AudioCodes Reports Second Quarter 2006 Results

Quarterly Revenues Increased to a Record \$33.3 Million, Up 6.3% Sequentially and 16.7% Year-over-Year

Lod, Israel - July 31, 2006 - AudioCodes (NASDAQ: AUDC), a leading provider of Voice over Packet (VoP) technologies and Voice Network products, today announced financial results for the second quarter ended June 30, 2006.

Revenues for the second quarter ended June 30, 2006 were a record \$33.3 million compared to \$31.3 million for the quarter ended March 31, 2006 and \$28.5 million for the quarter ended June 30, 2005. Second quarter revenues grew 6.3% sequentially and increased 16.7% compared to the second quarter of 2005.

Net income was \$3.3 million, or \$0.07 per diluted share, for the second quarter of 2006 compared to net income of \$2.3 million, or \$0.05 per diluted share, in the first quarter of 2006 and net income of \$3.1 million, or \$0.07 per diluted share, in the second quarter of 2005. SFAS No. 123R became applicable to the Company effective January 1, 2006. As a result, the Company recorded \$1.8 million of stock-based compensation expense in the second quarter of 2006 and \$2.1 million of stock-based compensation expense in the first quarter of 2006. Excluding this stock-based compensation expense, net income on a non-GAAP basis was \$5.1 million, or \$0.11 per diluted share¹, in the second quarter of 2006 and \$4.3 million, or \$0.10 per diluted share, in the first quarter of 2006. Non-GAAP net income, which excludes the effect of stock-based compensation expense, is reported in order to facilitate financial results tracking and comparison with previously reported financial results.

Cash and cash equivalents, short-term and long-term marketable securities, short-term and long-term bank deposits and structured notes were \$232.9 million as of June 30, 2006 compared to \$227.6 million as of March 31, 2006 and \$214.7 million as of June 30, 2005.

“Our continued success in achieving record revenues and profitability during the second quarter of 2006 was driven substantially by the growth of our networking business where revenues increased substantially compared to the first quarter of 2006 and we continued to enjoy new customer design wins. Notably, our growth was supported by solid demand for our media gateways and media server products targeting voice over broadband applications, as well as rising demand from wireless service providers. We believe that our continued investment and progress in these areas provides a sound foundation for future growth of our networking business in fixed mobile convergence and IMS network deployments.

“Subsequent to the close of the second quarter, we completed the acquisition of Nuera Communications, a leader in the area of VoIP gateway products for cable and broadband access networks. We also entered into a definitive agreement to acquire Netrake Corporation, a leading provider of Session Border Controllers and Security Gateway Solutions. We

believe the integration of these new capabilities with our existing portfolio of systems and products will increase our customer base, enrich our VoIP product portfolio, and add scale and strength to our positioning with the service provider customer base. With these transactions, AudioCodes stands to significantly enhance its global positioning as a leading supplier of key next generation converged network systems,” stated Shabtai Adlersberg, President, Chairman and CEO of AudioCodes.

Conference Call & Webcast Information

AudioCodes will conduct a conference call on Tuesday, August 1, 2006 to discuss the second quarter 2006 financial results, which will be simultaneously Webcast at 9:00 a.m. Eastern Time. Investors are invited to listen to the call live via Webcast at the AudioCodes corporate Website at <http://www.audiocodes.com>.

¹ Non-GAAP measures should be considered in addition to, and not as a substitute for, the results prepared in accordance with GAAP. The Company believes that non-GAAP information is useful because it can enhance the understanding of its ongoing economic performance and therefore uses internally this non-GAAP information to evaluate and manage its operations. The Company has chosen to provide this information to investors to enable them to perform comparisons of operating results in a manner similar to how the Company analyzes its operating results and because many comparable companies report this type of information as well.

About AudioCodes

AudioCodes Ltd. (NASDAQ: AUDC) enables the new voice infrastructure by providing innovative, reliable and cost-effective Voice over Packet technology and Voice Network products to OEMs, network equipment providers and system integrators. AudioCodes provides its customers and partners with a diverse range of flexible, comprehensive media gateway and media processing technologies, based on VoIPerfect(TM) -- AudioCodes' underlying, best-of-breed, core media gateway architecture. The company is a market leader in voice compression technology and is a key originator of the ITU G.723.1 standard for the emerging Voice over IP market. AudioCodes voice network products feature media gateway and media server platforms for packet-based applications in the converged, wireline, wireless, broadband access, and enhanced voice services markets. AudioCodes enabling technology products include VoIP and CTI communication boards, VoIP media gateway processors and modules, and CPE devices. Its customers include the leading telecom and data network equipment providers globally. AudioCodes' headquarters and R&D facilities are located in Israel with an R&D extension in the U.S. Other AudioCodes' offices are located in Europe, the Far East, and Latin America. For more information on AudioCodes, visit <http://www.audiocodes.com>.

Statements concerning AudioCodes' business outlook or future economic performance; product introductions and plans and objectives related thereto; and statements concerning assumptions made or expectations as to any future events, conditions, performance or other matters, are "forward-looking statements" as that term is defined under U.S. Federal securities laws. Forward-looking statements are subject to various risks, uncertainties and other factors that could cause actual results to differ materially from those stated in such statements. These risks, uncertainties and factors include, but are not limited to: the effect of global economic conditions in general and conditions in AudioCodes' industry and target markets in particular; shifts in supply and demand; market acceptance of new products and continuing products' demand; the impact of competitive products and pricing on AudioCodes' and its customers' products and markets; timely product and technology development/upgrades and the ability to manage changes in market conditions as needed; and other factors detailed in AudioCodes' filings with the Securities and Exchange Commission. AudioCodes assumes no obligation to update the information in this release.
