**Item 2.02. Results of Operations and Financial Condition.**

We previously reported our activities in the following four business segments: Aviation Supply Chain; Maintenance, Repair and Overhaul; Government and Defense Services and Structures and Systems. During the second quarter, we changed our segment presentation to reflect the way our Chief Executive Officer evaluates performance and the way we are organized internally. We now report our activities in the following two business segments: Aviation Services and Technology Products. The new Aviation Services segment includes our former Aviation Supply Chain and Maintenance, Repair and Overhaul segments and most of the former Government and Defense Services segment, and the new Technology Products segment represents our former Structures and Systems segment and our small shelter integration business, which previously was part of the Government and Defense Services segment.

The following information provides sales, gross profit and other important financial data for the quarter ended August 31, 2012, and for the three previous fiscal years in the new segment format. While investors are being provided financial data reflecting the change in the Company's reportable segments described above, the Company has not in any way revised or restated its historical financial statements for any period.

The information in this Item 2.02 is furnished pursuant to Item 2.02 and 7.01 of Form 8-K. Consequently, such items are not deemed filed for the purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liabilities of that section. Such items may only be incorporated by reference in another filing under the Exchange Act or Securities Act of 1933 if such subsequent filing specifically references this Form 8-K.
