This Proxy Statement contains important information for you to consider when deciding how to vote on the matters brought before the meeting. Please read it carefully.

We have sent to you the notice of availability of proxy materials. If you would like to receive a paper copy or e-mail copy of the voting materials, you may elect to do so by following the instructions on the notice of availability. Instead of receiving paper copies of our annual reports and Proxy Statements in the mail, we encourage you to elect to receive an e-mail that will provide an electronic link to these documents. Choosing to receive your proxy materials online will save us the cost of producing and mailing documents to you as well as conserve natural resources. With electronic delivery, we will notify you by e-mail as soon as the annual report and Proxy Statement are available on the Internet, and you can easily submit your stockholder vote online. If you are a stockholder of record, you may enroll in the electronic delivery service at the time you vote by marking the appropriate box on your proxy card, by selecting electronic delivery if you vote on the Internet, or at any time in the future by going directly to www.proxyvote.com, selecting the "Investor Service Direct" option, and following the enrollment instructions. If you are a beneficial holder, you may also have the opportunity to receive annual meeting materials electronically. Please check the information provided in the proxy materials mailed to you by your brokerage firm, bank or trustee.

Notice of the meeting and Notice of Availability of Proxy Materials, which include this Proxy Statement and a proxy card, were mailed to stockholders beginning on or about March 16, 2012. Our principal executive offices are located at 1713 Jaggie Fox Way, Lexington, Kentucky 40511. Our telephone number is (800) 878-8889. As used in this Proxy Statement, the term "Tempur-Pedic International," refers to Tempur-Pedic International Inc. and the terms "we," "our," "ours," "us," and "Company" refer to Tempur-Pedic International Inc. and its consolidated subsidiaries.

Q: When is the Record Date and who may vote at the meeting?

A: Our Board set March 2, 2012 as the record date for the meeting. All stockholders who owned Tempur-Pedic International common stock of record at the close of business on March 2, 2012 may attend and vote at the meeting. Each stockholder is entitled to one vote for each share of common stock held on all matters to be voted on. On March 2, 2012, 63,985,627 shares of Tempur-Pedic International common stock were outstanding. The common stock is the only class of securities eligible to vote at the meeting.

Q: How many votes does Tempur-Pedic International need to be present at the meeting?

A: A majority of Tempur-Pedic International's outstanding shares of common stock as of the record date must be present at the meeting in order to hold the meeting and conduct business. This is called a quorum. Shares are counted as present at the meeting if you:

Are present and vote in person at the meeting; or

- Have properly submitted a proxy card, via the Internet, telephone or by mail.

Table of Contents

Q: What proposals will be voted on at the meeting?

A: There are three proposals scheduled to be voted on at the meeting:

- Election of ten (10) directors to each serve for a one-year term and until the director's successor has been duly elected and qualified (Proposal One).
- Ratification of the appointment of the firm of Ernst & Young LLP as Tempur-Pedic International's independent auditors for the year ending December 31, 2012 (Proposal Two).
- Advisory vote to approve the compensation of Named Executive Officers (Proposal Three).

Q: What is the voting requirement to approve the proposals?

A: At an annual meeting at which a quorum is present, the following votes will be necessary to elect directors, to ratify the appointment of the independent auditors and to approve the advisory vote on the compensation of Named Executive Officers described in this proxy statement:

- Each director shall be elected by the vote of a majority of the votes cast with respect to the director. For purposes of this vote, a majority of the votes cast means that the number of shares voted "for" a director must exceed the number of shares voted "against" that director (excluding abstentions).
- Ratification of the appointment of Ernst & Young LLP as independent auditors for the year ending December 31, 2012 requires the affirmative vote of the majority of shares present and entitled to vote. Abstentions are counted as votes present and entitled to vote and have the same effect as votes against the proposal.
- Approval of the advisory vote on the compensation of Named Executive Officers requires the affirmative vote of the majority of shares present and entitled to vote. Abstentions are counted as votes present and entitled to vote and have the same effect as votes against the proposal.

Q: If I hold my shares in a brokerage account and do not provide voting instructions to my broker, will my shares be voted?

A: Under New York Stock Exchange ("NYSE") rules, brokerage firms may vote in their discretion on certain matters on behalf of clients who do not provide voting instructions at least 15 days before the date of the annual meeting. Generally, brokerage firms may vote to ratify the appointment of independent auditors and on other "discretionary" items. In contrast, brokerage firms may not vote to elect directors or on stockholder or other proposals, including proposal three in this Proxy Statement, because those proposals are considered "non-discretionary" items. Accordingly, if your shares are held in a brokerage account and you do not return voting instructions to your broker by its deadline, your shares may be voted by your broker on some, but not all, of the proposals described in this proxy statement. Broker non-votes will not be considered in determining the number of votes cast in connection with non-discretionary items.

Q: How would my shares be voted if I do not specify how they should be voted?

A: If you sign and return your proxy card without indicating how you want your shares to be voted, the persons designated by the Board of Directors to vote the proxies returned pursuant to this solicitation will vote your shares as follows:

Proposal One: "FOR" the election of ten directors to each serve for a one-year term and until the director's successor has been duly elected and qualified.

Proposal Two: "FOR" the ratification of the appointment of the firm of Ernst & Young LLP as Tempur-Pedic International's independent auditors for the year ending December 31, 2012.

Proposal Three: "FOR" the advisory vote to approve the compensation of Named Executive Officers.

A: You may revoke your proxy and change your vote at any time before the final vote at the meeting. You may do this by signing and submitting a new proxy card with a later date via internet, telephone or mail or by attending the meeting and voting in person. Attending the meeting will not revoke your proxy unless you specifically request it.

Certificate of Incorporation and Bylaws; Majority Voting for Directors

Tempur-Pedic International's By-Laws provide that a director in an uncontested election will be elected by a majority of votes cast (excluding abstentions) at a stockholder meeting at which a quorum is present. For purposes of this vote, a majority of the votes cast means that the number of shares voted "for" a director must exceed the number of shares voted "against" that director (excluding abstentions). If an incumbent director fails to receive the requisite vote, the director must tender his or her resignation for consideration by the Nominating and Corporate Governance Committee. In an election for directors where the number of nominees exceeds the number of directors to be elected – a contested election – the directors would be elected by the vote of a plurality of the shares represented at the meeting and entitled to vote on the matter. Previously, a director was elected by a plurality of votes cast at a meeting where a quorum was present. Neither Tempur-Pedic International's Certificate of Incorporation nor its Bylaws provide for a classified Board of Directors.

Board of Directors' Meetings

The Board of Directors held eight meetings in 2011. The Securities and Exchange Commission (SEC) requires disclosure of the name of any director who, during the last full fiscal year (calendar year 2011), attended fewer than 75% of the aggregate of the total number of meetings of (i) the Board during the period for which he or she has been a director and (ii) all committees of the Board on which the director served during the periods that he or she served. Each director attended more than 75% of the combined total number of meetings of the Board of Directors and its committees held in 2011 during the period in which they served as directors or committee members.

Table of Contents

Directors' Independence

Our corporate governance guidelines provide that a majority of the Board of Directors shall consist of independent directors within the meaning of the New York Stock Exchange Rules governing the composition of the Board of Directors and its committees (NYSE Independence Rules). The Board of Directors has determined that none of Evelyn S. Dilsaver, Frank Doyle, John A. Heil, Peter K. Hoffman, Sir Paul Judge, Nancy F. Koehn, Christopher A. Masto, P. Andrews McLane or Robert B. Trussell, Jr. have a material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company) within the meaning of the NYSE Independence Rules and accordingly are "independent" for purposes of the NYSE Independence Rules.

The Board of Directors has determined that Mark Sarvary does not qualify as an independent director under the NYSE Independence Rules because he serves as President and Chief Executive Officer of Tempur-Pedic International.

Board Leadership Structure

As stated in its Corporate Governance Guidelines, the Board has no set policy with respect to the separation of the offices of Chairman and the Chief Executive Officer. Currently, the Board believes that the separation of the chairman and chief executive officer positions is the most appropriate structure for the company and has had a separate Chairman and Chief Executive for the past nine years. Since the formation of Tempur-Pedic International in 2002, P. Andrews McLane has served as the Chairman of the Board while Robert Trussell, Thomas Bryant and Mark Sarvary have each served in the role of Chief Executive Officer and a member of the Board. By having a separate Chairman and Chief Executive Officer, the Board believes that the Chief Executive Officer may devote more of his attention to running the operations of the Company while the Chairman assumes the responsibility of running the Board. In addition, the Board believes it is beneficial to have an independent Chairman whose sole job is leading the Board, as the independent chairman may more effectively and objectively monitor the performance of the Company and the Chief Executive Officer. Having the Chief Executive Officer serve on the Board of Directors ensures that the Board contains the individual most familiar with the Company's business and industry and most effective at identifying strategic priorities and implementation of the Company's strategy, while also retaining an independent leader.

The Board believes that the structure of its leadership may vary from time to time, depending on the circumstances of the Company and its succession planning. Therefore, the Board periodically reviews its leadership structure.

Board of Director's Role in Risk Oversight

The Board of Directors is responsible for overseeing the management and operations of the Company, including overseeing its risk assessment and risk management functions. As discussed elsewhere in this proxy statement, the Board of Directors has delegated primary responsibility for reviewing the Company's policies with respect to risk assessment and risk management to the Audit Committee. The Board has determined that this oversight responsibility can be most efficiently performed by the Audit Committee as part of its overall responsibility for providing independent, objective oversight with respect to Tempur-Pedic International's accounting and financial reporting functions, internal and external audit functions and systems of internal controls over financial reporting and legal, ethical and regulatory compliance. The Audit Committee regularly reports to the Board of Directors with respect to its oversight of these important areas. The Compensation Committee has primary responsibility for oversight of risk related to compensation matters, as more fully described elsewhere in this Proxy Statement.

Effective December 31, 2011, Ms. Koehn requested to step down from the Audit Committee due to time constraints. The Board has determined that each member of the Audit Committee is independent as defined in the NYSE Independence Rules and the rules of the SEC. The Board has also determined that Mr. Doyle, Ms. Dilsaver, Mr. Hoffman and Sir Paul Judge are audit committee financial experts within the meaning of Item 407 (d) (5) (ii) of Regulation S-K of the Securities and Exchange Act of 1934, as amended (Exchange Act) and has “accounting or related financial management expertise” within the meaning of the applicable New York Stock Exchange rules. The Audit Committee was established in accordance with Section 3(a)(58) of the Exchange Act.

- appointing the independent public accountants and reviewing their independence and performance and the reasonableness of their fees.

Tempur-Pedic International also has a confidential, anonymous reporting system which is web-based and available to all employees. All reports are treated confidentially.

The Audit Committee met ten times in 2011. A copy of the Audit Committee charter as adopted by our Board of Directors is available on Tempur-Pedic International’s website at <http://investor.tempurpedic.com/> under the caption “Corporate Governance.”

Since 2005, the Compensation Committee has periodically engaged Frederic W. Cook & Co., Inc. In 2011, the Compensation Committee engaged Cook to update the competitive analysis of executive compensation levels and structure. For a further description of the services Cook has provided, see "Executive Compensation and Related Information – Compensation Discussion and Analysis."

Cook does no work for management unless requested by and on behalf of the Compensation Committee Chair, receives no compensation from the Company other than for its work in advising the Compensation Committee and maintains no other economic relationships with the Company. A representative from Cook attends meetings of the Compensation Committee, when requested by the Compensation Committee Chair, and the Compensation Committee Chair frequently interacts with the consultant between meetings to define the nature of work to be conducted, to review materials to be presented at Committee meetings and to obtain the consultant's opinion and perspective on proposals prepared by management.

Policy Governing Related Party Transactions

In March 2007, our Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, adopted a written Related Party Transactions Policy providing for the review and approval or ratification by the Nominating and Corporate Governance Committee of any transaction, arrangement or relationship, or series of such transactions, arrangements or relationships (including indebtedness or guarantees of indebtedness in which the aggregate amount involved will or may be expected to exceed \$100,000 in any calendar year end, involving the Company and its directors, executive officers, beneficial owners of more than 5% of the Company's common stock, and their immediate family members or affiliates. In reviewing a transaction or relationship, the Nominating and

Corporate Governance Committee will take into account, among other factors it deems appropriate, whether it is on terms no more favorable than to an unaffiliated third party under similar circumstances, as well as the extent of the related party's interest in the transaction.

Policies Governing Director Nominations

Director Qualifications and Review of Director Nominees

The Nominating and Corporate Governance Committee makes recommendations to the Board of Directors regarding the size and composition of the Board. The Committee reviews annually with the Board the composition of the Board as a whole and recommends, if necessary, measures to be taken so that the Board reflects the appropriate balance of knowledge, experience, skills, expertise and diversity required for the Board as a whole and contains at least the minimum number of independent directors required by applicable laws and regulations. The Committee is responsible for ensuring that the composition of the Board accurately reflects the needs of the Company's business and, in furtherance of this goal, proposing the addition of members and the necessary resignation of members for purposes of obtaining the appropriate members and skills. Board members should possess such attributes and experience as are necessary to provide a broad range of personal characteristics including diversity, management skills and business experience. Directors should be able to commit the requisite time for preparation and attendance at regularly scheduled Board and committee meetings, as well as be able to participate in other matters necessary to ensure that good corporate governance is practiced.

In evaluating a director candidate, the Committee considers factors that are in the best interests of the Company and its stockholders, including the potential contribution of each candidate to the diversity of backgrounds, experience and competencies which the Board desires to have represented; independence; reputation for integrity, honesty and adherence to high ethical standards; the ability to exercise sound business judgment; substantial business or professional experience and the ability to offer meaningful advice and guidance to the Company's management based on that experience; each candidate's ability to devote sufficient time and effort to his or her duties as a director; and any other criteria established by the Board and any core competencies or technical expertise necessary to staff Board committees. In addition, the Committee assesses whether a candidate possesses the integrity, judgment, knowledge, experience, skills and expertise that are likely to enhance the Board's ability to manage and direct the affairs and business of the Company, including, when applicable, to enhance the ability of committees of the Board to fulfill their duties.

In addition to fulfilling the above criteria, nine of the ten nominees for re-election named above are considered independent under the NYSE rules. Mr. Sarvary is not considered independent because he is an employee of the Company. The Nominating and Corporate Governance Committee believes that all ten nominees are independent of the influence of any particular stockholder or group of stockholders whose interests may diverge from the interests of our stockholders as a whole.

Each nominee also brings a strong and unique background and set of skills to the Board, giving the Board as a whole competence and experience in a wide variety of areas, including corporate governance and board service, executive management, private equity, finance, manufacturing, consumer product companies, sales, marketing and international business. Set forth below are the conclusions reached by the Board with regard to its nominees.

Ms. Dilsaver brings significant accounting, auditing and financial skills, based on her training as an accountant and her senior positions at a number of financial services companies, including in the role of chief financial officer.

Mr. Doyle brings significant accounting and auditing skills based on his long experience as an accountant, and also brings significant manufacturing and international experience based on his experience as a chief executive officer.

Mr. Heil has served in positions of president, chief executive officer or chief operating officer of a number of food and consumer products companies, and has significant manufacturing, marketing and managerial experience.

Table of Contents

Mr. Hoffman brings significant experience in the branded consumer products industry as a result of his long career with The Gillette Company and The Procter & Gamble Company, including significant marketing and international experience.

Sir Paul Judge brings significant executive and financial experience in the food industry, and as a UK citizen brings an international perspective to the Board.

Ms. Koehn's experience at Harvard Business School and as a leading consultant brings significant expertise in strategic branding and marketing.

Mr. Masto has significant experience in private equity, management consulting and investment banking, and brings deep financial and analytical skills.

Mr. McLane has significant experience as a private equity investor and brings significant financial and investment experience, as well as significant experience as a director of a large number of companies, both public and private, over the years.

Mr. Sarvary serves as our Chief Executive Officer and has significant experience in senior management positions with consumer businesses.

Mr. Trussell brings management experience and a historical perspective to the Board as former Chief Executive Officer and a principal founder of the Company.

The Nominating and Corporate Governance Committee of the Board of Directors is responsible for reviewing with the Board of Directors from time to time the appropriate qualities, skills and characteristics desired of members of the Board of Directors in the context of the needs of the business and the composition of the Board of Directors. This assessment includes consideration of the following minimum qualifications that the Nominating and Corporate Governance Committee believes must be met by all directors:

- a reputation for integrity, honesty and adherence to high ethical standards;
- the ability to exercise sound business judgment;
- substantial business or professional experience and the ability to offer meaningful advice and guidance to the Company's management based on that experience; and
- the ability to devote the time and effort necessary to fulfill their responsibilities to the Company.

The Nominating and Corporate Governance Committee also considers numerous other qualities, skills and characteristics when evaluating director nominees, including whether the nominee has specific strengths that would augment existing skills and experience of the Board of Directors, such as an understanding of and experience in international business, accounting, governance, finance or marketing and whether the nominee has leadership experience with public companies or other sophisticated and complex organizations. Further, consideration is given to having a diversity of background, experience, skill and perspective among the directors, including perspectives that may result from diversity in ethnicity, race, gender, national origin or nationality, and that the directors represent a range of differing professional positions, industry sectors, expertise and geographic representation. The Board does not have a specific policy with respect to the diversity of its directors, and diversity is only one consideration when selecting and nominating directors.

Process for Identifying and Evaluating Director Nominees

The Nominating and Corporate Governance Committee has established a process for identifying and evaluating nominees for director. Although the Nominating and Corporate Governance Committee will consider nominees recommended by stockholders, the Committee believes that the process it uses to identify and evaluate nominees for director is designed to produce nominees that possess the educational, professional, business and personal attributes that are best suited to further the Company's mission. The Committee may identify nominees through the use of professional search firms that may utilize proprietary screening techniques to match candidates to the Committee's specified qualifications. The Committee may also receive recommendations from existing directors, executive officers, key business partners and trade or industry affiliations. The Committee will evaluate nominations at regular or special meetings, and in evaluating nominations, will seek to achieve a balance of knowledge, experience and capability on the Board and to address the membership criteria set forth above under "Director Qualifications." The Board itself is ultimately responsible for recommending candidates for election to the stockholders or for appointing individuals to fulfill a vacancy.

Table of Contents

In 2011, the Company did not employ a search firm or pay fees to any third party to either search for or evaluate Board nominee candidates.

Procedures for Recommendation of Director Nominees by Stockholders

The Nominating and Corporate Governance Committee will consider director candidates recommended by our stockholders. In evaluating candidates recommended by our stockholders, the Nominating and Corporate Governance Committee applies the same criteria set forth above under “Director Qualifications.” Any stockholder recommendations of director nominees proposed for consideration by the Nominating and Governance Committee should include the nominee's name and qualifications for Board membership and should be addressed in writing to the Committee, care of: Tempur-Pedic International Inc., 1713 Jaggie Fox Way, Lexington, Kentucky 40511, Attention: Corporate Secretary. In addition, the Company’s Bylaws permit stockholders to nominate directors for consideration at an annual stockholder meeting in accordance with certain procedures described in this Proxy Statement under the heading “Stockholder Proposals for 2013 Proxy Statement.”

EXECUTIVE COMPENSATION AND RELATED INFORMATION

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis (CD&A) provides information about the material components of our executive compensation programs for our Named Executive Officers (NEOs), whose compensation is set forth in the 2011 Summary Compensation Table and other compensation tables contained in this proxy statement:

- Mark Sarvary, President and Chief Executive Officer (CEO);
- Dale Williams, Executive Vice President and Chief Financial Officer;
- Rick Anderson, Executive Vice President and President, North America;
- David Montgomery, Executive Vice President and President, International; and
- Mathew Clift, Executive Vice President of Global Operations

Our executive compensation program is designed to attract, motivate and retain the leaders of our business. By rewarding our executives for Company performance and execution of key business plans and strategies, our compensation program creates long-term value for our stockholders. This CD&A explains how the Compensation Committee of the Board of Directors (the Board) made compensation decisions in 2011 and in early 2012 for our NEOs.

Executive Summary

2011 Business Performance Highlights

The Company achieved excellent results in 2011. For the second consecutive year, performance significantly exceeded the Company's budget and showed strong progress towards our aggressive five-year strategic growth objectives. Significant growth was achieved in both our North America and International segments. Outstanding 2011 performance was achieved across many key metrics, even as the Company faced a backdrop of macroeconomic uncertainty and slow growth in the overall global mattress market.

Key Measures	2011 Results	2010 Results	% Change from Prior Year
Net Sales	\$1.4 Billion	\$1.1 Billion	+28%
Diluted EPS	\$3.18	\$2.16	+47%
Operating Cash Flow	\$249 Million	\$184 Million	+35%

The Company also performed well against its strategic objectives. New product launches played a major role in supporting our sales growth including:

- Continued growth of the Tempur-Cloud® line in North America;
- Roll-out of Tempur® Cloud Collection into International markets;
- Launch of the revamped Tempur-Contour™ Collection in North America.

During 2011, consistent with our strategy, we made additional investments in advertising to increase brand awareness and drive current year and future growth in certain key North America and International markets. Investments in advertising were increased to 10.5% of Net sales, up from 8.7% in 2010.

During 2011, pursuant to Board-approved share repurchase programs, the Company purchased 6.5 million shares of the Company's common stock, returning \$368.5 million to stockholders.

2011 and 2012 Compensation Actions for NEO's

At Tempur-Pedic International's 2011 Annual Stockholders Meeting, we received overwhelming support for our executive compensation policies and procedures, with stockholders holding 99% of the shares present and entitled to vote, voting in favor of our policies and procedures. Continuing with past practice, the Compensation Committee made decisions consistent with our compensation philosophy and objectives over the past twelve months. These actions recognized the Company's outstanding 2011 performance and continued to align executive pay with Company performance results.

2011 Actions

- We increased base salaries for our NEOs in 2011, following two years of no adjustment. These salary increases reflect strong Company performance results and the goal of maintaining alignment with peer group medians for base salary.
- We awarded annual incentive payouts with respect to 2011 performance consistent with our above-target 2011 business results.
- We granted long-term incentives at a level above peer group median, consistent with our profile as a high growth company. The mix of stock options and performance restricted stock units (PRSUs) moved to 25% stock options and 75% PRSUs, for NEOs other than Mr. Sarvary, from 50%/50% in 2010 to address the lower efficiency of stock options due to a higher Black-Scholes value to stock price ratio than in previous years.

2012 Actions

- Base salaries for our NEOs for 2012 remain at 2011 levels.
- Target bonus payout as a percentage of salary for our NEOs, other than our CEO, increased from 55% to 60%, consistent with an increase in the peer group median.
- Long-term incentive grants were made at levels above peer group median, consistent with our compensation philosophy, and at a mix of 25% stock options and 75% PRSUs for NEOs.

Compensation Best Practices

Our compensation program features specific elements designed to align the executive compensation with long-term stockholder interests. We also strive to implement and maintain best practices in our compensation program. These practices include:

- Requiring our executives to meet meaningful stock ownership requirements and to retain at least 50% of the total number of shares granted to them under the Company's compensation plans until the guidelines have been met. We also have stock ownership requirements for our non-employee directors, as discussed elsewhere in this Proxy Statement.
 - Prohibiting the repricing or exchange of equity awards without stockholder approval.
- Engagement by the Compensation Committee of an independent compensation consultant with no other ties to the Company or its management.
- Providing minimal levels of executive perquisites, generally limited to a car allowance and, with respect to one NEO, tax preparation expenses. Other than this, we do not provide additional perquisites or benefits to our NEOs that differ from those provided to other employees.
 - Regularly reviewing tally sheets and other analytical tools to assess executive compensation.
 - Not providing tax "gross-ups" for any element of executive compensation.
- Not offering our executives participation in Supplement Executive Retirement Plans that provide extra benefits to the NEOs.

Table of Contents

As more fully discussed elsewhere in this Proxy Statement, we do not believe any of the Company's compensation programs create risks that are reasonably likely to pose a material adverse impact to the Company.

Roles of the Committee, Compensation Consultant and Management

The Compensation Committee is comprised solely of independent directors and is responsible for determining the compensation of our CEO and other NEOs. The Compensation Committee receives assistance from two sources during its evaluation process: (1) Frederic W. Cook & Co., Inc. (Cook), the Compensation Committee's independent consulting firm; and (2) our internal compensation staff, led by our Executive Vice President, Chief Human Resources Officer.

Cook has been retained by and reports directly to the Compensation Committee; it does not have any other consulting engagements with management. Cook, at the Compensation Committee's request, regularly provides independent advice on current trends in compensation design, and provides executive compensation data and compensation program proposals to assist in evaluating and setting the overall structure of our executive compensation program and the compensation levels of the NEOs.

The Compensation Committee reviews our CEO's compensation annually and makes determinations regarding adjustments and other changes in salary, annual incentive and long-term incentive.

The CEO reviews the compensation of the other executive officers annually and makes recommendations to the Compensation Committee regarding base salary, annual incentive and long-term incentive. The Board, upon recommendation of the Compensation Committee, reviews and approves the compensation for our executive officers other than our CEO.

Peer Group

Our Compensation Committee examines competitive peer group and survey information, compiled by Cook, as one of many factors to assist in determining base salary, annual incentive compensation and stock-based award guidelines. The Compensation Committee periodically benchmarks our executive compensation against the compensation paid to executives at a group of peer companies consisting of branded consumer product companies, with a focus on premium brands that had comparable annual revenues to the Company. Companies that meet these initial criteria are further screened by market capitalization, earnings before interest and taxes (EBIT), EBIT margin, and price to earnings ratio, to ensure a focus on high-growth companies. In addition, the Compensation Committee considers factors such as individual performance, internal equity among executives, promotion potential and retention risk in determining total compensation for our NEOs.

The companies comprising the peer group for the study conducted in 2010 to determine 2011 compensation benchmarks for our NEOs are listed below.

2011 Peer Group

Aaron's, Inc.	Gildan Activewear Inc.	Steven Madden, Ltd.
Alberto-Culver Company	Guess?, Inc.	The Timberland Company
Carter's, Inc.	Lululemon Athletica Inc.	Tupperware Brands Corporation
Columbia Sportswear Company	Nu Skin Enterprises, Inc.	Under Armour, Inc.
Crocs, Inc.	Polaris Industries Inc.	The Warnaco Group, Inc.

Deckers Outdoor Corporation

Sealy Corporation

Wolverine World Wide, Inc.

Fossil, Inc.

Select Comfort Corporation

The Compensation Committee periodically evaluates the appropriateness of the size and composition of the Peer Group with the assistance of Cook. In October, 2011, the Compensation Committee reviewed the peer group and made no changes for the study conducted in 2011 to assist in compensation decisions for 2012 for our NEOs.

Table of Contents

Tally Sheets

In addition to considering compensation levels for the Peer Group, the Compensation Committee also considers information contained in total compensation tally sheets for each NEO. The Compensation Committee uses the tally sheets to evaluate accumulated equity value and total compensation opportunities. The tally sheets summarize each component of compensation, including base salary, annual incentive plan payout, vested and unvested long-term incentive plan awards, 401(k) company contributions, health and welfare benefits, perquisites and potential payments in the event of termination of employment under various scenarios.

Compensation Philosophy and Objectives

Our senior management compensation program is designed to attract, motivate and retain our management talent and to reward management for strong Company performance and successful execution of key business plans and strategies. We believe that our compensation philosophy aligns management incentives with the long-term interests of our stockholders.

Compensation Components

The principal components of compensation for our NEOs include:

Pay Element	Purpose	Description	Link to Performance
Base Salary	To attract and retain leadership talent and to provide a competitive base of compensation that recognizes the executive's skills, experience and responsibilities in the position.	Fixed, non-variable cash compensation	Base salary levels are based on a number of factors and are significantly influenced by each individual's sustained performance over time, including promotion to higher positions. Base salary is targeted at a competitive level, generally near the market median for each executive.
Annual Incentive Awards	To provide executives with a clear financial incentive to achieve critical short-term financial and operating targets or strategic initiatives.	Annual cash payout based on Company and individual performance over the fiscal year.	75% of the incentive plan's target payout opportunity is based on the Company's annual performance, including Net sales and EPS. Achievement of individual objectives and overall individual performance determine 25% of the incentive opportunity. Annual incentive opportunity is targeted near the market median for each executive.

Table of Contents

Pay Element	Purpose	Description	Link to Performance
Long-Term Incentive Awards	To align significant portions of executive compensation to the Company's long-term performance as measured by long-term revenue growth and earnings objectives. This component serves to motivate and retain executive talent.	Annual grants of stock options and PRSUs.	The target LTI grant value is allocated as a mix of PRSUs and stock options. Long-term incentive opportunity is targeted above the market median for each executive, consistent with the Company's profile as a high growth company.

Overall, the Compensation Committee seeks to strike a balance among these three components, with an emphasis on ensuring that a majority of the total potential compensation for the Company's executive officers is significantly at risk and tied to overall Company performance.

Compensation Mix

The charts below show that most of our executive's pay mix is variable and at risk (77% for our CEO and 72% for our other NEOs). The proportions of each pay component, shown below for 2011, may change in the future based on market or performance considerations.

2011 Compensation Mix

2011 and 2012 Compensation Actions

Base Salary

We pay base salaries in order to attract and retain leadership talent and to provide a competitive base of compensation that recognizes the executive's skills and experience relative to his or her responsibilities in the position.

In 2009 and 2010, guided by data provided by our independent consultant and in consideration of the uncertain macroeconomic environment, the Compensation Committee determined not to change the salaries for each of our NEOs. The salaries for these executive officers, including the CEO and the other NEOs, continued to be near the median of the peer group. Based on market data provided by Cook and in light of the Company's outstanding operating results in 2010, the Compensation Committee determined that certain salary increases and adjustments in 2011 for the NEOs were appropriate. In addition, and based more specifically on peer group comparisons, the Compensation Committee made additional adjustments to the salaries of Mr. Anderson and Mr. Williams to position them closer to the median. The Compensation Committee reviewed NEO base salaries and determined that no adjustments were necessary for 2012. The table below details those changes:

Table of Contents

Named Executive Officer	2010 Salary	Merit Increase (%)	Peer Group Adjustment (%)	Total Salary Adjustment (%)	2011 Salary	2012 Salary
Mark Sarvary	\$ 750,000	5.0 %	--	5.0 %	\$ 787,500	\$ 787,500
Dale E. Williams	\$ 340,000	5.0 %	4.4 %	9.4 %	\$ 372,000	\$ 372,000
Richard W. Anderson	\$ 328,000	6.1 %	3.7 %	9.8 %	\$ 360,000	\$ 360,000
Matthew D. Clift	\$ 360,000	6.1 %	--	6.1 %	\$ 382,000	\$ 382,000
David Montgomery	\$ 382,488	4.0 %	--	4.0 %	\$ 397,787	\$ 397,787

2011 Annual Incentive Performance Achievement

Our annual incentive plan ensures that a significant portion of each NEO's annual compensation is at risk and dependent on overall Company and individual performance. The program provides NEOs a clear financial incentive to achieve critical short-term financial and operating targets or strategic initiatives. The Compensation Committee is responsible for administering the annual incentive plan pursuant to the terms of the Company's Amended and Restated Annual Incentive Bonus Plan (Annual Incentive Plan) which was approved by our stockholders in May 2010. The Annual Incentive Plan provides for cash-based performance awards, including awards intended to qualify as performance compensation under Section 162(m) of the Internal Revenue Code of 1986, as amended (Code).

Since 2008, the Compensation Committee's practice has been to set the targeted annual incentive level for the CEO at 100% of his base salary, taking into consideration the CEO's overall responsibility for the performance of the Company, and the targeted annual incentive level for each of the other NEOs at 55% of his or her base salary. For all NEOs, the actual incentive award payout is based on the achievement of the performance criteria, potentially amounting to more or less than the target amount. Annual incentive payout can range from no payout to 200% of target payout. The following table sets forth the targeted annual incentive levels for each NEO in 2011 shown as a percentage of his base salary, along with the maximum potential incentive opportunity:

Named Executive Officer	Target Award as a % of Salary		Target Award \$		Maximum Award as a % of Salary	
	%	\$	%	\$	%	\$
Mark Sarvary	100	\$ 787,500	200	\$ 1,575,000	200	\$ 1,575,000
Dale E. Williams	55	\$ 204,600	110	\$ 377,060	110	\$ 377,060
Richard W. Anderson	55	\$ 198,000	110	\$ 357,800	110	\$ 357,800
Matthew D. Clift	55	\$ 210,100	110	\$ 381,110	110	\$ 381,110
David Montgomery	55	\$ 218,783	110	\$ 390,661	110	\$ 390,661

The annual incentive for our NEOs is comprised of several components established at the beginning of each year as determined by the Compensation Committee:

- (i) a Company goals component based on specific Net Sales and EPS targets;
- (ii) a Company goals component based on divisional or operating cash flow performance that aligns with the operational focus of each executive; and

(iii) an Individual goals component based on the successful execution of individual objectives, except for the CEO where EPS achievement replaces Individual goals for this component.

Table of Contents

The table below identifies the 2011 performance metrics and weightings:

Executive	Corporate Net Sales and EPS		Corporate Cash Flow		Divisional Performance		Individual Performance		Corporate EPS		Total Weight	
Mark Sarvary	50	%	25	%	--	--	--	--	25	%	100	%
Dale E. Williams	50	%	25	%	--	--	25	%	--	--	100	%
Richard W. Anderson	50	%	--	--	25	%	25	%	--	--	100	%
Matthew D. Clift	50	%	--	--	25	%	25	%	--	--	100	%
David Montgomery	50	%	--	--	25	%	25	%	--	--	100	%

The Company Net Sales/EPS goal component of the annual incentive was established using a matrix to allow for payments between 0% and 200%. A failure to meet the minimum requirement may result in no incentive payment with respect to the Net Sales/EPS goal component. In calculating the Net Sales/EPS goal component payout, the Compensation Committee has the discretion to include or exclude extraordinary items, restructuring charges, accounting changes or any other unusual or nonrecurring item in its determination of whether the goal has been met, except that, in the case of any incentive intended to qualify as performance compensation under Section 162(m) of the Code, the Compensation Committee must determine at the time of establishing the goal that it will make an adjustment for one or more of these items if it arises.

The Company goal component based on divisional performance was added in 2010 to create stronger ties to specific operating performance. Specific targets are assigned based on each individual's area of responsibility. The North America and International divisions each have targets based on their division's Net sales and Earnings Before Interest and Taxes (EBIT) performance. Mr. Anderson's divisional goals were based on North America Net sales and EBIT, and Mr. Montgomery's divisional goals were based on International Net sales and EBIT. Operations-based individuals, including Mr. Clift, are incented on achievements against their cost management targets and Gross margin performance. In calculating the Divisional goal component payout, the Compensation Committee may exercise the discretion described in the paragraph above. Divisional targets for Messrs. Sarvary and Williams were based on overall company cash flow. A matrix is used for each of these divisional targets to determine payouts between 0% and 200%.

The Individual goals component of the annual incentive for the NEOs is heavily weighted toward the successful completion of individual objectives. The goals and objectives for all of the NEOs are initially approved by the CEO, subsequently reviewed by the Compensation Committee and, upon recommendation by the Compensation Committee, approved by the Board. The Individual goals component of the annual incentive targets 100% payout for the achievement of an executive's annual objectives. Payments can range from no incentive payment to 200% of the targeted Individual goals component, based on individual performance. The determination of whether the Individual goals component of the incentive has been met and to what degree is based on the subjective determination of the Compensation Committee, and in exercising this discretion the Compensation Committee looks broadly at each executive's performance against individual objectives and the overall performance of the applicable NEOs within their specific area of responsibility. The CEO does not have an Individual goals component to his annual incentive award. In lieu of individual objectives, the CEO is evaluated against Corporate EPS performance. However, the Compensation Committee evaluates Mr. Sarvary's performance against individual objectives in evaluating whether to exercise its negative discretion to reduce the compensation determined based on the EPS component.

The design and purpose of the Company goals components, represented by the Net Sales/EPS targets and the divisional targets of the Company, and the purpose of the Individual goals component, represented by the achievement of individual targets or EPS, are to focus the NEOs on behaviors that support the overall performance and success of our Company. Individual and Company goals are set with a reasonable level of difficulty that requires the Company and NEOs to perform at a high level in order to meet the goals and objectives. The likelihood of attaining these goals and objectives is not assured. Payouts in any year above 100% (target level) indicate significant accomplishment with performance above expectation.

Table of Contents

Achievement of Company Goals for 2011

Financial Objective	2011 Performance Goals				2011 Results
	2010 Results	Threshold	Target	Maximum	
Net Sales	\$1,105 Million	\$1,214 Million	\$1,295 Million	\$1,376 Million	\$1,418 Million
Diluted EPS	\$2.16	\$2.50	\$2.80	\$3.15	\$3.18
Operating Cash Flow	\$184 Million	\$222 Million	\$239 Million	\$255 Million	\$249 Million

As a result of actual 2011 performance with respect to the Net Sales/EPS goals component, each of the NEOs received the maximum incentive payout of 200%. Performance against the operating cash flow matrix was above target and merited a payout of 170% of target for this component for Messrs. Sarvary and Williams.

Divisional performance against the North America Net Sales/EBIT matrix was significantly above the range of accomplishment targeted and merited the maximum payout of 200% of the target for this component for Mr. Anderson. Divisional performance against the International Net Sales/EBIT matrix was also above target and merited an incentive payout of 180% of the target for this component for Mr. Montgomery. This performance reflects an adjustment by the Compensation Committee to recognize the benefit of a decision to increase international advertising investments. Divisional performance against the Operations cost management/Gross margin matrix was above target and earned an incentive payout of 133% of target for this component for Mr. Clift. This performance reflects an adjustment by the Compensation Committee to recognize the operational recovery efforts required to respond to increased demand and temporary productivity issues associated with an information technology upgrade in our Denmark manufacturing plant.

Achievement of Individual Goals for 2011

In evaluating the 2011 individual goals performance for each NEO, other than Mr. Sarvary, the Compensation Committee considered the recommendations of the CEO and evaluated each NEO's performance relative to his individual performance factors. The Compensation Committee evaluated the CEO's performance, and assessed his performance against the same factors in deciding whether to exercise negative discretion to reduce the amount determined based on the results of the EPS component.

The individual objectives for 2011 were based on business drivers and priorities to support the framework of the Company's five-year strategic business plan. This led to strong alignment and shared focus across the organization, in the following areas of priority:

Deliver Financial Objectives

- Manage budget continuously and at line item level – in a still uncertain environment
- Complete the 2011 strategic plan, and develop a robust 2012 plan
- Optimize use of cash
- Focus on top-line growth in accordance with the plan in Europe and China in addition to North America

Strengthen Competitiveness

- Increase understanding of, and commitment to Tempur-Pedic's strategic goals and initiatives throughout the organization

Annual Incentive Plan Payments for 2011

Each NEO received a percentage payout of his overall incentive based on his performance for each component times the relative weight of each of the goal components: Company Net Sales/EPS (50%), the specifically designated divisional goals (25%) and the Individual goals component or EPS (25%). 2011 payouts were as follows:

Named Executive Officer	2011 Actual Payout	Percentage of Overall Incentive Bonus Target
Mark Sarvary	\$ 1,401,750	178 %
Dale E. Williams	\$ 360,608	177 %
Richard W. Anderson	\$ 363,330	184 %
Matthew D. Clift	\$ 355,069	169 %
David Montgomery	\$ 393,262	180 %

2012 Annual Incentive Plan

Based on an assessment of peer group data provided by the Compensation Committee's independent consultant in October 2011, the Compensation Committee decided to maintain the targeted annual incentive percentage in relation to the CEO's base salary for 2012 at 100%, but to increase the target percentage for the other NEOs from 55% to 60%. The increased annual incentive target maintains peer group median proximity with total annual cash compensation.

Named Executive Officer	Target Award as a % of Salary	Target Award \$	Maximum Award as a % of Salary
Mark Sarvary	100 %	\$ 787,500	200 %
Dale E. Williams	60 %	\$ 223,200	120 %
Richard W. Anderson	60 %	\$ 216,000	120 %
Matthew D. Clift	60 %	\$ 229,200	120 %
David Montgomery	60 %	\$ 238,672	120 %

Long-Term Incentive Grants for 2011

Members of senior management, including our NEOs, are eligible to receive equity compensation awards under our equity incentive plans. We believe that providing equity awards as a component of compensation for senior managers aligns the interests of senior managers with the interests of our stockholders by focusing executives on the long-term growth of the Company, and not short-term individual performance. In addition, we believe that equity grants provide an additional method of compensation where the return for each senior manager is directly tied to stockholders' return on their investment.

Our compensation philosophy for long-term incentives is to target grant-date award value above the median of the peer group at each level of the Company, unlike annual salary and annual incentive targets which are generally set at market median. The Compensation Committee and the Board of Directors view the Company as a growth company and seek to attract, retain and motivate growth-oriented executives and employees who focus on long-term value

creation.

Our practice is to grant multiple forms of long-term incentive awards, intending to accomplish different objectives with each award. Stock options are granted to align our executives with stock price performance. We also grant PRSUs, which are designed to reward participants for the successful achievement of multi-year sales growth and profit objectives, using a currency (Company common stock) that is strongly aligned with stockholders' interests. For 2011 and 2012, the Compensation Committee allocated a greater percentage of the total long term incentive award to PRSUs as compared to stock options to address the lower efficiency of stock options due to a higher Black-Scholes value to stock price ratio than in previous years. In 2011, the Compensation Committee awarded equity grants to NEOs other than Mr. Sarvary based on a fixed dollar target for each NEO, allocating 75% of the value as PRSUs and 25% as stock options. The equity grant to Mr. Sarvary in 2011 was comprised solely of PRSUs because he had received a multi-year stock option grant in 2008 intended to cover the time period through 2011.

Named Executive Officer	2011 LTIP Grant Value	# of Stock Options	# of PRSUs
Mark Sarvary	\$ 1,250,000	--	26,778
Dale E. Williams	\$ 600,000	6,082	9,640
Richard W. Anderson	\$ 600,000	6,082	9,640
Matthew D. Clift	\$ 600,000	6,082	9,640
David Montgomery	\$ 600,000	6,082	9,640

Each of the stock option awards granted in February 2011 has an exercise price of \$46.68 and vests in three equal annual installments beginning on the first anniversary of the grant date and every year thereafter until all the shares are vested.

The PRSUs are earned if certain three-year sales growth and EBIT margin objectives are achieved. Based on these metrics, the award payout at the end of the performance period will range from no payout to up to three times the target number of PRSUs. Net sales and EBIT margin objectives were chosen to support the Company's aggressive 2014 long-term strategic goal. At the time the targets were established in February 2011, the Compensation Committee believed that these targets were directly linked to the long-term growth objectives of our business.

Long-Term Incentive Grants for 2012

In 2012, the Compensation Committee awarded equity grants to all NEOs based on a fixed dollar target, allocating 75% of the value as PRSUs and 25% of the value as stock options. The 2012 PRSUs are structured in the same manner as the 2011 program. Performance metrics were established in line with the Company's long-term sales growth plan and EBIT margin expectations for 2015. The Compensation Committee also believed the targets require strong operating execution and are challenging for the executives to achieve.

The long-term incentive grant values determined by the Compensation Committee and the Board increased in 2012, compared to 2011, to recognize recent extraordinary performance, incent achievement of continued aggressive growth plans and increase retention of the executive officers.

The long-term incentive award for our CEO, Mr. Sarvary, increased significantly over his 2011 award. Mr. Sarvary's 2011 long-term grant represented only 50% of his target award for that year, as he was benefitting from a four-year front-loaded stock option grant in 2008. The Compensation Committee awarded Mr. Sarvary a long-term incentive grant in 2012 that represents a 30% increase over his pro forma award target in 2011, i.e. the award he would have received if he were not benefitting from the vesting of the final year of his 2008-2011 stock options granted in 2008.

Named Executive Officer	2012 LTIP Grant Value	# of Stock Options	# of PRSUs
Mark Sarvary	\$ 3,250,000	21,719	34,091
Dale E. Williams	\$ 725,000	4,838	7,608
Richard W. Anderson	\$ 725,000	4,838	7,608
Matthew D. Clift	\$ 725,000	4,838	7,608
David Montgomery	\$ 725,000	4,838	7,608

Each of the stock option awards granted in February 2012 has an exercise price of \$71.50 and vests in three equal annual installments beginning on the first anniversary of the grant date and every year thereafter until all the shares are vested.

Executive Stock Ownership Guidelines

Our Board of Directors has adopted minimum stock ownership guidelines for our executive officers and directors. The principal objective of the guidelines is to enhance the linkage between the interests of stockholders and our executive officers and directors through a minimum level of stock ownership. The current guidelines provide that, within five years, the CEO should own shares valued at an amount equal to five times his base salary, and that all other executive officers should own shares valued at an amount equal to three times the executive's base salary. Our directors also are required to own, within five years, shares valued at an amount equal to four times the director's annual cash retainer. The value of holdings of stock as well as vested options, restricted shares, restricted stock units, deferred stock units and performance units (for purposes of this paragraph "derivative securities") are based on the average closing price of the Company's common stock on the NYSE for the most recent period from February 15 through May 14. The number of shares underlying derivative securities that may be included in the value of the holdings is calculated net of the number of shares necessary to cover estimated taxes, and, if applicable, the exercise price. Until the guidelines are met, executive officers and directors are permitted to sell up to 50% of the total number of shares granted to them under the Company's compensation plans that have vested. The 50% limit includes shares sold or surrendered to pay taxes associated with the vested shares and shares sold or surrendered to pay the exercise price of stock options. A director or executive officer may exceed the 50% limit if necessary to pay taxes incurred due to vesting of deferred stock units or restricted stock units. In 2011, all of our executives and directors were on track to maintain compliance with the minimum stock ownership program.

Other Benefits

We offer a 401(k) plan to all of our eligible employees, including our senior management and NEOs. The plan is designed to allow employees to defer current earnings and recognize them later in accordance with statutory regulations when their individual income tax rates may be more beneficial. In 2011, the Company matched 100% of the first three percent of each participating employee's salary that is deferred and 50% of the fourth and fifth percent of salary deferred. The decision to make the match is at the sole discretion of the Company. The Company made the matching contribution in 2011 for all participating employees. The Company does not offer any other defined contribution or defined benefit pension plans. There are no alternate plans in place for senior management.

The Company also offers various broad-based employee benefit plans. NEOs participate in these plans on the same terms as eligible, non-executive employees, subject to any legal limits on the amounts that may apply. Executive officers, including the NEOs, receive an annual car allowance.

Each of our NEOs is a party to an employment agreement with the Company. These employment agreements provide for severance arrangements in the event of termination of employment in certain circumstances and also provide for non-competition, non-solicitation and confidentiality agreements. These severance arrangements are discussed in more detail below under "Potential Payments upon Termination or Change in Control." The employment agreements for the NEOs were put in place at the time they became executive officers of the Company (in certain cases, prior to the Company's initial public offering in 2003). We believe that these agreements, including the severance provisions, are necessary to allow us to be competitive in recruiting and retaining top talent for executive officer positions. The Compensation Committee believes that the employment agreements in place for its executive officers are appropriate for the needs of the Company. However, as part of its analysis of the reasonableness of each individual element of compensation and each NEO's compensation package as a whole, the Compensation Committee expects that it will periodically analyze each of these arrangements for reasonableness and market competitiveness.

THE COMPANY'S OVERALL COMPENSATION APPROACH AND RISK INCENTIVES

The Compensation Committee considers, in establishing and reviewing compensation programs, whether the programs encourage unnecessary or excessive risk taking and has concluded that they do not. Base salaries are fixed in amount and thus do not encourage risk taking. In 2011, employees were also eligible to receive a portion of their total compensation in the form of "at risk" compensation opportunities, including the annual incentive and, for senior managers, the long-term incentive awards. The portion of "at risk" compensation increases as an employee's level of responsibility within the Company increases. While the annual incentive awards focus on achievement of short-term or annual goals, and short-term goals may encourage the taking of short-term risks at the expense of long-term results, the Company's annual incentive program represents only a portion of eligible employees' total compensation opportunities. The Compensation Committee believes that the annual incentive program appropriately balances risk and the desire to focus eligible employees on specific short-term goals important to the Company's success, and that it does not encourage unnecessary or excessive risk taking.

The majority of "at risk" compensation provided to senior managers is in the form of long-term equity awards that help further align senior managers' interests with those of the Company's stockholders. The granting of these awards is generally on an annual and therefore overlapping basis, and these grants are subject to multi-year vesting schedules. As described above, the long-term equity awards are comprised of stock options and PRSUs. The ultimate value of the stock option awards is tied to the Company's long-term stock price performance, while the value of the PRSU awards is dependent both on the Company's operating results over a three-year period and the price performance of our stock. Based on this long-range focus, the Compensation Committee believes that these awards do not encourage unnecessary or excessive risk-taking.

As more fully described above, the Company maintains stock ownership guidelines applicable to executive officers and members of the Board of Directors intended to encourage long-term ownership of a significant amount of Tempur-Pedic International stock in order to promote a long-term "owner's" view of our business. The Compensation Committee believes the Company's compensation programs encourage employees to strive to achieve both the short and long-term goals that are important to the Company's success without promoting unnecessary or excessive risk taking.

Tax and Accounting Implications

Deductibility of Compensation under Section (162m) of the Code

Section 162(m) of the Code limits the Company's deduction for compensation paid to the executive officers named in the Summary Compensation Table, other than the Chief Financial Officer, to \$1 million unless certain requirements are met. The Company intends to structure its compensation arrangements in a manner that would comply with Section 162(m). Although the Compensation Committee plans to evaluate and limit the impact of Section 162(m), it believes that the tax deduction is only one of several relevant considerations in setting compensation. Accordingly, where it is deemed necessary and in the best interests of the Company to attract and retain executive talent to compete successfully and to motivate such executives to achieve the goals inherent in our business strategy, the Compensation Committee may approve compensation to executive officers which exceeds the limits of deductibility. In this regard, certain portions of compensation paid to the NEOs may not be deductible for federal income tax purposes under Section 162(m) of the Code. In 2011, all salary and annual incentive compensation for our NEOs was tax-deductible.

Accounting for Stock-Based Compensation

The Company accounts for stock-based payments, including its 2002 Stock Option Plan and the 2003 Equity Incentive Plan, in accordance with FASB ASC 718, "Stock Compensation."

"For Cause." The employment agreement for Mr. Sarvary generally defines "For Cause" as the employee's (a) willful and continued failure to substantially perform the reasonably assigned duties with Tempur-Pedic International, (b) material breach of his employment agreement which is not cured within 30 days after receipt of written notice of such breach, (c) material violation of any material written policy of Tempur-Pedic International, (d) willful misconduct which is materially and demonstrably injurious to Tempur-Pedic International, (e) conviction by a court of competent jurisdiction of, or his pleading guilty or nolo contendere to, any felony, or (f) commission of an act of fraud, embezzlement, or misappropriation against Tempur-Pedic International, or a breach of fiduciary duty or the duty of loyalty, including, but not limited to, the offer, payment, solicitation or acceptance of any unlawful bribe or kickback with respect to Tempur-Pedic International's business.

The employment agreements for Messrs Williams, Clift and Anderson each generally define "For Cause" as the employee's (a) willful and continued failure to substantially perform his assigned duties with Tempur-Pedic International, (b) willful engagement in illegal conduct which is materially and demonstrably injurious to Tempur-Pedic International, (c) conviction of, or guilty plea or nolo contendere to, any felony, or (d) commission of an act of fraud, embezzlement, or misappropriation against Tempur-Pedic International, including, but not limited to, the offer, payment, solicitation or acceptance of any unlawful bribe or kickback with respect to Tempur-Pedic International's business.

Mr. Montgomery's employment agreement does not provide for a "For Cause" termination, but does provide that he can be immediately terminated upon written notice on a variety of grounds, including a serious breach of his employment agreement or any willful neglect in the discharge of his duties; he is guilty of fraud or dishonesty, conduct tending to bring himself or Tempur-International Limited into disrepute, conviction of criminal offence other than traffic violations not imposing custodial penalty; he becomes of unsound mind or a patient for purposes of any statute relating to mental health; he develops a drug or alcohol addiction; he breaches the rules or regulations of a regulatory authority relevant to Tempur-International Limited's business or he refuses employment under an agreement of equal or better terms with a successor of Tempur-International Limited.

"Change of Control." The 2002 Stock Option Plan does not employ this term. However, under stock option award agreements entered into pursuant to that Plan, 50% of unvested stock options shall immediately vest upon (a) any sale

of all or substantially all of the assets of Tempur-Pedic International and its subsidiaries, or (b) any merger or consolidation of Tempur-Pedic International, or any transaction as a result of which Tempur-Pedic International is acquired by the purchase of a majority of its outstanding Common Stock, as a result of which, in each such case, the holders of a majority of the outstanding Common Stock before such merger, consolidation or sale cease to hold, directly or indirectly, a majority of the Common Stock of Tempur-Pedic International or a majority of the common stock of the successor to Tempur-Pedic International immediately following such merger, consolidation or sale.

Table of Contents

Under the 2003 Equity Incentive Plan, as amended, “Change of Control” is generally defined as (a) an acquisition of a third party, unless Tempur-Pedic International’s existing stockholders continue to hold at least 50% of the outstanding stock, (b) an acquisition of more than 50% of the total combined voting power of Tempur-Pedic International’s outstanding securities pursuant to a tender or exchange offer made directly to Tempur-Pedic International’s stockholders that the Board does not recommend the stockholders accept, (c) over a period of 36 consecutive months or less, there is a change in the composition of a majority of the Board, without the approval of existing Board members, or (d) if a majority of the Board votes in favor of a decision that a Change in Control has occurred. The 2003 Equity Incentive Plan provides, unless provided otherwise in the specific award agreement, that upon a change in control (a) any outstanding stock options or stock appreciation rights that are not fully exercisable shall accelerate and become exercisable with respect to 50% of those shares which are not then exercisable, (b) any risk of forfeiture applicable to restricted stock and restricted stock units which is not based on achievement of performance goals shall lapse with respect to 50% of the restricted stock and restricted stock units still subject to such risk of forfeiture, and (c) all outstanding restricted stock and restricted stock unit awards conditioned on the achievement of performance goals shall be deemed to have been satisfied as to a pro rata number of shares based on the assumed achievement of all relevant performance goals and the length of time within the performance period which has elapsed prior to the Change in Control.

Termination of Employment Arrangements and Change in Control Arrangements

Each of the Company's Named Executive Officers are entitled to receive certain compensation and/or other benefits if their employment were terminated under various circumstances. Receipt of any severance and benefits is conditioned on the Named Executive Officer signing a release and waiver of claims in a form satisfactory to Tempur-Pedic International or Tempur-International Limited, as applicable. No Named Executive Officers are entitled to gross-ups associated with taxes owed on Change in Control payments or taxes due to Section 280G of the Code. By the terms of their employment agreements our executive officers are prohibited from disclosing certain confidential information and trade secrets, soliciting any employee for one or, for Mr. Sarvary, two years following termination of their employment and working with or for any competing companies during their employment and for one or, for Mr. Sarvary, two years thereafter.

The table below sets forth the amounts payable to each Named Executive Officer assuming the executive officer's employment had terminated under various scenarios on December 31, 2011 (the last business day of fiscal 2011). Except as otherwise expressly indicated, the amounts set forth in the table below do not represent the actual sums a Named Executive Officer would receive if his employment were terminated or there were a change of control of Tempur-Pedic International. Rather, the amounts below generally represent only estimates, based upon assumptions described in the footnotes to the table, of certain payments and benefits that the Named Executive Officers who were employed by Tempur-Pedic International or any of its subsidiaries on December 31, 2011 would have been entitled to receive had any of the identified events occurred on such date. Moreover, for all of the Named Executive Officers, the amounts set forth in the table necessarily are based upon the benefit plans and agreements that were in effect as of December 31, 2011. Payments which Tempur-Pedic International may make in the future upon an employee's termination of employment or upon a change of control of Tempur-Pedic International will be based upon benefit plans and agreements in effect at that time, and the terms of any such future plans and agreements may be materially different than the terms of our benefit plans and agreements as of December 31, 2011. The fair value of the equity awards reflects the intrinsic value of unvested stock options and PRSU, whose vesting is accelerated or continued due to the termination or change of control, assuming a closing price of our common stock on December 31, 2011 of \$52.53.

- (1) Excludes amounts for both unpaid, earned salary and for accrued, unused vacation.
- (2) The executive officers' employment agreements do not provide for any payments solely due to a change in control of Tempur-Pedic International or Tempur-International Limited, as applicable. To the extent equity award agreements trigger acceleration of vesting of awards, such accelerations are noted in the column and the specific details are described in separate footnotes. To the extent a termination of employment occurs in connection with a change in control, any severance or bonus payments would only be made to the extent the termination qualified as a termination by the Company without cause or as a resignation by the employee for good reason, and such payments are described in the appropriate column in the table.
- (3) For Mr. Sarvary, the amount presented under Cash Severance for Termination by Company without Cause and for Employee Resignation for Good Reason includes two years of base salary reduced by benefit continuation payments and a lump sum amount equal to the pro-rata portion of base salary. Upon Termination as a result of Death or Disability, Mr. Sarvary will receive a lump sum payment equal to the pro-rata portion of base salary.

- (4) Incentive compensation is calculated at target and represents the pro-rata portion of the target amount with respect to the year in which the termination or death/disability occurs. Refer to “Compensation Discussion and Analysis – 2011 and 2012 Compensation Actions” for a discussion of each Named Executive Officer’s Target incentive compensation.
- (5) The acceleration of equity awards represents the fair value of awards that would accelerate upon vesting as of the event date. Mr. Sarvary’s stock option agreement dated June 30, 2008 provides that if he is terminated without cause, resigns for good reason, is terminated as a result of death or disability or is terminated upon Tempur-Pedic International’s election not to renew his employment agreement, his next installment of 225,000 unvested options as of the date preceding his termination will accelerate. In the event of a change in control, if Mr. Sarvary is terminated without cause or resigns for good reason (as defined in his employment agreement) within twelve months of the change in control, his next installment of 225,000 unvested options will accelerate as of the date preceding his termination. Mr. Sarvary’s PRSU agreements dated February 22, 2010 and 2011 provide that if he is terminated without cause, resigns for good reason, is terminated as a result of death or disability, and in the event of a change in control, if Mr. Sarvary is terminated without cause or resigns for good reason (as defined in his employment agreement) within twelve months of the change in control, his target PRSU awards immediately vest.

- (7) For Messrs. Williams, Clift and Anderson, the amount presented under Cash Severance for Termination by Company without Cause and for Employee Resignation for Good Reason represents twelve months of base salary.
- (8) The acceleration of equity awards represents the fair value of awards that would accelerate upon vesting as of the event date. Mr. William’s stock option agreement dated February 27, 2009 provides that if he is terminated without cause or resigns for good reason (as defined in his employment agreement) within twelve months of the change in control, his next installment of unvested options will accelerate as of the date preceding his termination. - (9) The acceleration of equity awards represents the fair value of awards that would accelerate upon vesting as of the event date. Mr. Anderson’s stock option agreements dated January 29, 2008 and February 27, 2009 provide that if he is terminated without cause or resigns for good reason (as defined in his employment agreement) within twelve months of the change in control, his next installment of unvested options will accelerate as of the date preceding his termination. On an ongoing basis, management communicates specific projects and categories of service for which the advance approval of the Audit Committee is requested. The Audit Committee reviews these requests and advises management if the Committee approves the engagement of the independent auditor. On a periodic basis, management reports to the

Audit Committee regarding the actual spending for such projects and services compared to the approved amounts. The projects and categories of service are as follows:

The Audit Committee of the Board of Directors is responsible for providing independent, objective oversight with respect to the Company’s accounting and financial reporting functions, internal and external audit functions, and system of internal controls regarding financial matters and legal, ethical and regulatory compliance. During 2011, the Audit Committee was composed of five directors, Frank Doyle, Evelyn S. Dilsaver, Peter K. Hoffman, Sir Paul Judge and Nancy F. The Board of Directors has also determined that Mr. Doyle, Ms. Dilsaver, Mr. Hoffman, and Sir Paul Judge are “audit committee financial experts” as defined under the applicable rules of the Securities and Exchange Commission. The charter of the Audit Committee is available on Tempur-Pedic International’s website at <http://investor.tempurpedic.com/> under the caption “Corporate Governance.”

Management is responsible for the Company’s internal controls and financial reporting processes. Ernst & Young LLP, the Company’s independent certified public accountants, is responsible for performing an independent audit of the Company’s consolidated financial statements and the effectiveness of the Company’s internal controls over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB) and to issue reports thereon. The Audit Committee’s responsibility is to monitor and oversee these processes.

In connection with its responsibilities, the Audit Committee met on ten occasions during 2011, either in person or via teleconference. These meetings involved representatives of management, internal auditors and the independent accountants. The Audit Committee has discussed with the independent accountants the matters required by Statement on Auditing Standards No. 61 (Communication with Audit Committees) as amended and as adopted by the PCAOB in Rule 3200T. The Audit Committee received from the Company’s independent accountants written disclosures required by the applicable standards of the Public Company

Accounting Oversight Board and the Audit Committee has discussed with the independent accountants that firm's independence.

PROPOSAL THREE
ADVISORY VOTE TO APPROVE THE COMPENSATION OF NAMED EXECUTIVE OFFICERS

The recently enacted Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or the Dodd-Frank Act, enables our stockholders to vote to approve, on an advisory (nonbinding) basis, the compensation of our Named Executive Officers as disclosed in this proxy statement in accordance with the SEC's rules. In 2011, in accordance with the Board's recommendation, the Company's stockholders overwhelmingly voted for the option to hold such vote annually.

As described in detail under the heading "Executive Compensation and Related Information – Compensation Discussion and Analysis," above, our executive compensation programs are designed to attract, motivate, and retain our management talent, including the Named Executive Officers and to reward them for strong Company performance and successful execution of our key business plans and strategies. Under these programs, our Named Executive Officers are rewarded for the achievement of specific annual, long-term and strategic goals and the realization of increased stockholder value. The Compensation Committee of the Board of Directors regularly reviews the Company's compensation programs to confirm that they are achieving these goals. Please read the "Compensation Discussion and Analysis," above, for additional details about our executive compensation programs, including information about the compensation of our Named Executive Officers in 2011.

We are asking our stockholders to indicate their support for our Named Executive Officer compensation as described in this proxy statement. This proposal, commonly known as a "say-on-pay" proposal, gives our stockholders the opportunity to express their views on our Named Executive Officers' compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our Named Executive Officers and the philosophy, policies and practices as described in this proxy statement. Accordingly, we will ask our stockholders to vote "FOR" the following resolution at the Annual Meeting:

"RESOLVED, that the compensation paid to the company's Named Executive Officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis section, compensation tables and narrative discussion, is hereby APPROVED on an advisory basis."

VOTE REQUIRED

The affirmative vote of the majority of shares present and entitled to vote on the proposal will be required to approve Proposal Three. The say-on-pay vote is advisory, and therefore not binding on Tempur-Pedic International, its Compensation Committee or Board of Directors. The Board of Directors and the Compensation Committee value the opinions of our stockholders and, to the extent there is any significant vote against the Named Executive Officer compensation as disclosed in this proxy statement, we will consider our stockholders' concerns and the Compensation Committee will evaluate whether any actions are necessary to address those concerns.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE ADVISORY VOTE TO APPROVE THE COMPENSATION OF NAMED EXECUTIVE OFFICERS.
