Bonso Electronics Reports Mixed Results for the First Quarter

HONG KONG, Aug. 22 /Xinhua-PRNewswire-FirstCall/ -- Bonso Electronics
International Inc, (Nasdaq: BNSO - News) a designer and manufacturer of sensor
based and communications products, today announced financial results for the
first quarter ended 30 June 2005.

The company reported sales of \$18,150,000 and net earnings of \$647,000 or 12
cents per share (diluted) for the three months period ended 30 June 2005. This

Edgar Filing: BONSO ELECTRONICS INTERNATIONAL INC - Form 6-K

represents an increase of 0.6 % in sales and a decrease of 6.6 % in net income as compared to sales of \$18,041,000 and net income of \$693,000 or 12 cents per share (diluted) posted during the same period last year.

Sensor based product sales surpassed last year's volume but telecommunication product sales were down approximately 2% from last year's first quarter. We anticipate that telecommunications product sales will continue to be soft in the short-term future.

Our gross profit margin reduced 0.3 percent based on increases in material and labor costs and operation expense levels increased approximately 4 percent primarily as a result of expansion of the branded sales operations in North America. The result was that net income dropped approximately \$46,000 from last year's first quarter.

George O'Leary, President and Chief Executive Officer said "Going forward, our primary focus will be on doing more for our existing customers and to show greater initiative in proposing solutions to new potential customers in our niche markets of sensor based and telecommunication products. We have developed several new sensor based products that are being well received by new potential OEM customers and have also expanded our branded product offerings in both North America and Europe "We intend to continue to make efforts to continue the progress we have made in strengthening our Balance Sheet. Our cash position at the end of the quarter was \$9.7 million, or approximately \$1.74 per share".

On July 18, we announced a \$0.10 per common share cash dividend. Based on the closing price on July 15 2005 (\$5.67 per share), the forthcoming dividend would represent an annual yield of approximately 1.8 %. The Board of Directors feels this is an appropriate reward to loyal shareholders. I am pleased with our cash position and we believe our financial resources continue to permit the payment of dividends while meeting our other financial requirements.

Mr. O'Leary further stated "As our first quarter results have demonstrated, we are committed to keeping one eye on the future and one eye on the bottom line; as we continue to pursue planned profitable growth".

About Bonso Electronics

Headquartered in Hong Kong, Bonso Electronics designs, develops, manufactures, assembles and markets a comprehensive line of telecommunications products, electronic scales and weighing instruments and health care products. Bonso products are manufactured in the People's Republic of China on behalf of customers primarily located in North America and Europe. Company services include product design and prototyping, production tooling, procurement of components, total quality management, and just-in-time delivery. Bonso also independently designs and develops electronic products for private label markets. For further information, visit the company's web site at www.bonso.com.
