\$0.110150 per share for June 2013 to holders of record on June 28, 2013 with a payment date of July 18, 2013;

\$0.110175 per share for July 2013 to holders of record on July 31, 2013 with a payment date of August 22, 2013;
and

\$0.110200 per share for August 2013 to holders of record on August 30, 2013 with a payment date of September 19, 2013.

On May 7, 2013, the last reported sales price of our common stock was \$10.875 per share.

As of May 7, 2013, we had approximately 132 stockholders of record.

SALES OF COMMON STOCK BELOW NET ASSET VALUE

At our 2012 annual meeting of stockholders held on December 7, 2012, our stockholders approved our ability to sell an unlimited number of shares of our common stock at any level of discount from NAV per share during the twelve-month period following such approval. In order to sell shares pursuant to this authorization a majority of our directors who have no financial interest in the sale and a majority of our independent directors must (a) find that the sale is in our best interests and in the best interests of our stockholders, (b) in consultation with any underwriter or underwriters or sales manager or sales managers of the offering, make a good faith determination as of a time either immediately prior to the first solicitation by us or on our behalf of firm commitments to purchase such shares, or immediately prior to the issuance of such shares of common stock, that the price at which such shares are to be sold is not less than a price which closely approximates the market value of such shares, less any distributing commission or discount, and (c) the number of shares sold on any given date does not exceed 25% of its outstanding common stock immediately prior to such sale.

We may make sales of our common stock at prices below our most recently determined NAV per share. Pursuant to the approval of our Board of Directors, we have made such sales in the past, including under the previous equity distribution agreements, and we may continue to do so under this prospectus supplement.

In making a determination that an offering below NAV per share is in our and our stockholders' best interests, our Board of Directors considers a variety of factors including matters such as:

The effect that an offering below NAV per share would have on our stockholders, including the potential dilution they would experience as a result of the offering;

The amount per share by which the offering price per share and the net proceeds per share are less than the most recently determined NAV per share;

The relationship of recent market prices of par common stock to NAV per share and the potential impact of the offering on the market price per share of our common stock;

Whether the estimated offering price would closely approximate the market value of our shares of common stock;

The potential market impact of being able to raise capital during the current financial market difficulties;

The nature of any new investors anticipated to acquire shares of common stock in the offering;

The anticipated rate of return on and quality, type and availability of investments; and

The leverage available to us.

Our Board of Directors also considers the fact that sales of common stock at a discount will benefit our Investment Advisor as the Investment Advisor will earn additional investment management fees on the proceeds of such offerings, as it would from the offering of any other securities of the Company or from the offering of common stock at a premium to NAV per share.

We will not sell shares of common stock under a prospectus supplement to the registration statement (the "current registration statement") if the cumulative dilution to our NAV per share from offerings under the current registration statement exceeds 15%. This limit would be measured separately for each offering pursuant to the current registration statement by calculating the percentage dilution or accretion to aggregate NAV from that offering and then summing the percentage from each offering. For example, if our most recently determined NAV at the time of the first offering is \$10.71 and we have 250.0 million shares of common stock outstanding, sale of 50.0 million shares of common stock at net proceeds to us of \$5.36 per share (an approximately 50% discount) would produce dilution

of 8.33%. If we subsequently determined that our NAV per share was \$10.50 on the then 300.0 million shares of common stock outstanding and then made an additional offering, we could, for example, sell approximately an additional 46.22 million shares of common stock at net proceeds to us of \$5.25 per share, which would produce dilution of 6.67%, before we would reach the aggregate 15% limit. If we file a new post-effective amendment, the threshold would reset.

Sales by us of our common stock at a discount from NAV pose potential risks for our existing stockholders whether or not they participate in the offering, as well as for new investors who participate in the offering.

The following three headings and accompanying tables will explain and provide hypothetical examples on the impact of an offering at a price less than NAV per share on three different set of investors:

existing shareholders who do not purchase any shares of common stock in the offering;

existing shareholders who purchase a relatively small amount of shares of common stock in the offering or a relatively large amount of shares of common stock in the offering; and

new investors who become shareholders by purchasing shares of common stock in the offering.

NAV per share used in the tables below is based on our most recently determined NAV per share as of March 31, 2013, as adjusted to give effect to our issuances of our common stock since March 31, 2013. The NAV per share used for purposes of providing information in the table below is thus an estimate and does not necessarily reflect actual NAV per share at the time sales are made. Actual NAV per share may be higher or lower based on potential changes in valuations of our portfolio securities, accruals of income, expenses and distributions declared and thus may be higher or lower at the assumed sales prices than shown below.

The tables below provide hypothetical examples of the impact that an offering at a price less than NAV per share may have on the NAV per share of shareholders and investors who do and do not participate in such an offering. However, the tables below do not show and are not intended to show any potential changes in market price that may occur from an offering at a price less than NAV per share and it is not possible to predict any potential market price change that may occur from such an offering.

Impact On Existing Stockholders Who Do Not Participate in the Offering

Our existing stockholders who do not participate in an offering below NAV per share or who do not buy additional shares of common stock in the secondary market at the same or lower price we obtain in the offering (after expenses and commissions) face the greatest potential risks. These stockholders will experience an immediate decrease (often called dilution) in the NAV of the shares of common stock they hold and their NAV per share. These stockholders will also experience a disproportionately greater decrease in their participation in our earnings and assets and their voting power than the increase we will experience in our assets, potential earning power and voting interests due to the offering. These shareholders may also experience a decline in the market price of their shares of common stock, which often reflects to some degree announced or potential increases and decreases in NAV per share. This decrease could be more pronounced as the size of the offering and level of discounts increases.

The following chart illustrates the level of NAV dilution that would be experienced by a nonparticipating stockholder in three different hypothetical offerings of different sizes and levels of discount from NAV per share. It is not possible to predict the level of market price decline that may occur.

The examples assume that the issuer has 250,000,000 common shares outstanding, \$4,177,500,000 in total assets and \$1,500,000,000 in total liabilities. The current NAV and NAV per share are thus \$2,677,500,000 and \$10.71. The chart illustrates the dilutive effect on Stockholder A of (1) an offering of 12,500,000 shares of common stock (5% of the outstanding shares of common stock) at \$10.17 per share after offering expenses and commission (a 5% discount from NAV), (2) an offering of 25,000,000 shares of common stock (10% of the outstanding shares of common stock) at \$9.64 per share after offering expenses and commissions (a 10% discount from NAV), (3) an offering of 62,500,000 shares of common stock (25% of the outstanding shares of common stock) at \$8.03 per share after offering expenses and commissions (a 25% discount from NAV) and (4) an offering of 62,500,000 shares of common stock (25% of the outstanding shares of common stock) at \$0.00 per share after offering expenses and commissions (a 100% discount from NAV).
