On December 18, 2009 Green Mountain Recovery, Inc. (the "Registrant"), a Delaware corporation, entered into a Share Exchange Agreement (the "Exchange Agreement") with Masterbeat, LLC ("MASTERBEAT") a California Limited Liability Company the (the "Shareholders"). Pursuant to the terms of the Exchange Agreement, the Shareholders agreed to transfer all of the issued and outstanding limited liability units in MASTERBEAT to the Registrant in exchange for the issuance of an aggregate of 8,500,000 shares of the Registrant's common stock to the Shareholders, thereby causing MASTERBEAT to become wholly-owned subsidiary of the Registrant (the "Share Exchange").

As of the date of the execution of the Exchange Agreement, there were no material relationships between the Company or any of its affiliates and MASTERBEAT, other than in respect of the Exchange Agreement.

The foregoing description of the Exchange Agreement does not purport to be complete and is qualified in its entirety by reference to the complete text of the Exchange Agreement, which is filed as Exhibit 2.1 hereto and incorporated herein by reference.

ITEM 2.01 - COMPLETION OF ACQUISITION OR DISPOSITION OF ASSETS

SHARE EXCHANGE

THE SHARE EXCHANGE

As discussed in Item 1.01, on December 18, 2009 the Registrant entered into the Exchange Agreement with MASTERBEAT and the Shareholders. Pursuant to the terms of the Exchange Agreement, the Shareholders agreed to transfer all of the issued and outstanding limited liability company units in MASTERBEAT to the Registrant in exchange for the issuance of an aggregate of 8,500,000 shares of the Registrant's common stock to the Shareholders, thereby causing MASTERBEAT to become wholly-owned subsidiary of the Registrant Pursuant to the provisions of the Share Exchange, the principals of Registrant cancelled 1,000,000 shares of common stock owned by them and executed a lock-up leak-out agreement with respect to their remaining shares which agreement provides for the release of an aggregate of 100,000 shares per month commencing 90 days from the closing date.

Upon the closing of the Share Exchange on December 29, 2009, the Members of MASTERBEAT delivered all of their membership interests in MASTERBEAT to the Registrant in exchange for 8,500,000 shares of common stock of the Registrant. The Share Exchange resulted in MASTERBEAT, becoming a wholly-owned subsidiary of the Registrant.

The shares of the Registrant's common stock issued in connection with the Share Exchange were not registered under the Securities Act, in reliance upon the exemptions from registration provided by Section 4(2) of the Securities Act of 1933 (the "Securities Act"). These securities may not be offered or sold absent

Edgar Filing: GREEN MOUNTAIN RECOVERY, INC. - Form 8-K

registration or an applicable exemption from the registration requirements. Certificates representing these shares contain a legend stating the same.

1

As of the date of the closing of the Exchange Agreement, there were no material relationships between the Registrant or MASTERBEAT, or any of their respective affiliates, directors or officers, or any associates of their respective officers or directors.

CHANGES RESULTING FROM THE SHARE EXCHANGE

At this time, the Registrant intends to carry on the business of its wholly owned subsidiary MASTERBEAT through its operating units Masterbeat.com; posterprintship.com; and circuitticket.com as its sole line of business. Masterbeat.com is an online digital music store offering millions of tracks for legal paid download. Specializing in dance music, the website features hard-to-obtain remixes from the major record labels (Universal Music Group, SONY BMG, Warner Music Group, and EMI) as well as music from thousands of independent labels, worldwide. Masterbeat.com also produces large scale dance events under its "powered by Masterbeat.com" name. Posterprintship.com is a quick-turnaround online printing store and circuitticket.com is an automated ticketing site, and an event-planning concern.

CHANGES TO THE BOARD OF DIRECTORS AND OFFICERS

At the effective date of the Merger, each of Joseph Levi and Eduard Korsinsky resigned and Brett Henrichsen, Dick Wingate, Jon Biondo, and Theodore Green were appointed to the Board.

ACCOUNTING TREATMENT; CHANGE OF CONTROL

The Share Exchange is being accounted for as a "reverse merger," since the former stockholders of MASTERBEAT own a majority of the outstanding shares of the Registrant's common stock immediately following the Share Exchange. MASTERBEAT is deemed to be the accounting acquirer in the reverse merger. Consequently, the assets and liabilities and the historical operations that will be reflected in the financial statements for periods prior to the Share Exchange will be those of and will be recorded on the historical cost basis of Registrant. After completion of the Share Exchange the Registrant's Consolidated Financial Statements will include the assets and liabilities of the Registrant and the operations of the Registrant from the closing date of the Share Exchange. No arrangements or understandings exist among present or former controlling stockholders with respect to the election of members of the Registrant's board of directors and, to our knowledge, no other arrangements exist that might result in a change of control of the Company. Further, as a result of the issuance of the shares of the Registrant's common stock pursuant to the Share Exchange, a change in control of the Registrant occurred on the date of consummation of the Share Exchange.

DESCRIPTION OF THE COMPANY

Unless otherwise indicated or the context otherwise required all references herein to the "Registrant," the "Company," "we," "our" and "us" for periods prior to the closing of the Share Exchange refer to Green Mountain Recovery, Inc. and for periods subsequent to the closing of the Share Exchange refer to Masterbeat and Green Mountain Recovery on a combined basis after the Merger.

CORPORATE STRUCTURE

Edgar Filing: GREEN MOUNTAIN RECOVERY, INC. - Form 8-K

The Company was incorporated under the laws of the State of Delaware on May 17, 2007. From then until Merger, the Company was engaged in the business of acquiring, managing and collecting portfolios of consumer receivables. Upon the effectiveness of the Merger the Company succeeded to the business of Masterbeat which will be continued as its sole line of business and on December 30, 2009, the Company changed its name to MASTERBEAT CORPORATION. Immediately following the merger, the Company's business of acquiring, managing and collecting consumer receivables was transferred to an entity controlled by the former principals of the Company.

DESCRIPTION OF OUR BUSINESS

MASTERBEAT is a digital music company. Though its website Masterbeat.com, the Company makes dance music, remixes and electronica available to consumers on the website.

The Company's signature web site is a digital music download store with the domain name www.Masterbeat.com. The store provides customers around the world with 24-7 access to the highest quality digital music files available. Presently, the site differentiates itself from the competition by focusing on dance music, a powerful vertical market with a loyal consumer following. The Company has professional relationships with all four major record labels, as well as thousands of independent labels. Masterbeat has over 4 million songs for sale, and is currently the only digital service provider to carry "lossless" (uncompressed, CD quality) files from Warner Music Group and Universal Music Group.

MASTERBEAT produces several large scale dance events branded as "powered by Masterbeat.com", further promoting recognition and loyalty while creating additional revenue streams for the company. MASTERBEAT'S largest and most popular event is produced annually in Los Angeles for New Year's Eve. Now in its tenth year, the event features international superstar DJ's, performances and concerts by live artists and had a global audience of over 5,000 at its December 31, 2008 event. Future events will be netcasted and/or broadcasted to further monetize these projects.

An off-shoot of MASTERBEAT'S event marketing, www.posterprintshop.com was conceived to reduce overhead for company dance events by printing all signage and printed materials in-house. However, the site appealed to outside consumers desirous of quick turnaround times, a simple user interface and experience, and a courteous and responsive customer service department.

In order to reduce ticket fees and surcharges for its events, MASTERBEAT created www.circuitticket.com, a full service ticketing site capable of sequencing, tracking, printing, and delivering high quality ticket stubs for a wide array of events, parties, festivals, concerts and other gatherings.

Both printshop.com and circuitticket.com are available to and utilized by third parties.

MARKET FOR PRODUCTS

In the past, the recorded music market has consisted of albums and single tracks recordings distributed in traditional formats and sold in record stores. The early 21st century ushered in licensed digital distribution services that provide electronic files for use on computers, mp3 players, and cell phones. Global spending on recorded music is estimated to be approximately \$30 Billion

annually. Consumer demand for music is higher than ever. Total music consumption in the US rose by one third between 2003 and 2007 and Nielsen Soundscan reported

Edgar Filing: GREEN MOUNTAIN RECOVERY, INC. - Form 8-K

overall sales at an all-time high in the US in 2008. Single track downloads (Masterbeat.com's specialty) were up 24 percent in 2008 to 1.4 billion units globally and continue to drive the online market.

Masterbeat.com has formed partnerships across the music industry to drive traffic to the site from various sources. Alliances with local, national, internet and satellite radio stations allow us to post weekly 'charts' and playlists of top hits along with offerings from popular DJ's. These partners drive traffic to the site as customers seek to purchase the latest and most popular tracks. Goom Radio has expressed its intention to choose Masterbeat.com to be its fulfillment partner in 2010 and this affiliation should drive additional traffic to the Company's site for music purchase.

Masterbeat.com has also joined with LinkShare, the world's largest affiliate program, to drive traffic to the site with banner and text links. A commission is paid to affiliates who refer new and paying customers to the site. Masterbeat.com also developed its own affiliate network and revenue sharing platform as a competitive alternative to LinkShare.

Growth in digital distribution and mobile music will drive spending in the recorded music market, offsetting further declines in spending on physical formats. Digital distribution will be driven by rising broadband subscribership, the launch of new services, content availability and attractive pricing. Physical formats will face growing competition from licensed digital distribution.

Digital distribution is enabling the possibility that virtually any track could become available as a single available for licensed download where only a fraction of songs are available as a single in physical format. As a result, the digital market enjoys a competitive advantage over the physical market because it provides greater access to songs and serves that market more efficiently. Moreover, digital's price point is far more attractive than the price point for physical delivery and still leaves room for price increases on digital product while maintaining a substantial advantage compared with prices for physical product.

DOWNLOAD MANAGER

Masterbeat.com's new cross-platform (Windows & Mac) "download manager" allows one click downloads of all customer purchases on Masterbeat.com to a location of the user's choice, and automatic adding to iTunes or Windows Media Player libraries.

CUSTOMIZABLE PLAYER

A fully customizable player widget can be embedded on any web site including MySpace, Facebook and the various other social networking sites. The player can be easily rebranded, features a moving ticker and rotating advertising panels (all customizable by partner). The widget can feature from 10 - 100 tracks with preview ability. The player can be further customized and shared by users, spreading across the web virally. The widget can also be linked to any Masterbeat.com affiliate account to earn revenue for the partner and our site.

CUSTOMERS

The market for customers of Masterbeat.com can be divided into four primary segments:

EXISTING CUSTOMER BASE: Masterbeat.com currently benefits from an established base of over 100,000 customers. This existing base of customers has grown since

Edgar Filing: GREEN MOUNTAIN RECOVERY, INC. - Form 8-K

the start of MASTERBEAT in 1996 and consists of people who have purchased MASTERBEAT CD's and attended MASTERBEAT events. Masterbeat.com has a comprehensive mailing and email database of these customers and is able to market to them directly, with permission.

FITNESS PROFESSIONALS: Another important segment for dance music, and thus Masterbeat.com, is the fitness professional. Fitness professionals include spinning instructors, personal trainers, health clubs, etc. Fitness professionals have proven to be a loyal customer of the traditional MASTERBEAT CD series.

DANCE ENTHUSIASTS: This is the largest segment of potential customers for Masterbeat.com. This segment consists of general consumers, from all walks of life, all around the globe, that enjoy the dance genre as one of their primary music listening choices. Just like "Pop", "Rap", and "Top 40"; the "Dance" genre enjoys a large dedicated fan base that listens to dance radio stations and purchases dance-oriented music on a regular basis.

MAINSTREAM MUSIC CONSUMER: This segment consists of the millions of general music consumers around the world that purchase all formats and genres of music. We expect to receive a fair percentage of customers from this segment as we become the leader in the dance music niche.

COMPETITION

There is very strong competition in the music industry for the consumer dollar. Consumers have varied tastes and interests in music, usually preferring only one or two genres of music and favoring a certain medium and channel to obtain their music. The Internet is dramatically changing the way the general consumer purchases their music, as more and more look online. Brand recognition, ease of use and accessibility are key to earning the consumer's business and keeping it. Like many industries, it is possible for niche players to thrive in an industry dominated by a few key companies. While sites such as iTunes may continue to dominate the market for the general music consumer, a specialty site such as Masterbeat.com can thrive and be extremely profitable catering to a special audience and providing exclusive tracks and services not available elsewhere.

THE FOLLOWING ARE THE COMPANY'S PRESENT MAJOR COMPETITORS

THE ITUNES MUSIC STORE is a US-based online digital media store operated by Apple Inc. Opening on April 28, 2003, it is now is the number-one music vendor in the United States and has sold several billion downloads since its inception.

AMAZON MP3 is a digital music store owned and operated by amazon.com. At launch, Amazon offered "over 2 million songs from more than 180,000 artists and over 20,000 labels, including EMI Music and Universal Music Group", to customers located in the United States only. In December 2007 Warner Music Group announced

that it would offer its catalogue on Amazon MP3 and in January 2008, SONY BMG followed suit. The current catalogue is 9.6 million songs.

NAPSTER, INC. is an online music store offering a variety of purchase and subscription models. The service currently has a music catalogue of over 8,000,000 songs, making it one of the largest online music stores.

RHAPSODY an online music store run by RealNetworks and available in the US only. Launched in December 2001, Rhapsody was the first music service to offer streaming on-demand access to a large library of digital music. Rhapsody boasts a catalogue of 5,000,000 songs.

Edgar Filing: GREEN MOUNTAIN RECOVERY, INC. - Form 8-K

7DIGITAL a privately-held digital media delivery company based in the United Kingdom, offering downloadable music, video and movies to customers primarily within major European markets.

BEATPORT a US-based online music store located in Denver, Colorado that specializes in electronic, dance and remixed music. Similar to Masterbeat, Beatport offers new releases, classic and exclusive tracks, all of which are categorized by genre, such as house, trance, and techno music. Beatport does not sell content from any of the major record labels.

EMPLOYEES

As of December 29, 2009 we had a total of three full time employees.

REPORTS TO SECURITY HOLDERS

We are required to file reports with the SEC under section 13(a) of the Securities Act. The reports are being filed electronically. You may read copies of any materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Room 1580, Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that will contain copies of the reports we file electronically. The address for the SEC Internet site is <http://www.sec.gov>.

RISK FACTORS

AN INVESTMENT IN OUR COMMON STOCK IS SPECULATIVE AND INVOLVES A HIGH DEGREE OF RISK. YOU SHOULD CAREFULLY CONSIDER THE FOLLOWING RISK FACTORS IN EVALUATING OUR BUSINESS BEFORE PURCHASING ANY OF OUR SHARES OF COMMON STOCK. NO PURCHASE OF OUR COMMON STOCK SHOULD BE MADE BY ANY PERSON WHO IS NOT IN A POSITION TO LOSE THE ENTIRE AMOUNT OF HIS INVESTMENT. THE ORDER OF THE FOLLOWING RISK FACTORS IS PRESENTED ARBITRARILY. YOU SHOULD NOT CONCLUDE THE SIGNIFICANCE OF A RISK FACTOR BECAUSE OF THE ORDER OF PRESENTATION. OUR BUSINESS AND OPERATIONS COULD BE SERIOUSLY HARMED AS A RESULT OF THESE RISKS.

6

WE HAVE A LIMITED OPERATING HISTORY, WHICH LIMITS THE INFORMATION AVAILABLE TO YOU TO EVALUATE OUR BUSINESS.

There is a limited operating and financial information to evaluate historical performance and the Company's future prospects. Following the closing of the Merger, we face the risks and difficulties of an early-stage company including the uncertainties of market acceptance, competition, cost increases and delays in achieving business objectives. There can be no assurance that the Company will succeed in addressing any or all of these risks or that it will achieve future profitability and the failure to do so would have a material adverse effect on the Company's business, financial condition and operating results.

A GENERAL ECONOMIC DOWNTURN COULD RESULT IN CUSTOMERS NOT PURCHASING OUR SERVICES.

Any decline in the general economy or concern about an imminent decline could delay decisions by prospective customers to make initial evaluations of, or investments, in the Company and its products. Any reduction of or delays in expenditures could harm our business.

BECAUSE MASTERBEAT BECAME PUBLIC BY MEANS OF A "REVERSE MERGER" TRANSACTION, THE COMPANY MAY NOT BE ABLE TO ATTRACT THE ATTENTION OF MAJOR BROKERAGE FIRMS.

There may be risks associated with MASTERBEAT'S becoming public through a

Edgar Filing: GREEN MOUNTAIN RECOVERY, INC. - Form 8-K

reverse merger transaction. Specifically, securities analysts of major brokerage firms may not provide coverage of the Company since there is no incentive to brokerage firms to recommend the purchase of the Company's common stock. No assurance can be given that brokerage firms will, in the future, want to conduct any secondary offerings on behalf of the Company.

WE HAVE A LARGE NUMBER OF AUTHORIZED BUT UNISSUED COMMON STOCK.

Our Articles of Incorporation authorize the issuance of 80,000,000 shares of common stock and 20,000,000 shares of preferred stock. We presently have 10,000,000 shares of common stock issued and outstanding. Our Board of Directors has the power to issue any or all of such additional shares without stockholder approval. We may issue shares for the purpose of raising additional capital. Potential investors should be aware that any such stock issuance may result in a reduction of the book value or market price of our common stock of the then outstanding shares. Furthermore, if we issue additional shares, such issuance will reduce the proportionate ownership and voting power of the other stockholders, and any new issuance of shares may result in a change of our control.

RESALE OF OUR SHARES MAY BE DIFFICULT BECAUSE THERE IS A LIMITED MARKET FOR OUR SHARES. THIS MAY REDUCE OR LIMIT THE POTENTIAL VALUE OF OUR SHARES.

There is presently a limited public market for our shares of common stock, and no assurance that such a public market will continue in the future; that it will be maintained or that it will be sufficiently active or liquid to allow stockholders to easily dispose of their shares. The existence of a public market with little or no activity or liquidity is likely to reduce or limit the potential value of our shares.

7

COMPETITION MAY ADVERSELY IMPACT OUR FINANCIAL RESULTS.

The Company faces significant competition from companies such as Apple, Amazon.com Napster.com, and Rhapsody.com which offer substantially similar products and services which are better capitalized and have greater name recognition. We expect our competitors will continue to leverage significant financial resources to facilitate further growth.

TECHNOLOGY AND SERVICE LIMITATIONS MAY IMPACT REVENUES.

While the Company employs leading edge technology and is committed to the continual development and deployment of new and improved technology, the inability to respond quickly, to meet changing consumer demands or expand our user base could result in significant reduction in our business operation.

CONTROL BY MANAGEMENT.

Management currently owns a majority of the Company's issued and outstanding shares of common stock. The Company's Management will continue to be in a position to elect all or a majority of the Company's directors, appoint its officers, and control the Company's affairs and operations.

DEPENDENCE ON MANAGEMENT.

The Company's future success will be significantly dependent on the Company's management team. The Company's success will be particularly dependent upon Brett Henrichsen the Company's principal executive officer. The loss of this individual could have a material adverse effect on the Company. The Company does not presently have key man life insurance for Mr. Henrichsen and his loss would likely have an adverse effect on our business. The Company will attempt to

Edgar Filing: GREEN MOUNTAIN RECOVERY, INC. - Form 8-K

obtain key man insurance for Mr. Hernrichsen but there is no guarantee that we will be able to obtain same or if we can obtain same that it will be at favorable rates.

NO DIVIDENDS.

The Company has not paid any dividends to date. For the foreseeable future it is anticipated that earnings generated from operations of the Company will be used to finance the growth of the Company. Therefore, it is not expected that cash dividends will be paid to stockholders in the near future.

PENNY STOCK RULES: POSSIBLE INABILITY TO SELL IN THE SECONDARY MARKET.

Rule 3a51-1 of the Exchange Act defines a "penny stock" as an equity security that is not, among other things: a) a reported security (i.e., listed on certain national securities exchanges); b) a security registered or approved for registration and traded on a national securities exchange that meets certain guidelines, where the trade is effected through the facilities of that national exchange; c) a security listed on NASDAQ; d) a security of an issuer that meets certain minimum financial requirements, i.e., "net tangible assets" in excess of \$2,000,000 (if the issuer has been continuously operating for less than three years) or \$5,000,000 (if the issuer has been continuously operating for more than three years), or "average revenue" of at least \$6,000,000 for the last three years); or e) a security with a price of at least \$5.00 per share for the

8

transaction in question or that has a bid quotation (as defined in the Rule) of at least \$5.00 per share. Under Rule 3a51-1, if the Company's Common Stock sells below \$5.00 per share, the Company's Common Stock will fall within the definition of "penny stock."

If the Company's Common Stock is deemed to be a penny stock, trading therein will be subject to the requirements of Rule 15c-9 and Section 15(g) under the Exchange Act. Rule 15c-9 imposes additional sales practice requirements on broker-dealers who sell non-exempt securities to persons other than established customers. For transactions covered by the rule, the broker-dealer must make a special suitability determination for the purchaser and receive the purchaser's written agreement to the transaction prior to the sale. Pursuant to Section 15(g) and related Rules, brokers and/or dealers, prior to effecting a transaction in penny stock, will be required to provide investors with written disclosure documents containing information concerning various aspects involved in the market for penny stocks as well as specific information about the penny stock and the transaction involving the purchase and sale of that stock, e.g., price quotes and broker-dealer and associated person compensation. Subsequent to the transaction, the broker will be required to deliver monthly or quarterly statements containing specific information about the penny stock. The foregoing requirements will most likely negatively affect the ability of purchasers herein to sell their shares in the secondary market.

POTENTIAL FUTURE SALES UNDER RULE 144 MAY DEPRESS THE MARKET PRICE FOR THE COMMON STOCK.

In general, under Rule 144, a person who has satisfied a six month holding period may sell within any three-month period a number of shares which does not exceed one percent of the then outstanding shares of common stock. Rule 144 also permits the sale of shares without any quantity limitation by a person who is not considered to be our affiliate and who has beneficially owned the shares for a minimum period of one year. Therefore, the possible sale of our currently outstanding shares pursuant to Rule 144 may, in the future, have a depressive effect on the price of our common stock in the over-the counter market.

COMPANY OVERVIEW & PLAN OF OPERATIONS

Green Mountain Recovery, Inc. was incorporated under the laws of the State of Delaware on May 17, 1999. Up until the entry into the Exchange Agreement discussed in Item 1.01, the Registrant's business consisted of acquiring, managing and collecting portfolios of consumer receivables.
