2. Reason

Makita's basic policy on the distribution of profits is to maintain a dividend payout ratio of 30% or greater, with a lower limit on annual cash dividend of 18 yen per share. According to this basic policy, the annual cash dividend calculated to 97 yen. The year-end cash dividend which deducted the interim cash dividend of 30 yen, calculated to 67 yen per share.

Because the amount of the annual cash dividend is calculated on this basis, the year-end cash dividend cannot be calculated until after the consolidated business results have been determined, and for this reason announcement of an anticipated dividend amount is being withheld.
