ANNUAL CAPS FOR IMPORT AND EXPORT AGENCY SERVICES

Reference is made to the announcement and the circular of the Company dated 29 April 2008 and 13 May 2008 respectively in relation to, inter alia, the continuing connected transactions in respect of the provision of Agency Services by the Import & Export Company to the Group.

The annual cap for the Agency Services provided by the Import & Export Company for the year ended 31 December 2008 was set at RMB42.70 million. However, as at 31 December 2008, the aggregated commissions and expenses payable by the Company to Import & Export Company for its provision of such services for the year 2008 was approximately RMB47.26 million, exceeding the 2008 annual cap the Company has previously anticipated. It is expected that the annual caps for 2009 and 2010 for the aggregate commissions and expenses payable by the Company to Import & Export Company as previously anticipated will also increase to RMB60 million and RMB69.50 million respectively.

All applicable percentage ratios of the transactions relating to the provision of Agency Services by Import & Export Company to the Group under the Import and Export Agency Agreement for the financial year ended 31 December 2008 are less than 2.5%, and for the two years ending 31 December 2009 and 2010 respectively are expected to be less than 2.5%. Therefore, such transactions are subject to the announcement requirements of the Listing Rules but are exempt from shareholders' approval requirement.

REVISIONS OF THE ANNUAL CAPS

Reference is made to the announcement and the circular of the Company dated 29 April 2008 and 13 May 2008

respectively in relation to, inter alia, the continuing connected transactions in respect of the provision of Agency Services by the Import & Export Company to the Group.

As disclosed in the said announcement and circular of the Company, the annual caps for the transactions relating to the provisions of the Agency Services for the three financial years ending 31 December 2008, 2009 and 2010 are not expected to exceed RMB42.70 million, RMB45 million and RMB48 million respectively.

However, the demand for aircraft related accessories, machinery and equipment required has increased and thus the service fees and commissions payable by the Company to Import & Export Company for its provision of the Agency Services have increased to an extent greater than the Company has previously anticipated. This is mainly due to the following reasons:

Due to market fluctuation, the Company has leased more aircraft from aircraft leasing companies in 2008 than previous years whereby more maintenance services are required as the leased aircraft are not newly bought aircraft. As such, the Company has increased its demand for aircraft related accessories, machinery and equipment and thus the demand for the Agency Services has increased greater than previously anticipated.

Further, the aircraft and their engines have certain cycles for overhaul, which vary pursuant to the frequency of flights. In 2008, quite a number of aircraft and their engines have undertaken the overhaul services which resulted in the increase in the demand for the Agency Services.

The annual cap for the Agency Services provided by the Import & Export Company for the year ended 31 December 2008 was set at RMB42.70 million. However, as at 31 December 2008, the aggregated commissions and expenses payable by the Company to Import & Export Company for its provision of such services for the year 2008 was approximately RMB47.26 million, exceeding the 2008 annual cap by approximately RMB4.5 million.

As noted above, the aircraft of the Company have certain cycles for overhaul. It is anticipated that a number of aircraft of the Company will have to undertake overhaul services in the coming years. Taking into account this factor and the gradual and organic growth of the Group's business over these years, it is expected that the annual caps for 2009 and 2010 for the aggregate commissions and expenses payable by the Company to Import & Export Company as previously anticipated will increase to RMB60 million and RMB 69.50 million respectively.

The existing annual caps and the proposed revised annual caps for the Agency Services for the two financial years ending 31 December 2009 and 2010 are as follows:

For the financial year ending 31 December	Year 2009	Year 2010
Existing annual cap	RMB45 million	RMB48 million
Revised annual cap	RMB60 million	RMB69.50 million

All applicable percentage ratios of the transactions relating to the provision of Agency Services by Import & Export Company to the Group under the Import and Export Agency Agreement for the financial year ended 31 December 2008 are less than 2.5%, and for the two years ending 31 December 2009 and 2010 respectively are expected to be less than 2.5% on an annual basis. Therefore, such transactions are subject to the announcement requirements of the Listing Rules but are exempt from shareholders' approval requirement.

The directors of the Company (including the independent non-executive directors) consider that the above continuing connected transactions are on normal commercial terms, in the ordinary and usual course of business, fair and reasonable and in the interests of the shareholders of the Company as a whole.
