TCW Strategic Income Fund, Inc.

Notes to Schedule of Investments (Unaudited)

March 31, 2008

Note 1 Significant Accounting Policies:

TCW Strategic Income Fund, Inc. (the Fund) was incorporated in Maryland on January 13, 1987 as a diversified, closed-end investment management company and is registered under the Investment Company Act of 1940, as amended and is traded on the New York Stock Exchange under the symbol TSI. The Fund commenced operations on March 5, 1987. The Fund s investment objective is to seek a total return comprised of current income and capital appreciation by investing in convertible securities, marketable equity securities, investment-grade debt securities, high-yield debt securities, options, securities issued or guaranteed by the United States Government, its agencies and instrumentalities (U.S. Government Securities), repurchase agreements, mortgage related securities, asset-backed securities, money market securities and other securities without limit believed by the Fund s investment advisor to be consistent with the Fund s investment objective. TCW Investment Management Company (the Advisor) is the Investment Advisor to the Fund and is registered under the Investment Advisors Act of 1940.

Security Valuation: Securities traded on national exchanges are valued at the last reported sales price or the mean of the current bid and asked prices if there are no sales in the trading period. Other securities which are traded on the over-the-counter market are valued at the mean of the current bid and asked prices. Short-term debt securities with maturities of 60 days or less at the time of purchase are valued at amortized cost. Other short-term debt securities are valued on a mark-to-market basis until such time as they reach a remaining maturity of 60 days, where upon they will be valued at amortized value using their value of the 61st day prior to maturity.

The Fund values asset-backed securities and collateralized debt obligations securities with valuations provided by dealers who make markets in such securities. The Schedule of Investments includes investments with a value of \$24,337,457 or 11.9% of net assets whose values have been determined based on prices supplied by dealers in the absence of readily determinable values. These values may differ from the realizable values had a liquid market existed for these investments, and the differences could be material.

The Fund invests a portion of its assets in below-investment grade debt securities, including asset-backed securities and collateralized debt obligations. The value and related income of these securities is sensitive to changes in economic conditions, including delinquencies and/or defaults. Recent instability in the markets for fixed-income securities, particularly securities with sub-prime exposure, has resulted in increased volatility of market prices and periods of illiquidity that have adversely impacted the valuation of certain securities held by the Fund.

Securities for which market quotations are not readily available, including circumstances under which it is determined by the Advisor that sale or mean prices are not reflective of a security s market value, are valued at their fair value as determined in good faith under procedures established by and under the general supervision of the Company s Board of Directors. At March 31, 2008, one security was fair valued at \$760,200 or 0.4% of net assets.

The Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), effective January 1, 2008. In accordance with FAS 157, fair value is defined as the price that the Fund would receive upon selling an

investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. FAS 157 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments)

The following is a summary of the inputs used as of March 31, 2008 in valuing the Fund s investments:

Valuation Inputs	Investments in Securities
Level 1 - Quoted Prices	\$ 71,509,858
Level 2 - Other Significant Observable Inputs	172,661,961
Level 3 - Significant Unobservable Inputs	24,337,457
Total	\$ 268,509,276

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining value:

	Investments in Securities
Balance as of 12/31/2007	\$ 33,493,021
Accrued discounts/premiums	
Realized gain (loss)	(878,706)
Change in unrealized appreciation/(depreciation)	(8,087,174)
Pay ups	(189,684)
Net purchases (sales)	
Net transfers in and/or out of Level 3	
Balance, as of 3/31/08	\$ 24,337,457
Net change in unrealized appreciation/(depreciation) from	
investments still held as of 3/31/08	\$ (8,087,174)

Note 2 Federal Income Taxes:

It is the policy of the Fund to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and distribute all of its net taxable income, including any net realized gains on investments, to its shareholders. Therefore, no federal income tax provision is required.

At March 31, 2008, net unrealized appreciation for federal income tax purposes is comprised of the following components:

Appreciated securities	\$ 23,028,247
Depreciated securities	(59,656,312)
Net unrealized appreciation	(36,628,065)
Cost of securities for federal income tax purposes	\$ 305,137,341

Note 3 Security Lending:

During the period ended March 31, 2008 the Fund lent securities to brokers. The brokers provided collateral, which must be maintained at not less than 100% of the value of the loaned securities, to secure the obligation. At March 31, 2008, the cash collateral received from borrowing brokers was \$8,754,280, which was 102.37% of the value of loaned securities. The Fund receives income, net of broker fees, by investing the cash collateral in short-term investments.

Note 4 Restricted Securities:

The Fund is permitted to invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. There were no restricted securities (excluding 144A issues) at March 31, 2008. However, certain 144A securities were deemed illiquid as of March 31, 2008 and therefore were considered restricted. Aggregate cost and fair value of such securities held at March 31, 2008 were as follows:

			Value as a
			Percentage of
	Aggregate Cost	Aggregate Value	Fund s Net Assets
Strategic Income Fund	\$ 69,688,930	\$ 20,259,349	9.90%

Item 2. Controls and Procedures.

(a) The Chief Executive Officer and Chief Financial Officer have concluded that the registrant s disclosure controls and procedures (as defined in
Rule 30a-3(c) under the Investment Company Act of 1940) provided reasonable assurances that material information relating to the registrant is
