Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), requires our executive officers and directors, and persons who beneficially own more than 10% of our common stock, to file initial reports of ownership and reports of changes in ownership with the SEC. Executive officers, directors and greater than 10% stockholders are required by the SEC to furnish us with copies of all Section 16(a) forms they file.

Based upon a review of the copies of the forms furnished to us and written representations from our executive officers and directors, we believe that during fiscal 2006, all Section 16(a) filing requirements applicable to our executive officers, directors and greater than 10% beneficial owners were complied with on a timely basis, except that Gary L. Herman, a director, and Bruce Galloway, a greater than 10% beneficial owner, did not report the changes in their

ownership of our common stock with the SEC on a timely basis. Each of Mr. Herman and Mr. Galloway subsequently filed a Form 5 with the SEC reflecting their ownership of our common stock.

ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Compensation Objectives

We manage and operate full service, mid-priced, casual dining seafood restaurants. One of our central goals is to ensure that our remuneration policy enables us to attract, retain and reward capable employees who can contribute, both short and longer-term, to our success. Equity participation and a strong alignment to stockholders’ interests are key elements of our compensation philosophy. Accordingly, our executive compensation program is designed to provide competitive compensation, support our business goals and reflect our performance. The compensation program reflects the following principles:

- compensation should encourage increased stockholder value;
- compensation programs should reflect and promote our values and reward individuals for outstanding contributions towards business goals; and
- compensation programs should enable us to attract and retain highly qualified professionals

In establishing the 2006 compensation for our executive officers, the Stock Option and Compensation Committee of our board of directors (the “Stock Option and Compensation Committee”):

- analyzed the compensation levels of comparable executive officers within the restaurant industry peer group;
- determined a mix of base salary and bonus opportunity, along with an equity position to align our executive officers’ compensation with our performance;
- assessed our executive officers’ performance; and
- assessed our financial and business results compared to other companies within the restaurant industry and our financial performance relative to our past performance and financial goals.

In fiscal 2006, Leslie J. Christon participated in deliberations of the Stock Option and Compensation Committee regarding executive compensation. However, Mrs. Christon did not participate in deliberations concerning her own compensation. Publicly available executive compensation information, within the restaurant industry peer group, is reviewed and considered by the Stock Option and Compensation Committee in determining executive compensation.

Compensation Elements

Our executive compensation program consists of three parts: base salary, bonus and long-term incentive awards. In awarding salary increases and bonuses, we considered whether the compensation package as a whole appropriately compensated each executive for our performance during fiscal 2006 for that executive's contribution to this performance. In addition, we offer our executive officers severance arrangements and fringe benefits and perquisites, each of which is intended to serve our overall compensation philosophy.

Base Salaries. Base salary represents the fixed component of the executive compensation program. Our practice generally is to maintain base salaries at approximately competitive industry averages. Determinations of base salary levels are established for an annual review of marketplace competitiveness with similar restaurant companies. Periodic increases in base salary relate to individual contributions to our overall performance and relative marketplace competitiveness.

Non-Equity Incentive Awards (Bonuses). Bonuses represent the variable component of the executive compensation program that is tied to our overall performance and to individual achievement. To the extent deemed appropriate, our policy is to grant bonuses as a portion of the compensation paid to our management personnel. In determining bonuses, we consider factors such as our performance during the year and the individual's contribution to that performance. Our executive and management bonus program ("2006 Management Compensation Plan") specifies criteria relating to our financial performance, as well as individual contributions to our company. The bonus potential for each individual is set at the beginning of the year and was 100% of base pay for Mrs. Christon and 35% of base pay for each of Messrs. Kathman, Nelson and Ward. The 2006 Management Compensation Plan specifies measurement criteria based on actual annual cash flow performance versus budget and allows for a bonus incentive based on individual performance (10% of bonus potential).

Long-Term Equity Incentive Awards. We believe that an important goal of the executive compensation program should be to provide executives and key employees, who have significant responsibility for our management, growth and future success, with an opportunity to increase their ownership in our company and the potential for financial gain from increases in our stock price. This approach ensures that the interests of the stockholders, executives and employees will be closely aligned. Therefore, our executive officers and our other key employees are granted long-term incentive awards which give them a right to purchase shares of common stock at a specified price in the future.

We previously granted stock options under our 1995 Employee Stock Option Plan (the "1995 Plan") and our 1996 Employee Stock Option Plan (the "1996 Plan"). Each of the 1995 Plan and the 1996 Plan expired on its respective tenth anniversary as provided in the plan document. The last of the options that remain outstanding under the 1995 Plan and the 1996 Plan expire in May 2011. We currently have one equity incentive plan for employees, the 2002 Equity Incentive Plan (the "2002 Plan"). The 2002 Plan authorizes us to issue incentive stock options ("ISOs"), as defined in Section 422 of the Internal Revenue Code, as amended (the "Code"), and stock options that do not conform to the requirements of that Code section ("Non-ISOs"). The exercise price of each ISO may not be less than 100% of the fair market value of the common stock at the time of grant, except that in the case of a grant to an employee who owns (within the meaning of Section 422 of the Code) 10% or more of our outstanding stock, the exercise price cannot be less than 110% of such fair market value. The exercise price of each Non-ISO may not be less than the par value of the common stock. Options may not be exercised on or after the seventh anniversary (fifth anniversary in the case of an ISO granted to a 10% stockholder) of the date of grant. Options issued prior to June 2005 may not be exercised on or after the tenth anniversary of the date of grant. Options may not be transferred during the lifetime of an option holder.

The 2002 Plan is administered by the Stock Option and Compensation Committee. Subject to the provisions of the 2002 Plan, the Stock Option and Compensation Committee has the authority to determine the individuals to whom the stock options are to be granted, the number of shares to be covered by each option, the option price, the type of option, the option period, the restrictions, if any, on the exercise of the option, the terms for the payment of the option price and other terms and conditions. Payment by option holders upon exercise of an option may be made (as determined by the Stock Option and Compensation Committee) in cash or other such form of payment acceptable to the Stock Option and Compensation Committee, including shares of common stock.

The 2002 Plan also provides for grants of restricted stock units, the value of which is tied to shares of common stock, and other equity based awards related to common stock, including unrestricted shares of common stock, stock appreciation rights and dividend equivalents. Awards of restricted stock, restricted stock units and other types of equity based awards may be made in such amounts, and are subject to such terms and conditions as the Stock Option and Compensation Committee may determine.

The following are the forms of long-term incentive awards that the Stock Option and Compensation Committee may decide to grant to our employees under the 2002 Plan:

Stock Options. The Stock Option and Compensation Committee believes that the option awards are consistent with the objectives of our executive compensation program, as grants of options provide an incentive for the creation of stockholder value, since the benefit of the award can only be realized with an appreciation in the price of our common stock. The grant of options is based primarily on an employee's potential contribution to our growth and financial results. In determining the size of option grants, we also consider the number of options owned by such executive, the number and exercise price of options previously granted and currently outstanding, and the aggregate size of the current option grants. Options generally are granted at the prevailing market value of our common stock and will only have value if our stock price increases. Generally, grants of options vest over time, and the individual must be employed by Shells for the options to vest.

Restricted Stock and Restricted Stock Units. The Stock Option and Compensation Committee may also grant restricted stock and restricted stock units to our executive officers. The Stock Option and Compensation Committee may establish conditions and restrictions on the vesting of such awards and on the issuance of shares of restricted stock as it deems appropriate, including, without limitation, conditions and restrictions based upon continued service, the attainment of specified performance goals and/or other factors and criteria deemed relevant for this purpose. The Stock Option and Compensation Committee has not awarded such restricted stock or restricted stock units to any of our named executive officers.

Other Equity-Based Awards. The Stock Option and Compensation Committee may grant other types of equity-based awards, including, without limitation, the grant or offer for sale of unrestricted shares of common stock and/or the grant of stock appreciation rights or dividend equivalents, in such amounts and subject to the terms and conditions as the Stock Option and Compensation Committee determines. These other equity-based awards may be granted to comply with or take advantage of applicable local laws or jurisdictions other than the United States. The Stock Option and Compensation Committee has not awarded such other equity-based awards to any of our named executive officers.

Severance Arrangements. In connection with the employment agreements we entered into with each named executive officer, the Stock Option and Compensation Committee determined that the adoption of a severance structure which is competitive with those offered by similarly situated public companies in the restaurant industry would advance the objectives which the Stock Option and Compensation Committee has established for our executive compensation program. In addition, the Stock Option and Compensation Committee believes that formalizing our severance practices benefits us by providing us with certainty in terms of our obligations to an eligible executive in the event that our relationship with any such executive is severed.

The selection of the measures used to determine the amounts payable upon the happening of certain events as well as the selection of the types of events which trigger severance payments, represent the determination by the Stock Option and Compensation Committee and our Board of Directors regarding the best position for us to be in should any such event occur in light of the objectives which have been established for our executive compensation program. The severance payment structure also benefits us by virtue of the confidential information, non-competition, non-solicitation provisions, which inure to our benefit in the event that an eligible executive severs employment with us. In the event of change-in-control, severance payments are applicable if an executive is terminated without cause or if executive terminates employment due to a significant diminution in responsibilities or a relocation in excess of 50 miles from Tampa, Florida. Mrs. Christon and Mr. Nelson also receive severance payments in the event of termination without cause.

Fringe Benefits and Perquisites. Our named executive officers are eligible to participate in COBRA health insurance or in any other benefits generally available to our executives. Leslie J. Christon is entitled to an automobile allowance of \$1,000 per month, plus maintenance, reimbursement for the cost of gasoline used for daily commutation to work and for business travel and automobile insurance. In his role as Vice President of Operations, Mr. Kathman utilizes a company owned vehicle for his travel to and supervision of our restaurants. Mrs. Christon and Messrs. Kathman and Nelson each hold company paid life insurance policies.

Adjustment or Recovery of Payments or Awards

We do not have a policy regarding the adjustment or recovery of payments or awards (other than as required by law) if relevant performance measures are restated or otherwise adjusted in a manner that would reduce the size of an award or payment.

Impact of Tax Treatments on Compensation

Section 162(m) of the Code limits the annual tax deduction for public companies to \$1 million for compensation paid to a company's chief executive officer or any of the four other most highly compensated executive officers. Qualifying performance-based compensation is not subject to the deduction limit if the Code requirements are met. While such stock options vest over a specified period of time contingent upon the option holder's continued employment, such stock options only have value if our performance results in a stock price higher than the price on the date of grant.

While we intend to seek to take advantage of favorable tax treatment for executive compensation where appropriate, the primary drivers for determining the amount and form of executive compensation must be the retention and motivation of superior executive talent rather than tax-based considerations.

Future Periods

The foregoing discussion describes the compensation objectives and policies which we utilized with respect to our named executive officers during 2006. In the future, as the Stock Option and Compensation Committee continues to review each element of the executive compensation program with respect to our named executive officers, the objectives of our executive compensation program, as well as the methods which the Compensation Committee utilizes to determine both the types and amounts of compensation to award to our named executive officers, may change.

STOCK OPTION AND COMPENSATION COMMITTEE REPORT

The Stock Option and Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management. Based on its review and discussions with management, the Stock Option and Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Annual Report on Form 10-K.

Stock Option and Compensation Committee,

Summary Compensation Table

The following table summarizes compensation earned by the Chief Executive Officer, Chief Financial Officer and the two other executive officers (each, a “named executive officer”) for the year ended December 31, 2006:

- (1) All of the salaries and non-equity incentive plan compensation for the named executive officers in 2006 were paid in cash.
- (2) Option awards consist of compensation cost recognized in our financial statements with respect to awards granted in previous fiscal years and the subject fiscal year. Option awards are expensed on a straight-line basis over the vesting period of the award. The option awards are valued at fair value using the Black-Scholes option pricing model. Effective January 1, 2006, we adopted the fair value based method of accounting for stock-based employee compensation as required by SFAS No. 123R, “Share-Based Payment.” The fair value based method requires us to expense all stock-based employee compensation. See Note 1 and Note 14 to our audited financial statements for the 2006 fiscal year, contained in Part I Item 8 “Financial Statements”, to this Annual Report on Form 10-K, for the methodology used and assumptions made in the valuation of our options.
- (3) All non-equity incentive plan compensation earned by our named executive officers for the 2006 fiscal year under the 2006 Management Compensation Plan was paid during such period as disclosed in the column above. See Compensation Discussion and Analysis for a discussion of the 2006 Management Compensation Plan.

Other compensation for Mrs. Christon includes an automobile allowance of \$12,000 and life insurance premiums paid by Shells of \$530.

- (5) Other compensation for Mr. Nelson consists of life insurance premiums paid by Shells of \$868, in aggregate, for policy years covering 2005 and 2006.
- (6) Other compensation for Mr. Kathman consists of life insurance premiums paid by Shells of \$516.

Narrative Discussion of Summary Compensation Table Information

The following is a narrative discussion of the material factors which we believe are necessary to understand the information disclosed in the foregoing Summary Compensation Table. The following narrative disclosure is separated into sections, with a separate section for each of our named executive officers.

Leslie J. Christon

Cash Compensation (Base Salaries and Bonuses). Mrs. Christon was awarded total cash compensation for her services to us in 2006 in the amount of \$321,155. Of this sum, \$300,000 represents Mrs. Christon's annual base salary for 2006 and \$21,155 represents an amount earned or paid to Mrs. Christon as a cash bonus under the 2006 Management Compensation Plan and her employment agreement. The base salary and cash bonus paid to Mrs. Christon for 2006 constituted approximately 90% and 6%, respectively, of the total compensation paid to Mrs. Christon as set forth in the "Total" column in the Summary Compensation Table.

The Stock Option and Compensation Committee determined it appropriate to increase the annual base salary and decrease the cash bonus to Mrs. Christon for her services to us in 2006. In determining Mrs. Christon's base salary and cash bonus for 2006, the Stock Option and Compensation Committee considered the competitive trends, our overall performance and resources, general economic conditions, the compensation level of similarly situated executives at our peer companies, and a number of factors relating to Mrs. Christon including the performance of Mrs. Christon and her level of experience, ability and knowledge. Based on our performance and Mrs. Christon's contribution to such performance for 2006, Mrs. Christon's annual base salary and cash bonus was adjusted from \$287,115 and \$89,375, respectively, in 2005 to \$300,000 and \$21,155, respectively, in 2006. Quantitative and qualitative factors, such as our financial performance, were considered in determining Mrs. Christon's base salary. Her industry experience, past performance, and the total cash compensation necessary to retain top executive talent were also important factors in determining base salary.

Long-Term Equity Incentive Awards. In fiscal 2003, pursuant to her employment agreement, Mrs. Christon was granted an option to purchase 297,374 shares of common stock. The option vested annually over two years. Integral to the financing completed on May 24, 2005, the Board of Directors ratified two option grants, one prior to the financing and the second following the financing. On March 21, 2005, Mrs. Christon was granted an option to purchase 450,000 shares which vest as to one-third of the shares on each anniversary of the grant date. On June 13, 2005, Mrs. Christon was granted an option, subject stockholder approval of an increase of the authorized shares under the 2002 Plan, to purchase 450,000 shares which vested as to one-third of the shares on December 31, 2005 and vests as to one-third of the shares on each of June 13, 2007 and June 13, 2008. Effective July 1, 2005, we entered into an Amended and Restated Employment Agreement with Mrs. Christon. In connection therewith, we granted Mrs. Christon options to purchase an additional 1,061,535 shares of our common stock which vested as to 353,845 shares on December 31, 2005, and will vest as to 353,845 shares on each of July 1, 2007 and July 1, 2008, subject to her continued employment with Shells. These stock options consist of (a) options to purchase 903,528 shares pursuant to a Stock Option Agreement, dated November 14, 2005, by and between Mrs. Christon and us, (b) options to purchase 100,000 shares pursuant to our 2002 Plan and (c) the options to purchase 58,007 shares pursuant to our 1996 Plan. Based on the vesting schedule of the options, we expect to recognize compensation expense of approximately \$207,000 in each of 2007 and 2008 as a result of the adoption of FASB Statement No. 123-R, "Share-Based Payment." Further, in the event our common stock is not publicly traded, we shall have the right to repurchase any shares purchased by Mrs. Christon upon the exercise of her option to purchase 1,061,535 shares granted on November 14, 2005 at the fair market value of such shares by giving written notice to Mrs. Christon within one year after her employment is terminated. No long-term incentive awards were granted to Mrs. Christon in 2006.

Fringe Benefits and Perquisites. Mrs. Christon is entitled to an automobile allowance of \$1,000 per month, plus maintenance, reimbursement for the cost of gasoline used for daily commutation to work and for business travel and automobile insurance. Warren R. Nelson

Cash Compensation (Base Salaries and Bonuses). Mr. Nelson was awarded total cash compensation for his services to us in 2006 in the amount of \$176,388. Of this sum, \$166,904 represents Mr. Nelson's annual base salary for 2006 and \$9,484 represents an amount earned or paid to Mr. Nelson as a cash bonus under the 2006 Management Compensation Plan. The base salary and cash bonus paid to Mr. Nelson for 2006 constituted approximately 88% and 5%, respectively, of the total compensation paid to Mr. Nelson as set forth in the "Total" column in the Summary Compensation Table.

The Stock Option and Compensation Committee determined it appropriate to increase the annual base salary and decrease the cash bonus to Mr. Nelson for his services to us in 2006. In determining Mr. Nelson's base salary and cash bonus for 2006, the Stock Option and Compensation Committee considered the competitive trends, our overall performance and resources, general economic conditions, the compensation level of similarly situated executives at our peer companies, and a number of factors relating to Mr. Nelson including the performance of Mr. Nelson and his level of his experience, ability and knowledge. Based on our performance and Mr. Nelson's contribution to such performance for 2006, Mr. Nelson's annual base salary and cash bonus was adjusted from \$161,885 and \$36,540, respectively, in 2005 to \$166,904 and \$9,484, respectively in 2006. Quantitative and qualitative factors, such as our financial performance, were considered in determining Mr. Nelson's base salary. His industry experience, past performance, and the total cash compensation necessary to retain top executive talent were also important factors in determining base salary.

Long-Term Equity Incentive Awards. Integral to the financing completed on May 24, 2005, the Board of Directors ratified two option grants, one prior to the financing and the second following the financing. Whereas, an option to purchase 58,992 shares was to replace options previously expired or significantly under water.

Fringe Benefits and Perquisites. Mr. Nelson is eligible to participate in certain retirement, COBRA health insurance, 401(k) or any other plan or arrangement, or in any other benefits generally available to our executive officers. We reimburse Mr. Nelson for the premiums on a \$240,000 term life insurance policy which is payable to a beneficiary designated by Mr. Nelson.

Termination of Employment and Change in Control Arrangements

Severance Arrangements

The Stock Option and Compensation Committee and our Board of Directors determined that it was in our best interests to provide severance arrangements to our named executive officers, based on such individual's position with us. Accordingly, the amended and restated employment agreement we entered into with Leslie Christon (the "Christon Agreement") provides the terms and conditions for certain payments and benefits upon an involuntary termination of the Mrs. Christon's employment or the occurrence of certain other circumstances that may affect Mrs. Christon, including the termination of her employment following a change in control of Shells. We also entered into severance agreements (the "Executive Severance Agreements") with each of Warren Nelson, Guy Kathman and Christopher Ward, Sr. to provide the terms and conditions for certain payments and benefits upon an involuntary termination of such executive officer's employment or the occurrence of certain other circumstances that may affect such executive officer, including such executive's termination of employment following a change in control of Shells. Mr. Nelson also has a letter agreement with the Board of Directors, dated January 19, 2000, specifying severance payments for termination without cause.

Termination Without Cause. In the event we terminate Mrs. Christon's employment for any reason other than cause or her permanent disability or the death, then, provided that Mrs. Christon executes general release of all claims against us and abides by all restrictive covenants contained in the Christon Agreement, including, the provisions relating to non-competition, non-solicitation and confidentiality, Mrs. Christon will receive as severance payment her then effective base salary for a period commencing on the date of termination and ending on the earlier of the one-year anniversary of such date or the date upon which Mrs. Christon commences to employment with another entity. Mrs. Christon will continue to receive health coverage for herself and her dependents for a one-year period following the date of termination or, if earlier, until she commences employment with another entity. Such severance payments are not provided to Messrs. Nelson, Kathman or Ward under the Executive Severance Agreements. Pursuant to his letter agreement, if Mr. Nelson is terminated without cause, he is entitled to receive severance payments equal to twelve months of his then annual salary payable over the ensuing twelve-month period.

Termination for Cause; Permanent Disability; Death. In the event we terminate Mrs. Christon's employment for cause, or due to her permanent disability or the death she will not be entitled to receive the severance payment described above. Termination for "cause" means termination because of: (a) executive's refusal to perform, or continual neglect of, the duties under the employment agreement which is materially injurious to our company and the neglect is not remedied within 30 days after written notice from us; (b) executive's conviction of any crime or offense involving money or property of Shells or which constitutes a felony; (c) executive's performance or failure to act, for which if executive was prosecuted and convicted, would constitute a crime involving money or property of Shells or which constitutes a felony; (d) any attempt by executive to secure improperly any personal profit in connection with the business of Shells and which, to the extent capable of being cured, is not remedied within 30 days after written notice from us; and (e) executive's breach of covenants relating to non-competition, non-solicitation and confidentiality. (The above for "cause" definition also apply for Messrs. Nelson, Kathman and Ward.) An executive shall be deemed to be "permanently disabled" if, because of ill health, physical or mental disability or for other causes beyond the executive's control, the executive is unable to perform the essential functions of her/his job for 90 consecutive days or for a total of 120 days in any twelve month period.

Termination following a Change in Control. In the event that, within six months of a change in control of Shells, a named executive officer is terminated without cause or a named executive officer terminates her/his employment with us due to (a) a significant diminution in her/his job responsibilities or title or (b) the named executive officer being required to relocate outside of the Tampa, Florida market, then provided that the named executive officer executes a general release of all claims against us and abides by the covenants relating to non-competition, non-solicitation and confidentiality, then all the executive's unvested stock options will vest immediately and the executive shall be entitled to receive a severance payment equal to one year's then effective base salary (in the case of Mrs. Christon and Mr. Nelson) or nine months' then effective base salary (in case of Messrs. Kathman and Ward). In addition, the named executive officer shall continue to receive health coverage for herself or himself and his or her dependents for the one-year period (in case of Mrs. Christon and Mr. Nelson) or nine month period (in case of Messrs. Kathman and Ward) following the date of termination or, if earlier, until the executive commences employment with another entity. A "change in control" is deemed to have occurred if (a) there is consummated (i) any consolidation or merger of Shells in which Shells is not the continuing or surviving corporation or pursuant to which our shares of common stock would be converted into cash, securities or other property, other than a merger of Shells in which the holders of our common stock immediately prior to the merger have not less than 50.1% of the ownership of common stock of the surviving corporation immediately after the merger or (ii) any sale, lease, exchange or other transfer of all, or substantially all, of our assets, (b) our stockholders approve any plan or proposal for our liquidation or dissolution, (c) any person who does not own 5% or more of our outstanding common stock becomes the beneficial owner of 35% or more of our outstanding common stock other than pursuant to a plan or arrangement entered into by such person or (d) during any period of two consecutive years, individuals who constitute the entire board of directors cease to constitute a majority, unless the election of a majority of the new directors was approved by a vote of at least two-thirds of the directors then still in the office.

The Stock Options and Compensation Committee and the Board have determined that such terms of severance payments are customary within the restaurant industry and, as such, are necessary for attracting and retaining capable and qualified senior management.

Effect on the Stock Options

Termination Without Cause. If the optionee's employment terminates for any reason other than cause, permanent disability or death, then (a) that portion of the option that is exercisable on the date of termination remains exercisable by the optionee during 90 day period following the date of termination and (b) that portion of the option that is not exercisable on the date of termination will immediately terminate.

Termination for Cause, Death or Disability. If the optionee's employment with Shells is terminated due to his or her death or permanent disability (as defined above), then (a) the portion of that option that is exercisable on the date of termination remains exercisable by the optionee during the one-year period following the date of termination, provided that, in the event of a termination due to disability, if the optionee dies during such one-year period, then the optionee's beneficiary may exercise the option, to the extent exercisable by the optionee prior to his or her death, for a period of one year following the date of death and (b) the portion of that option that is not exercisable on the date of termination will immediately terminate. If the optionee's employment is terminated for cause (as defined above), then the option will immediately terminate and cease to be exercisable.

Change in Control. If there occurs a change in control of Shells (substantially as defined above), the optionee's right to exercise the options accelerates as follows: (a) if the optionee is not offered a comparable position with Shells, the option immediately becomes vested and exercisable in full or (b) if the optionee is offered a comparable position with Shells, the option immediately becomes vested and exercisable with respect on one-half of the shares of common stock for which this option is not vested and exercisable and if the optionee accepts such comparable position with Shells through the first anniversary of the change in control, the option, to the extent not already vested and exercisable, will become vested and exercisable in full on such first anniversary (or earlier) date. As described above, in the event that, within six months of a change in control of Shells, executive is terminated without cause or executive terminates her/his employment with us due to (a) a significant diminution in her/his job responsibilities or title or (b) the executive being required to relocate outside of the Tampa, Florida market, then provided that the executive executes a general release of all claims against us and abides by the covenants relating to non-competition, non-solicitation and confidentiality, then all the executive's unvested stock options will vest immediately. Under the 1995 Plan and the 1996 Plan, the Board of Directors has discretion relative to accelerating the vesting of options if a change of control occurs.

The following tables provide quantitative disclosures of the estimated payments and benefits that would be provided to each of Messrs. Christon, Nelson, Kathman and Ward, applying the assumptions that each of the triggering events described in their respective employment agreements took place on December 31, 2006 and the last day of employment for the named executive officers was December 31, 2006.

If the executive officer is not offered a comparable position with Shells, the option immediately becomes vested and exercisable in full. If the executive officer is offered a comparable position with Shells, the option immediately becomes vested and exercisable with respect to one-half of the shares of common stock for which the option is not vested and exercisable and if the executive officer accepts such comparable position through the first anniversary of the change in control, the option, to the extent not already vested and exercisable, will become vested and exercisable on such first anniversary, provided executive is not terminated without cause within six months of the change in control or executive terminates his employment with Shells as a result of being required to relocate outside the Tampa, Florida Market.
- (4) Mrs. Christon and Mr. Nelson will continue to receive health coverage for a one-year period following termination and Messrs. Kathman and Ward will receive such premiums for a nine-month period following termination; provided that that such executive does not become employed by another entity during such period.

Non-Competition; Non-Solicitation; Confidentiality

The Christon Agreement and the Executive Severance Agreements provide for the covenants on non-competition and non-solicitation, which each named executive officer is required to abide by to receive severance payments. The termination of the Christon Agreement or any of the Executive Severance Agreements will not affect the enforceability of these covenants. Each named executive officer has agreed that during her or his employment with Shells and for 24 months immediately following the employment term, she or he will not (a) compete with Shells or any of its affiliates in the seafood segment of the restaurant business or become associated with a business enterprise which competes with Shells or its affiliates, provided that if Shells terminates Mrs. Christon's or Mr. Nelson's employment without cause, she or he will not be subject to such covenant; (b) divert business from Shells or its affiliates or solicit, accept or procure business from, divert the business of, or attempt to convert to other methods of using the same or similar services or products as provided by Shells, any customer of Shells; (c) interfere with Shells' or its affiliates' customer and vendor/supplier relationship or (d) solicit for employment, employ or otherwise engage the services of, any employee or agent of Shells or its affiliates. The non-competition provision for the Executive Severance Agreements only applies to the State of Florida and any geographical area in which Shells then has a market presence. The named executive officers agrees that she or he will not, directly or indirectly, use or intentionally disclose or permit to be known to anyone outside of Shells any confidential matters of Shells, except with our prior written consent or as required by court order or law, or when reasonably necessary during the executive's employment by Shells for the executive to perform her or his job duties. Each named executive officer is required to abide by such confidentiality provisions to receive severance payments.

- (1) Represents the annual retainer of \$10,000, paid quarterly, along with the fee for the chairman of the Audit Committee.
 - (2) Option awards consist of compensation cost recognized in our financial statements with respect to awards granted in previous fiscal years and the subject fiscal year. Option awards are expensed on a straight-line basis over the vesting period of the award. The option awards are valued at fair value using the Black-Scholes option pricing model. Effective January 1, 2006, we adopted the fair value based method of accounting for stock-based employee compensation as required by SFAS No. 123R, "Share-Based Payment." The fair value based method requires us to expense all stock-based employee compensation. See Note 1 and Note 14 to our audited financial statements for the 2006 fiscal year, contained in Part I Item 8 "Financial Statements", to this Annual Report on Form 10-K, for the methodology used and assumptions made in the valuation of our options.
 - (3) We granted an aggregate of 150,000 options to purchase our common stock to non-employee directors in 2006 and the aggregate number of options awards outstanding at the fiscal year end was 480,000.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth certain information as of March 31, 2007 regarding the beneficial ownership of our common stock by (i) each person known by us to own beneficially more than 5% of the outstanding common stock; (ii) each current director (all of whom are standing for re-election); (iii) each named executive officer named in the Summary Compensation Table set forth in Part III Item 11 of this Annual Report on Form 10-K; and (iv) all of our directors and named executive officers as a group. Stock options and warrants which are presently exercisable or which become exercisable within 60 days of March 31, 2007 into shares of our common stock (or into securities which are convertible into shares of our common stock) are considered beneficially owned shares of common stock. Equity Compensation Plan Information

The information required by this item concerning our common stock which may be issued under our equity compensation plans at December 31, 2006 is set forth under the heading "Equity Compensation Plans" in Part II of this Annual Report on Form 10-K.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information set forth below briefly describes certain transactions between us and certain parties who or which may be deemed to be affiliated with us.

On December 28, 2004, we entered into a consulting agreement with Lawrence Wolf, the father of Jay A. Wolf, a member of our Board of Directors. The consulting agreement had a one year term, and under it, Mr. Lawrence Wolf assisted Shells in providing marketing services, including guidance toward building our creative strategy around the “Shells” brand positioning and providing support in coordinating our media production. As compensation, Mr. Lawrence Wolf received options, pursuant to our 2002 Equity Incentive Plan, to purchase 130,000 shares of common stock at an exercise price of \$0.83, the market price of the common stock on the date of grant. The options fully vested on the first anniversary of the grant date. During fiscal year 2005, the contract was renewed for an additional year, and Mr. Lawrence Wolf was granted an additional option to purchase 130,000 shares of our common stock at an exercise price of \$0.90, the market price of our common stock on the date of grant. The contract was not renewed in fiscal 2006 and we did not pay Mr. Wolf any compensation for his services during fiscal 2006. Jay A. Wolf is a member of the Stock Option and Compensation Committee as described in Part III Item 11 of this Annual Report on Form 10-K under the heading “Stock Option and Compensation Committee Interlocks and Insider Participation”.

On September 29, 2005, we sold a certain property to Fortress Realty Investments, LLC at a sale price of approximately \$1.67 million which was considered a fair value purchase amount. Concurrently, we leased a Shells Seafood Restaurant location at 1561 3rd Street in Winter Haven, Florida. The minimum lease term is 20 years with a straight-line annual rent of \$182,000. Subsequently, Fortress Realty Investments, LLC sold the Winter Haven property and assigned its interest as lessor to a third party. On April 27, 2006, we completed a lease buy-out transaction with Fortress Realty Investments, LLC, pursuant to which we transferred our interest in an option embedded in the lease agreement. Concurrently, we leased a Shells Seafood Restaurant location at 1561 3rd Street in Ocala, Florida. The minimum lease term is 20 years with a straight-line annual rent of \$178,000. Subsequently, Fortress Realty Investments, LLC sold the Ocala property and assigned its interest as lessor to a third party. On October 27, 2006, we completed a sale and leaseback transaction with Fortress Realty Investments, LLC, pursuant to which we sold and simultaneously leased back a Shells Seafood Restaurant location at 725 East 3rd Avenue, New Smyrna Beach, Florida at a sale price of approximately \$1.33 million which was considered a fair value purchase amount. The minimum lease term is 20 years with a straight-line annual rent of \$145,000. Fortress Realty Investments is related to Drawbridge Global Macro Fund, L.P. which, after converting their shares of our Series B Preferred Stock, owns 1,333,340 shares of our common stock along with warrants to purchase 666,670 shares of our common stock. Drawbridge is considered a greater than 5% owner of our stock.

The May 2005 Financing Transaction

In May 2005, we completed a financing of \$6.9 million through the private placement of securities to certain accredited investors, which included Trinad Capital, L.P., Bruce Galloway and Frederick R. Adler who are each security holders who beneficially own more than five percent of our common stock. Under the terms of the transaction, we issued 461,954 units, with each unit consisting of (i) one share of our Series B Preferred Stock, initially convertible into twenty shares of our common stock, and (ii) a warrant to purchase ten shares of our common stock at an exercise price of \$1.30 per share. The purchase price was \$15.00 per unit. In addition, we issued a warrant to purchase 37,651 units (consisting of 37,651 shares of our Series B Preferred Stock and warrants to purchase 376,510 shares of our common stock) at a purchase price of \$15.00 per unit to our placement agent in our May 2005 financing. We realized net proceeds of approximately \$5.8 million from the May 2005 financing. Of the total proceeds from our securities issued, \$1,282,000 represented cancellation or conversion of related party debt and \$348,000 represented the conversion of our existing convertible debentures, all of which converted into the securities issued in the transaction. We used a portion of the net proceeds from the May 2005 financing to retire the remaining \$2,232,000 of loans and accrued interest from debenture holders from a debt financing completed in December 2004, as well as

\$8,000 of related party accrued interest. Additionally, in conjunction with the May 2005 financing, \$500,000 principal amount of related party debt was used to exercise warrants to purchase 1,000,000 shares of our common stock.

Revolving Line of Credit

In March 2005, Trinad Capital, L.P. (“Trinad”), Bruce Galloway and Frederick R. Adler provided us with a \$1.6 million revolving line of credit, which was to mature on the earlier of March 31, 2006 or the closing of an aggregate amount of financing providing us not less than \$1.6 million of net proceeds. Trinad Master Fund, Ltd., an affiliate of Trinad, Mr. Galloway and Mr. Adler are each security holders who beneficially own more than five percent of our common stock. Amounts drawn under the line of credit bear interest at the rate of 15% per annum, payable 8% monthly in arrears and 7% deferred until the maturity date. These investors received a fee of \$80,000, in the aggregate, for extending the credit line to us, paid to each investor pro rata in accordance with each investor’s percentage interest (50% for Adler, 30% for Trinad and 20% for Galloway).

In conjunction with the May 2005 Financing Transaction, these investors agreed to extend the maturity date under the line of credit to May 23, 2007 for no additional consideration. As of December 31, 2006, we have drawn \$1,440,000 of the \$1,600,000 line of credit availability, to assist in the financing of two restaurant acquisitions in the fourth quarter of 2005 and to fund remaining remodeling costs and working capital requirements. During 2006, we paid \$98,561 in interest payments. In addition, as of December 31, 2006, we owe \$87,453 in deferred interest on the outstanding debt. It is not expected that we will be able to borrow the remaining \$160,000 under the credit line. We did not repay any of the principal amount during the 2006 fiscal year.

On March 30, 2007, the maturity date was further extended to May 23, 2008 at an extension fee, in common stock, based on 7% of the amount borrowed of \$1,440,000. On the extension date, our price per share of common stock was \$0.45, resulting in an extension fee of 224,000 shares of our common stock, with a recognized transaction cost of \$101,000. Our Audit Committee approved the terms of this extension upon receipt of a fairness opinion conducted by a third party valuation expert upon the request of the Audit Committee.

Review, Approval or Ratification of Transactions with Related Persons

In connection with the review and approval or ratification of a related party transaction, each member of our management must disclose to Executive Management and/or the Chair of the Audit Committee, as applicable, the material terms of the related party transaction, including the approximate dollar value of the amount involved in the transaction, and all the material facts as to the related party’s direct or indirect interest in, or relationship to, the related party transaction. The Audit Committee, in accordance with its amended charter dated December 22, 2006, reviews and approves all related party transactions. The Audit Committee must advise the Board of the related party transaction and any requirement for disclosure in our applicable filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended and related rules, and, to the extent required to be disclosed, management must ensure that the related party transaction is disclosed in accordance with such acts and related rules.

Director Independence

The Board of Directors is composed of a majority of directors who satisfy the criteria for independence under Rule 4200(a)(15) of NASDAQ Stock Market. In determining independence, each year the Board of Directors affirmatively determines, among other items, whether the directors have no relationship that would interfere with the exercise of independent judgment in carrying out the responsibility of a director. Applying these independence standards, the Board of Directors has determined that Messrs Illick and Golding are independent directors. The Board of Directors also determined that Mr. Hoffman, who resigned as a director and member of the Audit Committee effective as of January 1, 2007, was an independent director during the 2006 fiscal year.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The following table presents the aggregate fees for professional audit services and other services performed by Kirkland, Russ, Murphy & Tapp, P.A. our independent registered public accounting firm, in 2006 and 2005:

CATEGORY	FISCAL YEAR	
	2006	2005
Audit Fees	\$ 93,800	\$ 63,500
Audit-Related Fees	-	-
Tax Fees	16,000	17,000
All Other Fees	2,425	62,608
Total Fees	\$ 112,225	\$ 143,108

“All Other Fees” in fiscal 2006 consists of \$1,450 relating to fees incurred in connection with management’s preparation for the assessment of internal controls over financial reporting as required by the Sarbanes-Oxley Act of 2002 and \$975 relating to tax planning. “All Other Fees” in fiscal 2005 consists of \$60,858 relating to fees incurred in connection with our securities offering in May 2005 and \$1,750 relating to tax planning. The Audit Committee of the Board of Directors has determined that the performance and services related to “Tax Fees” and “All Other Fees” is compatible with maintaining the independence of Kirkland Russ.

We have a policy that discourages the retention of our independent registered public accounting firm for non-audit services. We will not retain our independent registered public accounting firm for non-audit work unless: (a) the approvals of the Chair of the Audit Committee and the Chief Financial Officer are obtained prior to the retention; and (b) the retention will not affect the status of the auditors as “independent accountants” under applicable rules of the SEC and the Independence Standards Board.

The details regarding any engagement of the independent registered public accounting firm for non-audit services are provided promptly to the full Audit Committee. During fiscal 2006 and 2005, all of the services provided by Kirkland, Russ, Murphy & Tapp, P.A. for the services described above under “Audit-Related Fees”, “Tax Fees” and “All Other Fees” were pre-approved using the above procedures.
