EUROWEB INTERNATIONAL CORP.

We operate in Hungary through our wholly-owned subsidiary Navigator Informatika Rt. ("Navigator") and currently in the United States through our wholly-owned subsidiary Euroweb RE Corp. ("ERC"), a Nevada corporation. On April 15, 2005, we disposed of Euroweb Slovakia a.s. ("Euroweb Slovakia") for cash of $2,700,000 and, as a result, has ceased operations in Slovakia. On December 15, 2005, our Board of Directors decided to sell 100% of Euroweb Internet Szolgaltato Rt. ("Euroweb Hungary") and Euroweb Romania S.A. ("Euroweb Romania"). On December 19, 2005, we entered into a share purchase agreement with Invitel Tavkozlesi Szolgaltato Rt. ("Invitel"), a Hungarian joint stock company, to sell 100% of our interest in Euroweb Hungary and Euroweb Romania. The closing of the sale of Euroweb Hungary and Euroweb Romania occurred on May 23, 2006 upon our receipt of the first part of purchase price of $29,400,000. The remaining part of purchase price of $613,561 was fully paid in the beginning of July 2006. Through Navigator, we provide a full range of information technology ("IT") outsourcing services. The IT outsourcing services provided by our company primarily comprise IT maintenance, procurement, consultancy and related services. Our revenues come from the following three sources:

- Full service IT System operation comprising full service support and maintenance with a cost-effective and competitive service desk system, call center, hotline support and remote troubleshooting;

- IT system implementation and IT project management, including consultancy, system design, development and implementation and training; and

- Sale of IT devices.

In June 2006, we commenced operations in the real estate industry through ERC. ERC has commenced seeking opportunities in the real estate industry, which opportunities are limited to the extent that the opportunities must satisfy the parameters set by the Board of Directors as follows:

- any investment in the real estate opportunity (the "Proposed RE Investment"), including loans, shall not exceed a period of three years;

- the expected return on investment on the Proposed RE Investment will be at minimum 15% per year;

- the Proposed RE Investment will not be leveraged in excess of more than $1.50 for each $1.00 invested in equity; and

- each Proposed RE Investment will have a clear exit strategy (i.e. purchase, development and sale) and no Proposed RE Investment intent will be to acquire income producing real estate.

On June 14, 2006, we entered into a line of credit agreement (the "Line of Credit") with ERC, pursuant to which we agreed to loan ERC up to $10,000,000, which such loans will be payable on demand and accrue interest of 12% per annum. Pursuant to the terms of the Line of Credit, we advanced ERC $1,000,000 on June 14, 2006 for operational expenses.

On June 19, 2006, ERC entered into an Investment Agreement with a third party, The Aquitania Corp. f/k/a AO Bonanza Las Vegas, Inc. ("AOB"), pursuant to which ERC, within its sole discretion, has agreed to provide secured loans to AOB not to exceed the amount of $10,000,000. ERC made the first loan to AOB in the amount of $2,600,000 as of June 20, 2006, from funds available to ERC from us as described above. AOB may request additional funds at anytime after July 15, 2006.

AOB is developing a real property in downtown Las Vegas, Nevada, where it intends to build 296 condominiums plus commercial space (the "Property"). AOB obtained entitlements to the Property, and has advised that it expects to break ground and commence sales during 2006.

Each loan provided to AOB is due on demand or upon maturity on January 14, 2008. All loans will be secured by a deed of trust, assignment of rents and security agreement with respect to the property, along with ALTA American Land Title Association title policy to be issued by a title company. All proceeds from the loan are placed in an escrow and are released for specific purposes associated with the development of the Property.

If ERC requests that the funds be paid on demand prior to maturity, then AOB shall be entitled to reduce the amount requested to be prepaid by 10%. The 10% discount will be paid to AOB in the form of shares of common stock of Euroweb, which will be computed by dividing the dollar amount of the 10% discount by the market price of Euroweb's shares of common stock.

The terms of the loans require that ERC to be paid-off the greater of (i) the principal including 12% interest per annum or (ii) 33% of all gross profits derived from the Property.

In addition, ERC has the right to acquire the Property for a purchase price of $15,000,000 (the "Purchase Price") through January 1, 2015. The Purchase is payable in $10,000,000 in cash and $5,000,000 in shares of common stock of the Company (the "AOB Shares"). The number of Shares is determined by dividing $5,000,000 by the higher of (i) the book value of one share of Euroweb's common stock based on Euroweb's balance sheet filed with the Securities and Exchange Commission immediately prior to the exercise of the option or (ii) the 90 day weighted average price of Euroweb's market price immediately prior to the exercise of the option multiplied by 110%. In the event that the number of shares of common stock issuable upon exercise of the option exceeds the number of shares of common stock that may be issued pursuant to the regulations of the exchange on which Euroweb is trading at the time of the exercise of the option, then Euroweb shall use its best efforts to have such issuance approved by the shareholders of Euroweb. If it is unable to obtain such approval, then ERC will pay the balance of the $5,000,000 in cash.

For the year ended December 31, 2005, we generated revenues of $1,964,998 and had net income (including income from discontinued operations, net of tax) of $1,680,295. For the three months ended March 31, 2006, we generated revenues of $1,792,286 and incurred a net loss of $1,029,572.

Our principal offices are located at 468 North Camden Drive, Suite 256(I), Beverly Hills, California 90210. Our telephone number is (310) 860-5697. We are a Delaware corporation.

RISK FACTORS

If you purchase shares of our common stock, you will take on a financial risk. In deciding whether to invest, you should consider carefully the following factors, the information contained in this prospectus and the other information to which we have referred. If any of the following risks actually occur, our business, financial condition or results of operations could be materially adversely affected. In such case, the trading price of our common stock could decline, and you may lose all or part of your investment.

Risk Related to our Business and Industry

We have incurred net losses for the prior periods and we will again incur net

losses if we are unable to generate sufficient revenue and control costs.

For the year ended December 31, 2005, we generated revenues of $1,964,998 and had net income (including income from discontinued operations, net of tax) of $1,680,295. However, our loss from continuing operations was $2,018,166 for the year ended December 31, 2005. For the three months ended March 31, 2006, we generated revenues of $1,792,286 and incurred a net loss of $1,029,572. We may not achieve profitability on a quarterly or annual basis in the future. If revenues grow more slowly than we anticipate or if operating expenses exceed our expectations or cannot be adjusted accordingly, we will continue to incur losses. Our future performance is dependent upon the successful development and marketing of our services and products, about which there is no assurance. Any future success that we might enjoy will depend upon many factors, including factors out of our control or which cannot be predicted at this time. These factors may include changes in or increased levels of competition, including the entry of additional competitors and increased success by existing competitors, changes in general economic conditions, increases in operating costs, including costs of supplies, personnel and equipment, reduced margins caused by competitive pressures and other factors. These conditions may have a materially adverse effect upon us or may force us to reduce or curtail operations.

Our future success is dependent, in part, on the performance and continued service of Yossi Attia, the CEO of ERC, and our ability to attract additional qualified personnel. If we are unable to do so our results from operations may be negatively impacted.

Our success is dependent on the personal efforts of Yossi Attia, CEO of ERC and a director of the Company. After the annual meeting that will take place on August 11, 2006, the Board of Directors expects to appoint Mr. Attia as CEO of Euroweb. The loss of the services of Mr. Attia could have a material adverse effect on our business and prospects. We do not have and do not intend to obtain "key-man" insurance on the life of any of our officers. The success of our company is largely dependent upon our ability to hire and retain additional qualified management, marketing, technical, construction, financial and other personnel. Competition for qualified personnel is intense, and there can be no assurance that we will be able to hire or retain additional qualified management. The inability to attract and retain qualified management and other personnel will have a material adverse effect on our company as our key personnel are critical to our overall management as well as the development of our technology, our culture and our strategic direction.

We could incur material additional expenses, which could reduce our gross margins or increase operating losses, if the IT service industry becomes subject to additional regulations

The IT service industry is not currently subject to direct regulation other than regulation applicable to businesses generally. However, changes in the regulatory environment relating to the IT industries could have an effect on our business, which may be materially adverse to our interests. Additionally, legislative proposals from international, federal, state and foreign governmental bodies in the areas of content regulation, intellectual property, privacy rights and tax issues, could impose additional regulations and obligations upon all online service and content providers, which may be materially adverse to our interests. We cannot predict the likelihood that any such legislation be introduced, nor the financial impact, if any, of the resulting regulation.

As we may seek to acquire more companies, we may choose to finance these acquisitions through proceeds generated from debt financing, which may lead to a substantial increase in interest expenses.

Our wholly-owed subsidiary, Navigator, is highly dependent on four customers. If

these companies were to terminate our relationship, our results from operations would be materially impacted.

27% of the consolidated sales revenue in the year ended December 31, 2005 and 26% of the consolidated sales revenue in the quarter ended March 31, 2006 is derived from one customer. 83% of the consolidated sales revenue for the year ended December 31, 2005 and approximately 89% of the consolidated revenue for the three months ended March 31, 2006 was generated from the four most significant customers of the Company. If we are to lose any of these four customers our revenues would be materially impacted. Recently, a major IT Group named KFKI Group ("KFKI") was acquired by Magyar Telekom Ltd. This consolidation may have a material effect on the IT service industry in Hungary, and may increase our difficulties in obtaining new customers as combined Magyar Telekom Ltd and KFKI, a much larger and better financed competitor.

Currently, we anticipate that we will incur a goodwill impairment of approximately $6.3 million as of June 30, 2006. The goodwill impairment is attributable to the following:

- Loss of key personnel - as of May 31, 2006, Csaba Toro, former CEO of our company, has resigned. Mr. Toro was solely responsible for Hungarian operational and acquisition related matters, including the IT business line. The lack of Mr. Toro's business reputation and experiences will negatively influence our presence within the Hungarian market.

- Change in business climate and competition - in line with our future plans for the IT business we were involved in extensive discussions with competitors regarding a future merger with the Navigator group. As a result of Mr. Toro's resignation, those discussions have been suspended and significant movements and ownership changes at our potential targets have occurred during the second quarter of 2006. Presently, there are not target companies available to the Company, which could negatively effects.

- change in business climate and regulations - in April 2006, an election was held in Hungary. The new government was forced to introduce a restrictive fiscal policy resulting in higher taxes and other regulations. The additional corporate taxes and labor costs will have a negative impact on our labor intensive industry.

- loss of synergy and common customer base - due to the sale of Euroweb Hungary and Romania, potential synergy effects cannot be realized, including the utilization of a common customer base as a potential target.

- difficulties in obtaining new customers - based on our experiences as owners with Navigator operations over the past nine months and changes in the competitive environment in the last few months, we believe that obtaining new large customers will become increasingly difficult, which was essential in fulfilling the original middle term business plan.

Based on the events described above, we have updated their business projections and performed an impairment test relating to the goodwill as of June 30, 2006. We compared the fair value of the reporting unit (Navigator) to their carrying amounts, noting an impairment of goodwill of approximately $6.3 million. The calculation is based on preliminary amounts, and therefore actual results may differ.

Increased competition in the IT outsource service industry may make it difficult for our company to attract and retain customers and to maintain current pricing

levels

The market for IT outsource products and services is intensely competitive. We expect competition to persist, intensify and increase in the future. Such competition could materially adversely affect our business, operating results or financial condition.

The main competitors of Navigator are coming from different segments of market, depending on the size of the targeted customers. Therefore, the competitors of Navigator are the following:

- Large accounts, corporate enterprises segment:
- T-Systems Hungary, subsidiary of the incumbent telecom operator
- EDS Magyarorszag
- HP Hungary
- Medium size enterprises segment:
- IBM Hungary
- KFKI Group, which was recently purchased in June 2006 by Magyar Telekom Ltd
- Synergon
- British Telecom Hungary

We may face intense competition from other companies directly involved in the same business and also from many other companies offering products which can be used in lieu of those offered by our company. Competition can take many forms, including convenience in obtaining products, service, marketing and distribution channels. Although we believe it can compete on the basis of the quality and reliability of its services, there can be no assurance that we will be able to compete successfully against current or future competitors or that competitive pressures faced by our company will not materially adversely affect our business, operating results or financial condition.

We are subject to foreign currency and exchange risks which we are unable to hedge against

We are subject to significant foreign exchange risk. There are currently no meaningful ways to hedge currency risk in Hungary. Therefore, our ability to limit our exposure to currency fluctuations is significantly restricted. Our ability to obtain dividends or other distributions is subject to, among other things, restrictions on dividends under applicable local laws and foreign currency exchange regulations of the jurisdictions in which its subsidiaries operate. The laws under which our operating subsidiary is organized provide generally that dividends may be declared by the partners or shareholders out of yearly profits subject to the maintenance of registered capital and required reserves and after the recovery of accumulated losses.

Risks Related to our Common Stock

We do not intend to issue a dividend in the near future.

It has been the policy of our company to not pay cash dividends on its common stock. At present, our company will follow a policy of retaining all of our earnings, if any, to finance the development and expansion of its business.

The substantial number of shares that are or will be eligible for sale, including the 3,477,968 shares of common stock being registered pursuant to this prospectus would represent approximately 59% of our total outstanding shares, which could cause our common stock price to decline even if we are successful in operations.

Sales of significant amounts of common stock in the public market, or the perception that such sales may occur, could materially affect the market price of our common stock. These sales might also make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem appropriate. We are registering 3,477,968 shares of common stock pursuant to our prospectus, which represents approximately 59% of our total outstanding.

We have anti-takeover provisions, which could inhibit potential investors or delay or prevent a change of control that may favor you.

Some of the provisions of our certificate of incorporation, our bylaws and Delaware law could, together or separately, discourage potential acquisition proposals or delay or prevent a change in control. In particular, our board of directors is authorized to issue up to 5,000,000 shares of preferred stock (less any outstanding shares of preferred stock) with rights and privileges that might be senior to our common stock, without the consent of the holders of the common stock.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the common stock included in this prospectus. The net proceeds from the sale of our common stock will go to the selling stockholders.

HOLDERS OF COMMON STOCK

As of July 10, 2006, we had 5,889,074 shares of common stock outstanding and 104 shareholders of record. We were advised by our transfer agent, the American Stock Transfer & Trust Company, that according to a search made, we had approximately 4,000 beneficial owners who hold their shares in street names.

In June 2006, Euroweb's Board of Directors has approved a program to repurchase, from time to time, at management's discretion, up to 700,000 shares of Euroweb's common stock in the open market or in private transactions commencing on June 20, 2006 and continuing through December 15, 2006 at prevailing market prices.

Repurchases will be made under the program using our own cash resources and will be in accordance with Rule 10b-18 under the Securities Exchange Act of 1934 and other applicable laws, rules and regulations. The Shemano Group will act as agent for our stock repurchase program. As of July 10, 2006, we acquired 49,568 shares at a cost of $130,533.58.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND PLAN OF OPERATIONS

Some of the information in this Form SB-2 contains forward-looking statements that involve substantial risks and uncertainties. You can identify these statements by forward-looking words such as "may," "will," "expect," "anticipate," "believe," "estimate" and "continue," or similar words. You should read statements that contain these words carefully because they:

- discuss our future expectations;
- contain projections of our future results of operations or of our financial condition; and
- state other "forward-looking" information.

We believe it is important to communicate our expectations. However, there may be events in the future that we are not able to accurately predict or over which we have no control. Our actual results and the timing of certain events could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under "Risk Factors," "Business" and elsewhere in this prospectus. See "Risk Factors."

We operate in Hungary through our wholly-owned subsidiary, Navigator and in the United States through our wholly-owned subsidiary ERC.

On December 16, 2004, we disposed of Euroweb Czech Republic for $500,000 and no longer have operations in the Czech Republic. On April 15, 2005, we disposed of Euroweb Slovakia for cash of $2,700,000 and, as a result, have ceased operations in Slovakia. On December 15, 2005, the Board of Directors decided to sell 100% of its interest in Euroweb Hungary and Euroweb Romania. On December 19, 2005, we entered into a share purchase agreement with Invitel, a Hungarian joint stock company, to sell 100% of our interest in Euroweb Hungary and Euroweb Romania. We closed the sale of Euroweb Hungary and Euroweb Romania in May 2006 when we received the first part of purchase price of $29,400,000. The remaining part of purchase price of $613,561 was fully paid in the beginning of July 2006 and, as a result, we have ceased operations in Romania and Hungary with respect to the Internet service providers.

We believe that the sale of Euroweb Czech, Euroweb Slovakia, Euroweb Hungary and Euroweb Romania meet the criteria for presentation as discontinued operations under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets.", Therefore Euroweb Czech, Euroweb Slovakia, Euroweb Hungary and Euroweb Romania are reclassified as discontinued operations in the financial statements of the Company for all periods presented.

Through our subsidiary Navigator, we provide a full range of information technology outsourcing services. The IT outsourcing services provided by our company primarily comprise IT maintenance, procurement, consultancy and related services.

Our revenues come from the following three sources:

- Full service IT System operation (alias: Complete IT outsourcing), comprising full service support and maintenance with a cost-effective and competitive service desk system, call center, hotline support and remote troubleshooting;
- IT system implementation and IT project management, including consultancy, system design, development and implementation and training; and

o Sale of IT devices.

Recently, a major IT Group named KFKI was acquired by Magyar Telekom Ltd. This consolidation may have a material effect on the IT service industry in Hungary, and may increase our difficulties in obtaining new customers. Currently, we anticipate that we will incur a goodwill impairment of approximately $6.3 million as of June 30, 2006. The goodwill impairment is attributable to the following:

o Loss of key personnel - as of May 31, 2006, Csaba Toro, former CEO of our company, has resigned. Mr. Toro was solely responsible for Hungarian operational and acquisition related matters, including the IT business line. The lack of Mr. Toro's business reputation and experiences will negatively influence our presence within the Hungarian market.

o Change in business climate and competition - in line with our future plans for the IT business we were involved in extensive discussions with competitors regarding a future merger with the Navigator group. As a result of Mr. Toro's resignation, those discussions have been suspended and significant movements and ownership changes at our potential targets have occurred during the second quarter of 2006. Presently, there are not target companies available to the Company, which could negatively effects.

o change in business climate and regulations - in April 2006, an election was held in Hungary. The new government was forced to introduce a restrictive fiscal policy resulting in higher taxes and other regulations. The additional corporate taxes and labor costs will have a negative impact on our labor intensive industry.

o loss of synergy and common customer base - due to the sale of Euroweb Hungary and Romania, potential synergy effects cannot be realized, including the utilization of a common customer base as a potential target.

o difficulties in obtaining new customers - based on our experiences as owners with Navigator operations over the past nine months and changes in the competitive environment in the last few months, we believe that obtaining new large customers will become increasingly difficult, which was essential in fulfilling the original middle term business plan.

Based on the events described above, we have updated their business projections and performed an impairment test relating to the goodwill as of June 30, 2006. We compared the fair value of the reporting unit (Navigator) to their carrying amounts, noting an impairment of goodwill of approximately $6.3 million. The calculation is based on preliminary amounts, and therefore actual results may differ.

In June 2006, we commenced operations in the real estate industry through ERC. ERC has commenced seeking opportunities in the real estate industry, which opportunities are limited to the extent that the opportunities must satisfy the parameters set by the Board of Directors as follows:

o any Proposed RE Investment, including loans, shall not exceed a period of three years;

o the expected return on investment on the Proposed RE Investment will be at minimum 15% per year;

o the Proposed RE Investment will not be leveraged in excess of more than $1.50 for each $1.00 invested in equity; and

o each Proposed RE Investment will have a clear exit strategy (i.e. purchase,

development and sale) and no Proposed RE Investment intent will be to acquire income producing real estate.

On June 14, 2006, we entered into the Line of Credit with ERC, pursuant to which we agreed to loan ERC up to $10,000,000, which such loans will be payable on demand and accrue interest of 12% per annum. Pursuant to the terms of the Line of Credit, we advanced ERC $1,000,000 on June 14, 2006 for operational expenses.

On June 19, 2006, ERC entered into an Investment Agreement with a third party, The Aquitania Corp. f/k/a/ AO Bonanza Las Vegas, Inc. ("AOB"), pursuant to which ERC, within its sole discretion, has agreed to provide secured loans to AOB not to exceed the amount of $10,000,000. ERC made the first loan to AOB in the amount of $2,600,000 as of June 20, 2006, from funds available to ERC from Euroweb as described above. AOB may request additional funds at anytime after July 15, 2006.

AOB is developing the Property which is located in downtown Las Vegas, Nevada, where it intends to build 296 condominiums plus commercial space. AOB obtained entitlements to the Property, and has advised that it expects to break ground and commence sales during 2006.

Each loan provided to AOB is due on demand or upon maturity on January 14, 2008. All loans will be secured by a deed of trust, assignment of rents and security agreement with respect to the property, along with ALTA American Land Title Association title policy to be issued by a title company. All proceeds from the loan are placed in an escrow and are released for specific purposes associated with the development of the Property.

If ERC requests that the funds be paid on demand prior to maturity, then AOB shall be entitled to reduce the amount requested to be prepaid by 10%. The 10% discount will be paid to AOB in the form of shares of common stock of Euroweb, which will be computed by dividing the dollar amount of the 10% discount by the market price of Euroweb's shares of common stock.

The terms of the loans require that ERC to be paid-off the greater of (i) the principal including 12% interest per annum or (ii) 33% of all gross profits derived from the Property.

In addition, ERC has the right to acquire the Property for a purchase price of $15,000,000 (the "Purchase Price") through January 1, 2015. The Purchase is payable in $10,000,000 in cash and $5,000,000 in shares of common stock of Euroweb (the "AOB Shares"). The number of AOB Shares is determined by dividing $5,000,000 by the higher of (i) the book value of one share of our common stock based on our balance sheet filed with the Securities and Exchange Commission immediately prior to the exercise of the option or (ii) the 90 day weighted average price of our market price immediately prior to the exercise of the option multiplied by 110%. In the event that the number of shares of common stock issuable upon exercise of the option exceeds the number of shares of common stock that may be issued pursuant to the regulations of the exchange on which we are trading at the time of the exercise of the option, then we shall use our best efforts to have such issuance approved by the shareholders of our Company. If it is unable to obtain such approval, then ERC will pay the balance of the $5,000,000 in cash.

During June and July 2006, ERC had entered into escrows to acquire vacant lots in California for development of single families houses. These escrows are pending and have not closed as of the date hereof.

On June 2006, Euroweb's Board of Directors has approved a program to repurchase, from time to time, at management's discretion, up to 700,000 shares of Euroweb's common stock in the open market or in private transactions

commencing on June 20, 2006 and continuing through December 15, 2006 at prevailing market prices.

Repurchases will be made under the program using our own cash resources and will be in accordance with Rule 10b-18 under the Securities Exchange Act of 1934 and other applicable laws, rules and regulations. The Shemano Group will act as agent for our stock repurchase program. As of July 10, 2006, we acquired 49,568 shares at a cost of $130,533.58.

Critical Accounting Policies

The Company's discussion and analysis of its financial condition and results of operations are based upon its consolidated financial statements that have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). This preparation requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. US GAAP provides the framework from which to make these estimates, assumption and disclosures. The Company chooses accounting policies within US GAAP that management believes are appropriate to accurately and fairly report the Company's operating results and financial position in a consistent manner. Management regularly assesses these policies in light of current and forecasted economic conditions. Accounting policies that management believes to be critical to understanding the results of operations and the effect of the more significant judgments and estimates used in the preparation of the consolidated financial statements are the same as those described in the Annual Report on Form 10-KSB of the Company for the year ended December 31, 2005.

Commitments and contingencies

Our subsidiaries have entered into various capital leases for vehicles and internet equipment, as well as non-cancelable operational agreements for office premises.

We entered into a six-year agreement with our Chief Executive Officer and Director, Csaba Toro on October 18, 1999, which commenced January 1, 2000, and provided for an annual compensation of $96,000. The agreement was amended in 2004 and 2005. The amended agreement provides for an annual salary of $200,000 and a bonus of up to $150,000 in 2005, and an annual salary of $200,000 and a bonus of up to $150,000 in 2006, 2007 and 2008, as well as an annual car allowance of $30,000 for the same period. On May 24, 2006, we entered into a Severance Agreement with Mr. Toro in order to define the severance relationship between the two parties. In consideration for Toro agreeing to relinquish and release all rights and claims under the Employment Agreement including the payment of his annual salary, we agreed to pay Toro $750,000. In addition, Toro has submitted his resignation as Chief Executive Officer and as a director of our company effective June 1, 2006. The severance was fully paid in May 2006.

On April 6, 2005, we entered into a long-term loan agreement with Commerzbank Bank Rt (the "Bank") for HUF 201,250,000 (approximately $918,111 at the March 31, 2006 exchange rate), with an interest rate of three month Budapest Interbank Offered Rate ("BUBOR") +2.5%. Approximately $655,794 was outstanding at March 31, 2006. The loan is repayable in 14 quarterly installments of HUF 14,375,000 (approximately $65,579) plus quarterly interest starting on May 31, 2005. The shares of the Navigator and Euroweb Hungary were pledged as collateral for this loan, as well as a general lien established on all of the assets of these subsidiaries of Euroweb.

In addition to the long-term loan agreement, we also entered into an overdraft facility for unlimited period of time with 30 days termination period with the Bank for HUF 130,000,000 (approximately $593,066 at the March 31, 2006 exchange rate) on July 20, 2005. Approximately $526,888 was outstanding at March 31, 2006. The interest rate is BUBOR + 1.5%.

We entered into a two-year employment agreement with Moshe Schnapp as President and Director of our company which commenced on April 15, 2005, and provided for an annual compensation of $250,000 to be paid in the form of Euroweb shares of common stock. The number of shares to be received by Mr. Schnapp is calculated based on the average closing price 10 days prior to the commencement of each employment year. For the year ended April 14, 2006, Mr. Schnapp will receive 82,781 Euroweb shares of common stock of which 58,968 were issued in January 2006. In July 2006, we issued the remaining 23,813 and 22,194 shares of common stock for services through July 30, 2006. Mr. Schnapp has advised our company that he intends to resign as the President and director after the annual meeting in August 2006. We will pay Mr. Schnapp for time served as per his employment agreement, without any compensation for early termination.

Effective July 1, 2006, we entered into a five-year employment agreement with Yossi Attia as the CEO of ERC which commenced on July 1, 2006 and provided for an annual compensation of $240,000 and a bonus of not less than $120,000 per year, as well as an annual car allowance for the same period. Yossi Attia will be entitled to a special bonus of 10% from the EBITDA of ERC, payable with our shares. The Board of Directors expects to appoint Mr. Attia as CEO of Euroweb on the same terms per his agreement with regard to ERC, though the entire executive compensation from this agreement will be paid only in our shares. Mr. Attia's employment agreement mentioned above further provides that, if employment is terminated other than for willful breach by the employee, for cause or in event of a change in control of Euroweb, then the employee has the right to terminate the agreement. In the event of any such termination, the employee will be entitled to receive the payment due on the balance of his employment agreement.

On June 19, 2006, ERC entered into an Investment Agreement with a third party, The Aquitania Corp. f/k/a AO Bonanza Las Vegas, Inc. ("AOB"), pursuant to which the ERC, within its sole discretion, has agreed to provide secured loans to AOB not to exceed the amount of $10,000,000. ERC made the first loan to AOB in the amount of $2,600,000 as of June 20, 2006, from funds available to ERC from our company. AOB is developing a real property in downtown Las Vegas, Nevada, where it intends to build 296 condominiums plus commercial space (the "Property"). AOB obtained entitlements to the Property, and has advised that it expects to break ground and commence sales during 2006. Each loan provided to AOB is due on demand or upon maturity on January 14, 2008. All loans will be secured by a deed of trust, assignment of rents and security agreement with respect to the property, along with ALTA American Land Title Association title policy to be issued by a title company. All proceeds from the loan are placed in an escrow and are released for specific purposes associated with the development of the Property.

If ERC requests that the funds be paid on demand prior to maturity, then AOB shall be entitled to reduce the amount requested to be prepaid by 10%. The 10% discount will be paid to AOB in the form of shares of common stock of Euroweb, which will be computed by dividing the dollar amount of the 10% discount by the market price of Euroweb's shares of common stock. The terms of the loans require that ERC to be paid-off the greater of (i) the principal including 12% interest per annum or (ii) 33% of all gross profits derived from the Property.

In addition, ERC has the right to acquire the Property for a purchase price of $15,000,000 (the "Purchase Price") through January 1, 2015. The Purchase is payable in $10,000,000 in cash and $5,000,000 in shares of common stock of the Company (the "AOB Shares"). The number of AOB Shares is determined by dividing

$5,000,000 by the higher of (i) the book value of one share of Euroweb's common stock based on Euroweb's balance sheet filed with the Securities and Exchange Commission immediately prior to the exercise of the option or (ii) the 90 day weighted average price of Euroweb's market price immediately prior to the exercise of the option multiplied by 110%. In the event that the number of shares of common stock issuable upon exercise of the option exceeds the number of shares of common stock that may be issued pursuant to the regulations of the exchange on which Euroweb is trading at the time of the exercise of the option, then Euroweb shall use its best efforts to have such issuance approved by the shareholders of Euroweb. If it is unable to obtain such approval, then ERC will pay the balance of the $5,000,000 in cash.

On June 22, 2006, ERC entered into a Letter of Intent ("LOI") with a third party, Messrs Zamir, Zion and Yossi ("ZZY"), pursuant to which ERC has agreed to create a joint venture with ZZY to acquire and develop two residential lots in the Los Angeles vicinity as a 12 unit or more condominium project. The parties will share equally the needed investment in the project, as well as its proceeds. ERC advanced ZZY $510,000 as a downpayment. Closing of escrow and a definitive agreement, if at all, is expected during July 2006. ERC is conducting due diligence on the transaction, and can cancel it with no penalty, before the closing of escrow. On July 2006 ERC entered two separate purchase and escrow instructions to acquire lots in California for future development as single families' homes. These escrows are still pending.

Interest expense	$(38,240)	-
Net interest (expense) income	$(35,728)	$49,154

The decrease in net interest income is due to the fact that (i) less interest-generating funds were available in this period than in the same period of the previous year because funds were disbursed in connection with acquisition of Navigator in 2005 (ii) the effective interest rate on these investments has decreased over the periods in question (iii) securities expired on February 15, 2004, without new investments being made due to cash being needed to fund acquisitions in 2004, and (iv) consolidation of Navigator and the loan liability of Navigator has increased interest expense by more than $38,000 due to loans outstanding, and consequently have reduced net interest income.

LIQUIDITY AND CAPITAL RESOURCES

As of March 31, 2006, our cash, cash equivalents and marketable securities were approximately $0.7 million, a decrease of approximately $0.9 million from the end of fiscal year 2005. Due to cash consumption of losses in the three month period ended March 31, 2006 and 2005, cash flow provided by (used in) operation did not offset the cash used in financing and investing activities neither in the three months ended March 31, 2006 nor in the three months ended March 31, 2005.

Cash flow used in operating activities for the three months ended March 31, 2006

was $0.1 million in opposite to $0.3 million cash provided by operating activities in the months ended March 31, 2005. The $0.4 million change is due to the decreased profitability of the subsidiaries of the Company.

Cash used in investing activities included Navigator related $0.1 million capital expenditures in the three months ended March 31, 2006, while investing activities from discontinued operations were $0.5 million both in the three months ended 2006 and 2005.

Cash used in financing activities was $0.1 million in 2005 and 2006. Navigator related cash provided by the financing activity was $0.1 million mainly due to the utilization of bank overdraft, while Euroweb Hungary and Euroweb Romania related cash used in financial activities as discontinued operation increased by $0.1 million comparing 2005 is mainly due to partial loan repayment by Euroweb Hungary in connection with $6 million Navigator related loan provided by Commerzbank Hungary Rt in October 2005.

We currently anticipate that our available cash resources will be sufficient to meet its presently anticipated working capital and capital expenditure requirements for at least the next 12 months due to the sale of Euroweb Hungary and Euroweb Romania resulting in over $20 million cash available for our company.

In the event we make future acquisitions, especially in real estate, the excess cash on hand, additional bank loans or fund raising may be used to finance such future acquisitions. We may consider the sale of non-strategic assets or subsidiaries, or raising funds, or both.

Inflation and Foreign Currency

We maintain our books in the Hungarian Forint for Navigator and US Dollars for the Euroweb and Euroweb RE Corp.

Our operations are primarily outside of the United States through our wholly-owned subsidiary. All our customers are in Hungary. As a result, fluctuations in currency exchange rates may significantly affect our sales, profitability and financial position when the foreign currencies, primarily the Hungarian Forint, of its international operations are translated into U.S. dollars for financial reporting. In additional, we are also subject to currency fluctuation risk with respect to certain foreign currency denominated receivables and payables. Although we cannot predict the extent to which currency fluctuations may or will affect our business and financial position, there is a risk that such fluctuations will have an adverse impact on our sales, profits and financial position. Because differing portions of our revenues and costs are denominated in foreign currency, movements could impact our margins by, for example, decreasing our foreign revenues when the dollar strengthens and not correspondingly decreasing our expenses. We do not currently hedge our currency exposure.

The translation of our subsidiaries forint denominated balance sheets into U.S. dollars, as of March 31, 2006, has been affected by the weakening of the Hungarian forint against the U.S. dollar from 213.58 as of December 31, 2005, to 219.20 as of March 31, 2006, an approximate 3% depreciation in value. The average Hungarian forint/U.S. dollar exchange rates used for the translation of the subsidiaries forint denominated statements of operations into U.S. dollars, for the three months ended March 31, 2006 and 2005 were 213.52 and 185.71, respectively.

Effect of Recent Accounting Pronouncements

In December 2004, the FASB issued SFAS No. 151, "Inventory Costs - an amendment of ARB No. 43, Chapter 4" ("SFAS 151"). SFAS 151 amends Accounting Research Bulletin No. 43, Chapter 4, "Inventory Pricing" ("ARB 43") to eliminate the "so abnormal" criterion in ARB 43 and requires companies to recognize abnormal freight, handling costs, and amounts of wasted material (spoilage) as current-period charges. Additionally, SFAS 151 clarifies that fixed production overhead cost should be allocated to inventory based on the normal capacity of the production facility. Management adopted this Statement as of January 1, 2006 and will apply its standards after such date. The adoption of SFAS No. 151 did not have a material impact on the Company's financial statements.

Effective January 1, 2006, we adopted the fair value recognition provisions of SFAS 123R, Share-Based Payment, using the modified prospective transition method and therefore did not restate results for prior periods. Prior to January 1, 2006, we accounted for share-based compensation arrangements in accordance with APB Opinion No. 25, Accounting for Stock Issued to Employees and complied with the disclosure provisions of SFAS 123, Accounting for Stock-Based Compensation. SFAS 123R requires all public entities that used the fair-value method for either recognition or disclosure under SFAS 123 to apply the modified prospective transition method as of the required effective date. As a result, we adopted the provisions of SFAS 123R using this method, effective January 1, 2006. Under the modified prospective method, new awards are valued and accounted for prospectively upon adoption. Outstanding prior awards that are unvested as of January 1, 2006 are recognized as compensation cost over the remaining requisite service periods, as prior periods may not be restated. The adoption of SFAS 123R increased our expenses and reported net loss for the three months ended March 31, 2006 by $0.1 million.

Management forecasts that the impact of adopting SFAS 123R for the twelve months ending December 31, 2006 will be approximately $0.4 million. This forecast is based on the Black-Scholes option-pricing model, the price of our stock at the time of grants, the volatility of our stock price and the expected forfeiture rates. As such, our actual stock option expense may differ from this estimate.

In February 2006, the FASB issued SFAS No. 155, "Accounting for Certain Hybrid Financial Instruments-an amendment of FASB Statements No. 133 and 140" ("SFAS 155"). SFAS 155 amends SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133") and SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities". SFAS 155 resolves issues addressed in SFAS 133 Implementation Issue No. D1, "Application of Statement 133 to Beneficial Interests in Securitized Financial Assets." SFAS 155 is effective for the Company for all financial instruments acquired or issued after January 1, 2007 and is not expected to have a material impact on the Company's financial statements.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections" which replaces Accounting Principles Board Opinions No. 20 "Accounting Changes" and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements." This statement applies to all voluntary changes in accounting principle and changes resulting from adoption of a new accounting pronouncement that does not specify transition requirements. SFAS 154 requires retrospective application to prior periods' financial statements for changes in accounting principle unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. SFAS 154 also requires that retrospective application of a change in accounting principle be limited to the direct effects of the change. Indirect effects of a change in accounting principle should be recognized in the period of the accounting change. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005 with early implementation

permitted for accounting changes and corrections of errors made in fiscal years beginning after the date this statement was issued. SFAS 154 is effective for the Company as of January 1, 2006 and is not expected to have a material impact on financial statements.

BUSINESS

HISTORY OF BUSINESS

We are a Delaware corporation and we were organized on November 9, 1992. It was a development stage company through December 1993. In 1997, Euroweb entered the Internet field in Hungary and grew through various acquisitions not only in Hungary, but also in the Czech Republic, Slovakia and Romania.

In December 2004, Euroweb disposed of its 100% interest in its subsidiary in Czech Republic and in April 2005 also sold its 100% interest in its subsidiary in Slovakia. At that time, we were focusing on maintaining and growing its remaining operations in Hungary and Romania.

In October 2005, we stepped into the information technology ("IT") sector by acquiring 100% ownership of Navigator Informatika Rt. ("Navigator"), a Hungary-based provider of IT outsourcing, applications development and IT consulting services.

On December 19, 2005, we entered into a definitive Share Purchase agreement for the sale of our two Internet- and Telecom-related operating subsidiaries, Euroweb Internet Szolgaltato Rt. ("Euroweb Hungary") and Euroweb Romania S.A. ("Euroweb Romania"). Pursuant to the Agreement, we sold and, Invitel purchased, 100% of our interest in Euroweb Hungary and Euroweb Romania. The closing occurred on May 23, 2006. The purchase price paid was USD $30,000,000

On January 28, 2005, KPN Telecom BV entered into a Stock Purchase Agreement, as amended, whereby it sold to CORCYRA d.o.o., a Croatian company ("CORCYRA"), (i) 289,855 shares (the "Initial Shares") of our common stock for US $1,000,000 on February 1, 2005 and (ii) 434,783 shares (the "Secondary Shares") of our common stock for US $1,500,000 on April 28, 2006. CORCYRA has also agreed to purchase and, KPN Telecom has agreed to sell, KPN Telecom's remaining 1,601,405 shares of our common stock on December 31, 2006; provided, however, that upon 14 days' prior written notice to KPN Telecom, CORCYRA may accelerate the final closing to an earlier month-end date as specified in such notice subject to the satisfaction or waiver of all of the conditions to closing set forth in the Purchase Agreement.

On June 11, 2006, the Board of Directors of Euroweb, as part of its strategy on redirecting our company into new markets, voted to pursue real estate business opportunities through focusing on developing joint ventures, providing loans for the development of property, engaging in the development of property and the construction of various types of facilities and investing in real estate opportunities. In connection with the new business strategy in June 2006, we entered into a line of credit agreement (the "Line of Credit") with Euroweb RE Corp. ("ERC"), our wholly-owned subsidiary, which was set up in June 2006, pursuant to which we agreed to loan ERC up to $10,000,000, which such loans will be payable on demand and accrue interest of 12% per annum. Pursuant to the terms of the Line of Credit, we advanced ERC $1,000,000 on June 14, 2006 for operational expenses. ERC made the first loan to a third party real estate developer in the amount of $2,600,000 as of June 20, 2006, from funds available to ERC from our company. ERC advanced $510,000 in connection with the

development of a properties located in California.

EUROWEB STRATEGY

We commenced a consolidation strategy in various Central and Eastern European countries as follows:

- In Hungary the Company acquired three Internet and telecommunications companies in 1997 that were eventually consolidated and named Euroweb Internet Szolgaltato Rt. We acquired Freestart Kft ("Freestart") in 2003 and Elender Rt. "Elender" in 2004, which were subsequently merged with Euroweb Hungary. We also acquired Navigator Informatika Rt. in Hungary in 2005;

- In Romania, we acquired two Internet and telecommunications companies in 2000 that were eventually consolidated and named Euroweb Romania;

- In Slovakia we acquired four Internet and telecommunications companies from 1999 to 2000, that were eventually consolidated and named Euroweb Slovakia; and

- In the Czech Republic, we acquired two Internet and telecommunications companies during 1999 and 2000 that were eventually consolidated and named Euroweb Czech Republic.

In 2004, management recognized that the leased line market for an Internet service provider ("ISP") has a limited ability to generate profit. The expectation that our core Internet business is likely to become more and more difficult to grow without our own infrastructure led Euroweb to decide to move into a new and fresh market.

In 2004, we commenced this strategy with the sale of our Internet service assets located in the Czech Republic and Slovakia. The disposition of Euroweb Hungary and Romania was the culmination of our decision to move out of the Internet service market. We closed the sale of Euroweb Hungary and Romania in May 2006.

The acquisition of Navigator was a key element in redirecting Euroweb into new markets. The closing of the sale of Euroweb Hungary and Euroweb Romania will allow our company to redeploy capital to acquire additional assets in IT space, real estate projects in Central and Eastern Europe and in North America and other unidentified industries that the we deem profitable. If the opportunity presents itself, we will consider implementing our consolidation strategy with our remaining subsidiary and any other business that we enter including the real estate industry through ERC. However, we do not presently have any plans, proposals or arrangements to redeploy our capital or engage in any specific acquisitions except for the development of our real estate business as outlined below. We have not yet identified any additional specific industries in which to invest.

Through Navigator, rather than servicing individual users, we focuses our efforts on business users and seeks to satisfy their IT outsource service needs with high quality and reliable service. In addition to Central Europe, we will seek opportunities in the United States, provided that they consist of certain parameters, which are deemed to be potentially lucrative for the Company.

The Board of Directors of Euroweb, as part of its strategy on redirecting our

company into new markets, voted to pursue real estate business opportunities through focusing on developing joint ventures, providing loans for the development of property, engaging in the development of property and the construction of various types of facilities and investing in real estate opportunities.

HISTORY OF ACQUISITIONS AND DISPOSITIONS

Euroweb entered the ISP market in Central Europe through various acquisitions of companies in that area over the past eight years. In 2005, the scope of activity was changed by the acquisition of Navigator, which is active in the IT services industry and the decision to sell our operations in the ISP market. In 2006 the scope of activity was diversified to include real estate activities and investments.

Hungary

On January 2, 1997, Euroweb acquired all of the outstanding stock of three Hungarian ISPs for a total purchase price of approximately $1,785,000, consisting of 28,800 shares of common stock of our company and $1,425,000 in cash (collectively, the "1997 Acquisitions"). The 1997 Acquisitions included the following:

- Eunet (Hungary Ltd.) for a total cash cost of $1,000,000, and an assumption of $128,000 in liabilities;

- E-Net Hungary Telecommunications and Multimedia for a total cash cost of $200,000 and $150,000 in stock (12,000 shares); and

- MS Telecom Rt. for a total cash cost of $225,000 and $210,000 in stock (16,800 shares).

Thereafter in 1997, the three Hungarian companies were combined and merged into a new Hungarian entity, Euroweb Hungary. On November 22, 1998, we sold 51% of the outstanding shares of Euroweb Hungary to Pantel Rt. ("Pantel") for $2,200,000 in cash and an agreement to increase the share capital of Euroweb Hungary by $300,000 without changing the ownership ratio. In February 2004, we acquired the 51% of Euroweb Hungary that it had sold to Pantel. The consideration paid by our company for the 51% interest comprised EUR 1,650,000 ($2,105,000) in cash and a guarantee that Euroweb Hungary will purchase at least HUF 600 million (approximately $3,000,000) worth of services from Pantel Rt. in each of the three years ending December 31, 2006. In each of 2004 and 2005, Euroweb Hungary and subsidiaries purchased in excess of HUF 700 million (approximately $3,500,000) in services from Pantel. In 2006, Invitel took over this guarantee from Euroweb as part of its acquisition of Euroweb Hungary and Euroweb Romania.

On June 9, 2004, we acquired all of the outstanding shares of Elender, an ISP located in Hungary that provides internet access to the corporate and institutional (public) sector and, amongst others, 2,300 schools in Hungary. Consideration paid of $9,350,005 consisted of $6,500,000 in cash and 677,201 of our shares of common stock, valued at $2,508,353 excluding registration cost, and $341,652 in transaction costs (consisting primarily of professional fees incurred related to attorneys, accountants and valuation advisors).

Under the terms of this agreement, we placed 248,111 unregistered shares of newly issued common stock with an escrow agent as security for approximately $1.5 million loans payable to former shareholders of Elender. The shares will be returned to our company from escrow once the outstanding loans have been fully repaid. However, if there is a default on the outstanding loan, then the shares will be issued to the other party and we are then obliged to register the shares. As of December 31, 2005, we have repaid all of the loans that were

outstanding. In January 2006, we acquired and subsequently cancelled the shares that were put into escrow.

On October 7, 2005, we acquired all of the outstanding shares of Navigator, a Hungary-based provider of IT outsourcing, applications development and IT consulting services. Consideration paid of $10,760,772 consisted of $8,500,000 in cash and 441,566 shares of Euroweb common stock valued at $1,752,134 excluding registration cost, and $508,638 in transaction costs (consisting primarily of professional fees incurred related to attorneys, accountants and valuation advisors).

On December 19, 2005, Euroweb entered into a share purchase agreement with Invitel Tavkozlesi Szolgaltato Rt. ("Invitel") for the sale of Euroweb Hungary and Euroweb Romania. The purchase price for the subsidiaries specified in the share purchase agreement is $30,000,000. 98% of the purchase price, or $29,400,000, was paid at closing and the remaining 2% was paid in July 2006. As part of the closing, $6,000,000 from the cash proceeds was paid by Euroweb International to Euroweb Hungary in exchange for the 85% ownership of Navigator currently held by Euroweb Hungary. This amount was used by Euroweb Hungary for repayment of $6,000,000 bank loan obtained for the acquisition of Navigator. The closing of the sale of Euroweb Hungary and Euroweb Romania occurred in May 2006.

Romania

On May 19, 2000, we purchased all of the Internet related assets of Sumitkom Rokura, S.R.L. an ISP in Romania, for $1,561,125 in cash. The acquisition has been accounted for as an asset purchase with a value of $1,150,000 being assigned to customer lists acquired.

On June 14, 2000, we acquired all of our outstanding shares of capital stock of Mediator S.A., an ISP in Romania for $2,040,000 in cash and the assumption of a $540,000 liability to the former owner payable in annual installments of $180,000 commencing on June 1, 2001. Goodwill arising on this purchase was $2,455,223. Immediately after the purchase, the name of this company was changed to Euroweb Romania. This acquisition was effective as of July 1, 2000. The closing of the sale of Euroweb Romania occurred in May 2006.

Czech Republic

On June 11, 1999, we acquired all of the participating interests of Luko CzechNet, an ISP in the Czech Republic, for a total cost of $1,862,154, including 90,000 shares of our common stock and 50,000 options valued at $2.00 per share; the balance paid in cash. This acquisition was effective as of June 1, 1999.

On August 25, 2000, our company, through our subsidiary, Luko Czech, acquired all of the outstanding capital stock of Stand s.r.o., an ISP in the Czech Republic, for $280,735 in cash. Stand s.r.o. was merged into Luko Czech under the name of Euroweb Czech Republic. This acquisition was effective as of September 1, 2000.

On December 16, 2004, we sold all of our shares in our wholly-owned subsidiary, Euroweb Czech for cash of $500,000. Additionally, as a part of the transaction, we forgave $400,000 of loans receivable from Euroweb Czech.

Slovakia

On July 15, 1999, we acquired all of the outstanding shares of capital stock of EUnet Slovakia, an ISP in the Slovak Republic, for a total cost of $813,299 including 47,408 shares of our common stock valued at $400,005 issued August 9, 1999; the balance was paid in cash. This acquisition was effective as of August 1, 1999.

We made another acquisition of a Slovak ISP on July 15, 1999 with the purchase of 70% of the outstanding shares of Dodo s.r.o.'s subsidiary, R-Net, for a total cost of $630,234, including 29,091 shares of our common stock valued at $200,000 issued August 13, 1999; the balance was paid in cash. This acquisition was effective as of August 1, 1999.

On September 23, 1999 and November 16, 1999, we acquired from Slavia Capital o.c.p., a.s. 70% and 30%, respectively, of the issued and outstanding stock of Global Network Services a.s.c., a Slovakian corporation providing Internet service primarily to businesses located in Bratislava and other major cities in Slovakia for a total purchase price of $1,633,051, including 71,114 shares of our common stock valued at $499,929 issued on September 23, 1999; the balance was paid in cash. The acquisition of 70% of Global Network Services a.s.c. was effective as of October 1, 1999.

On April 21, 2000, we acquired all of the outstanding capital stock of Isternet SR, s.r.o., an ISP in the Slovak Republic, for $1,029,299 in cash. Goodwill arising on this purchase was $945,200. This acquisition was effective May 1, 2000.

On May 22, 2000, we acquired the remaining 30% of R-Net (the initial 70% being acquired in 1999) for $355,810 in cash. Goodwill arising on this purchase was $357,565.

All of our Slovakian operations were then merged into one company under the name of Euroweb Slovakia. On April 15, 2005, Euroweb sold 100% of its interest in its wholly-owned subsidiary Euroweb Slovakia to DanubiaTel a.s. The purchase price was $2,700,000.

Euroweb Czech Republic, Euroweb Hungary, Euroweb Slovakia and Euroweb Romania are classified as discontinued operations in our financial statements for all periods presented.

North America - United States

In June 2006, we commenced operations in the real estate industry through ERC. ERC has commenced seeking opportunities in the real estate industry, which opportunities are limited to the extent that the opportunities must satisfy the parameters set by the Board of Directors as follows:

- any Proposed RE Investment, including loans, shall not exceed a period of three years;
- the expected return on investment on the Proposed RE Investment will be at minimum 15% per year;
- the Proposed RE Investment will not be leveraged in excess of more than $1.50 for each $1.00 invested in equity; and
- each Proposed RE Investment will have a clear exit strategy (i.e. purchase, development and sale) and no Proposed RE Investment intent will be to acquire income producing real estate.

On June 19, 2006, ERC entered into an Investment Agreement with a third party, The Aquitania Corp. f/k/a AO Bonanza Las Vegas, Inc. ("AOB"), pursuant to which the ERC, within its sole discretion, has agreed to provide secured loans to AOB

not to exceed the amount of $10,000,000. ERC made the first loan to AOB in the amount of $2,600,000 as of June 20, 2006, from funds available to ERC from our company. AOB is developing a real property in downtown Las Vegas, Nevada, where it intends to build 296 condominiums plus commercial space (the "Property"). AOB obtained entitlements to the Property, and has advised that it expects to break ground and commence sales during 2006. Each loan provided to AOB is due on demand or upon maturity on January 14, 2008. All loans will be secured by a deed of trust, assignment of rents and security agreement with respect to the property, along with ALTA American Land Title Association title policy to be issued by a title company. All proceeds from the loan are placed in an escrow and are released for specific purposes associated with the development of the Property.

If ERC requests that the funds be paid on demand prior to maturity, then AOB shall be entitled to reduce the amount requested to be prepaid by 10%. The 10% discount will be paid to AOB in the form of shares of common stock of Euroweb, which will be computed by dividing the dollar amount of the 10% discount by the market price of Euroweb's shares of common stock. The terms of the loans require that ERC to be paid-off the greater of (i) the principal including 12% interest per annum or (ii) 33% of all gross profits derived from the Property.

In addition, ERC has the right to acquire the Property for a purchase price of $15,000,000 (the "Purchase Price") through January 1, 2015. The Purchase is payable in $10,000,000 in cash and $5,000,000 in shares of common stock of the Company (the "AOB Shares"). The number of AOB Shares is determined by dividing $5,000,000 by the higher of (i) the book value of one share of Euroweb's common stock based on Euroweb's balance sheet filed with the Securities and Exchange Commission immediately prior to the exercise of the option or (ii) the 90 day weighted average price of Euroweb's market price immediately prior to the exercise of the option multiplied by 110%. In the event that the number of shares of common stock issuable upon exercise of the option exceeds the number of shares of common stock that may be issued pursuant to the regulations of the exchange on which Euroweb is trading at the time of the exercise of the option, then Euroweb shall use its best efforts to have such issuance approved by the shareholders of Euroweb. If it is unable to obtain such approval, then ERC will pay the balance of the $5,000,000 in cash.

On June 22, 2006, ERC entered into a Letter of Intent ("LOI") with a third party, Messrs Zamir, Zion and Yossi ("ZZY"), pursuant to which ERC has agreed to create a joint venture with ZZY to acquire and develop two residential lots in the Los Angeles vicinity as a 12 unit or more condominium project. The parties will share equally the needed investment in the project, as well as its proceeds. ERC advanced ZZY with $510,000 as down payment. Closing of escrow and a definitive agreement, if at all, is expected during July 2006. ERC is conducting due diligence on the transaction, and can cancel it with no penalty, before the closing of escrow. On July 2006 ERC entered two separate purchase and escrow instructions to acquire lots in California for future development as single families' homes. These escrows are still pending.

In connection with the new business line, on June 14, 2006, the Company entered into a line of credit agreement (the "Line of Credit") with Euroweb RE Corp. ("ERC"), its wholly-owned subsidiary, pursuant to which we

agreed to loan ERC up to $10,000,000, which such loans will be payable on demand and accrue interest of 12% per annum. Pursuant to the terms of the Line of Credit, we loaned ERC $1,000,000 on June 14, 2006 for operational expenses.

ERC has commenced seeking opportunities in the real estate industry, which opportunities are limited to the extent that the opportunities must satisfy the parameters set by the Board of Directors of our company as follows:

- the expected return on investment on the Proposed RE Investment will be at minimum 15% per year;

As the sole shareholder of ERC, we appointed Yossi Attia, a director of our company, as the Chief Executive Officer of ERC. Mr. Attia and ERC have agreed to enter into an agreement effective July 1, 2006 pursuant to which Mr. Attia will agree to not compete with the activities of ERC in any manner whatsoever. Legal Proceedings

From time to time, we are a party to litigation or legal proceedings that we consider to be a part of the ordinary course of our business. We are not involved currently in legal proceedings that could reasonably be expected to have a material adverse effect on our business, prospects, financial condition or results of operations except as set forth below.

On April 26, 2006, a lawsuit was filed in Delaware Court of Chancery (the "Court") by a stockholder of our company against our company, each of our directors and CORCYRA d.o.o., a stockholder of our company that beneficially owns approximately 39% of our outstanding common stock of our company. The Complaint is entitled Laurence Paskowitz v. Csaba Toro et al., C.A. No. 2110-N and was brought individually and as a class action on behalf of certain of our common stockholders excluding defendants and their affiliates. The plaintiff alleged the sale of 100% of our interest in Euroweb Hungary and Euroweb Romania

constitutes a sale of substantially all of our assets and requires approval by a majority of the voting power of our outstanding common stock under Section 271 of the Delaware General Corporation Law. The plaintiff also alleged the defendants breached their fiduciary duties in connection with the sale of the subsidiaries and the disclosures contained in the proxy statement filed on April 24, 2006. The plaintiff applied for a temporary restraining order seeking to enjoin the special meeting on May 15, 2006.

We denied any and all allegations of wrongdoing; however, in the interests of conserving resources, on April 28, 2006, the parties to the litigation entered into a Memorandum of Understanding providing for, subject to confirmatory discovery by plaintiff, the negotiation of a formal stipulation of a settlement of the litigation. Pursuant to the proposed settlement, the Board of Directors determined to: (i) increase the vote required to approve the sale of 100% of our interest in the Subsidiaries, (ii) revise the disclosure within the proxy statement to state that the bonus of up to US $400,000, which the Compensation Committee of the Company had the option to pay to select members of management, as the Board of Directors had previously elected to terminate the ability to pay such bonus and (iii) provide supplemental disclosure as contained in the Supplemental Proxy Statement to be mailed to stockholders and filed with the Securities and Exchange Commission on May 3, 2006. The settlement will provide for dismissal of the litigation with prejudice and is subject to Court approval. As part of the settlement, we agreed to pay an amount of attorneys' fees and expenses that is to be negotiated between the two parties or, in lieu of such agreement between the two parties, the amount will be determined by the Court.

(a) PURCHASE PRICE. The purchase price of the Common Shares subject to each ISO shall not be less than the fair market value (as set forth in the 2004 Incentive Plan), or in the case of the grant of an ISO to a Principal Stockholder, not less that 110% of fair market value of such Common Shares at the time such Option is granted. (b) VESTING. The dates on which each Option (or portion thereof) shall be exercisable and the conditions precedent to such exercise, if any, shall be fixed by the Board of Directors, in its discretion, at the time such Option is granted.

(c) EXPIRATION. The expiration of each Option shall be fixed by the Board of Directors, in its discretion, at the time such Option is granted; however, unless otherwise determined by the Board of Directors at the time such Option is granted, an Option shall be exercisable for ten(10) years after the date on which it was granted (the "Grant Date"). Each Option shall be subject to earlier termination as expressly provided in the 2004 Incentive Plan or as determined by the Board of Directors, in its discretion, at the time such Option is granted.

(d) TRANSFERABILITY. No Option shall be transferable, except by will or the laws of descent and distribution, and any Option may be exercised during the lifetime of the Optionee only by him. No Option granted under the Plan shall be subject to execution, attachment or other process.

(e) OPTION ADJUSTMENTS. The aggregate number and class of shares as to which Options may be granted under the Plan, the number and class shares covered by each outstanding Option and the exercise price per share thereof (but not the total price), and all such Options, shall each be proportionately adjusted for any increase decrease in the number of issued Common Shares resulting from split-up spin-off or consolidation of shares or any like Capital adjustment or the payment of any stock dividend.

Except as otherwise provided in the 2004 Incentive Plan, any Option granted hereunder shall terminate in the event of a merger, consolidation, acquisition of property or stock, separation, reorganization or liquidation of the Company. However, the Optionee shall have the right immediately prior to any such transaction to exercise his Option in whole or in part notwithstanding any otherwise applicable vesting requirements.

Subject to certain restrictions, the Plan may at any time be terminated and from time to time be modified or amended by the affirmative vote of the holders of a majority of the outstanding shares of the capital stock of the Company present, or represented, and entitled to vote at a meeting duly held in accordance with the applicable laws of the State of Delaware.

FEDERAL INCOME TAX ASPECTS OF THE 2004 INCENTIVE PLAN

THE FOLLOWING IS A BRIEF SUMMARY OF THE EFFECT OF FEDERAL INCOME TAXATION UPON THE PARTICIPANTS AND THE COMPANY WITH RESPECT TO THE PURCHASE OF SHARES UNDER THE 2004 INCENTIVE PLAN. THIS SUMMARY DOES NOT PURPORT TO BE COMPLETE AND DOES NOT ADDRESS THE FEDERAL INCOME TAX CONSEQUENCES TO TAXPAYERS WITH SPECIAL TAX STATUS. IN ADDITION, THIS SUMMARY DOES NOT DISCUSS THE PROVISIONS OF THE INCOME TAX LAWS OF ANY MUNICIPALITY, STATE OR FOREIGN COUNTRY IN WHICH THE PARTICIPANT MAY RESIDE, AND DOES NOT DISCUSS ESTATE, GIFT OR OTHER TAX CONSEQUENCES OTHER THAN INCOME TAX CONSEQUENCES. THE COMPANY ADVISES EACH PARTICIPANT TO CONSULT HIS OR HER OWN TAX ADVISOR REGARDING THE TAX CONSEQUENCES OF PARTICIPATION IN THE 2004 Incentive Plan AND FOR REFERENCE TO APPLICABLE PROVISIONS OF THE CODE.

The 2004 Incentive Plan and the right of participants to make purchases thereunder are intended to qualify under the provisions of Sections 421, 422 and 423 of the Code. Under these provisions, no income will be recognized by a participant prior to disposition of shares acquired under the 2004 Incentive Plan.

If the shares are sold or otherwise disposed of (including by way of gift) more than two years after the first day of the offering period during which shares were purchased (the "Offering Date"), a participant will recognize as ordinary income at the time of such disposition the lesser of (a) the excess of the fair market value of the shares at the time of such disposition over the purchase price of the shares or (b) 15% of the fair market value of the shares on the first day of the offering period. Any further gain or loss upon such disposition will be treated as long-term capital gain or loss. If the shares are sold for a sale price less than the purchase price, there is no ordinary income and the participant has a capital loss for the difference.

If the shares are sold or otherwise disposed of (including by way of gift) before the expiration of the two-year holding period described above, the excess of the fair market value of the shares on the purchase date over the purchase price will be treated as ordinary income to the participant. This excess will constitute ordinary income in the year of sale or other disposition even if no gain is realized on the sale or a gift of the shares is made. The balance of any gain or loss will be treated as capital gain or loss and will be treated as

long-term capital gain or loss if the shares have been held more than one year.

In the case of a participant who is subject to Section 16(b) of the Exchange Act, the purchase date for purposes of calculating such participant's compensation income and beginning of the capital gain holding period may be deferred for up to six months under certain circumstances. Such individuals should consult with their personal tax advisors prior to buying or selling shares under the 2004 Incentive Plan.

The ordinary income reported under the rules described above, added to the actual purchase price of the shares, determines the tax basis of the shares for the purpose of determining capital gain or loss on a sale or exchange of the shares.

The Company is entitled to a deduction for amounts taxed as ordinary income to a participant only to the extent that ordinary income must be reported upon disposition of shares by the participant before the expiration of the two-year holding period described above.

Restrictions on Resale

Certain officers and directors of our company may be deemed to be "affiliates" of our company as that term is defined under the Securities Act. The Common Stock acquired under the 2004 Incentive Plan by an affiliate may be reoffered or resold only pursuant to an effective registration statement or pursuant to Rule 144 under the Securities Act or another exemption from the registration requirements of the Securities Act.

DESCRIPTION OF SECURITIES TO BE REGISTERED

The rights evidenced by the shares of common stock to be registered hereunder are described below. Our total authorized capital stock is 35,000,000 shares of common stock and 5,000,000 shares of preferred stock. As of July 10, 2006 there were issued and outstanding 5,889,074 shares of common stock.

In June 2006, Euroweb's Board of Directors approved a program to repurchase, from time to time, at management's discretion, up to 700,000 shares of Euroweb's common stock in the open market or in private transactions commencing on June 20, 2006 and continuing through December 15, 2006 at prevailing market prices.

Repurchases will be made under the program using our own cash resources and will be in accordance with Rule 10b-18 under the Securities Exchange Act of 1934 and other applicable laws, rules and regulations. The Shemano Group will act as agent for our stock repurchase program. As of July 10, 2006, we acquired 49,568 shares at a cost of $130,533.58.

Common Stock. Each holder of common stock is entitled to one vote per share held of record on all matters submitted to a vote of the stockholders. All shares of common stock are entitled to participate in any distributions or dividends that may be declared by the board of directors, subject to any preferential dividend rights of outstanding shares of preferred stock. Subject to prior rights of creditors, all shares of common stock are entitled, in the event of our liquidation, dissolution or winding up, to participate ratably in the distribution of all our remaining assets, after distribution in full of preferential amounts, if any, to be distributed to holders of preferred stock.

There are no sinking fund provisions applicable to the common stock. Our common stock has no preemptive or conversion rights or other subscription rights. All of the shares of common stock offered by us under this prospectus will, when issued, be fully paid and non-assessable.

INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our Certificate of Incorporation, as amended, provide to the fullest extent permitted by Delaware law, our directors or officers shall not be personally liable to us or our shareholders for damages for breach of such director's or officer's fiduciary duty. The effect of this provision of our Certificate of Incorporation, as amended, is to eliminate our rights and our shareholders (through shareholders' derivative suits on behalf of our company) to recover damages against a director or officer for breach of the fiduciary duty of care as a director or officer (including breaches resulting from negligent or grossly negligent behavior), except under certain situations defined by statute. We believe that the indemnification provisions in our Articles of Incorporation, as amended, are necessary to attract and retain qualified persons as directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Act" or "Securities Act") may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

PLAN OF DISTRIBUTION

Each Selling Stockholder (the "Selling Stockholders") of our common stock and any of their pledges, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock on the trading market or any other stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. A selling stockholder may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales entered into after the date of this prospectus;
- broker-dealers may agree with the Selling Stockholders to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise; or

o any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell shares under Rule 144 under the Securities Act of 1933, as amended (the "Securities Act"), if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. Each Selling Stockholder does not expect these commissions and discounts relating to its sales of shares to exceed what is customary in the types of transactions involved.

In connection with the sale of our common stock or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The Selling Stockholders may also sell shares of our common stock short and deliver these securities to close out their short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The Selling Stockholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be "underwriters" within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Stockholder has informed the Company that it does not have any agreement or understanding, directly or indirectly, with any person to distribute the Common Stock.

We are required to pay certain fees and expenses incurred by our company incident to the registration of the shares. We have agreed to indemnify the Selling Stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Because Selling Stockholders may be deemed to be "underwriters" within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. Each Selling Stockholder has advised us that they have not entered into any agreements, understandings or arrangements with any underwriter or broker-dealer regarding the sale of the resale shares. There is no underwriter or coordinating broker acting in connection with the proposed sale of the resale shares by the Selling Stockholders.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the shares may be resold by the Selling Stockholders without registration and without regard to any volume limitations by reason of Rule 144(e) under the Securities Act or any other rule of similar effect or (ii) all of the shares

have been sold pursuant to the prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale shares may not simultaneously engage in market making activities with respect to our common stock for a period of two business days prior to the commencement of the distribution. In addition, the Selling Stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of our common stock by the Selling Stockholders or any other person. We will make copies of this prospectus available to the Selling Stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale.

PENNY STOCK

The Securities and Exchange Commission has adopted Rule 15g-9 which establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than $5.00 per share or with an exercise price of less than $5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

- that a broker or dealer approve a person's account for transactions in penny stocks; and
- the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must

- obtain financial information and investment experience objectives of the person; and
- make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the Commission relating to the penny stock market, which, in highlight form:

- sets forth the basis on which the broker or dealer made the suitability determination; and
- that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Disclosure also has to be made about the risks of investing in penny stocks in

both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

2. Basis of Presentation and Significant Accounting Policies

Basis of Presentation. The interim unaudited condensed consolidated financial statements of Euroweb and its consolidated subsidiaries included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") regarding interim financial information and, accordingly, do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America ("U.S. GAAP") for complete financial statements. These unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2005, appearing in the Annual Report on Form 10-KSB of the Company for the year then-ended.

Euroweb International Corp.
Notes to Unaudited Condensed Consolidated Financial Statements

All intercompany balances and transactions have been eliminated in consolidation.

Prior periods have been reclassified to conform with current period presentation.

Use of Estimates. The accompanying unaudited interim consolidated financial statements have been prepared in accordance with U.S. GAAP and reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. All such adjustments are of a normal recurring nature. The results of operations for the three months ended March 31, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006.

In preparing the interim unaudited consolidated financial statements, management is required to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results could differ from those estimates.

Stock-based compensation. Prior to January 1, 2006, the Company accounted for its stock-based employee compensation arrangements under the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25), as allowed by SFAS No. 123, Accounting for Stock-based Compensation (SFAS No. 123), as amended by SFAS No. 148, Accounting for Stock-Based Compensation -- Transition and Disclosure (SFAS No. 148). As a result, no expense was recognized for options to purchase its common stock that were granted with an exercise price equal to fair market value at the date of grant and no expense was recognized in connection with purchases under our employee stock purchase plan for the years ended December 31, 2005 or 2004, nor in the three-month ended March 31, 2005.

In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123 (revised 2004) Share-Based Payment (SFAS No. 123R), which replaces SFAS No. 123 and supersedes APB No. 25. SFAS No. 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values beginning with the first interim or annual period after December 15, 2005 for small business issuers. Subsequent to the effective date, the pro forma disclosures previously permitted under SFAS No. 123 are no longer an alternative to financial statement recognition. Effective January 1, 2006, the Company have adopted SFAS No. 123R using the modified prospective method. Under this method, compensation cost recognized during the three-month periods ended March 31, 2006, includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of March 31, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123 amortized on an straight-line basis over the options' vesting period, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123R amortized on a straight-line basis over the options' vesting period. The Company utilizes a Black-Scholes option-pricing model to measure the fair value of stock options granted to employees. See Note 5 to the Company's Unaudited Condensed Consolidated Financial Statements for a further discussion on stock-based compensation. Pro forma results for prior periods have not been restated. As a result of adopting SFAS No. 123R on January 1, 2006, the Company's net loss is $119,037 lower for the three-month period ended March 31, 2006 than had we continued to account for stock-based employee compensation under APB No. 25. Basic and diluted net loss per share for the three-month periods ended March 31, 2006 would have been $ 0.16 had we not adopted SFAS No. 123R, compared to reported basic and diluted net loss per share of $0.18 for the

three-month period ended March 31, 2006. The adoption of SFAS No. 123R had no impact on cash flows from operations, investing or financing.

The Company estimates the fair value of each option award on the date of the grant using the Black-Scholes option valuation model. Expected volatilities are based on the historical volatility of the Company's common stock over a period commensurate with the options' expected term. The expected term represents the period of time that options granted are expected to be outstanding and is calculated in accordance with the Securities and Exchange Commission ("SEC") guidance provided in the SEC's Staff Accounting Bulletin 107, ("SAB 107"), using a "simplified" method. The risk-free interest rate assumption is based upon observed interest rates appropriate for the expected term of the Company's stock options. The following table summarizes the weighted-average assumptions used in the Black-Scholes model for options granted during the first three months of 2005.

	Three Months Ended March 31, 2005
Expected volatility	88%
Expected dividends	-
Expected term (in years)	6
Risk-free rate	4%

No options have been granted or exercised in the three months ended March 31, 2006.

Prior to 2006, the Company accounted for stock-based compensation in accordance with APB 25 using the intrinsic value method, which did not require that compensation cost be recognized for the Company's stock options, provided the option exercise price was not less than the common stock's fair market value on the date of the grant. The Company provided pro-forma disclosure amounts in accordance with SFAS No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure, as if the fair value method defined by SFAS No. 123 had been applied to its stock-based compensation. The net loss amount utilized within the following table illustrates the effect on net loss and net loss per share had the Company applied the fair value recognition provisions of SFAS No. 123 to account for its employee stock option and employee stock purchase plans for the three-month period ended March 31, 2005 because stock-based employee compensation was not accounted for using the fair value recognition method during that period. For purposes of pro forma disclosure, the estimated fair value of the stock awards, as prescribed by SFAS No. 123, is amortized to expense over the vesting period of such awards:

Three months ended	March 31, 2005
Net loss:	
Net loss, as reported	$(225,419)
Total stock-based employee compensation expense determined under fair value based method for all awards, net of tax effects	(169,322)
Pro forma net loss	$(394,741)

Basic and diluted loss per share:	
As reported, basic and diluted	$ (0.04)
Pro forma, basic and diluted	$ (0.07)

Euroweb International Corp.
Notes to Unaudited Condensed Consolidated Financial Statements

The historical pro forma impact of applying the fair value method prescribed by SFAS No. 123 is not representative of the impact that may be expected in the future due to changes in option grants in future years and changes in assumptions such as volatility, interest rates and expected life used to estimate fair value of future grants.

Note that the above pro forma disclosure was not presented for the three-month periods ended March 31, 2006, because stock-based employee compensation has been accounted for using the fair value recognition method under SFAS No. 123R for these periods. As a result of adopting SFAS 123R, the impact to the Consolidated Statement of Operations was to increase expenses and net loss by approximately $0.1 million for the three months ended March 31, 2006. The following table shows total stock-based employee compensation expense (see Note 5 for types of stock-based employee arrangements) included in the condensed consolidated statement of operations for the three-month periods ended March 31, 2006:

Categories of cost and expenses	Three months ended March 31, 2006
Compensation and related costs	$ 36,591
Consulting, directors and professional fees	82,446
Total stock-based compensation expense	$119,037

There was no capitalized stock-based employee compensation cost as of March 31, 2006. There were no material recognized tax benefits during the first three-month period ended March 31, 2006.

Earnings per Share. The following is a reconciliation from basic earnings per share to diluted earnings per share for the three month periods ended March 31, 2006 and 2005:

Diluted (A/C)	$	(0.18)	$	(0.04)

Euroweb International Corp.
Notes to Unaudited Condensed Consolidated Financial Statements

The Company had potentially dilutive common stock equivalents of 788,330 and 1,084,000 for the three months ended March 31, 2006 and 2005, which were not included in the computation of diluted net loss per share, because they were antidilutive.

3. Bank Loans and Overdrafts

On April 6, 2005, the Company entered into a long-term loan agreement with Commerzbank Bank Rt (the "Bank") for HUF 201,250,000 (approximately $918,111 at the March 31, 2006 exchange rate), with an interest rate of three month Budapest Interbank Offered Rate ("BUBOR") +2.5%. Approximately $655,794 was outstanding at March 31, 2006. The loan is repayable in 14 quarterly instalments of HUF 14,375,000 (approximately $65,579) plus quarterly interest starting on May 31, 2005. The shares of the Navigator and Euroweb Hungary were pledged as collateral for this loan, as well as a general lien established on all of the assets of these subsidiaries of Euroweb.

In addition to the long-term loan agreement, the Company also entered into an overdraft facility for unlimited period of time with 30 days termination period with the Bank for HUF 130,000,000 (approximately $593,066 at the March 31, 2006 exchange rate) on July 20, 2005. Approximately $526,888 was outstanding at March 31, 2006. The interest rate is BUBOR + 1.5%.

Additionally, on September 1, 2005, the Company entered into a two-month loan facility agreement with the Bank for approximately $140,462 (HUF 30,000,000) to fund working capital. The Company did not have outstanding balances under this agreement as of March 31, 2006. The contract expired on March 31, 2006. The interest rate was BUBOR + 1.5%.

4. Discontinued Operations and Disposal of Subsidiaries

Completed sale of Euroweb Slovakia On April 15, 2005, the Company sold Euroweb Slovakia for cash of $2,700,000.

Proposed sale of Euroweb Hungary and Euroweb Romania On December 15, 2005, the Board of Directors of the Company decided to sell its interest its wholly-owned subsidiaries in Euroweb Hungary and Euroweb Romania. On December 19, 2005, the Company entered into a share purchase agreement with Invitel Tavkozlesi Szolgaltato Rt., a Hungarian joint stock company, to sell Euroweb Hungary and Euroweb Romania, subject to various conditions including, but not limited to, shareholders' approval.

The Company believes that the sale of Euroweb Slovakia and the proposed sale of Euroweb Hungary and Euroweb Romania meet the criteria for presentation as a discontinued operation under the provisions of "SFAS 144", therefore amounts relating to Euroweb Slovakia, Euroweb Hungary and Euroweb Romania have been reclassified as discontinued operations for all periods presented.

5. Stock-based Compensation

Effective January 1, 2006, the Company adopted SFAS 123R, which requires the Company to measure the cost of employee services received in exchange for all equity awards granted based on the fair value of the award as of the grant date. SFAS 123R supersedes Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation ("SFAS 123"), and Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees ("APB 25"). The Company adopted SFAS 123R using the modified prospective transition method, which requires the Company to record compensation cost related to unvested stock awards as of December 31, 2005 by recognizing the unamortized grant date fair value of these awards over the remaining requisite service periods of those awards, with no change in historical reported earnings. Awards granted after December 31, 2005 are valued at fair value in accordance with the provisions of SFAS 123R and are recognized on a straight-line basis over the requisite service periods of each award. The new standard also requires the Company to estimate forfeiture rates for all unvested awards, which it has done for 2006 based on its historical experience.

Euroweb International Corp.
Notes to Unaudited Condensed Consolidated Financial Statements

As of March 31, 2006, the Company has one share-based compensation plans: the 2004 Stock Incentive Plan.

Pursuant to the Company's 2004 Stock Incentive Plan (the "Plan"), 800,000 shares have been provided for the grant of stock options to employees, directors, consultants and advisors of the Company. The plan was approved by the Company's Annual Meeting of Stockholders in May 2004. Option awards must be granted with an exercise price at not less than the fair market price of the Company's common stock on the date of the grant; those option awards generally vest over a three or four-year period in equal increments of 33% or 25%, beginning 6 months after the date of the grant. All options granted have contractual terms of six years from the date of the grant and expires 3 months after the holder leaves the Company. The grant date fair value is calculated using the Black-Scholes option valuation model.

The Company has granted the following options under the Plan:

On April 26, 2004, the Company granted 125,000 options to its Chief Executive Officer, an aggregate of 195,000 options to five employees and an aggregate of 45,000 options to two consultants of the Company. The stock options granted to the Chief Executive Officer vest at the rate of 31,250 on November 1, 2004 and each October 1 of 2005, 2006 and 2007. The stock options granted to the other employees and consultants vest at the rate of 80,000 on November 1, 2004 and each October 1 of 2005, 2006. The exercise price of the options ($4.78) is equal to the market price on the date the grants were made. 60,000 options out of the 195,000 options granted to employees have been expired unexercised due to termination of two employee contracts in 2005.

In accordance with APB No. 25, no compensation expense was recorded for the options granted to the Chief Executive Officer, and the five employees until December 31, 2005. Compensation charge according to SFAS 123R adopted from January 1, 2006 was $36,591 in the three months period ended March 31, 2006.

In accordance with SFAS 123, the Company will recognize total compensation charges of approximately $162,000 for the grants made to the two consultants as such consultants do not qualify as employees. Such compensation charges are recognized over the vesting period of three years. Compensation expense for the three months ended March 31, 2006 was $5,580 (2005: $15,100).

On March 22, 2005, the Company granted an aggregate of 200,000 options to two of the directors. The stock options granted to the directors on March 22, 2005 vest at the rate of 50,000 on each September 22 of 2005, 2006, 2007 and 2008. The exercise price of the options ($3.40) is equal to the market price on the date the grants were made. In accordance with APB 25, no compensation charges were accounted in respect of these grants until December 31, 2005. Compensation charge according to SFAS 123R adopted from January 1, 2006 was $43,244 in the three months period ended March 31, 2006.

On June 2, 2005, the Company granted 100,000 options to a director of the Company, which vest at the rate of 25,000 on each December 2 of 2005, 2006, 2007, and 2008. Euroweb International Corp.
Notes to Unaudited Condensed Consolidated Financial Statements

The following table summarizes the option activity under the Plan as of March 31, 2006 and changes during the quarter then ended:

Stock Options	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding at January 1, 2006	605,000	$4.20

In February 2006, the Company terminated its contract with the consultant company providing investor relation services. The warrants granted under the contract are reduced time-proportionally to 83,330, based on the time in service by the consultant company.

6. Commitments and Contingencies

(a) Employment Agreements

The Company entered into a six-year agreement with its Chief Executive Officer, Csaba Toro on October 18, 1999, which commenced January 1, 2000, and provided for an annual compensation of $96,000. The agreement was amended in 2004 and 2005. The amended agreement provides for an annual salary of $200,000 and a bonus of up to $150,000 in 2006, 2007 and 2008, as well as an annual car allowance of $30,000 for the same period.

The Company has entered into a two-year employment agreement with Moshe Schnapp as President and Director of the Company starting from April 15, 2005, which grants an annual compensation of $250,000 to be paid in the form of Euroweb shares of common stock. The number of shares to be received by Mr. Schnapp is calculated based on the average closing price 10 days prior to the commencement of each employment year. For the year ended April 14, 2007, Mr. Schnapp will receive 76,103 Euroweb shares of common stock.

(b) Lease Agreements

The Company's subsidiary has entered into various capital leases for service equipment, as well as non-cancelable agreement for office premises.

(c) Legal Proceedings

Except as set forth below, there are no known significant legal procedures that have been filed and are outstanding against the Company:

On April 26, 2006, a lawsuit was filed in Delaware Court of Chancery (the "Court") by a stockholder of the Company against the Company, each of the Company's directors and CORCYRA d.o.o., a stockholder of the Company that beneficially owns 39.81% of the Company's outstanding common stock of the Company. The Complaint is entitled Laurence Paskowitz v. Csaba Toro et al., C.A. No. 2110-N and was brought individually and as a class action on behalf of

certain of the Company's common stockholders excluding defendants and their affiliates. The plaintiff alleges the proposed sale of 100% of the Company's interest in the Company's two Internet and telecom related operating subsidiaries (the "Subsidiaries") constitutes a sale of substantially all of the Company's assets and requires approval by a majority of the voting power of the Company's outstanding common stock under Section 271 of the Delaware General Corporation Law. The plaintiff also alleges the defendants breached their fiduciary duties in connection with the sale of the subsidiaries and the disclosures contained in the proxy statement filed on April 24, 2006. The plaintiff applied for a temporary restraining order seeking to enjoin the special meeting on May 15, 2006.

The Company denies any and all allegations of wrongdoing; however, in the interests of conserving resources, on April 28, 2006, the parties to the litigation entered into a Memorandum of Understanding providing for, subject to confirmatory discovery by plaintiff, the negotiation of a formal stipulation of a settlement of the litigation. Pursuant to the proposed settlement, the Board of Directors of the Company has determined to: (i) increase the vote required to approve the sale of 100% of the Company's interest in the Subsidiaries, (ii) revise the disclosure within the proxy statement to eliminate the bonus of up to US $400,000, which the Compensation Committee of the Company had the option to pay to select members of management, as the Board of Directors had previously elected to terminate the ability to pay such bonus and (iii) provide supplemental disclosure as contained in the Supplemental Proxy Statement to be mailed to stockholders and filed with the Securities and Exchange Commission on May 3, 2006. The settlement will provide for dismissal of the litigation with prejudice and is subject to Court approval. As part of the settlement, the Company has agreed to pay an amount of attorneys' fees and expenses that is to be negotiated between the two parties or, lieu of such agreement between the two parties, will be determined by the Court.

(d) Elender Rt. Acquisition

On June 9, 2004 the Company acquired all of the outstanding shares of Elender Rt. ("Elender") for $6,500,000 in cash and 677,201 of the Company's shares of common stock. Under the terms of agreement, the Company has placed 248,111 unregistered shares of common stock, newly issued and in the name of the Company, with an escrow agent as security for approximately $1.5 million loans payable to former shareholders of Elender. The shares will be returned to the Company from escrow once the outstanding loans have been fully repaid. However, if there is a default on the outstanding loan, then the shares will be issued to the other party and the Company is then obliged to register the shares. As of December 31, 2005, the Company had repaid all of the loans that were outstanding. In January 2006, the Company acquired and subsequently cancelled the shares that were put into escrow.

Pursuant to the registration rights agreement signed on June 1, 2004 with the sellers of Elender, if the shares of the Company's common stock issued to the sellers were not registered within 120 days of Closing (closing was on June 9, 2004) for reasons attributable to the Company, a penalty of $2,000 per day is payable until the shares are registered. In case of disposal of Euroweb Hungary and Euroweb Romania, the Company will have to re-register the shares issued in connection with the acquisition of Elender. In case of late filing of this registration statement may result penalty payment obligation.

(e) Navigator Acquisition

The Company entered into a registration rights agreement dated July 21, 2005, whereby it has agreed to file a registration statement registering the 441,566 shares of Euroweb common stock issued in connection with the acquisition within 75 days of the closing of the transaction and have such registration statement declared effective within 150 days from the filing thereof. In the event that Euroweb fails to meet its obligations to register the shares it may be required to pay a penalty equal to 1% of the value of the Shares per month. The Company has obtained a written waiver from the seller stating that the seller will not raise any claims in connection with the filing of registration statement until May 30, 2006.

(f) Euroweb Hungary Rt. Purchase Guarantee

In February 2004, the Company purchased the remaining 51% of Euroweb Hungary from Pantel. The consideration paid by the Company for the 51% interest consisted of EUR 1,650,000 ($2,105,000) in cash, and a purchase commitment that Euroweb Hungary will purchase at least HUF 600 million (approximately $3 million) worth of services from Pantel in each year from 2004 to 2006. In the event that Euroweb Hungary and its subsidiaries do not satisfy this commitment, Pantel may charge a penalty equal to 25% of the commitment amount less any services purchased. Purchases in 2004 and 2005 exceeded this amount. If Euroweb Hungary is successfully sold to Invitel, any claim arising from this commitment will from that date be payable by Invitel.

(g) Indemnities Provided Upon Sale of Subsidiaries

On April 15, 2005, the Company sold Euroweb Slovakia. According to the securities purchase contract (the "Contract"), the Company will indemnify the buyer for all damages incurred by the buyer as the result of seller's breach of certain representations, warranties or obligations as set in the Contract up to an aggregate amount of $540,000. The buyer shall not be entitled to make any claim under the Contract after the fourth anniversary of the date of the Contract. No claims have been made to date. The Company has accrued $35,000 as the estimated fair value of this indemnity.

(h) Potential Penalty of EUR 400,000

If by June 30, 2006, the Company either fails to comply with the provisions of the share purchase agreement about the disposition of Euroweb Hungary and Euroweb Romania to Invitel, or the Stockholders Meeting of the Company fails to approve the transaction as set forth in the agreement, then the Company shall on demand reimburse to Invitel all costs, expenses and fees (including without limit financial and technical advisors and attorneys fees) in relation to the investigation, and negotiation of the Transaction, and all associated and connected matters up to the maximum amount of EUR 400,000.

(i) Purchase Obligation of 85% Ownership of Navigator

On or before the date of closing of the sale of Euroweb Hungary and Euroweb Romania to Invitel, Euroweb International will purchase 85% ownership of Navigator representing a purchase obligation in a value of $6,000,000 in cash. At the date of closing at the latest, Euroweb Hungary has to settle all of its bank loans including the $6,000,000 Commerzbank loan obtained for the acquisition of Navigator.

EUROWEB INTERNATIONAL CORP.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION OF BUSINESS

Euroweb International Corp. ("Euroweb") is a Delaware corporation, which was incorporated on November 9, 1992. Euroweb and its subsidiaries are collectively referred to herein as the "Company". The Company was a development stage company through December 31, 1993.

The Company operates in Hungary through its subsidiary Navigator Informatika Rt. ("Navigator"), which is acquired on October 7, 2005.

The Company provides a full range of information technology ("IT") outsourcing services through it subsidiary, Navigator. The IT outsourcing services provided by the Company primarily comprise IT maintenance, procurement, consultancy and related services.

On December 16, 2004, the Company disposed of Euroweb Czech Republic, spol ("Euroweb Czech Republic") and no longer has operations in the Czech Republic. On April 15, 2005, the Company disposed of Euroweb Slovakia a.s. ("Euroweb Slovakia") for cash of $2,700,000 and, as a result, has ceased operations in Slovakia.

On December 15, 2005, the Board of Directors of the Company decided to sell its entire interest in the wholly owned Euroweb Internet Szolgaltato Rt. ("Euroweb Hungary") and Euroweb Romania S.A. ("Euroweb Romania"). On December 19, 2005, the Company entered into a share purchase agreement with Invitel Tavkozlesi Szolgaltato Rt., a Hungarian joint stock company, to sell the entire interest in

its two Internet- and telecom-related operating subsidiaries, Euroweb Hungary and Euroweb Romania, subject to various conditions including, but not limited to, shareholders' approval. Euroweb Hungary and Euroweb Romania are classified in the Company's financial statements as discontinued operations for all periods presented.

Approximately 83% of the consolidated revenue for the year ended December 31, 2005 was generated from the four most significant customers of the Company as follows:

	Revenue generated
Company 'A':	$ 539,131
Company 'B':	443,727
Company 'C':	386,253
Company 'D':	268,296
Other companies:	327,591
Total revenue:	$1,964,998

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES

(a) Principles of consolidation and basis of presentation

The consolidated financial statements comprise the accounts of the Company and its controlled subsidiaries. All material intercompany balances and transactions have been eliminated upon consolidation and all adjustments, consisting mainly of normal recurring accruals necessary for a fair presentation, have been made.

On February 12, 2004, the Company entered into a share purchase agreement with a related party, Pantel Rt. ("Pantel") to acquire the remaining 51% of Euroweb Hungary shares that the Company did not already own. At the date of the acquisition, KPN Telecom B.V. ("KPN") owned 50.17% of the voting common shares of the Company and 75% of the voting common shares of Pantel. Accordingly, the transaction was recorded in a manner similar to a pooling-of-interest and the historical consolidated financial statements were restated to include the financial position, results of operations and cash flows of Euroweb Hungary for all periods presented. Since the purchase consideration was in excess of Euroweb Hungary's book value (by $2,142,556), the excess is accounted for as a distribution to KPN, which resulted in a deduction from retained earnings at the closing of the transaction. There were no transactions with Euroweb Hungary in any period prior to this transaction that required elimination.

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP").

(b) Use of estimates

The preparation of consolidated financial statements requires management to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of

revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c) Fair value of financial instruments

The carrying values of cash equivalents, investment in debt securities, notes and loans receivable, accounts payable, loans payable and accrued expenses approximate fair values.

(d) Revenue recognition

Revenue Recognition--The Company applies the provisions of SEC Staff Accounting Bulletin ("SAB") No. 104, Revenue Recognition in Financial Statements, which provides guidance on the recognition, presentation and disclosure of revenue in financial statements filed with the SEC. SAB No. 104 outlines the basic criteria that must be met to recognize revenue and provides guidance for disclosure related to revenue recognition policies. The Company recognizes revenue when persuasive evidence of an arrangement exists, the product or service has been delivered, fees are fixed or determinable, collection is probable and all other significant obligations have been fulfilled. Revenues from maintenance services are recognized in the month in which the services are provided, either based on performance or on fixed monthly fees. The Company defers revenue recognition for payments on contracts for which services have not been performed.

The Company also generates non-recurring revenue from consulting fees for implementation, installation, configuration, testing and training related to the use of third party licensed products. The Company recognizes revenue for these services as they are performed, if contracted on a time and materials basis, or using the percentage of completion method, if contracted on a fixed fee basis, once the cost of the consulting project can be reliably estimated. Percentage of completion is measured based on cost incurred to date compared to total estimated cost at completion. When the cost to complete a project cannot be reasonably estimated, the Company recognizes revenue using the completed contract method until such time that the cost to complete the project can be reasonably estimated.

(e) Cost of revenues (excluding depreciation and amortization)

Cost of revenues (excluding depreciation and amortization) principally comprises cost of fixed assets sold during the course of IT outsourcing projects, cost of materials required to perform IT outsourcing activities and cost of project-dedicated sub-contractors.

(f) Foreign currency translation

The Company considers the United States Dollar ("US Dollar or "$") to be the functional currency of the Euroweb and unless otherwise stated, the respective local currency to be the functional currency each of its subsidiaries. The reporting currency of the Company is the US Dollar and accordingly, all amounts included in the consolidated financial statements have been translated into US Dollar.

The balance sheets of subsidiaries are translated into US Dollar using the year end exchange rates. Revenues and expenses are translated at average rates in

effect for the periods presented. The cumulative translation adjustment is included in the accumulated other comprehensive gain (loss) within shareholders' equity.

Foreign currency transaction gains and losses are included in the consolidated results of operations for the periods presented.

(g) Cash and cash equivalents

Cash and cash equivalents include cash at bank and investments with maturities of three months or less at the date of acquisition by the Company.

(h) Investment in securities

Investments in marketable debt securities are classified as available-for-sale and are recorded at fair value with any unrealized holding gains or losses included as a component of other comprehensive income until realized. Investments with remaining maturities of greater than one year are classified as long-term, while those with remaining maturities of less than one year are classified as short-term. A decline in the market value of available-for-sale securities below cost that is deemed to be other-than-temporary temporary results in a reduction in the carrying value amount to fair value. Such impairment is charged to earnings and a new cost basis for the security is established. In assessing whether an impairment is other-than-temporary, the Company considers several factors including, but not limited to, the ability and intent to hold the investment, reason and duration for the impairment and forecasted performance of the investee.

(i) Property and equipment

Property and equipment are stated at cost, less accumulated depreciation. The Company provides for depreciation of property and equipment using the straight-line method over the following estimated useful lives:

Software	3 years
Computer equipment	3-5 years
Other furniture equipment and fixtures	5-7 years

Equipment purchased under capital lease is stated at the lower of fair value and the present value of minimum lease payments at the inception of the lease, less accumulated depreciation. The Company provides for depreciation of leased equipment using the straight-line method over the shorter of estimated useful life and the lease term.

Total depreciation from continuing operations for the years ended December 31, 2005 and 2004 was $ 147,547 and $2,048 respectively.

Recurring maintenance on property and equipment is expensed as incurred.

Any gain or loss on retirements and disposals is included in the results of operations in the period of the retirement or disposal.

(j) Goodwill and intangible assets

Goodwill results from business acquisitions and represents the excess of purchase price over the fair value of net assets acquired. Goodwill is tested at least annually for impairment. The first step of this test requires the Company to compare the carrying value of any reporting unit that has goodwill to the estimated fair value of the reporting unit. When the current fair value is less than the carrying value, the Company performs the second step of the impairment test. This second step requires the Company to measure the excess of the recorded goodwill over the current value of the goodwill by performing an exercise similar to a purchase price allocation, and to record any excess as an impairment.

Intangible assets that have finite useful lives (whether or not acquired in a business combination) are amortized over their estimated useful lives but also reviewed for impairment in accordance with the Statement of Financial Accounting Standard ("SFAS") No. 144 "Accounting for Impairment or Disposal of Long Lived Assets" ("SFAS 144"). Intangible assets currently consist of customer contracts, which were acquired as a result of a purchase of Navigator and are being amortized over the estimated future period of benefit of one to four years. The assessment of recoverability and possible impairment is performed using estimates of undiscounted future cash flows. If impairment is indicated, the Company then measures the impairment based on the amount by which the carrying value of the customer lists exceeds its fair market value. Fair market value is determined primarily using the projected future cash flows discounted at a rate commensurate with the risk involved.

Total amortization of intangible assets for the years ended December 31, 2005 and 2004 was $ 361,931 and $0 respectively.

(k) Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing income (loss) attributable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share reflects the effect of dilutive potential common shares issuable upon exercise of stock options and warrants. There were no dilutive options and warrants for the year ended 2005 and 2004. Stock options and warrants convertible into 779,067 and 550,378 shares of common stock, respectively, were excluded from the computation of diluted earnings per share since such options and warrants have an exercise price in excess of the average market value of the Company's common stock during the periods.

(l) Comprehensive income

Comprehensive income includes all changes in equity except those resulting from investments by, and distributions to, owners.

(m) Business segment reporting

The Company manages its operations, and accordingly determines its operating segments, on a geographic basis. The Company currently has one operating segment: Hungary.

(n) Income taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets, net of appropriate valuation allowances, and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities, if any, are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(o) Stock-based compensation

The Company applies the intrinsic value-based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations including Financial Accounting Standards Board ("FASB") Interpretation No. 44, "Accounting for Certain Transactions involving Stock Compensation, an interpretation of APB Opinion No. 25" to account for its stock options granted to employees. Under this method, compensation expense for fixed plan stock options is recorded on the date of grant only if the current market price of the underlying stock exceeds the exercise price. SFAS No. 123, "Accounting for Stock-Based Compensation," ("SFAS 123") and FASB Statement No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure, an amendment of FASB Statement No. 123" established accounting and disclosure requirements using a fair value-based method of accounting for stock-based employee compensation plans. As allowed by existing standards, the Company has elected to continue to apply the intrinsic value-based method of accounting described above, and has adopted the disclosure requirements of SFAS 123, as amended. The Company accounted compensation expenses for the Company's stock options and warrants granted other than employees or independent directors based on fair value method prescibed in SFAS 123.

SFAS 123 requires the Company to provide pro forma information regarding net income and earnings per share as if compensation cost for the Company's stock options had been determined in accordance with the fair value-based method prescribed in SFAS 123. The Company estimates the fair value of each stock option at the grant date by using the Black-Scholes option-pricing model.

The pro forma amount calculated as total compensation expense under SFAS 123 is $632,766 for the 200,000 options granted to directors on October 13, 2003, $1.3 million for the 365,000 options granted on April 26, 2004 and $775,260 for the 300,000 options issued in 2005. Under the accounting provisions of SFAS No. 123, this compensation expense would be recorded over the vesting period of the options (3-4 years).

For purposes of the pro forma calculation under SFAS 123, the fair value of each option grant has been estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions for 2004 and 2005:

Dividend yield	0%
Risk free rate	4%
Expected option life (years)	6
Volatity	88%

Under the accounting provisions of SFAS 123, the Company's 2005 and 2004 net income (loss) and net income (loss) per share would have been affected as indicated below:

	2005	2004
Net income (loss):		
Net loss from continuing operation as reported	$(2,018,166)	$(1,402,766)
Net income from discontinuing operation as reported	$ 3,698,461	$ 668,312

In December 2004, the FASB issued SFAS No. 151, "Inventory Costs - an amendment of ARB No. 43, Chapter 4" ("SFAS 151"). SFAS 151 amends Accounting Research Bulletin No. 43, Chapter 4, "Inventory Pricing" ("ARB 43") to eliminate the "so abnormal" criterion in ARB 43 and requires companies to recognize abnormal freight, handling costs, and amounts of wasted material (spoilage) as current-period charges. Additionally, SFAS 151 clarifies that fixed production overhead cost should be allocated to inventory based on the normal capacity of the production facility. SFAS 151 is effective for inventory costs incurred during annual periods beginning after June 15, 2005. The Company is currently assessing the impact SFAS 151 may have on its financial statements and is not expected to have a material impact on our financial statements.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections" which replaces Accounting Principles Board Opinions No. 20 "Accounting Changes" and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements." This statement applies to all voluntary changes in accounting principle and changes resulting from adoption of a new accounting

pronouncement that does not specify transition requirements. SFAS 154 requires retrospective application to prior periods' financial statements for changes in accounting principle unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. SFAS 154 also requires that retrospective application of a change in accounting principle be limited to the direct effects of the change. Indirect effects of a change in accounting principle should be recognized in the period of the accounting change. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005 with early implementation permitted for accounting changes and corrections of errors made in fiscal years beginning after the date this statement was issued. SFAS 154 is effective for the Company as of January 1, 2006 and is not expected to have a material impact on financial statements.

In February 2006, the FASB issued SFAS No. 155, "Accounting for Certain Hybrid Financial Instruments-an amendment of FASB Statements No. 133 and 140" ("SFAS 155"). SFAS 155 amends SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133") and SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities". SFAS 155 resolves issues addressed in SFAS 133 Implementation Issue No. D1, "Application of Statement 133 to Beneficial Interests in Securitized Financial Assets." SFAS 155 is effective for the Company for all financial instruments acquired or issued after January 1, 2007 and is not expected to have a material impact on the Company's financial statements.

On April 6, 2005, the Company entered into a long-term loan agreement with Commerzbank Bank Rt (the "Bank") for HUF 201,250,000 (approximately $942,270 at the December 31, 2005 exchange rate), with an interest rate of three month Budapest Interbank Offered Rate ("BUBOR") +2.5%. Approximately $740,354 was outstanding at December 31, 2005. 8. ACQUISITION

On October 7, 2005, the Company acquired all of the outstanding shares of Navigator Informatika Rt., an IT outsourcing service provider located in Hungary. Consideration paid of $10,760,772 consisted of $8,500,000 in cash and 441,566 shares of Euroweb common stock valued at $1,752,134 excluding registration cost, and $508,638 in transaction costs (consisting primarily of professional fees incurred related to attorneys, accountants and valuation advisors). The results of Navigator have been included in the Company's consolidated financial statements from the date of acquisition.

In accordance with the purchase method of accounting prescribed by SFAS 141, the Company allocated the consideration to the tangible net assets and liabilities and intangible assets acquired, based on their estimated fair values. The excess of the purchase price over the fair value of the identifiable tangible and intangible net assets acquired was assigned to goodwill. In accordance with SFAS No. 142 "Goodwill and Other Intangible Assets" ("SFAS 142"), goodwill will not be amortized but will be tested for impairment at least annually.

The following represents the final allocation of the purchase price paid for the Navigator business based on the fair values of the acquired assets and assumed liabilities as of October 7, 2005:

Trade account receivable, net	$ 1,057,317
Prepaid and other current assets	664,109
Property and equipment, net	1,115,701
Trade account payable	(1,142,626)
Other current liabilities and accrued expenses	(720,414)
Short term and long term bank loans	(1,299,142)
Fair value of Navigator's recorded assets acquired and liabilities assumed	(325,055)
Identified intangible assets - customer contracts	3,494,231
Deferred tax liabilities	(559,076)
Excess purchase price over allocation to identifiable assets and liabilities (Goodwill)	8,150,672
Total consideration	$10,760,772

In determining the value to be ascribed to acquired intangible assets, the Company considered its intention for future use of the assets, analyses of historical financial performance and estimates of future performance of Navigator's services, among other factors. Acquired identifiable intangible assets obtained in the Company's acquisition of Navigator relate to customer contracts, which are being amortized over the estimated useful life of one to four years.

Although the former owners of Navigator received shares of common stock of the Company, each of the former owners of Navigator currently holds less than 10% of the outstanding shares of common stock in the Company. Therefore, they are not considered related parties and business transactions are shown as third party transactions in the accompanying consolidated financial statements of the Company.

The following unaudited pro-forma information presents a summary of consolidated results of operations of the Company for the years ended December 31, 2005 and 2004 as if the acquisition of Navigator had occurred at January 1, 2005 and 2004, respectively.

The Company believes that the sale of Euroweb Czech Republic and Euroweb Slovakia and the proposed sale of Euroweb Hungary and Euroweb Romania meet the criteria for presentation as a discontinued operation under the provisions of "SFAS 144", therefore amounts relating to Euroweb Czech Republic, Euroweb Slovakia, Euroweb Hungary and Euroweb Romania have been reclassified as discontinued operations for all periods presented.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Deferred Tax Assets and Liabilities

Upon the acquisition of Navigator, the Company recognized a net Deferred Tax Liability of $559,076 related to the excess of fair value of net assets over carrying values. As most of the excess relates to the recognition of customer contracts (Note 5), which is being amortized over a period of 1-4 years from acquisition, the Deferred Tax Liability is being reduced proportionately. $57,908 was recognized as a benefit in 2005.

The statutory corporate tax rate in Hungary was 16% as of December 31, 2004. Navigator has no tax net operating loss carryforwards from prior years.

	2005	2004
Deferred Tax Assets:		
Net Operating Loss Carryovers	$ 4,331,534	$ 3,665,214
Capital Loss Carryovers	1,823,704	713,634
Gross Deferred Tax Assets	6,155,238	4,378,848
Valuation Allowance	(6,155,238)	(4,378,848)
Net Deferred Tax Assets	$ --	$ --

For U.S. Federal income tax purposes, the Company has unused net operating loss carryforwards at December 31, 2005 of approximately $12.8 million available to offset future taxable income. From the $12.8 million of losses, $1.2 million expire in various years from 2008-2010, $1.6 million expires in 2011, and the

remaining $10 million expire in various years from 2016 through 2025. In addition, the Company has a capital loss carryover for US income tax purposes of approximately $5.4 million. $2.1 million of the loss is from 2004 and will expire after 2009. The remainder of the capital loss, $3.3 million, will expire after 2010. The Tax Acts of some jurisdictions contain provisions which may limit the net operating loss and capital loss carryforwards available to be used in any given year if certain events occur, including significant changes in ownership interests. The Company has not assessed the impact of these provisions on the availability of Company loss carryovers since the deferred tax assets are fully offset by the valuation allowance.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences and tax loss carryforwards become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes that it is more likely than the Company will not realize the benefit of these deductible differences, net of existing valuation allowances at December 31, 2005.

Undistributed earnings of the Company's foreign subsidiaries are currently not material. Those earnings are considered to be indefinitely reinvested; accordingly, no provision for US federal and state income tax has been provided thereon. Upon repatriation of those earnings, in the form of dividends or otherwise, the Company would be subject to both US income taxes (subject to an adjustment for foreign tax credits) and withholding taxes payable to the various foreign countries. Determination of the amount of unrecognized deferred U.S. income tax liability is not practicable due to the complexities associated with its hypothetical calculation.

11. STOCKHOLDERS' EQUITY

On March 22, 2005, the Company granted an aggregate of 200,000 options to two of its directors. The warrants have a term of five years and tranches vest at a rate of a total 8,333 warrants per month over a one year period from the lowest to the highest warrant price. In February 2006, the Company has terminated the contract with the consultant. The total number of warrants granted under this agreement is reduced time-proportonially to 83,330 based on the time in service by the consultant. The reduction related to the warrants at $5 per shares. The warrants are being expensed over the performance period of one year. The Company entered into a six-year agreement with its Chief Executive Officer, Csaba Toro on October 18, 1999, which commenced January 1, 2000, and provided for an annual compensation of $96,000. (c) Legal Proceedings

There are no known significant legal procedures that have been filed and are outstanding against the Company.

(d) Elender Rt. acquisition

On June 9, 2004 the Company acquired all of the outstanding shares of Elender Rt. ("Elender") for $6,500,000 in cash and 677,201 of the Company's shares of

common stock. Under the terms of agreement, the Company has placed 248,111 unregistered shares of common stock, newly issued and in the name of the Company, with an escrow agent as security for approximately $1.5 million loans payable to former shareholders of Elender. The shares will be returned to the Company from escrow once the outstanding loans have been fully repaid. However, if there is a default on the outstanding loan, then the shares will be issued to the other party and the Company is then obliged to register the shares. As of December 31, 2005, the Company had repaid all of the loans that were outstanding. In January 2006, the Company acquired and subsequently cancelled the shares that were put into escrow.

Pursuant to the registration rights agreement signed on June 1, 2004 with the sellers of Elender, if the shares of the Company's common stock issued to the sellers were not registered within 120 days of Closing (closing was on June 9, 2004) for reasons attributable to the Company, a penalty of $2,000 per day is payable until the shares are registered. The Company made a provision of $170,000 to accrue for potential penalties under this clause as of December 31, 2004. In 2005, the Company received a waiver from the sellers. Therefore the penalty was reversed.

In case of disposal of Euroweb Hungary and Euroweb Romania, the Company will have to reregister the shares issued in connection with the acquisition of Elender. In case of late filing of this registration statement may result penalty payment obligation.

(e) Navigator acquisition

The Company entered into a registration rights agreement dated July 21, 2005, whereby it has agreed to file a registration statement registering the 441,566 shares of Euroweb common stock issued in connection with the acquisition within 75 days of the closing of the transaction and have such registration statement declared effective within 150 days from the filing thereof. In the event that Euroweb fails to meet its obligations to register the shares it may be required to pay a penalty equal to 1% of the value of the Shares per month. The Company has obtained a written waiver from the seller stating that the seller will not raise any claims in connection with the filing of registration statement until May 30, 2006.

(f) Euroweb Hungary Rt. purchase guarantee

In February 2004, the Company purchased the remaining 51% of Euroweb Hungary from Pantel. The consideration paid by the Company for the 51% interest consisted of EUR 1,650,000 ($2,105,000) in cash, and a purchase commitment that Euroweb Hungary will purchase at least HUF 600 million (approximately $3 million) worth of services from Pantel in each year from 2004 to 2006. In the event that Euroweb Hungary and its subsidiaries do not satisfy this commitment, Pantel may charge a penalty equal to 25% of the commitment amount less any services purchased. Purchases in 2004 and 2005 exceeded this amount. If Euroweb Hungary is successfully sold to Invitel, any claim arising from this commitment will from that date be payable by Invitel.

(g) Indemnities provided upon sale of subsidiaries

On April 15, 2005, the Company sold Euroweb Slovakia. According to the

securities purchase contract (the "Contract"), the Company will indemnify the buyer for all damages incurred by the buyer as the result of seller's breach of certain representations, warranties or obligations as set in the Contract up to an aggregate amount of $540,000. The Company has accrued $35,000 as the estimated fair value of this indemnity.

(h) Potentional penalty of EUR 400,000

If by the date which is 120 days after the signing of the share purchase agreement on December 19, 2005 about the disposition of Euroweb Hungary and Euroweb Romania to Invitel, the Company either fails to comply with the provisions of the share purchase agreement, or the Stockholders Meeting of the Company fails to approve the transaction as set forth in the agreement, then the Company shall on demand reimburse to Invitel all costs, expenses and fees (including without limit financial and technical advisors and attorneys fees) in relation to the investigation, and negotiation of the Transaction, and all associated and connected matters up to the maximum amount of EUR 400,000

(i) Purchase obligation of 85% ownership of Navigator

At the date of closing at the latest, Euroweb Hungary has to settle all of its bank loans including the $6,000,000 Commerzbank loan obtained for the acquisition of Navigator.

13. STOCK OPTION PLAN AND EMPLOYEE OPTIONS

a) Stock option plans

The Company's Stock Option Plan expired in 2003, although unexpired options issued under this plan were exercisable until expiry. At December 31, 2004, options for 63,000 common stock were outstanding and exercisable by the Chief Executive Officer under the Stock Option Plan, which expired on April 2, 2005. No options remained outstanding as of December 31, 2005.

In 2004, the Board of Directors established the "2004 Incentive Plan" or "the Plan", with an aggregate of 800,000 shares of common stock authorized for issuance under the Plan. The Plan provides that incentive and nonqualified options may be granted to key employees, officers, directors and consultants of the Company for the purpose of providing an incentive to those persons. The Plan may be administered by either the Board of Directors or a committee of two directors appointed by the Board of Directors (the "Committee"). The Board of Directors or Committee determines, among other things, the persons to whom stock options are granted, the number of shares subject to each option, the date or dates upon which each option may be exercised and the exercise price per share.

Options granted under the Plan are generally exercisable for a period of up to ten years from the date of grant. Incentive options granted to stockholder's that hold in excess of 10% of the total combined voting power or value of all classes of stock of the Company must have an exercise price of not less than

110% of the fair market value of the underlying stock on the date of the grant. The Company will not grant a nonqualified option with an exercise price less than 85% of the fair market value of the underlying common stock on the date of the grant.

On April 26, 2004 under the Plan, the Company granted 125,000 options to the Chief Executive Officer and an additional 195,000 options to five employees and 45,000 options to two consultants of the Company. All of these options have an exercise price equal to the market price on day of grant ($4.78), vest over a period of between three and four years and relate to future services to be performed. As the Company follows APB 25 with respect to accounting for grants made to employees, no compensation expense was recorded for these options. The total compensation expense for their options granted to the two consultants is $162,000, which is being expensed over the vesting period of three years.

In March 2005, one of the Directors has resigned and his 100,000 options expired unexercised.

The President and a Director of the Company is eligible to receive an annual compensation of $250,000 starting from April 15, 2005, which is payable in shares of Euroweb common stock. The number of shares to be paid is calculated based on the average closing price 10 days prior to each employment year. The number of shares for the year ended April 14, 2006 is 82,781. Compensation expense for the year ended December 31, 2005 was $177,083 (2004: $-). On January 5, 2006, 58,968 shares has been issued from the total of 82,781 shares covering the period from April 15, 2005 to December 31, 2005.

(b) Other Options

The Company has issued options pursuant to employment agreements. As of December 31, 2004 fully vested options are outstanding and exercisable for 63,000 shares pursuant to the employment agreement with the Chief Executive Officer. The options were granted on April 2, 1999 (with exercise price equal to stock price at date of grant) and expired unexercised on April 2, 2005. The options were exercisable at $10.00 per share.

On October 13 2003, the Company granted two Directors 100,000 options each, at an exercise price (equal to the fair value on that day) of $4.21 per share, with 25,000 options vesting on each April 13, 2004, 2005, 2006 and 2007. There were 100,000 options outstanding as of December 31, 2005.

EUROWEB INTERNATIONAL CORPORATION

UNAUDITED PRO FORMA CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited pro forma condensed consolidated financial statements (the "unaudited pro forma financial statements") give effect to the sale of 100% of the interest of Euroweb International Corporation ("Euroweb") in each of Euroweb Internet Szolgaltato Rt. ("Euroweb Hungary") and Euroweb Romania S.A. ("Euroweb Romania") to Invitel Tavkozlesi Szolgaltato Rt. and the acquisition of 100% of Navigator Informatika Rt. ("Navigator").

Acquisition of 100% of Navigator

The unaudited pro forma condensed consolidated statements of operations for the year ended December 31, 2005 also give effect to the acquisition by Euroweb of 100% of Navigator as if the acquisition occurred on January 1, 2005.

Sale of 100% of the interest of Euroweb in Euroweb Hungary and Euroweb Romania

The unaudited pro forma financial statements give effect to the sale of 100% of the Company's interest in Euroweb Hungary and Euroweb Romania. The sale was completed on May 23, 2006. Euroweb Hungary and Euroweb Romania are together expected to be sold for approximately $30,000,000 cash, less outstanding debt including $6,000,000 repayment of bank loan by Euroweb Hungary for ensuring debt free status and less estimated transaction costs, severances, success fees and estimated guarantee provision accrual of approximately $1,900,000. Euroweb Hungary covers the cash need of $6,000,000 repayment of bank loan from the $8,500,000 cash proceed received from Euroweb in exchange for 85% ownership of Navigator currently held by Euroweb Hungary.

Euroweb believes that the sale of Euroweb Hungary and Euroweb Romania meets the criteria for presentation as a discontinued operation under the provisions of Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." Accordingly, Euroweb Hungary and Euroweb Romania are presented as discontinued operations in the historical consolidated financial statements of Euroweb. The estimated gain is $16,205,366 on the sale of Euroweb Hungary and Euroweb Romania, which is not reflected in the unaudited pro forma condensed consolidated statements of operations due to the non-recurring nature of the gain.

The unaudited pro forma condensed consolidated balance sheet gives effect to the disposition of Euroweb Hungary and Euroweb Romania as if it occurred on March 31, 2006.

The pro forma adjustments described in the accompanying notes are based upon available information and certain assumptions that management believes are reasonable. The unaudited pro forma condensed consolidated financial statements are for illustrative purposes only and are not necessarily indicative of the actual results of operations or financial position that would have occurred had

the transactions described above occurred on the dates indicated, nor are they necessarily indicative of future operating results. The unaudited pro forma financial statements are only a summary and should be read in conjunction with the historical consolidated financial statements and related notes of Euroweb, in its Form 10-QSB for the quarter ended March 31, 2006 and in its Form 10-KSB for the year ended December 31, 2005.

(B) Pro forma adjustments related to the sale of Euroweb Hungary and Euroweb Romania on the basis described in the introduction to these unaudited pro forma financial statements:

1) Represents the cash proceeds of $30,000,000 received upon the sale of Euroweb Hungary and Euroweb Romania.

2) Represents the acquisition of 85% ownership of Navigator from Euroweb Hungary by Euroweb for $8,500,000 at the date of closing.

3) Reflects the repayment of $2,500,000 intercompany loan from Euroweb Hungary to Euroweb at the date of closing originated from the Navigator acquisition

4) Adjustment to eliminate assets sold and liabilities transferred upon the sale of Euroweb Hungary and Euroweb Romania

5) Adjustment to reflect the estimated direct transaction costs, bonuses, success fees, severances and accrued provision on estimated warranty claims totalling $1,900,000, to be paid, payable in connection with the sale

6) Adjustment to reflect the pro forma gain on the sale of Euroweb Hungary and Euroweb Romania, after estimated direct transaction costs, bonuses, success fees, severances and accrued provision on estimated warranty claims of $1,900,000 to be paid or payable in connection with the sale. No tax liability is expected to arise as a result of the sale. Because the estimated pro forma gain assumes the sale was consummated on March 31, 2006, the pro forma gain will ultimately differ from the actual gain that will occur at the closing date of sale.

7) Adjustment to eliminate cumulative other comprehensive gain/losses of Euroweb Hungary and Euroweb Romania

No adjustments have been made to reflect any income tax effect of the pro forma adjustments since Euroweb has significant net operating loss carryforwards and, therefore, does not expect to have taxable income in the foreseeable future.

ITEM 24. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Our Articles of Incorporation, as amended, provide to the fullest extent permitted by Delaware law, our directors or officers shall not be personally liable to us or our shareholders for damages for breach of such director's or officer's fiduciary duty. The effect of this provision of our Articles of Incorporation, as amended, is to eliminate our right and our shareholders (through shareholders' derivative suits on behalf of our company) to recover damages against a director or officer for breach of the fiduciary duty of care as a director or officer (including breaches resulting from negligent or grossly negligent behavior), except under certain situations defined by statute. We believe that the indemnification provisions in its Articles of Incorporation, as amended, are necessary to attract and retain qualified persons as directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Company of expenses incurred or paid by a director, officer or controlling person of the Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Company will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

ITEM 28. UNDERTAKINGS.

The undersigned Company hereby undertakes to:

(1) File, during any period in which offers or sales are being made, a post-effective amendment to this registration statement to:

(i) Include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended (the "Securities Act");

(ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of the securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) under the Securities Act if, in the aggregate, the changes in volume and price represent

no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement, and

(iii) Include any additional or changed material information on the plan of distribution.

(2) For determining liability under the Securities Act, treat each post-effective amendment as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering.

(3) File a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.

(4) For purposes of determining any liability under the Securities Act, treat the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Company pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act as part of this registration statement as of the time it was declared effective.

(5) For determining any liability under the Securities Act, treat each post-effective amendment that contains a form of prospectus as a new registration statement for the securities offered in the registration statement, and that offering of the securities at that time as the initial bona fide offering of those securities.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities (other than the payment by the Company of expenses incurred or paid by a director, officer or controlling person of the Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Company will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
