

TALON INTERNATIONAL, INC.  
Form 10-Q  
November 13, 2009

---

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

---

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the quarterly period ended September 30, 2009.

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

Commission file number 1-13669

**TALON INTERNATIONAL, INC.**  
(Exact Name of Issuer as Specified in its Charter)

**Delaware**  
(State or Other Jurisdiction of  
Incorporation or Organization)

**95-4654481**  
(I.R.S. Employer  
Identification No.)

**21900 Burbank Boulevard, Suite 270**  
**Woodland Hills, California 91367**  
(Address of Principal Executive Offices)

**(818) 444-4100**  
(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (ss.232.405 of this chapter) during the preceding 12 months (or such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes  No

At November 13, 2009 the issuer had 20,291,433 shares of Common Stock, \$.001 par value, issued and outstanding.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements**  
**(Unaudited)**

**Note 1. Presentation of Interim Information**

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The accompanying unaudited consolidated financial statements reflect all adjustments that, in the opinion of the management of Talon International, Inc. and its consolidated subsidiaries (collectively, the "Company"), are considered necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented. The results of operations for such periods are not necessarily indicative of the results expected for the full fiscal year or for any future period. The accompanying financial statements should be read in conjunction with the audited consolidated financial statements of the Company included in the Company's Form 10-K for the year ended December 31, 2008. The balance sheet as of December 31, 2008 has been derived from the audited financial statements as of that date but omits certain information and footnotes required for complete financial statements.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has experienced substantial recurring losses from operations and has an accumulated deficit of \$65.4 million as of September 30, 2009. These matters, among others, raise substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to generate sufficient cash flow to meet its obligations on a timely basis, to obtain additional financing as may be required, and ultimately to attain profitable operations. See Note 3 "Significant Risks and Uncertainties".

**Note 2. Summary of Significant Accounting Policies**

A complete description of the Company's Significant Accounting Policies is included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, and should be read in conjunction with these unaudited consolidated financial statements. The Significant Accounting Policies noted below are only those policies that have changed materially or have supplemental information included for the periods presented here.

*Allowance for Accounts and Notes Receivable Doubtful Accounts*

The Company is required to make judgments as to the collectability of accounts and notes receivable based on established aging policy, historical experience and future expectations. The allowances for doubtful accounts represent allowances for customer trade accounts and notes receivable that are estimated to be partially or entirely uncollectible. These allowances are used to reduce gross trade receivables or note receivable to their net realizable value. The Company records these allowances based on estimates related to the following factors: (i) customer specific allowances; (ii) amounts based upon an aging schedule; and (iii) an estimated amount, based on our historical experience, for issues not yet identified. Bad debt expense for the three and nine months ended September 30, 2009 was \$38,717 and \$116,090 respectively. Bad debt expense for the three and nine months ended September 30, 2008 was \$32,857 and \$27,531, respectively.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

*Fair Value Measurements*

The Company has adopted Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) No 820-10, “*Fair Value Measurements and Disclosures*” (“ASC 820-10”) which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. ASC 820-10 does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. As of September 30, 2009, the Company held certain assets and liabilities that are required to be measured at fair value on a recurring basis. The fair value of these assets and liabilities was determined using observable criteria and at September 30, 2009 was equal to their stated values, except the Related Party Note Receivable of \$200,000 and the Assets Held for Sale of \$349,767, both of which used unobservable criteria to determine their value. There were no material adjustments to the fair value of these assets for the three or nine months ended September 30, 2009.

*Intangible Assets*

Intangible assets consist of our trade name and exclusive license and intellectual property rights. Intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but instead are tested for impairment at least annually in accordance with the provisions of FASB ASC 350, “*Intangibles — Goodwill and Other*”. Intangible assets with estimable useful lives are amortized over their respective estimated useful lives, which average 5 years, and reviewed for impairment in accordance with the provisions of ASC 360, “*Property, Plant and Equipment*”. The exclusive license and intellectual property rights are fully amortized.

*Classification of Expenses*

*Costs of Goods Sold* – Cost of goods sold primarily includes expenses related to inventory purchases, customs, duty, freight, overhead expenses and reserves for obsolete inventory. Overhead expenses primarily consist of warehouse and operations salaries, and other warehouse expense.

*Selling Expenses* – Selling expenses primarily include sales salaries and commissions, travel and entertainment, marketing and other sales related costs. Marketing and advertising efforts are expensed as incurred and for the three and nine months ended September 30, 2009 were \$13,539 and \$42,734, respectively, compared to \$42,750 and \$95,450 for the three and nine months ended September 30, 2008, respectively.

*General and Administrative Expenses* – General and administrative expenses primarily include administrative salaries, employee benefits, professional service fees, facility expenses, information technology costs, investor relations, travel and entertainment, depreciation and amortization, bad debts and other general corporate expenses.

*Interest Expense, net* – Interest expense reflects the cost of borrowing and amortization of deferred financing costs and discounts. Interest expense for the three and nine months ended September 30, 2009 totaled \$683,511 and \$1,982,555, respectively. For the three and nine months ended September 30, 2008, interest expense was \$641,232 and \$1,866,796, respectively. Interest income consists of earnings from outstanding amounts due to the Company under notes and other interest bearing receivables. The Company recorded interest income of \$10 and \$1,016 respectively, for the three and nine months ended September 30, 2009, as compared to \$16,516 and \$49,436 for the same periods in 2008.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

*Foreign Currency Translation*

The Company has operations and holds assets in various foreign countries. The local currency is the functional currency for the Company subsidiaries in China and India. Assets and liabilities are translated at end-of-period exchange rates while revenues and expenses are translated at the average exchange rates in effect during the period. Equity is translated at historical rates and the resulting cumulative translation adjustments are included as a component of accumulated other comprehensive income until the translation adjustments are realized. Included in other accumulated comprehensive income were a cumulative foreign currency translation adjustment gain of \$81,583 and \$99,737 at September 30, 2009 and December 31, 2008, respectively.

*Comprehensive loss*

Comprehensive loss consists of net loss and unrealized gains on foreign currency translation adjustments. Comprehensive loss and its components for the three and nine months ended September 30, 2009 and 2008 is as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Net loss	\$ (647,156)	\$ (2,440,155)	\$ (1,750,829)	\$ (3,680,742)
Other comprehensive income -				
Foreign currency translation	14,079	196	18,154	113,223
Total comprehensive loss	\$ (633,077)	\$ (2,439,959)	\$ (1,732,675)	\$ (3,567,519)

The foreign currency translation adjustment represents the net currency translation adjustment gains and losses related to our China and India subsidiaries, which have not been reflected in net loss for the periods presented.

*Reclassifications*

Certain reclassifications have been made to prior period financial statements to conform to the current year presentation.

**Note 3. Significant Risks and Uncertainties**

The Company's consolidated financial statements have been prepared on a going concern basis of accounting which contemplates the continuity of operations and the realization of assets, liabilities and commitments in the normal course of business. During the first nine months of fiscal year 2009 and fiscal year 2008, the Company experienced losses from operations and has an accumulated deficit as of September 30, 2009 of \$65,401,861. As of December 31, 2008, the Company failed to meet the minimum EBITDA requirements in the Revolving Credit and Term Loan Agreement with CVC California, LLC ("CVC") and was required to pay a fee to waive these requirements at December 31, 2008. Additionally, the Company did not meet the minimum EBITDA covenants at March 31, 2009, and paid a waiver fee to the lender for this period. The Company was not in default of the covenants at September 30, 2009; however it is uncertain whether the Company will be in compliance with the financial covenants in future quarters.

Our consolidated financial statements do not reflect any adjustments relating to the recoverability and classification of recorded asset amounts or classification of liabilities that would be required if a default occurred and the Company was unable to obtain a waiver or modify the covenants. Should the Company fail to be in compliance with these covenants for three successive quarters and is unable to obtain a waiver or amend these covenants, the Company may be unable to continue as a going concern.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

The Company's performance is subject to worldwide economic conditions and their impact on levels of consumer spending that affect not only the ultimate consumer, but also retailers, which constitute many of its largest customers. Consumer spending has deteriorated significantly over the last year and may remain depressed, or be subject to further deterioration for the foreseeable future. The worldwide apparel industry is heavily influenced by general economic cycles. Purchases of fashion apparel and accessories tend to decline in periods of recession or uncertainty regarding future economic prospects, as disposable income declines. Many factors affect the level of consumer spending in the apparel industries, including, among others: prevailing economic conditions, levels of employment, salaries and wage rates, energy costs, interest rates, the availability of consumer credit, taxation and consumer confidence in future economic conditions. During periods of recession or economic uncertainty, the Company may not be able to maintain or increase the sales to existing customers, make sales to new customers or maintain our earnings from operations as a percentage of net sales. As a result, the operating results may be adversely and materially affected by sustained or further downward trends in the United States or global economy. The Company's ability to continue as a going concern is dependent on its ability to generate sufficient cash flow to meet its obligations on a timely basis, to obtain additional financing as may be required and ultimately to attain profitable operations.

In response to these conditions, the Company has taken steps to significantly reduce its operating costs, eliminate employees in response to lower volumes, and curtail capital and discretionary spending to better align the Company's organizational and cost structures with future Company and industry expectations and uncertainties and insure the Company will have sufficient cash flow to cover its operating needs. The Company has also implemented programs to increase sales incentives, to secure preferred supplier status with customers and to accelerate cash collections from customers. There can be no assurance, however, that the Company will be successful in these matters or that these steps will be sufficient to ensure the Company can continue as a going concern.

**Note 4. New Accounting Pronouncements**

In June 2009, the Financial FASB issued ASC 105-10, "*Generally Accepted Accounting Principles*" ("ASC 105-10"). Effective for the Company's financial statements issued for interim and annual periods commencing with the quarterly period ended September 30, 2009, the FASB Accounting Standards Codification ("Codification" or "ASC") is the source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Codification supersedes all then-existing, non-SEC accounting and reporting standards. In the FASB's view, the Codification does not change GAAP, and therefore the adoption of ASC 105-10, *Generally Accepted Accounting Principles*, did not have an effect on the Company's consolidated financial position, results of operations or cash flows. However, where the Company has referred to specific authoritative accounting literature, the Codification is disclosed.

In April 2009, the FASB issued ASC 820-10, "*Fair Value Measurements and Disclosures*" (Topic 820). ASC 820-10 provides guidance on how to determine the fair value of assets and liabilities when the volume and level of activity for the asset/liability has significantly decreased. ASC 820-10 also provides guidance on identifying circumstances that indicate a transaction is not orderly. In addition, ASC 820-10 requires disclosure in interim and annual periods of the inputs and valuation techniques used to measure fair value and a discussion of changes in valuation techniques. ASC 820-10 was effective beginning in the second quarter of fiscal year 2009. The adoption of ASC 820-10 did not have a material impact on the consolidated financial statements.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

In April 2009, the FASB issued ASC 320-10, “*Investments — Debt and Equity Securities*” (“ASC 320-10”). ASC 320-10 amends the requirements for the recognition and measurement of other-than-temporary impairments for debt securities by modifying the pre-existing “intent and ability” indicator. Under ASC 320-10, other-than-temporary impairment is triggered when there is an intent to sell the security, it is more likely than not that the security will be required to be sold before recovery, or the security is not expected to recover the entire amortized cost basis of the security. Additionally, ASC 320-10 changes the presentation of other-than-temporary impairment in the income statement for those impairments involving credit losses. The credit loss component will be recognized in earnings and the remainder of the impairment will be recorded in other comprehensive income. ASC 320-10 was effective beginning in the second quarter of fiscal year 2009. The implementation of ASC 320-10 did not have a material impact on the consolidated financial statements.

In April 2009, the FASB issued ASC 825-10, “*Financial Instruments*” (“ASC 825-10”). ASC 825-10 requires interim disclosures regarding the fair values of financial instruments. Additionally, ASC 825-10 requires disclosure of the methods and significant assumptions used to estimate the fair value of financial instruments on an interim basis as well as changes of the methods and significant assumptions from prior periods. ASC 825-10 does not change the accounting treatment for these financial instruments and did not have a material impact on the consolidated financial statements.

In April 2009, the FASB issued ASC 805, “*Business Combinations*” (“ASC 805”). ASC 805 amends the original guidance relating to the initial recognition and measurement, subsequent measurement and accounting and disclosures of assets and liabilities arising from contingencies in a business combination which were adopted by the Company as of the beginning of fiscal 2009 and it did not have a material impact on the consolidated financial statements. The Company will apply the requirements of ASC 805 prospectively to any future acquisitions.

In May 2009, the FASB issued ASC 855-10, “*Subsequent Events*” (“ASC 855-10”). ASC 855-10 provides general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. ASC 855-10 was adopted by the Company in the second quarter of 2009 and did not have a material impact on the consolidated financial statements. The implementation of ASC 855-10 did not have a material impact on the consolidated financial statements. See Note 16 for the disclosures regarding ASC 855-10.

In June 2009, the FASB issued ASC 860, “*Transfers and Servicing*” (“ASC 860”). ASC 860 seeks to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows and a transferor’s continuing involvement, if any, in transferred financial assets. ASC 860 is applicable for annual periods beginning after November 15, 2009. The implementation of ASC 860 is not expected to have a material impact on the consolidated financial statements.

In June 2009, the FASB issued accounting guidance contained within ASC 810, “*Consolidations*”, which pertains to the consolidation of variable interest entities “Amendments to FASB Interpretation No. 46R”, (“ASC 810”). This guidance within ASC 810 requires an analysis to be performed to determine whether a variable interest gives the entity a controlling financial interest in a variable interest entity. This standard requires an ongoing reassessment and eliminates the quantitative approach previously required for determining whether an entity is the primary beneficiary. This standard is effective for fiscal years beginning after November 15, 2009. The implementation of ASC 810 is not expected to have an impact on the consolidated financial statements.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

In August 2009, the FASB issued ASC 820-10-35, "*Fair Value Measurements and Disclosures*" ("ASC 820-10-35"), which provides amendments to Topic 820. ASC 820-10-35 provides additional guidance clarifying the measurement of liabilities at fair value. ASC 820-10-35 is effective in the fourth quarter 2009 for a calendar year entity. ASC 820-10-35 is not expected to have a material impact on the consolidated financial statements.

**Note 5. Net Loss Per Share**

The following is a reconciliation of the numerators and denominators of the basic and diluted loss per share computations:

<u>Three months ended September 30, 2009:</u>	<b>Net Loss</b>	<b>Shares</b>	<b>Per Share</b>
Basic net loss per share:			
Applicable to common stockholders	\$ (647,156)	20,291,433	\$ (0.03)
Effect of Dilutive Securities:			
Options	—	—	—
Warrants	—	—	—
Net loss to common stockholders	\$ (647,156)	20,291,433	\$ (0.03)
<b><u>Three months ended September 30, 2008:</u></b>			
Basic net loss per share:			
Applicable to common stockholders	\$ (2,440,155)	20,291,433	(0.12)
Effect of Dilutive Securities:			
Options	—	—	—
Warrants	—	—	—
Net loss to common stockholders	\$ (2,440,155)	20,291,433	\$ (0.12)
<b><u>Nine months ended September 30, 2009:</u></b>			
Basic net loss per share:			
Applicable to common stockholders	\$ (1,750,829)	20,291,433	\$ (0.09)
Effect of Dilutive Securities:			
Options	—	—	—
Warrants	—	—	—
Net loss to common stockholders	\$ (1,750,829)	20,291,433	\$ (0.09)
<b><u>Nine months ended September 30, 2008:</u></b>			
Basic net loss per share:			
Applicable to common stockholders	\$ (3,680,742)	20,291,433	\$ (0.18)
Effect of Dilutive Securities:			
Options	—	—	—
Warrants	—	—	—
Net loss to common stockholders	\$ (3,680,742)	20,291,433	\$ (0.18)

Warrants to purchase 318,495 shares of common stock exercisable at \$3.65 per share and options to purchase 6,841,330 shares of common stock exercisable between \$0.09 and \$5.23 per share, were outstanding for the three and nine months ended September 30, 2009, but were not included in the computation of diluted net loss per share because exercise or conversion would have an antidilutive effect on the net loss per share.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

Warrants to purchase 891,313 shares of common stock exercisable between \$3.65 and \$4.74 and options to purchase 7,327,233 shares of common stock exercisable between \$0.18 and \$5.23, were outstanding for the three and nine months ended September 30, 2008, but were not included in the computation of diluted net loss per share because the effect of exercise or conversion would have an antidilutive effect on net loss per share.

**Note 6. Marketable Securities**

On January 30, 2008, the Company accepted 2,000,000 shares of unrestricted common stock in a public corporation with a value of \$1,040,000 in exchange for the cancellation of a note receivable from Azteca Production International, Inc. (“Azteca”), a former distributor of Talon products. In the third quarter of 2008 the Company determined that these shares had been permanently impaired and recognized a valuation reserve for the full value of the investment of \$1,040,000 for the three and nine months ended September 30, 2008, respectively.

**Note 7. Accounts Receivable**

Accounts receivable are included on the accompanying consolidated balance sheets net of an allowance for doubtful accounts. The total allowance for doubtful accounts at September 30, 2009 and December 31, 2008 was \$227,400 and \$217,300, respectively.

**Note 8. Inventories**

Inventories are stated at the lower of cost, determined using the first-in, first-out (“FIFO”) basis, or market value and are all categorized as finished goods. The costs of inventory include the purchase price, inbound freight and duties, conversion costs and certain allocated production overhead costs. Inventory valuation reserves are recorded for damaged, obsolete, excess and slow-moving inventory. The Company uses estimates to record these reserves. Slow-moving inventory is reviewed by category and may be partially or fully reserved for depending on the type of product and the length of time the product has been included in inventory. Reserve adjustments are made for the difference between the cost of the inventory and the estimated market value, if lower, and charged to operations in the period in which the facts that give rise to these adjustments become known. Market value of inventory is estimated based on the impact of market trends, an evaluation of economic conditions and the value of current orders relating to the future sales of this type of inventory.

Inventories consist of the following:

	September 30, 2009	December 31, 2008
Finished goods	\$ 2,793,238	\$ 2,880,319
Less reserves	(1,159,343)	(1,211,170)
Total inventories	\$ 1,633,895	\$ 1,669,149

**Note 9. Equipment Held for Sale**

The Company has machinery and equipment formerly used for the production of zipper chain and the assembly of finished zippers. This equipment was originally associated with the production and assembly facilities in North Carolina and in Mexico and was temporarily rendered idle with the closing of those operations in 2005. The Company relocated this equipment to Asia in 2008 to more effectively redeploy or sell the equipment. The Company has analyzed the cash flow of the potential sales value of the equipment and determined that it is likely that a sale of this equipment will not recover its original carrying value. As a result, at December 31, 2008 the Company recorded an impairment charge of \$2,026,000 for the difference between the estimated sales value of the equipment and the previous carrying value. The adjusted carrying value of the equipment at September 30, 2009 is \$349,767.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

The Company also determined that certain components of its Tekfit equipment, which is used in the manufacture of the Tekfit proprietary stretch waistband, will not be redeployed as a consequence of lower demand for this product and the affect of the current economic crisis on the apparel industry. As a result at December 31, 2008 the Company recorded an impairment charge of \$403,500 for the equipment which will not be utilized in foreseeable operations. The adjusted carrying value of the equipment at December 31, 2008 was \$58,000.

**Note 10. Debt Facility**

On June 27, 2007, the Company entered into a Revolving Credit and Term Loan Agreement with Bluefin Capital, LLC that provides for a \$5.0 million revolving credit loan and a \$9.5 million term loan for a three year period ending June 30, 2010. Bluefin Capital subsequently assigned its rights and obligations under the credit facility agreements to an affiliate, CVC California, LLC (“CVC”). The revolving credit portion of the facility permitted borrowings based upon a formula including 75% of the Company’s eligible receivables and 55% of eligible inventory, and provided for monthly interest payments at the prime rate (5.25% at September 30, 2009) plus 2.0%. The term loan bears interest at 8.5% annually with quarterly interest payments and repayment in full at maturity. Borrowings under both credit facilities are secured by all of the assets of the Company.

In connection with the Revolving Credit and Term Loan Agreement, the Company issued 1,500,000 shares of common stock to the lender for \$0.001 per share, and issued warrants to purchase 2,100,000 shares of common stock. The warrants were exercisable over a five-year period and initially 700,000 warrants were exercisable at \$0.95 per share; 700,000 warrants were exercisable at \$1.05 per share; and 700,000 warrants were exercisable at \$1.14 per share. The warrants did not require cash settlements. The relative fair value of the equity (\$2,374,169, which includes a reduction for financing costs) issued with this debt facility was allocated to paid-in-capital and reflected as a debt discount to the face value of the term note.

This discount is being amortized over the term of the note and recognized as additional interest cost as amortized. Costs associated with the debt facility included debt fees, commitment fees, registration fees and legal and professional fees of \$486,000. The costs allocable to the debt instruments are reflected as a reduction to the face value of the note on the balance sheet.

On November 19, 2007, the Company entered into an amendment to the credit agreement to modify the original financial covenants and to extend until June 30, 2008 the application of the original EBITDA covenant in exchange for additional common stock of the Company and a price adjustment to the outstanding warrants issued to the lender in connection with the loan agreement. In connection with this amendment the Company issued an additional 250,000 shares of common stock to the lender for \$0.001 per share, and the exercise price for all of the previously issued warrants for the purchase of 2,100,000 shares of common stock was amended to an exercise price of \$0.75 per share. The new relative fair value of the equity issued with this debt of \$2,430,000, including the modifications in this amendment and a reduction for financing costs, is being amortized over the term of the note.

On April 3, 2008, the Company executed a further amendment to the credit agreement. The amendment included a redefining of the EBITDA covenants, and the cancellation of the common stock warrants previously issued to the lender in exchange for the issuance by the Company of an additional note payable to CVC for \$1.0 million. The note bears interest at 8.5% and both the note and accrued interest are payable at maturity on June 30, 2010. In addition, the Company’s borrowing base was modified in this amendment by increasing the allowable portion of inventory held by third party vendors to \$1.0 million with no more than \$500,000 held at any one vendor and increasing the percentage of accounts receivable to be included in the borrowing base to 85%. The Company incurred a one-time modification fee of \$145,000 to secure the amendment. The new relative fair value of the equity issued with this debt of \$2,542,000, including the modifications in this amendment and a reduction for financing costs, is being amortized over the term of the note.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

In connection with the April 2008 amendment the Company evaluated the debt amendment under ASC 470-50, “*Debt -Modifications and Extinguishments*”. It was determined that the debt modification did not constitute a material change as defined by ASC 470-50 and did not qualify for treatment as a troubled debt restructuring. Accordingly, the Company recorded a reduction to equity and an increase to notes payable for the fair value of the warrants of \$260,205 and the difference (\$739,795) between the fair value of the warrants at the time of repurchase and the face value of the note has been recorded as an additional deferred cost and is reflected as a reduction to the face value of the note on the balance sheet. This cost is being amortized using the interest-method over the life of the modified notes and is to be reflected as interest expense.

Under the terms of the credit agreement, as amended, the Company is required to meet certain coverage ratios, among other restrictions, including a restriction from declaring or paying a dividend prior to repayment of all the obligations. The financial covenants, as amended, require that the Company maintain at the end of each fiscal quarter “EBITDA” (as defined in the agreement) in excess of the principal and interest payments for the same period of not less than \$1.00 and in excess of ratios set out in the agreement for each quarter.

The Company failed to satisfy the minimum EBITDA requirement for quarter ended December 31, 2008 as well as the quarter ended March 31, 2009, and in connection with such failures, on March 31, 2009 the Company entered into a further amendment to the agreement with CVC.

This amendment provided for the issuance of an additional term note to CVC in the principal amount of \$225,210 in lieu of paying a cash waiver fee in connection with our failures to satisfy the EBITDA requirements for the quarters ended December 31, 2008 and March 31, 2009; deferral of the term note quarterly interest payment of \$215,000 due April 1, 2009; a temporary increase to the borrowing base formulas and calculations under the revolving credit facility; the re-lending by CVC of \$125,000 under the term loan portion of credit facility; a consent to allow the Company to sell equipment that has been designated as held for sale more fully described in Note 9 to the consolidated financial statements; and the granting to CVC of the right to designate a non-voting observer to attend all meetings of the Company’s Board of Directors.

As of September 30, 2009, the Company had outstanding borrowings of \$10,725,210 under the term notes (discounted carrying value of \$9,485,008), and \$4,988,988 under the revolving credit note.

Interest expense related to the Revolving Credit and Term Loan Agreement for the three and nine months ended September 30, 2009 was \$672,000 and \$1,947,910, respectively, which includes \$372,120 and \$1,071,460, respectively in amortization of discounts and deferred financing costs for the same periods.

Interest expense related to the Revolving Credit and Term Loan Agreement for the three and nine months ended September 30, 2008 was \$609,013 and \$1,759,866, respectively, which includes \$309,473 and \$858,325, respectively in amortization of discounts and deferred financing costs for the same periods.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

**Note 11. Stock-Based Compensation**

The Company accounts for stock-based awards to employees and directors in accordance with FASB ASC 718, “*Compensation — Stock Compensation*” (“ASC 718”), which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors based on estimated fair values. Options issued to consultants are accounted for in accordance with the provisions of FASB ASC 505-50, “*Equity-Based Payments to Non-Employees*”.

On July 14, 2008, at the Company’s annual meeting of stockholders, a new 2008 Stock Plan was approved by the stockholders. The 2008 Stock Plan authorizes up to 2,500,000 shares of common stock for issuance pursuant to awards granted to individuals under the plan. On July 31, 2007, at the Company’s annual meeting of stockholders, the 2007 Stock Plan was approved which replaced the 1997 Stock Plan. The 2007 Stock Plan authorizes up to 2,600,000 shares of common stock for issuance pursuant to awards granted to individuals under the plan. Options granted to certain employees in 2008 include certain vesting acceleration features based on Company performance as determined by the Board of Directors each year. Consistent with ASC 718-10, the stock based compensation expense for the employee options are recognized on a time-phased vesting schedule through the vesting date of December 31, 2010. In calculating the outcome of meeting performance conditions for 2009 and 2008, the Company did not meet performance criteria and accordingly, there was no accelerated vesting for these options. Options granted for the three and nine months ended September 30, 2009 totaled 1,455,000 and 1,935,000, respectively. For the three and nine months ended September 30, 2008, 360,000 and 2,960,000 options were granted, respectively.

As of September 30, 2009, the Company had approximately \$262,000 of unamortized stock-based compensation expense related to options issued to employees and directors, which will be recognized over the weighted average period of 1.6 years. As of September 30, 2008, unamortized stock-based compensation expense related to options issued to employees and directors was approximately \$473,000, which is being recognized over the weighted average period of approximately 6 years.

**TALON INTERNATIONAL, INC.**

Options and warrants outstanding - September 30, 2009	318,495	\$ 3.65

**Note 12. Income taxes**

The Company accrues interest and penalties related to unrecognized tax benefits in interest and penalties expense. For the three and nine months ended September 30, 2009 and 2008, the Company accrued interest and penalties for unrecognized tax benefits of approximately \$4,000 and \$12,000, respectively. At September 30, 2009 and December 31, 2008, the Company had approximately \$73,650 and \$61,800, respectively, accrued in interest and penalties associated with the unrecognized tax liabilities.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

Deferred tax assets were \$62,140 and \$218,000 at September 30, 2009 and December 31, 2008, respectively, related to the Company's foreign operations and were included in other assets. Due to prior operating losses incurred, no benefit for domestic and part of foreign income taxes has been recorded since there is not sufficient evidence to determine that the Company will be able to utilize our net operating loss carryforwards to offset future taxable income. Other tax liabilities were \$13,760 and \$1,450 as of September 30, 2009 and December 31, 2008, respectively, and were included in other accrued expenses.

**Note 13. Commitments and Contingencies**

On October 12, 2005, a shareholder class action complaint was filed in the United States District Court for the Central District of California ("District Court") against the Company, Colin Dyne, Mark Dyne, Ronda Ferguson and August F. Deluca (collectively, the "Individual Defendants" and, together with the Company, "Defendants"). The action is styled *Huberman v. Tag-It Pacific, Inc., et al.*, Case No. CV05-7352 R(Ex). On January 23, 2006, the District Court heard competing motions for appointment of lead plaintiff. The District Court appointed Seth Huberman as the lead plaintiff ("Plaintiff"). On March 13, 2006, Plaintiff filed an amended complaint. Plaintiff's amended complaint alleged that defendants made false and misleading statements about the Company's financial situation and the Company's relationship with certain of the Company's large customers. The action was brought on behalf of all purchasers of the Company's publicly-traded securities during the period from November 13, 2003, to August 12, 2005. The amended complaint purports to state claims under Section 10(b)/Rule 10b-5 and Section 20(a) of the Securities Exchange Act of 1934. On August 21, 2006, Defendants filed their answer to the amended complaint, denying the material allegations of wrongdoing. On February 20, 2007, the District Court denied class certification. On April 2, 2007, the District Court granted Defendants' motion for summary judgment, and on or about April 5, 2007, the Court entered judgment in favor of all Defendants. On or about April 30, 2007, Plaintiff filed a notice of appeal with the United States Court of Appeals for the Ninth Circuit ("Ninth Circuit"), and his opening appellate brief was filed on October 15, 2007. Defendants' brief was filed on November 28, 2007. The Ninth Circuit held oral arguments on October 23, 2008. On January 16, 2009, the Ninth Circuit issued an unpublished memorandum, instructing the District Court to certify a class, reversing the District Court's grant of summary judgment, and remanding for further proceedings consistent with its decision. The District Court thereafter certified a class and adopted a schedule for the case. On July 31, 2009, the parties entered into a stipulation of settlement intended to settle the matter and result in its dismissal with prejudice. The total settlement proceeds of \$5.75 million are to be paid in full by the Company's insurers without any contribution from the Company or individual defendants. On August 24, 2009, the Court granted preliminary approval of the settlement. Notice has been provided to class members and the Court has set a final fairness hearing on the settlement for December 7, 2009. If the settlement is finally approved, the case will be dismissed with prejudice per the terms of the settlement. If the settlement is not approved, the Company will continue to vigorously defend this lawsuit; however, in this case, the outcome of this lawsuit or an estimate of the potential losses, if any, related to the lawsuit cannot be reasonably predicted, and an adverse resolution of the lawsuit could potentially have a material adverse effect on the Company's financial position and results of operations.

On April 16, 2004, the Company filed suit against Pro-Fit Holdings, Limited in the U.S. District Court for the Central District of California – *Tag-It Pacific, Inc. v. Pro-Fit Holdings, Limited*, CV 04-2694 LGB (RCx) — asserting various contractual and tort claims relating to our exclusive license and intellectual property agreement with Pro-Fit, seeking declaratory relief, injunctive relief and damages. It is our position that the agreement with Pro-Fit gives us exclusive rights in certain geographic areas to Pro-Fit's stretch and rigid waistband technology. The Company also filed a second civil action against Pro-Fit and related companies in the California Superior Court which was removed to the United States District Court, Central District of California. In the second quarter of 2008, Pro-Fit and certain related companies were placed into administration in the United Kingdom and filed petitions under Chapter 15 of Title 11 of the United States Code. As a consequence of the chapter 15 filings, all litigation by us against Pro-Fit has been stayed. The Company has incurred significant legal fees in this litigation, and unless the case is settled or resolved, may continue to incur additional legal fees in order to assert its rights and claims against Pro-Fit and any successor to those assets of Pro-Fit that are subject to its exclusive license and intellectual property agreement with Pro-Fit and to defend against any counterclaims.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

The Company currently has pending a number of other claims, suits and complaints that arise in the ordinary course of the Company's business. The Company believes that it has meritorious defenses to these claims and that the claims are either covered by insurance or, after taking into account the insurance in place, would not have a material effect on the Company's consolidated financial position or results of operations if adversely determined against the Company.

In November 2002, the FASB issued Topics of the FASB ASC 460-10, "Guarantees" ("ASC 460-10") and FASB ASC 850-10, "Related Party Disclosures" ("ASC 850-10"). The following is a summary of the Company's agreements that it has determined are within the scope of ASC 460-10 and ASC 850-10:

In accordance with the bylaws of the Company, officers and directors are indemnified for certain events or occurrences arising as a result of the officer or director's serving in such capacity. The term of the indemnification period is for the lifetime of the officer or director. The maximum potential amount of future payments the Company could be required to make under the indemnification provisions of its bylaws is unlimited. However, the Company has a director and officer liability insurance policy that reduces its exposure and enables it to recover a portion of any future amounts paid. As a result of its insurance policy coverage, the Company believes the estimated fair value of the indemnification provisions of its bylaws is minimal and therefore, the Company has not recorded any related liabilities.

The Company enters into indemnification provisions under its agreements with investors and its agreements with other parties in the normal course of business, typically with suppliers, customers and landlords. Under these provisions, the Company generally indemnifies and holds harmless the indemnified party for losses suffered or incurred by the indemnified party as a result of the Company's activities or, in some cases, as a result of the indemnified party's activities under the agreement. These indemnification provisions often include indemnifications relating to representations made by the Company with regard to intellectual property rights. These indemnification provisions generally survive termination of the underlying agreement. The maximum potential amount of future payments the Company could be required to make under these indemnification provisions is unlimited. The Company has not incurred material costs to defend lawsuits or settle claims related to these indemnification agreements. As a result, the Company believes the estimated fair value of these agreements is minimal. Accordingly, the Company has not recorded any related liabilities.

**Note 14. Segment Reporting and Geographic Information**

The Company manufactures and distributes a full range of zipper, trim and waistband items to manufacturers of fashion apparel, specialty retailers and mass merchandisers. Our organization is based on divisions representing the major product lines, and our operating decisions use these divisions to assess performance, allocate resources and make other operating decisions. Within these product lines there is not enough difference between the types of products to justify segmented reporting by product type or to account for these products separately. The net revenues and operating margins for the three primary product groups are as follows:

The Company distributes its products internationally and has reporting requirements based on geographic regions. Revenues are attributed to countries based upon customer delivery locations and the net book value of long-lived assets (consisting of property and equipment, intangible assets and property held for sale) is attributed to countries based on the location of the assets, as follows:

**Note 15. Related Party Notes and Transactions**

Colin Dyne, a director and stockholder of the Company is also a director, officer and significant stockholder in People's Liberation, Inc., the parent company of Versatile Entertainment, Inc. and William Rast Sourcing. During the three and nine months ended September 30, 2009 the Company had sales of approximately \$1,000 to Versatile Entertainment. During the three and nine months ended September 30, 2008 the Company had sales of \$177,400 and \$466,700, respectively, to Versatile Entertainment. Accounts receivable of \$200 and \$18,000 were outstanding from Versatile Entertainment at September 30, 2009 and December 31, 2008, respectively.

During the three and nine months ended September 30, 2009 the Company had sales of \$40,165 and \$163,860, respectively, to William Rast Sourcing. During the three and nine months ended September 30, 2008 the Company had sales of \$156,200 and \$385,000, respectively, to William Rast Sourcing. Accounts receivable of \$9,742 and \$51,000 were outstanding from William Rast Sourcing at September 30, 2009 and December 31, 2008, respectively.

Due from related parties at September 30, 2009 and December 31, 2008 includes unsecured note and accrued interest receivable, net of valuation reserves of \$200,000 due from Colin Dyne. The note bears interest at 7.5% and is due on demand. The amount of principal and accrued interest due from Colin Dyne under this note at September 30, 2009 and December 31, 2008 was \$712,890 and 674,010, respectively. However, the Company has recorded a valuation reserve against this note of \$512,890 and \$474,010 at September 30, 2009 and December 31, 2008, respectively.

In determining the fair value of the Note Receivable, the Company has analyzed the expected recovery of the note amount and collection period through anticipated payments from commissions earned on business opportunities presented to the Company. On November 13, 2009, the Company entered into an agreement to pay a commission to an affiliate of Colin Dyne of 7% of collected revenues associated with the sales for these business opportunities, with 2% of the 7% earned applied to the note receivable balance.

Demand notes payable to related parties includes notes and advances to parties related to or affiliated with Mark Dyne, the Chairman of the Board of Directors of the Company and a significant stockholder. The balance of demand notes payable and interest expense due to Mark Dyne and affiliated parties at September 30, 2009 and December 31, 2008 was \$227,582 and 222,264, respectively.

Notes payable to related party includes a note and associated interest due to Lonnie D. Schnell, the Chief Executive Officer and Chief Financial Officer of the Company. This note issued on August 2009 in partial satisfaction of 2008 annual incentive amounts to which Mr. Schnell was entitled, bears 6% interest annually and the maturity date is the earlier of December 31, 2011 or ten days following Mr. Schnell's employment termination date. The balance of the note payable and accrued interest expense due to Mr. Schnell at September 30, 2009 was \$35,967.

Freedom Apparel, an entity owned by the spouse and a relative of Larry Dyne, an executive officer of the Company, has from time to time purchased products from the Company. For the three and nine months ended September 30, 2009 there were no sales to this entity. For the three and nine months ended September 30, 2008 sales to this entity were \$13,300 and \$62,200, respectively. There were no accounts receivable at September 30, 2009 due from this entity and \$35,000 accounts receivable at December 31, 2008 was due from this entity.

Consulting fees paid to Diversified Investments, a company owned by Mark Dyne, amounted to \$37,500 and \$112,500 for the three and nine months ended September 30, 2009 and 2008, respectively. This consulting arrangement terminates on March 31, 2010. For the three and nine months ended September 30, 2008 consulting fees of \$75,000 and \$225,500, respectively were paid to Colin Dyne, whose consulting agreement terminated November 30, 2008.

**TALON INTERNATIONAL, INC.**  
**Notes to the Consolidated Financial Statements — continued**  
**(Unaudited)**

**Note 16. Subsequent Events**

The Company evaluated subsequent events after the balance sheet date of September 30, 2009 through November 13, 2009, the date these unaudited financial statements were issued.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Forward Looking Statements**

This report and other documents we file with the Securities and Exchange Commission contain forward looking statements that are based on current expectations, estimates, forecasts and projections about us, our future performance, our business or others on our behalf, our beliefs and our management's assumptions. These statements are not guarantees of future performance and involve certain risks, uncertainties, and assumptions that are difficult to predict. We describe our respective risks, uncertainties, and assumptions that could affect the outcome or results of operations below. We have based our forward looking statements on our management's beliefs and assumptions based on information available to our management at the time the statements are made. We caution you that actual outcomes and results may differ materially from what is expressed, implied, or forecast by our forward looking statements. Reference is made in particular to forward looking statements regarding projections or estimates concerning our business, including demand for our products and services, mix of revenue streams, ability to control or reduce operating expenses, anticipated gross margins and operating results, cost savings, product development efforts, general outlook of our business and industry, international businesses, competitive position, adequate liquidity to fund our operations and meet our other cash requirements.

**Overview**

The following management's discussion and analysis is intended to assist the reader in understanding our consolidated financial statements. This management's discussion and analysis is provided as a supplement to, and should be read in conjunction with, our consolidated financial statements and accompanying notes.

Talon International, Inc. designs, sells and distributes apparel zippers, specialty waistbands and various apparel trim products to manufacturers of fashion apparel, specialty retailers and mass merchandisers. We sell and market these products under various branded names including *Talon*® and *Tekfit*®. We operate the business globally under three product groups.

We plan to continue to expand our distribution of *Talon* zippers through a network of Talon distribution and manufacturing locations, distribution relationships and joint ventures. The network of global manufacturing and distribution locations are expected to improve our global footprint and allow us to more effectively serve apparel brands and manufacturers globally.

Our Trim business focus is as an outsourced product development, sourcing and sampling department for the most demanding brands and retailers. We believe that trim design differentiation among brands and retailers has become a critical marketing tool for our customers. By assisting our customers in the development, design and sourcing of trim, we expect to achieve higher margins for our trim products, create long-term relationships with our customers, grow our sales to a particular customer by supplying trim for a larger proportion of their brands and better differentiate our trim sales and services from those of our competitors.

Our Tekfit services provide manufacturers with the patented technology, manufacturing know-how and materials required to produce garments incorporating an expandable waistband. Our efforts to promote this product offering have been limited by a licensing dispute. As described more fully in this report under Contingencies and Guarantees (see Note 13 to consolidated financial statements), we are presently in litigation with Pro-Fit Holdings Limited regarding our exclusively licensed rights to sell or sublicense stretch waistbands manufactured under Pro-Fit's patented technology. Our growth prospects, results of operations and financial position have been materially adversely affected due to our dispute with Pro-Fit not being resolved in a manner favorable to us.

## Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

During 2009, we have experienced a general decrease in sales which reflects the impact of the global recession on the apparel industry and the corresponding lower demand for our Talon zipper and trims products. The apparel industry and our customers are expected to be adversely impacted by this recession for most of 2009, and early 2010, depending upon the global economic trends. The decline in sales in the third quarter of 2009 as compared to the third quarter of 2008 (18.4%) was less than the decline in sales in the second quarter of 2009 as compared to the second quarter of 2008 (26.1%), and that was lower than the decline in sales in the first quarter of 2009 as compared to the first quarter of 2008 (34.7%) which suggests a modest sales improvement in the apparel industry. We expect this trend to continue to improve.

### Results of Operations

The following table sets forth selected statements of operations data shown as a percentage of net sales for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of goods sold	71.7	74.8	71.2	72.7
Gross profit	28.3	25.2	28.8	27.3
Selling expenses	4.1	6.9	5.0	5.9
General and administrative expenses	22.3	19.7	22.1	22.5
Losses on marketable securities	—	8.1	—	2.6
Impairment loss on idle equipment	—	3.9	—	1.3
Interest expense, net and income taxes	8.1	5.7	7.6	4.3
Net loss	(6.2)%	(19.1)%	(5.9)%	(9.3)%

#### Sales

For the three and nine months ended September 30, 2009 and 2008, sales by geographic region based on the location of the customer as a percentage of sales were as follows:

Region	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
United States	8.0%	5.0%	8.1%	6.3%
Hong Kong	38.9%	32.4%	32.4%	30.7%
China	21.8%	29.0%	26.8%	29.2%
India	3.2%	4.8%	3.9%	5.3%
Bangladesh	3.6%	5.2%	5.1%	5.0%
Other	24.5%	23.6%	23.7%	23.5%
	100.0%	100.0%	100.0%	100.0%

Sales for the three months ended September 30, 2009 were \$10.4 million, a decrease of \$2.3 million or 18.4%, from the same period in 2008. The net decrease reflects the continuing impact of the global recession on the apparel industry and the corresponding lower demand for our Talon zipper and trims products.

## Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

Sales for the nine months ended September 30, 2009 were \$29.5 million, a decrease of \$10.3 million or 25.8%, from the same period in 2008. The net decrease in sales is due to the impact of the global recession on the apparel industry and the related lower demand for Talon products.

During the quarter ended June 30, 2009 it was discovered that certain Chinese factories had counterfeited Talon zippers in conjunction with former employees of the Company, and sold these products to existing and potential customers. During the three months ended September 30, 2009 we continued our efforts to eliminate and prosecute all offenders. The full extent of the counterfeiting, its effect on our current business operations and the costs to investigate and eliminate this activity are ongoing and are, as of yet, undeterminable. However based upon evidence available we believe the impact is not significant to our current overall operations. We will aggressively combat these efforts worldwide to protect the Talon brand.

### *Gross Profit*

Gross profit for the three months ended September 30, 2009 was \$3.0 million as compared to \$3.2 million for the same period in 2008. Gross profit for the nine months ended September 30, 2009 was \$8.5 million, as compared to \$10.9 million for the same period in 2008. The reduction in gross profit for the three and nine months ended September 30, 2009 as compared to the same periods in 2008 was principally attributable to lower overall sales volumes, partially offset by a higher direct margin resulting from a change in the mix of product sales, decreased freight and duty costs and decreased contract services.

A recap of the change in gross margin for the three and nine months ended September 30, 2009 as compared with the same periods in 2008 is as follows:

	(Amounts in thousands)			
	Three Months Ended September 30, 2009		Nine Months Ended September 30, 2009	
	Amount <sup>(1)</sup>	% <sup>(1)</sup>	Amount <sup>(1)</sup>	% <sup>(1)</sup>
Gross profit decrease as a result of:				
Lower volumes	\$ (741)	(23.0)	\$ (3,385)	(31.1)
Product margin mix	297	9.2	654	6.0
Decreased (increased) freight and duty costs	(8)	(0.3)	51	0.5
Decreased contract services and other	136	4.3	212	1.9
Overhead and obsolescence adjustment	47	1.5	86	0.8
Gross profit decrease	\$ (269)	(8.3)	\$ (2,382)	(21.9)

- (1) Represents the amount or percentage, as applicable, change in each item in the three and nine months ended September 30, 2009 period, as compared to the same period in 2008.

### *Selling expenses*

Selling expenses for the three months ended September 30, 2009 were \$0.4 million, or 4.1% of sales, as compared to \$0.9 million, or 6.9% of sales, for the same period in 2008. Sales costs decreased in dollar terms and as a percentage of sales primarily due to a decrease in employees and related employee costs. In addition, other production and marketing costs also decreased as we continue to closely monitor all spending levels.

## Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

Selling expenses for the nine months ended September 30, 2009 were \$1.5 million, or 5.0% of sales, as compared to \$2.4 million, or 5.9% of sales, for the same period in 2008. The lower selling costs reflect lower salaries and benefits along with lower production development supplies and samples primarily associated with reduced sales volumes.

### *General and administrative expenses*

General and administrative expense for the three months ended September 30, 2009 were \$2.3 million, or 22.3% of sales, as compared with \$2.5 million, or 19.7% of sales, for the same period in 2008. The decrease reflects a reduction in the size of our workforce to align with current sales levels, achieved by reduced salaries and benefit costs of \$0.1 million and lower depreciation of \$0.1 million mainly due to idle equipment, which we have classified as for sale and are no longer depreciating.

For the nine months ended September 30, 2009, general and administrative expenses were \$6.5 million or 22.1% of sales, as compared with \$8.9 million or 22.5% of sales, for the same period in 2008. The general and administrative expenses in 2008 included \$0.7 million in compensation and related costs mainly associated with the severance of the former chief executive officer and chief operating officer. General and administrative expenses for the nine months ended September 30, 2008, were 20.9% of sales before these charges as compared to the same period in 2009. The reduction in the general and administrative expenses, in addition to the severance charges, reflects lower salaries and benefit costs of \$0.3 million principally associated with reduced staffing in Asia and the US due to a reduction in sales volume, reduced facility, maintenance and insurance costs of \$0.4 million due to a reduction in our leased facilities, lower professional and other outside services of \$0.6 million primarily resulting from the termination of a related party consulting contract, lower depreciation charges of \$0.3 million for idle equipment which we have classified as held for sale and are no longer depreciating, and lower stock-based compensation of \$0.1 million.

### *Interest expense and interest income*

Interest expense for the three months ended September 30, 2009 increased by approximately \$42,000 to \$684,000 as compared to the same period in 2008. Interest expense for the nine months ended September 30, 2009 increased by approximately \$116,000 to \$1,983,000, as compared to the same period in 2008 due to increased borrowings under our revolving credit and term loan facility and the related amortization of deferred financing costs and debt discounts.

Interest income for the three months ended September 30, 2009 decreased by approximately \$17,000 to \$10 due primarily to the reclassification of interest on related party notes to the reserve against the note. Interest income for the nine months ended September 30, 2009 decreased by approximately \$48,000 to \$1,000 due primarily to the application of valuation allowances against further interest accruals on the related party notes.

Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

A brief summary of interest expense and interest income is presented below:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Cash interest expense	\$ 311,394	\$ 331,759	\$ 911,098	\$ 1,008,471
Amortization of deferred financing costs & debt discounts	372,117	309,473	1,071,457	858,325
Interest expense	683,511	641,232	1,982,555	1,866,796
Interest income	(10)	(16,516)	(1,016)	(49,436)
Interest expense, net	\$ 683,501	\$ 624,716	\$ 1,981,539	\$ 1,817,360

*Income taxes*

Income tax provisions (benefit) for the three and nine months ended September 30, 2009 reflected a tax provision of \$165,000 and \$267,000, respectively. In addition, income tax provisions (benefit) for the three and nine months ended September 30, 2008 reflected a tax provision of \$99,000 and a tax benefit of \$112,000, respectively. The net tax provision for the three months ended September 30, 2009 is associated with domestic state income taxes, foreign withholding taxes from our domestic royalty charges to our foreign operations offset by a tax benefit for carry-forward net losses in our foreign office. The net tax benefit in 2008 is associated with foreign income taxes from taxable net losses and earnings within our Asian facilities.

**Liquidity and Capital Resources**

The following table summarizes selected financial data at (amounts in thousands):

	September 30, 2009	December 31, 2008
Cash and cash equivalents	\$ 1,786	\$ 2,400
Total assets	\$ 14,755	\$ 15,603
Current liabilities	\$ (24,252)	\$ (10,899)
Long-term debt, net of current liabilities	\$ (784)	\$ (13,465)
Stockholders' deficit	\$ (10,281)	\$ (8,762)

*Cash and cash equivalents*

Cash and cash equivalents decreased by \$614,000 at September 30, 2009 as compared to December 31, 2008, principally due to lower cash generated by operating activities and offset by higher cash provided by financing activities, net of increases in capital expenditures.

## Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

Cash provided by operating activities is our primary recurring source of funds, and reflects net income from operations excluding non cash charges, and changes in operating capital. The nine months ended September 30, 2009 reflected a net use of approximately \$339,000 as compared to net use of \$71,000 for the nine months ended September 30, 2008. The cash used in operating activities during the nine months ended September 30, 2009 resulted principally from:

Net income before non-cash expenses	\$	129,000
Inventory reduction, net of reserves		35,000
Receivable reduction, net of reserves		108,000
Accounts payable and accrued expense reduction		(618,000)
Other increases in operating capital		7,000
Cash used in operating activities	\$	(339,000)

Net cash used in operating activities reflects net income from operations excluding non cash charges plus seasonal reductions in inventory and receivables offset by the reductions in accounts payable as seasonal payments to our trade suppliers increased following the end of our peak season for products shipped and materials acquired.

Net cash used in investing activities for the nine months ended September 30, 2009 was approximately \$474,000 as compared to \$438,000 for the nine months ended September 30, 2008. The expenditures in the first nine months of 2009 were principally associated with the development of our new ERP system that was implemented in March 2009 and leasehold improvements for our new facility in China.

Net cash provided by financing activities for the nine months ended September 30, 2009 was approximately \$216,000 and primarily reflects additional borrowings under our revolver line of credit, offset by the repayment of borrowings under capital leases and notes payable. For the nine months ended September 30, 2008 net cash of \$421,000 was used by financing activities and primarily reflects the repayment of borrowings under capital leases and notes payable, payments on term note and net of borrowings under our debt facility.

On June 27, 2007, we entered into a Revolving Credit and Term Loan Agreement with Bluefin Capital, LLC that provides for a \$5.0 million revolving credit loan and a \$9.5 million term loan for a three year period ending June 30, 2010. Bluefin Capital subsequently assigned its rights and obligations under the credit facility agreements to an affiliate, CVC California, LLC ("CVC"). The revolving credit portion of the facility, as amended, permits borrowings based upon a formula including 85% of eligible receivables and 55% of eligible inventory and provides for monthly interest payments at the prime rate (5.25% at September 30, 2009) plus 2.0%. The term loan bears interest at 8.5% annually with quarterly interest payments and repayment in full at maturity.

Borrowings under both credit facilities are secured by all of our assets. There was \$9,500 and \$3,000 in available borrowings at September 30, 2009 and December 31, 2008, respectively.

In connection with the Revolving Credit and Term Loan Agreement, we issued 1,500,000 shares of common stock to the lender for \$0.001 per share, and issued warrants to purchase 2,100,000 shares of common stock. The warrants were exercisable over a five-year period and initially 700,000 warrants were exercisable at \$0.95 per share; 700,000 warrants were exercisable at \$1.05 per share; and 700,000 warrants were exercisable at \$1.14 per share. The warrants did not require cash settlements. The relative fair value of the equity (\$2,374,169, which includes a reduction for financing costs) issued with this debt facility was allocated to paid-in-capital and reflected as a debt discount to the face value of the term note.

This discount is being amortized over the term of the note and recognized as additional interest cost as amortized. Costs associated with the debt facility included debt fees, commitment fees, registration fees and legal and professional fees of \$486,000. The costs allocable to the debt instruments are reflected as a reduction to the face value of the note on the balance sheet.

## Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

On November 19, 2007, we entered into an amendment of the credit agreement with the lender to modify the original financial covenants and to extend until June 30, 2008 the application of the original EBITDA covenants in exchange for additional common stock and a price adjustment to the lenders outstanding warrants issued to the lender in connection with the loan agreement. In connection with this amendment we issued an additional 250,000 shares of common stock to the lender for \$0.001 per share, and the exercise price for all of the previously issued warrants for the purchase of 2,100,000 shares of common stock was amended to an exercise price of \$0.75 per share. The new relative fair value of the equity issued with this debt of \$2,430,000, including the modifications in this amendment and a reduction for financing costs, is being amortized over the term of the note.

On April 3, 2008, we executed a further amendment to the credit agreement. The amendment included a redefining of the EBITDA covenants, and the cancellation of the common stock warrants previously issued to the lender in exchange for our issuance of an additional note payable to the lender for \$1.0 million. The note bears interest at 8.5% and both the note and accrued interest are payable at maturity on June 30, 2010. In addition, our borrowing base was modified in this amendment by increasing the allowable portion of inventory held by third party vendors to \$1.0 million with no more than \$500,000 held at any one vendor and increasing the percentage of accounts receivable to be included in the borrowing base to 85%. We incurred a one-time modification fee of \$145,000 to secure the amendment of the agreement. The new relative fair value of the equity issued with this debt of \$2,542,000, including the modifications in this amendment and a reduction for financing costs, is being amortized over the term of the note.

Under the terms of the credit agreement, as amended, we are required to meet certain coverage ratios, among other restrictions including a restriction from declaring or paying a dividend prior to repayment of all the obligations. The financial covenants, as amended, require that we maintain at the end of each fiscal quarter "EBITDA" (as defined in the agreement) in excess of the principal and interest payments for the same period of not less than \$1.00 and in excess of ratios set out in the agreement for each quarter.

We failed to satisfy the minimum EBITDA requirement for quarter ended December 31, 2008 as well as the quarter ended March 31, 2009, and in connection with such failures, on March 31, 2009 we entered into a further amendment to the credit agreement with CVC. This amendment provided for the issuance of an additional term note to CVC in the principal amount of \$225,210 in lieu of paying a cash waiver fee in connection with our failures to satisfy the EBITDA requirements for the quarters ended December 31, 2008 and March 31, 2009; deferral of the term note quarterly interest payment of \$215,000 due April 1, 2009; a temporary increase to the borrowing base formulas and calculations under the revolving credit facility; the re-lending by CVC of \$125,000 under the term loan portion of credit facility; a consent to allow us to sell equipment that has been designated as held for sale more fully described in Note 9 to the consolidated financial statements; and the granting to CVC of the right to designate a non-voting observer to attend all meetings of our Board of Directors.

We financed building, land and equipment purchases through notes payable and capital lease obligations expiring through June 2011. The building and land mortgage were fully paid when the property was sold in October 2008. The remaining equipment obligations bear interest at rates of 6.6% and 12.1% per annum, and under these obligations, we are required to make monthly payments of principal and interest.

The outstanding balance including accrued interest of our demand notes payable to related parties at September 30, 2009 and December 31, 2008 was \$228,000 and \$222,000, respectively. The demand notes of \$85,000 bear interest at 10% have no scheduled monthly payments and are due within fifteen days following demand.

## Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

The outstanding balance including accrued interest of our note payable to related party presented as part of long term liability at September 30, 2009 was \$36,000. The note bears 6% interest annually and the maturity date is the earlier of December 31, 2011 or ten days following employment termination date.

We believe that our existing cash and cash equivalents and our anticipated cash flows from our operating activities will be sufficient to fund our minimum working capital and capital expenditure needs for at least the next twelve months.

This conclusion is based on the belief that our operating assets, strategic plan, operating expectations and operating expense structure will provide for sufficient profitability from operations before non-cash charges to fund our operating capital requirements and that our existing cash and cash equivalents will be sufficient to fund our expansion and capital requirements.

We have historically satisfied our working capital requirements primarily through cash flows generated from operations and borrowings under our credit facility. As we continue to expand globally with our apparel manufacturing in offshore locations, our customers (some of which are backed by U.S. brands and retailers) are substantially all foreign based entities. Our revolving credit facility provides limited financing secured by our accounts receivable, and our current borrowing capability may not provide the level of financing we need to continue in or to expand into additional foreign markets. We are continuing to evaluate non-traditional financing of our foreign assets and equity transactions to provide capital needed to fund our expansion and on-going operations. If we experience greater than anticipated reductions in sales, we may need to raise additional capital, or further reduce the scope of our business in order to fully satisfy our future short-term operating requirements. The extent of our future long-term capital requirements will depend on many factors, including our results of operations, future demand for our products, the size and timing of future acquisitions, our borrowing base availability limitations related to eligible accounts receivable and inventories and our expansion into foreign markets. Our need for additional long-term financing includes the integration and expansion of our operations to exploit our rights under our Talon trade name, the expansion of our operations in the Asian, and European markets. If our cash from operations is less than anticipated or our working capital requirements and capital expenditures are greater than we expect, we may need to raise additional debt or equity financing in order to provide for our operations.

We do not believe that our cash flows from operating activities will be sufficient to satisfy the CVC debt facility due at June 30, 2010. Accordingly we anticipate that an extension or modification of the CVC debt will be required prior to the due date or it will be necessary for us to raise additional debt or equity financing in order to satisfy the CVC debt. If we cannot obtain an extension or modification of the CVC debt, or raise additional equity or debt to satisfy this requirement we will default on our credit agreement.

There can be no assurance that additional debt or equity financing will be available on acceptable terms or at all. If we are unable to secure additional financing, we may not be able to execute our operating plans, expand into foreign markets to promote our Talon brand trade name, or meet our debt obligations any of which could have a material adverse effect on our financial condition and results of operations and affect our ability to operate as a going concern. See Note 3 to the consolidated financial statements.

**Contractual Obligations and Off-Balance Sheet Arrangements**

The following summarizes our contractual obligations at September 30, 2009 and the effects such obligations are expected to have on liquidity and cash flow in future periods:

Contractual Obligations	Total	Payments Due by Period			
		Less than 1 Year	1-3 Years	4-5 Years	After 5 Years
Demand notes payable to related parties (1)	\$ 227,600	\$ 227,600	\$ —	\$ —	\$ —
Note payable to related party.	36,000	—	36,000	—	—
Capital lease obligations	113,100	80,800	27,800	4,500	—
Operating leases	1,057,100	608,000	448,800	300	—
Revolver and term note	16,594,400	16,594,400	—	—	—
Other notes payable	60,500	60,500	—	—	—
<b>Total Obligations</b>	<b>\$ 18,088,700</b>	<b>\$ 17,571,300</b>	<b>\$ 512,600</b>	<b>\$ 4,800</b>	<b>\$ —</b>

- (1) The majority of notes payable to related parties is due on demand with the remainder due and payable on the fifteenth day following the date of delivery of written demand for payment and includes accrued interest payable through September 30, 2009.

At September 30, 2009 and 2008, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As such, we are not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

*Related Party Transactions*

See Note 15 of accompanying notes to consolidated financial statements for a discussion of related party transactions.

**Application of Critical Accounting Policies and Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions for the reporting period and as of the financial statement date. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities and the reported amounts of revenue and expense. Actual results could differ from those estimates.

Critical accounting policies are those that are important to the portrayal of our financial condition and results, and which require us to make difficult, subjective and/or complex judgments. Critical accounting policies cover accounting matters that are inherently uncertain because the future resolution of such matters is unknown. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements:

- o Accounts and note receivable balances are evaluated on a continual basis and allowances are provided for potentially uncollectible accounts based on management's estimate of the collectability of customer accounts. If the financial condition of a customer were to deteriorate, resulting in an impairment of its ability to make payments, an additional allowance may be required. Allowance adjustments are charged to operations in the period in which the facts that give rise to the adjustments become known.

The net bad debt expenses, recoveries and allowances for the three and nine months ended September 30, 2009 and 2008 are as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2009	2008	2009	2008
Bad debt expenses for accounts				
receivable	\$ 38,717	\$ 32,857	\$ 116,090	\$ 30,581
Recoveries	\$ —	\$ —	\$ —	\$ (3,050)
Allowance for doubtful accounts	\$ 227,442	\$ 124,045	\$ 227,442	\$ 124,045
Allowance for doubtful accounts, related party	\$ 512,885	\$ —	\$ 512,885	\$ —

- o Inventories are stated at the lower of cost, determined using the first-in, first-out ("FIFO") basis, or market value and are all substantially finished goods. The costs of inventory include the purchase price, inbound freight and duties, conversion costs and certain allocated production overhead costs. Inventory is evaluated on a continual basis and reserve adjustments are made based on management's estimate of future sales value, if any, of specific inventory items. Inventory reserves are recorded for damaged, obsolete, excess, impaired and slow-moving inventory. We use estimates to record these reserves. Slow-moving inventory is reviewed by category and may be partially or fully reserved for depending on the type of product and the length of time the product has been included in inventory.

Reserve adjustments are made for the difference between the cost of the inventory and the estimated market value, if lower, and charged to operations in the period in which the facts that give rise to these adjustments become known. Market value of inventory is estimated based on the impact of market trends, an evaluation of economic conditions and the value of current orders relating to the future sales of this type of inventory. For the three and nine months ended September 30, 2009 inventory reserve had a recovery of approximately \$5,000 followed by a sale of legacy inventory. No inventory reserve provisions were recorded for the three and nine months ended September 30, 2008.

- o We record deferred tax assets arising from temporary timing differences between recorded net income and taxable net income when and if we believe that future earnings will be sufficient to realize the tax benefit. For those jurisdictions where the expiration date of tax benefit carry-forwards or the projected taxable earnings indicate that realization is not likely, a valuation allowance is provided. If we determine that we may not realize all of our deferred tax assets in the future, we will make an adjustment to the carrying value of the deferred tax asset, which would be reflected as an income tax expense. Conversely, if we determine that we will realize a deferred tax asset, which currently has a valuation allowance, we would be required to reverse the valuation allowance, which would be reflected as an income tax benefit.

We believe that our estimate of deferred tax assets and determination to record a valuation allowance against such assets are critical accounting estimates because they are subject to, among other things, an estimate of future taxable income, which is susceptible to change and dependent upon events that may or may not occur, and because the impact of recording a valuation allowance may be material to the assets reported on the balance sheet and results of operations. See Note 12 to the consolidated financial statements.

## Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

- o We record impairment charges when the carrying amounts of long-lived assets are determined not to be recoverable. Impairment is measured by assessing the usefulness of an asset or by comparing the carrying value of an asset to its fair value. Fair value is typically determined using quoted market prices, if available, or an estimate of undiscounted future cash flows expected to result from the use of the asset and its eventual disposition.

The amount of impairment loss is calculated as the excess of the carrying value over the fair value. Changes in market conditions and management strategy have historically caused us to reassess the carrying amount of our long-lived assets. See Note 9 to the consolidated financial statements.

- o Sales are recognized when persuasive evidence of an arrangement exists, product title has passed, pricing is fixed or determinable and collection is reasonably assured. Sales resulting from customer buy-back agreements, or associated inventory storage arrangements are recognized upon delivery of the products to the customer, the customer's designated manufacturer, or upon notice from the customer to destroy or dispose of the goods. Sales, provisions for estimated sales returns and the cost of products sold are recorded at the time title transfers to customers. Actual product returns are charged against estimated sales return allowances, which returns have been insignificant.
- o We are currently involved in various lawsuits, claims and inquiries, most of which are routine to the nature of the business and in accordance with FASB ASC 450, "Contingencies". We accrue estimates of the probable and estimable losses for the resolution of these claims. The ultimate resolution of these claims could affect our future results of operations for any particular quarterly or annual period should our exposure be materially different from our earlier estimates or should liabilities be incurred that were not previously accrued.

### **New Accounting Pronouncements**

In June 2009, the Financial FASB issued ASC 105-10, "*Generally Accepted Accounting Principles*" ("ASC 105-10"). Effective for our financial statements issued for interim and annual periods commencing with the quarterly period ended September 30, 2009, the FASB Accounting Standards Codification ("Codification" or "ASC") is the source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Codification supersedes all then-existing, non-SEC accounting and reporting standards. In the FASB's view, the Codification does not change GAAP, and therefore the adoption of ASC 105-10, *Generally Accepted Accounting Principles*, did not have an effect on our consolidated financial position, results of operations or cash flows. However, where we have referred to specific authoritative accounting literature, the Codification literature is disclosed.

## Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

In April 2009, the FASB issued ASC 820-10, “*Fair Value Measurements and Disclosures*” (Topic 820). ASC 820-10 provides guidance on how to determine the fair value of assets and liabilities when the volume and level of activity for the asset/liability has significantly decreased. ASC 820-10 also provides guidance on identifying circumstances that indicate a transaction is not orderly. In addition, ASC 820-10 requires disclosure in interim and annual periods of the inputs and valuation techniques used to measure fair value and a discussion of changes in valuation techniques. ASC 820-10 was effective beginning in the second quarter of fiscal year 2009. The adoption of ASC 820-10 did not have a material impact on the consolidated financial statements.

In April 2009, the FASB issued ASC 320-10, “*Investments — Debt and Equity Securities*” (“ASC 320-10”). ASC 320-10 amends the requirements for the recognition and measurement of other-than-temporary impairments for debt securities by modifying the pre-existing “intent and ability” indicator. Under ASC 320-10, other-than-temporary impairment is triggered when there is an intent to sell the security, it is more likely than not that the security will be required to be sold before recovery, or the security is not expected to recover the entire amortized cost basis of the security. Additionally, ASC 320-10 changes the presentation of other-than-temporary impairment in the income statement for those impairments involving credit losses. The credit loss component will be recognized in earnings and the remainder of the impairment will be recorded in other comprehensive income. ASC 320-10 was effective beginning in the second quarter of fiscal year 2009. The implementation of ASC 320-10 did not have a material impact on the consolidated financial statements.

In April 2009, the FASB issued ASC 825-10, “*Financial Instruments*” (“ASC 825-10”). ASC 825-10 requires interim disclosures regarding the fair values of financial instruments. Additionally, ASC 825-10 requires disclosure of the methods and significant assumptions used to estimate the fair value of financial instruments on an interim basis as well as changes of the methods and significant assumptions from prior periods. ASC 825-10 does not change the accounting treatment for these financial instruments and did not have a material impact on the consolidated financial statements.

In April 2009, the FASB issued ASC 805, “*Business Combinations*” (“ASC 805”). ASC 805 amends the original guidance relating to the initial recognition and measurement, subsequent measurement and accounting and disclosures of assets and liabilities arising from contingencies in a business combination which were adopted by us as of the beginning of fiscal 2009 and it did not have a material impact on the consolidated financial statements. We will apply the requirements of ASC 805 prospectively to any future acquisitions.

In May 2009, the FASB issued ASC 855-10, “*Subsequent Events*” (“ASC 855-10”). ASC 855-10 provides general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. ASC 855-10 was adopted by us in the second quarter of 2009 and did not have a material impact on the consolidated financial statements. The implementation of ASC 855-10 did not have a material impact on the consolidated financial statements. See Note 16 for the disclosures regarding ASC 855-10.

In June 2009, the FASB issued ASC 860, “*Transfers and Servicing*” (“ASC 860”). ASC 860 seeks to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows and a transferor’s continuing involvement, if any, in transferred financial assets. ASC 860 is applicable for annual periods beginning after November 15, 2009. The implementation of ASC 860 is not expected to have a material impact on the consolidated financial statements.

## Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

In June 2009, the FASB issued accounting guidance contained within ASC 810, “*Consolidations*”, which pertains to the consolidation of variable interest entities, “Amendments to FASB Interpretation No. 46R”, (“ASC 810”). This guidance within ASC 810 requires an analysis to be performed to determine whether a variable interest gives the entity a controlling financial interest in a variable interest entity. This standard requires an ongoing reassessment and eliminates the quantitative approach previously required for determining whether an entity is the primary beneficiary. This standard is effective for fiscal years beginning after November 15, 2009. The implementation of ASC 810 is not expected to have an impact on the consolidated financial statements.

In August 2009, the FASB issued ASC 820-10-35, “*Fair Value Measurements and Disclosures*” (“ASC 820-10-35”), which provides amendments to Topic 820. ASC 820-10-35 provides additional guidance clarifying the measurement of liabilities at fair value. ASC 820-10-35 is effective in the fourth quarter 2009 for a calendar year entity. ASC 820-10-35 is not expected to have a material impact on the consolidated financial statements.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk.**

Not Applicable

### **Item 4T. Controls and Procedures**

#### *Evaluation of Controls and Procedures*

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, or the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities Exchange Commission’s rules and forms, including to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act.

As of the end of the period covered by this report, management, with the participation of Lonnie D. Schnell, our principal executive officer and principal financial officer and Jim Reeder our principal accounting officer, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based upon that evaluation, Mr. Schnell and Mr. Reeder concluded that these disclosure controls and procedures were effective as of the end of the period covered in this Quarterly Report on Form 10-Q.

#### *Changes in Internal Control over Financial Reporting*

During the quarter ended September 30, 2009, there were no changes in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**PART II**

**OTHER INFORMATION**

**Item 1. Legal Proceedings**

On October 12, 2005, a shareholder class action complaint was filed in the United States District Court for the Central District of California (“District Court”) against us, Colin Dyne, Mark Dyne, Ronda Ferguson and August F. Deluca (collectively, the “Individual Defendants” and, together with us, the “Defendants”). The action is styled *Huberman v. Tag-It Pacific, Inc., et al.*, Case No. CV05-7352 R(Ex). On January 23, 2006, the District Court heard competing motions for appointment of lead plaintiff. The District Court appointed Seth Huberman as the lead plaintiff (“Plaintiff”). On March 13, 2006, Plaintiff filed an amended complaint. Plaintiff’s amended complaint alleged that defendants made false and misleading statements about our financial situation and our relationship with certain of our large customers. The action was brought on behalf of all purchasers of our publicly-traded securities during the period from November 13, 2003, to August 12, 2005. The amended complaint purports to state claims under Section 10(b)/Rule 10b-5 and Section 20(a) of the Securities Exchange Act of 1934. On August 21, 2006, Defendants filed their answer to the amended complaint, denying the material allegations of wrongdoing. On February 20, 2007, the District Court denied class certification. On April 2, 2007, the District Court granted Defendants’ motion for summary judgment, and on or about April 5, 2007, the Court entered judgment in favor of all Defendants. On or about April 30, 2007, Plaintiff filed a notice of appeal with the United States Court of Appeals for the Ninth Circuit (“Ninth Circuit”), and his opening appellate brief was filed on October 15, 2007. Defendants’ brief was filed on November 28, 2007. The Ninth Circuit held oral arguments on October 23, 2008. On January 16, 2009, the Ninth Circuit issued an unpublished memorandum, instructing the District Court to certify a class, reversing the District Court’s grant of summary judgment, and remanding for further proceedings consistent with its decision. The District Court thereafter certified a class and adopted a schedule for the case. On July 31, 2009, the parties entered into a stipulation of settlement intended to settle the matter and result in its dismissal with prejudice.

The total settlement proceeds of \$5.75 million are to be paid in full by our insurers without any contribution from us or individual defendants. On August 24, 2009, the Court granted preliminary approval of the settlement. Notice has been provided to class members and the Court was set a final fairness hearing on the settlement for December 7, 2009. If the settlement is finally approved, the case will be dismissed with prejudice per the terms of the settlement. If the settlement is not approved, we will continue to vigorously defend this lawsuit; however, in this case, the outcome of this lawsuit or an estimate of the potential losses, if any, related to the lawsuit cannot be reasonably predicted, and an adverse resolution of the lawsuit could potentially have a material adverse effect on our financial position and results of operations.

On April 16, 2004, we filed suit against Pro-Fit Holdings, Limited in the U.S. District Court for the Central District of California – *Tag-It Pacific, Inc. v. Pro-Fit Holdings, Limited*, CV 04-2694 LGB (RCx) — asserting various contractual and tort claims relating to our exclusive license and intellectual property agreement with Pro-Fit, seeking declaratory relief, injunctive relief and damages. It is our position that the agreement with Pro-Fit gives us exclusive rights in certain geographic areas to Pro-Fit’s stretch and rigid waistband technology. We also filed a second civil action against Pro-Fit and related companies in the California Superior Court which was removed to the United States District Court, Central District of California. In the second quarter of 2008, Pro-Fit and certain related companies were placed into administration in the United Kingdom and filed petitions under Chapter 15 of Title 11 of the United States Code. As a consequence of the chapter 15 filings, all litigation by us against Pro-Fit has been stayed.

We have incurred significant legal fees in this litigation, and unless the case is settled or resolved, may continue to incur additional legal fees in order to assert its rights and claims against Pro-Fit and any successor to those assets of Pro-Fit that are subject to our exclusive license and intellectual property agreement with Pro-Fit and to defend against any counterclaims.

## Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

We currently have pending a number of other claims, suits and complaints that arise in the ordinary course of our business. We believe that we have meritorious defenses to these claims and that the claims are either covered by insurance or, after taking into account the insurance in place, would not have a material effect on our consolidated financial condition if adversely determined against us.

### Item 1A. Risk Factors

Risk factors are contained in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2008. No material change to such risk factors has occurred during the nine months ended September 30, 2009.

### Item 4. Submission of Matters to a Vote of Security Holders

On July 13, 2009, we held our 2009 annual meeting of stockholders. At the annual meeting, there were 20,291,433 shares entitled to vote, and 18,706,228 shares (approximately 92%) were represented at the meeting in person or by proxy. Immediately prior to and following the meeting, our Board of Directors consisted of Mark Dyne, Colin Dyne, Lonnie D. Schnell, Brent Cohen, Joseph Miller, Raymond Musci and William Sweedler.

The following summarizes vote results for the election of directors, which was the only matter submitted to our stockholders for action at the annual meeting:

Proposal to elect the following two nominees as Class III directors:

Director	For	Withheld
Mark Dyne	15,143,710	3,562,518
Colin Dyne	14,387,564	4,318,664

### Item 5. Other Information

On November 13, 2009, we entered into a Sales and Service Representative Agreement with The Link Trading LLC. Colin Dyne, Vice Chairman of our Board of Directors, is the Manager and principal owner of The Link Trading LLC. Pursuant to this agreement, we have agreed to pay a commission of 7% of collected revenues associated with the sales for specified business opportunities presented by The Link Trading, with 2% of the 7% commission earned applied to our note receivable balance due from Colin Dyne. The commission rate is subject to adjustment under certain circumstances as provided in the agreement. The agreement has an initial term of 24 months, which may be extended by mutual agreement of the parties. For a description of certain transactions between us and Colin Dyne and parties affiliated with Mr. Dyne, see Note 15 of the Notes to Consolidated Financial Statements included in this Form 10-Q. A copy of the Sales and Service Representative Agreement is filed with this Form 10-Q as Exhibit 10.28.

Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

**Item 6. Exhibits**

<b><u>Exhibit No.</u></b>	<b><u>Description</u></b>
10.26.1*	Amendment No. 1 to Executive Employment Agreement, dated August 6, 2009, between Talon International, Inc. and Lonnie D. Schnell. Incorporated by reference to Exhibit 10.1 to Form 8-K filed on August 10, 2009.
10.27.1*	Amendment No. 1 to Executive Employment Agreement, dated August 6, 2009, between Talon International, Inc. and Larry Dyne. Incorporated by reference to Exhibit 10.2 to Form 8-K filed on August 10, 2009.
10.28	Sales and Service Representative Agreement, dated November 13, 2009, between Talon International, Inc. and The Link Trading LLC.
31.1	Certificate of Chief Executive Officer and Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certificate of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

\* Indicates a management contract or compensatory plan.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
