## **Item 2.05. Costs Associated with Exit or Disposal Activities**

On November 7 and 11, 2014, the Board of Directors of Chemtura Corporation (the “Company”) approved a restructuring plan to (i) eliminate the stranded costs from the previously announced sale of the Chemtura AgroSolutions business; (ii) reduce the Company’s manufacturing costs at several manufacturing facilities worldwide; and (iii) reduce selling, general and administrative costs at several locations. The Company expects to incur restructuring charges of approximately \$37 million comprising severance and related employee costs to be recorded primarily in the fourth quarter of 2014 and the first quarter of 2015. The Company expects that the cash expenditures associated with these actions will continue into the third quarter of 2015. The restructuring plan related to manufacturing and SG&A is anticipated to result in approximately \$62 million of annual cost reductions that is expected to be fully reflected in the Company’s performance by the third quarter of 2015, with annual savings of approximately \$50 million for the calendar year of 2015. Of the \$15 million of annual stranded costs, the Company anticipates having eliminated such costs by the second quarter of 2015 with approximately \$3 million being incurred in the first quarter of 2015. As required by law or contract, the Company will consult with each of the affected locations local Works Councils prior to the implementation of the restructuring plan as it applies to that location.

The cost estimates set forth in this item 2.05 constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on the Company’s expectations at the time such statements are made, speak only as of the dates they are made and are susceptible to a number of risks, uncertainties and other factors. The Company’s actual costs may differ materially from expected costs. The Company is unable at this time in good faith to predict the ultimate costs associated with the restructuring plan, or the future impact on the Company’s earnings. These risks are in addition to the other risks cited in the Company’s press releases, public statements and/or filings with the Securities and Exchange Commission, including those identified in the “Risk Factors” section of the Company’s Form 10-K and 10-Q.
