**Item 1.01**      **Entry into a Material Definitive Agreement.**

On September 2, 2010, American Lithium Minerals, Inc. (the Company) entered into a private placement investment transaction with 2245393 Ontario, Inc., a corporation existing under the laws of the Province of Ontario (Investor), whereby Investor will invest up to USD\$750,000 (the Transaction), such investment proceeds to be used by the Company for general corporate purposes.

In connection with the Transaction, on September 2, 2010, the Company (i) executed an Investment Agreement between the Company and Investor (the Investment Agreement), (ii) executed a Security Agreement between the Company and Investor (the Security Agreement), (iii) issued a Convertible Grid Promissory Note for the benefit of Investor (the Note), and (iv) issued Warrants to Purchase Common Shares of the Company for the benefit of Investor (the Warrants) and, collectively with the Investment Agreement, the Security Agreement and the Note, the Transaction Documents). A summary description of each of the Transaction Documents is set forth below.

*Investment Agreement*

The Investment Agreement provides that Investor will make a cash investment in the Company in the form of a secured convertible grid promissory note and warrants, totaling up to USD\$750,000 in the aggregate. On the initial closing date, Investor advanced to the Company USD\$500,000, representing a portion of the investment amount. Subject to the fulfillment by the Company of certain conditions contained within the Investment Agreement, no later than September 17, 2010, Investor will advance an additional USD\$250,000 to the Company as the remaining portion of the aggregate investment amount. The Investment Agreement contains customary representations, warranties and covenants, and the Company must undertake certain indemnification obligations under circumstances set forth therein.

*Convertible Grid Promissory Note*

The Note in the aggregate principal amount of USD\$750,000 is secured as described below under the heading Security Agreement. The Note is due and payable on August 31, 2015 and contains affirmative and negative covenants. The Note will bear interest at a rate of 4% per annum, with the first payment of interest due and payable on February 28, 2011. Subject to certain terms and conditions specified in the Note, at Investor's option, Investor may at any time prior to the fifth business day prior to the maturity date, elect to convert in whole or in part, the principal amount outstanding under the Note into common shares of the Company (the Common Stock) at a conversion price of USD\$0.54 per share. The Company may repay the Note in whole or in part with at least 30 days' prior written notice, subject to the aforementioned conversion right.

*Security Agreement*

The Security Agreement secures all of the Company's obligations under the Note, granting to Investor a first priority lien against substantially all of the Company's present and after acquired personal property assets including accounts, chattel paper, deposit accounts, documents, equipment, fixtures, general intangibles, pledged shares, instruments, including all promissory notes, intellectual property, inventory, investment property (including all securities, securities accounts and security entitlements), commodity accounts, letter of credit rights, commercial tort claims, as-extracted collateral, and the proceeds of any of the foregoing.
