ITEM 9. REGULATION FD DISCLOSURE

CareDecision Corp. [OTCBB: CDED] is in discussions with a media and commercial satellite broadcast concern for a series of revenue-generating agreements covering the product sale, marketing, service and additional projects based on its SateLink Satellite Wi-Fi technologies. CareDecision's SateLink provides wireless satellite communication, programming and data integration, and e-transaction processing applications, all through Wi-Fi and satellite-enabled PDAs.

"We have been in discussions over the past four months with a media company concerning a series of agreements related to the marketing, servicing and additional projects based on our Satelink technologies. The functionality of the product for this contemplated joint venture has been determined and the intellectual properties secured. Recently, we reached a stage in our talks where it is prudent to offer a short exclusive negotiating period in an effort to conclude a prompt and successful conclusion," said Robert Cox, CareDecision Chairman. The Company expects to have more to report in coming days.
