State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

CanArgo Energy Corporation (the Company) is filing this Notification of Late Filing on Form 12b-25 with respect to the Company's Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2009 (the Form 10-Q). As initially reported on Form 8-K filed on January 5, 2009 and as updated in a Current report of Form 8-K filed on May 8, 2009, the Company is in default in making interest payments under its outstanding Senior Subordinated Convertible Guaranteed Notes, due September 1, 2009 and its 12% Subordinated Convertible Guaranteed Notes, due June 28, 2010 and certain other obligations. The Company is continuing its negotiations with certain of the Note holders and other creditors with a view to addressing such defaults. There can be no assurance, however, that such negotiations will be successfully concluded. The Company lacks the resources to timely file the Form 10-Q, without unreasonable effort or expense.

Yes No

Annual Report on Form 10-K for the year ended December 31, 2008

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

On February 28, 2009, the Company publicly announced its preliminary unaudited consolidated results of operations and financial condition as at December 31, 2008 and for the fiscal year then ended. Subsequently on March 3, 2009 the Company filed a Current Report on Form 8-K (Form 8-K) which set forth the information in its Press Release and attached a copy of the Press Release as Exhibit 99.1. The preliminary unaudited consolidated results of operations and financial condition as at December 31, 2008 and for the fiscal year then ended were attached to Exhibit 99.1 filed with the Form 8-K and are incorporated herein.

Operating Revenues from Continuing Operations for 2008 increased by approximately 29% over 2007 to \$9.3 million. The increase in revenue was attributable to an increase in the realized price for its oil sold offset partially by lower volumes of oil sold at the Ninotsminda Field in Georgia. The Company reported a net loss for 2008 of \$57.8 million compared to a net loss for 2007 of \$53.8 million. This was due to lower Income from Discontinued Operations, net of taxes and minority interest offset partially by improved Losses from Continuing Operations before taxes. Operating Loss from Continuing Operations for 2008 increased to \$54.2 for 2008 compared to \$46.6 million in 2007. This was due higher Field Operating Expenses, Direct Project Costs, Depreciation, Depletion and Amortization and Impairment of Oil and Gas Properties, Ventures and Other Assets, partially offset by improved Operating Revenues from Continuing Operations and lower Selling, General and Administrative Expenses.

The Company performed its annual assessment of its costs classified as unproved property to determine if they should be transferred to the cost pool. After evaluating a number of factors including the length of time that these costs remained classified as unproved property, on February 28, 2009 the Board of Directors and Audit Committee of the Company determined that all of the \$9.4 million relating to exploration properties should be moved to the cost pool. The Brent spot price for crude oil of \$36.45 as at December 31, 2008 (compared to \$94.00 as at December 31, 2007) contributed significantly to a revised estimate of value of the Company's proved reserves as assessed by the Company's independent reserve engineers, although the volume of these reserves were not significantly reassessed. Subsequently, the quarterly ceiling test determined that the net capitalized costs in the cost pool should be impaired to \$nil

and this was reflected by a \$51.7m charge to Impairment of Oil and Gas Properties, Ventures and Other Assets in the last quarter of 2008. o

On May 7, 2009, the Company announced publicly that it operated at a loss in the first fiscal quarter of 2009 and that while it hoped to prepare and distribute preliminary unaudited results for the quarter, due to a lack of relevant resources it was unable to prepare the financial statements timely or to estimate the Company's financial results with a sufficient degree of precision, at this time. The Company also announced that it was continuing its negotiations with creditors in respect of its defaulted obligations with a view to arriving at a restructuring plan which, under current expectations, would involve a possible debtor in possession restructuring in Chapter 11 of the United States Bankruptcy Code. There is no assurance, however, that the Company will be successful in its efforts.

The information set forth herein with respect to fiscal 2008 and the first quarter of fiscal 2009 is preliminary in nature, has been prepared by management and has not been audited by the Company's auditors. Accordingly, such information does not necessarily reflect results of the Company's operations and financial condition that may be reportable after completion of an audit and, while management is reasonably confident that such information is materially accurate, such preliminary results may be subject to change and should not be regarded as a definitive report on results of operations and financial condition of the Company as at December 31, 2008 and March 31, 2009 and for the fiscal periods then ended.

This Notification of Late Filing may contain forward-looking statements within the meaning of the federal securities laws, including statements regarding the intent, belief or current expectations of the Company and its management which are made with words such as will, expect, believe, and similar words. These forward-looking statements involve a number of risks, uncertainties and other factors, which may cause the actual results to be materially different from those expressed or implied in the forward-looking statements. Such risks, uncertainties and other factors include, among other matters, the uncertainties inherent in oil and gas activities; the effects of the Company's impaired financial condition; the effects of actions by third parties including creditors and government officials; fluctuations in world oil prices and other risks detailed in the Company's reports on Forms 10-K and 10-Q previously filed with the Securities and Exchange Commission; the ability of the Company and its subsidiaries to arrive at a successful negotiation with its creditors and to prosecute, develop and consummate one or more plans of reorganization with respect to any possible Chapter 11 proceeding; the effects of any possible Chapter 11 filing on the Company and the interests of various creditors, equity holders and other constituents; Bankruptcy Court rulings in any possible Chapter 11 case and the outcome of any such proceedings in general; the length of time the Company will operate under a possible Chapter 11 proceeding; the risks associated with third party motions in any possible Chapter 11 proceeding, which may interfere with the Company's ability to develop and consummate one or more plans of reorganization; the potential adverse effects of a possible Chapter 11 proceeding on the Company's liquidity or results of operations; continued compliance with conditions for funding under any secured credit facility that may be obtained to fund the Company while in any possible Chapter 11 proceeding; the ability to execute the Company's business and restructuring plan; management of cash resources; restrictions imposed by, and as a result of, the Company's substantial leverage; increased legal costs related to a possible bankruptcy case and other litigation and the Company's ability to maintain contracts that are critical to its operation, to obtain and maintain normal terms with customers, suppliers and service providers and to retain key executives, managers and employees. The Company does not intend to review, revise, or update any particular forward-looking statements in light of future events.
