(Mark One)

☒ ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the fiscal year ended November 30, 2013

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-31892

SYNNEX CORPORATION

(Exact name of registrant as specified in its charter)

Delaware	94-2703333
(State or other jurisdiction of incorporation or organization)	(IRS Employer Identification No.)

44201 Nobel Drive	94538
Fremont, California	
(Address of principal executive offices)	(Zip Code)

(510) 656-3333

(Registrant's telephone number, including area code)

Securities registered to Section 12(b) of the Act:

Common Stock, par value \$0.001 per share

New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☒ No ☐

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Edgar Filing: SYNEX CORP - Form 10-K

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K ☒ S

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one).

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☒ Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒ S

The aggregate market value of Common Stock held by non-affiliates of the registrant (based upon the closing sale price on the New York Stock Exchange as of the last business day of the registrant's most recently completed second fiscal quarter May 31, 2013) was \$1,069,716,056. Shares held by each executive officer, director and by each person who owns 10% or more of the outstanding Common Stock have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes. As of January 15, 2014, there were 37,731,540 shares of Common Stock, \$0.001 per share par value, outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Items 10 (as to directors and Section 16(a) Beneficial Ownership Reporting Compliance), 11, 12 (as to Beneficial Ownership), 13 and 14 of Part III incorporate by reference information from the registrant's proxy statement to be filed with the Securities and Exchange Commission in connection with the solicitation of proxies for the registrant's 2014 Annual Meeting of Stockholders to be held on March 25, 2014.

PART I

When used in this Annual Report on Form 10-K (the “Report”), the words “believes,” “plans,” “estimates,” “anticipates,” “expects,” “intends,” “allows,” “can,” “may,” “designed,” “will,” and similar expressions are intended to identify forward-looking statements. These are statements that relate to future periods and include statements about our business model and our services, our market strategy, including expansion of our product lines, our infrastructure, our investment in our information technology, or IT, systems, anticipated benefits, cost and timing of our acquisitions, including our acquisition of the customer care business of International Business Machines Corporation, or IBM, our employee hiring, impact of MiTAC Holdings Corporation, or MiTAC Holdings, ownership interest in us, our revenue, sources of revenue and operating results, our gross margins, competition with Synnex Technology International Corp., our future needs for additional financing, concentration of customers, adequacy of our facilities, our legal proceedings, our international operations, expansion of our operations, our strategic acquisitions of businesses and assets, effects of future expansion of our operations, adequacy of our cash resources to meet our capital needs, cash held by our foreign subsidiaries, adequacy of our disclosure controls and procedures, dependency on personnel, pricing pressures, competition, impact of rules and regulations affecting public companies, impact of our pricing policies, our anti-dilution share repurchase program, impact of our accounting policies, and statements regarding our securitization programs and revolving credit lines. Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those projected. These risks and uncertainties include, but are not limited to, those risks discussed below, as well as the seasonality of the buying patterns of our customers, concentration of sales to large customers, dependence upon and trends in capital spending budgets in the IT and consumer electronics, or CE, industries, fluctuations in general economic conditions and risks set forth below under Part I, Item 1A, “Risk Factors.” These forward-looking statements speak only as of the date hereof. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

In the sections of this Report entitled “Business Overview” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” all references to “SYNNEX,” “we,” “us,” “our” or the “Company” mean SYNnex Corporation and our subsidiaries, except where it is made clear that the term means only the parent company or one of its segments.

SYNNEX, the SYNnex Logo, CONCENTRIX, the CONCENTRIX Logo, EMJ, HYVE SOLUTIONS, NEW AGE ELECTRONICS, the NEW AGE ELECTRONICS Logo, JACK OF ALL GAMES, the JACK OF ALL GAMES Logo, PRINTSOLV, VARNEX, PC WHOLESALE, ASPIRE, ENCOVER, GEM, VISIONMAX and all other SYNnex company, product and service names and slogans are trademarks or registered trademarks of SYNnex Corporation. SYNnex, the SYNnex Logo, CONCENTRIX, HYVE SOLUTIONS, PRINTSOLV, and VARNEX Reg. U.S. Pat. & Tm. Off. Other names and marks are the property of their respective owners.

Item 1. Business Overview

We are a Fortune 500 corporation and a leading business process services company, servicing resellers, retailers and original equipment manufacturers, or OEMs, in multiple regions around the world. Our primary business process services are wholesale distribution and business process outsourcing, or BPO. We operate in two segments: distribution services and global business services, or GBS. Our distribution services segment distributes peripherals, IT systems including data center server and storage solutions, system components, software, networking equipment, CE, and complementary products. Within our distribution services segment, we also provide design and integration services. Our GBS segment offers a range of BPO services to customers that include direct sales, technical support, customer care, lead management, renewals management, back office processing and information technology outsourcing, or ITO. Many of these services are delivered and supported on the proprietary software platforms we have developed to provide additional value to our customers.

We combine our core strengths in distribution with our BPO services to help our customers and vendors achieve greater efficiencies in time to market, cost minimization, real-time linkages in the supply chain and after-market product support. We distribute more than 30,000 technology products (as measured by active SKUs) from more than

300 IT, CE and OEM suppliers to more than 20,000 resellers, system integrators, and retailers throughout the United States, Canada, Japan and Mexico. As of November 30, 2013, we had over 14,500 full-time and temporary employees worldwide. From a geographic perspective, approximately 88% of our total revenue was from North America for the fiscal year 2013 and 87% for both the fiscal years 2012 and 2011.

Table of Contents

In our distribution services segment, we purchase peripherals, IT systems, system components, software, networking equipment, including CE and complementary products, from our primary suppliers and sell them to our reseller and retail customers. We perform a similar function for our distribution of licensed software products. Our reseller customers include value-added resellers, or VARs, corporate resellers, government resellers, system integrators, direct marketers, and national and regional retailers. In our distribution business, we provide comprehensive IT solutions in key vertical markets such as government and healthcare and we also provide specialized service offerings that increase efficiencies in areas like print management, renewals, networking and other services. Additionally, within our distribution services segment, we provide data center servers and storage solutions built specific to our customer's datacenter environments.

Our distribution services segment operates in the distribution and design and integration service industries, which are characterized by low gross profit as a percentage of revenue, or gross margin, and low income from operations as a percentage of revenue, or operating margin. The market for IT and CE products and services is generally characterized by declining unit prices and short product life cycles. We set our sales price based on the market supply and demand characteristics for each particular product or bundle of products we distribute and services we provide.

In our distribution services segment, we are highly dependent on the end-market demand for IT and CE products and services. This end-market demand is influenced by many factors including the introduction of new IT and CE products and software by OEMs, replacement cycles for existing IT and CE products, overall economic growth and general business activity. A difficult and challenging economic environment may also lead to consolidation or decline in the IT and CE industries and increased price-based competition.

In our GBS segment, we provide a comprehensive range of services to enhance the customer lifecycle and to acquire, support and renew customer relationships. Our customers are primarily manufacturers of IT hardware and CE devices, developers of software, cloud service providers, and broadcast and social media.

Our GBS segment generates revenue from performing services that are generally tied to our customers' products and how they are received in the marketplace. Any shift in business or size of the market for our customers' products, any failure of technology and failure of acceptance of our customers' products in the market may impact our business. Generally, the employee turnover rate in this business and the risk of losing experienced employees are high. Higher turnover rates can increase costs and decrease the operating efficiencies and productivity.

To expand our GBS segment, in September 2013, we entered into an agreement with International Business Machines Corporation, or IBM, to acquire IBM's customer care business. The initial closing of the acquisition is expected to occur in the first calendar quarter of 2014.

We have been in business since 1980 and are headquartered in Fremont, California. We have operations in North America, Central America, Asia and Europe. We were originally incorporated in the State of California as COMPAC Microelectronics, Inc. in November 1980, and we changed our name to SYNnex Information Technologies, Inc. in February 1994. We later reincorporated in the State of Delaware under the name of SYNnex Corporation in October 2003.

Our Products and Suppliers

We distribute a broad line of IT products, including IT systems, peripherals, system components, software and networking equipment for more than 300 OEM suppliers, enabling us to offer comprehensive solutions to our reseller and retail customers.

For the fiscal year 2013, our product mix by category was in the following ranges:

Product Category:

Peripherals	36% - 40%
IT Systems	29% - 33%
System Components	15% - 19%
Software	6% - 10%
Networking Equipment	4% - 8%

Our suppliers include leading IT systems, networking equipment, software, peripherals and CE manufacturers. Our primary OEM suppliers are Hewlett-Packard Company, or HP, Acer Inc., Asus Tek Computer Inc., Beats Electronics

LLC, Intel Corporation, Lenovo, Lexmark International Inc., Microsoft Corporation, Panasonic Corporation and Seagate Technologies LLC.

Table of Contents

Our largest OEM supplier is HP. Revenue from the sale of HP products and services represented approximately 31%, 36% and 35% of our revenue for fiscal years 2013, 2012 and 2011, respectively. As is typical with our OEM supplier agreements, our United States Business Development Partner Agreement with HP is short-term and may be terminated without cause upon short notice. In the event of any breach of the agreement by us, HP may terminate the agreement and we may be required to refund HP any discounts or program payments paid during the period we were in breach of the agreement and reimburse HP for reasonable attorneys' fees. In the event the agreement is terminated for cause or if we fail to perform our obligations under the agreement, our agreement with HP for the resale of products, support and services will automatically terminate upon such default or termination. If either party becomes insolvent or bankrupt, the other party may terminate the agreement without notice and cancel any unfulfilled obligations, except for payment obligations. Some of our subsidiaries also have territorial supplier agreements with subsidiaries of HP located in the respective countries.

In addition to HP, we have distribution agreements with most of our suppliers. These agreements usually provide for nonexclusive distribution rights and pertain to specific geographic territories. The agreements are also generally short-term, subject to periodic renewal, and often contain provisions permitting termination by either our supplier or us without cause upon relatively short notice. An OEM supplier that elects to terminate a distribution agreement will generally repurchase its products carried in our inventory.

Our distribution and design and integration business subjects us to the risk that the value of our inventory will be affected adversely by suppliers' price reductions or by technological changes affecting the usefulness or desirability of the products comprising our inventory. Many of our OEM suppliers offer us limited protection from the loss in value of our inventory due to technological change or a supplier's price reduction. Under many of these agreements, we have a limited period of time to return or exchange products or claim price protection credits. We monitor our inventory levels and attempt to time our purchases to maximize our protection under supplier programs.

Our Customers

We distribute IT products to more than 20,000 resellers, system integrators and retailers. Resellers are classified primarily by their end-user customers. End-users include large corporations or enterprises, federal, state and local governments, small/medium sized businesses, or SMBs, and individual consumers. In addition, resellers vary greatly in size and geographic reach. Our reseller customers buy from us and other distributors. Our larger reseller customers also buy certain products directly from OEM suppliers. System integrators offer services in addition to product resale, primarily in systems customization, integration, and deployment. Retailers serve mostly individual end-users and to a small degree, small office/home office customers. We also provide data center servers and storage solutions built specific to our customers' datacenter environments.

In our GBS segment, our customers are primarily manufacturers of IT hardware and CE devices, developers of software, cloud service providers, and broadcast and social media. We serve over 150 customers in this segment. In fiscal years 2013, 2012 and 2011, no customer accounted for 10% or more of our revenue. Some of our largest customers include Best Buy Inc., CDW Corporation, Insight Enterprises, Inc., Newegg Inc. and SHI International Corporation.

Our Services

We offer a variety of business process services to our customers. These services can be purchased individually or they can be purchased in combination with others in the form of supply chain solutions and after-market product support.

The two major categories of services include the following:

Distribution Services. We have sophisticated pick, pack and ship operations, which allows us to efficiently receive shipments from our OEM suppliers and quickly fill orders for our reseller and retail customers. We generally stock or otherwise have access to the inventory of our OEM suppliers to satisfy the demands of our reseller and retail customers.

BPO Services. We offer a range of BPO services to customers that include technical support, renewals management, lead management, direct sales, customer service, back office processing and information technology outsourcing. Many of these services are delivered and supported on the proprietary software platforms that we have developed to provide additional value to our customers.

The above major categories of services are complemented by the following:

Design and Integration Services. Through our Hyve Solutions division, we design and manufacture energy efficient and cost effective datacenter servers and storage solutions which are built specific to the datacenter environments and actual workloads of our large scale data center customers. We provide our customers with systems design and full rack integration services, build-to-order, or BTO, and configure-to-order, or CTO, assembly capabilities. BTO assembly consists of building a group of systems with the same pre-defined specifications, generally for our customers' inventory. CTO assembly consists of

Table of Contents

building a customized system for a customer's individual order specifications. In both cases, we offer design, integration, test and other production value-added services such as kitting, reconfiguration, asset tagging and hard drive imaging.

Logistics Services. We provide logistics support to our reseller customers such as outsourced fulfillment, virtual distribution and direct ship to end-users. Other logistics support activities we provide include generation of customized shipping documents, multi-level serial number tracking for customized, configured products and online order and shipment tracking. We also offer full turn-key logistics solutions designed to address the needs of large volume or specialty logistics services. Our full turn-key service offering is modular in nature and is designed to cover all aspects of the logistics lifecycle including, transportation management, inventory optimization, complementary product matching, reverse logistics, asset refurbishment and disposal and strategic procurement.

Online Services. We maintain electronic data interchange, or EDI, extensible markup language or XML, and web-based communication links with many of our reseller and retail customers. These links improve the speed and efficiency of our transactions with our customers by enabling them to search for products, check inventory availability and prices, configure systems, place and track orders, receive invoices, review account status and process returns. We also have web-based application software that allows our customers or their end-user customers to order software and take delivery online.

Financing Services. We offer our reseller customers a wide range of financing options, including net terms, third party leasing, floor plan financing, letters of credit backed financing and arrangements where we collect payments directly from the end-user. The availability and terms of our financing services are subject to our credit policies or those of third party financing providers to our customers.

Marketing Services. We offer our OEM suppliers a full range of marketing activities targeting resellers, system integrators and retailers including direct mail, external media advertising, reseller product training, targeted telemarketing campaigns, national and regional trade shows, trade groups, database analysis, print on demand services and web-based marketing.

Technical Solutions Services. We provide our reseller customers technical support services, including pre-sales and post-sales support.

Sales and Marketing

For distribution, we serve our large commercial, government reseller and retail customers through dedicated sales professionals. We market to smaller resellers and OEMs through dedicated regional sales teams. In addition, we have dedicated product management and business development specialists that focus on the sale and promotion of the products and services of selected suppliers or for specific end-market verticals. These specialists are also directly involved in establishing new relationships with leading OEMs to create demand for their products and services and with resellers for their customers' needs. Our sales and marketing professionals are complemented by members of our executive management team who are integral in identifying potential new customer opportunities, promoting sales growth and ensuring customer satisfaction. We have sales and marketing professionals in close geographic proximity to our reseller, retail and OEM customers.

As part of our GBS segment, we have sales teams dedicated to cultivating new BPO opportunities in customer acquisition and management, technical support and renewals management on a global platform.

Our Operations

In our distribution segment, we operate approximately 40 distribution and administrative facilities in the United States, Canada, Japan and Mexico. Our distribution processes are highly automated to reduce errors, ensure timely order fulfillment and enhance the efficiency of our warehouse operations and back office administration. Our distribution facilities are geographically dispersed to be near reseller customers and their end-users. This decentralized, regional strategy enables us to benefit from lower shipping costs and shorter delivery lead times to our customers. Furthermore, we track several performance measurements to continuously improve the efficiency and accuracy of our distribution operations. Our regional locations also enable us to make local deliveries and provide will-call fulfillment to more customers than if our distribution operations were more centralized, resulting in better service to our customers. Our workforce is comprised of permanent and temporary employees, enabling us to respond to short-term changes in order activity.

Our proprietary IT systems and processes enable us to automate many of our distribution operations. We use radio frequency and bar code scanning technologies in all of our warehouse operations to maintain real-time inventory records, facilitate frequent cycle counts and improve the accuracy of order fulfillment. We use hand-held devices to capture real-time labor cost data to efficiently manage our daily labor costs.

Table of Contents

To enhance the accuracy of our distribution order fulfillment and protect our inventory from shrinkage, our distribution systems also incorporate numerous controls. These controls include order weight checks, bar code scanning, and serial number profile verification. We also use digital video imaging to record our small package shipping activities by order. These images and other warehouse and shipping data are available online to our customer service representatives, enabling us to quickly respond to order inquiries by our customers.

We operate our principal design and integration facilities in the United States and we operate integration facilities in the United Kingdom. We generally design and integrate IT systems, data center servers, storage solutions and IT appliances, by incorporating system components from our distribution inventory and other sources. Within our Hyve Solutions division, we design and manufacture customized, energy efficient and cost effective data center servers and storage solutions. We provide systems and full rack integration services to our large scale data center customers. Additionally, we perform production value-added services, including kitting, asset tagging, hard drive imaging and reconfiguration. Our design and integration facilities are ISO 9001:2008 and ISO 14001:2004 certified.

In our GBS segment, we provide a comprehensive range of services to enhance the customer lifecycle and acquire, support and renew customer relationships. These services primarily consist of direct sales, technical support, customer care, lead management, renewals management, back office processing and information technology outsourcing, or ITO, back office support for sales, marketing and administrative functions. We operate approximately 35 delivery centers and administrative facilities in several countries. Services are provided from these global locations to customers worldwide in multiple languages. The services are supported by proprietary technology to enable efficient and secure customer contact through various methods including voice, chat, web, email, social media and digital print.

International Operations

Approximately 26% of our total revenue for both the fiscal years 2013 and 2012 and 27% for fiscal year 2011, originated outside of the United States. Approximately 14% of our total revenue for fiscal years 2013, 2012 and 2011 were generated in Canada. Approximately 10%, 11%, and 12% of our total revenue for fiscal years 2013, 2012, and 2011, respectively, were generated in Japan. A key element in our business strategy has been to locate our services in markets that are cost beneficial, but low risk. For a discussion of our net revenue by geographic region, please see Note 14—Segment Information in Notes to the Consolidated Financial Statements.

Sales concentrations in foreign jurisdictions subject us to various risks, including the impact of changes in the value of these foreign currencies relative to the US Dollar, which in turn can impact reported sales.

Purchasing

Product costs represent our single largest expense and IT and CE product inventory is one of our largest working capital investments. Furthermore, product procurement from our OEM suppliers is a highly complex process that involves incentive programs, rebate programs, price protection, volume and early payment discounts and other arrangements. Consequently, efficient and effective purchasing operations are critical to our success.

Our purchasing group works closely with many areas of our organization, especially our product managers who work closely with our OEM suppliers and our sales force, to understand the volume and mix of IT products that should be purchased. In addition, the purchasing group utilizes an internally developed, proprietary information systems application tool that further aids in forecasting future product demand based on several factors, including historical sales levels, expected product life cycle and current and projected economic conditions. Our information system tool also tracks warehouse and channel inventory levels and open purchase orders on a real-time basis enabling us to stock inventory at a regional level closer to the customer as well as to actively manage our working capital resources. This level of automation promotes greater efficiencies of inventory management by replenishing and turning inventory, as well as placing purchase orders on a more frequent basis. Furthermore, our system tool also allows for automated checks and controls to prevent the generation of inaccurate orders.

Managing our OEM supplier incentive programs is another critical function of our purchasing and product management teams. We attempt to maximize the benefits of incentives, rebates and volume and early payment discounts that our OEM suppliers offer us from time to time. We carefully evaluate these supplier incentive benefits relative to our product handling and carrying costs so that we do not overly invest in our inventory. We also closely monitor inventory levels on a product-by-product basis and plan purchases to take advantage of OEM supplier

provided price protection. By managing inventory levels and customer purchase patterns at each of our regional distribution facilities, we can minimize our shipping costs by stocking products near our resellers and retailers, and their end-user customers.

Table of Contents

Financial Services

We offer various financing options to our customers as well as prepayment, credit card and cash on delivery terms. We also collect outstanding accounts receivable on behalf of our reseller customers in certain situations. In issuing credit terms to our reseller and retail customers, we closely and regularly monitor their creditworthiness through our information systems, credit ratings information and periodic detailed credit file reviews by our financial services staff. We have also purchased credit insurance in some geographies to further control credit risks. Finally, we establish reserves for estimated credit losses in the normal course of business based on the overall quality and aging of the accounts receivable portfolio, the existence of a limited amount of credit insurance and specifically identified customer risks.

We also sell to certain reseller customers pursuant to third party floor plan financing. The expenses charged by these financing companies are subsidized either by our OEM suppliers or paid by us. We generally receive payment from these financing companies within 15 to 30 days from the date of sale, depending on the specific arrangement.

Information Technology

Within our distribution segment, our IT systems manage the entire order cycle, including processing customer orders, customer billing and payment tracking. These internally developed IT systems make our operations more efficient and provide visibility into our operations. We believe our IT infrastructure is scalable to support further growth. We continue to enhance and invest in our IT systems to improve product and inventory management, streamline order and fulfillment processes, and increase operational flexibility. Within our GBS segment, we invest in IT systems and infrastructure to enhance workforce management and improve productivity.

To allow our customers and suppliers to communicate and transact business with us in an efficient and consistent manner, we have implemented a mix of proprietary and off-the-shelf software programs that integrate our IT systems with those of our customers and suppliers. In particular, we maintain EDI, XML and web-based communication links with many of our reseller and retail customers to enable them to search for products, check real-time pricing, inventory availability and specifications, place and track orders, receive invoices and process returns.

Competition

We operate in a highly competitive environment, both in the United States and internationally. The IT product industry is characterized by intense competition, based primarily on product availability, credit terms, price, speed and accuracy of delivery, effectiveness of sales and marketing programs, ability to tailor specific solutions to customer needs, quality and depth of product lines, pre-sale and post-sale technical support, flexibility and timely response to design changes, technological capabilities and product quality, service and support. We compete with a variety of regional, national and international IT product distributors and manufacturers.

Our major competitors in IT product distribution include Arrow Electronics, Inc., Avnet, Inc., Ingram Micro, Inc., ScanSource, Inc., Tech Data Corporation and Westcon Group and, to a lesser extent, regional distributors. We also face competition from our OEM suppliers that sell directly to resellers, retailers and end-users. The distribution industry has historically undergone, and continues to undergo, consolidation. Over the years, a number of providers within the IT distribution industry exited or merged with other providers. We have participated in this consolidation through our recent acquisitions of Supercom Canada Limited, Marubeni Infotec Corporation, Jack of All Games, and New Age Electronics, and we continue to evaluate other new opportunities.

In our GBS segment, our competitors are both regional players as well as global companies. Our major competitors include Accenture, Convergys Corporation, ServiceSource International, Inc., Stream Global Services, Sykes Enterprises Inc., Teleperformance and TeleTech Holdings, Inc.

We constantly seek to expand our business into areas primarily related to our core distribution business as well as other support, logistics, BPO and related value-added services. In September 2013, we entered into an agreement with IBM to acquire IBM's customer care business to expand our GBS segment. The initial closing of the acquisition is expected to occur in the first calendar quarter of 2014 and is subject to customary closing conditions, including regulatory approvals. Completion of the acquisition is expected to add over 35,000 employees in six continents, providing delivery capabilities in over 40 languages and servicing approximately 170 customers from more than 40 delivery centers.

As we enter new business areas, we may encounter increased competition from our current competitors and/or new competitors. Some of our competitors are substantially larger and may have greater financial, operating, manufacturing and marketing resources than us. Some of our competitors may have broader geographic breadth and range of services than us. Some may have more developed relationships with their existing customers. We attempt to offset our comparative scale

Table of Contents

differences by focusing on a limited number of leading OEMs in the distribution services segment and by running a more efficient and low cost operation, and by offering a high level of value-added and customer service in both the distribution services and GBS segments.

Employees

As of November 30, 2013, we had approximately 13,500 full-time employees. Given the variability in our business and the quick response time required by customers, it is critical that we are able to rapidly ramp-up and ramp-down our operational capabilities to maximize efficiency. As a result, we frequently use a significant number of temporary or contract workers, which totaled approximately 1,000, on a full-time equivalent basis, as of November 30, 2013. Except for our employees in China, our employees are not represented by a labor union, nor are they covered by a collective bargaining agreement. We consider our employee relations to be good.

Available Information

Our website is <http://www.synnex.com>. We make available free of charge, on or through our website, our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports, if any, or other filings filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after electronically filing or furnishing these reports with the Securities and Exchange Commission, or SEC. Information contained on our website is not a part of this Report. We have adopted a code of ethics applicable to our employees including our principal executive, financial and accounting officers, and it is available free of charge, on our website's investor relations page.

The SEC maintains an Internet site at <http://www.sec.gov> that contains the Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports, if any, or other filings filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, proxy and information statements of ours. All reports that we file with the SEC may be read and copied at the SEC's Public Reference Room at 100 F Street, N.E., Washington, DC, 20549. Information about the operation of the Public Reference Room can be obtained by calling the SEC at 1-800-SEC-0330.

Item 1A. Risk Factors

The following are certain risk factors that could affect our business, financial results and results of operations. These risk factors should be considered in connection with evaluating the forward-looking statements contained in this Annual Report on Form 10-K because these factors could cause the actual results and conditions to differ materially from those projected in the forward-looking statements. Before you invest in our Company, you should know that making such an investment involves some risks, including the risks described below. The risks that have been highlighted here are not the only ones that we face. If any of the risks actually occur, our business, financial condition and results of operations could be negatively affected. In that case, the trading price of our common stock could decline, and you may lose all or part of your investment.

Risks Related to the Acquisition of IBM's Customer Care Business

Failure to complete the acquisition of IBM's customer care business could negatively impact our stock price and the future of our business and financial results.

We expect the initial closing for the acquisition of IBM's customer care business to occur in the first calendar quarter of 2014, subject to customary closing conditions and regulatory approvals. There is no assurance that we will receive the necessary regulatory approvals or satisfy the other conditions for the completion of the acquisition. If the acquisition is not completed for any reason, we will be subject to risks, including the following:

- the current market price of our common stock may reflect a market assumption that the acquisition will occur, and a failure to complete the acquisition could result in a negative perception by the market of us generally and a resulting decline in the market price of our common stock;

- we have incurred substantial transaction costs relating to the acquisition (including significant legal, accounting and consulting fees), and these substantial costs are payable by us whether or not the acquisition is completed;

- there may be a substantial disruption to our business and a distraction of our management and employees from day-to-day operations because matters related to the acquisition (including integration planning) may require substantial commitments of time and resources, which could otherwise have been devoted to other opportunities that could have been beneficial;

- the diversion of management time required by the acquisition could also adversely affect our results of operations and lead to the loss of important customers; and
- the loss of existing key and other employees could adversely affect our operations and business results.

Table of Contents

In addition, we would not realize any of the expected benefits of having completed the acquisition. If the acquisition is not completed, these risks may materialize and materially adversely affect our business, financial results, financial condition and stock price.

We may not be able to realize all of the anticipated benefits of the acquisition of IBM's customer care business if we fail to integrate this business successfully, which could reduce our profitability and adversely affect our stock price. If our proposed acquisition of IBM's customer care business closes, our ability to realize the anticipated benefits of the transaction will depend, in part, on our ability to integrate this customer care business successfully and efficiently with our business. The integration of this business in several geographic locations is a complex, costly and time-consuming process. The integration process may disrupt our business and, if implemented ineffectively, preclude realization of the full benefits expected by us. If we are not successful in this integration, our financial results could be adversely impacted. Our management will be required to dedicate significant time and effort to this integration process, which could divert their attention from other business concerns. In addition, the overall integration may result in unanticipated problems, expenses, liabilities, competitive responses, loss of customer and other relationships, a loss of key employees and other employees, and diversion of management's attention, and may cause our stock price to decline. The difficulties of combining the operations of the two businesses include, among others:

- challenges associated with minimizing the diversion of management attention from ongoing business concerns;
- coordinating geographically separate organizations which may be subject to additional complications resulting from being geographically distant from other parts of our operations;
- coordinating and combining international operations, relationships, and facilities, and eliminating duplicative operations;
- retaining key employees and maintaining employee morale, particularly in areas where we do not currently have personnel;
- unanticipated changes in general business or market conditions that might interfere with our ability to carry out all of our integration plans;
- unanticipated issues in integrating information, communications and other systems;
- issues not discovered in our due diligence process; and
- preserving important strategic and customer relationships.

In addition, even if the integration is successful, we may not realize the full potential benefits of the acquisition. Such benefits may not be achieved within the anticipated time frame, or at all. As a result, we cannot assure you that this acquisition will result in the realization of the full benefits anticipated from the acquisition.

Table of Contents

Risks Related to Our Business

We anticipate that our revenue and operating results will fluctuate, which could adversely affect the enterprise value of our Company and our securities.

Our operating results have fluctuated and will fluctuate in the future as a result of many factors, including:

- the impact of the business acquisitions and dispositions we make;
- general economic conditions and level of IT and CE spending;
- the loss or consolidation of one or more of our significant OEM suppliers or customers;
- market acceptance, product mix, quality, pricing, availability and useful life of our products;
- market acceptance, quality, pricing and availability of our services;
- competitive conditions in our industry;
- pricing, margin and other terms with our OEM suppliers;
- decline in inventory value as a result of product obsolescence and market acceptance;
- variations in our levels of excess inventory, vendor reserves and doubtful accounts;
- changes in the terms of OEM supplier-inventory protections, such as price protection and return rights; and
- the expansion of our design and integration sales and operations, globally.

Although we attempt to control our expense levels, these levels are based, in part, on anticipated revenue. Therefore, we may not be able to control spending in a timely manner to compensate for any unexpected revenue shortfall.

Our operating results also are affected by the seasonality of the IT and CE products and services industry. We have historically experienced higher sales in our fourth fiscal quarter due to patterns in the capital budgeting, federal government spending and purchasing cycles of end-users. These patterns may not be repeated in subsequent periods. You should not rely on period-to-period comparisons of our operating results as an indication of future performance. The results of any quarterly period are not indicative of results to be expected for a full fiscal year. In future quarters, our operating results may be below our expectations or those of our public market analysts or investors, which would likely cause our share price to decline.

We depend on a small number of OEMs to supply the IT and CE products and services that we sell and the loss of, or a material change in our business relationship with a major OEM supplier, could adversely affect our business, financial position and operating results.

Our future success is highly dependent on our relationships with a small number of OEM suppliers. For example, sales of HP products and services represented approximately 31%, 36%, and 35% of our total revenue for fiscal years 2013, 2012, and 2011, respectively. Our OEM supplier agreements typically are short-term and may be terminated without cause upon short notice. The loss or deterioration of our relationship with HP or any other major OEM supplier, the authorization by OEM suppliers of additional distributors, the sale of products by OEM suppliers directly to our reseller and retail customers and end-users, or our failure to establish relationships with new OEM suppliers or to expand the distribution and supply chain services that we provide OEM suppliers could adversely affect our business, financial position and operating results. In addition, OEM suppliers may face liquidity or solvency issues that in turn could negatively affect our business and operating results.

Our business is also highly dependent on the terms provided by our OEM suppliers. Generally, each OEM supplier has the ability to change the terms and conditions of its distribution agreements, such as reducing the amount of price protection and return rights or reducing the level of purchase discounts, incentive rebates and marketing programs available to us.

From time to time we may conduct business with a supplier without a formal agreement because the agreement has expired or otherwise terminated. In such case, we are subject to additional risk with respect to products, warranties and returns, and other terms and conditions. If we are unable to pass the impact of these changes through to our reseller and retail customers, our business, financial position and operating results could be adversely affected.

Table of Contents

Our gross margins are low, which magnifies the impact of variations in revenue, operating costs and bad debt on our operating results.

As a result of significant price competition in the IT and CE products and services industry, our gross margins are low, and we expect them to continue to be low in the future. Increased competition arising from industry consolidation and low demand for certain IT and CE products and services may hinder our ability to maintain or improve our gross margins. These low gross margins magnify the impact of variations in revenue, operating costs and bad debt on our operating results. A portion of our operating expense is relatively fixed, and planned expenditures are based in part on anticipated orders that are forecasted with limited visibility of future demand. As a result, we may not be able to reduce our operating expense as a percentage of revenue to mitigate any further reductions in gross margins in the future. If we cannot proportionately decrease our cost structure in response to competitive price pressures, our business and operating results could suffer.

Our design and integration services business requires a significant investment in plant and personnel from time to time. We have recently expanded our capacity to accommodate current demand, however should future demand for the design and integration services fail to meet expectations, we may be unable to reduce our costs and expenses, which would adversely impact our results of operations.

We also receive purchase discounts and rebates from OEM suppliers based on various factors, including sales or purchase volume and breadth of customers. A decrease in net sales could negatively affect the level of volume rebates received from our OEM suppliers and thus, our gross margins. Because some rebates from OEM suppliers are based on percentage increases in sales of products, it may become more difficult for us to achieve the percentage growth in sales required for larger discounts due to the current size of our revenue base. A decrease or elimination of purchase discounts and rebates from our OEM suppliers would adversely affect our business and operating results.

Because we sell on a purchase order basis, we are subject to uncertainties and variability in demand by our reseller, retail and design and integration services customers, which could decrease revenue and adversely affect our operating results.

We sell to our reseller, retail and design and integration services customers on a purchase order basis, rather than pursuant to long-term contracts or contracts with minimum purchase requirements. Consequently, our sales are subject to demand variability by our reseller, retail and design and integration services customers. The level and timing of orders placed by our customers vary for a variety of reasons, including seasonal buying by end-users, the introduction of new hardware and software technologies and general economic conditions. Customers submitting a purchase order may cancel, reduce or delay their orders. If we are unable to anticipate and respond to the demands of our reseller, retail and design and integration services customers, we may lose customers because we have an inadequate supply of products, or we may have excess inventory, either of which could harm our business, financial position and operating results.

With regard to our design and integration services business, unique parts are purchased based both on purchase order or forecasted demand. We have limited protection against excess inventory should anticipated demand from our design and integration customers not materialize.

The success of our contact center and renewals management business is subject to the terms and conditions of our customer contracts.

We provide contact center support services and renewals management services to our customers under contracts with provisions that could impact our profitability. Many of our contracts have short termination provisions that could cause fluctuations in our revenue and operating results from period to period. For example, some contracts have performance-related bonus or penalty provisions, whereby we could receive a bonus if we satisfy certain performance levels or have to pay a penalty for failing to do so. The programs that we put in place for our customer products may not be accepted by the market. In addition, with respect to our contact center business, our customers may not guarantee a minimum call volume; however, we hire employees based on anticipated average call volumes. The reduction of call volume, loss of any customers, payment of any penalties for failure to meet performance levels or inability to terminate any unprofitable contracts could have an adverse impact on our operations and financial results. Our renewals management business is subject to dynamic changes in the business model and competition, which in turn could cause our GBS operations to suffer.

The software and hardware renewals management and the customer management operations of our GBS segment represent emerging markets that are vulnerable to numerous changes that could cause a shift in the business and size of the market. For example, if software and hardware customers move to a utility or fee-for-service based business model, this business model change could significantly impact operations or cause a significant shift in the way business is currently

Table of Contents

conducted. If OEMs place more focus in this area and internalize these operations, then this could also cause a significant reduction in the size of the available market for third party service providers. Similarly, if competitors offer their services at below market margin rates to “buy” business, or use other lines of business to subsidize the renewals management business, then this could cause a significant reduction in the size of the available market. In addition, if a cloud-based solution or some other technology were introduced, this new technology could cause an adverse shift in the way our renewals management operations are conducted or decrease the size of the available market.

We are subject to the risk that our inventory value may decline, and protective terms under our OEM supplier agreements may not adequately cover the decline in value, which in turn may harm our business, financial position and operating results.

The IT and CE products industry is subject to rapid technological change, new and enhanced product specification requirements, and evolving industry standards. These changes may cause inventory on hand to decline substantially in value or to rapidly become obsolete. Most of our OEM suppliers offer limited protection from the loss in value of inventory. For example, we can receive a credit from many OEM suppliers for products held in inventory in the event of a supplier price reduction. In addition, we have a limited right to return a certain percentage of purchases to most OEM suppliers. These policies are often subject to time restrictions and do not protect us in all cases from declines in inventory value. In addition, our OEM suppliers may become unable or unwilling to fulfill their protection obligations to us. The decrease or elimination of price protection, or the inability of our OEM suppliers to fulfill their protection obligations, could lower our gross margins and cause us to record inventory write-downs. If we are unable to manage our inventory with our OEM suppliers with a high degree of precision, we may have insufficient product supplies or we may have excess inventory, resulting in inventory write-downs, either of which could harm our business, financial position and operating results.

We depend on OEM suppliers to maintain an adequate supply of products to fulfill customer orders on a timely basis, and any supply shortages or delays could cause us to be unable to timely fulfill orders, which in turn could harm our business, financial position and operating results.

Our ability to obtain particular products in the required quantities and to fulfill reseller and retail customer orders on a timely basis is critical to our success. In most cases, we have no guaranteed price or delivery agreements with our OEM suppliers. We occasionally experience a supply shortage of certain products as a result of strong demand or problems experienced by our OEM suppliers. For example, in fiscal years 2011 and 2012, we experienced shortage in hard drives from OEM suppliers in Thailand due to floods. If shortages or delays persist, the price of those products may increase, or the products may not be available at all. In addition, our OEM suppliers may decide to distribute, or to substantially increase their existing distribution business, through other distributors, their own dealer networks, or directly to resellers, retailers or end-users. Accordingly, if we are not able to secure and maintain an adequate supply of products to fulfill our reseller and retail customer orders on a timely basis, our business, financial position and operating results could be adversely affected.

The market for CE products that we distribute is characterized by short product life cycles. Increased competition for limited retailer shelf space, decreased promotional support from resellers or retailers or increased popularity of downloadable or online content and services could adversely impact our revenue.

The market for CE products, such as personal computers and tablets, mobile devices, wearable devices, video game titles and hardware, and audio or visual equipment, is characterized by short product life cycles and frequent introductions of new products. For example, the life cycle of a video game is short and typically provides a relatively high level of sales only for the first few months after introduction of the game. The markets in which we compete frequently introduce new products to meet changing consumer preferences and trends. As a result, competition is intense for resellers' and retailers' limited shelf space and promotions. If our vendors' new products are not introduced in a timely manner or do not achieve significant market acceptance, we may not generate sufficient sales or profitability. Further, if we are unable to successfully compete for resellers' or retailers' space and promotional resources, this could negatively impact market acceptance of our products and negatively impact our business and operating results. In addition, increased consumer use of downloadable content and online services and the further integration of technological tasks currently requiring several different CE products may negatively affect our CE product distribution business and operating results, as they may reduce consumer demand for having several different

electronics devices and other physical products. For example, the popularity of downloadable and online games has increased and continued increases in downloadable and online gaming may result in a reduced level of over-the-counter retail video games sales.

Table of Contents

Because we conduct substantial operations in China, risks associated with economic, political and social events in China could negatively affect our business and operating results.

A substantial portion of our IT systems operations, including our IT systems support and software development operations, is located in China. In addition, we also conduct general and administrative activities from our facilities in China. As of November 30, 2013, we had approximately 950 support personnel located in China. Our operations in China are subject to a number of risks relating to China's economic and political systems, including:

- a government controlled foreign exchange rate and limitations on the convertibility of the Chinese Renminbi;
- extensive government regulation;
- changing governmental policies relating to tax benefits available to foreign-owned businesses;
- the telecommunications infrastructure;
- a relatively uncertain legal system; and
- uncertainties related to continued economic and social reform.

Our IT systems are an important part of our global operations. Any significant interruption in service, whether resulting from any of the above uncertainties, natural disasters or otherwise, could result in delays in our inventory purchasing, errors in order fulfillment, reduced levels of customer service and other disruptions in operations, any of which could cause our business and operating results to suffer.

We may have higher than anticipated tax liabilities.

We conduct business globally and file income tax returns in various tax jurisdictions. Our effective tax rate could be adversely affected by several factors, many of which are outside of our control, including:

- changes in income before taxes in various jurisdictions in which we operate that have differing statutory tax rates;
- changing tax laws, regulations, and/or interpretations of such tax laws in multiple jurisdictions;
- effect of tax rate on accounting for acquisitions and dispositions;
- issues arising from tax audit or examinations and any related interest or penalties; and
- uncertainty in obtaining tax holiday extensions or expiration or loss of tax holidays in various jurisdictions.

We report our results of operations based on our determination of the amount of taxes owed in various tax jurisdictions in which we operate. The determination of our worldwide provision for income taxes and other tax liabilities requires estimation, judgment and calculations where the ultimate tax determination may not be certain. Our determination of tax liability is always subject to review or examination by tax authorities in various tax jurisdictions. Any adverse outcome of such review or examination could have a negative impact on our operating results and financial condition. The results from various tax examinations and audit may differ from the liabilities recorded in our financial statements and could adversely affect our financial results and cash flows.

We have pursued and intend to continue to pursue strategic acquisitions or investments in new markets and may encounter risks associated with these activities, which could harm our business and operating results.

We have in the past pursued and in the future expect to pursue acquisitions of, or investments in, businesses and assets in new markets, either within or outside the IT and CE products and services industry, that complement or expand our existing business. Our acquisition strategy involves a number of risks, including:

- difficulty in successfully integrating acquired operations, IT systems, customers, and OEM supplier relationships, products and services and businesses with our operations;
- loss of key employees of acquired operations or inability to hire key employees necessary for our expansion;
- diversion of our capital and management attention away from other business issues;
- increase in our expenses and working capital requirements;

Table of Contents

in the case of acquisitions that we may make outside of the United States, difficulty in operating in foreign countries and over significant geographical distances; and

• other financial risks, such as potential liabilities of the businesses we acquire.

We may incur additional costs and consolidate certain redundant expenses in connection with our acquisitions and investments, which may have an adverse impact on our operating margins. Future acquisitions, including the acquisition of the IBM customer care business, may result in dilutive issuances of equity securities, the incurrence of additional debt, large write-offs, a decrease in future profitability, or future losses. The incurrence of debt in connection with any future acquisitions could restrict our ability to obtain working capital or other financing necessary to operate our business. Our recent and future acquisitions or investments may not be successful, and if we fail to realize the anticipated benefits of these acquisitions or investments, our business and operating results could be harmed.

Because of the capital-intensive nature of our business, we need continued access to capital, which if not available to us or if not available on favorable terms, could harm our ability to operate or expand our business.

Our business requires significant levels of capital to finance accounts receivable and product inventory that is not financed by trade creditors. If cash from available sources is insufficient, proceeds from our accounts receivable securitization and revolving credit programs are limited or cash is used for unanticipated needs, we may require additional capital sooner than anticipated.

In the event we are required, or elect, to raise additional funds, we may be unable to do so on favorable terms, or at all, and may incur expenses in raising the additional funds. Our current and future indebtedness could adversely affect our operating results and severely limit our ability to plan for, or react to, changes in our business or industry. We could also be limited by financial and other restrictive covenants in securitization or credit arrangements, including limitations on our borrowing of additional funds and issuing dividends. Furthermore, the cost of securitization or debt financing could significantly increase in the future, making it cost prohibitive to securitize our accounts receivable or borrow, which could force us to issue new equity securities. If we issue new equity securities, existing stockholders may experience dilution, or the new equity securities may have rights, preferences or privileges senior to those of existing holders of common stock. If we cannot raise funds on acceptable terms, we may not be able to take advantage of future opportunities or respond to competitive pressures or unanticipated requirements. Any inability to raise additional capital when required could have an adverse effect on our business and operating results.

The terms of our debt arrangements impose significant restrictions on our ability to operate which in turn could negatively affect our ability to respond to business and market conditions and therefore could have an adverse effect on our business and operating results.

As of November 30, 2013, we had \$317.9 million in outstanding short and long-term borrowings under term loans, lines of credit, accounts receivable securitization programs and capital leases, excluding trade payables. The terms of one or more of the agreements under which this indebtedness was incurred may limit or restrict, among other things, our ability to:

• incur additional indebtedness;

• pay dividends or make certain other restricted payments;

• consummate certain asset sales or acquisitions;

• enter into certain transactions with affiliates; and

• merge, consolidate or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of our assets.

We are also required to maintain specified financial ratios and satisfy certain financial condition tests, including a leverage and a fixed charge coverage ratio as outlined in our senior secured credit arrangement. Our inability to meet these ratios and tests could result in the acceleration of the repayment of the related debt, the termination of the facility, the increase in our effective cost of funds or the cross-default of other credit and securitization arrangements. As a result, our ability to operate may be restricted and our ability to respond to business and market conditions may be limited, which could have an adverse effect on our business and operating results.

Table of Contents

We may not be able to generate sufficient cash to service all of our indebtedness and may be forced to take other actions to satisfy our obligations.

Our ability to make scheduled debt payments or to refinance our debt obligations depends on our financial and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We cannot be certain that we will maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay capital expenditures, sell assets or operations, seek additional capital or restructure or refinance our indebtedness. We cannot be certain that we would be able to take any of these actions, that these actions would be successful and permit us to meet our scheduled debt service obligations or that these actions would be permitted under the terms of our existing or future debt agreements. In the absence of such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. Some of our credit facilities restrict our ability to dispose assets and use the proceeds from the disposition. As such, we may not be able to consummate those dispositions or use any resulting proceeds and, in addition, such proceeds may not be adequate to meet any debt service obligations then due.

If we cannot make scheduled payments on our debt, we will be in default and, as a result:

- our lenders could declare all outstanding principal and interest to be due and payable;
- the lenders under our credit agreements could terminate their commitments to loan us money and, in the case of our secured credit agreements, foreclose against the assets securing their borrowings;
- we could be forced to raise additional capital through the issuance of additional, potentially dilutive, securities; and
- we could be forced into bankruptcy or liquidation, which is likely to result in delays in the payment of our indebtedness and in the exercise of enforcement remedies related to our indebtedness.

A portion of our revenue is financed by floor plan financing companies and any termination or reduction in these financing arrangements could increase our financing costs and harm our business and operating results.

A portion of our product distribution revenue is financed by floor plan financing companies. Floor plan financing companies are engaged by our customers to finance, or floor, the purchase of products from us. In exchange for a fee, we transfer the risk of loss on the sale of our products to the floor plan companies. We currently receive payment from these financing companies within approximately 15 to 30 days from the date of the sale, which allows our business to operate at much lower relative working capital levels than if such programs were not available. If these floor plan arrangements are terminated or substantially reduced, the need for more working capital and the increased financing cost could harm our business and operating results.

We have significant credit exposure to our customers, and negative trends in their businesses could cause us significant credit loss and negatively impact our cash flow and liquidity position.

We extend credit to our customers for a significant portion of our sales to them and they have a period of time, generally 30 days after the date of invoice, to make payment. As a result, we are subject to the risk that our customers will not pay on time or at all. The majority of our customers are small and medium sized businesses. Our credit exposure risk may increase due to financial difficulties or liquidity or solvency issues experienced by our customers, resulting in their inability to repay us. The liquidity or solvency issues may increase as a result of an economic downturn or a decrease in IT or CE spending by end-users. If we are unable to collect payments in a timely manner from our customers due to changes in financial or economic conditions, or for other reasons, and we are unable to collect under our credit insurance policies, we may write-off the amount due from the customers. These write-offs may result in credit insurance being more expensive and on terms that are less favorable to us and may negatively impact our ability to utilize accounts receivable-based financing. These circumstances could negatively impact our cash flow and liquidity position. Further, we are exposed to higher collection risk as we continue to expand internationally, where the payment cycles are generally longer and the credit rating process may not be as robust as in the United States.

In addition, the revenue from our Mexico operations includes various long-term projects funded by government and other local agencies, which often involve extended payment terms and contractual penalties and could expose us to additional collection risks.

Table of Contents

We may suffer adverse consequences from changing interest rates.

Our borrowings and securitization arrangements are variable-rate obligations that could expose us to interest rate risks. If interest rates increase, our interest expense would increase, which would negatively affect our net income. An increase in interest rates may increase our future borrowing costs and restrict our access to capital.

Additionally, current market conditions, recovering global economy, and overall credit conditions could limit our availability of capital, which could cause increases in interest margin spreads over underlying indices, effectively increasing the cost of our borrowing. While some of our credit facilities have contractually negotiated spreads, terms such as these are subject to ongoing negotiations.

We are dependent on a variety of IT and telecommunications systems and the Internet, and any failure of these systems could adversely impact our business and operating results.

We depend on IT and telecommunications systems and the Internet for our operations. These systems support a variety of functions including inventory management, order processing, shipping, shipment tracking, billing, and our BPO business.

Failures or significant downtime of our IT or telecommunications systems could prevent us from taking customer orders, printing product pick-lists, shipping products, billing customers and handling call volume. Sales also may be affected if our reseller and retail customers are unable to access our pricing and product availability information. We also rely on the Internet, and in particular electronic data interchange, or EDI, and XML, for a large portion of our orders and information exchanges with our OEM suppliers and reseller and retail customers. The Internet and individual websites have experienced a number of disruptions and slowdowns, some of which were caused by organized attacks. In addition, some websites have experienced security breakdowns. If we were to experience a security breakdown, disruption or breach that compromised sensitive information, it could harm our relationship with our OEM suppliers and reseller and retail customers. Disruption of our website or the Internet in general could impair our order processing or more generally prevent our OEM suppliers and reseller and retail customers from accessing information. Our BPO business is dependent upon telephone and data services provided by third party telecommunications service vendors and our IT and telecommunications system. Any significant increase in our IT and telecommunications costs or temporary or permanent loss of our IT or telecommunications systems could harm our relationships with our customers. The occurrence of any of these events could have an adverse effect on our operations and financial results.

We rely on independent shipping companies for delivery of products, and price increases or service interruptions from these carriers could adversely affect our business and operating results.

We rely almost entirely on arrangements with independent shipping companies, such as FedEx and UPS, for the delivery of our products from OEM suppliers and delivery of products to reseller and retail customers. Freight and shipping charges can have a significant impact on our gross margin. As a result, an increase in freight surcharges due to rising fuel cost or general price increases will have an immediate adverse effect on our margins, unless we are able to pass the increased charges to our reseller and retail customers or renegotiate terms with our OEM suppliers. In addition, in the past, carriers have experienced work stoppages due to labor negotiations with management. An increase in freight or shipping charges, the termination of our arrangements with one or more of these independent shipping companies, the failure or inability of one or more of these independent shipping companies to deliver products, or the unavailability of their shipping services, even temporarily, could have an adverse effect on our business and operating results.

Changes in foreign exchange rates and limitations on the convertibility of foreign currencies could adversely affect our business and operating results.

In both fiscal years 2013 and 2012, approximately 26% of our total revenue was generated outside the United States. Most of our international revenue, cost of revenue and operating expenses are denominated in foreign currencies. We presently have currency exposure arising from both sales and purchases denominated in foreign currencies. Changes in exchange rates between foreign currencies and the U.S. dollar may adversely affect our operating margins. For example, if these foreign currencies appreciate against the U.S. dollar, it will make it more expensive in terms of U.S. dollars to purchase inventory or pay expenses with foreign currencies. This could have a negative impact to us if revenue related to these purchases is transacted in U.S. dollars. In addition, currency devaluation can result in a loss to

us if we hold deposits of that currency and make our products, which are usually purchased by us with U.S. dollars, relatively more expensive than products manufactured locally. We currently conduct only limited hedging activities, which involve the use of currency forward contracts. Hedging foreign currencies can be risky. There is also additional risk if the currency is not freely or actively traded. Some currencies, such as the Chinese Renminbi, Indian Rupee and Philippines Peso, are subject to limitations on conversion into other currencies, which can limit our ability to hedge or to otherwise react to rapid foreign currency devaluations. We cannot predict the impact of future exchange rate fluctuations on our business and operating results.

Table of Contents

Because of the experience of our key personnel in the IT and CE industries and their technological and industry expertise, if we were to lose any of our key personnel, it could inhibit our ability to operate and grow our business successfully.

We are dependent in large part on our ability to retain the services of our key senior executives and other technological and industry experts and personnel. Except for Kevin Murai, our President and Chief Executive Officer, our employees and executives generally do not have employment agreements. Furthermore, we do not carry “key person” insurance coverage for any of our key executives. We compete for qualified senior management and technical personnel. The loss of, or inability to hire, key executives or qualified employees could inhibit our ability to operate and grow our business successfully.

We may experience theft of product from our warehouses, water damage to our properties and other casualty events which could harm our operating results.

From time to time, we have experienced incidents of theft at various facilities, water damages to our properties and other casualty events. These types of incidents may make it more difficult or expensive for us to obtain insurance coverage in the future. Also, the same or similar incidents may occur in the future for which we may not have sufficient insurance coverage or policy limits to be fully compensated for the loss, which may have an adverse effect on our business and financial results.

We may become involved in intellectual property or other disputes that could cause us to incur substantial costs, divert the efforts of our management, and require us to pay substantial damages or require us to obtain a license, which may not be available on commercially reasonable terms, if at all.

From time to time, we receive notifications alleging infringements of intellectual property rights allegedly held by others relating to our business or the products we sell or assemble for our OEM suppliers and others. Litigation with respect to patents or other intellectual property matters could result in substantial costs and diversion of management and other resources and could have an adverse effect on our business. Although we generally have various levels of indemnification protection from our OEM suppliers and design and integration services customers, in many cases any indemnification to which we may be entitled is subject to maximum limits or other restrictions.

In addition, we have developed proprietary IT systems, mobile applications, and cloud-based technology and acquired GBS related renewals technology that play an important role in our business. If any infringement claim is successful against us and if indemnification is not available or sufficient, we may be required to pay substantial damages or we may need to seek and obtain a license of the other party’s intellectual property rights. We may be unable to obtain such a license on commercially reasonable terms, if at all.

We are from time to time involved in other litigation in the ordinary course of business. We may not be successful in defending these or other claims. Regardless of the outcome, litigation could result in substantial expense and could divert the efforts of our management.

We have significant operations concentrated in North America, Central America, Asia and Europe and any disruption in the operations of our facilities could harm our business and operating results.

Our worldwide operations could be subject to natural disasters, adverse weather conditions and other business disruptions, which could seriously harm our revenue and financial condition and increase our costs and expenses. We have significant operations in our facilities located in North America, Central America, Asia and Europe. As a result, any prolonged disruption in the operations of our facilities, whether due to technical difficulties, power failures, break-ins, destruction or damage to the facilities as a result of a natural disaster, fire or any other reason, could harm our operating results. If there are related disruptions in local or international supply chains, we may experience supply shortages or delays in receiving products from our OEM suppliers or experience other delays in shipping to our customers. If we are unable to fulfill customer orders in a timely manner, this could harm our operating results. For example, in March 2011, Japan experienced a 9.0 magnitude earthquake followed by tsunami waves and aftershocks. These events affected the infrastructure in the country, caused power outages and temporarily disrupted the local and international, supply chains for some vendors. Our facilities in Japan suffered nominal inventory and facility damages. We expect our operations in Japan will continue to be affected by the continuing consequences of such natural disasters. In addition, our Philippines operation is at greater risk due to adverse weather conditions, such as typhoons, mudslides and floods. We currently do not have a formal disaster recovery plan and may not have sufficient business

interruption insurance to compensate for losses that could occur.

Table of Contents

Global health and economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Worldwide economic conditions have experienced significant volatility due to the credit conditions impacted by the subprime mortgage crisis and other factors, including slower economic activity which may impact our results of operations. External factors, such as potential terrorist attacks, acts of war, geopolitical and social turmoil or epidemics and other similar outbreaks in many parts of the world, could prevent or hinder our ability to do business, increase our costs and negatively affect our stock price, which in turn, may require us to record an impairment in the carrying value of our goodwill. More generally, these geopolitical social and economic conditions could result in increased volatility in the United States and worldwide financial markets and economy. For example, increased instability may adversely impact the desire of employees and customers to travel, the reliability and cost of transportation and our ability to obtain adequate insurance at reasonable rates and may require us to incur increased costs for security measures for our domestic and international operations. We are predominantly uninsured for losses and interruptions caused by terrorism, acts of war and similar events. These uncertainties make it difficult for us and our customers to accurately plan future business activities. While general economic conditions have recently begun to improve, there is no assurance that this trend will continue or at what rate.

Part of our business is conducted outside of the United States, exposing us to additional risks that may not exist in the United States, which in turn could cause our business and operating results to suffer.

We have international operations which are subject to risks, including:

- political or economic instability;
- extensive governmental regulation;
- changes in import/export duties;
- trade restrictions;
- compliance with the Foreign Corrupt Practices Act, U.K. bribery laws and similar laws;
- difficulties and costs of staffing and managing operations in certain foreign countries;
- work stoppages or other changes in labor conditions;
- difficulties in collecting of accounts receivable on a timely basis or at all;
- taxes; and
- seasonal reductions in business activity in some parts of the world.

We may continue to expand internationally to respond to competitive pressure and customer and market requirements. Establishing operations in any other foreign country or region presents risks such as those described above as well as risks specific to the particular country or region. In addition, until a payment history is established over time with customers in a new geography or region, the likelihood of collecting accounts receivable generated by such operations could be less than our expectations. As a result, there is a greater risk that reserves set with respect to the collection of such accounts receivable may be inadequate. In addition, the revenue derived from our Mexico operation includes various long-term projects with government and other public agencies that involve extended payment terms and could expose us to additional collection risks. Furthermore, if our international expansion efforts in any foreign country are unsuccessful, we may decide to cease operations, which would likely cause us to incur additional expense and loss. In addition, changes in policies or laws of the United States or foreign governments resulting in, among other things, higher taxation, currency conversion limitations, restrictions on fund transfers or the expropriation of private enterprises, could reduce the anticipated benefits of our international expansion. Any actions by countries in which we conduct business to reverse policies that encourage foreign trade or investment could adversely affect our business. If we fail to realize the anticipated growth of our future international operations, our business and operating results could suffer.

Our investments in our BPO business could adversely affect our operating results as a result of operation execution risks related to managing and communicating with remote resources, technologies, customer satisfaction and employee turnover.

Our BPO business in Costa Rica, India and the Philippines may be adversely impacted if we are unable to manage and communicate with these remote resources. Service quality may be placed at risk and our ability to optimize our resources may

Table of Contents

be more complicated if we are unable to manage our resources remotely. BPO businesses use a wide variety of technologies to allow them to manage a large volume of work. These technologies ensure that employees are kept productive. Any failure in technology may impact the business adversely. The success of our BPO business primarily depends on performance of our employees and resulting customer satisfaction. Any increase in average waiting time or handling time or lack of promptness or technical expertise of our employees will directly impact customer satisfaction. Any adverse customer satisfaction may impact the overall business. Generally, the employee turnover rate in the BPO business and the risk of losing experienced employees to competitors are high. Higher turnover rates increase recruiting and training costs and decrease operating efficiencies and productivity. If we are unable to successfully manage our service centers, our results of operations could be adversely affected and we may not fully realize the anticipated benefits of our recent acquisitions.

Risks Related to Our Relationship with MiTAC Holdings Corporation

As of November 30, 2013, our executive officers, directors and principal stockholders owned approximately 28% of our common stock and this concentration of ownership could allow them to influence all matters requiring stockholder approval and could delay or prevent a change in control of SYNnex.

As of November 30, 2013, our executive officers, directors and principal stockholders owned approximately 28% of our outstanding common stock. In particular, MiTAC Holdings and its affiliates owned approximately 26% of our common stock. Until September 2013, MiTAC International Corporation, or MiTAC International, a publicly-traded company in Taiwan, was our primary investor through its affiliates. In September 2013, MiTAC Holdings Corporation, or MiTAC Holdings, was established through a stock swap from MiTAC International and became a publicly traded company on the Taiwan Stock Exchange. MiTAC International is now a wholly owned subsidiary of MiTAC Holdings.

MiTAC Holdings' interests and ours may increasingly conflict. For example, until July 2010, we relied on MiTAC Holdings for certain manufacturing and supply services and for relationships with certain key customers. In July 2010, we announced that we had signed a definitive sales agreement to sell certain assets related to our contract assembly business to MiTAC Holdings. The transaction included the sale of inventory and customer contracts, primarily related to customers then being jointly serviced by MiTAC Holdings and us. Also, as part of the transaction, we provided MiTAC Holdings with certain transition services for the business on a fee basis over the next several quarters. Since completion of the transition services, we no longer jointly service any current customers with MiTAC Holdings. In addition, we may not solicit the same contract assembly customers in the future.

There could be potential conflicts of interest between us and MiTAC Holdings and its affiliates, which could impact our business and operating results.

MiTAC Holdings' and its affiliates' continuing beneficial ownership of our common stock could create conflicts of interest with respect to a variety of matters, such as potential acquisitions, competition, issuance or disposition of securities, election of directors, payment of dividends and other business matters. Similar risks could exist as a result of Matthew Miao's positions as our Chairman Emeritus, a member of our Board of Directors, the Chairman of MiTAC Holdings and as a director or officer of MiTAC Holdings' affiliates. For fiscal year 2013, Mr. Miao received the same compensation as our independent directors. For fiscal year 2014, Mr. Miao will receive the same compensation as our independent directors. Mr. Miao's compensation as one of our directors is based upon the approval of the Nominating and Corporate Governance Committee, which is solely composed of independent members of the Board. We also have adopted a policy requiring material transactions in which any of our directors has a potential conflict of interest to be approved by our Audit Committee, which is also composed of independent members of the Board.

Synnex Technology International Corp., or Synnex Technology International, a publicly-traded company based in Taiwan and affiliated with MiTAC Holdings, currently provides distribution and fulfillment services to various markets in Asia and Australia, and is also a potential competitor of ours. As of November 30, 2013, MiTAC Incorporated, a privately-held company based in Taiwan and a separate entity from MiTAC Holdings, directly and indirectly owned approximately 13.6% of Synnex Technology International and approximately 8.1% of MiTAC Holdings. As of November 30, 2013, MiTAC Holdings directly and indirectly owned 0.1% of Synnex Technology International and Synnex Technology International directly and indirectly owned approximately 0.9% of MiTAC

Holdings. In addition, MiTAC Holdings directly and indirectly owned approximately 8.7% of MiTAC Incorporated and Synnex Technology International directly and indirectly owned approximately 18.4% of MiTAC Incorporated as of November 30, 2013. Synnex Technology International indirectly through its ownership of Peer Developments Limited owned approximately 11.4% of our outstanding common stock as of November 30, 2013. Neither MiTAC Holdings, nor Synnex Technology International is restricted from competing with us. In the future, we may increasingly compete with Synnex Technology International, particularly if our business in Asia expands or Synnex Technology International expands its business into geographies or customers we serve. Although Synnex Technology International is a

Table of Contents

separate entity from us, it is possible that there will be confusion as a result of the similarity of our names. Moreover, we cannot limit or control the use of the Synnex name by Synnex Technology International in certain geographies and our use of the Synnex name may be restricted as a result of registration of the name by Synnex Technology International or the prior use in jurisdictions where it currently operates.

Risks Related to Our Industry

Volatility in the IT and CE industries could have a material adverse effect on our business and operating results. We have in the past experienced decreases in demand and we anticipate that the industries we operate in will be subject to a high degree of cyclical in the future. Softening demand for our products and services caused by an ongoing economic downturn and over-capacity may impact our revenue, as well the salability of inventory and collection of reseller and retail customer accounts receivable.

While in the past, we may have benefited from consolidation in our industry resulting from delays or reductions in IT or CE spending in particular, and economic weakness in general, any such volatility in the IT and CE industries could have an adverse effect on our business and operating results.

Our business may be adversely affected by some OEM suppliers' strategies to increase their direct sales, which in turn could cause our business and operating results to suffer.

Consolidation of OEM suppliers has resulted in fewer sources for some of the products and services that we distribute. This consolidation has also resulted in larger OEM suppliers that have significant operating and financial resources. Some OEM suppliers, including some of the leading OEM suppliers that we service, have been selling products and services directly to reseller and retail customers and end-users, thereby limiting our business opportunities. If large OEM suppliers increasingly sell directly to end-users or our resellers and retailers, rather than use us as the distributor of their products and services, our business and operating results will suffer.

OEMs could limit the number of supply chain service providers with which they do business, which in turn could negatively impact our business and operating results.

A determination by any of our primary OEMs to consolidate their business with other distributors or integration service providers could negatively affect our business and operating results. In particular, the termination of our contract by HP would have a significant negative effect on our revenue and operating results.

The IT and CE industries are subject to rapidly changing technologies and process developments, and we may not be able to adequately adjust our business to these changes, which in turn would harm our business and operating results. Dynamic changes in the IT and CE industries, including the consolidation of OEM suppliers and reductions in the number of authorized distributors used by OEM suppliers, have resulted in new and increased responsibilities for management personnel and have placed, and continue to place, a significant strain upon our management, operating and financial systems and other resources. We may be unable to successfully respond to and manage our business in light of industry developments and trends. Also crucial to our success in managing our operations is our ability to achieve additional economies of scale. Our failure to achieve these additional economies of scale or to respond to changes in the IT and CE industries could adversely affect our business and operating results.

We are subject to intense competition in the distribution and BPO businesses, both in the United States and internationally, and if we fail to compete successfully, we will be unable to gain or retain market share.

We operate in a highly competitive environment, both in the United States and internationally. The IT and CE product and service distribution, BPO and design and integration services industries are characterized by intense competition, based primarily on product and service availability, credit availability, price, speed of delivery, ability to tailor specific solutions to customer needs, quality and depth of product and service lines, pre-sales and post-sales technical support, flexibility and timely response to design changes, and technological capabilities, service and support. We compete with a variety of regional, national and international IT and CE product and service distributors and contract manufacturers and assemblers. In some instances, we also compete with our own customers, our own OEM suppliers and MiTAC International and its affiliates.

Our primary competitors are substantially larger and have greater financial, operating, manufacturing and marketing resources than us. Some of our competitors may have broader geographic breadth and range of services than us and may have more developed relationships with their existing customers. We may lose market share in the United States or in international markets, or may be forced in the future to reduce our prices in response to the actions of our

competitors and thereby experience a reduction in our gross margins.

Table of Contents

In addition, in our contact center business, we also face competition from our customers. For example, some of our customers may have internal capabilities and resources to provide their own call centers. Furthermore, pricing pressures and quality of services could impact our business adversely. Our ability to provide a high quality of service is dependent on our ability to retain and properly train our employees and to continue investing in our infrastructure, including IT and telecommunications systems.

We may initiate other business activities, including the broadening of our supply chain capabilities, and may face competition from companies with more experience in those new areas. In addition, as we enter new areas of business, we may also encounter increased competition from current competitors or from new competitors, including some that may once have been our OEM suppliers or reseller and retail customers. Increased competition and negative reaction from our OEM suppliers or reseller and retail customers resulting from our expansion into new business areas could harm our business and operating results.

Compliance with changing regulation of corporate governance and public disclosure may result in additional expense and affect our operations.

Changing laws, regulations and standards relating to corporate governance and public disclosure, including the Dodd-Frank Wall Street Reform and Consumer Protection Act, SEC regulations and New York Stock Exchange, or NYSE, rules, are creating uncertainty for companies such as ours. These new or changed laws, regulations and standards are subject to varying interpretations in many cases due to their lack of specificity, and as a result, their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies, which could result in continuing uncertainty regarding compliance matters and higher costs necessitated by ongoing revisions to disclosure and corporate governance practices. As a result, our efforts to comply with evolving laws, regulations and standards have resulted in, and are likely to continue to result in, increased general and administrative expense and a diversion of management time and attention from revenue-generating activities to compliance activities. For example, we are incurring additional expenses related to SEC compliance with XBRL-tagged interactive data-files. If our efforts to comply with new or changed laws, regulations and standards differ from the activities intended by regulatory or governing bodies due to ambiguities related to practice, our reputation may be harmed. The Dodd-Frank Wall Street Reform and Consumer Protection Act directed the SEC to implement disclosure requirements concerning public companies' use and sourcing of "conflict minerals" mined in the Democratic Republic of Congo and adjoining countries. The SEC rules issued in August 2012 necessitate a complex compliance process and related administrative expense for a company once it determines a conflict mineral is necessary to the functionality or production of a product that the company manufactures or contracts to manufacture. Such companies must then conduct a reasonable country of origin inquiry to determine if the conflict minerals originated in the covered countries and undertake due diligence on the source and chain of custody in order to file a conflict minerals report with the SEC. In addition to the increased administrative expense and management involvement for our company as we navigate the aspects of the new requirements that apply to us, we may face a limited pool of suppliers who can provide us "conflict-free" components, parts and manufactured products, and we may not be able to obtain conflict-free products or supplies in sufficient quantities or at competitive prices for our operations or to the extent requested by any reseller customers and their stakeholders, even if the SEC disclosure requirements do not apply to us or to those customers regarding those products. Also, since our supply chain is complex, we may face reputational challenges with our customers, stockholders and other stakeholders if we are unable to sufficiently verify the origins for any conflict minerals used in the products that we sell.

If we are unable to maintain effective internal control over financial reporting, our ability to report our financial results on a timely and accurate basis may be adversely affected, which in turn could cause the market price of our common stock to decline.

Section 404 of the Sarbanes-Oxley Act of 2002 requires our management to report on, and our independent registered public accounting firm to attest to, the effectiveness of our internal control structure and procedures for financial reporting. We completed an evaluation of the effectiveness of our internal control over financial reporting for fiscal year 2013, and we have an ongoing program to perform the system and process evaluation and testing necessary to continue to comply with these requirements. In the past, however, our internal controls have not eliminated all error. We expect to continue to incur increased expense and to devote additional management resources to Section 404

compliance. In the event that one of our Chief Executive Officer, Chief Financial Officer or independent registered public accounting firm determines that our internal control over financial reporting is not effective as defined under Section 404, investor perceptions and our reputation may be adversely affected and the market price of our stock could decline.

Table of Contents

Changes to financial accounting standards may affect our results of operations and cause us to change our business practices.

We prepare our financial statements to conform to generally accepted accounting principles in the United States. These accounting principles are subject to interpretation by the Financial Accounting Standards Board, American Institute of Certified Public Accountants, the SEC and various bodies formed to interpret and create appropriate accounting policies. A change in those policies can have a significant effect on our reported results and may affect our reporting of transactions completed before a change is announced. Changes to those rules or the questioning of current practices may adversely affect our reported financial results or the way we conduct our business.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

Our principal executive offices are located in Fremont, California, and are owned by us. We operate distribution, integration services, contact center and administrative facilities in different countries.

Our distribution services segment occupies approximately 40 facilities covering approximately 4 million square feet and includes warehouse, logistics and administrative facilities. We own approximately 2 million square feet of property and lease the remainder.

Our GBS segment occupies approximately 35 facilities comprising of service and delivery centers and administrative facilities covering approximately 900 thousand square feet. We own approximately 230 thousand square feet and lease the remainder.

We have sublet unused portions of some of our facilities. We believe our facilities are well maintained and adequate for current operating needs.

Item 3. Legal Proceedings

We are from time to time involved in legal proceedings in the ordinary course of business. We do not believe that these proceedings will have a material adverse effect on our results of operations, financial position or cash flows of our business.

In addition, we have been involved in various bankruptcy preference actions where we were a supplier to the companies now in bankruptcy. These preference actions are filed by the bankruptcy trustee on behalf of the bankrupt estate and generally seek to have payments made by the debtor within 90 days prior to the bankruptcy returned to the bankruptcy estate for allocation among all of the bankruptcy estate's creditors. We are not currently involved in any material preference proceedings.

Item 4. Mine Safety Disclosures

Not applicable.

Executive Officers of the Registrant

The following table sets forth information regarding our executive officers as of November 30, 2013:

Name	Age	Position
Kevin Murai	50	President, Chief Executive Officer and a Director
Peter Larocque	52	President, U.S. Distribution
Dennis Polk	47	Chief Operating Officer and a Director
Marshall Witt	48	Chief Financial Officer
Simon Leung	48	Senior Vice President, General Counsel and Corporate Secretary

Kevin Murai is our President and Chief Executive Officer and a Director and joined us in March 2008. He served as Co-Chief Executive Officer until Robert Huang's retirement in December 2008. Prior to SYNnex, Mr. Murai was employed for 19 years at Ingram Micro, Inc. where he served in several executive management positions, including President and Chief Operating Officer and also on the Ingram Micro, Inc. Board of Directors. He holds a Bachelor of Applied Science degree in Electrical Engineering from the University of Waterloo in Ontario, Canada.

Peter Larocque is our President, U.S. Distribution since July 2006 and previously served as Executive Vice President of Distribution since June 2001 and Senior Vice President of Sales and Marketing from September 1997 until June 2001. Mr. Larocque is responsible for our U.S. distribution business. Mr. Larocque received a Bachelor of Science degree in Economics from the University of Western Ontario, Canada.

Dennis Polk is our Chief Operating Officer and has served in this capacity since July 2006. Mr. Polk is also a Director and has served in this capacity since February 2012. He previously served as Chief Financial Officer and Senior Vice President of Corporate Finance since joining us in February 2002. Mr. Polk received a Bachelor of Science degree in Accounting from Santa Clara University.

Marshall Witt is our Chief Financial Officer and has served in this capacity since April 2013. Prior to SYNnex, Mr. Witt was Senior Vice President of Finance and Controller with FedEx Freight. During his fifteen-year tenure with FedEx Corporation, Mr. Witt held progressive financial and operational roles. Prior to FedEx, he held accounting and finance leadership positions including five years with KPMG LLP as an audit manager for banking and transportation clients. Mr. Witt holds a Bachelor of Business Administration in Finance from Pacific Lutheran University, a Masters in Accounting from Seattle University and is a Certified Public Accountant.

Simon Leung is our Senior Vice President, General Counsel and Corporate Secretary and has served in this capacity since May 2001. Mr. Leung joined us in November 2000 as Corporate Counsel. Prior to SYNnex, Mr. Leung was an attorney at the law firm of Paul, Hastings, Janofsky & Walker LLP. Mr. Leung received a Bachelor of Arts degree from the University of California, Davis in International Relations and his Juris Doctor degree from the University of Minnesota Law School.

PART II

Item 5. Market for Registrant's Common Equity and Related Stockholder Matters

Our common stock, par value \$0.001, is traded on the New York Stock Exchange, or NYSE, under the symbol "SNX." The following table sets forth the range of high and low sales prices for our common stock for each of the periods listed, as reported by the NYSE.

	Price Range of Common Stock	
	Low	High
Fiscal Year 2013		
First Quarter	\$32.55	\$38.48
Second Quarter	\$32.04	\$41.22
Third Quarter	\$40.15	\$52.53
Fourth Quarter	\$46.87	\$66.80
Fiscal Year 2012		
First Quarter	\$28.37	\$41.82
Second Quarter	\$33.18	\$44.25
Third Quarter	\$31.26	\$35.62
Fourth Quarter	\$30.70	\$35.88

As of January 15, 2014, our common stock was held by 671 stockholders of record. Because many of the shares of our common stock are held by brokers and other institutions on behalf of stockholders, we are unable to estimate the total number of beneficial owners represented by these stockholders of record. We have not declared or paid any cash dividends since our initial public offering. We currently intend to retain future earnings, if any, for use in our operations and the expansion of our business. If we elect to pay cash dividends in the future, payment will depend on our financial condition, results of operations and capital requirements, as well as other factors deemed relevant by our Board of Directors. In addition, our credit facilities place restrictions on our ability to pay dividends.

Stock Price Performance Graph

The stock price performance graph below, which assumes a \$100 investment on November 30, 2008, compares our cumulative total stockholder return, the NYSE Composite Index and the Standard Industrial Classification, or SIC, Code Index (SIC Code 5045—Wholesale Computer and Computer Peripheral Equipment and Software) for the period beginning November 30, 2008 through November 30, 2013. The closing price per share of our common stock was \$66.16 on November 29, 2013. No cash dividends have been declared on our common stock since the initial public offering. The comparisons in the table are required by the SEC and are not intended to forecast or be indicative of possible future performance of our common stock.

Information regarding the Securities Authorized for Issuance under Equity Compensation Plans can be found under Item 12 of this Report.

Table of Contents

Item 6. Selected Consolidated Financial Data

The following selected consolidated financial data are qualified by reference to, and should be read together with, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in Item 7 of this Report and the Consolidated Financial Statements and related Notes included in Item 8 of this Report. The selected Consolidated Statements of Operations and cash flow data presented below for fiscal years 2013, 2012 and 2011 and the consolidated balance sheet data as of November 30, 2013 and 2012 have been derived from our audited Consolidated Financial Statements included elsewhere in this Report. The Consolidated Statements of Operations and other data for fiscal years 2010 and 2009 and the Consolidated Balance Sheet data as of November 30, 2011, 2010 and 2009 have been derived from our Consolidated Financial Statements that are not included in this Report. The Consolidated Statements of Operations data include the operating results from our acquisitions from the closing date of each acquisition. Historical operating results are not necessarily indicative of the results that may be expected for any future period. Please see “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and Note 2 and Note 3 to our Consolidated Financial Statements included elsewhere in this Report for a discussion of factors, such as business combinations, that affect the comparability of the following selected consolidated financial data.

	Fiscal Years Ended November 30,

Income from continuing operations	\$4.13	\$4.14	\$4.20	\$3.35	\$2.62
-----------------------------------	--------	--------	--------	--------	--------

Discontinued operations	—	—	—	0.33	0.12
-------------------------	---	---	---	------	------

Net income per common share - basic	\$4.13	\$4.14	\$4.20	\$3.68	\$2.74
-------------------------------------	--------	--------	--------	--------	--------

Diluted:

Income from continuing operations	\$3.06	\$3.99	\$4.08	\$3.26	\$2.53
-----------------------------------	--------	--------	--------	--------	--------

Discontinued operations	—	—	—	0.32	0.11
-------------------------	---	---	---	------	------

Net income per common share - diluted	\$3.06	\$3.99	\$4.08	\$3.58	\$2.64
---------------------------------------	--------	--------	--------	--------	--------

For the fiscal year ended November 30, 2013 the numerator for the computation of Net income per common share-diluted was adjusted for dilutive changes in the estimated value of the conversion premium of our convertible debt from April 2013 through the final settlement dates. The adjustment to the numerator had the effect of reducing our Net income per common share-diluted by \$0.97 for the fiscal year ended November 30, 2013. The calculation of earnings per common share attributable to SYNnex Corporation is presented in Note 13 to the Consolidated Financial Statements.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with Selected Consolidated Financial Data and the Consolidated Financial Statements and related Notes included elsewhere in this Report.

When used in this Annual Report on Form 10-K or the Report, the words “believes,” “plans,” “estimates,” “anticipates,” “expects,” “intends,” “allows,” “can,” “may,” “designed,” “will,” and similar expressions are intended to identify forward-looking statements. These are statements that relate to future periods and include statements about our business model and our services, our market strategy, including expansion of our product lines, our infrastructure, anticipated benefits, costs and timing of our acquisitions, including our acquisition of the customer care business of International Business Machines Corporation, or IBM, our employee hiring, impact of MiTAC Holdings Corporation, or MiTAC Holdings, ownership interest in us, our revenue and operating results, our gross margins, competition with Synnex Technology International Corp., our future needs for additional financing, concentration of customers, our international operations, including our operations in Japan, expansion of our operations, our strategic acquisitions of businesses and assets, effects of future expansion of our operations, adequacy of our cash resources to meet our capital needs, cash held by our foreign subsidiaries, our convertible notes, including the settlement of our convertible notes, adequacy of our disclosure controls and procedures, pricing pressures, competition, impact of our accounting policies, our anti-dilution share repurchase program, and statements regarding our securitization programs and revolving credit lines. Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those projected. These risks and uncertainties include, but are not limited to, those risks discussed, as well as the seasonality of the buying patterns of our customers, concentration of sales to large customers, dependence upon and trends in capital spending budgets in the information technology, or IT, and consumer electronics, or CE, industries, fluctuations in general economic conditions and risks set forth under Part I, Item 1A, “Risk Factors.” These forward-looking statements speak only as of the date hereof. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

Overview

We are a Fortune 500 corporation and a leading business process services company, servicing resellers, retailers and original equipment manufacturers, or OEMs, in multiple regions around the world. Our primary business process services are wholesale distribution and business process outsourcing, or BPO. We operate in two segments: distribution services and global business services, or GBS. Our distribution services segment distributes IT systems, peripherals, system components, software, networking equipment, CE, and complementary products and also offers data center server and storage solutions. Within our distribution services segment, we also provide design and integration services. Our GBS segment offers a range of BPO services to customers that include direct sales, technical support, customer care, lead management, renewals management, back office processing and information technology outsourcing, or ITO. Many of these services are delivered and supported on the proprietary software platforms we have developed to provide additional value to our customers.

We combine our core strengths in distribution with our BPO services to help our customers achieve greater efficiencies in time to market, cost minimization, real-time linkages in the supply chain and after-market product support. We distribute more than 30,000 technology products (as measured by active SKUs) from more than 300 IT, CE and OEM suppliers to more than 20,000 resellers, system integrators, and retailers throughout the United States, Canada, Japan and Mexico. As of November 30, 2013, we had over 14,500 full-time and temporary employees worldwide. From a geographic perspective, approximately 88%, of our total revenue was from North America for the fiscal year 2013, and 87% for both the fiscal years 2012 and 2011.

In our distribution services segment, we purchase peripherals, IT systems, system components, software, networking equipment, including CE and complementary products from our primary suppliers such as Hewlett-Packard Company, or HP, Asus Tek Computer Inc., Beats Electronics LLC, Lenovo, Panasonic Corporation and Seagate Technologies LLC, and sell them to our reseller and retail customers. We perform a similar function for our distribution of licensed

software products. Our reseller customers include value-added resellers, or VARs, corporate resellers, government resellers, system integrators, direct marketers, and national and regional retailers. In our distribution business, we provide comprehensive IT solutions in key vertical markets such as government and healthcare and we also provide specialized service offerings that increase efficiencies in areas like print management, renewals, networking and other services. Additionally, within our distribution services segment, we provide our customers with data center servers and storage solutions built specific to our customers' datacenter environments. In our GBS segment, our customers are primarily manufacturers of IT hardware and CE devices, developers of software, cloud service providers, and broadcast and social media.

Table of Contents

Revenue and Cost of Revenue

We derive our revenue primarily through the distribution of peripherals, IT systems, system components, software, networking equipment and CE products. We also provide design and integration and BPO services. For products, we recognize revenue generally as products are shipped, if a purchase order exists, the sales price is fixed or determinable, collection of the resulting accounts receivable is reasonably assured, risk of loss and title have transferred and product returns are reasonably estimable. Shipping terms are typically F.O.B. shipping point. Provisions for sales returns and allowances are estimated based on historical data and are recorded concurrently with the recognition of revenue. We review and adjust these provisions periodically. Revenue is reduced for early payment discounts and volume incentive rebates offered to customers. We provide our BPO services in our GBS segment to customers under contracts that typically consist of a master services agreement or statement of work, which contains the terms and conditions of each program and service we offer. Our agreements are usually short-term in nature, subject to early termination by our customers or us for any reason, typically with 30 to 90 days notice. Revenue is recognized as services are performed and if collection is reasonably assured. We recognize revenue on a net basis on certain contracts, including service contracts, post-contract software support services and extended warranty contracts, where we are not the primary obligor, by recognizing the margin earned in revenue without any associated cost of revenue.

In fiscal years 2013, 2012 and 2011, no customer accounted for 10% or more of our total revenue. Approximately 31%, 36%, and 35% of our total revenue in fiscal years 2013, 2012, and 2011, respectively, were derived from the sale of HP products and services.

The market for IT products and services is generally characterized by declining unit prices and short product life cycles. Our overall business is also highly competitive on the basis of price. We set our sales price based on the market supply and demand characteristics for each particular product or bundle of products we distribute and services we provide. From time to time, we also participate in the incentive and rebate programs of our OEM suppliers. These programs are important determinants of the final sales price we charge to our reseller customers. To mitigate the risk of declining prices and obsolescence of our distribution inventory, our OEM suppliers generally offer us limited price protection and return rights for products that are marked down or discontinued by them. We carefully manage our inventory to maximize the benefit to us of these supplier provided protections.

A significant portion of our cost of revenue is the purchase price we pay our OEM suppliers for the products we sell, net of any incentives, rebates and purchase discounts received from our OEM suppliers. Cost of product distribution revenue also consists of provisions for inventory losses and write-downs, freight expenses associated with the receipt in and shipment out of our inventory, and royalties due to OEM vendors. In addition, cost of revenue includes the cost of materials, labor and overhead for our design and integration and BPO services.

Margins

The distribution and design and integration services industries in which we operate are characterized by low gross profit as a percentage of revenue, or gross margin, and low income from operations as a percentage of revenue, or operating margin. Our gross margin has fluctuated annually due to changes in the mix of products and services we offer, customers we sell to, incentives and rebates received from our OEM suppliers, competition, seasonality and replacement of less profitable business with investments in higher margin, more profitable lines, lower costs associated with increased efficiencies and inventory obsolescence. Increased competition arising from industry consolidation and low demand for IT products may hinder our ability to maintain or improve our gross margin. Generally, when our revenue becomes more concentrated on limited products or customers, our gross margin tends to decrease due to increased pricing pressure from OEM suppliers or reseller customers. Our operating margin has also fluctuated annually, based primarily on our ability to achieve economies of scale, the management of our operating expenses, changes in the relative mix of our distribution, design and integration and BPO revenue, and the timing of our acquisitions and investments.

Economic and Industry Trends

Our revenue is highly dependent on the end-market demand for IT and CE products. This end-market demand is influenced by many factors including the introduction of new IT and CE products and software by OEMs, replacement cycles for existing IT and CE products and overall economic growth and general business activity. A

difficult and challenging economic environment may also lead to consolidation or decline in the IT and CE distribution industry and increased price-based competition. The GBS industry is also extremely competitive. The customers' performance measures are based on competitive pricing terms and quality of services. Accordingly, we could be subject to pricing pressure and may experience a decline in our average selling prices for our services. While we are susceptible to economic trends in the global economy, our distribution business is largely concentrated in the United States, Canada and Japan, so we will be most directly impacted by economic strength or weakness in these geographies. During the fiscal years 2013, 2012 and 2011, the economic environment was stable and grew modestly.

Table of Contents

Seasonality

Our operating results are affected by the seasonality of the IT and CE products industries. We have historically experienced higher sales in our fourth fiscal quarter due to patterns in the capital budgeting, federal government spending and purchasing cycles of our customers and end-users. These patterns may not be repeated in subsequent periods.

Deferred Compensation Plan

We have a deferred compensation plan for a limited number of our directors and retired employees. We maintain a liability on our balance sheet for salary and bonus amounts deferred by participants and we accrue interest expense on uninvested amounts. Interest expense on the deferred amounts is classified in selling, general and administrative expenses on our Consolidated Statements of Operations. The participant may designate one or more investments as the measure of investment return on the participant's account. The equity securities are either classified as trading securities or cost-method securities. Generally, the gains (losses) on the deferred compensation securities are recorded in other income (expense), net and an equal amount is charged (or credited if losses) to selling, general and administrative expenses relating to compensation amounts which are payable to the plan participants. For the deferred compensation investments, we recorded a gain of \$1.9 million, a gain of \$2.6 million and a loss of \$1.1 million, in fiscal years 2013, 2012 and 2011, respectively.

Critical Accounting Policies and Estimates

The discussions and analyses of our consolidated financial condition and results of operations are based on our Consolidated Financial Statements, which have been prepared in conformity with generally accepted accounting principles in the United States. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of any contingent assets and liabilities at the financial statement date, and reported amounts of revenue and expenses during the reporting period. On an ongoing basis, we review and evaluate our estimates and assumptions, including those that relate to accounts receivable, vendor programs, inventories, goodwill and intangible assets, and income taxes. Our estimates are based on our historical experience and a variety of other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making our judgment about the carrying values of assets and liabilities that are not readily available from other sources. Actual results could differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies are affected by our judgment, estimates and/or assumptions used in the preparation of our Consolidated Financial Statements.

Revenue Recognition. We generally recognize revenue on the sale of hardware and software products when they are shipped and on services when they are performed, if a purchase order exists, the sales price is fixed or determinable, collection of resulting accounts receivable is reasonably assured, risk of loss and title have transferred and product returns are reasonably estimable. Provisions for sales returns and allowances are estimated based on historical data and are recorded concurrently with the recognition of revenue. These provisions are reviewed and adjusted periodically by us. Revenue is reduced for early payment discounts and volume incentive rebates offered to customers. We recognize revenue on a net basis on certain contracts, including service contracts, post-contract software support services and extended warranty contracts, where we are not the primary obligor, by recognizing the margin earned in revenue without any associated cost of revenue.

We provide services such as call center, renewals, maintenance and contract management services to our customers under contracts that typically consist of a master services agreement or statement of work, which contains the terms and conditions of each program and service offerings. Typically the contracts are time-based or transactions or volume based. Revenue is generally recognized over the term of the contract or when service has been rendered, the sales price is fixed or determinable and collection of the resulting accounts receivable is reasonably assured.

Revenue derived from our Mexico operation includes projects with the Mexican government and other public agencies that are long-term in nature. Under the agreements, we sell computers and equipment to contractors that provide services to the Mexican government. We also sell computers, equipment and services directly to the Mexican government. The payments are due on a monthly basis and contingent upon the satisfactory performance of certain services, fulfillment of certain obligations and meeting certain conditions. We recognize revenue and cost of revenue

on a straight-line basis over the term of the contract as the contingencies are satisfied and payments become due.

Allowance for Doubtful Accounts. We provide allowances for doubtful accounts on our accounts receivable for estimated losses resulting from the inability of our customers to make payments for outstanding balances. In estimating the required allowance, we take into consideration the overall quality and aging of the accounts receivable, credit evaluations of customers' financial condition and existence of credit insurance. We also evaluate the collectability of accounts receivable based on

Table of Contents

specific customer circumstances, current economic trends, historical experience with collections and value and adequacy of collateral received from customers.

OEM Supplier Programs. We receive funds from OEM suppliers for inventory price protection, product rebates, marketing and infrastructure reimbursement, and various other promotion programs. Product incentives and rebates are recorded as a reduction of cost of revenue. Marketing, infrastructure and promotion programs are recorded, net of direct costs, in selling, general and administrative expenses. Any excess funds associated with these programs are recorded as a reduction to cost of revenue. We accrue incentives and rebates based on the terms of the program and sales of qualifying products. Some of these programs may extend over one or more quarterly reporting periods. Certain OEM supplier agreements provide a right for the suppliers to audit program claims on a periodic basis. Amounts received or receivable from OEM suppliers that are not yet earned are deferred on our balance sheet. Actual incentives and rebates may vary based on volume or other sales achievement levels, which could result in an increase or reduction in the estimated amounts previously accrued. In addition, OEM suppliers may seek to change the terms of some or all of these programs or cease them altogether. Any such change could lower our gross margins on products we sell or revenue earned. We also provide reserves for receivables on OEM supplier programs for estimated losses resulting from OEM suppliers' inability to pay or rejections of such claims by OEM suppliers.

Inventories. Our inventory levels are based on our projections of future demand and market conditions. Any sudden decline in demand and/or rapid product improvements and technological changes can cause us to have excess and/or obsolete inventories. On an ongoing basis, we review for estimated obsolete or unmarketable inventories and write-down our inventories to their estimated net realizable value based upon our forecasts of future demand and market conditions. These write-downs are reflected in our cost of revenue. If actual market conditions are less favorable than our forecasts, additional inventory reserves may be required. Our estimates are influenced by the following considerations: sudden decline in demand due to economic downturns, rapid product improvements and technological changes, our ability to return to OEM suppliers a certain percentage of our purchases, and protection from loss in value of inventory under our OEM supplier agreements.

Goodwill and Intangible Assets. Goodwill represents the excess of the purchase price over the fair value of the identifiable net assets acquired in an acquisition. We assess potential impairment of our goodwill and intangible assets when there is evidence that recent events or changes in circumstances have made recovery of an asset's carrying value unlikely. We also assess potential impairment of our goodwill on an annual basis during our fourth quarter, regardless if there is evidence or suspicion of impairment. The amount of an impairment loss would be recognized as the excess of the asset's carrying value over its fair value.

Goodwill is tested for impairment annually in the fourth quarter. For the purpose of the goodwill analysis, we have 2 reporting units, the distribution services reporting unit and the GBS reporting unit. Goodwill is tested for impairment at the reporting unit level by first performing a qualitative assessment to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying value. The factors that were considered in the qualitative analysis included the macroeconomic conditions, industry and market considerations, cost factors such as increases in product cost, labor, or other costs that would have a negative effect on earnings and cash flows, and other relevant entity-specific events and information.

If the reporting unit does not pass the qualitative assessment, then the reporting unit's carrying value is compared to its fair value. The fair values of the reporting units are estimated using market and discounted cash flow approaches. The assumptions used in the market approach are based on the value of a business through an analysis of multiples of guideline companies, recent sales or offerings of a comparable entity. The assumptions used in the discounted cash flow approach are based on historical and forecasted revenue, operating costs, future economic conditions, and other relevant factors. Goodwill is considered impaired if the carrying value of the reporting unit exceeds its fair value. The annual goodwill impairment analysis did not result in an impairment charge for fiscal years 2013, 2012 and 2011.

Long-lived assets. We review the recoverability of our long-lived assets, such as intangible assets, property and equipment and certain other assets, when events or changes in circumstances occur that indicate the carrying value of the asset group may not be recoverable. The assessment of possible impairment is based on our ability to recover the carrying value of the asset or asset group from the expected future pre-tax cash flows, undiscounted and without interest charges, of the related operations. If these cash flows are less than the carrying value of such assets, an

impairment loss is recognized for the difference between estimated fair value and carrying value.

Determining the fair value of a reporting unit, intangible asset or a long-lived asset is judgmental and involves the use of significant estimates and assumptions. We base our fair value estimates on assumptions that we believe are reasonable, but are uncertain and subject to changes in market conditions.

Income Taxes. We estimate our income taxes in each of the tax jurisdictions in which we operate. Our current tax expense is estimated after adjusting for temporary differences resulting from the different treatment of certain items and foreign tax

Table of Contents

credits. These differences may result in deferred tax assets and liabilities, which are included in our Consolidated Balance Sheets. We assess the likelihood that our deferred tax assets, which include net operating loss carry forwards and temporary differences that are expected to be deductible in future years, will be recoverable from future taxable income or other tax planning strategies. If recovery is not likely, we provide a valuation allowance based on our estimates of future taxable income in the various tax jurisdictions, and the amount of deferred taxes in excess of amounts that are ultimately considered more likely than not realizable. The provision for current and deferred taxes involves evaluations and judgments of uncertainties in the interpretation of complex tax regulations by various tax authorities. Actual results could differ from our estimates.

Earnings per common share. Earnings per common share-basic is computed by dividing the net income attributable to us for the period by the basic weighted-average number of outstanding common shares. Earnings per common share-diluted is computed by adding the dilutive effect of in-the-money employee stock options, restricted stock awards, restricted stock units and similar equity instruments granted by us to the basic weighted-average number of outstanding common shares. We use the treasury stock method, under which, the amount the employee must pay for exercising stock options, the amount of compensation cost for future services that we have not yet recognized and the amount of tax benefits that would be recorded in Additional paid-in capital when the award becomes deductible are assumed to be used to repurchase shares.

It was our intent to settle the principal amount of our 4.0% Convertible Senior Notes due 2018, or Convertible Senior Notes, in cash; accordingly, the principal amount was excluded from the determination of diluted earnings per share. In April 2013, we decided to settle the payment of the conversion premium in cash as discussed in Note 12 — Convertible Debt. Through April 2013, we accounted for the conversion premium using the treasury stock method by adjusting the diluted weighted-average common shares if the effect was dilutive. From April 2013, the numerator for the computation of earnings per common share-diluted was adjusted for the changes in the estimated value of the conversion premium until the final settlement date.

Recent Acquisitions

We seek to augment our services offering expansion with strategic acquisitions of businesses and assets that complement and expand our global BPO capabilities. We also divest businesses that we deem no longer strategic to our ongoing operations. Our historical acquisitions have brought us new reseller and retail customers, OEM suppliers and product lines, have extended the geographic reach of our operations, particularly in targeted markets, and have diversified and expanded the services we provide to our OEM suppliers and customers. We account for acquisitions using the purchase method of accounting and include acquired entities within our Consolidated Financial Statements from the closing date of the acquisition.

IBM Customer Care Business acquisition

In September 2013, we announced that we entered into a Master Asset Purchase Agreement with IBM, pursuant to which we will acquire IBM's customer care business, or the Assets, for an aggregate purchase price of \$505.0 million, subject to post-closing adjustments. A portion of the purchase price will be paid in shares of our common stock up to the lesser of \$75.0 million or 5% of the outstanding shares of our common stock and the remainder will be paid in cash. If a portion of the Assets are not transferred at the initial closing, IBM will operate the Assets for our benefit, pending one or more subsequent closings, which are to occur no later June 30, 2015. In connection with the acquisition, we intend to offer employment to approximately 35,000 employees in locations around the world, including the United States, India, Philippines, China, Japan and the United Kingdom.

We anticipate the initial closing to occur in the first calendar quarter of 2014. Completion of the acquisition is subject to customary closing conditions, including, but not limited to, expiration or termination of the applicable waiting period under Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and other regulatory approvals.

Acquisitions during fiscal year 2013

In April 2013, we acquired substantially all of the assets of Supercom Canada Limited, or Supercom Canada, a distributor of IT and consumer electronics products and services in Canada. The purchase price was approximately CAD\$37.6 million, or US\$36.7 million, in cash, including approximately CAD\$4.5 million, or US\$4.3 million, in deferred payments, subject to certain post-closing conditions, payable within 18 months. Subsequent to the acquisition, we repaid debt and working capital lines in the amount of US\$53.7 million. Based on the preliminary

purchase price allocation, we recorded net tangible assets of US\$26.9 million, goodwill of US\$5.4 million and intangible assets of US\$4.4 million in relation to this acquisition. The acquisition is integrated into the distribution services segment and has expanded our existing product and service offerings in Canada.

Acquisitions and divestitures during fiscal year 2012

In fiscal year 2012, we purchased shares of our subsidiary SYNnex Infotec Corporation, or Infotec Japan, which were held by the noncontrolling interest SB Pacific Corporation Limited, or SB Pacific, for \$17.5 million, of which \$11.4 million was paid during the fiscal year 2013. The transaction increased our ownership interest in Infotec Japan from 70.0% to 99.8%.

Table of Contents

In fiscal year 2012, we also sold our 33.3% noncontrolling interest in SB Pacific, our equity-method investee at that time, back to SB Pacific. During the fiscal year 2013, we received the final payment of \$4.2 million of the sale price. In fiscal year 2012, we acquired a business in the GBS segment for a purchase price of \$6.2 million with \$1.2 million payable upon the completion of certain post-closing procedures and \$1.3 million contingent consideration payable upon the achievement of certain target earnings. We recorded goodwill of \$6.2 million in relation to this acquisition.

Results of Operations

The following table sets forth, for the indicated periods, data as percentages of revenue:

Statements of Operations Data:	Fiscal Years Ended November 30,					
	2013		2012		2011	
Revenue	100.00	%	100.00	%	100.00	%
Cost of revenue	(93.96)	(93.61)		(93.94)
Gross profit	6.04		6.39		6.06	
Selling, general and administrative expenses	(3.82)	(3.91)		(3.60)
Income before non-operating items, income taxes and noncontrolling interest	2.22		2.48		2.46	
Interest expense and finance charges, net	(0.16)	(0.22)		(0.25)
Other income (expense), net	0.13		0.04		(0.01)
Income before income taxes and noncontrolling interest	2.19		2.30		2.20	
Provision for income taxes	(0.79)	(0.82)		(0.76)
Net income	1.40		1.48		1.44	
Net income attributable to noncontrolling interest	(0.00)		(0.01)		(0.00)	
Net income attributable to SYNnex Corporation	1.40	%	1.47	%	1.44	%

Fiscal Years Ended November 30, 2013, 2012 and 2011

Revenue	Fiscal Years Ended November 30,			Percent Change		
	2013	2012	2011	2013 to 2012	2012 to 2011	
	(in thousands)					
Revenue	\$10,845,164	\$10,285,507	\$10,409,840	5.4	% (1.2)%
Distribution Revenue	10,655,453	10,121,271	10,275,295	5.3	% (1.5)%
GBS Revenue	223,600	197,391	163,376	13.3	% 20.8	%
Inter-Segment Elimination	(33,889)	(33,155)	(28,831)	2.2	% 15.0	%

In our distribution business, we sell in excess of 30,000 technology products (as measured by active SKUs) from more than 300 IT, CE and OEM suppliers to more than 20,000 resellers. The prices of our products are highly dependent on the volumes purchased within a product category. The products we sell from one period to the next are often not comparable because of rapid changes in product models and features. The revenue generated in our GBS segment relates to BPO services such as direct sales, technical support, customer care, lead management, renewals management, back office processing and information technology outsourcing, or ITO. The inter-segment elimination relates to the inter-segment, back office support services provided by our GBS segment to our distribution services segment. Third-party GBS revenue can be derived by netting the inter-segment eliminations into GBS revenue. The GBS programs and customer service requirements change frequently from one period to the next and are often not comparable.

Revenue in our distribution services segment increased in fiscal year 2013 from fiscal year 2012 due to strong sales growth in U.S. and Japan and the April 2013 acquisition of Supercom Canada. Our revenue in all geographies benefitted from our expanded product and vendor lines. In comparison to the prior year period, our revenue in fiscal year 2013 was negatively impacted by 2.6% for the translation impact of foreign exchange rates, primarily from the weakening of the Japanese yen.

By product category, our sales of peripherals, networking, system components and IT systems were higher by 15%, 9%, 2% and 2%, respectively, in comparison to the prior fiscal year. The increase in the sale of peripheral and networking categories was due to higher sales of audio products and networking hardware devices, including the expansion of our line card. Revenue growth was partially offset by 15% lower software sales which was due to the strategic decision to consolidate less profitable

Table of Contents

products and lower gaming software sales. All product categories were negatively impacted by the translation impact of foreign exchange rates, primarily due to the weakening Japanese yen.

Our revenue from the distribution services segment in fiscal year 2012 decreased from fiscal year 2011 primarily due to the effects of transitioning a certain customer contract from a traditional full service distribution relationship to a fee-for-service basis starting in the fourth quarter of fiscal year 2011. The impact of this change resulted in approximately 4% lower revenue recorded during fiscal year 2012. In comparison to fiscal year 2011, our sales of systems components increased by 7%, our sales of IT systems remained relatively consistent and our sales of software, networking equipment and peripherals decreased by 14%, 4% and 3%, respectively. The decrease in our software sales compared to the prior year is primarily due to lower sales from gaming software.

Overall, the demand for IT products continued to be stable in the U.S. and Japanese markets and improving in Canada. Our revenue in our GBS segment in fiscal year 2013 increased 13.3% from fiscal year 2012, benefiting from new customer contracts and expanded business volumes from certain continuing customers. Approximately 70% of the increase in revenue in our GBS segment in fiscal year 2012 as compared to fiscal year 2011, was due to revenue generated from acquisitions that occurred in the fourth quarter of fiscal year 2011. In addition, we generated revenue from new customer accounts and increased revenue from our existing customer base.

Gross Profit

	Fiscal Years Ended November 30,			Percent Change	
	2013	2012	2011	2013 to 2012	2012 to 2011
	(in thousands)				
Gross Profit	\$654,970	\$656,737	\$630,498	(0.3)%	4.2%
Percentage of Revenue	6.04	6.39%	6.06%		

Our gross profit is affected by a variety of factors, including competition, average selling prices, the variety and mix of products and services we sell, our customers, our sources of revenue by segments, rebate and discount programs from our suppliers, freight costs, reserves for inventory losses, acquisitions and divestitures of business units and fluctuations in revenue.

Our gross margin in the fiscal year 2013 was 35 basis points lower than fiscal year 2012. The decrease in the gross margin percentage in fiscal year 2013 from the prior year was due to changes in our product and business mix, partly offset by the reduction in certain reserve requirements related to vendor programs. The prior fiscal year also benefitted by approximately 15 basis points from the shortage of hard disk drives, primarily in the first quarter of fiscal year 2012.

Our gross margin for fiscal year 2012 increased by 33 basis points over fiscal year 2011. Our fiscal year 2012 gross margin was favorably impacted by 25 basis points by the effects of transitioning certain customer revenue to a fee-for-service basis. Margin also benefited from lower reserve requirements and more favorable vendor incentive rebates as compared to the prior year period. Our margin was also favorably impacted by supply-demand constraints of hard disk drives in the first quarter of fiscal year 2012.

Selling, General and Administrative Expenses

	Fiscal Years Ended November 30,			Percent Change	
	2013	2012	2011	2013 to 2012	2012 to 2011
	(in thousands)				
Selling, General and Administrative Expenses	\$414,142	\$401,725	\$374,270	3.1%	7.3%
Percentage of Revenue	3.82%	3.91%	3.60%		

Approximately two-thirds of our selling, general and administrative expenses consist of personnel costs such as salaries, commissions, bonuses, share-based compensation, deferred compensation expense or income, and temporary personnel costs. Selling, general and administrative expenses also include costs of our facilities, utility expense, professional fees, depreciation expense on our capital equipment, bad debt expense, amortization expense on our intangible assets, and marketing expenses, offset in part by reimbursements from our OEM suppliers.

The increase in our selling, general and administrative expenses in the fiscal year 2013 compared to fiscal year 2012, was primarily due to \$18.2 million in higher personnel costs and general overhead expenses as the result of our April 2013 acquisition of Supercom Canada in our distribution segment and to support the growth in our GBS segment. In addition, we incurred \$7.5 million acquisition and integration expenses in fiscal year 2013. These acquisition expenses were primarily related to our anticipated acquisition of the IBM customer care business, which is expected to close in the first calendar quarter

Table of Contents

of 2014. These higher expenses were offset in part by a \$12.2 million decrease as a result of fluctuations in foreign exchange rates, primarily due to the weakening of the Japanese yen.

Our selling, general and administrative expenses in fiscal year 2012 increased compared to the prior year fiscal year 2011 due to increased investment in our business and our fiscal year 2011 acquisitions. The costs related to our acquisitions in the fourth quarter of fiscal year 2011 in our GBS segment accounted for \$10.5 million of the increase in fiscal year 2012. Our personnel and general overhead expenses were higher by \$14.2 million due to investment in our business operations. Our deferred compensation expenses were higher by \$2.8 million based on the performance of those investments. In addition, the fiscal year 2011 results benefited by \$5.4 million for changes in the fair value of certain contingent consideration pertaining to our acquisitions in our GBS segment in comparison to a benefit of \$0.7 million recognized in fiscal year 2012. These increases were offset in part by \$4.2 million lower bad debt expense and \$0.5 million benefit from fluctuations in foreign currency exchange rates.

Income before Non-Operating Items, Income Taxes and Noncontrolling Interests

	Fiscal Years Ended November 30,			Percent Change	
	2013	2012	2011	2013 to 2012	2012 to 2011
	(in thousands)				
Income before non-operating items, income taxes and noncontrolling interest	\$240,828	\$255,012	\$256,228	(5.6))%
Percentage of Total Revenue	2.22	% 2.48	% 2.46	%	(0.5)
Distribution income before non-operating items, income taxes and noncontrolling interest	233,043	241,817	237,322	(3.6))%
Percentage of Distribution Revenue	2.19	% 2.39	% 2.31	%	1.9
GBS income before non-operating items, income taxes and noncontrolling interest	7,960	13,483	18,906	(41.0))%
Percentage of GBS Revenue	3.56	% 6.83	% 11.57	%	(28.7)
Inter-Segment Elimination	(175)) (288)) —	39.2	% —

Our income before non-operating items, income taxes and noncontrolling interest as a percentage of revenue was 2.22% in fiscal year 2013 compared to 2.48% in fiscal year 2012. The decrease in our operating margins was due to lower gross margins compared to the prior year. In our distribution services segment, our operating margins in fiscal year 2012 were favorably impacted by the supply-demand constraints of hard disk drives, primarily in the first quarter of fiscal year 2012. Our operating margins in our GBS segment in fiscal year 2013 was 3.56% compared to 6.83% in the prior fiscal year 2012. The current year operating margins were affected by \$8.4 million acquisition and integration expenses. The acquisition and integration expenses relate primarily to our anticipated acquisition of the IBM customer care business, which is expected to close in the first calendar quarter of 2014. The operating margins in the GBS segment were also affected by the investment of personnel in preparation for our recent business contract wins.

Our income before non-operating items, income taxes and noncontrolling interest as a percentage of revenue was 2.48% in fiscal year 2012 compared to 2.46% in fiscal year 2011. In our distribution services segment, our operating margins were favorably impacted by the effects of transitioning of certain distribution customer revenue to a fee-for-service basis beginning from the fourth quarter of fiscal year 2011 and by the supply-demand constraints of hard disk drives primarily in the first quarter of fiscal year 2012. These benefits from our higher gross margins were partially offset by higher selling, general and administrative expenses. Our operating margins in our GBS segment in fiscal year 2012 were lower than the prior fiscal year 2011 primarily due to the prior year results benefiting from a \$5.4 million change in the fair value of certain contingent consideration liabilities pertaining to the acquisitions in this segment.

Table of Contents

Interest Expense and Finance Charges, Net

	Fiscal Years Ended November 30,			Percent Change	
	2013	2012	2011	2013 to 2012	2012 to 2011
	(in thousands)				
Interest expense and finance charges, net	\$ 17,115	\$ 22,930	\$ 25,505	(25.4)%	(10.1)%
Percentage of revenue	0.16	% 0.22	% 0.25	%	

Amounts recorded in interest expense and finance charges, net, consist primarily of interest expense paid on our lines of credit and other debt, fees associated with third party accounts receivable flooring arrangements, non-cash interest expense on our Convertible Senior Notes and the sale or pledge of accounts receivable through our securitization facilities, offset by income earned on our cash investments and financing income from our multi-year contracts in our Mexico operation.

The decrease in our interest expense and finance charges, net in fiscal year 2013 as compared to fiscal year 2012 was primarily due to lower interest expense on our Convertible Senior Notes which were called in May 2013. The cash and non-cash interest expenses on the Convertible Senior Notes in fiscal year 2013 were lower by \$3.5 million and \$3.0 million, respectively, compared to the fiscal year 2012. Interest expense in fiscal year 2013 also benefitted from changes in the foreign currency translation rates and lower interest rates during the year, partially offset by higher flooring fees and lower interest income from our Mexico contracts.

Interest expense and finance charges, net were lower in fiscal year 2012 as compared to the fiscal year 2011 because of lower levels of borrowings and lower interest rates. In addition, the interest income from our Mexico contracts was higher in fiscal year 2012 compared to the prior year.

Other Income (Expense), Net

	Fiscal Years Ended November 30,			Percent Change	
	2013	2012	2011	2013 to 2012	2012 to 2011
	(in thousands)				
Other income (expense), net	\$ 14,339	\$ 4,471	\$ (1,005)	220.7 %	544.9 %
Percentage of revenue	0.13	% 0.04	% (0.01)	%	

Amounts recorded as other income (expense), net include foreign currency transaction gains and losses, investment gains and losses (including those in our deferred compensation plan) and other non-operating gains and losses.

The increase in other income in fiscal year 2013 as compared to fiscal year 2012 was primarily due to \$12.3 million received from a class action legal settlement, partially offset by lower earnings on our deferred compensation investments. In addition the prior fiscal year benefitted by \$1.3 million gain from the sale of our investment in SB Pacific.

Other income increased in fiscal year 2012 as compared to fiscal year 2011 primarily due to \$3.4 million higher gains from our deferred compensation investments and the \$1.3 million gain from the sale of our investment in SB Pacific.

Provision for Income Taxes

Income taxes consist of our current and deferred tax expense resulting from our income earned in domestic and foreign jurisdictions.

Our effective tax rate in fiscal year 2013 was 36.0% as compared to 35.5% and 34.5% in fiscal years 2012 and 2011, respectively. The increase in our effective tax rate in fiscal year 2013, as compared to the prior year, was due to the increase in profits earned in higher tax jurisdictions.

Our effective tax rate in fiscal year 2012 was higher than the prior fiscal year 2011. In fiscal year 2011 we recognized a \$5.4 million benefit for changes in the fair value of certain contingent consideration liabilities pertaining to the acquisitions in our GBS segment, which was not subject to income tax. The fiscal year 2011 effective tax rate was also lower due to the benefit of certain state tax credits and the release of tax reserves due to the expiration of the statute of limitations.

Our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries where we have lower statutory rates and earnings being higher than anticipated in countries where we have higher statutory rates, by changes in the valuations of our deferred tax assets or liabilities, or by changes or interpretations in tax laws, regulations or accounting principles. In addition, we are subject to the continuous examination of our income tax returns by the IRS and other tax authorities. We regularly assess the likelihood of adverse outcomes resulting from these examinations to determine the adequacy of our provision for income taxes.

Table of Contents

Net Income Attributable to Noncontrolling Interests

Net income attributable to noncontrolling interests represents the share of net income attributable to others, which is recognized for the portion of subsidiaries' equity not owned by us. The noncontrolling interest in fiscal years 2012 and 2011 primarily represents SB Pacific's 30.0% ownership of Infotec Japan. This noncontrolling interest has been reflected in the results of our distribution services segment. As of November 30, 2012, we had purchased all the shares of Infotec Japan held by SB Pacific. The change in the net income attributable to noncontrolling interests in the fiscal year 2013 as compared to the fiscal year 2012 is due to our purchase of SB Pacific's 30.0% ownership of Infotec Japan during fiscal year 2012.

Liquidity and Capital Resources

Cash Flows

Our business is working capital intensive. Our working capital needs are primarily to finance accounts receivable and inventory. We rely heavily on debt, accounts receivable arrangements, our securitization programs and our revolver programs for our working capital needs.

We have financed our growth and cash needs to date primarily through working capital financing facilities, Convertible Senior Notes, bank credit lines and cash generated from operations.

To increase our market share and better serve our customers, we may further expand our operations through investments or acquisitions. We expect that such expansion would require an initial investment in personnel, facilities and operations. These investments or acquisitions would likely be funded primarily by additional borrowings or issuing common stock.

Net cash provided by operating activities was \$35.7 million in fiscal year 2013, primarily generated from our net income of \$152.3 million, adjustments for non-cash items of \$37.8 million and \$186.2 million higher accounts payable balances, partially offset by \$187.5 million higher accounts receivable balances and \$155.2 million higher inventory balances. The increases in our working capital balances were primarily the result of our higher business volumes. The adjustments for non-cash items primarily consist of \$24.5 million of depreciation and amortization expense, \$9.2 million in share-based compensation expense, \$2.3 million accretion of discount on our Convertible Senior Notes and \$3.0 million provision for doubtful accounts.

Net cash provided by operating activities was \$242.8 million in fiscal year 2012, primarily generated from our net income of \$152.5 million, adjustments for non-cash items of \$34.2 million. Our cash provided by operating activities benefited from higher accounts payable balances of \$108.3 million and lower inventory balances of \$49.5 million. These benefits were offset in part by higher accounts receivable balances of \$113.0 million. The adjustments for non-cash items primarily consist of \$24.6 million of depreciation and amortization expense, \$8.4 million in share-based compensation expense, \$5.3 million accretion of discount on our Convertible Senior Notes, offset by \$1.7 million benefit from doubtful accounts.

Net cash provided by operating activities in fiscal year 2011 was \$219.2 million, primarily consisting of our net income of \$150.6 million, adjustments for non-cash items of \$46.1 million. Our net cash provided by operating activities in fiscal year 2011 benefited from improvements in our cash conversion cycle resulting in \$29.5 million lower accounts receivable and \$28.2 million lower inventory balances. These benefits were offset by \$49.4 million lower accounts payable due to timing of payments to our vendors. The adjustments for non-cash items primarily consist of \$24.7 million of depreciation and amortization expense, \$8.0 million in share-based compensation expense, \$4.9 million accretion of discount on our Convertible Senior Notes, offset by \$8.5 million provision for doubtful accounts.

Net cash used in investing activities in fiscal year 2013 was \$43.8 million, primarily due to our investment in capital expenditures of \$29.0 million and cash paid for acquisitions of \$27.1 million. Our capital expenditures included the purchase of a building in Fremont, California for \$7.8 million and other investments to support our growth and enhance productivity. Cash paid for acquisitions primarily consisted of \$25.7 million paid toward the acquisition of Supercom Canada, net of cash received. These outflows were offset by \$4.2 million received from the sale of our equity-method investee SB Pacific Limited in fiscal year 2012, proceeds of \$3.1 million from the sale of our deferred compensation investments, net of purchases and a reduction of \$5.1 million in our restricted cash balances due to the

completion of our obligations to third party contractors under our long-term projects in Mexico.

Net cash used in investing activities in fiscal year 2012 was \$9.6 million, primarily due to investments in capital expenditure of \$14.5 million. Our capital expenditure consisted of our investment in the purchase of equipment and leasehold improvements during the year to support our growth. In addition, cash paid for acquisitions was \$1.6 million and loans given

Table of Contents

to third parties, net of collections were \$1.1 million. These outflows were offset by \$3.5 million realized from divesting our 33.3% ownership in SB Pacific, net proceeds of \$2.2 million from trading activities in our deferred compensation investments and \$2.2 million reduction in our restricted cash balances, due to the timing of our lockbox collections under our borrowing arrangements.

Net cash used in investing activities in fiscal year 2011 was \$126.4 million primarily due to cash used for acquisitions, capital expenditures, increase in restricted cash balances and the investment in term deposits. The cash used for acquisition included \$57.3 million, net of cash acquired, used for our acquisitions of Encover, Inc., e4e, gem and VisionMAX in our GBS segment and \$4.5 million, net of cash acquired, used for the acquisition of Infotec Japan in our distribution services segment, offset by \$1.5 million collected from the sellers of our 2010 acquisition of Jack of All Games upon the final settlement of the purchase price. We also collected \$1.0 million on our sale of certain contract manufacturing business related assets in the fiscal year 2010 to MiTAC International. Our capital expenditures during the period were \$40.2 million, of which \$15.4 million was used for the purchase of a distribution and logistics facility in Illinois and the remainder in equipment and infrastructure investments. In addition, we invested \$4.8 million in SB Pacific, our equity-method investee at the time. Our restricted cash increased by \$14.0 million primarily due to the timing of lockbox collections under our borrowing arrangements. Our investment in term deposits with a maturity period of over three months, net of the proceeds from maturity deposits was \$6.8 million.

Net cash used in financing activities in fiscal year 2013 was \$8.4 million, consisting primarily of \$218.9 million paid for the settlement of the Convertible Senior Notes. In addition, we paid \$11.4 million for the fiscal year 2012 purchase of shares of our subsidiary Infotec Japan from the noncontrolling interest. Cash used for the repurchase of treasury stock was \$1.9 million. These payments were partially offset by \$153.2 million net receipts from our revolving lines of credit and term loans, a \$60.5 million higher book overdraft, \$5.4 million excess tax benefit from share based compensation and \$4.6 million proceeds from the issue of common stock upon the exercise of employee stock awards, net of taxes paid.

Net cash used in financing activities in fiscal year 2012 was \$137.5 million, consisting of \$106.5 million net payments on our securitization arrangements, revolving lines of credit and our term loans as we reduced our external borrowing levels during the year. Our higher cash balances during the year also resulted in \$26.5 million lower book overdraft. During the year, \$7.8 million was used for the repurchase of our treasury stock, \$6.1 million was used to repurchase shares of Infotec Japan from the noncontrolling interest and \$1.1 million was paid for acquisition related contingent considerations. These payments were offset in part by \$7.2 million proceeds from the exercise of employee stock options and \$3.1 million was the excess tax benefits from share-based compensation.

Net cash used in financing activities in fiscal year 2011 was \$114.4 million, consisting primarily of \$139.8 million net payments on our securitization arrangements and our revolving lines of credit, offset by debt refinancing of Infotec Japan with a new credit facility. The book overdraft was higher by \$13.6 million. In addition, the capital contribution related to SB Pacific was \$6.4 million and financing from the exercise of employee stock awards was \$6.3 million during the year, offset by taxes paid for net share settlement of equity awards of \$4.7 million. Cash used for the repurchase of treasury stock was \$1.7 million.

We believe our current cash balances and credit availability are sufficient to support our operating activities and our anticipated acquisition of the IBM customer care business.

Capital Resources

Our cash and cash equivalents totaled \$151.6 million and \$163.7 million as of November 30, 2013 and 2012, respectively. Of our total cash and cash equivalents the cash held by our foreign subsidiaries was \$142.5 million and \$92.8 million as of November 30, 2013 and 2012, respectively. Repatriation of the cash held by our foreign subsidiaries would be subject to United States federal income taxes. Also, repatriation of some foreign balances is restricted by local laws. However, we have historically fully utilized and reinvested all foreign cash to fund our foreign operations and expansion. If in the future, our intentions change and we repatriate the cash back to the United States, we will report the expected impact of the applicable taxes depending upon the planned timing and manner of such repatriation. Presently, we believe we have sufficient resources, cash flow and liquidity within the United States to fund current and expected future working capital requirements.

As of November 30, 2013, there were approximately \$262.9 million of cumulative undistributed earnings of foreign subsidiaries. Repatriation of the undistributed earnings would be subject to United States federal income taxes, less applicable foreign taxes. Also, repatriation of some foreign balances is restricted by local laws. We have not provided for U.S. federal income tax or foreign withholding taxes on foreign subsidiaries' undistributed earnings as currently we have no plan to repatriate those earnings back to the United States. Further, it is not currently practical to estimate the amount of income tax that might be payable if any earnings were to be distributed by individual foreign subsidiaries. However, if in the future we repatriate the undistributed earnings of foreign subsidiaries to the United States in the form of dividend or otherwise, we will

Table of Contents

include the impact of U.S. taxes as well as local taxes and withholding taxes in the provision for income taxes and also in the deferred taxes or tax payable liabilities depending upon the planned timing and manner of such repatriation. Based on our financial strength and performance, existing sources of liquidity, available cash resources and funds available under our various borrowing arrangements, we believe we will have sufficient resources to meet our present and future working capital requirements, including the financing that will be required for the acquisition of the IBM customer care business, for the next twelve months.

Our accounts receivable securitization program and our U.S credit facility agreement are renewable on their expiration dates. We have no reason to believe that these arrangements will not be renewed as we continue to be in good credit standing with the participating financial institutions. We have had similar borrowing arrangements with various financial institutions throughout our years as a public company.

On-Balance Sheet Arrangements

We primarily finance our United States operations with an accounts receivable securitization program, or the U.S. Arrangement. Until September 2013, our subsidiary, which is the borrower under the U.S. Arrangement, could borrow up to a maximum of \$400.0 million in U.S. trade accounts receivable, or the U.S. Receivables. In September 2013, we amended the U.S Arrangement to increase the commitment of the lenders to \$500.0 million. In addition, the amendment also included an accordion feature to allow requests for an increase in the lenders' commitment by an additional \$100.0 million to a maximum commitment of \$600.0 million. The maturity date of the U.S. Arrangement is October 2015. The effective borrowing cost under the U.S. Arrangement is a blended rate that includes prevailing dealer commercial paper rates and the daily London Interbank Offered Rate, or LIBOR, rate, plus a program fee of 0.425% per annum based on the used portion of the commitment, and a facility fee of 0.425% per annum payable on the aggregate commitment of the lenders. As of November 30, 2013, there was \$144.0 million of borrowing outstanding under the U.S. Arrangement. As of November 30, 2012, there was no balance outstanding under the U.S. Arrangement.

Under the terms of the U.S. Arrangement, we sell, on a revolving basis, U.S. Receivables to a wholly-owned, bankruptcy-remote subsidiary. The borrowings are funded by pledging all of the rights, title and interest in and to the U.S. Receivables acquired by our subsidiary as security. Any borrowings under the U.S. Arrangement are recorded as debt on our Consolidated Balance Sheets. As is customary in trade accounts receivable securitization arrangements, a credit rating agency's downgrade of the third party issuer of commercial paper or of a back-up liquidity provider (which provides a source of funding if the commercial paper market cannot be accessed) could result in an increase in our cost of borrowing or loss of our financing capacity under these programs if the commercial paper issuer or liquidity back-up provider is not replaced, or if the lender whose commercial paper issuer or liquidity back-up provider is not replaced does not elect to offer us an alternate rate. Loss of such financing capacity could have a material adverse effect on our financial condition and results of operations.

In November 2013, we entered into a senior secured credit agreement, or the U.S. Credit Agreement, which is comprised of \$275.0 million in a revolving credit facility and a term loan in an aggregate principal amount not to exceed \$225.0 million. We may request incremental commitments to increase the principal amount of revolving loans or term loans available under the U.S. Credit Agreement up to \$125.0 million. The U.S. Credit Agreement matures in November 2018. Interest on borrowings under the U.S. Credit Agreement can be based on the LIBOR, or a base rate, at our option. Loans borrowed under the Credit Agreement bear interest, in the case of LIBOR rate loans, at a per annum rate equal to the applicable LIBOR rate, plus a margin which may range from 1.75% to 2.25%, based on our consolidated leverage ratio, as determined in accordance with the U.S. Credit Agreement. Loans borrowed under the Credit Agreement that are not LIBOR rate loans, and are instead base rate loans, bear interest at a per annum rate equal to (i) the greatest of (A) the Federal Funds Rate plus a margin of 1/2 of 1.0%, (B) the LIBOR rate plus 1.0% per annum, and (C) the rate of interest announced, from time to time, by the agent, Bank of America, N.A., as its "prime rate," plus (ii) a margin which may range from 0.75% to 1.25%, based on our consolidated leverage ratio, as determined in accordance with the U.S. Credit Agreement. When drawn, the outstanding principal amount of the term loan will be repayable in quarterly installments, in an amount equal to (a) for each of the first eight calendar quarters ending after the term loan is made, 1.25% of the initial principal amount of the term loan, (b) for each calendar quarter ending thereafter, 2.50% of the initial principal amount of the term loan and (c) on the November 2018 maturity date

of the term loan, the outstanding principal amount of the term loan. Our obligations under the U.S. Credit Agreement are secured by substantially all of the parent company and its United States domestic subsidiaries' assets and are guaranteed by certain of our United States domestic subsidiaries. There were no borrowings outstanding under this credit arrangement as of November 30, 2013.

We had a senior secured revolving line of credit arrangement, or the Revolver, with a financial institution which provided a maximum commitment of \$100.0 million, which was terminated in November 2013. Interest on borrowings under this Revolver was based on a base rate or LIBOR rate, at our option. The margin on LIBOR rate borrowing was determined in accordance with our fixed charge coverage ratio and was 1.50% per annum. The margin on base rate borrowings was based on

Table of Contents

the financial institution's prime rate. The Revolver also contained an unused line fee of 0.30% per annum. The Revolver was secured by our inventory and other assets. There were no borrowings outstanding under the Revolver as of November 30, 2012.

SYNEX Canada has a revolving line of credit arrangement, or the Canadian Revolving Arrangement, with a financial institution for a maximum commitment of CAD100.0 million and includes an accordion feature to increase the maximum commitment by an additional CAD25.0 million to CAD125.0 million, at SYNEX Canada's request. The Canadian Revolving Arrangement also provides a sublimit of \$5.0 million for the issuance of standby letters of credit. As of November 30, 2013, there were no letters of credit outstanding. As of November 30, 2012, outstanding standby letters of credit totaled \$3.4 million. SYNEX Canada has granted a security interest in substantially all of its assets in favor of the lender under the Canadian Revolving Arrangement. In addition, we pledged our stock in SYNEX Canada as collateral for the Canadian Revolving Arrangement. The Canadian Revolving Arrangement expires in May 2017. The interest rate applicable under the Canadian Revolving Arrangement is equal to (i) the Canadian base rate plus a margin of 0.75% for a Base Rate Loan in Canadian Dollars, (ii) the US base rate plus a margin of 0.75% for a Base Rate Loan in U.S. Dollars, and (iii) the Bankers' Acceptance rate, or BA, plus a margin of 2.00% for a BA Rate Loan. The Canadian base rate means the greater of (a) the prime rate determined by a major Canadian financial institution and (b) the one month Canadian Dealer Offered Rate, or CDOR, (the average rate applicable to Canadian dollar bankers' acceptances for the applicable period) plus 1.50%). The US base rate means the greater of (a) a reference rate determined by a major Canadian financial institution for US dollar loans made to Canadian borrowers and (b) the US federal funds rate plus 0.50%. A fee of 0.25% per annum is payable with respect to the unused portion of the commitment. There were no borrowings outstanding under the Canadian Revolving Arrangement as of both November 30, 2013 and 2012.

SYNEX Canada has a term loan associated with the purchase of its logistics facility in Guelph, Canada. The interest rate for the unpaid principal amount is a fixed rate of 5.374% per annum. The final maturity date for repayment of the unpaid principal is April 1, 2017. The balance outstanding on the term loan as of November 30, 2013 and 2012 was \$7.4 million and \$8.6 million, respectively.

Infotec Japan has a credit agreement with a group of financial institutions for a maximum commitment of JPY14.0 billion. The credit agreement is comprised of a JPY6.0 billion long-term loan and a JPY8.0 billion short-term revolving credit facility. The credit agreement was refinanced in December 2012, to increase the short-term revolving credit facility to JPY8.0 billion from JPY4.0 billion. The interest rate for the long-term and short-term loans is based on the Tokyo Interbank Offered Rate, or TIBOR, plus a margin that was 1.90% per annum, however, in December 2013, we amended this credit agreement to lower this margin to 1.40% per annum. The unused line fee on the revolving credit facility was 0.5% per annum, however, in December 2013, we amended this credit agreement to lower this fee to 0.1% per annum. As of November 30, 2013 and 2012, the balance outstanding under the credit facility was \$136.7 million and \$111.5 million, respectively. The long-term loan can be repaid at any time prior to expiration date without penalty. We have issued a guarantee to cover up to 110% of the outstanding principal amount obligations of Infotec Japan to the lenders. This credit facility expires in December 2016.

In September 2013, Infotec Japan established a short-term revolving credit facility of JPY2.0 billion with a financial institution. The interest rate for the credit facility is based on TIBOR plus a margin of 0.50% per annum. In addition, there is a facility fee of 0.425% per annum. The credit facility can be renewed annually. As of November 30, 2013, the balance outstanding under this credit facility was \$19.5 million.

Infotec Japan has a short-term revolving credit facility of JPY1.0 billion with a financial institution. The credit facility was renewed for one year in March 2013 and bears an interest rate that is based on TIBOR plus a margin of 1.60% per annum. As of November 30, 2013 and 2012, the balances outstanding under these lines were \$9.8 million and \$12.1 million, respectively.

In addition, as of November 30, 2012, Infotec Japan had a term loan with a financial institution with a balance of \$0.4 million, which was repaid in December 2012 and bore a fixed interest rate of 1.50%.

As of November 30, 2013 and 2012, we also had \$0.5 million and \$1.1 million, respectively, in outstanding capital lease obligations and obligations for the sale and financing of approved accounts receivable and notes receivable with recourse provisions to Infotec Japan.

Covenants Compliance

In relation to the U.S. Arrangement, the U.S. Credit Agreement, the Canadian Revolving Arrangement and the Infotec Japan credit facility, we have a number of covenants and restrictions that, among other things, require us to comply with certain financial and other covenants. These covenants require us to maintain specified financial ratios and satisfy certain financial condition tests, including leverage and fixed charge coverage ratios. They also limit our ability to incur additional debt, make intercompany loans, pay dividends and make other types of distributions, make certain acquisitions, repurchase

Table of Contents

our stock, create liens, enter into agreements with affiliates, modify the nature of our business, enter into sale-leaseback transactions, make certain investments, enter into certain types of burdensome contracts, transfer and sell assets and merge or consolidate. As of November 30, 2013, we were in compliance with all material covenants for the above arrangements.

Convertible Debt

In August 2013, we settled our Convertible Senior Notes with an aggregate principal amount of \$143.8 million which were issued in May 2008 in a private placement. The Convertible Senior Notes bore a cash coupon interest rate of 4.0% per annum and the conversion rate was 33.9945 shares of common stock per \$1,000 principal amount, equivalent to an initial conversion price of \$29.42 per share of common stock. The Convertible Senior Notes were called in the second quarter of fiscal year 2013. No interest was accrued subsequent to May 2013 in accordance with the Indenture. The final settlement amount of \$218.9 million was paid in cash and comprised of \$143.8 million in principal payments and \$75.1 million in payment of conversion premium. The conversion premium, which represents the difference between the total settlement amount less the principal, was recorded as a reduction of additional paid-in capital. The final settlement amount was calculated in accordance with the Indenture based on the volume weighted-average trading price of our common stock over the 60 consecutive trading-day period beginning on and including the third trading day after the related conversion.

Based on a cash coupon interest rate of 4.0%, we recorded contractual interest expense of \$3.0 million during the fiscal year ended November 30, 2013, and \$6.5 million for both the fiscal year ended November 30, 2012 and 2011. Based on an effective rate of 8.0%, we recorded non-cash interest expenses of \$2.3 million, \$5.3 million, and \$4.9 million during the fiscal year ended November 30, 2013, 2012 and 2011, respectively. As of November 30, 2012, the carrying value of the Convertible Senior Notes, net of unamortized debt discount of \$2.3 million, was \$141.4 million.

Contractual Obligations

Future principal payments due after November 30, 2013 under the above loans, capital leases and operating lease arrangements are as follows:

	Payments Due by Period				
	Total	Less than 1 Year	1 - 3 Years	3 - 5 Years	> 5 Years
	(in thousands)				
Contractual Obligations:					
Principal debt payments	\$317,509	\$252,231	\$1,556	\$60,307	\$3,415
Interest on debt	7,371	3,294	2,996	754	327
Non-cancellable capital leases	419	292	127	—	—
Non-cancellable operating leases	91,210	23,826	36,364	18,826	12,194
Total	\$416,509	\$279,643	\$41,043	\$79,887	\$15,936

We have issued guarantees to certain vendors and lenders of our subsidiaries for trade credit lines and loans, and to a certain customer's lessor. In addition, we as the ultimate parent, guaranteed the obligations of SYNEX Investment Holdings Corporation up to \$35.0 million in connection with the sale of China Civilink (Cayman), which operated in China as HiChina Web Solutions, to Alibaba.com Limited. The total guarantees issued by us as of November 30, 2013 and 2012 was \$364.7 million and \$264.2 million, respectively. We are obligated under these guarantees to pay amounts due should its subsidiaries or customer not pay valid amounts owed to their vendors or lenders or not comply with subsidiary sales agreements.

As of November 30, 2013, we have established a reserve of \$24.4 million for unrecognized tax benefits. As we are unable to reasonably predict the timing of settlement of these guarantees and the reserve for unrecognized tax benefits, the table above excludes such liabilities.

Related Party Transactions

We had a business relationship with MiTAC International Corporation, or MiTAC International, a publicly-traded company in Taiwan, which began in 1992 when MiTAC International became our primary investor through its affiliates. In September 2013, MiTAC Holdings Corporation, or MiTAC Holdings, was established through a stock

swap from MiTAC International and became a publicly traded company on the Taiwan Stock Exchange. MiTAC International is now a wholly owned subsidiary of MiTAC Holdings. As of November 30, 2013 and 2012, MiTAC Holdings and its affiliates beneficially owned approximately 26% and 27%, respectively, of our common stock. Matthew Miao, our Chairman Emeritus of the Board of Directors and director, is the Chairman of MiTAC Holdings' and a director or officer of MiTAC Holdings' affiliates.

Table of Contents

The shares owned by MiTAC Holdings are held by the following entities:

	As of November 30, 2013 (shares in thousands)
MiTAC Holdings ⁽¹⁾	5,552
Synnex Technology International Corp. ⁽²⁾	4,283
Total	9,835

Shares are held via Silver Star Developments Ltd., a wholly-owned subsidiary of MiTAC Holdings. Excludes 594 (1)thousand shares (of which 534 thousand shares are directly held and 60 thousand shares are subject to exercisable options) held by Matthew Miao.

Synnex Technology International Corp., or Synnex Technology International, is a separate entity from us and is a publicly-traded corporation in Taiwan. Shares are held via Peer Development Ltd., a wholly-owned subsidiary of Synnex Technology International. MiTAC Holdings owns a noncontrolling interest of 8.7% in MiTAC (2) Incorporated, a privately-held Taiwanese company, which in turn holds a noncontrolling interest of 13.6% in Synnex Technology International. Neither MiTAC Holdings nor Mr. Miao is affiliated with any person(s), entity, or entities that hold a majority interest in MiTAC Incorporated.

MiTAC Holdings generally has significant influence over us and over the outcome of all matters submitted to stockholders for consideration, including any of our mergers or acquisitions. Among other things, this could have the effect of delaying, deterring or preventing a change of control over us.

We purchased inventories from MiTAC Holdings, MiTAC International and their affiliates totaling \$31.4 million, \$15.3 million and \$12.3 million during fiscal years 2013, 2012 and 2011, respectively. Our sales to MiTAC Holdings, MiTAC International and their affiliates during fiscal years 2013, 2012 and 2011 totaled \$4.4 million, \$2.7 million and \$4.2 million, respectively. In addition, we received reimbursements of rent and overhead costs for facilities used by MiTAC Holdings and MiTAC International amounting to \$3.1 million, \$3.7 million and \$6.7 million during the fiscal year ended November 30, 2013, 2012 and 2011, respectively.

Our business relationship with MiTAC Holdings and its affiliates has been informal and is not governed by long-term commitments or arrangements with respect to pricing terms, revenue or capacity commitments. We negotiated manufacturing, pricing and other material terms on a case-by-case basis with MiTAC International and our design and integration customers for a given project. While MiTAC Holdings is a related party and a controlling stockholder, we believe that the significant terms under our arrangements with MiTAC Holdings, including pricing, will not materially differ from the terms we could have negotiated with unaffiliated third parties, and we have adopted a policy requiring that material transactions with MiTAC Holdings or its related parties be approved by its Audit Committee, which is composed solely of independent directors. In addition, Matthew Miao's compensation is approved by the Nominating and Corporate Governance Committee, which is also composed solely of independent directors.

Synnex Technology International is a publicly-traded corporation in Taiwan that currently provides distribution and fulfillment services to various markets in Asia and Australia, and is also our potential competitor. Neither MiTAC International nor Synnex Technology International is restricted from competing with us.

Others

During fiscal year 2012, we sold our 33.3% noncontrolling ownership interest in SB Pacific, which was recorded as an equity-related investment, back to SB Pacific. In fiscal year 2012, a gain of \$1.3 million was recognized in Other income (expense), net on this transaction representing the difference between the sale proceeds and the carrying value of the investment. We were not the primary beneficiary in SB Pacific. The controlling shareholder of SB Pacific was Robert Huang, who is our founder and former Chairman. We regarded SB Pacific to be a variable interest entity.

Recent Accounting Pronouncements

For a summary of recent accounting pronouncements and the anticipated effects on our consolidated financial statements see Note 2 to the Consolidated Financial Statements.

Table of Contents

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

Foreign Currency Risk

We are exposed to foreign currency risk in the ordinary course of business. We manage cash flow exposures for our major countries using a combination of forward contracts. Principal currencies hedged are British Pound, Canadian Dollar, Chinese Renminbi, Euro, Indian Rupee, Japanese Yen, Mexican Peso, and Philippine Peso. These instruments are generally short-term in nature, with typical maturities of less than one year. We do not hold or issue derivative financial instruments for trading purposes.

The following table presents the hypothetical changes in fair values of our outstanding derivative instruments as of November 30, 2013 and 2012, arising from an instantaneous strengthening or weakening of the U.S. dollar by 5%, 10% and 15% (in thousands).

	Loss on Derivative Instruments Given Weakening of U.S. dollar by X Percent			Gain (Loss) Assuming No Change in Exchange Rate	Gain on Derivative Instruments Given a Strengthening of U.S. dollar by X Percent		
	15%	10%	5%		5%	10%	15%
Forward contracts at November 30, 2013	\$ (17,062)	\$ (9,961)	\$ (3,608)	\$ 2,110	\$ 7,283	\$ 11,986	\$ 16,280
Forward contracts at November 30, 2012	\$ (17,487)	\$ (10,526)	\$ (4,296)	\$ 1,313	\$ 6,391	\$ 11,009	\$ 15,227

We do not apply hedge accounting to our forward contracts, our foreign exchange contracts are marked-to-market and any material gains and losses on our hedge contracts resulting from a hypothetical, instantaneous change in the strength of the U.S. dollar would be significantly offset by mark-to-market gains and losses on the corresponding assets and liabilities being hedged.

Interest Rate Risk

The interest obligations of certain debt obligations have floated relative to major interest rate benchmarks. While we have not used derivative financial instruments to alter the interest rate characteristics of our investment holdings or debt instruments in the past, we may do so in the future.

Table of Contents

The following tables present the hypothetical interest expense related to our outstanding borrowings with variable interest rates for the years ended November 30, 2013 and 2012, arising from hypothetical parallel shifts in the respective countries' yield curves, of plus or minus 5%, 10% and 15% (in thousands).

	Interest Expense Given an Interest Rate Decrease by X Percent			Actual Interest Expense Assuming No Change in Interest Rate	Interest Expense Given an Interest Rate Increase by X Percent		
	15%	10%	5%		5%	10%	15%
SYNNEX US	\$3,020	\$3,035	\$3,049	\$ 3,063	\$3,077	\$3,091	\$3,106
SYNNEX Canada	—	—	—	—	—	—	—
Infotec Japan	3,183	3,242	3,259	3,224	3,291	3,308	3,324
Total for the year ended November 30, 2013	\$6,203	\$6,277	\$6,308	\$ 6,287	\$6,368	\$6,399	\$6,430

	Interest Expense Given an Interest Rate Decrease by X Percent			Actual Interest Expense Assuming No Change in Interest Rate	Interest Expense Given an Interest Rate Increase by X Percent		
	15%	10%	5%		5%	10%	15%
SYNNEX US	\$—	\$—	\$—	\$ —	\$—	\$—	\$—
SYNNEX Canada	—	—	—	—	—	—	—
Infotec Japan	2,603	2,756	2,909	3,062	3,191	3,320	3,449
Total for the year ended November 30, 2012	\$2,603	\$2,756	\$2,909	\$ 3,062	\$3,191	\$3,320	\$3,449

As of November 30, 2013, there were no borrowings outstanding with variable interest rate in Canada. As of November 30, 2012, there were no borrowings outstanding with variable interest rates in the United States and Canada.

Equity Price Risk

The equity price risk associated with our marketable equity securities as of November 30, 2013 and 2012 is not material in relation to our consolidated financial position, results of operations or cash flow. Marketable equity securities include shares of common stock. The investments are classified as either trading or available-for-sale securities. Securities classified as trading are recorded at fair market value, based on quoted market prices and unrealized gains and losses are included in results of operations. Securities classified as available-for-sale are recorded at fair market value, based on quoted market prices and unrealized gains and losses are included in other comprehensive income. Realized gains and losses, which are calculated based on the specific identification method, are recorded in operations as incurred.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of ours are being made only in accordance with authorizations of management and directors of us; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control—Integrated Framework (1992 framework) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, our management concludes that, as of November 30, 2013, our internal control over financial reporting was effective based on those criteria.

The effectiveness of our internal control over financial reporting as of November 30, 2013 has been audited by KPMG LLP, an independent registered public accounting firm, as stated in its report which appears in Item 8 of this Annual Report on Form 10-K.

Table of Contents

Report of Independent Registered Public Accounting Firm
The Board of Directors and Stockholders
SYNEX Corporation:

We have audited the accompanying consolidated balance sheets of SYNEX Corporation and subsidiaries (the Company) as of November 30, 2013 and 2012, and the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for the years ended November 30, 2013 and 2012. In connection with our audits of the consolidated financial statements, we also have audited the financial statement schedule of valuation and qualifying accounts as listed in the accompanying index. We also have audited the Company's internal control over financial reporting as of November 30, 2013, based on criteria established in Internal Control - Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these consolidated financial statements and financial statement schedule, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule, and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SYNEX Corporation and subsidiaries as of November 30, 2013 and 2012, and the results of their operations and their cash flows for the years ended November 30, 2013 and 2012, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein. Also in our opinion, SYNEX Corporation maintained, in all material respects, effective internal control over financial reporting as of November 30, 2013, based on criteria established in

Internal Control - Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

/s/ KPMG LLP

Table of Contents

Report of Independent Registered Public Accounting Firm
To the Board of Directors and Stockholders of SYNEX Corporation:

In our opinion, the consolidated statements of operations, comprehensive income, stockholders equity and cash flows for the year ended November 30, 2011 present fairly, in all material respects, the results of operations and cash flows of SYNEX Corporation and its subsidiaries for the year ended November 30, 2011, in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule for the year ended November 30, 2011 presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audit. We conducted our audit of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(currency and share amounts in thousands, except per share amounts)

NOTE 1—ORGANIZATION AND BASIS OF PRESENTATION:

SYNNEX Corporation (together with its subsidiaries, herein referred to as “SYNNEX” or the “Company”) is a business process services company offering a comprehensive range of services to resellers, retailers, and original equipment manufacturers (“OEMs”) worldwide. SYNnex’s business process services include distribution and business process outsourcing (“BPO”) services. SYNnex is headquartered in Fremont, California and has operations in North America, Central America, Asia and Europe.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles (“GAAP”) in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. The Company evaluates these estimates on a regular basis and bases them on historical experience and on various assumptions that the Company believes are reasonable. Actual results could differ from the estimates.

Principles of consolidation

The Consolidated Financial Statements include the accounts of the Company and its wholly-owned subsidiaries and majority-owned subsidiaries in which no substantive participating rights are held by minority stockholders. All intercompany accounts and transactions have been eliminated.

The Consolidated Financial Statements include 100% of the assets and liabilities of majority-owned subsidiaries and the ownership interest of minority investors is recorded as noncontrolling interest. Investments in 20% through 50% owned affiliated companies are accounted under the equity method where the Company exercises significant influence over operating and financial affairs of the investee and is not the primary beneficiary. Investments in less than 20% owned companies are recorded under the cost method.

Segment reporting

Operating segments are based on components of the Company that engage in business activity that earns revenue and incurs expenses and (a) whose operating results are regularly reviewed by the Company's chief operating decision maker (“CODM”) to make decisions about resource allocation and performance and (b) for which discrete financial information is available. The Company focuses on providing a full range of distribution and Global Business Services (“GBS”) offerings to its customers and operates in two segments.

The distribution services segment distributes peripherals, information technology (“IT”) systems, including data center server and storage solutions, system components, software, networking equipment, including consumer electronics (“CE”) and complementary products to a variety of customers, including value-added resellers, system integrators and retailers. The Company also provides design and integration services.

The GBS segment provides a range of BPO services that include direct sales, technical support, customer care, lead management, renewals management, back office processing and information technology outsourcing on a global platform. The services are delivered via voice, chat, web, email and digital print.

Cash and cash equivalents

The Company considers all highly liquid debt instruments purchased with an original maturity or remaining maturity at date of purchase of three months or less to be cash equivalents. Cash equivalents consist principally of money market deposit accounts that are stated at cost, which approximates fair value. The Company is exposed to credit risk in the event of default by financial institutions to the extent that cash balances with financial institutions are in excess of amounts that are insured.

Table of Contents

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

Restricted cash

Restricted cash balances relate to temporary restrictions caused by the timing of lockbox collections under the Company's borrowing arrangements, future payments to contractors for the long-term projects at the Company's Mexico operation and deposits.

The following table summarizes the restricted cash balances as of November 30, 2013 and 2012 and the location where these amounts are recorded on the Consolidated Balance Sheets:

	As of November 30,	
	2013	2012
Related to borrowing arrangements and others:		
Other current assets	\$22,349	\$23,247
Related to long-term projects:		
Other assets	1,865	6,103
Total restricted cash	\$24,214	\$29,350

Investments

The Company classifies its investments in marketable securities as trading and available-for-sale. Marketable securities related to its deferred compensation plan are classified as trading and are recorded at fair value, based on quoted market prices, and unrealized gains and losses are included in "Other income (expense), net" in the Company's financial statements. All other securities are classified as available-for-sale and are recorded at fair market value, based on quoted market prices, and unrealized gains and losses are included in "Accumulated other comprehensive income," a component of stockholders' equity. Realized gains and losses on available-for-sale securities, which are calculated based on the specific identification method, and declines in value judged to be other-than-temporary, if any, are recorded in "Other income (expense), net" as incurred.

To determine whether a decline in value is other-than-temporary, the Company evaluates several factors, including the current economic environment, market conditions, operational and financial performance of the investee, and other specific factors relating to the business underlying the investment, including business outlook of the investee, future trends in the investee's industry and the Company's intent to carry the investment for a sufficient period of time for any recovery in fair value. If a decline in value is deemed as other-than-temporary, the Company records reductions in carrying values to estimated fair values, which are determined based on quoted market prices if available or on one or more of the valuation methods such as pricing models using historical and projected financial information, liquidation values, and values of other comparable public companies.

The Company classifies its term deposits with financial institutions, with maturities from the date of purchase greater than three months and less than one year, as held-to-maturity investments. These term deposits are held until the maturity date and are not traded.

The Company has investments in equity instruments of privately-held companies and investments for which there are not readily determinable fair values. The investments that are included in "Short-term investments" are accounted for under the cost method of accounting. The long-term investments, which the Company has the ability and intent to hold for more than twelve months, are included in "Other assets" and are accounted for under the cost method of accounting. The Company monitors its cost-method investments for impairment by considering current factors, including the economic environment, market conditions, operational performance and other specific factors relating to the business underlying the investment, and records reductions in carrying values when necessary.

Allowance for doubtful accounts

The allowance for doubtful accounts is an estimate to cover the losses resulting from the inability of customers to make payments for outstanding balances. In estimating the required allowance, the Company takes into consideration the overall quality and aging of the accounts receivable, credit evaluations of customers' financial condition and existence of credit insurance. The Company also evaluates the collectability of accounts receivable based on specific

customer circumstances, current economic trends, historical experience with collections and any value and adequacy of collateral received from customers.

Table of Contents

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

Inventories

Inventories are stated at the lower of cost or market. Cost is computed based on the weighted-average method.

Inventories consist of finished goods purchased from various manufacturers for distribution resale and components used for integration services. The Company adjusts the inventory carrying value for cost in excess of market value and product obsolescence.

Property and equipment

Property and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method based upon the shorter of the estimated useful lives of the assets, or the lease term of the respective assets, if applicable. Maintenance and repairs are charged to expense as incurred, and improvements are capitalized. When assets are retired or otherwise disposed of, the cost and accumulated depreciation and amortization are removed from the accounts and any resulting gain or loss is reflected in operations in the period realized. The ranges of estimated useful lives for property and equipment categories are as follows:

Equipment and Furniture	3-10 years
Software	3-7 years
Leasehold Improvements	2-15 years
Buildings and Building Improvements	10-40 years

Goodwill and intangible assets

The values assigned to goodwill and intangible assets are based on estimates and judgment regarding expectations for the success and life cycle of products and technologies acquired in a business combination. Purchased intangible assets are amortized over the useful lives based on the estimate of the use of economic benefit of the asset or on the straight-line amortization method.

Goodwill is tested for impairment annually in the fourth quarter. For the purpose of its goodwill analysis, the Company has two reporting units, the distribution services reporting unit and the GBS reporting unit. Goodwill is tested for impairment at the reporting unit level by first performing a qualitative assessment to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying value. The factors that were considered in the qualitative analysis included the macroeconomic conditions, industry and market considerations, cost factors such as increases in product cost, labor, or other costs that would have a negative effect on earnings and cash flows; and other relevant entity-specific events and information.

If the reporting unit does not pass the qualitative assessment, then the reporting unit's carrying value is compared to its fair value. The fair values of the reporting units are estimated using market and discounted cash flow approaches. The assumptions used in the market approach are based on the value of a business through an analysis of multiples of guideline companies, recent sales or offerings of a comparable entity. The assumptions used in the discounted cash flow approach are based on historical and forecasted revenue, operating costs, future economic conditions, and other relevant factors. Goodwill is considered impaired if the carrying value of the reporting unit exceeds its fair value. The annual goodwill impairment analysis did not result in an impairment charge for fiscal years 2013, 2012 and 2011.

Intangible assets primarily consist of vendor lists and customer lists. Intangible assets are amortized as follows:

Customer Lists	4-10 years
Vendor Lists	4-10 years
Other Intangible Assets	1-10 years

Impairment of long-lived assets

The Company reviews the recoverability of its long-lived assets, such as intangible assets, property and equipment and certain other assets, when events or changes in circumstances occur that indicate the carrying value of the asset or asset group may not be recoverable. The assessment of possible impairment is based on the Company's ability to recover the carrying value of the asset or asset group from the expected future pre-tax cash flows, undiscounted and

without interest charges, of the related

55

Table of Contents

SYNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

operations. If these cash flows are less than the carrying value of such assets, an impairment loss is recognized for the difference between estimated fair value and carrying value.

Software costs

The Company develops software platforms for internal use and for resale. The Company capitalizes costs incurred to develop software for resale subsequent to the software product reaching technological feasibility. Capitalized costs are amortized over the economic life of the product using the greater of the straight-line amortization or using the ratio of current revenue to future expected revenue.

The Company capitalizes the costs incurred to develop software for internal use when new software is developed, the life of existing software is extended or significant enhancements are added to the features of existing software. The capitalized development costs mainly include payroll costs.

Concentration of credit risk

Financial instruments that potentially subject the Company to significant concentration of credit risk consist principally of cash and cash equivalents and accounts receivable. The Company's cash and cash equivalents are maintained with high quality institutions, the compositions and maturities of which are regularly monitored by management. Through November 30, 2013, the Company had not experienced any losses on such deposits. Accounts receivable include amounts due from customers and vendors primarily in the technology industry. The Company performs ongoing credit evaluations of its customers' financial condition and limits the amount of credit extended when deemed necessary, but generally requires no collateral. The Company also maintains allowances for potential credit losses. In estimating the required allowances, the Company takes into consideration the overall quality and aging of the receivable portfolio, the existence of a limited amount of credit insurance and specifically identified customer and vendor risks. Through November 30, 2013, such losses have been within management's expectations. In fiscal years 2013, 2012 and 2011 no customer accounted for 10% or more of the Company's revenue. Products purchased from the Company's largest OEM supplier, Hewlett-Packard Company ("HP"), accounted for approximately 31%, 36% and 35% of the total revenue for fiscal years 2013, 2012 and 2011, respectively.

As of November 30, 2013, no customer accounted for 10% or more of the total consolidated accounts receivable balance. As of November 30, 2012, one customer accounted for 10% of the total consolidated accounts receivable balance.

Revenue recognition

The Company generally recognizes revenue on the sale of hardware and software products when they are shipped and on services when they are performed, if a purchase order exists, the sales price is fixed or determinable, collection of resulting accounts receivable is reasonably assured, risk of loss and title have transferred and product returns are reasonably estimable. Provisions for sales returns and allowances are estimated based on historical data and are recorded concurrently with the recognition of revenue. These provisions are reviewed and adjusted periodically by the Company. Revenue is reduced for early payment discounts and volume incentive rebates offered to customers. The Company recognizes revenue on a net basis on certain contracts, including service contracts, post-contract software support services and extended warranty contracts, where it is not the primary obligor, by recognizing the margins earned in revenue with no associated cost of revenue.

The Company provides services such as call center, renewals management, maintenance and contract management services to its customers under contracts that typically consist of a master services agreement or statement of work, which contains the terms and conditions of each program and service offerings. Typically the contracts are time-based or transactions or volume based. Revenue is generally recognized over the term of the contract or when service has been rendered, the sales price is fixed or determinable and collection of the resulting accounts receivable is reasonably assured.

Revenue derived from the Company's operation in Mexico includes projects with the Mexican government and other local agencies that are long-term in nature. Under the agreements, the Company sells computers and equipment to contractors that provide services to the Mexican government. The Company also sells computer equipment and

services directly to the Mexican government. The payments are due on a monthly basis and contingent upon the satisfactory performance of certain services, fulfillment of certain obligations and meeting certain conditions. The Company recognizes revenue and cost of revenue on a straight-line basis over the term of the contract as the contingencies are satisfied and payments become due.

Table of Contents

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

Shipping and handling costs

Costs related to shipping and handling are included in "Cost of revenue."

OEM supplier programs

Funds received from OEM suppliers for volume promotion programs, price protection and product rebates are recorded as adjustments to cost of revenue and the carrying value of inventories, as appropriate. Where there is a binding agreement, the Company tracks vendor promotional programs for volume discounts on a program-by-program basis and records them as a reduction of cost of revenue based on a systematic and rational allocation. The Company monitors the balances of vendor receivables on a quarterly basis and adjusts the balances due for differences between expected and actual sales volume. Vendor receivables are generally collected through reductions authorized by the vendor, to accounts payable. Funds received for specific marketing and infrastructure reimbursements, net of direct costs, are recorded as adjustments to "Selling, general and administrative expenses," and any excess reimbursement amount is recorded as an adjustment to cost of revenue.

Royalties

The Company's software product purchases include products licensed from OEM vendors, which are subsequently distributed to resellers. Royalties to OEM vendors are accrued and recorded in cost of revenue when software products are shipped and revenue is recognized.

Warranties

The Company's OEM suppliers generally warrant the products distributed by the Company and allow returns of defective products. The Company generally does not independently warrant the products it distributes; however, the Company does warrant the following: (1) products that it builds to order from components purchased from other sources; and (2) its services with regard to products that it assembles for its customers. To date neither warranty expense, nor the accrual for warranty costs has been material to the Company's Consolidated Financial Statements.

Advertising

Costs related to advertising and product promotion expenditures are charged to "Selling, general and administrative expenses" as incurred and are primarily offset by OEM marketing reimbursements. To date, net costs related to advertising and promotion expenditures have not been material.

Income taxes

The asset and liability method is used in accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the expected tax consequences of temporary differences between the tax bases of assets and liabilities and their reported amounts in the financial statements using enacted tax rates and laws that will be in effect when the difference is expected to reverse. Valuation allowances are provided against deferred tax assets that are not likely to be realized.

Foreign currency translations

The financial statements of the Company's foreign subsidiaries whose functional currencies are the local currencies are translated into U.S. dollars for consolidation as follows: assets and liabilities at the exchange rate as of the balance sheet date, stockholders' equity at the historical rates of exchange, and income and expense amounts at the average exchange rate for the month. Translation adjustments resulting from the translation of the subsidiaries' accounts are included in "Accumulated other comprehensive income." Gains and losses resulting from foreign currency transactions are included within "Other income (expense), net." Such amounts are not significant to any of the periods presented.

Comprehensive income

Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. The primary components of comprehensive income for the Company include net income, foreign currency translation adjustments arising from the consolidation of the Company's foreign subsidiaries, unrealized gains and losses on the Company's available-for-sale securities and the changes in unrecognized pension and post retirement benefits.

Table of Contents

SYNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

Share-based compensation

Share-based compensation is estimated at the grant date based on the fair value of the awards expected to vest and recognized as expense ratably over the requisite service period of the award. The Company uses the Black-Scholes valuation model to estimate fair value of share-based option awards, which requires various assumptions including estimating stock price volatility and expected life.

Pension and post-retirement benefits

Defined benefit pension costs are estimated using various actuarial assumptions including discount rates, expected return on plan assets, inflation, mortality rates and compensation increases. The assumptions used are reviewed on an annual basis. The Company records pension expense related to multi-employer defined benefit plans based on the amount of contributions that are contractually owed during the period.

Earnings per common share

Earnings per common share-basic is computed by dividing the net income attributable to SYNEX Corporation for the period by the basic weighted-average number of outstanding common shares.

Earnings per common share-diluted is computed by adding the dilutive effect of in-the-money employee stock options, restricted stock awards, restricted stock units and similar equity instruments granted by the Company to the basic weighted-average number of outstanding common shares. The Company uses the treasury stock method, under which, the amount the employee must pay for exercising stock options, the amount of compensation cost for future services that the Company has not yet recognized and the amount of tax benefits that would be recorded in "Additional paid-in capital" when the award becomes deductible are assumed to be used to repurchase shares.

It was the Company's intent to settle the principal amount of the 4% Convertible Senior Notes due 2018 (the "Convertible Senior Notes") in cash; accordingly, the principal amount was excluded from the determination of diluted earnings per share. In April 2013, the Company decided to settle the payment of the conversion premium in cash as discussed in Note 12 — Convertible Debt. Through April 2013, the Company accounted for the conversion premium using the treasury stock method by adjusting the diluted weighted-average common shares if the effect was dilutive. From April 2013, the numerator for the computation of earnings per common share-diluted was adjusted for the changes in the estimated value of the conversion premium until the final settlement date.

The calculation of earnings per common share attributable to SYNEX Corporation is presented in Note 13.

Treasury Stock

Repurchases of shares of common stock are accounted for at cost, which includes brokerage fees, and are included as a component of stockholders' equity in the Consolidated Balance Sheets.

Reclassifications

Certain reclassifications have been made to prior period amounts in the Consolidated Balance Sheets and Consolidated Statements of Cash Flows to conform to current period presentation. Such reclassifications have no effect on the total current assets, total assets, cash flow from operating, investing and financing activities as previously reported.

Recent accounting pronouncements

In February 2013, the Financial Accounting Standards Board ("FASB") issued an accounting update, which requires companies to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present significant amounts reclassified out of accumulated other comprehensive income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. The amendments are effective prospectively for reporting periods beginning after December 15, 2012 with early adoption permitted. The accounting update will be applicable to the Company in the first quarter of fiscal year 2014.

In March 2013, the FASB issued an accounting update that clarifies the applicable guidance for the release of the cumulative translation adjustment when an entity ceases to have a controlling financial interest in a subsidiary or a group of assets that is a business within a foreign entity. The guidance clarifies that the accounting for the release of

cumulative

58

Table of Contents

SYNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

translation adjustment into net income for sales or transfers of a controlling financial interest within a foreign entity is the same irrespective of whether the sale or transfer is of a subsidiary or a group of assets that is a business. The accounting update is applicable for fiscal years and interim reporting periods within those years beginning after December 15, 2013 with early adoption permitted. The accounting update will be applicable for the Company in the second quarter of fiscal year 2014.

In July 2013, the FASB issued a new accounting standard that will require the presentation of certain unrecognized tax benefits as reductions to deferred tax assets rather than as liabilities in the Consolidated Balance Sheets when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The new accounting update will be applicable to the Company in the first quarter of fiscal 2015; however, early adoption and retrospective application are permitted. The Company is currently evaluating the impact of this new standard on its Consolidated Financial Statements.

During fiscal year 2013, the following accounting standards were adopted:

In June 2011, the FASB issued an accounting update that amends the presentation of "Comprehensive income" in the financial statements. The new guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, with early adoption permitted. The Company adopted the accounting update in the first quarter of fiscal year 2013 and updated its presentation of comprehensive income in the financial statements.

NOTE 3—ACQUISITIONS AND DIVESTITURES:

IBM customer care business acquisition

On September 10, 2013, the Company announced that it entered into a Master Asset Purchase Agreement with International Business Machines Corporation, a New York corporation ("IBM"), pursuant to which the Company will acquire IBM's customer care business ("the Assets") for an aggregate purchase price of \$505,000, subject to post-closing adjustments. A portion of the purchase price will be paid in shares of the Company's common stock up to the lesser of \$75,000 or 5% of the outstanding shares of the Company's common stock and the remainder will be paid in cash.

Completion of the acquisition is subject to customary closing conditions, including regulatory approvals.

Fiscal year 2013 acquisitions

In April 2013, the Company acquired substantially all of the assets of Supercom Canada Limited ("Supercom Canada"), a distributor of information technology ("IT") and consumer electronics products and services in Canada. The purchase price was approximately CAD37,593, or US\$36,665, in cash, including CAD4,450, or US\$4,340, in deferred payments, subject to certain post-closing conditions, payable within 18 months. Subsequent to the acquisition, the Company repaid debt and working capital lines in the amount of US\$53,721. Based on the preliminary purchase price allocation, the Company recorded net tangible assets of US\$26,912, goodwill of US\$5,384 and intangible assets of US\$4,369 in relation to this acquisition. This acquisition did not meet the conditions of a material business combination and was not subject to the disclosure requirements of accounting guidance for business combinations utilizing the purchase method of accounting. The acquisition is integrated into the distribution services segment and is expected to expand the Company's existing product and service offerings in Canada.

Fiscal year 2012 acquisitions and divestitures

In fiscal year 2012, the Company purchased shares of its subsidiary SYNEX Infotec Corporation ("Infotec Japan"), which were held by the noncontrolling interest SB Pacific Corporation Limited ("SB Pacific") for \$17,450, of which \$11,400 was paid during the fiscal year ended November 30, 2013. The transaction increased the Company's ownership interest in Infotec Japan from 70.0% to 99.8%. In fiscal year 2012, the Company also sold its 33.3% noncontrolling interest in SB Pacific, its equity-method investee at that time, back to SB Pacific. During the fiscal year ended November 30, 2013, the Company received the final payment of \$4,153 of the sale price.

In fiscal year 2012, the Company acquired a business in the GBS segment for a purchase price of \$6,200 with \$1,200 payable upon the completion of certain post-closing procedures and \$1,300 contingent consideration payable upon the

achievement of certain target earnings. The Company recorded goodwill of \$6,150 in relation to the above acquisition. This acquisition did not meet the conditions of a material business combination and was not subject to the disclosure requirements of accounting guidance for business combinations utilizing the purchase method of accounting.

NOTE 4—STOCKHOLDERS' EQUITY:

2013 Stock Incentive Plan

The Company's 2013 Stock Incentive Plan was adopted by its Board of Directors and approved by its stockholders in 2013. The plan provides for the direct award or sale of shares of common stock, restricted stock awards, and restricted stock units, the grant of options to purchase shares of common stock and the award of stock appreciation rights to employees and non-employee directors and consultants.

The 2013 Stock Incentive Plan is administered by the Company's Compensation Committee. The Compensation Committee determines which eligible individuals are to receive awards under the plan, the number of shares subject to the awards, the vesting schedule applicable to the awards and other terms of the award, subject to the limits of the plan. The Compensation Committee may delegate its administrative authority, subject to certain limitations, with respect to individuals who are not officers.

The Board of Directors may amend or modify the 2013 Stock Incentive Plan at any time, subject to any required stockholder approval. The plan will terminate no later than March 19, 2023. The number of shares granted, issued, retainable or vested under an award may be subject to the attainment of individual, divisional or Company-wide performance goals.

The number of authorized shares under the 2013 Stock Incentive Plan will not exceed the sum of 1,696 shares of common stock, plus any shares under the Amended and Restated 2003 Stock Incentive Plan (the "2003 Stock Incentive Plan") that are subject to outstanding awards granted to the extent those awards expire, terminate or are canceled for any reason prior to exercise without the issuance or delivery of such shares, any shares subject to vesting restrictions that are subsequently forfeited, and any reserved shares not issued or subject to outstanding awards, up to a maximum of 2,750 shares. No participant in the 2013 Stock Incentive Plan may receive option grants or stock appreciation rights, restricted shares or restricted stock units for more than 1,500 shares per calendar year, or more than 2,500 shares in the participant's first calendar year of service.

Under the 2013 Stock Incentive Plan, qualified employees are eligible for the grant of incentive stock options to purchase shares of common stock. Qualified employees and outside directors and consultants are eligible for the grant of nonstatutory stock options, stock appreciation rights, restricted stock grants and restricted stock units. The outstanding stock options and restricted stock awards granted to qualified employees generally vest over a five-year period and the stock options have a contractual term of ten years.

Every outside director who first joins the Board of Directors will receive an option to purchase 10 shares and restricted shares equal to \$90 based on the fair value of the shares on the date of grant. Each outside director will also qualify to receive an annual grant of restricted shares equal to \$90 based on the fair value of the shares on the date of grant. The stock options vest as to one third of the stock underlying the stock options on the first anniversary date of the grant and the remaining vest monthly over a two-year period starting one month after the first anniversary of the date of grant. The restricted stock grants vest as to one quarter of the restricted stock on each fiscal quarter following the date of the grant over a one-year period.

The Compensation Committee determines the exercise price of options and the purchase price of restricted stock grants; however, the option price for incentive stock options will not be less than 100% of the fair market value of the stock on the date of grant.

Amended and Restated 2003 Stock Incentive Plan

The Company's 2003 Stock Incentive Plan was adopted by its Board of Directors and approved by its stockholders in 2003 and amended and approved by its stockholders again in 2008. The plan provides for the direct award or sale of shares of common stock, restricted stock awards and restricted stock units, the grant of options to purchase shares of common stock and the award of stock appreciation rights to employees and non-employee directors, advisors and consultants.

The 2003 Stock Incentive Plan was administered by the Company's Compensation Committee. The Compensation Committee determined which eligible individuals were to receive awards under the plan, the number of shares subject

to the awards, the vesting schedule applicable to the awards and other terms of the award, subject to the limits of the plan. The Compensation Committee may delegate its administrative authority, subject to certain limitations, with respect to individuals who are not officers. The number of shares granted, issued, retainable or vested under an award could be subject to the attachment of individual, divisional or Company-wide performance goals.

The plan terminated in March 2013. The number of authorized shares under the 2003 Stock Incentive Plan could not exceed 14,120 shares of common stock. No participant in the 2003 Stock Incentive Plan could receive option grants or stock

Table of Contents

SYNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

appreciation rights, restricted shares or restricted stock units for more than 1,500 shares per calendar year, or more than 2,500 shares in the participant's first calendar year of service.

Prior to January 4, 2007, qualified non-employee directors who first joined the Board of Directors after the plan was effective received an initial option grant of 25 shares, and all non-employee directors were eligible for annual option grants of 5 shares for each year they continued to serve. The exercise price of these option grants was equal to 100% of the fair market value of those shares on the date of the grant.

Amended and Restated 2003 Stock Incentive Plan, on and after January 4, 2007

After January 4, 2007, qualified non-employee directors who first joined the Board of Directors after the plan was effective received an initial option grant of 10 shares and 2 shares of restricted stock. All non-employee directors were eligible for annual grants of 2 shares of restricted stock for each year they continued to serve. The exercise price of these option grants was equal to 100% of the fair market value of those shares on the date of the grant. In addition, one third of the restricted stock grants vested on each anniversary date of the grant over a period of three years. One third of the stock options vested on the first anniversary date of the grant and the remaining vested monthly over a two-year period starting one month after the first anniversary of the date of grant. The annual grants of restricted stock vested in full upon the director's retirement with the consent of the Board of Directors.

Amended and Restated 2003 Stock Incentive Plan, after November 21, 2008

After November 21, 2008, the vesting schedule for qualified non-employee directors' annual grants of 2 shares of restricted stock was amended for newly issued grants. One quarter of the restricted shares shall vest on the last day of each fiscal quarter thereafter following the date of the grant over a period of one year.

Amended and Restated 2003 Stock Incentive Plan, after January 4, 2011

After January 4, 2011, the 2003 Stock Incentive Plan was amended and restated to state that every outside director who first joins the Board of Directors will receive an option to purchase 10 shares and restricted shares equal to \$90 based on the fair value of the shares on the date of grant. Each outside director will also qualify to receive an annual grant of restricted shares equal to \$90 based on the fair value of the shares on the date of grant.

2003 Employee Stock Purchase Plan

The Company's 2003 Employee Stock Purchase Plan ("ESPP") permits eligible employees to purchase common stock through payroll deductions. The ESPP was approved by the Board of Directors and the Company's stockholders in 2003 and certain amendments were approved by the Board of Directors in March 2005, September 2008 and September 2013. In addition, in 2009, an amendment to the ESPP was approved by the Board of Directors and the Company's stockholders to increase the number of shares available for issuance by 250 shares, from 500 shares to 750 shares. As such, a total of 750 shares of common stock have been reserved for issuance under the ESPP. The participant purchase price discount is 5%. In a calendar year, there are four offering periods of three months each. The maximum number of shares a participant may purchase is 1.25 during a single accumulation period subject to a maximum purchase limit of \$10 per calendar year. Employees at associate vice president level and above are not eligible to participate in the plan.

The weighted-average fair value of ESPP purchases, which was computed using the Black-Scholes valuation model, during fiscal years 2013 and 2012 was \$1.74 and \$2.23, respectively.

Share Repurchase Program

In June 2011, the Board of Directors authorized a three-year \$65,000 share repurchase program. During fiscal year 2011, the Company purchased 62 shares at a weighted-average price of \$26.89 per share. During fiscal year 2012, the Company purchased 244 shares at a weighted average price of \$31.84 per share. During fiscal year 2013, the Company purchased 55 shares at a weighted average price of \$34.28 per share.

The share purchases were made on the open market and the shares repurchased by the Company are held in treasury for general corporate purposes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

NOTE 5—SHARE-BASED COMPENSATION:

The Company recognizes share-based compensation expense for all share-based awards made to employees and directors, including employee stock options, restricted stock awards, restricted stock units and employee stock purchases, based on estimated fair values.

The Company recorded share-based compensation expense in "Selling, general and administrative expenses" for fiscal years 2013, 2012 and 2011 as follows:

	Fiscal Years Ended November 30,		
	2013	2012	2011
Total share-based compensation	\$9,174	\$8,445	\$7,993
Tax effect on share-based compensation	(3,304)	(3,001)	(2,755)
Net effect on net income	\$5,870	\$5,444	\$5,238

Valuation Assumptions

The Company estimates the fair value of share-based payment awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service period in the Company's financial statements.

The Company uses the Black-Scholes valuation model to estimate fair value of stock options. The Black-Scholes option-pricing model was developed for use in estimating the fair value of short-lived exchange traded options that have no vesting restrictions and are fully transferable. In addition, option-pricing models require the input of highly subjective assumptions, including the option's expected life and the price volatility of the underlying stock. The expected stock price volatility assumption was determined using historical volatility of the Company's common stock. The following assumptions were used in the Black-Scholes valuation model in fiscal years 2013, 2012 and 2011:

	Fiscal Years Ended November 30,		
	2013	2012	2011
Stock option plan:			
Expected life (years)	5.6	5.8	5.9
Risk free interest rate	1.61	% 0.70	% 1.11
Expected volatility	38.71	% 39.75	% 41.14
Dividend yield	0.00	% 0.00	% 0.00
Employee stock purchase plan:			
Expected life (years)	0.3	0.3	0.3
Risk free interest rate	0.02	% 0.09	% 0.02
Expected volatility	27.96	% 26.51	% 33.15
Dividend yield	0.00	% 0.00	% 0.00

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

A summary of the activities under the Company's stock option plan is set forth below:

	Shares Available for Grant	Options Outstanding Number of Shares	Weighted-Average Exercise Price Per Share
Balances, November 30, 2012	1,128	1,343	\$ 21.89
Restricted stock awards granted	(131)) —	—
Restricted stock units granted	(106)) —	—
Restricted stock canceled/forfeited	25	—	—
Options granted	(55)) 55	\$ 61.83
Options exercised	—	(438)) \$ 16.37
Options canceled/forfeited/expired	26	(26)) \$ 19.49
Balances, November 30, 2013	887	934	\$ 26.88

Employee Stock Options

The weighted-average grant-date fair values of the stock options granted during fiscal years 2013, 2012 and 2011 were \$23.62, \$12.75, and \$10.68, respectively. As of November 30, 2013, 936 options were outstanding and expected to vest with a weighted average life of 5.56 years, a weighted average exercise price of \$26.88 per option and an aggregate pre-tax intrinsic value of \$36,750. As of November 30, 2013, 688 options were vested and exercisable with a weighted average life of 4.56 years, a weighted average exercise price of \$23.19 per share and aggregate pre-tax intrinsic value of \$29,579.

The cash received from the exercise of options and the intrinsic values of options exercised during fiscal years 2013, 2012 and 2011 were as follows:

	Fiscal Years Ended November 30,		
	2013	2012	2011
Intrinsic value of options exercised	\$10,749	\$9,653	\$9,375
Cash received from exercise of options	7,163	8,165	6,290

The Company settles employee stock option exercises with newly issued common shares.

As of November 30, 2013, the unamortized share-based compensation expense related to unvested stock options under the Amended and Restated 2003 and 2013 Stock Incentive Plan was \$3,645 which will be recognized over an estimated weighted-average amortization period of 3.52 years.

Restricted Stock Awards and Restricted Stock Units

A summary of the changes in the Company's nonvested restricted stock awards and stock units during the fiscal year 2013 is presented below:

	Number of shares	Weighted-average, grant-date fair value per share
Nonvested as of November 30, 2012	811	\$30.54
Awards Granted	131	\$54.05
Units granted	106	\$35.38
Awards vested	(225)	\$27.91
Awards canceled/forfeited	(25)	\$31.30
Nonvested as of November 30, 2013	798	\$35.78

Table of Contents

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

As of November 30, 2013, there was \$19,149 of total unamortized share-based compensation expense related to nonvested restricted stock awards and stock units granted under the Amended and Restated 2003 and 2013 Stock Incentive Plan. That cost is expected to be recognized over an estimated weighted-average amortization period of 3.31 years.

	\$19,168	\$35,405

NOTE 7—INVESTMENTS:

The carrying amount of the Company's investments is shown in the table below:

	As of November 30, 2013			As of November 30, 2012		
	Cost Basis	Unrealized (Losses)/Gains	Carrying Value	Cost Basis	Unrealized (Losses)/Gains	Carrying Value
Short-term investments:						
Trading	\$3,857	\$871	\$4,728	\$5,636	\$73	\$5,709
Available-for-sale securities	—	—	—	—	44	44
Held-to-maturity investments	8,753	—	8,753	8,297	—	8,297
Cost method securities	1,653	—	1,653	1,883	—	1,883
	\$14,263	\$871	\$15,134	\$15,816	\$117	\$15,933
Long-term investments in other assets:						
Available-for-sale securities	\$909	\$366	\$1,275	\$1,095	\$22	\$1,117
Cost-method investments	4,981	—	4,981	3,313	—	3,313

Short-term trading securities generally consist of equity securities relating to the Company's deferred compensation plan. Short-term and long-term available-for-sale securities primarily consist of investments in other companies' equity securities. Held-to-maturity investments primarily consist of term deposits with maturities from the date of purchase greater than three

Table of Contents

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

months and less than one year. These term deposits are held until the maturity date and are not traded. Cost-method securities primarily consist of investments in a hedge fund and a private equity fund under the Company's deferred compensation plan.

Trading securities and available-for-sale securities are recorded at fair value in each reporting period and therefore the carrying value of these securities equals their fair value. For cost-method securities and investments, the Company records an impairment charge when the decline in fair value is determined to be other-than-temporary. The fair value of the cost-method investments is based on (i) the published fund values, (ii) a valuation model developed internally based on the published value of the securities held by the fund or (iii) an internal valuation of the investee.

The following table summarizes the total gains and losses recorded in "Other income (expense), net" in the Consolidated Statement of Operations for changes in the fair value of the Company's trading investments during fiscal years 2013, 2012, and 2011:

	Fiscal Years Ended November 30,		
	2013	2012	2011
Gain (loss) on trading investments	\$1,868	\$2,602	\$(211)

NOTE 8—DERIVATIVE INSTRUMENTS:

In the ordinary course of business, the Company is exposed to foreign currency risk, interest risk, equity risk and credit risk. The Company's transactions in some of its foreign operations are denominated in local currency. The Company's foreign locations enter into transactions, and own monetary assets and liabilities, that are denominated in currencies other than their functional currency. As part of its risk management strategy, the Company uses short-term forward contracts and natural hedges in most of the above mentioned currencies to minimize its balance sheet exposure to foreign currency risk. These derivatives are not designated as hedging instruments. The forward exchange contracts are recorded at fair value in each reporting period and any gains or losses, resulting from the changes in fair value, are recorded in earnings in the period of change. Generally, the Company does not use derivative instruments to cover interest risk, equity risk and credit risk. The Company's policy is not to allow the use of derivatives for trading or speculative purposes. The fair value of the Company's forward exchange contracts is also disclosed in Note 9.

The following table summarizes the fair value of the Company's foreign exchange forward contracts as of November 30, 2013 and 2012:

	As of November 30,	
	2013	2012
Other current assets	\$2,386	\$1,292
Accrued liabilities	(80)	—

The notional amounts of the foreign exchange forward contracts that were outstanding as of November 30, 2013 and 2012 were \$158,950 and \$128,518, respectively. The notional amounts represent the gross amounts of foreign currency that will be bought or sold at maturity. In relation to its forward contracts, the Company recorded in "Other income (expense), net" gain of \$8,368 and \$10 in fiscal year 2013 and 2012, respectively, and loss of \$1,792 in fiscal year 2011.

NOTE 9—FAIR VALUE MEASUREMENTS:

The Company's fair value measurements are classified and disclosed in one of the following three categories:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

(currency and share amounts in thousands, except per share amounts)

The following table summarizes the valuation of the Company's short-term investments and financial instruments that are measured at fair value on a recurring basis:

	As of November 30, 2013				As of November 30, 2012			
	Total	Fair value measurement category			Total	Fair value measurement category		
		Level 1	Level 2	Level 3		Level 1	Level 2	Level 3
Assets								
Cash equivalents	\$28,779	\$28,779	\$—	\$—	\$95,074	\$95,074	\$—	\$—
Trading securities	4,728	4,728	—	—	5,709	5,709	—	—
Available-for-sale securities in short-term investments	—	—	—	—	44	44	—	—
Available-for-sale securities in other assets	1,275	1,275	—	—	1,117	1,117	—	—
Forward foreign currency exchange contracts	2,386	—	2,386	—	1,292	—	1,292	—
Liabilities:								
Forward foreign currency exchange contracts	\$80	\$—	\$80	\$—	\$—	\$—	\$—	\$—
Acquisition-related contingent consideration	2,996	—	—	2,996	2,611	—	—	2,611

The Company's cash equivalents consist primarily of highly liquid investments in money market funds and term deposits with maturity periods of three months or less. The carrying value of the cash equivalents approximates the fair value since they are near their maturity. Investments in trading and available-for-sale securities consist of equity securities and are recorded at fair value based on quoted market prices. The fair values of forward exchange contracts are measured based on the foreign currency spot and forward rates quoted by the banks or foreign currency dealers. The acquisition-related contingent consideration liability represents the future potential earn-out payments relating to the Company's acquisitions. The fair values of the contingent consideration liabilities are based on the Company's probability assessment of the established profitability measures and operational conditions during the periods ranging from one year to three years from the date of the acquisitions. During fiscal year ended November 30, 2013, the fair value of the contingent consideration liability was remeasured and the resulting decrease of \$1,233, recorded as a benefit to "Selling, general and administrative expenses" in the Consolidated Statements of Operations. The change in the fair value was due to updated estimates of expected revenue and gross profit related to the achievement of established earn-out targets. In addition, the contingent consideration liability was increased in fiscal year 2013 by \$1,756 for future contingent payment obligations related to the Company's acquisition of Supercom Canada. The remaining change in the carrying value of the liability is due to the translation effect of foreign currencies. The carrying value of held-to-maturity securities, accounts receivable, accounts payable and short-term debt, approximate fair value due to their short maturities and the interest rates which are variable in nature. The carrying value of the Company's term loans approximate their fair value since they bear interest rates that are similar to existing market rates. The Convertible Senior Notes had a carrying value of \$141,436 as of November 30, 2012 and a fair value of \$167,735, based on the closing price of the Convertible Senior Notes traded in a limited trading market. The fair value was categorized as level 2 in the fair value measurement category levels. In August 2013, the Company repaid all of the outstanding convertible debt.

During the fiscal year 2013, there were no transfers between the fair value measurement category levels.

NOTE 10—ACCOUNTS RECEIVABLE ARRANGEMENTS:

The Company primarily finances its United States operations with an accounts receivable securitization program (the “U.S. Arrangement”). Until September 2013, the Company’s subsidiary, which is the borrower under the U.S. Arrangement, could borrow up to a maximum of \$400,000 in U.S. trade accounts receivable (“U.S. Receivables”). In September 2013, the Company amended the U.S. Arrangement to increase the commitment of the lenders to \$500,000. In addition, the amendment also included an accordion feature to allow requests for an increase in the lenders' commitment by an additional \$100,000 to a maximum commitment of \$600,000. The maturity date of the U.S. Arrangement is October 18, 2015. The effective borrowing cost under the U.S. Arrangement is a blended rate that includes prevailing dealer commercial paper rates and the daily London

Table of Contents

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

Interbank Offered Rate (“LIBOR”), plus a program fee of 0.425% per annum based on the used portion of the commitment, and a facility fee of 0.425% per annum payable on the aggregate commitment of the lenders. As of November 30, 2013 there was \$144,000 of borrowing outstanding under the U.S. Arrangement. As of November 30, 2012, there was no balance outstanding under the U.S. Arrangement.

Under the terms of the U.S. Arrangement, the Company sells, on a revolving basis, its U.S. Receivables to a wholly-owned, bankruptcy-remote subsidiary. The borrowings are funded by pledging all of the rights, title and interest in and to the U.S. Receivables acquired by the Company's subsidiary as security. Any borrowings under the U.S. Arrangement are recorded as debt on the Company's Consolidated Balance Sheets. As is customary in trade accounts receivable securitization arrangements, a credit rating agency's downgrade of the third party issuer of commercial paper or of a back-up liquidity provider (which provides a source of funding if the commercial paper market cannot be accessed) could result in an increase in the Company's cost of borrowing or loss of the Company's financing capacity under these programs if the commercial paper issuer or liquidity back-up provider is not replaced, or if the lender whose commercial paper issuer or liquidity back-up provider is not replaced does not elect to offer the Company an alternative rate. Loss of such financing capacity could have a material adverse effect on the Company's financial condition and results of operations.

The Company also has other financing agreements in North America with various financial institutions (“Flooring Companies”) to allow certain customers of the Company to finance their purchases directly with the Flooring Companies. Under these agreements, the Flooring Companies pay to the Company the selling price of products sold to various customers, less a discount, within approximately 15 to 30 days from the date of sale. The Company is contingently liable to repurchase inventory sold under flooring agreements in the event of any default by its customers under the agreement and such inventory being repossessed by the Flooring Companies. Please see Note 19—Commitments and Contingencies for further information.

The following table summarizes the net sales financed through the flooring agreements and the flooring fees incurred:

	Fiscal Years Ended November 30,		
	2013	2012	2011
Net sales financed	\$1,023,966	\$831,694	\$745,657
Flooring fees ⁽¹⁾	5,877	4,736	3,349

(1) Flooring fees are included within “Interest expense and finance charges, net.”

As of November 30, 2013 and 2012, accounts receivable subject to flooring agreements were \$89,589 and \$55,963, respectively.

Infotec Japan has arrangements with various banks and financial institutions for the sale and financing of approved accounts receivable and notes receivable. The amount outstanding under these arrangements that was sold, but not collected as of November 30, 2013 and 2012 was \$13,862 and \$11,233, respectively.

SYNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

NOTE 11—BORROWINGS:

Borrowings consist of the following:

	As of November 30	
	2013	2012
Convertible debt	\$—	\$141,436
SYNEX U.S. securitization	144,000	—
SYNEX Canada term loan	7,419	8,648
Infotec Japan credit facility	136,679	111,542
Other borrowings and capital leases	29,830	13,660
Total borrowings	317,928	275,286
Less: Current portion	(252,523)	(194,134)
Non-current portion	\$65,405	\$81,152
Convertible debt		

In May 2008, the Company issued \$143,750 of aggregate principal amount of its 4.0% Convertible Senior Notes due 2018 (the “Convertible Senior Notes”) in a private placement. The carrying amount of the Convertible Senior Notes, net of the unamortized debt discount, was \$141,436 as of November 30, 2012. The convertible debt was repaid in August 2013. See Note 12 — Convertible Debt.

SYNEX U.S. securitization

The Company's subsidiary which is the borrower under the U.S. Arrangement can borrow up to a maximum of \$500,000 under its U.S. Arrangement, secured by U.S. Receivables. See Note 10—Accounts Receivable Arrangements. The effective borrowing cost under the U.S. Arrangement is a blended rate that includes the prevailing dealer commercial paper rates and LIBOR, plus a program fee on the used portion of the commitment and a facility fee payable on the aggregate commitment. As of November 30, 2013, the outstanding balance under the U.S. arrangement was \$144,000. As of November 30, 2012 there were no borrowings outstanding under the U.S. Arrangement.

SYNEX U.S. credit agreement

In November 2013, the Company entered into a senior secured credit agreement (the “U.S. Credit Agreement”) which is comprised of \$275,000 in a revolving credit facility and a term loan in an aggregate principal amount not to exceed \$225,000. The Company may request incremental commitments to increase the principal amount of revolving loans or term loans available under the U.S. Credit Agreement up to \$125,000. The U.S. Credit Agreement matures in November 2018.

Interest on borrowings under the Credit Agreement can be based on LIBOR rate or a base rate at the Company's option. Loans borrowed under the U.S. Credit Agreement bear interest, in the case of LIBOR rate loans, at a per annum rate equal to the applicable LIBOR rate, plus a margin which may range from 1.75% to 2.25%, based on the Company's consolidated leverage ratios, as determined in accordance with the U.S. Credit Agreement. Loans borrowed under the Credit Agreement that are not LIBOR rate loans, and are instead base rate loans, bear interest at a per annum rate equal to (i) the greatest of (A) the Federal Funds Rate plus a margin of 1/2 of 1.0%, (B) the LIBOR rate plus 1.0% per annum, and (C) the rate of interest announced, from time to time, by the agent, Bank of America, N.A, as its “prime rate,” plus (ii) a margin which may range from 0.75% to 1.25%, based on the Company's consolidated leverage ratios as determined in accordance with the U.S. Credit Agreement.

When drawn, the outstanding principal amount of the long-term loan will be repayable in quarterly installments, in an amount equal to (a) for each of the first eight calendar quarters ending after the term loan is made, 1.25% of the initial principal amount of the term loan, (b) for each calendar quarter ending thereafter, 2.50% of the initial principal amount of the term loan and (c) on the November 2018 maturity date of the term loan, the outstanding principal amount of the term loan. The Company's obligations under the U.S. Credit Agreement are secured by substantially all of the parent company's and its United States domestic subsidiaries' assets and are guaranteed by certain of its United States domestic subsidiaries.

There were no borrowings outstanding under this credit arrangement as of November 30, 2013.

Table of Contents

SYNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

SYNEX U.S. senior secured revolving line of credit

The Company had a senior secured revolving line of credit arrangement (the "Revolver") with a financial institution which provided a maximum commitment of \$100,000. The line of credit was terminated in November 2013. Interest on borrowings under this Revolver was based on a base rate or LIBOR rate, at the Company's option. The margin on LIBOR rate borrowing was determined in accordance with the Company's fixed charge coverage ratio and was 1.50% per annum. The margin on the Company's base rate borrowings was based on the financial institution's prime rate. The Revolver also contained an unused line fee of 0.30% per annum. The Revolver was secured by the Company's inventory and other assets. There were no borrowings outstanding under the Revolver as of November 30, 2012.

SYNEX Canada revolving line of credit

SYNEX Canada Limited ("SYNEX Canada") has a revolving line of credit arrangement (the "Canadian Revolving Arrangement") with a financial institution for a maximum commitment of CAD100,000 and includes an accordion feature to increase the maximum commitment by an additional CAD25,000 to CAD125,000, at SYNEX Canada's request. The Canadian Revolving Arrangement also provides a sublimit of \$5,000 for the issuance of standby letters of credit. There were no letters of credit outstanding as of November 30, 2013. As of November 30, 2012, outstanding standby letters of credit totaled \$3,447.

SYNEX Canada has granted a security interest in substantially all of its assets in favor of the lender under the Canadian Revolving Arrangement. In addition, the Company pledged its stock in SYNEX Canada as collateral for the Canadian Revolving Arrangement. The interest rate applicable under the Canadian Revolving Arrangement is equal to (i) the Canadian base rate plus a margin of 0.75% for a Base Rate Loan in Canadian Dollars, (ii) the US base rate plus a margin of 0.75% for a Base Rate Loan in U.S. Dollars, and (iii) the Bankers' Acceptance rate ("BA") plus a margin of 2.00% for a BA Rate Loan. The Canadian base rate means the greater of (a) the prime rate determined by a major Canadian financial institution and (b) the one month Canadian Dealer Offered Rate ("CDOR") (the average rate applicable to Canadian dollar bankers' acceptances for the applicable period) plus 1.50%. The US base rate means the greater of (a) a reference rate determined by a major Canadian financial institution for US dollar loans made to Canadian borrowers and (b) the US federal funds rate plus 0.50%. A fee of 0.25% per annum is payable with respect to the unused portion of the commitment. The credit arrangement expires in May 2017. As of both November 30, 2013 and 2012, there were no balance outstanding under the Canadian Revolving Arrangement.

SYNEX Canada term loan

SYNEX Canada has a term loan associated with the purchase of its logistics facility in Guelph, Canada. The interest rate for the unpaid principal amount is a fixed rate of 5.374% per annum. The final maturity date for repayment of the unpaid principal is April 1, 2017. The balance outstanding on the term loan as of November 30, 2013 and 2012 was \$7,419 and \$8,648, respectively.

Infotec Japan credit facility

Infotec Japan has a credit agreement with a group of financial institutions for a maximum commitment of JPY14,000,000. The credit agreement is comprised of a JPY6,000,000 long-term loan and a JPY8,000,000 short-term revolving credit facility. The credit agreement was refinanced in December 2012, to increase the short-term revolving credit facility to JPY8,000,000 from JPY4,000,000. The interest rate for the long-term and short-term loans is based on the Tokyo Interbank Offered Rate ("TIBOR") plus a margin of 1.90% per annum. The unused line fee on the revolving credit facility was 0.50% per annum. As of November 30, 2013 and 2012, the balance outstanding under the credit facility was \$136,679 and \$111,542, respectively. The long-term loan can be repaid at any time prior to expiration date without penalty. The Company has issued a guarantee to cover up to 110% of the outstanding principal amount obligations of Infotec Japan to the lenders.

In December 2013, the Company amended the credit agreement to extend the expiration date from December 2015 to December 2016 and to change the interest rate margins to 1.40% per annum. The unused line fee was reduced to 0.10% per annum.

Other borrowings and capital leases

In September 2013, Infotec Japan established a short-term revolving credit facility of JPY2,000,000 with a financial institution. The interest rate for the credit facility is based on TIBOR plus a margin of 0.50% per annum. In addition, there is a

Table of Contents

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

facility fee of 0.425% per annum. The credit facility can be renewed annually. As of November 30, 2013, the balances outstanding under this credit facility was \$19,526.

Infotec Japan has a short-term revolving credit facility of JPY1,000,000 with a financial institution. The credit facility was renewed for one year in March 2013 and bears an interest rate that is based on TIBOR plus a margin of 1.60% per annum. As of November 30, 2013 and 2012, the balances outstanding under these lines were \$9,763 and \$12,124, respectively.

In addition, as of November 30, 2012, Infotec Japan had a term loan with a financial institution with a balance of \$424, which was repaid in December 2012 and bore a fixed interest rate of 1.50%.

As of November 30, 2013 and 2012, the Company also had \$541 and \$1,112, respectively, in outstanding capital lease obligations and obligations for the sale and financing of approved accounts receivable and notes receivable with recourse provisions to Infotec Japan.

Future principal payments

Future principal payments under the above loans and capital leases as of November 30, 2013 are as follows:

Fiscal Years Ending November 30,	
2014	\$252,523
2015	869
2016	814
2017	59,419
2018	888
Thereafter	3,415
	\$317,928

Interest expense and finance charges

For fiscal years 2013, 2012 and 2011, the total interest expense and finance charges for the Company's borrowings were \$20,436, \$27,617 and \$28,809, respectively, including non-cash interest expenses of \$2,314, \$5,273, and \$4,874 respectively, for the convertible debt. The variable interest rates ranged between 0.63% and 4.08%, between 0.67% and 4.24% and between 0.82% and 5.17% in fiscal years 2013, 2012 and 2011, respectively.

Covenants compliance

In relation to the U.S. Arrangement, the U.S. Credit Agreement, the Canadian Revolving Arrangement and the Infotec Japan credit facility, the Company has a number of covenants and restrictions that, among other things, require the Company to comply with certain financial and other covenants. These covenants require the Company to maintain specified financial ratios and satisfy certain financial condition tests, including leverage and fixed charge coverage ratios. They also limit the Company's ability to incur additional debt, make intercompany loans, pay dividends and make other types of distributions, make certain acquisitions, repurchase the Company's stock, create liens, enter into agreements with affiliates, modify the nature of the Company's business, enter into sale-leaseback transactions, make certain investments, enter into certain types of burdensome contracts, transfer and sell assets and merge or consolidate.

Guarantees

The Company has issued guarantees to certain vendors and lenders of its subsidiaries for trade credit lines and loans, and to a certain customer's lessor. In addition, the Company, as the ultimate parent, guaranteed the obligations of SYNnex Investment Holdings Corporation up to \$35,035 in connection with the sale of China Civilink (Cayman), which operated in China as HiChina Web Solutions, to Alibaba.com Limited. The total guarantees issued by the Company as of November 30, 2013 and 2012 were \$364,744 and \$264,162, respectively. The Company is obligated under these guarantees to pay amounts due should its subsidiaries or customer not pay valid amounts owed to their vendors or lenders or not comply with subsidiary sales agreements.

Table of Contents

SYNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

NOTE 12—CONVERTIBLE DEBT:

In August 2013, the Company settled its Convertible Senior Notes with an aggregate principal amount of \$143,750 which were issued in May 2008 in a private placement. The Convertible Senior Notes bore a cash coupon interest rate of 4.0% per annum and the initial conversion rate was 33.9945 shares of common stock per \$1 principal amount, equivalent to an initial conversion price of \$29.42 per share of common stock. The Convertible Senior Notes were called in the second quarter of fiscal year 2013. No interest was accrued subsequent to May 2013 in accordance with the Indenture. The final settlement amount of \$218,870 was paid in cash and comprised of \$143,750 in principal payments and \$75,120 in payment of conversion premium. The conversion premium, which represents the total settlement amount less the principal, was recorded as a reduction of "Additional paid-in capital." The final settlement amount was calculated in accordance with the Indenture based on the volume weighted-average trading price of the Company's common stock over the 60 consecutive trading-day period beginning on and including the third trading day after the related conversion.

Based on a cash coupon interest rate of 4.0%, the Company recorded contractual interest expense of \$3,010 during the fiscal year ended November 30, 2013, and \$6,495 for both fiscal year ended November 30, 2012 and 2011. Based on an effective rate of 8.0%, the Company recorded non-cash interest expenses of \$2,314, \$5,273 and \$4,874 during the fiscal year ended November 30, 2013, 2012, and 2011, respectively. As of November 30, 2012, the carrying value of the Convertible Senior Notes, net of unamortized debt discount of \$2,314, was \$141,436. As of November 30, 2012, the carrying value of the equity component of the Convertible Senior Notes, net of allocated issuance costs, was \$22,836.

NOTE 13—EARNINGS PER COMMON SHARE:

The following table sets forth the computation of basic and diluted net income per common share for the periods indicated:

	Fiscal Years Ended November 30,		
	2013	2012	2011
Numerator:			
Net income attributable to SYNEX Corporation	\$152,237	\$151,376	\$150,331
Less: impact of conversion premium of convertible debt	(36,409)	—	—
Net income for diluted earnings per share calculation	\$115,828	\$151,376	\$150,331
Denominator:			
Weighted-average common shares - basic	36,888	36,584	35,830
Effect of dilutive securities:			
Stock options, restricted stock awards and restricted stock units	561	584	735
Conversion premium of convertible debt	351	740	268
Weighted-average common shares - diluted	37,800	37,908	36,833
Earnings per share attributable to SYNEX Corporation:			
Basic	\$4.13	\$4.14	\$4.20
Diluted	\$3.06	\$3.99	\$4.08

It was the Company's intent to settle the principal amount of the Convertible Senior Notes in cash; accordingly, the principal amount was excluded from the determination of diluted earnings per share. In April 2013, the Company decided to settle the payment of the conversion premium in cash as discussed in Note 12—Convertible Debt. Through April 2013, the Company accounted for the conversion premium using the treasury stock method by adjusting the diluted weighted-average common shares if the effect was dilutive. For the fiscal year ended November 30, 2013, the numerator for the computation of earnings per common share-diluted was adjusted for any dilutive changes in the

estimated value of the conversion premium

73

Table of Contents

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

from April 2013 through the final settlement date. For the fiscal year ended November 30, 2013, the adjustment to the numerator had the effect of reducing the diluted earnings per share by \$0.97.

Options to purchase 10, 12 and 47 shares of common stock as of November 30, 2013, 2012 and 2011, respectively, have not been included in the computation of diluted net income per share as their effect would have been anti-dilutive.

NOTE 14—SEGMENT INFORMATION:

Operating segments

Operating segments are based on components of the Company that engage in business activity that earn revenue and incur expenses and (a) whose operating results are regularly reviewed by the chief operating decision maker to make decisions about resource allocation and performance and (b) for which discrete financial information is available.

The distribution services segment distributes peripherals, IT systems including data center server and storage solutions, system components, software, networking equipment, consumer electronics ("CE") and complementary products. The distribution services segment also provides design and integration services.

The GBS segment offers a range of BPO services to customers that include direct sales, technical support, customer care, lead management, renewals management, back office processing and information technology outsourcing, or ITO. Many of these services are delivered and supported on the proprietary software platforms that the Company has developed to provide additional value to its customers.

Summarized financial information related to the Company's reportable business segments for fiscal years 2013, 2012, and 2011 is shown below:

	Distribution	GBS	Inter-Segment Elimination	Consolidated
Fiscal Year ended November 30, 2011:				
Revenue	\$ 10,275,295	\$ 163,376	\$ (28,831)	\$ 10,409,840
Income before non-operating items, income taxes and noncontrolling interest	237,322	18,906	—	256,228
Depreciation and amortization expense	16,120	8,553	—	24,673
Total assets	2,737,600	295,600	(199,905)	2,833,295
Fiscal Year ended November 30, 2012:				
Revenue	\$ 10,121,271	\$ 197,391	\$ (33,155)	\$ 10,285,507
Income before non-operating items, income taxes and noncontrolling interest	241,817	13,483	(288)	255,012
Depreciation and amortization expense	14,160	10,470	—	24,630
Total assets	2,848,689	316,993	(202,420)	2,963,262
Fiscal Year ended November 30, 2013:				
Revenue	\$ 10,655,453	\$ 223,600	\$ (33,889)	\$ 10,845,164
Income before non-operating items, income taxes and noncontrolling interest	233,043	7,960	(175)	240,828
Depreciation and amortization expense	14,111	10,712	(361)	24,462
Total assets	3,203,552	332,081	(209,744)	3,325,889

The inter-segment elimination relates to the inter-segment, back office support services provided by the GBS segment to the distribution services segment, elimination of inter-segment profit, inter-segment investments and inter-segment receivables.

Segment by geography

The Company primarily operates in North America. The United States and Canada are included in the "North America" operations. China, India, Japan and the Philippines are included in "Asia-Pacific" operations and Costa Rica, Hungary,

Mexico,

74

North America		\$95,344	\$87,689
Asia-Pacific		19,853	22,782
Other		18,052	12,452
		\$133,249	\$122,923

Revenue in the United States was approximately 74% of total revenue for both fiscal years 2013 and 2012, and 73% of total revenue for fiscal year 2011. Revenue in Canada was approximately 14% for fiscal years 2013, 2012 and 2011. Revenue in Japan was approximately 10%, 11%, and 12% of the total revenue for fiscal years 2013, 2012, and 2011, respectively.

Net property and equipment in the United States was approximately 59% and 57% of the total as of November 30, 2013 and 2012, respectively. Net property and equipment in Canada was approximately 13% and 14% of the total as of November 30, 2013 and 2012, respectively. As of both November 30, 2013 and 2012, no other country represented more than 10% of the total net property and equipment.

NOTE 15—RELATED PARTY TRANSACTIONS:

The Company had a business relationship with MiTAC International Corporation ("MiTAC International"), a publicly-traded company in Taiwan, which began in 1992 when MiTAC International became the Company's primary investor through its affiliates. In September 2013, MiTAC Holdings Corporation ("MiTAC Holdings") was established through a stock swap from MiTAC International and became a publicly traded company on the Taiwan Stock Exchange. MiTAC International is now a wholly owned subsidiary of MiTAC Holdings. As of November 30, 2013 and 2012, MiTAC Holdings and its affiliates beneficially owned approximately 26% and 27% of the Company's common stock. Matthew Miao, the Company's Chairman Emeritus of the Board of Directors and a director, is the Chairman of MiTAC Holdings and a director or officer of MiTAC Holdings' affiliates.

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

Beneficial ownership of the Company's common stock by MiTAC Holdings

As noted above, MiTAC Holdings and its affiliates in the aggregate beneficially owned approximately 26% of the Company's common stock as of November 30, 2013. These shares are owned by the following entities:

	As of November 30, 2013
MiTAC Holdings ⁽¹⁾	5,552
Synnex Technology International Corp. ⁽²⁾	4,283
Total	9,835

Shares are held via Silver Star Developments Ltd., a wholly-owned subsidiary of MiTAC Holdings. Excludes 594 (1) shares (of which 534 shares are directly held and 60 shares are subject to exercisable options) held by Matthew Miao.

Synnex Technology International Corp. ("Synnex Technology International") is a separate entity from the Company and is a publicly-traded corporation in Taiwan. Shares are held via Peer Development Ltd., a wholly-owned subsidiary of Synnex Technology International. MiTAC Holdings owns a noncontrolling interest of (2) 8.7% in MiTAC Incorporated, a privately-held Taiwanese company, which in turn holds a noncontrolling interest of 13.6% in Synnex Technology International. Neither MiTAC Holdings nor Mr. Miao is affiliated with any person(s), entity, or entities that hold a majority interest in MiTAC Incorporated.

MiTAC Holdings generally has significant influence over the Company and over the outcome of all matters submitted to stockholders for consideration, including any merger or acquisition of the Company. Among other things, this could have the effect of delaying, deterring or preventing a change of control over the Company.

The Company purchased inventories from MiTAC Holdings, MiTAC International and their affiliates totaling \$31,424, \$15,298, and \$12,263 during the fiscal year ended November 30, 2013, 2012 and 2011, respectively. The Company's sales to MiTAC Holdings, MiTAC International and their affiliates during the fiscal year ended November 30, 2013, 2012, and 2011 totaled \$4,431, \$2,651 and \$4,195, respectively. In addition, the Company received reimbursements of rent and overhead costs for facilities used by MiTAC Holdings and MiTAC International amounting to \$3,083, \$3,667 and \$6,691 during the fiscal year ended November 30, 2013, 2012 and 2011, respectively.

The Company's business relationship with MiTAC Holdings and its affiliates has been informal and is not governed by long-term commitments or arrangements with respect to pricing terms, revenue or capacity commitments. The Company negotiates manufacturing, pricing and other material terms on a case-by-case basis with MiTAC Holdings and its design and integration customers for a given project. While MiTAC Holdings is a related party and a controlling stockholder, the Company believes that the significant terms under its arrangements with MiTAC Holdings, including pricing, will not materially differ from the terms it could have negotiated with unaffiliated third parties, and it has adopted a policy requiring that material transactions with MiTAC Holdings or its related parties be approved by its Audit Committee, which is composed solely of independent directors. In addition, Matthew Miao's compensation is approved by the Nominating and Corporate Governance Committee, which is also composed solely of independent directors.

Others

During fiscal year 2012, the Company sold its 33.3% noncontrolling ownership interest in SB Pacific, which was recorded as an equity-related investment, back to SB Pacific. In fiscal year 2012, a gain of \$1,342 was recognized in "Other income (expense), net" on this transaction representing the difference between the sale proceeds and the carrying value of the investment. The Company was not the primary beneficiary in SB Pacific. The controlling shareholder of SB Pacific was Robert Huang, who is the Company's founder and former Chairman. The Company regarded SB Pacific to be a variable interest entity.

NOTE 16—PENSION AND EMPLOYEE BENEFITS PLANS:

The employees of Infotec Japan are covered by certain defined benefit pension plans, including a multi-employer pension plan. Full-time employees are eligible to participate in the plans on the first day of February following their date of hire and are not required to contribute to the plans.

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

The following table provides a reconciliation of the changes in the plan's single employer benefit obligations as of November 30, 2013 and 2012:

	Fiscal Year Ended November 30,	
	2013	2012
Benefit obligation at beginning of year	\$8,252	\$8,438
Service cost	540	616
Interest cost	120	155
Benefits paid	(164) (357
Actuarial gain or (loss)	310	(92
Foreign exchange rate changes	(1,658) (508
Benefit obligation at end of year	\$7,400	\$8,252

The change in the fair value of plan assets for fiscal year 2013 and 2012 was as follows:

	Fiscal Year Ended November 30,	
	2013	2012
Fair value at the beginning of year	\$4,162	\$3,977
Contribution paid by employer	655	752
Actual return on plan assets	85	41
Benefits paid	(164) (357
Foreign exchange rate changes	(847) (251
Fair value at the end of year	\$3,891	\$4,162

The Company's benefit obligation and the fair value of its pension assets are presented, on a net basis, as a component of "Long-term liabilities", on the Company's Consolidated Balance Sheets.

As of November 30, 2013 and 2012, the plan was underfunded by \$3,509 and \$4,090, respectively, and the accumulated pension benefit obligation was \$5,785 and \$6,377, respectively.

The benefits to be paid to participants over the next five fiscal years and in the aggregate for the five fiscal years thereafter are as follows:

Fiscal Years Ending November 30,	Benefits to be paid
2014	\$160
2015	115
2016	123
2017	139
2018	162
2019 - 2023	\$1,473

The contribution to be made by the Company toward the defined benefit plan in the fiscal year ending November 30, 2014 is expected to be \$718.

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

The components of net periodic pension costs for the fiscal year 2013, 2012 and 2011 were as follows:

	Fiscal Year Ended November 30,		
	2013	2012	2011
Service cost	\$540	\$616	\$570
Interest cost	120	155	148
Expected return on plan assets	(58)	(63)	(89)
Net periodic pension costs	\$602	\$708	\$629

During fiscal year 2013, 2012 and 2011 changes in plan assets and benefit obligations of \$271, \$(69) and \$214, respectively, were recognized in "Accumulated other comprehensive income."

The Company used the following weighted-average assumptions to determine the net periodic pension benefit obligations during fiscal year 2013, 2012, and 2011:

	Fiscal Year Ended November 30,		
	2013	2012	2011
Discount rate	1.4%	1.7%	1.9%
Average increase in compensation levels	2.8%	3.0%	3.0%

The Company used the following weighted-average assumptions to determine the net periodic pension benefit costs during fiscal year 2013, 2012, and 2011:

	Fiscal Year Ended November 30,		
	2013	2012	2011
Discount rate	1.7%	1.9%	2.0%
Average increase in compensation levels	2.8%	3.0%	3.0%
Expected return on plan assets	1.5%	1.5%	2.5%

The discount rate is set on yields available on high-quality corporate bonds with maturities consistent with the duration of the benefit obligation as of the valuation date.

The plan assets were invested in life insurance company general accounts, pooled institutional investments comprising of listed stock, debt securities and other investments and cash equivalents. The life insurance company general accounts represent a financial instrument which guarantees the principal and a return based on a contractual interest rate. The expected return on plan assets, above, is based primarily on current guaranteed net returns offered by the life insurance company's general account. The fair value of these investments is based on the market approach using observable inputs other than quoted market prices. The pooled institutional investments comprise of commingled funds invested in debt, equity and other securities. The fair value of these funds is measured by allocating the fair value of the total assets in the investments in proportion to the Company's ownership percentage. Cash equivalents represent the amounts not yet transferred from the master custodian of the funds as of the measurement date.

The fair value of the assets as of November 30, 2013 and 2012 is presented in the table below using the fair value hierarchy discussed in Note 9—Fair Value Measurements:

	As of November 30, 2013			As of November 30, 2012		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Cash equivalents	\$35	\$—	\$—	\$34	\$—	\$—
Equity and debt securities	—	224	—	—	186	—
Life insurance company general accounts	—	3,632	—	—	3,942	—

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

In addition to the single employer plan, employees for Infotec Japan are also covered by a multi-employer, defined benefit plan. Employees contribute to the plan. The Company's contributions to the plan during fiscal years 2013, 2012 and 2011 were \$1,115, \$1,190 and \$1,117, respectively.

The Company has defined benefit pension and retirement plans in other geographical locations. However these pension programs are not material to the Consolidated Financial Statements.

The Company has a 401(k) Plan (the "Plan") under which eligible employees may contribute up to the maximum amount as provided by law. Employees become eligible to participate in the Plan on the first day of the month after their employment date. The Company may make discretionary contributions under the Plan. During fiscal years 2013, 2012 and 2011, the Company contributed \$1,365, \$1,252 and \$1,145, respectively.

NOTE 17—DEFERRED COMPENSATION PLAN:

The Company has a deferred compensation plan for certain directors and officers. The plan is designed to permit eligible officers and directors to accumulate additional income through a non-qualified deferred compensation plan that enables the officer or director to make elective deferrals of compensation to which he or she will become entitled in the future.

An account is maintained for each participant for the purpose of recording the current value of his or her elective contributions, including earnings credited thereto. The participant may designate one or more investments as the measure of investment return on the participant's account. On January 4, 2012, the Compensation Committee approved an amendment to the deferred compensation plan to prospectively limit designated investments as the measure of investment return to actively traded securities reported on recognized exchanges, bank deposits, and other investments with readily verifiable valuations. The participant's account is adjusted monthly to reflect earnings and losses on the participant's designated investments. The Company pays interest on the uninvested portion of deferred compensation. The amount credited to the participant's account will be distributed as soon as practicable after the earlier of the participant's termination of employment or attainment of age sixty-five. The distribution of benefits to the participant will be made in accordance with the election made by the participant in a lump sum or in equal monthly or annual installments over a period not to exceed fifteen years. The distribution of account balances subject to Section 409A of the Tax Code upon termination of employment of an officer is subject to a six-month delay. In the event the participant requests an early distribution other than a hardship distribution, a 10% withdrawal penalty will be levied. Such distribution will be in the form of a lump sum cash payment. Such early distribution elections are available only with respect to vested account balances as of December 31, 2004.

As of November 30, 2013 and 2012, the deferred compensation liability balances were \$13,013 and \$13,870, respectively. Of the above deferred balances, \$6,381 and \$7,593, respectively, have been invested in equity securities, hedge funds and private equity funds. The Company has recorded a gain of \$1,868, a gain of \$2,585 and a loss of \$1,101 for the fiscal years ended November 30, 2013, 2012 and 2011, respectively.

NOTE 18—INCOME TAXES:

The sources of income before the provision for income taxes and non-controlling interest are as follows:

	Fiscal Years Ended November 30,		
	2013	2012	2011
United States	\$201,386	\$188,800	\$184,768
Foreign	36,666	47,753	44,950
	\$238,052	\$236,553	\$229,718

The provisions for income taxes consist of the following:

	Fiscal Years Ended November 30,		
	2013	2012	2011
Current tax provision:			
Federal	\$78,828	\$56,605	\$49,937
State	12,226	11,696	11,140
Foreign	6,709	9,615	9,543
	\$97,763	\$77,916	\$70,620
Deferred tax provision (benefit):			
Federal	\$(11,650)) \$5,940	\$9,735
State	(778)) 295	(1,186)
Foreign	395	(101)) (4)
	\$(12,033)) \$6,134	\$8,545
Total tax provision	\$85,730	\$84,050	\$79,165

The following presents the breakdown between current and non-current net deferred tax assets:

	As of November 30,	
	2013	2012
Deferred tax assets - current	\$22,031	\$23,390
Deferred tax assets - non-current	7,867	619
Deferred tax liabilities - current	(873)) (811)
Deferred tax liabilities - non-current	(3,047)) (9,265)
Total net deferred tax assets	\$25,978	\$13,933

Table of Contents

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

Net deferred tax assets and liabilities consist of the following:

	As of November 30,	
	2013	2012
Assets:		
Inventory reserves	\$4,074	\$4,315
Allowance for doubtful accounts and sales return reserves	7,192	7,392
Other reserves and accruals	8,810	7,868
State tax credits	1,984	2,399
Deferred compensation	5,278	5,703
Net operating losses	15,307	17,963
Deferred revenue	836	513
Foreign tax credit	152	1,744
Share-based compensation expense	4,172	3,606
Unrealized losses on investments	60	554
Capital loss carryforward	44	300
Other	—	586
Gross deferred tax assets	47,909	52,943
Valuation allowance	(7,340)	(6,422)
Total deferred tax assets	\$40,569	\$46,521
Liabilities:		
Depreciation and amortization	\$(6,656)	\$(7,939)
Convertible debt interest	—	(14,495)
Intangible assets	(6,581)	(9,730)
Unrealized gains on forward contracts	(680)	—
Other	(674)	(424)
Total deferred tax liabilities	\$(14,591)	\$(32,588)
Net deferred tax assets	\$25,978	\$13,933

The valuation allowance relates primarily to state credits and certain foreign net operating loss carry forward. The Company's assessment is that it is not more likely than not that these deferred tax assets will be realized.

A reconciliation of the statutory United States federal income tax rate to the Company's effective income tax rate is as follows:

	Fiscal Years Ended November 30,					
	2013		2012		2011	
Federal statutory income tax rate	35.0	%	35.0	%	35.0	%
State taxes, net of federal income tax benefit	3.1		3.0		2.6	
Foreign taxes	(3.0))	(3.1))	(2.9))
Other	0.9		0.6		(0.2))
Effective income tax rate	36.0	%	35.5	%	34.5	%

The Company's U.S. business has sufficient cash flow and liquidity to fund its operating requirements and the Company expects and intends that profits earned outside the United States will be fully utilized and reinvested to fund international expansion. Accordingly, the Company has not provisioned U.S. taxes and foreign withholding taxes on non-U.S. subsidiaries for which the earnings are permanently reinvested. The Company estimates that its total undistributed earnings upon which it has not provided deferred tax is approximately \$262,900 as of November 30, 2013. It is not currently practical to estimate the amount of income tax that might be payable if any earnings were to be distributed by individual foreign subsidiaries.

Table of Contents

SYNNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS---(continued)

(currency and share amounts in thousands, except per share amounts)

As of November 30, 2013, the Company had net operating loss carry forward of approximately \$21,100 and \$12,100 for federal and state purposes, respectively. The federal net operating loss carry forward will start expiring in fiscal year ending November 30, 2021 if not used and the state net operating loss carry forward will start expiring in fiscal year ending November 30, 2016 if not used. The Company also had \$51,300 of foreign net operating loss carry forward, mostly from Infotec Japan that will also start expiring in fiscal year ending November 30, 2014 if not used. In addition, the Company has \$1,400 of various federal and state income tax credit carry forward that if not used, will begin expiring in fiscal year ending November 30, 2018.

The Company enjoys tax holidays in certain jurisdictions including China, Costa Rica, Nicaragua, and Philippines. The tax holidays provide for lower or zero rates of taxation and require various thresholds of investment and business activities in those jurisdictions. These tax holidays are in effect currently and scheduled to expire starting 2014 if not extended. The estimated range of tax benefits from the above tax holidays on diluted earnings per share for fiscal years 2013, 2012, and 2011 were approximately \$0.04 to \$0.05, \$0.02 to \$0.03 and \$0.03 to \$0.04 respectively. The aggregate changes in the balances of gross unrecognized tax benefits, excluding accrued interest and penalties, during fiscal years 2013, 2012, and 2011 were as follows:

Balance as of November 30, 2010	\$10,514	
Additions based on tax positions related to the current year	2,113	
Additions for tax positions of prior years	8,043	
Reductions for tax positions of prior years	(397))
Lapse of statute of limitations	(1,273))
Balance as of November 30, 2011	19,000	
Additions based on tax positions related to the current year	1,888	
Additions for tax positions of prior years	621	
Reductions for tax positions of prior years	(364))
Lapse of statute of limitations	(1,226))
Changes due to translation of foreign currencies	76	
Balance as of November 30, 2012	19,995	
Additions based on tax positions related to the current year	2,574	
Additions for tax positions of prior years	343	
Reductions for tax positions of prior years	(301))
Lapse of statute of limitations	(781))
Changes due to translation of foreign currencies	27	
Balance as of November 30, 2013	\$21,857	

The Company conducts business globally and files income tax returns in various U.S. and foreign tax jurisdictions. The Company is subject to continuous examination and audits by various tax authorities. In the United States, the Company is subject to examination and audits by tax authorities for tax years after fiscal year ended 2008. The Company is not aware of any tax audits in other jurisdictions. The Company is currently under examination by the IRS for its Federal income tax returns for fiscal years ended November 2009 and 2010. As of November 30, 2013, the Company is unable to estimate the range of any possible adjustments due to uncertainty in the timing of the resolution of the audit. Although timing of the resolution of audits is highly uncertain, the Company does not believe it is reasonably possible that the total amount of unrecognized tax benefits as of November 30, 2013 will materially change in the next twelve months.

As of November 30, 2013, the total uncertain tax position is \$21,857, of which \$20,946 of the unrecognized tax benefits, net of federal benefit would affect the effective tax rate if realized. The Company's policy is to include interest and penalties related to income taxes, including unrecognized tax benefits, within the provision for income taxes. As of November 30, 2013 and 2012, the Company had accrued \$2,535 and \$1,730, respectively, in income

taxes payable related to accrued interest.

(currency and share amounts in thousands, except per share amounts)

NOTE 19—COMMITMENTS AND CONTINGENCIES:

The Company leases certain of its facilities under operating lease agreements, which expire in various periods through 2024. Future minimum rental obligations under non-cancellable lease agreements as of November 30, 2013 were as follows:

Fiscal Years Ending November 30,

2014	\$23,826
2015	21,106
2016	15,258
2017	11,909
2018	6,917
thereafter	12,194
Total minimum lease payments	\$91,210

Rent expense for the years ended November 30, 2013, 2012 and 2011 amounted to \$22,596, \$22,906 and \$22,600, respectively.

The Company was contingently liable as of November 30, 2013 under agreements to repurchase repossessed inventory acquired by Flooring Companies as a result of default on floor plan financing arrangements by the Company's customers. These arrangements are described in Note 10—Accounts Receivable Arrangements. Losses, if any, would be the difference between the repossession cost and the resale value of the inventory. There have been no repurchases through November 30, 2013 under these agreements and the Company is not aware of any pending customer defaults or repossession obligations. From time to time, the Company receives notices from third parties, including customers and suppliers, seeking indemnification, payment of money or other actions in connection with claims made against them. Also, the Company is involved in various bankruptcy preference actions where the Company was a supplier to the companies now in bankruptcy. In addition, the Company is subject to various other claims, both asserted and unasserted, that arise in the ordinary course of business. The Company is not currently involved in any material proceedings.

In December 2009, the Company sold China Civilink (Cayman), which operated in China as HiChina, to Alibaba.com Limited. In conjunction with this sale, the Company has recorded a contingent indemnification liability of \$4,122.

The Company does not believe that the above commitments and contingencies will have a material adverse effect on the Company's results of operations, financial position or cash flows.

Table of Contents

SELECTED QUARTERLY CONSOLIDATED FINANCIAL DATA (Unaudited)

The following table presents selected unaudited consolidated financial results for each of the eight quarters in the two-year period ended November 30, 2013. In the Company's opinion, this unaudited information has been prepared on the same basis as the audited information and includes all adjustments (consisting of only normal recurring adjustments) necessary for a fair statement of the financial information for the periods presented.

	Fiscal Year 2013				Fiscal Year 2012

Net income attributable to SYNEX Corporation	\$33,369	\$30,769	\$46,611	\$41,488	\$38,223	\$34,374	\$35,139	\$43,640
Net income per share attributable								

to SYNnex
Corporation:

Basic	\$0.91	\$0.84	\$1.26	\$1.12	\$1.05	\$0.94	\$0.96	\$1.19
Diluted	\$0.88	\$0.81	\$0.19	\$1.10	\$1.02	\$0.90	\$0.93	\$1.16
Weighted-average common shares outstanding - basic	36,663	36,783	36,965	37,139	36,303	36,607	36,700	36,726
Weighted-average common shares outstanding - diluted	38,030	37,869	37,559	37,741	37,632	38,348	37,917	37,733

Earnings per share (“EPS”) for each quarter are computed using the weighted-average number of shares outstanding during that quarter, while EPS for the fiscal year is computed using the weighted-average of shares outstanding during the fiscal year. The sum of EPS for each of the four quarters may not equal the EPS for the fiscal year. In addition, for the three months ended August 31, 2013 the numerator for the computation of EPS was adjusted for dilutive changes in the estimated value of the conversion premium of the Company's convertible debt from May 31, 2013 through the final settlement dates. The adjustment to the numerator had the effect of reducing the Company's EPS by \$1.05 for the three months ended August 31, 2013.

Allowance for deferred tax assets	6,422	(1,031)	—	1,949	7,340

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure
None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain “disclosure controls and procedures,” as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”), that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Our disclosure controls and procedures have been designed to meet reasonable assurance standards. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based on their evaluation as of the end of the period covered by this Annual Report on Form 10-K, our Chief Executive Officer and Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Management’s Report on Internal Control over Financial Reporting

Management’s Report on Internal Control over Financial Reporting on page 45 is incorporated herein by reference.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) identified in connection with management’s evaluation during our last fiscal year that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers of the Registrant and Corporate Governance

The information required by this item (with respect to Directors) is incorporated by reference from the information under the caption “Election of Directors” contained in our Proxy Statement to be filed with the Securities and Exchange Commission in connection with the solicitation of proxies for our 2014 Annual Meeting of Stockholders to be held on March 25, 2014 (the “Proxy Statement”). Certain information required by this item concerning executive officers is set forth in Part I of this Report under the caption “Executive Officers of the Registrant.”

Item 405 of Regulation S-K calls for disclosure of any known late filing or failure by an insider to file a report required by Section 16(a) of the Exchange Act. This information is contained in the section called “Section 16(a) Beneficial Ownership Reporting Compliance” in the Proxy Statement and is incorporated herein by reference.

We have adopted a code of ethics that applies to all of our employees, including our principal executive officer, our principal financial officer, our controller and persons performing similar functions. This code of ethics, called a Code of Ethics and Business Conduct for Employees, Officers and Directors, is available free of charge on our public website (www.synnex.com) on the investor relations webpage. Future amendments or waivers relating to the code of ethics will be disclosed on the webpage referenced in this paragraph within five (5) business days following the date of such amendment or waiver.

Item 11. Executive Compensation

The information required by this item is incorporated by reference from the information under the captions “Election of Directors—Directors’ Compensation,” “Executive Compensation,” and “Election of Directors—Compensation Committee Interlocks and Insider Participation” contained in the Proxy Statement.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this item with respect to security ownership of certain beneficial owners and management is incorporated by reference from the information under the caption “Security Ownership of Certain Beneficial Owners and Management” contained in the Proxy Statement.

Equity Compensation Plan Information

The following table sets forth certain information regarding our equity compensation plans as of November 30, 2013:

Plan Category	Number of securities to be issued upon exercise of outstanding options (a)	Weighted-average exercise price of outstanding options (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a) (c)
Equity compensation plan approved by security holders	934,000	(1) \$26.88	2,627,994 (2)(3)

(1) Includes the number of shares to be issued under our Amended and Restated 2003 Stock Incentive Plan (“2003 Stock Incentive Plan”) and the 2013 Stock Incentive Plan. Please see Note 4 - Stockholders' Equity of the Notes to the Consolidated Financial Statements for further information regarding the 2003 Stock Incentive Plan and the 2013 Stock Incentive Plan.

(2) Includes the number of shares reserved for issuance under our 2013 Stock Incentive Plan. The number of shares authorized for issuance under our 2013 Stock Incentive Plan will not exceed the sum of (1) 1,696,409 shares of

common stock plus (2) any shares under the 2003 Stock Incentive Plan that are subject to outstanding awards to the extent those awards expire, terminate or are canceled for any reason prior to exercise without the issuance or delivery of such shares, any shares subject to vesting restrictions that are subsequently forfeited, and any reserved shares not issued or subject to outstanding awards, up to a maximum of 2,750,000 shares. Please see Note 4 - Stockholders' Equity of the Notes to the Consolidated Financial Statements for further information regarding the 2013 Stock Incentive Plan.

Includes 47,829 shares available-for-sale pursuant to our 2003 Employee Stock Purchase Plan. Shares of common stock will be purchased at a price equal to 95% of the fair market value per share of common stock on either the (3) first trading day of the offering period or on the last trading day of the accumulation period, whichever is less. Please see Note 4-Stockholders' Equity of the Notes to the Consolidated Financial Statements for further information regarding the 2003 Employee Stock Purchase Plan.
