Director Independence

The Board has determined that the following current directors and/or nominees have no material relationships with the Company and are independent as required by and as defined in the director independence standards of the New York Stock Exchange: Dale Blanchfield, Lloyd Frank and Steven T. Warshaw. Brian E. Shore does not satisfy such independence standards because he is an employee of the Company.

Board Committees

The Company's Audit Committee currently consists of Dale Blanchfield, Lloyd Frank and Steven T. Warshaw. The Board of Directors has determined that Mr. Warshaw is an audit committee financial expert as defined in rules of the Securities and Exchange Commission and that each of Messrs. Blanchfield, Frank and Warshaw is independent as required by and as defined in the audit committee independence standards of the Securities and Exchange Commission and of the New York Stock Exchange. The duties and responsibilities of the Audit Committee are set forth in a written charter of such Committee, first adopted by the Board in

July 2000 and subsequently amended and restated in May 2004, and are described elsewhere in this Proxy Statement under the caption "Other Matters - Audit Committee Report". The Audit Committee also issues the Audit Committee Report required to be included in the Company's Proxy Statement by rules of the Securities and Exchange Commission. The Audit Committee Report for the Company's 2009 fiscal year is set forth elsewhere in this Proxy Statement under the caption "Other Matters - Audit Committee Report".

The Company has a Compensation Committee and a Stock Option Committee each consisting of Dale Blanchfield, Lloyd Frank and Steven T. Warshaw. The functions of the Compensation and Stock Option Committees are set forth in written charters of such Committees adopted by the Board, and such functions are described elsewhere in this Proxy Statement under the caption "Executive Compensation - Compensation Discussion and Analysis - Board Process".

The Company has a Nominating Committee consisting of Dale Blanchfield, Lloyd Frank and Steven T. Warshaw. The functions of the Nominating Committee, which are to identify and recommend to the Board of Directors individuals qualified to serve as directors of the Company and on committees of the Board and to oversee the evaluation of the Board and the Company's management, are set forth in a written charter of such Committee adopted by the Board. The Nominating Committee recommended to the Board, and the Board nominated, Dale Blanchfield, Lloyd Frank, Brian Shore and Steven T. Warshaw as nominees for election as directors at the Meeting.

The Company has a Corporate Governance Committee consisting of Dale Blanchfield, Lloyd Frank and Steven T. Warshaw. The functions of the Corporate Governance Committee, which are to advise the Board of Directors with respect to Board composition, procedures and committees and to develop and recommend to the Board a set of corporate governance principles applicable to the Company, are set forth in a written charter of such Committee adopted by the Board.

Each member of the Compensation, Stock Option, Nominating and Corporate Governance Committees is independent as required by and as defined in the director independence standards of the New York Stock Exchange.

The charters of the Audit, Compensation, Stock Option, Nominating and Corporate Governance Committees are available on the Company's web site at www.parkelectro.com under the caption "Shareholders - Charters and Codes" as required by rules of the New York Stock Exchange. In addition, the charters of such Committees are available in print to any shareholder upon request submitted to the Corporate Secretary at the Company's office at 48 South Service Road, Melville, New York 11747.

During the Company's last fiscal year, the Board met eight times and authorized action by unanimous written consent on five occasions, the Audit Committee met ten times, the Compensation Committee met four times, the Stock Option Committee met twice and authorized action by unanimous written consent once, the Nominating Committee met once, the Corporate Governance Committee met once, and the non-management directors met in executive session without management three times. At each meeting of the non-management directors, a non-management director designated by the non-management directors on the Board presides. Each of the directors attended all of the meetings held by the Board and each committee thereof of which he was a member during the Company's last fiscal year, except Mr. Frank who was absent from one meeting of the Audit Committee.

Annual Meeting Attendance

It is the Company's policy that all directors are invited to and encouraged to attend Annual Meetings of Shareholders, and all members of the Board of Directors attended the Annual Meeting of Shareholders held on July 16, 2008.

Director Compensation

Each director who is not an employee of the Company or any of its subsidiaries receives a fee of \$17,000 per annum for his services as a director; each member of the Audit Committee, other than the Chairman of the Committee, receives a fee of \$2,000 per annum for his services as a member of such Committee, and the Chairman of the Audit Committee receives a fee of \$4,000 per annum for his services as Chairman of such Committee; each member of the Compensation Committee of the Board of Directors receives a fee of \$2,000

per annum for his services as a member of such Committee; and each Director and each Committee member is reimbursed for travel expenses incurred in attending meetings of the Board of Directors of the Company and of Committees of the Board of Directors of the Company.

On August 26, 2008, Messrs. Blanchfield, Frank and Warshaw each received a non-qualified stock option for 3,000 shares of Common Stock at an exercise price of \$27.10 per share under the Company's 2002 Stock Option Plan. Each of these options expires on August 26, 2018, and each is exercisable 25 percent after one year from date of grant, 50 percent after two years from date of grant, 75 percent after three years from date of grant and 100 percent after four years from date of grant. In the event that the service of an optionee as a director of the Company is terminated during the term of the option, the option may be exercised by the optionee, to the extent the optionee was entitled to do so on the date of such termination, until (1) one year following the director's ceasing to serve as a director of the Company on account of disability, (2) six months following the director's ceasing to serve as a director of the Company on account of death, or (3) three months following the director's ceasing to be a director for any other reason, but in no event after the date on which the option would otherwise expire; provided, however, if the director is removed as a director for cause or ceases to be a director without the Company's consent, the option will terminate immediately.

The following table shows all the compensation paid by the Company for the most recent fiscal year, March 3, 2008 to March 1, 2009, for each of the directors of the Company, other than Brian E. Shore. Mr. Shore did not receive any compensation in his capacity as a director. Mr. Shore's compensation is set forth elsewhere in this Proxy Statement under the caption "Executive Compensation Summary Compensation Table".

Name	Fees Earned or Paid in Cash (\$)	Option Awards (\$)(a)	Total (\$)
Dale Blanchfield	\$ 21,000	\$ 33,384	\$ 54,384
Lloyd Frank	23,000	22,806	45,806
Steven T. Warshaw	21,000	33,384	54,384

The amounts in this column are the amounts recognized for financial statement reporting purposes with respect to the fiscal year ended March 1, 2009 for the fair value of stock options granted to each of the named directors in the 2009 fiscal year and in prior fiscal years in accordance with Statement of Financial Accounting Standards No. 123(R), "Share-Based Payment", as described in Note 8 of the Notes to Consolidated Financial Statements in Item 8 of Part II of the Company's Form 10-K Annual Report for the fiscal year ended March 1, 2009 filed with the Securities and Exchange Commission (disregarding estimates of forfeitures for service-based vesting). These (a) amounts reflect the Company's accounting expense for such stock options and do not correspond to the actual value that will be realized by the named directors if and when they exercise the options. The grant date fair value for the options granted to each of the named directors during the 2009 fiscal year, estimated at the date of grant using the Black-Scholes option-pricing model with the assumptions described in the afore-mentioned Note 8 of the Notes to Consolidated Financial Statements, was \$8,940 for each of the named directors. At March 1, 2009, the end of the Company's last fiscal year, Mr. Blanchfield held 19,500 outstanding stock options, Mr. Frank held 37,500 outstanding stock options, and Mr. Warshaw held 19,500 outstanding stock options.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

General. The Company's compensation of its executive officers is composed of annual base salary, annual discretionary cash bonus, annual stock option grant and the profit sharing portion of the Company's Employees' Profit Sharing and 401(k) Retirement Savings Plan (the Profit Sharing Plan). The Company does not have employment agreements or employment termination or severance agreements or change-of-control agreements with any of its executive officers or any of its other employees. The Compensation Committee of the Board fully supports and endorses this compensation structure, which is designed to provide fair current income to the Company's officers, a discretionary cash award for individual and enterprise performance, equity participation in the Company's long-term performance as assessed by the

capital markets in which the Company's common stock is traded and participation in the Company's profits through discretionary awards to the Profit Sharing Plan.

The Company's compensation of its executive officers is intended to be competitive with the compensation of executive officers at comparable companies, except for the compensation of the Chief Executive Officer, who has declined to accept the Compensation Committee's offer of a bonus and a salary increase each year since the Company's 2001 fiscal year, except for a bonus for the 2008 fiscal year, which he donated to charity. However, it is difficult for the Company to ascertain meaningful comparisons because the Company has few, if any, peer-group companies which disclose compensation information since most of its competitors are privately owned or are divisions or business units or subsidiaries of larger publicly owned companies which do not disclose compensation information about the officers of such divisions, business units or subsidiaries. The Company's compensation of its senior management is also intended to align management's incentives with the long-term interests of the Company's shareholders and to be fair and equitable to the individual and to the Company's employees and shareholders.

Base Salaries. Salaries of executive officers are determined based on the significance of the position to the Company, individual experience and expertise, individual performance and information gathered informally as to compensation levels of comparable companies in the same geographic location as the Company, except the salary of the Chief Executive Officer, who has declined to accept the Compensation Committee's offer of a salary increase each year since the Company's 2001 fiscal year. The Compensation Committee reviews the salary of each executive officer annually and makes adjustments as appropriate, taking into account the recommendations of the Chief Executive Officer.

Discretionary Annual Bonuses. Decisions as to the award of annual cash bonuses to executive officers with respect to each fiscal year are made after the close of the fiscal year. The amount awarded to each executive officer is based on the Company's overall performance, individual performance, base salary level, bonuses paid in prior years and overall equity and fairness, except the Chief Executive Officer, who has declined to accept the Compensation Committee's offer of a bonus each year since the Company's 2001 fiscal year, except for a bonus for the 2008 fiscal year, which he donated to charity.

Equity Compensation. The only form of equity compensation that the Company has awarded consists of incentive stock options and non-qualified stock options under the Company's stock option plans.

The Stock Option Committee determines the number of options that it considers appropriate for each executive officer and other key employees of the Company. With the exception of significant promotions and significant new hires, the Stock Option Committee generally grants stock options under the Company's Stock Option Plan once each year following the availability to the Stock Option Committee of the financial results of operations of the Company and its subsidiaries for the prior year, the business plans of the Company's subsidiaries for the current fiscal year, the option grant recommendations of the presidents of the Company's subsidiaries and the evaluation of such recommendations by the senior management of the Company and the recommendations of the Chief Executive Officer of the Company.

The Stock Option Committee bases its decisions on individual performance, base salary and bonus levels, recommendations from the Company's Chief Executive Officer and overall equity and fairness. In granting stock options, the Stock Option Committee generally does not consider the equity ownership levels of the recipients. The grants for the 2009 fiscal year were made on August 26, 2008. This timing was selected because it enabled the Committee to consider prior year performance by the Company and the potential recipients and the Company's expectations and plans for the 2009 fiscal year. The Stock Option Committee has the sole authority to grant stock options and has not delegated any authority to grant stock options.

The Company has not had, and does not have, a program, plan or practice to select the dates of grants of stock options to executive officers or to any employee or director of the Company in coordination with the release of material non-public information. The Company does not plan to time, and it has not previously timed, its release of material

non-public information for the purpose of affecting the value of executive compensation. In addition, the Company does not have a program, plan or practice of granting stock options and setting the exercise price or prices of such options based on the price of the Company's Common Stock on a date other than the grant date. Pursuant to the terms of the Company's 2002 Stock Option Plan, which was approved by shareholders of the Company at the Annual Meeting of Shareholders held on July 17, 2002, the

7

purchase price of the Common Stock under each stock option granted by the Company is no less than the fair market value of the Common Stock at the time of grant, which, pursuant to the terms of such Plan, is the reported closing price of the Common Stock on the New York Stock Exchange on the date preceding the date the option is granted.

Severance Benefits. The Company does not provide employment termination or severance agreements or change-of-control agreements for its employees and does not have a policy to provide specified severance benefits to employees whose employment is terminated by the Company.

Pension Benefits. The Board decides annually the amount of the Company's contribution to the Profit Sharing Plan, which is described elsewhere in this Proxy Statement under the caption "Executive Compensation Summary Compensation Table". The amount of such contribution is discretionary, but may not exceed 25% of the total remuneration paid to eligible employees or such other amount as is allowed under the Internal Revenue Code of 1986, as amended (the "Code"). Subject to this limit, the Board determines the amount to be contributed for each year based on the Company's overall performance, the amounts contributed in prior years, the amounts of prior contributions recently forfeited by eligible employees due to termination of employment prior to vesting and recommendations from the Company's Chief Executive Officer.

When the Company calculates overall compensation for its senior management, it considers the benefits expected to be received under the Profit Sharing Plan.

Perquisites and Other Benefits. The only perquisites for senior managers are the provision of automobiles leased or owned by the Company to certain executive officers and other members of management.

Senior management also participates in the Company's other employee benefit plans on the same terms as other employees. These plans include medical and dental insurance and life insurance.

Board Process. The Compensation Committee of the Board approves all salary and bonus compensation and the Stock Option Committee of the Board approves all grants of stock options for executive officers. Executive officers include the Chief Executive Officer, the person performing the functions similar to those performed by a principal financial officer and the three other executive officers named in the "Summary Compensation Table" elsewhere in this Proxy Statement. The Compensation Committee and the Stock Option Committee review the performance and compensation of the Chief Executive Officer and, following discussions with him, establish his compensation level. As he has in the past since the Company's 2001 fiscal year, the Chief Executive Officer, Brian E. Shore, declined to accept the Compensation Committee's offer of a salary increase for the fiscal year ended March 1, 2009. For the remaining executive officers, the Chief Executive Officer makes recommendations to the Compensation Committee and to the Stock Option Committee. The amount of discretionary contributions to the Profit Sharing Plan for each fiscal year is determined by the Board taking into account the recommendations of the Chief Executive Officer.

The Board, the Compensation Committee and the Stock Option Committee, as the case may be, use no set formulas in making their determinations and may afford different weight to different factors for each executive officer. Such weighting may vary from year to year.

Section 162(m) of the Internal Revenue Code. The Board and the Compensation Committee have reviewed the impact of Section 162(m) of the Code, which limits the deductibility of certain otherwise deductible compensation in excess of \$1 million paid to the Chief Executive Officer and the other executive officers named in the "Summary Compensation Table" elsewhere in this Proxy Statement. It is the Company's policy to attempt to design its executive compensation plans and arrangements to be treated as tax deductible compensation wherever, in the judgment of the Board or the Compensation Committee, as the case may be, to do so would be consistent with the objectives of that compensation plan or arrangement. Accordingly, the Board and the Compensation Committee from time to time may

consider whether changes in the Company's compensation plans and arrangements may be appropriate to continue to fulfill the requirements for treatment as tax deductible compensation under the Code.

The salary amount for Mr. Shore for the 2008 fiscal year is more than the salary amount for the 2007 fiscal year not because of any salary increase, but because the 2008 fiscal year consisted of 53 weeks while the 2007 fiscal year consisted of 52 weeks. Mr. Shore has declined to accept the Compensation Committee's offer of a salary increase each year since the Company's 2001 fiscal year.

(a) Information is provided for the Company's fiscal years ended March 1, 2009, March 2, 2008 and February 25, 2007.

(b) The amounts of bonuses for the 2009 fiscal year have not yet been determined.

(c) The amounts in this column are the amounts recognized for financial statement reporting purposes with respect to the fiscal years shown for the fair value of stock options granted to each of the named officers in such fiscal years

and in prior fiscal years in accordance with the Statement of Financial Accounting Standards No. 123

(R), Share-Based Payment , as described in Note 8 of the Notes to Consolidated Financial Statements in Item 8 of Part II of the Company's Form 10-K Annual Report for the fiscal year ended March 1, 2009 filed with the Securities and Exchange Commission (disregarding estimates of forfeitures for service-based vesting). These amounts reflect the Company's accounting expense for such stock options and do not correspond to the actual value that will be realized by the named officers if and when they exercise the options.

(d) Except with respect to Mr. DiGaudio (see note (h) below), consists solely of the amounts of the Company's annual profit sharing contributions to the Company's Employees' Profit Sharing and 401(k) Retirement Savings Plan (the Plan) which were accrued for the accounts of the named executive officers for the fiscal years shown. These amounts vest in accordance with a graduated scale based on years of service of the employee with the Company.

Substantially all full-time employees of the Company and its subsidiaries in the United States, including the Company's executive officers, participate in the profit sharing portion of the Plan, which is intended to

provide retirement benefits to such employees and which is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The amounts of profit sharing contributions, if any, by the Company and its subsidiaries to the accounts of participating employees are percentages of the eligible compensation of the participating employees up to a maximum amount of compensation for each employee established under the Code, which was \$230,000 for the Company s most recent fiscal year. The Board decides annually the amount of the Company s profit sharing contribution, which is discretionary, but may not exceed 25% of the total remuneration paid to eligible employees or such other amount as is allowed under the Code. Subject to this limit, the Board determines the amount to be contributed for each year based on the Company s overall performance, the amounts contributed in prior years, the amounts of prior contributions recently forfeited by eligible employees due to termination of employment prior to vesting and recommendations from the Company s Chief Executive Officer. The percentages of compensation contributed to the Plan may vary between the Company and each subsidiary, but the percentage must be the same for each participating employee of the Company or the subsidiary, as the case may be. The percentages of compensation to be contributed to the Plan for the 2009 fiscal year have not yet been determined.

Substantially all full-time employees of the Company s subsidiaries in the United States are eligible to receive contributions by the subsidiaries to match the contributions of the employees to the 401(k) retirement savings portion of the Plan, with the maximum matching contribution being 3% of the compensation of the employees. However, employees of the Company are not eligible to receive such matching contributions, but it has been the Company s practice to determine a gross annual profit sharing percentage of eligible compensation to be contributed by each subsidiary to the profit sharing portion of the Plan and to reduce such percentage by the average percentage of the compensation of such subsidiary s employees that was contributed by such subsidiary as 401(k) retirement savings matching contributions. Consistent with this practice, to compensate employees of the Company for their ineligibility for matching contributions to the 401(k) retirement savings portion of the Plan, the Company approved profit sharing contributions in prior years for the named executive officers and for the other employees of the Company which were not reduced for any 401(k) retirement savings matching contributions, because such officers and other employees of the Company are not eligible to receive such matching contributions.

- (e) The Company provides no personal benefits to its executive officers other than automobiles for certain officers, the value of which is less than \$10,000 per year and is not included in the Summary Compensation Table.
- (f) Mr. Farabaugh was appointed Vice President and Controller (the person performing the functions similar to those performed by a principal financial officer) effective October 8, 2007.
- (g) Mr. Gilhuley was elected Executive Vice President on October 24, 2006 in addition to the positions of Secretary and General Counsel. He had been Senior Vice President.
Mr. DiGaudio was appointed Vice President of Marketing in June 2006 in addition to the position of Vice President of Sales. The amount shown for Mr. DiGaudio under All Other Compensation for 2009 consists of
- (h) \$8,139 of expenses paid on his behalf by the Company in connection with his assignment to Singapore in May 2008 and the amount of the Company s annual profit sharing contribution described in note (d) above.
Mr. Stans was appointed Vice President of Research and Development in January 2007 in addition to the positions
- (i) of Vice President of Engineering and Vice President of Quality. Mr. Stans resigned as Vice President of Engineering and Quality and Research and Development effective April 3, 2009.

Grants of Plan-Based Awards in 2009 Fiscal Year

During the last completed fiscal year, the only plan pursuant to which the Company granted awards of any kind to its executive officers was its 2002 Stock Option Plan. The 2002 Stock Option Plan has been approved by the Company s stockholders and provides for the grant of stock options to directors and key employees of the Company. The Company s 2002 Stock Option Plan provides for the grant of both options which qualify as incentive stock options under the Code and non-qualified stock options. All options granted under the 2002 Stock Option Plan have exercise prices equal to the market value of the underlying Common Stock of the Company on the dates of grant, which, in

accordance with the terms of such Plan, is the reported closing price of the Common Stock on the New York Stock Exchange on the date preceding the date the option is granted.

Options granted under the Plan become exercisable 25% one year from the date of grant, with an additional 25% exercisable each succeeding anniversary of the date of grant, and expire 10 years from the date of grant. The 2002 Stock Option Plan is administered by the Stock Option Committee.

The following table provides information with respect to options to purchase shares of Common Stock granted pursuant to the 2002 Stock Option Plan to the named executive officers during the Company's last fiscal year. The table provides no information regarding non-equity incentive plan awards or equity incentive plan awards or stock awards because the Company does not have any non-equity or equity incentive plan and does not award stock to any of its executive officers or to any of its other employees.

Louis J. Stans	August 26, 2008	5,000	27.10	27.43	15,850

(a) Grant date is the date on which stock options were granted to the named executive officers under the Company's 2002 Stock Option Plan.

All options granted under the 2002 Stock Option Plan have exercise prices equal to the market value of the underlying Common Stock of the Company on the dates of grant, which, in accordance with the terms of such (b) Plan, is the reported closing price of the Common Stock on the New York Stock Exchange on the date preceding the date the option is granted. The reported closing price of the Common Stock on the New York Stock Exchange on August 26, 2008, the date of grant, was \$27.43.

The value for options was estimated at the dates of grants using the Black-Scholes option-pricing model with the assumptions described in Note 8 of the Notes to Consolidated Financial Statements in Item 8 of Part II of the (c) Company's Form 10-K Annual Report for the fiscal year ended March 1, 2009 filed with the Securities and Exchange Commission.

Outstanding Equity Awards at 2009 Fiscal Year-End

The following table provides information regarding unexercised stock options held by the named executive officers as of the end of the Company's last fiscal year. The table provides no information regarding equity incentive plan awards or stock awards because the Company does not have any equity incentive plan and does not award stock to any of its executive officers or to any of its other employees.

All stock options held by the named executive officers and by all other employees of the Company have been granted under the Company's 1992 Stock Option Plan or 2002 Stock Option Plan. Both Stock Option Plans have been approved by the Company's stockholders and provide for the grant of stock options to directors and key employees of the Company. All options granted under such Plans have exercise prices equal to the market value of the underlying common stock of the Company on the dates of grant which, in accordance with such Plans, is the reported closing price of the Common Stock on the New York Stock Exchange on the date preceding the date the option is granted.

Options granted under the Plans become exercisable 25% one year after the date of grant, with an additional 25% exercisable each succeeding anniversary of the date of grant, and expire ten years after the date of grant. The authority to grant additional options under the 1992 Stock Option Plan expired on March 24, 2002.

Option Exercises in 2009 Fiscal Year

The following table provides information regarding the pre-tax value realized from the exercise of stock options by the named executive officers during the Company's last fiscal year. The table provides no information regarding stock awards because the Company does not award stock to any of its executive officers or to any of its other employees.

Name	Option Awards	
	Number of Shares Acquired On Exercise (#)	Value Realized On Exercise (\$)(a)
Brian E. Shore (b)	60,000	\$814,200
P. Matthew Farabaugh	-0-	-0-
Stephen E. Gilhuley	-0-	-0-
Anthony W. DiGaudio	-0-	-0-
Louis J. Stans	-0-	-0-

(a) The Company has not granted stock appreciation rights. Value realized equals market value of the underlying shares of Common Stock on the date of exercise, which is the reported closing price of the Common Stock on the New York Stock Exchange on such date, less the exercise price, times the number of shares acquired, without deducting any taxes paid by the employee.

(b) Mr. Shore exercised an option to purchase 60,000 shares of Common Stock of the Company on May 14, 2008 because the option, which had been granted on May 28, 1998, was scheduled to expire on May 28, 2008.

Pension Benefits and Non-Qualified Defined Contribution and Other Non-Qualified Deferred Compensation Plans

The Company does not have a defined benefit pension plan and does not provide pension benefits for its executive officers or for any of its other employees, and the Company does not have any non-qualified supplemental pension, defined contribution or other deferred compensation plan for its executive officers or for any of its other employees.

Employment, Severance and Change-in-Control Agreements

The Company does not have employment agreements or employment termination or severance agreements or change-of-control agreements with any of its executive officers or any of its other employees. All of the Company's executive officers and other employees are employees-at-will, meaning that either the employee or the Company may terminate the employee's employment at any time for any reason or for no stated reason and with or without an explanation.

Transactions with Related Persons

Consistent with the Company's Code of Ethics for its chief executive officer, chief financial officer and controller and the Company's Code of Business Conduct and Ethics for its directors, officers and employees, any transaction between the Company and any director or executive officer of the Company or any immediate family member of a director or executive officer of the Company requires the approval of the Company's general counsel or chief executive officer and the Board.

During the last fiscal year, Brian E. Shore, the Company's Chief Executive Officer, from time to time used an aircraft owned by him to conduct business on behalf of the Company. The Company paid Mr. Shore an aggregate of \$181,200 as reimbursement for a portion of the costs associated with the use of this aircraft for Company business. The Board believes that the amounts paid by the Company to Mr. Shore as reimbursement for use of this aircraft for Company business were substantially less than the amounts that the Company would have paid for the use of a similar aircraft owned by an independent third-party. The Board also believes that such amounts reimbursed to Mr. Shore were substantially less than the variable and fixed costs incurred by Mr. Shore and attributable to such use of this aircraft and substantially less than the costs associated with the type of aircraft owned by Mr. Shore provided by an independent aircraft expert and that the use of Mr. Shore's aircraft for Company business inured to the benefit of the Company.

To have a candidate considered by the Nominating Committee, a shareholder must submit the recommendation in writing and must include the name of the shareholder and evidence of the person's ownership of Company stock, including the number of shares owned and the length of time of ownership, and the name of the candidate, the candidate's resume or a listing of his or her qualifications to be a director of the Company and the person's consent to be named as a director if selected by the

Nominating Committee and nominated by the Board.

The shareholder recommendation and information described above must be sent to the Corporate Secretary at the Company's office at 48 South Service Road, Melville, New York 11747 and must be received by the Corporate Secretary not less than 120 days prior to the anniversary date of the Company's most recent annual meeting of shareholders.

The Nominating Committee believes that the minimum qualifications for serving as a director of the Company are that a nominee demonstrate, by significant accomplishment in his or her field, an ability to make a meaningful contribution to the Board's oversight of the business and affairs of the Company and have an

impeccable record and reputation for honest and ethical conduct in both his or her professional and personal activities. In addition, the Nominating Committee examines a candidate's specific experiences and skills, time availability in light of other commitments and potential conflicts of interest.

The Nominating Committee identifies potential nominees by asking current directors and executive officers to notify the Committee if they become aware of persons, meeting the criteria described above, who have had a change in circumstances that might make them available to serve on the Board—for example, retirement as a CEO or CFO of a public company. As described above, the Nominating Committee will also consider candidates recommended by shareholders.

When a person has been identified by the Nominating Committee as a potential candidate, the Committee may collect and review publicly available information regarding the person to assess whether the person should be considered further. If the Nominating Committee determines that the candidate warrants further consideration, the Chairman or another member of the Committee contacts the person. Generally, if the person expresses a willingness to be considered and to serve on the Board, the Nominating Committee requests information from the candidate, reviews the candidate's accomplishments and qualifications, including in light of any other candidates whom the Committee might be considering, and conducts one or more interviews with the candidate. In certain instances, Nominating Committee members may contact one or more references provided by the candidate or may contact other members of the business community or other persons who may have greater first-hand knowledge of the candidate's accomplishments. The Nominating Committee's evaluation process does not vary based on whether or not a candidate is recommended by a shareholder, although, as stated above, the Committee may take into consideration the number of shares held by the recommending shareholder and the length of time that such shares have been held.

Communications with Directors

The Board has established a process to receive communications from shareholders and other interested parties. Shareholders and other interested parties may contact any member (or all members) of the Board, including the non-management directors as a group, by mail. To communicate with the Board of Directors, any individual director or the non-management directors, correspondence should be addressed to the Board of Directors or any such individual director or the non-management directors by either name or title. All such correspondence should be sent c/o Corporate Secretary at the Company's office at 48 South Service Road, Melville, New York 11747.

All communications received as set forth in the preceding paragraph will be opened by the office of the Company's General Counsel for the sole purpose of determining whether the contents represent a message to the directors of the Company. Any contents that are not in the nature of advertising, promotions of a product or service, or patently offensive material will be forwarded promptly to the addressee. In the case of communications to the Board or the non-management directors, the General Counsel's office will make sufficient copies of the contents to send to each director who is a member of the group to which the communication is addressed.
