See accompanying notes to unaudited condensed consolidated financial statements.

Table of Contents**BALLY TECHNOLOGIES, INC. AND SUBSIDIARIES****UNAUDITED CONDENSED CONSOLIDATED SUPPLEMENTAL CASH FLOW INFORMATION**

The following supplemental information is related to the unaudited condensed consolidated statements of cash flows:

	2010	Six Months Ended December 31, (in 000s)	2009
Cash paid for interest	\$	6,030	\$ 6,118
Cash paid for income taxes, net of refunds		22,673	11,960
Non-cash investing and financing transactions:			
Transfer of inventory to leased gaming equipment (1)	\$	43,897	\$ 21,019
Reclassify property, plant and equipment to inventory (1)		8,138	2,451
Acquisition of Bally trademark			7,500
Accrual of capital expenditures		939	393

(1) As a result of the inability to separately identify the cash flows associated with the construction of leased gaming equipment, the Company has included all additions to leased gaming equipment as an increase in inventories under cash used in operating activities in the consolidated statement of cash flows. In addition, cash generated from the sale of used gaming equipment classified as leased gaming equipment is also included in cash provided by operating activities in the consolidated statement of cash flows. The Company has one process to procure raw materials for the assembly of both inventory and leased gaming equipment. The materials requisition planning process considers the number of devices the Company expects to build for sale and for use in its gaming operations division during a particular period, but it does not separately earmark purchases for leased gaming equipment. Without such an earmarking process, the Company is unable to determine whether the parts used to construct leased gaming equipment during a particular period came from inventory on hand at the beginning of the period or was constructed from inventory procured during the period of deployment, thus requiring the expenditure of cash.

Table of Contents

BALLY TECHNOLOGIES, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Bally Technologies, Inc. (Bally or the Company), a Nevada corporation, is a diversified, worldwide gaming company that innovates, designs, manufactures, operates and distributes advanced technology-based gaming devices, systems and server-based solutions. As a global gaming-systems provider, the Company offers technology solutions which provide gaming operators with a wide range of marketing, data management and analysis, accounting, player tracking, security and other software applications and tools to more effectively manage their operations. The Company's primary hardware technologies include spinning-reel and video gaming devices, specialty gaming devices and wide-area progressive systems for traditional land-based, riverboat and Native American casinos, video lottery and central determination markets and specialized system-based hardware products. In addition to selling its gaming devices, the Company also offers its customers a wide range of rental options.

Principles of presentation and consolidation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC), include all adjustments necessary to fairly present the Company's consolidated financial position, results of operations and cash flows for each period presented. Certain information and note disclosures normally included in annual financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to those rules and regulations. The results of operations for an interim period are not necessarily indicative of the results that may be expected for any other interim period or the year as a whole. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2010. References to specific U.S. GAAP within this report cite topics within the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

All intercompany accounts and transactions have been eliminated in consolidation.

Discontinued Operations

The Company was the general partner of Rainbow Casino Vicksburg Partnership (RCVP), which operated the Rainbow Casino, a dockside riverboat casino in Vicksburg, Mississippi. On April 5, 2010, the Company entered into a definitive purchase agreement to sell the Rainbow Casino which closed on June 8, 2010. The Company's Casino Operations have been classified as discontinued operations in the accompanying financial statements. See Note 3 to unaudited condensed consolidated financial statements, *Discontinued Operations*.

Use of estimates

The preparation of the unaudited condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair value of financial instruments

The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. The carrying amounts reflected in the accompanying unaudited condensed consolidated balance sheets for cash equivalents, accounts and notes receivable, investment securities to fund jackpot liabilities, accounts payable, jackpot liabilities and long-term debt approximate their respective fair values.

All financial assets and liabilities are recognized or disclosed at fair value using a fair value hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. There are three levels of inputs that may be used to measure fair value:

- Level 1: quoted prices in active markets for identical assets or liabilities;

Table of Contents

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company's cash flow hedge related to a variable debt instrument is measured at fair value on a recurring basis, and its balance as of December 31, 2010 and June 30, 2010 (which is included in accrued and other liabilities in the unaudited condensed consolidated balance sheets) was as follows:

	Fair Value Measurements Using Input Type		
	Level 1	Level 2 (in 000s)	Level 3
As of December 31, 2010:			
Liability:			
Derivative financial instrument	\$	\$ 2,660	\$
As of June 30, 2010:			
Liability:			
Derivative financial instrument	\$	\$ 2,698	\$

The valuation techniques used to measure the fair value of the derivative financial instrument above in which the counterparties have high credit ratings, were derived from pricing models, such as discounted cash flow techniques, with all significant inputs derived from or corroborated by observable market data. The Company's discounted cash flow techniques use observable market inputs, such as LIBOR-based yield curves. See Note 5 to unaudited condensed consolidated financial statements, *Long-Term Debt*.

Accounting for Derivative Instruments and Hedging Activity

The Company assesses, both at the inception of each hedge and on an on-going basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. Such highly effective derivatives are granted hedge accounting treatment. The derivative financial instrument meets these requirements and is accounted for as a cash flow hedge.

The impact of the cash flow hedge on the consolidated financial statements is depicted below:

Fiscal 2011:

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

Derivative in Cash Flow Hedging Relationship	Amount of Loss Recognized in OCI on Derivative (Effective Portion)		Location of Loss Reclassified from Accumulated OCI into Income (Effective Portion) (in 000s)	Amount of Loss Reclassified from Accumulated OCI into Income (Effective Portion)

Table of Contents

Accounts and Notes Receivable, Allowance for Doubtful Accounts and Credit Quality of Financing Receivables

Accounts and notes receivable are stated at face value less an allowance for doubtful accounts. The Company generally grants customers credit terms for periods of 30 to 120 days, but it may also grant extended payment terms to some customers for periods up to three years, with interest at prevailing rates.

Trade receivables with contract terms greater than one year relate to the sale of gaming equipment and, to a lesser extent, systems transactions that include software as a major component of the sale, and are generally collateralized by the related equipment sold, although the value of such equipment, if repossessed, may be less than the receivable balance outstanding. Sales-type leasing arrangements relate to gaming equipment and include options to purchase the equipment at the end of the lease term at established prices. These customers typically have a long-standing credit history with the Company. Revenue from these lease arrangements is less than 1% of total revenue for the Company.

We perform a review of contracts with extended payment terms to determine if there is sufficient evidence to conclude that we have a history of collecting under the original payment terms. We have concluded that sufficient history exists to determine collectability is probable for contracts with extended payment terms because sufficient prior collection history and customer creditworthiness exists and the arrangement fee is fixed and determinable.

The Company has also provided development financing to certain customers in the form of notes receivable with repayment terms of three to ten years. These notes may also include accelerated payment terms based upon a percentage of net-win from gaming devices sold or leased to these customers. The Company monitors credit quality and impairment based upon a review of customer payment history and financial condition.

The Company evaluates the credit quality of its receivables and establishes an allowance for doubtful accounts based primarily upon collection history, based on a combination of factors including, but not limited to, customer collection experience, economic conditions, and the customer's financial condition. In addition to specific account identification, the Company utilizes historic collection experience for the most recent twelve month period, where applicable, to establish an allowance for doubtful accounts receivable. Receivables are written off only after the Company has exhausted all of its collection efforts.

The Company has one portfolio segment, the casino industry customer, and four classes of receivables including its trade receivables with a contract term less than one year, trade receivables with a contract term greater than one year, sales-type leasing arrangements, or lease receivables, and notes receivables, which are primarily for developmental financing loans. As of December 31, 2010, the Company's accounts and notes receivable and related allowances were as follows:

**Accounts and Notes Receivable
as of December 31, 2010**

The Company accrues interest, if applicable, on its receivables per the terms of the agreement. Interest is not accrued on delinquent accounts that the Company has determined and specifically identified as not collectible. The Company's recorded investment in receivables on nonaccrual status, excluding trade accounts receivable with a contract term less than one year, is as follows:

Receivables on Nonaccrual**as of December 31, 2010**

	Total
Trade receivables	\$ 1,704
Lease receivables	
Notes receivables	5,169
Total	\$ 6,873

Gaming is a highly regulated industry requiring customers to obtain a gaming operator's license and verify with the applicable regulatory agency that they have the financial resources to operate a gaming establishment. Many of the Company's customers, including new casinos that have opened in recent years, are owned by existing multi-property customers that have established a favorable payment history with the Company. Collection experience is the primary indicator management utilizes to monitor the credit quality of its receivables. The Company does not segregate its accounts and notes receivables by credit quality indicators. The Company monitors the credit quality of receivables based upon past due aging information and historic collection experience. Receivables are classified as past due if a scheduled payment is not received within terms. Past due accounts receivable are monitored closely to expedite payments and to record necessary allowances. The following summarizes

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

the aging of past due receivables, excluding trade accounts receivable with a contract term less than one year:

Age Analysis of Past Due Receivables

as of December 31, 2010

	1 to 90 Days Past Due	91 to 180 Days Past Due	181 + Days Past Due	Total Past Due	Current	Total Receivable	Recorded Investment 90 Days and Accruing

Table of Contents

The Company's notes receivable are reviewed quarterly, at a minimum, for impairment. The customer's solvency, collection experience, legal and regulatory environment and other financial information may indicate that the loan is impaired. As of December 31, 2010, the only Company loan that was impaired was to a customer in Alabama. In fiscal 2010, the legality of the charitable bingo market in Alabama was questioned and several operators in the region closed and the Company recognized an impairment charge on the notes receivable. No further interest is accrued once a loan is impaired. The Company's only impaired loan as of December 31, 2010 was as follows:

	Impaired Loans as of December 31, 2010				
	Recorded Investment	Unpaid Principal Balance	Related Allowance	Average Recorded Investment	Interest Income Recognized
With no related allowance recorded:					
Note Receivable	\$	\$	\$	\$	\$
With an allowance recorded:					
Note Receivable	\$ 5,169	\$ 5,000	\$ (5,169)	\$ 5,169	\$ 169

Inventories

Inventories are stated at the lower of cost, determined on a first in, first out basis, or market. Cost elements included in work-in-process and finished goods include raw materials, direct labor and manufacturing overhead. Inventories consist of the following:

	December 31, 2010		June 30, 2010	
	(in 000s)			
Raw materials	\$	39,786	\$	34,221
Work-in-process		1,047		1,101
Finished goods		10,049		7,484
Total	\$	50,882	\$	42,806

Revenue recognition

The Company derives its revenues from the following:

- *Gaming Equipment* Sale of gaming devices and related equipment, parts and conversion kits;
- *Gaming Operations* Operation of linked progressive systems, video lottery and centrally determined systems and the rental of gaming devices and content; and
- *Systems* Sale and support of specialized systems-based software and hardware products and related recurring hardware and software maintenance revenue.

Revenue is recognized when all of the following have been satisfied:

- Persuasive evidence of an arrangement exists;
- Delivery has occurred;
- The price or fee is fixed or determinable;
- Collectability is probable; and
- No significant contractual obligations remain.

Games placed with customers on a trial basis are not recognized as revenue until the customer accepts the games and collectability is deemed probable. Amounts billed prior to completing the earnings process are deferred until revenue recognition criteria are met. Revenues are reported net of incentive rebates, discounts, sales taxes, and other taxes of a similar nature.

Gaming operations revenue consists of the operation of linked progressive systems and from gaming devices, software content and the related systems placed in casinos on a daily fee or rental basis. Revenue from these sources is recognized based on the contractual terms of the arrangement and is generally based on a share of money wagered, a share of the net winnings, or on a fixed daily rental rate basis. The daily fee entitles the customer to full use of the gaming device and includes rental and maintenance of the gaming device, licensing of the game content and connection to a linked progressive system, where applicable. In certain markets, the Company also charges a daily system connection fee for the customer to connect to our central determination systems and/or back-office system. The Company does not consider these arrangements to have multiple revenue-generating activities as the services offered are a comprehensive solution in exchange for a daily fee and all of the products and services are delivered contemporaneously.

Table of Contents

Gaming equipment and systems revenue is generated from the sale of gaming devices and licenses of software, conversion kits, systems-based hardware, services, and the licensing of computerized monitoring systems and related software maintenance fees. Revenue from the sale of gaming devices is recognized after customer acceptance occurs and all other revenue recognition criteria are met. The Company licenses its software on a perpetual basis or under time-based licenses. Revenue from perpetual license software is recognized at the inception of the license term if all revenue recognition criteria have been met. The Company's time-based licenses are generally for twelve month periods, and are bundled with software maintenance and product support fees. Revenue from term license software is recognized on a subscription basis over the term of the license. Software maintenance provides customers with rights to unspecified software product upgrades, maintenance and patches released during the term of the support period. Software maintenance is recognized on a straight-line basis over the term of the support period. The majority of the Company's customers purchase both software and hardware maintenance and product support when they license software. In addition, substantially all customers renew these maintenance agreements annually.

The probability of collection for gaming equipment sold under extended payment term arrangements is evaluated based on historic collection history for such arrangements, resulting in the recognition of revenue when all other revenue recognition criteria have been satisfied.

The Company sells or licenses its products and services individually or under arrangements in which there are multiple elements, such as a combination of gaming devices, system-based hardware, software license fees, maintenance and product support fees and professional services.

Revenue arrangements with multiple deliverables are allocated and recognized based on separate units of accounting if the deliverables meet both of the following criteria:

- The delivered items have value to the customer on a standalone basis. The item or items have value on a standalone basis if they are sold separately by any vendor or the customer could resell the delivered item(s) on a standalone basis; and
- If the arrangement includes a general right of return relative to the delivered items, delivery or performance of the undelivered items is considered probable and substantially in the control of the vendor.

Arrangement consideration is allocated, at the inception of the arrangement, to all deliverables based on their relative selling price (i.e., the relative selling price method). When applying the relative selling price method, a hierarchy is used for estimating the selling price based first on vendor-specific objective evidence (VSOE), then third-party evidence (TPE) and finally management's estimate of the selling price (ESP).

Revenue related to systems arrangements that contain both software and non-software deliverables require allocation of the arrangement fee to the separate deliverables using the relative selling price method. Revenue for software deliverables related to systems-based software continues to be recognized under the software revenue recognition guidance, while revenue for the non-software deliverables, such as gaming devices, which include software components that function together with the devices to deliver their essential functionality, and other hardware, are no longer accounted for under software revenue recognition guidance.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

In allocating the arrangement fees to separate deliverables in accordance with the relative selling price method, the Company used VSOE of selling price and ESP for gaming devices, maintenance and product support fees for perpetual licenses and professional services; VSOE and ESP for system-based hardware products; and ESP for software products and maintenance and product support fees on time-based licenses. ESP is determined based upon the Company's normal pricing and discounting practices. VSOE of selling price is measured based on the price for each deliverable when it is sold separately. VSOE of selling price for software maintenance and product support fees sold with perpetual licenses are measured by the contractual renewal rate offered to the customer.

Other recently adopted accounting pronouncements

In July 2010, the FASB issued new accounting guidance to address concerns about the credit quality of financing receivables and the related allowance for credit losses. The guidance is intended to provide additional information to assist financial statement users in assessing an entity's credit risk exposures and evaluating the adequacy of its allowance for credit losses. Disclosures will require information at disaggregated levels, including the nature of the credit risk and how it is analyzed in arriving at the allowance for credit losses, a roll-forward schedule of and reasons for changes in the allowance, credit quality indicators, and aging of past due accounts, the nature and extent of modifications, and significant purchase or sales. The Company adopted the new guidance as of December 31, 2010, except for the roll-forward schedule of changes in the allowance as the effective date for such information is for periods beginning after December 15, 2010, and certain disclosures about troubled debt restructurings which are not required until interim and annual periods after June 15, 2011.

Table of Contents*Recently issued accounting pronouncements not yet adopted*

In April 2010, the FASB issued new accounting guidance related to accruals for casino jackpot liabilities. Specifically, the guidance clarifies that an entity should not accrue jackpot liabilities, or portions thereof, before a jackpot is won if the entity can avoid paying the jackpot. Jackpots should be accrued and charged to revenue when an entity has the obligation to pay the jackpot. The guidance applies to both base and progressive jackpots. The new guidance is effective for fiscal years beginning on or after December 15, 2010. The new guidance will be applied by recording a cumulative-effect adjustment to opening retained earnings in the period of adoption. The Company expects to adopt the guidance in fiscal year 2012 and does not expect the guidance to have a significant impact on its consolidated results of operations, financial position and cash flows outside of the cumulative-effect adjustment to the opening retained earnings balance.

2. EARNINGS PER SHARE

Basic earnings per share are computed by dividing earnings by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share reflect the additional dilution from all potentially dilutive securities.

The computation of basic and diluted earnings per share applicable to the Company's common stock is as follows:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2010	2009	2010	2009
	(in 000s, except per share amounts)			
Amounts attributable to Bally Technologies, Inc.:				
Income from continuing operations, net of tax	\$ 27,252	\$ 32,044	\$ 49,444	\$ 61,201
Income from discontinued operations, net of tax		1,209		2,676
Loss on sale of discontinued operations, net of tax			(403)	
Net income	\$ 27,252	\$ 33,253	\$ 49,041	\$ 63,877
After tax interest expense on convertible debt				14
Diluted earnings	\$ 27,252	\$ 33,253	\$ 49,041	\$ 63,891
Weighted average common shares outstanding	53,291	54,518	53,485	54,393
Dilutive effect of:				
Stock options, Restricted Stock Units (RSU) and restricted stock	2,650	3,206	2,503	3,257
Warrants	2	26	2	24
Convertible debt (1)				44
Weighted average diluted shares outstanding	55,943	57,750	55,990	57,718
Basic earnings per share attributable to Bally Technologies, Inc.				
Income from continuing operations	\$ 0.51	\$ 0.59	\$ 0.93	\$ 1.12
Income from discontinued operations		0.02		0.05
Loss on sale of discontinued operations			(0.01)	
Basic earnings per share	\$ 0.51	\$ 0.61	\$ 0.92	\$ 1.17
Diluted earnings per share attributable to Bally Technologies, Inc.				
Income from continuing operations	\$ 0.49	\$ 0.56	\$ 0.89	\$ 1.06

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

Income from discontinued operations				0.02				0.05
Loss on sale of discontinued operations						(0.01)		
Diluted earnings per share	\$	0.49	\$	0.58	\$	0.88	\$	1.11

(1) The Company has certain related party debt outstanding which was convertible into common stock at the Company's discretion. The related party debt was paid in full in December 2009.

Certain securities were excluded from the diluted per share calculation because their inclusion would be anti-dilutive. Such securities consist of the following:

	Three Months Ended December 31,		(in 000s)	Six Months Ended December 31,	
	2010	2009		2010	2009
Stock options, RSU and restricted stock	644	394		654	323

Table of Contents**3. DISCONTINUED OPERATIONS**

The Company owned and operated the Rainbow Casino, a dockside riverboat casino in Vicksburg, Mississippi, which was sold on June 8, 2010.

The following table summarizes income from discontinued operations for the three and six months ended December 31, 2009:

	Three Months Ended December 31, 2009	Six Months Ended December 31, 2009
	(in 000s)	
Revenues:		
Casino operations	\$ 8,500	\$ 17,655
Costs and expenses:		
Direct cost of casino operations	3,624	7,489
Selling, general and administrative	1,831	3,582
Depreciation and amortization	954	1,945
	6,409	13,016
Operating income	2,091	4,639
Other income (expense):		
Interest income	2	5
Other, net	(13)	(25)
Income from discontinued operations before income taxes	2,080	4,619
Income tax expense	(650)	(1,440)
Income from discontinued operations	1,430	3,179
Less income attributable to noncontrolling interests	221	503
Income from discontinued operations attributable to Bally Technologies, Inc.	\$ 1,209	\$ 2,676

Per the terms of the sale agreement, the Company had certain post-closing adjustments during the six months ended December 31, 2010 which reduced its gain on the sale of the Rainbow Casino in fiscal 2010 by approximately \$0.4 million, net of income taxes.

Table of Contents**4. GOODWILL AND INTANGIBLE ASSETS**

Intangible assets consist of the following:

	Useful Life (Years)	December 31, 2010			June 30, 2010		
		Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
				(dollars in 000s)			
Computer software	3 - 9	\$ 35,953	\$ (30,322)	\$ 5,631	\$ 35,652	\$ (28,395)	\$ 7,257

Trademarks	5	2,203	(2,148)	55	2,203	(2,023)	180
Core technology	5 - 8	22,763	(12,226)	10,537	22,763	(10,346)	12,417
Contracts	10	14,591	(6,999)	7,592	10,836	(6,421)	4,415
Other intangibles	3 - 7	4,672	(1,001)	3,671	1,702	(999)	703
Total finite lived intangible assets		\$ 84,521	\$ (55,114)	\$ 29,407	\$ 76,780	\$ (50,232)	\$ 26,548
Trademark	indefinite	7,500		7,500	7,500		7,500
Total		\$ 92,021	\$ (55,114)	\$ 36,907	\$ 84,280	\$ (50,232)	\$ 34,048

In September 2009, the Company recorded an intangible asset of approximately \$7.5 million related to one-time consideration given for a perpetual, world-wide license for the use of the Bally trademark in connection with the Company's business. Consideration for this intangible asset included approximately \$5.0 million related to the delivery of gaming devices and \$2.5 million in forgiveness of certain customer receivable balances. Previously, a royalty fee was paid and expensed based upon the number of units produced and sold using the trademark.

Total amortization expense related to finite lived intangible assets was \$2.5 million for both the three months ended December 31, 2010 and 2009, which included computer software amortization expense of \$0.9 million and \$1.1 million for the three months ended December 31, 2010 and 2009, respectively. Total amortization expense related to finite lived intangible assets was \$5.1 million and \$5.0 million for the six months ended December 31, 2010 and 2009, respectively, which included computer software amortization expense of \$2.0 million and \$2.3 million for the six months ended December 31, 2010 and 2009, respectively. Future amortization of finite lived intangible assets is scheduled as follows:

Year Ended June 30,	(in 000s)
2010 (remaining six months of fiscal year)	\$ 6,234
2011	9,515
2012	8,378
2013	2,649
2014	646
Thereafter	1,985
Total	\$ 29,407

All goodwill is associated with continuing operations. The changes in the carrying amount of goodwill for the six months ended December 31, 2010, are as follows:

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

(in 000s)

Balance at June 30, 2010	\$	161,153
Foreign currency translation adjustment		458
Balance at December 31, 2010	\$	161,611

Table of Contents

No impairment charges for goodwill and intangible assets were necessary for the three and six months ended December 31, 2010 and 2009.

5. LONG-TERM DEBT

Long-term debt consists of the following:

	December 31, 2010	(in 000s)	June 30, 2010
Revolving credit facility	\$ 19,880		\$
Term loan facility	153,750		173,750
Other, generally unsecured	154		43
Long-term debt	173,784		173,793
Less current maturities	(45,154)		(42,543)
Long-term debt, net of current maturities	\$ 128,630		\$ 131,250

The Company has a \$225.0 million term loan and a \$150.0 million revolving credit facility, of which \$75.0 million matures in September 2012 and \$75.0 million matures in March 2014 (collectively, the Credit Facility).

In August 2010, the Company amended its Credit Facility twice to allow the Company to borrow in certain foreign currencies and to reduce the fixed charge coverage ratio from 2.00 to 1.25. The Company paid approximately \$0.2 million in fees and expense related to one of these amendments.

During the six months ended December 31, 2010, we borrowed \$19.9 million (EURO converted into U.S. dollars) under the revolving credit facility. As of December 31, 2010, there was approximately \$130.1 million of undrawn availability under the revolving credit facility. Availability under the revolving credit facility is reduced to the extent of borrowings, net of repayments, and outstanding letters of credit.

The interest rate on the Credit Facility is subject to a leverage-based pricing grid. If the leverage ratio, as defined under the Credit Facility, is greater than 2.5, the interest rate will be LIBOR plus a margin of 3.25%; if the leverage ratio is between 2.0 and 2.5, the interest rate will be LIBOR plus a margin of 3.00%; if the leverage ratio is between 1.5 and 2.0, the interest rate will be LIBOR plus a margin of 2.75%; if the leverage ratio is between 1.0 and 1.5, the interest rate will be LIBOR plus a margin of 2.50%; and if the leverage ratio is below 1.0, the interest rate will be LIBOR plus a margin of 2.25%. As of December 31 and June 30, 2010, the Company's leverage ratio was below 1.0.

The term loan required quarterly principal reductions of \$8.75 million through September 30, 2010 and of \$11.25 million thereafter through September 2012, with an additional balloon payment due at maturity in September 2012. The Credit Facility is collateralized by substantially all of the Company's domestic property and is guaranteed by each of the Company's domestic subsidiaries, excluding any noncontrolling interests, and is secured by a pledge agreement.

The fair value of long-term debt is estimated by discounting expected cash flows using current interest rates at which similar loans would be made to borrowers with similar credit ratings and remaining maturities. As of December 31, 2010 and June 30, 2010, the fair value of long-term debt approximated the carrying value.

The Credit Facility contains a number of covenants that, among other things, restrict the ability of the Company and certain of its subsidiaries to dispose of assets, incur additional indebtedness or issue preferred stock, pay dividends or make other distributions, enter into certain acquisitions, repurchase equity interests or subordinated indebtedness, issue or sell equity interests of the Company's subsidiaries, engage in mergers or acquisitions or certain transactions with subsidiaries and affiliates, and that otherwise restrict corporate activities.

The financial covenants under the Credit Facility consist of a leverage ratio and a fixed charges coverage ratio. The leverage ratio is computed as total debt outstanding at the end of the quarter divided by the trailing twelve months Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA), excluding certain cash and non-cash charges. The fixed charges coverage ratio is computed as EBITDA, adjusted for both the trailing twelve months capital expenditures and cash taxes paid, divided by the trailing twelve months interest charges plus all payments of principal made during the previous twelve months.

A breach of any of the covenants or the inability to comply with the required financial ratios could result in a default under the Credit Facility. In the event of any such default, the lenders could elect to declare all borrowings outstanding under the Credit Facility, together with any accrued interest and other fees, to be due and payable. If the Company were unable to repay the indebtedness upon its acceleration, the lenders could proceed against the underlying collateral. The Company was in compliance with all of the Credit Facility covenants as of December 31, 2010.

Table of Contents*Interest Rate Swap Agreement*

In December 2008, the Company entered into a floating-to-fixed interest rate swap agreement with an original notional value of \$218.8 million and a maturity date of September 26, 2012. This interest rate swap serves to fix the floating LIBOR based debt under the term loan to fixed rate debt at an interest rate of 1.89% plus the applicable margin to manage the risk exposure to interest rate fluctuations.

The Company has documented and designated this interest rate swap as a cash flow hedge. Based on the assessment of effectiveness using statistical regression, the Company determined that the interest rate swap is effective. Effectiveness testing of the hedge relationship and measurement to quantify ineffectiveness is performed each fiscal quarter using the hypothetical derivative method. As the interest rate swap qualifies as a cash flow hedge, the Company adjusts the cash flow hedge on a quarterly basis to its fair value with a corresponding offset to accumulated OCI. The interest rate swap has been and is expected to remain highly effective for the life of the hedge. Effective amounts are reclassified to interest expense as the related hedged expense is incurred. Any ineffectiveness is reclassified from accumulated other comprehensive income to other income (expense). As of December 31, 2010, the Company had no ineffectiveness on its cash flow hedge. Amounts related to the swap expected to be reclassified from other comprehensive income to interest expense in the next twelve months total \$2.0 million.

Additional information on the Company's interest rate swap is as follows:

Interest Rate Swaps	Balance Sheet Location	Fair Value (in 000s)	Location of Offsetting Balance
Cash flow hedge \$153.8 million LIBOR based debt	Accrued and other liabilities	\$ 2,660	Accumulated other comprehensive income (loss)

6. SHARE-BASED COMPENSATION*Employee Stock Purchase Plan*

The 2008 Employee Stock Purchase Plan (the 2008 ESPP Plan) provides that eligible employees are able to contribute up to 10% of their eligible earnings towards the quarterly purchase of the Company's common stock. The employee's purchase price is equal to 85% of the fair market value. During the six months ended December 31, 2010 and 2009, employees purchased 32,470 shares and 24,935 shares of common stock for approximately \$1.0 million and \$0.9 million, respectively, under the 2008 ESPP Plan.

Share-Based Award Plans

Stock option activity as of and for the six months ended December 31, 2010 is summarized below:

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

	Shares (in 000s)	Exercise Price (per share)	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (in 000s)
Balance outstanding as of June 30, 2010	5,061	\$ 21.14		\$ 61,186
Granted	143	32.42		
Exercised	(176)	17.77		
Forfeited or expired	(41)	33.04		
Balance outstanding as of December 31, 2010	4,987	\$ 21.48	4.12	\$ 103,639
Exercisable as of December 31, 2010	4,123	\$ 19.07	3.83	\$ 95,537

Table of Contents

Restricted stock and RSU activity as of and for the six months ended December 31, 2010 is summarized below:

	Restricted Stock (in 000s)	Weighted Average Grant Date Fair Value (per share)	RSUs (in 000s)	Weighted Average Grant Date Fair Value (per share)
Balance outstanding as of June 30, 2010	329	\$ 35.66	642	\$ 18.27
Granted	14	31.18	97	41.07
Released	(60)	30.10	(67)	23.04
Forfeited or expired	(19)	37.00		
Balance outstanding as of December 31, 2010	264	\$ 36.58	672	\$ 21.07
Vested as of December 31, 2010			534	\$ 16.04

Share-Based Compensation

The following table presents share-based compensation expense and related effect of the income tax benefit included in the Company's unaudited condensed consolidated statements of operations:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2010	2009	2010	2009
	(in 000s)			
Selling, general and administrative	\$ 2,475	\$ 2,820	\$ 4,882	\$ 5,410
Research and development costs	841	777	1,677	1,596
Cost of gaming equipment and systems and gaming operations	46	37	87	76
Share-based compensation expense before tax	3,362	3,634	6,646	7,082
Income tax benefit	1,177	1,272	2,326	2,479
Net share-based compensation expense	\$ 2,185	\$ 2,362	\$ 4,320	\$ 4,603

Share-based compensation expense from discontinued operations before income tax was \$49,000 for the six months ended December 31, 2009.

As of December 31, 2010, there was \$10.4 million of total unrecognized compensation expense related to the unvested portion of stock options which will be recognized over the subsequent 1.84 years. In addition, as of December 31, 2010, there was \$10.1 million of total unrecognized compensation expense related to the unvested portion of restricted stock and RSUs which will be recognized over the subsequent 1.48 years.

7. STOCKHOLDERS' EQUITY, WARRANTS AND RIGHTS*Warrants*

The Company previously issued 100,000 stock purchase warrants in connection with a prior acquisition. The strike price of the warrant is \$24.69 with a term of seven years. During the six months ended December 31, 2009, 36,710 stock purchase warrants were exercised for the first time and converted into 14,290 shares of the Company's common stock. The exercises were cashless and net shares were issued for the difference between the strike price of the warrant and the market value of the Company's common stock upon exercise. No stock purchase warrants were exercised during the six months ended December 31, 2010.

Share Repurchase Plan

The Company's Board of Directors have approved a variety of share repurchase plans under which, subject to price and market conditions, purchases of shares can be made from time to time in the open market or in privately negotiated transactions using available cash.

During the six months ended December 31, 2010 and 2009, the Company repurchased 1,146,185 shares and 793,869 shares of common stock for \$40.6 million and \$31.1 million, respectively, under the share repurchase plan. As of December 31, 2010, \$62.4 million was available to be repurchased under the share repurchase plan in future periods.

Table of Contents

Special Stock

The Company's Articles of Incorporation authorize the issuance of up to 10,000,000 shares of special stock ("Special Stock"). The Special Stock may be issued from time to time in one or more series, each having such designations, preferences and relative, participating, optional or other special rights, qualifications, limitations or restrictions as shall be stated and expressed in the resolution providing for the issuance of Special Stock or any series thereof adopted by the Board of Directors. Special Stock consists of non-voting stock where no holder of the Special Stock shall be entitled to vote at any meeting of stockholders or otherwise, except as may be specifically provided by law or as approved by the Board of Directors in certain limited circumstances at the time of the stock issuance.

To date, there have been four series of Special Stock authorized for issuance: the Initial Series, the Series B, the Series E and the Series F. In June 1996, the Company issued shares of Series E Special Stock to certain holders of the Company's 7 1/2% Convertible Subordinated Debentures (which were retired in 1996) who elected to receive such stock in lieu of receiving common stock. The holders of shares of Series E Special Stock have no voting rights except as required by law. A total of 115 shares of Series E Special Stock remain outstanding. No other shares of Special Stock remain outstanding.

8. INCOME TAXES

The provision for income taxes for interim periods is based on the current estimate of the annual effective tax rate expected to be applicable for the full fiscal year and the impact of discrete items, if any, and is adjusted as necessary for quarterly events. The effective income tax rate was approximately 19.5% and 33.7% for the three months ended December 31, 2010 and 2009, respectively, and 27.5% and 34.5% for the six months ended December 31, 2010 and 2009, respectively. The decrease in the effective income tax rate is primarily attributable to discrete items related to the IRS settlement discussed below, the reinstatement of the federal research and development tax credit and deferred tax expense on the repatriation of earnings from our India subsidiary.

The Internal Revenue Service ("IRS") commenced examination of the Company's United States federal income tax returns for 2003 through 2005 in the fourth quarter of 2006. Throughout the examination, the IRS has proposed, and management has agreed to, certain adjustments related to the open tax years that have been recorded in the income tax provision. In January 2009, the IRS completed its field examination of the open tax years and issued a Revenue Agent's Report. Also in January 2009, the Company paid \$3.4 million in tax and \$1.2 million in interest to the IRS to settle certain agreed adjustments. The Company filed a formal protest regarding certain unagreed adjustments and the case was assigned to the IRS Las Vegas Appeals Office in July 2009. In June 2010, the Company agreed to settle all remaining issues with the IRS. Formal closure of the case occurred in October 2010 and the Company has received a refund from the IRS of \$2.3 million, including \$0.6 million in interest.

In the current quarter, the Company was notified by the IRS that they will be examining the United States federal income tax returns for 2007 through 2009.

Changes to the balance of uncertain tax positions are as follows:

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

	December 31, 2010	
Balance, beginning of year	\$	11,637
Additions based on tax provisions related to current year		463
Additions for tax positions of prior years		2,517
Reductions for tax positions of prior years		(6,584)
Settlements		
Lapse of statute of limitations		(484)
Foreign currency translation adjustment		25
Balance, December 31, 2010	\$	7,574

As of December 31, 2010, the Company has \$7.6 million related to uncertain tax positions, excluding related accrued interest and penalties, \$7.5 million of which, if recognized, would impact the effective tax rate. As of December 31, 2010, the Company has \$1.1 million accrued for the payment of interest and penalties.

The Company does not believe total uncertain tax positions will change significantly during the next twelve months.

The Company files numerous consolidated and separate income tax returns in the United States and various state and foreign jurisdictions. With few exceptions, the Company is no longer subject to United States federal income tax examinations for years before fiscal 2006 and is no longer subject to state and local, or foreign income tax examinations for years before 2003.

Table of Contents

9. COMMITMENTS AND CONTINGENCIES

Litigation

Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties, or other sources are recorded when it is probable that a liability has been incurred and the amount of the liability can be reasonably estimated. The Company has not recorded any loss accruals for these contingencies unless otherwise noted below.

On October 16, 2010, WMS Gaming Inc. ("WMS") filed a patent infringement lawsuit against the Company in the United States District Court for the District of Northern Illinois. The complaint asserts that several of the Company's products using iReel displays, including Cash Spin, Dragon Dynasty, Twin Tigers, and Sky Spirits, infringe two WMS patents, and seeks injunctive relief and unspecified damages. As part of its response, the Company has asserted counterclaims against WMS's Lord of the Rings and Star Trek games, for violation of the Company's patents. The Company is seeking damages and other relief against WMS, including claims that the WMS patents are invalid, unenforceable, and not infringed. It is anticipated trial will be set for early 2012.

In April 2006, IGT filed a patent infringement lawsuit against the Company in the United States District Court for the District of Delaware. The complaint asserted that the Company's Bally Power Bonusing products infringe patents held by IGT, and sought injunctive relief and damages in unspecified amounts. Of the nine patents and 200 claims originally filed in the case by IGT, all but three patents and eight claims were dismissed. On April 28, 2009, the District Court issued an order finding that the Company's Power Promotions, Power Bank, and SDS/CMP Power Winners products do not infringe IGT's patents. The court also found that the Company's ACSC Power Winners and ACSC Power Reward products infringe some patent claims asserted by IGT, but not others. Appeals by both parties have been filed. In the meantime, the Company has undertaken technical changes to ensure non-infringement for the two products partially in question. The Company does not believe that potential infringement damages, if any, would be material to its financial position as the revenues from these two products to date have not been material.

On December 7, 2004, International Game Technology ("IGT") filed a patent infringement lawsuit against the Company in the United States District Court for the District of Nevada. The complaint asserted that the Company's wheel-based games, such as Monte Carlo Lucky Wheel and Cash For Life, its games with a reel in the top box, such as Bonus Frenzy, and its iVIEW products infringed on patents held by IGT, and sought injunctive relief and damages in unspecified amounts. As part of the defense, the Company asserted counterclaims seeking damages and other relief against IGT, including claims that IGT's patents were invalid, unenforceable and not infringed, as well as several claims that IGT engaged in anti-competitive conduct in violation of state and federal antitrust laws. In October 2008, the court granted the Company's motions for summary judgment, ruling that IGT's two wheel patents and a touch-screen player-tracking patent were invalid; that even if the patents were valid, the Company's wheel-based games at issue would not infringe; and that certain of its iVIEW products do not infringe the two asserted player-tracking patents. The summary judgment determinations were upheld by the Federal Circuit Court of Appeals. The District Court then granted summary judgment in favor of IGT on the remaining portion of the case regarding IGT's alleged inequitable conduct before the U.S. Patent and Trademark and in favor of Bally on IGT's remaining claim that Bally infringed an IGT player tracking patent. Appeals of these summary judgment decisions have been filed.

The Company is also a party to various lawsuits relating to routine matters incidental to its business. Management does not believe that the outcome of such litigation, including the matters discussed above, in the aggregate, will have a material adverse effect on its consolidated financial position, results of operations or cash flows.

10. SEGMENT AND GEOGRAPHICAL INFORMATION

The Company's revenue consists of three sources: Gaming Equipment, which includes the sale of gaming devices and related equipment, parts and conversion kits; Gaming Operations, which includes the operation of wide-area progressive, video lottery and centrally determined systems and the rental of gaming devices and content; and Systems, which includes the sale and support of computerized monitoring systems and related recurring hardware and software maintenance revenue.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

Table of Contents

The following is a summary of revenues and gross margin:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2010	2009	2010	2009
(in 000s)				
Revenues:				
Gaming Equipment and Systems				
Gaming Equipment	\$ 59,135	\$ 78,791	\$ 110,173	\$ 140,794
Gaming Operations	77,087	68,578	156,307	139,887
Systems	46,504	57,604	87,054	111,622

Total operating income	\$ 35,715	\$ 52,281	\$ 69,719	\$ 100,648

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We begin this section with a summary of our key operating business divisions and our results as of and for the three and six month periods ended December 31, 2010. The overview is followed by a detailed analysis of our results of operations and our financial condition and liquidity as of and for the three and six months ended December 31, 2010 and 2009. References to we, our, us, or the Company refer to Bally

Technologies, Inc. and its subsidiaries.

Forward Looking Statements

Certain statements made or incorporated by reference in this Quarterly Report on Form 10-Q, in our other filings with the Securities and Exchange Commission (SEC), in our press releases and in statements made by or with the approval of authorized personnel constitute forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act) and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), and are subject to the safe harbor created thereby. Forward looking statements reflect intent, belief or current expectations with respect to, among other things, future events and financial trends affecting us. Forward looking statements are typically identified by words such as believes, estimates, expects, anticipates, plans, should, would and expressions.

Table of Contents

Although we believe the expectations reflected in any forward looking statements are reasonable, readers are cautioned that forward looking statements involve known and unknown risks and uncertainties, are not guarantees of future performance and that actual results, performance or achievements may differ materially from any future results, performance or achievements expressed or implied by such forward looking statements. These differences can arise as a result of the risks described in Item 1A, Risk Factors included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2010 (the 2010 10-K), as well as other factors such as the impact of competition, the impact of any prolonged downturn in the economy or the financial markets, our ability to service debt, product development, foreign operations, dependence on key personnel, the ability to integrate future acquisitions, regulation by gaming authorities, the outcome of pending litigation matters, gaming taxes, market risks and the potential adverse effects to our financial condition, results of operations or prospects.

Forward looking statements in this Quarterly Report on Form 10-Q speak only as of the date hereof, and forward looking statements in documents incorporated by reference speak only as of the date of those documents. Unless otherwise required by law, we undertake no obligation to publicly update or revise these forward looking statements, whether as a result of new information, future events or otherwise. In light of these risks and uncertainties, we cannot assure you that the forward looking statements contained in this Quarterly Report on Form 10-Q will, in fact, transpire.

Business Overview

We are a diversified, worldwide gaming company that innovates, designs, manufactures, operates and distributes advanced technology-based gaming devices, systems and server-based solutions. As a global gaming-systems provider, we offer technology solutions which provide gaming operators with a wide range of marketing, data management and analysis, accounting, player tracking, security and other software applications and tools to more effectively manage their operations. Our primary hardware technologies include spinning-reel and video gaming devices, specialty gaming devices and wide-area progressive systems for traditional land-based, riverboat and Native American casinos, video lottery and central determination markets and specialized system-based hardware products.

We previously owned and operated the Rainbow Casino, a dockside riverboat casino in Vicksburg, Mississippi. On April 5, 2010, we entered into a definitive purchase agreement to sell the Rainbow Casino. The sale closed on June 8, 2010. As a result of the sale, our Casino Operations were classified as discontinued operations in the accompanying financial statements. See Note 3 to the unaudited condensed consolidated financial statements, *Discontinued Operations*.

We derive our revenue from the following:

- *Gaming Equipment* Sale of gaming devices and related equipment, parts and conversion kits;
- *Gaming Operations* Operation of linked progressive systems, video lottery and centrally determined systems and the rental of gaming devices and content; and
- *Systems* Sale and support of specialized systems-based software and hardware products and related recurring hardware and software maintenance revenue.

We review certain financial measures in assessing our financial condition and operating performance not only in connection with creating our forecasts and in making comparisons to financial results from prior periods, but also in making comparisons to our competitors' financial results and our internal plans. We focus on fluctuations in revenue, cost and gross margin and also pay close attention to changes in our consolidated operating income, net income, diluted earnings per share, adjusted EBITDA (earnings before interest, taxes, depreciation and amortization,

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

including asset charges and share-based compensation), cash flows from operations and free cash flow (cash flows from operating activities less capital expenditures) as they are key indicators of our success. We also measure changes in selling, general and administrative (SG&A) expenses as a percent of revenue, which indicate management's ability to control costs, as well as changes in research and development (R&D) costs as a percent of revenue, which demonstrate investment in technology and product development. The measures listed above are not a comprehensive list of all factors considered by us in assessing our financial condition and operating performance, and we may consider other individual measures as required by trends and discrete events arising in a specific period, but they are the key indicators.

We are currently operating in a challenging economic environment. The combination of economic uncertainty, lower demand for replacement products and reduced opportunities from new or expanded markets has negatively impacted our consolidated results. The gaming sector was and continues to be negatively impacted by lower consumer spending and limited resources available to fund capital projects. As a result of the challenging economic environment, we have provided select customers a greater amount of payment terms for periods up to one year, and in some cases for periods up to three years. We expect to continue to extended credit for these longer periods during fiscal year 2011.

Table of Contents

Our operating results for the six months ended December 31, 2010 reflect the continued tough economic conditions currently facing the gaming industry, which has resulted in a prolonged slow domestic replacement cycle, combined with lower system revenues resulting from the timing of implementations and longer than expected customer decision making cycles. The Company expects systems revenues to increase in the second half of fiscal 2011.

Game sales revenues were \$59.2 million and \$78.8 million for the three months ended December 31, 2010 and 2009, respectively, and \$110.2 million and \$140.8 million for the six months ended December 31, 2010 and 2009, respectively. The decrease in revenue reflects the lower number of new casino openings and expansions in fiscal 2011 combined with a slow domestic replacement cycle. During the three months ended December 31, 2010 and 2009, we sold 2,305 and 3,342 new gaming devices in the United States and Canada, respectively, of which 1,800 and 2,253 were replacement units, respectively. During the six months ended December 31, 2010 and 2009, we sold 4,305 and 5,760 new gaming devices in the United States and Canada, respectively, of which 3,563 and 4,482 were replacement units, respectively. The domestic replacement cycle for gaming machines continues to be slow, but we are cautiously optimistic that gaming operators' gaming machine spending will begin to improve in late calendar 2011. In calendar 2010, we released our new Pro Series cabinets with ALPHA 2 technology which are state of the art for the industry with regards to ergonomics, processing power, display technology, input device, operating system, sound and serviceability. This new platform allowed us to develop new, more compelling games and also facilitates our game download solution for customers. The majority of our Pro Series cabinets features our latest innovation, iDeck, an LCD (liquid crystal display) touch screen that replaces the traditional button panel and OLEDs (Organic light-emitting diodes). iDeck is the first of its kind multi-touch fully programmable and downloadable button panel which offers opportunity to add more interaction to the game-play experience with mystery bonus events, virtual shooting galleries and skill-based bonus games.

Systems revenues were \$46.4 million and \$57.6 million for the three months ended December 31, 2010 and 2009, respectively, and \$87.0 million and \$111.6 million for the six months ended December 31, 2010 and 2009, respectively. Systems revenues were negatively impacted by the timing of certain customer decisions regarding system purchases which has impacted the closing of deals and implementation timelines during early fiscal 2011. Maintenance revenue increased 9% and 13% in the three and six months ended December 31, 2010 and 2009, respectively, when compared to the comparable prior year periods as a result of an increasing install base of customers utilizing our systems.

Despite the prolonged, challenging economic conditions and the absence of revenue from the charitable bingo market in Alabama, gaming operations revenues continued to increase at \$77.1 million from \$68.6 million during the three months ended December 31, 2010 and 2009, respectively, and \$156.3 million from \$139.9 million in the six months ended December 31, 2010 and 2009, respectively. Gaming Operations revenues were stronger period over period due primarily to the continued performance of existing and new premium game titles which increased rental, participation and license revenue. Fiscal 2011 results benefitted from our growing product offerings and innovations, such as U-Spin, our first in a series of play mechanics utilizing gesture control, and the continued success of our Cash Spin game, Digital Tower Series platforms and Hot Shot family of games. We have also introduced the first dual wheel game with our Vegas Hits product in addition to the release of Cash Wizard, our first Alpha 2 premium game with a spinning wheel bonus. In the third quarter of fiscal 2011, we plan to release our first Hammer Head products to our wide-area progressive game lineup and will also introduce a follow-up to Cash Spin called Hot Pick where the player can choose the symbol and thereby the frequency of the wheel feature. In April, we plan to introduce our Betty Boop Love Meter wide-area progressive game. We continue to focus our efforts on the introduction of new and innovative games and cabinets both for our spinning-reel and video platforms.

International revenues were \$33.9 million and \$39.8 million for the three months ended December 31, 2010 and 2009, respectively, and \$59.0 million and \$75.3 million for the six months ended December 31, 2010 and 2009, respectively. International revenues decreased in the three months ended December 31, 2010, when compared to the same period last year, due primarily to a decrease in sales at multiple new properties that opened in fiscal 2010 in Macau. International revenues decreased in the six months ended December 31, 2010, when compared to the same period last year, due primarily to decreases in sales at multiple new properties that opened in fiscal 2010 in Macau, as well as a decrease in sales in Europe and Mexico. These decreases in revenue were offset by increases in South America during the same periods. We continue to focus on international expansion opportunities and expect to obtain regulatory approval to begin selling our games in Australia in the third quarter of fiscal 2011. In addition, we are testing with the Italian regulatory authorities and are hopeful that we will be approved in the fourth quarter of

fiscal 2011.

Several potential gaming market developments have been fueled by the economic downturn that we believe will benefit us in the long term. Domestically, we are focused on planned new jurisdictional opportunities in Ohio, Illinois, Kansas, Iowa, Maryland, Florida, New York and California, and the potential for new markets including Massachusetts, Maine, Texas and North Carolina. The breadth and timing of such opportunities remains uncertain due to the legislative process in these jurisdictions, as well as the difficult credit environment facing certain of our customers and the risk of the gaming industry impact of continued economic uncertainty. We are also engaged in expanding our position in Mexico as it moves to Class III gaming and, in the future, we also expect to expand our presence in the new Italian VLT market, Australia and potentially Eastern Europe, Africa and Greece. Further, as we continue to grow and gain market share in Asia, opportunities are anticipated to arise in that region which would enable us to further expand internationally.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

Table of Contents

Net cash provided by operating activities from continuing operations was \$29.0 million and \$44.9 million for the six months ended December 31, 2010 and 2009, respectively. Cash flows provided by operating activities from continuing operations in the current period were negatively impacted primarily by a reduction in net income, when compared to the same period last year.

In the six months ended December 31, 2010, we made payments on our term loan of \$20.0 million, loaned \$9.9 million under a financing arrangement with a new customer in Italy, borrowed \$19.9 million under our revolving line of credit, and purchased 1.1 million shares of our common stock for \$40.6 million under our share repurchase plan.

Current and long-term accounts and notes receivable increased \$2.7 million and \$8.3 million, respectively, during the six months ended December 31, 2010. Long-term accounts and notes receivable increased due primarily to an increase in loans to finance gaming opportunities to a customer in Italy during the current period. In addition, our days sales outstanding (DSO s) increased to 115 days from 99 days at June 30, 2010 due primarily to an increase in extended payment terms over the last twelve months coupled with a decrease in revenue during the same period.

Management continuously monitors and reviews its SG&A expenses in comparison to revenues. SG&A expenses increased to \$55.2 million and \$106.8 million during the three and six months ended December 31, 2010 from \$53.7 million and \$98.9 million, respectively, in the same periods last year. SG&A expenses increased as a percentage of revenue at 30% during both the three and six months ended December 31, 2010, when compared to 26% and 25% during the three and six months ended December 31, 2009, respectively. The increase in SG&A expense as a percentage of revenue during fiscal 2011, when compared to fiscal 2010, was partially due to the decrease in revenue during the same period given the majority of the Company s SG&A expenditures are fixed. For the three and six months ended December 31, 2010, when compared to the same periods last year, SG&A expenditures increased primarily for advertising and promotions, legal fees, and travel and entertainment, which were offset by decreases in outside services and temporary labor during the same periods. The increase in SG&A expenditures for legal fees and travel and entertainment reflect our investment in potential new markets.

Results of Operations

The summary financial results and operating statistics are as follows:

	Three Months Ended December 31,				Six Months Ended December 31,			
	2010	%	2009	%	2010	%	2009	%
	(dollars in millions)							
Revenues:								
Gaming Equipment	\$ 59.2	33%	\$ 78.8	38%	\$ 110.2	31%	\$ 140.8	36%
Gaming Operations	77.1	42%	68.6	34%	156.3	44%	139.9	36%

Three Months Ended December 31, 2010 Compared to Three Months Ended December 31, 2009

Total revenues decreased \$22.3 million, or 11%, in the three months ended December 31, 2010, when compared to the same period last year, as a result of the following:

Gaming Equipment Revenue. Gaming Equipment revenue decreased \$19.6 million, or 25%, to approximately \$59.2 million primarily as a result of a 31% decrease in new gaming device sales to 3,468 units in the three months ended December 31, 2010, when compared to 4,997 units in the same period last year. New gaming device sales decreased due to a challenging economy and a continued sluggish North America replacement market and fewer new casino openings and expansions during this period as compared to the same period last year. ASP of new gaming devices increased 7% to \$15,244 in the three months ended December 31, 2010 when compared to \$14,289 in the same period last year primarily as a result of the mix of products sold including sales of the new Pro Series cabinets with Alpha 2 technology in the current quarter.

Gaming Equipment Gross Margin. Gaming Equipment gross margin decreased to 49% in the three months ended December 31, 2010 from 53% in the same period last year due primarily to increased costs for the initial production runs of our new Pro Series cabinets, which was offset by an increase in overall production volume.

Gaming Operations Revenue. Gaming Operations revenue increased \$8.5 million, or 12%, to approximately \$77.1 million in the three months ended December 31, 2010, when compared to the same period last year, primarily as a result of an increase in participation, rental and license revenue and the placements of higher yield premium products, including Cash Spin, the introduction of Vegas Hits, as well as the continued success of our Digital Tower Series and Hot Shot family of games, during the same period. The improvement in participation, rental and license revenue was primarily due to increases in our end of period installed base of games, that included a 7% increase in the installed games base of rental and daily fee games from 12,448 games as of December 31, 2009 to 13,352 games as of December 31, 2010.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

Gaming Operations Gross Margin. Gross margin increased to 71% in the three months ended December 31, 2010 from 70%, in the same period last year, primarily as a result of a decrease in depreciation expense by \$0.7 million with certain assets fully depreciating during the current period.

Systems Revenue. Systems revenue decreased \$11.2 million, or 19%, to approximately \$46.4 million in the three months ended December 31, 2010 when compared to the same period last year, due primarily to the timing of certain customer decisions regarding system purchases which has impacted the closing of deals and implementation timelines. In addition, there were two large system installations in Macau during the three months ended December 31, 2009. Maintenance revenue increased \$1.3 million in the three months ended December 31, 2010, when compared to the same period last year, as a result of the increased install base of customers utilizing our systems.

Systems Gross Margin. Systems gross margin was consistent at 72% in both the three months ended December 31, 2010 and 2009.

Table of Contents

Selling, General and Administrative Expenses. SG&A expenses increased \$1.5 million, or 3%, in the three months ended December 31, 2010, when compared to the same period last year, due primarily to increases in advertising and promotion and travel and entertainment expense. Advertising and promotion expense increased due primarily to trade show expenses and promotions for new products during the period. Travel and entertainment expense increased primarily due to sales and systems travel primarily for trade shows and the addition of new international locations.

Research and Development Costs. R&D costs increased \$1.8 million, or 9%, in the three months ended December 31, 2010, when compared to the same period last year, due primarily to an increase in employees and an increase in hardware development costs. The increased costs are attributable to our continued focus on our technology assets due to the competitive landscape that requires a continual investment in future generations of gaming products and systems.

Depreciation and Amortization Expense. Depreciation and amortization expense decreased slightly by \$0.1 million, or 2%, in the three months ended December 31, 2010, when compared to same period last year.

Six Months Ended December 31, 2010 Compared to Six Months Ended December 31, 2009

Total revenues decreased \$38.8 million, or 10%, in the six months ended December 31, 2010, when compared to the same period last year, as a result of the following:

Gaming Equipment Revenue. Gaming Equipment revenue decreased \$30.6 million, or 22%, to approximately \$110.2 million primarily as a result of a 30% decrease in new gaming device sales to 6,291 units in the six months ended December 31, 2010, when compared to 8,933 units in the same period last year, which was offset by an increase in ASP during the same period. New gaming device sales decreased due to a challenging economy and a continued sluggish North America replacement market and fewer new casino openings and expansions during this period as compared to the same period last year. Further, during the six months ended December 31, 2010, trade-in allowances and customer incentives increased \$1.5 million, when compared to the same period last year. ASP of new gaming devices increased 9% to \$15,442 in the six months ended December 31, 2010 when compared to \$14,213 in the same period last year primarily as a result of the mix of products sold including the sales of new Pro Series cabinets with Alpha 2 technology in the current fiscal year.

Gaming Equipment Gross Margin. Gaming Equipment gross margin decreased to 49% in the six months ended December 31, 2010 from 50% in the same period last year due primarily to increased costs for the initial production runs of our new Pro Series cabinets, which was offset by an increase in overall production volume.

Gaming Operations Revenue. Gaming Operations revenue increased \$16.4 million, or 12%, to approximately \$156.3 million in the six months ended December 31, 2010, when compared to the same period last year, primarily as a result of an increase in participation and rental revenue and the placements of higher yield premium products, including Cash Spin, the introduction of Vegas Hits, as well as the continued success of our Digital Tower Series and Hot Shot family of games, during the same period. The improvement in participation and rental revenue was primarily due to increases in our end of period installed base of games, that included a 7% increase in the installed games base of rental and daily fee games from 12,448 games as of December 31, 2009 to 13,352 games as of December 31, 2010.

Gaming Operations Gross Margin. Gross margin was consistent at 71% in both the six months ended December 31, 2010 and 2009.

Systems Revenue. Systems revenue decreased \$24.6 million, or 22%, to approximately \$87.0 million in the six months ended December 31, 2010 when compared to the same period last year, due primarily to the timing of certain customer decisions regarding system purchases which has impacted the closing of deals and implementation timelines. In addition, there were several large system installations in Macau during the six months ended December 31, 2009. Maintenance revenue increased \$3.7 million in the six months ended December 31, 2010, when compared to the same period last year, as a result of the increased install base of customers utilizing our systems.

Systems Gross Margin. Systems gross margin increased to 73% in the six months ended December 31, 2010 from 69%, in the same period last year, primarily as a result of a change in the mix of products sold in the comparative periods coupled with an increase in maintenance revenue during the same period.

Selling, General and Administrative Expenses. SG&A expenses increased \$7.9 million, or 8%, in the six months ended December 31, 2010, when compared to the same period last year, due primarily to increases in payroll and related expenses, advertising and promotions, legal fees, travel and entertainment expense and bad debt expense. Payroll and related expenses increased due primarily to increases in salaries primarily in international locations including India, Macau and Australia. Advertising and promotion expense increased due primarily to higher trade show expenditures and promotions for new products during the period. Legal fees increased primarily due to fees related to our entrance into new international markets. In addition, during the six months ended December 31, 2010, when compared to the same period last year, we received \$0.9 million less in refunds for fees related to previous legal matters. Travel and entertainment expense increased primarily due to sales and systems travel primarily for trade shows and the addition of new international locations. Bad debt expense increased due primarily to increases in accounts and leases receivable during the same period. Bad debt as a percentage of revenue continues to remain under 1%.

Table of Contents

Research and Development Costs. R&D costs increased \$3.7 million, or 9%, in the six months ended December 31, 2010, when compared to the same period last year, due primarily to an increase in employees and an increase in hardware development costs. The increased costs are attributable to our continued focus on our technology assets due to the competitive landscape that requires a continual investment in future generations of gaming products and systems.

Depreciation and Amortization Expense. Depreciation and amortization expense decreased slightly by \$0.1 million, or 1%, in the six months ended December 31, 2010, when compared to same period last year.

Other Income (Expense), Income Tax Expense and Net Income Attributable to Noncontrolling Interests

Other income (expense) and income tax expense from continuing operations and net income attributable to noncontrolling interests was as follows:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2010	2009	2010	2009
	(dollars in millions)			
Other income (expense)				
Interest income	\$ 1.2	\$ 0.6	\$ 2.3	\$ 1.3
Interest expense	(3.0)	(3.2)	(6.0)	(6.5)
Other, net	(0.3)	(1.1)	1.5	(1.0)
Total other expense	\$ (2.1)	\$ (3.7)	\$ (2.2)	\$ (6.2)
Income tax expense	\$ (6.3)	\$ (16.4)	\$ (18.6)	\$ (32.7)
Net loss (income) attributable to noncontrolling interests	\$	\$ (0.4)	\$ 0.5	\$ (1.1)

Three Months Ended December 31, 2010 Compared to Three Months Ended December 31, 2009

Other Income (Expense). Other expense decreased \$1.6 million in the three months ended December 31, 2010, when compared to the same period last year, due primarily to a decrease in losses on foreign currency translations as a result of the weakening of the U.S. dollar during the same period. Interest expense decreased \$0.3 million due primarily to a reduction in the principal balance on the term loan and the interest rate period over period. The interest rate on the term loan decreased to 4.14% at December 31, 2010 from 4.64% at December 31, 2009. Interest income increased \$0.5 million in the three months ended December 31, 2010, when compared to the same period last year, due primarily to interest income on accounts and notes receivable outstanding.

Income Tax Expense. Income tax expense decreased during the three months ended December 31, 2010, when compared to the same period last year, due primarily to discrete items related to an IRS settlement, other changes in our uncertain tax positions, the reinstatement of the research and development tax credit and deferred tax expense on the repatriation of earnings from our India subsidiary. See Note 8 to the unaudited condensed consolidated financial statements, *Income Taxes*. The effective income tax rate for continuing operations for the three months ended December 31, 2010 and 2009 was 19.5% and 33.7%, respectively.

Net income (loss) attributable to noncontrolling interests. In the three months ended December 31, 2010, the reduction in net income attributable to noncontrolling interests was primarily due to the sale of Rainbow Casino during fiscal 2010. See Note 3 to the unaudited condensed consolidated financial statements, *Discontinued Operations*.

Six Months Ended December 31, 2010 Compared to Six Months Ended December 31, 2009

Other Income (Expense). Other expense decreased \$4.0 million in the six months ended December 31, 2010, when compared to the same period last year, due primarily to a decrease in losses on foreign currency translations as a result of the weakening of the U.S. dollar during the same period. Interest expense decreased \$0.5 million due primarily to a reduction in the principal balance on the term loan and the interest rate period over period. Interest income increased \$1.0 million in the six months ended December 31, 2010, when compared to the same period last year, due primarily to interest income on accounts and notes receivable outstanding.

Table of Contents

Income Tax Expense. Income tax expense decreased during the six months ended December 31, 2010, when compared to the same period last year, due primarily to certain changes in our uncertain tax positions primarily resulting from settlement of the IRS examination of our 2003 to 2005 income tax returns, the reinstatement of the research and development tax credit and deferred tax expense on the repatriation of earnings from our India subsidiary. See Note 8 to the unaudited condensed consolidated financial statements, *Income Taxes*. The effective income tax rate for continuing operations for the six months ended December 31, 2010 and 2009 was 27.5% and 34.5%, respectively.

Net income (loss) attributable to noncontrolling interests. In the six months ended December 31, 2010, net loss attributable to noncontrolling interests was due to higher jackpot expense during the period. In the six months ended December 31, 2009, net income attributable to noncontrolling interests was due to earnings from unconsolidated subsidiaries, including the Rainbow Casino. See Note 3 to the unaudited condensed consolidated financial statements, *Discontinued Operations*.

Discontinued Operations

On April 5, 2010, we entered into a definitive purchase agreement to sell the Rainbow Casino. Under the terms of the agreement, we received approximately \$80.0 million in an all-cash transaction. The sale closed on June 8, 2010. We recognized a gain on the sale of Rainbow of approximately \$22.1 million (net of approximately \$12.2 million in income taxes) in the fourth quarter of fiscal 2010. Per the terms of the sale agreement, we incurred certain post-closing adjustments during fiscal 2011 which reduced our gain on the sale by approximately \$0.4 million (net of approximately \$0.2 million income taxes).

The results of operations of the Rainbow Casino for the three and six months ended December 31, 2009 were classified as discontinued operations because we do not expect to continue to receive significant cash flows from the Rainbow Casino after the sale. Rainbow's revenues, reported in discontinued operations for the three and six months ended December 31, 2009, were \$8.5 million and \$17.7 million, respectively, and income from discontinued operations, net of income taxes, was \$1.4 million and \$3.2 million, respectively. See Note 3 to the unaudited condensed consolidated financial statements, *Discontinued Operations*

Net working capital	\$	299,990	\$	301,856	\$	(1,866)	(1)%
---------------------	----	---------	----	---------	----	---------	------

As of December 31, 2010 and June 30, 2010, we had \$119.6 million and \$145.1 million, respectively, in consolidated cash and cash equivalents.

Pursuant to various state gaming regulations, certain cash accounts are maintained to ensure availability of funds to pay wide-area progressive jackpot awards in installments rather than in one lump-sum. At December 31, 2010 and June 30, 2010, these accounts had an aggregate value of approximately \$8.2 million and \$8.3 million, respectively, which are classified as restricted cash in our unaudited condensed consolidated balance sheets. In addition, we purchase U.S. Treasury Strip Securities for the benefit of jackpot winners who elect to receive winnings in annual or weekly installment payments. These securities are included in restricted long-term investments in the accompanying unaudited condensed consolidated balance sheets, and totaled \$11.8 million and \$13.1 million as of December 31, 2010 and June 30, 2010, respectively.

Our net working capital decreased \$1.9 million in the six months ended December 31, 2010, when compared to June 30, 2010, and was primarily affected by a \$25.5 million decrease in cash and cash equivalents due primarily to the purchase of 1.1 million shares of common stock for approximately \$40.6 million and by the following components:

- An increase of \$8.1 million in inventories due primarily to the purchase of raw materials which increased in part due to acquisition of raw materials related to the new Pro Series cabinets and the build-up of inventory in certain international locations;

Table of Contents

- A decrease of \$4.4 million in deferred revenue coupled with a decrease of \$1.7 million in deferred cost of revenue due to the recognition of previously deferred sales and related costs in accordance with our revenue recognition policy;
- A decrease of \$5.1 million in income tax payable due to payments during the period; and
- An increase of \$2.6 million in current maturities of long-term debt due primarily to the increase in quarterly principal payments from \$8.75 million to \$11.25 million beginning in December 2010.

Current and long-term accounts and notes receivable increased \$2.7 million and \$8.3 million, respectively, during the six months ended December 31, 2010. Long-term accounts and notes receivable increased due primarily to an increase in loans to finance gaming opportunities to a customer in Italy during the current period. In addition, our DSO s increased to 115 days from 99 days at June 30, 2010 due primarily to an increase in extended payment terms over the last twelve months coupled with a decrease in revenue during the same period.

We have a \$225.0 million term loan and a \$150.0 million revolving credit facility, of which \$75.0 million matures in September 2012 and \$75.0 million matures in March 2014 (collectively, the Credit Facility).

In August 2010, we amended our Credit Facility twice to allow us to borrow in certain foreign currencies and to reduce the fixed charge coverage ratio from 2.00 to 1.25. We paid approximately \$0.2 million in fees and expense related to one of these amendments.

During the six months ended December 31, 2010, we borrowed \$19.9 million (EURO converted into U.S. dollars) under our revolving credit facility. As of December 31, 2010, there was approximately \$130.1 million of undrawn availability under the revolving credit facility. Availability under the revolving credit facility is reduced to the extent of outstanding letters of credit.

The interest rate on the Credit Facility is subject to a leverage based pricing grid. If the leverage ratio, as defined under the Credit Facility, is greater than 2.5, the interest rate will be LIBOR plus a margin of 3.25%; if the leverage ratio is between 2.0 and 2.5, the interest rate will be LIBOR plus a margin of 3.00%; if the leverage ratio is between 1.5 and 2.0, the interest rate will be LIBOR plus a margin of 2.75%; if the leverage ratio is between 1.0 and 1.5, the interest rate will be LIBOR plus a margin of 2.50%; and if the leverage ratio is below 1.0, the interest rate will be LIBOR plus a margin of 2.25%. As of December 31 and June 30, 2010, our leverage ratio was below 1.0.

We entered into a floating-to-fixed interest rate swap to fix the floating LIBOR based debt under the term loan to fixed rate debt at an interest rate of 1.89% plus an applicable margin (2.25% as of December 31, 2010) for the remaining term.

The term loan required quarterly principal reductions of \$8.75 million through September 30, 2010 and of \$11.25 million thereafter through September 2012, with an additional balloon payment due at maturity in September 2012. The Credit Facility is collateralized by substantially all

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

of our domestic property and is guaranteed by each of our domestic subsidiaries, excluding any noncontrolling interests, and is secured by a pledge agreement.

The fair value of long-term debt is estimated by discounting expected cash flows using current interest rates at which similar loans would be made to borrowers with similar credit ratings and remaining maturities. As of December 31, 2010 and June 30, 2010, the fair value of long-term debt approximated the carrying value.

The Credit Facility contains a number of covenants that, among other things, restrict our ability and certain of our subsidiaries to dispose of assets, incur additional indebtedness or issue preferred stock, pay dividends or make other distributions, enter into certain acquisitions, repurchase equity interests or subordinated indebtedness, issue or sell equity interests of our subsidiaries, engage in mergers or acquisitions or certain transactions with subsidiaries and affiliates, and that otherwise restrict corporate activities.

The financial covenants under the Credit Facility consist of a leverage ratio and a fixed charges coverage ratio. The leverage ratio is computed as total debt outstanding at the end of the quarter divided by the trailing twelve months Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA), excluding certain cash and non-cash charges. The fixed charges coverage ratio is computed as EBITDA, adjusted for the trailing twelve months capital expenditures, share repurchases and cash taxes paid, divided by the trailing twelve months interest charges plus all payments of principal made during the previous twelve months.

A breach of any of the covenants or the inability to comply with the required financial ratios could result in a default under the Credit Facility. In the event of any such default, the lenders could elect to declare all borrowings outstanding under the Credit Facility, together with any accrued interest and other fees, to be due and payable. If we were unable to repay the indebtedness upon its acceleration, the lenders could proceed against the underlying collateral.

We were in compliance with all covenants under the Credit Facility as of December 31, 2010.

Table of Contents

Management believes that cash flows from current operating activities will provide us with sufficient capital resources and liquidity to operate our business for at least the next 12 months.

At December 31, 2010, we had no material commitments for capital expenditures.

Cash Flow Summary

Our primary sources of liquidity include existing cash and cash equivalents, cash flows from all operating activities and the availability of funds under our revolving credit facility.

Cash flows from continuing operating activities are derived from Bally Gaming Equipment and Systems. Cash flows from discontinued operating activities, or Casino Operations, were derived from the operation of the Rainbow Casino. We utilize our cash to acquire materials for the manufacture of goods for resale, to pay payroll, interest, taxes and SG&A expenses and to fund R&D activities.

Cash flows provided by continuing operating activities were \$29.0 million in the six months ended December 31, 2010 as compared to \$44.9 million in the same period last year, a \$15.9 million decrease. Cash flows from operating activities of continuing operations for the six months ended December 31, 2010 were negatively impacted primarily by a reduction in net income, when compared to the same period last year. Cash flows used in discontinued operating activities in the six months ended December 31, 2010 were \$0.4 million, while cash flows provided by discontinued operating activities were \$5.5 million in the six months ended December 31, 2009.

Cash utilized for investing activities from continuing operations is primarily for capital expenditures related to furniture, fixtures, office and gaming equipment and improvements in leaseholds, financing arrangements with customers and investments in technology and other long-term assets. During the six months ended December 31, 2010 and 2009, we made capital expenditures of \$5.2 million and \$6.0 million, respectively. During the six months ended December 31, 2010 and 2009, we provided \$9.9 million and \$15.8 million, respectively, in loans to finance gaming opportunities to separate customers. Cash utilized for investing activities from discontinued operations was \$0.5 million during the six months ended December 31, 2009 and was primarily for purchases of property, plant and equipment.

Cash utilized for financing activities from continuing operations is primarily for the payment of principal on our debt and the purchase of shares of our common stock. We made payments of \$20.0 million on our notes payable and purchased 1.1 million shares of our common stock for \$40.6 million under our share repurchase plan during the six months ended December 31, 2010.

Cash provided by financing activities is primarily from proceeds from the exercise of stock options and purchases of stock under our 2008 Employee Stock Purchase Plan, borrowings under our revolving credit facility, and excess tax benefits of stock option exercises. During the six months ended December 31, 2010, employees exercised options for 175,862 shares of common stock for \$3.1 million and purchased 32,470 shares of common stock for \$1.0 million under our 2008 Employee Stock Purchase Plan. In addition, we borrowed \$19.9 million under our revolving credit facility during the current period. Cash used in financing activities from discontinued operations was \$0.5 million for the six months ended December 31, 2009.

Critical Accounting Policies

A description of our critical accounting policies can be found in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations in the 2010 10-K. There were no material changes to those policies during the six months ended December 31, 2010.

Other Recently Issued Accounting Pronouncements

For a description of other recently issued accounting pronouncements, see Note 1 to the unaudited condensed consolidated financial statements, *Summary of Significant Accounting Policies*.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

As of December 31, 2010, we had total debt outstanding of approximately \$173.8 million which consisted primarily of a \$153.8 million term loan and \$19.9 million of borrowing under our revolving credit facility. During the year, the interest rate for the Credit Facility was subject to a leveraged based pricing grid. We have minimal exposure to market interest rate risk because the variable interest rate on the term loan was effectively converted to a fixed rate as a result of the floating-to-fixed interest rate swap entered into in December 2008 and discussed in Note 5 to the unaudited condensed consolidated financial statements, *Long-Term Debt*.

Foreign Currency Exchange Rate Risk

Certain of our foreign subsidiaries use their local currency as their functional currency and are exposed to risks resulting from fluctuations in foreign currency exchange rates. During the three months ended December 31, 2010 and 2009, we recognized foreign currency exchange rate losses of approximately \$0.4 million and \$1.2 million, respectively. During the six months ended December 31, 2010 and 2009, we recognized a foreign currency exchange rate gain of approximately \$1.3 million and a loss of approximately \$1.1 million, respectively. We estimate that a hypothetical 10% strengthening (or weakening) of the U.S. dollar for fiscal 2011 would have an immaterial impact on our business.

In addition, the net assets of these subsidiaries are exposed to foreign currency translation gains and losses which are included as a component of accumulated other comprehensive income in stockholders' equity in our Unaudited Condensed Consolidated Balance Sheets. Such translation resulted in unrealized gains of \$0.9 million as of December 31, 2010 and unrealized losses of \$0.3 million as of June 30, 2010.

During the six months ended December 31, 2010, we borrowed \$19.9 million (EURO converted into U.S. dollars) under our revolving credit facility

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15(b) promulgated under the Exchange Act, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Exchange Act Rule 13a-15(e) and 15d-15(e) as of the end of the period covered by this report.

Edgar Filing: BALLY TECHNOLOGIES, INC. - Form 10-Q

Based on this evaluation our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of December 31, 2010.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable and not absolute assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected or that judgments in decision-making are not based on faulty input.

Changes in Internal Control Over Financial Reporting during the Quarter Ended December 31, 2010

Although we update our internal controls as necessary to accommodate any modifications to our business processes and accounting procedures as part of our normal operations, there were no changes in our internal control over financial reporting that occurred in the three months ended December 31, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II****ITEM 1. LEGAL PROCEEDINGS**

For a description of our legal proceedings, see Note 9 to the unaudited condensed consolidated financial statements, *Commitments and Contingencies*, which is incorporated by reference in response to this item.

ITEM 1A. RISK FACTORS

The Company is subject to risks and uncertainties that could cause our actual results to differ materially from the expectations expressed in the forward looking statements. Factors that could cause our actual results to differ from expectations are described under Item 1A. Risk Factors in the 2010 10-K, to which there were no material changes during the period covered by this Quarterly Report on Form 10-Q.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On April 4, 2010, the Company's Board of Directors approved a new share repurchase plan under which, subject to price and market conditions, purchases of shares of common stock can be made from time to time in the open market or in private negotiated transactions using available cash, in an aggregate amount of up to \$150 million. Our quarterly share repurchases under this plan, excluding treasury shares acquired in non-cash transactions related to forfeited stock awards and shares exchanged for options exercised, were as follows:

Period	Total Number of Shares (or Units) Purchased	Average Price Paid Per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) That May Be Purchased Under the Plans or Programs
				\$ 80,852,545
October 1 - October 31, 2010	154,835	\$ 34.58	154,835	\$ 75,498,437
November 1 - November 30, 2010	60,300	\$ 38.27	60,300	\$ 73,190,543
December 1 - December 31, 2010	260,305	\$ 41.40	260,305	\$ 62,413,881
Total	475,440	\$ 38.78	475,440
