Set out below is a copy of the full text of the press release by the Company and its subsidiaries (the Group) on May 7, 2015, in relation to its unaudited results for the three months ended March 31, 2015.

All currency figures stated in this report are in US Dollars unless stated otherwise.

The consolidated financial information is prepared in accordance with International Financial Reporting Standards (IFRS).

Shanghai, China May 7, 2015. Semiconductor Manufacturing International Corporation (NYSE: SMI; SEHK: 981) (SMIC, the Company, or our), one of the leading semiconductor foundries in the world, today announced its consolidated results of operations for the three months ended March 31, 2015.

Second Quarter 2015 Guidance:

The following statements are forward looking statements which are based on current expectations and which involve risks and uncertainties, some of which are set forth under "Safe Harbor Statements" below. The Company expects:

- Revenue to increase by 2% to 5% quarter over quarter.
- Gross margin to range from 27% to 29%.
- Non-GAAP operating expenses excluding the effect of employee bonus accrual, government funding and gain from the disposal of living quarters to range from \$120 million to \$125 million.
- Non-controlling interests of our majority-owned subsidiaries to range from positive \$5 million to positive \$7 million (losses to be borne by non-controlling interests).

Dr. Tzu-Yin Chiu, SMIC's Chief Executive Officer and Executive Director, commented, "Last year we successfully taped out new products for a broad range of applications for 65nm and 40nm, and as a result, in Q1 we had growth and in Q2 we are guiding additional growth."

In the first quarter, our revenue grew to \$509.8 million, historically our highest Q1. Gross margin was a ten-year high of 29.4% and we achieved our twelfth consecutive profitable quarter. Revenue from 40nm and 65nm grew more than 25% quarter-over-quarter and more than 58% year-over-year.

To address our technology progress, we continue to work on 28nm product qualification. We are pleased to report that we have already received a purchase order and will begin risk production in Q2.

Revenue from China has continued to be over 40% of our total revenue in the past 8 quarters and accounted for 47% of our total revenue in Q1 2015. As the largest and most advanced foundry in China, we believe we are well-positioned to benefit from an overall growing IC ecosystem in China.

Safe Harbor Statements

(Under the Private Securities Litigation Reform Act of 1995)

This press release contains, in addition to historical information, forward-looking statements within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements, including statements under Second Quarter 2015 Guidance CapEx Summary and the statements contained in the quotes of our CEO regarding our expectations for growth and ecosystem growth in China are based on SMIC's current assumptions, expectations and projections about future events. SMIC uses words like believe, anticipate, intend, estimate, expect, project, target and similar expressions to identify forward-looking statements, although not all forward-looking statements contain these words. These forward-looking statements involve significant risks, both known and unknown, uncertainties and other factors that may cause SMIC's actual performance, financial condition or results of operations to be materially different from those suggested by the forward-looking statements including, among others, risks associated with the cyclical nature of the semiconductor industry, changes in demand for our products, competition in our markets, our reliance on a small number of customers, orders or judgments from pending litigation, intensive intellectual property lawsuits in semiconductor industry and financial stability in end markets.

Investors should consider the information contained in SMIC's filings with the U.S. Securities and Exchange Commission (SEC), including its annual report on 20-F filed with the SEC on April 28, 2015, especially the consolidated financial statements, and such other documents that SMIC may file with the SEC or The Hong Kong Stock Exchange Limited (SEHK) from time to time, including current reports on Form 6-K. Other unknown or unpredictable factors also could have material adverse effects on SMIC's future results, performance or achievements. In light of these risks, uncertainties, assumptions and factors, the forward-looking events discussed in this press release may not occur. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date stated, or if no date is stated, as of the date of this press release. Except as may be required by law, SMIC undertakes no obligation and does not intend to update any forward-looking statement, whether as a result of new information, future events or otherwise.

About Non-Generally Accepted Accounting Principles (Non-GAAP) Financial Measures

To supplement SMIC's consolidated financial results presented in accordance with IFRS, SMIC uses in this press release non-GAAP operating expenses which consist of total operating expenses as adjusted to exclude the effect of employee bonus accrual, government funding and gain from the disposal of living quarters. This earnings release also includes second quarter 2015 guidance for non-GAAP operating expenses. The presentation of non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with IFRS.

SMIC believes that use of these non-GAAP financial measures facilitates investors' and management's comparisons to SMIC's historical performance. The Group's management regularly uses these non-GAAP financial measures to understand, manage and evaluate the Group's business and make financial and operational decisions.

The accompanying table has more information and reconciliations of each non-GAAP financial measure to its most directly comparable GAAP financial measure. A reconciliation of non-GAAP guidance measures to corresponding GAAP measures is not available on a forward-looking basis.

Edgar Filing: SEMICONDUCTOR MANUFACTURING INTERNATIONAL CORP - Form 6-K

- Revenue increased 4.9% QoQ from \$485.9 million in 4Q14 to \$509.8 million in 1Q15 mainly because wafer shipments increased in 1Q15 due to an increase of demand for 65nm and 40nm.
- Cost of sales was \$359.9 million in 1Q15, down 4.4% QoQ from \$376.6 million in 4Q14, which was mainly due to the decrease of depreciation, as some equipment had been fully depreciated.
- Gross profit was \$149.9 million in 1Q15, an increase of 37.1% QoQ from \$109.3 million in 4Q14.
- Gross margin was 29.4% in 1Q15, up from 22.5% in 4Q14. The change was mainly due to 1) an increase in fab utilization and 2) a decrease of depreciation within the cost of sales in 1Q15.
- Operating expenses were \$104.4 million in 1Q15, a decrease of 3.0% QoQ from \$107.7 million in 4Q14, mainly due to the reasons stated in Operating Expenses (Income) Analysis below.
- The change in income tax benefit (expense) was mainly due to the land value-added tax incurred in 4Q14.
- The change in non-controlling interests was mainly because part of the Group's R&D expenses was re-charged to Semiconductor Manufacturing North China (Beijing) Corporation (SMNC), the Company's majority owned subsidiary in Beijing) in 4Q14.

Capex Summary

- Capital expenditures for 1Q15 were \$145.4 million.
- The planned 2015 capital expenditures for foundry operations are adjusted to approximately \$1.5 billion, which are mainly for 1) the capacity expansion of SMNC's 12-inch fab, which is approximately \$800 million, of which approximately \$450 million will be funded by SMIC, 2) the capacity expansion in our new 8-inch fab in Shenzhen and 3) research and development equipment, mask shops and intellectual property acquisition.
- The planned 2015 capital expenditures for non-foundry operations, mainly for the construction of living quarters, are adjusted to approximately \$150 million. The Group plans to rent out or sell these living quarter units to employees in the future.

Reconciliations of Non-GAAP Financial Measures to Comparable GAAP Measures⁽¹⁾		
Non-GAAP operating expenses	(99,669)	(113,212)

Note:

(1) Non-GAAP operating expenses are defined as operating expenses adjusted to exclude the effect of employee bonus accrual, government funding and gain from the disposal of living quarters. SMIC reviews non-GAAP operating expenses together with operating expenses to understand, manage and evaluate its business and make financial and operational decisions. The Group also believes it is useful supplemental information for investors and analysts to assess its operating performance. However, the use of non-GAAP financial measures has material limitations as an analytical tool. One of the limitations of using non-GAAP financial measures is that they do not include all items that impact our net profit for the period. In addition, because non-GAAP financial measures are not calculated in the same manner by all companies, they may not be comparable to other similarly titled measures used by other companies. In light of the foregoing limitations, you should not consider the non-GAAP operating expenses in isolation from or as an alternative to operating expenses prepared in accordance with IFRS.
