

GL ENERGY & EXPLORATION INC
Form 10QSB
November 21, 2005

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, DC 20549

FORM 10-QSB

**QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934**

For the Quarterly Period ended September 30, 2005

Commission File Number 000-31032

GL ENERGY AND EXPLORATION, INC.

(Exact name of registrant as specified in charter)

Delaware

(State or other jurisdiction of incorporation or
organization)

52-2190362

(I.R.S. Employer Identification No.)

8721 Sunset Blvd., Penthouse 7, Hollywood, California

(Address of principal executive offices)

90069

(Zip Code)

Registrant's telephone number, including area code

(562) 903-1114

Check whether the issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes

No

State the number of shares outstanding of each of the issuer's classes of common equity, as of the latest practicable date: As of November 4, 2005, the Company had outstanding 37,382,042 shares of its common stock, par value \$0.001.

GL Energy and Exploration, Inc.

(A Development Stage Company)

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited interim financial statements of GL Energy and Exploration, Inc. (GL Energy) have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (SEC), and should be read in conjunction with the audited financial statements and notes thereto contained in the Company s registration statement filed with the SEC on Form 10-KSB.

In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements, which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year 2004 as reported in Form 10-KSB, have been omitted.

NOTE 2 INVESTMENT IN AMERICAN SOUTHWEST MUSIC DISTRIBUTION, INC.

In January 2005, a GL Energy shareholder loaned \$37,500 to GL Energy. The funds were deposited into the bank account of American Southwest Music Distribution, Inc., a current merger candidate.

NOTE 3 RELATED PARTY TRANSACTIONS

GL Energy had outstanding loans due to shareholders for the total amount of \$218,822, which included accrued interest of \$25,390. The loans are due on demand, bear interest at 10%, and are unsecured.

NOTE 4 CONTINGENCY

In May 2005, GL Energy was one of several defendants named in a lawsuit alleging GL Energy and others conspired to hide assets secured by a promissory note between two companies unrelated to GL Energy. The plaintiff is seeking damages in excess of \$1.2 million. GL Energy is assessing the merits of the allegations and is in the process of determining what if any liability may be incurred by GL Energy.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Forward Looking Statements

From time to time, we or our representatives have made or may make forward-looking statements, orally or in writing. Such forward-looking statements may be included in, but not limited to, press releases, oral statements made with the approval of an authorized executive officer or in various filings made by us with the Securities and Exchange Commission. Words or phrases "will likely result", "are expected to", "will continue", "is anticipated", "estimate", "project or projected", or similar expressions are intended to identify "forward-looking statements". Such statements are qualified in their entirety by reference to and are accompanied by the above discussion of certain important factors that could cause actual results to differ materially from such forward-looking statements.

Management is currently unaware of any trends or conditions other than those previously mentioned in this management's discussion and analysis that could have a material adverse effect on the Company's consolidated financial position, future results of operations, or liquidity. However, investors should also be aware of factors that could have a negative impact on the Company's prospects and the consistency of progress in the areas of revenue generation, liquidity, and generation of capital resources. These include: (i) variations in revenue, (ii) possible inability to attract investors for its equity securities or otherwise raise adequate funds from any source should the Company seek to do so, (iii) increased governmental regulation, (iv) increased competition, (v) unfavorable outcomes to litigation involving the Company or to which the Company may become a party in the future and, (vi) a very competitive and rapidly changing operating environment.

The risks identified here are not all inclusive. New risk factors emerge from time to time and it is not possible for management to predict all of such risk factors, nor can it assess the impact of all such risk factors on the Company's business or the extent to which any factor or combination of factors may cause actual results to differ materially from those contained in any forward-looking statements. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results.

The financial information set forth in the following discussion should be read with the financial statements of GL Energy and Exploration, included elsewhere herein.

Business

GL Energy and Exploration, Inc. was incorporated in the state of Delaware on October 7, 1998 under the name LRS Group Incorporated. On October 15, 1998, the name of the corporation was changed to LRS Capital, Inc. On October 10, 2001 the name of the corporation was changed to GL Energy and Exploration, Inc. GL Energy is a development stage company. Prior to October 2004 the company had no viable business operations.

Effective October 1, 2004 the company appointed David Michery and Marcus Sanders to the board of directors. In addition, David Michery was appointed as Chairman, CEO, and President, and Kent Puckett as CFO, Secretary, and Treasurer. In May 2005, Marcus Sanders resigned from the board of directors.

Plan of Merger

On October 13, 2004, GL Energy agreed to a merger with American Southwest Music Distribution, Inc. ("American Southwest"), a privately held Texas corporation, with offices in Santa Fe Springs, California. GL Energy will be the surviving corporation. Pursuant to the Merger Agreement, all of American Southwest's outstanding shares will be converted into shares of GL Energy's common stock, and GL Energy will change its name to "American Southwest Music Distribution, Inc." Following the Merger, GL Energy has agreed to reverse split its common stock by 1 for 35.

The merger will not be effective until the Certificate of Merger between GL Energy and American Southwest is filed with Delaware's Secretary of State. We anticipate filing the required documents during the quarter ending December 31, 2005.

Upon filing the Certificate of Merger the control of GL Energy will change and we will carry on the business of American Southwest. The change of control will be effected through the following actions:

American Southwest will merge with and into GL Energy. American Southwest's separate corporate existence will cease, and GL Energy will be the surviving corporation. GL Energy will change its name to "American Southwest Music Distribution Inc.";

American Southwest has two shareholders. GL Energy will issue 22,500,000 shares of its common stock and 23,980 shares of its Series A Convertible Preferred Stock to the American Southwest shareholders. Each share of the Series A Convertible Preferred Stock has a face value of \$1,000.00 per share, and is convertible into shares of GL Energy's common stock at the rate of \$.04 per share. Prior to the Reverse Stock Split, the aggregate number of shares of common stock in which the Series A Convertible Preferred Stock may be converted is 599,500,000. Each share of Series A Convertible Preferred Stock entitles their holder to vote the number shares equal to the number of shares of common stock into which the shares of Series A Convertible Preferred Stock may be converted. The holders of the common stock and the Series A Convertible Preferred Stock vote as a single class on all matters on which GL Energy's stockholders vote, except where otherwise required by law. According to their terms, the shares of Series A Convertible Preferred Stock automatically convert into common stock on the effective date of the Reverse Stock Split, and all of the Series A Convertible Preferred Stock will be surrendered to GL Energy. At the time of the Reverse Stock Split, the shares of Series A Convertible Preferred Stock shall be adjusted in the same proportion as the common stock, and will thereafter be convertible into 17,128,572 shares of common stock;

After giving effect to the Reverse Stock Split and the Merger, GL Energy's total issued and outstanding shares of common stock will be approximately 18,699,230, and the American Southwest shareholders will own 17,771,429 shares. The two American Southwest shareholders will collectively own approximately 95% of our issued and outstanding shares of common stock. Our current stockholders will own approximately 5% of our issued and outstanding shares of common stock;

David Michery will remain our director. David Michery will continue as our Chief Executive Officer and Kent Puckett will continue as Chief Financial Officer. These officers and director shall control GL Energy's business and operations; and

Immediately following the Merger, GL Energy's board of directors will seek from a majority of the shareholders approval, by written consent of the Reverse Stock Split at the rate of 1 share for every 35 shares outstanding, and approval of an increase in the authorized common stock, \$.001 par value ("Common Stock"), from 2,857,142 shares to 100,000,000 shares of common stock. The board of directors has already unanimously approved the Reverse Stock Split and concurrent increase in the authorized common stock.

Approval of the Plan of Merger

GL Energy's Board of directors approved the actions and a majority of our stockholders approved the Merger by written consent in lieu of a meeting, on October 15, 2004. A stockholder owning 16,400,000 shares of the 32,473,042 shares of common stock outstanding as of October 15, 2004 consented in writing to the actions described below. Such

approval and consent constitute the approval and consent of a majority of the total number of shares of outstanding common stock and are sufficient under the Delaware General Corporation Law and GL Energy's By-Laws to approve the actions. Accordingly, the actions will not be submitted to GL Energy's other stockholders for a vote. No other vote or stockholder action is required.

Planned Business Operations Subsequent to Merger

American Southwest is a music licensing, recording and distribution company. American Southwest recently relocated to an office in Hollywood, California and also recently opened a distribution center in Houston, Texas. American Southwest is a development stage company formed in July of 2004. American Southwest acquired the rights to two existing music master catalogs ("Master Catalogs"), which gives them the exclusive right to commercially exploit several master records that have been previously released for sale to consumers in the form of compact disks and tapes through normal retail distribution channels.

American Southwest plans to generate revenues by selling copies of records derived from its music catalogs through normal retail distribution channels to consumers in the United States and Canada. American Southwest plans to enter into several licensing agreements with foreign distributors and licensors to sell records derived from its catalog outside of the United States and Canada.

American Southwest plans to enter into rights acquisition, licensing, distribution and recording agreements ("Distribution Agreements") with third party record labels and production companies ("Labels") to provide them with master recordings that have not been previously released for sale to consumers ("New Masters"). Through each Distribution Agreement, American Southwest plans to acquire the worldwide copyright and exclusive right to distribute and license records derived from the New Masters, recorded and produced by the various Labels and recording artists.

In each Distribution Contract, the Labels will agree to deliver one or more New Masters to American Southwest during the term of the Distribution Contract. Each New Master will be required to contain at least ten (10) newly recorded compositions of the featured recording artist(s), having an aggregate playing time of no less than thirty-two (32) minutes ("Albums"), and must be complete and satisfactory to American Southwest.

If satisfactory, in most cases, within three months of the Label's delivery of an Album to American Southwest, American will release the Album in retail stores throughout the United States and Canada. If the Album realizes commercial success in the United States and Canada, approximately one (1) year after its initial release, the Album will be released in major foreign territories, such as the United Kingdom, Japan, Australia, Germany, and France.

Whether or when an Album is commercially released is within American Southwest's sole discretion. Prior to and concurrent with the commercial release of an Album, management creates and implements a marketing plan for each Album. The actual amount of money spent marketing an Album will be determined by American Southwest's management, based upon the historical sales of the recording artist featured on the album, as reported by Soundscan; initial responses to singles on the album by radio and club disc jockey's and radio program directors across the country, as reported by BDS; and the number of initial units of the album purchased by the retailers.

Pursuant to the terms of each Distribution Agreement, American Southwest pays the Label royalties equal to approximately fifty percent (50%) of the net profits received from the sell of the delivered Album, after all advances made by American Southwest to and on behalf of the Label are recouped through the sale of all of the Albums delivered during the term of the Distribution Agreement. As defined in each Distribution Agreement, net sales equal all gross receipts received by American Southwest from its distributors from the sale of the album minus all manufacturing costs, marketing and promotion costs, a twenty percent (20%) distribution payable to American Southwest, co-op advertising costs, mechanical royalties, royalties payable to third-parties, and all other expenses paid by American Southwest.

We currently do not have adequate funding for our planned business operations. We are assessing the possibilities for financing our business plan and trying to determine what sources of financing we might explore to raise the needed capital. We have no outside sources for funding our business plan at this time other than the sales of our common

stock. We will need additional capital for any current or future expansion of our operations we might undertake.

Financial Condition and Changes in Financial Condition

Overall Operating Results:

We had no revenues for the quarter ended September 30, 2005 or since our inception.

We incurred \$9,825 in operating expenses during the quarter ended September 30, 2005. All of these expenses were accounting fees and expenses associated with our filings with the Securities and Exchange Commission.

We incurred \$47,915 in operating expenses for the quarter ended September 30, 2004. The expenses included legal and accounting fees of \$3,822 incurred in connection with our compliance filings with the Securities and Exchange Commission. We issued 390,000 shares of our common stock to an attorney and sales representative for consulting services out of our Regulation S offering at a value of \$15,600. We also incurred \$24,409 in management fees during the quarter pursuant to a management agreement with Wellstar International, Inc. This agreement was terminated in September 2004 in conjunction with the appointment of the new board of directors.

For the nine months ended September 30, 2005 our operating expenses totaled \$74,482. Legal and accounting fees were \$45,700. Rent and storage expenses totaled \$20,677. The remaining expenses were incurred for general operating purposes.

For the nine months ended September 30, 2004 our operating expenses totaled \$451,669, a vast majority of which were incurred for public relations, accounting and legal fees, consulting fees and management fees. These fees totaled \$388,310. Of this amount, \$288,300 were non-cash expenses incurred with the issuance of common stock.

Liquidity and Capital Resources:

Since our inception we have had minimum working capital to fund our operations. In order to fund our operations we have relied on the sale of our common stock and loans from shareholders.

To fund our prior business plan operations to date, we sold shares of our common stock. These sales were comprised of 2,364,624 shares of our common stock registered in 2001 and our Regulation S offering of 1,000,000 shares in 2002, which also had attached warrants to purchase 2,000,000 shares of common stock. These warrants expired on July 31, 2003. All shares and warrants are on a pre-stock split basis. During 2004, we sold shares through a Registration S offering in Europe for total proceeds of \$110,428 and sales to 2 U.S. consultants for total proceeds of \$25,000.

We have also relied on loans from shareholders to fund operations. Donald Byers, a majority shareholder, and three other shareholders have loaned the company \$218,822 including accrued interest as of September 30, 2005 to fund our business operations. These loans bear 10% interest and will be repaid upon the company receiving adequate funding.

We currently have a working capital deficit and no operating cash with which we can fund our future operations. If we do not receive adequate funding, we will have to discontinue or substantially scale back our operations.

We intend to seek either debt or equity capital or both. As of the date of this filing we have no commitments for funding from any unrelated parties or any other agreements that will provide us with adequate working capital. We cannot give any assurance that we will locate any funding or enter into any agreements that will provide the required operating capital to fund our operations. In addition, we may also consider strategic alliances and mergers and acquisitions as a means to pursue our business plan or otherwise fund the company.

Description of Properties

Our executive offices were relocated in October 2005 to 8721 Sunset Blvd., Penthouse 7, Hollywood, California 90069 in order to be located closer to the music and entertainment industry. We also recently opened a distribution center in Houston, Texas.

Employees/Directors

On October 1, 2004, David Michery and Marcus Sanders accepted appointment to the board of directors. Thereafter, the board of directors appointed David Michery as Chairman, CEO, and President, and appointed Kent Puckett as CFO, Secretary, and Treasurer. In May 2005, Marcus Sanders resigned from the board of directors.

New Accounting Pronouncements

GL Energy does not expect the adoption of recently issued accounting pronouncements to have a significant impact on GL Energy's results of operations, financial position or cash flow.

ITEM 3. CONTROLS AND PROCEDURES

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in company reports filed or submitted under the Securities Exchange Act of 1934 (the Exchange Act) is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in company reports filed under the Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer (the Certifying Officers), as appropriate to allow timely decisions regarding required disclosure.

As required by Rules 13a-15 and 15d-15 under the Exchange Act, the Certifying Officers carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of September 30, 2005. Their evaluation was carried out with the participation of other members of the Company's management. Based upon their evaluation, the Certifying Officers concluded that the Company's disclosure controls and procedures were effective.

The Company's internal control over financial reporting is a process designed by, or under the supervision of, the Certifying Officers and effected by the Company's Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of the Company's financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the Company's assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Company's financial statements in accordance with generally accepted accounting principles, and that the Company's receipts and expenditures are being made only in accordance with the authorization of the Company's Board of Directors and management; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on its financial statements. There has been no change in the Company's internal control over financial reporting that occurred in the quarter ended September 30, 2005, that has materially affected, or is reasonably likely to affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In May 2005, GL Energy was one of several defendants named in a lawsuit alleging GL Energy and others conspired to hide assets secured by a promissory note between two companies unrelated to GL Energy. The plaintiff is seeking damages in excess of \$1.2 million. GL Energy is assessing the merits of the allegations and is in the process of

determining what if any liability may be incurred by GL Energy.

ITEM 2. CHANGES IN SECURITIES

Recent Sales of Unregistered Securities

From February through December 31, 2004, GL Energy issued 2,670,000 shares of stock in trust in connection with the Registration S offering in Europe. During the quarter ended June 30, 2004, GL Energy sold 538,401 shares of stock from the trust. Total proceeds received by GL Energy were US\$110,428. We also issued a total of 1,370,000 shares of stock from the trust for services rendered in connection with the offering. 666,599 shares were returned to the company and cancelled. 95,000 shares are still being held by the placement agent. These shares have not been registered with the SEC.

Upon completion of the Merger Agreement, GL Energy will sell the following securities that will not be registered under the Securities Act.

On the effective date of the Merger Agreement, GL Energy will issue 22,500,000 shares of GL Energy's common stock (the Common Stock) and 23,980 shares of GL Energy's Series A Convertible Preferred Stock (the Preferred Stock) to the two shareholders of American Southwest, David Michery and Kent Puckett. David Michery and Kent Puckett are the sole shareholders of American Southwest.

Each share of the Preferred Stock has a face value of \$1,000 per share. Each share of the Preferred Stock entitles their holder to vote the number shares equal to the number of shares of common stock into which the shares of Preferred Stock may be converted. The shares of Preferred Stock have a stated compounded dividend of 6% per annum based on the stated value of \$1,000 per share, payable as permitted by law and declared by the board of directors, or upon the redemption or conversion, the shares of Series A Convertible Preferred Stock are converted 24 months after their issuance to the holder. The Board of directors may not declare or pay any dividends on the common stock unless a dividend is first declared and paid all unpaid dividends on the Preferred Stock. The holders of the Preferred Stock shall have the right to demand two registrations, and unlimited piggy-back registration rights subject to pro rata cutback at the underwriters' discretion. The holders of the Preferred Stock have S-3 registration rights, if and when GL Energy qualifies for registration pursuant to Securities and Exchange Commission form S-3.
