Press Release

Eltek Reports Net Profit of \$788,000 in First Quarter of 2011

Revenues increased 22.9% to \$11.8 million
Operating profit of \$877,000
Net profit of \$788,000

PETACH-TIKVA, Israel, May 31, 2011 (NASDAQ:ELTK) - Eltek Ltd., the leading Israeli manufacturer of advanced flex-rigid circuitry solutions, announced today its financial results for the first quarter of 2011.

Revenues for the first quarter of 2011 were \$11.8 million, a 22.9% increase over revenues of \$9.6 million recorded in the first quarter of 2010.

Gross Profit for the first quarter of 2011 was \$2.5 million (21% of revenues), an increase of 139% compared to the gross profit of \$1.0 million (10.8% of revenues) in the first quarter of 2010.

Operating Profit for the first quarter of 2011 was \$877,000 compared with an operating loss of \$559,000 in the first quarter of 2010.

Net Profit for the first quarter of 2011 was \$788,000, or \$0.12 per fully diluted share, compared with a net loss of \$682,000 or (\$0.10) per fully diluted share in the first quarter of 2010.

EBITDA:

In the first quarter of 2011, Eltek had EBITDA of \$1.4 million compared with an EBITDA of \$16,000 in the first quarter of 2010.

ELTEK uses EBITDA as a non-GAAP financial performance measurement. EBITDA is calculated by adding back to net income interest, taxes, depreciation and amortization. EBITDA is provided to investors to complement results provided in accordance with GAAP, as management believes the measure helps illustrate underlying operating trends in the Company's business and uses the measure to establish internal budgets and goals, manage the business and evaluate performance. EBITDA should not be considered in isolation or as a substitute for comparable measures calculated and presented in accordance with GAAP. Reconciliation between the company's results on a GAAP and non-GAAP basis is provided in a table immediately following the Consolidated Statement of Operations

As of December 31, 2010, the Company was not in compliance with certain of its financial covenants in respect of its credit facilities and long-term debt with its banks. However, in May 2011, one of the banks modified the covenant terms, reducing the requirements to a new compliance level effective from the December 31, 2010, while another bank granted the Company a waiver, stating that the bank would not take any measures against it arising from the breach of the covenants before the release of its financial statements for the year ending December 31, 2011, at which time the Company must return to compliance. The Company has initiated discussions with this bank in order to modify the financial covenants and to agree on terms which the Company believes it will be able to meet. As a result of the uncertainty regarding the successful completion of these discussions and of returning to compliance at December 31, 2011, the accounting standards require the Company to re-classify its debt from long term to short term debt at March 31, 2011. The amount of long term debt re-classified to short-term debt at March 31, 2011 was \$1.3 million.

Failure to reach an agreement on new covenant terms or in obtaining additional financing, if required, may have a material adverse effect on the Company's business, results of operations and financial position.

Management Comments:

Arieh Reichart, President and Chief Executive Officer of Eltek commented: "I am pleased to report strong first quarter results with a net profit of \$788,000. In the first quarter, Eltek benefited from an increase in revenues both from the local market and export sales, mainly as a result of the improvement in the PCB industry, and the ripening of the Company's marketing efforts in the United States and Europe. The Company's manufacturing efficiency improvements program implemented during 2010 led to improved results in the first quarter. The improvements in the production line allowed us to increase sales with a much lower increase in our operating expenses, thus increasing our profitability."

Amnon Shemer, Chief Financial Officer of Eltek added: "Our record net income in the first quarter of 2011 was achieved primarily as a result of the \$2.2 million increase in revenues to record \$11.8 million, and improved manufacturing efficiencies, the basis of which was implemented in 2010, which resulted in reduced raw material and labor costs as a percentage of sales. These factors led to an increasing in our gross margin to 21% of revenues, compared to 10.8% of revenues in 2010 (an increase of \$1.4 million)."

Mr. Shemer added "In the first quarter of 2011, we recorded financial expenses of \$56,000, compared to financial expenses of \$169,000 in the first quarter of 2010, mainly as a result of the strengthening of the Euro against the NIS, increasing the value of our Euro denominated receivables from customers."

During 2011 we intend to reach an agreement with our bank on new financial covenant terms, which will enable us to classify our long term debt properly under long term and improve our working capital position.” Mr. Shemer concluded.

About the Company

Eltek is Israel's leading manufacturer of printed circuit boards, the core circuitry of most electronic devices. It specializes in the complex high-end of PCB manufacturing, i.e., HDI, multilayered and flex-rigid boards. Eltek's technologically advanced circuitry solutions are used in today's increasingly sophisticated and compact electronic products. For more information, visit Eltek's web site at www.eltekglobal.com.

Forward Looking Statement:

Certain matters discussed in this news release are forward-looking statements that involve a number of risks and uncertainties including, but not limited to statements regarding expected results in future quarters, risks in product and technology development and rapid technological change, product demand, the impact of competitive products and pricing, market acceptance, the sales cycle, changing economic conditions and other risk factors detailed in the Company's Annual Report on Form 20-F and other filings with the United States Securities and Exchange Commission.
