INFORMATION AND Q&A ABOUT THE ANNUAL MEETING

When is the Annual Meeting?

10:00am ET on Friday, October 25, 2013

Where will the Annual Meeting be held?

The annual meeting will be held at the offices of Ellenoff Grossman and Schole LLP, 150 East 42nd Street, 11th Floor, New York, NY 10017 .

What is being considered at the meeting?

At the Meeting, Stockholders will consider and vote on the following proposals:

1. To elect six incumbent directors to the Board of Directors to serve until the next Annual Meeting of Stockholders or until their successors have been duly elected or appointed and qualified ("Proposal 1"); and
2. To amend the Company's Certificate of Incorporation, as amended, to effect a reverse stock split of the Company's Common Stock at a ratio of between one-for-five and one-for-ten with such ratio to be determined at the sole discretion of the Board and with such Reverse Split to be effected at such time and date, if at all, as determined by the Board in its sole discretion.
3. To conduct a non-binding advisory vote on our executive compensation;
4. To conduct a non-binding advisory vote recommending the frequency of advisory votes on executive compensation;
5. To transact such other business as may properly come before the meeting or any adjournment or postponements thereof.

In addition, our management will report on our progress and respond to your questions.

Who is entitled to vote at the meeting?

You may vote at the Annual Meeting if you owned Common Stock as of the close of business on Record Date which is October 1, 2013. Each share of Common Stock is entitled to one vote.

YOUR BOARD OF DIRECTORS HAS APPROVED THE PROPOSALS SET FORTH HEREIN.

ACCORDINGLY, THE BOARD RECOMMENDS A VOTE "FOR" THE RE-ELECTION OF THE SIX INCUMBENT DIRECTORS.

How do I vote?

You can vote in two ways:

- by attending the Annual Meeting at 10:00am ET on Friday, October 25, 2013, at the offices of Ellenoff Grossman and Schole LLP, 150 East 42nd Street, 11th Floor, New York, NY 10017, and at any adjournment or postponements thereof and voting thereat; or
- by completing, signing, dating and returning the enclosed Proxy Card.

What if I return my Proxy Card but do not include voting instructions?

If you return a signed card, but do not provide voting instructions, your shares will be voted:

- FOR each nominee for director;
- FOR the Reverse Split Proposal;
- To approve the compensation to our executive officers;
- To approve the frequency of future advisory votes on executive compensation be held every three years; and
- According to the best judgment of the Board of Directors if a proposal comes up for a vote at this Meeting that is not on the proxy card.

What does it mean if I receive more than one Proxy Card?

It means you may have multiple accounts with brokers and/or our transfer agent. Please vote all of these shares of Common Stock. We recommend that you contact your broker (if you are the beneficial owner of our shares in street name) or our transfer agent (if you are a stockholder of record) to consolidate as many accounts as possible under the same name and address. Our transfer agent is Computershare, 330 N. Brand Blvd., Suite 701, Glendale, CA 91203-2149, telephone (818) 254-3160.

Will my shares be voted if I do not provide my Proxy?

If you do not sign and return your proxy card, your shares will not be voted unless you vote in person at this Meeting.

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Certain of our stockholders hold their shares in an account at a brokerage firm, bank or other nominee holder, rather than holding share certificates in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholder of Record / Registered Stockholders

If, on the Record Date, your shares were registered directly in your name with our transfer agent, Computershare, you are a "stockholder of record" who may vote at the Meeting, and we are sending these proxy materials directly to you. As the stockholder of record, you have the right to direct the voting of your shares by returning the enclosed proxy card to us or to vote in person at the Meeting. Whether or not you plan to attend the Meeting, please complete, date and sign the enclosed proxy card to ensure that your vote is counted.

Beneficial Owner

If, on the Record Date, your shares were held in an account at a brokerage firm or at a bank or other nominee holder, you are considered the beneficial owner of shares held "in street name," and these proxy materials are being forwarded to you by your broker or nominee who is considered the stockholder of record for purposes of voting at the Meeting. As the beneficial owner, you have the right to direct your broker on how to vote your shares and to attend the Meeting. However, since you are not the stockholder of record, you may not vote these shares in person at the Meeting unless you receive a valid proxy from your brokerage firm, bank or other nominee holder. To obtain a valid proxy, you must make a special request of your brokerage firm, bank or other nominee holder. If you do not make this request, you can still vote by using the voting instruction card enclosed with this proxy statement; however, you will not be able to vote in person at the Meeting.

Can I change my mind after I return my Proxy?

Yes. You may change your vote at any time before your Proxy is voted at the Annual Meeting. If you are a shareholder of record, you can do this by giving written notice to your respective corporate secretary, by submitting another Proxy with a later date, or by attending the Annual Meeting and voting in person. If you are a shareholder in "street" or "nominee" name, you should consult with the bank, broker or other nominee regarding that entity's procedures for revoking your voting instructions.

How many shares are eligible to be voted at the Annual Meeting?

The record date for the Annual Meeting is October 1, 2013. Only stockholders of record at the close of business on October 1, 2013, will be entitled to vote at the Annual Meeting. At the close of business on that date, there were outstanding 30,086,848 shares of the Company's Common Stock entitled to one vote per share.

How many votes must be present to hold the meeting?

Your shares are counted as present at the meeting if you attend the meeting and vote in person or if you properly return a Proxy by mail. In order for us to conduct our meeting, a majority of our outstanding shares of Common Stock as of October 1, 2013 must be present in person or by proxy at the meeting. This is referred to as a quorum. On October 1, 2013, there were 30,086,848 shares of Common Stock outstanding and entitled to vote. If a quorum is not present, then either the chairman of the meeting or the stockholders entitled to vote at the meeting may adjourn the meeting until a later time. Abstentions and broker "non-votes" are counted as present or represented for purposes of determining the presence or absence of a quorum. A broker "non-vote" occurs when a broker holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because, in respect of such other proposal, the broker does not have discretionary voting power and has not received instructions from the beneficial owner.

What vote is required to elect directors?

Directors are elected by a plurality of the votes cast. Abstentions and broker "non-votes" (shares held by brokers or nominees as to which they have no discretionary authority to vote on a particular matter and have received no instructions from the beneficial owners or persons entitled to vote thereon) will have no effect on the vote for re-election of directors.

What vote is required to approve the Reverse Stock Split Proposal?

The affirmative vote of a majority of the issued and outstanding shares of Common Stock entitled to vote at the Meeting, voting as one class, is required for approval of the Reverse Split Proposal.

How many votes are required for the non-binding advisory vote on our executive compensation?

The proposal to approve, on an advisory basis, the compensation awarded to our named executive officers requires the affirmative vote of a majority of the votes cast at the Meeting by the holders of shares of Common Stock entitled to vote.

How many votes are required for non-binding advisory vote recommending the frequency of advisory votes on executive compensation?

For purposes of determining the votes cast with respect to the vote to approve a non-binding advisory vote recommending the frequency of advisory votes on executive compensation, a shareholder may vote for 1, 2 or 3 years, or may abstain, and the advisory vote on frequency will be determined by the number of years that receives the most votes cast.

How will voting on any other business be conducted?

Although we do not know of any business to be conducted at the Annual Meeting other than the proposals described in this Proxy Statement, if any other business comes before the Annual Meeting, your signed Proxy Card gives authority to the Proxy holders to vote on those matters at their discretion.

Who will bear the costs of this solicitation?

We will bear the entire cost of solicitation of proxies, including preparation, assembly, printing and mailing of this Proxy Statement, the Proxy Card and any additional information furnished to stockholders. Copies of solicitation materials will be furnished to banks, brokerage houses, fiduciaries and custodians holding in their names shares of Common Stock beneficially owned by others to forward to the beneficial owners. We may reimburse persons representing beneficial owners of Common Stock for their costs of forwarding solicitation materials to the beneficial owners. Original solicitation of proxies by mail may be supplemented by telephone, facsimile or personal solicitation by our directors, officers or other regular employees.

How can I find out the results of the voting at the Annual Meeting?

Preliminary voting results will be announced at the Annual Meeting. Final voting results will be published on a Current Report on Form 8-K within four business days after conclusion of the Annual Meeting.

PROPOSAL 1

RE-ELECTION OF DIRECTORS

At the Annual Meeting, six individuals will be elected to serve as directors until the next annual meeting or until their successors are duly elected, appointed and qualified. The Company's Board of Directors currently consists of six persons. The six individuals who are nominated for re-election to the Board of Directors are existing directors of the Company. Unless a shareholder WITHHOLDS AUTHORITY, a properly signed and dated Proxy will be voted "FOR ALL" of the six persons named below to serve as directors, unless the Proxy contains contrary instructions. Management has no reason to believe that any of the nominees will not be a candidate or will be unable to serve as a director. However, in the event any nominee is not a candidate or is unable or unwilling to serve as a director at the time of the re-election, unless the shareholder WITHHOLDS AUTHORITY from voting, the proxies will be voted "FOR" any nominee who shall be designated by the present Board of Directors to fill such vacancy.

The six current Directors to be considered for re-election are Lei Gu, Patrick Wong, Augustine Lo, Chang Shan, Chen Wang, and Chin Hung (James) Lo.

Our Directors will generally serve one-year terms and shall hold office until the next annual meeting of stockholders and until his successor has been duly elected, appointed and qualified. If all the nominees are elected, the Board of Directors will consist of six incumbent directors.

Unless Proxy Cards are otherwise marked, the persons named as proxies will vote all proxies received FOR the re-election of each nominee named in this section.

At each annual meeting of stockholders, directors will be elected by the holders of Common Stock to succeed those directors whose terms are expiring. Directors will be elected annually and will serve until successors are duly elected and qualified or until a director's earlier death, resignation or removal. Our bylaws provide that the authorized number of directors may be changed by action of the majority of the Board of Directors or by a vote of the stockholders of our Company. Vacancies in our Board of Directors may be filled by a majority vote of the Board of Directors with such newly appointed director to serve until the next annual meeting of stockholders, unless sooner removed or replaced.

The following table sets forth certain information concerning each nominee for re-election as a Director of the Company:

Involvement in Certain Legal Proceedings

None of our directors has been, during the past ten years:

- (i) involved in any bankruptcy petition filed by or against such person or any business of which such person was a general partner or executive officer, either at the time of the bankruptcy or within ten years prior to that time;
- (ii) named in as a defendant or counter-claimant in any civil litigation in the past ten years;

- (vii) involved in any disciplinary sanction or orders imposed by a stock, commodities or derivatives exchange or other similar self-regulatory organization.

Corporate Governance

- Board Leadership Structure

Our Company is led by Lei Gu, who has served as Chairman of our Board of Directors and Chief Executive Officer since September 2009, and CEO and Chairman of TCB Digital since July 2007. We believe that having Mr. Gu act in both these roles is most appropriate for the Company at this time because it provides the Company with consistent and

efficient leadership, both with respect to the Company's operations and the leadership of the Board. In particular, having Mr. Gu act in both these roles increases the timeliness and effectiveness of the Board's deliberations, increases the Board's visibility into the day-to-day operations of the Company, and ensures the consistent implementation of the Company's strategies.

Board's Role in Risk Oversight

The Board as a whole has responsibility for risk oversight. The oversight responsibility of the Board is enabled by management reporting processes that are designed to provide visibility to the Board about the identification, assessment and management of critical risks. These areas of focus include strategic, operational, financial and reporting, succession, compensation, compliance, and other risks.

Director Independence

As a NASDAQ listed company, the Company uses the independence definitions of NASDAQ in determining whether our directors are independent. The discussion below reflects such standards of independence.

Our Board of Directors has determined that four of our directors, Mr. Augustine Lo, Mr. Shan, Mr. Wang and Mr. Chin Hung Lo, each qualify as "independent" as the term is used in Item 407 of Regulation S-K as promulgated by the SEC and as that term is defined under NASDAQ Rule 4200(a) (15). In addition, each member of the Audit Committee is independent as required under Section 10A (m) (3) of the Securities Exchange Act of 1934, as amended.

Board Meetings and Committees; Annual Meeting Attendance

Our Board of Directors, including the committees of the Board, held four formal meetings during the most recently completed fiscal year. Each of the re-elected members of our Board of Directors was present at all of the Board of Directors meetings held. Other proceedings of the Board of Directors were conducted by resolutions consented to in writing by all the directors and filed with the minutes of the proceedings of the directors. Such resolutions consented to in writing by the directors entitled to vote on that resolution at a meeting of the directors are, according to the corporate laws of the State of Delaware and our bylaws, as valid and effective as if they had been passed at a meeting of the directors duly called and held.

We currently do not have a policy regarding the attendance of board members at the annual meeting of stockholders.

Standing committees of the Board include an Audit Committee and a Compensation Committee. During 2013 Messrs. Augustine Lo, Shan and Wang, served as the members of each of these Committees.

Audit Committee

The Audit Committee operates under a written charter adopted by the Board of Directors, which is publicly available on Zoom's website at www.zoomleimone.com. Under the provisions of the Audit Committee Charter, the primary functions of the Audit Committee are to assist the Board of Directors with the oversight of (i) Zoom's financial reporting process, accounting functions and internal controls and (ii) the qualifications, independence, appointment, retention, compensation and performance of Zoom's independent registered public accounting firm. At the time of this filing the Audit Committee has held three meetings during 2013 and it is expected to meet a fourth time, on or about November 15, 2013. Messrs. Augustine Lo, Shan, Wang and Li are the independent members of the Board of Directors. In nominating directors for election, the independent directors may consider candidates recommended by stockholders as well as from other sources such as other directors or officers, third party search firms or other appropriate sources. For all potential candidates, the independent directors may consider all factors it deems relevant, such as a candidate's personal integrity and sound judgment, business and professional skills and experience, independence, possible conflicts of interest, diversity, the extent to which the candidate would fill a present need on the Board, and concern for the long-term interests of the stockholders. In general, persons recommended by stockholders will be considered on the same basis as candidates from other sources. If a stockholder wishes to recommend a candidate for Director for election at the 2014 Annual Meeting of Stockholders, it must follow the procedures described in "Deadline for Receipt of Stockholder Proposals and Recommendations for Director." The Board of Directors does not have a policy with regard to the consideration of diversity in identifying director nominees.

PROPOSAL 2

Amendment of the Company's AMENDED certificate of incorporation to effect a reverse stock split of the Company's common stock at a ratio of between one-for-FIVE and one-for-TEN

General

On September 25, 2013, our Board unanimously voted to adopt and declared advisable the Amendment to Article FOURTH of our Certificate of Incorporation, as amended, effecting a reverse stock split of our Common Stock at a ratio of between one-for-five and one-for-ten with such ratio to be determined at the sole discretion of the Board and with such Reverse Split to be effected at such time and date, if at all, as determined by the Board in its sole discretion. The Board is now asking you to approve this Amendment.

Effecting the Reverse Split requires that Article FOURTH of our Certificate of Incorporation be amended to include a reference to the Reverse Split. The additional text added to Article FOURTH, is attached as Appendix A to this proxy statement. If approved, the Amendment will be effective upon the filing of the Amended and Restated Certificate of Incorporation in the form attached as Appendix A with the Secretary of State of Delaware with such filing to occur at the sole discretion of the Board.

The intention of the Board in effecting the Reverse Split is to increase the stock price of our Common Stock, which is currently trading on The Nasdaq Capital Market ("Nasdaq"), to a level sufficiently above the \$1.00 minimum bid price requirement that is required for continuing listing on Nasdaq.

One principal effect of the Reverse Split would be to decrease the number of outstanding shares of our Common Stock. Except for de minimus adjustments that may result from the treatment of fractional shares as described below, the Reverse Split will not have any dilutive effect on our stockholders since each stockholder would hold the same percentage of our Common Stock outstanding immediately following the Reverse Split as such stockholder held immediately prior to the Reverse Split. The relative voting and other rights that accompany the shares of Common Stock would not be affected by the Reverse Split. The table below sets forth the number of shares of our Common Stock outstanding before and after the Reverse Split based on 30,086,848 shares of Common Stock outstanding as of October 1, 2013.

	Prior to the Reverse Split	Assuming a one-for-five Reverse Split	Assuming a one-for-ten Reverse Split
Aggregate Number of Shares of Common Stock	30,086,848	6,017,370	3,008,685

Although the Reverse Split will not have any dilutive effect on our stockholders, the proportion of shares owned by our stockholders relative to the number of shares authorized for issuance will decrease because the Reverse Split does not change the current authorized number of shares of Common Stock (60,000,000). The remaining authorized shares may be used for various purposes, including, without limitation, raising capital, providing equity incentives to employees, officers or directors, effecting stock dividends, establishing strategic relationships with other companies and expanding our business through the acquisition of other businesses or products. We do not currently have any plans, proposals or arrangements to issue any of the newly available authorized shares for any purposes. In order to support our projected need for additional equity capital and to provide flexibility to raise the capital as necessary, our Board believes the number of shares of Common Stock should be maintained at 60,000,000.

The Reverse Split is not part of a broader plan to take us private. It is the Company's intent to continue to be listed on the Nasdaq after the Reverse Split. As of the date of this proxy statement, we believe we have more than 4,000 beneficial stockholders and 205 record shareholders. The Nasdaq Marketplace Rules requires we have more than 300

Public Holders, which is defined as "holders of a security that includes both beneficial holders and holders of record, but does not include any holder who is, either directly or indirectly, an Executive Officer, director, or the beneficial holder of more than 10% of the total shares outstanding" under Rule 5005. Because the decrease of the number of shares owned by each of our stockholders due to the Reverse Split will not decrease the number of our Public Holders, the Reverse Split should not affect our continued listing status on the Nasdaq.

Reasons for the Reverse Split

As disclosed in the Company's previous SEC filings, in November 2012, the Company received Nasdaq's notice that because the closing bid price for the Company's Common Stock has fallen below \$1.00 per share for 30 consecutive business days, the Company no longer complies with the minimum bid price requirement for continued listing on the Nasdaq Capital Market under Rule 5550(a)(2) of Nasdaq Listing Rules. Pursuant to Nasdaq Marketplace Rule 5810(c)(3)(A), the Company has been provided an compliance period of 360 calendar days, as extended, or until November 25, 2013, to regain compliance with the minimum bid price requirement. To regain compliance, the closing bid price of the Company's common stock must meet or exceed \$1.00 per share for a minimum of 10 consecutive business days prior to November 25, 2013.

The Board of Director's primary objective in proposing the Reverse Split is to raise the per share trading price of our Common Stock to a level sufficiently above the \$1.00 minimum bid price requirement that is required for continuing listing on Nasdaq. Upon receiving stockholder approval, the Board may file the Amendment with the Secretary of State of Delaware.

Our Board concluded that the liquidity and marketability of our Common Stock may be adversely affected if it is not quoted on a national securities exchange as investors can find it more difficult to dispose of, or to obtain accurate quotations as to the market value of, our Common Stock.

Our Board also has confidence that the Reverse Split and any resulting increase in the per share price of our Common Stock should enhance the acceptability and marketability of our Common Stock to the financial community and investing public. Many institutional investors have policies prohibiting them from holding lower-priced stocks in their portfolios, which reduces the number of potential buyers of our Common Stock, although we have not been told by them that is the reason for not investing in our Common Stock. Additionally, analysts at many brokerage firms are reluctant to recommend lower-priced stocks to their clients or monitor the activity of lower-priced stocks. Brokerage houses frequently have internal practices and policies that discourage individual brokers from dealing in lower-priced stocks. Further, because brokers' commissions on lower-priced stock generally represent a higher percentage of the stock price than commissions on higher priced stock, investors in lower-priced stocks pay transaction costs which are a higher percentage of their total share value, which may limit the willingness of individual investors and institutions to purchase our Common Stock.

We cannot assure you that the Reverse Split will have any of the desired effects described above. More specifically, we cannot assure you that after the Reverse Split the market price of our Common Stock will increase proportionately to reflect the ratio for the Reverse Split, that the market price of our Common Stock will not decrease to its pre-split level, that our market capitalization will be equal to the market capitalization before the Reverse Split, or that we will be able to maintain our listing on Nasdaq.

Potential Disadvantages of the Reverse Split

As noted above, the principal purpose of the Reverse Split would be to help increase the per share market price of our Common Stock by up to factor of ten. We cannot assure you, however, that the Reverse Split will accomplish this objective for any meaningful period of time. While we expect that the reduction in the number of outstanding shares of Common Stock will increase the market price of our Common Stock, we cannot assure you that the Reverse Split will increase the market price of our Common Stock by an equivalent multiple, or result in any permanent increase in the market price of our Common Stock. The price of our Common Stock is dependent upon many factors, including our business and financial performance, general market conditions and prospects for future success. If the per share market price does not increase proportionately as a result of the Reverse Split, then the value of our Company as measured by our stock capitalization will be reduced, perhaps significantly.

The number of shares held by each individual stockholder would be reduced if the Reverse Split is implemented. This will increase the number of stockholders who hold less than a "round lot," or 100 shares. This has two disadvantages. First, the Nasdaq Marketplace Rules require that we have at least 300 round lot stockholders. Second, Because the transaction costs to stockholders selling "odd lots" are typically higher on a per share basis. Consequently, the Reverse Split could increase the transaction costs to existing stockholders in the event they wish to sell all or a portion of their position.

Although our Board believes that the decrease in the number of our Common Stock outstanding as a consequence of the Reverse Split and the anticipated increase in the market price of our Common Stock could encourage interest in our Common Stock and possibly promote greater liquidity for our stockholders, such liquidity could also be adversely affected by the reduced number of shares outstanding after the Reverse Split.

Effecting the Reverse Split

Upon receipt of stockholder approval for the Amendment, if our Board concludes that it is in the best interests of our Company and our stockholders to effect the Reverse Split, the Board would determine the conversion ratio and the Amendment will be filed with the Secretary of State of Delaware. The actual timing of the filing of the Amendment with the Secretary of State of the State of Delaware to effect the Reverse Split will be determined by our Board. In addition, if for any reason our Board deems it advisable to do so, the Reverse Split may be abandoned at any time prior to the filing of the Amendment, without further action by our stockholders. The Reverse Split will be effective as of the date of filing with the Secretary of State of Delaware (the "Effective Time").

Upon the filing of the Amendment, without further action on our part or our stockholders, the outstanding shares of Common Stock held by stockholders of record as of the Effective Time would be converted into a lesser number of shares of Common Stock based on a Reverse Stock Split ratio as determined by the Board. For example, if you presently hold 1,000 shares of our Common Stock, you would hold 200 shares of our Common Stock following the Reverse Split if the ratio is one-for-five or you would hold 100 shares of our Common Stock if the ratio is one-for-ten.

Effect on Outstanding Shares, Options and Certain Other Securities

If the Reverse Split is implemented, the number of shares our Common Stock owned by each stockholder will be reduced in the same proportion as the reduction in the total number of shares outstanding, such that the percentage of our Common Stock owned by each stockholder will remain unchanged except for any de minimus change resulting from rounding up to the nearest number of whole shares so that we are not obligated to issue cash in lieu of any fractional shares that such stockholder would have received as a result of the Reverse Split. The number of shares of our Common Stock that may be purchased upon exercise of outstanding options or other securities convertible into, or exercisable or exchangeable for, shares of our Common Stock, and the exercise or conversion prices for these securities, will also be ratably adjusted in accordance with their terms as of the Effective Time.

Effect on Registration

Our Common Stock is currently registered under the Securities Act of 1933, as amended, and we are subject to the periodic reporting and other requirements of the Securities Exchange Act of 1934, as amended. The proposed Reverse Split will not affect the registration of our Common Stock.

Fractional Shares; Exchange of Stock Certificates

Our Board does not currently intend to issue fractional shares in connection with the Reverse Split. Therefore, we do not expect to issue certificates representing fractional shares. In lieu of any fractional shares, we will issue to stockholders of record who would otherwise hold a fractional share because the number of shares of Common Stock they hold before the Reverse Split is not evenly divisible by the Reverse Split ratio that number of shares of Common Stock as rounded up to the nearest whole share. For example, if a stockholder holds 150.75 Common Stock following the Reverse Split, that stockholder will receive certificate representing 151 Common Stock. No stockholders will receive cash in lieu of fractional shares.

As of October 1, 2013, we had 205 holders of record of our Common Stock (although we have significantly more beneficial holders). We do not expect the Reverse Split and the rounding up of fractional shares to whole shares to result in a significant reduction in the number of record holders. We presently do not intend to seek any change in its status as a reporting company for federal securities law purposes, either before or after the Reverse Split.

On or after the Effective Time, we will mail a letter of transmittal to each stockholder. Each stockholder will be able to obtain a certificate evidencing his, her or its post-Reverse Split shares only by sending the exchange agent (who will be the Company's transfer agent) the stockholder's old stock certificate(s), together with the properly executed and completed letter of transmittal and such evidence of ownership of the shares as we may require. Stockholders will not receive certificates for post-Reverse Split shares unless and until their old certificates are surrendered. Stockholders should not forward their certificates to the exchange agent until they receive the letter of transmittal, and they should only send in their certificates with the letter of transmittal. The exchange agent will send each stockholder, if elected in the letter of transmittal, a new stock certificate after receipt of that stockholder's properly completed letter of transmittal and old stock certificate(s). A stockholder that surrenders his, her or its old stock certificate(s) but does not elect to receive a new stock certificate in the letter of transmittal will be deemed to have requested to hold that stockholder's shares electronically in book-entry form with our transfer agent.

Certain of our registered holders of Common Stock hold some or all of their shares electronically in book-entry form with our transfer agent. These stockholders do not have stock certificates evidencing their ownership of our Common Stock. They are, however, provided with a statement reflecting the number of shares registered in their accounts. If a stockholder holds registered shares in book-entry form with our transfer agent, the stockholder will need to return a properly executed and completed letter of transmittal.

Stockholders who hold shares in street name through a nominee (such as a bank or broker) will be treated in the same manner as stockholders whose shares are registered in their names, and nominees will be instructed to effect the Reverse Split for their beneficial holders. However, nominees may have different procedures and stockholders holding shares in street name should contact their nominees.

Stockholders will not have to pay any service charges in connection with the exchange of their certificates.

Authorized Shares

If and when our Board elects to effect the Reverse Split, the Amendment will concurrently therewith maintain the authorized number of shares of our Common Stock at 60 million. Accordingly, there will be no reduction in the number of authorized shares of our Common Stock in proportion to the Reverse Split ratio. As a result, the proportion of shares owned by our shareholders relative to the number of shares authorized for issuance will decrease and the additional authorized shares of Common Stock will be available for issuance at such times and for such purposes as our Board of Directors may deem advisable without further action by our shareholders, except as required by applicable laws and regulations.

The Reverse Split will have no effect on our authorized preferred stock, \$0.01 par value per share, because there are no shares of preferred stock currently outstanding.

In accordance with our amended and restated certificate of incorporation and Delaware law, our shareholders do not have any preemptive rights to purchase or subscribe for any of our unissued or treasury shares.

Anti-Takeover and Dilutive Effects

The purpose of maintaining our authorized Common Stock at 60,000,000 after the Reverse Split is to facilitate our ability to raise additional capital to support our operations, not to establish any barriers to a change of control or acquisition of our Company. The Common Stock that are authorized but unissued provide our Board with flexibility to effect, among other transactions, public or private financings, acquisitions, stock dividends, stock splits and the granting of equity incentive awards. However, these authorized but unissued shares may also be used by our Board, consistent with and subject to its fiduciary duties, to deter future attempts to gain control of us or make such actions more expensive and less desirable. The Reverse Split would give our Board authority to issue additional shares from time to time without delay or further action by the stockholders except as may be required by applicable law or the rules of the Exchanges. The Reverse Split is not being recommended in response to any specific effort of which we are aware to obtain control of us, nor does our Board have any present intent to use the authorized but unissued Common Stock to impede a takeover attempt. There are no plans or proposals to adopt other provisions or enter into any arrangements that have material anti-takeover effects.

In addition, the issuance of additional shares of Common Stock for any of the corporate purposes listed above could have a dilutive effect on earnings per share and the book or market value of our outstanding Common Stock, depending on the circumstances, and would likely dilute a stockholder's percentage voting power in us. Holders of our Common Stock are not entitled to preemptive rights or other protections against dilution. Our Board intends to take these factors into account before authorizing any new issuance of shares.

Accounting Consequences

As of the Effective Time, the stated capital attributable to Common Stock on our balance sheet will be reduced proportionately based on the Reverse Split ratio (including a retroactive adjustment of prior periods), and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. Reported per share net income or loss will be higher because there will be fewer shares of our Common Stock outstanding.

Federal Income Tax Consequences

The following summary describes certain material U.S. federal income tax consequences of the Reverse Split to holders of our Common Stock. This summary addresses the tax consequences only to a beneficial owner of our Common Stock that is a citizen or individual resident of the United States, a corporation organized in or under the laws of the United States or any state thereof or the District of Columbia or otherwise subject to U.S. federal income taxation on a net income basis in respect of our Common Stock (a "U.S. holder"). This summary does not address all of the tax consequences that may be relevant to any particular stockholder, including tax considerations that arise from rules of general application to all taxpayers or to certain classes of taxpayers or that are generally assumed to be known by investors. This summary also does not address the tax consequences to persons that may be subject to special treatment under U.S. federal income tax law or persons that do not hold our Common Stock as "capital assets" (generally, property held for investment). This summary is based on the provisions of the Internal Revenue Code of 1986, as amended ("IRC"), U.S. Treasury regulations, administrative rulings and judicial authority, all as in effect as of June 15, 2011. Subsequent developments in U.S. federal income tax law, including changes in law or differing interpretations, which may be applied retroactively, could have a material effect on the U.S. federal income tax consequences of the Reverse Stock Split.

If a partnership (or other entity classified as a partnership for U.S. federal income tax purposes) is the beneficial owner of our Common Stock, the U.S. federal income tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. Partnerships that hold our Common Stock, and partners in such partnerships, should consult their own tax advisors regarding the U.S. federal income tax consequences of the Reverse Split.

Each stockholder should consult his, her or its own tax advisor regarding the U.S. federal, state, local and foreign income and other tax consequences of the Reverse Stock Split.

The Reverse Split should be treated as a recapitalization for U.S. federal income tax purposes. Therefore, no gain or loss should be recognized by a U.S. holder upon the Reverse Split. Accordingly, the aggregate tax basis in the Common Stock received pursuant to the Reverse Split should equal the aggregate tax basis in the Common Stock surrendered and the holding period for the Common Stock received should include the holding period for the Common Stock surrendered.

Text of Proposed Amendment; Effectiveness

The text of the proposed Amendment is set forth in Appendix A to this Proxy Statement. If and when effected by our Board, the Amendment will become effective upon its filing with the Secretary of State of Delaware.

Required Vote

Amending the Certificate of Incorporation of the Company requires the affirmative vote of the holders of a majority of the outstanding shares of Common Stock of the Company. Unless marked to the contrary, proxies received will be voted "FOR" Proposal 2.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS OF THE COMPANY RECOMMENDS A VOTE FOR PROPOSAL NO. 2.

PROPOSAL 3 - ADVISORY VOTE ON EXECUTIVE COMPENSATION

The SEC has adopted final rules requiring public companies to provide stockholders with periodic advisory (non-binding votes) on executive compensation, also referred to as "say-on-pay" proposals. We are presenting the following proposal, which gives you as a stockholder the opportunity to endorse or not endorse the compensation paid to our Principal Executive Officer and Principal Financial Officer (collectively, the "Named Executive Officers"), as disclosed in this Proxy Statement pursuant to Item 402 of Regulation S-K (including the compensation tables and accompanying narrative discussion).

"RESOLVED, that the compensation paid to the Company's Named Executive Officers, as disclosed pursuant to Item 402 of Regulation S-K, compensation tables and narrative discussion is hereby APPROVED."

Pursuant to the Exchange Act and the rules promulgated thereunder, this vote will not be binding on the Board or the Compensation Committee and may not be construed as overruling a decision by the Board or the Compensation Committee, creating or implying any change to the fiduciary duties of the Board or the Compensation Committee or any additional fiduciary duty by the Board or the Compensation Committee or restricting or limiting the ability of stockholders to make proposals for inclusion in proxy materials related to executive compensation. The Board and the Compensation Committee, however, may in their discretion take into account the outcome of the vote when considering future executive compensation arrangements.

Required Vote

In voting to approve the above resolution, stockholders may vote for the resolution, against the resolution or abstain from voting. This matter will be decided by the affirmative vote of a majority of the votes cast at the Meeting. Abstentions and broker non-votes will have no direct effect on the outcome of this proposal.

THE BOARD RECOMMENDS A VOTE "FOR" APPROVAL OF THE COMPENSATION OF THE COMPANY'S NAMED EXECUTIVE OFFICERS AS DISCLOSED IN THIS PROXY STATEMENT.

PROPOSAL 4 - TO CONDUCT AN ADVISORY VOTE ON THE FREQUENCY OF
FUTURE ADVISORY VOTES ON EXECUTIVE COMPENSATION

The SEC has also adopted final rules requiring public companies to hold an advisory (non-binding) vote on the frequency of holding say-on-pay votes. Accordingly, as required by the SEC's rules, we are including this proposal to give our stockholders the opportunity to inform us as to how often they wish the Company to include a say-on-pay proposal, similar to Proposal Three, in our proxy statements.

We are presenting the following proposal, which gives you, as a stockholder, the opportunity to inform us as to whether you wish us to hold an advisory (non-binding) vote on executive compensation once every (1) one year, (2) two years, or (3) three years, or you may abstain from voting on the proposal set forth in the following resolution.

"RESOLVED, that the stockholders determine, on an advisory basis, whether the preferred frequency of an advisory vote on the executive compensation of the Company's named executive officers as set forth in the Company's Proxy Statement for the 2013 Annual Meeting of Stockholders should be every year, every two years, or every three years."

The Board recommends that you vote for every three (3) years as the desired frequency for the Company to hold a non-binding, advisory vote of the stockholders on executive compensation. We believe this frequency is appropriate for the reasons set forth below:

1. Our equity compensation program for the named executive officers is designed to support long-term value creation, and a vote every three years will allow the stockholders to better judge the equity compensation program in relation to our long-term performance. We strive to ensure management's interests are aligned with stockholders' interests to support long-term value creation through our equity compensation program. To that end, we grant equity awards to vest over multi-year periods of service to encourage our named executive officers to focus on long-term performance, and recommend a vote every three years, which would allow the equity compensation to be evaluated over a similar time-frame and in relation to long-term performance.
2. A vote every three (3) years will provide the Board and the Compensation Committee with the time to thoughtfully consider and thoroughly respond to stockholders' sentiments and to implement any necessary changes in light of the timing required therefor. The Board and the compensation committee will carefully review changes to the executive compensation to maintain the effectiveness and credibility of the program, which is important for aligning interests and for motivating and retaining our named executive officers.
3. We are open to input from stockholders regarding board and governance matters, as well as the equity compensation program. We believe that the stockholders' ability to contact us and the Board at any time to express specific views on executive compensation holds us accountable to stockholders and reduces the need for and value of more frequent advisory votes on executive compensation.

Pursuant to the Exchange Act and the rules promulgated thereunder, this vote on the frequency of future advisory votes on named executive officer compensation is non-binding on the Board and its committees. This vote may not be construed as overruling a decision by the Board or its committees, creating or implying any change to the fiduciary duties of the Board or its committees or any additional fiduciary duty by the Board or its committees or restricting or limiting the ability of stockholders to make proposals for inclusion in proxy materials related to executive compensation. Notwithstanding the Board's recommendation and the outcome of the vote on this matter, the Board may, in the future, decide to conduct advisory votes on a more or less frequent basis and may vary its practice based on factors such as discussions with stockholders and the adoption of material changes to compensation programs.

THE BOARD RECOMMENDS THAT STOCKHOLDERS VOTE TO HAVE THE NON-BINDING
VOTE ON EXECUTIVE COMPENSATION OCCUR EVERY THREE YEARS.
