- OR**
- o **ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**
For the fiscal year ended December 31, 2004
- OR**
- o **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**
For the transition period from _____ to _____

Commission file number 1-14550

(Exact Name of Registrant as Specified in Its Charter)

China Eastern Airlines Corporation Limited
(Translation of Registrant's Name Into English)

The People's Republic of China
(Jurisdiction of Incorporation or Organization)

2550 Hong Qiao Road
Hong Qiao International Airport
Shanghai 200335
The People's Republic of China
(8621) 6268-6268
(Address and Telephone Number of Principal Executive Offices)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
American Depositary Shares Ordinary H Shares, par value RMB1.00 per share	The New York Stock Exchange The New York Stock Exchange*

* Not for trading, but only in connection with the registration of American Depositary Shares. The Ordinary H Shares are also listed and traded on The Stock Exchange of Hong Kong Limited.

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None

(Title of Class)

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

As of December 31, 2004, 3,300,000,000 Ordinary Domestic Shares, par value RMB1.00 per share, were issued and outstanding, and 1,566,950,000 Ordinary H Shares par value RMB1.00 per share, were issued and outstanding. H Shares are Ordinary Shares of the Company listed on The Stock Exchange of Hong Kong Limited.

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark which financial statement item the registrant has elected to follow. Item 17 Item 18

SUPPLEMENTAL INFORMATION AND EXCHANGE RATES

Unless otherwise specified, all references in this annual report to U.S. dollars , dollars or US\$ are to United States dollars; all references to HK dollars or HK\$ are to Hong Kong dollars; all references to Renminbi or RMB are to Renminbi, the legal tender currency of The People's Republic of China, or China or the PRC.

In this annual report, we , us , our , our company or China Eastern means China Eastern Airlines Corporation Limited, a company limited by shares incorporated under the laws of China on April 14, 1995, and, unless the context otherwise requires, its subsidiaries, or, in respect of references to any time prior to the incorporation of China Eastern Airlines Corporation Limited, the core airline business carried on by its predecessor, China Eastern Airlines, which was assumed by China Eastern Airlines Corporation Limited pursuant to the restructuring described in this annual report. CEA Holding means our parent, China Eastern Air Holding Company, which was established on October 11, 2002 as a result of the merger of our former controlling shareholder, Eastern Air Group Company, or EA Group, with China Northwest Airlines Company and Yunnan Airlines Company.

For purpose of this annual report, references to China or the PRC do not include the Hong Kong Special Administrative Region of China, or Hong Kong, the Macau Special Administrative Region of China, or Macau, or Taiwan. References to Chinese should be interpreted accordingly.

CAUTIONARY STATEMENT WITH RESPECT TO FORWARD-LOOKING STATEMENTS

This annual report contains certain forward-looking statements that are, by their nature, subject to significant risks and uncertainties. These forward-looking statements include, without limitation, statements relating to:

our fleet development plans, including, without limitation, related financing, schedule, intended use and planned disposition;

the planned expansion of our cargo operations;

the impact of changes in the policies of the Civil Aviation Administration of China, or the CAAC, regarding route rights;

the impact of the CAAC policies regarding the restructuring of the airline industry in China;

our expansion plans, including acquisition of other airlines;

our marketing plans, including the establishment of additional sales offices;

our plan to add new pilots; and

the impact of unusual events on our business and operations.

The words anticipate , plan , believe , estimate , expect , intend and similar expressions, as they relate to our or its management, are intended to identify some of these forward-looking statements. These forward-looking statements reflect our current view with respect to future events. Actual events or results may differ materially from information contained in these forward-looking statements as a result of a number of factors, including, without limitation:

Table of Contents

any changes in regulatory policies of the CAAC;

the effects of competition on the demand for and price of our services;

the availability of qualified flight personnel and airport facilities;

any significant depreciation of Renminbi or Hong Kong dollars against U.S. dollars, Japanese yen or Euro, the currencies in which the majority of our borrowings are denominated;

the availability and cost of the aviation fuel;

changes in political, economic, legal and social conditions in China;

the fluctuation of interest rates; and

our ability to obtain adequate financing, including any required external debt and acceptable bank guarantees.

Table of Contents

GLOSSARY OF TECHNICAL TERMS

Capacity measurements

ATK (available tonne kilometers) the number of tonnes of capacity available for the carriage of revenue load (passengers and cargo) multiplied by the distance flown

ASK (available seat kilometers) the number of seats made available for sale multiplied by the distance flown

AFTK (available freight tonne-kilometers) the number of tonnes of capacity available for the carriage of cargo and mail multiplied by the distance flown

Traffic measurements

revenue passenger-kilometers or RPK the number of passengers carried multiplied by the distance flown

revenue freight tonne-kilometers or RFTK cargo and mail load in tonnes multiplied by the distance flown

revenue passenger tonne-kilometers or RPTK passenger load in tonnes multiplied by the distance flown

revenue tonne-kilometers or RTK load (passenger and cargo) in tonnes multiplied by the distance flown

Load factors

overall load factor tonne-kilometers expressed as a percentage of ATK

passenger load factor passenger-kilometers expressed as a percentage of ASK

break-even load factor the load factor required to equate traffic revenue with our operating costs assuming that our total operating surplus is attributable to scheduled traffic operations

Yield and cost measurements

passenger yield (revenue per passenger-kilometer) revenue from passenger operations divided by passenger-kilometers

cargo yield (revenue per cargo tonne-kilometer) revenue from cargo operations divided by cargo tonne-kilometers

average yield (revenue per total tonne-kilometer) revenue from airline operations divided by tonne-kilometers

unit cost operating expenses divided by ATK

tonne a metric ton, equivalent to 2,204.6 lbs

Table of Contents**PART I****Item 1. Identity of Directors, Senior Management and Advisers.**

Not applicable.

Item 2. Offer Statistics and Expected Timetable.

Not applicable.

Item 3. Key Information.**A. Selected Financial Data**

The selected income statement data for the years ended December 31, 2000, 2001, 2002, 2003 and 2004 and the selected balance sheet data as of December 31, 2000, 2001, 2002, 2003 and 2004 have been derived from our audited consolidated financial statements, which have been prepared in accordance with the International Financial Reporting Standards, or IFRS, and audited by PricewaterhouseCoopers, an independent registered public accounting firm in Hong Kong. PricewaterhouseCoopers reports in respect of the income statements for the years ended December 31, 2002, 2003 and 2004 and the balance sheets as of December 31, 2003 and 2004 appear on page F-1 of this annual report. You should read Note 39 to our audited consolidated financial statements for a discussion of certain differences between IFRS and the generally accepted accounting principles in the United States, or U.S. GAAP, as they relate to our company, and a reconciliation to U.S. GAAP of profit attributable to shareholders for the years ended December 31, 2002, 2003 and 2004, and owners' equity as of December 31, 2002, 2003 and 2004.

Exchange Rate Information

This annual report contains translations of certain amounts into U.S. dollars solely for your convenience. Except where otherwise specified, translations of amounts from Renminbi to U.S. dollars have been made at the noon buying rate, or the Noon Buying Rate, in New York City for cable transfers in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2004 of US\$1.00 = RMB8.2765. You should not construe the translations as representations that the Renminbi amounts could have been, or could be, converted into U.S. dollars at that rate or at any other rate.

The noon buying rate in New York City for cable transfers as certified for customs purposes by the Federal Reserve Bank of New York was RMB8.2765 = US\$1.00, on June 20, 2005. The following tables set forth certain information concerning exchange rates between Renminbi and U.S. dollars for the periods indicated:

Period	Average ⁽¹⁾ Noon Buying Rate ⁽²⁾ (RMB per US\$)	Period	Noon Buying Rate	
			High (RMB per US\$)	Low (RMB per US\$)
2004	8.2768	December 2004	8.2767	8.2765
2003	8.2772	January 2005	8.2765	8.2765
2002	8.2772	February 2005	8.2765	8.2765
2001	8.2772	March 2005	8.2765	8.2765
2000	8.2784	April 2005	8.2765	8.2765
		May 2005	8.2765	8.2765

(1) Determined by averaging the rates on the last business day of each month during the relevant period.

(2) Noon Buying Rate in New York City for cable transfers payable in foreign currencies as certified for customs purpose by the Federal Reserve Bank of New York.

Table of Contents**Selected Operating Data**

The following table sets forth certain operating data of our company for the five years ended December 31, 2004, which have been derived from financial information prepared in accordance with IFRS and other data provided by us and are not audited. All references in this annual report to our cargo operations, cargo statistics or cargo revenues include figures for cargo and mail.

	Year Ended December 31,

B. Capitalization and Indebtedness

Not applicable.

C. Reasons for the Offer and Use of Proceeds

Not applicable.

D. Risk Factors

An investment in our American Depositary Shares, or ADSs, or H shares involves a number of risks. An investment in our company also involves special concerns and significant risks not usually involved with an investment in the equity securities of a United States company. You should carefully consider the following information about these risks, together with the other information in this annual report.

Government regulation

The Chinese civil aviation industry is subject to a high degree of regulation by the CAAC. Regulatory policies issued or implemented by the CAAC encompass virtually every aspect of airline operations, including, among others:

Table of Contents

route allocation;

pricing of the domestic airfare;

the administration of air traffic control systems and certain airports; and

aircraft registration and aircraft airworthiness certification.

As a result, we may face significant constraints on our flexibility and ability to expand our business operations or to maximize our profitability.

Government ownership and control of our company

Most of the airline companies in China are currently 100% or majority owned either by the central government of China or by provincial or municipal governments in China. CEA Holding currently holds approximately 61.64% of our company's equity interest on behalf of the Chinese government. As a result, CEA Holding will be able to elect our entire board of directors and otherwise be able to control us. CEA Holding will also have sufficient voting control to effect transactions without the concurrence of our minority shareholders. The interests of the Chinese government as the ultimate controlling person of our company and other Chinese airlines could conflict with the interests of our minority shareholders. Although the CAAC currently has a policy of equal treatment for all Chinese airlines, we cannot assure you that the CAAC will not favor other Chinese airlines.

Competition

We face intense competition in each of the domestic, Hong Kong regional and international markets we serve. As a result, we have, from time to time, lowered our airfares for certain of our routes and may continue to do so in the future in order to maintain passenger traffic and compete with certain smaller domestic airline companies that operate with costs lower than our company or pursue a strategy of offering lower fares. In addition, many of our competitors have significantly longer operating history, greater name recognition, more resources and larger sales networks than our company or participate in reservation systems that are more convenient than ours. The public's perception of the safety records of Chinese airlines also adversely affects our ability to compete against our international competitors. Increased competition may have a material adverse effect on our financial condition and results of operations.

Insurance coverage and cost

As a result of the September 11, 2001 events, aviation insurers have significantly reduced the maximum amount of insurance coverage available to commercial air carriers for liability to persons other than employees or passengers for claims resulting from acts of terrorism, war or similar events, or war-risk coverage. At the same time, they significantly increased the premiums for such coverage as well as for aviation insurance in general. Our company has further extended our insurance coverage purchased prior to the September 11 events to November 30, 2005. However, if the insurance carriers reduce further the amount of insurance coverage available or increase the premium for such coverage when we renew our insurance coverage, our financial condition and results of operations will be adversely affected.

Direct air link between China's mainland and Taiwan

Currently, our operations on the Hong Kong regional routes benefit from traffic between Hong Kong and mainland China

Table of Contents

ultimately originating in Taiwan. During the Lunar Chinese New Year peak travel season in 2003, from late-January to mid-February, the Chinese government allowed special chartered flights between Shanghai and Taiwan for the first time. There were no such direct chartered flights in 2004. In 2005, from late-January to mid-February, airlines from both mainland China and Taiwan (including our company) operated 48 non-stop direct chartered flights between Beijing, Shanghai and Guangzhou of mainland China and Taipei and Kaohsiung of Taiwan. Although regular direct flights between Taiwan and mainland China are still not permitted, our Hong Kong regional routes may be adversely affected if such regular direct flights are permitted in the future. We cannot assure you that we will obtain sufficient Taiwan-mainland China routes, or that the yields on these routes will be adequate, to offset any adverse effect on our revenues derived from our Hong Kong regional routes.

Chinese aviation infrastructure limitations and safety

The rapid increase in air traffic volume in China in recent years has put pressure on many components of the Chinese airline industry, including air traffic control systems, the availability of qualified flight personnel and airport facilities. Our ability to provide safe air transportation depends on the availability of qualified and experienced pilots in China and the improvement of maintenance services, national air traffic control and navigational systems and ground control operations at Chinese airports. If any of these is not available or is inadequate, our ability to provide safe air transportation will be compromised and our financial condition and results of operations will be materially adversely affected.

Fuel supply and costs

The availability and cost of the aviation fuel has a significant impact on our financial condition and results of operations. In the past, jet fuel shortages have occurred in China and, on limited occasions, required us to delay or cancel flights. Although jet fuel shortages have not occurred since the end of 1993, we cannot assure you that jet fuel shortages will not occur in the future. As of May 31, 2005, the official domestic fuel price increased 21.9% compared to the price as of May 31, 2004. The international and domestic fuel prices increased significantly in 2004 and may continue to increase in the future. The fuel costs accounted for approximately 27.5% of our operating expenses in 2004. In 2004, our fuel expenses increased 78.3% as a result of increased weighted average domestic and international fuel prices and the expansion of our fleet. In particular, the weighted average domestic and international fuel prices paid by our company in 2004 increased by approximately 24.5% and 30.6%, respectively. Due to the highly competitive nature of the airline industry, we may be unable to pass on to our customers any increased fuel costs we may encounter in the future. Any jet fuel shortages or any increase in domestic or international jet fuel price may materially adversely affect our financial condition and results of operations.

Operating leverage

The airline industry is characterized by a high degree of operating leverage. Due to high fixed costs, including payments made in connection with aircraft leases, the expenses relating to the operation of any given flight do not vary proportionately with the number of passengers carried, while revenues generated from a particular flight are directly related to the number of passengers carried and the fare structure of the flight. Accordingly, a decrease in revenues may result in a proportionately higher decrease in profits.

Liquidity

We have substantial debts, and will continue to have substantial debts in the future. In addition, we have recently entered into contractual commitments to acquire a number of new aircraft for delivery over the next few years. See the section headed "Item 4. Information on the Company - Description of Property - Fleet." As of December 31, 2004, our total outstanding debt was

Table of Contents

RMB34,714 million. Our long-term debt to equity ratio was 2.5. As of the same date, our current liabilities exceeded our current assets by RMB12,502 million, reflecting an significant increase in short-term bank loans and the portion of long-term bank loans payable within one year. Short-term bank loans outstanding totaled RMB6,189 million as of December 31, 2004.

We largely rely on cash flow generated from our operations and external financing (including short-term bank loans) to meet our debt repayment obligations and working capital requirements. If our operating cash flow is materially affected by factors such as increased competition, significant decrease in demand for our services, or significant increase in jet fuel price, our liquidity would be adversely affected. We have arranged financing with domestic and foreign-funded banks in China as necessary to meet our working capital requirements. For example, a substantial portion of our short-term loans is rolled over upon maturity. However, our ability to obtain financing may be affected by our financial position and leverage, as well as by prevailing economic conditions and the cost of financing generally. If we are unable to obtain adequate financing for our capital requirements, our liquidity and operations would be adversely affected.

Future financing requirements

We require significant amounts of external financing to meet our capital commitments for additions of and upgrades on the aircraft and flight equipment and other business expansion needs. In the past, we have obtained, sometimes with the assistance of the CAAC, guarantees from Bank of China and other Chinese banks in respect of payments under our foreign loan and capital lease obligations. However, we cannot assure you that we will be able to continue to obtain bank guarantees in the future. The unavailability of Bank of China or other acceptable bank guarantees or the increased cost of such guarantees may adversely affect our ability to borrow internationally or enter into international aircraft lease financings on acceptable terms. The ability of our company to obtain financing may also be affected by our financial position and leverage as well as by prevailing economic conditions and the cost of financing generally. If we were unable to obtain financing for a significant portion of our capital requirements, our ability to acquire new aircraft or to expand our operations may be impaired. We have and in the future will likely continue to have substantial debts. As a result, the interest cost associated with these debts might impair our future profitability and cause our earnings to be subject to a higher degree of volatility.

Related party transactions; conflict of interests

We have engaged from time to time and will continue to engage in a variety of transactions with CEA Holding and various members of CEA Holding, which provide a number of services to us, including in-flight catering and import of aircraft, flight equipment and flight equipment spare parts. Our transactions with CEA Holding and members of CEA Holding are conducted pursuant to a number of service and other contracts between CEA Holding and us, entered into in the normal course of business. Since CEA Holding is our controlling shareholder and the interests of CEA Holding may conflict with our company's own interests, CEA Holding or any member of CEA Holding may take actions that favor the interests of other members of CEA Holding over our company's interests.

Limitation on foreign ownership

The current CAAC policies limit foreign ownership in Chinese airlines. Under these limits, non-Chinese residents and Hong Kong, Macau or Taiwan residents cannot hold majority equity interest in a Chinese airline company. At present, approximately 32.2% of our total outstanding shares are held by non-Chinese residents and Hong Kong, Macau or Taiwan residents. As a result, our access to international equity capital markets may be limited. This restriction may also limit the opportunities available to our

Table of Contents

company to obtain funding or other benefits through the creation of equity-based strategic alliances with foreign carriers. We cannot assure you that the CAAC will increase these limits in the near future or at all.

Any future outbreak of severe acute respiratory syndrome or similar adverse public health developments in mainland China may have a material adverse effect on our financial condition and results of operations.

In late 2002 and the first half of 2003, mainland China and certain other countries and regions experienced an outbreak of severe acute respiratory syndrome, or SARS. On July 5, 2003, the World Health Organization declared that the SARS outbreak had been contained. However, new individual cases of SARS were reported after that date in mainland China and other countries and regions in Asia. Any future outbreak of SARS or similar contagious epidemic will, among other things, significantly reduce demand for our services and will have a material adverse effect on our financial condition and results of operations.

Changes in the economic policies of the Chinese government

Since the late 1970s, the Chinese government has been reforming the Chinese economic system. These reforms have resulted in significant economic growth and social progress. These policies and measures, however, may from time to time be modified or revised. Adverse changes in economic and social conditions in China, in the policies of the Chinese government or in the laws and regulations in China, if any, may have a material adverse effect on the overall economic growth of China and investment in the airline industry in China. These developments, in turn, may have material adverse effects on our business operations, such as an adverse effect on the demand for our services, and may also materially adversely affect our financial condition and results of operations.

Convertibility of Renminbi

A significant portion of our revenue and operating expenses are denominated in Renminbi, while a portion of our revenue, capital expenditures and debts are denominated in U.S. dollars and other foreign currencies. Renminbi is currently freely convertible under the current account, which includes dividends, trade and service-related foreign currency transactions, but not under the capital account, which includes foreign direct investment, unless the prior approval of the State Administration of Foreign Exchange, or SAFE, is obtained. As a foreign investment enterprise approved by the PRC Ministry of Commerce, or MOC, we can purchase foreign currency without the approval of SAFE for settlement of current account transactions, including payment of dividends, by providing commercial documents evidencing these transactions. We can also retain foreign exchange in our current accounts, subject to a maximum amount approved by SAFE, to satisfy foreign currency liabilities or to pay dividends. However, the relevant Chinese government authorities may limit or eliminate our ability to purchase and retain foreign currencies in the future. Foreign currency transactions under the capital account are still subject to limitations and require approvals from SAFE. This may affect our ability to obtain foreign exchange through debt or equity financing, including by means of loans or capital contributions. We cannot assure you that we will be able to obtain sufficient foreign exchange to pay dividends or satisfy our foreign exchange liabilities.

Fluctuations in exchange rates

The value of Renminbi fluctuates and is subject to significant changes in China's political and economic conditions. While the official exchange rate for the conversion of Renminbi to U.S. dollars has generally been stable in recent years, any revaluation of Renminbi may adversely affect the value of dividends, if any, payable on our H shares in foreign currency terms. We use currency forward contracts to reduce risks of changes in currency exchange rates in respect of ticket sales and expenses denominated in

Table of Contents

foreign currencies. These currency forward contracts will expire between 2006 and 2010. Since we may not be able to fully hedge against Renminbi devaluations, future movements in the exchange rate of Renminbi and other currencies may have an adverse effect on our financial condition and results of operations.

Uncertainties embodied in the Chinese legal system

The Chinese legal system is a civil law system based on written statutes. Unlike common law systems, it is a system in which decided legal cases have little precedential value. In 1979, the Chinese government began to promulgate a comprehensive system of laws and regulations governing economic matters in general. Legislation over the past 20 years has significantly enhanced the protection afforded to foreign investment in China. However, the interpretation and enforcement of some of these laws, regulations and other legal requirements involve uncertainties that may limit the legal protection available to you.

Compliance with requirements under Section 404 of the Sarbanes-Oxley Act of 2002

Our company will become subject to Section 404 of the Sarbanes-Oxley Act of 2002 in the fiscal year ending December 31, 2006. We cannot be certain as to the timing of completion of our evaluation, testing and any remedial actions in connection with our preparation for compliance with the requirements of Section 404 or the impact of the same on our operations. If we cannot implement the requirements of Section 404 of the Sarbanes-Oxley Act of 2002 in a timely manner or with adequate compliance, our independent auditors may not be able to provide a written attestation as to the effectiveness of our internal controls over financial reporting and we may be subject to sanctions or investigation by regulatory authorities, such as the Securities and Exchange Commission. As a result, there could be a negative reaction in the financial markets due to a loss of confidence in the reliability of our financial statements. In addition, we may be required to incur significant costs in improving our internal control system and the hiring of additional personnel. Any such action could increase our costs relative to our revenues, thereby reducing our operating margins and could negatively affect the market price of our ADSs.

Item 4. Information on the Company.

History and Development of the Company

Our company was established on April 14, 1995 under the laws of China as a company limited by shares in connection with the restructuring of our predecessor and our initial public offering. Our registered office is located at 66 Airport Street, Pudong International Airport, Shanghai, China, 201202. Our principal executive office is located at 2550 Hong Qiao Road, Hong Qiao International Airport, Shanghai, China, 200335. The telephone number of our principal executive office is (86-21) 6268-6268. We currently do not have an agent for service of process in the United States. Our predecessor was one of the six original airlines established in 1988 as part of the decentralization of the airline industry in China undertaken in connection with China's overall economic reform efforts. Prior to 1988, the CAAC was responsible for all aspects of civil aviation in China, including the regulation and operation of China's airlines and airports. In connection with our initial public offering, our predecessor was restructured into two separate legal entities, our company and EA Group. According to the restructuring arrangement, by operation of law, our company succeeded to substantially all of the assets and liabilities relating to the airline business of our predecessor. EA Group succeeded to our predecessor's assets and liabilities that do not directly relate to the airline operations and do not compete with our businesses. Assets transferred to EA Group included our predecessor's equity interests in companies engaged in import and export, real estate, advertising, in-flight catering, tourism and certain other businesses. In connection with the restructuring, we entered into various agreements with EA Group and its subsidiaries for the provision of certain services to our company. CEA

Table of Contents

Holding assumed the rights and liabilities of EA Group under these agreements after it was formed by merging EA Group, Yunnan Airlines Company and China Northwest Airlines Company in October 2002. See Item 7. Major Shareholders and Related Party Transactions for more details. In 2004, our company's total revenue accounted for approximately 73% of CEA Holding's total revenue. The following chart sets forth the organizational structure of our company and our significant subsidiaries, all of which were incorporated in China.

In February 1997, we completed our initial public offering of 1,566,950,000 ordinary H shares, par value RMB1.00 per share, and listed our ordinary H shares on The Stock Exchange of Hong Kong Limited, or the Hong Kong Stock Exchange, and American Depositary Shares, or ADSs, representing our H shares, on the New York Stock Exchange. Prior to our initial public offering, all of the issued and outstanding shares of our capital stock, consisting of 3,000,000,000 ordinary domestic shares, par value RMB1.00 per share, were owned by EA Group, which exercises, on behalf of the Chinese government and under the supervision and direction of the CAAC, the shareholder rights in our company. In October 1997, we completed a public offering of 300,000,000 new ordinary domestic shares in the form of A shares to public shareholders in China and listed such new shares on the Shanghai Stock Exchange. Following the A share offering, EA Group continued to own 3,000,000,000 ordinary domestic shares, which represent 90.91% of our total ordinary domestic shares and 61.64% of our issued and outstanding share capital as of December 31, 2004. H shares are our ordinary shares listed on the Hong Kong Stock Exchange, and A shares are our ordinary shares listed on the Shanghai Stock Exchange. Our H shares and A shares are identical in respect of all rights and preferences, except that the listed A shares may only be held by Chinese domestic investors and certain qualified foreign institutional investors. In addition, dividends on the A shares are payable in Renminbi.

Since our initial public offering, we have expanded our operations through acquisitions and joint ventures. In July 1998, our company and China Ocean Shipping (Group) Company jointly established China Cargo Airlines Co., Ltd., which specializes in the air freight business. Our total investment in this joint venture was approximately RMB350 million, representing 70% of the equity interest of China Cargo Airlines Co., Ltd. In addition, we purchased from EA Group the assets and liabilities relating to airline operations of China General Aviation Company, for approximately RMB88 million in November 1999. China General Aviation Company was based in Shanxi Province in China and served primarily the northern region of China. Moreover, we completed our acquisition of Air Great Wall in June 2001 and established our Ningbo Branch following the acquisition. Air Great Wall was based in Ningbo, Zhejiang Province in China and served primarily the southeastern region of China.

In May 2002, our company, jointly with Shanghai Civil Aviation Eastern China Kaiya System Integration Co., Ltd., established Shanghai Eastern Airlines Investment Co., Ltd., or SEAI. We hold a 99% equity interest in SEAI. The joint venture serves as one

Table of Contents

of the investment vehicles of our company for our investments in other industrial projects and provides consulting services. In August 2002, our company, jointly with Wuhan Municipal State-owned Assets Management Committee Office and two other independent third parties, established China Eastern Airlines Wuhan Limited, in which our company holds a 40% equity interest. China Eastern Airlines Wuhan Limited serves primarily the market in Hubei Province. We also entered into an agreement with Rockwell Collins International Inc. of the United States to establish a joint venture avionics maintenance service company in China in September 2002. Moreover, in November 2002, our company, jointly with China Aircraft Services Limited, established Shanghai Eastern Aircraft Maintenance Limited, in which our company holds a 60% equity interest. In order to expand our company's operations in Jiangsu Province of China, we increased our investment in China Eastern Airlines Jiangsu Co., Ltd., or Eastern Jiangsu, in December 2002, together with other shareholders of Eastern Jiangsu. In 2004, our company contributed additional capital of approximately RMB408 million to Eastern Jiangsu. As a result, our equity interest in Eastern Jiangsu increased from 55% to 63%.

In April 2003, we entered into a share transfer agreement with CEA Holding, pursuant to which we have acquired from CEA Holding a 45% equity interest in China Eastern Aviation Import and Export Company, or CEAIEC, for a consideration of approximately RMB44 million. CEAIEC was a wholly-owned subsidiary of CEA Holding prior to the transaction. Under the share transfer agreement, our company and CEA Holding each undertakes to the other party that it will not establish any other entity engaging in any business similar in nature or scope to the business conducted by CEAIEC. We believe that the acquisition of 45% equity interest in CEAIEC could reduce our company's cost of importing aviation raw materials and enhance our company's profitability.

In December 2003, we also entered into a joint venture agreement with CEA Holding to establish China Eastern Air Catering Investment Company Ltd., or CEA Catering Investment. The registered capital of CEA Catering Investment is RMB350 million. Pursuant to the joint venture agreement, CEA Holding and our company made capital contributions of approximately RMB192.5 million and RMB157.5 million, respectively. As a result, CEA Holding and our company hold a 55% and a 45% equity interest in CEA Catering Investment, respectively. CEA Catering Investment is primarily engaged in the business of providing air and ground catering services, food and beverage supplies and other related services. Our board believes that our investment in CEA Catering Investment is beneficial to our company and its shareholders, and expects it to reduce the cost incurred by our company in providing catering services and to enhance our profitability and competitiveness in the domestic aviation industry.

In addition, also in December 2003, we entered into an equity transfer and capital increase agreement with CEA Holding and Shanghai Eastern Development Corporation Limited, or SEDC, pursuant to which our company acquired 10% of SEDC's then equity interest and 35% of CEA Holding's then equity interest in Shanghai Dong Mei Aviation Travel Corporation Limited, a company that is primarily engaged in the business of selling air tickets, hotel reservation, travel agency and other related services. After the transaction, our company holds a 45% equity interest in Shanghai Dong Mei. Our aggregate investment in Shanghai Dong Mei was approximately RMB14.9 million.

On February 18, 2004, we entered into a joint venture agreement with CEA Holding to establish China Eastern Real Estate Investment Co. Ltd., or CEA Real Estate, a limited liability company established under the laws of the PRC. The registered capital of CEA Real Estate is RMB100 million. Pursuant to the joint venture agreement, our company has made its capital contribution of RMB5 million in cash. As a result, our company owns a 5% equity interest in CEA Real Estate. CEA Real Estate is primarily engaged in the real estate business, including the development and sales of commercial premises and property leasing in Shanghai, China.

Table of Contents

On March 10, 2003, we entered into a joint venture agreement with Singapore Technologies Aerospace Ltd. to establish Shanghai Technologies Aerospace Company Limited, or STAC, a Sino-foreign joint venture limited liability company established under the laws of the PRC. The registered capital of STAC is US\$73 million with a total investment of US\$98 million. Pursuant to the joint venture agreement, our company shall make an in-kind capital contribution of US\$37.23 million (which includes but not limited to flight equipment and land use right) in installments to STAC. Our company owns a 51% equity interest in STAC. STAC is primarily engaged in the provision of commercial aircraft maintenance, repair and overhaul services. STAC started operation in late 2004.

On August 18, 2004, we entered into a joint venture agreement with China Ocean Shipping (Group) Company and China Cargo Airlines Co., Ltd. to establish Shanghai Eastern Logistics Co., Ltd., or Eastern Logistics, a limited liability company established under the laws of the PRC. The registered capital of Eastern Logistics is RMB200 million. Pursuant to the joint venture agreement, our company has made its capital contribution of RMB138.6 million in cash to Eastern Logistic. Our company, directly and indirectly, owns a 70% equity interest in Eastern Logistics. Eastern Logistics is primarily engaged in the provision of cargo logistics services. Eastern Logistics started operation after it obtained its business license from the relevant government authority on August 23, 2004.

On 2 March 2005, we entered into an agreement with United Technologies Far East Limited (UTFEL), to establish Hamilton Sundstrand (Shanghai) Aerospace Technology Limited (HSSATL), a jointly controlled entity which will be principally engaged in the provision of repair and maintenance services for auxiliary power units of aircraft in the PRC. The registered capital of HSSATL is US\$8.9 million, which is to be contributed by us and UTFEL in proportion of 51% and 49% respectively.

Pursuant to the CAAC's airline industry restructuring plan, EA Group merged with Yunnan Airlines Company and China Northwest Airlines Company and formed CEA Holding in October 2002. Yunnan Airlines Company and China Northwest Airlines Company were restructured as wholly-owned subsidiaries of CEA Holding after the merger and renamed as China Eastern Air Yunnan Company (CEA Yunnan) and China Eastern Air Northwest Company (CEA Northwest), respectively. CEA Northwest is based in Xi'an, Shannxi Province in China with approximately 30 jet aircraft and serves primarily the western region of China. CEA Yunnan is based in Kunming, Yunnan Province in China with approximately 26 jet aircraft and serves primarily the southwestern region of China. The airline operations currently conducted by CEA Yunnan and CEA Northwest compete with our company, in particular, on the Shanghai-Wenzhou route, Shanghai-Harbin route, Shanghai-Qingdao route, Shanghai-Changsha route, Changchun-Kunming route, Changsha-Ningbo route, Changsha-Kunming route and Changsha-Nanjing route.

In order to further expand our business and enhance our market competitiveness, we have agreed to acquire from CEA Holding certain assets and liabilities relating to the aviation businesses of CEA Yunnan and CEA Northwest pursuant to a conditional assets transfer agreement entered into by our company, CEA Holding, CEA Yunnan and CEA Northwest on May 12, 2005 (the Acquisition Agreement). An English translation of the Acquisition Agreement has been filed with this annual report as an exhibit. The assets and liabilities being acquired by our company include relevant aircraft, engines and aviation equipment and facilities, certain employees and operating contracts, and other relevant fixed and current assets (whether owned or leased assets). Following the completion of the Acquisition Agreement, our company will assume and undertake the aviation operations and businesses currently carried out by CEA Yunnan and CEA Northwest in accordance with the Acquisition Agreement. The relevant air routes will also be injected into our company with such aviation businesses. The total consideration payable by our company under the Acquisition Agreement is approximately RMB986 million in cash, which will be adjusted by the profit generated or loss incurred by the aviation businesses of CEA Northwest and CEA Yunnan during the period

Table of Contents

from December 31, 2004 through the effective date of the Acquisition Agreement, which is expected to be June 30, 2005. The amount of such profit/loss will be determined with reference to the relevant financial statements prepared under PRC Accounting Standards and Regulations, to be audited by independent PRC accountants jointly appointed by our company and CEA Holding. According to the Acquisition Agreement, we will also assume aggregate liabilities of RMB8,556 million. This consideration consists of an initial consideration of approximately RMB690 million payable within five days from the effective date and the balance payable upon the fulfillment of certain conditions. We currently intend to finance the cash payment for approximately 50% of the consideration with our internal cash resources and the remaining by way of financing arrangements with financial institutions. We have obtained the requisite approvals from relevant regulatory authority in China for this acquisition and will submit the Acquisition Agreement for approval by our independent shareholders at the annual general meeting for the year of 2004 which is scheduled to be held on June 30, 2005 in Shanghai, China.

Under the Acquisition Agreement, each of CEA Holding, CEA Northwest and CEA Yunnan has undertaken that at any time after completion of the Acquisition Agreement, it will not, and will procure its respective subsidiaries and associated companies (including members of CEA Holding) not to, carry out, engage in or otherwise become involved or interested in any business which competes or may compete, either directly or indirectly, with our company's aviation business following completion of the Acquisition Agreement. The undertaking is not made for any definite period.

As part of our continuing effort to upgrade our fleet, we have disposed of old aircraft and added new aircraft to our fleet. Our aircraft dispositions have reduced the average age of our fleet. All of our aircraft are registered with the CAAC. The table below sets forth our significant aircraft dispositions and additions since December 31, 2000:

	2001	2002	2003	2004	2005 ⁽¹⁾
Additions (Capital Leases and Purchases)	3 Airbus 320 aircraft 3 Boeing 737-200 aircraft	4 Boeing 737-700 aircraft	10 Airbus 320 aircraft 3 Airbus 340-600 aircraft	2 Airbus 340-600 aircraft 2 Airbus 321 aircraft 5 Airbus 320 aircraft	2 Airbus 321 aircraft 5 Airbus 320 aircraft 3 ERJ145 aircraft

(1) Currently contemplated by our company.

Business Overview

Our company is one of the three largest air carriers in China in terms of tonne-kilometers and number of passengers carried in 2004, and is the primary air carrier serving Shanghai, China's eastern gateway. We accounted for approximately 18.9% of the total commercial air traffic (as measured in tonne-kilometers) handled by Chinese airlines in 2004. We operate primarily from Shanghai's Hong Qiao International Airport and Pudong International Airport. In 2004, we accounted for 41.1% and 31.1% of all the flight traffic at Hong Qiao International Airport and Pudong

International Airport, respectively. In 2004, we accounted for approximately 30.4% of the total passenger traffic volume and 20.9% of the total freight volume on routes to and from Shanghai.

Table of Contents

We have been consistently ranked as one of the best Chinese airlines in terms of service quality in each of the past five years according to a poll conducted by the China Civil Aviation Association.

Compared to 2003, our traffic volume increased by approximately 49.3% in 2004. Our passenger traffic volume increase from 18,002.7 million passenger-kilometers in 2003 to 27,580.8 million passenger-kilometers in 2004, or 53.2 %. Our cargo and mail traffic volume increased by 44.6% from 1,296.6 million tonne-kilometers in 2003 to 1,874.7 million tonne-kilometers. In 2004, our average on-time performance rate was approximately 75.9%, which was slightly lower than the industry average rate of 79.9% in China.

Airline Operations and Route Network

The following table sets forth our traffic revenues by activity for each of the five years ended December 31, 2004:

	2000 (millions of RMB)	2001 (millions of RMB)	2002 (millions of RMB)	2003 (millions of RMB)	2004 (millions of RMB)	2004 (millions of US\$)
Traffic Revenues						
Passengers	8,644	9,586	10,038	10,261	15,358	1,855.57
Cargo and mail	2,124	2,092	2,445	3,187	4,428	535.05
Total Traffic Revenues	10,768	11,679	12,483	13,448	19,786	2,390.62

Passenger Operations

The following table sets forth certain passenger operating statistics of our company by geographic region for each of the five years ended December 31, 2004:

	2000	2001	2002	2003	2004
Passenger Traffic (millions of passenger kilometers)	14,102	15,911	18,206	18,003	27,581
Domestic	6,326	7,512	8,516	10,302	14,500

Table of Contents

The primary focus of our business is the provision of domestic, Hong Kong regional and international passenger airline services. In 2004, our passenger operations generated revenues of approximately RMB15,358 million (approximately US\$1,855.62 million), or approximately 73.0% of our turnover. We operated over 3057 scheduled flights per week (excluding charter flights), serving a route network that covers 88 cities within China and abroad. In 2004, we operated approximately 238 routes.

In 2004, we operated approximately 2,231 domestic flights per week on 179 routes. Our domestic routes generated approximately 53.9% of our passenger revenues. Our most heavily traveled domestic routes generally link Shanghai to the large commercial and business centers of China, such as Beijing, Guangzhou and Shenzhen.

In 2004, we also operated approximately 402 flights per week on 15 routes to and from Hong Kong, originating from Shanghai and 14 other major cities in eastern and northern China. Our Hong Kong regional routes accounted for approximately 14.2% of our passenger revenues in 2004.

In 2004, we operated approximately 424 international flights per week on 59 routes, serving 88 cities in 11 countries, primarily linking Shanghai to major cities in east and Southeast Asian countries (Japan, Korea, India, Singapore and Thailand) and certain strategic locations in Europe, the United States and Australia. In 2004, we successfully introduced 11 new international routes including Shanghai-Kuala Lumpur, Shanghai-London and Shanghai-Vancouver to further enhance the function of Shanghai as our passenger hub. In addition, we launched new international routes of Shanghai-Bombay and Shanghai-Moscow in April and May 2005, respectively. Revenues derived from our operations on international routes accounted for approximately 31.8% of our passenger revenues. Revenues derived from our operations on our 15 Japan routes accounted for approximately 9.5% of our passenger revenues and approximately 30% of our international passenger revenues in 2004. Our Japan and Korea international routes and Hong Kong regional routes generally have been our highest yielding routes.

Most of our international and Hong Kong regional flights and a substantial portion of our domestic flights either originate or terminate in Shanghai, the central hub of our route network. Our operations in Shanghai are conducted primarily at Hong Qiao International Airport and Pudong International Airport. All of our international flights originate or terminate at Pudong International Airport. Pudong International Airport is a newly constructed airport and is relatively further away from the central business district of Shanghai.

In addition to our core Shanghai-based operations, we currently also have nine provincial hubs in eastern and northern China, each of which primarily serves, and is located in a principal commercial center of, one of the following provinces: Anhui, Jiangsu, Jiangxi, Shandong, Shanxi, Hebei, Zhejiang and Hubei. Jiangsu, Zhejiang and Shandong are among the most economically developed provinces in China. We believe that we will benefit from the level of development and growth opportunities in eastern and northern China as a whole by providing direct services between various cities in those regions and between those regions and other major cities in China. The provincial hubs also enable us to provide convenient connections for passengers on certain flights to and from Shanghai. Aircraft used for regional operations are mainly maintained by us on site at the hubs, and our sales offices are also based at each provincial hub.

Cargo and Mail Operations

The following table sets forth certain cargo and mail operating statistics of our company by geographic region for each of the five years ended December 31, 2004:

Table of Contents

	Year Ended December 31,				
	2000	2001	2002	2003	2004
Cargo and Mail Tonne-Kilometers (millions)	904	950	1,023	1,297	1,875
Domestic	159	176	206	258	328
Hong Kong	53	48	53	81	124
International	693	726	764	958	1,423
Weight of Cargo and Mail Carried (millions of kilograms)	286	302	345	460	664
Domestic	133	146	170	205	262
Hong Kong	37	33	39	57	85
International	116	116	136	198	317
Cargo and Mail Yield (cargo and mail revenues/cargo and mail tonne-kilometers, in RMB)	2.35	2.20	2.39	2.46	2.36

Our cargo and mail business generated revenues of approximately RMB4,428 million (approximately US\$535 million) in 2004, representing approximately 21% of our turnover for the year.

We must obtain from the CAAC the right to carry passengers or cargo on any domestic or international route. Our cargo and mail business generally utilizes the same route network used by our passenger airline business. China Cargo Airlines Co., Ltd. also maintains fourteen cargo routes. We carry cargo and mail on our freight aircraft as well as in available cargo space on our passenger aircraft. Our most significant cargo and mail routes are international routes. Revenues derived from our operations on international cargo and mail routes accounted for approximately 79.9% of our total cargo and mail revenues in 2004. Revenues derived from our operations on routes to Japan accounted for approximately 18.3% of our international cargo and mail revenues in 2004. In 2004, a new cargo flight on the route Shanghai-Dallas was launched, signifying a significant expansion of the freight services. In March 2005, we launched a new cargo route of Qingdao-Ningbo-Hong Kong.

The development of cargo operations is an important part of our company's growth strategy. After the establishment of China Cargo Airlines Co., Ltd., we have converted three MD-11 passenger aircraft into freight aircraft that are designated for cargo and mail operations, two of which were converted in the second half of 2003 and one in early 2004. We also wet-leased an Airbus A300 freighter on a short-term for our cargo operations in 2004.

Regulation

The PRC Civil Aviation Law provides the framework for regulation of many important aspects of civil aviation activities in China, including:

the administration of airports and air traffic control systems;

aircraft registration and aircraft airworthiness certification;

operational safety standards; and

the liabilities of carriers.

The Chinese airline industry is also subject to a high degree of regulation by the CAAC. Regulations issued or implemented by the CAAC encompass virtually every aspect of airline operations, including route allocation, domestic airfare, licensing of pilots, operational safety standards, aircraft acquisition, aircraft airworthiness certification, fuel prices, standards for aircraft maintenance

Table of Contents

and air traffic control and standards for airport operations. Although China's airlines operate under the supervision and regulation of the CAAC, they are accorded a significant degree of operational autonomy. These areas of operational autonomy include:

whether to apply for any route;

the allocation of aircraft among routes;

the airfare pricing for the international and Hong Kong passenger routes;

the airfare pricing within the limit provided by the CAAC for the domestic passenger routes;

the training and supervision of personnel; and

many other areas of day-to-day operations.

Although we have generally been allocated adequate routes in the past to accommodate our expansion plans and other changes in our operations, those routes are subject to allocation and re-allocation in response to changes in governmental policies or otherwise at the discretion of the CAAC. Consequently, we cannot assure you that our route structure will be adequate to satisfy our expansion plans.

The CAAC has established regulatory policies intended to promote controlled growth of the Chinese airline industry. We believe those policies would be beneficial to the development of and prospects for the Chinese airline industry as a whole. Nevertheless, those regulatory policies could limit our flexibility to respond to changes in market conditions, competition or our cost structure. Moreover, while our company generally benefits from regulatory policies that are beneficial to the airline industry in China as a whole, the implementation of specific regulatory policies may from time to time adversely affect our business operations.

Because our company provides services on international routes, we are also subject to a variety of bilateral civil air transport agreements between China and other countries. In addition, China is a contracting state as well as a permanent member of the International Civil Aviation Organization, an agency of the United Nations established in 1947 to assist in the planning and development of the international air transportation. International Civil Aviation Organization establishes technical standards for the international airline industry. China is also a party to a number of other international aviation conventions. The business operations of our company are subject to those international aviation conventions as well.

Domestic Route Rights. Chinese airlines must obtain from the CAAC the right to carry passengers or cargo on any domestic route. The CAAC's policy on domestic route rights is to assign routes to the airline or airlines suitable for a particular route. The CAAC will take into account whether an applicant for a route is based at the point of origin or termination of a particular route. This policy benefits airlines, such as our company, that have a hub located at each of the active air traffic centers in China. The CAAC also considers other factors that will make a particular airline suitable for an additional route, including the applicant's safety record, previous on-time performance and level of service and availability of aircraft and pilots. The CAAC will consider the market conditions applicable to any given route before such route is allocated to one or more airlines. Generally, the CAAC will permit additional airlines to service a route that is already being serviced only when there is strong demand for a particular route relative to the available supply. The CAAC's current general policy is to require the passenger load factor of one or two airlines on

Table of Contents

a particular route to reach a certain level, currently 75%, before another carrier is permitted to commence operations on such route.

Hong Kong Route Rights. Hong Kong routes and the corresponding landing rights were formerly derived from the Sino-British air services agreement. In February 2000, the Chinese central government, acting through the CAAC, and Hong Kong signed the Air Transportation Arrangement between mainland China and Hong Kong. The Air Transportation Arrangement provides for equal opportunity for airlines based in Hong Kong and mainland China. Competition from airlines based in Hong Kong increased after the execution of the Air Transportation Arrangement. The CAAC allocates route and landing rights among the seven Chinese airlines currently permitted to fly to Hong Kong. The CAAC normally will not allocate an international route or a Hong Kong route to more than one domestic airline unless certain criteria, including minimum load factors on existing flights, are met. Although no other Chinese airline currently operates on any of our Hong Kong routes, we cannot assure you that this will remain the case.

International Route Rights. International route rights, along with the corresponding landing rights, are derived from air services agreements negotiated between the Chinese central government, acting through the CAAC, and the government of the relevant foreign country. Each government grants to the other the right to designate one or more domestic airlines to operate scheduled services between certain points within each country. Upon entering into an air services agreement, the CAAC seeks applications from the seven Chinese airlines currently approved to fly international routes. The CAAC awards the relevant route to an airline based on various criteria, including:

availability of appropriate aircraft and flight personnel;

safety record;

on-time performance; and

hub location.

Although hub location is an important criterion, an airline may be awarded a route which does not originate from an airport where it has a hub. The route rights awarded do not have a fixed expiry date and can be terminated at the discretion of the CAAC.

Airfare Pricing Policy. The PRC Civil Aviation Law provides that airfare for domestic routes are determined jointly by the CAAC and the agency of the State Council responsible for price control, primarily based upon average airline operating costs and market conditions. From February 1999 to March 2001, all domestic airlines were required to adhere to unified domestic airfare published by the CAAC from time to time and discounted sales were prohibited. In 2001, the CAAC gradually relaxed its control over domestic airfare pricing and, effective March 1, 2001, domestic airlines were permitted to offer discounts on several major domestic routes.

On March 17, 2004, China's State Council approved the Pricing Reform Plan for the Domestic Civil Aviation Industry, or the Pricing Reform Plan, effective April 20, 2004. Pursuant to the Pricing Reform Plan, the governmental authorities responsible for price control no longer directly set the airfare for domestic routes, but indirectly control the airfare for domestic routes by setting basic airfare levels and permitted ranges within which the actual airfare of Chinese airlines can deviate from such basic airfare levels. Chinese airlines are able to set their own airfare for their domestic routes within the permitted ranges and adopt more flexible sales policies to promote their services.

Table of Contents

The CAAC and the National Development and Reform Commission jointly publish the pricing guidelines from time to time, which set forth the basic airfare levels and permitted ranges. Pursuant to the current pricing guidelines, the basic airfares for domestic routes are the published airfares implemented by Chinese airlines immediately prior to the approval of the Pricing Reform Plan (the average basic airfare for domestic routes is RMB0.75 per passenger-kilometer). Except for certain domestic routes, the actual airfare set by each Chinese airline for its domestic routes cannot be 25% higher and 45% lower than the basic airfare. Domestic routes that are not subject to the deviation range restrictions include short-haul routes between cities in the same province or autonomous region, or between a municipality and adjacent provinces, autonomous regions or another municipality. Certain tourist routes and routes served by only one Chinese airline are not subject to the bottom range restriction. The CAAC and the National Development and Reform Commission will announce the routes that are not subject to the deviation range restrictions through the airfare information system known as Airtis.net. Chinese airlines may apply to the CAAC and the National Development and Reform Commission for exemption from the bottom range restriction for a particular route. Chinese airlines are also required to file the actual airfare they set for their domestic routes within the ranges through Airtis.net 30 days prior to its implementation.

The CAAC and the National Development and Reform Commission will regularly review the average operating costs of Chinese airlines, and may adjust the basic airfare for particular domestic routes which, in their view, is not at a reasonable level. We expect that, as reforms continue in 2005, we will have more flexibility in operating our aviation business in the future. The promotion by Chinese regulators of a regulated and orderly market and a fair and positive competition mechanism will also provide a favorable environment for the growth of our business.

Under the PRC Civil Aviation Law, maximum airfare on Hong Kong and international routes is set in accordance with the terms of the air services agreements pursuant to which these routes are operated. In the absence of an air services agreement, the airfare is set by the airlines themselves or the CAAC with reference to comparable market prices, taking into account the international airfare standards established through the coordination of the International Air Transport Association, which organizes periodic air traffic conferences for the purpose of coordinating international airfare. Discount is permitted on Hong Kong and international routes. For the airline industry in China as a whole, airfare per kilometer is substantially higher for Hong Kong and international routes than for domestic routes.

Acquisition of Aircraft and Spare Parts. Most Chinese airlines are required to purchase their aircraft, aircraft spare parts and other aviation equipment through the China Aviation Supplies Corporation, or the CASC, an entity controlled by the CAAC. However, our company is permitted to import aircraft, aircraft spare parts and other equipment for our own use from manufacturers through CEAIEC, which is 55% owned by CEA Holding and 45% owned by our company. This gives us freedom in rationalizing our maintenance practices by allowing us to maintain a relatively lower overall inventory level of aircraft parts and equipment than we otherwise would have to maintain. We are still required to obtain an approval from the National Development and Reform Commission for any import of aircraft. We generally pay a commission to CEAIEC in connection with these imports.

Domestic Fuel Supply and Pricing. The Civil Aviation Oil Supply Company, or CAOSC, which is controlled by the CAAC, is currently the dominant civil aviation fuel supply company in China. We currently purchase a significant portion of our domestic fuel supply from CAOSC. The Chinese government determines the fuel price at which the CAOSC acquires fuel from domestic suppliers and the CAAC determines the retail price at which the CAOSC resells fuel to airline customers.

Safety. The CAAC has made the improvement of air traffic safety in China a high priority. The CAAC is responsible for the establishment of operational safety, maintenance and training standards for all Chinese airlines, which have been formulated based on international standards. Each Chinese airline is required to provide flight safety reports to the CAAC, including reports of flight incidents or accidents involving its aircraft occurred during the relevant reporting period and other safety related problems. The CAAC conducts safety inspections on each airline

periodically.

Table of Contents

The CAAC oversees the training of most Chinese airline pilots through its operation of the pilot training college. The CAAC implements a unified pilot certification process applicable to all Chinese airline pilots and is responsible for the issuance, renewal, suspension and cancellation of pilot licenses. Each pilot is required to pass the CAAC-administered examinations before obtaining a pilot license and is subject to an annual examination in order to have such certification renewed.

All aircraft operated by Chinese airlines, other than a limited number of leased aircraft registered in foreign countries, are required to be registered with the CAAC. All of our aircraft are registered with the CAAC. All aircraft operated by Chinese airlines must have a valid certificate of airworthiness issued and annually renewed by the CAAC. In addition, maintenance permits are issued to a Chinese airline only after the maintenance capabilities of that Chinese airline have been examined and assessed by the CAAC. These maintenance permits are renewed annually. All aircraft operated by Chinese airlines may be maintained and repaired only by the CAAC certified maintenance facilities, whether located within or outside China. Aircraft maintenance personnel must be certified by the CAAC before assuming aircraft maintenance posts.

Security. The CAAC establishes and oversees the implementation of security standards and regulations based on the PRC laws and standards established by international civil aviation organizations. Each airline is required to submit to the CAAC an aviation security handbook describing specific security procedures established by the airline for the day-to-day operations of the civil aviation and security training for staff of such airline. Such security procedures must be formulated based on the relevant CAAC regulations. Chinese airlines that operate international routes must also adopt security measures in accordance with the requirements of the relevant international agreements. We believe that our company is in compliance with all applicable security regulations.

Noise and Environmental Regulation. All airlines and airports in China are required to comply with noise and environmental regulations of the State Environmental Protection Agency that are modeled after international standards. The CAAC regulations allow Chinese airports to refuse take-off and landing rights to any aircraft that does not comply with state noise regulations. We believe that our company is in compliance with all applicable noise and environmental regulations.

Chinese Airport Policy. Prior to September 2003, all civilian airports in China were operated directly by the CAAC or by provincial or municipal governments. In September 2003, as part of the restructuring of the aviation industry in China, the CAAC handed over 93 civilian airports to local provincial or municipal governments. The CAAC retained the authority to determine the take-off and landing charges, as well as charges on airlines for the use of airports and airport services. Prior to 2004, Chinese airlines were generally required to collect from their passengers on behalf of the CAAC a levy for contribution to the civil aviation infrastructure fund, which was used for improving China's civilian airport facilities. Our revenue for the previous years is shown net of this levy. In 2003, the levy was 5% of domestic airfare for domestic routes and 2% of international airfare for international routes. The levy was waived by the CAAC from May 1, 2003 to December 31, 2003. We were officially notified by the CAAC that effective from January 1, 2004, the CAAC no longer charges such levy. However, we cannot assure that the CAAC will not charge other similar levies in the future.

Limitation on Foreign Ownership. The CAAC's present policies limit foreign ownership in Chinese airlines. Under these limits, non-Chinese residents and Hong Kong, Macau or Taiwan residents cannot hold a majority of our total outstanding shares. Currently, approximately 32.2% of our total outstanding shares are held by non-Chinese residents and Hong Kong, Macau or Taiwan residents.

Table of Contents

Competition

Domestic. Domestic competition from other Chinese airlines has been increasing recently as our competitors have increased capacity and expanded operations by adding new routes or additional flights to existing routes and acquiring other airlines. We expect that competition in the future from other Chinese airlines on our routes will further increase as the CAAC promotes controlled competition in order to advance the growth of the domestic airline industry as a whole. Our company competes against our domestic competitors primarily on the basis of safety, quality of service and frequency of scheduled flights. With the combination of our dominant position in Shanghai, our route network and our continued commitment to safety and service quality, we believe that our company is well-positioned to compete against our domestic competitors in the growing airline industry in China.

There are currently approximately 10 Chinese passenger airlines operating in China, and our company competes with many of them on various domestic routes. All of these airlines operate under the regulatory supervision of the CAAC. Our company, Air China, which is based in Beijing and listed on the Hong Kong Stock Exchange and the London Stock Exchange, and China Southern Airlines, which is based in Guangzhou and listed on the Hong Kong Stock Exchange and the New York Stock Exchange, are the three leading air carriers in China, both in terms of revenue tonne-kilometers and size of operations. Each of these three airlines operates at least 100 routes and has a fleet of at least 60 jet aircraft. As of December 31, 2004, our company, Air China and China Southern Airlines accounted for approximately 80% of the total commercial air traffic (as measured in tonne-kilometers) handled by Chinese airlines.

Each of the domestic airlines competes against other airlines operating the same routes or flying indirect routes to the same destinations. Our principal competitors in the domestic market are China Southern Airlines and Air China, which provide transportation services on some of our routes as well, principally routes originating from the major air transportation hubs in China, such as Shanghai, Guangzhou and Beijing. Some of these routes are among our most heavily traveled routes. Since most of the major domestic airlines operate routes from their respective hubs to Shanghai, our company also competes against virtually all of the major domestic airlines on these routes. The number of airlines operating flights to and from Shanghai has increased significantly in recent years. We also face domestic competition from Shanghai Airlines, an airline based in Shanghai which is smaller than our company. Competition between Shanghai Airlines and us has increased as Shanghai Airlines expands its long-haul capacity and operates routes to more cities served by our company.

Hong Kong. Our high yielding Hong Kong routes are highly competitive. The primary competitor on our Hong Kong routes is Dragon Air, which is controlled by China National Aviation Corporation, or CNAC, CITIC Pacific Limited and Cathay Pacific Airways Limited. We currently operate approximately 424 flights per week on routes between 15 Chinese cities and Hong Kong. Dragon Air competes with us on several of these routes. Moreover, in April 2003, Cathay Pacific Airways obtained the licenses to fly to Beijing, Shanghai and Xiamen in China. Cathay Pacific Airways commenced its services on the routes of Hong Kong-Beijing, Hong Kong-Shanghai and Hong Kong-Xiamen in December 2003, January 2005 and February 2005, respectively. With Cathay Pacific Airways commencing its operations on the Hong Kong-Shanghai route, we expect more intensified competition on our Hong Kong-Shanghai route. In addition to the frequency and convenience of our flights and the number of routes offered, our company's competitive strategy for the Hong Kong routes also stresses safety and service quality. The new Air Transportation Arrangement signed between the Chinese central government and the administrative government of Hong Kong in February 2000

Table of Contents

provides for equal opportunity for airlines based in Hong Kong and mainland China. As a result, Dragon Air has increased the frequency of its flights on several of our Hong Kong routes and intensified the competition. At present, our Hong Kong routes benefit from traffic between Hong Kong and mainland China ultimately originating in Taiwan. During the Lunar Chinese New Year peak travel season in 2003, from late-January to mid-February, the Chinese government allowed special chartered flights between Shanghai and Taiwan for the first time. There were no such direct chartered flights in 2004. In 2005, from late-January to mid-February, airlines from both mainland China and Taiwan (including our company) operated 48 non-stop direct chartered flights between Beijing, Shanghai and Guangzhou of mainland China and Taipei and Kaohsiung of Taiwan. Although regular direct flights between Taiwan and mainland China are still not permitted, our results of operation on Hong Kong routes could be adversely affected if direct flights between Taiwan and mainland China are permitted in the future. We cannot assure you that our company can obtain sufficient Taiwan-mainland China routes or that the yields on these routes would be adequate to offset any adverse effect on our revenues derived from operation on our Hong Kong routes. Our company also faces competition from Dragon Air in our Hong Kong cargo operations.

In 1995, CNAC acquired an interest in Air Macau. Air Macau started to operate routes in 1996 between Macau and mainland China, including routes to cities in mainland China such as Beijing, Shanghai, Xiamen and Wuhan. Air Macau also operates routes between Macau and Taiwan, including flights which allow passengers to travel between mainland China and Taiwan through Macau without changing planes in Macau. Air Macau's routes provide an alternative to our Hong Kong routes for passengers traveling between Taiwan and mainland China. The airfare on some of Air Macau's routes is significantly lower than airfare on our company's comparable routes.

International. We compete with Air China, China Southern Airlines, United Airlines and many other well-established foreign carriers on our international routes. Most of our international competitors are very well known international carriers and are substantially larger and have substantially greater financial resources than us. Many of our international competitors also have significantly longer operating history and greater name recognition than our company. Some international passengers, who may perceive these airlines to be safer than Chinese airlines in general, may prefer to travel on these airlines. In addition, many of our international competitors have more extensive sales networks and participate in reservation systems that are more convenient than those of ours, or engage in promotional activities, such as frequent flyer programs, that may be more popular than those of ours and effectively enhance their ability to attract international passengers. We also face significant competition in our international cargo operations. For instance, we compete with All Nippon Airways and Japan Airlines System in cargo operations on our Japan routes. Moreover, China and the United States entered into an air service agreement on July 24, 2004. Pursuant to this agreement, five additional airlines from each country will be allowed to serve the China-U.S. market over the next six years. It is expected that there will be a significant increase in China-U.S. air services over the next few years due to this agreement, which would further intensify competition in this market.

Air China operates the largest number of international routes among all Chinese airlines. Beijing, the hub of Air China's operations, is the destination for most international flights to China. We compete with Air China, All Nippon Airways, Japan Airlines System and Northwest Airlines, Inc. on our passenger routes to Japan. Our primary competition on our flights to southeast Asia comes from Thai Airways International, Singapore Airlines and China Southern Airlines. On our passenger flights to the United States, our principal competitors include Northwest Airlines, Inc., United Airlines, Air China and China Southern Airlines. On our European routes, our competitors include Air China, the Air France-KLM Group, and Lufthansa German Airlines. We compete with Air China and Qantas Airways Ltd. on our Australian routes. In September 1997, Shanghai Airlines was awarded limited international route rights by the CAAC. Our company competes in the international market on the basis of price,

Table of Contents

service quality, frequency of scheduled flights and convenient sales arrangements. To improve our competitive position in international markets, we have established additional dedicated overseas sales offices, launched our own frequent flyer program, participated in the Asia Miles frequent flyer program which is popular in Asia, and entered into code-sharing arrangements with a number of foreign airlines. We have also improved our online reservation and payment system.

Maintenance and Safety

The rapid increase in air traffic volume in China in recent years has put pressure on many components of the Chinese airline industry, including air traffic control systems, the availability of qualified flight personnel and airport facilities. In recent years, the CAAC has placed increasing emphasis on the safety of Chinese airline operations and has implemented a number of measures aimed at improving the safety record of the airlines. Our company's ability to provide safe air transportation in the future depends on the availability of qualified and experienced pilots in China and the improvement of maintenance services, national air traffic control and navigational systems and ground control operations at Chinese airports. Our company has a good safety record and regards the safety of our flights as the most important component of our operations. Our company's aircraft have not been involved in any accidents involving fatalities since 1995.

Maintenance Capability. We currently perform regular repair and maintenance checks for all of our aircraft. We are able to perform 2D checks on our MD-82 aircraft, 4C checks on our Airbus A320 and Airbus A340-300 aircraft, and 12C checks on our A300-600 aircraft. We also perform certain maintenance services for other Chinese airlines. Our primary aircraft maintenance base is at Hong Qiao International Airport. We have additional maintenance bases at Pudong International Airport and each of our provincial hubs. Our maintenance staff in Shanghai supervises the operation of our regional maintenance facilities. Our company currently employs approximately 3,283 workers as maintenance and engineering personnel. Some of our aircraft maintenance personnel participated in the manufacturer training and support programs sponsored by Airbus Industrie G.I.E., or Airbus, and Boeing Corporation, or Boeing. In order to enhance our maintenance capabilities and to reduce our maintenance costs, we have, over the past few years, acquired additional maintenance equipment, tools and fixtures and other assets, such as airborne testing and aircraft data recovery and analysis equipment. Our company's avionics electronic equipment is primarily maintained and repaired at our electronic maintenance equipment center located in Shanghai, which was set up in cooperation with Honeywell, Inc. and is one of the largest and most advanced avionic electronic facilities in China. In September 2002, our company and Rockwell Collins International Inc. of the United States entered into a joint venture agreement to establish Collins Aviation Maintenance Service Shanghai Limited, a joint venture that is primarily engaged in the provision of repair and maintenance services for avionics and aircraft entertaining facilities in China. Our company and Rockwell Collins International Inc. hold 35% and 65% equity interest in the joint venture, respectively. Moreover, in November 2002, our company, jointly with China Aircraft Services Limited, established Shanghai Eastern Aircraft Maintenance Limited, in which our company holds a 60% equity interest. We expect the joint venture company to provide supplemental avionics and other maintenance services to our company.

In July 1996, we established a joint venture with Allied Signal Inc. in Shanghai for the purpose of performing maintenance and repairs on aircraft wheel assemblies and brakes. In 1997, our company entered into an agreement with Singapore Aviation Services Company, or SASCO, for the provision of additional maintenance services by SASCO to our company. In October 1997, we completed the construction of a maintenance hangar at Hong Qiao International Airport which has the capacity to house two widebody aircraft.

Table of Contents

The enhancement of our maintenance capabilities allows our company to perform various maintenance operations in-house and continue to maintain lower spare parts inventory levels.

Safety. The provision of safe and reliable air services for all of our customers is one of our primary operational objectives. Our company implements uniform safety standards and safety-related training programs in all operations. Our flight safety management division monitors and supervises our company's flight safety. We have had a flight safety committee since the commencement of our business, comprised of members of our senior management, to formulate policies and implement routine safety checks at our Shanghai headquarters and all provincial hubs. The flight safety committee meets monthly to review our overall operation safety record during the most recent quarter and to adopt measures to improve flight safety based upon these reviews. We have also implemented an employee incentive program, using a system of monetary rewards and discipline, to encourage compliance with the CAAC safety standards and our safety procedures. We periodically evaluate the skills, experience and safety records of our pilots in order to maintain strict control over the quality of our pilot crews.

The management of each of our provincial hub operations is responsible for the flight safety operations at that hub under the supervision of our flight safety management division. We prepare monthly safety bulletins detailing recent developments in safety practices and procedures and distribute them to each of our flight crew, the maintenance department and the flight safety management department. The CAAC also requires our company to prepare and submit semi-annual and annual flight safety reports.

All of our jet passenger aircraft pilots participated in the manufacturer training and support programs sponsored by Airbus and Boeing and are required to undergo recurrent flight simulator training and to participate in a flight theory course periodically. Our company maintains an MD-82 flight simulator at our training facility located at the Pudong district in Shanghai, which is used for both initial and recurrent training of all of our MD-82 aircraft pilots. We also use an A300-600R flight simulator and an A320 flight simulator located at the Pudong district for training of our A300-600R pilots and A320 pilots, respectively. At present, we send all other jet passenger aircraft pilots to the training center of the CAAC or abroad for flight simulator training.

Fuel Supplies

Fuel costs represented approximately 27.5% of our operating expenses in 2004. We currently purchase a significant portion of the aviation fuel for our domestic routes from regional branches of the CAOSC. Fuel costs in China are affected by costs at domestic refineries and limitations in the transportation infrastructure, as well as by insufficient storage facilities for aviation fuel in certain regions of China. We purchase a portion of the aviation fuel for our international routes from foreign fuel suppliers located at the destinations of these routes, generally at international market prices.

In 2004, our fuel expenses increased 78.3% as a result of increased weighted average domestic and international fuel prices and the expansion of our fleet. In particular, in 2004, the weighted average domestic and international fuel prices paid by our company increased by approximately 24.4% and 30.6%, respectively.

Ground Facilities and Services

The center of our operations is Shanghai, one of China's principal air transportation hubs. Our Shanghai operations are based at Hong Qiao International Airport and Pudong International Airport. We currently also operate from various other airports in China, including Yaoqiang Airport in Jinan, Lukou Airport in Nanjing, Liuting Airport in Qingdao, Luogang Airport in Hefei,

Table of Contents

Xiangtang Airport in Nanchang, Wushu Airport in Taiyuan, Zhengding Airport in Shijiazhuang, Lishe Airport in Ningbo and Tianhe Airport in Wuhan. We own hangars, aircraft parking and other airport service facilities at Hong Qiao International Airport and Pudong International Airport and lease from CEA Holding certain buildings at Hong Qiao International Airport where our principal executive offices are located.

We have our own ground services and other operational services, such as aircraft cleaning and refueling and the handling of passengers and cargo for our operations at Hong Qiao International Airport and Pudong International Airport. We also provide ground services for many other airlines that operate to and from Hong Qiao International Airport and Pudong International Airport. At other airports served by our company, we generally contract for ground services with these airports or the principal airlines based at these airports for fees and other charges which are typically based on passenger or cargo volume or aircraft tonnage.

In-flight meals and other catering services for our Shanghai-originated flights are provided primarily by Shanghai Eastern Air Catering Limited Liability Company, a joint venture company affiliated with CEA Holding. We generally contract with local catering companies for flights originating from other airports. We have improved the quality of our in-flight meal service in recent years.

We incur certain airport usage fees and other charges for services performed by the airports where our company operates, such as air traffic control charges, take-off and landing fees, aircraft parking fees and fees payable in connection with the use of passenger waiting rooms and check-in counter space. At domestic airports, such fees are generally charged at rates prescribed by the CAAC, which are lower than rates generally in effect at airports outside China.

Marketing and Sales

Passenger Operations. Our marketing strategy with respect to passenger operations is primarily aimed at increasing our market share for all categories of air travelers. With respect to our Hong Kong and international routes, we are permitted to market our services on the basis of price. We also have limited flexibility in setting our airfare for domestic routes after the implementation of the Pricing Reform Plan in April 2004, and therefore are able to adjust our airfare in response to the market demand on our domestic routes. As part of our overall marketing strategy, we emphasize our commitment to safety and service quality. We believe that emphasis on safety is a critical component of our ability to compete successfully. In order to improve our customer services, we participated in joint cabin crew training and exchange programs with foreign airlines, including Asiana Airlines and Japan Airlines System.

We have also adopted customized strategies to market our services to particular travelers. We seek to establish long-term customer relationships with business entities that have significant air travel requirements. In order to attract and retain business travelers, we focus on frequency of flights between major business centers, convenient transit services and extensive sales network. We launched our Golden Swallow frequent flyer program in 1998 and joined the Asia Miles frequent flyer program in April 2001 to attract and retain travelers. In August 2003, we changed the name of our frequent flyer program to Eastern Miles and introduced a series of new services, including, among others, instant registration of membership and mileage, online registration of mileage, and accumulation of mileage on expenses at certain hotels and restaurants that are our strategic partners. Under our continual effort to carry out the Eastern Miles program, the number of frequent flyers surpassed 4.46 million in 2004, with a flight-taking rate of nearly 50%, bringing the influence of our products into full play. The special services hotline 95108 call-centre was established and came into operation in 2004.

Table of Contents

In 2000, we launched the China Eastern Airlines-Great Wall co-branded credit card jointly with the Bank of China, which provides to our customers benefits such as airfare discounts, hotel room reservation packages and increased baggage allowances. In 2004, working with partner hotels, we launch Eastern Holiday product series to attract more leisure travelers. In addition, we continued to promote our China Eastern Express services on our Shanghai Hong Kong and Shanghai Beijing routes and our China Shuttle transit services. Our China Eastern Express services (including BTBT and Shanghai Beijing Express) provide more scheduled flights on the heavily traveled routes of Shanghai-Hong Kong and Shanghai-Beijing, compared with our other routes. Our China Shuttle services provide expedite transit services at Hong Qiao International Airport and Pudong International Airport for transit travelers on domestic routes and certain international routes, which significantly enhanced our customer service. We streamlined the transfer and connection procedures, rationally allocated flights, and also introduced different fares for connection flights to meet the needs of different travelers. All this improved our transit services quality and, as a result, the number of passengers who used our transit services exceeded 300,000 persons/time in 2004. In June 2004, we officially introduced our China Eastern Service Scheme to the public at large. Under this scheme, we will devote all efforts to flight scheduling, assurance and maintenance and enhance our non-regular services.

We have entered into code-sharing arrangements with American Airlines, Japan Airlines System, Korean Airlines, Asiana Airlines, Qantas Airways and Air France. We are also contemplating more code-sharing arrangements with other airlines and plan to continue to strengthen our existing cooperation with other international airlines.

Our advertising, marketing and other promotional activities include the use of radio, television and print advertisements. We plan to continue to use advertising and promotional campaigns to increase sales on new routes and competitive routes.

In 2002, we upgraded our online ticket booking and payment system to facilitate customer purchases of tickets via the Internet. We also maintain an extensive domestic network of sales agents and representatives in order to promote ticket sales and assist customers. The majority of our airline tickets are sold by domestic and international sales agents. Our tickets are sold throughout China through approximately 4,000 sales agents and travel agents who have contractual relationships with us. Currently, our direct domestic ticket sales are handled primarily through employees based at our ticket counters located at Hong Qiao International Airport, Pudong International Airport, in downtown Shanghai and at our provincial hubs in Anhui, Jiangsu, Zhejiang, Jiangxi, Shandong, Shanxi, Hebei and Hubei provinces, as well as at the airports in Beijing, Chengdu, Fuzhou, Guangzhou, Hangzhou, Kunming, Ningbo, Shenzhen, Xiamen and Yantai. Direct sales are also promoted by the availability of telephone reservation and confirmation services. In addition to our domestic sales agents, we maintain overseas representative offices in Chicago, Los Angeles, Seattle, Madrid, Paris, Sydney, Tokyo, Osaka, Nagasaki, Fukuoka, Nagoya, Okayama, Singapore, Bangkok, Seoul, Dehli and Hong Kong, which facilitate the sale of international and Hong Kong air tickets and provide reservation confirmation and other services. In order to promote international ticket sales, we intend to increase our international sales force by expanding our overseas network of commissioned independent sales agents.

We computerize in all of our direct passenger ticket sales. All Chinese airlines, including us, are required to use the passenger reservation service system provided by the CAAC's computer information management center, which is linked with the computer systems of approximately 20 domestic airlines. We have entered into membership agreements with several international reservation systems, including ABACUS, the largest computer reservation system in southeast Asia, TOPAS of Korea, SABRE, GALILEO and WORLDSPAN of the United States, AMADEUS of Europe, and INFINI and AXESS of Japan, which have made it easier for customers and sales agents to make reservations and purchase tickets for our international flights.

Table of Contents

Cargo Operations. We maintain a network of cargo sales agents domestically and internationally. We established domestic cargo sales offices in Dalian, Beijing, Shanghai, Xiamen and other major transportation hubs in China, and international cargo sales offices in Hong Kong, Los Angeles, Paris and our other overseas flight destinations. We are also improving our cargo sales on passenger flights through full utilization of our existing passenger sales network.

Ancillary Airline Activities

In addition to our airline operations, we also generate commission revenues from tickets sold on behalf of other airlines. Commission rates for these sales are determined by the CAAC and are based on the price of the tickets sold.

Moreover, we derive revenues from the provision of airport ground services for airlines operating to or from Hong Qiao International Airport and Pudong International Airport, including aircraft cleaning, refueling, loading, unloading, storage and ground transportation of cargo and passenger luggage. At present we are the principal provider of these services at Hong Qiao International Airport and Pudong International Airport. We provide these services to foreign carriers generally pursuant to one-year renewable contracts. In 2004, we generated revenues of approximately RMB1,253 million (approximately US\$153 million) from our airport ground services and ticket handling services.

Patents and Trademarks

We own or have obtained licenses to use various domestic and foreign patents, patent applications and trademarks related to our business. While patents, patent applications and trademarks are important to our competitive position, no single one is material to us as a whole.

We own various trademarks related to our business. The most important trademark is the service trademark of China Eastern Airlines Corporation Limited. All of our trademarks are registered in China.

Insurance

The CAAC purchases fleet insurance from PICC Property and Casualty Company Limited, or PICC, on behalf of all Chinese airlines. PICC reinsures a substantial portion of its aircraft insurance business through Lloyds of London. The fleet insurance is subject to certain amount of deductibles. The premium payable in connection with these insurance is allocated among all Chinese airlines based on the aircraft owned by these airlines. Under the relevant PRC laws, the maximum civil liability of Chinese airlines for injuries to passengers traveling on domestic flights is RMB70,000 (approximately US\$8,457) per passenger, for which our company also purchases insurance. Unless there is a separate agreement applicable for flights to or from a specific country, the Convention for the Unification of Certain Rules Relating to International Transportation by Air of 1929, or the Warsaw Convention, as amended by the protocol of 1955, provides that the maximum civil liability of airlines for international flights is US\$20,000 per passenger. Our company is insured for the maximum international civil liability under any agreement applicable to us and under the Warsaw Convention. We also maintain hull all risk, hull war risk and aircraft legal liability insurance, including third party liability insurance, of the types and in amounts customary for Chinese airlines. See also Item 3. Key Information D. Risk Factors Insurance coverage and cost for more information on our company's insurance coverage.

Table of Contents**Description of Property****Fleet**

We are required to obtain approvals from the National Development and Reform Commission for importing aircraft. In 2004, we added a total of 10 new aircraft, including the purchase of 2 Airbus A340-600 aircraft, 5 Airbus A320 aircraft and 2 Airbus A321 aircraft as well as 1 Airbus A300F freighter under wet lease. Moreover, in 2004, we entered into agreements to purchase 20 Airbus A330-300 aircraft (with engines) and 6 Boeing 737-700 aircraft, respectively. In 2005, we also entered into agreements to purchase 5 Airbus A319 aircraft (with engines), 5 ERJ145 aircraft, 15 Airbus A320 series aircraft and 2 Boeing 747-400 aircraft respectively.

As of May 31, 2005, we had a fleet of 104 aircraft, including 98 jet passenger aircraft that have more than 100 seats and 6 jet freighters. The following table sets forth the details of our fleet as of May 31, 2005:

	Total Number of Aircraft	Number of Aircraft Owned	Number of Aircraft under Operating Lease	Number of Aircraft under Capital Lease	Average Number of Seats	Average age (in years)⁽¹⁾
Jet Passenger Aircraft:						
Wide-body:						
A340-600	5	5			322	0.95
A340-300	5			5	289	8.17
Narrow-body:						
MD-90	9	2		7	157	6.40
MD-82	3		3		147	14.47
A300-600R	10	3	3	4	269	11.74
A321	2	2			185	0.17
A320	35	18	10	7	158	5.84
A319	10		10		122	3.48
Boeing 737-800	2		2		158	0.08
Boeing 737-700	11	4	7		142	1.97
Boeing 737-300	6		3	3	138	6.86
Total Passenger Aircraft	98	34	38	26	180	4.76
Cargo Aircraft:						
MD-11F	6	6				12.33
Total Fleet⁽²⁾	104	40	38	26		5.42

(1) The average aircraft age is weighted by the number of available seats.

(2) Excludes fleet of China Eastern Airlines Wuhan Limited.

-30-

Table of Contents

In 2004, our average daily aircraft utilization rate increased by 1.7 hours to 9.7 hours per day, primarily due to the further enhancement of our maintenance capability as well as increase in the number of flights in response to strong market demand. The table below sets forth the daily average utilization rates of our jet passenger aircraft for each of the three years ended December 31, 2004:

	2002	2003 (in hours)	2004
Wide-body:			
MD-11	10.9	9.8	11.0
A340-600		9.9	12.6
A340-300	11.2	11.9	13.8
A300-600R	7.4	6.3	8.8
Narrow-body:			
MD-90	7.7	6.9	8.5
MD-82	6.6	5.4	7.8
A320	8.8	7.8	9.4
A319	9.1	8.4	9.5
Boeing 737-700	10.0	9.0	9.9
Boeing 737-300	10.0	8.6	10.0

Most of our jet passenger aircraft were manufactured by either Airbus or Boeing. Our Airbus A340-300 and Airbus A340-600 aircraft are primarily used for our routes to the United States, Europe, Hong Kong, Japan and other international destinations, including Bangkok, Seoul and Singapore, and on major domestic routes to cities such as Beijing and Guangzhou. Our Airbus A320, MD-90 and Boeing B737 aircraft are suitable for middle and short distance flights and are primarily used for our domestic routes. MD-82 aircraft are primarily used for shorter distance domestic routes on which it is not possible to achieve high load factors with wide-body aircraft and on routes connecting to certain domestic airports which cannot accommodate the landing of wide-body aircraft. Revenues from commuter and general aviation services are immaterial to our results of operations.

Our MD-11F aircraft are used for our cargo operations and carry cargo to Japan, Europe and the United States. Our general aviation services customers include provincial authorities in charge of agriculture, forestry and geology.

Future Fleet Development. Our aircraft acquisition program focuses on aircraft that will modernize and rationalize our fleet to better meet the anticipated requirements of our route structure, taking into account aircraft size and fuel efficiency. Our aircraft acquisition program, however, is subject to the approval of the CAAC and the National Development and Reform Commission. The following table summarizes our currently anticipated jet aircraft deliveries from 2005 to 2006 as of December 31, 2004:

Table of Contents

	2005	2006	Total
Aircraft			
A330-300	0	7	7
A330-200	0	3	3
A321	2	0	2
A320	5	0	5
A319	0	3	3
B737-800	3	0	3
B737-700	0	6	6
ERJ145	3	2	5
Total	13	21	34

The actual acquisition of any of these aircraft or any additional aircraft may depend on such factors as the general economic conditions, our operating results and other capital requirements. We believe that our aircraft acquisition plan will help us accomplish our expansion plans while maintaining an efficient fleet and ensuring alternative sources of supply.

We are currently in negotiation with Boeing Company for possible purchase of 15 Boeing B7E7 aircraft. These 15 Boeing B7E7 aircraft were allocated to us under an agreement entered into between China Aviation Supplies Imp. & Exp. Corporation and Boeing Company on January 28, 2005 regarding proposed purchase of certain Boeing B7E7 aircraft for future use by various PRC airlines companies. The possible purchase, if it materializes, will be introduced to our company's fleet to cater to the increasing market demand, both domestic and international alike, enhancing our competitiveness and hence operating capability.

Fleet Financing Arrangements. We generally acquire aircraft through either long-term capital leases or operating leases. To take advantage of the low interest rate for long-term loans in 2002, we also purchased certain number of aircraft and financed it by borrowing long-term loans from banks in China. Under the terms of most capital leases, we generally are obligated to make lease payments that finance most of the purchase price of the aircraft over the lease term. Upon the expiration of the lease term, we must either purchase the aircraft at a specified price or pay any amount by which such price exceeds the proceeds from the disposition of the aircraft to third parties. Alternatively, some capital leases provide for ownership of the aircraft to pass to us upon satisfaction of the final lease payment. Under capital leases, aircraft are generally leased for approximately the whole of their estimated working life, and the leases are either non-cancelable or cancelable only on a payment of a major penalty by the lessee. As a result, we bear substantially all of the economic risks and rewards of ownership of the aircraft held under capital leases. Operating leases, however, are customarily cancelable by the lessee on short notice and without major penalty. Under operating leases, substantially all the risks and rewards of ownership of the aircraft remain with the lessor.

We intend to increase the use of operating leases to improve the flexibility of our operations. However, each decision on our financing alternatives will depend on an evaluation of the following factors:

our aircraft requirements and anticipated future deliveries;

capital structure and cash flow situation;

prevailing interest rates; and

other market conditions in effect at the time of any such acquisition or financing.

Table of Contents

All of our payment obligations under current aircraft leases have been guaranteed by banks in China.

Operating Facilities

Our corporate headquarters, base maintenance center and other primary airport facilities in Shanghai, occupying an area of approximately 412,422 square meters of land, are located at Hong Qiao International Airport. We also own office buildings, cargo operating buildings and a maintenance center at Pudong International Airport. The total gross floor area of all of our buildings and facilities is approximately 341,000 square meters.

We own all of the buildings and facilities located at Hong Qiao International Airport, with the exception of the office buildings where our corporate headquarters are located. We lease from CEA Holding our corporate headquarter office buildings and the land on which our corporate headquarters are located. We have acquired buildings and ancillary facilities at Pudong International Airport with a total gross floor area of approximately 158,400 square meters.

Our operations in the nine provincial hubs in Jiangsu, Shandong, Shanxi, Hebei, Anhui, Jiangxi, Zhejiang and Hubei are located in the airports in Nanjing, Qingdao, Jinan, Taiyuan, Shijiazhuang, Hefei, Nanchang, Ningbo and Wuhan, respectively. In Nanjing, we lease all the buildings and facilities our company occupies from the airport authority. In Qingdao, Hefei and Nanchang, we have the right to use such buildings and facilities constructed and maintained by our company. However, the right to use such buildings and facilities cannot be transferred or leased to third parties. In Taiyuan and Shijiazhuang, we own our maintenance facilities and lease office building from CEA Holding and other facilities from the local airport authorities.

Item 5. Operating and Financial Review and Prospects.

You should read the following discussion in conjunction with our audited consolidated financial statements, together with the related notes, included elsewhere in this annual report. Our consolidated financial statements have been prepared in accordance with IFRS. For a discussion of certain differences between IFRS and U.S. GAAP, see Note 39 to our audited consolidated financial statements.

Overview

Our primary business is the provision of domestic, Hong Kong regional and international passenger and cargo airline services. Our overall capacity on an available tonne kilometer, or ATK, basis increased by 48.1%, from 4,774.5 million ATKs in 2003 to 7,071.2 million ATKs in 2004, and our passenger capacity on an available seat kilometer, or ASK, basis increased by 39.7%, from 29,780.0 million ASKs in 2003 to 41,599.1 million ASKs in 2004. Total traffic on a revenue tonne kilometer, or RTK, basis increased by 49.3%, from 2,907.7 million RTKs in 2003 to 4,340.7 million RTKs in 2004.

We have agreed to acquire from CEA Holding certain assets and liabilities relating to the aviation businesses of CEA Yunnan and CEA Northwest. See the section headed Item 4. Information on the Company History and Development of the Company for more details. This proposed acquisition is expected to result in expansion of our operation and increase in our traffic revenue. With the completion of the acquisition, we also expect to achieve reduction of our company's unit costs, improvement of our service quality and enhancement of our overall strength and market competitiveness by rationalizing our route network and fleet, centralizing our procurement of aircraft and aircraft components, integrating our maintenance resources as well as streamlining our sales channels.

Table of Contents

The historical results of operations discussed in this annual report may not be indicative of our future operating performance. Like those of other airlines, our operations substantially depend on overall passenger and cargo traffic volume and are subject to seasonal and other variations that may influence passenger travel demand and cargo volume and may not be under our control, including unusual political events and other unforeseen events. Our operations will be affected by, among other things, fluctuation of the aviation fuel price, aircraft acquisition and leasing costs, maintenance expenses, take-off and landing charges, wages, salaries and benefits, other operating expenses and the rates of income taxes paid. We expect depreciation expenses and operating lease expenses to increase as new aircraft and related flight equipment are acquired. Maintenance expenses may also increase as a result of acquisitions of new aircraft, although we expect to benefit from certain maintenance and fuel cost savings as older aircraft are retired and replaced.

Our financial performance is also significantly affected by factors associated with operating in a highly regulated industry, as well as a number of other external variables, including political and economic conditions in China, competition, foreign exchange fluctuations and public perceptions of the safety of air travel with Chinese airlines. Because nearly every aspect of our airline operations is subject to the regulation of the CAAC, our operating revenues and expenses are directly affected by the CAAC regulations with respect to, among other things, domestic airfare, level of commissions paid to sales agents, aviation fuel price, take-off and landing charges and route allocations. The nature and extent of airline competition and the ability of Chinese airlines to expand are also significantly affected by various CAAC regulations and policies. Changes in the CAAC's regulatory policies, or in the implementation of such policies, are therefore likely to have a significant impact on our future operations.

Certain Financial Information by Geographic Region

The following table sets forth passenger revenues, passenger traffic and passenger yield by geographic region for the years ended December 31, 2002, 2003 and 2004.

	Year Ended December 31,		
	2002	2003	2004
Passenger Revenues (millions of RMB)			
Domestic	4,670	5,592	8,284
Hong Kong	1,911	1,627	2,187
International			
Japan	1,279	978	1,466
U.S. and Europe	1,250	785	232
Other	928	1,279	3,189
Total Passenger Revenues	10,038	10,261	15,358
Passenger Traffic (millions of passenger-kilometers)			
Domestic	8,516	10,302	14,500
Hong Kong	2,234	1,934	3,038
International	7,457	5,767	10,043
Total Passenger Traffic	18,207	18,003	27,581
Passenger Yield (RMB per passenger-kilometer)			
Domestic	0.55	0.54	0.57
Hong Kong	0.86	0.84	0.72

International	0.46	0.53	0.49
Total Passenger Yield	0.55	0.57	0.56

Table of Contents

Operating Results

2004 Compared to 2003

Turnover. Our turnover increased 47.4% from RMB14,277 million in 2003 to RMB21,039 million in 2004. This increase was primarily due to an increase of our passenger and cargo revenues, which were net of the applicable PRC business tax.

Traffic revenues from our passenger as well as cargo and mail transportation business increased 47.1% from RMB13,448 million in 2003 to RMB19,786 million in 2004. Compared to 2003, the average aircraft daily utilization increased by 1.7 hours to 9.7 hours in 2004.

Passenger revenues, which accounted for 77.6% of our total traffic revenues in 2004, increased 49.7% from RMB10,261 million in 2003 to RMB15,358 million in 2004. This increase was primarily due to the market recovery following the end of severe acute respiratory syndrome (SARS) and the increase of our transportation capacity.

Our domestic passenger revenues, which accounted for 53.9% of our total passenger revenues, increased 48.1% from RMB5,592 million in 2003 to RMB8,284 million in 2004. This increase was principally a result of the growing market demand following the end of SARS and the expansion of our transportation capacity, including the launch of new routes and increase in the number of flights. Compared to 2003, our domestic passenger traffic increased by 40.8% in 2004, and our domestic passenger load factor increased from 64.8% in 2003 to 70.3% in 2004. As a result of the favorable condition in the domestic passenger market since the end of 2003, we increased capacity on our domestic routes by 29.7% in 2004. Our domestic passenger yield increased from RMB0.54 in 2003 to RMB0.57 in 2004 per passenger-kilometer. This increase was principally a result of the increased pricing level due to strong demand in the domestic transportation.

Hong Kong passenger revenues, which accounted for 14.2% of our total passenger revenues, increased 34.4% from RMB1,627 million in 2003 to RMB2,187 million in 2004. This increase was primarily due to the market recovery following the end of SARS and the increase in the number of business and leisure travelers. Hong Kong passenger traffic increased by 57.1% in 2004 over that of 2003. In order to meet market demand, we increased the passenger capacity on our Hong Kong routes by 31.6% in 2004. Our Hong Kong passenger load factor increased from 52.4% in 2003 to 62.6% in 2004, and our Hong Kong passenger yield decreased from RMB0.84 in 2003 to RMB0.72 in 2004 per passenger-kilometer. The decrease in passenger yield on Hong Kong routes was primarily due to (1) an increase in the number of leisure travelers, (2) various promotions offered by us and (3) competition from other airlines.

International passenger revenues, which accounted for 31.8% of our total passenger revenues, increased 60.7% from RMB3,042 million in 2003 to RMB4,887 million in 2004. This increase was mainly due to the market recovery following the end of SARS and the increasing demand as a result of the recovering global economy in 2004. As a result, international passenger traffic increased by 74.1% in 2004 compared to 2003. Our international passenger capacity increased by 58.2% in 2004 compared to 2003. Our international passenger load factor increased from 56.7% in 2003 to 62.4% in 2004. Our international passenger yield decreased from RMB0.53 in 2003 to RMB0.49 in 2004 per passenger-kilometer. This decrease was primarily due to the increase in the number of leisure travelers and competition.

We generate cargo and mail revenues from the transportation of cargo and mail on our designated cargo aircraft as well as from the carriage of cargo and mail on passenger aircraft. Revenues from cargo and mail operations, which accounted for 21.1%

Table of Contents

of our total transportation revenues in 2004, increased 39.0% from RMB3,187 million in 2003 to RMB4,428 million in 2004. This increase was primarily due to the increasing demand for cargo transportation driven by the continuing rapid growth of China's economy following its accession to the World Trade Organization, the increase of our transportation capacity as well as the increase of our market share. Our cargo and mail traffic (as measured in revenue freight tonne-kilometers, or RFTKs) increased 44.6% from 1,297 million RFTKs in 2003 to 1,875 million RFTKs in 2004. This increase was primarily due to a significant increase in the capacity of our cargo transportation which resulted from the completion of the remodeling of MD-11 passenger aircraft into freighters, launch of new routes as well as an increase in the number of passenger flights which also carry cargo. Cargo yield decreased from RMB2.46 in 2003 to RMB2.36 in 2004 per cargo tonne-kilometer. This decrease was primarily due to intensified competition.

Other operating revenues are primarily generated from airport ground services and ticket handling services. Airport ground services include loading and unloading, aircraft cleaning, fueling and ground transportation of cargo and passenger luggage for airlines operating to or from Hong Qiao International Airport and Pudong International Airport. We are currently the principal provider of airport ground services at both Hong Qiao International Airport and Pudong International Airport. Other operating revenues increased 51.1% from RMB829 million in 2003 to RMB1,253 million in 2004, which is higher than the 39.0% growth rate achieved in 2003. This increase was mainly due to the increase in the number of flights following the end of SARS and the enhancement of our capability in carriage, storage and handling of cargo with the establishment of Shanghai Eastern Logistics Co., Ltd.

Other net operating income included rental income from operating sublease of aircraft and government subsidy net of loss on disposal of aircraft and engines. Our other operating income increased to RMB154 million in 2004 from RMB61 million in 2003. This increase was primarily due to a significant increase in rental income from operating sublease of aircraft.

Operating Expenses. Our total operating expenses increased 39.7% from RMB14,117 million in 2003 to RMB19,714 million in 2004. This increase was primarily due to increases in aviation fuel expenses, aircraft depreciation and operating lease expenses, take-off and landing charges, food and beverage expenses, salary costs, commission expenses and other expenses. Our total operating expenses as a percentage of our turnover decreased from 98.9% in 2003 to 93.7% in 2004.

Aviation fuel expenses increased 78.3% from RMB3,045 million in 2003 to RMB5,430 million in 2004. This increase was principally a result of our business expansion in 2004 and the increased international aviation fuel prices in 2004. In 2004, we consumed a total of 1,454,500 tonnes of aviation fuel, representing an increase of 42.1% compared to 2003. In 2004, the weighted average domestic and international fuel prices paid by our company compared to 2003 increased by approximately 24.4% and 30.6%, respectively.

Aircraft depreciation and operating lease expenses increased 28.8% from RMB2,851 million in 2003 to RMB3,672 million in 2004. This increase was primarily due to our fleet expansion. Other depreciation, amortization and operating lease expenses increased from RMB495 million in 2003 to RMB496 million in 2004.

The wages, salaries and benefits increased 28.8% from RMB1,449 million in 2003 to RMB1,866 million in 2004. This increase was primarily due to an increase in the number of staff resulting from the expansion of our company and our main operations as well as an increase in staff's average salaries with the introduction of an incentive compensation plan that is linked to profit and various factors. The increase was also partially attributable to the introduction of an incentive plan for our pilots that links allowances to flying hours.

Table of Contents

Take-off and landing charges increased 34.0% from RMB2,254 million in 2003 to RMB3,020 million in 2004, which accounted for 15.3% of our total operating expenses in 2004. This increase was primarily due to the expansion of our business and the increased number of flights.

Aircraft maintenance expenses were RMB1,396 million in 2004, compared to RMB1,329 million in 2003, an increase of 5.0%. This increase was mainly due to the increased aircraft maintenance performed as a result of the increase in the number of our flights in 2004.

Commission expenses increased 66.0% from RMB465 million in 2003 to RMB772 million in 2004. This increase was primarily due to the increase in the revenues of our domestic and international businesses.

Food and beverage expenses increased 39.9% from RMB542 million in 2003 to RMB758 million in 2004. This increase was primarily due to an increase in the number of travelers which was partially offset by a decrease of the average cost of food and beverage as a result of our cost-control initiatives.

Office and administration expenses increased by 26.5% from RMB1,058 million in 2003 to RMB1,338 million in 2004. This increase was primarily due to an increase in pilot and aircrew training expenses, overseas expenses as well as travel expenses.

Other operating expenses increased 53.8% from RMB628 million in 2003 to RMB966 million in 2004. Other operating expenses mainly included SITA ticket reservation system charges, SITA departure control system charges, civil aviation infrastructure levy, provision for obsolescence of flight equipment spare parts, maintenance expenses and loss on disposal of other fixed assets, insurance costs, operating income and expenses relating to the newly-established Shanghai Eastern Logistics Co., Ltd. This increase was mainly attributable to increases in SITA ticket reservation system charges, SITA departure control system charges, civil aviation infrastructure levy as well as expenses relating to the newly-established Shanghai Eastern Logistics Co., Ltd.

Non-operating Income. Non-operating income was RMB133 million in 2004, which was due to the rescission of certain related party lease arrangements between CEA Northwest and us. For more details, please see Note 34(c)(ii) to our audited consolidated financial statements.

Net Profits. As a result of the foregoing, net profit attributable to shareholders was RMB514 million in 2004 compared to a loss of RMB950 million in 2003.

Fixed Assets. Our company had approximately RMB30,220 million of fixed assets as of December 31, 2004, including aircraft and flight equipment with a value of approximately RMB27,169 million. Fixed assets are initially recognized at cost and are subsequently stated at revalued amount, being its fair value at the date of revaluation less any subsequent accumulated depreciation.

Valuation of fixed assets is based on market conditions and global economic factors that we may not control. The determination of fair value requires significant judgment, including judgment on valuations by our management and/or by independent professional appraisers. Our directors have reviewed the carrying value of our fixed assets as of December 31, 2004 and are of the opinion that the carrying amount is not materially different from the fair value of our fixed assets.

Table of Contents**2003 Compared to 2002**

Turnover. Our turnover increased from RMB13,079 million in 2002 to RMB14,277 million in 2003, or 9.2%, reflecting increase in our domestic passenger and cargo revenues. These revenues were net of the applicable PRC business tax and civil aviation infrastructure levies.

Revenues from our passenger and cargo and mail transportation business increased from RMB12,482 million in 2002 to RMB13,448 million in 2003, or 7.7%. Compared to 2002, the average aircraft daily utilization decreased by 0.6 hours to 8.0 hours in 2003.

Passenger revenues, which accounted for 76.3% of our total transportation revenues in 2003, increased from RMB10,038 million in 2002 to RMB10,261 million in 2003, or 2.2%, reflecting increase in domestic passenger revenues driven by the recovery of the domestic passenger market during the second half of 2003. Passenger revenues in the second half of 2003 were RMB6,555 million, representing an increase of 21.3% from RMB5,405 million in the second half of 2002.

Our domestic passenger revenues, which accounted for 54.4% of our total passenger revenues, increased from RMB4,670 million in 2002 to RMB5,592 million in 2003, or 19.7%, primarily because we took advantage of the opportunities created by the recovery of the domestic passenger market during the second half of 2003 and attracted more customers. Domestic passenger revenues in the second half of 2003 were RMB3,651 million, representing an increase of 46.9% from RMB2,485 million in the second half of 2002. Compared to 2002, our domestic passenger traffic increased by 21.0% in 2003, and our domestic passenger load factor increased from 63.1% in 2002 to 64.8% in 2003. In response to the market demand, we increased capacity on our domestic routes by 17.9% in 2003. Our domestic passenger yield decreased slightly from RMB0.55 in 2002 to RMB0.54 in 2003 per passenger-kilometer, primarily due to competition in the domestic market.

Hong Kong passenger revenues, which accounted for 15.9% of our total passenger revenues, decreased from RMB1,911 million in 2002 to RMB1,627 million in 2003, or 14.9%, primarily due to the adverse effect on the traffic volume on our Hong Kong regional routes by the outbreak and spread of a highly contagious form of atypical pneumonia, also known as severe acute respiratory syndrome, or SARS, in Hong Kong and other areas in China. Hong Kong passenger traffic decreased by 13.4% in 2003 over that of 2002. In order to increase our market share and in response to competition on our Hong Kong routes, we increased the passenger capacity on our Hong Kong routes by 1.2% in 2003. Our Hong Kong passenger load factor decreased from 61.2% in 2002 to 52.4% in 2003, and our Hong Kong passenger yield decreased from RMB0.86 in 2002 to RMB0.84 in 2003 per passenger-kilometer. The decrease in passenger load factor and passenger yield on Hong Kong routes was also attributable to competition from other airlines.

International passenger revenues, which accounted for 29.7% of our total passenger revenues, decreased from RMB3,457 million in 2002 to RMB3,042 million in 2003, or 12.0%. The decrease in international passenger revenues mainly reflected decreased international passenger traffic caused by SARS. Starting from the end of 2002 until mid June 2003, most areas of China were affected by SARS. The SARS-related travel advice issued by the World Health Organization as well as governmental agencies and private companies of other countries significantly discouraged business travelers and tourists to travel to China. Other factors such as the Iraq war and the terrorist activities also affected the international traffic. As a result, international passenger traffic decreased by 22.7% in 2003 over that of 2002. Our international passenger capacity decreased by 5.9% in 2003 compared to 2002. Our international passenger load factor decreased from 68.9% in 2002 to 56.7% in 2003. However, our international passenger yield increased from RMB0.46 in 2002 to RMB0.53 in 2003 per passenger-kilometer.

Table of Contents

primarily because the increase in customers who fly business class on our international routes and the appreciation of certain foreign currencies against Renminbi in 2003.

We generate cargo and mail revenues from the transportation of cargo and mail on our designated cargo aircraft as well as from the carriage of cargo and mail on passenger aircraft. Revenues from cargo and mail operations, which accounted for 23.7% of our total transportation revenues in 2003, increased from RMB2,445 million in 2002 to RMB3,187 million in 2003, or 30.4%. The increase in our cargo revenues was primarily the result of our increased freight charges in response to the increased demand. The demand was driven by increased importation and exportation after China's admission to the World Trade Organization, or WTO. Our cargo and mail traffic (as measured in revenue freight tonne-kilometers, or RFTKs) increased from 1,023 million RFTKs in 2002 to 1,297 million RFTKs in 2003, or 26.7%. In response to the rapid growth in our cargo and mail operations, we successively remodeled three MD-11 passenger aircraft into freighters in the second half of 2003. Cargo yield increased from RMB2.39 in 2002 to RMB2.46 in 2003 per cargo tonne-kilometer primarily as a result of increased market demand.

Other operating revenues are primarily generated from airport ground services and ticket handling services. Airport ground services include loading and unloading, aircraft cleaning, fueling and ground transportation of cargo and passenger luggage for airlines operating to or from Hong Qiao International Airport and Pudong International Airport. We are currently the principal provider of airport ground services at both Hong Qiao International Airport and Pudong International Airport. Other operating revenues increased from RMB596 million in 2002 to RMB829 million in 2003, or 39.0%, which is higher than the 25.8% growth rate achieved in 2002. The increase in other operating revenues in 2003 was mainly due to increase in our airport ground service revenues as a result of increased volume of imported and exported goods after China's admission to the WTO. It is also attributable to the increase in our commission revenues generated from our ticket handling services provided to other airlines.

Operating Expenses. Our total operating expenses increased from RMB12,242 million in 2002 to RMB14,117 million in 2003, or 11.5%, reflecting mainly increase in aviation fuel expenses, wages, salaries and benefits, other depreciation, amortization and operating lease expenses, aircraft maintenance expenses, commissions and take-off and landing charges. Our total operating expenses as a percentage of our turnover increased from 93.6% in 2002 to 98.9% in 2003.

Aviation fuel expenses increased from RMB2,564 million in 2002 to RMB3,045 million in 2003, or 18.8%, primarily as a result of increased fuel prices and the expansion of our fleet. In 2003, we consumed a total of 1,023,700 tonnes of aviation fuel, representing an increase of 8.8% compared to 2002. In 2003, due to the Iraqi war, the weighted average domestic and international fuel prices paid by our company increased by approximately 10.6% and 3.6%, respectively.

Aircraft depreciation and operating lease expenses increased from RMB2,455 million in 2002 to RMB2,851 million in 2003, or 16.1%. Other depreciation, amortization and operating lease expenses increased from RMB400 million in 2002 to RMB495 million in 2003, or 23.7%, primarily due to the expansion of our fleet.

The wages, salaries and benefits increased from RMB1,036 million in 2002 to RMB1,449 million in 2003, or 39.9%, mainly because our work force increased by approximately 5% compared to 2002, and in order to meet the requirements of our fleet expansion, most of our newly hired staff are pilots and cabin crew that are paid relatively high compared to our average salaries. In addition, in accordance with relevant government regulations and with reference to the policies implemented by enterprises in nearby regions, we formulated a staff housing allowance plan in 2003. The housing allowance standards under the new housing plan are higher than the standards to which we made references in 2000 in making provisions. Moreover,

Table of Contents

the number of employees who are qualified to receive housing allowance also increased in 2003. As a result, we recognized provisions of RMB340 million as of December 31, 2003, which amount is RMB260 million higher than the provisions of RMB80 million that we made in 2000. The increased amount of the provisions was fully charged to our income statement for our fiscal year ended December 31, 2003.

Take-off and landing charges increased from RMB1,988 million in 2002 to RMB2,254 million in 2003, or 13.4%, which accounted for 16.0% of our total operating expenses in 2003, primarily due to the mandatory increase in the take-off and landing charges for domestic flights by the CAAC, effective September 1, 2002, and a 20.1% increase in 2003 in our domestic flight take-offs and landings compared to 2002.

Aircraft maintenance expenses were RMB1,329 million in 2003, compared to RMB1,078 million in 2002, an increase of 23.3%. This increase is mainly due to increased number of aircraft and engines that were subject to overhaul in 2003, and increased maintenance of aircraft that were temporarily out of service during the period of SARS.

Commission expenses increased from RMB380 million in 2002 to RMB465 million in 2003, or 22.5%, primarily due to commission payments to China Eastern Air Northwest Company and China Eastern Air Yunnan Company that began to sell our passenger tickets since March 2003.

Food and beverage expenses decreased from RMB606 million in 2002 to RMB542 million in 2003, or 10.6%, primarily due to decreased provision of food and beverage during the period of SARS, and our effective control over purchases and provision of food and beverage, which is partially offset by the increased expenses resulted from the increased traffic volume on domestic routes.

Other operating expenses increased from RMB520 million in 2002 to RMB570 million in 2003, or 9.7%. Other operating expenses included provision for obsolescence of flight equipment spare parts, maintenance expenses of other fixed assets, computer and telecommunications expenses and other expenses. The increase was mainly attributable to increase in provision for obsolescence of flight equipment spare parts and maintenance expenses for our office building in Pudong.

Net Losses. The net losses attributable to shareholders was RMB950 million for the fiscal year ended December 31, 2003.

Fixed Assets. Our company had approximately RMB26.8 billion of fixed assets as of December 31, 2003, including aircraft and flight equipment with a value of approximately RMB23.8 billion. Fixed assets are initially recognized at cost and are subsequently stated at revalued amount, being its fair value at the date of revaluation less any subsequent accumulated depreciation.

Valuation of fixed assets is based on market conditions and global economic factors that we may not control. The determination of fair market value requires significant judgment, including judgment on valuations by our management and/or by independent professional appraisers. Our directors have reviewed the carrying value of our fixed assets as of December 31, 2003 and are of the opinion that the carrying amount is not materially different from the fair value of our fixed assets.

Liquidity and Capital Resources

We finance our working capital requirements through a combination of funds generated from operations and short-term bank loans. As a result, our liquidity would be adversely affected to the extent there is a significant decrease in demand for our

Table of Contents

services, or any delay in obtaining bank loans. As of December 31, 2003 and 2004, we had cash and cash equivalents of RMB1,583 million and RMB2,114 million, respectively. In 2003 and 2004, our net cash inflows generated from operating activities were RMB3,163 million and RMB3,266 million, respectively, while our net cash outflows used in investment activities were RMB7,305 million and RMB2,433 million, respectively. In the past two years, our primary cash requirements were the funds for the acquisitions and upgrades of aircraft and flight equipment and debt repayments.

In 2003 and 2004, payment of advances on aircraft and flight equipment were RMB1,296 million and RMB2,077 million, respectively, while additions of aircraft and flight equipment were RMB5,560 million and RMB1,207 million, respectively. We financed the additions to our aircraft and flight equipment primarily through lease arrangements, bank loans, and funds generated from operations. Funds generated from disposal of old aircraft and flight equipment and other fixed assets and equipment (including by way of exchange) totaled RMB92 million and RMB668 million in 2003 and 2004, respectively. Our net cash inflow generated from financing activities was RMB3,764 million in 2003, primarily from proceeds from bank loans. Our net cash outflow generated from financing activities was RMB312 million in 2004, primarily due to repayment of bank loans.

Pursuant to certain of our finance or operating leases, we are required to indemnify the lessors against any withholding or similar taxes that may be imposed on the lessors by taxing authorities in China with regard to payments made under these leases. Pursuant to a regulation issued in 2000 by the State Tax Bureau of China, lease payments made by Chinese airlines to foreign enterprises in respect of lease arrangements entered into prior to September 1, 1999 are exempt from the payment of any withholding tax. Withholding tax payable in respect of the lease arrangements entered into on or after September 1, 1999 are charged to our income statement as incurred.

We generally operate with a working capital deficit. As of December 31, 2004, our current liabilities exceeded our current assets by RMB12,502 million, while our current liabilities exceeded our current assets by RMB9,941 million as of December 31, 2003. The increase in our current liabilities in 2004 was due to increase in short-term bank loans and the portion of long-term bank loans payable within one year. Short-term loans outstanding totaled RMB4,632 million and RMB6,189 million as of December 31, 2003 and 2004, respectively. Long-term bank loans outstanding totaled RMB11,223 million and RMB10,736 million as of December 31, 2003 and 2004, respectively. Long-term loans payable within two years, from three to five years and beyond five years were 5,580 million, RMB3,216 million and RMB1,940 million, respectively, as of December 31, 2004, as compared to RMB4,689 million, RMB4,164 million and RMB2,370 million, respectively, as of December 31, 2003. The total lease obligations outstanding under our finance leases as of December 31, 2003 and 2004 were RMB7,101 million and RMB8,662 million, respectively. Our lease obligations payable within two years, from three to five years and beyond five years were RMB2,889 million, RMB3,756 million and RMB2,017 million, respectively, as of December 31, 2004, as compared to RMB2,679 million, RMB4,039 million and RMB383 million, respectively, as of December 31, 2003.

We have, and in the future may continue to have, substantial debts. As of December 31, 2003 and 2004, our long-term debt to equity ratio was 2.6 and 2.5, respectively. The interest expenses associated with these debts might impair our future profitability. We expect that cash from operations and bank borrowings will be sufficient to meet our operating cash flow requirements, although events that materially affect our operating results can also have a negative impact on liquidity. We have entered into credit facility agreements with Chinese banks to meet our future working capital needs. We have arranged, and we believe that we will continue to be able to arrange, short-term bank loans with domestic and foreign-funded banks in China as necessary to meet our working capital requirements. However, our ability to obtain financing may be affected by our financial position and leverage, as well as by prevailing economic conditions and the cost of financing generally. If we are unable to obtain financing for a significant portion of our capital requirements, our ability to acquire new aircraft or to expand our operations could be impaired.

Table of Contents**Capital Expenditures**

Our aircraft orders as of December 31, 2004 included commitments to acquire 31 aircraft to be delivered in 2005 and 2006. We expect our capital expenditures for aircraft and related equipment, including deposits, through 2006 to be in aggregate approximately RMB8,791 million, including RMB6,945 million in 2005 and RMB1,350 million in 2006, in each case subject to contractually stipulated increases or any increase relating to inflation. We generally finance our purchase of aircraft through operating leases and bank loans secured by our assets. As of December 31, 2004, the total value of our mortgaged assets increased by 33.9%, from RMB9,735 million as of December 31, 2003 to RMB13,033 million as of December 31, 2004. Construction of our facilities at the Pudong International Airport and the purchase of maintenance equipment and other property and equipment will continue to require additional capital expenditures in 2005. We plan to finance our other capital commitments through a combination of funds generated from operations, existing credit facilities, bank loans, leasing arrangements and other external financing arrangements.

Contractual Obligations and Commercial Commitments

The following tables set forth our outstanding contractual and commercial commitments as of December 31, 2004.

Contractual Obligations	Total	Payments Due by Period			
		Less Than 1 Year	1-3 Years	4-5 Years	After 5 Years
			(RMB millions)		
Long-Term Debt	10,736	3,193	3,978	1,625	1,940
Capital Leases	8,662	1,190	3,760	1,695	2,017
Operating Leases	5,847	1,044	2,153	2,077	573
Unconditional Purchase Obligations	9,229	7,383	1,846		
Other Long-Term Obligations	112	30	60	22	
Total	34,586	12,840	11,797	5,242	4,707

Other Commercial Commitments	Total Amounts Committed (RMB millions)	Amount of Commitment Expiration Per Period			
		Less Than 1 Year	1-3 Years	4-5 Years	After 5 Years
			(RMB millions)		
Line of Credit	46,836	3,270	43,566		
Standby Letters of Credit					
Guarantees					
Standby Repurchase Obligations					
Other Commercial Commitments ⁽¹⁾					
Total	46,836	3,270	43,566		

Table of Contents

Critical Accounting Policies

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties and potentially result in materially different results under different assumptions and conditions.

Our audited consolidated financial statements have been prepared in accordance with IFRS. Our principal accounting policies are set forth in Note 2 to our audited consolidated financial statements. IFRS requires that we adopt the accounting policies and make estimates that our directors believe are most appropriate in the circumstances for the purposes of giving a true and fair view of our results and financial condition. However, different policies, estimates and assumptions in critical areas could lead to materially different results. The critical accounting policies adopted and estimates made in the preparation of these financial statements are identified as follows:

Revenue recognition As discussed in Note 2(d) to our audited consolidated financial statements, passenger, cargo and mail revenues are recognized as traffic revenues when the transportation services are provided. The value of sold but unused tickets is included in the current liabilities as sales in advance of carriage. Revenue for expired air tickets are recognized when we believe that our obligation to fulfill the services is remote. Management performs periodic evaluations of sales in advance of carriage, and any adjustments made as a result of such evaluations, which can be significant, are included in the results of operations for the periods in which the evaluations are completed. These adjustments result from differences between the estimates of certain revenue transactions, timing of recognizing revenue for any expired air tickets and the related sales price, and are impacted by various factors, including a complex pricing structure and interline agreements throughout the industry, which affect the timing of revenue recognition.

Fixed assets We had approximately RMB30.2 billion of fixed assets as of December 31, 2004, including aircraft and flight equipment with a value of approximately RMB27.2 billion. As discussed in Note 2(j) to our audited consolidated financial statements, fixed assets are initially recognized at cost and are subsequently stated at revalued amount less accumulated depreciation. Under U.S. GAAP, our fixed assets are initially recognized at cost less accumulated depreciation and impairment charges, if any. Independent valuations are conducted at least every five years or sooner if considered necessary by our directors. In the intervening years, our directors would review the carrying value of the fixed assets from time to time and make adjustments if the carrying value is materially different from the fair value. Their recorded value is impacted by management judgment, including valuations performed by the management and/or independent professional valuers, estimates of useful lives, residual value and impairment charges. If different judgments or estimates had been utilized, material differences could have resulted in the amount of revaluation and related depreciation charges. We revalued our fixed assets on December 31, 2002 based on a market value basis. Our directors reviewed the carrying value of our company's fixed assets as of December 31, 2004 and are of the opinion that the carrying amount of the fixed assets is not materially different from the estimated fair value and no impairment or changes in estimates of useful lives are necessary.

Maintenance and overhaul costs Following the adoption of IFRS 37 Provisions, Contingent Liabilities and Contingent Assets in the year ended December 31, 2000, major overhaul expenses for owned assets and assets under capital leases are no longer accrued but charged against operating profits as and when incurred. In respect of major overhauls for aircraft and engines under operating leases, the estimated costs of such overhauls are accrued and charged to operating profits over the estimated period between overhauls using the ratios of actual flying hours/cycles and estimated flying hours/cycles between overhauls. The

Table of Contents

amount of overhaul costs charged to operating profits is impacted by management's estimates of the expected overhaul costs, which are largely based on past experience of overhauls of the same or similar models of aircraft and engines. Different judgments or estimates could significantly affect the estimated overhaul provision and materially impact our results of operations. As of December 31, 2003 and 2004, we estimated our aircraft overhaul provision to be RMB577 million and RMB715 million respectively. Our estimate includes a reversal of provisions made in previous periods in the amount of RMB59 million and RMB21 million during 2003 and 2004, respectively, primarily as a result of lower actual aircraft overhaul costs than the overhaul provisions made in previous periods.

Retirement benefits We participate in defined contribution retirement schemes organized by the municipal governments of respective provinces. We also operate and maintain defined retirement benefit plans which provides retirees with benefits including transportation subsidies, social activity subsidies as well as other welfare. As discussed in Note 2(f) to our audited consolidated financial statements, the cost of providing the aforementioned benefits in the defined retirement benefit plan is actuarially determined and recognized over the employees' service period by utilizing various actuarial assumptions and using the projected unit credit method. These assumptions include, without limitation, the selection of discount rate, annual rate of increase of per capita benefit payment and employees' turnover rate. The discount rate is based on management's review of local high quality corporate bonds. The annual rate of increase of benefit payment is based on the general local economic conditions. The employees' turnover rate is based on historical trends of our company. See Note 29 to our audited consolidated financial statements for additional information regarding the retirement benefit plans.

A new staff housing policy, or the New Staff Housing Policy, was approved by our board of directors in October 2003. Under the New Staff Housing Policy, our staff who have not been allocated with any housing quarters or who have not been allocated with a quarter up to the minimum area as set out in the New Staff Housing Policy are entitled to a cash allowance. An eligible staff's entitlement is calculated based on the years of services, area of quarter entitled and the unit price as set out in the New Staff Housing Policy. The total entitlement is principally vested over a period of 20 years. Upon the establishment of the New Staff Housing Policy, employees are entitled to a portion of the total entitlement already accrued based on his or her past service period. We recognized a provision of RMB341 million as related to our present obligation for our employees' staff housing entitlements in 2003. Under the New Staff Housing Policy, we recognized a charge of RMB 29 million staff housing benefits charge for the year ended December 31, 2004.

Deferred taxation Deferred income tax is provided in full, using the liability method, for all significant temporary differences arising between the tax base of assets and liabilities and their carrying amounts in the financial statements. Currently applicable tax rates are used to determine deferred income tax. Deferred tax assets as related to tax losses are recognized to the extent that future taxable profit will be available against which the temporary differences can be utilized. For the year ended December 31, 2004, our company did not recognize RMB252 million of deferred tax assets relating to the tax losses available as management believes it was more likely than not that such tax losses would not be realized before they expire. See Note 7 to our audited consolidated financial statements for additional information regarding the deferred taxation.

Foreign Currency Transactions

We have debts denominated in U.S. dollars, Japanese yen or Euro in addition to our debts denominated in Renminbi. We generate a significant amount of foreign currency revenues, including U.S. dollar, Japanese yen, Euro, Korean won, Hong Kong dollar, Singapore dollar, Australian dollar, and Thailand baht revenues, from ticket sales made in overseas offices. Pursuant to current foreign exchange regulations in China, we may retain our foreign currency earnings subject to the approval of SAFE,

Table of Contents

which are generally sufficient to satisfy our foreign currency liabilities payable within one year. We have also designated certain personnel to manage the foreign currency risks through derivative financial products such as forward foreign exchange contracts and interest rate swaps. We use interest rate swaps to reduce risks related to changes in market interest rates. As of December 31, 2004, the notional amount of the outstanding interest rate swap agreements was approximately US\$437 million, compared to US\$164 million as of December 31, 2003. These interest rate swap agreements will expire between 2006 and 2013. In addition, we use currency forward contracts to reduce risks related to changes in currency exchange rates in respect of ticket sales and expenses denominated in foreign currencies. As of December 31, 2004, the notional amount of the outstanding currency forward contracts was approximately US\$226 million, compared to US\$237 million as of December 31, 2003. These currency forward contracts will expire between 2006 and 2010.

Pursuant to IFRS, our monetary assets and liabilities denominated in foreign currencies are required to be translated into Renminbi at the year end at exchange rates announced by the People's Bank of China. The net exchange gains or losses are recognized and reflected in the income statement for the relevant year. Any fluctuation of the exchange rates between Renminbi and foreign currencies may materially adversely affect our financial condition and results of operations. The exchange rate between Renminbi and Japanese yen or Euro had experienced a significant level of fluctuation over the past two years. We had a net exchange gain of RMB21 million in 2004, compared to a net exchange loss of RMB70 million in 2003.

Taxation

Since we changed our registered address to Pudong district in Shanghai on July 1, 2001, we are subject to income tax at the rate of 15%. Our effective tax rate, however, may be higher than the rate of 15% because some of our subsidiaries were incorporated in jurisdictions where the applicable income tax rate is 33% rather than 15%. We had carried forward tax losses of approximately RMB2,086 million and RMB2,330 million as of December 31, 2003 and 2004, which can be used to set off against future taxable income and will expire between 2006 and 2009.

Inflation

In recent years, China has not experienced significant inflation. In 2004, inflation did not have a significant effect on our business. According to the National Bureau of Statistics of China, China's overall national inflation rate, as represented by the general consumer price index, was approximately 1.2% and 3.9% in 2003 and 2004, respectively. In 2002, China experienced a slight deflation at a rate of 0.8%. Although neither the inflation nor the deflation in the past had any material adverse impact on our results of operations, we cannot assure you that the deflation or inflation of the Chinese economy in the future would not materially adversely affect our financial condition and results of operations.

U.S. GAAP Reconciliation

Our audited consolidated financial statements are prepared in accordance with IFRS, which differs in certain material respects from U.S. GAAP. Note 39 to our audited consolidated financial statements provide a description of the principal differences between IFRS and U.S. GAAP as they relate to our company, and a reconciliation to U.S. GAAP of profit attributable to shareholders for the years ended, and owners' equity as of December 31, 2003 and 2004.

Table of Contents

New Pronouncements

IFRS

For the year beginning January 1, 2005, the Group will adopt IFRS3 Business Combinations . IFRS3 will replace IAS22 Business Combinations . Under IFRS3, goodwill will be carried at cost less accumulated impairment losses and will no longer be amortized but instead, it will be tested annually for impairment. IFRS3 requires prospective adoption, and we do not believe that the adoption of IFRS3 would have a material effect on the Group's financial position or results of operations.

U.S.GAAP

SFAS No. 151

In November 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 151, Inventory Costs an amendment of ARB No. 43, Chapter 4. SFAS No. 151 requires abnormal amounts of idle facility expense, freight, handling costs, and wasted materials (spoilage) be recognized as current-period charges. In addition, SFAS No. 151 requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. SFAS No. 151 is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. We do not believe that the adoption of SFAS No. 151 would have a material effect on the Group's financial position or results of operations.

SFAS No. 153

In December 2004, FASB issued SFAS No. 153, Exchanges of Non monetary Assets, an amendment of APB Opinion No. 29 . SFAS No. 153 requires exchanges of productive assets to be accounted for at fair value, rather than at carryover basis, unless (1) neither the asset received nor the asset surrendered has a fair value that is determinable within reasonable limits or (2) the transactions lack commercial substance. SFAS No. 153 is effective for non monetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. We do not believe that the adoption of SFAS No. 153 would have a material effect on the Group's financial position or results of operations.

EITF Issue No. 03-01

In March 2004, the Emerging Issues Task Force (EITF) reached a consensus on Issue No. 03-01 The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments (EITF No. 03-01). EITF No. 03-01 provides recognition and measurement guidance on the meaning of other-than-temporary impairment and its application to certain investments carried at cost, including investments in marketable securities accounted for under SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities . Additionally, EITF No. 03-01 provides disclosure requirements of the investor when determining if an investment is impaired. The recognition and measurement guidance in EITF No. 03-01 has been postponed but the disclosure requirement under the EITF are effective for financial statements for 2004. We do not believe that the adoption of the recognition and measurement requirements of EITF No. 03-01 would have a material effect on the Group's financial position or results of operations.

Table of Contents

EITF Issue No. 02-14

In June 2004, the EITF reached a consensus on Issue No. 02-14 Whether the Equity Method of Accounting Applies When an Investor Does Not Have an Investment in Voting Stock of an Investee but Exercises Significant Influence through Other Means (EITF No. 02-14). EITF No. 02-14 provides guidance that an investor should only apply the equity method of accounting when it has investments in either common stock or in-substance common stock of a corporation, provided that the investor has the ability to exercise significant influence over the operating and financial policies of the investee. The EITF defined in-substance common stock as an investment that has risk and reward characteristics that are substantially similar to common stock. EITF No. 02-14 is effective for reporting periods beginning after September 15, 2004. We do not believe that the adoption of EITF No. 02-14 would have a material effect on the Group's financial position or results of operations.

EITF Issue No. 04-01

In September 2004, the EITF reached a consensus on Issue No. 04-01 Accounting for Pre-existing Relationships between the Parties to a Business Combination (EITF No. 04-01) and states that the consummation of a business combination between two parties that have a pre-existing contractual relationship should be evaluated to determine if a settlement of the pre-existing contractual relationship occurred. Additionally, the EITF provides guidance on the measurement and recognition of the pre-existing relationship. The provisions of EITF No. 04-01 are applicable to business combinations completed in reporting periods after October 13, 2004. We do not believe that the adoption of EITF No. 04-01 would have a material effect on the Group's financial position or results of operations.

Item 6. Directors, Senior Management and Employees.

A. Directors and Senior Management

None of our directors, supervisors or members of our senior management has entered into any agreement or reached any understanding with us requiring our company to pay any benefits as a result of termination of their services.

Our board of directors established the audit committee in August 2000 in accordance with the listing rules of the Hong Kong Stock Exchange. The audit committee currently consists of Mr. Xie Rong, an independent non-executive director and the chairman of the audit committee, Mr. Hu Honggao, an independent non-executive director of our company, and Mr. Wu Baiwang, an independent non-executive director of our company. The audit committee is authorized to, among other things, examine our internal control system and review auditing procedures and financial reports with our auditors. Subject to the approval of the shareholders' meeting, the audit committee of our company is also directly responsible for the appointment, compensation, retention and oversight of our outside auditors, including resolving disagreements between management and the auditor regarding financial reporting. The outside auditors report directly to the audit committee. The audit committee holds at least four meetings each year. The audit committee has established procedures for the receipt, retention and treatment of complaints received by our company regarding accounting, internal accounting controls or auditing matters, and procedures for the confidential, anonymous submission by employees of concerns regarding questionable accounting or auditing matters. The audit committee has the authority to engage independent counsel and other advisors, as it determines necessary to carry out its duties. Our company provides appropriate funding, as determined by the audit committee, for payment of compensation to the outside

Table of Contents

auditors, advisors employed by the audit committee, if any, and ordinary administrative expenses of the audit committee that are necessary or appropriate in carrying out its duties.

Our remuneration and review committee, established by our board of directors in April 2002, consists of Mr. Zhou Ruijin, an independent non-executive director and the chairman of the remuneration and review committee, Mr. Hu Hongaao, an independent non-executive director and Mr. Peter Lok, an independent non-executive director. The remuneration and review committee is authorized to review the performance of our directors, supervisors and management as well as determine their annual compensation level. The remuneration and review committee shall submit to our board of directors or shareholders meeting for approval compensation plans and oversee the implementation of approved compensation plans. The remuneration and review committee may consult financial, legal or other outside professional firms in carrying out its duties. The remuneration and review committee shall meet once year, within twenty days after the announcement of annual results.

D. Employees

Through arrangements with CEA Holding and others, we provide certain benefits to our employees, including housing, retirement benefits and hospital, maternity, disability and dependent medical care benefits. Our company does not have any bonus or profit sharing plan or any stock option plan. See Notes 29 and 30 to our audited consolidated financial statements. Our employees are members of a labor association which represents employees with respect to labor disputes and certain other employee matters. We believe that we maintain good relations with our employees and with their labor association. The table below sets forth the number of our employees as of December 31, 2002, 2003 and 2004, respectively:

	As of December 31,		
	2002	2003	2004
Pilots	1,423	1,516	1,699
Flight attendants	1,531	1,817	2,732
Maintenance personal	2,826	2,696	3,283
Sales and marketing	1,799	2,172	2,546
Other	8,140	8,234	10,557
Total	15,719	16,435	20,817

E. Share Ownership

See Item 6.A and Item 6.B above.

Item 7. Major Shareholders and Related Party Transactions.**A. Major Shareholders**

The following table sets forth certain information regarding ownership of our capital stock as of December 31, 2004 by all persons who were known to us to be the beneficial owners of 5% or more of our capital stock:

Table of Contents

Title of Class	Identity of Person or Group	Amount Owned	Percent of Class	Percent of Total Shares
Domestic Shares	CEA Holding	3,000,000,000	90.91%	61.64%
H Shares	HKSCC Nominees Limited ⁽¹⁾	1,483,815,163	94.69%	30.49%

(1) As custodian of the Depository for American Depositary Shares representing H Shares.

CEA Holding has held 61.64% of our issued and outstanding capital stock since its establishment in October 2002, and neither it nor HKSCC Nominees Limited has any voting rights different from those of other shareholders. We are not aware of any arrangement which may at a subsequent date result in a change of control of our company.

As of December 31, 2004 and June 20, 2005, there were 1,566,950,000 H shares issued and outstanding. As of December 31, 2004 and June 20, 2005, there were, respectively, 75 and 72 registered holders of American depository receipts evidencing 1,226,940 and 1,215,020 ADSs. Since certain of the ADSs are held by nominees, the above number may not be representative of actual number of U.S. beneficial holders of ADSs or the number of ADSs beneficially held by U.S. persons.

Our company is currently a majority-owned subsidiary of CEA Holding. CEA Holding itself is a wholly state-owned enterprise under the administrative control of China State-owned Assets Supervisions and Administration Commission, or CSASAC. CEA Holding's shareholding in our company is in the form of ordinary domestic shares, through which it, under the supervision of the CSASAC, enjoys the shareholders' rights and benefits on behalf of the Chinese government.

B. Related Party Transactions

Relationship with CEA Holding and Associated Companies

We enter into transactions from time to time with CEA Holding and its subsidiaries. For a description of such transactions, see Note 34 to our audited consolidated financial statements.

(A) De-merger Agreement

EA Group and our company entered into a de-merger agreement on April 14, 1995, or the De-merger Agreement, for the purpose of defining and allocating the assets and liabilities between EA Group and our company. To give effect to the intent and provisions of the De-merger Agreement, EA Group and our company have entered into a Supplemental Agreement to the De-merger Agreement, dated December 5, 1996, whereby the parties agreed to indemnify each other in respect of all claims arising from or in respect of the assets and liabilities which they have respectively assumed pursuant to the restructuring and by reference to the division of assets and liabilities determined as of January 1, 1994. After the establishment of CEA Holding in October 2002, CEA Holding has assumed the rights and liabilities of EA Group under the De-merger Agreement.

(B) Acquisition of Assets from CEA Holding

We have agreed to acquire from CEA certain assets and liabilities from CEA Holding relating to the aviation businesses of CEA Northwest and CEA Yunnan. See the section headed "Item 4. Information on the Company History

Table of Contents

(C) Related Business Transactions

As our company and EA Group and its subsidiaries were a single group prior to the restructuring in 2002, certain arrangements among us have continued after the restructuring and the establishment of CEA Holding. Each of these agreements is non-exclusive, although we do not currently intend to enter into any equivalent contracts with third parties.

(i) China Eastern Aviation Import and Export Corporation, or CEAIEC, a 55% owned subsidiary of CEA Holding.

Our company and CEAIEC have extended our agreement dated January 7, 1997 regarding the import and export of aircraft-related accessories, machinery and equipment for a term of ten years commencing from June 30, 1999. For the year ended December 31, 2004, the amounts paid by us to CEAIEC for the import and export of aircraft-related accessories, machinery and equipment were approximately RMB5,328 million, inclusive of handling charges of 0.1% to 2% above the contract prices paid to CEAIEC which were approximately RMB34 million in total.

We have certain balances with CEAIEC, which are unsecured, interest-free and have no fixed term of repayment. See Note [34(a)(ii)] to our audited consolidated financial statements for more details.

(ii) Eastern Aviation Advertising Service Co., Ltd., or Eastern Advertising, a 55% owned subsidiary of CEA Holding.

Our company and Eastern Advertising have extended our agreement dated December 30, 1996 regarding the provision of advertising services for a term of ten years commencing from June 30, 1999. For the year ended December 31, 2004, the amounts paid by us to Eastern Advertising for advertising services were approximately RMB6 million.

(iii) China Eastern Air Catering Investment Co. Ltd., or China Eastern Catering, a 55% subsidiary of CEA Holding. The remaining 45% is owned by our company.

For the year ended December 31, 2004, the amounts paid by us to a number of subsidiaries of China Eastern Catering (including Shanghai Eastern Air Catering Co. Ltd.) for the supply of in-flight meals were approximately RMB 188 million.

China Eastern Air Catering acquired certain subsidiaries from CEA Holding in an aggregate consideration of RMB264 million during the year ended December 31, 2004.

(iv) Eastern Air Group Finance Co. Ltd., or Eastern Finance, which is 75% owned and controlled by CEA Holding and other subsidiaries of CEA Holding.

Our company has extended our agreement with Eastern Finance dated January 8, 1997 regarding the provision of banking and other financial services such as credit facilities, financial guarantees and credit references for a term of ten years commencing from June 30, 1999. Pursuant to this agreement, we may place deposits with, and obtain loans from, Eastern Finance. We had short-term deposits placed with Eastern Finance as of December 31, 2004 amounting to RMB414 million, which paid interest at 0.72% per annum. In addition, our company had short-term loans of RMB141 million from Eastern Finance. During the year ended December 31, 2004, the weighted average interest rate on the loan was 4.5% per annum.

Table of Contents

Under this agreement, it has been agreed that (a) all funds that we deposit with Eastern Finance will be deposited by Eastern Finance with the Bank of Industry and Commerce, Bank of Communications, Bank of Agriculture, China Construction Bank or other banks of superior creditworthiness and (b) Eastern Finance will not at any time have outstanding loans to other subsidiaries in the CEA Holding in excess of the amount representing the aggregate of (i) deposits received from entities other than us, (ii) Eastern Finance's shareholders' equity and (iii) capital reserves.

(v) TravelSky Technology Ltd., which is 33% owned by CEA Holding.

We pay ticket reservation service charges to TravelSky, which is 33% owned by CEA Holding, in connection with our use of its computer reservation system. For the year ended December 31, 2004, we paid ticket reservation service charges to TravelSky of approximately RMB86 million.

(vi) Shanghai Eastern Aviation Equipment Manufacturing Corporation, or SEAEMC, a wholly-owned subsidiary of CEA Holding.

Our company and SEAEMC have extended our agreement dated December 31, 1996 regarding the sale and purchase of aviation equipment for a term of ten years commencing from June 30, 1999. SEAEMC was established in 1996. SEAEMC's predecessor was Shanghai Civil Aviation Maintenance and Engineering Company. For the year ended December 31, 2004, the amounts paid by us to SEAEMC for the sale and purchase of aviation equipment were approximately RMB15 million.

(vii) Ticket Sales

We have entered into arrangements for the sale of our air tickets with several subsidiaries of CEA Holding. In accordance with the industry practice, we have not previously entered into any agreement with such companies in relation to the provision of such agency services. The agents charge a commission at a rate prescribed by the CAAC and the International Aviation Transportation Association, as applicable, for each of our air ticket sold, that is, 3% for domestic tickets and 9% for international tickets. In addition to these agents, we have other air ticket sales agents in China who charge the same amount of commission. These agents also act as air ticket sales agents for other Chinese airlines and charge the same rates of commission as in our case.

(C) Property Leases

Our company and EA Group had entered into an office lease agreement dated January 7, 1997 in respect of office premises located at 2550 Hong Qiao Road, Shanghai, China. The lease term is one year and renewable by the parties, subject to mutual agreement with respect to rental terms. The total rental payment is approximately RMB158,342 per month. In addition, our company and EA Group had entered into a staff dormitory lease agreement dated December 31, 1996, pursuant to which EA Group had agreed to enter into lease arrangements with our employees for dormitories in Shanghai, Anhui Province, Shandong Province and Jiangxi Province. The term of the lease and the rental payments are set in accordance with Chinese regulations and the rate prescribed by the Shanghai Municipal Government. CEA Holding has assumed EA Group's rights and liabilities under those lease agreements after its establishment.

(D) Aircraft Leases

During the year ended December 31, 2004, our company received from CEA Northwest RMB83 million under an aircraft sublease arrangement with respect to six A320 aircraft. For more information, see Note 34(c)(i) to our audited consolidated financial statements. In addition, we paid CEA Northwest and CEA Yunnan RMB199 million and RMB 86 million, respectively, under certain aircraft operating lease arrangements.

Table of Contents

(E) Rescission of certain related party lease arrangements

We had entered into certain lease arrangements to lease 3 A310 aircraft from CEA Northwest and 3 Bae146 aircraft from Nanjing Airlines Co., Ltd., a subsidiary of CEA Northwest, (collectively, the CEA Northwest Leased Aircraft) in January 2004. Certain of the lease arrangement had not been properly authorized and approved in advance by our board of directors and independent directors. Accordingly, our board of directors resolved in August and December 2004 to terminate the lease arrangements, and an agreement was reached with CEA Northwest to terminate such arrangements. In connection with the termination of the lease arrangements, CEA Northwest and our company agreed to retroactively rescind the transactions from the inception of the lease arrangements as permitted under PRC laws. For IFRS purposes, because we actually operated the CEA Northwest Leased Aircraft in our normal business operations during the period from the inception to rescission of the lease, the air traffic revenue and related operating costs have been recognized in our financial statements. The impact of the retroactive rescission of the lease arrangements with CEA Northwest was an aggregate settlement by CEA Northwest and Nanjing Airlines in the amount of RMB133 million, which represents the operating losses incurred on the operation of the CEA Northwest Leased Aircraft during 2004, to us through the reduction of our inter-company payable accounts with CEA Northwest or Nanjing Airlines, as applicable. For more details, see Note 34(c)(ii) to our audited consolidated financial statements.

(F) Guarantee by CEA Holding

As at December 31, 2004, unsecured long-term bank loans of our company with aggregate amount of RMB2,123 million are guaranteed by CEA Holding (see Note 34(b) to our audited consolidated financial statements.)

C. Interests of Experts & Counsel

Not applicable.

Item 8. Financial Information.

A. Financial Statements

You should read Item 18-Financial Statements for information regarding our audited consolidated financial statements and other financial information.

B. Legal Proceedings

We are involved in routine litigation and other proceedings in the ordinary course of our business. We do not believe that any of these proceedings are likely to be material to our business operations, financial condition or results of operations. We are not aware of any material proceedings currently pending against our company.

C. Dividends and Dividend Policy

For the fiscal year ended December 31, 2002 and 2003, our board of directors recommended no dividend. For the fiscal year

Table of Contents

ended December 31, 2004, our board of director has recommended a cash dividend of RMB0.02 per share and will submit this proposed distribution plan for approval by our shareholders at the annual general meeting for the year of 2004 which is scheduled to be held on June 30, 2005 in Shanghai, China. The declaration and payment of dividends for years following 2004 will depend upon our financial results, our shareholders' interests, general business conditions and strategies, our capital requirements, contractual restrictions on the payment of dividends by us to our shareholders, and other factors our directors may deem relevant. Holders of our H shares will receive the equivalent amount of cash dividend declared in Renminbi, if any, based on the foreign exchange conversion rate published by the People's Bank of China, or PBOC, on the date of the distribution of the cash dividend.

D. Significant Post Financial Statements Events

For information relating to our proposed acquisition of certain assets and liabilities from CEA Holding relating to the aviation businesses of CEA Northwest and CEA Yunnan, see the section headed "Item 4. Information on the Company - History and Development of the Company" and the section headed "Item 5. Operating and Financial Review and Prospects - Overview". For information relating to the establishment of HSSATL, a joint venture company between UTFEL and our company, see the section headed "Item 4. Information on the Company - History and Development of the Company".

In addition, since January 1, 2005, we have entered into agreements to purchase 5 Airbus A319 aircraft (with engines), 5 ERJ145 aircraft, 15 Airbus A320 series aircraft and 2 Boeing 747-400 aircraft, respectively, for delivery over the next few years.

Item 9. The Offer and Listing.

The principal trading market for our H shares is the Hong Kong Stock Exchange. The ADSs, each representing 100 H shares, have been issued by The Bank of New York as the Depositary and are listed on the New York Stock Exchange under the symbol "CEA". Prior to our initial public offering and subsequent listings on the New York Stock Exchange and the Hong Kong Stock Exchange on February 4 and 5, 1997, respectively, there was no market for our H shares or ADSs.

The table below sets forth certain market information relating to our H shares and ADSs in respect of the period from February 4, 1997 to May 31, 2005.

	Price per H Share		Price per ADS	
	High	Low	High	Low
	(HK\$)		(US\$)	
2000	1.62	0.68	20.00	8.50
2001	1.41	0.66	17.75	8.75
2002	1.48	0.80	18.50	11.00
First Quarter 2003	1.15	0.88	14.37	11.60
Second Quarter 2003	1.12	0.74	14.39	9.6
Third Quarter 2003	1.27	0.95	15.65	12.5
Fourth Quarter 2003	1.39	1.14	18.33	15.01
2003	1.39	0.88	18.33	9.6
First Quarter 2004	1.84	1.28	23.22	17.03
Second Quarter 2004	1.64	1.28	21.27	16.74
Third Quarter 2004	1.65	1.49	20.90	18.81

Edgar Filing: CHINA EASTERN AIRLINES CORP LTD - Form 20-F

Fourth Quarter 2004	1.79	1.40	23.30	18.20
December 2004	1.78	1.68	23.30	21.87
January 2005	1.70	1.56	21.99	20.21
February 2005	1.61	1.54	20.50	19.72
March 2005	1.55	1.36	19.77	17.23
April 2005	1.48	1.30	18.45	16.75
May 2005	1.47	1.36	19.15	17.20

-61-

Table of Contents

As of December 31, 2004 and June 20, 2005, there were 1,566,950,000 H shares issued and outstanding. As of December 31, 2004 and June 20, 2005, there were, respectively, 75 and 72 registered holders of American depository receipts evidencing 1,226,940 and 1,215,020 ADSs. Since certain of the ADSs are held by nominees, the above number may not be representative of actual number of U.S. beneficial holders of ADSs or the number of ADSs beneficially held by U.S. persons. The depository for the ADSs is The Bank of New York. A total of 3,300,000,000 domestic shares were also outstanding as of June 20, 2005.

Item 10. Additional Information.

A. Share Capital

Not applicable.

B. Memorandum and Articles of Association

The section entitled Description of Capital Stock contained in our registration statement on Form F-1 (File No. 333-6260) filed with the Securities and Exchange Commission is hereby incorporated by reference.

C. Material Contracts

For a summary of any material contract entered into by our company or any of its consolidated subsidiaries outside of the ordinary course of business during the last two years, see Item 4. Information on the Company , Item 5. Operating and Financial Review and Prospects and Item 7. Major shareholders and Related Party Transactions .

In addition, we entered into the following agreements to purchase aircraft, which are filed with this annual report as exhibits:

an aircraft purchase agreement dated October 9, 2004 with Airbus SAS in respect of 20 Airbus A330-300 aircraft, and

an amendment to an aircraft purchase agreement dated April 21, 2005 with Airbus SAS in respect of 15 Airbus A320 series aircraft.

D. Exchange Controls

Renminbi currently is not a freely convertible currency. SAFE, under the authority of PBOC, controls the conversion of Renminbi into foreign currency. Prior to January 1, 1994, Renminbi could be converted to foreign currency through the Bank of China or other authorized institutions at official rates fixed daily by SAFE. Renminbi could also be converted at swap centers open to Chinese enterprises and foreign invested enterprises, or FIEs, subject to SAFE approval of each foreign currency trade, at exchange rates negotiated by the parties for each transaction. Effective January 1, 1994, a unitary exchange rate system was

Table of Contents

introduced in China, replacing the dual-rate system previously in effect. In connection with the creation of a unitary exchange rate, the Chinese government announced the establishment of an inter-bank foreign exchange market, the China Foreign Exchange Trading System, or CFETS, and the phasing out of the swap centers. Effective December 1, 1998, the swap centers were abolished by the Chinese government.

In general, under existing foreign exchange regulations, domestic enterprises operating in China must price and sell their goods and services in China in Renminbi. Any foreign exchange received by such enterprises must be sold to authorized foreign exchange banks in China. A significant portion of our revenue and operating expenses are denominated in Renminbi, while a portion of our revenue, capital expenditures and debts are denominated in U.S. dollars and other foreign currencies. Renminbi is currently freely convertible under the current account, which includes dividends, trade and service-related foreign currency transactions, but not under the capital account, which includes foreign direct investment, unless the prior approval of the SAFE, is obtained. As a foreign investment enterprise approved by the MOC, we can purchase foreign currency without the approval of SAFE for settlement of current account transactions, including payment of dividends, by providing commercial documents evidencing these transactions. We can also retain foreign exchange in our current accounts, subject to a maximum amount approved by SAFE, to satisfy foreign currency liabilities or to pay dividends. However, the relevant Chinese government authorities may limit or eliminate our ability to purchase and retain foreign currencies in the future. Foreign currency transactions under the capital account are still subject to limitations and require approvals from SAFE. This may affect our ability to obtain foreign exchange through debt or equity financing, including by means of loans or capital contributions. We cannot assure you that we will be able to obtain sufficient foreign exchange to pay dividends or satisfy our foreign exchange liabilities.

E. Taxation

The taxation of income and capital gains of holders of H shares or ADSs is subject to the laws and practices of China and of jurisdictions in which holders of H shares or ADSs are resident or otherwise subject to tax. The following summary of certain relevant taxation provisions is based on current law and practice, is subject to change and does not constitute legal or tax advice. The discussion does not deal with all possible tax consequences relating to an investment in the H shares or ADSs. In particular, the discussion does not address the tax consequences under state, local and other laws, such as non-U.S. federal laws. Accordingly, you should consult your own tax adviser regarding the tax consequences of an investment in the H shares and ADSs. The discussion is based upon laws and relevant interpretations in effect as of the date of this annual report, all of which are subject to change.

Taxation Hong Kong

The taxation of income and capital gains of holders of ordinary shares or ADSs is subject to the laws and practices of Hong Kong and of jurisdictions in which holders of ordinary shares or ADSs are resident or otherwise subject to tax. The following summary of certain relevant taxation provisions under Hong Kong law is based on current law and practice, is subject to changes therein and does not constitute legal or tax advice. The discussion does not deal with all possible tax consequences relating to an investment in the ordinary shares or ADSs. Accordingly, each prospective investor (particularly those subject to special tax rules, such as banks, dealers, insurance companies, tax-exempt entities and holders of 10% or more of our voting capital stock) should consult its own tax advisor regarding the tax consequences of an investment in the ordinary shares and ADSs. The discussion is based upon laws and relevant interpretations thereof in effect as of the date of this annual report, all of which are subject to change.

Table of Contents

Tax on Dividends

Under the current practices of the Hong Kong Inland Revenue Department, no tax is payable in Hong Kong in respect of dividends received by the recipient.

Profits Tax

No tax is imposed in Hong Kong in respect of capital gains from the sale of property (such as the H shares and ADSs). Trading gains from the sale of property by persons carrying on a trade, profession or business in Hong Kong where such gains are derived from or arise in Hong Kong from such trade, profession or business will be chargeable to Hong Kong profits tax which is currently imposed at the rate of 17.5% on corporations and on individuals at a maximum rate of 16.0% with effect from April 1, 2004. Gains from sales of the ordinary shares effected on the Hong Kong Stock Exchange may be considered to be derived from or arise in Hong Kong. Liability for Hong Kong profits tax may thus arise in respect of trading gains from sales of ordinary shares or ADSs realized by persons carrying on a business of trading or dealing in securities in Hong Kong.

Stamp Duty

Hong Kong stamp duty, currently charged at the rate of HK\$1 per HK\$1,000 or part thereof on the higher of the consideration for or the value of the ordinary shares, will be payable by the purchaser on every purchase and by the seller on every sale of ordinary shares (i.e., a total of HK\$2 per HK\$1,000 or part thereof is currently payable on a typical sale and purchase transaction involving ordinary shares). In addition, a fixed duty of HK\$5 is currently payable on any instrument of transfer of ordinary shares. The withdrawal of ordinary shares upon the surrender of ADSs, and the issuance of ADSs upon the deposit of ordinary shares, will also attract stamp duty at the rate described above for sale and purchase transactions unless the withdrawal or deposit does not result in a change in the beneficial ownership of the ordinary shares under Hong Kong law, in which case only a fixed duty of HK\$5 is payable on the transfer. The issuance of the ADSs upon the deposit of ordinary shares issued directly to the depositary or for the account of the depositary does not attract stamp duty. No Hong Kong stamp duty is payable upon the transfer of ADSs outside Hong Kong.

Estate Duty

The ordinary shares are Hong Kong property under Hong Kong law, and accordingly such ordinary shares may be subject to estate duty on the death of the beneficial owner of the ordinary shares (regardless of the place of the owner's residence, citizenship or domicile). Hong Kong estate duty is imposed on a progressive scale from 5% to 15%. The rate of and the threshold for estate duty has, in the past, been adjusted on a fairly regular basis. No estate duty is payable when the aggregate value of the dutiable estate does not exceed HK\$7.5 million, and the maximum rate of duty of 15% applies when the aggregate value of the dutiable estate exceeds HK\$10.5 million.

The Hong Kong budget handed down on March 16, 2005 proposed abolition of Hong Kong Estate Duty. At the time of writing, the relevant legislation has not been enacted although it is expected that this recommendation will be implemented. It is also expected that the abolition will take effect from the date of enactment and will not retrospectively apply.

Table of Contents

Taxation China

The following is a general summary of certain Chinese tax consequences of the acquisition, ownership and disposition of the H Shares and ADSs. This summary does not purport to address all material tax consequences of the ownership of Shares or ADSs, and does not take into account the specific circumstances of any particular investors. This summary is based on the tax laws of China as in effect on the date of this annual report, as well as on the U.S.-China Treaty, all of which are subject to change (or changes in interpretation), possibly with retroactive effect.

In general, and taking into account the earlier assumptions, for Chinese tax purposes, holders of ADRs evidencing ADSs will be treated as the owners of the H Shares represented by those ADSs, and exchanges of H Shares for ADSs, and ADSs for H Shares, will not be subject to Chinese tax.

Taxation of Dividends by China

Individual Investors. The Provisional Regulations of China Concerning Questions of Taxation on Enterprises Experimenting with the Share System, or the Provisional Regulations, provide that dividends from Chinese companies are ordinarily subject to a Chinese withholding tax levied at a flat rate of 20%. However, the Chinese State Tax Bureau issued, on July 21, 1993, a Notice Concerning the Taxation of Gains on Transfer and Dividends from Shares (Equities) Received by Foreign Investment Enterprises, Foreign Enterprises and Foreign Individuals, or the Tax Notice, which provides that dividends from a Chinese company on shares listed on an overseas stock exchange, or Overseas Shares, such as H Shares (including H Shares represented by ADSs), would not be subject to Chinese withholding tax. The relevant tax authority has not collected withholding tax on dividend payments on Overseas Shares.

Amendments to the individual Income Tax Law of the PRC, or the Amendments, were promulgated on October 31, 1993 and became effective on January 1, 1994. The Amendments provide that any provisions of prior administrative regulations concerning individual income tax which contradict the Amendments are superseded by the Amendments. The Amendments and the amended Individual Income Tax Law can be interpreted to mean that foreign individuals are subject to a withholding tax on dividends received from a Chinese company at a rate of 20% unless such income is specifically exempted from individual income tax by the financial authority of the State Council. However, in a letter dated July 26, 1994 to the State Commission for Restructuring the Economic System, the State Securities Commission and the China Securities Regulatory Commission, the State Tax Bureau confirmed the temporary tax exemption set forth in the Tax Notice for dividends received from a Chinese company listed overseas. In the event this letter is withdrawn, a 20% tax may be withheld on dividends in accordance with the Provisional Regulations, the Amendments, and the Individual Income Tax law of China. Such withholding tax may be reduced pursuant to an applicable double taxation treaty.

Enterprises. The Provisional Regulations provide that dividends from Chinese companies are ordinarily subject to a Chinese withholding tax levied at a flat rate of 20%. However, according to the Tax Notice, a foreign enterprise with no permanent establishment in China receiving dividends paid on a Chinese company's Overseas Shares temporarily will not be subject to the 20% withholding tax. If such withholding tax becomes applicable in the future, the rate could be reduced or eliminated pursuant to an applicable double taxation treaty.

Tax Treaties. Non-Chinese investors resident in countries which have entered into double-taxation treaties with China may be entitled to a reduction of the withholding tax imposed on the payment of dividends to non-Chinese investors of our company.

Table of Contents

China currently has double-taxation treaties with a number of other countries, including Australia, Canada, France, Germany, Japan, Malaysia, the Netherlands, Singapore, the United Kingdom and the United States.

Under the U.S.-China Treaty, China may tax a dividend paid by our company to a U.S. holder of H shares or ADSs only up to a maximum of 10% of the gross amount of such dividend.

Taxation of Capital Gains by China

The Tax Notice provides that gains realized upon the sale of Overseas Shares are not subject to taxes on capital gains. Although the Ministry of Finance has been empowered to collect a tax of 20% on gains derived from the sale of equity shares, a joint notice issued in March 1996 by the Ministry of Finance and the State Tax Bureau indicated that no capital gains tax would be imposed on gains from the sale of shares until the Ministry of Finance and the State Tax Bureau promulgate new rules. Therefore, during 1996 to 2001, holders of H Shares or ADSs were not subject to taxation on gains realized upon the sale or disposition of such shares. After 2001, holders of H Shares or ADSs could become subject to a 20% capital gains tax, unless reduced or eliminated pursuant to an applicable double taxation treaty.

Under the U.S.-China Treaty, China may only tax gains from the sale or disposition by a U.S. holder of H shares or ADSs representing an interest in the company of 25% or more.

Chinese Stamp Tax

Chinese stamp tax imposed on the transfer of shares of Chinese publicly traded companies under the Share System Tax Regulations should not apply to the acquisition or disposition by non-Chinese investors of H Shares or ADSs outside of China by virtue of the Provisional Regulations of The People's Republic of China Concerning Stamp Tax, which provides that Chinese stamp tax is imposed only on documents executed or received within China or that should be considered as having been executed or received within China.

United States Federal Income Taxation.

United States Federal Income Taxation

This section describes the material United States federal income tax consequences of the ownership and disposition of H shares or ADSs. This section applies to you only if you are a U.S. holder, as defined below, and you hold your H shares or ADSs as capital assets for United States federal income tax purposes. This section does not apply to you if you are a member of a special class of holders subject to special rules, including:

- a dealer in securities;
- a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings;
- a tax-exempt organization;
- a life insurance company;
- a person liable for alternative minimum tax;

Table of Contents

a person that actually or constructively owns 10% or more of our voting stock;

a person that holds H shares or ADSs as part of a straddle or a hedging or conversion transaction; or

a person whose functional currency is not the U.S. dollar.

This section is based on the Internal Revenue Code of 1986, as amended, its legislative history, existing and proposed regulations, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis. In addition, this section is based in part upon the representations of the Depositary and the assumption that each obligation in the Deposit Agreement and any related agreement will be performed in accordance with its terms.

You are a U.S. holder if you are a beneficial owner of H shares or ADSs and you are:

a citizen or resident of the United States;

a domestic corporation;

an estate whose income is subject to United States federal income tax regardless of its source; or

a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust.

You should consult your own tax advisor regarding the United States federal, state and local and other tax consequences of owning and disposing of H shares or ADSs in your particular circumstances.

In general, and taking into account the earlier assumptions, for United States federal income tax purposes, if you hold ADRs evidencing ADSs, you will be treated as the owner of the H shares represented by those ADRs. Exchanges of H shares for ADRs, and ADRs for H shares, generally will not be subject to the United States federal income tax.

Taxation of Dividends

Under the United States federal income tax laws, and subject to the passive foreign investment company, or PFIC, rules discussed below, if you are a U.S. holder, the gross amount of any dividend we pay out of our current or accumulated earnings and profits (as determined for United States federal income tax purposes) is subject to United States federal taxation. If you are a noncorporate U.S. holder, dividends paid to you after December 31, 2002 and before January 1, 2009 that constitute qualified dividend income will be taxable to you at a maximum tax rate of 15% provided that you hold the H shares or ADSs for more than 60 days during the 121-day period beginning 60 days before the ex-dividend date and meet other holding period requirements.

The dividend is taxable to you when you, in the case of H shares, or the Depositary, in the case of ADSs, receive the dividend, actually or constructively. The dividend will not be eligible for the dividends-received deduction generally allowed to United States corporations in respect of dividends received from other United States corporations. The amount of the dividend distribution that you must include in your income will be the U.S. dollar value of the Hong Kong dollar payments made, determined at

Table of Contents

the spot Hong Kong dollar/U.S. dollar rate on the date the dividend distribution is includible in your income, regardless of whether the payment is in fact converted into U.S. dollars. Generally, any gain or loss resulting from currency exchange fluctuations during the period from the date you include the dividend payment in income to the date you convert the payment into U.S. dollars will be treated as ordinary income or loss and will not be eligible for the special tax rate applicable to qualified dividend income. This gain or loss generally will be from sources within the United States for foreign tax credit limitation purposes. Distributions in excess of current and accumulated earnings and profits (as determined for United States federal income tax purposes) will be treated as a non-taxable return of capital to the extent of your basis in the H shares or ADSs and thereafter as capital gain. Dividends will be income from sources outside the United States, but generally will be passive income or financial services income, which is treated separately from other types of income for purposes of computing the foreign tax credit allowable to you.

Taxation of Capital Gains

Subject to the PFIC rules discussed below, if you are a U.S. holder and you sell or otherwise dispose of your H shares or ADSs, you will recognize capital gain or loss for United States federal income tax purposes equal to the difference between the U.S. dollar value of the amount that you realize and your tax basis, determined in U.S. dollars, in your H shares or ADSs. Capital gain of a noncorporate U.S. holder that is recognized on or after May 6, 2003 and before January 1, 2009 is generally taxed at a maximum rate of 15% where the property is held more than one year. The deductibility of capital losses is subject to limitations. The gain or loss will generally be from sources within the United States for foreign tax credit limitation purposes.

PFIC Rules

We believe that H shares or ADSs should not be treated as stock of a PFIC for United States federal income tax purposes, but this conclusion is a factual determination that is made annually and thus may be subject to change. In general, if you are a U.S. holder, we will be a PFIC with respect to you if for any taxable year in which you held our H shares or ADSs:

at least 75% of our gross income for the taxable year is passive income; or

at least 50% of the value, determined on the basis of a quarterly average, of our assets is attributable to assets that produce or are held for the production of passive income.

Passive income generally includes dividends, interest, royalties, rents (other than certain rents and royalties derived in the active conduct of a trade or business), annuities and gains from assets that produce passive income. If a foreign corporation owns at least 25% by value of the stock of another corporation, the foreign corporation is treated for purposes of the PFIC tests as owning its proportionate share of the assets of the other corporation, and as receiving directly its proportionate share of the other corporation's income.

If we are treated as a PFIC, and you are a U.S. holder that did not make a mark-to-market election, as described below, you will be subject to special rules with respect to:

any gain you realize on the sale or other disposition of your H shares or ADSs; and

any excess distribution that we make to you (generally, any distributions to you during a single taxable year that are greater than 125% of the average annual distributions received by you in respect of the H shares or ADSs during the three preceding taxable years or, if shorter, your holding period for the H shares or ADSs).

-68-

Table of Contents

Under these rules:

the gain or excess distribution will be allocated ratably over your holding period for the H shares or ADSs;

the amount allocated to the taxable year in which you realized the gain or excess distribution will be taxed as ordinary income;

the amount allocated to each prior year, with certain exceptions, will be taxed at the highest tax rate in effect for that year; and

the interest charge generally applicable to underpayments of tax will be imposed in respect of the tax attributable to each such year.

If you own H shares or ADSs in a PFIC that are treated as marketable stock, you may make a mark-to-market election. If you make this election, you will not be subject to the PFIC rules described above. Instead, in general, you will include as ordinary income each year the excess, if any, of the fair market value of your H shares or ADSs at the end of the taxable year over your adjusted basis in your H shares or ADSs. These amounts of ordinary income will not be eligible for the favorable tax rates applicable to qualified dividend income on long-term capital gains. You will also be allowed to take an ordinary loss in respect of the excess, if any, of the adjusted basis of your H shares or ADSs over their fair market value at the end of the taxable year (but only to the extent of the net amount of previously included income as a result of the mark-to-market election). Your basis in the H shares or ADSs will be adjusted to reflect any such income or loss amounts.

In addition, notwithstanding any election you make with regard to the H shares or ADSs, dividends that you receive from us will not constitute qualified dividend income to you if we are a PFIC either in the taxable year of the distribution or the preceding taxable year. Dividends that you receive that do not constitute qualified dividend income are not eligible for taxation at the 15% maximum rate applicable to qualified dividend income. Instead, you must include the gross amount of any such dividend paid by us out of our accumulated earnings and profits (as determined for United States federal income tax purposes) in your gross income, and it will be subject to tax at rates applicable to ordinary income.

If you own H shares or ADSs during any year that we are a PFIC, you must file Internal Revenue Service Form 8621.

maintains a web site at <http://www.sec.gov> that contains reports, proxy statements and other information regarding registrants that file electronically with the SEC.

The SEC allows us to incorporate by reference the information we file with the SEC. This means that we can disclose important information to you by referring you to another document filed separately with the SEC. The information incorporated by reference is considered to be part of this annual report on Form 20-F.

I. Subsidiary Information

Not applicable.

Item 11. Quantitative and Qualitative Disclosures About Market Risk.**Interest Rate Risk**

The interest rates of our loans are fixed and therefore the risk of fluctuation of interest rates is not significant. However, the fluctuation of the interest rates would affect the estimated fair value of our long-term and other loans as of December 31, 2004. We use interest rate swaps to reduce risks related to changes in market interest rates. As of December 31, 2004, the notional amount of the outstanding interest rate swap agreements was approximately US\$437 million. These interest rate swap agreements will expire between 2006 and 2013. The carrying amounts, the estimated fair value and the effect as a result of the change of the average interest rate on our long-term and other loans as of December 31, 2004 are set forth as follows:

	RMB 000
Carrying amounts	10,705,637
Estimated fair value	9,878,592
Decrease in the estimated fair value resulting from an increase of the average interest rate by 1%	169,344
Increase in the estimated fair value resulting from a decrease of the average interest rate by 1%	194,723

Foreign Currency Exchange Rate Risk

Although we derive most of our income from China in Renminbi, our financial lease obligations as well as certain bank loans are denominated in US dollars, Japanese yen or Euro. Pursuant to current foreign exchange regulations in China, we may retain our foreign currency earnings generated from ticket sales made in our overseas offices subject to the approval of SAFE, which are generally sufficient to satisfy our foreign currency liabilities payable within one year. We use forward contracts to reduce risks related to changes in currency exchange rates in respect of ticket sales and expenses denominated in foreign currencies. These currency forward contracts will expire between 2006 and 2010.

Pursuant to IFRS, our monetary assets and liabilities denominated in foreign currencies are required to be translated into Renminbi at the year end at exchange rates announced by PBOC. Any fluctuation of the exchange rates between Renminbi and foreign currencies may materially adversely affect our financial condition and results of operations. China adopts a floating rate exchange system with control. The exchange rate between Renminbi and US dollars had been comparatively stable in the past. However, the exchange rate between Renminbi and Japanese yen or Euro had experienced a significant level of fluctuation over the past two years. The following table shows the effect on our profit and loss account as a result of the impact on our non-Renminbi denominated monetary assets and liabilities as of December 31, 2004 as a consequence of a fluctuation in value of the following major foreign

currencies.

Table of Contents

	Profit and Loss Account Decrease/increase by RMB 000
US dollar appreciates/(depreciates) by 1%	45,079
Japanese yen appreciates/(depreciates) by 1%	4,811
Euro appreciates/(depreciates) by 1%	543

Item 12. Description of Securities Other than Equity Securities.

Not applicable.

PART II**Item 13. Defaults, Dividend Arrearages and Delinquencies.**

None.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds.**Material Modifications to the Rights of Security Holders**

Our board of directors has submitted certain proposed amendments to our articles of association for approval by our shareholders at the annual general meeting for the year of 2004 which is scheduled to be held on June 30, 2005 in Shanghai, China. Set forth below are those proposed amendments that involve modification to the rights of our shareholders.

Amendments to Article 52. Pursuant to the amendments, a controlling shareholder or an actual controlling person of our company owns fiduciary duties to our public shareholders. A controlling shareholder may not: (1) prejudice the legal rights and interests of our public shareholders by means of connected transaction, distribution of profits, restructuring of assets, external investment, appropriation of funds, loan guarantee etc.; or (2) prejudice the interests and rights of our public shareholders by abusing its controlling position.

Amendments to Article 60. Pursuant to the amendments, a proposal for consideration at a shareholders' general meeting shall meet the following requirements: (1) its content does not contravene the laws, administrative regulations and the articles of association and falls within the scope of the duties and responsibilities of the shareholders' general meeting; (2) there is definite topic(s) and specific matter(s) for resolution; and (3) it is submitted or delivered to the board of directors in writing. The board of directors shall examine each proposal for consideration at a shareholders' general meeting in the best interests of our company and shareholders.

New Article 64(A). This new article provides that the board of directors shall determine the record date with respect to a shareholder's general meeting. The shareholders recorded on our register of shareholders as of the record date are entitled to attend the relevant shareholder's general meeting. The shareholders who intend to attend a shareholders' general meeting shall make registration on such date and at such venue as designated in the relevant notice.

Amendments to Article 72. Pursuant to the amendments, the shareholders' general meeting shall take a vote on each of the matters for its consideration.

Table of Contents

Amendments to Article 73. Pursuant to the amendments, our company shall increase the attendance of the public shareholders at shareholders' general meetings by various means including the use of modern information technologies (for example, online voting facilities), provided that (1) it is permissible under all applicable laws and administrative regulations and/or is acceptable to relevant regulatory authorities as well as complies with and satisfies all relevant rules; and (2) the legality and validity of a shareholders' general meeting is assured. Moreover, the board of directors, independent directors and qualified shareholders may solicit proxies from shareholders to vote at a shareholders' general meeting. Adequate information should be furnished to the shareholders whose proxies are solicited. Information so furnished must be previously published information which remains accurate and is not misleading at the time it is quoted.

New Article 78(A). This new article provides that the implementation of or application for certain matters requires approval by the shareholders' general meeting and approval by votes representing more than half of the voting rights held by public shareholders who vote at the meeting. Such matters include: (1) our follow-on public offering; (2) restructuring of material assets with the total consideration for the assets acquired equal to or exceeding 120% of the audited book value of such assets; (3) repayment of debts owed by a shareholder to our company with our equity shares; (4) overseas listing of a subsidiary of our company that has material effect on our company; and (5) matters relating to the development of our company that have material effect on the interests and rights of the public shareholders. If a shareholders' general meeting is convened in connection with any of the above matters, our company shall provide the shareholders with online voting facilities.

New Article 78(B). This new article provides that under any of the circumstances enumerated in Article 78(A), after giving notices of meeting of shareholders, our company shall publicly announce a notice of meeting of shareholders within 3 days after the relevant record date.

Amendments to Article 81. Pursuant to the amendments, public announcements shall be made with respect to the resolutions of the shareholders' general meeting in accordance with relevant regulations.

New Article 97(A). This new article provides that provision of guarantee by our company for the benefits of any other person requires, among others, approval by the shareholders' general meeting.

New Article 106(A). This new article provides that at least one-third and three of the members of the board of directors must be independent.

New Article 106(B). This new article provides that shareholder(s) individually or jointly holding more than 1% of the outstanding shares of our company may nominate candidates for election at a shareholders' general meeting as independent directors.

Amendments to Article 108. Pursuant to the amendments, our company shall have a department of investor relations that is specially responsible for strengthening the communications with shareholders, especially public shareholders.

Use of Proceeds

Not applicable.

Item 15. Controls and Procedures.

Our President and Chief Financial Officer, after evaluating the effectiveness of our company's disclosure controls and procedures (as defined in Rules 13a-15(c) and 15d-15(e)) of the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this annual report, have concluded that, as of such date, our company's disclosure controls and procedures were effective to ensure that material information relating to our company was made known to them by others within our company except as disclosed in the following paragraphs.

In the course of their audit, our independent auditors, PricewaterhouseCoopers, have identified a number of areas of internal control that need improvement. Specifically, our auditors noted that we had weaknesses in the following areas: (1) approval and disclosure of certain related party transactions; (2) strict compliance with the shareholder notification rules of the Hong Kong Stock Exchange in connection with the purchase of 20 Airbus A330-300 aircraft; (3) recognition of revenue without adequate supporting documentation; and (4) inadequacy of accounting personnel with sufficient U.S. GAAP and IFRS technical expertise.

For example, in 2004, we had entered into certain aircraft lease arrangements with CEA Northwest and one of its subsidiaries without prior approval of our board of directors and independent non-executive directors, which approval is required under PRC Company Law and applicable stock exchange listing rules. After the failure to obtain prior approval was discovered, our board of directors resolved in August and December 2004 to terminate the lease arrangements, and an agreement was reached with CEA Northwest to terminate such arrangements. In connection with the termination of the lease arrangements, CEA Northwest and our company agreed to retroactively rescind the transactions from the inception of the lease arrangements, as permitted under PRC laws. For more details regarding the rescission of the lease arrangements, please see the section headed "Item 7. Major Shareholders and Related Party Transactions" and Note 34(c)(ii) to our audited consolidated financial statements. In January 2004, we exercised a right to purchase an aircraft upon settlement and termination of an aircraft capital lease arrangement. Thereafter, we recognized a lease rebate that we received from this transaction as other operating income. However, for accounting purposes under PRC Accounting Standards and Regulations (PRC GAAP), IFRS and U.S. GAAP, the lease rebate should have been recognized as an adjustment to the carrying value of the purchased aircraft. As a result of the unapproved aircraft lease arrangements and the way in which the lease rebate was initially recognized, we overstated our net profit in our interim unaudited financial statements for the six months ended June 30, 2004 by approximately 16%, 28% and 26% under PRC GAAP, IFRS and U.S. GAAP, respectively. We have since appropriately rectified our accounting treatment with respect to the two incidents described above and reported our corrected actual net profit in our annual audited financial statements for the year ended December 31, 2004.

These two incidents described above reflect several weaknesses in our internal control that have been identified by our independent auditors. Under the direction of the board of directors, our company's management, including our chief executive officer and chief financial officer, has taken steps to strengthen control processes and procedures to prevent a recurrence of the problems identified by our independent auditors. These steps include, among others, (1) further tightening the procedures to be

Table of Contents

followed for the approval of related party transactions, (2) working with an independent consulting firm in improving our company's internal control over financial reporting, (3) adopting measures to enhance our employees' familiarity with and understanding of the requirements of PRC GAAP, IFRS and U.S. GAAP and (4) establishing new written policies governing the procedures for purchasing and leasing aircraft.

Our management is aware of the importance of maintaining and improving our controls and procedures. Under the supervision and with the participation of our senior management, including our chief executive officer and chief financial officer, we are in the process of conducting further evaluation of our internal control over financial reporting. To the extent weaknesses are identified in our evaluation, we plan to design and implement enhanced processes and controls to address these weaknesses and further improve our internal control over financial reporting. As we are still in the evaluation process, we may identify areas that may require appropriate actions for correction or improvement. We are committed to further improving our controls and procedures.

There were no significant changes in our internal control over financial reporting during the period covered by this annual report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 16A. Audit Committee Financial Expert.

Our board of directors has determined that Mr. Xie Rong, the chairman of our audit committee, is the independent financial expert serving on our audit committee.

Item 16B. Code of Ethics

We have adopted a code of ethics that applies to our directors, supervisors, President, Chief Financial Officer and other senior managers of our company. We have filed this code of ethics as an exhibit to this annual report by way of incorporation by reference.

Item 16C. Principal Accountant Fees and Services

The following table sets forth the aggregate audit fees, audit-related fees, tax fees of our principal accountants and all other fees billed for products and services provided by our principal accountants other than the audit fees, audit-related fees and tax fees for each of the two years ended December 31, 2004:

	Audit Fees	Audit-Related	Tax	Other
	(RMB)	Fees	Fees	Fees
		(RMB)	(RMB)	(RMB)
2003	5,674,200	0	0	0
2004	6,093,550	(1)	0	0

- (1) PricewaterhouseCoopers, our independent auditors, was the Reporting Accountants on our proposed acquisition of the aviation businesses of CEA Northwest and CEA Yunnan from CEA Holding. The total amount with regards to such professional services billed to us and CEA Holding was RMB 2,728,440 as of December 31,

2004. The total amount of professional services fee to be billed and the allocation of such fees between us and CEA Holding has not yet been finalized.

Before our principal accountants were engaged by our company or our subsidiaries to render audit or non-audit services, the engagement was approved by our audit committee.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

**The Board of Directors and Shareholders of
China Eastern Airlines Corporation Limited**

We have audited the accompanying consolidated balance sheets of China Eastern Airlines Corporation Limited (the Company) and its subsidiaries as of December 31, 2003 and 2004, and the related consolidated statements of income, changes in owner s equity and cash flows for each of the three years in the period ended December 31, 2004. These financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Standards on Auditing and Standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of China Eastern Airlines Corporation Limited and its subsidiaries at December 31, 2003 and 2004, and the results of their operations, changes in owner s equity and their cash flows for each of the three years ended December 31, 2004, in conformity with International Financial Reporting Standards.

International Financial Reporting Standards vary in certain significant respects from accounting principles generally accepted in the United States of America. Application of generally accepted accounting principles in the United States of America would have affected the results of the operations for the three years ended December 31, 2004 and the determination of consolidated owner s equity as of December 31, 2003 and 2004, to the extent summarized in Note 39 to the consolidated financial statements.

PricewaterhouseCoopers
Certified Public Accountants

Hong Kong,
April 12, 2005, except for Note 38(b), as to which the date is May 12, 2005.

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1 CORPORATE INFORMATION

China Eastern Airlines Corporation Limited (the Company) was incorporated in the People's Republic of China (PRC) as a joint stock company limited by shares on 14 April 1995. The Company is majority owned by China Eastern Air Holding Company (CEA Holding), a state-owned enterprise. The Company and its subsidiaries (the Group) are principally engaged in the operation of civil aviation, air cargo, postal delivery and other extended transportation services.

2 PRINCIPAL ACCOUNTING POLICIES

(a) Basis of Preparation

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and the disclosure requirements of the Hong Kong Companies Ordinance. This basis of accounting differs in certain material respects from that used in the preparation of the Group's statutory accounts in the PRC. The statutory accounts of the Group have been prepared in accordance with the accounting principles and the relevant regulations applicable to PRC joint stock limited companies (PRC Accounting Regulations). In preparing these financial statements, appropriate restatements have been made to the Group's statutory accounts to conform with IFRS.

This basis of accounting under IFRS differs from generally accepted accounting principles in the United States of America (U.S. GAAP). Differences between IFRS and U.S. GAAP and their effect on profit attributable to shareholders for the three years ended December 31, 2002, 2003, 2004, and, on the owner's equity as of December 31, 2003 and 2004, are set out in note 39. The financial statements incorporate additional disclosures customary in filings with the Securities and Exchange Commission of the United States of America (the SEC).

The consolidated financial statements have been prepared under historical cost convention as modified by the revaluation of fixed assets, short-term investments and derivative financial instruments.

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current event and actions, actual results ultimately may differ from those estimates.

The financial information has been prepared in Renminbi (RMB), the national currency of the PRC. Solely for the convenience of the reader, the December 31, 2004 financial statements have been translated into United States dollars (US\$) at the rate of US\$1.00 = RMB8.2765, being the noon buying rate in New York City for cable transfers in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2004. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at that rate or at any other certain rate on December 31, 2004 or at any other certain date.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)****(b) Group accounting**

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December.

(i) Subsidiaries

Subsidiaries, which are those entities in which the Group has an interest of more than one half of the voting rights or otherwise has power to govern the financial and operating policies, are consolidated.

Subsidiaries are consolidated from the date on which control is transferred to the Group and are no longer consolidated from the date that control ceases. The purchase method of accounting is used to account for the acquisition of subsidiaries. The cost of an acquisition is measured as the fair value of the assets given up, shares issued or liabilities undertaken at the date of acquisition plus costs directly attributable to the acquisition. The excess of the cost of acquisition over the fair value of the net assets of the subsidiary acquired is recorded as goodwill. See note 2(m) for the accounting policy on goodwill. Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Where necessary, accounting policies of subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

Minority interests represent the interests of outside members in the operating results and net assets of subsidiaries.

Particulars of the principal subsidiaries, all of which are limited companies established and operating in the PRC, as of December 31, 2004 are as follows:

Company	Place and date of establishment	Paid-up capital		Attributable equity interest		Principal activities
		2003	2004	2003	2004	
		RMB 000	RMB 000			
China Cargo Airlines Co., Ltd.	PRC July 22, 1998	500,000	500,000	70%	70%	Provision of cargo carriage services

F-10

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(b) Group accounting (Continued)

(ii) Associates

Investments in associates are accounted for by the equity method of accounting. Under this method the Company's share of the post-acquisition profits or losses of associates is recognized in the income statement and its share of post-acquisition movements in reserves is recognized in reserves. The cumulative post-acquisition movements are adjusted against the cost of the investment. Associates are entities over which the Group generally has between 20% and 50% of the voting rights, or over which the Group has significant influence, but which it does not control.

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates; unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. The Group's investment in associates includes goodwill (net of accumulated amortization) on acquisition. When the Group's share of losses in an associate equals or exceeds its interest in the associate, the Group does not recognise further losses, unless the Group has incurred obligations or made payments on behalf of the associates.

(c) Foreign currency translation

The Group maintains its books and records in RMB which is the measurement currency of the Group. Transactions in foreign currencies are translated at the applicable rates of exchange prevailing at the dates of the transactions, quoted by the People's Bank of China. Monetary assets and liabilities denominated in foreign currencies are translated into RMB at the rates prevailing at the balance sheet date as quoted by the People's Bank of China. Exchange differences are included in the income statement, except when deferred in equity as qualifying cashflow hedges.

(d) Revenue recognition and sales in advance of carriage

Passenger, cargo and mail revenues are recognized as traffic revenues when the transportation services are provided. The value of sold but unused tickets is included in the current liabilities as sales in advance of carriage.

Revenues from other operating businesses, including income derived from the provision of ground services and commission income are recognized when services are rendered. Commission income includes amounts earned from other carriers in respect of sales made by the Group. Rental income from leasing office premises and cargo warehouses is recognized on a straight-line basis over the lease term.

Revenues are presented net of business tax.

Interest income is recognized on a time-proportionate basis.

Rental income from subleases is recognized on a straight-line basis over the terms of the respective leases.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(e) Segment reporting

In accordance with the Group's internal financial reporting, the Group has determined that business segments be presented as the primary reporting format and geographical as the secondary reporting format.

In respect of the geographical segment, the analysis of turnover and operating profit by geographical segment is based on the following criteria:-

- (i) Traffic revenue from domestic services within the PRC (excluding Hong Kong Special Administrative Region (Hong Kong)) is attributed to the domestic operation. Traffic revenue from inbound and outbound services between the PRC and Hong Kong or overseas markets is attributed to the geographical area in which the relevant overseas origin or destination lies.
- (ii) Other operating revenues from ticket handling services, airport ground services and other miscellaneous services are attributed on the basis of where the services are performed.

(f) Retirement benefits

The Group participates in defined contribution retirement schemes regarding pension and medical benefit for employees organized by the municipal governments of respective provinces. The contributions to the schemes are charged to the income statement as and when incurred.

In addition, the Group provides retirees with post-retirement benefits including retirement subsidies, transportation subsidies, social function activity subsidies as well as other welfare. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions in excess of the greater of 10% of the value of plan assets or 10% of the defined benefit obligation are charged or credited to income over the employees' expected average remaining working lives.

Past-service costs are recognized immediately in income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortized on a straight-line basis over the vesting period.

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(g) Maintenance and overhaul costs

In respect of aircraft and engines under operating leases, the Group has the responsibility to fulfill certain return conditions under relevant leases. In order to fulfill these return conditions, major overhauls are required to be conducted on a regular basis. Accordingly, the present value of estimated costs of major overhauls for aircraft and engines under operating leases are accrued and charged to the income statement over the estimated period between overhauls using the ratios of actual flying hours/cycles and estimated flying hours/cycles between overhauls. The costs of major overhaul comprise mainly labour and materials. Differences between the estimated cost and the actual cost of the overhaul are included in the income statement in the period of overhaul.

All other routine repairs and maintenance costs incurred in restoring such fixed assets to their normal working condition are charged to the income statement as and when incurred.

Improvements are capitalized and depreciated over their expected useful lives to the Group.

(h) Government grant

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognized in the income statement over the period necessary to match them with the costs they are intended to compensate.

Government grants relating to the fixed assets are included in non-current liabilities as other liabilities and are credited to the income statement on a straight-line basis over the expected lives of the related assets.

(i) Taxation

The Group provides for taxation on the basis of the results for the year as adjusted for items which are not assessable or deductible for income tax purposes. Taxation of the Group is determined in accordance with the relevant tax rules and regulations applicable in the jurisdictions where the Group operates.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is measured using tax rates enacted, or substantively enacted at the balance sheet date.

Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(j) Fixed assets

- (i) Fixed assets are recognized initially at cost which comprises purchase price, costs transferred from construction in progress and any directly attributable costs of bringing the assets to the condition for their intended use.

Subsequent to the initial recognition, fixed assets are stated at revalued amount less accumulated depreciation and accumulated impairment losses. Independent valuations are performed at least every five years or sooner if considered necessary by the directors. In the intervening years, the directors review the carrying values of the fixed assets and adjustment is made where these are materially different from fair value. Increases in the carrying amount arising on revaluation are credited to the revaluation reserve. Decreases in valuation of fixed assets are first offset against increases from earlier valuations of the same asset and are thereafter charged to the income statement. All other decreases in valuation are charged to the income statement. Any subsequent increases are credited to the income statement up to the amount previously charged.

- (ii) Depreciation of fixed assets is calculated on the straight-line method to write off the cost or revalued amount of each asset to their residual value over their estimated useful lives. The estimated useful lives used for the calculation of annual depreciation charges are as follows:-

Aircraft	-	20 years
Flight equipment		
- Engines	-	20 years
- Other flight equipment	-	20 years
Buildings	-	15 to 35 years
Other fixed assets and equipment	-	5 to 20 years

- (iii) Gains and losses on disposals are determined by comparing proceeds with carrying amount and are included in operating profit. When revalued assets are sold, the amounts included in revaluation reserves are transferred to retained earnings.

(k) Construction in progress

Construction in progress represents office buildings, various infrastructure projects under construction and plant and equipment pending installation. This includes the costs of

construction and acquisition and interest capitalized. No depreciation is provided on construction in progress until the asset is completed and put into use.

(l) Lease prepayments

Lease prepayments represent acquisition costs of land use rights less accumulated amortization. Amortization is provided over the lease period of land use rights on a straight-line basis.

F-14

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(m) Goodwill and negative goodwill

(i) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net assets of the acquired subsidiary or associate at the date of acquisition.

Goodwill arising from a business combination is presented as cost less accumulated amortization and accumulated impairment losses. Amortization is made using the straight-line method over its estimated useful life. Management determines the estimated useful life of goodwill based on its evaluation of the respective companies at the time of the acquisition, considering factors such as existing market share, potential growth and other factors inherent in the acquired companies. At each balance sheet date, the Group assesses whether there is any indication of impairment. If such indications exist, an analysis is performed to assess whether the carrying amount of goodwill is fully recoverable. A write down is made if the carrying amount exceeds the recoverable amount.

(ii) Negative goodwill

Negative goodwill represents the excess of the fair value of the Group's share of the net assets acquired subsidiary or associate over the cost of acquisition. Negative goodwill is presented in the same balance sheet classifications as goodwill.

To the extent that negative goodwill relates to expected future losses and expenses that are identified in the Group's plan for the acquisition and can be measured reliably, but which do not represent identifiable liabilities, that portion of negative goodwill is recognized as income when the future losses and expenses are recognized. Any remaining negative goodwill, not exceeding the fair values of the non-monetary assets acquired, is recognized in the income statement over the remaining weighted average useful life of those assets. Negative goodwill in excess of the fair values of those assets is recognized in the income statement immediately.

At each balance sheet date, the Group assesses whether there is any indication of impairment. If such indications exist, an analysis is performed to assess whether the carrying amount of goodwill is fully recoverable. A write down is made if the carrying amounts exceeds the recoverable amount.

The gain or loss on disposals of an entity includes the carrying amount of goodwill relating to the entity sold.

(n) Advances on aircraft and flight equipment

Advance contract payments to aircraft manufacturers to secure deliveries of aircraft and flight equipment in future years are capitalized along with attributable interests, and transferred to fixed assets upon delivery of the aircraft.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(o) Borrowing costs

Interest attributable to funds used to finance the acquisition of new aircraft and construction of major ground facilities is capitalized as an additional cost of the related asset. Interest is capitalized at the Group's weighted average interest rate on borrowings or, where applicable, the interest rate related to specific borrowings during the period of time that is required to complete and prepare the asset for its intended use.

All other borrowing costs are charged to the income statement in the period in which they are incurred.

(p) Long-term bank deposits

Long-term bank deposits placed to secure future lease obligations are classified as held-to-maturity financial assets and measured at amortized cost.

(q) Impairment

Fixed assets and other non-current assets, including goodwill are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount which is the higher of an asset's net selling price and value in use. For the purposes of assessing impairment, assets are grouped at the lowest level for which there are separately identifiable cashflows.

(r) Flight equipment spare parts

Flight equipment spare parts are carried at weighted average cost less allowance for obsolescence.

(s) Trade receivables

Trade receivables are carried at original invoice amount less provision made for impairment of these receivables. A provision for impairment of trade receivables is established if there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the carrying amount and the present value of expected cashflows, discounted at the effective interest rate.

(t) Cash and cash equivalents

Cash and short-term highly liquid investments, which are readily convertible into cash and have original maturities of three months or less at the date of acquisition, are classified as cash and cash equivalents.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(u) Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where the Group expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain.

(v) Leases

(i) A Group company is the lessee

Leases of fixed assets where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the inception of the lease at the lower of the fair value of the leased asset or the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leased assets are depreciated using the straight-line method over their expected useful lives to residual values.

Leases of assets under which a significant portion of the lease risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease payments made under operating leases are charged to the income statement on a straight-line basis over the period of the lease.

(ii) A Group company is the lessor

When assets are leased out under a finance lease, the present value of the lease payments is recognized as a receivable. The difference between the gross receivable and the present value of the receivable is recognized as unearned finance income. Lease income is recognized over the term of the lease using the net investment method, which reflects a constant periodic rate of return.

Assets leased out under operating leases are included in fixed assets in the balance sheet. They are depreciated over their expected useful lives on a basis consistent with similar fixed assets. Rental income is recognized on a straight-line basis over the lease term.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

(w) Derivative financial instruments

Derivative financial instruments are initially recognized in the balance sheet at cost and subsequently are remeasured at their fair value. The method of recognizing the resulting gain or loss is dependent on the nature of the item being hedged. The Group designates certain derivatives as either (1) a hedge of the fair value of a recognized asset or liability (i.e. fair value hedge), or (2) a hedge of a forecasted transaction or of a firm commitment (i.e. cashflow hedge).

Derivative financial instrument that does not qualify for hedge accounting is accounted for as trading instrument and any unrealized gain or loss, being changes in fair value of the derivative, is recognized in the income statement immediately.

Changes in the fair value of derivatives that are designated and qualify as fair value hedges and that are highly effective, are recorded in the income statement, along with any changes in the fair value of the hedged assets or liabilities that are attributable to the hedged risk.

Derivative financial instrument that qualifies for hedge accounting and is designated as a specific hedge of the variability in cashflows of a highly probable forecast transaction, is accounted for as follows:-

- (i) the effective part of any gain or loss on the derivative financial instrument is recognized directly in equity. Where the forecasted transaction or firm commitment results in the recognition of an asset or a liability, the gains and losses previously deferred in equity are included in the initial measurement of the cost of the asset or liability. Otherwise, the cumulative gain or loss on the derivative financial instrument is removed from equity and recognized in the income statement in the same period during which the hedged forecast transaction affects net profit or loss.
- (ii) the ineffective part of any gain or loss is recognized in the income statement immediately.

When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognized in the income statement when the committed or forecasted transaction ultimately occurs. When a committed or forecasted transaction is no longer expected to occur, the cumulative gain or loss that was recorded in equity is immediately transferred to the income statement.

(x) Dividend

Dividend distribution to the Company's shareholders is recognized as a liability in the Group's financial statements in the period in which the dividends are approved by the Company's shareholders.

(y) Comparatives

Where necessary, comparative figures have been reclassified to conform with changes in presentation in the current year.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****3 REVENUES AND TURNOVER**

The Group is principally engaged in the provision of domestic, Hong Kong and international passenger, cargo and mail airline services. Turnover comprises revenues from airline and related services net of business tax and civil aviation infrastructure levies.

	Year Ended December 31,		
	2002	2003	2004
	RMB 000	RMB 000	RMB 000
Gross turnover	13,814,709	14,575,443	21,566,944
Less: Business tax (note (a))	(304,558)	(168,639)	(528,168)
Civil aviation infrastructure levies (note (b))	(431,162)	(129,646)	
	13,078,989	14,277,158	21,038,776

- (a) Pursuant to various PRC business tax rules and regulations, the Group is required to pay PRC business tax. Except for traffic revenues derived from inbound international and regional flights which are not subject to PRC business tax, the Group's traffic revenues, commission income and ground service income are subject to PRC business tax levied at rates ranging from 3% to 5%.
- (b) Prior to 1 May 2003, the civil aviation infrastructure levies were paid to Civil Aviation Administration of China (CAAC), at rates of 5% and 2% respectively for domestic and international or regional traffic revenues.

From 1 May 2003 to 31 March 2004, civil aviation infrastructure levies for all traffic revenues of the Group are waived by CAAC, in compensating for the airlines' losses on revenue due to the outbreak of Severe Acute Respiratory Syndrome (SARS).

Effective from 1 April 2004, in accordance with the related new policy promulgated by the PRC Government, civil aviation infrastructure levies are payable based on the route, aircraft model and tonne-kilometers, and the levies of RMB251,185,000 incurred for the year ended December 31, 2004 are recorded in the operating expenses.

- forward foreign exchange contract		8,146	(11,498)
	768,907	782,783	762,687

The capitalization rates ranged between 4.00% and 6.50% per annum for the year ended December 31, 2002, 3 months LIBOR+0.25% and 5.76% per annum for the year ended December 31, 2003 and 3 months LIBOR+0.25% and 5.76% per annum for the year ended December 31, 2004.

7 TAXATION

(a) Taxation are (charged)/credited to the consolidated income statements as follows:-

	Year Ended December 31,		
	2002	2003	2004
	RMB 000	RMB 000	RMB 000
Provision for PRC income tax - current year	(71,061)	(124,530)	(160,502)
Deferred taxation (note 7(c))	17,570	(118,797)	(19,578)
Share of tax attributable to associates (note 15)	(947)	(4,227)	(1,144)
	(54,438)	(247,554)	(181,224)

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****7 TAXATION (CONTINUED)**

- (i) Pursuant to the Circular Hu Shui Er Cai (2001) No. 104 dated October 22, 2001 issued by local tax bureau, with retrospective effect from July 1, 2001, the Company is entitled to a reduced income tax rate of 15%.
- (ii) The Company has two major subsidiaries, namely China Cargo Airlines Co., Ltd. (China Cargo) and China Eastern Airlines Jiangsu Co., Ltd. (CEA Jiangsu). Pursuant to the Circular (2000) No. 52 jointly issued by the Shanghai Municipal Financial Bureau and Shanghai Municipal State Tax Bureau, China Cargo is subject to a reduced income tax rate of 15%. CEA Jiangsu is subject to the standard PRC income tax rate of 33%.
- (iii) The difference between the actual taxation charge in the consolidated income statement and the amounts which would result from applying the enacted tax rate to profit/(loss) before taxation can be reconciled as follows:-

	Year Ended December 31,		
	2002	2003	2004
	RMB 000	RMB 000	RMB 000
Profit/(loss) before taxation	262,894	(589,831)	845,407
Tax calculated at enacted tax rate of 15%	(39,434)	88,475	(126,811)
Effect attributable to subsidiaries and associates charged at tax rate of 33%	(11,101)	(4,117)	(24,902)
Adjustments:-			
Expenses not deductible for tax purposes	(15,799)	(62,421)	(35,428)
Unrecognized tax losses of the Company		(258,515)	
Utilization of previously unrecognized tax losses of Company			6,395
Utilization of previously unrecognized tax losses of subsidiaries	36,953		
Unrecognized tax losses of associates	(11,347)	(14,821)	(20,993)
Utilization of previously unrecognized tax losses of associates			19,998
Expired tax losses not deductible for tax purposes	(15,185)		
Others	1,475	3,845	517
Tax charge	(54,438)	(247,554)	(181,224)

- (b) The Group operates international flights to certain overseas destinations. There was no material overseas taxation for the year as there exists double tax relief between PRC and the corresponding jurisdictions (including Hong Kong).

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****7 TAXATION (CONTINUED)**

(c) Movements in net deferred taxation liabilities are as follows:-

	December 31,	
	2003	2004
	RMB 000	RMB 000
At January 1	232,825	340,341
Charged to income statement (note 7(a))	118,797	19,578
Credited to equity		
- revaluation reserves	(2,518)	
- unrecognized losses on cash flow hedges	(8,763)	(2,467)
At December 31	340,341	357,452

As at December 31, 2003 and 2004, the deferred tax assets and liabilities (prior to offsetting of balances within the same tax jurisdiction) were made up of taxation effects of the followings:-

	December 31,					
	2003			2004		
	Current	Non-current	Total	Current	Non-current	Total
	RMB 000	RMB 000	RMB 000	RMB 000	RMB 000	RMB 000
Deferred tax assets:						
Tax losses carried forward		312,916	312,916		349,562	349,562
Provision for obsolete flight equipment and spare parts		41,960	41,960		54,014	54,014
Repair cost on flight equipment		160,541	160,541		119,039	119,039
Provision for post-retirement benefits	2,999	86,734	89,733	4,192	91,060	95,252
Other accrued expenses	108,518	13,744	122,262	104,493	16,211	120,704
	111,517	615,895	727,412	108,685	629,886	738,571
Less: unrecognized assets		(258,515)	(258,515)		(252,120)	(252,120)
	111,517	357,380	468,897	108,685	377,766	486,451
Deferred tax liabilities:						
Provision for overhaul		(103,853)	(103,853)		(106,128)	(106,128)
Depreciation and amortization		(705,385)	(705,385)		(737,775)	(737,775)
		(809,238)	(809,238)		(843,903)	(843,903)
Deferred tax assets/(liabilities), net	111,517	(451,858)	(340,341)	108,685	(466,137)	(357,452)

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****7 TAXATION (CONTINUED)**

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current liabilities and when the deferred income taxes relate to the same authority. The following amounts, determined after appropriate offsetting, are shown in the consolidated balance sheets:

	2003	2004
	RMB 000	RMB 000
Deferred tax assets	399,771	395,465
Deferred tax liabilities	(740,112)	(752,917)
	(340,341)	(357,452)

In accordance with PRC tax law, tax losses may be carried forward against future taxable income for a period of five years. As at December 31, 2003 and 2004, the Company had tax losses carried forward approximately RMB2,086 million and RMB2,330 million respectively which will expire between 2006 and 2009, available to set off against the Company's future taxable income. For the year ended December 31, 2004, the Company did not recognize RMB252,120,000 of deferred tax asset arising from the tax losses available as management believe it was more likely than not that such tax losses would not be realized before they expire.

8 EARNINGS PER SHARE

The calculation of earnings/(loss) per share is based on the profit attributable to shareholders of RMB86,369,000, loss attributable to shareholders of RMB949,816,000 and profit attributable to shareholders of RMB514,075,000 for the years ended December 31, 2002, 2003 and 2004, respectively, and 4,866,950,000 shares in issue during the years ended December 31, 2002, 2003 and 2004. The Company has not issued any potential dilutive instruments that are ordinary share equivalent.

9 DIVIDENDS

The Board of Directors of the Company does not recommend the payment of a dividend for the year ended December 31, 2003.

On April 12, 2005, the Board of Directors proposed a final dividend of RMB0.02 per share totalling RMB97,339,000 for the year ended December 31, 2004. These financial statements do not reflect this dividend payable, which will be accounted for in the shareholders' equity as an appropriation of retained earnings in the year ending December 31, 2005.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****10 TRADE RECEIVABLES LESS ALLOWANCE FOR DOUBTFUL ACCOUNTS**

The credit terms given to trade customers are determined on individual basis, with the credit period ranging from half a month to three months.

As of December 31, 2003 and 2004, the aging analysis of the trade receivables were as follows:-

	2003	2004
	RMB 000	RMB 000
Less than 31 days	853,303	1,077,804
31 to 60 days	348,159	216,236

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****12 FIXED ASSETS (CONTINUED)**

- (a) In January 2004, the Company exercised its right upon settlement and termination of a finance lease arrangement to purchase an aircraft at a consideration equal to the present value of the remaining minimum lease payments on the date of the purchase. As part of the finance lease arrangement, the Company is entitled to receive a rebate in the amount of RMB98,921,000 if it meets certain conditions as defined in the lease arrangement.

All the conditions to receive such rebate had been satisfied and the amount was received in February 2004 and was recognized as an adjustment to the carrying value of the aircraft to which the rebate relates.

- (b) On June 30, 2001, the fixed assets were revalued by an independent valuer registered in PRC on a market value basis. The revalued amount were not materially different from the carrying values of these fixed assets. On December 31, 2002, the Group's fixed assets were revalued by the directors of the Company on a market value basis. The difference between the valuation and the carrying amount of the fixed assets as at 31 December 2002 was recognized. On December 31, 2004, the directors of the Company reviewed the carrying value of the Group's fixed assets as at December 31, 2004 and are of the opinion that the carrying amount is not materially different from the fair value.

Had the Group's fixed assets been stated at cost less accumulated depreciation and impairment losses as of December 31, 2003, the carrying amounts of aircraft and flight equipment, buildings, and other fixed assets and equipment would have been RMB23,628,586,000, RMB1,889,569,000 and RMB1,100,592,000 respectively, and as of December 31, 2004 would have been RMB27,015,718,000, RMB1,861,806,000 and RMB1,189,824,000 respectively.

- (c) Certain aircraft of the Group with an aggregate carrying value of approximately RMB9,735,106,000 and RMB13,032,759,000 as of December 31, 2003 and 2004 were pledged as collateral under certain loan agreements (see note 23).

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****14 LEASE PREPAYMENTS**

Lease prepayments represent unamortized prepayments for land use rights.

The Group's land use rights are located in the PRC and majority of these land use rights have terms of 50 years from the date of grant. As at December 31, 2003 and 2004, majority of these land use rights had remaining terms ranging from 43 to 49 years and 42 to 48 years respectively.

Certificates of certain land use rights with nil carrying value of the Group are currently registered under the name of CEA Holding. The procedures to change the registration of the land use rights certificates with the relevant municipal land bureaus are currently being addressed by CEA Holding. Until the completion of these transfer procedures, the Group is unable to assign or pledge these land use rights. However, the Group currently has no need to assign and no intention to pledge these land use rights. In addition, the Group is entitled to lawfully and validly occupy and use these lands for its daily operations in spite of the fact that the procedures of changing the registration of these land use rights have not been fully completed. Accordingly, the directors of the Company do not believe the lack of certificates of certain land use rights has any material impact on the financial position of the Group.

Long-term portion	191,384	175,960

Accrued aircraft overhaul expenses represent present value of estimated costs of major overhauls for aircraft and engines under operating leases. Under the relevant operating leases, the Group has the responsibility to fulfill certain overhaul requirements and to return the aircraft and engines in certain specified conditions.

22 OBLIGATIONS UNDER FINANCE LEASES

The Group had 18 aircraft and 22 aircraft under finance leases as of December 31, 2003 and 2004 respectively. Under the terms of the leases, the Group has the option to purchase, at or near the end of the lease term, certain aircraft at fair market value and others at either fair market value or a percentage of the respective lessor's defined cost of the aircraft.

The future minimum lease payments, interest and present value of minimum lease payments which are principally denominated in foreign currencies, under these finance leases as of December 31, 2003 and 2004 were as follows:-

	2003		December 31,		2004	
	Minimum lease payments RMB 000	Interest RMB 000	Present value of minimum payments RMB 000	Minimum lease payments RMB 000	Interest RMB 000	Present value of minimum payments RMB 000

- (a) For the year ended December 31, 2004, under the PRC Accounting Regulations, the profit for the year of the Company is used to offset the loss incurred in 2003. Accordingly, no profit appropriation of the Company to reserves has been made for the year ended December 31, 2004. Transfer from retained profits to reserves for the year represents the profit appropriation to reserves of certain subsidiaries of the Company.

- (b) Pursuant to PRC regulations and the Company's Articles of Association, the Company is required to transfer 10% of its profit attributable to shareholders, as determined under the PRC Accounting Regulations, to statutory common reserve fund until the fund aggregates to 50% of the Company's registered capital.

Statutory common reserve fund can be used to make good previous years' losses, if any, and to issue new shares to shareholders in proportion to their existing shareholdings or to increase the par value of the shares currently held by them, provided that the balance after such issue is not less than 25% of the registered capital.

- (c) Pursuant to PRC regulations and the Company's Articles of Association, the Company is required to transfer 5% to 10% of its profit for the year, as determined under the PRC Accounting Regulations, to the statutory common welfare fund. This fund can only be used to provide staff welfare facilities and other collective benefits to the Company's employees. This fund is non-distributable other than in liquidation.

F-37

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****26 RESERVES (CONTINUED)**

- (d) The Company is allowed to transfer 5% of the profit for the year as determined under the PRC Accounting Regulations, to discretionary common welfare fund. The transfer to this reserve is subject to the approval by shareholder s meetings.
- (e) Fixed assets of the Group as of June 30, 1996 were revalued as part of the restructuring of the Group, which resulted in a revaluation surplus that formed part of the Company s share capital. The reclassification of the revaluation reserve out of capital reserve has been made in 2002 by reducing capital reserve and increasing revaluation reserve . This change has been done to better present the total amount of revaluation reserve that the Company has since its formation. The revaluation surplus recognized during the restructuring was partially utilized to offset against the revaluation deficit of the same assets arising in 2002 (see note 12(b)). Additional valuation surplus arising in 2002 was credited to the revaluation reserve.

27 LONG-TERM PORTION OF OTHER PAYABLE

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

29 RETIREMENT BENEFIT PLANS AND POST-RETIREMENT BENEFITS

(a) Defined contribution retirement schemes

(i) Pension

Substantially all of the Group employees are eligible to participate in the Group's retirement schemes. The Group participates in defined contribution retirement schemes organized by the municipal governments of the various provinces in which the Group operates. The Group is required to make annual contributions to the schemes at rates ranging from 20% to 22% of salary costs including certain allowances calculated in the prior year. Employees contribute at rates ranging from 7% to 8% of their basic salaries. The Group has no other material obligation for the payment of retirement benefits beyond the annual contributions under these schemes. For the years ended December 31, 2003 and 2004, the Group's pension cost charged to the income statement amounted to RMB82,876,000, RMB121,200,000 and RMB146,500,000 respectively.

(ii) Medical insurance

In 1998, the State Council announced that each municipal government should introduce a medical insurance scheme for employees and retirees of all enterprises, of which the detailed policies and regulations were to be set out by individual municipal government.

In the end of 2000, the Shanghai Municipal Government promulgated the detailed policies and regulations of its medical insurance scheme. In January 2001, the Group joined this scheme under which the Group and its employees contribute approximately 12% and 2% of the employee's basic salaries to the scheme respectively. The Group has no other obligation for the payment of medical expense beyond the annual contributions. For the years ended December 31, 2003 and 2004, the Group's medical insurance contribution charged to the income statement amounted to approximately RMB16,000,000, RMB65,012,000 and RMB76,288,000, respectively.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****29 RETIREMENT BENEFIT PLANS AND POST-RETIREMENT BENEFITS (CONTINUED)**

(b) Post-retirement benefits

In addition to the above retirement schemes, the Group provides retirees with post-retirement benefits including transportation subsidies, social function activities subsidies as well as other welfare. The expected cost of providing these post-retirement benefits is actuarially determined and recognized by using the projected unit credit method, which involves a number of assumptions and estimates including the rate of inflation, discount rate and employees' turnover ratio. The post-retirement benefits provided to the retirees have not been funded by the Group, accordingly, there are no plan assets.

- (i) As of December 31, 2003 and 2004, the post-retirement benefit obligations recognized in the balance sheets of the Group were as follows:

	December 31,	
	2003	2004
	RMB 000	RMB 000
Present value of unfunded post-retirement benefit obligations	514,351	538,428
Unrecognized actuarial gains	51,170	51,704
Post-retirement benefit obligations	565,521	590,132
Less: current portion (note 20)	(19,750)	(27,500)
Post-retirement benefit obligations - long-term portion	545,771	562,632

- (ii) Changes in post-retirement benefit obligations are as follows:

	December 31,	
	2003	2004
	RMB 000	RMB 000
At January 1	544,677	565,521
Current service cost	13,064	20,849
Interest on obligation	27,235	29,857
Actuarial loss recognized		998
Payments made in the year	(19,455)	(27,093)
At December 31	565,521	590,132

(iv) Principal actuarial assumptions at the balance sheet dates are as follows:-

	December 31,	
	2003	2004
	RMB 000	RMB 000
Discount rate	5.00%	5.00%
Annual rate of increase of per capita benefit payment	1.50%	1.50%
Employees turnover rate	3.00%	3.00%

30 STAFF HOUSING BENEFITS

(a) Staff housing fund

In accordance with the PRC housing reform regulations, the Group is required to make contribution to the State-sponsored housing fund at a range from 1% to 15% (2003: 1% to 15%) of the specified salary amount of its PRC employees. At the same time, the employees are required to make contribution equal to the Group's contribution out of their salaries. The employees are entitled to claim the entire sum of the fund contribution under certain specified withdrawal circumstances. For the years ended December 31, 2002,

2003 and 2004, the Group's contributions to the housing funds amounted to RMB61,179,000, RMB65,300,000 and RMB94,200,000 respectively, which are charged to the income statements.

F-41

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

30 STAFF HOUSING BENEFITS (CONTINUED)

(b) Staff housing allowances

Upon the issuance of the government circulars in 2000, the Company's directors estimated a provision of approximately RMB80,179,000 for staff housing allowance payable to eligible employees who joined in the Group prior to 1998 with reference to staff housing policies already set out by certain provincial governments then. Such provision for staff housing benefits is included in other payables in the Group's consolidated balance sheet as of December 31, 2002.

In October 2003, the Board of directors approved a new staff housing policy (the New Staff Housing Policy) which is extended to cover all existing staff who have not been allocated sufficient housing quarters. The benefit level given to the staff under the New Staff Housing Policy is generally higher as compared to the policies to which the Company's directors made reference in 2000.

Under the New Staff Housing Policy, staff who have not been allocated with any housing quarters or who have not been allocated with a quarter up to the minimum area as set out in the New Staff Housing Policy are entitled to a cash allowance. An eligible staff's entitlement is calculated based on area of quarter entitled and the unit price as set out in the New Staff Housing Policy. The total entitlement is principally vested over a period of 20 years. Upon an employee's resignation, his or her entitlement will cease and any unpaid entitlement related to past services will be paid. Upon the establishment of the New Staff Housing Policy, employees are entitled to a portion of the total entitlement already accrued based on his or her past service period. Such entitlement will be paid over a period of 4 to 5 years. The Group recognized a provision of RMB 340,642,000 as related to its present obligation for its employee's staff housing entitlements, RMB 85,973,000 of which is classified as current portion in other payables in the Group's consolidated balance sheet as at December 31, 2003 (note 20). The incremental obligation of RMB 260,463,000 for staff housing benefits as a result of the New Staff Housing Policy was charged to the 2003's income statement.

For the year ended December 31, 2004, the staff housing benefit provided under the New Staff Housing Policy amounted to RMB29,253,000 and is charged to the income statement.

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

34 RELATED PARTY TRANSACTIONS

(a) Balances with related companies

(i) Amounts due from/to fellow subsidiaries

Amounts due from/to fellow subsidiaries arising from trading activities are unsecured, interest free and with no fixed terms of repayment. As at December 31, 2004, such balances mainly included the following:-

China Eastern Air Northwest Company (CEA Northwest)

As of December 31, 2003 and 2004, amount of RMB217,680,000 and RMB118,433,000 respectively due to CEA Northwest comprised amount of air tickets sold by CEA but uplift by CEA Northwest and operating lease rental charges for aircraft.

China Eastern Air Yunnan Company (CEA Yunnan)

As of December 31, 2003 and 2004, amount of RMB129,789,000 due to CEA Yunnan and RMB42,087,000 due from CEA Yunnan comprised amount of air tickets sold by CEA but uplift by CEA Yunnan and operating lease rental charges for aircraft.

Nanjing Airlines Co., Ltd. (Nanjing Airlines)

As of December 31, 2003 and 2004, amount of RMB15,535,000 and RMB44,370,000 respectively due from Nanjing Airlines comprised operating lease rental charges for aircraft.

(ii) Amounts due from/to associates

China Eastern Airlines Wuhan Co., Ltd. (CEA Wuhan Airlines)

As of December 31, 2003 and 2004, amount of RMB36,099,000 and RMB19,063,000 respectively due to CEA Wuhan Airlines comprised amount of air tickets sold by CEA but uplift by CEA Wuhan Airlines and operating lease rental income for operating lease of aircraft.

China Eastern Aviation Import and Export Corporation (EAIEC)

As of December 31, 2003 and 2004, amount of RMB509,249,000 and RMB47,093,000 respectively due to EAIEC comprised prepayments and purchases of flight equipment and flight equipment spare parts payable to EAIEC.

Shanghai Dongmei Aviation Travel Co., Ltd. (SDATC)

As of December 31, 2003 and 2004, amount of RMB24,940,000 and RMB39,485,000 respectively due from SDATC represented amount of tickets sold by SDATC.

(iii) Short-term deposits with an associate

The Group has short-term deposits of RMB214,241,000 and RMB413,870,000 as of December 31, 2003 and 2004 respectively placed with Eastern Air Group Finance Co., Ltd. (EAGF), an associate. The short-term deposits yield interest at an average rate of 0.72% per annum during the year ended December 31, 2003 and 2004.

F-47

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

34 RELATED PARTY TRANSACTIONS (CONTINUED)

(a) Balances with related companies (continued)

(iv) Short-term loans from an associate

The Group has short-term loans of RMB860,000,000 and RMB140,765,000 as of December 31, 2003 and 2004 respectively from EAGF. During the year ended December 31, 2003 and 2004, the weighted average interest rates on the loan were 4.54% per annum and 4.5% per annum respectively.

(b) Guarantee by the holding company

As of December 31, 2003 and 2004, unsecured long-term bank loans of the Group with aggregate amount of RMB1,944,200,000 and RMB2,122,600,000 respectively are guaranteed by CEA Holding (note 23).

(c) Related party transactions

Except as disclosed in note 8 of the financial statement, the Group had the following material transactions with its related parties during the year ended December 31, 2004, which were, in the opinion of the directors, carried out in the normal course of business:-

(i) Sublease arrangement with CEA Northwest

During the year ended December 31, 2004, the Company entered into operating lease agreements with two third-party lessors to lease six A320 aircraft. These aircraft were operated by CEA Northwest from the effective date of the relevant lease to the date of agreement being modified (refer below for details). No agreements were entered into between the Company and CEA Northwest regarding the arrangement, nor written consents obtained from the lessors for the operation of the six A320 by CEA Northwest. Under the lease arrangement, the Company is liable to the lessors for all obligations under the lease agreement. Upon the Board of Directors being notified of the arrangement in August 2004, it appropriately took action and the Company entered into agreements in December 2004 and April 2005 with the third-party lessors, CEA Northwest, and the relevant leasing company to modify the original lease agreement (the Novation and Amendment Agreements) to completely relieve the Company of the lease obligations for the lease arrangements. From the inception of the lease to the effective date of the Novation and Amendment Agreements, the Company charged CEA Northwest the same amount it paid to the third-party lessors for use of the six A320 aircraft.

Under the Novation and Amendment Agreements, the Company was relieved from all obligations related to the original lease arrangements from the inception of the lease and CEA Northwest will become the sole lessee to the amended lease agreements. During 2004, prior to the execution of the Novation and Amendment Agreements, the Company accounted for the arrangement as a sublease, the lease income of RMB83,241,000 from CEA Northwest are recorded as other operating income, and the same amount paid to the third-party lessors as lease expense.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

34 RELATED PARTY TRANSACTIONS (CONTINUED)

(c) Related party transactions (Continued)

(ii) Rescission of lease arrangements with fellow subsidiaries

During the year ended December 31, 2004, the Group entered into certain lease arrangements to lease aircraft from fellow subsidiaries to operate on certain of the Company's air routes. In connection with the lease arrangements, the Company operated the aircraft, recognising traffic revenue and expenses, relating to payments to independent third parties for fuel, take-off and landing fees, and other costs related to the operation of those aircraft.

Under PRC Company Law and applicable stock exchange listing rules, certain related party transactions meeting specified thresholds, including lease transactions, require prior approval by the Board of Directors, including the independent directors. Certain of the lease arrangements to lease three A310 aircraft from CEA Northwest and three Bae146 aircraft from Nanjing Airlines, a subsidiary of CEA Northwest, (collectively, the Leased Aircraft) in 2004 had not been properly authorized and approved in advance by the Board of Directors. Accordingly, as such lease arrangements were not properly approved in advance, the Board of Directors resolved in August and December 2004 to terminate the lease arrangements, and agreement was reached with CEA Northwest to terminate such arrangements. In connection with the termination of the lease arrangements, the Company and CEA Northwest agreed to retroactively rescind the transactions from the inception of the lease arrangements as permitted under PRC laws. The Company has been advised by its external PRC counsel that under PRC law, a transaction can be rendered invalid from inception upon agreement by all parties. However, under IFRS, because the Group actually operated the Leased Aircraft in its normal business operations during the period from the inception to rescission of the lease, the air traffic revenue of RMB440,864,000 and related operating costs of RMB573,893,000 (including the lease charges of RMB192,098,000 and RMB44,695,000 payable to CEA Northwest and Nanjing Airlines respectively) have been recognized in the financial statements of the Group. The impact of the retroactive rescission of the CEA Northwest lease arrangements was for CEA Northwest and Nanjing Airlines to waive amounts owed by the Group totaling RMB133,029,000 (the Settlement Amount), which represents the operating losses incurred on the operation of the Leased Aircraft during 2004. The Settlement Amount was in effect an extinguishment of a financial liability through a reduction of the Group's inter-company payable account with CEA Northwest or Nanjing Airlines, as applicable. The Settlement Amount was recognized as non-operating income for the year ended December 31, 2004 due to its nature being that of a financing transaction. The action of the Board of Directors to disapprove and retroactively rescind such arrangement, with consent from CEA Northwest or Nanjing, was to ensure that the Group's financial position being restored to what it would have been had the lease arrangements never been entered into.

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

34 RELATED PARTY TRANSACTIONS (CONTINUED)

(c) Related party transactions (Continued)

(iv) Other related party arrangements with CEA Northwest/CEA Yunnan

In addition to the related party transactions disclosed above, the Company also has other non-monetary arrangements with CEA Northwest and CEA Yunnan as follows:

Air routes - In the PRC, air routes are assigned by CAAC. The Company has permitted CEA Northwest and CEA Yunnan to use some of the air routes allocated to the Company during the year of 2004 at no charge to CEA Northwest or CEA Yunnan, as applicable, as the Company did not have sufficient capacity to fully utilise those air routes.

Inter-airline billing code - As with all other airlines in the PRC, the Company pays a processing fee to CAAC for use of the ticket settlement system based on the volume of the tickets processed. At the direction of CAAC, the Company has permitted CEA Northwest and CEA Yunnan to use the Company's unique inter-airline billing code (781) at no incremental charge other than amounts paid to CAAC to facilitate ticket settlement between the airlines. Internal administrative cost for ticket handling and processing are not charged to CEA Northwest and CEA Yunnan.

(v) Related party transaction of an associate

China Eastern Air Catering Investment Co., Ltd, an associate of the Company in which the Company and CEA Holding hold 45% and 55% interest respectively, acquired certain subsidiaries from CEA Holding in an aggregate consideration of RMB263,804,000 during the year ended December 31, 2004.

(d) In accordance with a specific exemption in IAS 24, **Related Party Disclosure**, the Group does not accumulate or disclose transactions with other state-owned enterprises as related party transactions.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

35 FINANCIAL RISK MANAGEMENT

Financial assets of the Group mainly include short-term deposits and bank balances, deposits with and amounts due from related companies, trade receivables, long-term receivables, bank deposits, short-term investments and derivative assets. Financial liabilities of the Group include bank and other loans, obligations under finance leases, amounts due to related companies, trade payables, notes payables, derivative liabilities and other payables.

(a) Business risk

The operations of the air transportation industry are substantially influenced by global political and economic development. Accidents, wars, natural disasters, etc. may have material impact on the Group's operations or the industry as a whole. In addition, the Group conducts its principal operations in the PRC and accordingly is subject to special consideration and significant risks not typically associated with companies in the United States of America and Western Europe. These include risks associated with, among others, the political, economic and legal environment, competition and influence of CAAC in the PRC civil aviation industry.

(b) Price risk

The Group's results of operations may be significantly affected by the fluctuation of the fuel prices which is a major expense category. While the international fuel prices are determined by worldwide market demand and supply, domestic fuel prices are regulated by CAAC. It is the Group's plan to strengthen the control over the fuel price risk through financial derivatives.

(c) Interest rate risk

The Group has significant bank borrowings and is exposed to risk arising from changes in market interest rates. To hedge against the variability in the cashflow arising from a change in market interest rates, the Group entered into certain interest rate swaps during the years ended December 31, 2003 and 2004 (see note 36(a)). The interest rates and terms of repayment of loans made to the Group are disclosed in notes 22, 23 and 24.

(d) Credit risk

The Group has no significant concentrations of credit risk. The Group has policies in place to ensure that sales of products and services are made to customers with an appropriate credit history. The Group also receives deposit from customers and counter-parties, where appropriate, if they require credit. A major portion of sales is conducted through sales agents and majority of these agents is connected to various settlement plans and/or clearing systems which have tight requirements on credit standing of these agents.

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

35 FINANCIAL RISK MANAGEMENT

(d) Credit risk (Continued)

Transactions in relation to derivative financial instruments are only carried out with financial institutions of high reputation. The Group has policies that limit the amount of credit exposure to any one financial institution..

(i) Deposits with an associate and cash and bank balances

Substantially all the Group's cash and bank balances are placed with a number of international and PRC banks and an associate, EAGF. Amount placed with any one institution is subject to a cap. Regular assessment of credit ratings on these institution has been performed. Details of deposits placed with EAGF have been disclosed in note 34(a)(iii).

(ii) Trade receivables

These are mainly tickets sales receivable from sales agents and receivables related to uplifts by the Company on behalf of other carriers which are spread among numerous third parties.

(iii) Other receivables

These are spread among numerous third parties.

(e) Liquidity risk

The Group's primary cash requirements have been for additions of and upgrades on aircraft and flight equipment and payments on related debts. The Group finances its working capital requirements through a combination of funds generated from operations and short-term bank loans. The Group generally acquires aircraft through long-term finance leases. To take advantage of the low interest rate for long-term loans, recently the Group also purchased certain number of aircraft through long-term loans from banks in the PRC.

The Group generally operates with a working capital deficit. As of December 31, 2003 and 2004, the Group's net current liabilities

amounted to RMB 9,941 million and RMB 12,502 million respectively. For the years ended December 31, 2003 and 2004, the Group recorded net cash inflows from operating activities of RMB3,163 million and RMB 3,266 million, respectively, net cash outflows from investing activities and financing activities of RMB3,541 million and RMB 2,745 million, respectively and a decrease in cash and cash equivalents of RMB378 million and an increase of RMB521 million respectively.

The directors of Company believe that cash from operations and short-term bank borrowings will be sufficient to meet the Group's operating cashflow. Due to the dynamic nature of the underlying businesses, the Group treasury aims at maintaining flexibility in funding by keeping credit lines available. The directors of the Company believe that the Group has obtained sufficient general credit facilities from PRC banks for financing future capital commitments and for working capital purposes.

F-55

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****35 FINANCIAL RISK MANAGEMENT (CONTINUED)****(f) Foreign currency risk**

The Group's finance lease obligation as well as certain bank and other loans are denominated in US dollars, Japanese Yen and Euro, and certain expenses of the Group are denominated in currencies other than RMB. The Group generates foreign currency revenues from ticket sales made in overseas offices and would normally generate sufficient foreign currencies after payment of foreign currency expenses, to meet its foreign currency liabilities repayable within one year. RMB against US dollars had been comparatively stable in the past. However, RMB against Japanese Yen and Euro had experienced a significant level of fluctuation over the past two years which is the major reason for the significant exchange differences recognized by the Group for the years ended December 31, 2003 and 2004.

The Group enters into certain foreign currency forward contracts with PRC banks to hedge against foreign currency risk (see note 36).

(g) Fair value

The carrying amounts and estimated fair values of significant financial assets and liabilities as of December 31, 2003 and 2004 are set out below:

	December 31,			
	2003		2004	
	Carrying amount RMB 000	Fair value RMB 000	Carrying amount RMB 000	Fair value RMB 000
Long-term bank loans	11,222,923	10,131,805	10,705,637	9,878,592
Obligations under finance leases	7,100,886	7,069,346	8,662,286	8,382,324
Long-term bank deposits	1,743,924	1,840,139	1,908,398	1,990,832

The fair values of the long-term bank loans, obligation under finance leases and long-term bank deposits are estimated by applying a discounted cashflow approach using current market interest rates for similar indebtedness/investment.

The fair value of cash and bank balances, trade receivables, other receivables, amounts due from and to related companies, trade payables, notes payables, other payables and short-term bank loans are not materially different from their carrying amounts because of the short maturities of these instruments.

Fair value estimates are made at specific point in time and are based on relevant market information. This estimate is subjective in nature and involves uncertainties and matters of significant judgement and therefore cannot be determined with precision. Changes in valuation methods and assumptions could significantly affect the estimates.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****36 DERIVATIVE FINANCIAL INSTRUMENTS**

	Assets RMB 000	Liabilities RMB 000
At December 31, 2003		
Interest rate swaps (note (a))	2,814	40,390
Forward foreign exchange contracts (note (b))		54,047
	2,814	94,437
At December 31, 2004		
Interest rate swaps (note (a))	11,571	19,447
Forward foreign exchange contracts (note (b))		100,196
	11,571	119,643

(a) Interest rate swaps

The Group uses interest rate swaps to reduce risk of changes in market interest rates (note 35(c)). The interest rate swaps entered into by the Group generally for swapping variable rates, usually reference to LIBOR, with fixed rates. The Group's interest rate swaps fulfill the criteria for hedge accounting and are accounted for as cashflow hedge. As of December 31, 2003 and 2004, the notional amounts of the outstanding interest rate swap agreements were approximately US\$164 million and US\$437 million respectively. For the years ended December 31, 2003 and 2004, net loss of RMB315,000 and a net gain of RMB29,700,000 respectively arising from changes in the fair value of the interest rate swaps subsequent to initial recognition are recognized directly in the hedging reserve (see note 26).

(b) Forward foreign exchange contracts

The Group uses currency forward contracts to reduce risks of changes in currency exchange rates in respect of ticket sales and expenses denominated in foreign currencies (note 35(f)). These contracts were generally entered for sales of Japanese Yen and purchases of U.S. dollars at fixed exchange rates. The Group's currency forward contracts qualify for hedge accounting and are accounted for as cashflow hedges of firm commitments. As of December 31, 2003 and 2004, the notional amounts of the outstanding currency forward contracts were approximately US\$237 million and US\$226 million respectively. These currency forward contracts will expire between 2006 and 2010. For the years ended December 31, 2003 and 2004, net losses of RMB58,102,000 and RMB46,149,000 arising from changes in the fair value of these foreign currency forwards subsequent to initial recognition are recognized directly in the hedging reserve (see note 26).

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

37 ULTIMATE HOLDING COMPANY

The directors regard CEA Holding, a company established in the PRC, as being the immediate holding and the ultimate holding company.

38 POST BALANCE SHEET DATE EVENTS

- (a) On March 2, 2005, the Company entered into an agreement with United Technologies Far East Limited (UTFEL), to establish Hamilton Sundstrand (Shanghai) Aerospace Technology Limited (HSSATL), a jointly controlled entity which will be principally engaged in the provision of repair and maintenance services for auxiliary power units of aircraft in the PRC. The registered capital of HSSATL is US\$8,900,000, which is to be contributed by the Company and UTFEL in proportion of 51% and 49% respectively.
- (b) Pursuant to the CAAC's airline industry restructuring plan, EA Group merged with Yunnan Airlines Company and China Northwest Airlines Company and formed CEA Holding in October 2002. Yunnan Airlines Company and China Northwest Airlines Company were restructured as wholly-owned subsidiaries of CEA Holding after the merger and renamed as China Eastern Air Yunnan Company (CEA Yunnan) and China Eastern Air Northwest Company (CEA Northwest), respectively. CEA Yunnan is based in Kunming, Yunnan Province in China with approximately 25 jet aircraft and serves primarily the southwestern region of China. CEA Northwest is based in Xi'an, Shanxi Province in China with approximately 35 jet aircraft and serves primarily the northwestern region of China.

The Group have agreed to acquire from CEA Holding certain assets and liabilities relating to the aviation businesses of CEA Yunnan and CEA Northwest pursuant to a conditional assets transfer agreement entered into with CEA Holding, CEA Yunnan and CEA Northwest on May 12, 2005 (the Acquisition Agreement). Following the completion of the Acquisition Agreement, the Group will assume and undertake the aviation operations and businesses currently carried out by CEA Yunnan and CEA Northwest in accordance with the Acquisition Agreement. The total consideration payable by the Group under the Acquisition Agreement is approximately RMB986 million, which will be adjusted by the profit generated or loss incurred by the aviation businesses of CEA Yunnan and CEA Northwest during the period from December 31, 2004 through the effective date of the Acquisition Agreement, which is expected to be June 30, 2005. The amount of such profit/loss will be determined with reference to the relevant financial statements prepared under PRC Accounting Standards and Regulations, to be audited by independent PRC accountants jointly appointed by the Company and the CEA Holding. This consideration consists of an initial consideration of approximately RMB690 million payable within five days from the effective date and the balance payable upon the fulfillment of certain conditions.

The Group has obtained the requisite approvals from relevant regulatory authorities in China and Hong Kong for this acquisition and has submitted the Acquisition Agreement for approval by our independent shareholders at the annual general meeting for the year of 2004 which is scheduled to be held on June 30, 2005 in Shanghai, China.

Under IFRS, the transaction will be accounted for using acquisition accounting. Under US GAAP, the proposed transaction is considered a transaction under common control and will be accounted for at historical cost basis upon the consummation of such transaction. Any amounts paid versus the historical cost of the assets transferred should be treated as an adjustment to equity. Additionally, the Company's financial statements under US GAAP will be retroactively restated for all years presented.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****39 SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S.GAAP**

Differences between IFRS and U.S.GAAP which have significant effects on the consolidated profits/(loss) attributable to shareholders and consolidated owners' equity of the Group are summarized as follows:

Consolidated profit/(loss) attributable to shareholders

(Amounts in thousands except per share data)

	Note	Year Ended December 31,			2004
		2002 RMB	2003 RMB	2004 RMB	US\$ (note 2a)

As stated under U. S. GAAP		247,736	(898,245)	454,677	54,936
Basic and fully diluted earnings/(loss) per share under U. S. GAAP		RMB 0.051	(RMB 0.185)	RMB 0.093	US\$ 0.011
Basic and fully diluted earnings/(loss) per American Depository Share (ADS) under U. S. GAAP		RMB5.09	(RMB18.46)	RMB 9.34	US\$ 1.13

F-59

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****39 SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S.GAAP (CONTINUED)****Consolidated owners' equity**

(Amounts in thousands)

		December 31,		2004
	Note	2003	2004	US\$
		RMB	RMB	(note 2a)
As stated under IFRS		6,382,151	6,882,244	831,540
U. S. GAAP adjustments:				
Reversal of net revaluation surplus of fixed assets	(a)	(908,873)	(908,873)	(109,814)
Reversal of difference in depreciation charges and accumulated depreciation and loss on disposals arising from the revaluation of fixed assets	(a), (b)	691,235	755,902	91,331
Others	(d)	35,971	34,453	4,163
Deferred tax effect on U. S. GAAP adjustments	(e)	9,225	(247)	(29)
As stated under U. S. GAAP		6,209,709	6,763,479	817,191

Notes:-

(a) Revaluation of fixed assets

Under IFRS, fixed assets of the Group are initially recorded at cost and are subsequently restated at revalued amounts less accumulated depreciation. Under U.S. GAAP, the revaluation surplus or deficit and the related difference in depreciation are reversed since fixed assets are required to be stated at cost less accumulated depreciation.

(b) Disposals of aircraft and related assets

This represents the loss on disposal of aircraft and related assets during the year. Under U.S. GAAP, fixed assets are required to be stated at cost. Under IFRS, fixed assets are stated at cost or revalued amounts. Accordingly, the accumulated depreciation and the gain or loss on disposals of aircraft is different under IFRS and U.S. GAAP and is attributable to the surplus or deficit arising on the valuation of the assets that are disposed.

F-60

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

39 SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S.GAAP (CONTINUED)

(c) Rescission of related party lease arrangements

The Company entered into certain lease arrangements with CEA Northwest and Nanjing Airlines to lease three A310 aircraft and three Bae146 aircraft in 2004 that were subsequently terminated and retroactively rescinded (note 34(c)(ii)). The impact of the retroactive rescission of the lease arrangements with CEA Northwest was an aggregate settlement by CEA Northwest and Nanjing Airlines in the amount of RMB133 million (the Settlement Amount), which represents the operating losses incurred on the operation of the CEA Northwest Leased Aircraft during 2004, to the Group through the reduction of the Group's inter-company payable accounts with CEA Northwest or Nanjing Airlines, as applicable.

Under IFRS, the Settlement Amount was recognized as non-operating income for the year ended 31 December 2004 and was in effect an extinguishment of a financial liability through a reduction of the Group's inter-company payable accounts with CEA Northwest or Nanjing Airlines, as applicable.

Under U.S. GAAP, the Settlement Amount, through reduction of the Group's intercompany payable account of CEA Holding's wholly owned subsidiary, was deemed as the principal shareholder incurring costs on behalf of the Company and was recognized as a capital contribution in accordance with Staff Accounting Bulletin Topic 5-T (SAB Topic 5-T). Any cost incurred by the principal shareholder on behalf of its subsidiary are required to be reflected in the subsidiary's financial statements as an expense and a corresponding capital contribution unless the principal shareholders' actions are completely unrelated to its position as a shareholder under SAB Topic 5-T.

(d) Other U. S. GAAP adjustments

The application of U.S. GAAP differs in certain other respects from IFRS, mainly relating to sale and leaseback transactions, post retirement benefits and goodwill. Under US GAAP: i) recognition of gain on sale and leaseback transactions is deferred and amortized, ii) transitional obligations for post retirement benefits are amortized over the average remaining service period of active plan participants, and iii) goodwill is reviewed for impairment and is not amortized.

(e) Deferred tax effect

These represent the corresponding deferred tax effect as a result of the adjustments stated in (a), (b), (c) and (d) above.

Table of Contents**CHINA EASTERN AIRLINES CORPORATION LIMITED****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****39 SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S.GAAP (CONTINUED)**

(f) Segmental disclosures

The Group adopted SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information. The Group has a route network designed to transport passengers and cargo between destinations in China, Hong Kong, and selected international destinations in Japan, U.S., Australia, South Korea, Thailand, Singapore and a number of European countries. China, Hong Kong, and International constitute the Group's three reportable geographical segments. SFAS No.131 requires that segment financial information be disclosed under the management approach that is consistent with how the Group's management internally desegregates financial information for the purpose of making internal operating decisions. The Group evaluates revenue information of its operating segments based on unaudited management operational information prepared under PRC Accounting Regulations.

	Note	Unaudited management operational information under PRC Accounting Regulations for the Year Ended December 31,		
		2002 RMB 000	2003 RMB 000	2004 RMB 000
Traffic revenues				
Domestic				
Passenger		5,288,611	5,854,542	8,122,783
Cargo		235,470	256,661	273,431
Subtotal		5,524,081	6,111,203	8,396,214
Hong Kong				
Passenger		1,937,313	1,622,538	2,208,271

Cargo		2,014,785	2,561,529	3,749,739
Subtotal		5,541,637	5,597,743	8,679,605
		13,271,975	13,725,730	19,895,561

Table of Contents

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

39 SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S.GAAP (CONTINUED)

(f) Segmental disclosures (Continued)

- (i) The Group operates in one business segment which is the common carriage of passenger, cargo and mail over various routes. In the PRC management accounts, revenue is split between passenger and cargo for management review purpose. The directors consider it is appropriate to report such information in these financial statements.
- (ii) Traffic revenues by routes are attributed to each geographical segment based on the final destination / origin of each flight route. For international and Hong Kong routes with a domestic segment, revenues for the entire route are attributed to each geographical segment based on the final destination / origin of the route.
- (iii) The Group's international revenues are generated from its international routes to and from countries including Japan, U.S., Australia, South Korea, Thailand, Singapore and selected European countries. Among these countries, the Group generates from Japan routes its largest share of international revenue (note: the Group generated revenues, under IFRS, of RMB1,814,998,000, RMB1,565,971,00 and RMB2,113,251,000 from its Japan routes in 2002, 2003 and 2004 respectively).
- (iv) The traffic revenue figures as stated above are different from the Group's audited PRC statutory accounts and the Group's audited IFRS accounts due to the following reasons:-

The management made use of this operational information before closing of accounts for each accounting period. Accordingly, estimates (which are generally within a discrepancy of 5% on total actual revenues) have been incorporated into this operational information for timely decision making purposes.

Certain discounts granted to sales agents and customers have not been set-off against revenues under management operational information.

- (v) The major revenue-generating assets of the Group are its aircraft fleet, all of which are registered in the PRC. Since the Group's aircraft fleet is deployed flexibly across its route network, there is no suitable basis of allocating such assets and the related liabilities to geographical segments.

CHINA EASTERN AIRLINES CORPORATION LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

39 SIGNIFICANT DIFFERENCES BETWEEN IFRS AND U.S.GAAP (CONTINUED)

(g) New pronouncements

IFRS

For the year beginning January 1, 2005, the Group will adopt IFRS3 Business Combinations . IFRS 3 will replace IAS22 Business Combinations . Under IFRS3, goodwill will be carried at cost less accumulated impairment losses and will no longer be amortized but instead, it will be tested annually for impairment. IFRS3 requires prospective adoption and management does not believe the adoption of IFRS3 would have a material effect on the Group s financial position or results of operations.

U.S.GAAP

SFAS No. 151

In November 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 151, Inventory Costs - an amendment of ARB No. 43, Chapter 4 . SFAS No. 151 requires abnormal amounts of idle facility expense, freight, handling costs, and wasted materials (spoilage) be recognized as current-period charges. In addition, this Statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. SFAS No. 151 is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. Management does not believe the adoption of SFAS No. 151 would have a material effect on the Group s financial position or results of operations.

SFAS No. 153

In December 2004, the FASB issued SFAS No. 153, Exchanges of Non monetary Assets, an amendment of APB Opinion No. 29 . SFAS No. 153 requires exchanges of productive assets to be accounted for at fair value, rather than at carryover basis, unless (1) neither the asset received nor the asset surrendered has a fair value that is determinable within reasonable limits or (2) the transactions lack commercial substance. SFAS No. 153 is effective for non monetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. Management does not believe the adoption of SFAS No. 153 would have a material effect on the Group s financial position or results of operations.

EITF Issue No. 03-01

In March 2004, the Emerging Issues Task Force (EITF) reached a consensus on Issue No. 03-01 The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments (EITF No. 03-01). EITF No. 03-01 provides recognition and measurement guidance on the meaning of other-than-temporary impairment and its application to certain investments carried at cost, including investments in marketable securities accounted for under SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities . Additionally, EITF No. 03-01 provides disclosure requirements of the investor when determining if an investment is impaired. The recognition and measurement guidance in EITF No. 03-01 has been postponed but the disclosure requirement under the EITF are effective for financial statements for 2004. Management does not believe the adoption of the recognition and measurement requirements of EITF No. 03-01 would have a material effect on the Group s financial position or results of operations.

EITF Issue No. 02-14

In June 2004, the EITF reached a consensus on Issue No. 02-14 Whether the Equity Method of Accounting Applies When an Investor Does Not Have an Investment in Voting Stock of an Investee but Exercises Significant Influence through Other Means (EITF No. 02-14). EITF No. 02-14 provides guidance that an investor should only apply the equity method of accounting when it has investments in either common stock or in-substance common stock of a corporation, provided that the investor has the ability to exercise significant influence over the operating and financial policies of the investee. The EITF defined in-substance common stock as an investment that has risk and reward characteristics that are substantially similar to common stock. EITF No. 02-14 is effective for reporting periods beginning after September 15, 2004. Management does not believe the adoption of EITF No. 02-14 would have a material effect on the Group s financial position or results of operations.

EITF Issue No. 04-01

In September 2004, the EITF reached a consensus on Issue No. 04-01 Accounting for Pre-existing Relationships between the Parties to a Business Combination (EITF No. 04-01) and states that the consummation of a business combination between two parties that have a pre-existing contractual relationship should be evaluated to determine if a settlement of the pre-existing contractual relationship occurred. Additionally, the EITF provides guidance on the measurement and recognition of the pre-existing relationship. The provisions of EITF No. 04-01 are applicable to business combinations completed in reporting periods after October 13, 2004. Management does not believe the adoption of EITF No. 04-01 would have a material effect on the Group s financial position or results of operations.
