Notes to Unaudited Consolidated Financial Statements

Three month period ended March 31, 2005 and 2004

(1) Basis of Presentation

The accompanying unaudited consolidated financial statements of Team Financial, Inc. and Subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes necessary for a comprehensive presentation of financial condition and results of operations required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of results have been included. The consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2004.

The interim consolidated financial statements include the accounts of Team Financial, Inc. and its wholly owned subsidiaries, Team Financial Acquisition Subsidiary, Inc., including TeamBank, N.A. and its subsidiaries, and Post Bancorp including Colorado National Bank. All material inter-company transactions, profits, and balances are eliminated in consolidation. The consolidated financial statements do not include the accounts of our wholly owned statutory trust, Team Financial Capital Trust I (the Trust). In accordance with Financial Accounting Standards Board Interpretation No. 46R, *Consolidation of Variable Interest Entities* (FIN 46 R), adopted in December 2003, the Trust qualifies as a special purpose entity that is not required to be consolidated in the financial statements of Team Financial, Inc. The Trust was formed in 2001 for the purpose of issuing \$15.5 million of Trust Preferred Securities. We continue to include the Trust Preferred Securities issued by the Trust in Tier I capital for regulatory capital purposes.

The December 31, 2004 statement of financial condition has been derived from the audited consolidated financial statements as of that date. Certain amounts in the 2004 financial statements have been reclassified to conform to the 2005 presentation. The results of the interim period ended March 31, 2005, are not necessarily indicative of the results that may occur for the year ending December 31, 2005.

(2) Recent Accounting Pronouncements

In December of 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123 (revised 2004), *Share Based Payments*, (SFAS 123R). This statement requires that the cost resulting from all share-based transactions be recognized in the financial statements. SFAS 123R establishes fair value as the measurement objective in accounting for share-based arrangements and requires all entities to apply a fair-value based measurement method in accounting for share based payments with employees except for equity instruments held by employee share ownership plans. SFAS 123R replaces FASB Statement No. 123, *Accounting for Stock-Based Compensation*, and supercedes Accounting Principal Board Opinion No. 25, *Accounting for Stock Issued to Employees*, (APB 25) and is effective as of the beginning of the first annual reporting period beginning after June 15, 2005. We apply APB 25 to account for stock incentive plans which requires compensation cost be recognized as the excess, if any, of the fair market value of our stock at the date of grant over the amount the employee must pay to acquire the stock. In accordance with SFAS 123, we report the effect on net income as if the transactions were accounted for using the fair value method in footnote 4. The adoption of SFAS 123R, in fiscal year 2006, will result in higher salaries and employee benefits expense in future periods.

(3) Discontinued Operations

On February 25, 2005, we completed the sale of our insurance agency subsidiary, Team Insurance Group, Inc. We sold all the issued and outstanding shares of the insurance agency subsidiary to an unaffiliated

third party for total cash consideration of \$7,000,000, plus or minus any adjustments to the closing balance sheet to reflect the difference between the total equity of Team Insurance Group, Inc. as of December 31, 2004 and the purchase price. Our investment in Team Insurance Group, Inc. as of December 31, 2004 and February 25, 2005 was approximately \$7,000,000. There was no gain or loss recorded on the sale of the subsidiary during the three month period ended March 31, 2005. The sale was effective December 31, 2004, and therefore, the operating activities of the insurance subsidiary during 2005 were assumed by the new owners. The buyer asserted on May 9, 2005, balance sheet adjustments of \$283,000, which are being reviewed by management. Additionally, the buyer has until August 25, 2006 to contest representations and warranties. Any adjustments to the purchase price could result in a loss on the sale of the subsidiary.

As a result of the sale, the operations related to the insurance agency subsidiary during the three months ended March 31, 2004 have been reclassified as discontinued operations in the unaudited consolidated financial statements and notes to the unaudited consolidated financial statements.

The following table presents the net assets of Team Insurance Group, Inc. as of December 31, 2004:

Net income from discontinued operations, net of tax	\$	50

(4) Stock Compensation and Income Per Share

Basic income per share excludes dilution and is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted income per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock.

We account for employee options under the intrinsic-value method prescribed by Accounting Principles Board Opinion No. 25 *Accounting for Stock Issued to Employees* with pro forma disclosures of net income and income per share, as if the fair value method of accounting defined in SFAS No. 123 *Accounting for Stock Based Compensation* had been applied. SFAS 123 establishes a fair value based method of accounting for stock based employee compensation plans. Under the fair value method, compensation cost is measured at the grant date based on the value of the award and is recognized over the service period, which is usually the vesting period. Under SFAS No. 123, our net income and net income per share would have decreased as reflected in the following pro forma amounts.

**Three Months Ended March 31,

(5) Stock Repurchase Program

At March 31, 2005, there were 383,230 shares of our common stock remaining to be repurchased under a stock repurchase program authorized by the Board of Directors. There were no purchases of our stock during the quarter ended March 31, 2005.

(6) Dividend Declared

On February 22, 2005, we declared a quarterly cash dividend of \$0.08 per share to all shareholders of record on March 31, 2005, payable April 20, 2005.

(7) Investment Securities

The following tables summarize the amortized cost, gross unrealized gains and losses, and fair value of investment securities at March 31, 2005 and December 31, 2004.

Management does not believe that any of the securities with unrealized losses at March 31, 2005 are other than temporarily impaired due to changes in market rate from the date of purchase to March 31, 2005.

(8) Commitments and Contingencies

Commitments to extend credit to our customers with unused approved lines of credit were approximately \$78,198,000 at March 31, 2005. Additionally, the contractual amount of standby letters of credit at March 31, 2005 was approximately \$4,775,000. These commitments involve credit risk in excess of the amount stated in the consolidated balance sheet. Exposure to credit loss in the event of nonperformance by the customer is represented by the contractual amount of those instruments.

Item 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS
OF OPERATIONS

OVERVIEW

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Team Financial, Inc. is a financial holding company incorporated in the State of Kansas. Our common stock is listed on the Nasdaq National Market (NASDAQ) under the symbol TFIN .

We offer full service community banking and financial services through 18 locations in Kansas, Missouri, Nebraska and Colorado through our wholly owned banking subsidiaries, TeamBank, N.A and Colorado National Bank. Our presence in Kansas consists of seven locations in the Kansas City metropolitan area and three locations in southeast Kansas. We operate two locations in western Missouri, three in the metropolitan area of Omaha, Nebraska, and three in the Colorado Springs, Colorado metropolitan area.

Our results of operations depend primarily on net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. Our operations are also affected by non-interest income, such as service charges, loan fees, and gains and losses from the sales of mortgage loans. Our principal operating expenses, aside from interest expense, consist of compensation and employee benefits, occupancy costs, data processing expense and provisions for loan losses.

On February 25, 2005, we completed the sale of Team Insurance Group, Inc., our insurance agency subsidiary. Team Insurance Group, Inc., based in Tulsa, Oklahoma, operated as a subsidiary of TeamBank, N.A. since December of 2002 and offered employee benefit insurance and property and casualty insurance to businesses and individuals. We sold all the issued and outstanding shares of the insurance agency subsidiary to an unaffiliated third party for total cash consideration of \$7,000,000, plus or minus any adjustments to the closing balance sheet to reflect the difference between the total equity of Team Insurance Group, Inc. as of December 31, 2004 and the purchase price. Our investment in Team Insurance Group, Inc. as of December 31, 2004 and February 25, 2005 was approximately \$7,000,000. There was no gain or loss recorded on the sale of the subsidiary during the three-month period ended March 31, 2005. The sale was effective December 31, 2004, and therefore, the new owners assumed the operating activities of the insurance subsidiary during 2005. The buyer asserted on May 9, 2005, balance sheet adjustments of \$283,000, which are being reviewed by management. Additionally, the buyer has until August 25, 2006 to contest representations and warranties. Any adjustments to the purchase price could result in a loss on the sale of the subsidiary.

As a result of the sale, the operations related to the insurance agency subsidiary during the three months ended March 31, 2004 have been reclassified as discontinued operations. Summarized results of operations of the insurance agency for the three months ended March 31, 2004 are as follows:

FINANCIAL CONDITION

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Total assets at March 31, 2005, were \$652.5 million compared to \$664.1 million at December 31, 2004, a decrease of \$11.6 million. This decrease was primarily a result of a decrease in cash and cash equivalents of \$17.6 million. Cash and cash equivalents were used to fund the loans receivable increase of \$9.9 million to \$388.7 million at March 31, 2005, from \$378.8 million at December 31, 2004. Total deposits decreased \$7.1 million to \$460.9 million at March 31, 2005 compared to \$468.0 million at December 31, 2004, contributing to the decrease in cash and cash equivalents.

Investment Securities

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Total investment securities were \$196.2 million at March 31, 2005 compared to \$191.8 million at December 31, 2004, an increase of \$4.4 million, or 2.3%. This increase was due to investing excess cash in the securities markets, which offset a decrease in the market value of the investment portfolio due to decreased market rates.

Loans Receivable

Loans receivable increased \$9.9 million, or 2.6%, to \$388.7 million at March 31, 2005, compared to \$378.8 million at December 31, 2004, primarily due to growth in the construction and land development loans, which increased \$7.6 million, or 15.4%, to \$57.0 million at March 31, 2005, compared to \$49.4 million at December 31, 2004.

The following table presents the composition of the loan portfolio by type of loan at the dates indicated.

	March 31, 2005		December 31, 2004

Included in one-to-four family real estate loans were loans held for sale of approximately \$2.8 million at March 31, 2005 and \$3.1 million at December 31, 2004.

Non-performing Assets

Non-performing assets consist of loans 90 days or more delinquent and still accruing interest, non-accrual loans, restructured loans and assets acquired through foreclosure. Loans are generally placed on non-accrual status when principal or interest is 90 days or more past due, unless the loans are well-secured and in the process of collection. Loans may be placed on non-accrual status earlier when, in the opinion of management, reasonable doubt exists as to the full, timely collection of interest or principal.

The following table summarizes our non-performing assets:

	March 31, 2005		December 31, 2004	
	(Dollars in thousands)			
Non-accrual loans	\$ 2,005		\$ 1,281	
Loans 90 days past due and still accruing		619		420
Restructured loans		1,035		1,053
Non-performing loans		3,659		2,754

Non-performing loans as a percentage of total loans		0.94%		0.73%
Non-performing assets as a percentage of total assets		0.67%		0.48%

Non-performing assets totaled \$4.3 million at March 31, 2005, compared to \$3.2 million at December 31, 2004, representing an increase of approximately \$1.1 million, or 34.4%. The increase in non-performing assets was primarily a result of an increase in non-accrual loans.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Non-performing loans were approximately \$3.7 million at March 31, 2005 and \$2.8 million at December 31, 2004. Included in non-performing loans at March 31, 2005 were several small non-accrual loans. The largest three loans included in non-accrual at March 31, 2005 were \$315,000 for a commercial building, \$278,000 to an automotive

mechanic shop and \$230,000 for a single-family dwelling. The largest loan included in non-accrual at December 31, 2004 was approximately \$234,000 for a single-family dwelling. Restructured loans at March 31, 2005 and December 31, 2004 included several relationships; the largest was an agricultural loan restructured through Farmer Home Administration of approximately \$500,000.

Other real estate owned at March 31, 2005 consisted of seven properties. The properties consisted of four commercial buildings totaling \$205,000, and three one-to-four family properties totaling \$483,000. The properties are all located within our market areas. Management is working to sell the real estate as soon as practical.

The loan portfolio is continuously monitored for possible non-performing assets as information becomes available. The magnitude of any increase in non-performing loans is not determinable.

Allowance for loan losses

Management maintains its allowance for loan losses based on industry standards, historical experience, an evaluation of economic conditions and information regarding the collectibility of specific loans. We regularly review delinquencies and loan portfolio quality. The evaluation of the allowance for loan losses is based on various estimates and assumptions. Actual losses may differ due to changing conditions or information that is currently not available.

The following table summarizes our allowance for loan losses:

	Three Months Ended March 31	
	2005	2004
	(Dollars In thousands)	
Allowance at beginning of period	\$ 4,898	\$ 4,506
Provision for loan losses	145	250
Loans charged off	(196)	(134)
Recoveries	181	76
Allowance at end of period	\$ 5,028	\$ 4,698
Annualized net charge-offs as a percent of total loans	0.02%	0.06%
Allowance as a percent of total loans	1.29%	1.31%
Allowance as a percent of non-performing loans	137.41%	64.91%

The allowance for loan losses was 1.29% at March 31, 2005 and December 31, 2004 compared to 1.31% of total loans at March 31, 2004.

The allowance for loan losses as a percent of non-performing loans was 137.41% at March 31, 2005, compared to 177.85% at December 31, 2004 and 64.91% at March 31, 2004. The allowance for loan losses as a percent of non-performing loans of 137.41% at March 31, 2005 increased from 64.91% at March 31, 2004 due to the inclusion of two large loans in non-performing loans at March 31, 2004 that were resolved during 2004. Approximately \$2.0 million was received as payoff on a residential property development loan and a loan for a single-family dwelling for approximately \$1 million was foreclosed and the related property sold during 2004.

Deposits

Total deposits decreased approximately \$7.1 million to \$460.9 million at March 31, 2005 from \$468.0 million at December 31, 2004. This decrease was a result of a decrease in checking deposits of approximately \$17.8 million offset by an increase in certificates of deposits of approximately \$8.6 million. The decrease in checking deposits is due to a decrease in public funds.

Regulatory Capital

We are subject to regulatory capital requirements administered by the Federal Reserve, the Federal Deposit Insurance Corporation and the Comptroller of the Currency. Failure to meet the regulatory capital guidelines may result in the initiation by the Federal Reserve of appropriate supervisory or enforcement actions. As of March 31, 2005 and December 31, 2004, we met all capital adequacy requirements to which we are subject. Our ratios at March 31, 2005, were as follows:

Ratio	Actual	Minimum Required
Total capital to risk weighted assets	13.20%	8.00%
Core capital to risk weighted assets	12.08%	4.00%
Core capital to average assets	8.41%	4.00%

Liquidity

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

We continuously forecast and manage our liquidity in order to satisfy cash flow requirements of depositors and borrowers and allow us to meet our own cash flow needs. We have developed internal and external sources of liquidity to meet our continued growth needs. These include, but are not limited to, the ability to raise deposits through branch promotional campaigns, purchase brokered certificates of deposits, maturity of overnight funds, short term investment securities classified as available-for-sale and draws on credit facilities established through the Federal Home Loan Bank of Topeka.

Our most liquid assets are cash and cash equivalents and investment securities available-for-sale. The levels of these assets are dependent on our operating, financing, lending, and investing activities during any given period. At March 31, 2005, these assets, approximating \$213.3 million, consist of investment securities available-for-sale of \$196.2 million. Approximately \$162.5 million of these investment securities were pledged as collateral for borrowings, repurchase agreements and for public funds on deposit at March 31, 2005.

At March 31, 2005, there was approximately \$48.4 million borrowing capacity remaining under agreements with Federal Home Loan Bank of Topeka.

RESULTS OF OPERATIONS

Net Interest Income

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Net interest income from continuing operations before provision for loan losses for the three months ended March 31, 2005 totaled \$5.0 million compared to \$4.7 million for the same period in 2004.

Net interest margin from continuing operations, adjusted for the tax effect of tax exempt securities, as a percent of average earning assets from continuing operations was 3.59% for the three months ended March 31, 2005, compared to 3.43% during the three months ended March 31, 2004. The average rate of interest earning assets from continuing operations for the quarter ended March 31, 2005 increased 28 basis points to 5.90% from 5.62% for the quarter ended March 31, 2004. Offsetting the increase in the rate of interest earning assets was an increase in the average cost of interest bearing liabilities of 15 basis points to 2.57% during the three months ended March 31, 2005 from 2.42% during the three months ended March 31, 2004.

Interest earning assets of continuing operations

The average rate on interest earning assets was 5.90% for the three months ended March 31, 2005, representing an increase of 28 basis points from 5.62% for the same three months in 2004. Interest earning assets are comprised of

loans receivable, investment securities, interest-bearing deposits and investment in a non-consolidated wholly owned subsidiary that was formed for the purpose of issuing Trust Preferred Securities.

The average rate on loans receivable increased 11 basis points to 6.58% for the three months ended March 31, 2005, compared to 6.47% for the three months ended March 31, 2004. Additionally, loans receivables average balance increased approximately \$35.1 million during the three months ended March 31, 2005 compared to the same three months in 2004 contributing to the increase in interest income from loans receivable of \$661,000, or 11.9%.

The average rate on investment securities adjusted for the tax effect of tax exempt securities increased to 4.78% for the three months ended March 31, 2005, compared to 4.47% for the three months ended March 31, 2004. This increase in the yield was offset by a decrease in average balance of \$23.8 million during the quarter ended March 31, 2005 to \$195.4 million compared to average balance during the quarter ended March 31, 2004 of \$219.2 million.

Interest bearing liabilities of continuing operations

The average rate paid on interest-bearing liabilities increased 15 basis points to 2.57% for the three months ended March 31, 2005, compared to 2.42% for the same three months in 2004. Interest bearing liabilities are comprised of savings and interest bearing checking deposits, time deposits, federal funds purchased and securities sold under agreements to repurchase, Federal Home Loan Bank Advances and other borrowings, and on our subordinated debentures held by our subsidiary trust which issued the 9.50% Trust Preferred Securities.

The average rate paid on interest-bearing savings and interest-bearing checking deposits increased 24 basis points to 0.90% for the three months March 31, 2005, compared to .66% for the three months ended March 31, 2004. The average rate paid on time deposits increased 31 basis points to 2.64% during the first quarter of 2005 compared to 2.33% during the first quarter of 2004.

The effective interest rate on the subordinated debentures was 9.83% for the three months ended March 31, 2005 and 2004. The difference between the contractual interest rate of 9.50% and the effective interest rate is the amortization of debt issuance costs, which are being amortized over a 30-year period ending August 10, 2031.

Balance sheet management strategy

We initiated a long-term balance sheet management strategy starting in the fourth quarter of 2001 to increase the asset sensitivity of our balance sheet with the expectation of benefiting from increases in interest rates and to borrow long-term borrowings during the period of historically low interest rates.

Under this strategy we borrowed \$88.0 million in FHLB advances and purchased short-term mortgage backed investment securities. The Federal Home Loan Bank borrowings, which carry an average rate of 4.02% as of March 31, 2005, consisted of \$70.0 million in 10 year fixed rate advances convertible to floating rate advances if LIBOR increases to a range of 6.0% to 7.50% within the 10 years, \$10.0 million in 5 year

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

fixed rate advances convertible to floating rate advances if LIBOR increases to 7.50% within the 5 years, \$5.0 million in 10 year floating rate advances and \$3.0 million in fixed rate advances.

A decreasing interest rate environment may cause an unfavorable impact on our net interest income and net interest margin and an increasing interest rate environment may increase net interest income over the remaining borrowing period, but the magnitude of this impact cannot be estimated.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

The following tables present certain information relating to net interest income from continuing operations for the three months ended March 31, 2005 and 2004. The average rates are derived by dividing annualized interest income or expense by the average balance of assets and liabilities, respectively, for the periods shown.

The following table presents the components of changes in net interest income, on a tax equivalent basis, attributed to volume and rate. Changes in interest income or interest expense attributable to volume changes are calculated by multiplying the change in volume by the average interest rate during the prior year's first quarter. The changes in interest income or interest expense attributable to change in interest rates are calculated by multiplying the change in interest rate by the average volume during the prior year's first quarter. The changes in interest income or interest expense attributable to the combined impact of changes in volume and changes in interest rates are calculated by multiplying the change in rate by the change in volume.

Provision for Loan Losses

A provision for losses on loans is charged to earnings to bring the total allowance for loan losses to a level considered appropriate by management based on historical loss experience, the volume and type of lending conducted, the status of past due principal and interest payments, general economic conditions, particularly as such conditions relate to our market areas, and other factors related to the collectibility of our loan portfolio. After considering the above factors, management recorded a provision for loan losses on loans totaling \$145,000 for the three months ended March 31, 2005, and \$250,000 for the three months ended March 31, 2004. The decrease in the provision was a result of improved credit quality during the quarter ended March 31, 2005 compared to the same quarter of 2004.

Non-Interest Income from Continuing Operations

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

The following table summarizes non-interest income from continuing operations for the three months ended March 31, 2005 and 2004:

	Three Months Ended March 31,	
	2005	2004
	(In thousands)	
Service charges	\$ 904	\$ 830
Trust fees	187	151

Merchant processing fees	11	49
ATM and debit card fees	97	79
Bank owned life insurance income	208	215
Other	90	100
Total other income	\$ 1,835	\$ 1,960

Non-interest income from continuing operations for the three months ended March 31, 2005, was \$1.8 million, a decrease of \$200,000, or 10.0%, from \$2.0 million for the three months ended March 31, 2004. This decrease was primarily due to a \$128,000, or 37.3% decrease in gain on sales of mortgage loans to \$215,000 for the three months ended March 31, 2005 compared to \$343,000 for the three months ended March 31, 2004. The decrease in gain on sale of mortgage loans was the result of the decrease in the volume of loans originated and sold.

Non-Interest Expense from Continuing Operations

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

The following table presents non-interest expense from continuing operations for the three months ended March 31, 2005 and 2004:

	Three months ended March 31,	
	2005	2004
	(In thousands)	
Salaries and employee benefits	\$ 2,617	\$ 2,672

Marketing	61	60
Supplies	79	89
Intangible asset amortization	156	208
Other	822	867
Total other expenses	\$ 5,431	\$ 5,450

Non-interest expense from continuing operations approximated \$5.4 million for the three months ended March 31, 2005 and the three months ended March 31, 2004. See **Discontinued Operations** above for a description of non-interest expense from discontinued operations incurred during the three months ended March 31, 2004.

Income Tax Expense from Continuing Operations

Income tax expense from continuing operations was \$297,000 for the three months ended March 31, 2005, an increase of \$139,000 compared to an income tax expense of \$158,000 for the three months ended March 31, 2004. The effective tax rate for the three months ended March 31, 2005, was 23.0%, compared to 16.9% for the three months ended March 31, 2004. The effective tax rate is less than the statutory federal rate of 34.0% due primarily to municipal interest income and income from the investment in bank owned life insurance. The increase in the effective tax rate was due to the increase in the taxable income during the quarter ended March 31, 2005 compared to taxable income during the quarter ended March 31, 2004.

**Item 3: QUANTITATIVE AND QUALITATIVE
DISCLOSURES ABOUT MARKET RISK**

Asset and Liability Management

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Asset and liability management refers to management's efforts to minimize fluctuations in net interest income caused by interest rate changes. This is accomplished by managing the repricing of interest rate sensitive interest-bearing assets and interest-bearing liabilities. Controlling the maturity of repricing of an institution's liabilities and assets in order to minimize interest rate risk is commonly referred to as gap management.

The following table indicates that at March 31, 2005, if there had been a sudden and sustained increase in prevailing market interest rates, our 2005 interest income would be expected to increase, while a decrease in rates would indicate a decrease in interest income.

Change in interest rates	Net interest income	(Decrease) increase (Dollar in thousands)	% change
200 basis point rise	\$ 23,537	\$ 1,585	7.22%
100 basis point rise	22,745	793	3.61%
Base rate scenario	21,952		
100 basis point decline	20,194	(1,758)	(8.01)%
200 basis point decline	17,593	(4,359)	(19.86)%

Item 4: CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of March 31, 2005, management, including the Chief Executive Officer and Chief Financial Officer, performed an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) and Rule 15d-15(e) of the Securities Exchange Act of 1934. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in recording, processing, summarizing and reporting information required to be disclosed within the time periods specified in the Securities Exchange Commission's rules and forms.

Change in Internal Controls

No changes in our internal controls over financial reporting have occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II **OTHER INFORMATION**

Item 1. **LEGAL PROCEEDINGS**

We are from time to time involved in routine litigation incidental to the conduct of our business. We believe that no pending litigation to which we are a party will have a material adverse effect on our liquidity, financial condition, or results of operations.
