Quarter ended March 31, 2018 Highlights compared to March 31, 2017

- Net sales of \$175.2 million decreased \$21.2 million, the result of continuing increased competition and the challenging pricing environment, particularly in the U.S.; despite an increase in overall volumes.

- Tax expense decreased \$6.6 million to \$10.7 million resulting in an effective tax rate of 11.0% compared to 17.3%.
- Net income attributable to Taro was \$86.3 million compared to \$83.0 million, resulting in diluted earnings per share of \$2.17 compared to \$2.05 for the same period last year.

Year ended March 31, 2018 Highlights compared to March 31, 2017

Tax expense decreased \$21.8 million to \$82.0 million, however, the effective tax rate increased to 28.0% from 18.5%. During the third quarter, the Company recorded a \$38.0 million expense for the impact of the

Mr. Uday Baldota, Taro's CEO stated, "Our results reflect the challenges that the entire U.S. generic industry has faced, and continues to encounter. While we continue to invest prudently in developing products, we have a reasonably good pipeline; some of which will come to market over the next 24 months. We also continue to look at initiatives and opportunities in areas of our core strengths and potentially some adjacent areas as well."
