Part I -- Financial Information

Item 1: Condensed Financial Statements (Unaudited)

"Essex" or the "Company" means Essex Property Trust, Inc., a real estate investment trust incorporated in the State of Maryland, or where the context otherwise requires, Essex Portfolio, L.P., a limited partnership (the "Operating Partnership") in which Essex Property Trust, Inc. is the sole general partner.

The information furnished in the accompanying unaudited condensed consolidated balance sheets, statements of operations and comprehensive income, equity, and cash flows of the Company reflects all adjustments which are, in the opinion of management, necessary for a fair presentation of the aforementioned condensed consolidated financial statements for the interim periods and are normal and recurring in nature, except as otherwise noted.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the notes to such unaudited condensed consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations herein. Additionally, these unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2012.

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
March 31, 2013 and 2012
(Unaudited)

(1) Organization and Basis of Presentation

The accompanying unaudited condensed consolidated financial statements present the accounts of Essex Property Trust, Inc. (the “Company”), which include the accounts of the Company and Essex Portfolio, L.P. (the “Operating Partnership,” which holds the operating assets of the Company), prepared in accordance with U.S. generally accepted accounting principles for interim financial information and in accordance with the instructions to Form 10-Q. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented have been included and are normal and recurring in nature. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2012.

All significant intercompany balances and transactions have been eliminated in the condensed consolidated financial statements.

The unaudited condensed consolidated financial statements for the three months ended March 31, 2013 and 2012 include the accounts of the Company and the Operating Partnership. The Company is the sole general partner in the Operating Partnership, with a 94.5% general partnership interest as of March 31, 2013. Total Operating Partnership units outstanding were 2,154,510 and 2,122,381 as of March 31, 2013 and December 31, 2012, respectively, and the redemption value of the units, based on the closing price of the Company's common stock totaled \$324.4 million and \$311.2 million, as of March 31, 2013 and December 31, 2012, respectively.

As of March 31, 2013, the Company owned or had ownership interests in 166 apartment communities, aggregating 34,343 units, excluding the Company's ownership in preferred interest co-investments, (collectively, the “Communities”, and individually, a “Community”), five commercial buildings and eight active development projects (collectively, the “Portfolio”). The Communities are located in Southern California (Los Angeles, Orange, Riverside, San Diego, Santa Barbara, and Ventura counties), Northern California (the San Francisco Bay Area) and the Seattle metropolitan area.

Marketable Securities

The Company reports its available for sale securities at fair value, based on quoted market prices (Level 2 for the unsecured bonds and Level 1 for the common stock and investment funds, as defined by the Financial Accounting Standards Board (“FASB”) standard for fair value measurements as discussed later in Note 1), and any unrealized gain or loss is recorded as other comprehensive income (loss). Realized gains and losses, interest and dividend income, and amortization of purchase discounts are included in interest and other income on the condensed consolidated statement of operations and comprehensive income.

As of March 31, 2013 and December 31, 2012, marketable securities consisted primarily of investment-grade unsecured bonds, common stock, investments in mortgage backed securities and investment funds that invest in U.S. treasury or agency securities. As of March 31, 2013 and December 31, 2012, the Company classified its investments in mortgage backed securities, which mature in November 2019 and September 2020, as held to maturity, and accordingly, these securities are stated at their amortized cost. The estimated fair values of the mortgage backed securities (Level 2 securities) are approximately equal to the carrying values.

Index

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
March 31, 2013 and 2012
(Unaudited)

As of March 31, 2012 and December 31, 2012 marketable securities consist of the following (\$ in thousands):

	March 31, 2013		Carrying Value
	Cost/ Amortized Cost	Gross Unrealized Gain	
Available for sale:			
Investment-grade unsecured bonds	\$ 5,119	\$ 96	\$ 5,215
Investment funds - US treasuries	15,365	721	16,086
Common stock	5,642	85	5,727
Held to maturity:			
Mortgage backed securities	53,404	-	53,404
Total	\$ 79,530	\$ 902	\$ 80,432
	December 31, 2012		Carrying Value
	Cost/ Amortized Cost	Gross Unrealized Gain	
Available for sale:			
Investment-grade unsecured bonds	\$ 5,143	\$ 98	\$ 5,241
Investment funds - US treasuries	14,120	729	14,849
Common stock	18,917	1,704	20,621
Held to maturity:			
Mortgage backed securities	52,002	-	52,002
Total	\$ 90,182	\$ 2,531	\$ 92,713

The Company uses the specific identification method to determine the cost basis of a security sold and to reclassify amounts from accumulated other comprehensive income for securities sold. For the three months ended March 31, 2013, the proceeds from sales of available for sale securities totaled \$20.3 million which resulted in a realized gain of \$1.8 million. For the three months ended March 31, 2012, there were no sales of available for sale securities.

Variable Interest Entities

The Company consolidates 19 DownREIT limited partnerships (comprising twelve communities) since the Company is the primary beneficiary of these variable interest entities ("VIEs"). Total DownREIT units outstanding were 1,033,474 and 1,039,431 as of March 31, 2013 and December 31, 2012, respectively, and the redemption value of the units, based on the closing price of the Company's common stock totaled \$155.6 million and \$152.4 million, as of March 31, 2013 and December 31, 2012, respectively. The consolidated total assets and liabilities related to these VIEs, net of intercompany eliminations, were approximately \$202.4 million and \$181.1 million, respectively, as of March 31, 2013 and \$201.1 million and \$178.6 million, respectively, as of December 31, 2012. Interest holders in VIEs consolidated by the Company are allocated income equal to the cash payments made to those interest holders. The remaining results of operations are allocated to the Company. As of March 31, 2013 and December 31,

2012, the Company did not have any other VIEs of which it was deemed to be the primary beneficiary.

Equity Based Compensation

The Company accounts for equity based compensation using the fair value method of accounting. The estimated fair value of stock options granted by the Company is being amortized over the vesting period of the stock options. The estimated grant date fair values of the long term incentive plan units (discussed in Note 13, "Equity Based Compensation Plans," in the Company's Form 10-K for the year ended December 31, 2012) are being amortized over the expected service periods.

Index

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
March 31, 2013 and 2012
(Unaudited)

Stock-based compensation expense for options and restricted stock totaled \$0.6 million and \$0.4 million for the three months ended March 31, 2013 and 2012, respectively. The intrinsic value of the stock options exercised during the three months ended March 31, 2013 and 2012 totaled \$0.9 million and \$1.1 million, respectively. As of March 31, 2013, the intrinsic value of the stock options outstanding totaled \$14.6 million. As of March 31, 2013, total unrecognized compensation cost related to unvested share-based compensation granted under the stock option and restricted stock plans totaled \$5.8 million. The cost is expected to be recognized over a weighted-average period of 1 to 5 years for the stock option plans and is expected to be recognized straight-line over a period of 1 to 7 years for the restricted stock awards.

The Company has adopted an incentive program involving the issuance of Series Z-1 Incentive Units of limited partnership interest in the Operating Partnership. Stock-based compensation expense for Z-1 Units totaled \$0.5 million and \$0.6 million for the three months ended March 31, 2013 and 2012. Stock-based compensation for Z-1 units capitalized totaled \$0.1 million for the three months ended March 31, 2013, and 2012, respectively. As of March 31, 2013, the intrinsic value of the Z-1 Units subject to future vesting totaled \$16.1 million. As of March 31, 2013, total unrecognized compensation cost related to Z-1 Units subject to future vesting totaled \$6.8 million. The unamortized cost is expected to be recognized up to 14 years subject to the achievement of the stated performance criteria.

Fair Value of Financial Instruments

Management believes that the carrying amounts of its amounts outstanding under lines of credit, notes receivable and notes and other receivables approximate fair value as of March 31, 2013 and December 31, 2012, because interest rates, yields and other terms for these instruments are consistent with yields and other terms currently available for similar instruments. Management has estimated that the fair value of the Company's \$2.12 billion of fixed rate debt, including unsecured bonds, at March 31, 2013 is approximately \$2.21 billion and the fair value of the Company's \$551.6 million of variable rate debt, excluding borrowings under the lines of credit, at March 31, 2013 is \$632.7 million based on the terms of existing mortgage notes payable, unsecured bonds and variable rate demand notes compared to those available in the marketplace. Management believes that the carrying amounts of cash and cash equivalents, restricted cash, accounts payable and accrued liabilities, construction payables, other liabilities and dividends payable approximate fair value as of March 31, 2013 due to the short-term maturity of these instruments. The fair values of the Company's investments in mortgage backed securities are approximately equal to the amortized cost carrying value of these securities. Marketable securities and derivatives are carried at fair value as of March 31, 2013.

Capitalization of Costs

The Company's capitalized internal costs related to development and redevelopment projects totaled \$1.6 million and \$1.5 million during the three months ended March 31, 2013 and 2012, respectively, most of which relates to development projects. These totals include capitalized salaries of \$0.6 million and \$0.7 million for the three months ended March 31, 2013 and 2012, respectively.

Co-investments

The Company owns investments in joint ventures (“co-investments”) in which it has significant influence, but its ownership interest does not meet the criteria for consolidation in accordance with the accounting standards. Therefore, the Company accounts for these investments using the equity method of accounting. Under the equity method of accounting, the investment is carried at the cost of assets contributed, plus the Company’s equity in earnings less distributions received and the Company’s share of losses. The significant accounting policies of the Company’s co-investments entities are consistent with those of the Company in all material respects. For preferred equity investments the Company recognizes its preferred interest as equity in earnings.

Upon the acquisition of a controlling interest of a co-investment, the co-investment entity is consolidated and a gain or loss is recognized upon the remeasurement of co-investments in the consolidated statement of operations equal to the amount by which the fair-value of the co-investment interest the Company previously owned exceeds its carrying value.

A majority of the co-investments, excluding the preferred equity investments, compensate the Company for its asset management services and may provide promote distributions if certain financial return benchmarks are achieved. Asset management fees are recognized when earned, and promote fees are recognized when the earnings events have occurred and the amount is determinable and collectible.

Changes in Accumulated Other Comprehensive Loss, Net by Component

	Change in fair value and amortization of derivatives	Unrealized gains/(losses) on available for sale securities	Total
Balance at December 31, 2012	\$ (71,658)	\$ 2,397	\$(69,261)
Other comprehensive income before reclassification	506	130	636
Amounts reclassified from accumulated other comprehensive loss	2,018	(1,673)	345
Net other comprehensive income (loss)	2,524	(1,543)	981
Balance at March 31, 2013	\$ (69,134)	\$ 854	\$(68,280)

Amounts reclassified from accumulated other comprehensive loss in connection with derivatives are recorded in interest expense before amortization on the condensed consolidated statement of operations and comprehensive income. Realized gains and losses on available for sale securities are included in interest and other income on the condensed consolidated statement of operations and comprehensive income.

Accounting Estimates

The preparation of condensed consolidated financial statements, in accordance with U.S. generally accepted accounting principles, requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to acquiring, developing and assessing the carrying values of its real estate portfolio, its investments in and advances to joint ventures and affiliates, its notes receivables and its qualification as a Real Estate Investment Trust ("REIT"). The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may vary from those estimates and those estimates could be different under different assumptions or conditions.

(2) Significant Transactions During the First Quarter of 2013 and Subsequent Events

Acquisitions

In January 2013, the Company acquired Annaliese, a 56 unit community located in Seattle, Washington for \$19.0 million. The property was built in 2009 and is located in the South Lake Union submarket.

In February 2013, the Company purchased Fox Plaza, a 444 unit property located in San Francisco, California, for \$135.0 million. Built in 1968, the property is a 29 story high rise tower with Fox Plaza apartments located on floors 14 through 29. The purchase price did not include floors 1 through 12 of commercial office space but did include an adjacent two-story building comprised of approximately 37,800 square feet of space leased to retail and office tenants and a two story underground parking garage comprised of 405 stalls.

Common Stock

During the first quarter, the Company sold 817,445 shares of common stock for \$122.9 million, net of commissions, at an average per share price of \$151.82. Subsequent to quarter end, the Company has not sold any shares of common stock.

Unsecured Bond Offering

In April 2013, the Company issued \$300 million aggregate principal amount of its 3.25% Senior Notes due on May 1, 2023 (the "Notes"). The net proceeds from the issuance of Notes were approximately \$295.2 million, after deducting the underwriters' discounts and estimated offering expenses.

Index

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
March 31, 2013 and 2012
(Unaudited)

Dispositions

In January, the Company sold the land parcel held for future development located in Palo Alto, California for \$9.1 million, resulting in a gain of \$1.5 million.

(3) Co-investments

The Company has co-investments, which are accounted for under the equity method. The co-investments own, operate and develop apartment communities. The following table details the Company's co-investments (dollars in thousands):

	March 31, 2013	December 31, 2012
Membership interest in Wesco I	\$ 143,051	\$ 143,874
Partnership interest in Fund II	27,121	53,601
Membership interest in a limited liability company that owns Expo	18,714	18,752
Membership interest in Wesco III	9,821	9,941
Total operating co-investments	198,707	226,168
Membership interests in limited liability companies that own and are developing Epic, Connolly Station, Mosso I. & II. , and Elkhorn	221,247	186,362
Membership interests in limited liability companies that own and are developing The Huxley and The Dylan	16,928	16,552
Total development co-investments	238,175	202,914
Membership interest in Wesco II that owns a preferred equity interest in Parkmerced with a preferred return of 10.1%	92,550	91,843
Preferred interest in related party limited liability company that owns Sage at Cupertino with a preferred return of 9.5%	15,055	14,438
Preferred interest in a related party limited liability company that owns Madison Park at Anaheim with a preferred return of 13%	13,232	13,175
Preferred interest in limited liability company that owns an apartment community in downtown Los Angeles with a preferred return 10%	13,068	13,068
Preferred interest in related limited liability company that owns an apartment development in Redwood City with a preferred return of 9.5%	8,867	-
Preferred interests in limited liability companies that own apartment communities in downtown Los Angeles with preferred returns of 9% repaid in March 2013	-	9,739
Total preferred interest investments	142,772	142,263
Total co-investments	\$ 579,654	\$ 571,345

In January 2013, the Company invested \$8.6 million as a preferred equity interest investment in an apartment development in Redwood City, California. The investment has a preferred return of 9.5% and matures in January 2016.

In March 2013, the Company received the redemption of \$9.7 million of preferred equity related to two properties located in downtown Los Angeles. The Company recorded \$0.4 million in redemption penalties due to the early redemption of these preferred equity investments.

(4) Notes and Other Receivables

Notes receivable secured by real estate, and other receivables consist of the following as of March 31, 2013 and December 31, 2012 (dollars in thousands):

	March 31, 2013	December 31, 2012
Note receivable, secured, bearing interest at 8.0%, due November 2013	\$971	\$971
Note receivable, secured, bearing interest at 4.0%, due December 2014 (1)	3,212	3,212
Notes and other receivables from affiliates	4,085	28,896
Other receivables	3,091	3,785
Note receivable, secured, bearing interest at 8.8%, paid in full March 2013	-	10,800
Note receivable, secured, effective interest at 9.6%, paid in full March 2013	-	18,499
	\$11,359	\$66,163

(1) The borrower funds an impound account for capital replacement.

During the quarter, the Company received the repayment of two notes receivables totaling \$29.5 million. One of the notes was repaid early, and as such the Company recorded \$0.8 million of income related to a change in estimate on the discount to the note receivable.

In March 2013, Wesco III repaid the Company for a \$26.0 million short-term bridge loan at LIBOR + 2.5% to assist with the purchase of Haver Hill. Wesco III used the proceeds from a \$27.3 million loan secured by Haver Hill at 3.1% for a term of seven years to repay the bridge loan.

(5) Related Party Transactions

Management and other fees from affiliates include management, development and redevelopment fees from co-investments of \$2.8 million and \$2.3 million during the three months ended March 31, 2013 and 2012, respectively. All of these fees are net of intercompany amounts eliminated by the Company.

The Company's Chairman and founder, Mr. George Marcus, is the Chairman of The Marcus & Millichap Company ("TMMC"), which is a holding company for certain real estate brokerage services and other subsidiary companies. As described in Note 3, the Company invested \$8.6 million as a preferred equity interest investment in an entity affiliated with TMMC that owns an apartment development in Redwood City, California. Independent members of the Company's Board of Directors that serve on the Nominating and Corporate Governance and Audit Committees approved the investment in this entity.

As described in Note 4, The Company provided a \$26.0 million short-term bridge loan to Wesco III to assist with the purchase of Haver Hill which was repaid during the quarter.

(6) Unsecured Debt and Lines of Credit

Unsecured debt and lines of credit consist of the following as of March 31, 2013 and December 31, 2012 (\$ in thousands):

	March 31, 2013	December 31, 2012	Weighted Average Maturity In Years
Bonds private placement - fixed rate	\$465,000	\$465,000	6.0
Term loan - variable rate	350,000	350,000	3.9
Bonds public offering - fixed rate	297,159	297,084	9.4
Unsecured debt	1,112,159	1,112,084	
Lines of credit	102,300	141,000	2.7
Total unsecured debt and lines of credit	\$1,214,459	\$1,253,084	
Weighted average interest rate on fixed rate unsecured bonds	4.2	%	4.2
Weighted average interest rate on variable rate term loan	2.6	%	2.7
Weighted average interest rate on line of credit	2.1	%	2.3

As described in Note 2, in April 2013, the Company issued \$300 million aggregate principal amount of its 3.25% Senior Notes due on May 1, 2023.

(7) Segment Information

The Company defines its reportable operating segments as the three geographical regions in which its apartment communities are located: Southern California, Northern California and Seattle Metro. Excluded from segment revenues are properties classified in discontinued operations, management and other fees from affiliates, and interest and other income. Non-segment revenues and net operating income included in the following schedule also consist of revenue generated from commercial properties. Other non-segment assets include real estate under development, co-investments, cash and cash equivalents, marketable securities, notes and other receivables, prepaid expenses and other assets and deferred charges.

(8) Net Income Per Common Share

(Amounts in thousands, except per share and unit data)

	Three Months Ended March 31, 2013			Three Months Ended March 31, 2012		
	Income	Weighted- average Common Shares	Per Common Share Amount	Income	Weighted- average Common Shares	Per Common Share Amount
Basic:						
Income from continuing operations available to common stockholders	\$25,203	37,004	\$0.68	\$13,307	34,028	\$0.39
Income from discontinued operations available to common stockholders	-	37,004	-	9,415	34,028	0.28
	25,203		\$0.68	22,722		\$0.67
Effect of Dilutive Securities (1)	-	88		54	124	
Diluted:						
Income from continuing operations available to common stockholders	25,203	37,092	\$0.68	13,361	34,152	\$0.39
Income from discontinued operations available to common stockholders	-	37,092	-	9,415	34,152	0.28
	\$25,203		\$0.68	\$22,776		\$0.67

(1) Weighted average convertible limited partnership units of 2,079,447 and 2,245,166, which include vested Series Z-1 incentive units, for the three months ended March 31, 2013, and 2012, respectively, were not included in the determination of diluted EPS because they were anti-dilutive. Income allocated to convertible limited partnership units, which includes vested Series Z-1 units, aggregating \$1.5 million and \$1.6 million for the three months ended March 31, 2013 and 2012, respectively, have been excluded from income available to common stockholders for the calculation of diluted income per common share since these units are excluded from the diluted weighted average common shares for the period as the effect was anti-dilutive. The Company has the ability to redeem DownREIT limited partnership units for cash and does not consider them to be potentially dilutive securities.

Stock options of 260,513 and 36,750 for the three months ended March 31, 2013 and 2012, respectively, were not included in the diluted earnings per share calculation because the effects on earnings per share were anti-dilutive.

All shares of Series G cumulative convertible preferred stock have been excluded in diluted earnings per share for the three months ended March 31, 2013, respectively, as the effect was anti-dilutive.

(9) Derivative Instruments and Hedging Activities

The Company has entered into interest rate swap contracts with an aggregate notional amount of \$300 million that effectively fixed the interest rate on \$300 million of the \$350 million unsecured term loan at 2.6%. These derivatives qualify for hedge accounting.

As of March 31, 2013 the Company also had twelve interest rate cap contracts totaling a notional amount of \$187.8 million that qualify for hedge accounting as they effectively limit the Company's exposure to interest rate risk by providing a ceiling on the underlying variable interest rate for \$201.6 million of the Company's tax exempt variable rate debt.

As of March 31, 2013 and December 31, 2012 the aggregate carrying value of the interest rate swap contracts was a liability of \$6.1 million and \$6.6 million, respectively. The aggregate carrying value of the interest rate cap contracts was zero on the balance sheet as of March 31, 2013 and December 31, 2012, respectively.

(10) Discontinued Operations

The Company classifies real estate as "held for sale" when the sale is considered to be probable. The Company had no communities sold or held for sale for the quarter ended March 31, 2013.

During the first quarter of 2012, the Company sold Tierra Del Sol/Norte, a 156 unit community located in San Diego, California for \$17.2 million for a gain of \$7.0 million. Also in the first quarter of 2012, the Company sold Alpine Country, a 108 unit community located in San Diego metropolitan area, for \$11.1 million for a gain of \$3.9 million.

The components of discontinued operations are outlined below and include the results of operations for the respective periods that the Company owned such assets, as described above (dollars in thousands).

	Three Months Ended	
	March 31,	
	2013	2012
Rental revenues	\$ -	\$ 608
Property operating expenses	-	(260)
Depreciation and amortization	-	(94)
Income from real estate sold	-	254
Gain on sale	-	10,870
Internal disposition costs and taxes	-	(1,087)
Income from discontinued operations	\$ -	\$ 10,037

(11) Commitments and Contingencies

As of March 31, 2013, the Company had six non-cancelable ground leases for certain apartment communities and buildings that expire between 2027 and 2080. Ground lease payments are typically the greater of a stated minimum or a percentage of gross rents generated by these apartment communities. Total minimum lease commitments, under ground leases and operating leases, are approximately \$1.7 million per year for the next five years.

To the extent that an environmental matter arises or is identified in the future that has other than a remote risk of having a material impact on the financial statements, the Company will disclose the estimated range of possible outcomes, and, if an outcome is probable, accrue an appropriate liability for remediation and other potential liability. The Company will consider whether such occurrence results in an impairment of value on the affected property and, if so, impairment will be recognized.

Except with respect to three communities, the Company has no indemnification agreements from third parties for potential environmental clean-up costs at its communities. The Company has no way of determining at this time the magnitude of any potential liability to which it may be the subject, arising out of unknown environmental conditions or violations with respect to the communities formerly owned by the Company. No assurance can be given that existing environmental studies with respect to any of the communities will reveal all environmental liabilities, that any prior owner or operator of a Property did not create any material environmental condition not known to the Company,

or that a material environmental condition does not otherwise exist as to any one or more of the communities. The Company has limited insurance coverage for the types of environmental liabilities described above.

The Company may enter into transactions that may require the Company to pay the tax liabilities of the partners in the Operating Partnership or in the DownREIT entities. These transactions are within the Company's control. Although the Company plans to hold the contributed assets or defer recognition of gain on their sale pursuant to like-kind exchange rules under Section 1031 of the Internal Revenue Code, the Company can provide no assurance that it will be able to do so and if such tax liabilities are incurred they may have a material impact on the Company's financial position.

Index

ESSEX PROPERTY TRUST, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
March 31, 2013 and 2012
(Unaudited)

There have been a number of lawsuits in recent years against owners and managers of apartment communities alleging personal injury and property damage caused by the presence of mold in residential real estate. Some of these lawsuits have resulted in substantial monetary judgments or settlements. The Company has been sued for mold related matters and has settled some, but not all, of such matters. Insurance carriers have reacted to mold related liability awards by excluding mold related claims from standard policies and pricing mold endorsements at prohibitively high rates. The Company has, however, purchased pollution liability insurance, which includes some coverage for mold. The Company has adopted policies for promptly addressing and resolving reports of mold when it is detected, and to minimize any impact mold might have on residents of the property. The Company believes its mold policies and proactive response to address any known existence, reduces its risk of loss from these cases. There can be no assurances that the Company has identified and responded to all mold occurrences, but the Company promptly addresses all known reports of mold. Liabilities resulting from such mold related matters are not expected to have a material adverse effect on the Company's financial condition, results of operations or cash flows. As of March 31, 2013, potential liabilities for mold and other environmental liabilities are not considered probable or the loss cannot be quantified or estimated.

The Company carries comprehensive liability, fire, extended coverage and rental loss insurance for each of the communities. Under comprehensive liability claims, the Company has insurance to cover claims in excess of \$100,000 per incident. Under property casualty claims, the Company reinsures the primary carrier for losses up to \$5.0 million deductible per incident. There are, however, certain types of extraordinary losses, such as, for example, losses from earthquake, for which the Company does not have insurance. Substantially all of the communities are located in areas that are subject to earthquakes.

The Company provided a loan and construction completion guarantee to the lender in order to fulfill the lender's standard financing requirements related to the construction of the Expo community. The outstanding balance for the construction loan is included in the debt line item in the balance sheet of the co-investments included in Note 3. The construction completion guarantee is for the life of the loan, which is scheduled to mature on July 1, 2014, with two, one-year extension options at the Expo joint venture's option. As of March 31, 2013, the Company was in compliance with all terms of the construction loan and the construction of the community is expected to be completed on time and within budget. The maximum exposure of the guarantee as of March 31, 2013 was \$70.0 million based on the construction costs that were budgeted to be incurred to complete the construction.

The Company provided a payment guarantee to the counterparties in relation to the total return swaps entered into by the joint venture responsible for the development of The Huxley (formerly Fountain at La Brea) and The Dylan (formerly Santa Monica at La Brea) communities. Further the Company has guaranteed completion of development and made certain debt service guarantees for The Huxley and The Dylan. The outstanding balance for the loans is included in the debt line item in the balance sheet of the co-investments included in Note 3. The payment guarantee is for the payment of the amounts due to the counterparty related to the total return swaps which are scheduled to mature in September and December 2016. The maximum exposure of the guarantee as of March 31, 2013 was \$68.0 million based on the aggregate outstanding debt amount.

The Company is subject to various other lawsuits in the normal course of its business operations. Such lawsuits are not expected to have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Company's Condensed Consolidated Financial Statements and accompanying Notes thereto included elsewhere herein and with the Company's 2012 Annual Report on Form 10-K for the year ended December 31, 2012.

The Company is a fully integrated Real Estate Investment Trust ("REIT"), and its property revenues are generated primarily from apartment community operations. The Company's investment strategy has two components: constant monitoring of existing markets, and evaluation of new markets in the Company's current three geographical regions to identify areas with the characteristics that underlie rental growth. The Company's strong financial condition supports its investment strategy by enhancing its ability to quickly shift the Company's acquisition, development, and disposition activities to markets that will optimize the performance of the portfolio.

As of March 31, 2013, the Company had ownership interests in 166 apartment communities, comprising 34,343 apartment units, excluding the Company's ownership in preferred equity interest co-investments, and the Company also had ownership interests in five commercial buildings with approximately 315,900 square feet. The Company's apartment communities are located in the following major West Coast regions:

Index

Southern California (Los Angeles, Orange, Riverside, San Diego, Santa Barbara, and Ventura counties)

Northern California (the San Francisco Bay Area)

Seattle Metro (Seattle metropolitan area)

As of March 31, 2013, the Company's development pipeline was comprised of two consolidated projects under development, six unconsolidated joint venture projects under development, two consolidated predevelopment projects, and one unconsolidated joint venture predevelopment projects, all aggregating 2,669 units, with total incurred costs of \$528.7 million, and estimated remaining project costs of approximately \$397.4 million for total estimated project costs of \$926.1 million.

The Company's consolidated apartment communities are as follows:

	As of March 31, 2013			As of March 31, 2012		
	Apartment Units		%	Apartment Units		%
Southern California	13,656	46	%	12,941	47	%
Northern California	9,431	32	%	8,206	30	%
Seattle Metro	6,720	22	%	6,168	23	%
Total	29,807	100	%	27,315	100	%

Co-investments, including Essex Apartment Value Fund II, L.P. ("Fund II"), and Wesco I, LLC ("Wesco I") and Wesco III, LLC ("Wesco III") communities, and preferred equity interest co-investment communities are not included in the table presented above for both periods.

Comparison of the Three Months Ended March 31, 2013 to the Three Months Ended March 31, 2012

The Company's average financial occupancies for the Company's stabilized apartment communities or "Quarterly Same-Property" (stabilized properties consolidated by the Company for the quarters ended March 31, 2013 and 2012) decreased 30 basis points to 96.6% as of March 31, 2013 from 96.9% as of March 31, 2012. Financial occupancy is defined as the percentage resulting from dividing actual rental revenue by total possible rental revenue. Actual rental revenue represents contractual rental revenue pursuant to leases without considering delinquency and concessions. Total possible rental revenue represents the value of all apartment units, with occupied units valued at contractual rental rates pursuant to leases and vacant units valued at estimated market rents. We believe that financial occupancy is a meaningful measure of occupancy because it considers the value of each vacant unit at its estimated market rate.

Market rates are determined using a variety of factors such as effective rental rates at the property based on recently signed leases and asking rates for comparable properties in the market. The recently signed effective rates at the property are used as the starting point in the determination of the market rates of vacant units. The Company then increases or decreases these rates based on the supply and demand in the apartment community's market. The Company will check the reasonableness of these rents based on its position within the market and compare the rents against the asking rents by comparable properties in the market. Financial occupancy may not completely reflect short-term trends in physical occupancy and financial occupancy rates as disclosed by other REIT, which may not be comparable to the Company's calculation of financial occupancy.

The Company does not take into account delinquency and concessions to calculate actual rent for occupied units and market rents for vacant units. The calculation of financial occupancy compares contractual rates for occupied units to estimated market rents for unoccupied units, thus the calculation compares the gross value of all apartment units excluding delinquency and concessions. For apartment communities that are development properties in lease-up

without stabilized occupancy figures, the Company believes the physical occupancy rate is the appropriate performance metric. While an apartment community is in the lease-up phase, the Company's primary motivation is to stabilize the property which may entail the use of rent concessions and other incentives, and thus financial occupancy which is based on contractual revenue is not considered the best metric to quantify occupancy.

Index

The regional breakdown of the Company's Quarterly Same-Property portfolio for financial occupancy for the three months ended March 31, 2013 and 2012 is as follows:

	Three months ended			
	March 31,			
	2013		2012	
Southern California	96.6	%	96.7	%
Northern California	96.8	%	97.3	%
Seattle Metro	96.6	%	96.8	%

The following table provides a breakdown of revenue amounts, including revenues attributable to the Quarterly Same-Property portfolio:

Property Revenues (dollars in thousands)	Number of Properties	Three Months Ended		Dollar Change	Percentage Change
		2013	March 31, 2012		
Quarterly Same-Property:					
Southern California	61	\$60,989	\$58,560	\$2,429	4.1 %
Northern California	35	44,537	41,336	3,201	7.7
Seattle Metro	30	23,045	21,566	1,479	6.9
Total Quarterly Same-Property revenues	126	128,571	121,462	7,109	5.9
Quarterly Non-Same Property Revenues (1)		17,823	4,012	13,811	344.2
Total property revenues		\$146,394	\$125,474	\$20,920	16.7 %

(1) Includes twelve communities acquired after January 1, 2012, one redevelopment community and one commercial building.

Quarterly Same-Property Revenues increased by \$7.1 million or 5.9% to \$128.6 million in the first quarter of 2013 from \$121.5 million in the first quarter of 2012. The increase was primarily attributable to an increase in scheduled rents of \$7.2 million as reflected in an increase of 6.7% in average rental rates from \$1,425 per unit in the first quarter of 2012 to \$1,520 per unit in the first quarter of 2013. Scheduled rents increased by 4.0%, 8.3%, and 7.8% in Southern California, Northern California, and Seattle Metro, respectively. Quarterly Same-Property financial occupancy decreased 30 basis points from the first quarter of 2012 which offset the increase in Quarterly Same-Property Revenues by \$0.6 million. On a sequential basis the Company experienced Quarterly Same-Property revenue growth from the fourth quarter of 2012 to the first quarter of 2013 of \$1.3 million or 1.1%, resulting from sequential revenue growth in all three regions mainly driven by a 0.8% increase in scheduled rents and a 50 basis point increase in occupancy compared to the fourth quarter of 2012.

Quarterly Non-Same Property Revenues increased by \$13.8 million or 344% to \$17.8 million in the first quarter of 2013 from \$4.0 million in the first quarter of 2012. The increase was primarily due to revenue generated from twelve communities acquired or consolidated since January 1, 2012 (Reed Square, Essex Skyline at MacArthur Place, Park Catalina, The Huntington, Montebello, Park West, Domaine, Ascent, Willow Lake, Bennett Lofts, Annaliese and Fox Plaza).

Management and Other Fees increased by \$0.5 million in the first quarter of 2013 as compared to the first quarter of 2012. The increase is primarily due to the asset and property management fees earned from Wesco I and III co-investments formed during 2012, and development fees earned from the joint ventures to develop Epic, Expo, Connolly Station, Elkhorn, Mosso I. and II., The Huxley, The Dylan, and The Village. The increase in management

fees was offset by a reduction of \$0.4 million in asset and property management fees from the sale of seven Fund II communities in 2012. The remaining seven communities owned by Fund II are expected to be sold by the end of the third quarter of 2013.

Property operating expenses, excluding real estate taxes increased \$3.9 million or 13.4% to \$32.6 million in the first quarter of 2013 from \$28.8 million in the first quarter of 2012, primarily due to the acquisition of twelve communities. Quarterly Same-Property operating expenses excluding real estate taxes, increased by \$1.3 million or 4.7% for the first quarter of 2013 compared to the first quarter of 2012, due to a \$0.6 million increase in repairs and maintenance expense, and a \$0.5 million increase in salaries and administration costs.

Index

Real Estate taxes increased by \$2.7 million or 24.0% for the first quarter of 2013 compared to the first quarter of 2012, due primarily to the acquisition of twelve communities. Quarterly Same-Property real estate taxes increased by \$0.8 million or 7.0% for first quarter of 2013 compared to the first quarter of 2012 due to \$0.5 million or a 25% increase in property taxes for the Seattle Metro due to higher assessed values for 2013, and an increase of 2% in property taxes for the majority of the properties located in California.

Depreciation expense increased by \$6.4 million or 15.7% for the first quarter of 2013 compared to the first quarter of 2012, due to the acquisition of twelve communities. Also, the increase is due to the capitalization of approximately \$14.1 million in additions to rental properties through the first quarter of 2013, including \$6.6 million spent on redevelopment, and the capitalization of approximately \$97.9 million in additions to rental properties in 2012, including \$40.2 million spent on redevelopment, \$13.7 million spent on improvement to recent acquisitions, and \$7.7 million spent on revenue generating capital expenditures

General and administrative expense increased \$1.2 million or 22.7% for first quarter of 2013 compared to the first quarter of 2012 primarily due to an increase of acquisitions cost of \$0.2 million compared to the first quarter of 2012, annual compensation adjustments for merit, investments in technology, and the cost of hiring additional staff.

Interest and other income increased by \$2.6 million for the first quarter of 2013 compared to 2012 primarily due to a gain of \$1.8 million from the sale of marketable securities, and \$0.8 million earned from the change in estimate for the discount related to the Reserve Lofts notes receivable that was repaid during the first quarter of 2013.

Equity income in co-investments increased \$1.9 million in the first quarter of 2013 to \$4.2 million compared to \$2.4 million in the first quarter of 2012 primarily due to two new preferred equity investments made in third quarter of 2012 and the first quarter of 2013 totaling \$0.6 million in equity income, \$0.4 million earned from the redemption of two preferred equity investments in the first quarter of 2013, and income earned from four communities acquired by the Wesco joint ventures in the second half of 2012. The increases in equity income in the first quarter of 2013 were offset by the sale of seven communities owned by Fund II in the second half of 2012, and the acquisition of the Essex Skyline community in the second quarter of 2012 which was accounted for on the equity method for the first quarter for 2012.

Income from discontinued operations for the first quarter of 2013 was \$0 as compared to income of \$10.0 million in the first quarter of 2012 that included a gain of \$9.8 million from the sale of Tierra del Sol/Norte and Alpine Country, net of internal disposition costs.

Liquidity and Capital

Fitch Ratings ("Fitch"), Moody's Investor Service, and Standard and Poor's ("S&P") credit agencies rate Essex Property Trust, Inc. and Essex Portfolio, L.P. BBB+/Stable, Baa2/Stable, and BBB/Stable, respectively.

As of March 31, 2013, the Company had \$30.8 million of unrestricted cash and cash equivalents and \$80.4 million in marketable securities, of which \$27.0 million were held available for sale. We believe that cash flows generated by our operations, existing cash, cash equivalents, and marketable securities balances, availability under existing lines of credit, access to capital markets and the ability to generate cash from the disposition of real estate are sufficient to meet all of our reasonably anticipated cash needs during the next twelve months. The timing, source and amounts of cash flows provided by financing activities and used in investing activities are sensitive to changes in interest rates and other fluctuations in the capital markets environment, which can affect our plans for acquisitions, dispositions, development and redevelopment activities.

The Company has two lines of unsecured credit aggregating \$625.0 million. As of March 31, 2013 there was a \$102.3 million outstanding balance on the \$600 million unsecured line. The underlying interest rate on the \$600 million line is based on a tiered rate structure tied to the Company's credit ratings on the credit facility and the rate was LIBOR + 1.075% as of March 31, 2013. This facility matures in December 2015 with two one-year extensions, exercisable by the Company. The Company has a working capital unsecured line of credit agreement for \$25.0 million. This facility matures in January 2014, with a one year extension option. As of March 31, 2013 there was no balance outstanding on this unsecured line. The underlying interest rate on the \$25.0 million line is based on a tiered rate structure tied to Fitch and S&P ratings on the credit facility of LIBOR plus 1.075%.

On March 29, 2013, the Company entered into equity distribution agreements with Cantor Fitzgerald & Co, Barclays Capital Inc., BMO Capital Markets Corp., BNP Paribas Securities Corp., Liquidnet, Inc., Mitsubishi UFJ Securities (USA), Inc., and Citigroup Global Markets Inc., which superseded the equity distribution agreements entered into in March 2012 with Cantor Fitzgerald & Co, KeyBanc Capital Markets Inc., Barclays Capital Inc., BMO Capital Markets Corp., Liquidnet, Inc., Mitsubishi UFJ Securities (USA), Inc., and Citigroup Global Markets Inc. During the first quarter of 2013, the Company sold 817,445 shares of common stock for \$122.9 million, net of commissions, at an average per share price of \$151.82. Under this program, the Company may from time to time sell shares of common stock into the existing trading market at current market prices, and the Company anticipates using the net proceeds to potentially acquire, develop, or redevelop properties, which primarily will be apartment communities, to make other investments and for working capital or general corporate purposes, which may include the repayment of indebtedness. As of May 2, 2013, the Company may sell an additional 5,000,000 shares under the current equity distribution program.

Index

During March 2013, the Company filed a new shelf registration statement with the SEC, allowing the Company to sell an undetermined number or amount of certain equity and debt securities as defined in the prospectus.

During April 2013, the Company issued \$300 million of senior unsecured bonds due May 1, 2023 with a coupon rate of 3.25% per annum. The interest is payable semi-annually in arrears on May 1 and November 1 of each year, commencing November 1, 2013 until the maturity date of May 1, 2023. The Company used the net proceeds of this offering to repay indebtedness under the Company's \$600 million unsecured line of credit facility and for other general corporate and working capital purposes.

As of March 31, 2013, the Company's mortgage notes payable totaled \$1.6 billion which consisted of \$1.4 billion in fixed rate debt with interest rates varying from 4.3% to 6.4% and maturity dates ranging from 2013 to 2021 and \$201.6 million of variable rate debt with a weighted average interest rate of 1.6% (\$201.6 million of the variable debt is tax-exempt variable rate demand notes). The tax-exempt variable rate demand notes have maturity dates ranging from 2013 to 2039, and \$187.4 million are subject to interest rate caps.

The Company pays quarterly dividends from cash available for distribution. Until it is distributed, cash available for distribution is invested by the Company primarily in investment grade securities held available for sale or is used by the Company to reduce balances outstanding under its line of credit.

The Company has benefited from borrowing from Fannie Mae and Freddie Mac, and there are no assurances that these entities will lend to the Company in the future. To the extent that the Company's access to capital and credit is at a higher cost than the Company has experienced in recent years (reflected in higher interest rates for debt financing or a lower stock price for equity financing) the Company's ability to make acquisitions, develop communities, obtain new financing, and refinance existing borrowing at competitive rates could be adversely impacted. For the past two years the Company has primarily issued unsecured debt and repaid secured debt when it has matured to place less reliance on mortgage debt financing, and to unencumber more of the Company's communities.

Derivative Activity

The Company uses interest rate swaps and interest rate cap contracts to manage certain interest rate risks. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements.

The Company has entered into interest rate swap contracts with an aggregate notional amount of \$300 million that effectively fixed the interest rate on \$300 million of the \$350 million unsecured term loan at 2.6%. These derivatives qualify for hedge accounting.

As of March 31, 2013 the Company also had twelve interest rate cap contracts totaling a notional amount of \$187.8 million that qualify for hedge accounting as they effectively limit the Company's exposure to interest rate risk by providing a ceiling on the underlying variable interest rate for \$201.6 million of the Company's tax exempt variable rate debt.

As of March 31, 2013 and December 31, 2012 the aggregate carrying value of the interest rate swap contracts was a liability of \$6.1 million and \$6.6 million, respectively. The aggregate carrying value of the interest rate cap contracts was zero on the balance sheet as of March 31, 2013 and December 31, 2012, respectively.

Index

Development and Predevelopment Pipeline

The Company defines development activities as new properties that are being constructed, or are newly constructed and, in the case of development communities, are in a phase of lease-up and have not yet reached stabilized operations. As of March 31, 2013, the Company had two consolidated development projects, and six unconsolidated joint venture development projects aggregating 2,220 units for an estimated cost of \$861.8 million, of which \$397.4 million remains to be expended.

The Company had two predevelopment projects and one unconsolidated joint venture predevelopment projects aggregating 449 units with an aggregate carrying value of \$64.3 million as of March 31, 2013. The Company expects to fund the development and predevelopment pipeline by using a combination of some or all of the following sources: its working capital, amounts available on its lines of credit, net proceeds from public and private equity and debt issuances, and proceeds from the disposition of properties, if any.

Alternative Capital Sources

Fund II has eight institutional investors, and the Company, with combined partner equity contributions of \$265.9 million. The Company contributed \$75.0 million to Fund II, which represents a 28.2% interest as general partner and limited partner, and the Company uses the equity method of accounting for its investment in Fund II. Fund II utilized leverage equal to approximately 55% upon the initial acquisition of the underlying real estate. Fund II invested in apartment communities in the Company's targeted West Coast markets and, as of December 31, 2012, owned seven apartment communities. The Company records revenue for its asset management, property management, development and redevelopment services when earned, and promote income when realized if Fund II exceeds certain financial return benchmarks. Seven communities were sold during 2012 from Fund II, and the Company has begun the sale of the remaining seven communities within the Essex Apartment. The Company has exercised its one-year extension which provides for the option to extend Fund II to September 2014.

Wesco I is a 50/50 programmatic joint venture with an institutional partner formed in 2011 for a total equity commitment of \$300.0 million. Each partner's equity commitment is \$150.0 million. Wesco I will utilize debt as leverage equal to approximately 50% of the underlying real estate. The Company has contributed \$150.0 million to Wesco I, and as of March 31, 2013, Wesco I owned nine apartment communities with 2,713 units with an aggregate carrying value of \$661.2 million.

Wesco III is a 50/50 programmatic joint venture with an institutional partner formed in 2012 for a total equity commitment of \$120.0 million. Each partner's commitment is \$60.0 million. Wesco III will utilize debt as leverage equal to approximately 50% of the underlying real estate. The Company has contributed \$10.0 million to Wesco III, and provided a \$26.0 million short term bridge loan to Wesco III at a rate of LIBOR + 2.5% in the fourth quarter of 2012 that was repaid by Wesco III in the first quarter of 2013. Wesco III owned one apartment community with 264 units for a purchase price of \$45.6 million.

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements, in accordance with U.S. generally accepted accounting principles requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. The Company defines critical accounting policies as those accounting policies that require the Company's management to exercise their most difficult, subjective and complex judgments. The Company's critical accounting policies and estimates relate principally to the following key areas: (i) consolidation under applicable accounting standards for entities that are not wholly owned; (ii) assessing the carrying values of our real estate properties and investments in and advances to joint

ventures and affiliates; (iii) internal cost capitalization; and (iv) qualification as a REIT. The Company bases its estimates on historical experience, current market conditions, and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from those estimates made by management.

The Company's critical accounting policies and estimates have not changed materially from information reported in Note 2, "Summary of Critical and Significant Accounting Policies," in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Index

Forward Looking Statements

Certain statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this quarterly report on Form 10-Q which are not historical facts may be considered forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended, including statements regarding the Company's expectations, hopes, intentions, beliefs and strategies regarding the future. Forward looking statements include statements regarding the Company's expectations as to the total projected costs of predevelopment, development and predevelopment projects, the Company's reduced risk of loss from mold cases, beliefs as to our ability to meet our cash needs during the next twelve months, expectations as to the sources for funding the Company's development and redevelopment pipeline, the timing and proceeds of the sale of the Fund II properties and statements regarding the Company's financing activities.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors including, but not limited to, that the Company will fail to achieve its business objectives, that the total projected costs of current predevelopment, development and redevelopment projects exceed expectations, that such development and redevelopment projects will not be completed, that development and redevelopment projects and acquisitions will fail to meet expectations, that estimates of future income from an acquired property may prove to be inaccurate, that future cash flows will be inadequate to meet operating requirements, that there may be a downturn in the markets in which the Company's properties are located, that the terms of any refinancing may not be as favorable as the terms of existing indebtedness, and that mold lawsuits will be more costly than anticipated, as well as those risks, special considerations, and other factors referred to in Item 1A, "Risk Factors," of the Company's Annual Report on Form 10-K for the year ended December 31, 2012, and those risk factors and special considerations set forth in the Company's other filings with the Securities and Exchange Commission (the "SEC") which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. All forward-looking statements are made as of the date hereof, and the Company assumes no obligation to update this information.

Funds from Operations ("FFO")

FFO is a financial measure that is commonly used in the REIT industry. The Company presents funds from operations as a supplemental operating performance measure. FFO is not used by the Company as, nor should it be considered to be, an alternative to net earnings computed under GAAP as an indicator of the Company's operating performance or as an alternative to cash from operating activities computed under GAAP as an indicator of the Company's ability to fund its cash needs.

FFO is not meant to represent a comprehensive system of financial reporting and does not present, nor does it intend to present, a complete picture of the Company's financial condition and operating performance. The Company believes that net earnings computed under GAAP remain the primary measure of performance and that FFO is only meaningful when it is used in conjunction with net earnings. The Company considers FFO and FFO excluding non-recurring items and acquisition costs (referred to as "Core FFO") to be useful financial performance measurements of an equity REIT because, together with net income and cash flows, FFO provides investors with an additional basis to evaluate operating performance and ability of a REIT to incur and service debt and to fund acquisitions and other capital expenditures and ability to pay dividends. Further, the Company believes that its consolidated financial statements, prepared in accordance with GAAP, provide the most meaningful picture of its financial condition and its operating performance.

In calculating FFO, the Company follows the definition for this measure published by the National Association of REITs ("NAREIT"), which is a REIT trade association. The Company believes that, under the NAREIT FFO definition, the two most significant adjustments made to net income are (i) the exclusion of historical cost depreciation and (ii)

the exclusion of gains and losses (including impairment charges on depreciable real estate) from the sale of previously depreciated properties. The Company agrees that these two NAREIT adjustments are useful to investors for the following reason:

- (a) historical cost accounting for real estate assets in accordance with GAAP assumes, through depreciation charges, that the value of real estate assets diminishes predictably over time. NAREIT stated in its White Paper on Funds from Operations “since real estate asset values have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves.” Consequently, NAREIT’s definition of FFO reflects the fact that real estate, as an asset class, generally appreciates over time and depreciation charges required by GAAP do not reflect the underlying economic realities.
- (b) REITs were created as a legal form of organization in order to encourage public ownership of real estate as an asset class through investment in firms that were in the business of long-term ownership and management of real estate. The exclusion, in NAREIT’s definition of FFO, of gains and losses (including impairment charges on depreciable real estate) from the sales of previously depreciated operating real estate assets allows investors and analysts to readily identify the operating results of the long-term assets that form the core of a REIT’s activity and assists in comparing those operating results between periods.

Index

Management believes that it has consistently applied the NAREIT definition of FFO to all periods presented. However, there is judgment involved and other REITs' calculation of FFO may vary from the NAREIT definition for this measure, and thus their disclosure of FFO may not be comparable to the Company's calculation.

The following table sets forth the Company's calculation of FFO and Core FFO for the three months ended March 31, 2013 and 2012 (in thousands except for per share data):

	Three Months Ended March 31,	
	2013	2012
Net income available to common stockholders	\$ 25,203	\$ 22,722
Adjustments:		
Depreciation and amortization	47,144	40,827
Gains not included in FFO, net of internal disposition costs	-	(9,783)
Depreciation add back from unconsolidated co-investments, and add back convertible preferred dividend - Series G	3,842	4,384
Noncontrolling interests related to Operating Partnership units	1,501	1,590
Depreciation attributable to noncontrolling interest	(327)	(289)
Funds from operations	\$ 77,363	\$ 59,451
Funds from operations per share - diluted	\$ 1.97	\$ 1.63
Non-core items:		
Acquisition costs	387	186
Gain on sales of marketable securities and note prepayment	(2,611)	-
Gain on sale of land	(1,503)	-
Income from early redemption of preferred equity investments	(423)	-
Core FFO	\$ 73,213	\$ 59,637
Core FFO per share-diluted	\$ 1.87	\$ 1.64
Weighted average number shares outstanding diluted (1)	39,205,611	36,396,641

(1) Assumes conversion of all dilutive outstanding operating partnership interests in the Operating Partnership.

Index

Net Operating Income (“NOI”)

Same-property net operating income (“NOI”) is considered by management to be an important supplemental performance measure to earnings from operations included in the Company’s consolidated statements of operations. The presentation of same-property NOI assists with the presentation of the Company’s operations prior to the allocation of depreciation and any corporate-level or financing-related costs. NOI reflects the operating performance of a community and allows for an easy comparison of the operating performance of individual communities or groups of communities. In addition, because prospective buyers of real estate have different financing and overhead structures, with varying marginal impacts to overhead by acquiring real estate, NOI is considered by many in the real estate industry to be a useful measure for determining the value of a real estate asset or group of assets. The Company defines same-property NOI as same-property revenue less same-property operating expenses, including property taxes. Please see the reconciliation of earnings from operations to same-property NOI, which in the table below is the NOI for stabilized properties consolidated by the Company for the periods presented:

	Three months ended March 31,	
	2013	2012
Earnings from operations	\$ 47,107	\$ 39,980
Adjustments:		
General and administrative	6,626	5,400
Cost of management and other fees	1,701	1,640
Depreciation	47,144	40,734
Management and other fees from affiliates	(2,948)	(2,444)
Net operating income	99,630	85,310
Less: Non same-property net operating income	(11,623)	(2,360)
Same-property net operating income	\$ 88,007	\$ 82,950

Item 3: Quantitative and Qualitative Disclosures About Market Risks

Interest Rate Hedging Activities

The Company’s objective in using derivatives is to add stability to interest expense and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, the Company uses interest rate swaps as part of its cash flow hedging strategy. As of March 31, 2013, the Company has entered into ten interest rate swap contracts to mitigate the risk of changes in the interest-related cash outflows on \$300.0 million of the variable rate five-year unsecured term debt. As of March 31, 2013, the Company also had \$201.6 million of variable rate indebtedness, of which \$187.4 million is subject to interest rate cap protection. All of the Company’s derivative instruments are designated as cash flow hedges, and the Company does not have any fair value hedges as of March 31, 2013. The following table summarizes the notional amount, carrying value, and estimated fair value of the Company’s derivative instruments used to hedge interest rates as of March 31, 2013. The notional amount represents the aggregate amount of a particular security that is currently hedged at one time, but does not represent exposure to credit, interest rates or market risks. The table also includes a sensitivity analysis to demonstrate the impact on the Company’s derivative instruments from an increase or decrease in 10-year Treasury bill interest rates by 50 basis points, as of March 31, 2013.

(Dollars in thousands)	Notional Amount	Maturity Date Range	Carrying and Estimated Fair Value	Estimated Carrying Value	
				+ 50 Basis Points	- 50 Basis Points

Cash flow hedges:

Interest rate swaps	\$ 300,000	2016-2017	\$ (6,107)	\$ (311)	\$ (10,760)
Interest rate caps	187,788	2013-2018	-	63	-
Total cash flow hedges	\$ 487,788	2013-2018	\$ (6,107)	\$ (248)	\$ (10,760)

Interest Rate Sensitive Liabilities

The Company is exposed to interest rate changes primarily as a result of its lines of credit and long-term tax exempt variable rate debt and unsecured term debt. The Company's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives the Company borrows primarily at fixed rates and may enter into derivative financial instruments such as interest rate swaps, caps and treasury locks in order to mitigate its interest rate risk on a related financial instrument. The Company does not enter into derivative or interest rate transactions for speculative purposes.

Index

The Company's interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts and weighted average interest rates by year of expected maturity to evaluate the expected cash flows.

For the Years Ended	2013	2014	2015	2016	2017	Thereafter	Total	Fair value
(In thousands)								
Fixed rate debt	\$37,811	47,717	68,555	162,589	224,646	1,578,329	\$2,119,647	\$2,211,330
Average interest rate	5.6 %	5.2 %	5.2 %	4.5 %	5.5 %	5.4 %	5.3 %	
Variable rate debt	\$19,420 (1)	-	102,300	200,000 (2)	150,000 (2)	182,171 (2)	\$653,891	\$632,704
Average interest rate	1.2 %	0.0 %	2.1 %	2.6 %	2.6 %	1.6 %	2.2 %	

(1) \$187.4 million subject to interest rate caps.

(2) \$300.0 million subject to interest rate swap agreements.

The table incorporates only those exposures that exist as of March 31, 2013; it does not consider those exposures or positions that could arise after that date. As a result, our ultimate realized gain or loss, with respect to interest rate fluctuations and hedging strategies would depend on the exposures that arise prior to settlement.

Item 4: Controls and Procedures

As of March 31, 2013, we carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of March 31, 2013, our disclosure controls and procedures were effective to ensure that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such disclosure controls and procedures were also effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

There were no changes in the Company's internal control over financial reporting, that occurred during the quarter ended March 31, 2013, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II -- Other Information

Item 1: Legal Proceedings

Recently there has been an increasing number of lawsuits against owners and managers of apartment communities alleging personal injury and property damage caused by the presence of mold in residential real estate. Some of these lawsuits have resulted in substantial monetary judgments or settlements. The Company has been sued for mold related matters and has settled some, but not all, of such matters. Insurance carriers have reacted to mold related liability awards by excluding mold related claims from standard policies and pricing mold endorsements at prohibitively high rates. The Company has, however, purchased pollution liability insurance, which includes some coverage for mold. The Company has adopted policies for promptly addressing and resolving reports of mold when it is detected, and to minimize any impact mold might have on residents of the property. The Company believes its mold policies and proactive response to address any known existence, reduces its risk of loss from these cases. There can be no assurances that the Company has identified and responded to all mold occurrences, but the Company promptly addresses all known reports of mold. Liabilities resulting from such mold related matters are not expected to have a material adverse effect on the Company's financial condition, results of operations or cash flows. As of March 31, 2013, no potential liabilities for mold and other environmental liabilities are quantifiable and an estimate of possible loss cannot be made.

The Company carries comprehensive liability, fire, extended coverage and rental loss insurance for each of the Company's communities. Insured risks for comprehensive liability covers claims in excess of \$100,000 per incident, and property insurance covers losses in excess of a \$5.0 million deductible per incident. There are, however, certain types of extraordinary losses, such as, for example, losses for earthquake, for which the Company does not have insurance. Substantially all of the Company's properties are located in areas that are subject to earthquakes.

Index

The Company is subject to various other lawsuits in the normal course of its business operations. Such lawsuits could, but are not expected to, have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 1A: Risk Factors

There were no material changes to the Risk Factors disclosed in Item IA of the Company's Annual Report on Form 10-K for the year ended December 31, 2012 as filed with the SEC and available at www.sec.gov.
