Report of Independent Registered Public Accounting Firm

To the Plan Administrator of

Simon Property Group and Adopting Entities Matching Savings Plan:

We have audited the accompanying statements of net assets available for benefits of the Simon Property Group and Adopting Entities Matching Savings Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the net assets available for benefits of the Plan at December 31, 2011 and 2010, and the changes in its net assets available for benefits for the year ended December 31, 2011, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2011, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management. The information has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Simon Property Group and Adopting Entities Matching Savings Plan

Notes to Financial Statements

December 31, 2011

1. Description of the Plan

The following brief description of the Simon Property Group and Adopting Entities Matching Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

General

The Plan is a defined-contribution plan sponsored by Simon Property Group, L.P. and affiliated companies (the Employer or the Company). Simon Property Group, Inc. is the parent and managing general partner of Simon Property Group, L.P. The Plan is administered by an Administrative Committee appointed by the Employer. The trustee and record-keeper of the Plan is Fidelity Management Trust Company (Fidelity or the Trustee).

Plan Merger

Effective January 31, 2011, the Company acquired the remaining 50% interest in the Kravco Simon Company. Beginning April 1, 2011, former employees of Kravco Simon Company that were retained by the Company became eligible to enroll in the Plan. On October 10, 2011, the Kravco Simon Company Employee Savings and Protection Plan (Kravco Plan) was merged into the Plan. On this date, all account balances in the Kravco Plan, including participants who were not retained by Simon, were transferred to the Plan. Participants not retained by the Company are not eligible for employer-matching or discretionary profit-sharing contributions under the Plan.

Plan Termination

Although the Employer has not expressed any intent to terminate the Plan, it may do so at any time by action of the Plan's sponsor, subject to the provisions of ERISA. Upon termination of the Plan, participants become fully vested in their entire account balance.

Plan Eligibility

For the purpose of making a before-tax contribution or a rollover contribution, an employee becomes eligible to participate in the Plan on the first day of the month coincident with or following the completion of 60 days of active employment and attainment of age 21. For the purpose of receiving the employer match and any discretionary employer contribution, an

employee becomes a member of the Plan on the first day of the month coincident with or following completion of one year of eligible service (at least 1,000 hours of employment) and upon reaching age 21.

Employee Contributions

Participants are allowed to contribute from 1% to 50% of their before-tax compensation. Contributions are subject to maximum limitations, as defined in the Internal Revenue Code (the Code).

Employer Contributions

The Employer currently matches 100% of eligible participants' first 3% elected salary deductions and 50% of the participants' next 2% elected salary deductions. In addition, the Employer made discretionary profit-sharing contributions of \$2,028,745 and \$1,962,401 during 2011 and 2010, respectively. This contribution applied to all eligible employees, as defined. As of December 31, 2011 and 2010, cumulative participant forfeitures totaled \$15 and \$67,550, respectively, and are used to reduce future employer contributions. Forfeitures used to reduce employer contributions during 2011 were \$146,183.

Participant Accounts

Each participant's account is credited for participant contributions and allocations of the Employer's contributions and the Plan's earnings. Investment earnings are allocated proportionately among all participants' accounts in an amount that bears the same ratio of their account balance to the total fund balance.

Participant Loans

All employees that invest in the Plan can borrow from their accounts in accordance with the provisions of the Plan. Amounts borrowed by the participant are transferred from one or more of the investment funds. The participant pays interest on the loan based on market interest rates at the date of the loan. This interest is credited to the participant's account balance. Both the maximum amounts available and repayment terms for such borrowings are restricted under provisions of the Plan.

1. Description of the Plan (continued)

Vesting

Participants' contributions and related investment income become vested at the time they are credited to the participants' accounts. In addition, employees vest immediately in employer-matching contributions.

The Plan was amended effective January 1, 2007, to create two different vesting schedules: one for pre-2007 discretionary profit-sharing contributions (and related investment income) and one for post-2006 discretionary profit-sharing contributions (and related investment income).

Pre-2007 discretionary profit-sharing contributions vest according to the following schedule:

Years of Vesting Service	Percentage Vested and Nonforfeitable
Less than 3	0%
3	30
4	40
5	60

7 or more	100

Post-2006 discretionary profit-sharing contributions vest according to the following schedule:

Less than 2	0%
2	20

6 or more	100

Payment of Benefits

Upon termination of service or retirement, participants may elect to receive payments over a period provided in the Plan Document or in a lump-sum amount equal to the vested portion of their accounts as of the most recent valuation date before the distribution. Forfeitures of nonvested amounts for terminated employees are used to reduce the Employer's contributions in future years.

Administrative Expenses

All administrative expenses, with the exception of legal expenses, are paid by the Plan.

2. Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 9 for further discussion of fair value measurements. The Plan invests in the Managed Income Portfolio, a common trust fund of the Fidelity Group Trust for Employee Benefit Plans, which invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value (see Note 9); however, since these contracts are fully benefit responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, to clarify certain existing fair value disclosures and require a number of additional disclosures. The requirement to present changes in Level 3 measurements on a gross basis is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurement*, to converge the fair value measurement guidance in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Denotes a portion of the fund is nonparticipant-directed.

During 2011, the Plan's investments (including investments purchased and sold, as well as held, during the year) depreciated in fair value as determined by quoted market prices as follows:

	Net Realized and Unrealized Depreciation in Fair Value of Investments
Mutual funds	\$ (6,086,708)
Collective trust	362,271
Common stock	4,400,364
	\$ (1,324,073)

4. Nonparticipant-Directed Investments

Discretionary profit-sharing contributions are not participant directed. Information about the net assets and significant components of the changes in net assets relating to the nonparticipant-directed investments are as follows:

	December 31		
	2011		2010
Net assets:			
Mutual funds	\$	39,019,675	\$ 37,607,549
Money market funds		581,911	761,358

Net increase in fair value	1,147,807
Benefits paid to participants	(2,093,947)
Administrative expenses	(61,627)
	\$ 1,232,679

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated January 19, 2011, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Table of Contents

Simon Property Group and Adopting Entities Matching Savings Plan

Notes to Financial Statements (continued)

5. Income Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Related-Party Transactions

During 2011 and 2010, the Plan received \$516,288 and \$378,760, respectively, in dividends related to its investment in the Employer's common stock.

9. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.
- Level 2 Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3 Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Interest-Bearing Cash: Valued at cost, which approximates the fair value of the net asset value (NAV) of shares held by the Plan at year-end.

Mutual Funds: Based on quoted market prices, which represent the NAV of shares held by the Plan at year-end.

Table of Contents

Simon Property Group and Adopting Entities Matching Savings Plan

Notes to Financial Statements (continued)

9. Fair Value Measurements (continued)

Common Stock: Valued at the closing price reported on the active market on which the individual securities are traded. Common stock is held within the Simon Property Group Stock Fund, which is a unitized fund that invests in Simon Property Group common stock. A small portion of the fund may also be invested in short-term reserves to accommodate daily transactions, which is included as interest-bearing cash in the tables below.

Common/Collective Trust Funds: Common/collective trust funds are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding (see Note 2).

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:
