ITEM 2.03. CREATION OF A DIRECT FINANCIAL OBLIGATION.

On November 9, 2004, the Company issued Three Hundred Million Dollars (\$300,000,000) of privately-placed notes (Notes) pursuant to a Note Purchase Agreement dated the same date, with Banc of America Securities, LLC, as Placement Agent for the Company. The Notes are unsecured, and rank *pari passu* in right of repayment with the Company's other senior unsecured indebtedness. The Series A Notes have a three-year bullet maturity and are set at a spread above the yield to maturity of the bellweather three-year U.S.Treasury Note, the Series B Notes have a five-year bullet maturity and are set at a spread above the yield to maturity of the bellweather five-year U.S.Treasury Note, and the Series C Notes have a seven-year bullet maturity and are set at a spread above the yield to maturity of the bellweather seven-year U.S.Treasury Note.

The Notes contain customary affirmative covenants, including, without limitation, corporate existence and power, conduct of business, compliance with laws, maintenance of insurance, keeping of books, conduct of business, maintenance of properties, payment of taxes, ERISA compliance, environmental compliance, use of proceeds, addition of subsidiary guarantors, inspection of records, and furnishing of quarterly and annual financial statements, quarterly compliance certificates, and notices and other information. The Notes also contain customary restrictive covenants, including, without limitation, restrictions on the following: subsidiary indebtedness; consolidations; mergers, liquidation, dissolution; sale of assets (not including permitted asset sales in connection with the Company's Asset Securitization Facility); investments, loans, advances and acquisitions; liens and encumbrances; contingent obligations; conduct of business, new subsidiaries, acquisitions; sale and leaseback transactions; margin regulations; ERISA obligations; subsidiary covenants; hedging obligations; issuance of disqualified stock; non-guarantor subsidiaries; transactions with shareholders and affiliates; amendments to corporate documents; and change in fiscal year.

The Notes contain financial covenants, including, without limitation, covenants pertaining to the following:

- Maximum Consolidated Total Debt/ EBITDA Ratio: At no time shall the ratio of total indebtedness of the Company and its consolidated subsidiaries at the end of the most recently completed fiscal quarter to EBITDA of the Company and its consolidated subsidiaries for the Company's then most recently completed four fiscal quarters exceed 3.5 to 1.0, however, if the Company elects to pay additional interest, the ratio may exceed 3.5 to 1.0 but be no greater than 4.0 to 1.0 for a period of not more than four successive quarters.

The definition of indebtedness includes, without limitation, off-balance sheet liabilities (including the amount of obligations outstanding under the Securitization Facility on any date of determination that would be characterized as principal if such facility were structured as a secured lending transaction rather than as a purchase).

The Notes contain customary events of default, including, without limitation, failure to make payment in connection with the Facility when due; breach of representations and warranties; default in any covenant or agreement set forth in the Loan Documents after any applicable grace period; cross default to occurrence of a default (whether or not resulting in acceleration) under any other agreement governing indebtedness in excess of \$30,000,000 of the Borrower or any of its subsidiaries; events of bankruptcy; the occurrence of one or more unstayed or undischarged judgments or attachments in excess of \$30,000,000; dissolution; any of the Loan Documents shall cease to be in full force; the occurrence of a termination event; the waiver of a minimum funding standard; change of control; defaults under hedging agreements; environmental matters; subsidiary guarantor revocation; or the occurrence of the amortization date under the Securitization Facility. The 2004 Credit Agreement also includes customary provisions protecting the Lenders against increased costs or loss of yield resulting from changes in reserve, tax, capital adequacy and other

requirements of law and from the imposition of or changes in withholding or other taxes (including appropriate gross-up provisions).

The form of the Note Purchase Agreement is attached to this filing as Exhibit 10.1.
