Item 2.05. Costs Associated with Exit or Disposal Activities.

On May 20, 2016, Neuralstem, Inc. (the “Company”), in order to better utilize the Company’s resources on the implementation of its refocused clinical and corporate strategy, committed to a cost-reduction plan. This cost-reduction plan includes a reduction in force across all of the Company’s departments. The Company expects to complete the reduction in force, and to substantially complete the payment of any employee severance and benefits incurred as a result of such action by the end of the second quarter of 2016.

As a result of the reduction in force, the Company estimates that it will incur aggregate expenses of approximately \$750,000 consisting of (i) cash payments of \$700,000 for severance payments, expenses related to the closing of facilities and contingencies, and (ii) charges of \$50,000 related to the vesting of options and extension of exercise periods of such options.
