Item 8.01 Other Events.

As previously reported, PNM Resources, Inc.'s wholly-owned subsidiary, Public Service Company of New Mexico (“PNM”), has a power purchase agreement (“PPA”) to purchase all of the electric capacity and energy from the Valencia Energy Facility (“Valencia”), a 145 MW natural gas-fired power plant near Belen, New Mexico, through May 2028. PNM has previously concluded that the third party entity that owns Valencia is a variable interest entity under generally accepted accounting principles in the United States of America, and PNM consolidates the entity in its financial statements.

During the term of the PPA, PNM has the option to purchase and own up to 50% of the plant either through a purchase of an undivided interest in the plant or a purchase of equity interests in the variable interest entity. PNM has been asked about its intentions with respect to Valencia. In that regard, PNM is evaluating its alternatives with respect to Valencia, including exercising its purchase option, with the goal of achieving a fair and economical benefit to its customers. Also, PNM is in the process of developing its Integrated Resource Plan. Through this process, PNM will evaluate all of its resource options including this PPA to determine the most optimal way to service its customers.
