Euroweb International Corp.

Notes to Unaudited Condensed Consolidated Financial Statements

1. Organization and Business

Euroweb International Corp. ("Euroweb") is a Delaware corporation, which was incorporated on November 9, 1992. Euroweb and its subsidiaries are collectively referred to herein as the "Company". The Company was a development stage company through December 31, 1993.

The Company operates in Hungary through our wholly-owned subsidiary Navigator Informatika Rt. ("Navigator") and currently in the United States ("USA") through our wholly-owned subsidiary Euroweb RE Corp. ("ERC"), a Nevada corporation.

The Company operates in two industry segments, providing a full range of information technology ("IT") outsourcing services through Navigator in Hungary and real estate development business through ERC in the USA. The IT outsourcing services provided by the Company are primarily comprised of IT maintenance, procurement, consultancy and related services. In June 2006, the Company commenced operations in the real estate industry through ERC, which includes development and subsequent rent or sale of real estate, as well as investment in the form of loans provided to, or ownership acquired in, property development companies. In addition to these two segments, the Company also separately manages and analyzes the activity of the parent company, Euroweb International Corporation, a legal entity registered in the State of Delaware.

On April 15, 2005, the Company disposed of Euroweb Slovakia a.s. ("Euroweb Slovakia") for cash in the amount of \$2,700,000 and, as a result, has ceased operations in Slovakia. On December 15, 2005, the Board of Directors decided to sell 100% of Euroweb Internet Szolgaltato Rt. ("Euroweb Hungary") and Euroweb Romania S.A. ("Euroweb Romania"). On December 19, 2005, the Company entered into a share purchase agreement with Invitel Tavkozlesi Szolgaltato Rt. ("Invitel"), a Hungarian joint stock company, to sell 100% of the Company's interest in Euroweb Hungary and Euroweb Romania. The closing of the sale of Euroweb Hungary and Euroweb Romania occurred on May 23, 2006 upon our receipt of the first part of purchase price of \$29,400,000. The remaining part of purchase price of \$613,474 was fully paid in two instalments: \$232,536 in June and \$380,938 in the beginning of July 2006. The purchased price was partly utilized for the repayment of \$6,044,870 Commerzbank loan in order to ensure debt free status of the subsidiaries, and with the arrangement of \$2,091,133 transaction costs.

Approximately 89% of the consolidated revenue for the six months ended June 30, 2006 was generated from the four most significant customers of the Company as follows:

	Revenue Generated	As a %
Company 'A':	\$ 874,873	25.77
Company 'B':	847,303	24.96
Company 'C':	732,160	21.57

Total revenue:	\$3,394,517	100.00

2. Basis of Presentation and Significant Accounting Policies

Basis of Presentation. The interim unaudited condensed consolidated financial statements of Euroweb and its consolidated subsidiaries included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") regarding interim financial information and, accordingly, do not include all of the information and note disclosures required by accounting principles generally accepted in the United States of America ("U.S. GAAP") for complete financial statements. These unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2005, appearing in the Annual Report on Form 10-KSB of the Company for the year then-ended.

All intercompany balances and transactions have been eliminated in consolidation.

Prior periods have been reclassified to conform to current period presentation.

Use of Estimates. The accompanying unaudited interim consolidated financial statements have been prepared in accordance with U.S. GAAP and reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. All such adjustments are of a normal recurring nature. The results of operations for the six months ended June 30, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006.

In preparing the interim unaudited consolidated financial statements, management is required to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results could differ from those estimates.

Stock-based compensation. Prior to January 1, 2006, the Company accounted for its stock-based employee compensation arrangements under the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees ("APB No. 25"), as allowed by Statement of Financial Accounting Standards ("SFAS") No. 123, Accounting for Stock-based Compensation ("SFAS No. 123"), as amended by SFAS No. 148, Accounting for Stock-Based Compensation -- Transition and Disclosure ("SFAS No. 148"). As a result, no expense was recognized for options to purchase its common stock that were granted with an exercise price equal to fair market value at the date of grant and no expense was recognized in connection with purchases under our employee stock purchase plan for the years ended December 31, 2005 or 2004, nor in the three and six months ended June 30, 2005.

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123 (revised 2004) Share-Based Payment ("SFAS No. 123R"), which replaces SFAS No. 123 and supersedes APB No. 25. SFAS No. 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values beginning with the first interim or annual period after December 15, 2005 for small business issuers. Subsequent to the effective date, the pro forma disclosures previously permitted under SFAS No. 123 are no longer an alternative to financial statement recognition. Effective January 1, 2006, the Company have adopted SFAS No. 123R using the modified prospective method.

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 10QSB

Euroweb International Corp.

Notes to Unaudited Condensed Consolidated Financial Statements

Under this method, compensation cost recognized during the three-month and six months ended June 30, 2006, includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of June 30, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123 amortized on a straight-line basis over the options' vesting period, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123R amortized on a straight-line basis over the options' vesting period. The Company utilizes a Black-Scholes option-pricing model to measure the fair value of stock options granted to employees. See Note 5 to the Company's Unaudited Condensed Consolidated Financial Statements for a further discussion on stock-based compensation. Pro forma results for prior periods have not been restated. The adoption of SFAS No. 123R had no impact on cash flows from operations, investing or financing.

The Company estimates the fair value of each option award on the date of the grant using the Black-Scholes option valuation model. Expected volatilities are based on the historical volatility of the Company's common stock over a period commensurate with the options' expected term. The expected term represents the period of time that options granted are expected to be outstanding and is calculated in accordance with the SEC guidance provided in the SEC's Staff Accounting Bulletin 107, ("SAB 107"), using a "simplified" method. The risk-free interest rate assumption is based upon observed interest rates appropriate for the expected term of the Company's stock options.

The following table summarizes the weighted-average assumptions used in the Black-Scholes model for options granted during the six months of 2005.

	Six months Ended June 30, 2005
Expected volatility	88%
Expected dividends	--
Expected term (in years) ..	6
Risk-free rate	4%

No options have been granted or exercised in the six months ended June 30, 2006.

Prior to 2006, the Company accounted for stock-based compensation in accordance with APB No. 25 using the intrinsic value method, which did not require that compensation cost be recognized for the Company's stock options, provided the option exercise price was not less than the common stock's fair market value on the date of the grant. The Company provided pro-forma disclosure amounts in accordance with SFAS No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure, as if the fair value method defined by SFAS No. 123 had been applied to its stock-based compensation. The net loss amount utilized within the following table illustrates the effect on net loss and net loss per share had the Company applied the fair value recognition provisions of SFAS No. 123 to account for its employee stock option and employee stock purchase plans for the three and six months ended June 30, 2005 because stock-based employee compensation was not accounted for using the fair value recognition method during that period.

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 10QSB

Euroweb International Corp. Notes to Unaudited Condensed Consolidated Financial Statements

The historical pro forma impact of applying the fair value method prescribed by SFAS No. 123 is not representative of the impact that may be expected in the future due to changes in option grants in future years and changes in assumptions such as volatility, interest rates and expected life used to estimate fair value of future grants.

Euroweb International Corp. Notes to Unaudited Condensed Consolidated Financial Statements

Note that the above pro forma disclosure was not presented for the three and six month periods ended June 30, 2006, because stock-based employee compensation has been accounted for using the fair value recognition method under SFAS No. 123R for these periods. As a result of adopting SFAS No. 123R, the impact to the

3. Bank Loans and Overdrafts

On April 6, 2005, the Company entered into a long-term loan agreement with Commerzbank Bank Rt (the "Bank") for \$907,431 at the June 30, 2006 exchange rate, with an interest rate of three month Budapest Interbank Offered Rate ("BUBOR") +2.5%. At June 30, 2006, \$583,348 was outstanding. The loan is repayable in 14 quarterly installments of \$64,816 plus quarterly interest beginning on May 31, 2005. The shares of Navigator were pledged as collateral for this loan, as well as a general lien established on all of the assets of this subsidiary of Euroweb.

In addition to the long-term loan agreement, the Company also entered into an overdraft facility with the Bank for \$586,166 at the June 30, 2006 exchange rate on July 20, 2005. At June 30, 2006, \$360,167 was outstanding. The interest rate is BUBOR + 1.5%.

4. Discontinued Operations and Disposal of Subsidiaries

Completed sale of Euroweb Slovakia

On April 15, 2005, the Company sold Euroweb Slovakia for cash in the amount of \$2,700,000.

Completed sale of Euroweb Hungary and Euroweb Romania

On December 19, 2005, the Company entered into a share purchase agreement with Invitel Tavkozlesi Szolgaltato Rt., a Hungarian joint stock company, to sell Euroweb Hungary and Euroweb Romania, subject to various conditions including, but not limited to, shareholders' approval. The closing of the sale of Euroweb Hungary and Euroweb Romania occurred on May 23, 2006 upon our receipt of the first part of purchase price of \$29,400,000. The remaining part of purchase price of \$613,474 was fully paid in two instalments: \$232,536 in June and \$380,938 in the beginning of July 2006. The purchased price was partly utilized for the repayment of \$6,044,870 Commerzbank loan in order to ensure debt free status of the subsidiaries, and with the arrangement of \$2,091,133 transaction costs.

The sale of Euroweb Slovakia, Euroweb Hungary and Euroweb Romania met the criteria for presentation as a discontinued operation under the provisions of Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long Lived Assets ("SFAS No. 144"). Therefore, amounts relating to Euroweb Slovakia, Euroweb Hungary and Euroweb Romania have been reclassified as discontinued operations in 2005.

Effective January 1, 2006, the Company adopted SFAS No. 123R, which requires the Company to measure the cost of employee services received in exchange for all equity awards granted based on the fair value of the award as of the grant date. SFAS No. 123R supersedes SFAS No. 123 and APB No. 25. The Company adopted SFAS No. 123R using the modified prospective transition method, which requires the Company to record compensation cost related to unvested stock awards as of December 31, 2005 by recognizing the unamortized grant date fair value of these awards over the remaining requisite service periods of those awards, with no change in historical reported earnings. Awards granted after December 31, 2005 are valued at fair value in accordance with the provisions of SFAS No. 123R and are recognized on a straight-line basis over the requisite service periods of each award. The new standard also requires the Company to estimate forfeiture rates for all unvested awards, which it has done for 2006 based on its historical experience.

As of June 30, 2006, the Company has one share-based compensation plan: the 2004 Stock Incentive Plan (the "Plan").

Euroweb International Corp.

Notes to Unaudited Condensed Consolidated Financial Statements

Pursuant to the Plan, 800,000 shares have been provided for the grant of stock options to employees, directors, consultants and advisors of the Company. The plan was approved by the Company's Annual Meeting of Stockholders in May 2004. In 2005, the Plan was adjusted to increase the number of shares of common stock issuable under such plan from 800,000 shares to 1,200,000 shares. The adjustment was approved at the Company's Annual Meeting of Stockholders in June 2005. Option awards must be granted with an exercise price at not less than the fair market price of the Company's common stock on the date of the grant; those option awards generally vest over a three or four-year period in equal increments of 33% or 25%, beginning 6 months after the date of the grant. All

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 10QSB

options granted have contractual terms of six years from the date of the grant and expire 3 months subsequent to the holder leaving the Company. The grant date fair value is calculated using the Black-Scholes option valuation model.

The Company has granted the following options under the Plan:

On April 26, 2004, the Company granted 125,000 options to its Chief Executive Officer, an aggregate of 195,000 options to five employees and an aggregate of 45,000 options to two consultants of the Company. The stock options granted to the other employees and consultants vest at the rate of 80,000 options on November 1, 2004 and October 1 of 2005 and 2006. The exercise price of the options (\$4.78) is equal to the market price on the date the granted. Of the 195,000 options granted to employees, 60,000 options have been expired unexercised due to termination of two employee contracts during 2005. An additional 15,000 options granted to one of the consultants have been expired unexercised in April 2006 due to the termination of the consultant's contract.

In accordance with APB No. 25, compensation expense was not recorded for the options granted to the Chief Executive Officer, and the five employees until December 31, 2005. The adoption of SFAS No. 123R on January 1, 2006 resulted in a compensation charge of \$36,591 and \$73,182 for the three and six months ended June 30, 2006, respectively.

In accordance with SFAS No. 123R, the Company will recognize total compensation charges of approximately \$162,000 for the grants made to the two consultants as such consultants do not qualify as employees. Such compensation charges are recognized over the vesting period of three years. Compensation expense for the three and six months ended June 30, 2006 was \$3,720 and \$9,300 (2005: \$15,100 and \$30,200, respectively).

On March 22, 2005, the Company granted an aggregate of 200,000 options to two of the Company's directors. The stock options granted to the directors on March 22, 2005 vest at the rate of 50,000 options on each September 22 of 2005, 2006, 2007 and 2008, respectively. The exercise price of the options (\$3.40) is equal to the market price on the date the options were granted. In accordance with APB No. 25, compensation charges were not recorded accounted with respect to these grants until December 31, 2005. The adoption of SFAS No. 123R on January 1, 2006 resulted in a compensation charge of \$43,244 and \$86,488, respectively, in the three and six months ended June 30, 2006.

6. Commitments and Contingencies

The Company entered into a six-year agreement with its Chief Executive Officer, Csaba Toro on October 18, 1999, which commenced January 1, 2000, and provided for an annual compensation of \$96,000. The agreement was amended in 2004 and 2005. On May 24, 2006, the Company entered into a Severance Agreement with Mr. Toro in order to define the severance relationship between the two parties. In consideration for Toro agreeing to relinquish and release all rights and claims under the Employment Agreement including the payment of his annual salary, the Company agreed to pay Toro \$750,000. In addition, Toro has submitted his resignation as Chief Executive Officer and as a director of the Company effective June 1, 2006. The severance was paid in full in May 2006.

(b) Lease Agreements

The Company's subsidiary has entered into various capital leases for service equipment, as well as non-cancelable agreement for office premises.

(c) Legal Proceedings

Except as set forth below, there are no known significant legal procedures that have been filed and are outstanding against the Company:

On April 26, 2006, a lawsuit was filed in Delaware Court of Chancery (the

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 10QSB

"Court") by a stockholder of the Company against the Company, each of the Company's directors and CORCYRA d.o.o., a stockholder of the Company that beneficially owns 39.81% of the Company's outstanding common stock of the Company. The Complaint is entitled Laurence Paskowitz v. Csaba Toro et al., C.A. No. 2110-N and was brought individually and as a class action on behalf of certain of the Company's common stockholders excluding defendants and their affiliates. The plaintiff alleges the proposed sale of 100% of the Company's interest in the Company's two Internet and telecom related operating subsidiaries (the "Subsidiaries") constitutes a sale of substantially all of the Company's assets and requires approval by a majority of the voting power of the Company's outstanding common stock under Section 271 of the Delaware General Corporation Law. The plaintiff also alleges the defendants breached their fiduciary duties in connection with the sale of the subsidiaries and the disclosures contained in the proxy statement filed on April 24, 2006. The plaintiff applied for a temporary restraining order seeking to enjoin the special meeting on May 15, 2006.

The Company denies any and all allegations of wrongdoing; however, in the interests of conserving resources, on April 28, 2006, the parties to the litigation entered into a Memorandum of Understanding providing for, subject to confirmatory discovery by plaintiff, the negotiation of a formal stipulation of a settlement of the litigation. Pursuant to the proposed settlement, the Board of Directors of the Company has determined to: (i) increase the vote required to approve the sale of 100% of the Company's interest in the Subsidiaries, (ii) revise the disclosure within the proxy statement to eliminate the bonus of up to US \$400,000, which the Compensation Committee of the Company had the option to pay to select members of management, as the Board of Directors had previously elected to terminate the ability to pay such bonus and (iii) provide supplemental disclosure as contained in the Supplemental Proxy Statement to be mailed to stockholders and filed with the Securities and Exchange Commission on May 3, 2006. The settlement will provide for dismissal of the litigation with prejudice and is subject to Court approval. As part of the settlement, the Company has agreed to pay an amount of attorneys' fees and expenses that are to be negotiated between the two parties or, lieu of such agreement between the two parties, will be determined by the Court.

(d) Elender Rt. Acquisition

On June 9, 2004 the Company acquired all of the outstanding shares of Elender Rt. ("Elender") for \$6,500,000 in cash and 677,201 of the Company's shares of common stock. Under the terms of the agreement, the Company has placed 248,111 unregistered shares of common stock, newly issued and in the name of the Company, with an escrow agent as security for approximately \$1.5 million in loans payable to former shareholders of Elender. The shares will be returned to the Company from escrow once the outstanding loans have been fully repaid. However, if there is a default on the outstanding loan, then the shares will be issued to the other party and the Company is then obliged to register the shares. As of December 31, 2005, the Company had repaid all of the loans that were outstanding. In January 2006, the Company acquired and subsequently cancelled the shares that were placed in escrow.

Pursuant to the registration rights agreement signed on June 1, 2004 with the sellers of Elender, if the shares of the Company's common stock issued to the sellers were not registered within 120 days of Closing (June 9, 2004) for

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 10QSB

reasons attributable to the Company, a penalty of \$2,000 per day is payable until the shares are registered. In case of disposal of Euroweb Hungary and Euroweb Romania, the Company will have to re-register the shares issued in connection with the acquisition of Elender. In case of late registration of these shares may result penalty payment obligation. A registration statement was filed in July 2006, but has not yet become effective.

(e) Navigator Acquisition

The Company entered into a registration rights agreement dated July 21, 2005, whereby it has agreed to file a registration statement registering the 441,566 shares of Euroweb common stock issued in connection with the acquisition within 75 days of the closing of the transaction and have such registration statement declared effective within 150 days from the filing thereof. In the event that Euroweb fails to meet its obligations to register the shares it may be required to pay a penalty equal to 1% of the value of the Shares per month. The Company has obtained a written waiver from the seller stating that the seller will not raise any claims in connection with the filing of registration statement until May 30, 2006. The Company received a waiver extending the registration deadline until September 30, 2006 without penalty.

(f) Indemnities Provided Upon Sale of Subsidiaries

On April 15, 2005, the Company sold Euroweb Slovakia. According to the securities purchase contract (the "Contract"), the Company will indemnify the buyer for all damages incurred by the buyer as the result of seller's breach of certain representations, warranties or obligations as set in the Contract up to an aggregate amount of \$540,000. The buyer shall not be entitled to make any claim under the Contract after the fourth anniversary of the date of the Contract. No claims have been made to date. The Company shall not incur any liability with respect to any claim for breach of representation and warranty or indemnity, and any such claim shall be wholly barred and unenforceable unless notice of such claim is served upon Euroweb by buyer no later than 60 days after the buyer's approval of Euroweb Hungary and Euroweb Romania's statutory financial reports for the financial year 2006, but in any event no later than June 1, 2007. In the case of Clause 8.1.6 (Taxes) or Clause 9.2.4 of SPA, the time period is five years from the last day of the calendar year in which the closing date occurs. No claims have been made to date. The Company has accrued \$201,020 as the estimated fair value of this indemnity.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Operations

Overview

Euroweb International Corp. ("Euroweb" or the "Company") operates in Hungary through our wholly-owned subsidiary, Navigator Informatika Rt. ("Navigator"),

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 10QSB

and currently in the United States of America ("USA") through our wholly-owned subsidiary, Euroweb RE Corp. ("ERC"), a Nevada corporation.

On April 15, 2005, we disposed of Euroweb Slovakia a.s. ("Euroweb Slovakia") for cash in the amount of \$2,700,000 and, as a result, have ceased operations in Slovakia. On December 15, 2005, our Board of Directors decided to sell 100% of Euroweb Internet Szolgaltato Rt. ("Euroweb Hungary") and Euroweb Romania S.A. ("Euroweb Romania"). On December 19, 2005, the Company entered into a share purchase agreement with Invitel Tavkozlesi Szolgaltato Rt. ("Invitel"), a Hungarian joint stock company, to sell 100% of the Company's interest in Euroweb Hungary and Euroweb Romania. The closing of the sale of Euroweb Hungary and Euroweb Romania occurred on May 23, 2006 upon our receipt of the first part of purchase price of \$29,400,000. The remaining part of purchase price of \$613,474 was fully paid in two installments: \$232,536 in June and \$380,938 in the beginning of July 2006. The purchased price was partly utilized for the repayment of \$6,044,870 Commerzbank loan in order to ensure debt free status of the subsidiaries, and with the arrangement of \$2,091,133 transaction costs.

The sale of Euroweb Slovakia, Euroweb Hungary and Euroweb Romania met the criteria for presentation as discontinued operations under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets.", Therefore, Euroweb Slovakia, Euroweb Hungary and Euroweb Romania are reclassified as discontinued operations in the financial statements of the Company in 2005.

The Company operates in two industry segments, providing a full range of information technology ("IT") outsourcing services through Navigator in Hungary and real estate development through ERC currently in the USA. In addition to the two segments, the Company also separately manages and analyzes the activity of the Parent Company, Euroweb International Corporation, a legal entity registered in the State of Delaware.

The Company's two segments provides the following services:

(1) The IT outsourcing services provided by the Company through Navigator primarily comprise IT maintenance, procurement, consultancy and related services. Revenues come from the following three sources:

- o Full service IT System operation comprising full service support and maintenance with a cost-effective and competitive service desk system, call center, hotline support and remote troubleshooting;
- o IT system implementation and IT project management, including consultancy, system design, development and implementation and training; and
- o Sale of IT devices.

22

(2) In June 2006, the Company commenced operations in the real estate industry through ERC. ERC has commenced developments in the real estate industry, which must satisfy the parameters set by the Board of Directors as follows:

- o Any investment in the real estate opportunity (the "Proposed RE Investment"), including loans, shall not exceed a period of three years;
- o The expected return on investment on the Proposed RE Investment will

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 10QSB

be at minimum 15% per year;

- o The Proposed RE Investment will not be leveraged in excess of more than \$1.50 for each \$1.00 invested in equity; and
- o Each Proposed RE Investment will have a clear exit strategy (i.e. purchase, development and sale) and no Proposed RE Investment intent will be to acquire income producing real estate.

On June 14, 2006, the Company entered into a line of credit agreement (the "Line of Credit") with ERC, pursuant to which we agreed to loan ERC up to \$10,000,000, which such loans will be payable on demand and accrue interest of 12% per annum. Pursuant to the terms of the Line of Credit, the Company advanced ERC \$1,000,000 on June 14, 2006 for operational expenses.

On June 19, 2006, ERC entered into an Investment Agreement with a third party, The Aquitania Corp. f/k/a AO Bonanza Las Vegas, Inc. ("AOB"), pursuant to which ERC, within its sole discretion, has agreed to provide secured loans to AOB not to exceed the amount of \$10,000,000. ERC made the first loan to AOB in the amount of \$2,600,000 as of June 20, 2006 and an additional \$167,500 until the end of June, from funds available to ERC from the Company as described above. AOB may request additional funds at anytime after July 15, 2006.

AOB is developing real property in downtown Las Vegas, Nevada, where it intends to build 296 condominiums plus commercial space (the "Property"). AOB obtained entitlements to the Property, and has advised that it expects to break ground and commence sales during 2006.

Each loan provided to AOB is due on demand or upon maturity on January 14, 2008. All loans will be secured by a deed of trust, assignment of rents and security agreement with respect to the property, along with ALTA American Land Title Association title policy to be issued by a title company. All proceeds from the loan are placed in an escrow and are released for specific purposes associated with the development of the Property.

If ERC requests that the funds be paid on demand prior to maturity, then AOB shall be entitled to reduce the amount requested to be prepaid by 10%. The 10% discount will be paid to AOB in the form of shares of common stock of Euroweb, which will be computed by dividing the dollar amount of the 10% discount by the market price of Euroweb's shares of common stock.

The terms of the loans require that ERC to be paid-off the greater of (i) the principal including 12% interest per annum or (ii) 33% of all gross profits derived from the Property.

In addition, ERC has the right to acquire the Property for a purchase price of \$15,000,000 (the "Purchase Price") through January 1, 2015. The Purchase is payable in \$10,000,000 in cash and \$5,000,000 in shares of common stock of the Company (the "AOB Shares"). The number of Shares is determined by dividing \$5,000,000 by the higher of (i) the book value of one share of Euroweb's common stock based on Euroweb's balance sheet filed with the Securities and Exchange Commission immediately prior to the exercise of the option or (ii) the 90 day weighted average price of Euroweb's market price immediately prior to the exercise of the option multiplied by 110%. In the event that the number of shares of common stock issuable upon exercise of the option exceeds the number of shares of common stock that may be issued pursuant to the regulations of the exchange on which Euroweb is trading at the time of the exercise of the option,

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 10QSB

then Euroweb shall use its best efforts to have such issuance approved by the shareholders of Euroweb. If it is unable to obtain such approval, then ERC will pay the balance of the \$5,000,000 in cash.

During June and July 2006, ERC had entered into escrows to acquire vacant lots in California for development of single family houses. These escrows are pending and have not closed as of June 30, 2006.

At June 30, 2006, the Company recorded a goodwill impairment in the amount of \$7,285,032. The goodwill impairment is attributable to the following:

- o Loss of key personnel - As of May 31, 2006, Csaba Toro, former CEO of our company, has resigned. Mr. Toro was solely responsible for Hungarian operational and acquisition related matters, including the IT business line. The lack of Mr. Toro's business reputation and experiences will negatively influence our presence within the Hungarian market.
- o Change in business climate and competition - In line with our future plans for the IT business we were involved in extensive discussions with competitors regarding a future merger with the Navigator group. As a result of Mr. Toro's resignation, those discussions have been suspended and significant movements and ownership changes at our potential targets have occurred during the second quarter of 2006. Presently, there are not target companies available to the Company, which could negatively effects.
- o Change in business climate and regulations - In April 2006, an election was held in Hungary. The new government was forced to introduce a restrictive fiscal policy resulting in higher taxes and other regulations. The additional corporate taxes and labor costs will have a negative impact on our labor intensive industry.
- o Loss of synergy and common customer base - Due to the sale of Euroweb Hungary and Romania, potential synergy effects cannot be realized, including the utilization of a common customer base as a potential target.
- o Difficulties in obtaining new customers - In June 2006, a major IT Group named KFKI was acquired by Magyar Telekom Ltd. The Company believes that this consolidation will have a material effect on the IT service industry in Hungary, and may increase our difficulties in obtaining new customers. Due to the changes in the competitive environment in the second quarter of 2006, we believe that obtaining new large customers will become increasingly difficult, which is essential in fulfilling the original middle term business plan.

24

Based on the events described above, the Company has updated its business projections and performed an impairment test relating to the goodwill as of June 30, 2006. The Company compared the fair value of the reporting unit (Navigator) to their carrying amounts, and recorded a goodwill impairment in the amount of \$7,285,032.

In June 2006, the Company's Board of Directors approved a program to repurchase, from time to time, at management's discretion, up to 700,000 shares of Euroweb's common stock in the open market or in private transactions commencing on June 20, 2006 and continuing through December 15, 2006 at

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 10QSB

prevailing market prices. Repurchases will be made under the program using our own cash resources and will be in accordance with Rule 10b-18 under the Securities Exchange Act of 1934 and other applicable laws, rules and regulations. The Shemano Group will act as agent for our stock repurchase program. As of June 30, 2006, the Company acquired 25,000 shares at a cost of \$66,044.

Critical Accounting Policies

The Company's discussion and analysis of its financial condition and results of operations are based upon its consolidated financial statements that have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). This preparation requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. US GAAP provides the framework from which to make these estimates, assumption and disclosures. The Company chooses accounting policies within US GAAP that management believes are appropriate to accurately and fairly report the Company's operating results and financial position in a consistent manner. Management regularly assesses these policies in light of current and forecasted economic conditions. Accounting policies that management believes to be critical to understanding the results of operations and the effect of the more significant judgments and estimates used in the preparation of the consolidated financial statements are the same as those described in the Annual Report on Form 10-KSB of the Company for the year ended December 31, 2005.

Liquidity and Capital Resources

As of June 30, 2006, our cash, and cash equivalents were approximately \$17.6 million, an increase of approximately \$16.0 million from December 31, 2005. The increase is exclusively the result of cash proceeds from the sale of Euroweb Hungary and Euroweb Romania.

Cash flow used in operating activities for the six months ended June 30, 2006 was \$2.3 million, compared to \$1.4 million cash provided by operating activities in the six months ended June 30, 2005. The \$3.7 million fluctuation is attributable to the current year disposal of the cash producing subsidiaries, Euroweb Hungary and Euroweb Romania, which positively contributed to cash flow from operating activities in 2005. In addition, the parent company has increased losses from continuing operations in 2006 compared to the previous period.

Cash provided by investing activities amounted to \$18.5 million in six months ended June 30, 2006, which included \$21.5 million net of cash collected from the disposal of Euroweb Hungary and Euroweb Romania with the deduction of repayment of Commerbank loans to ensure debt free status and the settlement of transactions costs. In addition, Navigator and ERC related \$0.2 million capital expenditures and \$2.8 million loan provided by ERC for real estate projects decreased the cash from investing activities in the six months ended June 30, 2006. In the six months ended 2005, the Company sold Euroweb Slovakia for \$2.7 million, while capital expenditures from the discontinued Hungarian and Romanian operation was \$1.2 million resulting \$1.5 million cash provided by investing activity.

Cash used in financing activities was \$0.2 and \$1.0 million, respectively, in the six months ended June 30, 2006 and 2005. Navigator related cash used in financing activity was \$0.1 million mainly due to the repayment of bank loans, while \$0.1 million was spent on acquiring treasury stocks. In the six months ended June 30, 2005, net cash used in financing activities was \$1.0 million from loan and note repayments and principal payments under capital lease obligations from discontinued Hungarian and Romanian operations.

The Company currently anticipates that its available cash resources will be sufficient to meet its presently anticipated working capital and capital expenditure requirements for at least the next 12 months. This is primarily attributable to the sale of Euroweb Hungary and Euroweb Romania, which resulted in over \$17.5 million cash available for our Company as of June 30, 2006.

In the event the Company makes future acquisitions, particularly in real estate, the excess cash on hand, additional bank loans or fund raising may be used to finance such future acquisitions. The Company may consider the sale of non-strategic assets or subsidiaries, or raising funds, or both.

Inflation and Foreign Currency

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 10QSB

The Company maintains its books in local currency: Hungarian Forint for Navigator and US Dollars for ERC. ERC is registered in Nevada, while the the Parent Company is registered in the State of Delaware.

The Company's revenue generating operations are outside of the United States through its wholly owned subsidiary Navigator. All the Company's customers are currently in Hungary. As a result, fluctuations in currency exchange rates may significantly affect the Company's sales, profitability and financial position when the foreign currencies, primarily the Hungarian Forint, of its international operations are translated into U.S. dollars for financial reporting. In addition, we are also subject to currency fluctuation risk with respect to certain foreign currency denominated receivables and payables. Although the Company cannot predict the extent to which currency fluctuations may or will affect the Company's business and financial position, there is a risk that such fluctuations will have an adverse impact on the Company's sales, profits and financial position. Because differing portions of our revenues and costs are denominated in foreign currency, movements could impact our margins by, for example, decreasing our foreign revenues when the dollar strengthens and not correspondingly decreasing our expenses. The Company does not currently hedge its currency exposure. In the future, we may engage in hedging transactions to mitigate foreign exchange risk.

29

The translation of the Company's subsidiaries forint denominated balance sheets into U.S. dollars, as of June 30, 2006, has been affected by the weakening of the Hungarian forint against the U.S. dollar from 213.58 as of December 31, 2005, to 221.78 as of June 30, 2006, an approximate 4% depreciation in value. The average Hungarian forint/U.S. dollar exchange rates used for the translation of the subsidiaries forint denominated statements of operations into U.S. dollars, for the six months ended June 30, 2006 and 2005 were 212.84 and 192.49, respectively.

Effect of Recent Accounting Pronouncements

Effective January 1, 2006, the Company adopted the fair value recognition provisions of SFAS No. 123R, Share-Based Payment, using the modified prospective transition method and therefore did not restate results for prior periods. Prior to January 1, 2006 the Company accounted for share-based compensation arrangements in accordance with APB Opinion No. 25, Accounting for Stock Issued to Employees and complied with the disclosure provisions of SFAS No. 123, Accounting for Stock-Based Compensation. SFAS No. 123R requires all public entities that used the fair-value method for either recognition or disclosure under SFAS No. 123 to apply the modified prospective transition method as of the required effective date. As a result, the Company adopted the provisions of SFAS No. 123R using this method, effective January 1, 2006. Under the modified prospective method, new awards are valued and accounted for prospectively upon adoption. Outstanding prior awards that are unvested as of January 1, 2006 are recognized as compensation cost over the remaining requisite service periods, as prior periods may not be restated. The adoption of SFAS No. 123R increased our expenses and reported net loss for the three months ended March 31, 2006 by \$0.1 million.

Management forecasts that the impact of adopting SFAS No. 123R for the twelve months ending December 31, 2006 will be approximately \$0.3 million. This forecast is based on the Black-Scholes option-pricing model, the price of our stock at the time of grants, the volatility of our stock price and the expected forfeiture rates. As such, our actual stock option expense may differ from this

estimate.

Forward-Looking Statements

The Company cautions readers not to place undue reliance on any forward-looking statements, which speak only as of the date made, are based on certain assumptions and expectations which may or may not be valid or actually occur, and which involve various risks and uncertainties. In addition, sales and other revenues may not commence and/or continue as anticipated due to delays or otherwise. PART II

ITEM 1. LEGAL PROCEEDINGS

On April 26, 2006, a lawsuit was filed in Delaware Court of Chancery (the "Court") by a stockholder of Euroweb International Corp. (the "Company") against the Company, each of the Company's directors and CORCYRA d.o.o., a

Edgar Filing: EUROWEB INTERNATIONAL CORP - Form 10QSB

stockholder of the Company that beneficially owns 39.81% of the Company's outstanding common stock of the Company. The Complaint is entitled Laurence Paskowitz v. Csaba Toro et al., C.A. No. 2110-N and was brought individually and as a class action on behalf of certain of the Company's common stockholders excluding defendants and their affiliates. The plaintiff alleges the proposed sale of 100% of the Company's interest in the Company's two Internet and telecom related operating subsidiaries (the "Subsidiaries") constitutes a sale of substantially all of the Company's assets and requires approval by a majority of the voting power of the Company's outstanding common stock under Section 271 of the Delaware General Corporation Law. The plaintiff also alleges the defendants breached their fiduciary duties in connection with the sale of the subsidiaries and the disclosures contained in the proxy statement filed on April 24, 2006. The plaintiff applied for a temporary restraining order seeking to enjoin the special meeting on May 15, 2006.

The Company denies any and all allegations of wrongdoing; however, in the interests of conserving resources, on April 28, 2006, the parties to the litigation entered into a Memorandum of Understanding providing for, subject to confirmatory discovery by plaintiff, the negotiation of a formal stipulation of a settlement of the litigation. Pursuant to the proposed settlement, the Board of Directors of the Company has determined to: (i) increase the vote required to approve the sale of 100% of the Company's interest in the Subsidiaries, (ii) revise the disclosure within the proxy statement to eliminate the bonus of up to US \$400,000, which the Compensation Committee of the Company had the option to pay to select members of management, as the Board of Directors had previously elected to terminate the ability to pay such bonus and (iii) provide supplemental disclosure as contained in the Supplemental Proxy Statement to be mailed to stockholders and filed with the Securities and Exchange Commission on May 3, 2006. The settlement will provide for dismissal of the litigation with prejudice and is subject to Court approval. As part of the settlement, the Company has agreed to pay an amount of attorneys' fees and expenses that is to be negotiated between the two parties or, lieu of such agreement between the two parties, will be determined by the Court.

The Company is not involved currently in other legal proceedings that could reasonably be expected to have a material adverse effect on its business, prospects, financial condition or results of operations.
