Forward-Looking Statements

This Current Report on Form 8-K and the exhibit attached hereto contain forward-looking statements that involve substantial risks and uncertainties. In some cases, you can identify forward looking statements by the words may, might, will, could, would, should, expect, plan, objective, anticipate, believe, estimate, predict, project, potential, continue and ongoing, or the negative of these terms, terminology intended to identify statements about the future. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from the information expressed or implied by these forward looking statements. Although we believe that we have a reasonable basis for each forward looking statement contained in this prospectus, we caution you that these statements are based on a combination of facts and factors currently known by us and our expectations of the future, about which we cannot be certain. Forward looking statements include statements about: our plans to develop and potentially commercialize our product candidates; the exercise by Actavis plc of its option to license TRV027 and, if exercised, our ability to achieve milestones under the license; our planned clinical trials and preclinical studies for our product candidates; the timing of and our ability to obtain and maintain regulatory approvals for our product candidates; the extent of clinical trials potentially required by the United States Food and Drug Administration for our product candidates; the clinical utility and market acceptance of our product candidates; our commercialization, marketing and manufacturing capabilities and strategy; our intellectual property position; and our ability to identify additional product candidates with significant commercial potential that are consistent with our commercial objectives. You should refer to the Risk Factors section of our Annual Report on Form 10-K for the year ended December 31, 2013, as updated from time to time in our filings with the Securities and Exchange Commission, or SEC, for a discussion of important factors that may cause our actual results to differ materially from those expressed or implied by our forward-looking statements. As a result of these factors, we cannot assure you that the forward-looking statements in this Current Report will prove to be accurate. Furthermore, if our forward-looking statements prove to be inaccurate, the inaccuracy may be material. In light of the significant uncertainties in these forward-looking statements, you should not regard these statements as a representation or warranty by us or any other person that we will achieve our objectives and plans in any specified time frame, or at all. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
