On January 11, 2019, The Medicines Company (the "Company") completed the sale of an additional \$9.5 million in aggregate principal amount of its 3.50% convertible senior notes due 2024 (the "notes") in respect of the Company's previously announced private offering of notes to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended, pursuant to the exercise of the initial purchaser's remaining option to purchase additional notes to cover over-allotments. The additional notes have the same terms in all respects as the sale of \$150.0 million in aggregate principal amount of notes completed by the Company on December 18, 2018 and the sale of \$13.0 million in aggregate principal amount of notes completed on December 28, 2018 in partial exercise of the initial purchaser's option to purchase notes to cover over-allotments. The over-allotment option has been exercised in full and the Company has issued a total of \$172.5 million aggregate principal amount of notes pursuant to the offering (inclusive of the full exercise of the over-allotment option).

The Company expects to use the net proceeds from the sale of the additional notes to fund the Company's development of inclisiran and for general corporate purposes.
