Item 19. Exhibits 143

We publish our financial statements in accordance with International Financial Reporting Standards, or IFRS, as issued by the International Accounting Standards Board, or IASB, which differ in some significant respects from generally accepted accounting principles in the United States, or U.S. GAAP, and accounting procedures adopted in other countries.

Unless otherwise indicated, (i) information included in this annual report is as of December 31, 2015 and (ii) references to Ps. or Pesos in this annual report are to Mexican Pesos and references to Dollars, U.S. Dollars, U.S. dollars, \$ or U.S.\$ are to United States dollars.

In this annual report, we, us, our or Company refer to Grupo Televisa, S.A.B. and, where the context requires, its consolidated entities. Group refers to Grupo Televisa, S.A.B. and its consolidated entities.

Item 3. Key Information

Selected Financial Data

The following tables present our selected consolidated financial information as of and for each of the periods indicated. This information is qualified in its entirety by reference to, and should be read together with, our audited consolidated year-end financial statements. The following data for each of the years ended December 31, 2015, 2014, 2013, 2012 and 2011 has been derived from our audited consolidated year-end financial statements, including the consolidated statements of financial position as of December 31, 2015 and 2014, the related consolidated statements of income, comprehensive income, changes in stockholders' equity and cash flows for the years ended December 31, 2015, 2014 and 2013, and the accompanying notes appearing elsewhere in this annual report. As required by regulations for listed companies in the United Mexican States, or Mexico, issued by the *Comisión Nacional Bancaria y de Valores*, or Mexican Banking and Securities Commission, beginning on January 1, 2012, we discontinued using Mexican Financial Reporting Standards, or Mexican FRS, as issued by the *Consejo Mexicano de Normas de Información Financiera*, or Mexican Financial Reporting Standards Board, and began using International Financial Reporting Standards, or IFRS, as issued by the International Accounting Standards Board, or IASB, for financial reporting purposes.

The financial information as of December 31, 2015, 2014, 2013, 2012 and 2011 and for the years ended December 31, 2015, 2014, 2013, 2012 and 2011, was prepared in accordance with IFRS as issued by the IASB. Through December 31, 2011, our consolidated financial information was reported previously in accordance with Mexican FRS. Accordingly, the financial information as of and for the year ended December 31, 2011 is not directly comparable to previously

reported financial information as of and for the year ended on that date. This data should also be read together with

Operating and Financial Review and Prospects. In preparing our opening IFRS statement of financial position as of January 1, 2011, we adjusted amounts previously reported in our consolidated financial statements prepared in accordance with Mexican FRS.

The exchange rate used in translating Pesos into U.S. Dollars for calculating the convenience translations included in the following tables is determined by reference to the interbank free market exchange rate, or the Interbank Rate, as reported by Banco Nacional de México, S.A., or Banamex, as of December 31, 2015, which was Ps.17.2160 per U.S. Dollar. This annual report contains translations of certain Peso amounts into U.S. Dollars at specified rates solely for the convenience of the reader. The exchange rate translations contained in this annual report should not be construed as representations that the Peso amounts actually represent the U.S. Dollar amounts presented or that they could be converted into U.S. Dollars at the rate indicated.

Notes to Selected Consolidated Financial Information:

(1) Except per *Certificado de Participación Ordinario*, or CPO, magazine circulation, employee, subscriber and Revenue Generating Units, or RGUs.

(2) Includes interest expense, interest income, foreign exchange loss or gain, net, and other finance income or expense, net. See Note 22 to our consolidated year-end financial statements.

(3) For further analysis of net earnings per CPO (as well as corresponding amounts per Series A Share not traded as CPOs), see Note 24 to our consolidated year-end financial statements. In April 2015, the Company's stockholders approved the payment of a dividend of Ps.0.35 per CPO. In 2014, the Company's stockholders did not approve the payment of any dividends. In December 2013, and April 2013, 2012 and 2011, our stockholders approved the payment of a dividend of Ps.0.35 per CPO, respectively.

(4) As of December 31, 2015, 2014, 2013, 2012 and 2011 we had four classes of common stock: Series A Shares, Series B Shares, Series D Shares and Series L Shares. Our shares are publicly traded in Mexico, primarily in the form of CPOs, each CPO representing 117 shares comprised of 25 Series A Shares, 22 Series B Shares, 35 Series D Shares and 35 Series L Shares; and in the United States in the form of Global Depositary Shares, or GDSs, each GDS representing five CPOs. As of December 31, 2015, there were approximately 2,424.6 million CPOs issued and outstanding, each of which was represented by 25 Series A Shares, 22 Series B Shares, 35 Series D Shares and 35 Series L Shares, and an additional number of approximately 54,795.3 million Series A Shares, 0.2 million Series B Shares, 0.2 million Series D Shares and 0.2 million Series L Shares issued and outstanding (not in the form of CPO units). See Note 16 to our consolidated year-end financial statements.

(5) The figures set forth in this line item are presented at amortized cost (principal amount, net of finance costs). Interest payable is included in current portion of long-term debt in the consolidated statements of financial position as of December 31, 2015 and 2014, and prior to 2014 was presented as a separate line item of consolidated current liabilities in the consolidated statement of financial position. See Notes 2(n) and 13 to our consolidated year-end financial statements.

(6) The figures set forth in this line item are presented at amortized cost (principal amount, net of finance costs). See Operating and Financial Review and Prospects Results of Operations Liquidity, Foreign Exchange and Capital Resources Indebtedness and Note 13 to our consolidated year-end financial statements.

(7) Capital expenditures are those investments made by us in property, plant and equipment. The exchange rate used in translating Pesos into U.S. Dollars for calculating the convenience translation for capital expenditures is determined by reference to the Interbank Rate on the dates on which a given capital expenditure was made. See Information on the Company Capital Expenditures .

(8) The figures set forth in this line item represent total circulation of magazines that we publish independently and through joint ventures and other arrangements and do not represent magazines distributed on behalf of third parties.

(9) Sky has operations in Mexico, the Dominican Republic and Central America. The figures set forth in this line item represent the total number of gross active residential and commercial subscribers for Innova, S. de R.L. de C.V., or Innova, at the end of each year presented. For a description of Innova's business and results of operations and financial condition, see Information on the Company Business Overview Our Operations Sky .

(10) An RGU is defined as an individual service subscriber who is billable under each service provided by Empresas Cablevisión, S.A.B. de C.V., or Cablevisión, Cablemás, S.A. de C.V., or Cablemás, Televisión Internacional, S.A. de C.V., or TVI, Grupo Cable TV, S.A. de C.V., or Cablecom and Cablevisión Red, S.A. de C.V., or Telecable (pay television, or pay-TV, broadband internet and digital telephony). For example, a single subscriber paying for cable television, broadband internet and digital telephony services represents three RGUs. We believe it is appropriate to use the number of RGUs as a performance measure for Cablevisión, Cablemás, TVI, Cablecom and Telecable given that these businesses provide other services in addition to pay-TV. See Operating and Financial Review and Prospects Results of Operations Total Segment Results Cable and Information on the Company Business Overview Cable .

Dividends

Decisions regarding the payment and amount of dividends are subject to approval by holders of a majority of the Series A Shares and Series B Shares voting together, generally, but not necessarily, on the recommendation of the Board of Directors, as well as a majority of the Series A Shares voting separately. Emilio Azcárraga Jean indirectly controls the voting of the majority of the Series A Shares and, as a result of such control, both the amount and the payment of dividends require his affirmative vote. See Major Stockholders and Related Party Transactions The Major Stockholders . On March 25, 2004, our Board of Directors approved a dividend policy under which we currently intend to pay an annual ordinary dividend of Ps.0.35 per CPO. On April 29, 2011, at a general stockholders' meeting, our stockholders approved a cash distribution to stockholders of up to Ps.1,036.7

million, which represents the payment of our ordinary dividend of Ps.0.35 per CPO, equivalent to Ps.0.002991452991 per share. On April 27, 2012, at a general stockholders meeting, our stockholders approved a cash distribution to stockholders of up to Ps.1,097.8 million, which represents the payment of our ordinary dividend of Ps.0.35 per CPO, equivalent to Ps.0.002991452991 per share. On April 2, 2013, at a general stockholders meeting, our stockholders approved a cash distribution to stockholders of up to Ps.1,084.2 million, which represents the payment of our ordinary dividend of Ps.0.35 per CPO, equivalent to Ps.0.002991452991 per share. In addition to the dividend payment approved by our stockholders on April 2, 2013, and based on a proposal by our Board of Directors, on December 9, 2013, at a general stockholders meeting, our stockholders approved a cash distribution to stockholders of up to Ps.1,084.2 million, which represents the payment of our ordinary dividend of Ps.0.35 per CPO, equivalent to Ps.0.002991452991 per share. The dividend approved on December 9, 2013 was in lieu of the annual dividend for 2014 that would otherwise typically have been approved in April 2014. On April 29, 2015, at our general stockholders meeting, our stockholders approved a cash distribution to stockholders of up to Ps.1,084.2 million, which represents the payment of our ordinary dividend of Ps.0.35 per CPO, equivalent to Ps.0.002991452991 per share. On April 28, 2016, at our general stockholders meeting, our stockholders approved a cash distribution to stockholders of up to Ps. 1,084.2 million, which represents the payment of our ordinary dividend of Ps.0.35 per CPO, equivalent to Ps. 0.002991452991 per share. All of the recommendations of the Board of Directors related to the payment and amount of dividends were voted on and approved at the applicable general stockholders meetings.

Exchange Rate Information

Since 1991, Mexico has had a free market for foreign exchange and, since 1994, the Mexican government has allowed the Peso to float freely against the U.S. Dollar. There can be no assurance that the government will maintain its current policies with regard to the Peso or that the Peso will not depreciate or appreciate significantly in the future.

The following table sets forth, for the periods indicated, the high, low, average and period end noon buying rate in New York City for cable transfers in Pesos published by the Federal Reserve Bank of New York, expressed in Pesos per U.S. Dollar. The rates have not been restated in constant currency units and therefore represent nominal historical figures.

In the past, the Mexican economy has had balance of payment deficits and decreases in foreign exchange reserves. While the Mexican government does not currently restrict the ability of Mexican or foreign persons or entities to convert Pesos to U.S. Dollars, we cannot assure you that the Mexican government will not institute restrictive exchange control policies in the future, as has occurred from time to time in the past. To the extent that the Mexican government institutes restrictive exchange control policies in the future, our ability to transfer or to convert Pesos into U.S. Dollars and other currencies for the purpose of making timely payments of interest and principal of indebtedness, as well as to obtain foreign programming and other goods, would be adversely affected. See Risk Factors Risk Factors Related to Mexico Currency Fluctuations or the Devaluation and Depreciation of the Peso Could Limit the Ability of Our Company and Others to Convert Pesos into U.S. Dollars or Other Currencies, Which Could Adversely Affect Our Business, Financial Condition or Results of Operations .

On April 22, 2016 the noon buying rate was Ps.17.4440 per U.S.\$1.00.

Risk Factors

The following is a discussion of risks associated with our company and an investment in our securities. Some of the risks of investing in our securities are general risks associated with doing business in Mexico. Other risks are specific to our business. The discussion below contains information, among other things, about the Mexican government and the Mexican economy obtained from official statements of the Mexican government as well as other public sources. We have not independently verified this information. Any of the following risks, if they actually occur, could materially and adversely affect our business, financial condition, results of operations or the price of our securities.

Risk Factors Related to Mexico

Economic and Political Developments in Mexico May Adversely Affect Our Business

Most of our operations and assets are located in Mexico. As a result, our financial condition, results of operations and business may be affected by the general condition of the Mexican economy, the depreciation or appreciation of the Peso as compared to the U.S. Dollar and other currencies, Mexican inflation, interest rates, regulation, taxation, social instability and other political, social and economic developments in or affecting Mexico over which we have no control.

Mexico Has Experienced Adverse Economic Conditions, Which Could Have a Negative Impact on Our Results of Operations and Financial Condition

Mexico has historically experienced uneven periods of economic growth. Mexican gross domestic product, or GDP, increased by 1.3% in 2013, increased by 2.3% in 2014 and increased by 2.5% in 2015. Mexican GDP growth fell short of Mexican government forecasts in 2015 and, according to Mexican government forecasts, Mexican GDP is expected to increase in a range between 2.6% - 3.6% in 2016. We cannot assure you that these estimates and forecasts will prove to be accurate.

Any future economic downturn, including downturns in the United States, Europe and/or Asia, could affect our financial condition and results of operations. For example, demand for advertising may decrease both because consumers may reduce expenditures for our advertisers' products and because advertisers may reduce advertising expenditures and demand for publications, cable television, direct-to-home, or DTH, satellite services, pay-per-view programming, telecommunications services and other services and products may decrease because consumers may find it difficult to pay for these services and products.

Developments in Other Emerging Market Countries or in the U.S. and Other Developed Economies May Adversely Affect the Mexican Economy, the Market Value of Our Securities and Our Results of Operations

The market value of securities of Mexican companies, the social, economic and political situation in Mexico and our financial condition and results of operations are, to varying degrees, affected by economic and market conditions in other emerging market countries and in the United States and other developed economies. Although economic conditions in other emerging market countries and in the United States and other developed economies may differ significantly from economic conditions in Mexico, investors' reactions to developments in any of these other countries may have an adverse effect on the market value or trading price of securities of Mexican issuers, including our securities, or on our business.

Our operations, including the demand for our products or services, and the price of our securities, have also historically been adversely affected by increases in interest rates in the United States and elsewhere. Economic downturns in the United States often have a significant adverse effect on the Mexican economy and other economies globally, which in turn, could affect our financial condition and results of operations.

Our profitability is affected by numerous factors, including changes in viewing preferences, priorities of advertisers and reductions in advertisers budgets. Historically, advertising in most forms of media has correlated positively with the general condition of the economy and thus, is subject to the risks that arise from adverse changes in domestic and global economic conditions, consumer confidence and spending. The demand for our products and services in Mexico, the U.S. and in the other countries in which we operate may be adversely affected by the tightening of credit markets and economic downturns. As a global media and cable company, we depend on the demand from customers in Mexico, the U.S. and the other countries in which we operate, and reduced consumer spending that falls short of our projections could adversely impact our revenues and profitability.

Uncertainty in Global Financial Markets Could Adversely Affect Our Financing Costs and Exposure to Our Customers and Counterparties

The global financial markets continue to be uncertain and it is hard to predict for how long the effects of the global financial stress of recent years will persist and what impact it will have on the global economy in general, or the economies in which we operate, in particular, and whether slowing economic growth in any countries could result in decreased consumer spending affecting our products and services. If access to credit tightens further and borrowing costs rise, our borrowing costs could be adversely affected. Difficulties in financial markets may also adversely affect some of our customers. In addition, we enter into derivative transactions with large financial institutions, including contracts to hedge our exposure to interest rates and foreign exchange, and we could be affected by severe financial difficulties faced by our counterparties.

Currency Fluctuations or the Devaluation and Depreciation of the Peso Could Limit the Ability of Our Company and Others to Convert Pesos into U.S. Dollars or Other Currencies, Which Could Adversely Affect Our Business, Financial Condition or Results of Operations

The Peso has been subject to significant depreciation against the U.S. Dollar in the past and may be subject to significant fluctuations in the future. A significant portion of our indebtedness and a significant amount of our costs are U.S. Dollar-denominated, while our revenues are primarily Peso-denominated. As a result, decreases in the value of the Peso against the U.S. Dollar could cause us to incur foreign exchange losses, which could reduce our net income.

Severe devaluation or depreciation of the Peso may also result in governmental intervention, or disruption of international foreign exchange markets. This may limit our ability to transfer or convert Pesos into U.S. Dollars and other currencies for the purpose of making timely payments of interest and principal on our indebtedness and adversely affect our ability to obtain foreign programming and other imported goods. The Mexican economy has suffered current account balance of payment deficits and shortages in foreign exchange reserves in the past.

While the Mexican government does not currently restrict the right or ability of Mexican or foreign persons or entities to convert Pesos into U.S. Dollars or to transfer other currencies outside of Mexico, there can be no assurance that the Mexican government will not institute restrictive exchange control policies in the future. To the extent that the Mexican government institutes restrictive exchange control policies in the future, our ability to transfer or convert Pesos into U.S. Dollars or other currencies for the purpose of making timely payments of interest and principal on indebtedness, as well as to obtain imported goods would be adversely affected. Devaluation or depreciation of the Peso against the U.S. Dollar or other currencies may also adversely affect U.S. Dollar or other currency prices for our debt securities or the cost of imported goods.

High Inflation Rates in Mexico May Decrease Demand for Our Services While Increasing Our Costs

In the past Mexico has experienced high levels of inflation, although the rates have been lower for the past years. The annual rate of inflation, as measured by changes in the Mexican National Consumer Price Index, or NCPI, was 4.0% in 2013, 4.1%

in 2014, 2.1% in 2015 and is projected to be 3.0% in 2016. An adverse change in the Mexican economy may have a negative impact on price stability and result in higher inflation than its main trading partners, including the United States. High inflation rates can adversely affect our business and results of operations in, among others, the following ways:

- inflation can adversely affect consumer purchasing power, thereby adversely affecting consumer and advertiser demand for our services and products; and
- to the extent inflation exceeds our price increases, our prices and revenues will be adversely affected in real terms.

High Interest Rates in Mexico Could Increase Our Financing Costs

In the past Mexico had, and may in the future have, real and nominal interest rates. The interest rates on 28-day Mexican government treasury securities averaged 3.8%, 3.0% and 3.0% for 2013, 2014 and 2015, respectively. High interest rates in Mexico could increase our financing costs and thereby impair our financial condition, results of operations and cash flow.

Political Events in Mexico Could Affect Mexican Economic Policy and Our Business, Financial Condition and Results of Operations

The Mexican Federal Congress is not controlled by any single political party. However, the *Partido Revolucionario Institucional*, or the PRI, holds a significant position both in the Senate and in the *Cámara de Diputados*, or the Chamber of Representatives. Mexican congressional elections held in June 2015 in the Lower House resulted in a majority for the PRI but it still lacks an absolute majority, which could result in government gridlock and political uncertainty regarding further reforms and secondary legislation to modernize key sectors of the Mexican economy.

The current administration has been pursuing significant amendments to Mexico's laws, regulations, public policies and government programs. Mexico's current President Enrique Peña Nieto and the three main political parties of Mexico (i.e. PRI, *Partido Acción Nacional*, or PAN, and the *Partido de la Revolución Democrática*, or PRD) signed the *Pacto por México*, or Pact for Mexico, in 2012. In accordance with the Pact for Mexico, during 2013 several amendments to the *Constitución Política de los Estados Unidos Mexicanos*, or the Political Constitution of the United Mexican States, or Mexican Constitution, were approved, relating to (i) antitrust, (ii) telecommunications, (iii) public bids to grant new concessions to offer broadcasting services, (iv) energy policy and (v) education. Likewise, in accordance with the Pact for Mexico, in January 2014, amendments were made to 34 Mexican financial laws. During 2014, pursuant to the transitory articles of the June 2013 Telecom Reform (the Telecom Reform), the Mexican Federal Congress amended the applicable legal framework to implement the relevant provisions of the Mexican Constitution, and issued the new *Ley Federal de Telecomunicaciones y Radiodifusión*, or Telecommunications and Broadcasting Federal Law, or LFTR, on July 14, 2014 and the *Ley Federal de Competencia Económica*, or Mexico's Federal Antitrust Law, which became effective on July 7, 2014. Such changes may have a material adverse effect on the Mexican economic, social and political situation, and on our business, financial condition and results of operations. See Existing Mexican Laws and Regulations or Changes Thereto or the Imposition of New Ones May Negatively Affect Our Operations and Revenue and The Reform and Addition of Various Provisions of the Mexican Constitution Related to Telecommunications, the LFTR, and Other Recent Actions of IFT May Significantly and Adversely Affect the Business, Results of Operations and Financial Results of Some of Our Business Segments .

In addition, any effects on the social and political situation in Mexico could adversely affect the Mexican economy, including the stability of its currency. We cannot ascertain, at this time, how any material adverse effect on Mexican economic policy, Mexico's economic situation, the stability of Mexico's currency or market conditions may affect our business or the price of our securities.

Mexico has Experienced a Period of Increased Criminal Activity and Such Activities Could Adversely Affect Our Financing Costs and Exposure to Our Customers and Counterparties

During recent years, Mexico has experienced a period of increased criminal activity and violence, primarily due to organized crime. These activities, their escalation and the violence associated with them could have a negative impact on the business environment in which we operate, and therefore on our financial condition and results of operations.

Table of Contents

Imposition of Fines by Regulators and Other Authorities Could Adversely Affect Our Financial Condition and Results of Operations

A significant portion of our business, activities and investments occur in heavily regulated sectors. The Mexican regulators and other authorities, including tax authorities, have increased their supervision and the frequency and amounts of fines and assessments have increased significantly. Although we intend to defend our positions vigorously when procedures are brought or fines are imposed by authorities, there can be no assurance that we will be successful in such defense. Accordingly, we may in the future be required to pay fines and assessments that could be significant in amount, which could materially and adversely affect our financial condition and results of operations.

Existing Mexican Laws and Regulations or Changes Thereto or the Imposition of New Ones May Negatively Affect Our Operations and Revenue

Our business, activities and investments are subject to various Mexican federal, state and local statutes, rules, regulations, policies and procedures, which are subject to change and are affected by the actions of various Mexican federal, state and local government authorities. In that regard, existing laws and regulations including, among others, antitrust, telecom, social security and tax laws were amended in recent years and the manner in which these laws and regulations are enforced or interpreted could change, and new laws or regulations could be adopted. Such changes could materially adversely affect our operations and our revenue.

Mexico's Federal Antitrust Law and the LFTR, including their regulations, may affect some of our activities, including our ability to introduce new products and services, enter into new or complementary businesses or joint ventures and complete acquisitions. In addition, the Federal Antitrust Law and its regulations, as well as the conditions and measures imposed by the *Instituto Federal de Telecomunicaciones*, or Federal Telecommunications Institute, or IFT, an institute with constitutional autonomy responsible for overseeing the broadcasting (radio and television) and telecommunications industries and their antitrust matters, or by the *Comisión Federal de Competencia Económica*, or Mexican Antitrust Commission, or CFCE, may adversely affect our ability to determine the rates we charge for our services and products or the manner in which we provide our products or services. Approval of IFT or the CFCE, as applicable, is required to acquire certain businesses or enter into certain joint ventures. There can be no assurance that in the future IFT or the CFCE, as the case may be, will authorize certain acquisitions or joint ventures related to our businesses, the denial of which may adversely affect our business strategy, financial condition and results of operations. IFT or CFCE, as applicable, may also impose conditions, obligations and fines that could adversely affect some of our activities, our business strategy, our financial condition and results of operations. See **Imposition of Fines by Regulators and Other Authorities Could Adversely Affect Our Financial Condition and Results of Operations**.

As a result of the amendments to the Mexican Constitution and the LFTR, relating to telecommunications, television, radio and antitrust, concessions for the use of spectrum are now only granted through public bid processes. As a result of such reform, the Auction Program for Digital Television Broadcast Frequencies, or the Program, was approved by IFT and took place in 2014. The Program granted concessions over frequencies that might be grouped in order to create at least two national networks with national geographic coverage, or National Digital Networks. The Program provided that

holders of concessions that may be granted thereunder will only be entitled to provide broadcasting services, in connection with each radioelectric frequency (channel), within the geographic coverage zone defined by the Program.

On March 7, 2014, IFT published in the *Diario Oficial de la Federación*, or the Official Gazette of the Federation, an invitation to a public auction for the concession for the two National Digital Networks which would be granted for a term of 20 years for the operation of stations with, among other characteristics, mandatory geographic coverage in 123 locations corresponding to 246 channels within the Mexican territory.

We were prevented from participating in the bidding. In March 2015, IFT issued its ruling announcing Grupo Radio Centro, S.A.B. de C.V., or Grupo Radio Centro and Cadena Tres I, S.A. de C.V., or Cadena Tres as winning bidders for two free to air broadcasting licenses with separate national coverage. However, since Grupo Radio Centro failed to pay the amount they bid for their free to air broadcasting license, the IFT's ruling announcing them as a winning bidder was declared null and void and they did not receive the license. As a result, the portion of the spectrum which was going to be assigned to Grupo Radio Centro is scheduled to be auctioned by August 2016, in accordance with IFT's Annual Work Program. Cadena Tres has completed the process and has received its license. See *The Reform and Addition of Various Provisions of the Mexican Constitution Related to Telecommunications, the LFTR, and Other Recent Actions of IFT May Significantly and Adversely Affect the Business, Results of Operations and Financial Results of Some of Our Business Segments* .

In September 2010, Mexico's former President Felipe Calderon Hinojosa, published through the *Secretaría de Comunicaciones y Transportes*, or Secretary of Communications and Transport, or SCT, in the Official Gazette of the Federation, a decree establishing the actions to be taken to expedite the transition to digital television and digital radio broadcasting (referred to in this annual report as the 2010 Decree). The transition was completed, and analog broadcasting ended, on December 31, 2015.

Table of Contents

Due to the recent digital transition, and the analog shutdown in Mexico, we already experienced a loss of a portion of our audience which do not have access to digital radio and / or television. We may be further impacted by this transition.

Article 15-A of the *Ley del Seguro Social*, or the Social Security Law, could materially adversely affect our financial condition and results of operations. Article 15-A provides that a company that receives personnel services from a third party on any of the company's premises is jointly bound to comply with the obligations related to social security that have to be fulfilled by such personnel services providers for the benefit of their respective employees. Article 15-A also requires the Company to send a list to the *Instituto Mexicano del Seguro Social*, or the Social Security Mexican Institute, of all agreements entered into with personnel services providers.

In addition to the foregoing, certain provisions of the *Ley Federal del Trabajo*, or the Federal Labor Law, could materially adversely affect our financial condition and results of operations. The Federal Labor Law, as amended in November 2012, provides, among other things, that personnel outsourcing agreements must meet certain requirements. If these requirements are not met, the company that receives the benefit of the outsourced services might be deemed to be the employer of the personnel performing the services and thus required to comply with all the obligations applicable to employers pursuant to the Federal Labor Law in respect of such personnel.

In the last quarter of 2013, the Mexican Federal Congress approved a new tax reform, which became effective as of January 1, 2014. The reform has the following effects on the Mexican tax laws: the issuance of a new income tax law, the repeal of the flat rate business tax law and the cash deposits tax law, and certain amendments and changes to the Mexican tax laws related to value added tax, or VAT, and excise tax.

Among the tax reforms approved by the Mexican Federal Congress, the most relevant changes include (i) the elimination of the consolidation regime; (ii) the increase to the border VAT rate from 11% to 16%; (iii) the increase of the excise tax rates applicable to certain activities and industries such as the sale of foods with high density fat and the sale of sweetened drinks; (iv) the elimination of several deductions to the income tax, including the deduction of 47% of non-taxable employee benefits; (v) the imposition of an additional tax of 10% on dividends paid to individuals or foreign residents; and (vi) the increase in the maximum income tax rate to 35% for individuals.

In February 2014, certain subsidiaries of the Company filed an *amparo* proceeding challenging the constitutionality of the elimination of the deduction of 47% of the non-taxable employee benefits against the income tax. The *amparo* petition is pending resolution.

The following describes the tax reforms that will have an important impact on the Group.

Elimination of the tax consolidation regime: As a consequence of this reform, we will have to pay in the coming 10 years, starting in 2014, income tax that was deferred in prior years in an aggregate amount of Ps.6,813 million.

Limitation of the deduction of non-taxable employee benefits: As a result of the tax reform, employee benefits that are exempt from income tax are deductible only up to 53%. This reform will result in an increase in income tax payable by some of our subsidiaries.

Increase to the border VAT rate: The preferential VAT rate of 11% applicable to operations carried out in the border region of Mexico was eliminated; consequently, going forward, the general VAT rate of 16% must be applied in the entire country. This means that any of our entities that render services or sell goods in the border region will have to charge an additional 5% of VAT to their customers.

The Reform and Addition of Various Provisions of the Mexican Constitution Related to Telecommunications, the LFTR, and Other Recent Actions of IFT May Significantly and Adversely Affect the Business, Results of Operations and Financial Results of Some of Our Business Segments

On June 12, 2013, the Telecom Reform came into force. As a result of the Telecom Reform, the LFTR was published in the Official Gazette of the Federation, and became effective on August 13, 2014. The LFTR amends, supplements and repeals certain provisions related to previous telecommunications and broadcasting legislation, in order to be consistent with the Telecom Reform. The Telecom Reform, the LFTR and any regulations related thereto to be issued by the President and IFT, as applicable, and certain actions recently taken by IFT, or to be taken by IFT

Table of Contents

from time to time, affect or could significantly and adversely affect the business, results of operations and financial condition of certain of our subsidiaries that provide services in the areas of broadcasting, cable and telecommunications.

The LFTR provides that measures taken or decisions issued by IFT are not subject to judicial stay. Therefore, subject to limited exceptions, until a decision, action or omission by IFT is declared void or unconstitutional by a competent court through a binding and final judgment, IFT's decision, action or omission will be valid and will have full legal effect.

As a result of the reforms to the Mexican Constitution and the must-offer and must-carry regulations issued by IFT, starting on September 10, 2013, concessionaires of broadcast services have been required to permit pay-TV concessionaires to retransmit broadcast signals, free of charge and on a non-discriminatory basis, within the same geographic coverage area simultaneously and without modifications, including advertising, and with the same quality of the broadcast signal, except in certain specific cases provided in the Telecom Reform. Also, since September 10, 2013, our pay-TV concessionaires are required to retransmit broadcast signals of free television concessionaires, free of charge and on a non-discriminatory basis, subject to certain exceptions and additional requirements provided for in the Telecom Reform.

Certain pay-TV concessionaires benefit from the free use of broadcast for retransmission to their subscribers. Consequently, our subsidiary that licenses to pay-TV concessionaires our broadcast television signals and our subsidiary that is the owner and/or licensor of the audiovisual works that we have produced or distributed, jointly or separately by us and some of our subsidiaries, have ceased receiving significant income from licensing retransmission rights, which has affected and will continue to affect their results of operations.

On February 27, 2014, the General Guidelines Regarding the Provisions of Section 1 of the Eight Article of the Transitory Decree Amending and Supplementing a Number of Provisions of Articles 6, 7, 27, 28, 73, 78, 94 and 105 of the Mexican Constitution in Telecommunications, or the Guidelines, were published in the Official Gazette of the Federation, which include, among other obligations, the obligation of concessionaires of broadcast television licenses to permit the retransmission of their broadcast signals and the obligation of pay-TV concessionaires to perform such retransmission (without requiring the prior consent of the broadcast television concessionaires) in the same geographic coverage zone for free (subject to certain exceptions) and in a non-discriminatory manner in its entirety, simultaneously and without modifications, including advertising, and with the same quality of the broadcast signal without requiring consent from the broadcast television concessionaires.

On April 11, 2014, we, together with some of our subsidiaries, filed an *amparo* proceeding challenging the constitutionality of the Guidelines. On February 2015, certain amendments to the Guidelines were published in the Official Gazette, which among other provisions, require pay-TV concessionaires to retransmit the broadcast signals on all the commercial packages they offer to their subscribers and not only on their basic packages. On March 2015, the Company and the aforementioned subsidiaries, filed an extension to the original claims in the *amparo* proceeding, which is still under review by the relevant court. There can be no assurance that the outcome of such proceeding will be favorable to us and our subsidiaries.

On March 6, 2014, IFT issued a decision (the Preponderance Decision) whereby it determined that we, together with other entities with concessions to provide broadcast television, including some of our subsidiaries, are preponderant economic agents in the broadcasting sector in Mexico (together, the Preponderant Economic Agent). The Preponderance Decision imposes on the Preponderant Economic Agent various measures, terms, conditions and restrictive obligations, some of which are described below, that may significantly and adversely affect the activities and businesses of our broadcasting businesses, as well as the results of operations and financial condition:

- **Infrastructure sharing** The Preponderant Economic Agent must make its passive broadcasting infrastructure available to third-party concessionaires of broadcast television for commercial purposes in a non-discriminatory and non-exclusive manner, with the exception of broadcasters that, at the time the measures enter into force, have 12 MHz or more of radio-electric spectrum in the geographic area concerned. Such broadcasting infrastructure includes, among others, non-electronic elements at transmitting locations, rights of way, ducts, masts, trenches, towers, poles, security, sites, land, energy sources and air conditioning system elements. This action may result in the Preponderant Economic Agent being bound to incur substantial additional costs and obligations in complying with this requirement, as

Table of Contents

well as affecting the results of operations. Furthermore, this measure will facilitate the entry and expansion of new competitors in the broadcasting industry without such competitors having to incur costs or investment expenses that new businesses in this industry otherwise would have made and which we incurred in the past and will continue incurring in the future in order to remain competitive. On December 19, 2014, an infrastructure offer with the terms and conditions to make our passive broadcasting infrastructure available to third-party concessionaires was published on our website. The price to be paid by the concessionaires for the use of our infrastructure is subject to negotiation. As of this date, we have not received any request from third-party concessionaires regarding such infrastructure offer. If the Company and the relevant concessionaire do not agree on a price, the IFT may determine a price, which, if it does not meet market conditions, may affect the businesses, results of operations and financial conditions of certain of our subsidiaries that provide services in the areas of broadcasting and telecommunications.

- **Advertising sales** According to the Preponderance Decision, the Preponderant Economic Agent must deliver to IFT the terms and conditions of its broadcast advertising services and fee structures, including commercials, packages, discount plans and any other commercial offerings and publish them on its webpage. The Preponderant Economic Agent also must make publicly available on its website its forms of contracts and terms of sale for each service. Based on this decision, the Preponderant Economic Agent is expressly prohibited from refusing to sell advertising and/or discriminate with respect to the advertising spaces being offered. If IFT considers that the Preponderant Economic Agent has failed to comply with the foregoing, IFT may order the Preponderant Economic Agent to make its advertising spaces available, which, in turn, could affect the ability of the Preponderant Economic Agent to carry out its advertising sales plans in an efficient and competitive manner, affecting its operating results. This provision may also affect the ability of the Preponderant Economic Agent to offer competitive rates to its customers. This provision, may give a competitive advantage to, among others, our broadcast television competitor, TV Azteca, S.A.B. de C.V., or TV Azteca, and new concessionaires of broadcast television spectrum.

- **Prohibition on acquiring certain exclusive content** The Preponderant Economic Agent may not acquire transmission rights, on an exclusive basis, for any location within Mexico with respect to certain relevant content, determined by IFT in the Ruling whereby IFT identifies the relevant audiovisual contents in terms and for the purposes of the fourth measure and the second transitory article of the fourth attachment of the Telecommunication Preponderance Decision and the Broadcasting Preponderance Decision, or the Relevant Content Ruling, which list may be updated every two years by IFT. Relevant content is defined as programs with a high expected level of regional or national audience and with unique characteristics that in the past have generated high levels of national or regional audiences. The Relevant Content Ruling identified certain programs that would be considered relevant content, namely, Mexican national soccer team games, the opening and closing ceremonies of the Olympic Games, the opening and closing ceremonies and semifinals and finals of the FIFA World Cup, and the finals of the Mexican Soccer League. This Ruling applies to broadcasting Preponderant Economic Agents and may limit the ability of Preponderant Economic Agents to negotiate and have access to this content and could affect its ability to acquire content in the medium and long term, which could significantly and adversely affect its revenues and results of operations from the sale of advertising, as well as the quality of the programming offered for its audiences. These audiences may move to other broadcast television transmissions or other technological platforms that transmit such content, or to other leisure activities such as cruising the internet or playing videogames, among others.

- **Over-the-air channels** When the Preponderant Economic Agent offers any of its over-the-air channels, or channels that have at least 50% of the programming that is broadcast daily between 6:00 a.m. and midnight on such

channels, to its affiliates, subsidiaries, related parties or third parties, for distribution through a different technological platform than over-the-air broadcast television, the Preponderant Economic Agent must offer these channels to any other person that asks for distribution over the same platform as the Preponderant Economic Agent has offered, on the same terms and conditions. Also, if the Preponderant Economic Agent offers a package of two or more of these channels, it must also offer them in an unpackaged form. This may significantly affect our ability to commercialize our programming, including programming that is not produced for broadcast television, which could affect our revenues and results of operations. Likewise, our ability to make more efficient use of other technological platforms could be significantly affected.

- Prohibition on participating in buyers clubs or syndicates to acquire audiovisual content, without IFT's prior approval. The Preponderant Economic Agent may not enter into or remain a member of any buyers club or syndicates of audiovisual content unless it has received the prior approval of IFT. A buyers club

Table of Contents

is defined as any arrangement between two or more economic agents to jointly acquire broadcast rights to audiovisual content in order to obtain better contractual terms. This may result in the Preponderant Economic Agent not having exclusive access to certain audiovisual content and consequently its audiences may move to other broadcast television transmissions or other technological platforms that transmit such content. It may also result in its acquisition costs significantly increasing, which can affect business strategy, financial condition and results of operations. This provision, when applied, will award a competitive advantage to, among others, our broadcast television competitor, TV Azteca, and to new licensees of broadcast television spectrum. This measure will also prevent other domestic players and the Preponderant Economic Agent from obtaining content together at competitive prices and taking advantage of economies of scale which may be available to international players.

On March 28, 2014, we, together with our subsidiaries determined to be the Preponderant Economic Agent in the broadcasting sector, filed an *amparo* proceeding challenging the constitutionality of the Preponderance Decision. The final resolution is still pending. We are unable to predict the outcome of this procedure.

The Telecom Reform provided for a public bid or auction to grant licenses to establish the National Digital Networks. The Auction Program for Digital Television Broadcast Frequencies took place in 2014 and the first part of 2015. On March 7, 2014, IFT published in the Official Gazette of the Federation a resolution whereby concessionaires or groups having commercial, organizational, economic or legal relations and that together hold concessions for broadcasting services representing at least 12 MHz of radio-electric spectrum in any geographic coverage zone may not participate in the public bid for National Digital Networks. Accordingly, we were prevented from participating in the bidding. In March 2015, IFT issued its ruling announcing Grupo Radio Centro and Cadena Tres as winning bidders for two free to air broadcasting licenses with separate national coverage. However, since Grupo Radio Centro has failed to pay the amount they bid for their free to air broadcasting license, the IFT's ruling announcing them as a winning bidder was declared null and void and they will not receive the license. As a result, the portion of the spectrum which was going to be assigned to Grupo Radio Centro is scheduled to be auctioned by August 2016, in accordance with IFT's Annual Work Program. Cadena Tres has completed the process and has received its license.

When the National Digital Networks are established, they will compete with our broadcasting subsidiaries for advertising revenues, which together with the measures previously described, can affect revenues and operating results and our ability to have access to competitive content or content of interest to advertisers and audiences. As a result, these advertisers and audiences may move to other broadcast television stations or other technological platforms, and our audience share may be reduced. Likewise, we may incur additional costs in order to meet other obligations of IFT as previously described and which may be imposed on us as a result of the LFTR and the secondary regulations issued by the executive power and IFT, as applicable.

In addition to competition from the National Digital Networks, we could also be subject to additional competition from new competitors in the broadcast, cable and telecommunications markets in which we participate, including pay-TV, broadband, telephone services, cable providers, DTH television, telephone operators and/or other participants as a result of the elimination on the restrictions on foreign investment in telecommunications services and satellite communication and the increase in the maximum permitted foreign-ownership in broadcasting (television and radio) to 49%.

The LFTR provides that integrated multiservice concessions will be renewed for terms equal to the maximum terms for which they could be granted, namely, up to 30 years. To request the renewal of a concession, a concession holder must (i) file its request with IFT one year prior to the beginning of the fifth period of the term of the concession; (ii) comply with its obligations established in the applicable laws and in the concession title; and (iii) accept the new conditions that IFT may impose. In such cases, IFT will issue its ruling within 180 days following the date the concession holder files the renewal request. If IFT does not issue its ruling within 180 days the renewal will be automatically granted.

In the case of concessions for the use of radio-electric spectrum, the maximum term of renewal is 20 years. Renewal of concessions for the use of spectrum require, among others: (i) to request such renewal to IFT in the year prior to the last fifth period of the fixed term of the related concession; (ii) to be in compliance with the concession holder's obligations under the LFTR, other applicable regulations, and the concession title; (iii) a declaration by IFT that there is no public interest in recovering the spectrum granted under the related concession; and (iv) the

Table of Contents

acceptance by the concession holder of any new conditions for renewing the concession as set forth by IFT, including the payment of a related fee. To our knowledge, no spectrum granted for broadcasting services in Mexico has been recovered by the Mexican government in the past several years for public interest reasons; however, the Company is unable to predict the outcome of any action by IFT in this regard.

On March 13, 2015, the IFT investigative authority issued a preliminary opinion (the *Opinion*) which was published in the Official Gazette on March 18, 2015. The *Opinion* was issued pursuant to Transitory Article 39 of the LFTR and presumed the probable existence of substantial power in the pay television and audio services market in Mexico, with respect to the Company and some of its subsidiaries. The authority determined that the Company does not hold substantial power in the investigated markets. Although this resolution is final at the administrative level, certain third parties have filed *amparo* proceedings challenging the constitutionality of the IFT resolution. These challenges are still under review by the competent courts and the Company is not able to predict the outcome of these challenges.

As part of our expansion of our cable business, on August 13, 2014, we acquired Cablecom and its subsidiaries (the *Cablecom Acquisition*), and on January 8, 2015, we acquired Telecable and its affiliates and subsidiaries (the *Telecable Acquisition*). For each of the *Cablecom* and *Telecable Acquisitions*, the IFT conducted an investigation pursuant to transitory Article 9 of the LFTR in order to analyze and determine if, as result of each transactions, the Company acquired substantial market power in the restricted television and audio services market. On November 2, 2015, and February 29, 2016, respectively, the IFT ruled that there were no sufficient elements to determine the existence of market power in the municipalities of Mexico in which *Cablecom* and *Telecable* operate. The resolution concerning the *Cablecom Acquisition* has been challenged by certain third parties. These challenges are still under review by the competent courts.

Overall, the Telecom Reform, the LFTR and secondary regulations already issued and to be issued by the executive power or IFT, as applicable, as well as any actions taken by IFT, may increase our operating costs and interfere with our ability to provide, or prevent us from offering, some of our current or future services. Moreover, the entry of new market participants and the introduction of new products could result in an impairment to the prices of some of our products and/or costs and adversely affect our results in some business segments in future periods.

The resolutions issued by IFT under the Telecom Reform significantly and adversely affect certain areas related to some of our activities, including broadcasting, cable and telecommunications, as well as our ability to introduce new products, infrastructure and services, to enter into new businesses or complementary businesses, to consummate acquisitions or joint ventures, to determine the rates we charge for our products, services and use of our infrastructure, to acquire broadcast rights to exclusive content, and to charge market rates for the licensing of copyrights we hold.

Risk Factors Related to Our Major Stockholders

Emilio Azcárraga Jean has Substantial Influence Over Our Management and the Interests of Mr. Azcárraga Jean may Differ from Those of Other Stockholders

We have four classes of common stock: Series A Shares, Series B Shares, Series D Shares, and Series L Shares. A trust for the benefit of Emilio Azcárraga Jean, or the Azcárraga Trust, currently holds 43.0% of the outstanding Series A shares, 0.1% of the outstanding Series B shares, 0.1% of the outstanding Series D shares and 0.1% of the outstanding Series L shares of the Company. As a result, Emilio Azcárraga Jean controls the vote of most of the shares held through the Azcárraga Trust. The Series A Shares held through the Azcárraga Trust constitute a majority of the Series A Shares whose holders are entitled to vote because non-Mexican holders of CPOs and GDSs are not permitted to vote the underlying Series A Shares in accordance with the trust agreement governing the CPOs and the Company's bylaws. Accordingly, and so long as non-Mexicans own more than a minimal number of Series A Shares, Emilio Azcárraga Jean will have the ability to direct the election of 11 out of 20 members of our Board of Directors, as well as prevent certain actions by the stockholders, including dividend payments, mergers, spin-offs, changes in corporate purpose, changes of nationality and amendments to the anti-takeover provisions of our bylaws. See Major Stockholders and Related Party Transactions The Major Stockholders .

Table of Contents

As Controlling Stockholder, Emilio Azcárraga Jean Will Have the Ability to Limit Our Ability to Raise Capital, Which Would Require Us to Seek Other Financing Arrangements

Emilio Azcárraga Jean has the voting power to prevent us from raising money through equity offerings. Mr. Azcárraga Jean has informed us that if we conduct a primary sale of our equity, he would consider exercising his pre-emptive rights to purchase a sufficient number of additional Series A Shares in order to maintain such power. In the event that Mr. Azcárraga Jean is unwilling to subscribe for additional shares and/or prevents us from raising money through equity offerings, we would need to raise money through a combination of debt or other forms of financing, which we may not obtain, or if so, possibly not on favorable terms.

Risk Factors Related to Our Business

The Operation of Our Business May Be Adversely Affected if the Mexican Government Does Not Renew or Revokes Our Broadcast or Other Concessions

In June 2013, the Mexican Federal Congress passed the Telecom Reform which, among other things, created IFT. IFT has the authority to grant concessions for radio and television stations as well as for telecommunications services.

Under Mexican law, we need concessions from IFT (previously from SCT) to broadcast our programming over our television and radio stations, and to provide telecommunication services. In July 2004, in connection with the adoption of a release issued by the SCT for the transition to digital television, all of our broadcast television concessions were renewed until 2021. The expiration dates for the concessions for our radio stations range from 2016 to 2020. See Risk Factors Related to Mexico Existing Mexican Laws and Regulations or Changes Thereto or the Imposition of New Ones May Negatively Affect Our Operations and Revenue . The expiration dates of our Cable and Telecommunications concessions range from 2016 to 2044 and our DTH concessions expire in 2020 and 2026. The expiration dates for the concessions for our telephone services range from 2016 to 2044. Cablevisión obtained a telecommunications concession, which expires in 2029. Before the Telecom Reform in 2013, the SCT typically renewed the concessions of those concessionaires that complied with the applicable renewal procedures under Mexican law and with their obligations under the concession. In July 2014, the Mexican Federal Congress enacted the LFTR, which provides that integrated multiservice concessions will be renewed for terms equal to the maximum terms for which they could be granted, namely, up to 30 years.

Under Mexican law, we need a permit, or Gaming Permit, from the *Secretaría de Gobernación*, or Mexican Ministry of the Interior, to operate our gaming business. The operation of our gaming business may be terminated or interrupted if the Mexican Government does not renew or revokes our Gaming Permit. The Gaming Permit was granted to us on May 25, 2005 and the expiration date is May 24, 2030. We are unable to predict if we will obtain a renewal of the Gaming Permit.

We Face Competition in Each of Our Markets That We Expect Will Intensify

We face competition in all of our businesses, including broadcasting, advertising sales, cable, pay TV, telecommunications and all other businesses. The entities in which we have strategic investments and the joint ventures in which we participate also face competition. We expect that competition in our different businesses will intensify.

This competition mainly arises from the growth of the convergent market, pursuant to which certain concessionaries of telecommunication services are allowed to provide other services not included in their original concessions.

In television broadcasting, we face substantial competition from TV Azteca and other broadcasters such as Cadena 3 and Multimedios, among others. See [Information on the Company Business Overview Our Operations Content Television Industry in Mexico](#) and [Information on the Company Business Overview Our Operations Programming Television Networks](#) .

Table of Contents

Over-the-air broadcasting television also faces increased competition from other audiovisual platforms, including a great variety of pay-television channels distributed in Mexico, internet over-the-top (OTT) providers, and audiovisual content distributed over the internet and videogame systems.

We will also face additional competition in television broadcasting from at least Cadena Tres, which was granted a free to air broadcasting license with separate national coverage by IFT in March 2015. See Risk Factors Related to Mexico The Reform and Addition of Various Provisions of the Mexican Constitution Related to Telecommunications, the LFTR, and Other Recent Actions of IFT May Significantly and Adversely Affect the Business, Results of Operations and Financial Results of Some of Our Business Segments .

In radio broadcasting, we compete with other radio stations in their respective markets. Among our main competitors in the radio broadcast business are Grupo Radio Centro S.A.B. de C.V., NRM Comunicaciones, S.A. de C.V. and Grupo Acir, S.A. de C.V.

With respect to advertising, our radio and television stations compete with other radio and television stations in their respective markets, as well as with other advertising media, such as pay-TV, newspapers, magazines, internet and outdoor advertising.

Our DTH satellite business faces competition from various competitors, including Dish Mexico, a DTH satellite pay-TV platform which launched its services in Mexico at the end of 2008, Mega Cable Comunicaciones, S.A. de C.V., or Megacable, and from cable television companies which are subsidiaries of the Company. In addition, the DTH market competes with other media with respect to advertising and sales, including Pay-TV, outdoor advertising and publishing, among others.

At the end of 2012, Axtel launched a product called Axtel TV, which as of this date, under its basic package, offers up to 48 standard definition channels, optional virtual recording, in addition to internet and voice services.

In addition, the entertainment and telecommunications industries in which we operate are changing rapidly because of new participants and evolving distribution technologies, including the internet. As Mexico has completed the transition to digital television, it is likely that competition will also increase.

The cable industry in Mexico has become highly competitive and we face significant competition. Most cable operators are authorized to provide pay-TV, internet broadband services and voice services, including Voice over Internet Protocol, or VoIP, which poses a risk to us. We also face competition from the Preponderant Economic Agent in telecommunications, particularly in the provision of data and fixed telephony services.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Our pay-TV companies face competition from IPTV or online over-the-top (OTT) providers such as Netflix and Claro Video, as well as from other pay-TV operators such as Total Play, Megacable and other cable television companies, as well as from Dish Mexico and Sky.

We also face competition in our publishing business, where each of our magazine publications competes for readership and advertising revenues with other magazines of a general character and with other forms of print and non-print media.

Our business for production and distribution of feature films is a highly competitive business in Mexico. The various producers compete for the services of recognized talent and for film rights to scripts and other literary property. We compete with other feature film producers, Mexican and non-Mexican, and distributors in the distribution of films in Mexico and in the U.S. We also face competition in our other businesses. See [Information on the Company](#) [Business Overview](#) [Competition](#) .

Our principal competitors in the gaming industry are Codere S.A., or Codere, Corporación Interamericana de Entretenimiento, S.A.B. de C.V., or CIE, and Grupo Caliente S.A. de C.V., or Grupo Caliente.

With respect to the lottery industry, our principal competitors are the governmental lotteries, Pronósticos Deportivos and Loteria Nacional.

Our future success will be affected by changes in the broadcasting, advertising sales, cable, telecommunications, entertainment, gaming and other industries where we participate, which we cannot predict, and

Table of Contents

consolidation in such industries could further intensify competitive pressures. We expect to face competition from an increasing number of sources in Mexico, including emerging technologies that provide new services to pay-TV customers and new entrants in the public and pay-TV industries, which will require us to make significant capital expenditures in new technologies and will result in higher costs in the acquisition of content or may impair our ability to renew rights to special events, including sporting and entertainment events. Our cable business is highly competitive and capital intensive. Our business may require substantial capital to pursue additional acquisitions and capital expenditures which may result in additional incurrence of leverage, issuance of additional capital or a combination thereof.

The Seasonal Nature of Our Business Affects Our Revenue and a Significant Reduction in Fourth Quarter Net Sales Could Impact Our Results of Operations

Our business reflects seasonal patterns of advertising expenditures, which is common in the television broadcast industry, as well as cyclical patterns in periodic events such as the FIFA World Cup and the Olympic Games. We typically recognize a disproportionately large percentage of our Content advertising net sales in the fourth quarter in connection with the holiday shopping season. For example, in 2013, 2014 and 2015 we recognized 33.5%, 33.9% and 33.4%, respectively, of our net sales in the fourth quarter of the year. Accordingly, a significant reduction in fourth quarter advertising revenue could adversely affect our business, financial condition and results of operations.

DIRECTV Has Certain Governance and Veto Rights Over Some Operations of Innova

We own a 58.7% interest in Innova, our DTH venture in Mexico, Central America and the Dominican Republic. The remaining balance of Innova's equity is indirectly owned by The DIRECTV Group, Inc., or DIRECTV, through its subsidiaries DTH (Mexico) Investment, LTD, DIRECTV Latin America Holdings, Inc., or DIRECTV Holdings, and DIRECTV Latin America LLC, or DTVLA. Although we hold a majority of Innova's equity and designate a majority of the members of Innova's Board of Directors, DIRECTV has certain governance and veto rights in Innova, including the right to block certain transactions between us and Innova. According to public information, DIRECTV was acquired by AT&T Inc. in July 2015.

Loss of Transmission or Loss of the Use of Satellite Transponders Could Cause a Business Interruption in Innova, Which Would Adversely Affect Our Net Income

Media and telecom companies, including Innova, rely on satellite transmissions to conduct their day-to-day business. Any unforeseen and sudden loss of transmission or non-performance of the satellite for Innova can cause huge losses to Innova's business. The unforeseen loss of transmission may be caused due to the satellite's loss of the orbital slot or the reduction in the satellite's functional life.

The size of the business interruption impact for Innova in the case of a satellite loss exceeds the insurance we have acquired to cover this risk. In order to reduce the possibility of financial consequences resulting from an unforeseen loss of transmission, Innova entered into an agreement to launch a backup satellite jointly with Sky Brasil Servicos Ltda., or Sky Brasil, which was launched in the first quarter of 2010. In the third

quarter of 2013, Sky entered into an agreement with DirecTV for the acquisition and launch of a satellite (SM1), which started operations in June 2015. In the future, we may have to invest in additional satellite capacity. We cannot predict the extent of losses to Innova in the case of current or new satellite loss or the effectiveness of any alternative strategy.

Any Incidents Affecting Our Network and Information Systems or Other Technologies Could Have an Adverse Impact on Our Business, Reputation and Results of Operations

Our business operations rely heavily on network and information systems and other technology systems. Incidents affecting these systems, including cyber-attacks, viruses, other destructive or disruptive software or activities, process breakdowns, outages, or accidental release of information, could result in a disruption of our operations, improper disclosure of personal data or other privileged or confidential information, or unauthorized access to our digital content or any other type of intellectual property. Any such incident could cause damage to our reputation and may require us to expend substantial resources to remedy the situation and could therefore have a material adverse effect on our business and results of operations. In addition, there can be no assurance that any efforts we make to prevent or mitigate these incidents will be successful in avoiding harm to our business.

The Results of Operations of Univision Holdings, Inc. May Affect Our Results of Operations and the Value of Our Investment in That Company

We have a substantial investment in Univision Holdings, Inc., or UHI (formerly known as Broadcasting Media Partners, Inc., or BMP), the parent company of Univision Communications, Inc., or Univision. However, we do not control and do not consolidate the results of UHI. Our investment in UHI is currently held in the form of common stock and warrants that are exercisable for shares of common stock. Our exercise of the warrants into shares of common stock of UHI is subject to certain conditions. The value of the common stock of UHI could materially increase or decrease the carrying value of the warrants, as they are measured at fair value. After the exercise of the warrants, we will remain a minority equity holder of UHI. The results of operations of UHI and Univision may affect the value of our investment in UHI and our results of operations. The business, financial condition and results of operations of Univision could be materially and adversely affected by risks including, but not limited to: (i) failure to service debt, (ii) cancellation, reductions or postponements of advertising, (iii) an increase in the preference among Hispanics for English-language programming, (iv) an increase in the cost of, and decrease in the supply, quality of and demand for, Univision's programming, (v) changes in the rules and regulations of the Federal Communications Commission (the "FCC"), (vi) competitive pressures from other broadcasters and other entertainment and news media, (vii) failure to retain the rights to sports programming, (viii) possible strikes or other union job actions and (ix) the impact of new technologies.

There can be no assurance that the results of operations of UHI and its respective subsidiaries will be sufficient to maintain or increase the value of our investment in such company, or that such results will not materially and adversely affect our results of operations. For a discussion of our investment in UHI, see "Information on the Company" Business Overview Univision .

The Amendment to the Regulations of the General Health Law on Advertising Could Materially Affect Our Business, Results of Operations and Financial Condition

On February 14, 2014, the Mexican Ministry of Health published in the Official Gazette of the Federation an amendment to the Regulations of the General Health Law on Advertising, pursuant to which advertisers of certain high-caloric foods and non-alcoholic beverages are required to obtain prior permission from the health authorities in order to advertise their products on radio, broadcast television, pay-TV and in movie theaters (the "Health Law Amendment"). The Health Law Amendment became effective on April 16, 2014 and comprehensive guidelines entitled "Guidelines with nutritional and advertising criteria for advertisers of food and non-alcoholic beverages for obtaining permission for the advertising of their products with respect to the provisions of Articles 22bis and 79 of the Regulations of the General Health Law on Advertising" (the "Health Law Guidelines") were published in the Official Gazette of the Federation on April 15, 2014 and became effective on July 7, 2014 for the advertisement of the following products: snacks, flavored drinks, candies, chocolates, or foods similar to chocolates and became effective for the remaining products on January 1, 2015.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

The Health Law Guidelines restrict the hours that certain high-caloric foods and non-alcoholic drinks can be advertised. These restrictions do not apply when the advertisement is aired during certain programs such as sports, telenovelas, news programs, series officially rated as unsuitable for children, films with ratings of B, B15, C and D, and programs where the advertiser certifies through audience research that people between the ages of 4 and 12 represent no more than 35% of the audience and receives the prior consent from the Federal Commission for the Protection Against Health Risks.

Risk Factors Related to Our Securities

Any Actions Stockholders May Wish to Bring Concerning Our Bylaws or the CPO Trust Must Be Brought in a Mexican Court

Our bylaws provide that a stockholder must bring any legal actions concerning our bylaws in courts located in Mexico City. All parties to the trust agreement governing the CPOs, including the holders of CPOs, have agreed to submit any legal actions concerning the trust agreement only to Mexican courts.

Table of Contents

Non-Mexicans May Not Hold Series A Shares, Series B Shares or Series D Shares Directly and Must Have Them Held in a Trust at All Times

Although, as a result of the Telecom Reform, foreign investors are no longer restricted from holding equity interests in Mexican companies doing business in the telecommunications industry, the trust governing the CPOs and our bylaws nevertheless restrict non-Mexicans from directly owning Series A Shares, Series B Shares or Series D Shares. Non-Mexicans may hold Series A Shares, Series B Shares or Series D Shares indirectly through the CPO Trust, which will control the voting of such shares. Under the terms of the CPO Trust, a non-Mexican holder of CPOs or GDSs may instruct the CPO Trustee to request that we issue and deliver certificates representing each of the shares underlying its CPOs so that the CPO Trustee may sell, to a third party entitled to hold the shares, all of these shares and deliver to the holder any proceeds derived from the sale.

Non-Mexican Holders of Our Securities Forfeit Their Securities if They Invoke the Protection of Their Government

Pursuant to Mexican law, our bylaws provide that non-Mexican holders of CPOs and GDSs may not ask their government to interpose a claim against the Mexican government regarding their rights as stockholders. If non-Mexican holders of CPOs and GDSs violate this provision of our bylaws, they will automatically forfeit the Series A Shares, Series B Shares, Series L Shares and Series D Shares underlying their CPOs and GDSs to the Mexican government.

Non-Mexican Holders of Our Securities Have Limited Voting Rights

In accordance with the bylaws and trust governing the CPOs of the Company, non-Mexican holders of CPOs or GDSs are not entitled to vote the Series A Shares, Series B Shares and Series D Shares underlying their securities. The Series L Shares underlying CPOs or GDSs, the only series of our Shares that can be voted by non-Mexican holders of CPOs or GDSs, have limited voting rights. These limited voting rights include the right to elect two directors and limited rights to vote on extraordinary corporate actions, including the delisting of the Series L Shares and other actions which are adverse to the holders of the Series L Shares. For a brief description of the circumstances under which holders of Series L Shares are entitled to vote, see Additional Information Bylaws Voting Rights and Stockholders Meetings .

Our Antitakeover Protections May Deter Potential Acquirers and May Depress Our Stock Price

Certain provisions of our bylaws could make it substantially more difficult for a third party to acquire control of us. These provisions in our bylaws may discourage certain types of transactions involving the acquisition of our securities. These provisions may also limit our stockholders' ability to approve transactions that may be in their best interests and discourage transactions in which our stockholders might otherwise receive a premium for their Shares over the then current market price, and could possibly adversely affect the trading volume in our equity securities. As a result, these provisions may adversely affect the market price of our securities. Holders of our securities who acquire Shares in violation of these provisions will not be able to vote, or receive dividends, distributions or other rights in respect of these securities and would be obligated to pay us a penalty. For a description of these provisions, see Additional Information Bylaws Antitakeover Protections .

GDS Holders May Face Disadvantages When Attempting to Exercise Voting Rights as Compared to Other Holders of Our Securities

In situations where we request that The Bank of New York Mellon, the depository for the securities underlying the GDSs, ask GDS holders for voting instructions, the holders may instruct the depository to exercise their voting rights, if any, pertaining to the deposited securities. The depository will attempt, to the extent practical, to arrange to deliver voting materials to these holders. We cannot assure holders of GDSs that they will receive the voting materials in time to ensure that they can instruct the depository how to vote the deposited securities underlying their GDSs, or that the depository will be able to forward those instructions and the appropriate proxy request to the CPO Trustee in a timely manner. For stockholders' meetings, if the depository does not receive voting instructions from holders of GDSs or does not forward such instructions and appropriate proxy request in a timely manner, if requested in writing from us, it will provide a proxy to a representative designated by us to exercise these voting rights. If no such written request is made by us, the depository will not represent or vote, attempt to represent or vote any right that attaches to, or instruct the CPO Trustee to represent or vote, the shares underlying the CPOs in the relevant meeting and, as a result, the underlying shares will be voted in the manner described under Additional Information Bylaws Voting Rights and Stockholders' Meetings Holders of CPOs . For CPO Holders

Table of Contents

meetings, if the depositary does not timely receive instructions from a Mexican or non-Mexican holder of GDSs as to the exercise of voting rights relating to the underlying CPOs in the relevant CPO holders' meeting, the depositary and the custodian will take such actions as are necessary to cause such CPOs to be counted for purposes of satisfying applicable quorum requirements and, unless we in our sole discretion have given prior written notice to the depositary and the custodian to the contrary, vote them in the same manner as the majority of the CPOs are voted at the relevant CPOs holders' meeting.

This means that holders of GDSs may not be able to exercise their right to vote and there may be nothing they can do if the deposited securities underlying their GDSs are not voted as they request.

The Interests of Our GDS Holders Will Be Diluted if We Issue New Shares and These Holders Are Unable to Exercise Preemptive Rights for Cash

Under Mexican law and our bylaws, our stockholders have preemptive rights with respect to capital increases. This means that in the event that we issue new Shares for cash, our stockholders will have a right to subscribe and pay the number of Shares of the same series necessary to maintain their existing ownership percentage in that series. U.S. holders of our GDSs cannot exercise their preemptive rights unless we register any newly issued Shares under the U.S. Securities Act of 1933, as amended, or the Securities Act, or qualify for an exemption from registration. If U.S. holders of GDSs cannot exercise their preemptive rights, the interests of these holders will be diluted in the event that we issue new Shares for cash. We intend to evaluate at the time of any offering of preemptive rights the costs and potential liabilities associated with registering any additional Shares. We cannot assure you that we will register under the Securities Act any new Shares that we issue for cash. In addition, although the Deposit Agreement provides that the depositary may, after consultation with us, sell preemptive rights in Mexico or elsewhere outside the U.S. and distribute the proceeds to holders of GDSs, under current Mexican law these sales are not possible. See *Directors, Senior Management and Employees' Stock Purchase Plan and Long-Term Retention Plan* and *Additional Information Bylaws' Preemptive Rights*.

The Protections Afforded to Minority Stockholders in Mexico Are Different From Those in the U.S.

Under Mexican law, the protections afforded to minority stockholders are different from those in the U.S. In particular, the law concerning fiduciary duties of directors is not well developed, there is no procedure for class actions or stockholder derivative actions and there are different procedural requirements for bringing stockholder lawsuits. As a result, in practice, it may be more difficult for our minority stockholders to enforce their rights against us or our directors or major stockholders than it would be for stockholders of a U.S. company.

The *Ley del Mercado de Valores*, or the Mexican Securities Market Law, provides additional protection to minority stockholders, such as (i) providing stockholders of a public company representing 5% or more of the capital stock of the public company, an action for liability against the members and secretary of the Board and relevant management of the public company, and (ii) establishing additional responsibilities on the audit committee in all issues that have or may have an effect on minority stockholders and their interests in an issuer or its operations.

It May Be Difficult to Enforce Civil Liabilities Against Us or Our Directors, Executive Officers and Controlling Persons

We are organized under the laws of Mexico. Substantially all of our directors, executive officers and controlling persons reside outside the U.S., all or a significant portion of the assets of our directors, executive officers and controlling persons, and substantially all of our assets, are located outside of the U.S., and some of the parties named in this annual report also reside outside of the U.S. As a result, it may be difficult for you to effect service of process within the United States upon these persons or to enforce against them or us in U.S. courts judgments predicated upon the civil liability provisions of the federal securities laws of the U.S. We have been advised by our Mexican counsel, Mijares, Angoitia, Cortés y Fuentes, S.C., that there is doubt as to the enforceability, in original actions in Mexican courts, of liabilities predicated solely on U.S. federal securities laws and as to the enforceability in Mexican courts of judgments of U.S. courts obtained in actions predicated upon the civil liability provisions of U.S. federal securities laws.

Item 4. Information on the Company

History and Development of the Company

Grupo Televisa, S.A.B. is a *sociedad anónima bursátil*, or limited liability stock corporation, which was organized under the laws of Mexico in accordance with the *Ley General de Sociedades Mercantiles*, or Mexican Companies Law. Grupo Televisa was incorporated under Public Deed Number 30,200, dated December 19, 1990, granted before Notary Public Number 73 of Mexico City, and registered with the Public Registry of Commerce in Mexico City on Commercial Page (*folio mercantil*) Number 142,164. Pursuant to the terms of our *estatutos sociales*, or bylaws, our corporate existence continues through 2106. Our principal executive offices are located at Avenida Vasco de Quiroga, No. 2000, Colonia Santa Fe, 01210, Mexico City, Mexico. Our telephone number at that address is (52) (55) 5261-2000.

Business Overview

Televisa is a leading media company in the Spanish-speaking world, an important cable operator in Mexico, and an operator of a leading direct-to-home satellite pay television system in Mexico.

Televisa distributes the content it produces through several broadcast channels in Mexico and in over 50 other countries through 26 pay-tv brands and television networks, cable operators and over-the-top or OTT services.

In the United States, Televisa's audiovisual content is distributed through Univision, the leading media company serving the Hispanic market. Univision broadcasts Televisa's audiovisual content through multiple platforms in exchange for a royalty payment. In addition, Televisa has equity and warrants which upon their exercise and subject to any necessary approval from the Federal Communications Commission of the United States would represent approximately 36% on a fully-diluted, as-converted basis of the equity capital in Univision Holdings Inc., the controlling company of Univision.

Televisa's cable business offers integrated services, including video, high-speed data and voice services to residential and commercial customers as well as managed services to domestic and international carriers through five cable Multiple System Operators in Mexico.

Televisa owns a majority interest in Sky, a leading direct-to-home satellite pay television system in Mexico, operating also in the Dominican Republic and Central America.

Televisa also has interests in magazine publishing and distribution, radio production and broadcasting, professional sports and live entertainment, feature-film production and distribution, and gaming.

Business Strategy

We intend to leverage our position as a leading media company in the Spanish-speaking world to continue expanding our business while maintaining profitability and financial discipline. We intend to do so by maintaining our leading position in the Mexican television market, by continuing to produce high quality programming and by improving our sales and marketing efforts while maintaining high operating margins and expanding our cable business.

By leveraging all our business segments and capitalizing on their synergies to extract maximum value from our content and our distribution channels, we also intend to continue expanding our cable business, increasing our international programming sales worldwide and strengthening our position in the growing U.S.-Hispanic market. We also intend to continue developing and expanding Sky, our DTH platform, and our cable businesses. We will continue to strengthen our position and will continue making additional investments, which could be substantial in size, in the DTH and cable industry in accordance with the consolidation of the cable market in Mexico, and we will also continue developing our publishing business and maintain our efforts to become an important player in the gaming industry.

We intend to continue to expand our business by developing new business initiatives and/or through business acquisitions and investments in Mexico, the United States and elsewhere.

Maintaining Our Leading Position in the Mexican Television Market

Continuing to Produce High Quality Programming. We aim to continue producing the type of high quality television programming that in the past has propelled many of our programs to be among the most watched in Mexico. We have launched a number of initiatives in creative development, program scheduling and on-air promotion. These initiatives include improved production of our highly rated telenovelas, new comedy and game show formats and the development of reality shows and new series. We have improved our scheduling to be better aligned with viewer habits by demographic segment while improving viewer retention through more dynamic on-air graphics and pacing. We have enhanced tune-in promotion both in terms of creative content and strategic placement. We also plan to continue expanding and leveraging our Spanish-language video library, rights to soccer games and other events, as well as cultural, musical and show business productions. In addition, our strategic alliance with Telemundo allows us to broadcast more than 1,000 hours per year of Telemundo's original programming on Channel 9 and distribute Telemundo content in Mexico on an exclusive basis across multiple platforms including broadcast television, pay television and our emerging digital platforms.

Improving Our Sales and Marketing Efforts. Over the past few years we have improved, and we are continuing to improve, our television broadcasting advertising sales strategy in the following ways:

- we have developed strategies for monetizing Televisa's greatest asset, its content by, for example, increasing special events prices;
- our sales force is organized in teams focusing on groups of clients in order to also provide multi-platform offers;
- we are emphasizing a performance-based compensation policy for salespeople such that a larger portion of total compensation comprises variable incentives tied to year-end results; and
- we are continuing to provide our customers with increased opportunities for custom made product placement and branded entertainment.

For a discussion of our advertising sales plan, see [Our Operations](#) [Content](#) [Advertising Sales Plan](#).

Maintaining High Operating Segment Income Margins. Our Content operating segment income margins for 2014 and 2015 were 44.6% and 42.4%, respectively. We intend to continue maintaining high operating segment income margins in our Content businesses by increasing revenues and controlling costs and expenses.

Continue Building Our DTH and Cable Platforms

DTH. We believe that Ku-band DTH satellite services offer an enhanced opportunity for expansion of pay television services into cable households seeking to upgrade reception of our broadcasting and in areas not currently serviced by operators of cable or multi-channel, multi-point distribution services. We own a 58.7% interest in Innova, or Sky, our venture with DIRECTV. Innova is a DTH company with services in Mexico, Central America and the Dominican Republic with approximately 7.3 million subscribers, of which 2.5% were commercial subscribers as of December 31, 2015.

The key components of our DTH strategy include:

- offering high quality programming, including rights to our four over-the-air broadcast channels, exclusive broadcasts of sporting events, such as the largest coverage of the Mexican Soccer League and the Spanish Soccer League, including La Liga and La Copa del Rey, the FA Cup, the NFL Sunday Ticket, NBA Pass, MLB Extra Innings, the NHL, WTA, bullfighting, World Equestrian Games, marathons, Diamond League, Capital One Cup, the largest coverage of the Mexican Baseball League (LMB), ATP & TT tournaments, and the Basketball Euroleague;
- capitalizing on our relationship with DIRECTV and local operators in terms of technology, distribution networks, infrastructure and cross-promotional opportunities;
- capitalizing on the low penetration of pay-TV services in Mexico;

Table of Contents

- providing superior digital Ku-band DTH satellite services and emphasizing customer service quality; and
- providing aggressive HD offerings and continuously expanding our programming in HD.

Cable. We are a shareholder of several Mexican cable companies. For example:

- we own a controlling stake in Cablevisión, which operates in Mexico City and its metropolitan area, where it offers cable television, high speed internet and IP telephony services;
- we own TVI, which offers cable television, data and voice services in the metropolitan area of Monterrey and other areas of northern Mexico;
- we own Cablemás, which operates in approximately 60 cities in Mexico where it offers cable television, high speed internet and telephony services;
- we own Cablecom, which offers cable television, telephony, value added services and virtual networks to corporate customers around 16 states of Mexico; and
- we own Telecable, a cable company that provides video, data and telephony services in Mexico, primarily in the states of Guanajuato, Jalisco, Aguascalientes, Queretaro, Tamaulipas, and Colima, among others.

With a consolidated subscriber base of 4,061,655 cable television, or video subscribers and 12.2 million homes passed as of December 31, 2015, these companies are important service providers in Mexico. Homes passed refers to any residential homes or businesses that are connected to telecommunications systems, or those prepared to be connected to telecommunications systems but are not currently connected or that require some type of investment in order for them to be connected. For instance, each apartment located in a building that is prepared to be connected to telecommunications systems represents one home passed. It is generally understood that a home or business counts as a home passed when it can be connected to a telecommunications network without additional extensions to the main transmission lines. Our cable strategy aims to increase our subscriber base, average monthly revenues per subscriber and penetration rate by:

- continuing to offer high quality programming;
- continuing to upgrade our existing cable network into a broadband bidirectional network;
- aiming to provide digital services in order to stimulate new subscriptions, substantially reduce piracy and offer new value-added services;
- increasing the penetration of our high-speed internet access and other multimedia services as well as providing a platform to offer internet protocol, or IP, and telephony services;
- continuing the roll out of advanced digital set-top boxes which allow the transmission of high definition programming and recording capability; and
- continuing to leverage our strengths and capabilities to develop new business opportunities and expand through additional investments and/or acquisitions, which can be substantial in size.

Our cable companies have introduced a variety of new services over the past few years, such as interactive television and other enhanced program services, including high-speed internet access through cable modem as well as IP telephony. In November 2014, we launched izzi™, our principal brand for residential customers, offering a revolutionary double-play package with unlimited telephony services and high-speed data access. In addition, the double-play package can be upgraded to a triple-play package by adding one of three pay-TV bundles. As of December 31, 2015, we have launched izzi in 47 cities, generating significant increases in gross ads. As of December 31, 2015, our cable companies had 3,066,699 broadband subscribers. The growth in our subscriber base has been driven primarily by the upgrade of our networks and the launch of competitive broadband offerings. As of December 31, 2015, our cable companies had 1,891,026 IP telephone lines in service, or voice subscribers.

Continue Expanding the Portfolio of Channel Offerings in Mexico and Abroad

Network Subscription. Through our 26 pay-TV brands and 51 national and international feeds, we reached more than 44 million subscribers throughout Latin America, the United States, Canada, Europe and Asia Pacific in 2015. Our pay-TV channels include, among others, three music, six movie, seven variety and entertainment channels and two sports channels. Both of our sports channels offer 24 hour a day programming 365 days a year. Popular channels include, among others, TL Novelas, Televisa Deportes Network, or TDN and Distrito Comedia.

Transforming Our Publishing Business

Despite the continuing challenges facing the industry, we believe we continue to be among the leaders of the publishing business and maintained a total approximate circulation of 103 million magazines during 2015. We believe our subsidiary, Editorial Televisa, S.A. de C.V., or Editorial Televisa, is the most important Spanish-speaking publishing company in the world in number of magazines distributed. Editorial Televisa publishes 151 titles, with 71 wholly-owned trademarks and 26 licensed trademarks from world renowned publishing houses, including Spanish language editions of some of the most prestigious brands in the world. Editorial Televisa distributes its titles to 17 countries, including Mexico, the United States and countries throughout Latin America.

Increasing Our International Programming Sales Worldwide and Strengthening Our Position in the Growing U.S.-Hispanic Market

We license our programs to television broadcasters and pay-TV providers in the United States, Latin America, Asia, Europe and Africa. Excluding the United States, in 2015, we licensed 80,444 hours of programming in 72 countries throughout the world. We intend to continue exploring ways of expanding our international programming sales.

According to the Annual Estimates of the Resident Population by Sex, Age, Race, and Hispanic Origin for the United States: April 1, 2010 to July 1, 2014 issued by the U.S. Census Bureau, the U.S.-Hispanic population is estimated to be 55.4 million, or approximately 17% of the U.S. population, as of July 1, 2014 and is currently one of the fastest growing segments in the U.S. population, with the growth among Hispanics responsible for over half of the U.S. population gains between 2000 and 2010. The U.S. Census Bureau projects that the Hispanic population will be approximately 20.3% of the U.S. population by the year 2025. Hispanics are expected to account for U.S.\$1.6 trillion of U.S. consumer spending, or 10.6% of the U.S. total disposable income, by 2018, outpacing the expected growth in total U.S. consumer expenditures.

We intend to leverage our unique and exclusive content, media assets and long-term associations with others to benefit from the growing demand for entertainment among the U.S.-Hispanic population.

We supply television programming for the U.S.-Hispanic market through Univision, the leading media company serving Hispanic America. In exchange for this programming, during 2013, 2014 and 2015, Univision paid us U.S.\$273.2 million, U.S.\$313.7 million and U.S.\$311.1 million respectively, in royalties. For a description of our arrangements with Univision, see Univision .

Developing New Businesses and Expanding through Acquisitions

We plan to continue leveraging our strengths and capabilities to develop new business opportunities and expand through acquisitions in Mexico, the United States and elsewhere. We are constantly seeking investment opportunities that complement our cable strategy. We may identify and evaluate opportunities for strategic acquisitions of complementary businesses, technologies or companies. We may also consider joint ventures, minority investments and other collaborative projects and investments. Any such acquisition or investment could be funded using cash on hand, our equity securities and/or the incurrence of debt, or a combination thereof, and could be substantial in size.

Some of our recent acquisitions and investments include:

- our acquisition in August 2014 of Cablecom, a cable company that offers video, telephony and data services in Mexico;
- our acquisition in January 2015 of Telecable, a cable company that provides video, data and telephony services in Mexico, primarily in the states of Guanajuato, Jalisco, Aguascalientes, Queretaro, Tamaulipas, and Colima, among others; and

Table of Contents

- our acquisition of the remaining 50% of equity interest of TVI in March 2016, a cable company that provides cable television, internet access, telephony services and bidirectional data transmission in the metropolitan area of Monterrey and other areas of northern Mexico.

For a further discussion of some of our recent investments, see [Investments](#) .

We also plan to continue growing our gaming business, which consists of casinos and a national lottery. As of December 31, 2015, we had 17 casinos in operation, under the brand name [PlayCity](#) . In accordance with our permit, we plan to continue opening casinos. In addition, during 2007 we launched Multijuegos, an online lottery with access to a nationwide network of approximately 13,560 points of sale through electronic terminals. The casinos and Multijuegos are operated under the Gaming Permit obtained from the Mexican Ministry of the Interior, to establish, among other things, up to 55 casinos and number draws throughout Mexico.

Expanding Our Business in the Mexican Telecommunications Markets by Taking Advantage of the Telecom Reform and Implementing Legislation

Pursuant to the Telecom Reform (see [Regulation Telecom Reform and Broadcasting Regulations](#)), a preponderant economic agent (*agente economico preponderante*) in the telecommunications market means an economic agent that has, directly or indirectly, more than 50% of the national market share in telecommunications services, calculated based on the number of users, subscribers, network traffic or used capacity according to the data available to IFT. We are aware from the public records that, on March 7, 2014, IFT notified América Móvil, S.A.B. de C.V., or América Móvil, of a resolution which determined that América Móvil and its operating subsidiaries Radiomóvil Dipsa, S.A de C.V., or Telcel, and Teléfonos de México, S.A.B. de C.V., or Telmex, as well as Grupo Carso, S.A.B. de C.V. and Grupo Financiero Inbursa, S.A.B. de C.V., are a preponderant economic agent in the telecommunications market, and imposed on them certain specific asymmetrical regulations which América Móvil reported publicly in the following areas:

- **Interconnection:** Regulation on interconnection, including the imposition of (a) asymmetric rates to be determined by IFT and (b) the implementation of an interconnection framework agreement (*convenio marco de interconexión*);
- **Sharing of Infrastructure:** Regulation on the access and use of passive infrastructure, including towers, sites, ducts and rights of way, at rates to be negotiated amongst the operators and, where agreement cannot be reached, to be determined by IFT using a methodology of long term average incremental costs;

- Local Loop Unbundling: Regulation on local loop unbundling, including the imposition of rates to be determined by IFT using a methodology of long term average incremental costs;
- Wholesale of Leased Lines: Regulation on wholesale of leased lines for interconnection, local and domestic and international long distance, at rates to be negotiated among the operators and, where agreement cannot be reached, to be determined by IFT using a methodology of retail minus, except for leased lines for interconnection services where the methodology to be used for determining the applicable rates will be of long term average incremental costs;
- Roaming: Regulation on the provision of wholesale roaming services, at rates to be negotiated amongst the operators and, where agreement cannot be reached, to be determined by IFT using a methodology of long term average incremental costs;
- Elimination of National Roaming Charges: IFT has imposed the elimination of national roaming charges to the preponderant economic agent's subscribers;
- Mobile Virtual Operators: Regulation on wholesale access to mobile virtual operators to services provided by the preponderant economic agent to its subscribers, at rates to be negotiated among the operators and, where agreement cannot be reached, to be determined by IFT using a methodology of retail minus;
- Certain Obligations on the Provision of Services: Certain rates for the provision of telecommunications services to the subscribers of the preponderant economic agent shall be subject to rate control and/or

Table of Contents

authorization by IFT, by using a series of methodologies related to maximum prices and replicability. Also, a series of obligations relating to the sale of services and products, including the obligation to offer individually all services that are offered under a bundle scheme; limited exclusivity on handsets and tablets; and the obligation of eliminating the sim-lock on handsets;

- **Content:** IFT has issued the Relevant Content Ruling applicable for Preponderant Economic Agents, which contains a prohibition to acquire transmission rights for any territory within Mexico on an exclusive basis, relating to relevant content (*contenidos audiovisuales relevantes*), including without limitation national soccer play-offs (*liguilla*), FIFA world cup soccer finals and, any other event where high-audiences are expected at a national or regional level. The IFT may update the relevant content list every two years; and
- **Information and Quality of Service Obligations:** Several obligations related to information and quality of service, including the publication of a series of reference terms (*ofertas públicas de referencia*) of the wholesale and interconnection services subject of the asymmetric regulation imposed by IFT and accounting separation.

According to public records, América Móvil and its subsidiaries filed on April 1, 2014 an *amparo* proceeding against IFT's resolution. The resolution is still pending.

The measures imposed on the preponderant economic agent, if properly implemented, will represent an opportunity for us to increase our coverage and product diversity, while reducing our costs and capital expenditures requirements as a result of the access to the network of the preponderant economic agent and the regulation of the terms and conditions, on competitive terms, of such access. Moreover, asymmetric regulations may create a beneficial economic and regulatory environment in the telephony and broadband markets and may further enhance our ability to compete in the telecommunications industry.

All of these measures, if properly implemented, could create a beneficial economic and regulatory environment, level the playing field for all participants in the telecommunications market and foster competition, representing an opportunity for the growth of our Sky and cable businesses.

We notified IFT of the Cablecom and Telecable Acquisitions according to transitory Article 9 of the LFTR. The LFTR establishes that IFT shall initiate an investigation to determine the possible existence of substantial market power in any of the relevant markets of the telecommunications and broadcasting sectors. If substantial market power is determined, IFT may impose the necessary measures. For each of the Cablecom and Telecable Acquisitions, the IFT conducted an investigation pursuant to transitory Article 9 of the LFTR in order to analyze and determine if, as result of each transactions, the Company acquired substantial market power in the restricted television and audio services market. On November 2, 2015, and February 29, 2016, respectively, the IFT ruled that there were no sufficient elements to determine the existence of market power in the municipalities of Mexico in which Cablecom and Telecable operate. The resolution concerning the Cablecom Acquisition has been challenged by certain third parties. These challenges are still under review by the competent courts.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Additionally, the Telecom Reform (1) permits 100% foreign ownership in satellite and telecommunications services and increases to up to 49% the level of permitted foreign ownership in television and radio services, subject to reciprocity of the originating foreign investment country, and (2) provides that the Mexican government will build a national network to facilitate effective access for the Mexican population to broadband and other telecommunications services. These amendments may provide opportunities for us to enter into joint ventures with foreign investors with proven international experience in these markets and also to work with the Mexican government in the development of this new network.

The Telecom Reform also calls for the *Plan Nacional de Desarrollo*, or National Development Plan, to include a program for installing broadband connections in public facilities, which would identify the number of sites to be connected per year to promote access to broadband. We believe our potential participation in this program could result in business opportunities while improving the quality of the telecommunications services to be provided by the Mexican government.

Commitment to Sustainability

We have made, and will continue to make, sustainable development part of our offerings and commercial strategy, in order to continue meeting the expectations of, and creating added value for, our stockholders. As part of our commitment to sustainability, we have named a sustainability officer in addition to establishing a committee which comprises some of our high-level executive officers as well as independent consultants and which will reinforce our efforts related to sustainability. As a result of our commitment, as of February 1, 2013, we were named one of the six members of the *IPC Sustentable*, or Sustainability Index, of the *Bolsa Mexicana de Valores*, or Mexican Stock Exchange; and on January 29, 2016 we were confirmed as a sustainable issuer for the period effective as of February 2, 2016 through January 29, 2017. The Sustainability Index currently includes 30 issuers, which have been selected based on their commitment to corporate governance, social responsibility and environmental management.

As of March 2016, we have committed to join the United Nations Global Compact, the world's largest corporate sustainability initiative, and have committed to make its Ten Principles part of our strategy, culture and daily actions.

Commitment to Social Responsibility

We are deeply committed to strengthening communities throughout Mexico and investing in their development. During the last 15 years, through Fundación Televisa, or Fundación, we have created and supported programs that provide educational opportunities, promote cultural identity and encourage communal engagement. Fundación offers a wide range of tools and opportunities that shape the lives of millions of Mexicans. We have taken advantage of the Company's wide range of media platforms to promote social awareness campaigns, and digital platforms to foster civic participation. Fundación has developed various digital educational platforms that, through innovation and creativity, allow users to substantially improve their abilities and capabilities. These no-cost, self-teaching tools are broadly available to many Mexicans that would otherwise lack basic tools and access to opportunities. Many of these efforts have improved the lives of thousands of people.

Establishing strong, strategic partnerships is a priority for Fundación. These partnerships have improved Fundación's effectiveness and have broadened its reach. We continuously seek out and collaborate with experts in the academic, business, and financial fields, as well as with other organizations to benefit a greater number of people. During these 15 years we have developed partnerships with more than 400 non-governmental organizations, public and private institutions.

We believe that the best way to enhance quality of life, increase economic opportunities, and improve the well-being of families across Mexico is through education. Therefore, we offer a range of programs tailored for every development stage, including early stimulation programs for newborns to 3 year-olds, access to high-quality elementary and basic education for 4 to 15 year-olds, programs to increase middle and high school completion rates for 16 to 22 year-olds, and programs that develop employability skills for adults above the age of 23. These programs, which focus on enhancing the quality of education in Mexico, include scholarships, school infrastructure, media labs, reading workshops, knowledge competitions, infrastructure for schools, and the promotion of entrepreneurship and universal values. Our entrepreneurship program *Posible*, has become the biggest non-governmental effort in Latin America, enrolling more than 42,000 individuals in 2015.

Fundación also focuses on expanding the reach of Mexican culture. We promote our cultural values inside and outside of Mexico, sponsoring and promoting various exhibitions, collaborations, and investigative digital and editorial projects that benefit from access to our photography and audiovisual collection.

In the United States, through Televisa Foundation, we support the American Hispanic community. Our efforts are particularly focused on improving the lives of Hispanic children and young adults through programs focused on education and culture, including:

- A program to communicate the importance of early stimulation for healthy cognitive development to Hispanic families. To that end, we provide practical information and disseminate our message through Univision and various other social media platforms, reaching millions of people.
- State of the art learning materials and teacher training programs to strengthen bilingual education for young students. Our platform *Aprende con el Chavo* has reached more than half a million users in the United States, and our online courses have provided support to more than 1,500 teachers around the United States.
- A program directed to boosting the development of scientific and technological abilities in Hispanic children, with an emphasis on young women. Last year, more than 7,000 students enrolled in our program in six different cities throughout the United States.

Table of Contents

Additionally, Televisa Foundation's cultural program aims to strengthen the sense of identity among Hispanic families and promotes Mexican visual arts in the United States. In 2015, we sponsored an exhibition of Gabriel Figueroa's work at the Museo del Barrio in New York City as well as a film cycle at the Museum of Modern Art in New York City.

Our Operations

As of December 31, 2015, we classify our operations into four business segments: Content, Sky, Cable, and Other Businesses.

Content

Television Industry in Mexico

General. There are 14 television stations operating in Mexico City and approximately 510 other television stations elsewhere in Mexico. Most of the stations outside of Mexico City rebroadcast programming originating from the Mexico City stations. We own and operate four of the 14 television stations in Mexico City, Channels 2, 4, 5 and 9. Some of these stations are affiliated with 221 repeater stations and 31 local stations outside of Mexico City. See Television Networks . We also own a station that has a digital subchannel that broadcasts in the English language on the California border. Our major competitor, TV Azteca, owns and operates Channels 7 and 13 in Mexico City, which we believe are affiliated with 177 stations outside of Mexico City. Likewise, TV Azteca owns the concession for Channel 40, or Proyecto 40, a ultra-high radioelectric frequency, or UHF, channel that broadcasts throughout the Mexico City metropolitan area. The Mexican government currently operates six stations in Mexico City, Channel 11, which has 11 repeater stations, Channel 21 in Mexico City (transmitting only DTV), Channel 22, TVUNAM, Channel 45 (Congress), and Channel 30, an anchor station of *Sistema Público de Radiodifusión del Estado Mexicano*, which, we believe, has 24 repeater stations outside Mexico City, 22 stations (Governments of the States), and six other university stations. There are three local television stations affiliated with Channel 28, outside of Mexico City. There are also 14 independent stations outside of Mexico City which are unaffiliated with any other stations. See Television Networks .

We estimate that approximately 28.6 million Mexican households have television sets, representing approximately 91% of all households in Mexico as of December 31, 2015. We believe that approximately 95.4% of all households in Mexico City and the surrounding area have television sets.

Programming

Programming We Produce. We produce a significant part of the Spanish-language television programming in the world. In 2013, 2014 and 2015, we produced approximately 93,300 hours, 94,600 hours and 89,200 hours, respectively, of programming for broadcast on our network stations; including programming produced by our local stations, which represented 61.2%, 60.6% and 57.9% of our total hours produced in the same years, respectively. Programming and videos for broadcast on our pay-TV channels, through our cable operations and DTH satellite ventures, represented 25.0%, 26.0% and 28.6% of our total hours produced in 2013, 2014 and 2015, respectively.

We produce a variety of programs, including telenovelas, newscasts, situation comedies, game shows, reality shows, children's programs, comedy and variety programs, musical and cultural events, movies and educational

programming. Our telenovelas are broadcast either dubbed or subtitled in a variety of languages throughout the world.

Our programming also includes broadcasts of special events and sports events in Mexico promoted by us and others. Among the sports events that we broadcast are soccer games and professional wrestling matches. See Other Businesses Sports and Show Business Promotions . In 2013, we broadcast FIFA World Cup Under 20 Turkey 2013, FIFA World Cup Under 17 UAE, Copa FIFA Confederaciones Brasil 2013, and Qualification Matches for FIFA World Cup Brazil 2014. In 2014, we broadcast FIFA World Cup Brazil 2014, FIFA Women s World Cup Under 17 Costa Rica 2014, and FIFA Women s World Cup Under 20 Canada 2014. In 2015, we broadcast Copa America Chile 2015, FIFA World Cup Under 20 New Zealand 2015, FIFA Women s World Cup Canada 2015, CONCACAF Gold Cup 2015 and FIFA World Cup Under 17 Chile 2015. We have secured the rights to broadcast at least the 2018 FIFA World Cup Russia and the 2022 FIFA World Cup Qatar for Mexico and other territories in Latin America.

Our programming is produced primarily at our 30 studios in Mexico City. We also operate 18 fully equipped remote control units. Some of our local television stations also produce their own programming. These local stations operate 47 studios and 34 fully equipped remote control units. See Programming Local Affiliates .

Foreign-Produced Programming. We license and broadcast television programs produced by third parties outside Mexico. Most of this foreign programming is from the United States and includes television series, movies and sports events, including coverage of Major League Baseball games and National Football League games. Foreign-produced programming represented approximately 34%, 35.5% and 35.8% of the programming broadcast on our four television networks in 2013, 2014 and 2015, respectively. A substantial majority of the foreign-produced programming aired on our networks was dubbed into Spanish and was aired on Channel 5, with the remainder aired on Channel 9.

Talent Promotion. We operate Centro de Educación Artística, a school in Mexico City, to develop and train actors and technicians. We provide instruction free of charge, and a substantial number of the actors appearing on our programs have attended the school. We also promote writers and directors through a writers school as well as various contests and scholarships.

Television Networks. We operate three television networks that can be viewed throughout parts of Mexico depending on the schedules and programming on our affiliated television stations through Channels 2, 5 and 9 in Mexico City. The following table indicates the total number of operating television stations in Mexico affiliated with each of our three networks, as well as the total number of local affiliates, as of December 31, 2015.

Channel 2 Network. Channel 2, which is known as *El Canal de las Estrellas*, or The Channel of the Stars, together with its affiliated stations, is the leading television network in Mexico and the leading Spanish-language television network in the world, as measured by the size of the audience capable of receiving its signal. Channel 2's programming is broadcast 24 hours a day, seven days a week, on 127 television stations located throughout parts of Mexico. The affiliate stations generally retransmit the programming and advertising transmitted to them by Channel 2 without interruption. Such stations are referred to as repeater stations. We estimate that the Channel 2 Network reaches approximately 28.1 million households, representing 98.2% of the households with television sets in

Table of Contents

Mexico. The Channel 2 Network accounted for a majority of our national television advertising sales in each of 2013, 2014 and 2015.

The Channel 2 Network targets the average Spanish-speaking family as its audience. Its programs include soap operas (telenovelas), news, entertainment, comedy and variety programs, movies, game shows, reality shows and sports. The telenovelas make up the bulk of the prime time lineup and consist of romantic dramas that unfold over the course of 100 to 140 half-hour episodes. Substantially all of Channel 2's programming is aired on a first-run basis and much of it is produced by us.

Channel 5 Network. In addition to its anchor station, Channel 5 is affiliated with 66 repeater stations located throughout parts of Mexico. We estimate that the Channel 5 Network reaches approximately 26.2 million households, representing approximately 91.5% of households with television sets in Mexico. We believe that Channel 5 offers the best option to reach the 18-34 year old demographic, and we have extended its reach into this key group by offering new content.

We believe that Channel 5 has positioned itself as the first social television channel in Mexico, with exclusive content for each platform, with a combination of reality shows, sitcoms, dramas, movies, cartoons and other children's programming. The majority of Channel 5's programs are produced outside of Mexico, primarily in the United States. Most of these programs are produced in English.

Channel 9 Network. In addition to its anchor station, Channel 9 is affiliated with 30 repeater stations, approximately 35% of which are located in central Mexico. We estimate that Channel 9 reaches approximately 21.2 million households, representing approximately 74% of households with television sets in Mexico.

The Channel 9 Network targets viewers 30 years and older. Its programs include movies, sports, sitcoms, game shows, telenovelas produced by third parties, news, an entertainment newscast and re-runs of popular programs from Channel 2.

Channel 4. Channel 4 broadcasts in the Mexico City metropolitan area and, according to our estimates, reaches over 6.0 million households, representing approximately 21.2% of television households in Mexico in 2015. As described above, as part of our plan to attract medium-sized and local Mexico City advertisers, we focused the reach of this network throughout Mexico and revised the format of Channel 4 to create ForoTV in an effort to target viewers in the Mexico City metropolitan area. We currently sell local advertising time on ForoTV to medium-sized and local advertisers at rates comparable to those charged for advertising on local, non-television media, such as radio, newspapers and billboards. However, by purchasing local advertising time on ForoTV, medium-sized and local advertisers are able to reach a wider audience than they would reach through local, non-television media.

ForoTV targets young adults between 30 and 40 years old, and adults more than 55 years old. Its programs consist primarily of journalist content, news, and round table programs in which the participants analyze the national and international news.

Local Affiliates. There are currently 31 local television stations affiliated with our networks, of which 17 stations are wholly owned, one station is minority owned and 13 stations are independent affiliated stations. These stations receive part of their programming from Channels 4 and 9. See Channel 4 . The remaining programs aired consist primarily of programs licensed from our program library and locally produced programs. The locally produced programs include news, game shows, musicals and other cultural programs and programs offering professional advice. In 2013, 2014 and 2015, the local television stations owned by us produced 57,100 hours, 57,300 hours and 51,600 hours, respectively, of programming. Each of the local affiliates maintains its own sales department and sells advertising time during broadcasts of programs that it produces and/or licenses. Generally, we pay the affiliate stations that we do not wholly own a fixed percentage of advertising sales for network affiliation.

Border Stations. We currently own XETV, or the Border Station, a Tijuana based television station which operates under a concession from the SCT from Mexico on the Mexico/U.S. border and broadcasts English-language programs pursuant to a permit granted by The Ministry of the Interior, which is renewed annually. The Border Station is affiliated with the Tijuana/San Diego market, under an affiliation agreement with The CW Network LLC, or CW Network. CW Network was formed as a joint venture between Warner Bros. Entertainment and CBS Corporation. The Border Station broadcasts under renewable permits issued by the FCC to the station and to CW

Network, which authorize electronic cross-border programming transmissions. The Border Station is operated through a station operating agreement with Bay City Television, a U.S. corporation indirectly owned by us. The Border Station's FCC cross-border permit was renewed on July 9, 2013 for a five-year term expiring on July 9, 2018. CW Network's cross-border FCC permit became effective on February 14, 2014 for a five-year term expiring on February 14, 2019.

Network Subscription. We produce or license a suite of Spanish and English-language television channels for pay-TV systems in Mexico, Latin America, the Caribbean, Asia, Europe, the United States, Canada and Africa. These channels include programming such as general entertainment, telenovelas, movies and music-related shows, interviews and videos. Some of the programming included in these channels is produced by us while other programming is acquired or commissioned from third parties. As of December 2015, we had over 44 million subscribers worldwide.

In 2013, 2014 and 2015, we produced approximately 23,200 hours, 24,500 hours and 25,500 hours, respectively, of programming and videos, for broadcast on our pay-TV channels. The names and brands of our standard definition channels include: *Telehit*, *Ritmoson* (formerly *Ritmoson Latino*), *Bandamax*, *De Película*, *De Película Clásico*, *Unicable*, *Golden*, *Golden Edge*, *Golden Latinoamérica*, *TLNovelas*, *Tiin*, *Canal de las Estrellas Latinoamérica*, *Canal de las Estrellas Europa*, *Canal 2 Delay-2hrs*, *Canal de las Estrellas Delay-1hr*, *Distrito Comedia* (formerly *Clásico TV*), *TDN*, *TD Centro* and *UTDN* (formerly *TDN2.0*). The brands of our high definition channels include: *Golden HD*, *Telehit HD*, *TDN HD*, *De Película HD*, *Unicable HD*, *GoldenPremier HD* and *UFC Network HD*.

Licensing and Syndication. We license our programs and our rights to programs produced by other television broadcasters and pay-TV providers in the United States, Canada, Latin America, Asia, Europe and Africa. We collect licensing fees based on the size of the market for which the license is granted or on a percentage of the advertising sales generated from the programming. In addition to the programming licensed to Univision, we licensed 79,650 hours, 87,143 hours and 80,444 hours of programming in 2013, 2014 and 2015, respectively. See Univision and Operating and Financial Review and Prospects Results of Operations Total Segment Results Content . As of December 31, 2015, we had 259,622 half-hours of television programming in our library available for licensing.

Expansion of Programming Reach. Our programs can be seen in the United States, Canada, Latin America, Asia, Europe and Africa. We intend to continue to expand our sales of Spanish-language programming internationally through pay-TV services.

SVOD Licensing. Under a license agreement with Netflix, effective as of July 12, 2011, we have made available to certain video-on-demand subscribers of Netflix, on a non-exclusive basis, around 3,000 hours annually of telenovelas, series, and other general entertainment programming from our library for the territories of Mexico, Latin America and the Caribbean. The license agreement will terminate in July 2016. However, based on the terms of the license agreement, certain programming will be available to subscribers until June 2017.

Televisa Interactive Media. TIM is the Company's online and wireless content division. This venture includes Esmas and Televisa.com, our Spanish-language horizontal websites and online and supported video streaming; and Esmas Móvil, our mobile value added service unit. TIM leverages the Company's and third parties' premium and extensive Spanish-language content, including news, sports, business, music and entertainment, editorials, life and style, technology, health, kids and an opinion survey channel. Through mobile devices, TIM became the second screen experience for the Company's television content.

With a wide range of content channels, online and mobile services, and more than 174.5 million page views per month and more than 24.9 million monthly unique users in 2015, we believe that TIM has positioned itself as one of the leading digital entertainment and information online content providers in Mexico and Hispanic territories. Currently, 75.9% of TIM's page views come from Mexico and the rest comes from the U.S. and Latin America.

In 2015, Esmas Móvil sent more than 2.3 million premium messages to approximately 500,000 mobile subscribers. Most of the content demanded by users consists of news and sports text alerts, interactive TV promotions, wallpapers games and music. We believe that due to the Mexican public's affinity for the high quality and wide range of our programming content, TIM has become one of the leading premium content mobile service providers in Mexico and in Latin America.

Table of Contents

We have a strong presence in every social media platform by managing over 633 accounts reaching over 484 million social media user accounts.

TIM has created a mobile application division, Televisa Mobile, which is responsible for the developing of more than eight mobile content applications in nine operating systems with more than 22 million downloads and nine mobile gaming applications in four operating systems with more than 2 million downloads.

In October 2008, we entered into license agreements to distribute Telemundo's original content through digital and wireless platforms in Mexico. As part of the agreements, Telemundo provides us with original content, including its highly popular telenovelas currently broadcast on our Channel 9, on all of our digital platforms including Esmas.com. The agreements complement and are part of the strategic alliance to distribute Telemundo's original content in Mexico across multiple platforms, including broadcast television, pay-TV and emerging digital platforms.

Beginning with the first quarter of 2012, the results of our Internet business, which was previously reported as part of the Other Business segment, are included in our new Content segment, which also includes the results of our former Television Broadcasting, Pay Television Networks and Programming Exports segments.

OTT Platform. In January 2014, we launched an over-the-top (OTT) platform under the brand VEO which in February 2016 was relaunched as blim . blim is operated by Televisa, S.A. de C.V. and is accessible through any electronic device with an Internet connection and provides three different services in Mexico: (i) Subscription Video-On-Demand (SVOD) with an extensive catalogue of domestic and foreign entertainment (original productions, movies, series, documentaries, programs, *telenovelas* and children's content); (ii) Transactional Video-On-Demand (TVOD) with an extraordinary catalogue of the best movie premieres; and (iii) TV Everywhere that provides live television content of a few of the Company's PayTV channels.

Advertising Sales Plan. Our sales force is organized into separate teams, each of which focuses on groups of clients in order, also to provide multi-platform offers. We sell commercial time in two ways: upfront and scatter basis. Advertisers that elect the upfront option lock in prices for most of our commercial inventory for the upcoming year, regardless of future price changes. Advertisers that choose the upfront option make annual prepayments, with cash or short-term notes, and are charged lower rates for their commercial time, given the highest priority in schedule placement, and given a first option in advertising during special programs. Scatter advertisers, or advertisers who choose not to make upfront payments but rather advertise from time to time, risk both higher prices and lack of access to choice commercial time slots. All advertisers are billed for actual minutes used; the amount billed depends on the calendar quarter, channel, and hour in which the spot is transmitted. We bill our advertising customers based on fixed pricing rather than on a cost-per-rating-point basis. For a description of our advertising sales plan, see Operating and Financial Review and Prospects Results of Operations Total Segment Results Content Advertising Rates and Sales .

We currently sell a significant portion of our available television advertising time. We use the remaining portion of our television advertising time primarily to satisfy our legal obligation to the Mexican government to provide up to 18 minutes per day of our broadcast time between 6:00

a.m. and midnight for public service announcements and 30 minutes per day for public programming (referred to in this annual report as Official Television Broadcast Time), and our remaining available television advertising time to promote, among other things, our products⁽¹⁾. We sold approximately 52%, 47% and 53% of total available national advertising time on our networks during prime time broadcasts in 2013, 2014 and 2015, respectively, and approximately 43%, 39% and 45% of total available national advertising time during all time periods in 2013, 2014 and 2015, respectively⁽²⁾. Sky

Background. We operate Sky, our DTH satellite venture in Mexico, Central America and the Dominican Republic, through Innova. We indirectly own 58.7% of this venture. The remaining 41.3% of Innova is owned by DIRECTV. For a description of capital contributions and loans we have made to Innova, see Operating and Financial Review and Prospects Results of Operations Liquidity, Foreign Exchange and Capital Resources Capital Expenditures, Acquisitions and Investments, Distributions and Other Sources of Liquidity.

Innova's Social Part Holders Agreement provides that neither we nor News Corp. nor DIRECTV may directly or indirectly operate or acquire an interest in any business that operates a DTH satellite system in Mexico, Central America and the Dominican Republic (subject to limited exceptions).

As of December 31, 2013, 2014 and 2015, Innova's DTH satellite pay-TV service had 6,015,475, 6,638,032 and 7,284,162 gross active subscribers, respectively. Innova primarily attributes its successful growth to its superior programming content, its exclusive transmission of the largest coverage sporting events such as soccer tournaments and special events, its high quality customer service and its nationwide distribution network with approximately 1,318 points of sale. In addition to the above, Innova also experienced growth during 2013, 2014 and 2015 due to the success of VeTV, our low-end package in Mexico. Sky continues to offer the highest quality and exclusive content in the Mexican pay-TV industry. Its programming packages combine our over-the-air channels with other exclusive content.

During 2015, Sky offered exclusive content, which included certain Mexican Soccer League matches and most of the Spanish Soccer League, La Liga and La Copa del Rey, the FA Cup, the NFL Sunday Ticket, NBA Pass, MLB Extra Innings, the NHL, WTA, bullfighting, World Equestrian Games, marathons, Diamond League, Capital One Cup, the largest coverage of the Mexican Baseball League (LMB), ATP & TT tournaments, and the Basketball Euroleague. In addition to new programming contracts, Sky continues to operate under arrangements with a number of third party programming providers to provide additional channels to its subscribers. Sky also has arrangements with the major programming studios and sports federations.

In 2015, the Sky HD Package comprised 123 channels, as well as 23 additional channels for pay-per-view. We expect to continue broadening our HD offering in the coming years for which we may need additional transponder capacity.

As of December 31, 2015, programming package monthly fees for residential subscribers, net of a prompt payment discount if the subscriber pays within 12 days of the billing date, are the following: Basic Ps.149, VeTV Ps.169, Fun Ps.279, Fox+ Ps.439, HBO/Max Ps.449 and Universe Ps.649. Monthly fees for each programming package do not reflect a monthly rental fee in the amount of Ps.164 for the decoder necessary to receive the service (or Ps.150 if the

subscriber pays within 12 days of the billing date) and a one-time activation fee which depends on the number of decoders and payment method. On February 1, 2016, we increased the price of our VeTV package from Ps.169 to Ps.185 driven by the increase of programming costs due to the impact of the devaluation of the Mexican Peso.

Sky devotes 15 pay-per-view channels to family entertainment and movies and eight channels are devoted to adult entertainment. In addition, Sky assigns seven extra channels exclusively for special events, known as Sky Events, which include concerts and sports. Sky provides some Sky Events at no additional cost while it sells others on a pay-per-view basis.

The installation fee is based on the number of set up boxes and the method of payment chosen by the subscriber. The monthly cost consists of a programming fee plus a rental fee for each additional box.

Programming. We are a major source of programming content for our DTH venture and have granted our DTH venture DTH satellite service broadcast rights to most of our existing and future program services (including pay-per-view services on DTH), subject to some pre-existing third party agreements and other exceptions and conditions. Through its relationships with us and DIRECTV, we expect that the DTH satellite service in Mexico will be able to continue to negotiate favorable terms for programming both with third parties in Mexico and with international suppliers from the United States, Europe and Latin America.

Cable

The Cable Television Industry in Mexico. Cable television offers multiple channels of entertainment, news and informational programs to subscribers who pay a monthly fee. These fees are based on the package of channels the subscribers receive. According to IFT, there were approximately 1,470 pay-TV concessions in Mexico as of December 31, 2015, serving approximately 17 million subscribers.

Digital Cable Television Services. Our cable companies offer on-screen interactive programming guide, video on demand, high definition channels as well as other services throughout Mexico. Along with their digital pay-TV service, our cable companies offer high speed internet and a competitive digital telephone service. Through their network, they are able to distribute high quality video content, new services, interactivity with video on demand, 1080i high definition, impulse and order pay-per-view, a-la-carte programming, among other products and services, with added value features and premium solutions for consumers, and telephony and internet.

Revenues. Our cable companies generate revenues from their pay-TV, broadband and telephony services, from additional services such as video on demand, and from sales of advertising to local and national advertisers. Subscriber revenues come from monthly service and rental fees and, to a lesser extent, one-time installation fees.

The LFTR dictates that a telecommunication company can freely set its fees (including the ones regarding pay-TV services) that it will charge for the provision of its services to its subscribers. However, this does not apply to the incumbent agent or any other economic agent declared with substantial market power.

Cable Initiatives. Our cable companies plan to continue offering the following services to their subscribers:

- Enhanced programming services, including video on demand, subscription video on demand, high definition;
- Broadband internet services; and
- IP telephony services.

Cablevisión. We own a 51% controlling stake in Cablevisión, one of the most important cable television operators in Mexico, which operates in Mexico City and its metropolitan area, where it offers cable television, high speed internet and IP telephony services.

TVI. In March 2016 we acquired the remaining 50% of the equity interest of TVI and its subsidiaries and as a result, TVI is a wholly owned subsidiary of the Company. The transaction amounted to Ps.6,750 million, including the assumption by the Company of liabilities of Ps.5,492 million and provided for the acquisition of shares by the Company in the amount of Ps.1,258 million. TVI offers cable television, internet access, telephony services and bidirectional data transmission in the metropolitan area of Monterrey and other areas of northern Mexico.

Cablemás. We own Cablemás, which operates in approximately 60 cities in Mexico where it offers cable television, high speed internet and telephony services.

Cablecom. On July 31, 2013, we invested Ps.7,000 million in convertible debt instruments, which in August 2014 we converted into 95% of the equity interest in Ares, the owner of 51% of the equity interest in Cablecom, a cable company that offers video, telephony and data services in Mexico. As part of the 2013 transaction, we also invested U.S.\$195 million in a debt instrument issued by Ares. In August 2014 we acquired, pursuant to applicable regulations, the remaining 5% of the equity interest in Ares and the remaining 49% of the equity interest of Cablecom for an additional consideration of Ps.8,550 million, which consisted of the capitalization of the U.S. dollar debt instrument issued by Ares in the amount of Ps.2,642 million, and cash in the amount of Ps.5,908 million.

Telecable. On January 8, 2015, through a series of transactions, we acquired 100% of the equity interest of Telecable for an aggregate consideration of Ps.10,002 million. Telecable is a cable company that provides video, data and telephony services in Mexico, primarily in the states of Guanajuato, Jalisco, Aguascalientes, Queretaro, Tamaulipas, and Colima, among others.

Bestel. Currently, Cablevisión holds 69.2% and the Company indirectly holds 30.8% of the equity of Bestel, which provides voice, data, and managed services to domestic and international carriers and to the enterprise, corporate, and government segments in Mexico. Through Bestel (USA), Inc., Bestel provides cross-border services

to U.S. carriers including internet protocol, or IP, transit, collocation, international private lines, virtual private networks, or VPNs, and voice services, as well as access to the Internet backbone via companies or carriers classified as TIER 1 which are networks that can reach every other network on the internet without purchasing internet protocol address transit or paying settlements and TIER 2 which are networks that peer with some networks, but purchase internet protocol address transit or pay settlements to reach at least some portion of the internet. Bestel operates 28,000 kilometers of a fiber-optic network of which it owns approximately 10,000 kilometers. This fiber-optic network covers several important cities and economic regions in Mexico and has direct crossing of its network into Dallas, Texas, Nogales, Arizona, and San Diego, California in the United States. This enables the company to provide high capacity connectivity between the United States and Mexico.

Other Businesses

Publishing. Notwithstanding the challenges facing the publishing industry, we believe we have maintained our position as the most important publisher and distributor of magazines in Mexico, and of Spanish-language magazines in the world, as measured by circulation.

With a total circulation of approximately 103 million copies in 2015, we publish 151 titles that are distributed in 17 countries, including the United States, Mexico, Colombia, Chile, Argentina, Peru and Panama, among others. See Other Businesses Publishing Distribution . Our main publications in Mexico include *TV y Novelas*, a weekly entertainment and telenovelas magazine; *Vanidades*, a popular bi-weekly magazine for women; and *Caras*, a monthly leading lifestyle and socialite magazine. Our other main publications in Latin America and the United States include *Vanidades*, *TV y Novelas* U.S.A. and *Caras* Colombia and Chile.

We publish the Spanish-language edition of several magazines, including *Cosmopolitan*, *Harper's Bazaar*, *Seventeen*, and *Esquire* through a joint venture with Hearst Communications, Inc.; *Marie Claire*, pursuant to a license agreement with Marie Claire Album; *Men's Health*, *Women's Health* and *Runner's World*, pursuant to a license agreement with Rodale, Inc.; *Sport Life* and *Automóvil Panamericano*, as well as other special editions of popular automotive magazines, through a joint venture with Motorpress Ibérica, S.A.; *Muy Interesante* and *Padres e Hijos* pursuant to a joint venture with GyJ España Ediciones, S.L., S. en C.; and *Disney Princesas*, *Disney Club Penguin*, *Disney Frozen*, *Disney Palace Pets* and *Disney Junior* among others, pursuant to a license agreement with Disney Consumer Products Latin America, Inc. and WDC (México), S. de R.L. de C.V. We also publish a Spanish-language edition of *National Geographic* and *National Geographic Traveler* in Latin America and in the United States through a licensing agreement with National Geographic Society. In addition, we publish several comics pursuant to license agreements with Marvel Characters, B.V. and DC Comics.

Publishing Distribution. We estimate that we distribute more than 50%, in terms of volume, of the magazines circulated in Mexico through our subsidiary, Distribuidora Intermex, S.A. de C.V., or Intermex. We believe that our distribution network, including independent distributors, reaches over 300 million Spanish-speaking people in approximately 17 countries, including Mexico, Colombia, Peru and Panama. We also estimate that such distribution network reaches

more than 20,000 points of sale in Mexico and approximately 50,000 points of sale outside of Mexico. We also own publishing operations in eleven countries. Our publications are also sold in the United States, the Caribbean and elsewhere through independent distributors. In Mexico, in 2013, 2014 and 2015, 68.0%, 67.2% and 67.4%, respectively, of the publications distributed by our company were published by our Publishing division. In addition, our distribution network sells a number of publications published by joint ventures and independent publishers, as well as sticker albums, novelties and other consumer products.

Sports and Show Business Promotions. We actively promote a wide variety of sports events and cultural, musical and other entertainment productions in Mexico. Most of these events and productions are broadcast on our television stations, cable television system, radio stations and DTH satellite services. See [Content Programming](#) , [Cable Digital Cable Television Services](#) , [Radio Stations](#) and [Our Operations Sky](#) .

Soccer. We own America, which currently plays in the Mexican First Division and is one of the most popular and successful soccer teams in Mexico. In the Mexican First Division, each team plays two tournaments of 17 games per regular annual season. The best teams of each regular season engage in post-season championship play.

We own the Azteca Stadium which hosted two World Cup Soccer Championships. Azteca Stadium is planned to be remodeled adding new presidential suites, hospitality zones, VIP seats and VIP boxes, and will have a final

seating capacity of approximately 85,000 people. In addition, America and the Mexican National Soccer team generally play their home games at this stadium, and is expected to host one official regular season NFL game in 2016, 2017 and 2018.

Promotions. We promote a wide variety of concerts and other shows, including beauty pageants, song festivals and shows of popular Mexican and international artists.

Feature Film Production and Distribution. We produce and co-produce first-run Spanish- and English-language feature films, some of which are among Mexico's top films based on box office receipts. We distribute our films to movie theaters in Mexico, the United States and Latin America, and later release them for broadcast on video on demand, cable and network television; some of those films have been partially financed by us, and are among the highest grossing Mexican films in Mexico, such as, *Cásese Quien Pueda*, *Cantinflas*, *Un Gallo Con Muchos Huevos* and the Spanish language film that broke audience and box office records in Mexico and the United States, *Instructions Not Included*, which became the second highest film in Mexico in terms of number of viewers. We distribute feature films produced by non-Mexican producers in Mexico. In 2013, 2014, 2015 and up to February 2016, we distributed 27, 14, 19 and 3 feature films, respectively, including several U.S. box office hits. At December 31, 2015, we owned or had rights to 308 Spanish-language theatrical films, 150 theatrical films in other languages, 25 Spanish-language video titles and 27 video titles in other languages. Many of these films and titles have been shown on our television networks, cable system, DTH and subscription video on demand services.

Gaming Business. In 2006, we launched our gaming business which consists of casinos and a national lottery. As of December 31, 2015, we had 17 casinos in operation, under the brand name PlayCity. In accordance with our permit, we plan to continue opening casinos. In addition, during 2007 we launched Multijuegos, an online lottery with access to a nationwide network of approximately 13,560 points of sale through electronic terminals, including point-of-sale terminals at OXXO stores. The casinos and Multijuegos are operated under the Gaming Permit obtained from the Mexican Ministry of the Interior, to establish, among other things, up to 55 casinos and number draws throughout Mexico.

Radio Stations. Our radio business, Sistema Radiópolis, S.A. de C.V., or Radiópolis, is operated under a joint venture with Promotora de Informaciones S.A., or Grupo Prisa, a leading Spanish communications group. Under this joint venture, we hold a controlling 50% full voting stake in this subsidiary and we have the right to appoint the majority of the members of the joint venture's board of directors. Except in the case of matters that require unanimous board and/or stockholder approval, such as extraordinary corporate transactions, the removal of directors and the amendment of the joint venture's organizational documents, among others, we control the outcome of most matters that require board of directors and/or stockholder approval. We also have the right to appoint Radiópolis' Chief Financial Officer. The election of Radiópolis' Chief Executive Officer requires a unanimous vote from the joint venture's board of directors.

Edgar Filing: GRUPO TELEVISA, S.A.B. - Form 20-F

Radiópolis owns and operates 17 radio stations in Mexico, including three AM and three FM radio stations in Mexico City, five AM and two FM radio stations in Guadalajara, one AM station in Monterrey, one FM radio station in Mexicali, one AM/FM combo station in San Luis Potosí and one FM radio station in Veracruz. Some

Table of Contents

Radiópolis stations transmit powerful signals which reach beyond the market areas they serve. For example, XEW-AM and XEWA-AM transmit signals that under certain conditions may reach the southern part of the United States. XEW-AM may also reach most of southern Mexico. Including owned and affiliated stations, Radiópolis has 98 stations. We estimate that Radiópolis radio stations reach 28 states in Mexico. Our programs aired through our radio stations network reach approximately 75% of Mexico's population. We plan to continue to explore ways to expand the reach of our radio programming and advertising through affiliations with third parties and through acquisitions. Radiorama is currently restructuring the operation of its radio stations, which might impact the number of stations that will remain affiliated with Radiorama in the future.

According to Investigadores Internacionales Asociados, S.C., or INRA, in 2013, 2014 and 2015, XEW-AM ranked, on average, twelfth, tenth and twelfth, respectively, among the 32 stations in the Mexico City metropolitan area AM market, XEQ-FM, ranked, on average, third, second and first respectively, among the 30 stations in the Mexico City metropolitan area FM market, and XEBA ranked, on average fourth, fourth and second respectively, among the 24 stations in the Guadalajara City metropolitan FM market. INRA conducts daily door-to-door and automobile interviews in the Mexico City metropolitan area to determine radio listeners' preferences. Outside Mexico City, INRA conducts periodic surveys.

Our radio stations use various program formats, which target specific audiences and advertisers, and cross-promote the talent, content and programming of many of our other businesses, including television, sports and news. We produce some of Mexico's top-rated radio formats, including W Radio (News-talk), TD W (Sports), Ke Buena (Mexican music) and 40 Principales (Pop music). W Radio, Ke Buena and 40 Principales formats are also broadcast through the internet.

The successful exclusive radio broadcasting in 2015 of the Champions League, Concacaf Soccer Games and Copa Libertadores placed Radiópolis among the highest rating sports-broadcasting radio stations in Mexico.

During the last five years, Radiópolis has organized 20 massive live musical events with leading artists in both musical formats, gathering an attendance of 129,665 people in aggregate for the last two events, which were performed at the Azteca Stadium in Mexico City. The events organized by Radiópolis have become among the most popular music-related events among the musical radio stations in Mexico.

We sell both national and local advertising on our radio stations. Our radio advertising sales force sells advertising time primarily on a scatter basis. See [Our Operations Content Programming Advertising Sales Plan](#). In addition, we use some of our available radio advertising time to satisfy our legal obligation to the Mexican government to provide up to 35 minutes per day of our broadcast time, between 6:00 a.m. and midnight for public service announcements, and 30 minutes per day for official programming (referred to in this annual report as [Official Radio Broadcast Time](#)).

Investments

OCEN. We own a 40% stake in OCEN, a subsidiary of CIE, which owns all of the assets related to CIE's live entertainment business unit in Mexico. OCEN's business includes the production and promotion of a wide variety of live entertainment events such as concerts, theatrical, family and cultural events, as well as the operation of entertainment venues, the sale of entrance tickets (under an agreement with Ticketmaster Corporation), food, beverages and merchandising, and the booking and management of Latin artists. OCEN also promotes NASCAR Mexico, the largest racing series in the country.

During 2013, 2014 and 2015, OCEN promoted 5,380, 3,654 and 2,727 events, respectively, and during 2015, it managed 12 entertainment venues in Mexico City, Guadalajara and Monterrey, providing an entertainment platform that established OCEN as one of the principal live entertainment companies in Mexico.

During 2015, 23.8 million entrance tickets were sold by OCEN's subsidiary Ticketmaster, compared to 21.6 million in 2014.

Imagina. We own equity participations equivalent to 19.9% of the capital stock of Imagina, one of the main providers of content and audiovisual services for the media and entertainment industry in Spain. Imagina was created in 2006 with the merger of Mediapro and Grupo Arbol. Imagina is a leading distributor of sports rights and is the current promoter of the Spanish Soccer League distribution rights worldwide. Through Globomedia,

Table of Contents

it is also a leading producer of series, dramas and comedies in Spain. Imagina is also a provider of satellite transmission services as well as on location production and post-production services for third parties.

As part of our participation in Imagina we improved potential synergies between us and Imagina and opportunities to create value. Additionally, we have certain rights of first refusal to acquire formats and audiovisual content, as well as transmission rights for sport events in certain territories. We appoint two directors to Imagina's board, which is currently composed of 10 members.

Grupo de Telecomunicaciones de Alta Capacidad, S.A.P.I. de C.V. In March 2010, Telefónica, Editora Factum, S.A. de C.V., a wholly-owned subsidiary of the Company which was merged into CVQ in May 2015, and Megacable agreed to jointly participate, through a consortium known as Grupo de Telecomunicaciones de Alta Capacidad, S.A.P.I. de C.V. (GTAC), in the public bid for a pair of dark fiber wires held by the CFE (*Comisión Federal de Electricidad*). In June 2010, the SCT granted GTAC a favorable award in the bidding process for a 20 year contract for the lease of up to 19,457 kilometers of dark fiber-optic capacity, along with a corresponding concession, granted in July 2010, to operate a public telecommunications network using DWDM technology. In June 2010, one of our subsidiaries entered into a long-term credit facility agreement to provide financing to GTAC in an amount up to Ps.688.2 million. Under the terms of this agreement, principal and interest are payable at dates agreed by the parties, between 2013 and 2021. In addition, a subsidiary of the Company entered into supplementary long-term loans to provide additional financing to GTAC for an aggregate principal amount of Ps. 246.0 million. By the end of 2015, GTAC had in operation 152 links and 148 nationwide nodes, and the services for customers grew to 1,533, of which 90% have a capacity of 10 Gbps. The overall capacity per link is approximately 8 Tbps (80 optical channels x 100 Gbps each). In addition, GTAC maintains four of its own routes (1,555 kilometers), three third-party dark fiber IRU (996 kilometers) and local loops (518 kilometers). This new fiber optic network will represent for us a new alternative to access data transportation services, increasing competition in the Mexican telecommunications market and therefore improving the quality of the services offered. The fiber optic network will aim to increase broadband internet access for businesses as well as households in Mexico.

Iusacell. In September 2014, our partner in GSF agreed to purchase our 50% equity participation in Iusacell at a cash price of U.S. \$717 million (Ps.9,461,532). As a result of this transaction, which was subject to customary closing conditions and required regulatory approvals, we discontinued recognizing our share of income or loss in GSF and recognized a non-cash loss of Ps.4,168,468 in consolidated other expense and an account receivable for the agreed sale amount. As of December 31, 2014, the related account receivable amounted to U.S.\$717 million (Ps.10,583,852). In December 2014, we obtained regulatory approvals for this transaction. In January 2015, we received proceeds in the aggregate amount of U.S.\$717 million (Ps. 10,632,393) in connection with our disposal of our investment in GSF, of which U.S.\$697 million was in cash and U.S.\$20 million was held in escrow for certain contingent litigation costs.

We have investments in several other businesses. See Notes 3 and 10 to our consolidated year-end financial statements.

Univision

We have a number of arrangements with Univision, the leading Spanish-language media company in the United States, which owns and operates the Univision Network, the most-watched Spanish-language television network in the United States, the UniMás Network, and the Galavisión satellite/cable television networks, and the Univision.com website and other Univision-branded online experiences. The UniMás Network was the result of the transformation of Univision's former Telefutera network, which is part of Univision's expansion and investment efforts that in 2012 included the launch of three new networks - Univision Deportes, Univision tlnovelas and FORO TV as well as a digital video network called UVideos.

On December 20, 2010, Univision, we, UHI and other parties affiliated with the investor groups that own UHI, entered into various agreements and completed certain transactions previously announced in October 2010. As a result, in December 2010, we (1) made a cash investment of U.S.\$1,255 million in UHI (formerly known as BMP), in exchange for an initial 5% equity stake in UHI, and U.S.\$1,125 million aggregate principal amount of 1.5% Convertible Debentures of UHI due 2025 which were convertible at our option into additional shares then equivalent to an approximately 30% equity stake of UHI, subject to applicable laws and regulations in the United States and

Table of Contents

other conditions, (2) acquired an option to purchase at fair value an additional 5% equity stake in UHI, subject to applicable laws and regulations in the United States, and other terms and conditions, and (3) sold to Univision our 50% equity interest in TuTv, our previous joint venture with Univision engaged in satellite and cable pay-TV programming distribution in the United States, for an aggregate cash amount of U.S.\$55 million. In connection with this investment, (1) we entered into an amended program license agreement, or PLA, with Univision, pursuant to which Univision has the exclusive right to broadcast certain Televisa content in the United States, (2) we entered into a new program license agreement with Univision, the Mexico License Agreement, or MLA, under which we have received the exclusive Spanish-language broadcast and digital rights to Univision's audiovisual programming (subject to certain exceptions) in Mexico during the term of the PLA, and (3) three designees of the Company joined Univision's then 20-member Board of Directors, which was later increased to four designees of the Company on Univision's expanded 22-member Board of Directors, on which there are currently 18 directors serving.

As part of our investment in Univision, we agreed, together with the Univision Sponsor group, to an incentive fee with Saban Capital Group that may result in the Company reducing its stake in Univision by approximately 3% (on a fully diluted basis) or paying an equivalent amount in cash.

Under the PLA, we granted Univision exclusive Spanish-language broadcast and digital rights to our audiovisual programming (subject to certain exceptions) in the United States and all territories and possessions of the United States, including Puerto Rico, which includes the right to use our online, network and pay-television programming on current and future Spanish-language television networks (with certain exceptions), including the Univision, UniMás and Galavisión cable television networks, owned or controlled by Univision and current and future Univision Spanish-language online and interactive platforms (such as Univision.com, UVideos and Video on Demand). Univision also has rights under the PLA to broadcast in the United States Mexican First Division soccer league games for which we own or control the United States rights, which began with select teams in 2011 and which expanded in 2015 to all teams to which we own or control United States rights. We have agreed to provide Univision with at least 8,531 hours of programming per year for the term of the PLA.

In connection with the December 20, 2010 transactions with Univision, we and Univision entered into the MLA, under which we have received the exclusive Spanish-language broadcast and digital rights to Univision's audiovisual programming (subject to certain exceptions) in Mexico during the term of the PLA.

We have an international program rights agreement, or IPRA, with Univision that previously required Univision to grant us and Venevision International Corporation, or Venevision, the right to broadcast outside the United States programs produced by Univision for broadcast on the Univision Network or the Galavisión Network under this agreement. On December 20, 2010, we and Univision entered into an amendment to the IPRA pursuant to which, subject to the MLA and certain existing agreements with Venevision, our broadcast rights over certain Univision programs reverted back to Univision without affecting Venevision's rights under the IPRA. We have been informed that certain of Venevision's agreements with Univision have now been terminated and others have been amended. We also entered into an international sales agency agreement with Univision, pursuant to which Univision grants us the right to act as Univision's sales agent during the term of the MLA to sell or license worldwide outside the United States and Mexico Univision's Spanish-language programming, to the extent Univision makes such programming available in other territories and Univision owns or controls rights in these territories, and subject to limited exceptions. This sales agency agreement included limitations on Univision acting as sales agent with respect to certain programming in Venezuela and certain other territories, which we understand have now been terminated.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

In December 2011, we made an additional investment of U.S.\$49.1 million in cash in common stock of UHI by which we increased our interest in UHI from 5% to 7.1%. In August 2012, we made an additional investment of U.S.\$22.5 million in cash in common stock of UHI by which we increased our interest in UHI from 7.1% to 8.0%. On January 30, 2014, a group of institutional investors made a capital contribution to UHI. As a result of this transaction, our equity stake in UHI decreased from 8.0% to 7.8%. On July 15 2015, we exercised 267,532 warrants to increase our equity stake from 7.8% to 10% (as discussed further below).

On March 19, 2013, Univision and DirecTV LLC and DirecTV Puerto Rico, Ltd. (the DirecTV Entities) announced a comprehensive multi-year agreement that includes carriage of, among other programming services, the network feeds for Univision, UniMás, Galavisión, Univision Deportes Network, Univision tlnovelas and ForoTV (the Distribution Agreement) whereby the parties thereto included, as part of the agreement, the release by us of

Table of Contents

certain carriage rights that we held with the DirectTV Entities for the United States. As consideration for the release by us of certain carriage rights held by us, Univision agreed to pay us an amount equal to U.S.\$30.0 million and to provide us, at no cost, with 15% of all unsold advertising inventory for our promotion of our businesses in the Univision Deportes Network and in another advertising supported programming service that will be distributed by the DirectTV Entities pursuant to the Distribution Agreement and by other distribution platforms pursuant to the respective distribution agreements. As a result of the execution of the Distribution Agreement, we expect an increase in Univision's revenues, and therefore in the corresponding royalties pursuant to the PLA.

On July 1, 2015, the Company, UHI and Univision, together with Univision's major shareholders, entered into a Memorandum of Understanding (the "MOU") and Univision and a subsidiary of the Company entered into an amendment to the existing PLA (the "PLA Amendment").

Under the PLA Amendment, the terms of the existing strategic relationship between Univision and the Company were amended, including as follows:

(i) **Revised Royalty Computation** In exchange for Univision agreeing to make certain additional sources of revenue subject to the royalty, effective January 1, 2015 and through December 2017, the royalty rate on substantially all of Univision's Spanish-language media networks revenue was decreased to 11.84%, compared to 11.91% under the previous terms of the PLA. On January 1, 2018, the royalty rate will increase from 11.84% to 16.13%, compared to 16.22% under the prior terms. Additionally, the Company will continue to receive an incremental 2% in royalty payments on such media networks' revenues above an increased revenue base of \$1.66 billion, compared to the prior revenue base of \$1.65 billion. The royalty rate will increase again to 16.45% starting later in June 1, 2018 and for the remainder of the term, from 16.13%, compared to the prior rate of 16.54%. With this second rate increase, the Company will receive an incremental 2% in royalty payments above a reduced revenue base of \$1.63 billion. The royalty base generally includes all Univision revenues from the exploitation or operation of its Spanish-language audiovisual platforms, sublicensing arrangements, licenses of content to network affiliates or multichannel video programming distributors, and Univision-branded online platforms, whether those revenues are derived on an advertising, subscription, distribution, interactive media, or transactional basis.

(ii) **Term Extension** Subject to Univision completing a public offering of its common stock that results in net proceeds to Univision of a minimum agreed upon amount (which as of April 2016, has not been completed) and no change of control having occurred, the PLA Amendment extends the term of the PLA from its current expiration date of the earlier of 2025 and 90 months after the Company voluntarily sells two-thirds of its equity interests in UHI, to the earlier of 2030 and 90 months after the Company voluntarily sells two-thirds of its equity interests in UHI. Univision's exclusive U.S. broadcast and digital rights (with limited exceptions) to the Company's programming including premium Spanish-language telenovelas, sports, sitcoms, reality series, new programming and feature films, remains substantially unchanged.

As consideration for the PLA Amendment, the MOU and other agreements entered into at the same time, Univision made a one-time payment of \$4.5 million to the Company on July 6, 2015.

At the same time, the Company and Univision amended the MLA to conform to the PLA Amendment.

In addition, under the terms of the MOU, Univision, the Company and the major shareholders of Univision agreed to the following:

(i) **Equity Capitalization Amendment** The equity capitalization of Univision was adjusted to realign the economic and voting interest of the Company and Univision's other stockholders. As a result, the Company holds common stock that, upon an initial public offering of Univision, would have approximately 22% of the voting rights of Univision's common stock. The classes of Univision shares of common stock held by the Company provide the right to designate a minimum number of directors to Univision's board of directors.

(ii) **Conversion of Debentures** In July 2015, the Company exchanged \$1.125 billion principal amount of Univision's convertible debentures into warrants that are exercisable for certain classes of UHI's

Table of Contents

common stock. In connection with the conversion, Univision made a one-time payment to the Company of \$135.1 million on July 15, 2015 to induce the conversion. On December 31, 2015, the Company held warrants exercisable for shares of Univision. In July 2015, the Company exercised 267,532 warrants to increase its equity stake in UHI from 7.8% to 10%.

Technical Assistance Agreement

In connection with our investment in Univision, we and other parties affiliated with the investor group that own UHI, entered into an agreement under which the Company provided Univision with certain technical assistance related to the Univision's business. Effective as of March 31, 2015, UHI and the Company entered into an agreement to terminate the technical assistance agreement. Under this termination agreement, UHI agreed to pay a reduced termination fee and the increased quarterly service fees referenced below in full satisfaction of Univision's obligations to the Company under the technical assistance agreement. Pursuant to such termination agreement, Univision paid to the Company a termination fee of \$67.6 million on April 14, 2015 and continued to pay the increased quarterly service fee equal to 0.7365836% of EBITDA for the calendar quarter in question, until December 31, 2015.

FCC Matters

The Company and Univision have jointly filed a petition for a declaratory ruling with the FCC seeking (a) an increase in the authorized aggregate foreign ownership of Univision's issued and outstanding shares of common stock from 25% to 49%; and (b) to authorize the Company to hold up to 40% of Univision's issued and outstanding shares of common stock (in both cases on a voting and an equity basis). In addition, pursuant to the MOU Univision agreed that, after its original sponsors have transferred at least 75% of Univision's common stock, Univision will file an application for any required FCC approval of a transfer of control of Univision to the public stockholders of Univision or as otherwise may be required.

For additional information regarding our relationship with Univision, see Note 19 to our consolidated year-end financial statements.

Competition

We compete with various forms of media and entertainment companies in Mexico, both Mexican and non-Mexican. See **Key Information** **Risk Factors** **Risk Factors Related to Our Business** **We Face Competition in Each of Our Markets That We Expect Will Intensify** .

Content

Our television stations compete for advertising revenues and for the services of recognized talent and qualified personnel with other television stations (including the stations owned by TV Azteca) in their markets, as well as with other advertising media, such as **pay television**

networks, radio, newspapers, magazines, outdoor advertising, cable television and a multi-channel, multi-point distribution system, or MMDS, over-the-top (OTT) content providers, and DTH satellite services. Our content also competes with other forms of entertainment and leisure time activities. We generally compete with 199 channels throughout Mexico, including the channels of our major competitor, TV Azteca, which owns and operates Channels 7 and 13 in Mexico City, which we believe are affiliated with 177 stations outside of Mexico City. TV Azteca owns the concession for Channel 40, or Proyecto 40, a UHF channel that broadcasts in the Mexico City metropolitan area.

In addition to the foregoing channels, there are additional operating channels in Mexico with which we also compete, including Channel 11, which has 32 repeater stations, and Channel 22, which has 16 repeater stations in Mexico, which are operated by the Mexican government, as well as Cadena Tres that will operate as a concession holder to broadcast on a national digital network. Our television stations are the leading television stations in their respective markets. See Content Television Networks .

Our English and Spanish-language border stations compete with English and Spanish-language television stations in the United States, and our Spanish-language productions compete with other English and Spanish-language programs broadcast in the United States.

Table of Contents

We are a major supplier of Spanish-language programming in the United States and throughout the world. We face competition from other international producers of Spanish-language and English-language programming and other types of programming.

Sky

Innova currently competes with, or expects to compete with, among others, cable television operators, MMDS systems, national broadcast networks (including our three free-to-air networks and Channel 4), regional and local broadcast stations, OTT content providers and other DTH concessions such as Dish Mexico, which as of the third quarter of 2015 had approximately 2.9 million subscribers, according to IFT. Currently, Dish offers not only low-priced packages, but also high-end products such as High Definition Packages. Innova also faces competition from unauthorized C-band and Ku-band television signals provided by third parties without authorization of the Mexican government. Other competitors include radio, movie theaters, video rental stores, IPTV, internet, video games and other entertainment sources. We also face significant competition from new entrants in pay-TV services as well as from the new public television networks. The consolidation in the entertainment and broadcast industries could further intensify competitive pressures. As the pay-TV market in Mexico matures, and as the offering of bundled services that include pay-TV, broadband and telephony increases, Innova expects to face competition from an increasing number of sources. Emerging technologies that provide new services to pay-TV customers as well as new competitors in the DTH field or cable, telecommunication and internet players entering into video services would require us to make significant capital expenditures in new technologies and additional transponder capacity.

In October 2008, Dish Mexico, a subsidiary of a U.S. based DTH company operating with certain arrangements with Telmex, started operations in Mexico through a DTH concession. Dish Mexico currently operates nationwide.

Since 2010, there is a fiber to the home, or FTTH, pay-TV service called Total Play, which offers more than 260 channels, Video on Demand, HD and other applications. This service also includes bundle discounts for their interactive TV, internet and voice services. Axtel provides a product called Axtel TV, which offers up to 90 standard definition channels, 50 HD channels, 50 audio channels, and 50 hours of virtual recording in addition to internet and voice services.

Cable

Cablevisión, Cablemás, TVI, Cablecom and Telecable face competition from several media, cable and telecommunications companies throughout Mexico, including internet service providers, such as Telmex, Axtel and cable companies, DTH services such as Sky and Dish, pay-TV service providers such as Megacable, OTT content providers such as Netflix and Claro Video, mobile service providers such as Telcel, AT&T and Telefonica, and other telecommunications and telephone companies such as Telmex and Axtel in fixed services, among others.

Other Businesses

Publishing

Each of our magazine publications competes for readership and advertising revenues with other magazines of a general character and with other forms of print and non-print media. Competition for advertising is based on circulation levels, reader demographics and advertising rates.

Radio

The radio broadcast business is highly competitive in Mexico as well. Our radio stations compete with other radio stations in their respective markets, as well as with other advertising media, such as television, newspapers, magazines and outdoor advertising. Among our principal competitors in the radio broadcast business are Grupo Radio Centro, S.A.B. de C.V., which owns or operates approximately 200 radio stations throughout Mexico, 12 of which are located in Mexico City, Grupo Acir, S.A. de C.V., which owns or operates approximately 160 radio stations in Mexico, six of which are located in Mexico City, and NRM Comunicaciones, S.A. de C.V., which owns six radio stations in Mexico City.

Competition for audience share in the radio broadcasting industry in Mexico occurs primarily in individual geographic markets. Our radio stations are located in highly competitive areas. However, the strength of the signals

Table of Contents

broadcast by a number of our stations enables them to reach a larger percentage of the radio audience outside the market areas served by their competitors.

Feature Film Production and Distribution

Production and distribution of feature films is a highly competitive business in Mexico. The various producers compete for the services of recognized talent and for film rights to scripts and other literary property. We compete with other feature film producers, Mexican and non-Mexican, and distributors in the distribution of films in Mexico, the U.S. and in Latin America. See **Other Businesses Feature Film Production and Distribution** . Our films also compete with other forms of entertainment and leisure time activities.

Gaming Business

Our principal competitors in the gaming industry are, with respect to casinos, Codere, CIE and Grupo Caliente, and, with respect to Multijuegos, the governmental lotteries of Pronósticos and Lotería Nacional. We also face competition from several illegal casino and bingo parlors throughout Mexico.

Regulation

Our business, activities and investments are subject to various Mexican federal, state and local statutes, rules, regulations, policies and procedures, which are constantly subject to change, and are affected by the actions of various Mexican federal, state and local governmental authorities. See **Key Information Risk Factors Risk Factors Related to Mexico Imposition of Fines by Regulators and Other Authorities Could Adversely Affect Our Financial Condition and Results of Operations** , **Existing Mexican Laws and Regulations or Changes Thereto or the Imposition of New Ones May Negatively Affect Our Operations and Revenue** and **The Reform and Addition of Various Provisions of the Mexican Constitution Related to Telecommunications, the LFTR, and Other Recent Actions of IFT May Significantly and Adversely Affect the Business, Results of Operations and Financial Results of Some of Our Business Segments** . The material Mexican federal, state and local statutes, rules, regulations, policies and procedures to which our business, activities and investments are subject are summarized below. Station XETV, Tijuana, which broadcasts CW Network television programming in the San Diego television market, is also subject to certain regulatory requirements of the FCC, including the obligation to obtain permits for cross-border transmission of programming broadcast to the United States and to obtain licenses to operate microwave and/or satellite earth station transmitting equipment within the U.S. These summaries do not purport to be complete and should be read together with the full texts of the relevant statutes, rules, regulations, policies and procedures described therein.

Television

Mexican Television Regulations

Concessions. The LFTR regulates, on a convergent basis, the use and exploitation of the radio-electric spectrum, and the telecommunications networks, as well as the rendering of broadcasting, cable, satellite pay-TV and telecommunications services.

Concessions for the commercial use of spectrum are now only granted through public bid processes. Such concessions are granted for a fixed term, subject to renewal in accordance with LFTR. Renewal of concessions for the use of spectrum require, among others: (i) to request such renewal to IFT in the year prior to the last fifth period of the fixed term of the related concession; (ii) to be in compliance with the concession holder's obligations under the LFTR, other applicable regulations, and the concession title; (iii) a declaration by IFT that there is no public interest in recovering the spectrum granted under the related concession; and (iv) the acceptance by the concession holder of any new conditions for renewing the concession as set forth by IFT, including the payment of a related fee. To our knowledge, no spectrum granted for broadcasting services in Mexico has been recovered by the Mexican government in the past several years for public interest reasons; however, the Company is unable to predict the outcome of any action by IFT in this regard.

Pursuant to the Telecommunications and Broadcasting Federal Law, concessionaires will now only have one integrated multiservice concession to provide telecommunication and, possibly broadcasting services. Integrated multiservice concessions will be granted for a term of up to 30 years with the possibility to renew them, for the same term originally granted. Renewal of integrated multiservice concessions require, among others: (i) to request its

Table of Contents

renewal to IFT within the year prior to the last fifth period of the fixed term of the related concession; (ii) to be in compliance with the concession holder's obligations under the LFTR, other applicable regulations, and the concession title; and (iii) the acceptance by the concession holder of any new conditions for renewing the concession as set forth by IFT. IFT shall resolve any request for renewal of the telecommunications concessions within 180 business days of its request. Failure by IFT to respond within such period of time shall be interpreted as if the request for renewal has been granted.

On March 7, 2014, IFT published in the Official Gazette of the Federation an invitation to a public auction for the concession for the two new National Digital Networks. The invitation provided that the concessions for the National Digital Networks would be granted for a term of 20 years for the operation of stations with, among other characteristics, mandatory geographic coverage in 123 locations corresponding to 246 channels within the Mexican territory.

The Company was prevented from participating as a bidder in this public auction. See [Key Information Risk Factors Related to Mexico The Reform and Addition of Various Provisions of the Mexican Constitution Related to Telecommunications, the LFTR, and Other Recent Actions of IFT May Significantly and Adversely Affect the Business, Results of Operations and Financial Results of Some of Our Business Segments and Risk Factors Related to Our Business The Operation of Our Business May Be Adversely Affected if the Mexican Government Does Not Renew or Revokes Our Broadcast or Other Concessions](#). In March 2015, IFT issued its ruling announcing Grupo Radio Centro and Cadena Tres as winning bidders for two free to air broadcasting licenses with separate national coverage. However, since Grupo Radio Centro has failed to pay the amount they bid for their free to air broadcasting license, the IFT's ruling announcing them as a winning bidder was declared null and void and they will not receive the license. As a result, the portion of the spectrum which was going to be assigned to Grupo Radio Centro is scheduled to be auctioned by August 2016, in accordance with IFT's Annual Work Program. Cadena Tres has completed the process and has received its license.

None of our over-the-air television concessions has ever been revoked or otherwise terminated and, except for an immaterial concession to transmit an UHF restricted television service which expired in November 2010, all of our concessions have been renewed. See [Information on the Company Business Overview Regulation Cable Television Concessions](#).

We believe that we have operated our television concessions substantially in compliance with their terms and applicable Mexican law. If a concession is revoked or terminated, the concessionaire could be required to forfeit to the Mexican government all of its assets or the Mexican government could have the right to purchase all the concessionaire's assets. In our case, the assets of our licensee subsidiaries generally consist of transmitting facilities and antennas. See [Key Information Risk Factors Risk Factors Related to Our Business The Operation of Our Business May Be Adversely Affected if the Mexican Government Does Not Renew or Revokes Our Broadcast or Other Concessions](#).

In July 2004, in connection with the adoption of a policy issued by the SCT for the transition to digital television, all of our television concessions were renewed until 2021. In compliance with the 2014 Constitutional amendment that provided the terms for the shutdown of the analogical transmissions, the transition to digital television has been completed. See [Key](#)

As a result of the Telecom Reform, certain provisions of the LFTR and Guidelines related to the distribution of more than one channel of programming on the same transmission channel, or multiplexing, were passed. Such provisions optimize the use of the spectrum; for example, where the 6MHz spectrum was used entirely to broadcast only one channel of programming analog standard, now based on new technologies, more than one channel of programming digital standard on the same transmission channel can be broadcast. The Company, as a Preponderant Economic Agent has a restrictive obligation related to multiplexing. The IFT shall not authorize the Preponderant Economic Agent to broadcast channels in excess of 50% of the total channels authorized to other broadcasters in the same geographic coverage. The benefits and options for the Company are still under evaluation.

Supervision of Operations. To ensure that broadcasting is performed in accordance with the provisions established in the concession title, the LFTR and Guidelines, IFT is entitled to monitor compliance by exercising powers of supervision and verification: for example, the IFT can perform technical inspections of the television stations and the concessionaire must file annual reports with IFT.

On November 4, 2015, the Mexican Ministry of Interior published in the Official Gazette of the Federation an amendment to the regulations of broadcast television and pay-TV programming guidelines providing for different age classifications for programming (the Programming Guidelines Amendment) which became effective on December 17, 2015. The Programming Guidelines Amendment for broadcast television is as follows: (i) programs classified D exclusively for mature audience only may broadcast after midnight; (ii) programs classified C for adults may broadcast only after 9:00 p.m.; (iii) programs classified B15 for teenagers over 15 years old may be broadcast only after 7:00 p.m.; (iv) programs classified B for teenagers may be broadcast only after 4:00 p.m.; and (v) programs classified A and AA for all age groups may be broadcast at any time. The same age classifications apply for pay-TV programming, but there are no applicable broadcasting time limitations.

Content for Children and Teenagers. The LFTR includes new criteria for programming addressed for children and teenagers. Each concessionaire is also required to transmit each day, free of charge, up to 30 minutes of programming promoting cultural, educational, family counseling and other social matters, using programming provided by the Mexican government. Historically, the Mexican government has not used a significant portion of this time.

Restrictions on Advertising. Mexican law regulates the type and content of advertising broadcast on television. In order to prevent the transmission of misleading advertising, without affecting freedom of expression and dissemination, the broadcasting of advertisements presented as journalistic news or information is prohibited. Under current law, advertisements of alcoholic beverages (other than beer and wine) may be broadcast only after 9:00 p.m. and advertisements for tobacco products are prohibited. Advertising for alcoholic beverages must not be excessive and must be combined with general promotions of nutrition and general hygiene. Health Law Guidelines were published in the Official Gazette of the Federation on April 15, 2014 and became effective on July 7, 2014 for the advertisement of the following products: snacks, flavored drinks, candies, chocolates, or foods similar to chocolates and became effective for the remaining products on January 1, 2015. See Risk Factors Related to Our Business The Amendment to the Regulations of the General Health Law on Advertising Could Materially Affect Our Business, Results of Operations and Financial Condition . Moreover, the Mexican government must approve any advertisement of lotteries and other games.

TV advertisement will not take up more than 18% of broadcast time on any day in TV. However, this percentage can be increased by an additional 2% when at least 20% of the content programmed is national production. Another 5% of advertisement time can be added when at least 20% of the content programmed is independent national production. There are no restrictions on maximum rates. See Key Information Risk Factors Risk Factors Related to Mexico Existing Mexican Laws and Regulations or Changes Thereto or the Imposition of New Ones May Negatively Affect Our Operations and Revenue , The Amendment to the Regulations of the General Health Law on Advertising Could Materially Affect Our Business, Results of Operations

and Financial Situation and The Reform and Addition of Various Provisions of the Mexican Constitution Related to Telecommunications, the LFTR, and Other Recent Actions of IFT May Significantly and Adversely Affect the Business, Results of Operations and Financial Results of Some of Our Business Segments .

Additional Rights for Audiences. Among others, the LFTR imposes new obligations on concessionaires. Under the LFTR, concessionaires must have a code of ethics and appoint an Ombudsman, whom shall not have been employed by the respective concessionaire or concessionaires during a period of two years prior to his/her appointment. The Ombudsman can be appointed (i) individually by the relevant concessionaire, (ii) jointly by several concessionaires or (iii) by a body or chamber which represents concessionaires. The *Cámara Nacional de la Industria de Radio y Televisión* (CIRT) or Mexican Chamber of Television and Radio Broadcasters, has appointed a person who is authorized to act as an Ombudsman for all of its concessionaire members who decide to retain him. In addition, concessionaires must provide (i) programming that is subtitled and dubbed in Spanish; (ii) sign language for the hearing impaired in at least one of their most-watched nationwide news programs; (iii) electronic, online and telephone programming guides, and (iv) a closed caption system for channels that have over 50% national coverage between the hours of 6:00 a.m. and midnight. Except for the closed caption system, which does not have to be put in

Table of Contents

place until August 12, 2017, these obligations became effective within the 90 days following the date on which the LFTR was implemented and are in full force and effect.

Government Broadcast Time. Radio and television stations have to provide to the Mexican Government up to 18 minutes per day of the television broadcast time and 35 minutes per day of the radio broadcast time between 6:00 a.m. and midnight, in each case distributed in an equitable and proportionate manner. Any time not used by the Mexican government on any day is forfeited. Generally, the Mexican government uses all or substantially all of the broadcast time available to it under this tax.

Foreign Ownership. Non-Mexican ownership of shares of Mexican enterprises is restricted in some economic sectors, including broadcast television, and radio. As a result of the Telecom Reform, the participation of foreign investors can be up to 49% in free to air radio and television, subject to reciprocity requirements, and up to 100% in telecommunications services and satellite communications. Such amendments are reflected in the LFTR and Mexico's *Ley de Inversión Extranjera*, or Foreign Investment Law, and the *Reglamento de la Ley de Inversión Extranjera*, or the Foreign Investment Law Regulations. See [Satellite Communications](#) Mexican Regulation of DTH Satellite Services .

Radio

The regulations applicable to the operation of radio stations in Mexico are identical in all material respects to those applicable to television stations. The expiration dates of our radio concessions range from 2015 to 2020. Concessions for three radio stations in the states of San Luis Potosí and Jalisco expired in 2015. Renewal applications were timely filed, but are still pending as certain related matters of the applicable regulations are being reviewed by the corresponding authorities. See [Content](#) , [Other Businesses](#) [Radio Stations](#) and [Key Information](#) [Risk Factors](#) [Risk Factors Related to Our Business](#) [The Operation of Our Business May Be Adversely Affected if the Mexican Government Does Not Renew or Revokes Our Broadcast or Other Concessions](#) .

Cable Television

Concessions. Cable television operators now apply for a public telecommunications network concession from IFT (previously SCT) in order to operate their networks and provide cable television services and other multimedia communications services. Applications are submitted to IFT (previously SCT) and, after a formal review process, a public telecommunications network concession is granted for an initial term of up to 30 years. Cablevisión obtained a telecommunications concession, which expires in 2029. Pursuant to its public telecommunications concession, Cablevisión can provide cable television, limited audio transmission services, specifically music programming, bidirectional internet access and unlimited data transmission services in Mexico City and surrounding areas in the

State of Mexico (*Estado de México*), and in October 2010, the SCT granted Cablevisión authorization to provide the aforementioned services in 13 additional municipalities of the State of Mexico. In addition, in May 2007, the SCT granted Cablevisión authorization to modify its concession allowing Cablevisión to provide local telephony services using the telephony public network. The scope of Cablevisión's public telecommunications concession is much broader than the scope of its former cable television concession, which covered only cable television services and audio programming.

Cablemás and its affiliates operate under 53 concessions, which cover 17 Mexican states. Through these concessions, Cablemás provides cable television services, internet access and bidirectional data transmission services. Cablemás provides local and long distance telephony services. Each concession granted by the SCT allows Cablemás to install and operate a public telecommunications network. The expiration dates for Cablemás' concessions range from 2016 to 2045.

TVI and its affiliates operate under ten concessions, which cover four Mexican states. Through these concessions, TVI provides cable television services, bidirectional data transmission and internet and telephony services. Each concession granted by the SCT allows TVI to install and operate a public telecommunications network. The expiration dates for TVI's concessions range from 2025 to 2045.

Cablecom and its affiliates operate under 55 concessions, which cover 17 Mexican states. Through these concessions, Cablecom provides cable television services, bidirectional data transmission and internet and telephony services. Each concession granted by the SCT allows Cablecom to install and operate a public telecommunications network. The expiration dates for Cablecom's concessions range from 2025 to 2038.

Table of Contents

Telecable operates under 35 concessions, which cover 11 Mexican states. Through these concessions, Telecable provides cable television services, bidirectional data transmission and internet and telephony services. Each concession granted by the SCT allows Telecable to install and operate a public telecommunications network. The expiration dates for Telecable's concessions range from 2016 to 2043.

According to the LFTR, a public telecommunications concession may be renewed upon its expiration, or revoked or terminated prior to its expiration for a variety of circumstances, including:

- unauthorized interruption or termination of service;
- interference by the concessionaire with services provided by other operators;
- non-compliance with the terms and conditions of the public telecommunications concession (which has expressly established that failure to comply will result in the revocation of the concession);
- the concessionaire's refusal to interconnect with other operators;
- loss of the concessionaire's Mexican nationality;
- unauthorized assignment, transfer or encumbrance, in whole or in part, of the concession or any rights or assets;
- the liquidation or bankruptcy of the concessionaire; and
- ownership or control of the capital stock of the concessionaire by a foreign government.

In addition, IFT (previously SCT) may establish under any public telecommunications concession further events which could result in revocation of the concession. Under current Mexican laws and regulations, upon the expiration or termination of a public telecommunications concession, the Mexican government has the right to purchase those assets of the concessionaire

that are directly related to the concession, at market value.

Cable television operators are subject to the LFTR and, since February 2000, have been subject to the *Reglamento del Servicio de Televisión y Audio Restringidos*, or the Restricted Television and Audio Services Regulations. Under current Mexican law, cable television operators are classified as public telecommunications networks, and must conduct their business in accordance with Mexican laws and regulations applicable to public telecommunications networks.

Under the applicable Mexican law, the Mexican government, through the SCT, may also temporarily seize or even expropriate all of a public telecommunications concessionaire's assets in the event of a natural disaster, war, significant public disturbance or threats to internal peace and for other reasons related to preserving public order or for economic reasons. The Mexican government is obligated by Mexican law to compensate the concessionaire, both for the value of the assets seized and related profits.

Supervision of Operations. IFT (previously SCT) regularly inspects the operations of cable systems and cable television operators must file annual reports with IFT (previously SCT).

Under Mexican law, programming broadcast on cable networks is not subject to judicial or administrative censorship. However, this programming is subject to various regulations, including prohibitions on foul language, programming which is against good manners and customs or programming which is against the national security or against public order.

Mexican law also requires cable television operators to broadcast programming that promotes Mexican culture, although cable television operators are not required to broadcast a specified amount of this type of programming.

In addition to broadcasting programming that promotes Mexican culture, cable television operators must also set aside a specified number of their channels, which number is based on the total number of channels they transmit, to transmit programming provided by the Mexican government.

Restrictions on Advertising. Mexican law restricts the type of advertising which may be broadcast on cable television. These restrictions are similar to those applicable to advertising broadcast on over-the-air Channels 2, 4, 5 and 9. See Regulation Television Mexican Television Regulations Restrictions on Advertising .

Table of Contents

Forfeiture of Assets. Under Mexican regulations, at the end of the term of a public telecommunications concession, assets of concessionaires may be purchased by the Mexican government at market value.

Non-Mexican Ownership of Public Telecommunications Networks

Under current Mexican law, non-Mexicans may currently own up to 49%, subject to reciprocity by the relevant foreign country, of the outstanding voting stock of Mexican companies with a broadcast television or radio concession. However, non-Mexicans may currently own up to all of the outstanding voting stock of Mexican companies with a public telecommunications concession to provide cellular telephone, fixed-line telephone, pay-TV and data services.

Application of Existing Regulatory Framework to Internet Access and IP Telephony Services

Cablevisión, TVI, Cablecom, Telecable and Cablemás may be required, under Mexican law, to permit other concessionaires to connect their network to its network in a manner that enables its customers to choose the network by which the services are carried.

To the extent that a cable television operator has any available capacity on its network, as a public telecommunications network, Mexican law requires the operator to offer third party providers access to its network. Our cable operators currently do not have any capacity available on their networks to offer to third party providers and do not expect that they will have capacity available in the future given the broad range of services they plan to provide over their networks.

Satellite Communications

Mexican Regulation of DTH Satellite Services. Under LFTR, concessions to broadcast DTH satellite services are for an initial term of up to 30 years, and are renewable for up to 30 years. We received a 30-year concession to operate DTH satellite services in Mexico utilizing SatMex satellites in May 1996. In November 2000, we received an additional 20-year concession to operate our DTH satellite service in Mexico using the IS-9 satellite system, a foreign-owned satellite system. Our use of the IS-16, IS-21 and SM-1 satellites has been authorized by the competent Mexican authorities.

Like a public telecommunications network concession, a DTH concession may be revoked or terminated by IFT (previously SCT) prior to the end of its term in certain circumstances, which for a DTH concession include:

- The failure to use the concession within 180 days after it was granted;
- A declaration of bankruptcy of the concessionaire;
- Failure to comply with the obligations or conditions specified in the concession;
- Unlawful assignments of, or encumbrances on, the concession; or
- Failure to pay to the government the required fees.

At the termination of a concession, the Mexican government has the preemptive right to acquire the assets of a DTH satellite service concessionaire. In the event of a natural disaster, war, significant public disturbance or for reasons of public need or interest, the Mexican government may temporarily seize and expropriate all assets related to a concession, but must compensate the concessionaire for such seizure. The Mexican government may collect fees based on DTH satellite service revenues of a satellite concessionaire.

Under the LFTR, DTH satellite service concessionaires may freely set customer fees but must notify IFT (previously SCT) of the amount, except that if a concessionaire has substantial market power, IFT (previously SCT) may determine fees that may be charged by such concessionaire. The LFTR specifically prohibits cross-subsidies.

There is currently no limitation on the level of non-Mexican ownership of voting equity of DTH satellite system concessionaires.

Regulation of DTH Satellite Services in Other Countries. Our current and proposed DTH ventures in other countries are and will be governed by laws, regulations and other restrictions of such countries, as well as treaties that such countries have entered into, regulating the delivery of communications signals to, or the uplink of signals

Table of Contents

from, such countries. In addition, the laws of some other countries establish restrictions on our ownership interest in some of these DTH ventures as well as restrictions on programming that may be broadcast by these DTH ventures.

Mexican Gaming Regulations

Pursuant to Mexico's *Ley Federal de Juegos y Sorteos*, or Federal Law of Games and Draws, or Gaming Law, and its accompanying regulations, the *Reglamento de la Ley Federal de Juegos y Sorteos*, or Gaming Regulations, the Mexican Ministry of the Interior has the authority to permit the operation of games and lotteries that involve betting. This administrative authorization is defined as a permit under the Gaming Regulations. Under the Gaming Regulations, each permit establishes the terms and conditions for the operation of the respective activities authorized under the permit and the specific periods for operation of those activities. Permits for games and lotteries that involve betting have a maximum term of 25 years. The holder of the relevant permit must comply with all the terms provided in the permit, the Gaming Law and the Gaming Regulations. We were granted a Gaming Permit on May 25, 2005, which expires on May 24, 2030.

Mexican Antitrust Law

The Federal Antitrust Law became effective on July 7, 2014. It should be noted that the IFT is entitled to review antitrust matters related to the telecommunications and broadcasting sectors, while the CFCE is in charge of all other antitrust matters. IFT or CFCE must authorize mergers and acquisitions before they take place. In addition, one of the thresholds was modified to only apply to sales or assets of economic agents in Mexico and not worldwide economic agents. The Federal Antitrust Law allows reporting parties to request a fast track review for a specific transaction when it is evident that the transaction does not restrain competition. It is considered evident that a transaction does not restrain competition when:

- (i) the acquirer does not have any participation in any market related to the relevant market; and
- (ii) the acquirer is not an actual or potential competitor of target; and
- (iii) any of the following circumstances are met:
 - (x) the acquirer is a new participant in the relevant market;
 - (y) the acquirer does not have control over target before or after the transaction; or

(z) the acquirer has control over target before the transaction.

IFT or CFCE, as applicable, must resolve within 5 business days from the date of filing if the transaction should be admitted to the fast track review process. Once admitted, it must resolve within 15 business days whether it is evident that the transaction does not restrain competition.

The Antitrust Law provides that the following reportable transactions, among others, are exempt from being reviewed by IFT or CFCE:

(i) Corporate restructurings.

(ii) Transactions where the acquirer has control over the target from its incorporation or from the date the last reported transaction was approved by IFT or CFCE.

(iii) Trusts in which the trustor contributes assets without intending to transfer, or causing the actual transfer of, assets to another company that is not part of the corporate structure of the trustor.

(iv) Transactions that have effect in Mexico involving non-Mexican participants, if the participants will not take control of Mexican legal entities, or acquire assets in Mexico, in addition to those previously controlled or owned by such participants.

(v) When the acquirer is a Brokerage House, whose operation involves the acquisition of stock, obligations, securities or assets, in order to place them among the investing public, except when the Brokerage House obtains a significant influence in the decisions of the company.

(vi) Acquisitions of equity securities (or convertible securities) through stock markets that represent less than 10% of such securities, and the acquirer is not entitled to (w) appoint board members; (x) control a shareholders meeting decision; (y) vote more than 10% of voting rights of the issuer; or (z) direct or influence the management, operation, strategy or principal policies of the issuer.

Table of Contents

(vii) When the acquisition of stock, assets, obligations or securities is made by one or more investment funds with speculative purposes that have no investments in companies or assets that participate or are occupied in the same relevant market of the acquired company.

According to transitory article 9 of the LFTR, as long as there is a Preponderant Economic Agent in the telecommunications and broadcasting sectors, in order to promote competition and develop viable competitors in the future, it is not required to obtain IFT approval of mergers and acquisitions carried out by concession holders when the following requirements are met:

(a) The transaction reduces the Dominance Index in the sector and the Hirschman-Herfindahl Index does not increase by more than 200 points.

(b) As a result of the transaction, the Preponderant Economic Agent has a sector share percentage of less than 20%.

(c) The Preponderant Economic Agent of the sector in which the transaction is taking place is not involved in the transaction.

(d) The transaction does not effectively diminish, harm or hinder the free competition and concurrency in the applicable sector.

Notwithstanding the above, concession holders involved in the transaction shall have to inform IFT of the transaction within ten days following the completion of the transaction and IFT will then have 90 calendar days to investigate the transaction and in case it determines the existence of substantial market power in the relevant market, it may impose the necessary measures to protect and encourage free competition and concurrency in such market.

With regards to our acquisitions of Cablecom and Telecable, the IFT ruled that there were no sufficient elements to determine the existence of market power in the municipalities of Mexico in which Cablecom and Telecable operate. The resolution concerning the Cablecom Acquisition has been challenged by certain third parties. These challenges are still under review by the competent courts. There is a risk that IFT could try to impose measures upon us which could significantly and adversely affect the activities and businesses of our broadcasting and/or telecommunications businesses, as well as our results of operations and financial condition.

Other relevant provisions provided in the Antitrust Law, are the following:

- a) Granting the *Autoridad Investigadora*, or Prosecutor Authority, authority to investigate the commission of monopolistic practices, forbidden mergers, barriers to competition, essential facilities or substantial market power.

- b) Enhancement of the legal power of the authorities for conducting its investigations (i.e. requesting written evidence, testimonies, perform verification visits, etc.).

- c) Significantly increased monetary fines for the commission of illegal conduct.

- d) IFT or CFCE, as applicable, may determine the existence of essential facilities when the following conditions are met: (i) one or several economic agents with substantial market power control a good; (ii) the reproduction of such good by other economic agents is unviable, now or in the future, due to technical, legal or economic reasons; (iii) the good is indispensable for the provision of other goods or services in other markets and does not have close substitutes.

- e) IFT or CFCE, as applicable, may determine the existence of barriers to competition and free markets, when an element is found that either (i) hinders the access of new entrants; (ii) limits competition; or (iii) hinders or distorts competition and the free market process.

- f) The resolutions issued by IFT or CFCE, as applicable, can only be challenged by an *amparo* claim, which will be ruled by the Antitrust, Telecommunications and Broadcasting Federal Courts, without any judicial stay that can suspend the execution of the resolution.

The above mentioned provisions may significantly and adversely affect our business, results of operations and financial condition.

Mexican Electoral Amendment

In 2007, the Mexican Federal Congress published an amendment to the Mexican Constitution (referred to in this annual report as the 2007 Constitutional Amendment), pursuant to which, among other things, the *Instituto Federal Electoral*, or the Federal Electoral Institute, or IFE, has the exclusive right to manage and use the Official Television Broadcast Time and the Official Radio Broadcast Time (jointly referred to in this annual report as Official Broadcast Time). In February 2014, the Mexican Federal Congress approved a Constitutional amendment creating the *Instituto Nacional Electoral*, or the National Electoral Institute, or INE, which replaced the IFE. The INE has the same functions and capacity as the former IFE and regulates the services of radio and television in the same manner, except that the INE has a relevant participation in the electoral campaigns in federal, estate and local procedures by distributing the Official Broadcast Time among the political parties. For a description of the Official Broadcast Time, see Information on the Company Business Overview Our Operations Content Programming Advertising Sales Plan and Information on the Company Business Overview Other Businesses Radio Stations . The INE has the exclusive right to use the Official Broadcast Time for its own purposes and for the use of political parties in Mexico (as provided in the Mexican Constitution) for self promotion and, when applicable, to promote their electoral campaigns during election day, pre-campaign and campaign periods.

The INE and the political parties must comply with certain requirements included in the 2007 Constitutional Amendment for the use of Official Broadcast Time. During federal electoral periods, the INE will be granted, per the 2007 Constitutional Amendment, 48 minutes per day in each radio station and television channel, to be used during pre-campaign periods in two and up to three minutes per broadcast hour in each radio station and television channel, of which all the political parties will be jointly entitled, to use one minute per broadcast hour. During campaign periods, at least 85% of the 48 minutes per day, shall be allocated among the political parties, and the remaining 15% may be used by the INE for its own purposes. During non-electoral periods, the INE will be assigned with up to 12% of the Official Broadcast Time, half of which shall be allocated among the political parties. In the event that local elections are held simultaneously with federal elections, the broadcast time granted to the INE shall be used for the federal and the local elections. During any other local electoral periods, the allocation of broadcast time will be made pursuant to the criteria established by the 2007 Constitutional Amendment and as such criteria are reflected in applicable law.

In addition to the foregoing, pursuant to the 2007 Constitutional Amendment political parties are forbidden to purchase or acquire advertising time directly or through third parties, from radio or television stations; likewise, third parties shall not acquire advertising time from radio or television stations for the broadcasting of advertisements which may influence the electoral preferences of Mexican citizens, nor in favor or against political parties or candidates to offices elected by popular vote.

We believe we have been operating our business in compliance with the provisions of the 2007 Constitutional Amendment; however, we have filed legal actions contesting certain provisions of the 2007 Constitutional Amendment.

Telecom Reform and Broadcasting Regulations

On June 12, 2013, the Telecom Reform came into force. The Telecom Reform, the LFTR and secondary regulations issued by the President and IFT, as applicable, and certain actions recently taken by IFT, an organization with constitutional autonomy responsible for overseeing the radio and television broadcasting industries and telecommunications, including all aspects of economic competition, affect or could significantly and adversely affect our business, results of operations and financial position. See Key Information Risk Factors Related to Mexico The Reform and Addition of Various Provisions of the Mexican Constitution Related to Telecommunications, the LFTR, and Other Recent Actions of IFT May Significantly and Adversely Affect the Business, Results of Operations and Financial Results of Some of Our Business Segments .

The Telecom Reform created two regulatory bodies that are independent from the executive branch of government: CFCE (which assumed the functions of the former Mexican Antitrust Commission, except in the areas of telecommunications and broadcasting (television and radio), and IFT (which oversees the Mexican telecommunications and broadcasting (television and radio) industries, including all antitrust matters relating to those industries). In addition, specialized federal courts empowered to review all rulings, actions and omissions of

Table of Contents

these independent regulatory bodies were created. No stay or injunction will suspend any measure or action taken by these regulatory bodies. Therefore, subject to limited exceptions, until any decision, action or omission by these regulatory bodies is declared void by a competent court through a binding and final judgment, CFCE's or IFT's decision, action or omission will be valid and will have full force and legal effect.

IFT is empowered, among other things, to (i) oversee the Mexican telecommunications (including cable and satellite pay-TV) and broadcasting (television and radio) industries, including all antitrust matters related to these industries; (ii) set limits to national and regional frequencies that can be exploited by a concession holder, or to the cross-ownership of telecommunications, television or radio businesses that serve the same market or geographical zone that may include the divestment of certain assets to comply with such limits; (iii) issue asymmetric regulation; (iv) grant and revoke telecommunications, television and radio concessions; (v) approve any assignment or transfer of control of such concessions; (vi) revoke a concession for various reasons, including in the case of a breach by a concessionaire of a non-appealable decision confirming the existence of illegal antitrust conduct (*practica monopólica*); and (vii) determine the payment to be made to the government for the granting of concessions.

Concessions for the use of spectrum will only be granted through public bid processes. On March 7, 2014, IFT published in the Official Gazette of the Federation an invitation to a public auction for the concession for the two National Digital Networks which will be granted for a term of 20 years for the operation of stations with, among other characteristics, mandatory geographic coverage in 123 locations corresponding to 246 channels within the Mexican territory.

In March 2015, IFT issued its ruling announcing Grupo Radio Centro and Cadena Tres as winning bidders for two free to air broadcasting licenses with separate national coverage. However, since Grupo Radio Centro failed to pay the amount they bid for their free to air broadcasting license, the IFT's ruling announcing them as a winning bidder was declared null and void and they will not receive the license. As a result, the portion of the spectrum which was going to be assigned to Grupo Radio Centro is scheduled to be auctioned by August 2016, in accordance with IFT's Annual Work Program. Cadena Tres has completed the process and has received its license. See Key Information Risk Factors Risk Factors Related to Mexico The Reform and Addition of Various Provisions of the Mexican Constitution Related to Telecommunications, the LFTR, and Other Recent Actions of IFT May Significantly and Adversely Affect the Business, Results of Operations and Financial Results of Some of Our Business Segments .

Access to information and communication technologies, as well as broadcasting and telecommunications services (including broadband), is established as a constitutional right. The Telecom Reform further requires that such information be diverse and timely, and that any person may search, receive and disclose information and ideas of any kind through any media. Among other things, the LFTR contemplates the right of audiences to be able to receive content that reflects ideological pluralism, that the news is distinguishable from the reporter's opinions, and to have the right to replicate the news.

The Telecom Reform permits 100% foreign ownership in satellite and telecommunications services and increases to up to 49% the level of permitted foreign ownership in television and radio services, subject to reciprocity of the originating foreign investment country.

As a result of the Telecom Reform and LFTR, starting on September 10, 2013, concessionaries of broadcast services have been required to permit pay-TV concessionaries to retransmit broadcast signals, free of charge and without discrimination, within the same geographic coverage area simultaneously and without modifications, including advertising, and with the same quality of the broadcast signal, except in certain specific cases provided in the Telecom Reform. Also, since September 10, 2013, our pay-TV licensees are required to retransmit broadcast signals of others, free of charge and on a non-discriminatory basis, subject to certain exceptions and additional requirements provided for in the Telecom Reform.

On February 27, 2014, the Guidelines were published in the Official Gazette of the Federation, which include, among other obligations, the obligation of concessionaries of broadcast television licenses to permit the retransmission of their broadcast signals and the obligation of pay-TV concessionaries to allow such retransmission (without requiring the prior consent of the broadcast television concessionaries) in the same geographic coverage zone for free (subject to certain exceptions) and in a non-discriminatory manner in its entirety, simultaneously and without modifications by the broadcasting concessionaire, including advertising, and with the same quality of the broadcast signal without requiring consent from the broadcast television concessionaries.

Table of Contents

The Telecom Reform calls for the National Development Plan. The National Development Plan includes a program for installing broadband connections in public facilities, which would identify the number of sites to be connected per year to promote access to broadband in public buildings dedicated to investigation, health, education, social services and in other facilities owned by the government.

Mexico's transition to digital television was completed on December 31, 2015. Frequencies released as a consequence of such digitalization will be transferred back to the Mexican State.

See **Key Information** **Risk Factors Related to Mexico** **The Reform and Addition of Various Provisions of the Mexican Constitution Related to Telecommunications, the LFTR, and Other Recent Actions of IFT May Significantly and Adversely Affect the Business, Results of Operations and Financial Results of Some of Our Business Segments** .

The LFTR establishes a renewal procedure that will result in the granting of a renewal of an integrated multiservice concession (not involving a radio-electric spectrum or orbital resources which require a concession to exploit such spectrum) in order to provide telecommunications and possibly, broadcasting services. The integrated multiservice concession will be awarded for renewable 30 year terms. Renewal of integrated multiservice concessions require, among others: (i) to request its renewal to IFT within the year prior to the last fifth period of the fixed term of the related concession; (ii) to be in compliance with the concession holder's obligations under the LFTR, other applicable regulations, and the concession title; and (iii) the acceptance by the concession holder of any new conditions for renewing the concession as set forth by IFT. IFT shall resolve any request for renewal of the telecommunications concessions within 180 business days of its request. Failure by IFT to respond within such period of time shall be interpreted as if the request for renewal has been granted.

The LFTR also contemplates that concession holders that operate a public network of telecommunications must (i) abstain from charging long distance fees for calls made by users to any national destination; (ii) if there was no other concession holder providing similar services in a certain territory, the concession holder providing the service in such territory shall have to continue providing the services; and (iii) concession holders must adopt the open architecture designs for the network to guarantee the interconnection and interoperation of their network.

The LFTR establishes the maximum amount of time that a concession holder providing broadcasting services with commercial purposes can use for commercial advertising. The maximum amount of advertising time is set at 18% of the total broadcasting time for each television channel, and the maximum amount for radio stations shall not exceed 40% of the total broadcasting time for each channel.

The LFTR establishes that those concession holders providing broadcasting services shall offer broadcasting services and advertising spaces to any person or corporation that requires them on a non-discriminatory basis and on market terms granting the terms, packages, conditions, and rates in force at the time of the request. Additionally, the law provides that balance shall be maintained between advertising and programming. Advertising shall be subject to several rules, including the maximum time allowed for advertising (i.e. 18% of the total available time per channel in free to air television; 40% in radio; and 6 minutes per hour on pay-television and audio).

(1) Percentage of equity owned by us directly or indirectly through subsidiaries or affiliates.

(2) While this subsidiary is not a significant subsidiary within the meaning of Rule 1-02(w) of Regulation S-X under the Securities Act, we have included this subsidiary in the table above to provide a more complete description of our operations.

(3) Direct subsidiary through which we conduct the operations of our Cable segment.

(4) The Cablemás subsidiaries are directly and indirectly owned by CVQ. As of December 31, 2014, some Cablemás subsidiaries were direct subsidiaries, and some other were directly owned by Consorcio Nekeas, S.A. de C.V., a former wholly-owned direct subsidiary. In January 2015, Consorcio Nekeas, S.A. de C.V. was merged into TTelecom H, S.A.P.I. de C.V., a former direct subsidiary, and in July 2015, TTelecom H, S.A.,P.I. de C.V. was merged into CVQ. The Cablemás direct subsidiaries were acquired by a direct subsidiary of CVQ in the second half of 2015.

(5) One of four indirect subsidiaries through which, together with the Cablemás subsidiaries, we conduct the operations of our Cable segment.

(6) An indirect subsidiary of CVQ, we consolidate TVI because we appoint the majority of the members of the Board of Directors of TVI.

(7) One of five subsidiaries through which we conduct the operations of our Other Businesses segment.

- (8) The Telecable subsidiaries are directly owned by CVQ as a result of the merger of TTelecom into CVQ in July 2015. TTelecom was a wholly-owned subsidiary through which we acquired Telecable in January 2015.
- (9) Direct subsidiary through which we conduct the operations of our Publishing business.
- (10) One of three subsidiaries through which we own our equity interest in Innova.
- (11) Indirect subsidiary through which we conduct the operations of our Sky segment. We currently own a 58.7% interest in Innova.
- (12) Direct subsidiary through which we conduct the operations of our Publishing Distribution business.
- (13) Direct subsidiary through which we conduct the operations of our Content and Other Businesses segments.
- (14) Indirect subsidiary through which we conduct certain operations of our Content segment.
- (15) Indirect subsidiaries through which we own 10% of the capital stock of UHI and maintain our investment in warrants that are exercisable for capital stock of UHI. In November, 2015, Grupo Xquenda, Ltd. an indirect subsidiary formerly incorporated in Switzerland, was migrated to Mexico with the name Grupo Bissagio, S.A. de C.V.
- (16) Indirect subsidiary through which we conduct the operations of our Content segment.
- (17) Direct subsidiary through which we conduct the operations of our Radio business.
- (18) Direct subsidiary through which we conduct the operations of our Gaming business.
- (19) A direct majority-owned subsidiary of CVQ. As of December 31, 2014, Empresas Cablevisión, S.A.B. de C.V. was directly owned by Editora Factum, S.A. de C.V., a former direct subsidiary of the Company that was merged into CVQ in May 2015

Property, Plant and Equipment

Broadcasting, Office and Production Facilities. Our properties consist primarily of broadcasting, production facilities, television and repeater stations, technical operations facilities, workshops, studios and office facilities, most of which are located in Mexico. We own most of our properties or lease offices and facilities through indirect wholly owned and majority owned subsidiaries. There are no major encumbrances on any of our properties, and we currently do not have any significant plans to construct any new properties or expand or improve our existing properties. Our principal offices, which we own, are located in Santa Fe in Mexico City. Each of our television stations has individual transmission facilities located in Mexico, substantially all of which we own. Our television production operations are concentrated in four locations in Mexico City, 14 studios in San Angel, 12 studios located in Chapultepec, three studios in Santa Fe and one studio in Rojo Gomez. We own substantially all of these studios. The local television stations wholly or majority owned by us have in the aggregate 47 production studios. We own

other properties used in connection with our operations, including a training center, technical operations facilities, studios, workshops, television and repeater stations, and office facilities. We beneficially own Azteca Stadium, which seats approximately 100,000 people, through a trust arrangement that was renewed in 1993 for a term of 30 years and that may be extended for additional periods. In the aggregate, these properties, excluding Azteca Stadium, currently represent approximately 5.6 million square feet of space, of which over 3.8 million square feet are located in Mexico City and the surrounding areas, and approximately 1.7 million square feet are located outside of Mexico City and the surrounding areas.

Our cable television, radio, publishing and Mexican DTH satellite service businesses are located throughout Mexico. We also own the transmission and production equipment and facilities of our radio stations located outside Mexico City.

We also own or lease over a total of 447,283 square feet in properties in the United States, Latin America, Spain and Switzerland in connection with our operations there. We own or lease all of these properties through indirect wholly owned and majority owned subsidiaries. The following table summarizes our real estate and lease agreements in the United States, Latin America, Spain and Switzerland.

Satellites. We currently use transponder capacity on nine satellites: Eutelsat 117 West A (formerly Satmex 8), which reaches Mexico, the United States, Latin America, and the Caribbean; Eutelsat 115 West A (formerly Satmex 5), which reaches Mexico, the United States and Latin America; Intelsat IS-11, replacement of PAS 3-R (renamed in February 2007 IS-3R), which started operations in July 2009 and reaches North America, Western Europe, Latin America and the Caribbean; Galaxy 16 (formerly Galaxy IVR), which reaches Mexico, the United States and Canada; AMC-9, which reaches Mexico, the United States and Canada; IS-905, which reaches Western and Eastern Europe; IS-21, which reaches Central America, Mexico, the Southern United States and the Caribbean; IS-16, which reaches Central America, Mexico, the Southern United States and the Caribbean; and SM-1, which reaches Central America, Mexico, the Southern United States and the Caribbean. In March 2010, Sky reached an agreement with a subsidiary of Intelsat to lease 24 transponders on the Intelsat IS-21 satellite which is mainly used for signal reception and retransmission services over the satellite's estimated 15-year service life. IS-21 started service in the third quarter of 2012, replacing Intelsat IS-9 as Sky's primary transmission satellite. In April 2010, Intelsat released the IS-16 satellite, where Sky has an additional twelve transponders to deliver new DTH-HD channels and more DTH SD channels; this satellite is also a back-up satellite for our DTH venture operations. For a description of guarantees related to our DTH venture transponder obligations, see Note 13 to our consolidated year-end financial statements.

Since 1996, we have been working with PanAmSat (now Intelsat) as our satellites services provider, which provided to Televisa five Ku band transponders on Satellite PAS-3R, three of which were intended to be for DTH to Spain. We were required to pay an annual fee for each transponder of U.S \$3.1 million. Due to an exchange with three of five 54 Mhz ku Band transponders, we currently have capacity on two 36 Mhz C band transponders on Galaxy 16.

In December 2005, we signed an extension with PanAmSat, for the use of three transponders on the PAS-3R satellite until 2009 and 2012 and two transponders on the Galaxy IVR (replaced by Galaxy 16) satellite until 2016. On October 2015 we signed a new contract with SES S.A. until June 2019 for the replacement of two transponders of Galaxy 16 (end of contract April 2016), the new contract includes three transponders and the full service migration to the new satellite AMC-9, the operations started on October 2015.

In February 2007, Intelsat renamed some of its satellite fleet acquired with its 2006 merger with PanAmSat: current names for PAS-9 and PAS-3R are IS-9 and IS-3R, respectively. Intelsat kept the name of Galaxy 16. In December 2007, Sky and Sky Brasil reached an agreement with Intelsat Corporation and Intelsat LLC to build and launch a new 24-transponder satellite, IS-16, for which service will be dedicated to Sky and Sky Brasil over the satellite's estimated 15-year life. The satellite was successfully launched in February 2010 and started operations in April 2010. In the third quarter of 2013, Sky entered into an agreement with DirecTV for the acquisition and launch of the SM-1 satellite, which was successfully launched in May 2015 and started operations on June 2015. See Note 11 to our consolidated year-end financial statements.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

In August 2009, the contract on two remaining transponders of the IS-3R satellite expired (end of life of the satellite). We negotiated a new contract for the transponder on the IS-905 satellite until August 31, 2015, for the distribution of our content in Europe. In September 2015 the contract was renewed with Intelsat until August 2018.

In February 2012, we renewed the contract with Satélites Mexicanos, S.A. de C.V., or Satmex, on Satmex 5 until January 31, 2015. In February 2015, we renewed the contract until August 31, 2018. The new contract includes the full service migration to the new satellite, Satmex 8, which started operations in April 2013.

On October 31, 2012, the contract on one of the three transponders of the Galaxy 16 satellite expired. In November 2012, we entered into a new contract with SES, S.A., or SES, for a new transponder on the AMC-9

Table of Contents

satellite until October 31, 2017, as a replacement of the previous one. On November 2015 this contract was extended until December 2018.

In March 2014, Satélites Mexicanos, S.A. de C.V. was renamed Eutelsat Americas, as a part of Eutelsat Group. In February 2015, we renewed our contracts with Eutelsat Americas until January 2018, and also contracted for a new transponder on Eutelsat 117 West A from April 2015 until March 2018.

With several new domestic and international satellites having been launched recently, and with several others scheduled for launch in the next few years, including those scheduled for launch by Intelsat, Eutelsat Americas (formerly Satmex) and SES, we believe that we will be able to secure satellite capacity to meet our needs in the future, although no assurance can be given in this regard.

Insurance. We maintain comprehensive insurance coverage for our offices, equipment and other property for risks including fire, earthquake, flooding, storm, and other similar events and the resulting business interruption losses, subject to some limitations. We do not maintain insurance for part of our transmission lines network and we do not maintain insurance for our DTH business in case of loss of satellite transmission.

Item 5. Operating and Financial Review and Prospects.

You should read the following discussion together with our consolidated year-end financial statements and the accompanying notes, which appear elsewhere in this annual report. This annual report contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in these forward-looking statements. Factors that could cause or contribute to these differences include, but are not limited to, those discussed below and elsewhere in this annual report, particularly in Key Information Risk Factors. See Key Information Forward-Looking Statements for further discussion of the risks and uncertainties inherent in forward-looking statements. In addition to the other information in this annual report, investors should consider carefully the following discussion and the information set forth under Key Information Risk Factors before evaluating us and our business.

Preparation of Financial Statements

As required by regulations issued by *Comisión Nacional Bancaria y de Valores*, or the Mexican Banking and Securities Commission, for listed companies in Mexico, our financial information is presented in accordance with the IFRS as issued by the IASB for financial reporting purposes.

Segment Presentation in 2014

Beginning in 2014, we adjusted our segment reporting. The Publishing business, which was previously presented as a separate reportable segment, was classified into the Other Businesses segment in the first quarter of 2014, since its operations were no longer significant to our consolidated financial statements taken as a whole. Therefore we have recast the segment information for the year ended December 31, 2013 to reflect those adjustments.

The following table sets forth our segment net sales data for the indicated periods as a percentage of total segment net sales:

Table of Contents**Summary of Business Segment Results**

The following tables set forth the net sales and operating segment income of each of our reportable business segments and intersegment sales, corporate expenses, depreciation and amortization and other expense, net for the years ended December 31, 2015, 2014 and 2013.

Reportable segments are those that are based on our method of internal reporting to senior management for making operating decisions and evaluating performance of operating segments, and certain qualitative, grouping and quantitative criteria. As of December 31, 2015, we classified our operations into four business segments: Content, Sky, Cable (which we previously referred to as Telecommunications), and Other Businesses.

The segment net sales and total segment net sales data set forth in this annual report include sales from intersegment operations in all years presented. See Note 25 to our consolidated year-end financial statements.

(2) The total operating segment income data set forth in this annual report do not include corporate expenses or depreciation and amortization in any year presented, but are presented herein to facilitate the discussion of segment results.

(3) Consolidated operating income reflects corporate expenses, depreciation and amortization, and other expense, net, in the years presented. See Note 25 to our consolidated year-end financial statements.

Seasonality

Our results of operations are seasonal. We typically recognize a disproportionately large percentage of our overall consolidated net sales (principally advertising) in the fourth quarter in connection with the holiday shopping season. For example, in 2015, 2014 and 2013, we recognized 28.3%, 30.0% and 29.1%, respectively, of our consolidated net sales in the fourth quarter of the year. Our costs, in contrast to our revenues, are more evenly incurred throughout the year and generally do not correlate to the amount of advertising sales.

Preponderant Economic Agent Status

Total Segment Results

Net Sales

Net sales increased by Ps.7,933.4 million, or 9.9%, to Ps.88,051.8 million for the year ended December 31, 2015 from Ps.80,118.4 million for the year ended December 31, 2014. This increase was attributable to strong growth in our Sky and Cable segments. The Cable segment results reflect the consolidation of Cablecom and Telecable, two cable companies, starting September 1, 2014 and January 1, 2015, respectively.

Cost of Sales

Cost of sales increased by Ps.2,792.7 million, or 8.1%, to Ps.37,169.5 million for the year ended December 31, 2015 from Ps.34,376.8 million for the year ended December 31, 2014. This increase was due to higher costs principally in our Sky, Cable and Content segments. This increase reflects the consolidation of Cablecom and Telecable.

Selling Expenses

Selling expenses increased by Ps.942.7 million, or 12.1%, to Ps.8,764.7 million for the year ended December 31, 2015 from Ps.7,822.0 million for the year ended December 31, 2014. This increase was attributable to higher selling expenses, primarily in our Sky and Cable segments due to the consolidation of Cablecom and Telecable.

Administrative and Corporate Expenses

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Administrative and corporate expenses increased by Ps.1,264.7 million, or 17.8%, to Ps.8,383.1 million for the year ended December 31, 2015 from Ps.7,118.4 million for the year ended December 31, 2014. The growth reflects an increase in administrative expenses, principally in our Cable segment due to the consolidation of Cablecom and Telecable. This increase includes an increase of 32.6% in corporate expenses.

Corporate expense increased by Ps. 482.3 million, to Ps.1,960.8 million in 2015, from Ps.1,478.5 million in 2014. The increase reflected primarily a higher share-based compensation expense.

Share-based compensation expense in 2015 and 2014 amounted to Ps.1,199.5 million and Ps.844.8 million, respectively, and was accounted for as corporate expense. Share-based compensation expense is measured at fair value at the time the equity benefits are conditionally sold to officers and employees, and is recognized over the vesting period. The increase of Ps.354.7 million reflected primarily a higher number of our CPOs conditionally sold to officers and employees in our Cable segment.

Content

We categorize our sources of revenue in our Content segment as follows:

- Advertising,
- Network Subscription Revenue, and
- Licensing and Syndication.

Given the cost structure of our Content segment, operating segment income is reported as a single line item.

Table of Contents

The Advertising revenue is derived primarily from the sale of advertising time on our television broadcast operations, which include the production of television programming and broadcasting of Channels 2, 4, 5 and 9 (television networks), as well as the sale of advertising time on programs provided to pay television companies in Mexico and in our internet business, and the production of television programming and broadcasting for local television stations in Mexico and the United States. The broadcasting of television networks is performed by television repeater stations in Mexico which are wholly-owned, majority-owned or minority-owned by the Group or otherwise affiliated with our networks.

The Network Subscription revenue is derived from domestic and international programming services provided to independent cable television systems in Mexico and our direct-to-home (DTH) satellite and cable television businesses. These programming services for cable and pay-per-view television companies are provided in Mexico, other countries in Latin America, the United States and Europe. The programming services consist of both programming produced by us and programming produced by third parties.

The Licensing and Syndication revenue is derived from international program licensing and syndication fees. Our television programming is licensed and syndicated to customers abroad, including Univision.

The following table presents net sales and operating segment income in our Content segment, and the percentage of change when comparing 2015 with 2014:

	Year Ended December 31,		Change (%)
	2015	2014	
	(Millions of Pesos)		
Net Sales			
Advertising	Ps. 23,029.3	Ps. 25,465.7	(9.6)%
Network Subscription Revenue	3,595.4	2,854.4	26.0
Licensing and Syndication	7,707.9	6,548.0	17.7
Total Net Sales	Ps. 34,332.6	Ps. 34,868.1	(1.5)%
Operating Segment Income	Ps. 14,564.2	Ps. 15,534.3	(6.2)%

Content net sales, representing 38.1% and 42.8% of our total segment net sales for the years ended December 31, 2015 and 2014, respectively, decreased by Ps.535.5 million, or 1.5%, to Ps.34,332.6 million for the year ended December 31, 2015 from Ps.34,868.1 million for the year ended December 31, 2014.

Advertising revenue decreased by 9.6% during 2015. This decrease was mainly due to: i) the re-structuring of our advertising sales business during 2015, which included an increase in the scatter market rates for the second half of 2015 and for the upfront rates of 2016. Several of our clients were reluctant to accept the proposed increase in advertising prices, which deterred additional advertising purchases during the second half of 2015 and, while negotiations took place, delayed the closing of the upfront commitments for the 2016 calendar year; and ii) lower prices on our 2015 upfront rates, negotiated in 2014, as compared with the prior year.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Network Subscription Revenue increased by 26.0%. The growth in the full year was driven mainly by the sustained addition of pay-TV subscribers, both in Mexico and Latin America and a positive translation effect on foreign-currency denominated revenues. During the year, Televisa continued to produce and transmit several of the leading pay-TV networks in Mexico in key categories, including general entertainment, music and lifestyle, and movies. Ten of the top 30 pay-TV networks in Mexico were produced by Televisa.

Licensing and Syndication revenue increase of 17.7% is mainly explained by a positive translation effect on foreign-currency-denominated revenues. This increase was partially offset by a decrease in royalties from Univision, from U.S.\$313.7 million in 2014 to U.S.\$311.1 million in 2015.

In the aggregate, the Content segment results reflect a positive translation effect on foreign-currency-denominated sales that amounted to Ps.1,369.5 million.

Content operating segment income decreased by Ps.970.1 million, or 6.2%, to Ps.14,564.2 million for the year ended December 31, 2015 from Ps.15,534.3 million for the year ended December 31, 2014. The margin was 42.4%. The decrease in the margin by 220 basis points from 2014 is mainly explained by lower advertising revenues as a result of the restructuring of this business.

Advertising Rates and Sales

We sell commercial time in two ways: upfront and on a scatter basis. Advertisers that elect the upfront option lock in prices for most of our commercial inventory for the upcoming year, regardless of future price changes. Advertisers that choose the upfront option make annual prepayments, with cash or short-term notes, are charged lower rates for their commercial time, are given the highest priority in schedule placement, and are given a first option in advertising during special programs. Scatter advertisers, or advertisers who choose not to make upfront payments but rather advertise from time to time, risk both higher prices and lack of access to choice commercial time slots. We bill our advertising customers based on fixed pricing rather than on a cost-per-rating-point basis. Advertising revenues are recognized at the time the advertising services are rendered (i.e., the advertising is broadcast). Upon broadcast of the corresponding advertising, advertisers are charged based on the price tariff previously agreed with them. Any upfront payments are recorded as liabilities until such time as the revenue is recognized. We are not committed with advertisers to achieve a certain rating upon broadcast nor do we charge on estimates but rather on actual agreed prices. Therefore, we do not have to account for any deficiency or provide any price adjustment.

The Mexican government does not restrict our ability to set our advertising rates. In setting advertising rates and terms, we consider, among other factors, the likely effect of rate increases on the volume of advertising sales. We have historically been flexible in setting rates and terms for our television advertising. Nominal rate increases have traditionally varied across daytime hours, and the same price increases have not been implemented for all programs, with higher increases in certain programs as a result of high demand for advertising during certain hours.

We sold approximately 52%, 47% and 53% of total available national advertising time on our networks during prime time broadcasts in 2013, 2014 and 2015, respectively, and approximately 43%, 39% and 45% of total available national advertising time during all time periods in 2013, 2014 and 2015, respectively. Television broadcasting advertising time that is not sold to the public is primarily used to satisfy our legal obligation to the Mexican government to provide Official Television Broadcast Time and to promote, among other things, our products.

As of December 31, 2015 and 2014, we had received Ps.16,442.7 million and Ps.16,695.9 million, respectively, of advertising deposits and advances for television advertising time during 2016 and 2015, respectively, representing approximately U.S.\$955.1 million and U.S.\$1,131.1 million, respectively, at the applicable year-end exchange rates. Approximately 71.1% and 59.3% of these deposits as of December 31, 2015 and 2014, respectively, were in the form of short-term, non-interest bearing notes, with the remainder in each of these years consisting of cash deposits. The weighted average maturity of these notes at December 31, 2015 and 2014 was 3.4 months and 4.5 months, respectively.

Sky

Sky net sales are primarily derived from program services, activation fees and equipment rental to subscribers, and national advertising sales.

Sky net sales, representing 21.3% and 21.5% of our total segment net sales for the years ended December 31, 2015 and 2014, respectively, increased by Ps.1,754.9 million, or 10.0%, to Ps.19,253.5 million for the year ended December 31, 2015 from Ps.17,498.6 million for the year ended December 31, 2014. The annual increase was driven by solid growth in the subscriber base of more than 646 thousand, which is explained by the continued success of Sky's low-cost offering. As of December 31, 2015, the number of net active subscribers increased to 7,284,162 (including 178,915 commercial subscribers), compared with 6,638,032 (including 174,986 commercial subscribers) as of December 31, 2014.

Edgar Filing: GRUPO TELEVISA, S.A.B. - Form 20-F

Sky closed 2015 with 192,024 subscribers in Central America and the Dominican Republic.

Sky operating segment income increased by Ps.761.0 million, or 9.3%, to Ps.8,972.3 million for the year ended December 31, 2015 from Ps.8,211.3 million for the year ended December 31, 2014, and the margin was 46.6%, in line with the margin from last year. The increase in revenues was partially compensated by higher programming

Table of Contents

costs mainly as a result of the depreciation of the Mexican peso, and by higher maintenance and leasing costs, as well as higher promotional expenses.

Cable

Cable net sales are derived from the provision of cable and telecommunication services, as well as advertising sales. Net sales relating to pay-TV services generally consist of monthly subscription fees for basic and premium service packages, fees charged for pay-per-view programming and, to a significantly lesser extent, monthly rental and one-time installation fees, broadband internet and telephone services subscription. Voice and data business derives revenues from providing data and long-distance services solutions to carriers and other telecommunications service providers through its fiber-optic network. Net sales relating to pay-TV advertising consist of revenues from the sale of advertising on Cablevisión, CABLEMÁS, TVI, starting September 1, 2014, Cablecom and, starting January 1, 2015, Telecable. Rates are based on the day and time the advertising is aired, as well as the type of programming in which the advertising is aired. Pay-TV subscription and advertising rates are adjusted periodically in response to inflation and in accordance with market conditions.

Cable net sales, representing 31.6% and 25.7% of our total segment net sales for the years ended December 31, 2015 and 2014, respectively, increased by Ps.7,551.0 million, or 36.1%, to Ps.28,488.3 million for the year ended December 31, 2015 from Ps.20,937.3 million for the year ended December 31, 2014. This increase primarily reflected the consolidation of Cablecom starting on September 1, 2014 and of Telecable starting on January 1, 2015. Excluding Cablecom and Telecable, full year sales experienced a growth of 12.5%.

Voice and data revenue generating units, or RGUs, grew by 54.0% and 34.0% compared with 2014, respectively, and video RGUs grew by 21.0%. Excluding the acquisition of Telecable, Voice and Data RGUs, grew by 46.6% and 25.4% compared with 2014, respectively, while Video RGUs grew by 6.3%.

Cable operating segment income increased by Ps.3,522.7 million, or 44.7%, to Ps.11,405.6 million for the year ended December 31, 2015 from Ps.7,882.9 million for the year ended December 31, 2014, and the margin reached 40.0%, an increase of 230 basis points from 2014. These results primarily reflected the consolidation of Cablecom and Telecable, and continued growth in the cable and network platforms. These favorable variances were partially offset by higher programming costs mainly as a result of the depreciation of the Mexican peso and by higher maintenance, personnel and leasing costs and expenses. Excluding Cablecom and Telecable, full year operating segment income increased by 14.9%.

The following table sets forth the breakdown of RGUs per service type for our Cable segment as of December 31, 2015 and 2014.

	2015	2014
Video	4,061,655	3,356,732
Broadband (data)	3,066,699	2,288,709

Voice	1,891,026	1,228,182
RGUs	9,019,380	6,873,623

Other Businesses

Other Businesses net sales are primarily derived from the promotion of sports and special events in Mexico, the distribution of feature films, gaming, radio and publishing distribution. Beginning in 2014, we adjusted our segment reporting. The Publishing business, which was previously presented as a separate reportable segment, was classified into the Other Businesses segment in the first quarter of 2014, since its operations were no longer significant to our consolidated financial statements taken as a whole.

Other Businesses net sales, representing 9.0% and 10.0% of our total segment net sales for the years ended December 31, 2015 and 2014, respectively, decreased by Ps.79.7 million, or 1.0%, to Ps.8,124.3 million for the year ended December 31, 2015 from Ps.8,204.0 million for the year ended December 31, 2014. Businesses that

Table of Contents

performed well included gaming and radio. The gaming business benefited from higher revenues from our electronic gaming machines, while the radio business saw an increase in advertising revenues.

Other Businesses operating segment income increased by Ps.102.0 million, or 15.7%, to Ps.753.2 million for the year ended December 31, 2015 from Ps.651.2 million for the year ended December 31, 2014. This increase reflects: i) an increase in the operating segment income of gaming and radio; ii) a decrease in the operating segment income of our soccer and feature-film distribution businesses; and iii) a change from operating segment income to operating segment loss in our publishing business.

Depreciation and Amortization

Depreciation and amortization expense increased by Ps.3,097.8 million, or 26.8%, to Ps.14,660.9 million for the year ended December 31, 2015 from Ps.11,563.1 million for the year ended December 31, 2014. This change primarily reflected an increase in such expense in our Cable and Sky segments. Excluding Cablecom and Telecable, full year depreciation and amortization expense experienced a growth of 14.3%.

Other Expense, Net

Other expense, net, decreased by Ps.4,953.2 million, to Ps.328.5 million for the year ended December 31, 2015, from Ps.5,281.7 million for the year ended December 31, 2014. This decrease reflected primarily the absence of a one-time non-cash loss of Ps.4,168.5 million on disposition of our former 50% joint venture in the Iusacell telecom business in the third quarter of 2014, as well as a non-recurring cash income of US\$67.6 million (Ps.1,038.3 million) as a result of the early termination of a technical assistance agreement with Univision in the first quarter of 2015. These favorable effects were partially offset by a higher expense related to financial advisory and professional services, a non-recurrent severance expense in connection with dismissals of personnel in our Content, Cable and Other Businesses segments, and a higher loss on disposition of property and equipment.

Other expense, net, for the year ended December 31, 2015, also included financial advisory and professional services, loss on disposition of property and equipment, donations, and a non-cash impairment charge related to goodwill and trademarks in our Publishing business.

Finance Income or Expense, Net

Finance income or expense, net, significantly impacts our consolidated financial statements in periods of currency fluctuations. Finance income or expense, net, reflects:

- interest expense;
- interest income;
- foreign exchange gain or loss attributable to monetary assets and liabilities denominated in foreign currencies;
and
- other finance income or expense, net, including gains or losses from derivative instruments.

Our foreign exchange position is affected by our assets or liabilities denominated in foreign currencies, primarily U.S. dollars. We record a foreign exchange gain or loss if the exchange rate of the Peso to the other currencies in which our monetary assets or liabilities are denominated varies.

Finance expense, net, decreased by Ps.4,206.0 million to Ps.122.9 million for the year ended December 31, 2015 from Ps.4,328.9 million for the year ended December 31, 2014. This favorable change reflected a Ps.6,228.6 million increase in other finance income, net, resulting primarily from (i) our exchange in July 2015 of Convertible Debentures issued by UHI, the controlling company of Univision, for warrants that are exercisable for UHI s

Table of Contents

common stock, which included, as a consideration for such exchange, a cash amount of US\$135.1 million (Ps.2,195 million) received from UHI; and (ii) a Ps.4,718.2 million reclassification from accumulated other comprehensive income in consolidated equity in connection with a cumulative gain related to changes in fair value of the Convertible Debentures, which effect was partially offset by the absence of a favorable change in fair value in 2014 resulting from an embedded derivative related to our former option to convert such Debentures into an equity stake of UHI. This favorable change in other finance income net, was partially offset by (i) a Ps.687.9 million increase in interest expense, due primarily to a higher average principal amount of debt and finance lease obligations in 2015; (ii) a Ps.299.9 million decrease in interest income explained primarily by the absence of interest income from our former investments in the Convertible Debentures issued by UHI as these securities were exchanged in July 2015 for warrants that are exercisable for UHI's common stock, and convertible debt instruments issued by Tenedora Ares, S.A.P.I. de C.V. as these securities were converted in August 2014 in connection with the acquisition of Cablecom, as well as a reduction in applicable interest rates on cash, cash equivalents and temporary investments; and (iii) a Ps.1,034.8 million increase in foreign exchange loss resulting primarily from the effect of a 16.6% depreciation of the Mexican peso against the U.S. dollar on our average net unhedged U.S. dollar liability position in 2015 compared with a 12.9% depreciation and a lower U.S. dollar liability position in 2014.

Share of Income or Loss of Associates and Joint Ventures, Net

This line item reflects our equity participation in the operating results and net assets of unconsolidated businesses in which we maintain an interest, but which we do not control. We recognize equity in losses of joint ventures and associates up to the amount of our initial investment, subsequent capital contributions and long-term loans, or beyond that amount when guaranteed commitments have been made by us in respect of obligations incurred by joint ventures and associates.

Share of income of associates and joint ventures, net, increased by Ps.22.2 million to Ps.35.4 million for the year ended December 31, 2015 from Ps.13.2 million for the year ended December 31, 2014. This increase reflected mainly (i) our share in the income of Imagina, a communications company in Spain; and (ii) the absence of share of loss of our former Iusacell telecom business, as we disposed of this 50% joint venture in September 2014. These favorable effects were partially offset by a higher share of loss of UHI, the controlling company of Univision.

Income Taxes

Income taxes increased by Ps.3,351.3 million to Ps.6,332.2 million for the year ended December 31, 2015 compared with Ps.2,980.9 million for the year ended December 31, 2014. This increase reflected primarily a higher tax base.

The Mexican corporate income tax rate was 30% in each of the years 2015, 2014 and 2013. In accordance with the 2014 Tax Reform (as defined below), the corporate income tax rate will remain 30% thereafter.

In the last quarter of 2013, the Mexican Federal Congress approved a new tax reform (the 2014 Tax Reform), which became effective as of January 1, 2014. Among the tax reforms approved by the Mexican Federal Congress was the elimination of the tax consolidation regime allowed for Mexican controlling companies through December 31, 2013. See Note 23 to our consolidated year-end financial statements.

As a result of this change, beginning on January 1, 2014, we are no longer allowed to consolidate, for income tax purposes, income or loss of our Mexican subsidiaries up to 100% of our share ownership.

In December 2009, the Mexican government enacted certain amendments and changes to the Mexican Income Tax Law that became effective as of January 1, 2010 (the 2010 Mexican Tax Reform). These amendments and changes included, among other, the following provisions: (i) under certain circumstances, the deferred income tax benefit derived from tax consolidation of a parent company and its subsidiaries is limited to a period of five years; therefore, the resulting deferred income tax has to be paid starting in the sixth year following the fiscal year in which the deferred income tax benefit was received; and (ii) the payment of this tax has to be made in installments of 25% in the first and second year, 20% in the third year and 15% in the fourth and fifth year.

Table of Contents

Through December 31, 2013, Mexican companies were subject to paying the greater of the Flat Rate Business Tax (*Impuesto Empresarial a Tasa Única* or IETU) or the income tax. As part of the 2014 Tax Reform, the IETU was eliminated for Mexican companies beginning on January 1, 2014. The IETU was calculated by applying a tax rate of 17.5%. Although the IETU was defined as a minimum tax, it had a wider taxable base as some of the tax deductions allowed for income tax purposes were not allowed for the IETU. Through December 31, 2013, we primarily paid regular income tax on a tax consolidated basis.

Net Income Attributable to Non-controlling Interests

Net income attributable to non-controlling interests reflects that portion of operating results attributable to the interests held by third parties in the businesses which are not wholly-owned by us, including Cable and Sky segments, as well as our Radio business.

Net income attributable to non-controlling interests increased by Ps.153.4 million, or 12.1%, to Ps.1,426.3 million for the year ended December 31 2015, compared with Ps.1,272.9 million for the year ended December 31 2014. This increase reflected primarily a higher portion of net income attributable to non-controlling interests in our Sky and Cable segments.

Net Income Attributable to Stockholders of the Company

We generated net income attributable to stockholders of the Company in the amount of Ps.10,899.1 million for the year ended December 31, 2015, as compared to Ps.5,386.9 million for the year ended December 31, 2014. The net increase of Ps.5,512.2 million reflected:

- a Ps.4,788.7 million increase in operating income;
- a Ps.4,206.0 million decrease in finance expense, net; and
- a Ps.22.2 million increase in share of income of jointly controlled entities and associates, net.

These changes were partially offset by:

- a Ps.3,351.3 million increase in income taxes; and

- a Ps.153.4 million increase in net income attributable to non-controlling interests.

**Results of Operations for the Year Ended December 31, 2014
Compared to the Year Ended December 31, 2013**

Total Segment Results

Net Sales

Net sales increased by Ps.6,327.7 million, or 8.6%, to Ps.80,118.4 million for the year ended December 31, 2014 from Ps.73,790.7 million for the year ended December 31, 2013. This increase was attributable to revenue growth across all our business segments, principally in our Sky and Cable segments, including the consolidation of Cablecom, a cable company, starting September 1, 2014.

Cost of Sales

Cost of sales increased by Ps.2,103.2 million, or 6.5%, to Ps.34,376.8 million for the year ended December 31, 2014 from Ps.32,273.6 million for the year ended December 31, 2013. This increase was due to higher costs in all our business segments, principally in our Content and Cable segments reflecting the consolidation of Cablecom.

Table of Contents***Selling Expenses***

Selling expenses increased by Ps.1,216.4 million, or 18.4%, to Ps.7,822.0 million for the year ended December 31, 2014 from Ps.6,605.6 million for the year ended December 31, 2013. This increase was attributable to higher selling expenses primarily in our Sky and Cable segments due to the consolidation of Cablecom.

Administrative and Corporate Expenses

Administrative and corporate expenses increased by Ps.874.8 million, or 14.0%, to Ps.7,118.4 million for the year ended December 31, 2014 from Ps.6,243.6 million for the year ended December 31, 2013. The growth reflects an increase in administrative expenses principally in our Cable segment due to the consolidation of Cablecom. This increase includes an increase of 24.0% in corporate expenses.

Corporate expense increased by Ps.286.0 million, to Ps.1,478.5 million in 2014, from Ps.1,192.5 million in 2013. The increase reflected primarily a higher share-based compensation expense.

Share-based compensation expense in 2014 and 2013 amounted to Ps.844.8 million and Ps.605.1 million, respectively, and was accounted for as corporate expense. Share-based compensation expense is measured at fair value at the time the equity benefits are conditionally sold to officers and employees, and is recognized over the vesting period. The increase of Ps.239.7 million reflected primarily a higher number of our CPOs conditionally sold to officers and employees in our Cable segment, as well as the increase in the market price of our CPO from last year.

Content

The following table presents net sales and operating segment income in our Content segment, and the percentage of change when comparing 2014 with 2013:

	Year Ended December 31,		Change (%)
	2014	2013	
	(Millions of Pesos)		
Net Sales			
Advertising	Ps. 25,465.7	Ps. 24,864.5	2.4%
Network Subscription Revenue	2,854.4	3,263.6	(12.5)
Licensing and Syndication	6,548.0	5,689.5	15.1
Total Net Sales	Ps. 34,868.1	Ps. 33,817.6	3.1%
Operating Segment Income	Ps. 15,534.3	Ps. 15,566.0	(0.2)%

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Content net sales increased by Ps.1,050.5 million, or 3.1%, to Ps.34,868.1 million for the year ended December 31, 2014 from Ps.33,817.6 million for the year ended December 31, 2013.

Advertising revenue increased by 2.4%. These results were adversely affected by new regulation effective July 2014 that restricts television advertising for high-caloric foods and beverages during certain time slots. For the full year, advertising on pay-TV networks represented 6.0% of our total advertising revenues.

Network Subscription Revenue decreased by 12.5%. These results reflect forgone revenue as a result of the implementation of the must-offer regulation that came into effect with the constitutional reform in matters of telecommunications. The must-offer regulation, that came into effect in September 2013, requires us to allow the retransmission free of charge and on a nondiscriminatory basis of free-to-air television signals to pay-TV concession holders that operate in the same area of geographic coverage, subject to certain conditions being met, among others, that the retransmission is made without modifications, including advertising, and with the same quality of the broadcast signal, except in certain specific cases provided in the regulations. This effect was partially offset by the addition of pay-TV subscribers in Mexico and abroad.

The increase in Licensing and Syndication revenue of 15.1% is explained by: (i) an increase of 14.8% in royalties from Univision, from U.S.\$273.2 million in 2013 to U.S.\$313.7 million in 2014; and (ii) a positive translation effect on foreign-currency denominated revenues.

Table of Contents

Content operating segment income decreased by Ps.31.7 million, or 0.2%, to Ps.15,534.3 million for the year ended December 31, 2014 from Ps.15,566.0 million for the year ended December 31, 2013. The margin was 44.6%. The drop in the margin of 140 basis points from 2013 is mainly explained by lower Network Subscription Revenue as a result of the must-offer regulation.

Sky

Sky net sales increased by Ps.1,400.3 million, or 8.7%, to Ps.17,498.6 million for the year ended December 31, 2014 from Ps.16,098.3 million for the year ended December 31, 2013. The increase was driven by solid growth in the subscriber base of 622,557, which is explained by the continued success of Sky's low-cost offering. As of December 31, 2014, the number of net active subscribers increased to 6,638,032 (including 174,986 commercial subscribers), compared with 6,015,475 (including 168,063 commercial subscribers) as of December 31, 2013. Sky closed 2014 with 192,358 subscribers in Central America and the Dominican Republic.

Sky operating segment income increased by Ps.870.8 million, or 11.9%, to Ps.8,211.3 million for the year ended December 31, 2014 from Ps.7,340.5 million for the year ended December 31, 2013. The increase in the margin of 130 basis points from last year reflects: (i) an increase in sales; and (ii) cost of sales expenses that expanded at a slower pace. This effect was partially compensated by higher marketing expenses.

Cable

Cable net sales increased by Ps.3,798.5 million, or 22.2%, to Ps.20,937.3 million for the year ended December 31, 2014 from Ps.17,138.8 million for the year ended December 31, 2013. This increase includes the consolidation, starting September 1, 2014, of Ps.1,369.7 million revenues from Cablecom. Excluding Cablecom, full year sales experienced a growth of 14.2%.

Also excluding the acquisition of Cablecom, Voice and Data revenue generating units, or RGUs, grew 18.2% and 21.2% compared with last year, respectively, while Video RGUs grew by 4.3%.

Cable operating segment income increased by Ps.1,751.1 million, or 28.6%, to Ps.7,882.9 million for the year ended December 31, 2014 from Ps.6,131.8 million for the year ended December 31, 2013. These results primarily reflected the consolidation of Cablecom, which contributed with Ps.638.1 million to operating segment income, continued growth in the cable platforms and Bestel, and the benefit from lower programming costs as a result of the must-offer regulation. These favorable variances were partially offset by the increase in maintenance costs, personnel costs, and advertising spending during the year. Excluding Cablecom, full year operating segment income increased by 18.2%.

The following table sets forth the breakdown of RGUs per service type for our Cable segment as of December 31, 2014 and 2013.

Other Businesses net sales increased by Ps.130.7 million, or 1.6%, to Ps.8,204.0 million for the year ended December 31, 2014 from Ps.8,073.3 million for the year ended December 31, 2013. Businesses that performed well include feature-film distribution, gaming, and radio. The feature-film distribution business distributed hits such as *The Hunger Games: Mockingjay* and *Cásese Quien Pueda*. The gaming business benefited from higher revenues from our electronic gaming machines, while the radio business saw an increase in advertising revenues.

Other Businesses operating segment income decreased by Ps.170.9 million, or 20.8%, to Ps.651.2 million for the year ended December 31, 2014 from Ps.822.1 million for the year ended December 31, 2013. This decrease

Table of Contents

reflects: (i) a decrease in the operating segment income of our publishing business; (ii) an increase in the operating segment income of gaming, soccer, radio, and feature-film distribution businesses; and (iii) a smaller operating segment loss in our publishing distribution business.

Depreciation and Amortization

Depreciation and amortization expense increased by Ps.1,716.7 million, or 17.4%, to Ps.11,563.1 million for the year ended December 31, 2014 from Ps.9,846.4 million for the year ended December 31, 2013. This change primarily reflected an increase in such expense in our Sky and Cable segments (Cablecom's depreciation and amortization expense amounted to Ps.488.9 million).

Other Expense, Net

Other expense, net, increased by Ps.5,198.6 million, to Ps.5,281.7 million for the year ended December 31, 2014, compared with Ps.83.1 million for the year ended December 31, 2013. This increase primarily reflected a one-time non-cash loss on disposition of our investment in GSF, our 50% joint venture in Iusacell, in connection with a transaction agreement entered into by us and the other owner of GSF in September 2014.

Other expense, net, for the year ended December 31, 2014 primarily included financial advisory and professional services, loss on disposition of property and equipment, donations, and a non-cash impairment charge related to goodwill and trademarks in our publishing business.

Non-operating Results

Finance Income or Expense, Net

Finance income or expense, net, significantly impacts our consolidated financial statements in periods of currency fluctuations. Finance income or expense, net, reflects:

- interest expense;

- interest income;
- foreign exchange gain or loss attributable to monetary assets and liabilities denominated in foreign currencies; and
- other finance expense, net, including gains or losses from derivative instruments.

Our foreign exchange position is affected by our assets or liabilities denominated in foreign currencies, primarily U.S. dollars. We record a foreign exchange gain or loss if the exchange rate of the Peso to the other currencies in which our monetary assets or liabilities are denominated varies.

Finance expense, net, increased by Ps.5,213.6 million to Ps.4,328.9 million for the year ended December 31, 2014 from finance income, net of Ps.884.7 million for the year ended December 31, 2013. This increase primarily reflected (i) a Ps.748.3 million increase in interest expense, due primarily to a higher average principal amount of debt and finance lease obligations in 2014; (ii) a Ps.1,107.4 million increase in foreign exchange loss resulting primarily from the effect of a 12.9% depreciation of the Mexican peso against the U.S. dollar on our average net unhedged U.S. dollar liability position in 2014 compared with a 1.8% depreciation and a lower U.S. dollar liability position in 2013; and (iii) a Ps.3,555.6 million decrease in other finance income, net, resulting primarily from a lower finance income resulting from a change in fair value of the embedded derivate related to our option to convert debentures issued by the controlling company of Univision (UHI) into an equity stake of UHI. These unfavorable variances were partially offset by a Ps.197.7 million increase in interest income explained primarily by a higher average amount of cash equivalents and temporary investments in 2014.

Table of Contents

Share of Loss of Joint Ventures and Associates, Net

This line item reflects our equity participation in the operating results and net assets of unconsolidated businesses in which we maintain an interest, but which we do not control. We recognize equity in losses of joint ventures and associates up to the amount of our initial investment, subsequent capital contributions and long-term loans, or beyond that amount when guaranteed commitments have been made by us in respect of obligations incurred by joint ventures and associates.

Share of income of joint ventures and associates, net, increased Ps.5,673.1 million to Ps.13.2 million for the year ended December 31, 2014 from share of loss of joint ventures and associates, net, of Ps.5,659.9 million for the year ended December 31, 2013. This increase primarily reflected mainly the absence of an impairment adjustment made in 2013 to our investment in GSF, as well as a lower loss of GSF as we discontinued recognizing our share of loss of this joint venture in September 2014, in connection with a transaction agreement to dispose of our investment in GSF, which was completed in January 2015.

Income Taxes

Income taxes decreased by Ps.748.1 million, or 20.1%, to Ps.2,980.9 million for the year ended December 31, 2014 from Ps.3,729.0 million for the year ended December 31, 2013. This decrease primarily reflected a lower income tax base.

The Mexican corporate income tax rate was 30% in each of the years 2014, 2013 and 2012. In accordance with the 2014 Tax Reform, the corporate income tax rate will remain 30% thereafter.

Net Income Attributable to Non-controlling Interests

Net income attributable to non-controlling interests reflects that portion of operating results attributable to the interests held by third parties in the businesses which are not wholly-owned by us, including Cable and Sky segments, as well as our Radio business.

Net income attributable to non-controlling interests decreased by Ps.1,213.0 million, or 48.8%, to Ps.1,272.9 million for the year ended December 31, 2014 from Ps.2,485.9 million for the year ended December 31, 2013. This decrease primarily reflected a lower portion of net income attributable to non-controlling interests in our Sky and Cable segments.

Net Income Attributable to Stockholders of the Company

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

We generated net income attributable to stockholders of the Company in the amount of Ps.5,386.9 million for the year ended December 31, 2014, as compared to Ps.7,748.3 million for the year ended December 31, 2013. The net decrease of Ps.2,361.4 million reflected:

- a Ps.4,782.0 million decrease in operating income; and
- a Ps.5,213.6 million increase in finance expense, net.

These changes were partially offset by:

- a Ps.5,673.1 million decrease in share of losses of jointly controlled entities and associates, net;
- a Ps.748.1 million decrease in income taxes; and
- a Ps.1,213.0 million decrease in net income attributable to non-controlling interests.

Table of Contents**Effects of Depreciation and Inflation**

The following table sets forth, for the periods indicated:

- the percentage that the Peso depreciated or appreciated against the U.S. Dollar;
- the Mexican inflation rate;
- the U.S. inflation rate; and
- the percentage change in Mexican GDP compared to the prior period.

	Year Ended December 31,		
	2015	2014	2013
Depreciation (appreciation) of the Peso as compared to the U.S. Dollar(1)	16.6%	12.9%	1.8%
Mexican inflation rate(2)	2.1	4.1	4.0
U.S. inflation rate	0.7	0.8	1.5
Increase in Mexican GDP(3)	2.5	2.3	1.3

(1) Based on changes in the Interbank Rates, as reported by Banamex, at the end of each period, which were as follows: Ps.12.85 per U.S. Dollar as of December 31, 2012; Ps.13.0750 per U.S. Dollar as of December 31, 2013; Ps. 14.7613 as of December 31, 2014 and Ps. 17.2160 as of December 31, 2015.

(2) Based on changes in the NCPI from the previous period, as reported by the Mexican Central Bank, which were as follows: 107.2 in 2012; 111.5 in 2013; 116.1 in 2014 and 118.5 in 2015.

(3) In the case of GDP information for 2014 and 2013, as reported and/or restated by the *Instituto Nacional de Estadística, Geografía e Informática*, or INEGI, and, in the case of GDP information for 2015, as estimated by INEGI.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

The general condition of the Mexican economy, the depreciation of the Peso as compared to the U.S. Dollar, inflation and high interest rates have in the past adversely affected, and may in the future adversely affect, our:

- **Advertising and Other Revenues.** Inflation in Mexico adversely affects consumers. As a result, our advertising customers may purchase less advertising, which would reduce our advertising revenues, and consumers may reduce expenditures for our other products and services, including pay-TV services.

- **Foreign Currency-Denominated Revenues and Operating Costs and Expenses.** We have substantial operating costs and expenses denominated in foreign currencies, primarily in U.S. Dollars. These costs are principally due to our activities in the United States, the costs of foreign-produced programming and publishing supplies and the leasing of satellite transponders. The following table sets forth our foreign currency-denominated revenues and operating costs and expenses stated in millions of U.S. Dollars for 2015, 2014 and 2013:

	Year Ended December 31,					
	2015		2014		2013	
	(Millions of U.S. Dollars)					
Revenues	U.S.\$	943	U.S.\$	956	U.S.\$	934
Operating costs and expenses		859		707		647

On a consolidated basis, in 2015, 2014 and 2013, our foreign-currency-denominated costs and expenses did not exceed our foreign-currency-denominated revenues but there can be no assurance that they will continue not to do so in the future. As a result, we will continue to remain vulnerable to future depreciation of the Peso, which would increase the Peso equivalent of our foreign-currency-denominated costs and expenses.

- **Finance Expense, Net.** The depreciation of the Peso as compared to the U.S. Dollar generates foreign exchange losses relating to our net U.S. Dollar-denominated liabilities and increases the Peso equivalent of our interest expense on our U.S. Dollar-denominated indebtedness. Foreign exchange losses, derivatives used to hedge foreign exchange risk and increased interest expense increase our finance expense, net.

We have also entered into and will continue to consider entering into additional financial instruments to hedge against Peso depreciation and reduce our overall exposure to the depreciation of the Peso as compared to the U.S. Dollar, inflation and high interest rates. We cannot assure you that we will be able to enter into financial instruments to protect ourselves from the effects of the depreciation of the Peso as compared to the U.S. Dollar, inflation and increases in interest rates, or if so, on favorable terms. In the past, we have designated, and from time

Table of Contents

to time in the future we may designate, certain of our investments or other assets as effective hedges against Peso depreciations. See **Key Information Risk Factors Risk Factors Related to Mexico** , **Quantitative and Qualitative Disclosures About Market Risk Market Risk Disclosures** and Note 4 to our consolidated year-end financial statements.

IFRS

As required by regulations issued by the Mexican Banking and Securities Commission for listed companies in Mexico, beginning on January 1, 2012, we discontinued using Mexican FRS as issued by the Mexican Financial Reporting Standards Board and began using IFRS as issued by the IASB for financial reporting purposes.

Our consolidated financial information as of December 31, 2015 and 2014 and for the years ended December 31, 2015, 2014 and 2013, was prepared in accordance with IFRS as issued by the IASB.

New and Amended IFRSs

Below is a list of the new and amended standards that have been issued by the IASB and are effective for annual periods starting on or after January 1, 2016. The Company's management is in the process of assessing the potential impact of these pronouncements on our consolidated financial statements.

New or Amended Standard	Title of the Standard	Effective for Annual Periods Beginning On or After
Annual Improvements	Annual Improvements to IFRSs 2012-2014 Cycle	January 1, 2016
Amendments to IFRS 11	Accounting for Acquisitions of Interests in Joint Operations	January 1, 2016
Amendments to IAS 16 and IAS 38	Clarification of Acceptable Methods of Depreciation and Amortization	January 1, 2016
Amendments to IAS 27	Equity Method in Separate Financial Statements	January 1, 2016
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Postponed
Amendments to IFRS 10, IFRS 12 and IAS 28	Investment Entities: Applying the Consolidation Exception	January 1, 2016
Amendments to IAS 1	Disclosure Initiative	January 1, 2016
Amendments to IAS 7	Disclosure Initiative	January 1, 2017
Amendments to IAS 12	Recognition of Deferred Tax Assets for Unrealized Losses	January 1, 2017
IFRS 15	Revenue from Contracts with Customers	January 1, 2018
IFRS 9	Financial Instruments	January 1, 2018
IFRS 16	Leases	January 1, 2019

Annual Improvements to IFRSs 2012-2014 Cycle were published in September 2014 and set out amendments to certain IFRSs. These amendments result from proposals made during the IASB's Annual Improvements process, which provides a vehicle for making non-urgent but necessary amendments to IFRSs. The IFRSs amended and the topics addressed by these amendments are as follows:

Annual Improvements 2012-2014 Cycle	Subject of Amendment
IFRS 5 Non-current Assets Held for Sale and Discontinued Operations	Changes in methods of disposal
IFRS 7 Financial Instruments: Disclosures	Servicing contracts and applicability of the amendments to IFRS 7 to condensed interim financial statements
IAS 19 Employee Benefits	Discount rate: regional market issue
IAS 34 Interim Financial Reporting	Disclosure of information elsewhere in the interim financial report

Amendments to IFRS 11 *Accounting for Acquisitions of Interests in Joint Ventures* were issued in May 2014 and add new guidance on how to account for the acquisition of an interest in a joint operation in which the activity constitutes a business, as defined in IFRS 3 Business Combinations. Under these amendments, the acquirer

Table of Contents

of a joint operation that constitutes a business shall apply all of the principles on business combinations accounting in IFRS 3, and other IFRSs, that do not conflict with the guidance in this IFRS and disclose the information that is required in those IFRSs in relation to business combinations.

Amendments to IAS 16 and IAS 38 *Clarification of Acceptable Methods of Depreciation and Amortization* were issued in May 2014 and clarify that the use of revenue-based methods to calculate depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the assets. These amendments also clarify that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset.

Amendments to IAS 27 *Equity Method in Separate Financial Statements* were issued in August 2014 and will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in separate financial statements.

Amendments to IFRS 10 and IAS 28 *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture* were issued in September 2014 and address and acknowledged inconsistency between the requirements in IFRS 10 and those in IAS 28 (2011), in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognized when a transaction involved a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involve assets that do not constitute a business, even if these assets are housed in a subsidiary. In December 2015 the IASB postponed the effective date of these amendments indefinitely pending the outcome of its research project on the equity method of accounting.

Amendments to IFRS 10, IFRS 12 and IAS 28 *Investment Entities: Applying the Consolidation Exception* were issued in December 2014, and introduce clarifications to the requirements when accounting for investment entities. These amendments clarify which subsidiaries of an investment entity are consolidated in accordance with IFRS 10 *Consolidated Financial Statements*, instead of being measured at fair value through income.

Amendments to IAS 1 *Disclosure Initiative* were issued in December 2014 and clarify that companies should use professional judgment in determining what information to disclose in the financial statements, and where and in what order information is presented in the financial disclosures.

Amendments to IAS 7 *Disclosure Initiative* were issued in January 2016 and clarify that companies should provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.

Amendments to IAS 12 *Recognition of Deferred Tax Assets for Unrealized Losses* were issued in January 2016 and clarify the requirements on recognition of deferred tax assets for unrealized losses, to address diversity in practice. Earlier application is permitted.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

IFRS 15 *Revenue from Contracts with Customers* (IFRS 15) was issued in May 2014. IFRS 15 provides a single, comprehensive revenue recognition model for all contracts with customers to improve comparability within industries, across industries, and across capital markets. This standard contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognized. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. IFRS 15 is effective on January 1, 2018, with early adoption permitted. We are expected to be impacted to some extent by the significant increase in required disclosures. The Company's management is currently in the process of assessing the changes that are beyond disclosures, and the effect of the adoption of this standard regarding technology systems, processes, and internal controls to capture new data and address changes in financial reporting.

IFRS 9 *Financial Instruments* (IFRS 9) addresses the classification, measurement and recognition of financial assets and financial liabilities. IFRS 9 was issued in November 2009 and October 2010. It replaces the parts of IAS 39 *Financial Instruments: Recognition and Measurement* (IAS 39) that relate to the classification and measurement of financial instruments. IFRS 9 requires financial assets to be classified into two measurement

Table of Contents

categories: those measured at amortized cost and those measured at fair value. The determination is made at initial recognition. The basis of classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the financial asset. The guidance in IAS 39 on impairment of financial assets and hedge accounting continues applying. For financial liabilities, this standard retains most of the IAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. Some amendments to IFRS 9 and IFRS 7 *Financial Instruments: Disclosures* (IFRS 7) were issued in December 2011. These amendments to IFRS 9 modify the mandatory effective date of this standard and the relief from restating prior periods, and also add transition disclosures to IFRS 7 that are required to be applied when IFRS 9 is first applied. The Company's management is currently evaluating the impact IFRS 9 will have on its consolidated financial statements and disclosures.

IFRS 16 *Leases* (IFRS 16) was issued in January 2016 and replaces IAS 17 *Leases*. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases. The major change introduced by IFRS 16 is that leases will be brought onto the companies' statements of financial position, increasing the visibility of their assets and liabilities. IFRS 16 removes the classification of leases as either operating leases or finance leases for the lessee, treating all leases as finance leases. Short-term leases (less than 12 months) and leases of low-value assets are exempt from the requirements. Early application of IFRS 16 is permitted as long as the IFRS 15 *Revenue from Contracts with Customers* is also applied. The Company's management is currently evaluating the impact IFRS 16 will have on its consolidated financial statements and disclosures.

Critical Accounting Estimates and Assumptions

We have identified certain key accounting policies upon which our consolidated financial condition and results of operations are dependent. The application of these key accounting policies often involves complex considerations and assumptions and the making of subjective judgments or decisions on the part of our management. In the opinion of our management, our most critical accounting policies under IFRS are those related to the accounting for programming, investments in associates and joint ventures, the evaluation of definite lived and indefinite lived long-lived assets, deferred income taxes, fair value measurements and exchange of Convertible Debentures. For a full description of these and other accounting policies, see Note 2 to our consolidated year-end financial statements.

(a) ***Accounting for Programming***

We produce a significant portion of programming for initial broadcast over our television networks in Mexico, our primary market. Following the initial broadcast of this programming, we then license some of this programming for broadcast in secondary markets, such as Mexico, the United States, Latin America, Asia, Europe and Africa. Under IFRS, in order to properly capitalize and subsequently amortize production costs related to this programming, we must estimate the expected future benefit period over which a given program will generate revenues (generally, over a five-year period). We then amortize the production costs related to a given program over the expected future benefit period. Under this policy, we generally expense approximately 70% of the production costs related to a given program in its initial broadcast run and defer and expense the remaining production costs over the remainder of the expected future benefit period (see Note 2 (g) to our consolidated year-end financial statements).

We estimate the expected future benefit periods based on past historical revenue patterns for similar types of programming and any potential future events, such as new outlets through which we can exploit or distribute its programming, including our consolidated subsidiaries and equity investees. To the extent that a given future expected benefit period is shorter than the estimate, we may have to accelerate capitalized production costs sooner than anticipated. Conversely, to the extent that a given future expected benefit period is longer than the estimate, we

may have to extend the amortization schedule for the remaining capitalized production costs.

We also purchase programming from, and enter into license arrangements with, various third party programming producers and providers, pursuant to which we receive the rights to broadcast programming produced by third parties over our television networks in Mexico. In the case of programming acquired from third parties, we

Table of Contents

estimate the expected future benefit period based on the anticipated number of showings in Mexico. In the case of programming licensed from third parties, we estimate the expected future benefit period based upon the term of the license. To the extent that a given future expected benefit period is shorter than the estimate, we may have to accelerate the purchase price or the license fee sooner than anticipated. Conversely, to the extent that a given future expected benefit period is longer than the estimate, we may have to extend the amortization schedule for the remaining portion of the purchase price or the license fee.

Assuming a hypothetical 10% decrease in expected future revenue from our programming as of December 31, 2015, the balance of such programming would decrease in the amount of Ps.228,718 with a corresponding increase in programming amortization expense.

(b) *Investments in Associates and Joint Ventures*

Some of our investments are structured as investments in associates and joint ventures (see Notes 2 (c) and 10 to our consolidated year-end financial statements). As a result, the results of operations attributable to these investments are not consolidated with the results of our various segments for financial reporting purposes, but are reported as share of income or loss of associates and joint ventures in the consolidated statement of income (see Note 10 to our consolidated year-end financial statements).

In the past, we have made significant capital contributions and loans to our associates and joint ventures, and we may in the future make additional capital contributions and loans to at least some of our joint ventures. In the past, some of these ventures have generated, and they may continue to generate, operating losses and negative cash flows as they continue to build and expand their respective businesses.

We periodically evaluate our investments in these associates and joint ventures for impairment, taking into consideration the performance of these ventures as compared to projections related to net sales, expenditures, strategic plans and future required cash contributions, among other factors. In doing so, we evaluate whether any declines in value are other than temporary. We have taken impairment charges in the past for some of these investments. Given the dynamic environments in which these businesses operate, as well as changing macroeconomic conditions, there can be no assurance that our future evaluations will not result in recognizing additional impairment charges for these investments.

Once the carrying balance of a given investment is reduced to zero, we evaluate whether we should suspend the equity method of accounting, taking into consideration both quantitative and qualitative factors, such as long-term loans guarantees we have provided to these associates and joint ventures, future funding commitments and expectations as to the viability of the business. These conditions may change from year to year, and accordingly, we periodically evaluate whether to continue to account for its various investments under the equity method.

(c) *Goodwill and Other Indefinite-lived Intangible Assets*

Goodwill and other intangible assets with indefinite useful lives are reviewed for impairment at least annually. When an impairment test is performed, the recoverable amount is assessed by reference to the higher of the net present value of the expected future cash flows (value in use) of the relevant cash generating unit and the fair value less cost to sell.

The recoverable amount of cash generating units has been determined based on fair value less costs to disposal calculations. These calculations require the use of estimates, including management's expectations of future revenue growth, operating costs, profit margins and operating cash flows for each cash-generating unit.

During 2015 and 2014, we recorded impairments for goodwill and other indefinite-lived intangible assets related to our Publishing business, which is classified into the Other Businesses segment. During 2013, we recorded impairments for goodwill and other indefinite-lived intangible assets related to our joint venture investment in capital stock of GSF (see Notes 10 and 12 to our consolidated year-end financial statements). Other than in the Publishing business, we believe that additional reasonable changes in assumptions would not trigger any additional impairment charges. See Note 2 (b) and (k) to our consolidated year-end financial statements for disclosure regarding concession intangible assets.

Table of Contents

(d) ***Long-lived Assets***

We present certain long-lived assets other than goodwill and indefinite-lived intangible assets in our consolidated statement of financial position. Long-lived assets are tested for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may no longer be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Recoverability is analyzed based on projected cash flows. Estimates of future cash flows involve considerable management judgment. These estimates are based on historical data, future revenue growth, anticipated market conditions, management plans, and assumptions regarding projected rates of inflation and currency fluctuations, among other factors. If these assumptions are not correct, we would have to recognize a write-off or write-down or accelerate the amortization schedule related to the carrying value of these assets (see Notes 2 (1), 12 and 21 to our consolidated year-end financial statements). We have not recorded any significant impairment charges over the past few years.

(e) ***Deferred Income Taxes***

We record our deferred tax assets based on the likelihood that these assets are realized in the future. This likelihood is assessed by taking into consideration the future taxable income. In the event we were to determine that we would be able to realize our deferred tax assets in the future in excess of the net recorded amount, an adjustment to the deferred tax asset would increase income in the period such determination was made. Should we determine that we would not be able to realize all or part of our net deferred tax asset in the future, an adjustment to the deferred tax asset would be charged to income in the period such determination was made.

(f) ***Financial Assets and Liabilities Measured at Fair Value***

We have a significant amount of financial assets and liabilities which are measured at fair value on a recurring basis. The degree of management's judgment involved in determining the fair value of a financial asset and liability varies depending upon the availability of quoted market prices. When observable quoted market prices exist, that is the fair value estimate we use. To the extent such quoted market prices do not exist, management uses other means to determine fair value (see Notes 4 and 14 to our consolidated year-end financial statements).

(g) ***Exchange of Convertible Debentures due 2025 issued by UHI for Warrants issued by UHI***

Significant judgment was applied in assessing the qualitative factors mentioned in IAS 39 *Financial Instruments: Recognition and Measurement*, to determine that the changes in cash flows, the different risks and rewards and contractual terms between the exchanged Convertible Debentures due 2025 issued by UHI and the received Warrants issued by UHI resulted in the derecognition of the Convertible Debentures.

The Company's management applied significant judgment to determine the classification of the Warrants issued by UHI. These Warrants did not comply with the definition of a derivative financial instrument because the initial investment that we paid to acquire the original instrument

(Convertible Debentures) was significant and a derivative requires no initial investment or one that is smaller than other that would be required for a contract with similar response to changes in market factors; therefore, we classified the Warrants issued by UHI as available-for-sale financial assets with changes in fair value recognized in other comprehensive income or loss in consolidated equity. Significant judgment was applied by the Company's management in assessing that the characteristics of the Warrants are closer to an equity instrument in accordance with the IAS 32 *Financial Instruments: Presentation* (see Notes 3, 9, 10 and 14 to our consolidated year-end financial statements).

Temporary Investments

Temporary investments include highly liquid securities, including without limitation debt with a maturity of three months, or over, and up to one year at the date of the consolidated statement of financial position, stock and other financial instruments, or a combination thereof, denominated principally in U.S. Dollars and Pesos (see Notes 2(f) and 6 to our consolidated year-end financial statements).

Temporary investments are generally valued using quoted market prices or alternative pricing sources with reasonable levels of price transparency. The types of instruments valued based on quoted market prices in active markets include mostly fixed short-term deposits, equities and corporate fixed income securities denominated in U.S. Dollars and Pesos. Such instruments are classified in Level 1 or Level 2 depending on the observability of the significant inputs.

Available-for-Sale Financial Assets

Investments in debt securities or with readily determinable fair values, not classified as held-to-maturity are classified as available-for-sale and are recorded at fair value with unrealized gains and losses included in consolidated stockholders' equity as accumulated other comprehensive result.

Available-for-sale financial assets are generally valued using quoted market prices or alternative pricing sources with reasonable levels of price transparency. Such instruments are classified in Level 1, Level 2, and Level 3 depending on the observability of the significant inputs.

As of December 31, 2014 and 2013, we have made judgments and used several estimates and assumptions for determining the fair value calculations of the UHI Convertible Debentures due 2025, the UHI embedded derivative, the Ares convertible debt instruments, the Ares embedded derivative and the shares of common stock of Imagina. These estimates and assumptions include, among others, expected long-term growth rates and operating margins, which are used to calculate projected future cash flows. We also utilize risk-adjusted discount rates to determine weighted average cost of capital. All of our estimates are based on historical data, internal estimates and observable

external sources when available, and are consistent with the strategic plans of the underlying business.

Available-for-Sale Investments-Open Ended Fund

We have an investment in an open ended fund that has as a primary objective to achieve capital appreciation by using a broad range of strategies through investments and transactions in telecom, media and other sectors across global markets, including Latin America and other emerging markets. Shares may be redeemed on a quarterly basis at the net asset value per share as of the applicable redemption date (see Notes 4 and 9 to our consolidated year-end financial statements).

UHI Convertible Debentures due 2025

On December 20, 2010, we made a cash investment in the form of Convertible Debentures due 2025 issued by UHI (formerly known as BMP), the parent company of Univision, in the principal amount of U.S.\$1,125

Table of Contents

million (Ps.16,606.5 million), which were convertible at our option into additional shares currently equivalent to approximately 30% equity stake of UHI, subject to existing laws and regulations in the United States and other conditions. Our option of converting these debentures into an equity stake of UHI was accounted for as an embedded derivative with changes in fair value recognized in consolidated income (see Notes 4 and 9 to our consolidated year-end financial statements).

We determined the fair value of the Convertible Debentures using the income approach based on post-tax discounted cash flows. The income approach requires management to make judgments and involves the use of significant estimates and assumptions. These estimates and assumptions include long-term growth rates and operating margins used to calculate projected future cash flows, risk-adjusted discount rates based on weighted average cost of capital within a range of 8% to 10%, among others. Our estimates for market growth are based on historical data, various internal estimates and observable external sources when available, and are based on assumptions that are consistent with the strategic plans and estimates used to manage the underlying business. Since the described methodology was an internal model with significant unobservable inputs, the Convertible Debentures were classified in Level 3.

In the case of the embedded derivative in the UHI Convertible Debentures, we used recognized industry standard option pricing models (OPM). The OPM requires management to make judgments and involves the use of significant estimates and assumptions. These estimates and assumptions include the UHI stock s spot price at valuation date and the stocks expected volatility. The UHI stock s spot price at valuation date was obtained by using a discounted projected cash flow model that used the inputs described in the paragraph above. The UHI stock s volatility was obtained from publicly available information about comparable companies stock through determining an average of such companies annual volatility. Since the described methodology is an internal model with significant unobservable inputs, the UHI embedded derivative was classified as Level 3.

Unobservable inputs that contributed to a significantly higher fair value measurement of our investment in UHI as of December 31, 2014, included better financial performance primarily in consolidated revenue and net income for the year ended December 31, 2014 and 2013 compared to the prior year, as well as higher credit ratings. Other assumptions used as of December 31, 2014 and 2013 included UHI stock s spot price of U.S.\$402 and U.S.\$350, respectively, and UHI stock s expected volatility of 24% and 26%, respectively.

UHI Warrants

In July 2015, we exchanged our investment in U.S.\$1,125 million principal amount of Convertible Debentures due 2025 issued by UHI for Warrants that are exercisable, subject to existing laws, regulations and other conditions, for UHI s common stock.

We determined the fair value of its investment in Warrants using the Black-Scholes model (BSM). The BSM involves the use of significant estimates and assumptions. These estimates and assumptions include the UHI stock s spot price at valuation date and the stock s expected volatility. UHI stock s price at valuation date was obtained by using a discounted projected cash flow model. UHI stock s volatility was obtained

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

from publicly available information of comparable companies' stock through determining an average of such companies' annual volatility. Since the described methodology was an internal model with significant unobservable inputs, the UHI Warrants are classified as Level 3.

Unobservable inputs used as of December 31, 2015 included UHI stock's spot price of U.S.\$443 per share and UHI stock's expected volatility of 29%.

Ares Convertible and Long-term Debt Instruments

In July 2013, we made an investment in the principal amount of Ps.7,000 million in convertible debt instruments which, subject to regulatory approvals, would allow us to acquire 95% of the equity interest of Ares, owner of 51% of the equity interest of Cablecom. In addition, as part of this transaction, we also invested in a long-term debt instrument issued by Ares in the principal amount of U.S.\$195 million. The Ares convertible and long-term debt instruments were converted into equity in August 2014.

Table of Contents

We determined the fair value of the convertible debt instruments as of December 31, 2013 using the expected present value valuation methodology based on post-tax discontinued cash flow. The expected present value methodology requires management to make judgments and involves the use of significant estimates and assumptions. These estimates and assumptions include long-term growth rates, operating margins used to calculate projected future cash flow and risk-adjusted discount rates based on weighted average cost of capital within a range of 5.5% to 6.5% among others. Our estimates for market growth were based on current conditions and reasonable forecasts, various internal estimates and observable external sources when available, and were based on assumptions that were consistent with the strategic plans and estimates used to manage the underlying business. Since the described methodology was an internal model with significant unobservable input, the convertible debt instruments were classified in Level 3 as of December 31, 2013.

Imagina Equity Financial Instrument

The significant unobservable inputs related to the fair value measurement of our investment in Imagina's common stock for the year ended December 31, 2014 and 2013, were (a) a discount rate of 9.59% and 13.65%, respectively, and (b) an exit multiple of 9.71 times and 10.05 times, respectively.

Disclosures for Each Class of Assets and Liabilities Subject to Recurring Fair Value Measurements Categorized Within Level 3

For the year ended December 31, 2013, there were no gains or losses for the period included in consolidated net income that were attributable to the change in unrealized gains or losses relating to our assets categorized within Level 3 held at the end of those years.

Our Corporate Finance Department has established rules for a proper portfolio asset classification according to the fair value hierarchy defined by the IFRSs. On a monthly basis, any new assets recognized in the portfolio are classified according to this criterion. Subsequently, there is a quarterly review of the portfolio in order to analyze the need for a change in classification of any of these assets.

Sensitivity analysis is performed on our investments with significant unobservable inputs (Level 3) in order to obtain a reasonable range of possible alternative valuations. This analysis is carried out by our Corporate Finance Department.

As of December 31, 2015, 2014 and 2013 the effect on consolidated income and consolidated equity of changing the main assumptions used for the measurement of Level 3 financial instruments for other reasonably possible models, taking the highest or lowest value of the range reasonably possible, would be as follows:

Derivative Financial Instruments

Derivative financial instruments include swaps, forwards and options (see Notes 2(v), 4 and 14 to our consolidated year-end financial statements).

Our derivative portfolio is entirely over-the-counter (OTC). Our derivatives are valued using industry standard valuation models; projecting future cash flows discounted to present value, using market-based observable inputs including interest rate curves, foreign exchange rates, and forward and spot prices for currencies.

When appropriate, valuations are adjusted for various factors such as liquidity, bid/offer spreads and credit spreads considerations. Such adjustments are generally based on available market evidence. In the absence of such evidence, management's best estimate is used. All derivatives are classified in Level 2.

Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis

The majority of our non-financial instruments, which include goodwill, intangible assets, inventories, transmission rights and programming and property, plant and equipment, are not required to be carried at fair value on a recurring basis. However, if certain triggering events occur (or at least annually in the fourth quarter for goodwill and indefinite-lived intangible assets) such that a non-financial instrument is required to be evaluated for impairment, a resulting asset impairment would require that the non-financial instrument be recorded at the lower of carrying amount or its fair value.

The impairment test for goodwill involves a comparison of the estimated fair value of each of our reporting units to its carrying amount, including goodwill. We determine the fair value of a reporting unit using a combination of a discounted cash flow analysis and a market-based approach, which utilize significant unobservable inputs (Level 3) within the fair value hierarchy. The impairment test for intangible assets not

subject to amortization involves a comparison of the estimated fair value of the intangible asset with its carrying value. We determine the fair value of the intangible asset using a discounted cash flow analysis, which utilizes significant unobservable inputs (Level 3) within the fair value hierarchy. Determining fair value requires the exercise of significant judgment, including judgment about appropriate discount rates, perpetual growth rates, the amount and timing of expected future cash flows for a period of time that comprises five years, as well as relevant comparable company earnings multiples for the market-based approach.

Once an asset has been impaired, it is not remeasured at fair value on a recurring basis; however, it is still subject to fair value measurements to test for recoverability of the carrying amount.

Liquidity, Foreign Exchange and Capital Resources

Liquidity. We generally rely on a combination of operating revenues, borrowings and net proceeds from dispositions to fund our working capital needs, capital expenditures, acquisitions and investments. Historically, we have received, and we expect to continue to receive, most of our advertising revenues in the form of upfront

Table of Contents

advertising deposits in the fourth quarter of a given year, which we in turn have used, and expect to continue to use, to fund our cash requirements during the rest of the quarter in which the deposits were received and for the first three quarters of the following year. As of December 31, 2015, 2014 and 2013, we had received Ps. 16,442.7 million, Ps. 16,695.9 million and Ps. 18,874.1 million, respectively, of advertising deposits for television advertising during 2015, 2014 and 2013, respectively, representing U.S.\$1.0 billion, U.S.\$1.1 billion and U.S.\$1.4 billion, respectively, at the applicable year-end exchange rates. The deposits as of December 31, 2015, represented a 1.5% decrease, as compared to year-end 2014, and the deposits as of December 31, 2014, represented a 11.5% decrease, as compared to year-end 2013. Approximately 71.1%, 59.3% and 60.4% of the advance payment deposits as of December 31, 2015, 2014 and 2013, respectively, were in the form of short-term, non-interest bearing notes, with the remaining deposits in each of those years consisting of cash deposits. The weighted average maturity of these notes at December 31, 2015, 2014 and 2013, was 3.4 months, 4.5 months and 4.9 months, respectively.

During the year ended December 31, 2015, we had a net increase in cash and cash equivalents of Ps.19,667.8 million, as compared to a net increase in cash and cash equivalents of Ps.13,037.3 million during the year ended December 31, 2014.

Net cash provided by operating activities for the year ended December 31, 2015, amounted to Ps.31,285.6 million. Adjustments to reconcile income before income taxes to net cash provided by operating activities primarily included: depreciation and amortization of Ps.14,660.9 million; net unrealized foreign exchange loss of Ps.4,032.9 million; interest expense of Ps.6,239.4 million; other amortization of Ps.304.9 million; provisions for related party transactions of Ps.1,024.5 million; gain in reclassifications from accumulated other comprehensive income of Ps.5,262.6 million; gain in other finance income net of Ps.917.7 million; interest income of Ps.378.7 million; equity in gain of affiliates of Ps.35.4 million; income from UHI of Ps. 2,195.0 million; and gain on disposition of investments of Ps.76.3 million. Income taxes paid for the year ended December 31, 2015 amounted to Ps.7,823.7 million.

Net cash used for investing activities for the year ended December 31, 2015, amounted to Ps.23,781.6 million, and was primarily used for investments in property, plant and equipment of Ps.25,524.1 million; held-to-maturity and available-for-sale investments of Ps.89.6 million; equity method and other investments of Ps.10,088.9 million; and investments in goodwill and other intangible assets of Ps.1,553.8 million; which effect was partially offset by an income from UHI of Ps. 2,195.0 million; disposition of investment in GSF of Ps. 10,335.8 million; and temporary investments of Ps.16.1 million.

Net cash provided for financing activities for the year ended December 31, 2015, amounted to Ps.12,032.9 million, and was primarily provided by the issuance of Senior Notes due 2026 in the amount of Ps.4,903.7 million; issuance of Senior Notes due 2046 in the amount of Ps.14,716.6 million; issuance of Notes due 2022 in the amount of Ps.4,988.7 million; and credit agreements with certain Mexican banks in the amount of Ps.2,487.9 million; which effect was primarily used for dividends and repurchase of capital stock of Ps.1,084.2 million; interest paid of Ps.5,938.7 million; prepayment and repayment of debt and lease payments of Ps.7,194.1 million; derivative financial instruments of Ps.372.0 million; and dividends to non-controlling interest of Ps.475.1 million.

We expect to fund our operating cash needs during 2016, other than cash needs in connection with any potential investments and acquisitions, through a combination of cash from operations and cash on hand. We intend to finance our potential investments or acquisitions in 2016

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

through available cash from operations, cash on hand and/or borrowings. The amount of borrowings required to fund these cash needs in 2016 will depend upon the timing of such transactions and the timing of cash payments from advertisers under our advertising sales plan.

During the year ended December 31, 2014, we had a net increase in cash and cash equivalents of Ps.13,037.3 million, as compared to a net decrease in cash and cash equivalents of Ps.2,371.3 million during the year ended December 31, 2013.

Net cash provided by operating activities for the year ended December 31, 2014, amounted to Ps.28,462.9 million. Adjustments to reconcile income before income taxes to net cash provided by operating activities primarily included: depreciation and amortization of Ps.11,563.1 million; net unrealized foreign exchange loss of Ps.2,133.5 million; interest expense of Ps.5,551.5 million; other amortization of Ps.213.2 million; gain in other finance income net of Ps.1,286.0 million; interest income of Ps.417.8 million; equity in gain of affiliates of Ps.13.2 million; and loss on disposition of investments of Ps.4,168.5 million. Income taxes paid for the year ended December 31, 2014 amounted to Ps.4,117.4 million.

Table of Contents

Net cash used for investing activities for the year ended December 31, 2014, amounted to Ps.22,739.5 million, and was primarily used for investments in property, plant and equipment of Ps.17,004.4 million; held-to-maturity and available-for-sale investments of Ps.372.1 million; equity method and other investments of Ps.5,487.3 million; investments in goodwill and other intangible assets of Ps.794.5 million; and temporary investments of Ps.75.0 million, which effect was partially offset by a disposition of held-to-maturity and available-for-sale investments of Ps.513.1 million; and disposition of property, plant and equipment of Ps.480.6 million.

Net cash provided for financing activities for the year ended December 31, 2014, amounted to Ps.7,230.8 million, and was primarily provided by the issuance of Senior Notes due 2021 in the amount of Ps.5,988.7 million; issuance of Senior Notes due 2045 in the amount of Ps.12,400.1 million and credit agreements with certain Mexican banks in the amount of Ps.2,078.4 million; which effect was partially offset by cash used by interest paid of Ps.5,200.7 million; prepayment and repayment of debt and lease payments of Ps.7,283.0 million; derivative financial instruments of Ps.284.4 million; and dividends to non-controlling interest of Ps.468.2 million.

During the year ended December 31, 2013, we had a net decrease in cash and cash equivalents of Ps.2,371.3 million, as compared to a net increase in cash and cash equivalents of Ps.2,787.4 million during the year ended December 31, 2012.

Net cash provided by operating activities for the year ended December 31, 2013, amounted to Ps.23,806.2 million. Adjustments to reconcile income before income taxes to net cash provided by operating activities primarily included: depreciation and amortization of Ps.9,846.4 million; net unrealized foreign exchange loss of Ps.128.6 million; interest expense of Ps.4,803.2 million; other amortization of Ps.185.1 million; gain in other finance income net of Ps.4,841.7 million; and equity in losses of affiliates of Ps.5,660.0 million. Income taxes paid for the year ended December 31, 2013 amounted to Ps.4,794.7 million.

Net cash used for investing activities for the year ended December 31, 2013, amounted to Ps.25,246.5 million, and was primarily used for investments in property, plant and equipment of Ps.14,870.7 million; held-to-maturity and available-for-sale investments of Ps.517.2 million; equity method and other investments of Ps.1,588.9 million; investments in financial instruments of Ps.9,492.7 million; and investments in goodwill and other intangible assets of Ps.824.1 million; which effect was partially offset by cash provided by temporary investments of Ps.1,604.3 million; a disposition of held-to-maturity and available-for-sale investments of Ps.263.7 million; and disposition of property, plant and equipment of Ps.169.2 million.

Net cash used for financing activities for the year ended December 31, 2013, amounted to Ps.923.8 million, and was primarily used for dividends and repurchase of capital stock of Ps.2,168.4 million; interest paid of Ps.4,681.7 million; repayment of debt and lease payments of Ps.751.2 million; derivative financial instruments of Ps.140.5 million; and dividends to non-controlling interest of Ps.112.7 million; which effect was partially offset by cash provided by the issuance of 7.25% Senior Notes due 2043 in the amount of Ps.6,437.2 million and credit agreements with certain Mexican banks in the amount of Ps.493.4 million.

Capital Expenditures, Acquisitions and Investments, Distributions and Other Sources of Liquidity

During 2016, we:

- expect to make aggregate capital expenditures for property, plant and equipment totaling approximately U.S.\$1,630.0 million, of which approximately U.S.\$1,100.0 million and approximately U.S.\$390.0 million are for the expansion and improvements of our Cable and Sky segments, respectively, and the remaining amount is for our Content and Other Businesses segments;
- expect to provide financing to GTAC in connection with long-term credit facilities and our 33.3% interest in GTAC in the aggregate principal amount of Ps.60.0 million (U.S.\$3.5 million); and
- expect to acquire the remaining 50% equity interest of TVI in the aggregate amount of Ps.6,750.0 million (U.S.\$392.1 million), including the assumption of long-term liabilities in the aggregate amount of Ps.4,750.0 million (U.S.\$275.9 million), with maturities between 2017 and 2020, and a cash payment of Ps.2,000.0 million (U.S.\$116.2 million).

Table of Contents

During 2015, we:

- made aggregate capital expenditures for property, plant and equipment totaling U.S.\$1,605.4 million, of which U.S.\$1,077.2 million and U.S.\$361.6 million are for the expansion and improvements of our Cable and Sky segments, respectively, and the remaining U.S.\$166.6 million is for our Content segment and other segments;
- acquired, through a series of transactions, all of the equity interest of Telecable for an aggregate consideration of Ps.10,001.8 million (U.S.\$667.7 million). Telecable is a cable company that provides video, data and telephone services primarily in six states of Mexico;
- provided financing to GTAC in connection with a long-term credit facility and our 33.3% interest in GTAC in the aggregate principal amount of Ps.101.9 million; and
- acquired additional shares of Imagina for the aggregate cash amount of Ps.341.7 million and increased our equity stake in Imagina from 14.5% to 19.9 %.

During 2014, we:

- made aggregate capital expenditures for property, plant and equipment approximately U.S.\$1,275.8 million, of which U.S.\$702.9 million and U.S.\$388.8 million are for the expansion and improvements of our Cable and Sky segments, respectively, and the remaining U.S.\$184.1 million is for our Content segment and other segments;
- made an investment in the amount of Ps.5,908.0 million to purchase, pursuant to applicable regulations, all of the equity interest of Cablecom; and
- provided financing to GTAC in connection with long-term credit facilities and our 33.3% interest in GTAC in the aggregate principal amount of Ps. 121.5 million.

During 2013, we:

- made aggregate capital expenditures for property, plant and equipment totaling U.S.\$1,157.8 million, of which U.S.\$599.9 million and U.S.\$397.7 million were for the expansion and improvements of our Cable and Sky segments, respectively, and the remaining U.S.\$160.2 million was for our Content segment and other segments;
- made additional capital contributions in connection with our 50% joint interest in GSF in the aggregate amount of Ps.1,587.5 million;
- made an investment in the amount of Ps.7,000 million (U.S.\$547.6 million) in convertible debt instruments which, subject to regulatory approval, will allow us to acquire 95% of the equity interest of Ares, owner of 51% of the equity interest of Cablecom, a telecommunications company that offers video, telephony and data services in Mexico. As part of this transaction, we also invested in a long-term debt instrument issued by Ares in the amount of U.S.\$195 million; and
- provided financing to GTAC in connection with long-term credit facilities and our 33.3% interest in GTAC in the aggregate principal amount of Ps.56.6 million and U.S.\$5.9 million.

which case the securities will be redeemable, as a whole but not in part, at the option of the Company; and (ii) in the event of a change of control, in which case the Company may be required to redeem the securities at 101% of their principal amount. Also, the Company may, at its own option, redeem the Senior Notes due 2018, 2025, 2026, 2037, 2040, 2043 and 2046, in whole or in part, at any time at a redemption price equal to the greater of the principal amount of these Senior Notes or the present value of future cash flows, at the redemption date, of principal and interest amounts of the Senior Notes discounted at a fixed rate of comparable U.S. or Mexican sovereign bonds. The Senior Notes due 2018, 2026, 2032, 2040, 2043, 2045 and 2046 were priced at 99.280%, 99.385%, 99.431%, 98.319%, 99.733%, 96.534% and 99.677%, respectively, for a yield to maturity of 6.097%, 4.700%, 8.553%, 6.755%, 7.27%, 5.227% and 6.147%, respectively. The Senior Notes due 2025 were issued in two aggregate principal amounts of U.S.\$400 million and U.S.\$200 million, and were priced at 98.081% and 98.632%, respectively, for a yield to maturity of 6.802% and 6.787%, respectively. The agreement of these Senior Notes contains covenants that limit the ability of the Company and certain restricted subsidiaries engaged in the Group's content segment, to incur or assume liens, perform sale and leaseback transactions, and consummate certain mergers, consolidations and similar transactions. The Senior Notes due 2018, 2025, 2026, 2032, 2037, 2040, 2045 and 2046 are registered with the SEC. The Senior Notes due 2043 are registered with both the SEC and the Mexican Banking and Securities Commission.

(3) In 2010, April 2014 and May 2015, the Company issued Notes (Certificados Bursátiles) due 2020, 2021 and 2022, respectively, through the Mexican Stock Exchange (Bolsa Mexicana de Valores) in the aggregate principal amount of Ps.10,000 million, Ps.6,000 million and P.S. 5,000 million, respectively. Interest on the Notes due 2020 is 7.38% per annum and is payable semi-annually. Interest on the Notes due 2021 and 2022 is the Equilibrium Interbank Interest Rate (Tasa de Interés Interbancaria de Equilibrio or TIIE) plus 0.35% per annum and is payable every 28 days. The Company may, at its own option, redeem the Notes due 2020, in whole or in part, at any semi-annual interest payment date at a redemption price equal to the greater of the principal amount of the outstanding Notes and the present value of future cash flows, at the redemption date, of principal and interest amounts of the Notes discounted at a fixed rate of comparable Mexican sovereign bonds. The Company may, at its own option, redeem the Notes due 2021 and 2022, at any date at a redemption price equal to the greater of the principal amount of the outstanding notes and an average price calculated from prices to be provided at the redemption date by two Mexican financial pricing companies. The agreement of these Notes contains covenants that limit the ability of the Company and certain restricted subsidiaries appointed by the Company's Board of Directors, and engaged in the Group's Content segment, to incur or assume liens, perform sale and leaseback transactions, and consummate certain mergers, consolidations and similar transactions.

(4) In 2015, also includes long-term bank loans entered into by the Company with a Mexican bank in September 2014 and January 2015, in the principal amount of Ps. 1,782 million, with a maturity in 2016, and an annual interest rate payable on a monthly basis of 28-day TIIE plus 15 basis points in 2014, a range between 30 and 70 basis points in 2015, and a range between 70 and 80 basis points in 2016 and in the principal amount of Ps.500 million, with a maturity in 2016, and annual interest rate payable on a monthly basis of 28-day TIIE plus a range between 0 and 30 basis points in 2015, and a range between 30 and 80 basis points in 2016.

(5) Include outstanding balance in the aggregate principal amount of Ps.2,709.2 million, in connection with certain credit agreements entered into by TVI with Mexican banks, with maturities between 2016 and 2022, bearing interest at an annual rate in the range of TIIE plus a range between 130 and 250 basis points which is payable on a monthly basis. Under the terms of the credit agreements, TVI is required to comply with certain restrictive covenants and financial coverage ratios.

(6) Actual weighted average maturity of long-term debt as of December 31, 2015.

(7) Starting from the fourth quarter of 2012, Sky is obligated to pay a monthly fee of U.S.\$3.0 million under a capital lease agreement entered into with Intelsat Global Sales & Marketing Ltd. (Intelsat) in March 2010 for satellite signal reception and retransmission service from 24 KU-band transponders on satellite IS-21, which became operational in October 2012. The service term for IS-21 will end at the earlier of (a) the end of 15 years or (b) the date IS-21 is taken out of service.

(8) Includes minimum lease payments of property and equipment and intangible assets under leases that qualify as capital leases. Also, includes a subsidiary of the Company that entered into a lease agreement with GTAC, a related party for the right to use certain capacity of a telecommunications network to 2029. This lease provides for annual payments to 2020 and 2021. The other capital leases have terms which expire at various dates between 2016 and 2019.

Our Board of Directors

General. The management of our business is vested in our Board of Directors. Our bylaws currently provide for a Board of Directors of 20 members, at least 25% of which must be independent directors under Mexican law (as described below), with the same number of alternate directors. The Mexican Securities Market Law provides that the following persons, among others, do not qualify as independent:

- our principals, employees or managers, as well as the statutory auditors, or *comisarios*, of our subsidiaries, including those individuals who have occupied any of the described positions within a period of 12 months preceding the appointment;
- individuals who have significant influence over our decision making processes;
- controlling stockholders, in our case, the beneficiary of the Azcárraga Trust;
- partners or employees of any company which provides advisory services to us or any company that is part of the same economic group as we are and that receives 10% or more of its income from us;

- significant clients, suppliers, debtors or creditors, or members of the Board or executive officers of any such entities; or
- spouses, family relatives up to the fourth degree, or cohabitants of any of the aforementioned individuals.

Our bylaws prohibit the appointment of individuals to our Board of Directors who: (i) are members of the board of directors or other management boards of a company (other than the Company or its subsidiaries) that has one or more concessions to operate telecommunications networks in Mexico; or (ii) directly or indirectly, are shareholders or partners of companies (other than the Company or its subsidiaries), that have one or more concessions to operate telecommunications networks in Mexico, with the exception of ownership stakes that do not allow such individuals to appoint one or more members of the management board or any other operation or decision making board.

Election of Directors. A majority of the members of our Board of Directors must be Mexican nationals and must be elected by Mexican stockholders. At our general annual stockholders meeting held on April 28, 2016, a majority of the holders of the Series A Shares voting together elected, eleven of our directors and corresponding alternates and a majority of the holders of the Series B Shares voting together elected, five of our directors and corresponding alternates. At our special stockholders meetings, a majority of the holders of the Series L Shares and Series D Shares will each continue to have the right to elect two of our directors and alternate directors, each of which must be an independent director. Ten percent holders of Series A Shares, Series B Shares, Series L Shares or Series D

Table of Contents

Shares will be entitled to nominate a director and corresponding alternates. Each alternate director may vote in the absence of a corresponding director. Directors and alternate directors are elected for one-year terms by our stockholders at each annual stockholders meeting, and each serves for up to a 30-day term once the one-year appointment has expired or upon resignation; in this case, the Board of Directors is entitled to appoint provisional directors without the approval of the stockholders meeting. All of the current and alternate members of the Board of Directors were ratified in their positions by our stockholders at our 2016 annual stockholders special and general meetings, which were held on April 28, 2016.

Quorum; Voting. In order to have a quorum for a meeting of the Board of Directors, generally at least 50% of the directors or their corresponding alternates must be present. However, in the case of a meeting of the Board of Directors to consider certain proposed acquisitions of our capital stock, at least 75% of the directors or their corresponding alternates must be present. In the event of a deadlock of our Board, our Chairman will have the deciding vote.

Meetings; Actions Requiring Board Approval. Our bylaws provide that our Board must meet at least quarterly, and that our Chairman, 25% of the Board members, our Secretary or alternate Secretary or the Chairman of the Audit and Corporate Practices Committee may call for a Board meeting.

Pursuant to the Mexican Securities Market Law and our bylaws, our Board of Directors must approve, among other matters:

- our general strategy;

- with input from the Audit and Corporate Practices Committee, on an individual basis: (i) any transactions with related parties, subject to certain limited exceptions; (ii) the appointment of our Chief Executive Officer, his compensation and removal for justified causes; (iii) our financial statements; (iv) unusual or non-recurrent transactions and any transactions or series of related transactions during any calendar year that involve (a) the acquisition or sale of assets with a value equal to or exceeding 5% of our consolidated assets, or (b) the giving of collateral or guarantees or the assumption of liabilities, equal to or exceeding 5% of our consolidated assets; (v) agreements with our external auditors; and (vi) accounting policies within IFRS;

- creation of special committees and granting them the power and authority, provided that the committees will not have the authority, which by law or under our bylaws is expressly reserved for the stockholders or the Board;

- matters related to antitakeover provisions provided for in our bylaws; and

- the exercise of our general powers in order to comply with our corporate purpose.

Duty of Care and Duty of Loyalty. The Mexican Securities Market Law imposes a duty of care and a duty of loyalty on directors. The duty of care requires our directors to act in good faith and in the best interests of the Company. In carrying out this duty, our directors are required to obtain the necessary information from the Chief Executive Officer, the executive officers, the external auditors or any other person to act in the best interests of the Company. Our directors are liable for damages and losses caused to us and our subsidiaries as a result of violating their duty of care.

The duty of loyalty requires our directors to preserve the confidentiality of information received in connection with the performance of their duties and to abstain from discussing or voting on matters in which they have a conflict of interest. In addition, the duty of loyalty is breached if a stockholder or group of stockholders is knowingly favored or if, without the express approval of the Board of Directors, a director takes advantage of a corporate opportunity. The duty of loyalty is also breached, among other things, by (i) failing to disclose to the Audit and Corporate Practices Committee or the external auditors any irregularities that the director encounters in the performance of his or her duties; or (ii) disclosing information that is false or misleading or omitting to record any transaction in our records that could affect our financial statements. Directors are liable for damages and losses caused to us and our subsidiaries for violations of this duty of loyalty. This liability also extends to damages and losses caused as a result of benefits obtained by the director or directors or third parties, as a result of actions of such directors.

Table of Contents

Our directors may be subject to criminal penalties of up to 12 years imprisonment for certain illegal acts involving willful misconduct that result in losses to us. Such acts include the alteration of financial statements and records.

Liability actions for damages and losses resulting from the violation of the duty of care or the duty of loyalty may be exercised solely for our benefit and may be brought by us, or by stockholders representing 5% or more of our capital stock, and criminal actions only may be brought by the Mexican Ministry of Finance, after consulting with the Mexican National Banking and Securities Commission. As a safe harbor for directors, the liabilities specified above (including criminal liability) will not be applicable if the director acting in good faith (i) complied with applicable law, (ii) made the decision based upon information provided by our executive officers or third-party experts, the capacity and credibility of which could not be subject to reasonable doubt, (iii) selected the most adequate alternative in good faith or if the negative effects of such decision could not have been foreseeable, and (iv) complied with stockholders' resolutions provided the resolutions do not violate applicable law.

The members of the board are liable to our stockholders only for the loss of net worth suffered as a consequence of disloyal acts carried out in excess of their authority or in violation of our bylaws.

In accordance with the Mexican Securities Market Law, supervision of our management is entrusted to our Board of Directors, which shall act through an Audit and Corporate Practices Committee for such purposes, and to our external auditor.

Audit and Corporate Practices Committee. The Audit and Corporate Practices Committee is currently composed of three independent members: Francisco José Chévez Robelo, the Chairman, Alberto Javier Montiel Castellanos and José Luís Fernández Fernández. The Chairman of this Committee was confirmed in our latest annual stockholders' meeting held on April 28, 2016. The other members were confirmed at our Board of Directors meeting held on April 28, 2016. The Chairman of the Audit and Corporate Practices Committee is appointed at our stockholders' meeting, and our Board of Directors appoints the remaining members.

The Audit and Corporate Practices Committee is responsible for, among other things: (i) supervising our external auditors and analyzing their reports, (ii) analyzing and supervising the preparation of our financial statements, (iii) informing the Board of Directors of our internal controls and their adequacy, (iv) requesting reports of our Board of Directors and executive officers whenever it deems appropriate, (v) informing the Board of any irregularities that it may encounter, (vi) receiving and analyzing recommendations and observations made by the stockholders, directors, executive officers, our external auditors or any third party and taking the necessary actions, (vii) calling stockholders' meetings, (viii) supervising the activities of our Chief Executive Officer, (ix) providing an annual report to the Board of Directors, (x) providing opinions to our Board of Directors, (xi) requesting and obtaining opinions from independent third parties and (xii) assisting the Board in the preparation of annual reports and other reporting obligations.

The Chairman of the Audit and Corporate Practices Committee shall prepare an annual report to our Board of Directors with respect to the findings of the Audit and Corporate Practices Committee, which shall include, among other things (i) the status of the internal controls and internal audits and any deviations and deficiencies thereof, taking into consideration the reports of external auditors and independent experts, (ii) the results of any preventive and corrective measures taken based on results of investigations in respect of non-compliance of operating and accounting policies, (iii) the evaluation of external auditors, (iv) the main results from the review of our financial statements and those of our subsidiaries, (v) the description and effects of changes to accounting policies, (vi) the measures adopted as result of observations of

stockholders, directors, executive officers and third parties relating to accounting, internal controls, and internal or external audits, (vii) compliance with stockholders and directors resolutions, (viii) observations with respect to relevant directors and officers, (ix) the transactions entered into with related parties and (x) the remunerations paid to directors and officers.

Committees of Our Board of Directors. Our Board of Directors has an Executive Committee. Each member is appointed for a one-year term at each annual general stockholders meeting. Our bylaws provide that the Executive Committee may generally exercise the powers of the Board of Directors, except those expressly reserved for the Board in our bylaws or by applicable law. The Executive Committee currently consists of Emilio Azcárraga Jean, Alfonso de Angoitia Noriega, Bernardo Gómez Martínez, José Antonio Bastón Patiño and Julio Barba Hurtado.

Compensation of Directors and Officers

For the year ended December 31, 2015, we paid our directors, alternate directors and officers for services in all capacities aggregate compensation of approximately Ps.750.0 million (U.S.\$43.6 million using the Interbank Rate, as reported by Banamex, as of December 31, 2015). This compensation included certain amounts related to the use of assets and services of the Company, as well as travel expenses reimbursed to directors and officers. See Use of Certain Assets and Services below.

As of December 31, 2015, we have made Ps.144.5 million in contributions to our pension and seniority premium plans on behalf of our directors, alternate directors and officers. Projected benefit obligations as of December 31, 2015 were

approximately Ps.173.0 million.

Certain of our officers are entitled to receive performance bonuses. The amount and rules applicable vary among the different divisions and/or officers. The amounts payable under the performance bonus depend on the results

Table of Contents

achieved, and include certain qualitative and/or quantitative objectives that can be related to revenues and/or EBITDA, budgets, market share and others.

We have entered into certain Compensation and Retention Agreements with several executive officers. Such agreements have a five year term and were signed in late 2014. The conditions applicable to such contracts were approved by the Board of Directors and include, among other conditions, salary, an annual retention bonus and a performance bonus. In order to be entitled to the performance bonus, certain qualitative and quantitative targets must be met, including parameters related to the growth of revenues and EBITDA. If targets are not met, the amounts to be paid decline, and if targets are exceeded, the bonus can reach up to 120% of the target bonus. The target bonus is set at approximately two times the fixed component established in the relevant agreements.

We have established a deferred compensation plan for certain officers of our Cable Division, which will be payable in the event that certain revenue and EBITDA targets of a five-year plan are met. Such compensation may be payable in 2020 through a combination of cash and/or stock awards granted under the Long Term Retention Plan. In the event that the established targets in the plan are met, the annual cost during the five years of the deferred compensation plan will amount on average to approximately \$25 million dollars.

In addition, we have granted our executive officers and directors rights to purchase CPOs under the Stock Purchase Plan and the Long-Term Retention Plan. See Stock Purchase Plan and Long-Term Retention Plan below.

Use of Certain Assets and Services

We maintain an overall security program for Mr. Azcárraga, other top executives, their families, in some cases, and for other specific employees and service providers, as permitted under our *Política de Seguridad*, or Security Policy, due to business-related security concerns. We refer to the individuals described above as Key Personnel. Our security program includes the use of our personnel, assets and services to accomplish security objectives.

In accordance with this program, we require, under certain circumstances, that certain authorized Key Personnel use aircrafts, either owned or leased by us, for non-business, as well as business travel for our benefit rather than as a personal benefit. The use of such aircrafts is carried out in accordance with, among others, our *Política de Seguridad* policy, which establishes guidelines under which authorized Key Personnel may use such aircrafts for personal purposes. If the use of such aircrafts for personal purposes exceeds the specified number of hours, the relevant Key Personnel must reimburse us for the cost of operating the aircrafts during the excess time of use. The aggregate amount of compensation set forth in Compensation of Directors and Officers does include the cost to us of providing this service.

In addition, certain Key Personnel are provided with security systems and equipment for their residences and/or automobiles and with security advice and personal protection services at their residences. The use of these security services is provided in accordance with our *Política de Seguridad* policy. The cost of these systems and services are incurred as a result of business-related concerns and are not considered for their personal benefit. As a result, the Company has not included such cost in Compensation of Directors and Officers.

Further, certain Key Personnel are provided with advisory services, including legal, tax and accounting services, through approved company providers.

Stock Purchase Plan and Long-Term Retention Plan

The stock purchase plan has been implemented in several stages since 1999, through a series of conditional sales to plan participants of CPOs. At our general extraordinary and ordinary stockholders meeting held on April 30, 2002, our stockholders authorized the creation and implementation of a Long-Term Retention Plan, as well as the creation of one or more special purpose trusts to implement the Long-Term Retention Plan. Pursuant to our Long-Term Retention Plan, we have granted eligible participants, who consist of unionized and non-unionized employees, including key personnel (Plan Participants), awards as conditional sales. As of October 2010, our stock purchase plan and our Long-Term Retention Plan were consolidated under a single special purpose trust. Pursuant to the resolutions adopted by our stockholders, we have not, and do not intend to, register shares under the Securities Act that are allocated to the Long-Term Retention Plan.

Table of Contents

The CPOs, CPO equivalents and underlying shares that are part of the stock purchase plan will be held by the special purpose trust and will be voted with the majority of the CPOs, CPO equivalents and underlying shares are represented at the relevant meeting until these securities are transferred to Plan Participants or otherwise sold in the open market. In accordance with the stock purchase plan, our President and the technical committee of the special purpose trust have broad discretion to make decisions related to the stock purchase plan, including the ability to accelerate vesting terms, to grant, release or transfer CPOs and/or CPO equivalents, subject to conditional sale agreements, to Plan Participants in connection with sales for purposes of making the payment of the related purchase price, and to implement amendments to the stock purchase plan, among others.

The price at which the conditional sales of the CPOs will be made to beneficiaries is based on the lowest of (i) the closing price on March 31 of the year in which the CPOs are awarded, and (ii) the average price of the CPOs during the first three months of the year in which the CPOs are awarded. The resulting price shall be reduced by dividends, a liquidity discount and by the growth of the consolidated or relevant segment Operating Income Before Depreciation and Amortization, or OIBDA, (including OIBDA affected by acquisitions) between the date of award and the vesting date, among others.

At our annual general ordinary stockholders meeting held on April 2, 2013, our stockholders approved that the number of CPOs that may be granted annually under the Long-Term Retention Plan shall be up to 1.5% of the capital of the Company. As of December 31, 2015, approximately 86.5 million CPOs that were transferred to Plan Participants were sold in the open market during 2013, 2014 and 2015. Additional sales will continue to take place during or after 2016.

In April 2007, the Board of Directors, with the input from the Audit and Corporate Practices Committee, reviewed the compensation of our Chief Executive Officer and determined to include our Chief Executive Officer in the Long-Term Retention Plan of the Company as well as in any other plan to be granted by the Company to its employees in the future. See Compensation of Directors and Officers .

Also, as of March 31, 2016, the special purpose trust created to implement the Long-Term Retention Plan owned approximately 207.0 million CPOs or CPO equivalents. This figure is net of approximately 27.0, 24.7 million and 24.3 million CPOs or CPO equivalents vested in 2013, 2014 and 2015, respectively. Of such 207.0 million CPOs or CPO equivalents approximately 73% are in the form of CPOs and the remaining 27% are in the form of A, B, D and Series L Shares. As of March 31, 2016, approximately 114.3 million CPOs or CPO equivalents have been reserved and will become vested between 2016 and 2018 at prices ranging from Ps.59.00 to Ps.90.59 per CPO which may be reduced by dividends, a liquidity discount and the growth of the consolidated or relevant segment OIBDA (including OIBDA affected by acquisitions) between the date of award and the vesting date, among others.

As we have done in the past, we may consider further capital increases, among other alternatives, to continue replenishing the Long-Term Retention Plan. Any such capital increases would be subject to the appropriate corporate approvals, including stockholders preemptive rights as well as the authorization by our stockholders at the stockholders meeting.

Share Ownership of Directors and Officers

Share ownership of our directors, alternate directors and executive officers is set forth in the table under Major Stockholders and Related Party Transactions . Except as set forth in such table, none of our directors, alternate directors or executive officers is currently the beneficial owner of more than 1% of any class of our capital stock or conditional sale agreements or options representing the right to purchase more than 1% of any class of our capital stock.

Employees and Labor Relations

The following table sets forth the number of employees and a breakdown of employees by main category of activity and geographic location as of the end of each year in the three-year period ended December 31, 2015:

Europe			12

As of December 31, 2013, 2014 and 2015, approximately 45%, 43% and 45% of our employees, respectively, were represented by unions. We believe that our relations with our employees are good. Under Mexican law, the agreements between us and most of our television, radio and cable television union employees are subject to renegotiation on an annual basis in January of each year. We also have union contracts with artists, musicians and other employees, which are also renegotiated on an annual basis.

Item 7. Major Stockholders and Related Party Transactions

The following table sets forth information about the beneficial ownership of our capital stock by our directors, alternate directors, executive officers and each person who is known by us to own more than 5% of the currently outstanding Series A Shares, Series B Shares, Series L Shares or Series D Shares as of March 31, 2016. Except as set forth below, we are not aware of any holder of more than 5% of any class of our Shares.

The Major Stockholders

The Azcárraga Trust, a trust for the benefit of Emilio Azcárraga Jean, currently holds 43.0% of the outstanding Series A Shares, 0.1% of the outstanding Series B shares, 0.1% of the outstanding Series D Shares and 0.1% of the outstanding Series L Shares of the Company. As a result, Emilio Azcárraga Jean currently controls the vote of such shares through the Azcárraga Trust. The Series A Shares held through the Azcárraga Trust constitute a majority of the Series A Shares whose holders are entitled to vote because non-Mexican holders of CPOs and GDSs are not permitted to vote the underlying Series A Shares in accordance with the trust agreement governing the CPOs and the Company's bylaws. Accordingly, and so long as non-Mexicans own more than a minimal number of Series A Shares, Emilio Azcárraga Jean will have the ability to direct the election of 11 out of 20 members of our Board of Directors, as well as prevent certain actions by the stockholders, including dividend payments, mergers, spin-offs, changes in corporate purpose, changes of nationality and amendments to the anti-takeover provisions of our bylaws.

Pursuant to our bylaws, holders of Series B Shares are entitled to elect five out of 20 members of our Board of Directors.

Because the Azcárraga Trust only holds a limited number of Series B Shares, there can be no assurance that individuals nominated by the Azcárraga Trust appointees will be elected to our Board.

We believe that as of March 31, 2016, approximately 329.6 million of GDSs were held of record by 90 persons with U.S. addresses. Those GDSs represent 33.4% of the outstanding Series A Shares, 61.5% of the outstanding Series B Shares, 64.0% of the outstanding Series D Shares and 64.0% of the outstanding Series L Shares of the Company. Before giving effect to the 2004 recapitalization, substantially all of the outstanding Series A Shares not held through CPOs were owned by Televisión and a special purpose trust created for our Long-Term Retention Plan, as described under Major Stockholders and Related Party Transactions and Directors, Senior Management and Employees Stock Purchase Plan and Long-Term Retention Plan. For more information regarding our 2004 recapitalization, please refer to our Form 6-K filed with the SEC on March 25, 2004.

Related Party Transactions

Transactions and Arrangements with Univision. In December 2010, the Company and Univision announced the completion of certain agreements among related parties by which, among other transactions, the Company made an investment in BMP (now known as Univision Holdings, Inc., or UHI) the parent company of Univision, and the PLA between Televisa and Univision was amended and extended through the later of 2025 or seven and one-half years after the Company has sold two-thirds of its initial investment in UHI. Univision became a related party to the Company as of December 2010 as a result of these transactions. For a description of our arrangements with Univision, see Information on the Company Business Overview Univision .

Transactions and Arrangements with Iusacell. Iusacell purchased advertising services from us in connection with the promotion of its products and services in 2014. In January 2015, we concluded the sale of our equity interest in Iusacell to Grupo Salinas for the purchase price of US\$717 million.

Transactions and Arrangements With Our Directors and Officers. We own 15% of the equity of Centros de Conocimiento Tecnológico, or CCT, a company that owns and operates technological schools in Mexico and in which Claudio X. González Laporte and Carlos Fernández González, two of our former directors, own a minority interest.

Table of Contents

During 2015, we entered into contracts leasing office space directly or indirectly from certain of our directors and officers. These leases have aggregate annual lease payments for 2016 equal to approximately Ps. 26.2 million. We believe that the terms of these leases are comparable to terms that we would have entered into with third parties for similar leases.

Certain of our executive officers have in the past, and from time to time in the future may, purchase debt securities issued by us and/or our subsidiaries from third parties in negotiated transactions. Certain of our executive officers and directors participate in our stock purchase plan and Long-Term Retention Plan. See Directors, Senior Management and Employees Stock Purchase Plan and Long-Term Retention Plan .

Transactions and Arrangements With Affiliates and Related Parties of Our Directors, Officers and Major Stockholders

Consulting Services. Instituto de Investigaciones Sociales, S.C., a consulting firm which is controlled by Ariana Azcárraga De Surmont, the sister of Emilio Azcárraga Jean, has from time to time during 2015 provided consulting services and research in connection with the effects of our programming, especially telenovelas, on our viewing audience. Instituto de Investigaciones Sociales, S.C. provided us with such services in 2015, and we expect to continue these arrangements through 2016.

Loans from Banamex. In 2006, Banamex and Innova entered into a loan agreement with a maturity date of 2016 which was prepaid in 2015, and in 2010 Banamex and TVI entered into a revolving credit facility which was paid by TVI in March 2011. In March 2011, the Company entered into long-term credit arrangements with Banamex, with maturities between 2018 and 2021 which were prepaid in 2015. These loans were made on terms substantially similar to those offered by Banamex to third parties. Emilio Azcárraga Jean, our Chief Executive Officer, President and Chairman of the Board, is a member of the Board of Banamex. One of our directors, Roberto Hernández Ramírez, is the Honorary Chairman of the Board of Banamex. Mr. Hernández was also a member of the Board of, and the beneficial owner of less than 1% of the outstanding capital stock of, Citigroup, Inc., the entity that indirectly controls Banamex. For a description of amounts outstanding under, and the terms of, our existing credit facilities with Banamex, see Operating and Financial Review and Prospects Results of Operations Liquidity, Foreign Exchange and Capital Resources Indebtedness .

Loans from Banorte. In 2015, Banorte and TVI entered into a loan agreement with a maturity date of 2022. This loan was made on terms substantially similar to those offered by Banorte to third parties. Alfonso de Angoitia Noriega, our Executive Vice President, Member of the Board, and Guadalupe Phillips Margain, former Vice President of Finance and Risk of Grupo Televisa, Alternate Member of the Board, are members of the Board of Banorte. For a description of amounts outstanding under, and the terms of, our existing credit facilities with Banorte, see Operating and Financial Review and Prospects Results of Operations Liquidity, Foreign Exchange and Capital Resources Indebtedness .

Advertising Services. Several members of our current Board serve as members of the Boards and/or are stockholders of other companies. See **Directors, Senior Management and Employees** . Some of these companies, including Banamex, BBVA Bancomer, FEMSA, Grupo Nacional Provincial, Heineken and Lala, among others, purchased advertising services from us in connection with the promotion of their respective products and services from time to time in 2015, and we expect that this will continue to be the case in the future. The companies described above pay rates applicable to third party advertisers. Similarly, one of our former directors, Alejandro Quintero Iñiguez, is a stockholder of Grupo TV Promo, S.A. de C.V., or Grupo TV Promo, which is a company that renders services of publicity, promotion and advertisement to third parties. Grupo TV Promo and its subsidiaries act as licensees of the Company for the use and exploitation of certain images and/or trademarks of shows and novelas produced by the Company; and produce promotional campaigns and events for the Company and for some of the Company's clients. Grupo TV Promo has purchased, and we expect it will continue to purchase, advertising services from us, some of which are referred to the aforementioned promotional campaigns. This company pays rates applicable to third party advertisers that purchase advertising services on pay-TV networks and free-to-air television channels, and pays rates applicable to third party advertisers that purchase unsold advertising services, which are lower than rates paid by advertisers purchasing advertising in advance or at regular rates. During 2015, Grupo TV Promo purchased unsold advertising on free-to-air television channels and on pay-TV networks of Televisa for a total of Ps.265.2 million and Ps.11.33 million, respectively.

Online Lottery Services. In March 2012, Multijuegos, our online lottery, entered into an agreement with Cadena Comercial Oxxo, S.A. de C.V. and OXXO Express, S.A. de C.V., or OXXO, the principal chain of convenience stores in Mexico, both controlled subsidiaries of Fomento Economico Mexicano, S.A.B., or FEMSA, to sell online lottery tickets through point-of-sale terminals at the OXXO stores. José Antonio Fernández Carbajal, Executive Chairman of the Board of FEMSA, is a member of our Board.

Legal and Advisory Services. During 2015, Mijares, Angoitia, Cortés y Fuentes, S.C., a Mexican law firm, provided us with legal and advisory services, and we expect that this will continue to be the case in the future.

Table of Contents

Ricardo Maldonado Yáñez, a partner from the law firm of Mijares, Angoitia, Cortés y Fuentes, S.C., serves also as Secretary of our Board of Directors and Secretary to the Executive Committee of our Board of Directors. We believe that the fees we paid for these services were comparable to those that we would have paid another law firm for similar services.

In August 2009, we entered into an agreement with Allen & Company to provide the Company with advisory services related to investment opportunities outside of Mexico. In February 2010, we entered into an agreement with Allen & Company to provide the Company with advisory services related to an investment opportunity in the wireless telecommunications segment in Mexico. In 2011 and 2012, we entered into agreements with Allen & Company to provide the Company with advisory services related to an investment in the television segment outside of Mexico. Two of our directors are directors of Allen & Company as well. These agreements were entered into on an arm's length basis. We believe that the amounts paid and to be paid under these agreements to Allen & Company are comparable to those paid to third parties for these types of services.

For further information about our related party transactions, see Note 19 to our consolidated year-end financial statements.

Trading prices of the CPOs and the GDSs will be influenced by our results of operations, financial condition, cash requirements, future prospects and by economic, financial and other factors and market conditions. See Key Information Risk Factors Risk Factors Related to Mexico Economic and Political Developments in Mexico May Adversely Affect Our Business . There can be no assurance that prices of the CPOs and the GDSs will, in future, be within the ranges set forth above. We believe that as of March 31, 2016, approximately 329.6 million of GDSs were held of record by 90 persons with U.S. addresses.

Trading on the Mexican Stock Exchange

Overview

The Mexican Stock Exchange, located in Mexico City, is the only stock exchange in Mexico. Operating continuously since 1907, the Mexican Stock Exchange is organized as a *sociedad anónima bursátil de capital variable*, or publicly-traded corporation with variable capital. Securities trading on the Mexican Stock Exchange occurs from 8:30 a.m. to 3:00 p.m., Mexico City time, each business day. All trading on the Mexican Stock Exchange is effected electronically. The Mexican Stock Exchange may impose a number of measures to promote an orderly and transparent trading price of securities, including the operation of a system of automatic suspension of trading in shares of a particular issuer when price fluctuation exceeds certain limits. The Mexican Stock Exchange may also suspend trading in shares of a particular issuer as a result of the disclosure of a material event, or when the changes in the volume traded or share price are not consistent with either the historic performance or information publicly available. The Mexican Stock Exchange may resume trading in the shares when it deems that the material events have been adequately disclosed to public investors or when it deems that the issuer has adequately explained the reasons for the changes in the volume traded or prevailing share price. Under current regulations, in certain

Table of Contents

cases when the relevant securities are simultaneously traded on a stock exchange outside of Mexico, the Mexican Stock Exchange may consider the measures adopted by the other stock exchange in order to suspend and/or resume trading in the issuer's shares.

Settlement is effected two business days after a share transaction on the Mexican Stock Exchange. Deferred settlement, even by mutual agreement, is not permitted without the approval of the CNBV. Most securities traded on the Mexican Stock Exchange, including the CPOs, are on deposit with S.D. Indeval, Institución para el Depósito de Valores, S.A. de C.V., or Indeval, a privately owned securities depository that acts as a clearinghouse, depository and custodian, as well as a settlement, transfer and registration agent for Mexican Stock Exchange transactions, eliminating the need for physical transfer of securities.

Although the Mexican Securities Market Law provides for the existence of an over-the-counter market, no such market for securities in Mexico has been developed.

Market Regulation and Registration Standards

In 1946, the *Comisión Nacional de Valores*, or the National Securities Commission, commonly known as the CNV, was established to regulate stock market activity. In 1995, the CNV and the *Comisión Nacional Bancaria*, or the National Banking Commission, were merged to form the CNBV. The Mexican Securities Market Law, which took effect in 1975, introduced important structural changes to the Mexican financial system, including the organization of brokerage firms as corporations with variable capital, or *sociedades anónimas de capital variable*. The Mexican Securities Market Law sets standards for authorizing companies to operate as brokerage firms, which authorization is granted at the discretion of the CNBV. In addition to setting standards for brokerage firms, the Mexican Securities Market Law empowers the CNBV, among other things, to regulate the public offering and trading of securities and to impose sanctions for the illegal use of insider information. The CNBV regulates the Mexican securities market, the Mexican Stock Exchange and brokerage firms through a board of governors composed of thirteen members, five of which are appointed by the Ministry of Finance.

In June 2001, the Mexican Securities Market Law required issuers to increase the protections offered to minority stockholders and to impose corporate governance controls on Mexican listed companies in line with international standards. The Mexican Securities Market Law then in effect expressly permitted Mexican listed companies, with prior authorization from the CNBV, to include in their bylaws anti-takeover defenses such as stockholder rights plans, or poison pills. We amended our bylaws to include certain of these protections at our general extraordinary stockholders meeting, which was held on April 30, 2002. See Additional Information Bylaws Other Provisions Appraisal Rights and Other Minority Protections and Additional Information Bylaws Antitakeover Protections .

To offer securities to the public in Mexico, an issuer must meet specific qualitative and quantitative requirements, and generally only securities for which an application for registration in the National Registry of Securities, or NRS, maintained by the CNBV has been approved by the CNBV may be listed on the Mexican Stock Exchange. This approval does not imply any kind of certification or assurance related to the merits or the quality of the securities or the solvency of the issuer.

In March 2003, the CNBV issued general rules, or General CNBV Rules, applicable to issuers and other securities market participants. The General CNBV Rules, which repealed several previously enacted *circulares*, or rules, of the CNBV, now provide a single set of rules governing

issuers and issuer activity, among other things.

The General CNBV Rules have mandated that the Mexican Stock Exchange adopt minimum requirements for issuers to be registered with the CNBV and have their securities listed on the Mexican Stock Exchange. To be registered, issuers will be required to have, among other things:

- a minimum number of years of operating history;
- a minimum financial condition;
- a minimum number of shares or CPOs to be publicly offered to public investors;
- a minimum price for the securities to be offered;
- a minimum of 15% of the capital stock placed among public investors;

Table of Contents

- a minimum of 200 holders of shares or of shares represented by CPOs, who are deemed to be public investors under the General CNBV Rules, upon the completion of the offering;
- the following distribution of the securities offered pursuant to an offering in Mexico: (i) at least 50% of the total number of securities offered must be placed among investors who acquire less than 5% of the total number of securities offered; and (ii) no investor may acquire more than 40% of the total number of securities offered; and
- complied with certain corporate governance requirements.

To maintain its registration, an issuer will be required to have, among other things:

- a minimum of 12% of the capital stock held by public investors;
- a minimum of 100 holders of shares or of shares represented by CPOs who are deemed to be public investors under the General CNBV Rules; and
- complied with certain corporate governance requirements.

The CNBV has the authority to waive some of these requirements in some circumstances. Also, some of these requirements are applicable for each series of shares of the relevant issuer.

The Mexican Stock Exchange reviews annually compliance with the foregoing and other requirements, some of which may be further reviewed on a quarterly or semi-annual basis. The Mexican Stock Exchange must inform the CNBV of the results of its review and this information must, in turn, be disclosed to investors. If an issuer fails to comply with any of the foregoing requirements, the Mexican Stock Exchange will request that the issuer propose a plan to cure the violation. If the issuer fails to propose such plan, if the plan is not satisfactory to the Mexican Stock Exchange or if the issuer does not make substantial progress with respect to the corrective measures, trading of the relevant series of shares on the Mexican Stock Exchange will be temporarily suspended until the situation is corrected. In addition, if the issuer fails to propose the plan or ceases to follow such plan once proposed, the CNBV may suspend or cancel the registration of the shares. In such event, the issuer must evidence the mechanisms to protect the rights of public investors and market in general.

Issuers of listed securities are required to file unaudited quarterly financial statements and audited annual financial statements as well as various periodic reports with the CNBV and the Mexican Stock Exchange. Issuers of listed securities must prepare and disclose their financial

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

information by a Mexican Stock Exchange-approved system known as EMISNET and to the CNBV through the *Sistema de Transferencia de Información sobre Valores*, or STIV-2. Immediately upon its receipt, the Mexican Stock Exchange makes that information available to the public.

The General CNBV Rules and the internal regulations of the Mexican Stock Exchange require issuers of listed securities to file through EMISNET and STIV-2 information on the occurrence of material events affecting the relevant issuer. Material events include, but are not limited to:

- the entering into or termination of joint venture agreements or agreements with key suppliers;
- the creation of new lines of businesses or services;
- significant deviations in expected or projected operating performance;
- the restructuring or payment of significant indebtedness;
- material litigation or labor conflicts;
- changes in dividend policy;
- the commencement of any insolvency, suspension or bankruptcy proceedings;
- changes in the directors; and
- any other event that may have a material adverse effect on the results, financial condition or operations of the relevant issuer.

If there is unusual price volatility of the securities listed, the issuer would be obliged to immediately inform the CNBV and the Mexican Stock Exchange of the causes of such volatility or, if the issuer is unaware of such causes,

Table of Contents

make a statement to that effect, in order for the Mexican Stock Exchange to immediately convey that information to the public. In addition, the Mexican Stock Exchange must immediately request that issuers disclose any information relating to relevant material events, when it deems the information currently disclosed to be insufficient, as well as instruct issuers to clarify such information when it deems the information to be confusing. The Mexican Stock Exchange may request issuers to confirm or deny any material events that have been disclosed to the public by third parties when it deems that the material event may affect or influence the securities being traded. The Mexican Stock Exchange must immediately inform the CNBV of any requests made to issuers. The CNBV may also make any of these requests directly to issuers. An issuer may delay the disclosure of material events under some circumstances, including where the information being offered is not related to transactions that have been completed.

The CNBV and the Mexican Stock Exchange may suspend the dealing in securities of an issuer:

- if the issuer does not adequately disclose a material event; or
- upon price or volume volatility or changes in the offer or demand in respect of the relevant securities, which are not consistent with the historic performance of the securities and could not be explained solely by the information made publicly available under the General CNBV Rules.

The Mexican Stock Exchange must immediately inform the CNBV and the general public of any such suspension. An issuer may request that the CNBV or the Mexican Stock Exchange resume trading, provided it demonstrates that the causes triggering the suspension have been resolved and that it is in full compliance with the periodic reporting requirements under the applicable law. If its request has been granted, the Mexican Stock Exchange will determine the appropriate mechanism to resume trading in its securities. If trading of an issuer is suspended for more than 20 business days and the issuer is authorized to resume trading without conducting a public offering, the issuer must disclose through EMISNET and STIV-2, before trading resumes, a description of the causes that resulted in the suspension and reasons why it is now authorized to resume trading.

Likewise, if the securities of an issuer are traded on both the Mexican Stock Exchange and a foreign securities market, that issuer must file with the CNBV and the Mexican Stock Exchange on a simultaneous basis the information that it is required to file pursuant to the laws and regulations of the relevant other jurisdiction.

Pursuant to the Mexican Securities Market Law, stockholders of issuers listed on the Mexican Stock Exchange must disclose any transactions, through or outside of the Mexican Stock Exchange that result in exceeding 10% ownership stake of an issuer's capital stock. These stockholders must also inform the CNBV of the results of these transactions the day after their completion. See Additional Information Mexican Securities Market Law .

Additionally, related parties of an issuer who increase or decrease their ownership stake, in one or more transactions, by 5% or more, shall disclose such transactions. The Mexican Securities Market Law also requires stockholders holding 10% or more of the capital stock of companies listed in the registry to notify the CNBV of any ownership changes in shares of the company. Moreover, recent amendments to the CNBV regulations for issuers, require issuers to disclose to the CNBV on an annual basis on or before June 30 of each year: (i) the name and ownership percentage of any Board members and relevant officers that maintain 1% or more of the capital stock of an issuer, (ii) the names and ownership percentage of any other individual or entity that maintains 5% or more of the capital stock of an issuer (regardless of whether such stockholder is an officer or director) and (iii) the names and ownership percentage of the 10 (ten) stockholders with the largest direct ownership stake in an issuer (regardless of the ownership percentage or whether such stockholder is an officer, director, related party or private investor with no relationship to the issuer). Based on the foregoing, Mexican Securities Regulations require that (i) Board members and relevant officers that maintain 1% or more of the capital stock of an issuer and (ii) any other individual or entity that maintains 5% or more of the capital stock of an entity, provide this information to the relevant issuer on or before May 15 of each year.

Item 10. Additional Information

Mexican Securities Market Law

On December 30, 2005, a new Mexican Securities Market Law was enacted and published in the Official Gazette of the Federation. The new Securities Market Law became effective on June 28, 2006 and in some cases

Table of Contents

allowed an additional period of 180 days (late December 2006) for issuers to incorporate in their bylaws the new corporate governance and other requirements derived from the new law.

Pursuant to the Mexican Securities Market Law:

- members of a listed issuer's board of directors,
- stockholders controlling 10% or more of a listed issuer's outstanding share capital,
- advisors,
- groups controlling 25% or more of a listed issuer's outstanding share capital, and
- other insiders must inform the CNBV of any transactions undertaken with securities of a listed issuer.

In addition, under the Mexican Securities Market Law insiders must abstain from purchasing or selling securities of the issuer within 90 days from the last sale or purchase, respectively.

Under the Mexican Securities Market Law, tender offers may be voluntary or mandatory. All tender offers must be open for at least 20 business days and purchases thereunder are required to be made pro-rata to all tendering stockholders. Any intended purchase resulting in a 30% or greater holding requires the tender to be made for the greater of 10% of the company's capital stock or the share capital intended to be acquired; if the purchase is aimed at obtaining control, the tender must be made for 100% of the outstanding shares. In calculating the intended purchase amount, convertible securities, warrants and derivatives the underlying security of which are such shares must be considered. The law also permits the payment of certain amounts to controlling stockholders over and above the offering price if these amounts are fully disclosed, approved by the board of directors and paid in connection with non-compete or similar obligations. The law also contemplates exceptions to the mandatory tender offer requirements and specifically provides for the consequences, to a purchaser, of not complying with these tender offer rules (lack of voting rights, possible annulment of purchases, etc.) and other rights available to prior stockholders of the issuer.

The Mexican Securities Market Law permits public companies to insert provisions in their bylaws pursuant to which the acquisition of control of the company, by the company's stockholders or third parties, may be prevented, if such provisions (i) are approved by stockholders without the negative vote of stockholders representing 5% or more of the outstanding shares, (ii) do not exclude any stockholder or group of stockholders, and (iii) do not restrict, in an absolute manner, the change of control.

Bylaws

Set forth below is a brief summary of some significant provisions of our bylaws and Mexican law. This description does not purport to be complete, and is qualified by reference in its entirety to our bylaws, which have been filed as an exhibit to this annual report, and Mexican law.

Organization and Register

Televisa is a *sociedad anónima bursátil*, or limited liability stock corporation, organized under the laws of Mexico in accordance with the Mexican Companies Law. Televisa was incorporated under Public Deed Number 30,200, dated December 19, 1990, granted before Notary Public Number 73 of Mexico City, and registered with the Public Registry of Commerce of Mexico City, under Commercial Page (*folio mercantil*) Number 142,164. We have a general corporate purpose, the specifics of which can be found in Article Four of our bylaws.

Our stock registry is maintained by Indeval, and in accordance with Mexican law, we only recognize those holders listed in our stock registry as our stockholders. Our stockholders may hold their share in the form of physical certificates or through book-entries with institutions that have accounts with Indeval. The CPO Trustee is the holder of record for Shares represented by CPOs. Accounts may be maintained at Indeval by brokers, banks and other entities approved by the CNBV.

Voting Rights and Stockholders Meetings

Holders of Series A Shares. Holders of Series A Shares have the right to vote on all matters subject to stockholder approval at any general stockholders meeting and have the right, voting as a class, to appoint eleven members of our Board of Directors and the corresponding alternate directors. In addition to requiring approval by a majority of all Shares entitled to vote together on a particular corporate matter, certain corporate matters must be approved by a majority of the holders of Series A Shares voting separately. These matters include mergers, dividend payments, spin-offs, changes in corporate purpose, changes of nationality and amendments to the anti-takeover provisions of our bylaws.

Holders of Series B Shares. Holders of Series B Shares have the right to vote on all matters subject to stockholder approval at any general stockholders meeting and have the right, voting as a class, to appoint five members of our Board of Directors and the corresponding alternate directors. The five directors and corresponding alternate directors elected by the holders of the Series B Shares will be elected at a stockholders meeting that must be held within the first four months after the end of each year.

Holders of Series D Shares and Series L Shares. Holders of Series D Shares, voting as a class, are entitled to vote at special meetings to elect two of the members of our Board of Directors and the corresponding alternate directors, each of which must be an independent director. In addition, holders of Series D Shares are entitled to vote on the following matters at extraordinary general meetings:

- our transformation from one type of company to another;
- any merger (even if we are the surviving entity);
- extension of our existence beyond our prescribed duration;
- our dissolution before our prescribed duration (which is currently 99 years from January 30, 2007);
- a change in our corporate purpose;

- a change in our nationality; and
- the cancellation from registration of the Series D Shares or the securities which represent the Series D Shares with the securities or special section of the NRS and with any other Mexican or foreign stock exchange in which such shares or securities are registered.

Holders of Series L Shares, voting as a class, are entitled to vote at special meetings to elect two of the members of our Board of Directors and the corresponding alternate directors, each of which must be an independent director. Holders of Series L Shares are also entitled to vote at extraordinary general meetings on the following matters:

- our transformation from one type of company to another;
- any merger in which we are not the surviving entity; and
- the cancellation from registration of the Series L Shares or the securities that represent the Series L Shares with the special section of the NRS.

The two directors and corresponding alternate directors elected by each of the holders of the Series D Shares and the Series L Shares are elected annually at a special meeting of those holders. Special meetings of holders of Series D Shares and Series L Shares must also be held to approve the cancellation from registration of the Series D Shares or Series L Shares or the securities representing any of such shares with the NRS, as the case may be, and in the case of Series D Shares, with any other Mexican or foreign stock exchange in which such shares or securities are registered. All other matters on which holders of Series L Shares or Series D Shares are entitled to vote must be considered at an extraordinary general meeting. Holders of Series L Shares and Series D Shares are not entitled to attend or to address meetings of stockholders at which they are not entitled to vote. Under Mexican law, holders of Series L Shares and Series D Shares are entitled to exercise certain minority protections. See Other Provisions Appraisal Rights and Other Minority Protections .

Other Rights of Stockholders. Under Mexican law, holders of shares of any series are also entitled to vote as a class in a special meeting governed by the same rules that apply to extraordinary general meetings, as described

below, on any action that would prejudice the rights of holders of shares of such series, but not rights of holders of shares of other series, and a holder of shares of such series would be entitled to judicial relief against any such action taken without such a vote. Generally, the determination of whether a particular stockholder action requires a class vote on these grounds could initially be made by the Board of Directors or other party calling for stockholder action. In some cases, under the Mexican Securities Market Law and the Mexican Companies Law, the Board of Directors, the Audit Committee, the Corporate Practices Committee, or a Mexican court on behalf of those stockholders representing 10% of our capital stock could call a special meeting. A negative determination would be subject to judicial challenge by an affected stockholder, and the necessity for a class vote would ultimately be determined by a court. There are no other procedures for determining whether a particular proposed stockholder action requires a class vote, and Mexican law does not provide extensive guidance on the criteria to be applied in making such a determination.

General stockholders' meetings may be ordinary general meetings or extraordinary general meetings. Extraordinary general meetings are those called to consider specific matters specified in Article 182 of the Mexican Companies Law and our bylaws, including, among others, amendments to our bylaws, our dissolution, liquidation or split-up, our merger and transformation from one form of company to another, increases and reductions in our capital stock, the approval of certain acquisitions of shares, including a change of control, as set forth in the antitakeover provisions in our bylaws and any action for civil liabilities against the members of our Board of Directors, its Secretary, or members of our Audit and Corporate Practices Committee. In addition, our bylaws require an extraordinary general meeting to consider the cancellation of registration of the Series D Shares or Series L Shares or the securities representing these Shares with the NRS, as the case may be, and in the case of Series D Shares, with any other Mexican or foreign stock exchange in which such Shares or securities are registered. General meetings called to consider all other matters are ordinary meetings which are held at least once each year within four months following the end of each fiscal year. Stockholders may be represented at any stockholders' meeting by completing a form of proxy provided by us, which proxy is available within fifteen days prior to such meeting, and designating a representative to vote on their behalf. The form of proxy must comply with certain content requirements as set forth in the Mexican Securities Market Law and in our bylaws.

Holders of CPOs. Holders of CPOs who are Mexican nationals or Mexican corporations whose bylaws exclude foreign ownership of their shares are entitled to exercise voting rights with respect to the Series A Shares, Series B Shares, Series D Shares and Series L Shares underlying their CPOs. The CPO Trustee will vote such shares as directed by Mexican holders of CPOs, which must provide evidence of Mexican nationality. Non-Mexican holders of CPOs may only vote the Series L Shares held in the CPO Trust and are not entitled to exercise any voting rights with respect to the Series A Shares, Series B Shares and Series D Shares held in the CPO Trust. Voting rights in respect of these Series A Shares, Series B Shares and Series D Shares may only be exercised by the CPO Trustee. Series A Shares, Series B Shares and Series D Shares underlying the CPOs of non-Mexican holders or holders that do not give timely instructions as to voting of such Shares, (a) will be voted at special meetings of Series A Shares, Series B Shares or Series D Shares, as the case may be, as instructed by the CPO Trust's Technical Committee (which consists of members of the Board of Directors and/or Executive Committee, who must be Mexican nationals), and (b) will be voted at any general meeting where such series has the right to vote in the same manner as the majority of the outstanding Series A Shares held by Mexican nationals or Mexican corporations (directly, or through the CPO Trust, as the case may be) are voted at the relevant meeting. Series L Shares underlying the CPOs of any holders that do not give timely instructions as to the voting of such Shares will be voted, at special meetings of Series L Shares and at general extraordinary meetings where Series L Shares have voting rights, as instructed by the Technical Committee of the CPO Trust. The CPO Trustee must receive voting instructions five business days prior to the stockholders meeting. Holders of CPOs that are Mexican nationals or Mexican corporations whose bylaws exclude foreign ownership of their Shares also must provide evidence of nationality, such as a copy of a valid Mexican passport or birth certificate, for individuals, or a copy of the bylaws, for corporations.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

As described in Major Stockholders and Related Party Transactions, Series A Shares held through the Azcárraga Trust constitute a majority of the Series A Shares whose holders are entitled to vote them, because non-Mexican holders of CPOs and GDSs are not permitted to vote the underlying Series A Shares. Accordingly, the vote of Series A Shares held through the Azcárraga Trust generally will determine how the Series A Shares underlying our CPOs are voted.

Holder of GDRs. Global Depositary Receipts, or GDRs, evidencing GDSs are issued by The Bank of New York Mellon, the Depositary, pursuant to the Deposit Agreement we entered into with the Depositary and all holders from time to time of GDSs. Each GDR evidences a specified number of GDSs. A GDR may represent any number of GDSs. Only persons in whose names GDRs are registered on the books of the Depositary will be treated by us and the Depositary as owners and holders of GDRs. Each GDS represents the right to receive five CPOs which will be credited to the account of Banco Inbursa, S.A., the Custodian, maintained with Indeval for such purpose. Each CPO represents financial interests in, and limited voting rights with respect to, 25 Series A Shares, 22 Series B Shares, 35 Series L Shares and 35 Series D Shares held pursuant to the CPO Trust.

The Depositary will mail information on stockholders meetings to all holders of GDRs. At least six business days prior to the relevant stockholders meeting, GDR holders may instruct the Depositary as to the exercise of the voting rights, if any, pertaining to the CPOs represented by their GDSs, and the underlying Shares. Since the CPO Trustee must also receive voting instructions five business days prior to the stockholders meeting, the Depositary may be unable to vote the CPOs and underlying Shares in accordance with any written instructions. Holders that are Mexican nationals or Mexican corporations whose bylaws exclude foreign ownership of their Shares are entitled to exercise voting rights with respect to the Series A Shares, Series B Shares, Series D Shares and Series L Shares underlying the CPOs represented by the GDSs. Such Mexican holders also must provide evidence of nationality, such as a copy of a valid Mexican passport or birth certificate, for individuals, or a copy of the bylaws, for corporations.

Non-Mexican holders may exercise voting rights only with respect to Series L Shares underlying the CPOs represented by their GDSs. They may not direct the CPO Trustee as to how to vote the Series A Shares, Series B Shares or Series D Shares represented by CPOs or attend stockholders meetings. Under the terms of the CPO Trust Agreement, the CPO Trustee will vote the Series A Shares, Series B Shares, Series D Shares and Series L Shares represented by CPOs held by non-Mexican holders (including holders of GDRs) as described under *Holder of CPOs*. If the Depositary does not timely receive instructions from a Mexican or Non-Mexican holder of GDRs as to the exercise of voting rights relating to the Series A Shares, Series B Shares, Series D Shares or Series L Shares underlying the CPOs, as the case may be, in the relevant stockholders meeting then, if requested in writing by us, the Depositary will give a discretionary proxy to a person designated by us to vote the Shares. If no such written request is made by us, the Depositary will not represent or vote, attempt to represent or vote any right that attaches to, or instruct the CPO Trustee to represent or vote, the Shares underlying the CPOs in the relevant stockholders meeting and, as a result, the underlying shares will be voted in the same manner described under *Holder of CPOs* with respect to shares for which timely instructions as to voting are not given.

If the Depositary does not timely receive instructions from a Mexican or non-Mexican holder of GDRs as to the exercise of voting rights relating to the underlying CPOs in the relevant CPO holders meeting, the Depositary and the Custodian will take such actions as are necessary to cause such CPOs to be counted for purposes of satisfying applicable quorum requirements and, unless we in our sole discretion have given prior written notice to the Depositary and the Custodian to the contrary, vote them in the same manner as the majority of the CPOs are voted at the relevant CPOs holders meeting.

Under the terms of the CPO Trust, beginning in December 2008, a non-Mexican holder of CPOs or GDSs may instruct the CPO Trustee to request that we issue and deliver certificates representing each of the Shares underlying its CPOs so that the CPO Trustee may sell, to a third party entitled to hold the Shares, all of those Shares and deliver to the holder any proceeds derived from the sale.

Limitation on Appointment of Directors. Our bylaws prohibit the appointment of individuals to our Board of Directors: who (i) are members of the board of directors or other management boards of a company (other than the Company or its

subsidiaries) that has one or more concessions to operate telecommunication networks in Mexico; or (ii) directly or indirectly, are shareholders or partners of companies (other than the Company or its subsidiaries), that have one or more concessions to operate telecommunication networks in Mexico, with the exception of ownership stakes that do not allow such individuals to appoint one or more members of the management board or any other operation or decision making board.

Dividend Rights

At our annual ordinary general stockholders meeting, our Board of Directors is required to submit our financial statements from the previous fiscal year to the holders of our Series A Shares and Series B Shares. Once our stockholders approve these financial statements, they must then allocate our net profits for the previous fiscal year. Under Mexican law, at least 5% of our net profits must be allocated to a legal reserve, until the amount of this reserve equals 20% of our paid-in capital stock. Thereafter, our stockholders may allocate our net profits to any special reserve, including a reserve for share repurchases. After this allocation, the remainder of our net profits will be available for distribution as dividends. The vote of the majority of the Series A Shares and Series B Shares is necessary to approve dividend payments. As described below, in the event that dividends are declared, holders of Series D Shares will have preferential rights to dividends as compared to holders of Series A Shares, Series B Shares and Series L Shares. Holders of Series A Shares, Series B Shares and Series L Shares have the same financial or economic rights, including the participation in any of our profits.

Preferential Rights of Series D Shares

Holders of Series D Shares are entitled to receive a preferred annual dividend in the amount of Ps.0.00034412306528 per Series D Share before any dividends are payable in respect of Series A Shares, Series B Shares and Series L Shares. If we pay any dividends in addition to the Series D Share fixed preferred dividend, then such dividends shall be allocated as follows:

- first, to the payment of dividends with respect to the Series A Shares, the Series B Shares and the Series L Shares, in an equal amount per share, up to the amount of the Series D Share fixed preferred dividend; and
- second, to the payment of dividends with respect to the Series A Shares, Series B Shares, Series D Shares and Series L Shares, such that the dividend per share is equal.

Upon any dissolution or liquidation of our company, holders of Series D Shares are entitled to a liquidation preference equal to:

- accrued but unpaid dividends in respect of their Series D Shares; plus
- the theoretical value of their Series D Shares as set forth in our bylaws. See Other Provisions Dissolution or Liquidation .

Limitation on Capital Increases

Our bylaws provide that, in the event shares of a given series are issued as a result of a capital increase (in respect of a cash capital contribution), each holder of shares of that series will have a preferential right to subscribe to new shares of that series, in proportion to the number of such holder s existing Shares of that series. In addition, primary issuances of Series A Shares, Series B Shares, Series D Shares and Series L Shares in the form of CPOs may be limited under the Mexican Securities Market Law. As a result of grandfathering provisions, our existing CPO structure will not be affected by such limitations. However, in the case of primary issuances of additional Series A Shares, Series B Shares, Series L Shares and Series D Shares in the form of CPOs, any new Series L Shares and Series D Shares may be required to be converted into Series A Shares or other voting stock within a term specified by the CNBV, which in no event shall exceed five years. Moreover, under the Mexican Securities Market Law, the aggregate amount of shares of an issuer with limited or non-voting rights may not exceed 25% of the total shares held by public investors. The vote of the holders of a majority of the Series A Shares is necessary to approve capital increases.

Preemptive Rights

In the event of a capital increase, a holder of existing shares of a given series has a preferential right to subscribe to a sufficient number of shares of the same series in order to maintain the holder s existing proportionate holdings of shares of that series. Stockholders must exercise their preemptive rights within the time period fixed by our stockholders at the meeting approving the issuance of additional shares. This period must continue for at least fifteen days following the publication of notice of the issuance in the Official Gazette of the Federation and in a newspaper of general circulation in Mexico City. Under Mexican law, stockholders cannot waive their preemptive rights in advance or be represented by an instrument that is negotiable separately from the corresponding share.

Table of Contents

U.S. holders of GDSs may exercise preemptive rights only if we register any newly issued shares under the Securities Act, as amended, or qualify for an exemption from registration. We intend to evaluate at the time of any offering of preemptive rights the costs and potential liabilities associated with registering additional shares. In addition, if our stockholders' meeting approves the issuance of shares of a particular series, holders of shares of other series may be offered shares of that particular series.

Limitations on Share Ownership

Through our bylaws and the trust governing the CPOs, we have limited the ownership of our Series A Shares and Series B Shares to Mexican individuals, Mexican companies whose charters contain a foreign exclusion clause, credit institutions acting as trustees (such as the CPO Trustee) in accordance with the Foreign Investment Law and the Foreign Investment Law Regulations, and trusts or stock purchase, investment and retirement plans for Mexican employees. A holder that acquires Series A Shares or Series B Shares in violation of the restrictions in our bylaws regarding non-Mexican ownership will have none of the rights of a stockholder with respect to those Series A Shares or Series B Shares. The Series D Shares are subject to the same restrictions on ownership as the Series A Shares and Series B Shares. However, the foregoing limitations do not affect the ability of non-Mexican investors to hold Series A Shares, Series B Shares, Series D Shares and Series L Shares through CPOs, or Series L Shares directly. The sum of the total outstanding number of Series A Shares and Series B Shares is required to exceed at all times the sum of the total outstanding Series L Shares and Series D Shares.

Non-Mexican states and governments are prohibited under our bylaws and the LFTR from owning Shares of Televisa and are, therefore, prohibited from being the beneficial or record owners of Series A Shares, Series B Shares, Series D Shares, Series L Shares, CPOs and GDSs. We have been advised by our Mexican counsel, Mijares, Angoitia, Cortés y Fuentes, S.C., that ownership of Series A Shares, Series B Shares, Series D Shares, Series L Shares, CPOs and GDSs by pension or retirement funds organized for the benefit of employees of non-Mexican state, municipal or other governmental agencies will not be considered as ownership by non-Mexican states or governments for the purpose of our bylaws or the LFTR.

The LFTR eliminated the restrictions on foreign investment in telecommunications services and satellite communication and increased the maximum permitted foreign-ownership in broadcasting (television and radio) to 49%.

We may restrict transfers or, to the extent permitted under applicable law, cause the mandatory sale or disposition of CPOs and GDRs where such transfer or ownership, as the case may be, might result in ownership of CPOs or GDRs exceeding the limits under applicable law or our bylaws, the CPO Trust Agreement or the CPO indenture. Non-Mexican states and governments are prohibited under our bylaws and the LFTR from owning our Shares and are, therefore, prohibited from being beneficial or record owners of GDRs.

Other Provisions

Forfeiture of Shares. As required by Mexican law, our bylaws provide that for Series L Shares and CPOs, our non-Mexican stockholders formally agree with the Foreign Affairs Ministry:

- to be considered as Mexicans with respect to the Series L Shares and CPOs that they acquire or hold, as well as to the property, rights, concessions, participations or interests owned by us or to the rights and obligations derived from any agreements we have with the Mexican government; and
- not to invoke the protection of their own governments with respect to their ownership of Series L Shares and CPOs.

Failure to comply is subject to a penalty of forfeiture of such a stockholder's capital interests in favor of Mexico. In the opinion of Mijares, Angoitia, Cortés y Fuentes, S.C., our Mexican counsel, under this provision a non-Mexican stockholder is deemed to have agreed not to invoke the protection of its own government by asking such government to interpose a diplomatic claim against the Mexican government with respect to the stockholder's rights as a stockholder, but is not deemed to have waived any other rights it may have, including any rights under the U.S. securities laws, with respect to its investment in Televisa. If the stockholder should invoke governmental protection in violation of this agreement, its shares could be forfeited to the Mexican government.

Table of Contents

Exclusive Jurisdiction. Our bylaws provide that legal action relating to the execution, interpretation or performance of the bylaws shall be brought only in federal courts located in Mexico City.

Duration. Our corporate existence under our bylaws continues until 2106.

Dissolution or Liquidation. Upon any dissolution or liquidation of our company, our stockholders will appoint one or more liquidators at an extraordinary general stockholders' meeting to wind up our affairs. The approval of holders of the majority of the Series A Shares is necessary to appoint or remove any liquidator. Upon a dissolution or liquidation, holders of Series D Shares will be entitled to both accrued but unpaid dividends in respect of their Series D Shares, plus the theoretical value of their Series D Shares (as set forth in our bylaws). The theoretical value of our Series D Shares is Ps.0.00688246130560 per share. Thereafter, a payment per share will be made to each of the holders of Series A Shares, Series B Shares and Series L Shares equivalent to the payment received by each of the holders of Series D Shares. The remainder will be distributed equally among all stockholders in proportion to their number of Shares and amount paid.

Redemption. Our bylaws provide that we may redeem our Shares with distributable profits without reducing our capital stock by way of a stockholder resolution at an extraordinary stockholders' meeting. In accordance with Mexican law and our bylaws:

- any redemption shall be made on a pro-rata basis among all of our stockholders;
- to the extent that a redemption is effected through a public tender offer on the Mexican Stock Exchange, the stockholders' resolution approving the redemption may empower our Board to specify the number of shares to be redeemed and appoint the related intermediary or purchase agent; and
- any redeemed shares must be cancelled.

Share Repurchases. As provided by Mexican law, our bylaws allow us to repurchase our Shares on the Mexican Stock Exchange at then prevailing market prices. The amount of capital stock allocated to share repurchases and the amount of the corresponding reserve created for this purpose is determined annually by our stockholders at an ordinary general stockholders' meeting. The aggregate amount of resources allocated to share repurchases in any given year cannot exceed the total amount of our net profits in any given year, including retained earnings. Share repurchases must be charged to either our net worth if the repurchased Shares remain in our possession or our capital stock if the

repurchased Shares are converted into treasury shares, in which case our capital stock is reduced automatically in an amount equal to the theoretical value of any repurchased Shares, if any. Any surplus is charged to the reserve for share repurchases. If the purchase price of the Shares is less than the theoretical value of the repurchased Shares, our capital stock account will be affected by an amount equal to the theoretical value of the repurchased Shares. Under Mexican law, we are not required to create a special reserve for the repurchase of shares, nor do we need the approval of our Board to effect share repurchases. In addition, any repurchased Shares cannot be represented at any stockholders meeting.

Conflicts of Interest. Under Mexican Law, any stockholder that votes on a transaction in which his, her or its interests conflict with our interests may be liable for damages, but only if the transaction would not have been approved without his, her or its vote. In addition, any member of the Board of Directors that votes on a transaction in which his, her or its interests conflict with our interests may be liable for damages. The Securities Market Law also imposes a duty of care and a duty of loyalty on directors as described in *Directors, Senior Management and Employees Our Board of Directors Duty of Care and Duty of Loyalty* . In addition, pursuant to the Mexican Securities Market Law, the Board of Directors, with input from the Audit and Corporate Practices Committee, must review and approve transactions and arrangements with related parties. See *Directors, Senior Management and Employees Our Board of Directors Meetings; Actions Requiring Board Approval* .

Appraisal Rights and Other Minority Protections. Whenever our stockholders approve a change in our corporate purpose or jurisdiction of organization or our transformation from one type of company to another, any stockholder entitled to vote that did not vote in favor of these matters has the right to receive payment for its Series A Shares, Series B Shares, Series D Shares or Series L Shares in an amount calculated in accordance with Mexican law. However, stockholders must exercise their appraisal rights within fifteen days after the stockholders meeting at which the matter was approved. Because the holders of Series L Shares and Series D Shares may

Table of Contents

only vote in limited circumstances, appraisal rights are generally not available to them. See [Voting Rights and Stockholders Meetings](#) .

Because the CPO Trustee must vote at a general stockholders meeting, the Series A Shares, Series B Shares and Series D Shares held by non-Mexicans through the CPO Trust will be voted in the same manner as the majority of the Series A Shares held by Mexican nationals (directly, or through the CPO Trust, as the case may be). As a result, the Series A Shares, Series B Shares and Series D Shares underlying CPOs held by non-Mexicans will not be voted against any change that triggers the appraisal rights of the holders of these Shares. Therefore, these appraisal rights will not be available to holders of CPOs (or GDRs) with respect to Series A Shares, Series B Shares or Series D Shares. The CPO Trustee will exercise such other corporate rights at special stockholders meetings with respect to the underlying Series A Shares, Series B Shares and Series D Shares as may be directed by the Technical Committee of the CPO Trust.

The Mexican Securities Market Law and our bylaws include provisions that permit:

- holders of at least 10% of our outstanding capital stock to request our Chairman of the Board or of the Audit and Corporate Practices Committee to call a stockholders meeting in which they are entitled to vote;
- subject to the satisfaction of certain requirements under Mexican law, holders of at least 5% of our outstanding capital stock to bring an action for civil liabilities against our directors;
- holders of at least 10% of our Shares that are entitled to vote and are represented at a stockholders meeting to request postponement of resolutions with respect to any matter on which they were not sufficiently informed; and
- subject to the satisfaction of certain requirements under Mexican law, holders of at least 20% of our outstanding capital stock to contest and suspend any stockholder resolution.

See [Key Information Risk Factors Risk Factors Related to Our Securities The Protections Afforded to Minority Stockholders in Mexico Are Different From Those in the U.S.](#) . In addition, in accordance with the Mexican Securities Market Law, we are also subject to certain corporate governance requirements, including the requirement to maintain an audit committee and a corporate practices committee, and to elect independent directors. The protections afforded to minority stockholders under Mexican law are generally different from those in the U.S. and many other jurisdictions. Substantive Mexican law concerning fiduciary duties of directors has not been the subject of extensive judicial interpretation in Mexico, unlike many states in the U.S. where duties of care and loyalty elaborated by judicial decisions help to shape the rights of minority stockholders. Furthermore, despite the fact that recent amendments to the Mexican Federal Code of Civil Procedures have provided for certain types of class actions, these actions are limited to subject matters related to the use of goods or the provision of public or private services, as well as environmental matters. Therefore, Mexican civil procedure does not contemplate class actions or stockholder derivative actions, which permit stockholders in U.S. courts to bring actions on behalf of other stockholders or to enforce rights of the corporation itself. Stockholders in Mexico also cannot challenge corporate actions taken at stockholders meetings unless they meet stringent procedural requirements. See [Voting Rights and Stockholders Meetings](#) . As a result of these factors, it is generally more difficult for our minority stockholders to enforce rights against us or our directors or Major Stockholders than it is for stockholders of a corporation established under the laws of a state of the U.S. In addition, under U.S. securities laws, as a foreign private issuer we are exempt from certain rules that apply to

domestic U.S. issuers with equity securities registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, including the proxy solicitation rules. We are also exempt from many of the corporate governance requirements of the New York Stock Exchange.

Antitakeover Protections

General. Our bylaws provide that, subject to certain exceptions, (i) any person, entity or group of persons and/or entities that intends to acquire beneficial ownership of ordinary Shares (as defined below) which, when coupled with ordinary Shares previously beneficially owned by such persons or their affiliates, represent 10% or more of our outstanding ordinary Shares, (ii) any competitor, or group including one or more competitors, that intends to acquire beneficial ownership of ordinary Shares which, when coupled with Shares previously beneficially owned by such competitor, group or their affiliates, represent 5% or more of our outstanding capital stock, (iii) any person, entity or group of persons and/or entities that wishes to acquire beneficial ownership of ordinary Shares representing 10% or more of our outstanding ordinary Shares, and (iv) any competitor, or group including one or

Table of Contents

more competitors, that intends to acquire beneficial ownership of ordinary Shares representing 5% or more of our capital stock, must obtain the prior approval of our Board of Directors and/or of our stockholders, as the case may be, subject to certain exceptions summarized below.

Holders that acquire Shares in violation of these requirements will not be registered in our stock registry. Accordingly, these holders will not be able to vote such Shares or receive any dividends, distributions or other rights in respect of these Shares. In addition, pursuant to our bylaws, these holders will be obligated to pay us a penalty in an amount equal to the market value of the Shares so acquired. Pursuant to our bylaws,

Shares are defined as the shares (of any class or series) representing our capital stock, and any instruments or securities that represent such shares or that grant any right with respect to or are convertible into those shares, expressly including CPOs; our Series A Shares and Series B Shares are our ordinary Shares.

Pursuant to our bylaws, a competitor is generally defined as any person or entity dedicated, directly or indirectly, to any of the following businesses or activities: television production and broadcasting, pay-TV production, program licensing, direct-to-home satellite services, publishing (newspaper and/or magazine), publishing distribution, music recording, cable television, the transmission of programming and/or other content by any other means known or to be known, radio broadcasting and production, the promotion of professional sports and other entertainment events, paging services, production, feature film/motion picture production and distribution, dubbing and/or the operation of an Internet portal. A competitor is also defined to include any person, entity and/or group that is engaged in any type of business or activity in which we may be engaged from time to time and from which we derive 5% or more of our consolidated income.

Board Notices, Meetings, Quorum Requirements and Approvals. To obtain the prior approval of our Board, a potential acquiror must properly deliver a written notice that states, among other things: (i) the number and class/type of our Shares it beneficially owns, (ii) the percentage of Shares it beneficially owns with respect to both our outstanding capital stock and the respective class/type of our Shares, (iii) the number and class/type of Shares it intends to acquire, (iv) the number and class/type of Shares it intends to grant or share a common interest or right, (v) its identity, or in the case of an acquiror which is a corporation, trust or legal entity, its stockholders or beneficiaries as well as the identity and nationality of each person effectively controlling such corporation, trust or legal entity, (vi) its ability to acquire our Shares in accordance with our bylaws and Mexican law, (vii) its source of financing the intended acquisition, (viii) if it has obtained any financing from one of its related parties for the payment of the Shares, (ix) the purpose of the intended acquisition, (x) if it intends to acquire additional common Shares in the future, which coupled with the current intended acquisition of common Shares and the common Shares previously beneficially owned by the potential acquiror, would result in ownership of 20% or more of our common Shares, (xi) if it intends to acquire control of us in the future, (xii) if the acquiror is our competitor or if it has any direct or indirect economic interest in or family relationship with one of our competitors and (xiii) the identity of the financial institution, if any, that will act as the underwriter or broker in connection with any tender offer.

Either the Chairman, the Secretary or the Alternate Secretary of our Board of Directors must call a Board meeting within 10 calendar days following the receipt of the written notice and the Board meeting must be held within 45 calendar days following the call. Action by written consent is not permitted. With the exception of acquisitions that must be approved by the general extraordinary stockholders meeting as described below in Stockholder Notices, Meetings, Quorum Requirements and Approvals, in order to proceed with any acquisition of Shares that require Board authorization as set forth in our bylaws, such acquisition must be approved by at least the majority of the members of our Board present at a meeting at which at least 75% of the members of our Board are present. Such acquisitions must be acted upon by our Board within 60 calendar days following the receipt of the written notice described above, unless the Board determines that it does not have sufficient information upon which to base its decision. In such case, the Board shall deliver a written request to the potential acquiror for any additional information that it deems necessary to make its determination. The 60 calendar days referred to above will commence following the receipt of the additional information from the potential acquiror to render its decision.

Stockholder Notices, Meetings, Quorum Requirements and Approvals. In the event (i) of a proposed acquisition of Shares that would result in a change of control, (ii) that our Board cannot hold a Board meeting for any reason, (iii) of a proposed acquisition by a competitor and having certain characteristics, or (iv) that the Board determines that the proposed acquisition must be approved by our stockholders at a general extraordinary stockholders meeting, among others, then the proposed acquisition must be approved by the holders of at least 75% of our outstanding common Shares at a general extraordinary stockholders meeting (both in the case of first and subsequent calls) at which the holders of at least 85% of our outstanding common Shares are present. In addition,

Table of Contents

any proposed merger, spin-off, or capital increase or decrease which results in a change of control must also be approved by the holders of at least 75% of our outstanding common Shares at a general extraordinary stockholders meeting (both in the case of first and subsequent calls) at which the holders of at least 85% of our outstanding common Shares are present. Pursuant to our bylaws, a change of control is defined as the occurrence of any of the following: (i) the acquisition or transfer of ownership of a majority of our outstanding common Shares, (ii) the ability of a person, entity or group, other than the person who currently has the ability to, directly or indirectly, elect a majority of the members of our Board of Directors, to elect a majority of the members of our Board of Directors or (iii) the ability of a person, entity or group, other than the person who currently has the ability to, directly or indirectly, determine our administrative decisions or policies, to determine our administrative decisions or policies. In the event that the general extraordinary stockholders meeting must approve the proposed acquisition, either the Chairman, the Secretary or the Alternate Secretary of our Board of Directors must publish a call for a general extraordinary stockholders meeting in the Official Gazette of the Federation and two other newspapers of general circulation in Mexico City at least 30 calendar days prior to such meeting (both in the case of first and subsequent calls). Once the call for the general extraordinary stockholders meeting has been published, all information related to the agenda for the meeting must be available for review by the holders of common Shares at the offices of our Secretary.

Mandatory Tender Offers in the Case of Certain Acquisitions. If either our Board of Directors or our stockholders at a general extraordinary stockholders meeting, as the case may be, authorize an acquisition of common Shares which increases the acquiror's ownership to 20% or more, but not more than 50%, of our outstanding common Shares, without such acquisition resulting in a change of control, then the acquiror must effect its acquisition by way of a cash tender offer for a specified number of Shares equal to the greater of (x) the percentage of common Shares intended to be acquired or (y) 10% of our outstanding capital stock. In the event that our stockholders approve an acquisition that would result in a change of control, the acquiror must effect its acquisition by way of a cash tender offer for 100% of our total outstanding capital stock at a price which cannot be lower than the highest of the following: (i) the book value of the common Shares and CPOs as reported on the last quarterly income statement approved by the Board of Directors, (ii) the highest closing price of the common Shares, on any stock exchange during any of the three hundred-sixty-five (365) days preceding the date of the stockholders resolution approving the acquisition; or (iii) the highest price paid for any Shares, at any time by the acquiror. All tender offers must be made in Mexico and the U.S. within 60 days following the date on which the acquisition was approved by our Board of Directors or stockholders meeting, as the case may be. All holders must be paid the same price for their common Shares. The provisions of our bylaws summarized above regarding mandatory tender offers in the case of certain acquisitions are generally more stringent than those provided for under the Mexican Securities Market Law. In accordance with the Mexican Securities Market Law, bylaw provisions regarding mandatory tender offers in the case of certain acquisitions may differ from the requirements set forth in such law, provided that those provisions are more protective to minority stockholders than those afforded by law. In these cases, the relevant bylaw provisions, and not the relevant provisions of the Mexican Securities Market Law, will apply to certain acquisitions specified therein.

Exceptions. The provisions of our bylaws summarized above will not apply to (i) transfers of common Shares and/or CPOs by operation of the laws of inheritance, (ii) acquisitions of common Shares and/or CPOs by any person who, directly or indirectly, is entitled to appoint the greatest number of members to our Board of Directors, as well as by (A) entities controlled by such person, (B) affiliates of such person, (C) the estate of such person, (D) certain family members of such person, and (E) such person, when such person acquires any common Shares and/or CPOs from any entity, affiliate, person or family member referred to in (A), (B) and (D) above, and (iii) acquisitions or transfers of common Shares and/or CPOs by us, our subsidiaries or affiliates, or any trust created by us or any of our subsidiaries.

Amendments to the Antitakeover Provisions. Any amendments to these antitakeover provisions must be authorized by the CNBV and registered before the Public Registry of Commerce at our corporate domicile.

Enforceability of Civil Liabilities

We are organized under the laws of Mexico. Substantially all of our directors, executive officers and controlling persons reside outside of the U.S., all or a significant portion of the assets of our directors, executive officers and controlling persons, and substantially all of our assets, are located outside of the U.S. and some of the experts named in this annual report also reside outside of the U.S. As a result, it may not be possible for you to

Taxation

U.S. Taxes

General. The following is a summary of the anticipated material U.S. federal income tax consequences of the purchase, ownership and disposition of GDSs, CPOs and the Series A Shares, Series B Shares, Series L

Table of Contents

Shares and Series D Shares underlying the CPOs (referred to herein as the Underlying Shares), in each case, except as otherwise noted, by U.S. Holders (as defined below). This discussion does not address all aspects of U.S. federal income taxation that may be relevant to a particular beneficial owner of GDSs, CPOs or Underlying Shares based on the beneficial owner's particular circumstances. For example, with respect to U.S. Holders, the following discussion does not address the U.S. federal income tax consequences to a U.S. Holder:

- that owns, directly, indirectly or through attribution, 2% or more of the total voting power or value of our outstanding Underlying Shares (including through ownership of GDSs and CPOs);
- that is a dealer in securities, insurance company, financial institution, tax-exempt organization, U.S. expatriate, broker-dealer or trader in securities; or
- whose functional currency is not the U.S. Dollar.

Also, this discussion does not consider:

- the tax consequences to the stockholders, partners or beneficiaries of a U.S. Holder; or
- special tax rules that may apply to a U.S. Holder that holds GDSs, CPOs or Underlying Shares as part of a straddle, hedge, conversion transaction, synthetic security or other integrated investment.

In addition, the following discussion does not address any aspect of state, local or non-U.S. tax laws other than Mexican tax laws. Further, this discussion generally applies only to U.S. Holders that hold the CPOs, GDSs or Underlying Shares as capital assets within the meaning of Section 1221 of the U.S. Internal Revenue Code of 1986, as amended (referred to herein as the Code).

The discussion set forth below is based on the U.S. federal income tax laws as in force on the date of this annual report, including:

- the Code, applicable U.S. Treasury regulations and judicial and administrative interpretations, and
- the convention between the Government of the United States of America and the Government of the United Mexican States for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on

Income, including the applicable protocols, collectively referred to herein as the U.S.-Mexico Tax Treaty, and

- is subject to changes to those laws and the U.S.-Mexico Tax Treaty subsequent to the date of this annual report, which changes could be made on a retroactive basis, and

- is also based, in part, on the representations of the Depository with respect to the GDSs and on the assumption that each obligation in the Deposit Agreement relating to the GDSs and any related agreements will be performed in accordance with their terms.

As used in this section, the term U.S. Holder means a beneficial owner of CPOs, GDSs or Underlying Shares that is, for U.S. federal income tax purposes:

- a citizen or individual resident of the United States;

- a corporation (or entity treated as a corporation for such purposes) created or organized in or under the laws of the United States, or any State thereof or the District of Columbia;

- an estate the income of which is included in gross income for U.S. federal income tax purposes regardless of source; or

- a trust, if either (x) it is subject to the primary supervision of a court within the United States and one or more United States persons has the authority to control all substantial decisions of the trust or (y) it has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person .

If a partnership (or an entity or arrangement classified as a partnership for U.S. federal income tax purposes) holds CPOs, GDSs or Underlying Shares, the U.S. federal income tax treatment of a partner in the partnership generally will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Partnerships holding CPOs, GDSs or Underlying Shares, and partners in such partnerships, should consult their own tax advisors regarding the U.S. federal income tax consequences of purchasing, owning and disposing of CPOs, GDSs or Underlying Shares.

Table of Contents

An individual may be treated as a resident of the United States in any calendar year for U.S. federal income tax purposes by being present in the United States on at least 31 days in that calendar year and for an aggregate of at least 183 days during a three-year period ending at the close of that year. For purposes of this calculation, all of the days present in the current year, one-third of the days present in the immediately preceding year and one-sixth of the days present in the second preceding year would be counted. Residents are taxed for U.S. federal income purposes as if they were U.S. citizens.

The application of the U.S.-Mexico Tax Treaty to U.S. Holders is conditioned upon, among other things, the assumptions that the U.S. Holder:

- is not a resident of Mexico for purposes of the U.S.-Mexico Tax Treaty;
- is an individual who has a substantial presence (within the meaning of the U.S.-Mexico Tax Treaty) in the United States;
- is entitled to the benefits of the U.S.-Mexico Tax Treaty under the limitation on benefits provision contained in Article 17 of the U.S.-Mexico Tax Treaty; and
- does not have a fixed place of business or a permanent establishment in Mexico with which its ownership of CPOs, GDSs or Underlying Shares is effectively connected.

For U.S. federal income tax purposes, U.S. Holders of GDSs and CPOs will be treated as the beneficial owners of the Underlying Shares represented by the GDSs and CPOs.

Dividends. The U.S. Dollar value of any distribution paid by us, including the amount of any Mexican taxes withheld from such distribution, will be included in the gross income of a U.S. Holder as a dividend, treated as ordinary income, to the extent that the distribution is paid out of our current and/or accumulated earnings and profits, as determined under U.S. federal income tax principles. U.S. Holders will not be entitled to claim a dividends received deduction for dividends received from us. Distributions that are treated as dividends received from us by a non-corporate U.S. Holder who meets certain eligibility requirements will qualify for U.S. federal income taxation at a preferential rate of 20% (or lower) if we are a qualified foreign corporation. We generally will be a qualified foreign corporation if either (i) we are eligible for benefits under the U.S.-Mexico Tax Treaty or (ii) the Underlying Shares or GDSs are listed on an established securities market in the United States. As we are eligible for benefits under the U.S.-Mexico Tax Treaty and the GDSs are listed on the New York Stock Exchange, we presently are a qualified foreign corporation, and we generally expect to be a qualified foreign corporation in future taxable years, but no assurance can be given that a change in circumstances will not affect our treatment as a qualified foreign corporation in any future taxable years. A non-corporate U.S. Holder will not be eligible for the reduced rate (a) if the U.S.

Holder has not held the Underlying Shares, CPOs or GDSs for at least 61 days of the 121-day period beginning on the date which is 60 days before the ex-dividend date, (b) to the extent the U.S. Holder is under an obligation to make related payments on substantially similar or related property or (c) with respect to any portion of a dividend that is taken into account as investment income under Section 163(d)(4)(B) of the Code. Any days during which a U.S. Holder has diminished the U.S. Holder's risk of loss with respect to the Underlying Shares, CPOs or GDSs (for example, by holding an option to sell such Underlying Shares, CPOs or GDSs) are not counted towards meeting the 61-day holding period. Special rules apply in determining the foreign tax credit limitation with respect to dividends subject to U.S. federal income taxation at the reduced rate. U.S. Holders should consult their own tax advisors concerning whether dividends received by them qualify for the reduced rate. In addition, a 3.8% tax may apply to certain investment income recognized by a U.S. Holder. See Medicare Tax below.

To the extent, if any, that the amount of a distribution exceeds our current and/or accumulated earnings and profits, the distribution will first reduce the U.S. Holder's adjusted tax basis in its Underlying Shares, CPOs or GDSs and, to the extent the distribution exceeds the U.S. Holder's adjusted tax basis, it will be treated as gain from the sale of the U.S. Holder's Underlying Shares, CPOs or GDSs. We do not maintain calculations of our earnings and profits under U.S. federal income tax principles. Therefore, a U.S. Holder should expect that a distribution paid by us will be treated as a dividend, even if that distribution would otherwise be treated as reducing such U.S. Holder's adjusted tax basis in its Underlying Shares, CPOs or GDSs or as gain from the sale of the U.S. Holder's Underlying Shares, CPOs or GDSs under the rules described above.

Table of Contents

The U.S. Dollar value of any distributions paid in Pesos, including the amount of any Mexican taxes withheld, will be calculated by reference to the interbank exchange rate in effect on the date of receipt by the U.S. Holder or, with respect to the GDSs, The Bank of New York Mellon, in its capacity as Depositary, regardless of whether the payment is in fact converted into U.S. Dollars. U.S. Holders should consult their own tax advisors regarding the treatment of any foreign currency gain or loss on any distributions paid in Pesos that are not converted into U.S. Dollars on the day the Pesos are received. For U.S. foreign tax credit purposes, dividends distributed by us on CPOs, GDSs or Underlying Shares generally will constitute foreign source passive income or, in the case of some U.S. Holders, foreign source general category income.

In general, pro rata distributions of additional shares with respect to the Underlying Shares that are part of a pro rata distribution to all of our stockholders generally (including U.S. Holders of GDSs) will not be subject to U.S. federal income tax.

A beneficial owner of CPOs, GDSs or Underlying Shares that is not a U.S. Holder and is not a partnership (or an entity or arrangement classified as a partnership for U.S. federal income tax purposes) will not be subject to U.S. federal income or withholding tax on a dividend paid with respect to the CPOs, GDSs or the Underlying Shares, unless the dividend is effectively connected with the conduct by the beneficial owner of a trade or business in the United States.

Capital Gains. Gain or loss recognized by a U.S. Holder on a taxable sale or exchange of CPOs, GDSs or Underlying Shares will be subject to U.S. federal income taxation as capital gain or loss in an amount equal to the difference between the amount realized on the sale or exchange and the U.S. Holder's adjusted tax basis in the CPOs, GDSs or Underlying Shares. Such capital gain or loss generally will be long-term capital gain or loss if the CPOs, GDSs or Underlying Shares have been held for more than one year at the time of disposition. Long-term capital gain of non-corporate U.S. Holders, including individual U.S. Holders, is subject to U.S. federal income tax at preferential rates. In addition, a 3.8% tax may apply to certain investment income recognized by a U.S. Holder on a sale or exchange of CPOs, GDSs or Underlying Shares. See Medicare Tax below. The deductibility of capital losses is subject to significant limitations.

Such capital gains generally will be U.S. source income, unless the gains are subject to Mexican taxation, in which case such gains generally will be treated as arising in Mexico under the U.S.-Mexico Tax Treaty. If capital gains are subject to Mexican taxation under the U.S.-Mexico Tax Treaty, a U.S. Holder generally may elect to treat such gains as foreign source income for U.S. foreign tax credit limitation purposes. However, any such Mexican taxes may not be used to offset U.S. federal income tax on any other item of income, and foreign taxes on any other item of income cannot be used to offset U.S. federal income tax on such gains. U.S. Holders should consult their tax advisors.

Capital losses recognized on the sale or exchange of CPOs, GDSs or Underlying Shares generally will offset U.S. source income. Deposits and withdrawals of CPOs for GDSs and of Underlying Shares for CPOs by U.S. Holders will not be subject to U.S. federal income tax.

A beneficial owner of CPOs, GDSs or Underlying Shares that is not a U.S. Holder and is not a partnership (or an entity or arrangement classified as a partnership for U.S. federal income tax purposes) generally will not be subject to U.S. federal income tax on gain recognized on a sale or exchange of CPOs, GDSs or Underlying Shares unless:

- the gain is effectively connected with the beneficial owner's conduct of a trade or business in the United States; or
- the beneficial owner is an individual who holds CPOs, GDSs or Underlying Shares as a capital asset, is present in the United States for 183 days or more in the taxable year of the sale or exchange and meets other requirements.

Medicare Tax. A U.S. Holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will generally be subject to a 3.8% tax on the lesser of (i) the U.S. Holder's net investment income for a taxable year and (ii) the excess of the U.S. Holder's modified adjusted gross income for such taxable year over \$200,000 (\$250,000 in the case of joint filers). For these purposes, net investment income will generally include dividends paid with respect to CPOs, GDSs or Underlying Shares and net gain attributable to

Table of Contents

the disposition of CPOs, GDSs or Underlying Shares (in each case, unless such CPOs, GDSs or Underlying Shares are held in connection with certain trades or businesses), but will be reduced by any deductions properly allocable to such income or net gain.

U.S. Backup Withholding. A U.S. Holder may be subject to U.S. information reporting and U.S. backup withholding on dividends paid on Underlying Shares, and on proceeds from the sale or other disposition of CPOs, GDSs or Underlying Shares, unless the U.S. Holder:

- comes within an exempt category; or
- provides the applicable withholding agent with the U.S. Holder's taxpayer identification number, certifies as to no loss of exemption from backup withholding tax and otherwise complies with the applicable requirements of the backup withholding rules.

The amount of any backup withholding will be allowed as a credit against the U.S. Holder's U.S. federal income tax liability and may entitle such holder to a refund, provided, however, that certain required information is timely furnished to the U.S. Internal Revenue Service. A beneficial owner of CPOs, GDSs or Underlying Shares that is not a U.S. Holder may be required to comply with certification and identification procedures in order to establish its exemption from backup withholding.

Certain Reporting Requirements. U.S. Holders that are individuals (and to the extent specified in applicable U.S. Treasury regulations, certain U.S. Holders that are entities and certain individuals that are not U.S. Holders) and hold specified foreign financial assets (as defined in section 6038D of the Code) are required to file a report on IRS Form 8938 with information relating to such assets for each taxable year in which the aggregate value of all such assets exceeds \$75,000 at any time during the taxable year or \$50,000 on the last day of the taxable year (or such higher dollar amount as prescribed by applicable U.S. Treasury regulations). Specified foreign financial assets would include, among other assets, GDSs, CPOs and Underlying Shares that are not held through an account maintained with a U.S. financial institution (as defined). Substantial penalties apply to any failure to timely file IRS Form 8938, unless the failure is shown to be due to reasonable cause and not due to willful neglect. Additionally, in the event a U.S. Holder that is required to file IRS Form 8938 does not file such form, the statute of limitations on the assessment and collection of U.S. federal income taxes of such U.S. Holder for the related tax year may not close until three years after the date that the required information is filed. Beneficial owners of GDSs, CPOs or Underlying Shares should consult their own tax advisors regarding their reporting obligations with respect to specified foreign financial assets.

Federal Mexican Taxation

General. The following is a general summary of the main tax consequences under the Mexican Income Tax Law, Federal Tax Code and rules as currently in effect (the Mexican Tax Legislation), all of which are subject to change or interpretation, and under the U.S.-Mexico Tax Treaty, of the purchase, ownership and disposition of CPOs, GDSs or underlying Series A Shares, Series B Shares, Series D Shares and Series L Shares by a person that is not a resident of Mexico for tax purposes, as defined below.

U.S. Holders should consult with their own tax advisors as to their entitlement to benefits afforded by the U.S.-Mexico Tax Treaty. Mexico has also entered into and is negotiating with various countries regarding other tax treaties that may have an effect on the tax treatment of CPOs, GDSs or underlying Series A Shares, Series B Shares, Series D Shares and Series L Shares. Holders should consult with their tax advisors as to their entitlement to the benefits afforded by these treaties.

This discussion does not constitute, and shall not be considered as, legal or tax advice to holders.

According to the Mexican Tax Legislation:

- an individual is a Mexican tax resident if the individual has established his permanent home in Mexico. When an individual, in addition to his permanent home in Mexico, has a permanent home in another country, the individual will be a Mexican tax resident if his center of vital interests is located in Mexico. This will be deemed to occur if, among other circumstances, either (i) more than 50% of the total income obtained by the individual in the calendar year is Mexican source or (ii) when the individual's center of

Table of Contents

professional activities is located in Mexico. Mexican nationals who filed a change of tax residence to a country or jurisdiction that does not have a comprehensive exchange of information agreement with Mexico in which her/his income is subject to a preferred tax regime pursuant to the provisions of the Mexican Income Tax Law, will be considered Mexican residents for tax purposes during the year of filing of the notice of such residence change and during the following three years. Unless otherwise proven, a Mexican national is considered a Mexican tax resident;

- a legal entity is considered a Mexican tax resident if it maintains the main administration of its head office, business, or the effective location of its management in Mexico.
- a foreign person with a permanent establishment in Mexico will be required to pay taxes in Mexico in accordance with the Mexican Tax Legislation for income attributable to such permanent establishment; and
- a foreign person without a permanent establishment in Mexico will be required to pay taxes in Mexico in respect of revenues proceeding from sources of wealth located in national territory.

Dividends. Beginning in 2014, dividends, either in cash or in any other form, coming from our previously taxed net earnings account, or *cuenta de utilidad fiscal neta*, generated up to 2013 and paid with respect to the shares underlying the CPOs, including those CPOs represented by GDSs, will not be subject to Mexican withholding tax. On the other hand, the dividends coming from our previously taxed net earnings account generated during or after 2014 will be subject to a 10% Mexican withholding tax. We must first utilize the previously taxed net earnings account generated up to 2013 and when this account no longer has a balance, we must utilize the previously taxed net earnings account generated during or after 2014. The latter dividends will be subject to the 10% Mexican withholding tax.

However, under the U.S.-Mexico Tax Treaty, any U.S. Holder that is eligible to claim the benefits of the U.S.-Mexico Tax Treaty may be exempt from or subject to a lower withholding tax rate on dividends paid with respect to the shares underlying the CPOs, including those CPOs represented by GDSs. The U.S. Holder may be subject to a lower withholding tax rate (5%) under the U.S.-Mexico Tax Treaty if the U.S. Holder is a company that owns directly at least 10% of our voting outstanding shares.

On the other hand, the U.S. Holder may be exempt from withholding tax under the U.S.-Mexico Tax Treaty if the U.S. Holder is either (a) a company that has owned shares representing 80 percent or more of our voting outstanding shares for a 12-month period ending on the date the dividend is declared and that (1) prior to October 1, 1998 owned, directly or indirectly, shares representing 80 percent or more of our voting outstanding shares; or (2) is entitled to the benefits of the U.S.-Mexico Tax Treaty under clauses (i) or (ii) of subparagraph d) of paragraph 1 of Article 17 (Limitation on Benefits); or (3) is entitled to the benefits of the U.S.-Mexico Tax Treaty with respect to the dividends under subparagraph g) of paragraph 1 of Article 17; or (4) has received a determination from the relevant competent authority pursuant to paragraph 2 of Article 17; or (b) a trust, company, or other organization constituted and operated exclusively to administer or provide benefits under one or more plans established to provide pension, retirement or other employee benefits and its income is generally exempt from tax in the United States, provided that such dividends are not derived from the carrying on of a business, directly or indirectly, by such trust, company or organization.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Dividends paid to other Holders that are eligible to receive benefits pursuant to other income tax treaties to which Mexico is a party may be exempt from or subject to a lower withholding tax rate in whole or in part. Non-U.S. Holders should consult their own tax advisors as to their possible eligibility under such other income tax treaties. Appropriate tax residence certifications must be obtained by Holders eligible for tax treaty benefits.

When dividends are paid from our previously taxed net earnings account we will not be required to pay any Mexican corporate income tax on the dividends. During 2015, if dividends are not paid from our previously taxed net earnings account we will be required to pay a 30% Mexican corporate income tax (CIT) on the grossed-up dividends with the factor 1.4286.

Sales or Other Dispositions. Deposits and withdrawals of CPOs for GDSs and of underlying Series A Shares, Series B Shares, Series D Shares and Series L Shares for CPOs will not give rise to Mexican tax or transfer duties.

Table of Contents

Beginning on January 1, 2014, the gains on the sale or other disposition of CPOs, GDSs or underlying Series A Shares, Series B Shares, Series D Shares and Series L Shares will be subject to a 10% Mexican withholding tax if the sale is carried out through the Mexican Stock Exchange. This withholding tax will not apply if the Holder is a tax resident of a country that has in effect a Tax Treaty with Mexico, as is the case with the United States; in order to obtain this benefit the Holder must deliver to the withholding agent a letter stating, under oath, (i) that the Holder is resident for purposes of the specific Tax Treaty and (ii) the Holder's tax identification number.

Sales or other dispositions of CPOs, GDSs or underlying Series A Shares, Series B Shares, Series D Shares and Series L Shares made in other circumstances also would be subject to Mexican income tax. However, under the U.S.-Mexico Tax Treaty, any U.S. Holder that is eligible to claim the benefits of the U.S.-Mexico Tax Treaty may be exempt from Mexican tax on gains realized on a sale or other disposition of CPOs and shares underlying the CPOs in a transaction that is not carried out through the Mexican Stock Exchange. The U.S. Holder will be exempt under the U.S.-Mexico Tax Treaty if the U.S. Holder did not own directly or indirectly 25% or more of the our outstanding shares within the 12-month period preceding such sale or disposition. Gains realized by other Holders that are eligible to receive benefits pursuant to other income tax treaties to which Mexico is a party may be exempt from Mexican income tax in whole or in part. Non-U.S. Holders should consult their own tax advisors as to their possible eligibility under such other income tax treaties. Appropriate tax residence certifications must be obtained by Holders eligible for tax treaty benefits.

Other Mexican Taxes. There are no estate, gift, or succession taxes applicable to the ownership, transfer or disposition of CPOs, GDSs or underlying Series A Shares, Series B Shares, Series D Shares and Series L Shares. However, a gratuitous transfer of CPOs, GDSs or underlying Series A Shares, Series B Shares, Series D Shares and Series L Shares may, in some circumstances, result in the imposition of a Mexican federal tax upon the recipient. There are no Mexican stamp, issuer, registration or similar taxes or duties payable by holders of GDSs, CPOs, or underlying Series A Shares, Series B Shares, Series D Shares and Series L Shares.

We furnish The Bank of New York Mellon, the depositary for our GDSs, with annual reports in English. These reports contain audited consolidated financial statements that, starting with the annual report for year ended December 31, 2012, have been prepared in accordance with IFRS. The historical financial statements included in these reports have been examined and reported on, with an opinion expressed by, an independent registered public accounting firm. The depositary is required to mail our annual reports to all holders of record of our GDSs. The Deposit Agreement for the GDSs also requires us to furnish the depositary with English translations of all notices of stockholders' meetings and other reports and communications that we send to holders of our CPOs. The depositary is required to mail these notices, reports and communications to holders of record of our GDSs.

As a foreign private issuer, we are not required to furnish proxy statements to holders of our CPOs or GDSs in the United States.

Item 11. Quantitative and Qualitative Disclosures About Market Risk

Market Risk Disclosures

Market risk is the exposure to an adverse change in the value of financial instruments caused by market factors including changes in equity prices, interest rates, foreign currency exchange rates, commodity prices and inflation rates. The following information includes forward-looking statements that involve risks and uncertainties. Actual results could differ from those presented.

Risk Management. We are exposed to market risks arising from changes in equity prices, interest rates, foreign currency exchange rates and inflation rates, in both the Mexican and U.S. markets. Our risk management activities are monitored by our Risk Management Committee and reported to our Executive Committee.

We monitor our exposure to interest rate risk by: (i) evaluating differences between interest rates on our outstanding debt and short-term investments and market interest rates on similar financial instruments; (ii) reviewing our cash flow needs and financial ratios (indebtedness and interest coverage); (iii) assessing current and forecasted trends in the relevant markets; and (iv) evaluating peer group and industry practices. This approach allows us to establish the interest rate mix between variable and fixed rate debt.

Foreign currency exchange risk is monitored by assessing our net monetary liability position in U.S. Dollars and our forecasted cash flow needs for anticipated U.S. Dollar investments and servicing our U.S. Dollar-denominated debt. Equity price risk is assessed by evaluating the long-term value of our investment in both domestic and foreign affiliates, versus comparable investments in the marketplace. We classify our equity investments in affiliates, both domestic and foreign, as long-term assets.

In compliance with the procedures and controls established by our Risk Management Committee, in 2013, 2014 and 2015, we entered into certain derivative transactions with certain financial institutions in order to manage our exposure to market risks resulting from changes in interest rates, foreign currency exchange rates, and inflation rates. Our objective in managing foreign currency and inflation fluctuations is to reduce earnings and cash flow volatility. See Notes 2(v), 4 and 14 to our consolidated year-end financial statements.

Foreign Currency Exchange Rate Risk and Interest Rate Risk

During March 2011, in connection with the amortizable variable rate loan with HSBC due 2018, we entered into interest rate swap agreements on a notional amount of Ps.2,500.0 million. These agreements involve the exchange of interest payments based on a variable interest rate for amounts based on fixed rates. These agreements allowed us to fix the coupon payments for a period of seven years at an interest rate of 8.6075%. In March 2016, the variable rate bank loan was partially prepaid and this agreement was partially unwind in the equivalent

amount. As of this date, the interest rate swap agreements have a notional amount of Ps.1,250.0 million.

As of March 31, 2016, the net fair value of the interest rate swap was a (liability) asset of Ps. (60.8) million, Ps.(116.1) million as of December 31, 2015 and Ps.(175.0) million as of December 31, 2014. The potential loss in fair value for such instruments from a hypothetical 50 bps adverse change in market interest rates would be approximately Ps. 15.7 million as of March 31, 2016, Ps.19.0 million as of December 31, 2015 and Ps.31.3 million as of December 31, 2014. This sensitivity analysis assumes a downward parallel shift in the Mexican interest rate swaps yield curve.

During April 2014 and March 2015, in connection with the local bonds (*Certificados Bursátiles*) issued by Televisa due 2021, we entered into interest rate swap agreements on a notional amount of Ps.3,000.0 million and Ps.3,000.0 million, respectively. These agreements involve the exchange of interest payments based on a variable interest rate for amounts based on fixed rates. These agreements allowed us to fix the coupon payments for a period of seven years at an interest rate of 6.2851%.

As of March 31, 2016, the net fair value of the interest rate swap was a (liability) asset of Ps.(177.3) million, Ps.(99.6) million as of December 31, 2015 and Ps.(69.8) million as of December 31, 2014. The potential loss in fair value for such instruments from a hypothetical 50 bps adverse change in market interest rates would be approximately Ps.140.3 million as of March 31, 2016, Ps.144.8 million as of December 31, 2015 and Ps. 84.4 million as of December 31, 2014. This sensitivity analysis assumes a downward parallel shift in the Mexican interest rate swaps yield curve.

During June 2015 and the first quarter of 2016, in connection with the local bonds (*Certificados Bursátiles*) issued by Televisa due 2022, we entered into interest rate swap agreements on a notional amount of Ps.1,000.0 million and Ps.1,500 million, respectively. These agreements involve the exchange of interest payments based on a variable interest rate for amounts based on fixed rates. These agreements allowed us to fix the coupon payments for a period of seven years at an interest rate of 5.9648%.

As of March 31, 2016, the net fair value of the interest rate swap was a (liability) asset of Ps.(13.1) million and Ps.(3.3) million as of December 31, 2015. The potential loss in fair value for such instruments from a hypothetical 50 bps adverse change in market interest rates would be approximately Ps.68.0 million as of March 31, 2016 and Ps.27.9 million as of December 31, 2015. This sensitivity analysis assumes a downward parallel shift in the Mexican interest rate swaps yield curve.

In connection with Sky's variable rate bank loans guaranteed by Televisa, in December 2006, we entered into forward starting interest rate swap agreements on a notional amount of Ps.1,400.0 million. These agreements involve the exchange of amounts based on a variable interest rate for an amount based on fixed rates, without exchange of the notional amount upon which the payments are based. These agreements allowed us to fix the coupon payments for a period of seven years at an interest rate of 8.415% starting in April 2009. In June 2015, the variable rate bank loan was prepaid and this agreement was early terminated.

In connection with TVI's variable rate bank loan with Banorte due 2016, in January and April 2012 TVI entered into interest rate swap agreements on a notional amount of Ps.500.0 million and Ps.800.0 million, respectively. These agreements involve the exchange of interest payments based on a variable interest rate for amounts based on fixed rates. These agreements allowed us to fix the coupon payments for a period of four years at an interest rate of 6.9315%. In May 2015, the variable rate bank loan was prepaid but this agreement continued because a new variable rate bank loan with Banorte due 2022 was agreed and it covered the same exposure until February 2016. These interest rate swap agreements ended on February 2016. Finally, in August 2015 TVI entered into an interest rate swap agreement on a notional amount of Ps.250.0 million. This agreement also involved the exchange of interest payments based on a variable interest rate for amounts based on fixed rates. This agreement allowed us to fix the coupon payments for a period of seven years at an interest rate of 6.8850%.

The net fair value of the interest rate swap was a (liability) asset of Ps.(2.6) million as of March 31, 2016, Ps.(2.3) million as of December 31, 2015 and Ps.(10.1) million as of December 31, 2014. The potential loss in fair value for such instruments from a hypothetical 50 bps adverse change in market interest rates would be approximately Ps.5.0 million as of March 31, 2016, Ps.5.5 million as of December 31, 2015 and Ps.4.1 million as of December 31, 2014. This sensitivity analysis assumes a downward parallel shift in the Mexican interest rate swaps yield curve.

In connection with TVI's variable rate bank loans with HSBC due 2019, in the second semester of 2013 and in the second semester of 2014, TVI entered into interest rate swap agreements on notional amounts of Ps.500.0 million and Ps.300.0 million, respectively. These agreements involve the exchange of interest payments based on a variable interest rate for amounts based on fixed rates. These agreements allowed us to fix the coupon payments for a period of five years at an interest rate of 6.7015%.

The net fair value of the interest rate swap was a (liability) asset of Ps.(3.1) million as of March 31, 2016, Ps.(3.8) million as of December 31, 2015 and Ps.(0.3) million as of December 31, 2014. The potential loss in fair value for such instruments from a hypothetical 50 bps adverse change in market interest rates would be approximately Ps.8.8 million as of March 31, 2016, Ps.9.6 million as of December 31, 2015 and Ps.12.8 million as of December 31, 2014. This sensitivity analysis assumes a downward parallel shift in the Mexican interest rate swaps yield curve.

In connection with two of TVI's variable rate bank loans with Santander due 2019 and 2020, in the second semester of 2015 TVI entered into interest rate swap agreements on notional amounts of Ps.250.0 million each. These agreements involve the exchange of interest payments based on a variable interest rate for amounts based on fixed rates. These agreements allowed us to fix the coupon payments for a period of four and five years at an interest rate of 6.5475% and 6.73%, respectively.

Table of Contents

The net fair value of the interest rate swap was a (liability) asset of Ps.(3.7) million as of March 31, 2016 and Ps.(2.0) million as of December 31, 2015. The potential loss in fair value for such instruments from a hypothetical 50 bps adverse change in market interest rates would be approximately Ps.8.9 million as of March 31, 2016 and Ps.9.4 million as of December 31, 2015. This sensitivity analysis assumes a downward parallel shift in the Mexican interest rate swaps yield curve.

Sensitivity and Fair Value Analyses

The sensitivity analyses that follow are intended to present the hypothetical change in fair value or loss in earnings due to changes in interest rates, inflation rates, foreign currency exchange rates and debt and equity market prices as they affect our financial instruments at December 31, 2015 and 2014. These analyses address market risk only and do not present other risks that we face in the ordinary course of business, including country risk and credit risk. The hypothetical changes reflect our view of changes that are reasonably possible over a one-year period. For purposes of the following sensitivity analyses, we have made conservative assumptions of expected near-term future changes in U.S. interest rates, Mexican interest rates, inflation rates and Peso to U.S. Dollar exchange rates of 10%. The results of the analyses do not purport to represent actual changes in fair value or losses in earnings that we will incur.

(1) At December 31, 2015 and 2014, the Group's temporary investments consisted of highly liquid securities, including without limitation debt securities and equity instruments held for trading (primarily denominated in Mexican pesos and U.S. dollars). Given the short-term nature of these investments, an increase in U.S. and/or Mexican interest rates would not significantly decrease the fair value of these investments.

(2) Given the nature of these derivative instruments, an increase of 10% in the interest and/or exchange rates would not have a significant impact on the fair value of these financial instruments.

(3) The carrying value of debt is stated in this table at its principal amount.

(4) The fair value of the Senior Notes and Notes due by the Group are within Level 1 of the fair value hierarchy as there is a quoted market price for them. The fair value of the finance lease obligations are within Level 2 of the fair

value hierarchy and has been estimated based on cash flows discounted using an estimated weighted average cost of capital. The fair value of held-to-maturity securities are within Level 1 of the fair value hierarchy, and were based on market interest rates to the listed securities.

We are also subject to the risk of foreign currency exchange rate fluctuations, resulting from the net monetary position in U.S. Dollars of our Mexican operations, as follows:

	Year Ended December 31,	
	2015	2014
	(In millions of U.S. Dollars)	
U.S. Dollar-denominated monetary assets, primarily cash and cash equivalents, held-to-maturity investments, non-current investments and convertible debentures(1)	U.S.\$ 2,606.3	U.S.\$ 2,767.8

(2) In 2015 and 2014, include U.S. Dollar equivalent amounts of U.S.\$3.8 million and U.S.\$1.0 million, respectively, related to other foreign currencies, primarily Euros.

At December 31, 2015, a hypothetical 10% appreciation / depreciation in the U.S. Dollar to Peso exchange rate would result in a gain/loss in earnings of Ps.3,987.6 million. At December 31, 2014, a hypothetical 10%

appreciation/depreciation in the U.S. Dollar to Peso exchange rate would result in a gain /loss in earnings of Ps.1,704.2 million.

Item 12. Description of Securities Other than Equity Securities**Global Depository Shares**

The Bank of New York Mellon, the depository for the securities underlying our GDSs, collects its fees for delivery and surrender of GDSs directly from investors depositing shares or surrendering GDSs for the purpose of withdrawal or from intermediaries acting for them. The depository collects fees for making distributions to investors by deducting those fees from the amounts distributed or by selling a portion of distributable property to pay the fees. The depository may collect its annual fee for depository services by deductions from cash distributions or by directly billing investors or by charging the book-entry system accounts of participants acting for them. The depository may generally refuse to provide fee-attracting services until its fees for those services are paid.

The following table summarizes the fees and charges that a GDS holder may be required to pay, directly or indirectly, to the depository pursuant to the terms of the Deposit Agreement, which was filed with the SEC as an exhibit to our Registration Statement on Form F-6 filed on September 17, 2007:

Note that the actual amounts charged by the depositary may differ from those set out in the table above, but may not exceed these levels.

The Bank of New York Mellon, as depositary, pays us an agreed amount as reimbursement for certain expenses we incur related to our being a publicly-listed entity in the United States, including, but not limited to, internal and out-of-pocket investor relations expenses, corporate finance and accounting expenses, legal expenses, annual NYSE listing fees, Sarbanes-Oxley compliance, travel expenses related to presentations to rating agencies and investors, road show presentations, or any other similar or related expenses. There are limits on the amount of expenses for which the depositary will reimburse us, but the amount of reimbursement available to us is not necessarily tied to the amount of fees the depositary collects from investors. In 2015, we received a reimbursement of U.S.\$1.5 million.

Item 15. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on the evaluation as of December 31, 2015, the Chief Executive Officer and the Chief Financial Officer of the Company have concluded that the Company's disclosure controls and procedures (as defined in the Exchange Act Rules 13a-15(e) and 15d-15(e)) are effective to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and that such information is accumulated and communicated to management, including our Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

The Company's management, including our Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting and for the assessment of the effectiveness of internal control over financial reporting as defined in Rule 13a-15(f) of the Exchange Act.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2015. In making this

assessment, management used the criteria established in Internal Control – Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Based on this assessment, management has concluded that the Company’s internal control over financial reporting was effective as of December 31, 2015.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PricewaterhouseCoopers, S.C., an independent registered public accounting firm, has audited the effectiveness of the Company’s internal control over financial reporting as of December 31, 2015, as stated in their report which is included herein.

Changes in Internal Control Over Financial Reporting

There has been no change in the Company’s internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended) that occurred during the year ended December 31, 2015 that has materially affected, or is reasonably likely to materially affect, the Company’s internal controls over financial reporting.

Item 16.C. Principal Accountant Fees and Services

PricewaterhouseCoopers, S.C. acted as our independent registered public accounting firm for the fiscal years ended December 31, 2015 and 2014.

Table of Contents

The chart below sets forth the total amount billed by our independent registered public accounting firm for services performed in the years 2015 and 2014, and breaks down these amounts by category of service:

	2015		2014	
	(in millions of Pesos)			
Audit Fees	Ps.	98.3	Ps.	99.1
Audit-Related Fees		8.5		7.8
Tax Fees		8.8		7.0
Other Fees		4.5		1.6
Total	Ps.	120.1	Ps.	115.5

Audit Fees are the aggregate fees billed by our Independent Registered Public Accounting Firm for the audit of our consolidated annual financial statements, services related to regulatory financial filings with the SEC and attestation services that are provided in connection with statutory and regulatory filings or engagements.

Audit-Related Fees are fees charged by our Independent Registered Public Accounting Firm for assurance and related services that are reasonably related to the performance of the audit or review of our financial statements and are not reported under **Audit Fees**. This category comprises fees billed for independent accountant review of our interim financial statements in connection with the offering of our debt securities, advisory services associated with our financial reporting, and due diligence reviews in connection with potential acquisitions and business combinations.

Tax Fees are fees for professional services rendered by the Company's Independent Registered Public Accounting Firm for tax compliance in connection with our subsidiaries and interests in the United States, as well as tax advice on actual or contemplated transactions.

Other Fees are fees charged by our Independent Registered Public Accounting Firm in connection with services rendered other than audit, audit-related and tax services.

We have procedures for the review and pre-approval of any services performed by PricewaterhouseCoopers, S.C. The procedures require that all proposed engagements of PricewaterhouseCoopers, S.C. for audit and non-audit services are submitted to the audit committee for approval prior to the beginning of any such services.

Audit Committee Pre-approval Policies and Procedures

Our audit committee is responsible, among other things, for the appointment, compensation and oversight of our external auditors. To assure the independence of our Independent Registered Public Accounting Firm, our audit committee pre-approves annually a catalog of specific audit and non-audit services in the categories Audit Services, Audit-Related Services, Tax-Related Services, and Other Services that may be performed by our auditors, as well as the budgeted fee levels for each of these categories. All other permitted services must receive a specific approval from our audit committee. Our external auditor periodically provides a report to our audit committee in order for our audit committee to review the

services that our external auditor is providing, as well as the status and cost of those services.

During 2014 and 2015, none of the services provided to us by our external auditors were approved by our audit committee pursuant to the de minimis exception to the pre-approval requirement provided by paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

Item 16.G. Corporate Governance

As a foreign private issuer with shares listed on the NYSE, we are subject to different corporate governance requirements than a U.S. company under the NYSE listing standards. With certain exceptions, foreign private issuers are permitted to follow home country practice standards. Pursuant to Rule 303.A11 of the NYSE listed company manual, we are required to provide a summary of the significant ways in which our corporate governance practices differ from those required for U.S. companies under the NYSE listing standards.

We are a Mexican corporation with shares, in the form of CPOs listed on the *Bolsa Mexicana de Valores*, or Mexican Stock Exchange. Our corporate governance practices are governed by our bylaws, the Mexican Securities Market Law, and the regulations issued by the CNBV and the Mexican Stock Exchange. Although compliance is not mandatory, we also substantially comply with the Mexican Code of Best Corporate Practices (*Código de Mejores Prácticas Corporativas*), which was created in January 1999 by a group of Mexican business leaders and was endorsed by the CNBV. See [Additional Information - Bylaws](#) for a more detailed description of our corporate governance practices.

The table below sets forth a description of the significant differences between corporate governance practices required for U.S. companies under the NYSE listing standards and the Mexican corporate governance standards that govern our practices.

NYSE rules

Mexican rules

Listed companies must have a majority of independent directors.

The Mexican Securities Market Law requires that listed companies have at least 25% of independent directors. Our stockholder's meeting is required to assess the independence of the directors. The definition of independent under the Mexican Securities Market Law differs in some aspects from the one applicable to U.S. issuers under the NYSE standard and prohibits, among other relationships, an independent director from being an employee or officer of the company or a stockholder that may have influence over our officers, relevant clients and contractors, as well as certain relationships between the independent director and family members of the independent director. In addition, our bylaws broaden the definition of independent director. Our bylaws provide for an executive committee of our board of directors. The executive committee is currently composed of six members, and there are no applicable Mexican rules that require any of the members to be independent. The executive committee may generally exercise the powers of our board of directors, subject to certain exceptions. Our Chief Executive Officer is a member of our board of directors and the executive committee.

Listed companies must have a nominating/corporate governance committee composed entirely of independent directors.

Listed companies are required to have a corporate practices committee.

Listed companies must have a compensation committee composed entirely of independent directors.

The Mexican Code of Best Corporate Practices recommends listed companies to have a compensation committee. While these rules are not legally binding, companies failing to comply with the Mexican Code of Best Business Practices recommendation must disclose publicly why their practices differ from those recommended by the Mexican Code of Best Business Practices.

Listed companies must have an audit committee with a minimum of three members and must be independent.

The Mexican Securities Market Law requires that listed companies must have an audit committee. The Chairman and the majority of the members must be independent.

Table of Contents

Non-management directors must meet at regularly scheduled executive sessions without management.	Our non-management directors are not required to meet at executive sessions. The Mexican Code of Best Corporate Practices does not expressly recommend executive sessions.
Listed companies must require shareholder approval for equity compensation plans, subject to limited exemptions.	Companies listed on the Mexican Stock Exchange are required to obtain shareholder approval for equity compensation plans, provided that such plans are subject to certain conditions.
Listed companies must adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers.	Companies listed on the Mexican Stock Exchange are not required to adopt a code of ethics. However, we have adopted a code of ethics which is available free of charge through our offices. See Code of Ethics for directions on how to obtain a copy of our code of ethics. Waivers involving any of our executive officers or directors will be made only by our Board of Directors or a designated committee of the Board.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of Grupo Televisa, S. A. B.

In our opinion, the accompanying consolidated statements of financial position and the related consolidated statements of income, comprehensive income, changes in equity and cash flows present fairly, in all material respects, the financial position of Grupo Televisa, S.A.B. (the Company) and its subsidiaries at December 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2015 in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Annual Report on Internal Control Over Financial Reporting appearing in Item 15. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States) and International Standards on Auditing. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the Years Ended December 31, 2015, 2014 and 2013
(In thousands of Mexican Pesos, except per CPO, per share and exchange rate amounts)

1. Corporate Information

Grupo Televisa, S.A.B. (the Company) is a limited liability public stock corporation (Sociedad Anónima Bursátil or S.A.B.), incorporated under the laws of Mexico. Pursuant to the terms of the Company's bylaws (Estatutos Sociales) its corporate existence continues through 2106. The shares of the Company are listed and traded in the form of Certificados de Participación Ordinarios or CPOs on the Mexican Stock Exchange (Bolsa Mexicana de Valores) under the ticker symbol TLEVISA CPO, and in the form of Global Depository Shares or GDSs, on the New York Stock Exchange, or NYSE, under the ticker symbol TV. The Company's principal executive offices are located at Avenida Vasco de Quiroga 2000, Colonia Santa Fe, 01210 Ciudad de México, México.

Grupo Televisa, S.A.B., together with its subsidiaries (collectively, the Group), is a leading media company in the Spanish-speaking world, an important cable operator in Mexico, and an operator of a leading direct-to-home satellite pay television system in Mexico. The Group distributes the content it produces through several broadcast channels in Mexico and in over 50 other countries through 26 pay-tv brands, and television networks, cable operators and over the top or OTT services. In the United States, the Group's audiovisual content is distributed through Univision Communications Inc. (Univision) the leading media company serving the Hispanic market. Univision broadcasts the Group's audiovisual content through multiple platforms, in exchange the Group receives a royalty payment. In addition, the Group has equity and Warrants which upon their exercise and subject to any necessary approval from the Federal Communications Commission of the United States would represent approximately 36% on a fully-diluted, as-converted basis of the equity capital in Univision Holdings, Inc. or UHI (formerly Broadcasting Media Partners, Inc.), the controlling company of Univision. The Group's cable business offers integrated services, including video, high-speed data and voice services to residential and commercial customers as well as managed services to domestic and international carriers through five cable multiple system operators in Mexico. The Group owns a majority interest in Sky, the leading direct-to-home satellite pay television system in Mexico, operating also in the Dominican Republic and Central America. The Group also has interests in magazine publishing and distribution, radio production and broadcasting, professional sports and live entertainment, feature-film production and distribution, and gaming.

2. Accounting Policies

The principal accounting policies followed by the Group and used in the preparation of these consolidated financial statements are summarized below.

(a) Basis of Presentation

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

The consolidated financial statements of the Group as of December 31, 2015 and 2014, and for the years ended December 31, 2015, 2014 and 2013, are presented in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB). IFRSs comprise: (i) International Financial Reporting Standards (IFRS); (ii) International Accounting Standards (IAS); (iii) IFRS Interpretations Committee (IFRIC) Interpretations; and (iv) Standing Interpretations Committee (SIC) Interpretations.

The consolidated financial statements have been prepared on a historical cost basis, except for the measurement at fair value of temporary investments, derivative financial instruments, available-for-sale financial assets, equity financial instruments, and share-based payments, as described below.

The preparation of consolidated financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group s accounting policies. Changes in assumptions may have a significant impact on the consolidated financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate. The areas involving a higher degree of judgment or complexity, or areas where estimates and assumptions are significant to the Group s financial statements are disclosed in Note 5 to these consolidated financial statements.

These consolidated financial statements were authorized for issuance on April 8, 2016, by the Group s Chief Financial Officer.

Table of Contents

(b) Consolidation

The financial statements of the Group are prepared on a consolidated basis and include the assets, liabilities and results of operations of all companies in which the Company has a controlling interest (subsidiaries). All intercompany balances and transactions have been eliminated from the consolidated financial statements.

Subsidiaries

Subsidiaries are all entities over which the Company has control. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The existence and effects of potential voting rights that are currently exercisable or convertible are considered when assessing whether or not the Company controls another entity. The subsidiaries are consolidated from the date on which control is obtained by the Company and cease to consolidate from the date on which said control is lost.

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognizes any non-controlling interest in the acquiree on an acquisition-by-acquisition basis at the non-controlling interest's proportionate share of the recognized amounts of acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred.

Goodwill is initially measured as the excess of the aggregate of the consideration transferred and the fair value of non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in income or loss.

Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions—that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

Disposal of subsidiaries

When the Company ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognized in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This means that amounts previously recognized in other comprehensive income are reclassified to income or loss.

At December 31, 2015, 2014 and 2013, the main subsidiaries of the Company were as follows:

Entity	Company's Ownership Interest (1)	Business Segment (2)
Grupo Telesistema, S.A. de C.V. and subsidiaries	100%	Content

-
- (1) Percentage of equity interest directly or indirectly held by the Company.
 - (2) See Note 25 for a description of each of the Group s business segments.
 - (3) Televisa and G.Televisa-D, S.A. de C.V. are direct subsidiaries of Grupo Telesistema, S.A. de C.V.
 - (4) Multimedia Telecom and its direct subsidiary, Comunicaciones Tieren, S.A. de C.V. (Tieren), are wholly-owned subsidiaries of the Company through which it owns shares of the capital stock of UHI and maintains an investment in Warrants that are exercisable for shares of common stock of UHI. As of December 31, 2015, Multimedia Telecom and Tieren have investments representing 95.2% and 4.8%, respectively, of the Group s aggregate investment in shares of common stock and Warrants issued by UHI (see Notes 9, 10 and 19).
 - (5) Innova is an indirect majority-owned subsidiary of the Company and a direct majority-owned subsidiary of Innova Holdings, S. de R.L. de C.V. Sky is a satellite television provider in Mexico, Central America and the Dominican Republic. Although the Company holds a majority of Innova s equity and designates a majority of the members of Innova s Board of Directors, the non-controlling interest has certain governance and veto rights in Innova, including the right to block certain transactions between the companies in the Group and Sky. These veto rights are protective in nature and do not affect decisions about the relevant activities.
 - (6) CVQ is a direct subsidiary of the Company and the parent company of Empresas Cablevisión, Cablemás, TVI, Bestel, Cablecom and Telecable. Through September 2014, CVQ maintained an investment in GSF Telecom Holdings, S.A.P.I. de C.V. (GSF), whose disposition was completed in January 2015 (see Note 3).
 - (7) Empresas Cablevisión, S.A.B. de C.V. is a direct majority-owned subsidiary of CVQ. As of December 31, 2014, Empresas Cablevisión, S.A.B. de C.V. was directly owned by Editora Factum, S.A. de C.V., a direct subsidiary of the Company that was merged into CVQ in May 2015. At the consolidated level, the merger had no effect.
 - (8) The Cablemás subsidiaries are directly and indirectly owned by CVQ. As of December 31, 2014, some Cablemás subsidiaries were directly owned by the Company, and some other were directly owned by Consorcio Nekeas, S.A. de C.V. (Nekeas), a former wholly-owned direct subsidiary of the Company. In January 2015, Nekeas was merged into TTelecom H, S.A.P.I. de C.V. (TTelecom), a former direct subsidiary of the Company, and in July 2015, TTelecom was merged into CVQ. The Cablemás subsidiaries directly owned by the Company were acquired by a direct subsidiary of CVQ in the second half of 2015. At the consolidated level, the mergers had no effect.
 - (9) Televisión Internacional, S.A. de C.V. is an indirect subsidiary of CVQ. Through February 2016, the Company consolidated TVI because it appointed the majority of the members of the Board of Directors of TVI (see Note 27).
 - (10) Cablestar, S.A. de C.V. is an indirect majority-owned subsidiary of CVQ and Empresas Cablevisión, S.A.B. de C.V.
 - (11) Grupo Cable TV, S.A. de C.V. is an indirect subsidiary of CVQ and was acquired by the Group in 2014 (see Note 3).
 - (12) The Telecable subsidiaries are directly owned by CVQ as a result of the merger of TTelecom into CVQ in July 2015. TTelecom was a wholly-owned subsidiary of the Company through which the Company acquired Telecable in January 2015 (see Note 3).
 - (13) Sistema Radiópolis, S.A. de C.V. (Radiópolis) is an indirect subsidiary of the Company. The Company controls Radiópolis as it has the right to appoint the majority of the members of the Board of Directors of Radiópolis.
 - (14) Certain subsidiaries of the Company in the Other Businesses segment, owned by Nekeas as of December 31, 2014, were acquired by Villacezan in the third quarter of 2015, following the mergers described above of Nekeas into TTelecom and TTelecom into CVQ.

The Group s Content, Sky and Cable segments, as well as the Group s Radio business, which is reported in the Other Businesses segment, require governmental concessions and special authorizations for the provision of broadcasting and telecommunications services in Mexico. Such concessions are granted for a fixed term, subject to renewal in accordance with the Mexican Telecommunications and Broadcasting Law (Ley Federal de Telecomunicaciones y Radiodifusión or LFTR).

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Renewal of concessions for the Content segment (Broadcasting) and the Radio business require, among others: (i) to request such renewal to the Mexican Institute of Telecommunications (Instituto Federal de Telecomunicaciones or IFT) within the year prior to the last fifth period of the fixed term of the related concession; (ii) to be in compliance with the concession holder's obligations under the LFTR, other applicable regulations, and the concession title; (iii) a declaration by IFT that there is no public interest in recovering the spectrum granted under the related concession; and (iv) the acceptance by the concession holder of any new conditions for renewing the concession as set forth by IFT, including the payment of a related fee. Renewal of concessions for the Sky and Cable segments require, among others: (i) to request its renewal to IFT in the year prior to the last fifth period of the fixed term of the related concession; (ii) to be in compliance with the concession holder's obligations under the LFTR, other applicable regulations, and the concession title; and (iii) the acceptance by the concession holder of any new conditions for renewing the concession as set forth by IFT. IFT shall resolve any request for renewal of the telecommunications concessions within 180 business days of its request. Failure to respond within such period of time shall be interpreted as if the request for renewal has been granted. The regulations of the broadcasting and the telecommunications

Table of Contents

concessions (including satellite pay TV) establish that at the end of the concession, the frequency bands or spectrum attached to the services provided in the concessions shall return to the Mexican government. In addition, at the end of the concession, the Mexican government will have the preferential right to acquire infrastructure, equipment and other goods directly used in the provision of the concession. If the Mexican government were to exercise its right to acquire the infrastructure, equipment and other goods, it would be required to pay a price that is equivalent to a formula that is similar to the fair value. To the knowledge of the Company's management, no spectrum granted for broadcasting services in Mexico has been recovered by the Mexican government in at least the past three decades for public interest reasons. However, the Company's management is unable to predict the outcome of any action by IFT in this regard. In addition, the assets, by themselves, would not be enough to immediately begin broadcasting or offering satellite pay TV services or telecommunications services, as no content producing assets or other equipment necessary to operate the business would be included.

Also, the Group's Gaming business, which is reported in the Other Businesses segment, requires a permit granted by the Mexican Federal Government for a fixed term, subject to renewal in accordance with Mexican law. Additionally, the Group's Sky businesses in Central America and the Dominican Republic require concessions or permits granted by local regulatory authorities for a fixed term, subject to renewal in accordance with local laws.

The accounting guidelines provided by IFRIC 12 *Service Concession Arrangements* are not applicable to the Group due primarily to the following factors: (i) the Mexican government does not substantially control the Group's infrastructure, what services are provided with the infrastructure and the price at which such services are offered; (ii) the Group's broadcasting service does not constitute a public service as per the definition in IFRIC 12; and (iii) the Group is unable to divide its infrastructure among the public (telephony and possibly Internet services) and non-public (pay TV) service components.

At December 31, 2015, the expiration dates of the Group's concessions and permits were as follows:

Segments	Expiration Dates
Content (broadcasting concessions)	In 2021
Sky	Various from 2016 to 2027
Cable	Various from 2016 to 2045
Other Businesses:	
Radio	Various from 2015 to 2020 (1)
Gaming	In 2030

(1) Concessions for three Radio stations in San Luis Potosí and Guadalajara expired in 2015. Renewal applications were timely filed, but are still pending as certain related matters of the applicable regulations are being reviewed by the IFT. The Group's management expects that concessions for these three stations will be renewed or granted by the IFT.

The concessions or permits held by the Group are not subject to any significant pricing regulations in the ordinary course of business.

(c) *Investments in Associates and Joint Ventures*

Associates are those entities over which the Group has significant influence but not control, generally those entities with a shareholding of between 20% and 50% of the voting rights. Investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor. Joint ventures are those joint arrangements where the Group exercises joint control with other stockholder or more stockholders without exercising control individually, and have rights to the net assets of the joint arrangements. Investments in associates and joint ventures are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the net assets of the investee after the date of acquisition.

The Group has investments in associates, including a 10% and 7.8% equity interest in UHI as of December 31, 2015 and 2014, respectively (see Notes 3, 9 and 10).

The Group recognizes its share of losses of an associate or a joint venture up to the amount of its initial investment, subsequent capital contributions and long-term loans, or beyond that when guaranteed commitments have been made by the Group in respect of obligations incurred by investees, but not in excess of such guarantees. If an associate or a joint venture for

Table of Contents

which the Group had recognized a share of losses up to the amount of its guarantees generates net income in the future, the Group would not recognize its share of this net income until the Group first recognizes its share of previously unrecognized losses.

If the Group's share of losses of an associate or a joint venture equals or exceeds its interest in the investee, the Group discontinues recognizing its share of further losses. The interest in an associate or a joint venture is the carrying amount of the investment in the investee under the equity method together with any other long-term investment that, in substance, form part of the Group's net investment in the investee. After the Group's interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

(d) ***Segment Reporting***

Operating segments are reported in a manner consistent with the internal reporting provided to the Group's executive officers (chief operating decision makers) who are responsible for allocating resources and assessing performance for each of the Group's operating segments.

(e) ***Foreign Currency Translation***

Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (functional currency). The presentation and functional currency of the Group's consolidated financial statements is the Mexican peso, which is used for compliance with its legal and tax obligations.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or measurement where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the income statement as part of finance income or expense, except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges.

Changes in the fair value of monetary securities denominated in foreign currency classified as available for sale are analyzed between exchange differences resulting from changes in the amortized cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in amortized cost are recognized in income or loss, and other changes in carrying amount are recognized in other comprehensive income or loss.

Translation of Non-Mexican subsidiaries financial statements

The financial statements of all the Group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows: (a) assets and liabilities are translated at the closing rate at the date of the statement of financial position; (b) income and expenses are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and (c) all resulting translation differences are recognized in other comprehensive income or loss.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Translation differences arising are recognized in other comprehensive income or loss.

Assets and liabilities of non-Mexican subsidiaries that use the Mexican Peso as a functional currency are translated into Mexican Pesos by utilizing the exchange rate of the statement of financial position date for monetary assets and liabilities, and historical exchange rates for non-monetary items, with the related adjustment included in the consolidated statement of income as finance income or expense.

Table of Contents

The Group has designated as an effective hedge of foreign exchange exposure, a portion of the outstanding principal amount of its U.S. dollar denominated long-term debt in connection with its net investment in shares of common stock of UHI, which amounted to U.S.\$330.5 million (Ps.5,685,748) and U.S.\$237.6 million (Ps.3,507,390) as of December 31, 2015 and 2014, respectively. Consequently, any foreign exchange gain or loss attributable to this designated hedging long-term debt is credited or charged directly to other comprehensive income or loss as a cumulative result from foreign currency translation (see Note 10).

Beginning in the third quarter of 2015, the Group has designated a portion of its U.S. dollar denominated long-term debt as a fair value hedge of foreign exchange exposure related to its investment in UHI Warrants. A portion of the outstanding principal amount of its U.S. dollar denominated long-term debt (hedging instrument, disclosed in the line Long-term debt, net of current portion of the consolidated statement of financial position) is hedging its investment in Warrants exercisable for common stock of UHI (hedged item), which amounted to U.S.\$2,035.5 million (Ps.35,042,577) as of December 31, 2015. The other changes in fair value of the Warrants are recognized in other comprehensive income or loss. Consequently, any foreign currency gain or loss attributable to these designated hedged warrants is recognized within foreign exchange gain or loss in the consolidated statement of income, along with the recognition in the same line item of any foreign exchange gain or loss of the designated hedging instrument long-term debt (see Notes 9, 13 and 17).

(f) Cash and Cash Equivalents and Temporary Investments

Cash and cash equivalents consist of cash on hand and all highly liquid investments with an original maturity of three months or less at the date of acquisition. Cash is stated at nominal value and cash equivalents are measured at fair value, and the changes in the fair value are recognized in the income statement.

Temporary investments consist of short-term investments in securities, including without limitation debt with a maturity of over three months and up to one year at the date of acquisition, stock and other financial instruments, or a combination thereof, as well as current maturities of noncurrent held-to-maturity securities. Temporary investments are measured at fair value with changes in fair value recognized in finance income in the consolidated income statement, except the current maturities of non-current held-to-maturity securities which are measured at amortized cost.

As of December 31, 2015 and 2014, cash equivalents and temporary investments primarily consisted of fixed short-term deposits and corporate fixed income securities denominated in U.S. dollars and Mexican pesos, with an average yield of approximately 0.15% for U.S. dollar deposits and 3.09% for Mexican peso deposits in 2015, and approximately 0.10% for U.S. dollar deposits and 3.29% for Mexican peso deposits in 2014.

(g) Transmission Rights and Programming

Programming is comprised of programs, literary works, production talent advances and films.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Transmission rights and literary works are valued at the lesser of acquisition cost and net realizable value. Programs and films are valued at the lesser of production cost, which consists of direct production costs and production overhead, and net realizable value. Payments for production talent advances are initially capitalized and subsequently included as direct or indirect costs of program production. Transmission rights are recognized from the point of which the legally enforceable license period begins. Until the license term commences and the programming rights are available, payments made are recognized as prepayments.

The Group's policy is to capitalize the production costs of programs which benefit more than one annual period and amortize them over the expected period of future program revenues based on the Company's historical revenue patterns for similar productions.

Transmission rights, programs, literary works, production talent advances and films are recorded at acquisition or production cost. Cost of sales is calculated for the month in which such transmission rights, programs, literary works, production talent advances and films are matched with related revenues.

Transmission rights are amortized over the lives of the contracts. Transmission rights in perpetuity are amortized on a straight-line basis over the period of the expected benefit as determined by past experience, but not exceeding 25 years.

Table of Contents

(h) Inventories

Inventories of paper, magazines, materials and supplies for maintenance of technical equipment are recorded at the lower of cost or its net realization value. The net realization value is the estimated selling price in the normal course of business, less estimated costs to conduct the sale. Cost is determined using the average cost method.

(i) Financial Assets

The Group classifies its financial assets in the following categories: loans and receivables, held-to-maturity investments, fair value through income or loss and available-for-sale financial assets. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are initially recognized at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest method, with changes in carrying value recognized in the income statement in the line which most appropriately reflects the nature of the item or transaction. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's loans and receivables are presented as trade notes and accounts receivable, other accounts and notes receivable and due from related parties in the consolidated statement of financial position (see Note 7).

Held-to-maturity Investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity. After initial measurement, held-to-maturity investments are measured at amortized cost using the effective interest rate method, less impairment, if any. Any gain or loss arising from these investments is included in finance income or loss in the consolidated statement of income. Held-to-maturity investments are included in investments in financial instruments, except for those with maturities less than 12 months from the end of the reporting period, which are classified as temporary investments (see Note 9).

Available-for-sale Financial Assets

Available-for-sale financial assets are non-derivative financial assets that are not classified as loans and receivables, held-to-maturity investments or financial assets at fair value through income or loss, and include debt securities and equity instruments. Debt securities in this

category are those that are intended to be held for an indefinite period of time and that may be sold in response to needs for liquidity or in response to changes in the market conditions. Equity instruments in this category are those of companies in which the Group does not exercise joint control nor significant influence, but intent to hold for an indefinite term, and are neither classified as held for trading nor designated at fair value through income. After initial measurement, available-for-sale assets are measured at fair value with unrealized gains or losses recognized as other comprehensive income or loss until the investment is derecognized or the investment is determined to be impaired, at which time the cumulative gain or loss is recognized in the consolidated statement of income either in other finance income or expense (debt securities) or other income or expense (equity instruments). Interest earned whilst holding available-for-sale financial assets is reported as interest income using the effective interest rate method (see Notes 9 and 14).

Financial Assets at Fair Value through Income

Financial assets at fair value through income are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are also categorized as held for trading unless they are designated as hedges. Assets in this category are classified as current assets if expected to be settled within 12 months, otherwise they are classified as non-current.

Impairment of Financial Assets

The Group assesses at each statement of financial position date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are

Table of Contents

incurred only if there is objective and other-than-temporary evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset. If it is determined that a financial asset or group of financial assets have sustained a decline other than temporary in their value a charge is recognized in income in the related period.

For financial assets classified as held-to-maturity the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate.

Impairment of Financial Assets Recognized at Amortized Cost

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets measured at amortized cost is impaired. A financial asset or group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a loss event) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Offsetting of financial instruments

Financial assets are offset against financial liabilities and the net amount reported in the consolidated statement of financial position if, and only when the Group (i) currently has a legally enforceable right to set off the recognized amounts; and (ii) intends either to settle on a net basis, or to realize the assets and settle the liability simultaneously.

(j) ***Property, Plant and Equipment***

Property, plant and equipment are recorded at acquisition cost.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to income or loss during the financial period in which they are incurred.

Land is not depreciated. Depreciation of property, plant and equipment is based upon the carrying value of the assets in use and is computed using the straight-line method over the estimated useful lives of the asset, as follows:

	Estimated useful lives
Buildings	20-65 years
Building improvements	5-20 years
Technical equipment	3-25 years
Satellite transponders	15 years
Furniture and fixtures	3-11 years
Transportation equipment	4-8 years
Computer equipment	3-5 years
Leasehold improvements	5-20 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized within other income or expense in the consolidated income statement.

Table of Contents**(k) Intangible Assets**

Intangible assets are recognized at acquisition cost. Intangible assets acquired through business combinations are recorded at fair value at the date of acquisition. Intangible assets with indefinite useful lives, which include goodwill, trademarks and concessions, are not amortized, and subsequently recognized at cost less accumulated impairment losses. Intangible assets with finite useful lives are amortized on a straight-line basis over their estimated useful lives, as follows:

	Estimated useful lives
Licenses	3-14 years
Subscriber lists	4-10 years
Other intangible assets	3-20 years

Trademarks

The Group determines its trademarks to have an indefinite life when they are expected to generate net cash inflows for the Group indefinitely. Additionally, the Group considers that there are no legal, regulatory or contractual provisions that limit the useful lives of trademarks.

In the third quarter of 2015, the Company's management evaluated trademarks in its Cable segment to determine whether events and circumstances continue to support an indefinite useful life for these intangible assets. As a result of such evaluation, the Company identified certain businesses and locations that began migrating from a current trademark to an internally developed trademark between 2015 and 2016, in connection with enhanced service packages offered to current and new subscribers, and estimated that this migration process will take approximately four years. Accordingly, beginning in the third quarter of 2015, the Group changed the useful life assessment from indefinite to finite for acquired trademarks in certain businesses and locations in its Cable segment, and began to amortize on a straight line basis the related carrying value of these trademarks when the migration to the new trademark started using an estimated useful life of four years. The Group has not capitalized any amounts associated with internally developed trademarks.

Concessions

The Group defined concessions to have an indefinite life due to the fact that the Group has a history of renewing its concessions upon expiration, has maintained the concessions granted by the Mexican government, and has no foreseeable limit to the period over which the assets are expected to generate net cash inflows. In addition, the Group is committed to continue to invest for the long term to extend the period over which the broadcasting and telecommunications concessions are expected to continue to provide economic benefits.

Goodwill

Goodwill arises on the acquisition of subsidiaries and represents the excess of the consideration transferred over the Group's interest in net fair value of the identifiable assets, liabilities and contingent liabilities of the acquiree and the fair value of the non-controlling interest in the acquiree.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash generating units (CGUs), or groups of CGUs, that are expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs to sell. Any impairment is recognized as an expense and may be subsequently reversed under certain circumstances.

(I) ***Impairment of Long-lived Assets***

The Group reviews for impairment the carrying amounts of its long-lived assets, tangible and intangible, including goodwill (see Note 12), at least once a year, or whenever events or changes in business circumstances indicate that these

Table of Contents

carrying amounts may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. To determine whether an impairment exists, the carrying value of the reporting unit is compared with its recoverable amount. Fair value estimates are based on quoted market values in active markets, if available. If quoted market prices are not available, the estimate of fair value is based on various valuation techniques, including discounted value of estimated future cash flows, market multiples or third-party appraisal valuations.

(m) Trade Accounts Payable and Accrued Expenses

Trade accounts payable and accrued expenses are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade accounts payable and accrued expenses are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade accounts payable and accrued expenses are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

Trade accounts payable and accrued expenses are presented as a single item of consolidated current liabilities in the consolidated statements of financial position as of December 31, 2015 and 2014.

(n) Debt

Debt is recognized initially at fair value, net of transaction costs incurred. Debt is subsequently carried at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the income statement over the period of the debt using the effective interest method.

Fees paid on the establishment of debt facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a pre-payment for liquidity services and amortized over the period of the facility to which it relates.

Current portion of long-term debt and interest payable are presented as a single line item of consolidated current liabilities in the consolidated statements of financial position as of December 31, 2015 and 2014.

Debt early redemption costs are recognized as finance expense in the consolidated statement of income.

(o) ***Customer Deposits and Advances***

Customer deposit and advance agreements for television advertising services provide that customers receive preferential prices that are fixed for the contract period for television broadcast advertising time based on rates established by the Group. Such rates vary depending on when the advertisement is aired, including the season, hour, day and type of programming.

(p) ***Provisions***

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provisions due to passage of time is recognized as interest expense.

(q) ***Equity***

The capital stock and other equity accounts include the effect of restatement through December 31, 1997, determined by applying the change in the Mexican National Consumer Price Index between the dates capital was contributed or net results

Table of Contents

were generated and December 31, 1997, the date through which the Mexican economy was considered hyperinflationary under the guidelines of the IFRSs. The restatement represented the amount required to maintain the contributions and accumulated results in Mexican Pesos in purchasing power as of December 31, 1997.

Where any company in the Group purchases shares of the Company's capital stock (shares repurchased), the consideration paid, including any directly attributable incremental costs is deducted from equity attributable to stockholders of the Company until the shares are cancelled, reissued, or sold. Where such shares repurchased are subsequently reissued or sold, any consideration received, net of any directly attributable incremental transaction costs, is included in equity attributable to stockholders of the Company.

(r) ***Revenue Recognition***

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for services provided. The Group recognizes revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the Group's activities, as described below. The Group bases its estimate of return on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

The Group derives the majority of its revenues from media and entertainment-related business activities both in Mexico and internationally. Revenues are recognized when the service is provided and collection is probable. A summary of revenue recognition policies by significant activity is as follows:

- Advertising revenues, including deposits and advances from customers for future advertising, are recognized at the time the advertising services are rendered.
- Revenues from program services for network subscription and licensed and syndicated television programs are recognized when the programs are sold and become available for broadcast.
- Revenues from magazine subscriptions are initially deferred and recognized proportionately as products are delivered to subscribers. Revenues from the sales of magazines are recognized on the date of circulation of delivered merchandise, net of a provision for estimated returns.
- Revenues from publishing distribution are recognized upon distribution of the products.

- Sky program service revenues, including advances from customers for future direct-to-home (DTH) program services, are recognized at the time the service is provided.
- Cable television, internet and telephone subscription, and pay-per-view and installation fees are recognized in the period in which the services are rendered.
- Revenues from other telecommunications and data services are recognized in the period in which these services are provided. Other telecommunications services include long distance and local telephony, as well as leasing and maintenance of telecommunications facilities.
- Revenues from attendance to soccer games, including revenues from advance ticket sales for soccer games and other promotional events, are recognized on the date of the relevant event.
- Motion picture production and distribution revenues are recognized as the films are exhibited.
- Gaming revenues consist of the net win from gaming activities, which is the difference between amounts wagered and amounts paid to winning patrons.

In respect to sales of multiple products or services, the Group evaluates whether it has fair value evidence for each deliverable in the transaction. For example, the Group sells cable television, internet and telephone subscription to subscribers in a bundled package at a rate lower than if the subscriber purchases each product on an individual basis. Subscription revenues

Table of Contents

received from such subscribers are allocated to each product in a pro-rata manner based on the fair value of each of the respective services.

(s) ***Interest Income***

Interest income is recognized using the effective interest method. When a loan and receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loan and receivables is recognized using the original effective interest rate.

(t) ***Employee Benefits***

Pension and Seniority Premium Obligations

Plans exist for pensions and seniority premiums (post-employment benefits), for most of the Group's employees funded through irrevocable trusts. Increases or decreases in the consolidated liability or asset for post-employment benefits are based upon actuarial calculations. Contributions to the trusts are determined in accordance with actuarial estimates of funding requirements. Payments of post-employment benefits are made by the trust administrators. The defined benefit obligation is calculated annually using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension obligation.

In the first quarter of 2013, the Group adopted the provisions of IAS 19, *Employee Benefits*, as amended, which became effective on January 1, 2013. The amended IAS 19 eliminated the corridor approach for the recognition of remeasurement of post-employment benefit obligations, and requires the calculation of finance costs on a net funding basis. Also, the amended IAS 19 requires the recognition of past service cost as an expense at the earlier of the following dates: (i) when the plan amendment or curtailment occurs; and (ii) when the entity recognizes related restructuring costs or termination benefits. As a result of the adoption of the amended IAS 19, the Group adjusted a consolidated unamortized past service cost balance and consolidated retained earnings as of January 1, 2013 in the aggregate amount of Ps.102,902 (see Note 15).

Remeasurement of post-employment benefit obligations related to experience adjustments and changes in actuarial assumptions of post-employment benefits are recognized in the period in which they are incurred as part of other comprehensive income or loss in consolidated equity.

Profit Sharing

The employees' profit sharing required to be paid under certain circumstances in Mexico, is recognized as a direct benefit to employees in the consolidated statements of income in the period in which it is incurred.

Termination Benefits

Termination benefits, which mainly represent severance payments by law, are recorded in the consolidated statement of income. The Group recognizes termination benefits at the earlier of the following dates: (a) when the Group can no longer withdraw the offer of those benefits; and (b) when the entity recognizes costs for a restructuring that involves the payment of termination benefits.

(u) ***Income Taxes***

The income tax expense for the period comprises current and deferred income tax. Income tax is recognized in the consolidated statement of income, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the income tax is also recognized in other comprehensive income.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the statement of financial position date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Table of Contents

Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred income tax liabilities are not recognized if they arise from the initial recognition of goodwill; deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction (other than in a business combination) that at the time of the transaction affects neither accounting nor taxable income or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences and tax loss carryforwards can be utilized. For this purpose, the Group takes into consideration all available positive and negative evidence, including factors such as market conditions, industry analysis, projected taxable income, carryforward periods, current tax structure, potential changes or adjustments in tax structure, and future reversals of existing temporary differences.

Deferred income tax liabilities are provided on taxable temporary differences associated with investments in subsidiaries, joint ventures and associates, except for deferred income tax liabilities where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax assets are provided on deductible temporary differences associated with investments in subsidiaries, joint ventures and associates, to the extent that it is probable that there will be sufficient taxable income against which to utilize the benefit of the temporary difference and it is expected to reverse in the foreseeable future.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis. In the last quarter of 2013, the Mexican Congress enacted a new Tax Reform (the 2014 Tax Reform), which became effective as of January 1, 2014. Among the tax reforms approved by the Mexican Congress, one of the most relevant changes was the elimination of the tax consolidation regime allowed for Mexican controlling companies through December 31, 2013 (see Note 23).

Beginning on January 1, 2014, as a result of the 2014 Tax Reform, the Company is no longer allowed to consolidate income or loss of its Mexican subsidiaries for income tax purposes. Accordingly, current income tax assets and current income tax liabilities, and deferred income tax assets and deferred income tax liabilities, of Mexican companies in the Group as of December 31, 2014, are not offset as they relate to income taxes levied by the taxation authority on each separate taxable entity (see Note 23).

(v) ***Derivative Financial Instruments***

The Group recognizes derivative financial instruments as either assets or liabilities in the consolidated statements of financial position and measures such instruments at fair value. The accounting for changes in the fair value of a derivative financial instrument depends on the intended use of the derivative financial instrument and the resulting designation. For a derivative financial instrument designated as a cash flow hedge, the effective portion of such derivative's gain or loss is initially reported as a component of accumulated other comprehensive income and subsequently reclassified into income when the hedged exposure affects income. The ineffective portion of the gain or loss is reported in income immediately. For a derivative financial instrument designated as a fair value hedge, the gain or loss is recognized in income in the period of change together with the offsetting loss or gain on the hedged item attributed to the risk being hedged. For derivative financial instruments that are not designated as accounting hedges, changes in fair value are recognized in income in the period of change. During the years ended December 31, 2015 and 2014, certain derivative financial instruments qualified for hedge accounting (see Note 14).

(w) ***Comprehensive Income***

Comprehensive income for the period includes the net income for the period presented in the consolidated statement of income plus other comprehensive income for the period reflected in the consolidated statement of comprehensive income.

(x) ***Share-based Payment Agreements***

Key officers and employees of certain subsidiaries of the Company have entered into agreements for the conditional sale of Company's shares under the Company's Long-Term Retention Plan. The share-based compensation expense is

Table of Contents

measured at fair value at the date the equity benefits are conditionally sold to these officers and employees, and is recognized as a charge to consolidated income (administrative expense) over the vesting period (see Note 16). The Group recognized a share-based compensation expense of Ps.1,199,489, Ps.844,788 and Ps.605,067 for the years ended December 31, 2015, 2014 and 2013, respectively, of which Ps.1,184,524, Ps.821,626 and Ps.601,181 was credited in consolidated stockholders' equity for those years, respectively.

(y) Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and whether the arrangement conveys the right to use the asset.

Leases of property, plant and equipment other assets where the Group holds substantially all the risks and rewards of ownership are classified as finance leases. Finance lease assets are capitalized at the commencement of the lease term at the lower of the present value of the minimum lease payments or the fair value of the lease asset. The obligations relating to finance leases, net of finance charges in respect of future periods, are recognized as liabilities. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases is depreciated over the shorter of the useful life of the asset and the lease term.

Leases where a significant portion of the risks and rewards are held by the lessor are classified as operating leases. Rentals are charged to the income statement on a straight line basis over the period of the lease.

Leasehold improvements are depreciated at the lesser of its useful life or contract term.

(z) New and Amended IFRSs

Below is a list of the new and amended standards that have been issued by the IASB and are effective for annual periods starting on or after January 1, 2016. Management is in the process of assessing the potential impact of these pronouncements on the Group's consolidated financial statements.

New or Amended Standard	Title of the Standard	Effective for Annual Periods Beginning On or After
Annual Improvements	<i>Annual Improvements to IFRSs 2012-2014 Cycle</i>	January 1, 2016
Amendments to IFRS 11	<i>Accounting for Acquisitions of Interests in Joint Operations</i>	January 1, 2016
Amendments to IAS 16 and IAS 38	<i>Clarification of Acceptable Methods of Depreciation and Amortization</i>	January 1, 2016

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Amendments to IAS 27	<i>Equity Method in Separate Financial Statements</i>	January 1, 2016
Amendments to IFRS 10 and IAS 28	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>	Postponed
Amendments to IFRS 10, IFRS 12 and IAS 28	<i>Investment Entities: Applying the Consolidation Exception</i>	January 1, 2016
Amendments to IAS 1	<i>Disclosure Initiative</i>	January 1, 2016
Amendments to IAS 7	<i>Disclosure Initiative</i>	January 1, 2017
Amendments to IAS 12	<i>Recognition of Deferred Tax Assets for Unrealized Losses</i>	January 1, 2017
IFRS 15	<i>Revenue from Contracts with Customers</i>	January 1, 2018
IFRS 9	<i>Financial Instruments</i>	January 1, 2018
IFRS 16	<i>Leases</i>	January 1, 2019

Annual Improvements to IFRSs 2012-2014 Cycle were published in September 2014 and set out amendments to certain IFRSs. These amendments result from proposals made during the IASB's Annual Improvements process, which provides a vehicle for making non-urgent but necessary amendments to IFRSs. The IFRSs amended and the topics addressed by these amendments are as follows:

Annual Improvements 2012-2014 Cycle	Subject of Amendment
IFRS 5 <i>Non-current Assets Held for Sale and Discontinued Operations</i>	Changes in methods of disposal
IFRS 7 <i>Financial Instruments: Disclosures</i>	Servicing contracts and applicability of the amendments to IFRS 7 to condensed interim financial statements
IAS 19 <i>Employee Benefits</i>	Discount rate: regional market issue
IAS 34 <i>Interim Financial Reporting</i>	Disclosure of information elsewhere in the interim financial report

Table of Contents

Amendments to IFRS 11 *Accounting for Acquisitions of Interests in Joint Ventures* were issued in May 2014 and add new guidance on how to account for the acquisition of an interest in a joint operation in which the activity constitutes a business, as defined in IFRS 3 *Business Combinations*. Under these amendments, the acquirer of a joint operation that constitutes a business shall apply all of the principles on business combinations accounting in IFRS 3, and other IFRSs, that do not conflict with the guidance in this IFRS and disclose the information that is required in those IFRSs in relation to business combinations.

Amendments to IAS 16 and IAS 38 *Clarification of Acceptable Methods of Depreciation and Amortization* were issued in May 2014 and clarify that the use of revenue-based methods to calculate depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the assets. These amendments also clarify that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset.

Amendments to IAS 27 *Equity Method in Separate Financial Statements* were issued in August 2014 and will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in the separate financial statements.

Amendments to IFRS 10 and IAS 28 *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture* were issued in September 2014 and address and acknowledged inconsistency between the requirements in IFRS 10 and those in IAS 28 (2011), in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognized when a transaction involved a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involve assets that do not constitute a business, even if these assets are housed in a subsidiary. In December 2015 the IASB postponed the effective date of these amendments indefinitely pending the outcome of its research project on the equity method of accounting.

Amendments to IFRS 10, IFRS 12 and IAS 28 *Investment Entities: Applying the Consolidation Exception* were issued in December 2014, and introduce clarifications to the requirements when accounting for investment entities. These amendments clarify which subsidiaries of an investment entity are consolidated in accordance with IFRS 10 Consolidated Financial Statements, instead of being measured at fair value through income.

Amendments to IAS 1 *Disclosure Initiative* were issued in December 2014 and clarify that companies should use professional judgment in determining what information to disclose in the financial statements, and where and in what order information is presented in the financial disclosures.

Amendments to IAS 7 *Disclosure Initiative* were issued in January 2016 and clarify that companies should provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.

Amendments to IAS 12 *Recognition of Deferred Tax Assets for Unrealized Losses* were issued in January 2016 and clarify the requirements on recognition of deferred tax assets for unrealized losses, to address diversity in practice. Earlier application is permitted.

IFRS 15 *Revenue from Contracts with Customers* (IFRS 15) was issued in May 2014. IFRS 15 provides a single, comprehensive revenue recognition model for all contracts with customers to improve comparability within industries, across industries, and across capital markets. This standard contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognized. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. IFRS 15 is effective on January 1, 2018, with early adoption permitted. The Group is expected to be impacted to some extent by the significant increase in required disclosures. The Company's management is currently in the process of assessing the changes that are beyond disclosures, and the effect of the adoption of this standard regarding technology systems, processes, and internal controls to capture new data and address changes in financial reporting.

IFRS 9 *Financial Instruments* (IFRS 9) addresses the classification, measurement and recognition of financial assets and financial liabilities. IFRS 9 was issued in November 2009 and October 2010. It replaces the parts of IAS 39 *Financial Instruments: Recognition and Measurement* (IAS 39) that relate to the classification and measurement of financial instruments. IFRS 9 requires financial assets to be classified into two measurement categories: those measured at amortized cost

Table of Contents

and those measured at fair value. The determination is made at initial recognition. The basis of classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the financial asset. The guidance in IAS 39 on impairment of financial assets and hedge accounting continues to apply. For financial liabilities, this standard retains most of the IAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. Some amendments to IFRS 9 and IFRS 7 *Financial Instruments: Disclosures* (IFRS 7) were issued in December 2011. These amendments to IFRS 9 modify the mandatory effective date of this standard and the relief from restating prior periods, and also add transition disclosures to IFRS 7 that are required to be applied when IFRS 9 is first applied. The Company's management is currently evaluating the impact IFRS 9 will have on its consolidated financial statements and disclosures.

IFRS 16 *Leases* (IFRS 16) was issued in January 2016 and replaces IAS 17 *Leases*. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases. The major change introduced by IFRS 16 is that leases will be brought onto the companies statements of financial position, increasing the visibility of their assets and liabilities. IFRS 16 removes the classification of leases as either operating leases or finance leases for the lessee, treating all leases as finance leases. Short-term leases (less than 12 months) and leases of low-value assets are exempt from the requirements. Early application of IFRS 16 is permitted as long as the IFRS 15 *Revenue from Contracts with Customers* is also applied. The Company's management is currently evaluating the impact IFRS 16 will have on its consolidated financial statements and disclosures.

3. Acquisitions, Investments and Dispositions

In July 2013, the Group made an investment in the amount of Ps.7,000,000 in convertible debt instruments to acquire, subject to regulatory approvals, 95% of the equity interest of Tenedora Ares, S.A.P.I. de C.V. (Ares), owner of 51% of the equity interest of Cablecom, a telecommunications company that offers video, telephony, data and other telecom services in Mexico. In addition, Ares had an option to acquire in the future, subject to regulatory approvals, the remaining 49% of the equity interest of Cablecom. As part of this transaction, the Group also invested in a long-term debt instrument issued by Ares in the amount of U.S.\$195 million (Ps.2,549,625). In August 2014, the Group acquired, pursuant to applicable regulations, all of the equity interest of Cablecom through the conversion of the debt instruments issued by Ares in the amount of Ps.7,297,292, including accrued interest at the acquisition date, and an additional consideration of Ps.8,550,369, comprised of (i) the capitalization of an outstanding long-term debt issued by Ares in the amount of U.S.\$200.2 million (Ps.2,642,367), including accrued interest at the acquisition date; and (ii) cash in the amount of Ps.5,908,002. The total fair value consideration for this acquisition amounted to Ps.15,847,661, and the Group recognized goodwill, other intangible assets and related deferred income tax liability based on a final purchase price allocation at the acquisition date. The Group began to consolidate the net assets of Cablecom in its consolidated statement of financial position as of August 31, 2014, and therefore, the Group's consolidated statement of income for the year ended December 31, 2014, included results of operations of Cablecom for the four months ended on that date. Through the acquisition of Cablecom, the Group increased its presence in the telecommunications Mexican market, not only by maintaining customers of Cablecom at the date of the acquisition, but also by increasing the number of users of Cablecom services in connection with new market strategies (see Note 25). The following table summarizes the allocation of the purchase price to the tangible and identifiable intangible assets acquired and liabilities assumed at the acquisition date. The excess of the purchase price over those fair values and the related deferred income tax liability was allocated to goodwill in the Cable segment.

During 2013, the Group made capital contributions in connection with its former 50% interest in GSF in the aggregate amount of Ps.1,587,500. In September 2014, the Group's partner in GSF agreed to purchase the Group's 50% equity participation in the Iusacell telecom business at a cash price of U.S.\$717 million (Ps.9,461,532). As a result of this transaction, which was subject to customary closing conditions and required regulatory approvals, the Group discontinued recognizing its share of income or loss of GSF, and recognized a non-cash loss of Ps.4,168,468 in consolidated other expense and an account receivable for the agreed sale amount. As of December 31, 2014, the related account receivable amounted to U.S.\$717 million (Ps.10,583,852). In December 2014, the required regulatory approvals for this transaction were obtained. In January 2015, the Group received proceeds in the aggregate amount of U.S.\$717 million (Ps.10,632,393) in connection with the disposal in 2014 of its investment in GSF, of which U.S.\$697 million (Ps.10,335,813) were in cash and U.S.\$20 million (Ps.296,580) were held in escrow for certain contingent litigation costs. As of December 31, 2015, the amount held in escrow was U.S.\$11.9 million (Ps.204,954) (see Notes 10, 14, 21 and 22).

In January 2015, the Group acquired, through a series of transactions, all of the equity interest of Telecable for an aggregate cash consideration of Ps.10,001,838. Telecable is a cable business that provides video, data and telephone services in Mexico, primarily in the states of Guanajuato, Jalisco, Aguascalientes, Querétaro, Tamaulipas and Colima. The Group began to consolidate the net assets and results of operations of Telecable in its consolidated financial statements in the first quarter of 2015. The Group completed a final purchase price allocation for this transaction in the fourth quarter of 2015. Through the acquisition of Telecable, the Group continues with its strategy to establish a cable company with national coverage that delivers more and better services through state of the art technology and internationally competitive prices for the benefit of end users. The following table summarizes the allocation of the purchase price to the tangible and identifiable intangible assets acquired and liabilities assumed at the acquisition date. The excess of the purchase price over those fair values and the related deferred income tax liability was allocated to goodwill in the Cable segment.

In July 2015, UHI, the controlling company of Univision, and the Company announced that together with major shareholders of UHI, they had entered into a Memorandum of Understanding (MOU) and that certain subsidiaries of UHI and the Company entered into an agreement to amend their existing Program Licensing Agreement (the PLA). Under the PLA amendment, the terms of the existing strategic relationship between UHI and the Group have been amended among other things, (i) to extend the term of the PLA from its current expiration date of at least 2025 to at least 2030 upon consummation of a qualified public equity offering of UHI; and (ii) to adjust the royalty computation of the PLA by making certain additional revenue subject to royalties in exchange for certain adjustments to the royalty rate. Under the terms of the MOU, UHI, the Group and the major shareholders of UHI agreed to (i) upon a qualifying initial public offering of UHI, an equity capitalization of UHI by which, among other considerations, the Group will hold common stock with approximately 22% of the voting rights of UHI common stock, and the right for the Group to designate a minimum number of directors to UHI's Board of Directors; and (ii) the exchange of U.S.\$1,125 million (Ps.17,634,375) principal amount of Convertible Debentures issued by UHI for Warrants that are exercisable for UHI's common stock, and a cash payment by UHI in the amount of U.S.\$135.1 million (Ps.2,194,981) for such exchange. In July 2015, the Group exercised a portion of these Warrants to increase its equity stake in UHI from 7.8% to 10% (see Notes 9, 10, 14, 19 and 22).

In July 2015, the Company acquired additional shares of Imagina Media Audiovisual, S.L. (together with its subsidiaries, Imagina) in the aggregate cash amount of 19.2 million (Ps.341,710) in connection with a reorganization of stockholders of this investee by which the Company increased its equity stake in Imagina from 14.5% to 19.9% (see Notes 9 and 10).

4. Financial Risk Management

(a) Market Risk

Market risk is the exposure to an adverse change in the value of financial instruments caused by market factors including changes in equity prices, interest rates, foreign currency exchange rates, commodity prices and inflation rates.

The Group is exposed to market risks arising from changes in equity prices, interest rates, foreign currency exchange rates and inflation rates, in both the Mexican and U.S. markets. Risk management activities are monitored by the Risk Management Committee on a quarterly basis and reported to the Executive Committee.

(i) Foreign Exchange Risk

The Group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the U.S. dollar and the Mexican peso. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities and net investments in foreign operations.

Foreign currency exchange risk is monitored by assessing the net monetary liability position in U.S. dollars and the forecasted cash flow needs for anticipated U.S. dollar investments and servicing the Group's U.S. dollar denominated debt.

Management has set up a policy to require Group companies to manage their foreign exchange risk against their functional currency. To manage their foreign exchange risk arising from future commercial transactions and recognized assets and liabilities, entities in the Group use forward contracts. In compliance with the procedures and controls established by the Risk Management Committee, in 2015 and 2014, the Group entered into certain derivative transactions with certain financial institutions in order to manage its exposure to market risks resulting from changes in interest rates and foreign currency exchange rates. The objective in managing foreign currency fluctuations is to reduce earnings and cash flow volatility.

At December 31, 2015, a hypothetical 10% appreciation/depreciation in the U.S. dollar to Mexican peso exchange rate would result in a gain/loss in earnings of Ps.3,987,639. At December 31, 2014, a hypothetical 10% appreciation/depreciation in the U.S. dollar to Mexican peso exchange rate would result in a gain/loss in earnings of Ps.1,704,154.

(ii) ***Cash Flow Interest Rate Risk***

The Group monitors the exposure to interest rate risk by: (i) evaluating differences between interest rates on its outstanding debt and short-term investments and market interest rates on similar financial instruments; (ii) reviewing its cash flow needs and financial ratios (indebtedness and interest coverage); (iii) assessing current and forecasted trends in the relevant markets; and (iv) evaluating peer Group and industry practices. This approach allows the Group to determine the interest rate mix between variable and fixed rate debt.

The Group's interest rate risk arises from long-term debt. Debt issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rates. Debt issued at fixed rates expose the Group to fair value interest rate risk. During recent years the Group has maintained most of its debt in fixed rate instruments (see Note 13).

Based on various scenarios, the Group manages its cash flow interest rate risk by using cross-currency interest rate swap agreements and floating-to-fixed interest rate swaps. Cross-currency interest rate swap agreements allow the Group to hedge against Mexican peso depreciation on the interest payments for medium-term periods. Interest rate swaps have the economic effect of converting borrowings from floating rates to fixed rates.

Sensitivity and Fair Value Analyses

The sensitivity analyses that follow are intended to present the hypothetical change in fair value or loss in earnings due to changes in interest rates, inflation rates, foreign currency exchange rates and debt and equity market prices as they affect the Group's financial instruments at December 31, 2015 and 2014. These analyses address market risk only and do not take into consideration other risks that the Group faces in the ordinary course of business, including country risk and credit risk. The hypothetical changes reflect management view of changes that are reasonably possible over a one-year period. For purposes of the following sensitivity analyses, the Group has made assumptions of a hypothetical change in fair value of 10% for expected near-term future changes in U.S. interest rates, Mexican interest rates, inflation rates and Mexican peso to U.S. dollar exchange rate. The results of the analyses do not purport to represent actual changes in fair value or losses in earnings that the Group will incur.

Senior Notes due 2043	6,500,000	5,505,240	(994,760)	(444,236)
Long-term notes payable to Mexican banks	10,982,607	11,413,185	430,579	1,571,897
Finance lease obligations	5,236,046	4,920,298	(315,748)	176,282
Derivative financial instruments (2)	335,102	335,102		

(1) At December 31, 2015 and 2014, the Group's temporary investments consisted of highly liquid securities, including without limitation debt securities and equity instruments held for trading (primarily denominated in Mexican pesos and U.S. dollars). Given the short-term nature of these investments, an increase in U.S. and/or

Mexican interest rates would not significantly decrease the fair value of these investments.

- (2) Given the nature of these derivative instruments, an increase of 10% in the interest and/or exchange rates would not have a significant impact on the fair value of these financial instruments.
- (3) The carrying value of debt is stated in this table at its principal amount.
- (4) The fair value of the Senior Notes and Notes due by the Group are within Level 1 of the fair value hierarchy as there is a quoted market price for them. The fair value of the finance lease obligations are within Level 2 of the fair value hierarchy and has been estimated based on cash flows discounted using an estimated weighted average cost of capital. The fair value of held-to-maturity securities are within Level 1 of the fair value hierarchy, and were based on market interest rates to the listed securities.

Table of Contents

(iii) ***Price Risk***

The Group is exposed to equity securities price risk because of investments held by the Group and classified in the consolidated statements of financial position as either available-for-sale or held-for-trading investments. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group. The Group is not exposed to commodity price risk.

(b) ***Credit Risk***

Credit risk is managed on a Group basis, except for credit risk relating to accounts receivable balances. Each local entity is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, as well as credit exposure to customers, including outstanding receivables and committed transactions. For banks and financial institutions, only independently rated parties with a minimum rating of AA in local scale for domestic institutions and BBB in global scale for foreign institutions are accepted. If customers are independently rated, these ratings are used. If there is no independent rating, the Group's risk control function assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Company's management. See Note 7 for further disclosure on credit risk.

No credit limits were exceeded during the reporting period, and management does not expect any losses from non-performance by the counterparties.

The Group historically has not had significant credit losses arising from customers.

(c) ***Liquidity Risk***

Cash flow forecasting is performed in the operating entities of the Group and aggregated by corporate management. Corporate management monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its borrowing facilities at all times so that the Group does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, compliance with internal statement of financial position ratio targets and, if applicable external regulatory or legal requirements.

Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Group treasury. Group treasury invests surplus cash in interest bearing current accounts, time deposits, money market deposits and marketable securities, choosing investments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the above-mentioned forecasts. At December 31, 2015 and 2014, the Group held cash and cash equivalents of Ps.49,397,126 and Ps.29,729,350,

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

respectively, and temporary investments of Ps.5,330,448 and Ps.4,788,585, respectively, that are expected to readily generate cash inflows for managing liquidity risk (see Note 6).

The table below analyses the Group's non-derivative and derivative financial liabilities as well as related contractual interest on debt and finance lease obligations into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date. Derivative financial liabilities are included in the analysis if their contractual maturities are essential for an understanding of the timing of the cash flows. The amounts disclosed in the table are the contractual undiscounted cash flows.

(2) Interest to be paid in future years on outstanding debt as of December 31, 2015 and 2014, based on contractual interest rate and exchange rates as of that date.

As of December 31, 2013, certain of the Group's derivative financial instruments (coupon swaps) were in hedge relationships and were settled during 2014. These contracts required undiscounted contractual cash inflows of U.S.\$12.8 million and undiscounted contractual cash outflows of Ps.165,316.

Capital Management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for stockholders and benefits for other stakeholders and to maintain an optimal capital structure in order to minimize the cost of capital.

5. Critical Accounting Estimates and Assumptions

Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. By definition, the resulting accounting estimates will seldom equal the related actual results. The estimates and assumptions that have a risk of causing a material adjustment to the carrying amounts of consolidated assets and liabilities within the next financial year are addressed below.

(a) ***Accounting for Programming***

The Group produces a significant portion of programming for initial broadcast over its television networks in Mexico, its primary market. Following the initial broadcast of this programming, the Group then licenses some of this programming for broadcast in secondary markets, such as Mexico, the United States, Latin America, Asia, Europe and Africa. Under IFRS, in order to properly capitalize and subsequently amortize production costs related to this programming, the Group must estimate the expected future benefit period over which a given program will generate revenues (generally, over a five-year period). The Group then amortizes the production costs related to a given program over the expected future benefit period. Under this policy, the Group generally expenses approximately 70% of the production costs related to a given program in its initial broadcast run and defers and expenses the remaining production costs over the remainder of the expected future benefit period (see Note 2 (g)).

Table of Contents

The Group estimates the expected future benefit periods based on past historical revenue patterns for similar types of programming and any potential future events, such as new outlets through which the Group can exploit or distribute its programming, including its consolidated subsidiaries and equity investees. To the extent that a given future expected benefit period is shorter than the estimate, the Group may have to accelerate capitalized production costs sooner than anticipated. Conversely, to the extent that a given future expected benefit period is longer than the estimate, the Group may have to extend the amortization schedule for the remaining capitalized production costs.

The Group also purchases programming from, and enters into license arrangements with, various third party programming producers and providers, pursuant to which it receives the rights to broadcast programming produced by third parties over its television networks in Mexico. In the case of programming acquired from third parties, the Group estimates the expected future benefit period based on the anticipated number of showings in Mexico. In the case of programming licensed from third parties, the Group estimates the expected future benefit period based upon the term of the license. To the extent that a given future expected benefit period is shorter than the estimate, the Group may have to accelerate the purchase price or the license fee sooner than anticipated. Conversely, to the extent that a given future expected benefit period is longer than the estimate, the Group may have to extend the amortization schedule for the remaining portion of the purchase price or the license fee.

Assuming a hypothetical 10% decrease in expected future revenue from the Group's programming as of December 31, 2015, the balance of such programming would decrease in the amount of Ps.228,718 with a corresponding increase in programming amortization expense.

(b) *Investments in Associates and Joint Ventures*

Some of the Group's investments are structured as investments in associates and joint ventures (see Notes 2 (c) and 10). As a result, the results of operations attributable to these investments are not consolidated with the results of the Group's various segments for financial reporting purposes, but are reported as share of income or loss of associates and joint ventures in the consolidated statement of income (see Note 10).

In the past, the Group has made significant capital contributions and loans to its associates and joint ventures, and it may in the future make additional capital contributions and loans to at least some of its joint ventures. In the past, some of these ventures have generated, and they may continue to generate, operating losses and negative cash flows as they continue to build and expand their respective businesses.

The Group periodically evaluates its investments in these associates and joint ventures for impairment, taking into consideration the performance of these ventures as compared to projections related to net sales, expenditures, strategic plans and future required cash contributions, among other factors. In doing so, the Group evaluates whether any declines in value are other than temporary. The Group has taken impairment charges in the past for some of these investments. Given the dynamic environments in which these businesses operate, as well as changing macroeconomic conditions, there can be no assurance that the Group's future evaluations will not result in recognizing additional impairment charges for these investments.

Once the carrying balance of a given investment is reduced to zero, the Group evaluates whether it should suspend the equity method of accounting, taking into consideration both quantitative and qualitative factors, such as long-term loans guarantees it has provided to these associates and joint ventures, future funding commitments and expectations as to the viability of the business. These conditions may change

from year to year, and accordingly, the Group periodically evaluates whether to continue to account for its various investments under the equity method.

(c) ***Goodwill and Other Indefinite-lived Intangible Assets***

Goodwill and other intangible assets with indefinite useful lives are reviewed for impairment at least annually. When an impairment test is performed, the recoverable amount is assessed by reference to the higher of the net present value of the expected future cash flows (value in use) of the relevant cash generating unit and the fair value less cost to sell.

The recoverable amount of cash generating units has been determined based on fair value less costs to disposal calculations. These calculations require the use of estimates, including management's expectations of future revenue growth, operating costs, profit margins and operating cash flows for each cash-generating unit.

Table of Contents

During 2015 and 2014, the Group recorded impairments for goodwill and other indefinite-lived intangible assets related to its Publishing business, which is classified into the Other Businesses segment. During 2013, the Group recorded impairments for goodwill and other indefinite-lived intangible assets related to its joint venture investment in capital stock of GSF (see Notes 10 and 12). Other than in the Publishing business, the Company believes that additional reasonable changes in assumptions would not trigger any additional impairment charges. See Note 2 (b) and (k) for disclosure regarding concession intangible assets.

(d) ***Long-lived Assets***

The Group presents certain long-lived assets other than goodwill and indefinite-lived intangible assets in its consolidated statement of financial position. Long-lived assets are tested for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may no longer be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Recoverability is analyzed based on projected cash flows. Estimates of future cash flows involve considerable management judgment. These estimates are based on historical data, future revenue growth, anticipated market conditions, management plans, and assumptions regarding projected rates of inflation and currency fluctuations, among other factors. If these assumptions are not correct, the Group would have to recognize a write-off or write-down or accelerate the amortization schedule related to the carrying value of these assets (see Notes 2 (1), 12 and 21). The Group has not recorded any significant impairment charges over the past few years.

(e) ***Deferred Income Taxes***

The Group records its deferred tax assets based on the likelihood that these assets are realized in the future. This likelihood is assessed by taking into consideration the future taxable income. In the event the Group were to determine that it would be able to realize its deferred tax assets in the future in excess of the net recorded amount, an adjustment to the deferred tax asset would increase income in the period such determination was made. Should the Group determine that it would not be able to realize all or part of its net deferred tax asset in the future, an adjustment to the deferred tax asset would be charged to income in the period such determination was made.

(f) ***Financial Assets and Liabilities Measured at Fair Value***

The Group has a significant amount of financial assets and liabilities which are measured at fair value on a recurring basis. The degree of management's judgment involved in determining the fair value of a financial asset and liability varies depending upon the availability of quoted market prices. When observable quoted market prices exist, that is the fair value estimate the Group uses. To the extent such quoted market prices do not exist, management uses other means to determine fair value (see Notes 4 and 14).

(g) ***Exchange of Convertible Debentures due 2025 issued by UHI for Warrants issued by UHI***

Significant judgment was applied in assessing the qualitative factors mentioned in IAS 39 *Financial Instruments: Recognition and Measurement*, to determine that the changes in cash flows, the different risks and rewards and contractual terms between the exchanged Convertible Debentures due 2025 issued by UHI and the received Warrants issued by UHI resulted in the derecognition of the Convertible Debentures.

The Company's management applied significant judgment to determine the classification of the Warrants issued by UHI. These Warrants did not comply with the definition of a derivative financial instrument because the initial investment that the Group paid to acquire the original instrument (Convertible Debentures) was significant and a derivative requires no initial investment or one that is smaller than would be required for a contract with similar response to changes in market factors; therefore, the Group classified the Warrants issued by UHI as available-for-sale financial assets with changes in fair value recognized in other comprehensive income or loss in consolidated equity. Significant judgment was applied by the Company's management in assessing that the characteristics of the Warrants are closer to an equity instrument in accordance with the IAS 32 *Financial Instruments: Presentation* (see Notes 3, 9, 10 and 14).

6. Cash and Cash Equivalents and Temporary Investments

Cash and cash equivalents as of December 31, 2015 and 2014, consisted of:

Table of Contents

	2015		2014	
Cash and bank accounts	Ps.	1,565,594	Ps.	1,830,156
Short-term investments (1)		47,831,532		27,899,194
Total cash and cash equivalents	Ps.	49,397,126	Ps.	29,729,350

(1) Highly-liquid investments with an original maturity of three months or less at the date of acquisition.

Temporary investments as of December 31, 2015 and 2014, consisted of:

	2015		2014	
Short-term investments (2)	Ps.	110,832	Ps.	60,558
Other financial assets (3)		4,862,970		4,636,341
Current maturities of non-current held-to-maturity securities		356,646		91,686
Total temporary investments	Ps.	5,330,448	Ps.	4,788,585

(2) Short-term investments with a maturity of over three months and up to one year at the date of acquisition.

(3) Other financial assets include equity instruments held for trading (publicly traded instruments). The fair value is based on quoted market prices. In connection with these equity instruments, the Group recognized in consolidated finance income a fair value gain of Ps.503,797, Ps.636,305 and Ps.559,874 for the years ended December 31, 2015, 2014 and 2013, respectively.

7. Trade Notes and Accounts Receivable, Net

Trade notes and accounts receivable as of December 31, 2015 and 2014, consisted of:

	2015		2014	
Non-interest bearing notes received from customers as deposits and advances in connection with annual (upfront basis) and from time to time (scatter basis) prepayments	Ps.	16,967,783	Ps.	16,864,054
Trade accounts receivable		8,413,850		7,251,553

Unused amounts reversed	385,625		117,771
At December 31	Ps. (3,679,505)	Ps.	(3,028,444)

The maximum exposure to credit risk of the trade notes and accounts receivable as of December 31, 2015 and 2014 is the carrying value of each class of receivables mentioned above.

8. Transmission Rights and Programming

At December 31, 2015 and 2014, transmission rights and programming consisted of:

	2015		2014
Transmission rights	Ps. 9,195,354	Ps.	8,626,238
Programming	5,332,928		5,219,882
	14,528,282		13,846,120
Non-current portion of:			
Transmission rights	5,775,508		5,863,275
Programming	3,363,641		3,131,123
	9,139,149		8,994,398
Current portion of transmission rights and programming	Ps. 5,389,133	Ps.	4,851,722

Amortization of transmission rights and programming charged to consolidated cost of sales for the years ended December 31, 2015, 2014 and 2013 amounted to Ps.13,216,319, Ps.12,898,031 and Ps.11,634,186, respectively (see Note 20).

9. Investments in Financial Instruments

At December 31, 2015 and 2014, the Group had the following investments in financial instruments:

	2015		2014
Available-for-sale financial assets:			
Convertible Debentures due 2025 issued by UHI (1)	Ps.	Ps.	10,421,478
Embedded derivative in Convertible Debentures issued by UHI (1)			17,447,857
Warrants issued by UHI (1)	35,042,577		
Shares of common stock of Imagina (2)			836,037
Available-for-sale investments (3)	5,873,243		5,511,768
	40,915,820		34,217,140
Held-to-maturity investments (4)	134,034		461,047
Other	31,620		31,685
	Ps. 41,081,474	Ps.	34,709,872

(1) Through July 2015, the Group held an investment in Convertible Debentures due 2025 issued by UHI in the principal amount of U.S.\$1,125 million (Ps.17,634,375), with an annual interest rate of 1.5% receivable on a quarterly basis, which were convertible at the Company's option into additional shares equivalent to approximately 30% equity stake of UHI, subject to existing laws and regulations in the United States, and other conditions. These Convertible Debentures were classified as available-for-sale financial assets with changes in fair value recognized in other comprehensive income or loss in consolidated equity. The Group's option of converting these debentures into an equity stake of UHI was accounted for as an embedded derivative with changes in fair value recognized in consolidated income (see Notes 14 and 19). In July 2015, the Group exchanged its investment in these Convertible Debentures for an investment in Warrants that are exercisable for UHI's common stock, subject to the U.S. Federal Communications Commission's restrictions on foreign ownership, in whole or in part, at an exercise price of U.S.\$0.01 per Warrant share, considering that the original value of U.S.\$1,125 million invested by the Group in Convertible Debentures is part of the Group's investment in Warrants. The Warrants shall expire and no longer be exercisable after the tenth anniversary of the date of issuance (the Expiration Date); provided, however, the Expiration Date shall automatically be extended for nine successive ten-year periods unless the Group provides written notice to UHI of its election not to so extend the Expiration Date. The Warrants do not bear interest. The fair value of these Warrants at the date of exchange was U.S.\$1,951 million (Ps.30,582,427). The Group reclassified Ps.4,718,175 from accumulated other comprehensive income in consolidated equity to other finance income in the consolidated statement of income for the year ended December 31, 2015, as a result of derecognizing the Convertible Debentures. In July 2015, the Group exercised a portion of these Warrants in the amount of U.S.\$107.4 million

Table of Contents

(Ps.1,695,524) to increase its equity stake in UHI from 7.8% to 10%. These Warrants are classified as available-for-sale financial assets with changes in fair value recognized in accumulated other comprehensive income or loss in consolidated equity. Changes in fair value recognized in other comprehensive income will be reclassified to the statement of income within other finance income, net, in the period the Warrants are exercised, in whole or in part (see Notes 3, 10 and 14).

(2) Through June 2015, the Company's investment in common stock of Imagina was accounted for as an available-for-sale equity financial asset with changes in fair value recognized in consolidated other comprehensive income or loss. In July 2015, the Company acquired additional shares of Imagina for the aggregate cash amount of 19.2 million (Ps.341,710) and increased its equity stake in Imagina from 14.5% to 19.9%. As a result of this transaction, beginning in the third quarter of 2015 the Group (i) holds two of 10 seats on the Board of Directors of Imagina; (ii) began to account for this investment under the equity method due to its ability to exercise significant influence over the operating and financial policies of Imagina; (iii) recognized its investment in Imagina as an associate through the fair value as deemed cost at the transaction date; and (iv) reclassified a cumulative gain of Ps.544,402, related to changes in fair value of the investment in Imagina from accumulated other comprehensive income in consolidated equity to consolidated other finance income for the year ended December 31, 2015 (see Notes 3 and 10).

(3) The Group has an investment in an open ended fund that has as a primary objective to achieve capital appreciation by using a broad range of strategies through investments and transactions in telecom, media and other sectors across global markets, including Latin America and other emerging markets. Shares may be redeemed on a quarterly basis at the Net Asset Value (NAV) per share as of such redemption date. The fair value of this fund is determined by using the NAV per share. The NAV per share is calculated by determining the value of the fund assets and subtracting all of the fund liabilities and dividing the result by the total number of issued shares (see Note 2 (i)).

(4) Held-to-maturity investments represent corporate fixed income securities with long-term maturities. These investments are stated at amortized cost. Maturities of these investments subsequent to December 31, 2015, are as follows: Ps.60,683 in 2017, Ps.13,365 in 2018 and Ps.59,986 thereafter. Held-to-maturity financial assets as of December 31, 2015 and 2014 are denominated primarily in Mexican pesos.

A roll forward of available-for-sale financial assets for the years ended December 31, 2015 and 2014 is presented as follows:

	2015	2014
At January 1	Ps. 34,217,140	Ps. 37,359,819
Foreign exchange differences	4,307,772	2,221,191
Conversion and capitalization of debt instruments (1)		(10,176,600)
Interest income		221,613
Changes in fair value in other comprehensive income	3,947,250	3,648,014
Changes in fair value in other finance income	409,196	943,103
Additional investment in Imagina	341,710	
Exchange of Convertible Debentures	(29,625,750)	
Reclassification of investment in Imagina	(1,568,401)	
Partial exercise of Warrants	(1,695,524)	
Warrants	30,582,427	
At December 31	Ps. 40,915,820	Ps. 34,217,140

(1) In connection with the acquisition of Cablecom (see Note 3).

The maximum exposure to credit risk of the investments in financial instruments as of December 31, 2015 and 2014 is the carrying value of the financial assets mentioned above.

Table of Contents**10. Investments in Associates and Joint Ventures**

At December 31, 2015 and 2014, the Group had the following investments in associates and joint ventures accounted for by the equity method:

(1) The Group accounts for its investment in common stock of UHI, the parent company of Univision, under the equity method due to the Group's ability to exercise significant influence, as defined under IFRS, over UHI's operations. The Group has the ability to exercise significant influence over the operating and financial policies of UHI because the Group (i) as of December 31, 2015 and 2014, owned 1,110,382 and 842,850 Class C shares of common stock of UHI, respectively, representing 10% and 7.8%, respectively, of the outstanding total shares of UHI as of each of those dates; (ii) as of December 31, 2015, held Warrants exercisable for common stock of UHI equivalent to approximately 26% equity stake of UHI on a fully-diluted, as-converted basis, subject to certain conditions, laws and regulations, and as of December 31, 2014, held Convertible Debentures due 2025 issued by UHI with an interest rate of 1.5% per annum receivable on a quarterly basis, which could have been converted into additional 4,858,485 shares (subject to adjustment as provided in the debentures) of common stock of UHI equivalent to approximately 30% equity stake of UHI on a fully-diluted, as-converted basis, at the option of the Group, subject to certain conditions, laws and regulations; (iii) as of December 31, 2015 and 2014, had three officers and one director of the Company designated as members of the Board of Directors of UHI, which was composed of 18 and 20 directors, respectively, of 22 available board seats; and (iv) was party to a program license agreement, as amended, with Univision, an indirect wholly-owned subsidiary of UHI, pursuant to which Univision has the right to broadcast certain Televisa content in the United States (Program License Agreement), and to another program license agreement pursuant to which the Group has the right to broadcast certain Univision's content in Mexico (Mexican License Agreement), in each case through the later of 2025 (2030 upon consummation of a qualified public equity offering of UHI) or 90 months after the Group has sold two-thirds of its initial investment in UHI made in December 2010. In January 2014, a group of institutional investors made a capital contribution in UHI, by which the Group's percentage equity stake in UHI decreased from 8% to 7.8% (see Notes 3, 9, 14, 19 and 22).

(2) OCEN is a majority-owned subsidiary of Corporación Interamericana de Entretenimiento, S.A.B. de C.V., and is engaged in the live entertainment business in Mexico. The investment in OCEN included a goodwill of Ps.359,613 as of December 31, 2015 and 2014 (see Note 19).

(3) GTAC was granted a 20-year contract for the lease of a pair of dark fiber wires held by the Mexican Federal Electricity Commission and a concession to operate a public telecommunications network in Mexico with an expiration date in 2030. GTAC is a joint venture in which a subsidiary of the Company, a subsidiary of Grupo de Telecomunicaciones Mexicanas, S.A. de C.V. and a subsidiary of Megacable, S.A. de C.V. have an equal equity participation of 33.3%. GTAC started operations in the second half of 2011 and commercial services in the first quarter of 2012. In June 2010, a subsidiary of the Company entered into a long-term credit facility agreement to provide financing to GTAC for up to Ps.688,217, with an annual interest rate of the Mexican Interbank Interest Rate (Tasa de Interés Interbancaria de Equilibrio or TIIE) plus 200 basis points. Under the terms of this agreement, principal and interest are payable at dates agreed by the parties, between 2013 and 2021. As of December 31, 2015 and 2014, GTAC had used a principal amount of Ps.661,183 and Ps.628,683, respectively, under this credit facility. During 2015 and 2014, GTAC paid principal and interest to the Group in connection with this credit facility in the aggregate amount of Ps.99,018 and Ps.166,614, respectively. Also, a subsidiary of the Company entered into supplementary long-term loans to provide additional financing to GTAC for an aggregate principal amount of Ps.246,019, with an annual interest of TIIE plus 200 basis points payable on a monthly basis and principal maturities through 2023, 2024 and 2025. The net investment in GTAC as of December 31, 2015 and 2014, included amounts receivable in connection with this long-term credit facility and supplementary loans to GTAC in the aggregate amount of Ps.684,259 and Ps.677,315, respectively (see Note 14).

During the fourth quarter of 2015 and 2014, the Group monitored the market associated with its Publishing business, which is classified into the Other Businesses segment, which has experienced a general slow-down in Latin America. Accordingly, the Group reduced its cash flow expectations for some of its foreign operations. As a result, the Group compared the fair value of the goodwill and trademarks in the reporting units with the related carrying value and recorded an aggregate Ps.131,065 and Ps.253,279, respectively, pre-tax impairment charge in other expense, net, in the consolidated statements of income for the years ended December 31, 2015 and 2014.

The key assumptions used for fair value calculations of goodwill and intangible assets in 2015 were as follows (see Note 14):

	Other Businesses		Cable	
	Minimum	Maximum	Minimum	Maximum
Long-term growth rate	3.20%	4.70%	3.50%	3.80%
Discount rate	12.70%	17.30%	11.50%	12.40%

The key assumptions used for fair value calculations of goodwill and intangible assets in 2014 were as follows:

	Other Businesses		Cable	
	Minimum	Maximum	Minimum	Maximum
Long-term growth rate	3.50%	3.90%	3.50%	3.50%
Discount rate	13.60%	19.40%	10.30%	10.70%

As described in Note 2 (k), beginning in the third quarter of 2015, the Company's management estimated the remaining useful life of four years for acquired trademarks in specific locations of Mexico in connection with the migration to an internally developed trademark in the Group's Cable segment. Amortization of trademarks with a finite useful life amounted to Ps.151,305 for the year ended December 31, 2015. Assuming a useful life of four years, amortization of these trademarks in future years are estimated in the following amounts:

- (1) The Senior Notes due 2018, 2025, 2026, 2032, 2037, 2040, 2043, 2045 and 2046, in the outstanding principal amount of U.S.\$500 million, U.S.\$600 million, U.S.\$300 million, U.S.\$300 million, Ps.4,500,000, U.S.\$600 million, Ps.6,500,000, U.S.\$1,000 million and U.S.\$900 million, respectively, are unsecured obligations of the Company, rank equally in right of payment with all existing and future unsecured and unsubordinated indebtedness of the Company, and are junior in right of payment to all of the existing and future liabilities of the Company's subsidiaries. Interest on the Senior Notes due 2018, 2025, 2026, 2032, 2037, 2040, 2043, 2045 and 2046, including additional amounts payable in respect of certain Mexican withholding taxes, is 6.31%, 6.97%, 4.86%, 8.94%, 8.93%, 6.97%, 7.62%, 5.26% and 6.44% per annum, respectively, and is payable semi-annually. These Senior Notes may not be redeemed prior to maturity, except (i) in the event of certain changes in law affecting the Mexican withholding tax treatment of certain payments on the securities, in which case the securities will be redeemable, as a whole but not in part, at the option of the Company; and (ii) in the event of a change of control, in which case the Company may be required to redeem the securities at 101% of their principal amount. Also, the Company may, at its own option, redeem the Senior Notes due 2018, 2025, 2026, 2037, 2040, 2043 and 2046, in whole or in part, at any time at a redemption price equal to the greater of the principal amount of these Senior Notes or the present value of future cash flows, at the redemption date, of principal and interest amounts of the Senior Notes discounted at a fixed rate of comparable U.S. or Mexican sovereign bonds. The Senior Notes due 2018, 2026, 2032, 2040, 2043, 2045 and 2046 were priced at 99.280%, 99.385%, 99.431%, 98.319%, 99.733%, 96.534%, and 99.677%, respectively, for a yield to maturity of 6.097%, 4.70%, 8.553%, 6.755%, 7.27%, 5.227% and 6.147%.

- respectively. The Senior Notes due 2025 were issued in two aggregate principal amounts of U.S.\$400 million and U.S.\$200 million, and were priced at 98.081% and 98.632%, respectively, for a yield to maturity of 6.802% and 6.787%, respectively. The agreement of these Senior Notes contains covenants that limit the ability of the Company and certain restricted subsidiaries engaged in the Group's Content segment, to incur or assume liens, perform sale and leaseback transactions, and consummate certain mergers, consolidations and similar transactions. The Senior Notes due 2018, 2025, 2026, 2032, 2037, 2040, 2045 and 2046 are registered with the U.S. Securities and Exchange Commission (SEC). The Senior Notes due 2043 are registered with both the U.S. SEC and the Mexican Banking and Securities Commission (Comisión Nacional Bancaria y de Valores).
- (2) In 2010, 2014 and May 2015, the Company issued Notes (Certificados Bursátiles) due 2020, 2021 and 2022, respectively, through the Mexican Stock Exchange (Bolsa Mexicana de Valores) in the aggregate principal amount of Ps.10,000,000, Ps.6,000,000 and Ps.5,000,000, respectively. Interest on the Notes due 2020 is 7.38% per annum and is payable semi-annually. Interest on the Notes due 2021 and 2022 is the Equilibrium Interbank Interest Rate (Tasa de Interés Interbancaria de Equilibrio or TIIE) plus 35 basis points per annum and is payable every 28 days. The Company may, at its own option, redeem the Notes due 2020, in whole or in part, at any semi-annual interest payment date at a redemption price equal to the greater of the principal amount of the outstanding Notes and the present value of future cash flows, at the redemption date, of principal and interest amounts of the Notes discounted at a fixed rate of comparable Mexican sovereign bonds. The Company may, at its own option, redeem the Notes due 2021 and 2022, at any date at a redemption price equal to the greater of the principal amount of the outstanding notes and an average price calculated from prices to be provided at the redemption date by two Mexican financial pricing companies. The agreement of these Notes contains covenants that limit the ability of the Company and certain restricted subsidiaries appointed by the Company's Board of Directors, and engaged in the Group's Content segment, to incur or assume liens, perform sale and leaseback transactions, and consummate certain mergers, consolidations and similar transactions.
- (3) In 2015, includes a long-term credit agreement entered into by the Company with a Mexican bank in the principal amount of Ps.2,500,000, with principal maturities between 2016 and 2018, and an annual interest rate payable on a monthly basis of 28-day TIIE plus 117.5 basis points. Under the terms of this credit agreement, the Company is required to (a) maintain certain financial coverage ratios related to indebtedness and interest expense; and (b) comply with the restrictive covenant on spin-offs, mergers and similar transactions. In 2015 and 2014, includes a long-term bank loan entered into by the Company with a Mexican bank in September 2014, in the principal amount of Ps.1,782,000, with a maturity in 2016, and an annual interest rate payable on a monthly basis of 28-day TIIE plus 15 basis points in 2014, a range between 30 and 70 basis points in 2015, and a range between 70 and 80 basis points in 2016. In 2015, also includes a credit agreement entered into by the Company with a Mexican bank in the aggregate principal amount of Ps.500,000, with a maturity in 2016, and an annual interest rate payable on a monthly basis of 28-day TIIE plus a range between 0 and 30 basis points in 2015, and a range between 30 and 80 basis points in 2016. The proceeds of this credit agreement were used by the Group to prepay long-term debt previously entered into by Telecable and related accrued interest in the aggregate amount of Ps.507,632 (see Note 3). In June 2015, the Company prepaid long-term bank loans in the aggregate amount of Ps.1,600,000, with original principal maturities between 2017 and 2021, and an annual interest rate payable on a monthly basis of a range between 8.77% and 9.4%. The aggregate amount paid by the Company amounted to Ps.1,814,312, which included related accrued interest and fees. In September 2014, the Company prepaid long-term credits in the aggregate principal amount of Ps.4,500,000, which were originally due in 2016.
- (4) In June 2015, Sky prepaid two long-term loans in the principal amount of Ps.1,400,000 and Ps.2,100,000, with an original maturity in 2016, and annual interest of TIIE plus 24 basis points and 8.74%, respectively, which was payable on a monthly basis. The aggregate amount paid by Sky amounted to Ps.3,651,712, which included related accrued interest, the settlement of a related derivative contract, and fees. This prepayment was funded primarily by a long-term loan made by the Company in the principal amount of Ps.3,500,000, with a maturity in 2022, and an annual interest rate of 7.38%, which is payable on a monthly basis.
- (5) In 2015, included outstanding balances in the aggregate principal amount of Ps.2,709,287 in connection with certain credit agreements entered into by TVI with Mexican banks, with maturities between 2016 and 2022, bearing interest at an annual rate of TIIE plus a range between 130 and 250 basis points, which is payable on a monthly basis. In 2014, included outstanding balances in the aggregate principal amount of Ps.1,600,607 in connection with certain credit agreements entered into by TVI with Mexican banks, with maturities between 2015 and 2019, bearing interest at an annual rate of TIIE plus a range between 140 and 250 basis points, which is payable on a monthly basis. Under the terms of these credit agreements, TVI is required to comply with certain restrictive covenants and financial coverage ratios.
- (6) Starting from the fourth quarter of 2012, Sky is obligated to pay a monthly fee of U.S.\$3.0 million under a capital lease agreement entered into with Intelsat Global Sales & Marketing Ltd. (Intelsat) in March 2010 for satellite signal reception and retransmission service from 24 KU-band transponders on satellite IS-21, which became operational in October 2012. The service term for IS-21 will end at the earlier of (a) the end of 15 years or (b) the date IS-21 is taken out of service (see Note 11).
- (7) Includes minimum lease payments of property and equipment under leases that qualify as finance leases. In 2015 and 2014, includes Ps.705,806 and Ps.702,630, respectively, in connection with a lease agreement entered into by a subsidiary of the Company and GTAC, for the right to use certain capacity of a telecommunications network through 2029 (see Note 19). This lease agreement provides for annual payments through 2020 and 2021. Other finance leases have terms which expire at various dates between 2016 and 2019.
- (8) Total debt is presented net of unamortized finance costs as of December 31, 2015 and 2014, in the aggregate amount of Ps.1,387,876 and Ps.1,268,856, respectively and interest payable in the aggregate amount of Ps.1,184,221 and Ps.974,904, respectively.

As of December 31, 2015, the Company is in compliance with all covenants contained in the debt agreements.

As of December 31, 2015, the outstanding principal amounts of U.S.\$330.5 million (Ps.5,689,704) and U.S.\$2,035.5 million (Ps.35,042,577) of long-term debt of the Company are designated as hedging instruments of the net investment and foreign currency fair value, respectively of the

14. Financial Instruments

The Group's financial instruments presented in the consolidated statements of financial position included cash and cash equivalents, temporary investments, accounts and notes receivable, a long-term loan receivable from GTAC, Convertible Debentures issued by UHI with an option to convert these debentures into common stock of UHI, which were exchanged in July 2015 for Warrants that are exercisable for UHI's common stock, debt securities classified as held-to-maturity investments, investments in securities in the form of an open-ended fund classified as available-for-sale investments, accounts payable, debt, and derivative financial instruments. For cash and cash equivalents, temporary investments, accounts receivable, accounts payable, and short-term notes payable due to banks and other financial institutions, the carrying amounts approximate fair value due to the short maturity of these instruments. The fair value of the Group's long-term debt securities are based on quoted market prices.

The fair value of the long-term loans that the Group borrowed from leading Mexican banks (see Note 13) has been estimated using the borrowing rates currently available to the Group for bank loans with similar terms and average maturities. The fair value of held-to-maturity securities, available-for-sale investments, and currency option and interest rate swap agreements were determined by using valuation techniques that maximize the use of observable market data.

The carrying and estimated fair values of the Group's non-derivative financial instruments as of December 31, 2015 and 2014, were as follows:

(1) Includes derivative financial instruments of Ps.2,894 that were classified in current assets in the consolidated statement of financial position as of December 31, 2014.

(a) Sky has entered into derivative transaction agreements through April 2016 to hedge the variable interest rate exposure resulting from a Mexican peso loan of a total principal amount of Ps.1,400,000. Under these transactions, Sky receives 28-day payments based on an aggregate notional amount of Ps.1,400,000 at an annual variable rate of TIE+24 basis points and makes 28-day payments based on the

same notional amount at an annual fixed rate of 8.415%. As a result of the change in fair value of these transactions, the Group recorded a loss of Ps.8,263, Ps.25,951 and Ps.37,445 in consolidated other finance expense for the years ended December 31, 2015, 2014 and 2013, respectively (see Note 13).

(b) The Company entered into derivative agreements (knock-out option calls) with financial institutions to reduce the adverse effect of exchange rates on the Senior Notes due 2018, 2025, 2032 and 2040, and hedge against severe Mexican peso depreciation on interest payments made in the second half of 2012, 2013, 2014 and 2015. Under these transactions, the Company had the option to receive an aggregate amount of U.S.\$135.0 million in exchange for an aggregate amount of Ps.2,497,500 as of December 31, 2014 with a maturity date in November 2015, and U.S.\$270 million in exchange for aggregate amount of Ps.4,995,000 as of December 31, 2013, with maturity dates in November 2014 and November 2015, only if the exchange rate of the Mexican peso during each agreement period was not above a limit agreed between the parties. If the exchange rate exceeded such limit at any time during the agreement period, the option would be extinguished. The Company has recognized the change in fair value of these transactions in consolidated other finance expense.

(c) The Company has entered into a derivative transaction agreement (interest rate swap) through March 2018 to hedge the variable interest rate exposure resulting from a Mexican peso loan of a total principal amount of Ps.2,500,000. Under this transaction, the Company receives monthly payments based on an aggregate notional amount of Ps.2,500,000 through September 2016, Ps.1,875,000 through March 2017, Ps.1,250,000 through September 2017, and Ps.625,000 through March 2018, at an annual variable rate of TIIE and makes monthly payments based on the same notional amount at an annual fixed rate of 7.4325%. The Company has recognized the change in fair value of this transaction in other comprehensive income or loss attributable to stockholders of the Company, and in consolidated other finance income or expense at the time of the interest payments. The Company has recognized the change in fair value of this transaction as an accounting hedge, and recorded a cumulative loss of Ps.116,108 in other comprehensive income or loss attributable to stockholders of the Company as of December 31, 2015. In 2015, the Company recorded a loss of Ps.104,621 for this transaction agreement in consolidated other finance expense.

(d) In 2015, 2014 and 2013, TVI entered into several derivative transaction agreements (interest rate swaps) with two financial institutions from August 2013 through May 2022 to hedge the variable interest rate exposure resulting from a Mexican peso loan of a total principal amount of Ps.750,000, Ps.300,000 and Ps.500,000, respectively. Under these transactions, the Company receives monthly payments based on aggregate notional amounts of Ps.750,000, Ps.300,000 and Ps.500,000 and makes payments based on the same notional at annual fixed rate of 5.3875%, 4.9392% and 5.2189%, respectively. As a result of the change in fair value of these transactions, in the years ended December 31, 2015, 2014 and 2013, TVI recorded a loss of Ps.28,659, Ps.22,147 and Ps.23,588, respectively, in consolidated other finance expense.

(e) In March 2015 and April 2014, the Company entered into a derivative transaction agreement (interest rate swap) through April 2021 to hedge the variable interest rate exposure resulting from TIIE plus 0.35% Notes due 2021. Under this transaction, the Company receives 28-day TIIE payments based on a principal amount of Ps.6,000,000 and makes 28-day payments based on the same notional amount at an annual fixed rate of 5.9351%. The Company has recognized the change in fair value of this transaction as an accounting hedge, and recorded a cumulative loss of Ps.99,567 in other comprehensive income or loss attributable to stockholders of the Company for the year ended December 31, 2015. In 2015, the Company recorded a loss of Ps.136,198 for this transaction agreement in consolidated other finance expense.

(f) In June 2015, the Company entered into a derivative transaction agreement (interest rate swap) through May 2022 to hedge the variable interest rate exposure resulting from TIIE plus 0.35% Notes due 2022. Under this

transaction, the Company receives 28-day THIE payments based on a principal amount of Ps.1,000,000 and makes 28-day payments based on the same notional amount at an annual fixed rate of 5.9075%. The Company has recognized the change in fair value of this transaction as an accounting hedge, and recorded a loss of Ps.3,274 in other comprehensive income or loss attributable to stockholders of the Company for the year ended December 31, 2015. In 2015, the Company recorded a loss of Ps.12,097 for this transaction agreement in consolidated other finance expense.

Fair Value Measurement

Assets and Liabilities Measured at Fair Value on a Recurring Basis

All fair value adjustments as of December 31, 2015 and 2014 represent assets or liabilities measured at fair value on a recurring basis. In determining fair value, the Group's financial instruments are separated into three categories: temporary investments, available-for-sale investments and derivative instruments.

Financial assets and liabilities measured at fair value as of December 31, 2015 and 2014:

	Balance as of December 31, 2015	Quoted Prices in Active Markets for Identical Assets (Level 1)	Internal Models with Significant Observable Inputs (Level 2)	Internal Models with Significant Unobservable Inputs (Level 3)

Temporary Investments

Temporary investments include highly liquid securities, including without limitation debt with a maturity of three months, or over, and up to one year at the consolidated statement of financial position date, stock and other financial instruments, or a combination thereof, denominated principally in U.S. dollars and Mexican pesos (see Notes 2 (f) and 6).

Temporary investments are generally valued using quoted market prices or alternative pricing sources with reasonable levels of price transparency. The types of instruments valued based on quoted market prices in active markets include mostly fixed short-term deposits, equities and corporate fixed income securities denominated in U.S. dollars and Mexican pesos. Such instruments are classified in Level 1 or Level 2 depending on the observability of the significant inputs.

Available-for-Sale Financial Assets

Investments in debt securities or with readily determinable fair values, not classified as held-to-maturity are classified as available-for-sale, and are recorded at fair value with unrealized gains and losses included in consolidated stockholders' equity as accumulated other comprehensive result.

Available-for-sale financial assets are generally valued using quoted market prices or alternative pricing sources with reasonable levels of price transparency. Such instruments are classified in Level 1, Level 2, and Level 3 depending on the observability of the significant inputs.

Table of Contents

As of December 31, 2014 and 2013, the Group has made judgments and used several estimates and assumptions for determining the fair value calculations of the UHI Convertible Debentures due 2025, the UHI embedded derivative and the shares of common stock of Imagina. These estimates and assumptions include, among others, expected long-term growth rates and operating margins, which are used to calculate projected future cash flows. The Group also utilizes risk-adjusted discount rates to determine weighted average cost of capital. All of our estimates are based on historical data, internal estimates and observable external sources when available, and are consistent with the strategic plans of the underlying business.

Available-for-Sale Investments Open Ended Fund

The Group has an investment in an open ended fund that has as a primary objective to achieve capital appreciation by using a broad range of strategies through investments and transactions in telecom, media and other sectors across global markets, including Latin America and other emerging markets. Shares may be redeemed on a quarterly basis at the NAV per share as of such redemption date (see Notes 4 and 9).

UHI Convertible Debentures due 2025

As described in Note 9, in December 2010, the Company made a cash investment in the form of Convertible Debentures due 2025 issued by UHI, the parent company of Univision, in the principal amount of U.S.\$1,125 million (Ps.16,606,463), which were convertible at the Company's option into additional shares equivalent to approximately 30% equity stake of UHI, subject to existing laws and regulations in the United States, and other conditions. The Group's option of converting these debentures into an equity stake of UHI was accounted for as an embedded derivative with changes in fair value recognized in consolidated income (see Notes 4 and 9).

The Group determined the fair value of the Convertible Debentures using the income approach based on post-tax discounted cash flows. The income approach requires management to make judgments and involves the use of significant estimates and assumptions. These estimates and assumptions include long-term growth rates and operating margins used to calculate projected future cash flows, risk-adjusted discount rates based on weighted average cost of capital within a range of 8% to 10%, among others. The Group's estimates for market growth were based on historical data, various internal estimates and observable external sources when available, and are based on assumptions that are consistent with the strategic plans and estimates used to manage the underlying business. Since the described methodology is an internal model with significant unobservable inputs, the Convertible Debentures were classified in Level 3.

In the case of the embedded derivative in the UHI Convertible Debentures, the Group used recognized industry standard option pricing models (OPM). The OPM requires management to make judgments and involves the use of significant estimates and assumptions. These estimates and assumptions include UHI stock's spot price at valuation date and the stock's expected volatility. UHI stock's spot price at valuation date was obtained by using a discounted projected cash flow model that used the inputs described in the paragraph above. UHI stock's volatility was obtained from publicly available information about comparable companies' stock through determining an average of such companies' annual volatility. Since the described methodology is an internal model with significant unobservable inputs, the UHI embedded derivative was classified as Level 3.

Unobservable inputs that contributed to a significantly higher fair value measurement of the Group's investment in UHI as of December 31, 2014, included better financial performance primarily in consolidated revenue and net income for the years ended December 31, 2014 and 2013

compared to the prior year, as well as higher credit ratings. Other assumptions used as of December 31, 2014 included UHI stock's spot price of U.S.\$402 and UHI stock's expected volatility of 24%.

UHI Warrants

As described in Note 3, in July 2015, the Group exchanged its investment in U.S.\$1,125 million principal amount of Convertible Debentures due 2025 issued by UHI for Warrants that are exercisable for UHI's common stock.

The Group determined the fair value of its investment in Warrants using the Black-Scholes model (BSM). The BSM involves the use of significant estimates and assumptions. These estimates and assumptions include the UHI stock's spot price at valuation date and the stock's expected volatility. UHI stock's price at valuation date was obtained by using a discounted projected cash flow model. UHI stock's volatility was obtained from publicly available information of comparable companies' stock through determining an average of such companies' annual volatility. Since the described methodology was an internal model with significant unobservable inputs, the UHI Warrants are classified as Level 3.

Table of Contents

Unobservable inputs used as of December 31, 2015 included UHI stock's spot price of U.S.\$443 per share and UHI stock's expected volatility of 29%.

Imagina Equity Financial Instrument

The significant unobservable inputs related to the fair value measurement of the Company's investment in Imagina's common stock for the year ended December 31, 2014, were (a) a discount rate of 9.59%, and (b) an exit multiple of 9.71 times.

Ares Convertible and Long-term Debt Instruments

As described in Note 3, in July 2013, the Group made an investment in the principal amount of Ps.7,000,000 in convertible debt instruments which, subject to regulatory approvals, would allow the Group to acquire 95% of the equity interest of Ares, owner of 51% of the equity interest of Cablecom. In addition, as part of this transaction, the Group also invested in a long-term debt instrument issued by Ares in the principal amount of U.S.\$195 million. The Ares convertible and long-term debt instruments were converted into equity in August 2014.

The Group determined the fair value of the convertible debt instruments as of December 31, 2013 using the expected present value valuation methodology based on post-tax discontinued cash flows. The expected present value methodology required management to make judgments and involved the use of significant estimates and assumptions. These estimates and assumptions included long-term growth rates, operating margins used to calculate projected future cash flow and risk-adjusted discount rates based on weighted average cost of capital within a range of 5.5% to 6.5%, among others. The Group's estimates for market growth were based on current conditions and reasonable forecasts, various internal estimates and observable external sources when available, and were based on assumptions that were consistent with the strategic plans and estimates used to manage the underlying business. Since the described methodology was an internal model with significant unobservable inputs, the convertible debt instruments were classified in Level 3 as of December 31, 2013.

Disclosures for Each Class of Assets and Liabilities Subject to Recurring Fair Value Measurements Categorized Within Level 3

For the year ended December 31, 2013, there were no gains or losses for the period included in consolidated net income that were attributable to the change in unrealized gains or losses relating to the Group's assets categorized within Level 3 held at the end of that year.

The Corporate Finance Department of the Company has established rules for a proper portfolio asset classification according to the fair value hierarchy defined by the IFRSs. On a monthly basis, any new assets recognized in the portfolio are classified according to this criterion. Subsequently, there is a quarterly review of the portfolio in order to analyze the need for a change in classification of any of these assets.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Sensitivity analysis is performed on the Group's investments with significant unobservable inputs (Level 3) in order to obtain a reasonable range of possible alternative valuations. This analysis is carried out by the Corporate Finance Department of the Company.

As of December 31, 2015 and 2014 the effect on consolidated income and consolidated equity of changing the main assumptions used for the measurement of Level 3 financial instruments for other reasonably possible models, taking the highest or lowest value of the range reasonably possible, would be as follows:

	Main Assumptions Used	Sensitivity	Potential Impact on Consolidated Income Statement		Potential Impact on Consolidated Equity

Derivative Financial Instruments

Derivative financial instruments include swaps, forwards and options (see Notes 2 (v) and 4).

The Group's derivative portfolio is entirely over-the-counter (OTC). The Group's derivatives are valued using industry standard valuation models; projecting future cash flows discounted to present value, using market-based observable inputs including interest rate curves, foreign exchange rates, and forward and spot prices for currencies.

When appropriate, valuations are adjusted for various factors such as liquidity, bid/offer spreads and credit spreads considerations. Such adjustments are generally based on available market evidence. In the absence of such evidence, management's best estimate is used. All derivatives are classified in Level 2.

Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis

The majority of the Group's non-financial instruments, which include goodwill, intangible assets, inventories, transmission rights and programming and property, plant and equipment, are not required to be carried at fair value on a recurring basis. However, if certain triggering events occur (or at least annually in the fourth quarter for goodwill and indefinite-lived intangible assets) such that a non-financial instrument is required to be evaluated for impairment, a resulting asset impairment would require that the non-financial instrument be recorded at the lower of carrying amount or its fair value.

The impairment test for goodwill involves a comparison of the estimated fair value of each of the Group's reporting units to its carrying amount, including goodwill. The Group determines the fair value of a reporting unit using a combination of a discounted cash flow analysis and a market-based approach, which utilize significant unobservable inputs (Level 3) within the fair value hierarchy. The impairment test for intangible assets not subject to amortization involves a comparison of the estimated fair value of the intangible asset with its carrying value. The Group determines the fair value of the intangible asset using a discounted cash flow analysis, which utilizes significant unobservable inputs (Level 3) within the fair value hierarchy. Determining fair value requires the exercise of significant judgment, including judgment about appropriate discount rates, perpetual growth rates, the amount and timing of expected future cash flows for a period of time that comprise five

years, as well as relevant comparable company earnings multiples for the market-based approach.

Once an asset has been impaired, it is not remeasured at fair value on a recurring basis; however, it is still subject to fair value measurements to test for recoverability of the carrying amount.

15. Post-employment Benefits

Certain companies in the Group have collective bargaining contracts which include defined benefit pension plans and other retirement benefits for substantially all of their employees. Additionally, the Group has defined benefit pension plans for certain eligible executives and employees. All pension benefits are based on salary and years of service rendered.

Under the provisions of the Mexican labor law, seniority premiums are payable based on salary and years of service to employees who resign or are terminated prior to reaching retirement age. Some companies in the Group have seniority premium benefits which are greater than the legal requirement. After retirement age employees are no longer eligible for seniority premiums.

Post-employment benefits are actuarially determined by using nominal assumptions and attributing the present value of all future expected benefits proportionately over each year from date of hire to age 65.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Table of Contents

The Group used actuarial assumptions to determine the present value of defined benefit obligations, as follows:

	2015	2014
Discount rate	6.9%	7%
Salary scale	5%	5%
Inflation rate	3.5%	3.5%

Had the discount rate of 6.9% used by the Group in 2015 been decreased by 50 basis points, the impact on defined benefit obligation would have been an increase of Ps.2,588,549 as of December 31, 2015.

Had the discount rate of 7.0% used by the Group in 2014 been decreased by 50 basis points, the impact on defined benefit obligation would have been an increase of Ps.2,539,000 as of December 31, 2014.

The reconciliation between defined benefit obligations and post-employment benefit liability (asset) in the consolidated statements of financial position as of December 31, 2015 and 2014, is presented as follows:

Pension and Seniority Premium Plan Assets

The plan assets are invested according to specific investment guidelines determined by the technical committees of the pension plan and seniority premiums trusts and in accordance with actuarial computations of funding requirements. These investment guidelines require a minimum investment of 30% of the plan assets in fixed rate instruments, or mutual funds comprised of fixed rate instruments. The plan assets that are invested in mutual funds are all rated AA or AAA by at least one of the main rating agencies. These mutual funds vary in liquidity characteristics ranging from one day to one month. The investment goals of the plan assets are to preserve principal, diversify the portfolio, maintain a high degree of liquidity and credit quality, and deliver competitive returns subject to prevailing market conditions. Currently, the plan assets do not engage in the use of financial derivative instruments. The Group's target allocation in the foreseeable future is to maintain approximately 20% in equity securities and 80% in fixed rate instruments.

Table of Contents

The weighted average asset allocation by asset category as of December 31, 2015 and 2014, was as follows:

	2015	2014
Equity securities (1)	27.6%	28.5%
Fixed rate instruments	72.4%	71.5%
Total	100.0%	100.0%

(1) Included within plan assets at December 31, 2015 and 2014, are shares of the Company held by the trust with a fair value of Ps.291,138 and Ps.313,473, respectively.

The weighted average expected long-term rate of return of plan assets of 6.9% and 7.0% were used in determining net periodic pension cost in 2015 and 2014, respectively. The rate used reflected an estimate of long-term future returns for the plan assets. This estimate was primarily a function of the asset classes (equities versus fixed income) in which the plan assets were invested and the analysis of past performance of these asset classes over a long period of time. This analysis included expected long-term inflation and the risk premiums associated with equity investments and fixed income investments.

The following table summarizes the Group's plan assets measured at fair value on a recurring basis as of December 31, 2015 and 2014:

(1) By a Company's trust in connection with the Company's Long-Term Retention Plan described below.

Under the Company's bylaws, the Company's Board of Directors consists of 20 members, of which the holders of Series A Shares, Series B Shares, Series D Shares and Series L Shares, each voting as a class, are entitled to elect eleven members, five members, two members and two members, respectively.

Holders of Series D Shares are entitled to receive a preferred dividend equal to 5% of the nominal capital attributable to those Shares (nominal Ps.0.00034412306528 per share) before any dividends are payable in respect of Series A Shares, Series B Shares or Series L Shares. Holders of Series A Shares, Series B Shares and Series L Shares are entitled to receive the same dividends as holders of Series D Shares if stockholders declare dividends in addition to the preferred dividend that holders of Series D Shares are entitled to. If the Company is liquidated, Series D Shares are entitled to a

liquidation preference equal to the nominal capital attributable to those Shares nominal Ps.0.00688246130560 per share before any distribution is made in respect of Series A Shares, Series B Shares and Series L Shares.

At December 31, 2015, the restated for inflation tax value of the Company's common stock was Ps.43,869,927. In the event of any capital reduction in excess of the tax value of the Company's common stock, such excess will be treated as dividends for income tax purposes (see Note 17).

Long-Term Retention Plan

The Company has adopted a Long-Term Retention Plan for the conditional sale of the Company's capital stock to key Group employees under a special purpose trust.

At the Company's annual general ordinary stockholders' meeting held on April 2, 2013, the Company's stockholders approved that the number of CPOs that may be granted annually under the Long-Term Retention Plan shall be up to 1.5% of the capital of the Company. As of December 31, 2015, approximately 86.5 million CPOs or CPO equivalents that were transferred to Plan Participants were sold in the open market during 2013, 2014 and 2015. Additional sales will continue to take place during or after 2016.

The special purpose trust created to implement the Long-Term Retention Plan as of December 31, 2015 had approximately 204.8 million CPOs or CPO equivalents. This figure is net of approximately 27.0, 24.7 and 24.3 million CPOs or CPO equivalents vested in 2013, 2014 and 2015, respectively. Of the 204.8 million CPOs or CPO equivalents approximately 73% are in the form of CPOs and the remaining 27% are in the form of Series A, Series B, Series D and Series L Shares. As of December 31, 2015, approximately 114.7 million CPOs or CPO equivalents have been reserved and will become vested between 2016 and 2018 at prices ranging from Ps.59.00 to Ps.90.59 per CPO which may be reduced by dividends, a liquidity discount and the growth of the consolidated or relevant segment Operating Income Before Depreciation and Amortization, or OIBDA (including OIBDA affected by acquisitions) between the date of award and the vesting date, among others.

As of December 31, 2015, the designated Retention Plan trust owned approximately 2.6 million CPOs or CPOs equivalents, which have been reserved to a group of employees, and may be sold at a price at least of Ps.36.52 per CPO, subject to certain conditions, in vesting periods between 2018 and 2023.

The Group has determined its share-based compensation expense (see Note 2 (x)) by using the Black-Scholes pricing model at the date on which the stock was conditionally sold to personnel under the Company's Long-Term Retention Plan, on the following arrangements and weighted-average assumptions:

In accordance with Mexican law, the legal reserve must be increased by 5% of annual net profits until it reaches 20% of the capital stock amount. As of December 31, 2015 and 2014, the Company's legal reserve amounted to Ps.2,139,007 and Ps.2,139,007, respectively and was classified into retained earnings in consolidated equity. As the legal reserve reached 20% of the capital stock amount, no additional increases were required in 2015, 2014 and 2013. This reserve is not available for dividends, but may be used to reduce a deficit or may be transferred to stated capital. Other appropriations of profits require the vote of the Company's stockholders.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

In April 2013, the Company's stockholders approved the payment of a dividend of Ps.0.35 per CPO and Ps.0.002991452991 per share of Series A , B , D and L Shares, not in the form of a CPO, which was paid in cash in May 2013, in the aggregate amount of Ps.1,084,192 (see Note 16).

In December 2013, the Company's stockholders approved the payment of a dividend of Ps.0.35 per CPO and Ps.0.002991452991 per share of Series A , B , D and L Shares, not in the form of a CPO, which was paid in cash in December 2013 in the aggregate amount of Ps.1,084,192 (see Note 16).

In 2014, the Company's stockholders did not approve any dividend payment, as the dividend approved by the Company's stockholders in December 2013 was in lieu of the annual dividend for 2014 that would otherwise typically have been approved in April 2014.

Table of Contents

In April 2015, the Company's stockholders approved the payment of a dividend of Ps.0.35 per CPO and Ps.0.002991452991 per share of Series A, B, D and L Shares, not in the form of a CPO, which was paid in cash in June 2015 in the aggregate amount of Ps.1,084,192 (see Note 16).

Dividends, either in cash or in other forms, paid by the Mexican companies in the Group will be subject to income tax if the dividends are paid from earnings that have not been subject to Mexican income tax computed on an individual company basis under the provisions of the Mexican Income Tax Law. In this case, dividends will be taxable by multiplying such dividends by a 1.4286 factor and applying to the resulting amount the income tax rate of 30%. This income tax will be paid by the company paying the dividends.

In addition, the 2014 Tax Reform sets forth that entities that distribute dividends to its stockholders who are individuals or foreign residents must withhold 10% thereof for income tax purposes, which will be paid in Mexico. The foregoing will not be applicable when distributed dividends arise from the taxed net earnings account computed on an individual company basis generated through December 31, 2013.

As of December 31, 2015, cumulative earnings that have been subject to income tax and can be distributed by the Company free of Mexican income tax amounted to Ps.59,172,036.

- (a) The Group receives royalties from Univision for programming provided pursuant to a Programming License Agreement (PLA), as amended, pursuant to which Univision has the right to broadcast certain Televisa content in the United States for a term that commenced on January 1, 2011 and ends on the later of 2030 or seven and one-half years after the Group has sold two-thirds of its initial investment in UHI made in December 2010. The amended PLA includes a provision for certain yearly minimum guaranteed advertising, with a value of U.S.\$69.2 million (Ps.1,104,875), U.S.\$73.5 million (Ps.988,032) and U.S.\$72.6 million (Ps.919,823) for the fiscal years 2015, 2014 and 2013, respectively, to be provided by Univision, at no cost, for the promotion of the Group s businesses. The Group also pays royalties to Univision for programming provided pursuant to a Mexico License Agreement, under which the Group has the right to broadcast certain Univision s content in Mexico for the same term as that of the PLA (see Notes 3, 9 and 10).
- (b) Services rendered to Univision in 2015, 2014 and 2013, and Televisa CJ Grand in 2015.
- (c) Services rendered to Univision in 2015 and 2014; GTAC in 2015, 2014 and 2013, and GSF in 2014 and 2013. In September 2014, the investment in GSF, including Iusacell, was sold (see Notes 3 and 10).
- (d) The Group receives revenue from and is charged by affiliates for various services, such as equipment rental, security and other services, at rates which are negotiated. The Group provides management services to affiliates, which reimburse the Group for the incurred payroll and related expenses.
- (e) Advertising services rendered to Univision, OCEN and Editorial Clío, Libros y Videos, S.A. de C.V. (Editorial Clío) in 2015, 2014 and 2013, and Iusacell in 2014 and 2013.
- (f) Includes in 2015 an exceptional income from Univision in the amount of U.S.\$67.6 million (Ps.1,038,314), as a result of the early termination of a technical assistance agreement with Univision, which cash proceeds were received by the Group in April 2015.
- (g) Includes in 2015, 2014 and 2013 interest income from the Group s investment in convertible debentures issued by UHI in the aggregate amount of Ps.142,010, Ps.228,278 and Ps.215,702, respectively (see Note 9).
- (h) In July 2015, the Group recognized in consolidated other finance income, net, a cash amount of U.S.\$135.1 million (Ps.2,194,981) paid by UHI as a payment for the exchange of the Group s former investment in Convertible Debentures issued by UHI for Warrants that are exercisable for UHI s common stock (see Notes 3 and 9).
- (i) In 2015, 2014 and 2013, Sky received services from a subsidiary of DirecTV Latin America for play-out, uplink and downlink of signals.
- (j) Received mainly from Univision in 2015, 2014 and 2013, and Iusacell in 2014 and 2013.

Other transactions with related parties carried out by the Group in the normal course of business include the following:

- (1) A consulting firm controlled by a relative of one of the Company s directors, has provided consulting services and research in connection with the effects of the Group s programming on its viewing audience. Total fees for such services during 2015, 2014 and 2013 amounted to Ps.21,526, Ps.22,469 and Ps.22,032, respectively.
- (2) From time to time, two Mexican banks have made loans to the Group, on terms substantially similar to those offered by the banks to third parties. Some members of the Company s Board serve as Board members of these banks.
- (3) Through April 2014, one of the Company s directors was member of the Board of, as well as a stockholder of, a Mexican company, which is a producer, distributor and exporter of beer in Mexico. Such company purchases advertising services from the Group in connection with the promotion of its products from time to time, paying rates applicable to third-party advertisers for these advertising services.
- (4) Several other current members of the Company s Board serve as members of the Boards and/or are stockholders of other companies, some of which purchased advertising services from the Group in connection with the promotion of their respective products and services, paying rates applicable to third-party advertisers for these advertising services.
- (5) During 2015, 2014 and 2013, a professional services firm in which the current Secretary of the Company s Board maintains an interest provided legal advisory services to the Group in connection with various corporate matters. Total fees for such services amounted to

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

- Ps.59,281, Ps.57,968 and Ps.59,733, respectively.
- (6) During 2014 and 2013, a company related to a former director and executive of the Company, purchased unsold advertising from the Group for a total of Ps.313,682 and Ps.350,172, respectively.
 - (7) During 2015, 2014 and 2013, a professional services firm in which two current directors of the Company maintain an interest provided finance advisory services to the Group in connection with various corporate matters. Total fees for such services amounted to Ps.16,034, Ps.154,336 and Ps.12,712, respectively.
 - (8) A current member of the Company's Board serves as a member of the Board of a Mexican company, which controls the principal chain of convenience stores in Mexico. Such company entered into an agreement with the Group to sell online lottery tickets from the Group's

gaming business in its convenience stores. Total fees for such services during 2015, 2014 and 2013 amounted to Ps.9,270, Ps.13,736 and Ps.8,856, respectively.

During 2015, 2014 and 2013, the Group paid to its directors, alternate directors and officers an aggregate compensation of Ps.750,208, Ps.648,055 and Ps.547,264, respectively, for services in all capacities. This compensation included certain amounts related to the use of assets and services of the Group, as well as travel expenses reimbursed to directors and officers. Projected benefit obligations related to the Group's directors, alternate directors and officers amounted to Ps.173,020, Ps.169,135 and Ps.146,686 as of December 31, 2015, 2014 and 2013, respectively. Cumulative contributions made by the Group to the pension and seniority premium plans on behalf of these directors and officers amounted to Ps.144,517, Ps.149,033 and Ps.141,099 as of December 31, 2015, 2014 and 2013, respectively. In addition, the Group has made conditional sales of the Company's CPOs to its directors and officers under the Long-term Retention Plan.

In 2015, the Group established a deferred compensation plan for certain officers of its Cable segment, which will be payable in the event that certain revenue and EBITDA targets (as defined) of a five-year plan are met. Such compensation may be payable in 2020 through a combination of cash and/or Company's stock rewards granted under the Long-Term Retention Plan. The present value of this long-term employee benefit obligation as of December 31, 2015 and the related service cost for the year ended on that date amounted to Ps.164,028.

The balances of receivables and payables between the Group and related parties as of December 31, 2015 and 2014, were as follows:

	2015		2014	
Current receivables:				
UHI, including Univision	Ps.		Ps.	535,661

(1) During the period ended December 31, 2015, the Group recognized a provision in the amount of Ps.860,456 associated with a consulting arrangement entered into by the Group, UHI and an entity controlled by the chairman of the Board of Directors of UHI, by which upon a qualified initial public offering of the shares of UHI the Group would pay the entity a portion of a defined appreciation in excess of certain preferred returns and performance thresholds of UHI. This amount is partially offset by Ps. 492,911 in receivables from UHI related primarily to the PLA.

All significant account balances included in amounts due from affiliates bear interest. In 2015 and 2014, average interest rates of 5.0% and 5.0% were charged, respectively. Advances and receivables are short-term in nature; however, these accounts do not have specific due dates.

Edgar Filing: GRUPO TELEVISIA, S.A.B. - Form 20-F

Customer deposits and advances as of December 31, 2015 and 2014, included deposits and advances from affiliates and other related parties, in an aggregate amount of Ps.663,823 and Ps.874,036, respectively, which were primarily made by UHI, including Univision in 2015 and 2014 and Iusacell and Grupo TV Promo, S.A. de C.V. in 2014.

In 2012, a subsidiary of the Company entered into an amended lease contract with GTAC for the right to use certain capacity in a telecommunication network. This amended lease agreement contemplates annual payments to GTAC in the amount of Ps.41,400 through 2029, with an annual interest rate of the lower of TIIE plus 122 basis points or 6% (see Notes 10, 11 and 13).

Table of Contents**20. Cost of Sales, Selling Expenses and Administrative Expenses**

Cost of sales represents primarily the production cost of programming, acquired programming and transmission rights at the moment of broadcasting or at the time the produced programs are sold and became available for broadcast (see Note 8). Such cost of sales also includes benefits to employees and post-employment benefits, network maintenance and interconnections, satellite links, paper and printing, depreciation of property, plant and equipment, leases of real estate property, and amortization of intangible assets.

Selling expenses and administrative expenses include primarily benefits to employees, sale commissions, postemployment benefits, share-based compensation to employees, depreciation of property and equipment, leases of real estate property, and amortization of intangibles.

	Ps.	6,332,218	Ps.	2,980,883	Ps.	3,728,962

(1) In 2013, this line item includes income taxes computed by the Company on a tax consolidated basis for the year ended December 31, 2013, IETU (flat tax) for the year ended December 31, 2013, and amounts resulting from income taxes related to prior years, including the tax payment made in connection with the matter discussed in Note 26.

(2) In 2013, this line item reflects the effects of the elimination of the tax consolidation regime resulting from the 2014 Tax Reform, which includes the recognition of an additional income tax liability in the aggregate amount of Ps.6,813,595.

The Mexican corporate income tax rate was 30% in 2015, 2014 and 2013. In accordance with the 2014 Tax Reform, the corporate income tax rate will be 30% in 2016 and thereafter.

2014 Tax Reform

In the last quarter of 2013, the Mexican Congress approved a new Tax Reform (the 2014 Tax Reform), which became effective as of January 1, 2014. Among the tax reforms approved by the Mexican Congress, one of the most relevant changes was the elimination of the tax consolidation regime allowed for Mexican controlling companies through December 31, 2013.

As a result of this change, beginning on January 1, 2014, the Company is no longer allowed to consolidate income or loss of its Mexican subsidiaries for income tax purposes and (i) accounted for an additional income tax liability for the elimination of the tax consolidation regime in the aggregate amount of Ps.6,813,595 as of December 31, 2013, of which Ps.6,629,865 was classified as non-current liabilities as of that date; (ii) recognized a benefit from tax loss carryforwards of Mexican companies in the Group in the aggregate amount of Ps.7,936,044 as of December 31, 2013; and (iii) adjusted the

Table of Contents

carrying amount of deferred income taxes from temporary differences by recognizing such effects on a separate company basis by using the enacted corporate income tax rate as of December 31, 2013.

The effects of income tax payable as of December 31, 2015 and 2014, in connection with the 2014 Mexican Tax Reform, are as follows:

	2015		2014	
Tax losses of subsidiaries, net	Ps.	6,679,444	Ps.	6,900,765

Less: Current portion (a)		372,752		358,117
Non-current portion (b)	Ps.	6,312,919	Ps.	6,548,770

(a) Income tax provision accounted for as income taxes payable in the consolidated statement of financial position as of December 31, 2015 and 2014.

(b) Income tax provision accounted for as long-term income taxes payable in the consolidated statement of financial position as of December 31, 2015 and 2014.

2010 Tax Reform

In December 2009, the Mexican government enacted certain amendments and changes to the Mexican Income Tax Law that became effective as of January 1, 2010 (the 2010 Mexican Tax Reform). These amendments and changes included, among other, the following provisions: (i) under certain circumstances, the deferred income tax benefit derived from tax consolidation of a parent company and its subsidiaries is limited to a period of five years; therefore, the resulting deferred income tax has to be paid starting in the sixth year following the fiscal year in which the deferred income tax benefit was received; and (ii) the payment of this tax has to be made in installments of 25% in the first and second year, 20% in the third year and 15% in the fourth and fifth year.

The effects of income tax payable as of December 31, 2015 and 2014, in connection with the 2010 Mexican Tax Reform, are as follows:

	2015		2014	
Tax losses of subsidiaries, net	Ps.	73,617	Ps.	177,918

The Group does not recognize deferred income tax liabilities related to its investments in associates and joint ventures, as the Group is able to control the timing of the reversal of temporary differences arising from these investments. As of December 31, 2015 and 2014, the deferred tax liabilities in connection with the Group's investments in associates and joint ventures amounted to an aggregate of Ps.520,946 and Ps.189,624, respectively.

IETU

Through December 31, 2013, Mexican companies were subject to paying the greater of the Flat Rate Business Tax (Impuesto Empresarial a Tasa Única or IETU) or the income tax. As part of the 2014 Tax Reform, the IETU was eliminated for Mexican companies beginning on January 1, 2014. The IETU was calculated by applying a tax rate of 17.5%. Although the IETU was defined as a minimum tax, it had a wider taxable base as some of the tax deductions allowed for income tax purposes were not allowed for the IETU. Through December 31, 2013, the Company paid primarily regular income tax on a tax consolidated basis.

25. Segment Information

Reportable segments are those that are based on the Group's method of internal reporting.

The Group is organized on the basis of services and products. The Group's segments are strategic business units that offer different entertainment services and products. The Group's reportable segments are as follows:

Content

The Content segment categorizes the Group's sources of content revenue as follows: (a) Advertising; (b) Network Subscription Revenue; and (c) Licensing and Syndication. Given the cost structure of the Group's Content business, operating segment income is reported as a single line item.

The Advertising revenue is derived primarily from the sale of advertising time on the Group's television broadcast operations, which include the production of television programming and broadcasting of Channels 2, 4, 5 and 9 (television networks), as well as the sale of advertising time on programs provided to pay television companies in Mexico and advertising revenue in the Group's Internet business and the production of television programming and broadcasting for local television stations in Mexico and the United States. The broadcasting of television networks is performed by television repeater stations in Mexico which are wholly-owned, majority-owned or minority-owned by the Group or otherwise affiliated with the Group's networks.

Table of Contents

The Network Subscription revenue is derived from domestic and international programming services provided to independent cable television systems in Mexico and the Group's direct-to-home (DTH) satellite and cable television businesses. These programming services for cable and pay-per-view television companies are provided in Mexico, other countries in Latin America, the United States and Europe. The programming services consist of both programming produced by the Group and programming produced by others.

The Licensing and Syndication revenue is derived from international program licensing and syndication fees. The Group's television programming is licensed and syndicated to customers abroad, including Univision.

Sky

The Sky segment includes DTH broadcast satellite pay television services in Mexico, Central America and the Dominican Republic. Sky revenues are primarily derived from program services, installation fees and equipment rental to subscribers, and national advertising sales.

Cable

The Cable segment includes the operation of a cable multiple system in the Mexico City metropolitan area (Cablevisión); the operation of telecommunication facilities through a fiber-optic network that covers the most important cities and economic regions of Mexico and the cities of San Antonio and San Diego in the United States (Bestel); the operation of a cable multiple system covering 60 cities of Mexico (Cablemás); the operation of a cable multiple system covering Monterrey and suburban areas (Cablevisión); the operation of a cable multiple system covering 79 cities of Mexico (Cablecom); and the operation of a cable multiple system covering 67 cities of Mexico (Telecable). The cable businesses derive revenues from cable subscribers, principally from basic and premium television services subscription, pay-per-view fees, installation fees, Internet services subscription and telephone services subscription as well as from local and national advertising sales.

Also, the telecommunication facilities business derives revenues from providing data and long-distance services solutions to carriers and other telecommunications service providers through its fiber-optic network.

Other Businesses

The Other Businesses segment includes the Group's domestic operations in sports and show business promotion, soccer, feature film production and distribution, gaming, radio, publishing and publishing distribution.

Table of Contents

(3) In 2015, Telecable contributed total revenues and segment income to the Group's Cable segment for the year ended December 31, 2015, in the amount of Ps.2,106,706 and Ps.1,022,994, respectively, as the Group began to consolidate the Telecable results of operations beginning in January 2015 (see Note 3).

(4) In 2014, Cablecom contributed total revenues and segment income to the Group's Cable segment for the four months ended December 31, 2014, in the amount of Ps.1,369,753 and Ps.638,196, respectively, as the Group began to consolidate the Cablecom results of operations beginning in September 2014 (see Note 3). Had Cablecom been consolidated from January 1, 2014, total revenues and segment income of the Group's Cable segment for the year ended December 31, 2014 would have increased in Ps.2,593,323 and Ps.1,223,277, respectively.

Accounting Policies

The accounting policies of the segments are the same as those described in the Group's summary of significant accounting policies (see Note 2). The Group evaluates the performance of its segments and allocates resources to them based on operating income before depreciation and amortization.

Intersegment Revenue

Intersegment revenue consists of revenues derived from each of the segments principal activities as provided to other segments.

The Group accounts for intersegment revenues as if the revenues were from third parties, that is, at current market prices.

Allocation of Corporate Expenses

Non-allocated corporate expenses include payroll for certain executives, related employee benefits and other general than are not subject to be allocated within the Group's business segments.

Table of Contents

On March 6, 2014, the IFT issued a decision whereby it determined that the Company, together with certain subsidiaries with concessions to provide broadcast television, are preponderant economic agents in the broadcasting sector in Mexico (together, the Preponderant Economic Agent). The Preponderance Decision imposes on the Preponderant Economic Agent various measures, terms, conditions and restrictive obligations, some of which may adversely affect the activities and businesses of the Group's broadcasting businesses, as well as their results of operations and financial condition. Among these measures, terms, conditions and restrictive obligations are included the following:

Infrastructure sharing The Preponderant Economic Agent must make its passive broadcasting infrastructure (as defined) available to third-party concessionaries of broadcast television (as defined) for commercial purposes in a non-discriminatory and non-exclusive manner.

Advertising sales The preponderant Economic Agent must deliver to IFT and publish the terms and conditions of certain broadcast advertising services and fee structures, including commercials, packages, discount plans and any other commercial offerings.

Prohibition on acquiring certain exclusive content The Preponderant Economic Agent may not acquire transmission rights, on an exclusive basis, for any location within Mexico with respect to certain relevant content, determined by IFT.

Over-the-air channels When the Preponderant Economic Agent offers any of its over-the-air channels, or channels that have at least 50% of the programming that is broadcast daily in certain time on such channels, to its affiliates, subsidiaries, related parties and third parties, for distribution through a different technological platform than over-the-air-broadcast television, the Preponderant Economic Agent must offer these channels to any other person that asks for distribution over the same platform as the Preponderant Economic Agent has offered, on the same terms and conditions.

Prohibition on participating in buyers clubs or syndicates to acquire audiovisual content, without IFT's prior approval The Preponderant Economic Agent may not enter into or remain a member of any buyers club or syndicates of audiovisual content unless it has received the prior approval of IFT.

There are currently no judgments or orders that would require the Group to divest any of the assets as a result of being declared a Preponderant Economic Agent in the broadcasting sector.

Contingencies

In 2011, the Administrative Tax System, or SAT, of the Mexican Ministry of Finance, determined a tax assessment against Televisa for alleged wrongful deductions of losses in the payment of its income tax for the year 2005. In April 2013, the claim filed by Televisa contending such assessment was ultimately resolved with a payment by Televisa to the SAT in the amount of Ps.343,254 (see Note 23).

In March 2015, the investigative authority of the IFT issued a preliminary opinion that presumed the probable existence of substantial power in the market of restricted television and audio services in Mexico, with respect to the Company and certain of its subsidiaries. On September 30, 2015, the Governing Board of the IFT determined that the Group does not have substantial power in such market (IFT Resolution). Although this resolution is final at the administrative level, certain third parties have filed *amparo* proceedings challenging the constitutionality of the IFT Resolution; those challenges are still under review by the relevant courts and the Company's management is unable to predict the outcome of those challenges.

There are several other legal actions and claims pending against the Group which are filed in the ordinary course of business. In the opinion of the Company's management, none of these actions and claims is expected to have a material adverse effect on the Group's financial statements as a whole; however, the Company's management is unable to predict the outcome of any of these legal actions and claims.

27. Events after the Reporting Period

In February 2016, the Company's Board of Directors approved a proposal for a dividend of Ps. 0.35 per CPO payable in the second quarter of 2016, subject to the approval of the Company's stockholders.

In March 2016, the Group announced the acquisition of the remaining 50% equity interest of TVI in the aggregate amount of Ps.6,750,000, including the assumption of long-term liabilities in the aggregate amount of Ps.4,750,000 with maturities between 2017 and 2020, and a cash payment of Ps.2,000,000. Until such acquisition is completed in the second half of 2016, a non-controlling interest will participate as a shareholder of CVQ, a direct subsidiary of the Company. This transaction

also provides for the acquisition of the non-controlling interest in CVQ in the amount of Ps.1,258,000, which is included in the total amount of the transaction. This transaction complies with the guidelines and timetable established in the authorization by the IFT. With the ownership of the 100% of the equity interest of TVI, the Group will be better positioned to exploit efficiencies and economies of scale among all its cable operations throughout Mexico and continue expanding its offer of video, voice and data services. The effect of this transaction in the equity attributable to stockholders of the Company as of March 31, 2016, is estimated as follows:

		Acquisition of a Non-controlling Interest
Carrying value of the non-controlling interest in TVI	Ps.	768,703
Consideration for the 50% equity interest of TVI		(5,492,000)
Decrease in retained earnings attributable to stockholders of the Company	Ps.	(4,723,297)

In March 2016, (i) Sky entered into long-term debt agreements with two Mexican banks in the aggregate principal amount of Ps.5,500,000, with maturities between 2021 and 2023 and interest payable on a monthly basis at an annual rate in the range of 7.0% and 7.13%, and prepaid an intercompany long-term loan in the principal amount of Ps.3,500,000; and (ii) the Company prepaid a portion of its Mexican peso outstanding long-term loans with original maturities between 2016 and 2017 in the aggregate principal amount of Ps.3,532,000.
