Notes to Financial Statements
(unaudited)

1. Organization and Basis of Presentation

FSP Addison Circle Corp. (the "Company") was organized on August 21, 2002 as a

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

Corporation under the laws of the State of Delaware to purchase, own and operate a commercial office building located in Addison, TX (the "Property"). The Property consists of a recently constructed, ten-story Class "A" suburban office tower that contains approximately 293,787 square feet of space situated on approximately 3.62 acres of land. The Company acquired the Property on September 30, 2002.

BASIS OF PRESENTATION

The accompanying interim financial statements are unaudited; however, the financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair presentation of the financial statements for these interim periods have been included.

Certain prior-year balances have been reclassified in order to conform to the current-year presentation.

These financial statements should be read in conjunction with the Company's financial statements and notes thereto for its fiscal year ended December 31, 2003.

ESTIMATES AND ASSUMPTIONS

The Company prepares its financial statements and related notes in conformity with accounting principles generally accepted in the United States of America ("GAAP"). These principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

2. Net Income Per Share

Basic net income per preferred share is computed by dividing net income attributed to preferred shareholders by the weighted average number of preferred shares outstanding during the period. Diluted net income per preferred share reflects the potential dilution that could occur if securities or other contracts to issue shares were exercised or converted into shares. There were no potential dilutive shares outstanding at June 30, 2004 and 2003. Subsequent to the completion of the offering of preferred shares, the holders of common stock are not entitled to share in any income nor in any related dividend.

3. Income Taxes

The Company has elected to be taxed as a Real Estate Investment Trust ("REIT") under Sections 856-860 of the Internal Revenue Code of 1986, as amended. In order to qualify as a REIT, the Company is required to distribute at least 90% of its taxable income to shareholders and to meet certain asset and income tests as well as certain other requirements. The Company will generally not be liable for federal income taxes, provided it satisfies these requirements. Even as a qualified REIT, the Company is subject to certain state and local taxes on its income and property.

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

FSP Addison Circle Corp. Notes to Financial Statements (unaudited)

4. Cash Available for Distribution

The Company evaluates its performance based on Cash Available for Distribution ("CAD") as management believes that CAD represents the most accurate measure of the Company's activity. CAD is the basis for distributions paid to equity holders.

The Company defines CAD as: net income as computed in accordance with accounting principles generally accepted in the United States of America ("GAAP"); plus certain non-cash items included in the computation of net income (depreciation and amortization and straight line rent adjustments); plus funds raised by the issuance of shares; plus the net proceeds from the sale of land; less purchases of real estate assets (including acquired leases) property and equipment ("Capital Expenditures"), and payments for deferred leasing commissions; plus (less) proceeds from (payments to) cash reserves established at the acquisition date of the property ("Cash-funded reserves"). Depreciation and amortization and straight-line rents are an adjustment to CAD, as these are non-cash items included in net income. Capital Expenditures and payments for deferred leasing commissions and the proceeds from (payments to) the funded reserve are an adjustment to CAD, as they represent cash items not reflected in income.

CAD should not be considered as an alternative to net income (determined in accordance with GAAP), as an indicator of the Company's financial performance, nor as an alternative to cash flows from operating activities (determined in accordance with GAAP), nor as a measure of the Company's liquidity, nor is it necessarily indicative of sufficient cash flow to fund all of the Company's needs. Other real estate companies may define CAD in a different manner. It is at the Company's discretion to retain a portion of CAD for operational needs. Management believes that in order to facilitate a clear understanding of the results of the Company, CAD should be examined in connection with net income and cash flows from operating, investing and financing activities in the financial statements.

The calculation of cash available for distribution is shown in the following table:

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2004	2003	2004	2003
Net income	\$ 1,135	\$ 1,070	\$ 2,514	\$ 2,136

Purchase of land and building	--	--	(161)	--
Proceeds from (establish) funded reserve	44	--	284	--
Payment of deferred lease origination costs	(44)	--	(123)	--
Cash Available for Distribution	\$ 1,401	\$ 1,340	\$ 3,133	\$ 2,699

The Company's cash distributions for the periods ended June 30, 2004 and December 31, 2003 are summarized as follows:

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

(in thousands)

Quarter Paid	2004	2003

Second Quarter	1,288	1,302
Third Quarter	-	1,292
Fourth Quarter	-	1,277
Dividends Paid	\$ 2,553	\$ 4,271

Cash distributions are declared and paid based on the total outstanding shares as of the record date and are typically paid in the quarter following the quarter that CAD is generated.

5. Related Party Transactions

The Company executed a management agreement with FSP Property Management LLC, an affiliate of FSP, that provides for a management fee equal to 1% of collected revenues and is cancelable with 30 days notice by either party. Fees incurred under the agreement were \$20,149 and \$20,049 for the three months ended June 30, 2004 and 2003, respectively and \$40,207 and \$39,826 for the six months ended June 30, 2004 and 2003, respectively.

[LETTERHEAD OF BRAVER AND COMPANY, P.C.]

INDEPENDENT AUDITOR'S REPORT

To the Stockholders
FSP Addison Circle Corp.

We have audited the accompanying balance sheets of FSP Addison Circle Corp. as of December 31, 2003 and 2002 and the related statements of operations, changes in stockholders' equity and cash flows for the year ended December 31, 2003 and for the period from August 21, 2002 (date of inception) to December 31, 2002. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of FSP Addison Circle Corp. as of December 31, 2003 and 2002, and the results of its operations and its cash flows for the year ended December 31, 2003 and for the initial period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

Notes to Financial Statements

1. Organization

FSP Addison Circle Corp. (the "Company") was organized on August 21, 2002 as a Corporation under the laws of the State of Delaware to purchase, own and operate a commercial office building located in Addison, TX (the "Property"). The Property consists of a recently constructed, ten-story Class "A" suburban office tower that contains approximately 293,787 square feet of space situated on approximately 3.62 acres of land. The Company acquired the Property on September 30, 2002.

2. Summary of Significant Accounting Policies

BASIS OF PRESENTATION

The results of operations from inception to December 31, 2002 are not necessarily indicative of the results to be obtained for other interim periods or for the full fiscal year.

ESTIMATES AND ASSUMPTIONS

The Company prepares its financial statements and related notes in conformity with accounting principles generally accepted in the United States of America ("GAAP"). These principles require management to make estimates and assumptions

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

REAL ESTATE AND DEPRECIATION

Real estate assets are stated at the lower of cost or fair value, as appropriate, less accumulated depreciation.

Costs related to property acquisition and improvements are capitalized. Typical capital items include new roofs, site improvements, various exterior building improvements and major interior renovations. Funding for capital improvements typically is provided by cash set aside at the time the Property was purchased.

Routine replacements and ordinary maintenance and repairs that do not extend the life of the assets are expensed as incurred. Typical expense items include interior painting, landscaping and minor carpet replacements. Funding for repairs and maintenance items typically is provided by cash flows from operating activities.

Depreciation is computed using the straight-line method over the assets' estimated useful lives as follows:

Category	Years
-----	-----
Building - Commercial	39
Building Improvements	15-39
Furniture and equipment	5-7

F-15

FSP Addison Circle Corp. Notes to Financial Statements

2. Summary of Significant Accounting Policies (continued)

REAL ESTATE AND DEPRECIATION (continued)

The following schedule reconciles the cost of the Property as shown in the Offering Memorandum as to the amounts shown on the Company's Balance Sheets:

(in thousands)

Price per Offering Memorandum	\$51,500
Plus: Acquisition fees	318
Other acquisition costs	155
Total Acquisition Costs	\$51,973

These costs are reported in the Company's Balance Sheets as follows:

Land	\$ 4,365
Building	45,870
Acquired real estate leases	1,738
Total reported on Balance Sheets	\$51,973

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

The Company evaluates its assets used in operations by identifying indicators of impairment and by comparing the sum of the estimated undiscounted future cash flows for each asset to the asset's carrying value. When indicators of impairment are present and the sum of the undiscounted future cash flows is less than the carrying value of such asset, an impairment loss is recorded equal to the difference between the asset's current carrying value and its fair value based on discounting its estimated future cash flows. At December 31, 2003 and 2002, no such indicators of impairment were identified.

ACQUIRED REAL ESTATE LEASES

Acquired real estate leases are the estimated value of legal and leasing costs related to acquired leases that were included in the purchase price when the Company acquired the Property. Under SFAS No. 141 "Business Combinations" ("SFAS 141"), which was approved by the Financial Accounting Standards Board ("FASB") in June 2001, the Company is required to segregate these costs from its investment in real estate. The Company subsequently amortizes these costs on a straight-line basis over the remaining life of the related leases. Amortization expense of \$349,000 and \$27,000 is included in depreciation and amortization in the Company's Statements of Operations for the year ended December 31, 2003 and the period ended December 31, 2002, respectively.

Acquired real estate lease costs included in the purchase price of the property were \$1,738,000 and are being amortized over the weighted-average period of six years in respect of the leases assumed.

The estimated annual amortization expense for the five years succeeding December 31, 2003 are as follows:

(in thousands)	
2004	\$ 321
2005	\$ 321
2006	\$ 321
2007	\$ 321
2008	\$ 105

2. Summary of Significant Accounting Policies (continued)

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid debt instruments with an initial maturity of three months or less to be cash equivalents.

CASH-FUNDED RESERVES

The Company has set aside funds in anticipation of future capital needs of the Property. These funds typically are used for the payment of real estate assets and deferred leasing commissions; however, there is no legal restriction on their use and they may be used for any Company purpose.

RESTRICTED CASH

Restricted cash consists of tenant security deposits.

MARKETABLE SECURITIES

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

The Company accounts for investments in debt securities under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 115, "Accounting for Certain Investments in Debt and Equity Securities". The Company typically classifies its debt securities as available-for-sale.

There were no investments in marketable securities at December 31, 2003 and 2002.

CONCENTRATION OF CREDIT RISKS

Cash, cash equivalents and short-term investments are financial instruments that potentially subject the Company to a concentration of credit risk. The Company maintains its cash balances and short-term investments principally in one bank which the Company believes to be creditworthy. The Company periodically assesses the financial condition of the bank and believes that the risk of loss is minimal. Cash balances held with various financial institutions frequently exceed the insurance limit of \$100,000 provided by the Federal Deposit Insurance Corporation.

For the periods ended December 31, 2003 and 2002, rental income was derived from various tenants. As such, future receipts are dependent upon the financial strength of the lessees and their ability to perform under the lease agreements.

The following tenants represent greater than 10% of total revenue:

	Year Ended December 31, 2003	Period Ended December, 31 2002
McLeod USA Telecommunications Services, Inc.	31%	31%
The Staubach Company	28%	28%
J.D. Edwards World Solutions Company	20%	20%

FINANCIAL INSTRUMENTS

The Company estimates that the carrying value of cash and cash equivalents, cash-funded reserves, and restricted cash approximate their fair values based on their short-term maturity and prevailing interest rates.

STEP RENT RECEIVABLE

Certain leases provide for fixed increases over the life of the lease. Rental revenue is recognized on the straight-line basis over the related lease term; however, billings by the Company are based on required minimum rentals in accordance with the lease agreements. Step rent receivable, which is the cumulative revenue recognized in excess of amounts billed by the Company, was \$421,000 and \$99,000 at December 31, 2003 and 2002, respectively.

TENANT RENTS RECEIVABLE

Tenant rents receivable are reported at the amount the Company expects to collect on balances outstanding at year-end. Management monitors outstanding

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

balances and tenant relationships and concluded that any realization losses would be immaterial.

SYNDICATION FEES

Syndication fees are selling commissions and other costs associated with the initial offering of the Company's preferred shares. Such costs, in the amount of \$5,227,000 have been reported as a reduction in Stockholders' Equity in the Company's Balance Sheets.

REVENUE RECOGNITION

The Company has retained substantially all of the risks and benefits of ownership of the Company's commercial property and accounts for its leases as operating leases. Rental income from leases, which may include rent concession (including free rent and tenant improvement allowances) and scheduled increases in rental rates during the lease term, is recognized on a straight-line basis. The Company does not have any percentage rent arrangements with its commercial property tenants. Reimbursable costs are included in rental income in the period earned. A schedule showing the components of rental revenue is shown below.

(in thousands)	Year ended December 31, 2003	Period Ended December, 31 2002
Income from leases	\$7,153	\$1,823
Straight-line rent adjustment	322	99
Reimbursable expenses	1,079	180

Total	\$8,554	\$2,102

INTEREST INCOME

Interest income is recognized when the related services are performed and the earnings process is complete.

INCOME TAXES

The Company has elected to be taxed as a Real Estate Investment Trust ("REIT") under the Internal Revenue Code of 1986, as amended. As a REIT, the Company generally is entitled to a tax deduction for dividends paid to its shareholders, thereby effectively subjecting the distributed net income of the Company to taxation at the shareholder level only. The Company must comply with a variety of restrictions to maintain its status as a REIT. These restrictions include the type of income it can earn, the type of assets it can hold, the number of shareholders it can have and the concentration of their ownership, and the amount of the Company's taxable income that must be distributed annually.

2. Summary of Significant Accounting Policies (continued)

NET INCOME PER SHARE

The Company follows Statement of Financial Accounting Standards No. 128

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

"Earnings per Share", which specifies the computation, presentation and disclosure requirements for the Company's net income per share. Basic net income per preferred share is computed by dividing net income by the weighted average number of shares outstanding during the period. Diluted net income per preferred share reflects the potential dilution that could occur if securities or other contracts to issue shares were exercised or converted into shares. There were no potential dilutive shares outstanding at December 31, 2003 and 2002. Subsequent to the completion of the offering of preferred shares, the holders of common stock are not entitled to share in any income nor in any related dividend.

3. Recent Accounting Standards

In June 2002, the FASB issued SFAS No. 146 "Accounting for Costs Associated with Exit or Disposal Activities". This statement was effective January 1, 2003. SFAS No. 146 replaces current accounting literature and requires the recognition of costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. The adoption of this statement did not have a material effect on the Company's financial position, results of operations and cash flows.

4. Income Taxes

The Company files as a REIT under Sections 856-860 of the Internal Revenue Code of 1986, as amended. In order to qualify as a REIT, the Company is required to distribute at least 90% of its taxable income to shareholders and to meet certain asset and income tests as well as certain other requirements. The Company will generally not be liable for federal income taxes, provided it satisfies these requirements. Even as a qualified REIT, the Company is subject to certain state and local taxes on its income and property.

For the period ended December 31, 2002, the Company incurred a net operating loss for income tax purposes of approximately \$2,932,000 that can be carried forward until it expires in the year 2022.

At December 31, 2003, the Company's net tax basis of its real estate assets was \$50,421,000.

The following schedule reconciles net income (loss) to taxable income subject to dividend requirements:

(in thousands)	Year Ended December 31, 2003	Period Ended December 31, 2002
GAAP net income (loss)	\$ 4,005	\$ (2,869)

Straight-line rents	(322)	(99)
Taxable income (loss) (1)	\$ 3,987	\$ (2,921)

(1) A tax loss is not subject to a dividend requirement.

5. Cash Available for Distribution

The Company evaluates its performance based on Cash Available for Distribution ("CAD") as management believes that CAD represents the most accurate measure of the Company's activity. CAD is the basis for distributions paid to equity holders.

The Company defines CAD as: net income as computed in accordance with accounting principles generally accepted in the United States of America ("GAAP"); plus certain non-cash items included in the computation of net income (depreciation and amortization and straight line rent adjustments); plus funds raised by the issuance of shares; plus the net proceeds from the sale of land; less purchases of real estate assets (including acquired leases), property and equipment ("Capital Expenditures"), and payments for deferred leasing commissions; plus (less) proceeds from (payments to) cash reserves established at the acquisition date of the property ("Cash-funded reserves"). Depreciation and amortization and straight-line rents are an adjustment to CAD, as these are non-cash items included in net income. Capital Expenditures, payments for deferred leasing commissions and the proceeds from (payments to) the funded reserve are an adjustment to CAD, as they represent cash items not reflected in income.

CAD should not be considered as an alternative to net income (determined in accordance with GAAP), as an indicator of the Company's financial performance, nor as an alternative to cash flows from operating activities (determined in accordance with GAAP), nor as a measure of the Company's liquidity, nor is it necessarily indicative of sufficient cash flow to fund all of the Company's needs. Other real estate companies may define CAD in a different manner. It is at the Company's discretion to retain a portion of CAD for operational needs. Management believes that in order to facilitate a clear understanding of the results of the Company, CAD should be examined in connection with net income and cash flows from operating, investing and financing activities in the financial statements.

The calculation of cash available for distribution is shown in the following table:

(in thousands)	Period Ended	
	2003	2002

6. Capital Stock

PREFERRED STOCK

Generally, each holder of Shares of Preferred Stock is entitled to receive ratably all dividends, if any, declared by the Board of Directors out of funds legally available. The right to receive dividends shall be non-cumulative, and no right to dividends shall accrue by reason of the fact that no dividend has been declared in any prior year. Each holder of Shares will be entitled to receive, to the extent that funds are available therefore, \$100,000 per Share, before any payment to the holder of Common Stock, out of distributions to stockholders upon liquidation, dissolution or the winding up of the Company; the balance of any such funds available for distribution will be distributed among the holders of Shares and the holder of Common Stock, pro rata based on the number of shares held by each; provided, however, that for these purposes, one share of Common Stock will be deemed to equal one-tenth of a share of Preferred Stock.

In addition to certain voting rights provided in the corporate agreements, the holder of Shares, acting by consent of at least 51%, shall have the further right to approve or disapprove a proposed sale of the Property, the merger of the Company with any other entity and amendments to the corporate charter. A vote of the holders of 66.67% of the Shares is required for the issue of any additional shares of capital stock. Holders of Shares have no redemption or conversion rights.

COMMON STOCK

Franklin Street Properties Corp. ("FSP"), is the sole holder of the Company's Common Stock. FSP has the right, as one class together with the holders of Preferred Stock, to vote to elect the directors of the Company and to vote on

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

all matters except those voted by the holders of Shares of Preferred Stock. Subsequent to the completion of the offering of the preferred shares the holders of common shares are not entitled to share in any income, nor in any related dividend.

7. Related Party Transactions

The Company executed a management agreement with FSP Property Management LLC, an affiliate of FSP, that provides for a management fee equal to 1% of collected revenues and is cancelable with 30 days notice by either party. For the period ended December 31, 2003 and 2002, fees incurred under the agreement were \$79,000 and \$19,000, respectively.

An acquisition fee of \$318,000 and other costs of \$67,000 were paid in 2002 to an affiliate of the Common Shareholder. Such fees were included in the cost of the real estate.

Syndication fees of \$5,227,000 were paid in 2002 to an affiliate of the Common Shareholder for services related to syndication of the Company's preferred stock.

During 2002, the Company borrowed and repaid in full a note payable to FSP, principal of \$51,500,000, with interest equal to the Citizens Bank base rate. Interest paid to FSP was \$240,000. The average interest rate during the time the loan was outstanding was 4.44%.

A commitment fee of \$3,657,000 was paid to FSP for obtaining the first mortgage loan. Such amount is included in interest expense on the Statement of Operations.

The Company paid a dividend of \$313,000 to the common shareholder relating to earnings of the Company prior to the completion of the offering of preferred shares.

1. Organization and Basis of Presentation

FSP Collins Crossing Corp. (the "Company") was organized on January 16, 2003 as a Corporation under the laws of the State of Delaware to purchase, own and operate a commercial office building located in Richardson, TX (the "Property"). Completed in 1999, the Property consists of an eleven story Class "A" suburban office tower that contains approximately 298,766 square feet of space situated on approximately ten acres of land (including an undeveloped parcel containing approximately 3.5 acres). The company acquired the Property on March 3, 2003.

BASIS OF PRESENTATION

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

The accompanying interim financial statements are unaudited; however, the financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair presentation of the financial statements for these interim periods have been included.

Certain prior-year balances have been reclassified in order to conform to the current-year presentation.

These financial statements should be read in conjunction with the Company's financial statements and notes thereto for its fiscal year ended December 31, 2003

ESTIMATES AND ASSUMPTIONS

The Company prepares its financial statements and related notes in conformity with accounting principles generally accepted in the United States of America ("GAAP"). These principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

2. Net Income Per Share

Basic net income per preferred share is computed by dividing net income attributed to preferred shareholders by the weighted average number of preferred shares outstanding during the period. Diluted net income per preferred share reflects the potential dilution that could occur if securities or other contracts to issue shares were exercised or converted into shares. There were no potential dilutive shares outstanding at June 30, 2004 and 2003. Subsequent to the completion of the offering of preferred shares, the holders of common stock are not entitled to share in any income nor in any related dividend.

3. Income Taxes

The Company has elected to be taxed as a Real Estate Investment Trust ("REIT") under Sections 856-860 of the Internal Revenue Code of 1986, as amended. In order to qualify as a REIT, the Company is required to distribute at least 90% of its taxable income to shareholders and to meet certain asset and income tests as well as certain other requirements. The Company will generally not be liable for federal income taxes, provided it satisfies these requirements. Even as a qualified REIT, the Company is subject to certain state and local taxes on its income and property.

4. Cash Available for Distribution

The Company evaluates its performance based on Cash Available for Distribution ("CAD") as management believes that CAD represents the most accurate measure of

the Company's activity. CAD is the basis for distributions paid to equity holders.

The Company defines CAD as: net income as computed in accordance with accounting principles generally accepted in the United States of America ("GAAP"); plus certain non-cash items included in the computation of net income (depreciation and amortization, and straight line rent adjustments); plus funds raised by the issuance of shares; plus the net proceeds from the sale of land; less purchases of real estate assets (including acquired leases): property and equipment ("Capital Expenditures"), payments for deferred leasing commissions and payments for deferred lease origination costs; plus (less) proceeds from (payments to) cash reserves established at the acquisition date of the property (cash-funded reserves). Depreciation and amortization and straight-line rents are an adjustment to CAD, as these are non-cash items included in net income. Capital Expenditures, payments of deferred leasing commissions and payments for deferred lease origination costs and the proceeds from (payments to) the funded reserve are an adjustment to CAD, as they represent cash items not reflected in income.

INDEPENDENT AUDITOR'S REPORT

To the Stockholders
FSP Collins Crossing Corp.

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

We have audited the accompanying balance sheet of FSP Collins Crossing Corp. as of December 31, 2003, and the related statements of operations, changes in stockholders' equity and cash flows for the period from January 16, 2003 (date of inception) to December 31, 2003. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of FSP Collins Crossing Corp. as of December 31, 2003, and the results of its operations and its cash flows for the initial period then ended in conformity with accounting principles generally accepted in the United States of America.

FSP Collins Crossing Corp. Notes to Financial Statements

1. Organization

FSP Collins Crossing Corp. (the "Company") was organized on January 16, 2003 as a Corporation under the laws of the State of Delaware to purchase, own and operate a commercial office building located in Richardson, TX (the "Property"). Completed in 1999, the Property consists of an eleven story Class "A" suburban office tower that contains approximately 298,766 square feet of space situated on approximately ten acres of land (including an undeveloped parcel containing approximately 3.5 acres). The company acquired the Property on March 3, 2003.

2. Summary of Significant Accounting Policies

BASIS OF PRESENTATION

The results of operations from inception to date are not necessarily indicative of the results to be obtained for other interim periods or for the full fiscal year.

ESTIMATES AND ASSUMPTIONS

The Company prepares its financial statements and related notes in conformity with accounting principles generally accepted in the United States of America ("GAAP"). These principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

REAL ESTATE AND DEPRECIATION

Real estate assets are stated at the lower of cost or fair value, as appropriate, less accumulated depreciation.

Costs related to property acquisition and improvements are capitalized. Typical capital items include new roofs, site improvements, various exterior building improvements and major interior renovations. Funding for capital improvements typically is provided by cash set aside at the time the Property was purchased.

Routine replacements and ordinary maintenance and repairs that do not extend the life of the assets are expensed as incurred. Typical expense items include interior painting, landscaping and minor carpet replacements. Funding for repairs and maintenance items typically is provided by cash flows from operating activities.

Depreciation is computed using the straight-line method over the assets' estimated useful lives as follows:

Category	Years
-----	-----
Building - Commercial	39
Building Improvements	15-39
Furniture and Equipment	5-7

REAL ESTATE AND DEPRECIATION (continued)

The following schedule reconciles the cost of the property as shown in the Offering Memorandum as to the amounts shown on the Company's Balance Sheet:

(in thousands)

Price per Offering Memorandum	\$45,175
Plus: Acquisition fees	277
Plus: Other acquisition costs	205

Total Acquisition Costs	\$45,657
=====	

These costs are reported in the Company's Balance Sheet as follows:

Land	\$ 4,022
Building	34,224
Acquired real estate leases	2,267
Acquired favorable real estate lease	5,144

Total reported on Balance Sheet	\$45,657
=====	

The Company evaluates its assets used in operations by identifying indicators of impairment and by comparing the sum of the estimated undiscounted future cash flows for each asset to the asset's carrying value. When indicators of impairment are present and the sum of the undiscounted future cash flows is less than the carrying value of such asset, an impairment loss is recorded equal to the difference between the asset's current carrying value and its fair value based on discounting its estimated future cash flows. At December 31, 2003, no such indicators of impairment were identified.

ACQUIRED REAL ESTATE LEASES

Acquired real estate leases represents the estimated value of legal and leasing costs related to acquired leases that were included in the purchase price when the Company acquired the Property. Under SFAS No. 141 "Business Combinations" ("SFAS 141"), which was approved by the Financial Accounting Standards Board ("FASB") in June 2001, the Company is required to segregate these costs from its investment in real estate. The Company subsequently amortizes these costs on a straight-line basis over the weighted-average remaining life of the related leases. Amortization expense of \$349,000 is included in Depreciation and Amortization in the Company's Statement of Operations for the period ended December 31, 2003.

Acquired real estate lease costs included in the purchase price of the property were \$2,267,000 and are being amortized over the period of five years in respect of the leases assumed. Detail of the acquired real estate lease costs as of December 31, 2003:

ACQUIRED FAVORABLE REAL ESTATE LEASE

Acquired favorable real estate lease is the estimated benefit the Company receives when the lease payments due under a tenant's lease exceed the market rate of the lease at the date the property was acquired. Under SFAS 141 the Company is required to report this value separately from its investment in real estate. The Company subsequently amortizes this amount on a straight-line basis over the remaining life of the tenant's lease. Amortization of \$791,000 is shown as a reduction of rental income in the Company's Statement of Operations for the period ended December 31, 2003.

The acquired favorable real estate leases included in the purchase price of the property was \$5,144,000 and is being amortized over the period of five years in respect of the lease assumed. Details of the acquired favorable real estate lease as of December 31, 2003:

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid debt instruments with an initial maturity of three months or less to be cash equivalents.

CASH-FUNDED RESERVES

The Company has set aside funds in anticipation of future capital needs of the Property. Although these funds typically are used for the payment of real estate assets and deferred leasing commissions, there is no legal restriction on their use and they may be used for any Company purpose.

RESTRICTED CASH

Restricted cash consists of tenant security deposits.

MARKETABLE SECURITIES

The Company accounts for investments in debt securities under the provisions of Statement of Financial Accounting Standards No. 115, "Accounting for Certain Investments in Debt and Equity Securities". The Company typically classifies its debt securities as available-for-sale.

There were no investments in marketable securities at December 31, 2003.

CONCENTRATION OF CREDIT RISKS

Cash, cash equivalents and short-term investments are financial instruments that potentially subject the Company to a concentration of credit risk. The Company maintains its cash balances and short-term investments principally in one bank which the Company believes to be creditworthy. The Company periodically assesses the financial condition of the bank and believes that the risk of loss is minimal. Cash balances held with various financial institutions frequently exceed the insurance limit of \$100,000 provided by the Federal Deposit Insurance Corporation.

For the period ended December 31, 2003 rental income was derived from various tenants. As such, future receipts are dependent upon the financial strength of the lessees and their ability to perform under the lease agreements.

The following tenant represents greater than 10% of total revenue:

INET	80%
------	-----

FINANCIAL INSTRUMENTS

The Company estimates that the carrying value of cash and cash equivalents, cash-funded reserves and restricted cash approximate their fair values based on their short-term maturity and prevailing interest rates.

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

STEP RENT RECEIVABLE

Certain leases provide for fixed increases over the life of the lease. Rental revenue is recognized on the straight-line basis over the related lease term; however, billings by the Company are based on required minimum rentals in accordance with the lease agreements. Step rent receivable, which is the cumulative revenue recognized in excess of amounts billed by the Company, is \$279,000 at December 31, 2003.

TENANT RENTS RECEIVABLE

Tenant rents receivable are reported at the amount the Company expects to collect on balances outstanding at year-end. Management monitors outstanding balances and tenant relationships and concluded that any realization losses would be immaterial.

SYNDICATION FEES

Syndication fees are selling commissions and other costs associated with the initial offering of the Company's preferred shares. Such costs, in the amount of \$4,410,000 have been reported as reduction in Stockholders' Equity in the Company's Balance Sheet.

2. Summary of Significant Accounting Policies (continued)

REVENUE RECOGNITION

The Company has retained substantially all of the risks and benefits of ownership of the Company's commercial properties and accounts for its leases as operating leases. Rental income from leases, which may include rent concession (including free rent and tenant improvement allowances) and scheduled increases in rental rates during the lease term, is recognized on a straight-line basis. The Company does not have any percentage rent arrangements with its commercial property tenants. Reimbursable costs are included in rental income in the period earned. A schedule showing the components of rental revenue is shown below.

(in thousands)	Period Ended December, 31 2003
Income from leases	\$ 5,559
Straight-line rent adjustment	279
Reimbursable expenses	625
Amortization of favorable lease	(791)

Total	\$ 5,672
=====	

INTEREST INCOME

Interest income is recognized when the related services are performed and the earnings process is complete.

INCOME TAXES

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 8-K

The Company has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended. As a REIT, the Company generally is entitled to a tax deduction for dividends paid to its shareholders, thereby effectively subjecting the distributed net income of the Company to taxation at the shareholder level only. The Company must comply with a variety of restrictions to maintain its status as a REIT. These restrictions include the type of income it can earn, the type of assets it can hold, the number of shareholders it can have and the concentration of their ownership, and the amount of the Company's taxable income that must be distributed annually.

NET INCOME PER SHARE

The Company follows Statement of Financial Accounting Standards No. 128 "Earnings per Share", which specifies the computation, presentation and disclosure requirements for the Company's net income per share. Basic net income per share is computed by dividing net income by the weighted average number of shares outstanding during the period. Diluted net income per share reflects the potential dilution that could occur if securities or other contracts to issue shares were exercised or converted into shares. There were no potential dilutive shares outstanding at December 31, 2003. Subsequent to the completion of the offering of preferred shares, the holders of common stock are not entitled to share in any income nor any related dividend.

3. Recent Accounting Standards

In June 2002, the FASB issued SFAS No. 146 "Accounting for Costs Associated with Exit or Disposal Activities". This statement was effective January 1, 2003. SFAS No. 146 replaces current accounting literature and requires the recognition of costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. The Company does not anticipate that the adoption of this statement will have a material effect on the Company's financial position, results of operations and cash flows.

4. Income Taxes

The Company files as a REIT under Sections 856-860 of the Internal Revenue Code of 1986, as amended. In order to qualify as a REIT, the Company is required to distribute at least 90% of its taxable income to shareholders and to meet certain asset and income tests as well as certain other requirements. The Company will generally not be liable for federal income taxes, provided it satisfies their requirements. Even as a qualified REIT, the Company is subject to certain state and local taxes on its income and property.

At December 31, 2003, the Company's net tax basis of its real estate assets was \$41,634,000.

5. Cash Available for Distribution

The Company evaluates its performance based on Cash Available for Distribution ("CAD") as management believes that CAD represents the most accurate measure of the Company's activity. CAD is the basis for distributions paid to equity holders.

The Company defines CAD as: net income as computed in accordance with accounting principles generally accepted in the United States of America ("GAAP"); plus certain non-cash items included in the computation of net income (depreciation and amortization, and straight line rent adjustments); plus funds raised by the issuance of shares; plus the net proceeds from the sale of land; less purchases of real estate assets (including acquired leases): property and equipment ("Capital Expenditures"), payments for deferred leasing commissions and payments for deferred lease origination costs; plus (less) proceeds from (payments to) cash reserves established at the acquisition date of the property (cash-funded reserves). Depreciation and amortization and straight-line rents are an adjustment to CAD, as these are non-cash items included in net income. Capital Expenditures, payments of deferred leasing commissions and payments for deferred lease origination costs and the proceeds from (payments to) the funded reserve are an adjustment to CAD, as they represent cash items not reflected in inco
