HOOKER FURNITURE CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollar and share amounts in tables, except per share amounts, in thousands unless otherwise indicated)

(Unaudited)

For the Thirteen Weeks Ended May 5, 2013

1. Preparation of Interim Financial Statements

The condensed consolidated financial statements of Hooker Furniture Corporation and subsidiaries (referred to as “we,” “us,” “our,” “Hooker” or the “Company”) have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”). In the opinion of management, these statements include all adjustments necessary for a fair statement of the results of all interim periods reported herein. All such adjustments are of a normal recurring nature. Certain information and footnote disclosures prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) are condensed or omitted pursuant to SEC rules and regulations. However, we believe that the disclosures made are adequate for a fair presentation of our results of operations and financial position. Operating results for the interim periods reported herein may not be indicative of the results expected for the fiscal year. These financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in our annual report on Form 10-K for the fiscal year ended February 3, 2013.

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect both the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from our estimates.

The financial statements contained herein are being filed as part of a quarterly report on Form 10-Q covering the thirteen-week period (also referred to as “three months,” “three-month period,” “quarter,” “first quarter” or “quarterly period”) that began February 4, 2013 and ended on May 5, 2013. These financial statements also include the thirteen-week period that began January 30, 2012 and ended on April 29, 2012.

References in these notes to the condensed consolidated financial statements of the Company to:

§ the 2014 fiscal year and comparable terminology mean the fiscal year that began February 4, 2013 and will end February 2, 2014; and

§ the 2013 fiscal year and comparable terminology mean the fiscal year that began January 30, 2012 and ended February 3, 2013.

Certain amounts have been reclassified in the prior period financial statements and notes to reflect the current period classification.

Property, plant and equipment, net		\$ 23,125	\$ 22,829

At May 5, 2013, construction-in-progress consisted of \$919,000 of expenses related to our ongoing ERP conversion efforts and \$972,000 related to various other projects to enhance our facilities and operations.

4. Intangible Assets

	May 5, 2013	February 3, 2013
Non-amortizable Intangible Assets		
Trademarks and trade names - Bradington-Young	\$ 861	\$ 861
Trademarks and trade names - Sam Moore	396	396
Total trademarks and tradenames	1,257	1,257

5. Accounts Receivable

	May 5, 2013	February 3, 2013
Trade accounts receivable	\$ 19,887	\$ 22,712
Receivable from factor	7,633	6,809
Allowance for doubtful accounts	(1,085)	(1,249)
Accounts receivable	\$ 26,435	\$ 28,272

“Receivable from factor” represents amounts due with respect to factored accounts receivable. We factor substantially all of our domestically produced upholstery accounts receivable without recourse to us.

Table of Contents

Under our factoring agreement, invoices for domestically produced upholstery products are generated and transmitted to our customers, with copies to the factor on a daily basis, as products are shipped to our customers. The factor collects the amounts due and remits collected funds, less factoring fees, to us semi-weekly. We retain ownership of the accounts receivable until the invoices are 90 days past due. At that time, the factor pays us the net invoice amount, less factoring fees, and takes ownership of the accounts receivable. The factor is then entitled to collect the invoices on its own behalf and retain any subsequent remittances. The invoiced amounts are reported as accounts receivable on our condensed consolidated balance sheets, generally when the merchandise is shipped to our customer until payment is received from the factor.

A limited number of our accounts receivable for our domestically produced upholstery are factored with recourse to us. The amounts of these receivables at May 5, 2013 and February 3, 2013 were \$245,000 and \$130,000, respectively. If the factor is unable to collect the amounts due, invoices are returned to us for collection. We include an estimate of potentially uncollectible receivables in our calculation of our allowance for doubtful accounts.

6. Earnings Per Share

We refer you to the Earnings Per Share disclosure in Note 1-Summary of Significant Accounting Policies, in our fiscal year 2013 Form 10-K, for additional information concerning the calculation of earnings per share.

We have issued restricted stock awards to non-employee members of the board of directors since 2006 and restricted stock units (RSUs) to certain senior executives since fiscal 2012, under the Company's Stock Incentive Plan. We expect to continue to grant these types of awards annually in the future. The following table sets forth the number of outstanding restricted stock awards and restricted stock units, net of forfeitures and vested shares, as of the fiscal quarter-end dates indicated:

	May 5, 2013	February 3, 2013
Restricted shares	29,063	29,063
Restricted stock units	32,353	32,353
	61,416	61,416

All restricted shares and restricted stock units awarded that have not yet vested are considered when computing diluted earnings per share. The following table sets forth the computation of basic and diluted earnings per share:

	Thirteen Weeks Ended	
	May 5, 2013	April 29, 2012
Net income	\$2,126	\$1,020
Less: Unvested participating restricted stock dividends	3	2
Net earnings allocated to unvested participating restricted stock	6	2
Earnings available for common shareholders	2,117	1,016
Weighted average shares outstanding for basic earnings per share	10,717	10,772
Dilutive effect of unvested restricted stock and RSU awards	30	22
Weighted average shares outstanding for diluted earnings per share	10,747	10,794
Basic earnings per share	\$0.20	\$0.09

Diluted earnings per share	\$0.20	\$0.09
----------------------------	--------	--------

Table of Contents

7. Long Term Debt

As of May 5, 2013, we had an aggregate \$13.2 million available under our \$15.0 million revolving credit facility to fund working capital needs. Standby letters of credit in the aggregate amount of \$1.8 million, used to collateralize certain insurance arrangements and for imported product purchases, were outstanding under our revolving credit facility as of May 5, 2013. There were no additional borrowings outstanding under the revolving credit facility on May 5, 2013. Any principal outstanding under the revolving credit facility is due July 31, 2013. We are currently in negotiations to extend or replace our credit facility and expect to have a new agreement in place before the expiration of our current loan agreement on July 31, 2013.

8. Employee Benefit Plans

We maintain a supplemental retirement income plan (“SRIP”) for certain former and current executives. The liability for the SRIP at May 5, 2013 and April 29, 2012 was \$7.5 million and \$7.4 million, respectively, and is shown in our condensed consolidated balance sheets as follows:

	May 5, 2013	February 3, 2013
Accrued salaries, wages and benefits (current portion)	\$ 379	\$ 379
Deferred compensation (long-term portion)	7,110	7,056
Total liability	\$ 7,489	\$ 7,435

Components of net periodic benefit cost for the SRIP are included in our condensed consolidated statements of income under selling and administrative expenses:

	Thirteen Weeks Ended	
	May 5, 2013	April 29, 2012
Net periodic benefit cost		
Service cost	\$ 64	\$ 64
Interest cost	73	74
Actuarial gain	(26)	(15)
Net periodic benefit cost	\$ 111	\$ 124

9. Income Taxes

We recorded income tax expense of \$1.1 million for the fiscal 2014 first quarter compared to \$552,000 for the comparable prior year period. The effective tax rates for the fiscal 2014 and 2013 first quarters were 33.6% and 35.1%, respectively. Our effective tax rate was slightly lower in the fiscal 2014 first quarter primarily due to larger anticipated rate benefits from earnings on company-owned life insurance policies and distributions from our former captive insurance arrangement.

Table of Contents

11. Subsequent Events

Dividends

At its June 3, 2013 meeting, our board of directors declared a quarterly cash dividend of \$0.10 per share, payable on June 28, 2013 to shareholders of record at June 14, 2013.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This quarterly report on Form 10-Q includes our unaudited condensed consolidated financial statements for the thirteen-week period (also referred to as "three months," "three-month period," "quarter" "first quarter" or "quarterly period") that began February 4, 2013 and ended May 5, 2013. This report discusses our results of operations for this period compared to the 2013 fiscal year thirteen-week period that began January 30, 2012 and ended April 29, 2012; and our financial condition as of May 5, 2013 compared to February 3, 2013.

We encourage users of this report to familiarize themselves with all of our recent public filings made with the SEC, especially our 2013 annual report on Form 10-K ("2013 Annual Report") filed with the SEC on April 19, 2013. Our 2013 Annual Report contains critical information regarding known risks and uncertainties that we face, critical accounting policies and information on commitments and contractual obligations that are not reflected in our consolidated financial statements, as well as a more thorough and detailed discussion of our corporate strategy and new business initiatives. Our 2013 Annual Report and our other public filings made with the SEC are available at www.sec.gov and at <http://investors.hookerfurniture.com>.

For financial reporting purposes, we are organized into two operating segments – casegoods furniture and upholstered furniture. References in this report to "we," "us," "our," "Hooker," or "the Company" refer to the Company and our consolidated subsidiaries, unless specifically referring to segment information.

References in this report to:

§ the 2014 fiscal year and comparable terminology mean the fiscal year that began February 4, 2013 and will end February 2, 2014; and

§ the 2013 fiscal year and comparable terminology mean the fiscal year that began January 30, 2012 and ended February 3, 2013.

Dollar amounts presented in the tables below are in thousands.

Nature of Operations

Hooker Furniture Corporation is a home furnishings marketing and logistics company offering worldwide sourcing of residential casegoods and upholstery, as well as domestically-produced custom leather and fabric-upholstered furniture. We were incorporated in Virginia in 1924 and are ranked among the nation's top 10 largest publicly traded furniture sources, based on 2011 shipments to U.S. retailers, according to a 2012 survey published by Furniture Today, a leading trade publication. We are a key resource for residential wood and metal furniture, commonly referred to as "casegoods," and upholstered furniture. Our major casegoods product categories include home entertainment, home office, accent, dining and bedroom furniture under the Hooker Furniture brand. Our residential upholstered seating companies include Bradington-Young, a specialist in upscale motion and stationary leather furniture and Sam Moore Furniture, a specialist in upscale occasional chairs, settees, sofas and sectional seating with an emphasis on cover-to-frame customization. An extensive selection of designs and formats, along with finish and cover options, in each of these product categories makes us a comprehensive resource for residential furniture retailers, primarily targeting the upper-medium price range. Our principal customers are retailers of residential home furnishings that are broadly dispersed throughout the United States. Our customers also include home furniture retailers in Canada and in over 20 other countries internationally. Our customers include independent furniture stores, specialty retailers, department stores, catalog and internet merchants, interior designers and national and regional chains.

Table of Contents

Overview

Consumer home furnishings purchases are driven by an array of factors, including general economic conditions such as:

- § consumer confidence;
- § fashion trends;
- § availability of consumer credit;
- § energy and other commodity prices; and
- § housing and mortgage markets;

as well as lifestyle-driven factors such as changes in:

- § disposable income;
- § household formation and turnover; and
- § family size.

Current economic and economic-related factors, such as high unemployment and changing consumer priorities have resulted in a somewhat depressed retail environment for discretionary home furnishings and related purchases since 2008. However, the extended weakness in housing and housing-related industries is beginning to show signs of sustained recovery and recent positive news on housing and consumer confidence is especially encouraging.

Our lower overhead, variable-cost import operations have driven our profitability over the last few years and provide us with more flexibility to respond to changing demand by adjusting inventory purchases from suppliers. On the other hand, our import model requires that we transition sourcing among suppliers, often located in different countries or regions, when quality concerns or inflationary pressures diminish the value proposition offered by our current suppliers.

Results for our domestic upholstery operations, which have significantly higher overhead and fixed costs than our import operations, have been particularly affected by the decline in demand for home furnishings and experienced operating losses or low operating profitability since our fiscal 2009 second quarter. Extensive cost reduction efforts over that time have mitigated the effect of the weakness in demand and have resulted in our upholstery segment returning to operating profitability for fiscal 2013 and for the fiscal 2014 first quarter.

The following are the primary factors that affected our consolidated fiscal 2014 first quarter results of operations:

- § Consolidated net sales increased in the high single digits due to:
 - o lower product discounting in our casegoods segment; and
 - o higher average selling prices in both operating segments, partially offset by lower unit volume in our casegoods segment.

- § Gross profit increased due to increased sales volume in both segments, as well as:
 - o lower product discounting and lower cost of goods sold due to moderating product costs; and
 - o lower domestic manufacturing costs as a percent of sales in our upholstery segment, due to cost reduction initiatives and improved overhead utilization resulting from increased sales volume.

§ Selling and administrative expenses increased due to increased sales and a variety of other factors, including start-up costs for our H Contract and Homeware divisions; and

§ Our casegoods segment nearly doubled operating profitability from \$1.4 million in the 2013 first quarter to \$2.6 million in the fiscal 2014 first quarter.

§ Our upholstery segment reported operating profitability of \$668,000 for the fiscal 2014 first quarter compared to an operating profit of \$152,000 for the fiscal 2013 first quarter.

Table of Contents

Results of Operations

The following table sets forth the percentage relationship to net sales of certain items included in the condensed consolidated statements of income included in this report.

	Thirteen Weeks Ended	
	May 5, 2013	April 29, 2012
Net sales	100.0	100.0
Cost of sales	75.3	78.9
Gross profit	24.7	21.1
Selling and administrative expenses	19.0	18.2
Operating income	5.7	3.0
Other (expense) income, net	0.0	0.1
Income before income taxes	5.7	3.0
Income tax expense	1.9	1.1
Net income	3.8	2.0

Fiscal 2014 First Quarter Compared to Fiscal 2013 First Quarter

Net Sales

	May 5, 2013		Thirteen Weeks Ended April 29, 2012		\$ Change	% Change
		% Net Sales		% Net Sales		
Casegoods	\$35,444	63.0	\$32,745	63.3	\$2,699	8.2
Upholstery	20,851	37.0	18,985	36.7	\$1,866	9.8
Consolidated	\$56,295	100.0	\$51,730	100.0	\$4,565	8.8

Unit Volume	FY14 Q1 % Increase vs. FY13 Q1		Average Selling Price		FY14 Q1 % Increase vs. FY13 Q1	
Casegoods	-4.7	%	Casegoods	13.3	%	
Upholstery	1.0	%	Upholstery	8.8	%	
Consolidated	-3.0	%	Consolidated	12.0	%	

The increase in consolidated net sales for the fiscal 2014 first quarter was principally due to higher average selling prices in both segments, partially offset by lower unit volume in our casegoods segment. Higher average selling prices were primarily the result of lower product discounting in our casegoods segment and for both segments, a shift in the mix of products sold toward some of our higher priced items. The decrease in unit volume was primarily due to reduced promotional discounting activity in both segments compared to the prior year quarter.

Table of Contents

Gross Income and Margin

	May 5, 2013		Thirteen weeks ended April 29, 2012		\$ Change	% Change	
		% Net Sales		% Net Sales			
Casegoods	\$9,998	28.2	% \$7,448	22.8	% \$2,550	34.2	%
Upholstery	3,918	18.8	% 3,474	18.3	% 444	12.8	%
Consolidated	\$13,916	24.7	% \$10,922	21.1	% \$2,994	27.4	%

Consolidated gross profit increased in the fiscal 2014 first quarter, as compared to the fiscal 2013 first quarter, primarily due to decreased discounting in our casegoods segment, lower domestic upholstery costs as a percentage of net sales and higher sales volume in both segments.

Selling and Administrative Expenses

	May 5, 2013		Thirteen weeks ended April 29, 2012		\$ Change	% Change	
		% Net Sales		% Net Sales			
Casegoods	\$7,432	21.0	% \$6,072	18.5	% \$1,360	22.4	%
Upholstery	3,250	15.6	% 3,322	17.5	% (72)	-2.2	%
Consolidated	\$10,682	19.0	% \$9,394	18.2	% \$1,288	13.7	%

Consolidated selling and administrative expenses increased both in absolute terms and as a percentage of net sales in the fiscal 2014 first quarter compared to the same prior-year period.

Casegoods selling and administrative expenses increased primarily due to:

- § start-up costs for our H Contract and Homeware divisions;
- § an increase in bonus expense due to improved earnings performance as compared to the prior-year quarter;
- § an increase in furniture disposals eligible to be deducted as contributions for income tax purposes; and
- § a smaller decrease in bad debt expense as a result of the reduction of our allowance for doubtful accounts in the prior year quarter because of favorable collections experience.

Upholstery selling and administrative expenses decreased both as a percentage of net sales and in absolute terms in the fiscal 2014 first quarter compared to the same prior-year period, primarily due to decreased salaries and wages and benefits, partially offset by increased commissions and selling expenses due to increased sales.

Table of Contents

Operating Profit and Margin

	May 5, 2013		Thirteen weeks ended April 29, 2012				\$ Change	% Change
		% Net Sales		% Net Sales				
Casegoods	\$2,566	7.2	% \$1,376	4.2	% \$1,190		86.5	%
Upholstery	668	3.2	% 152	0.8	% 516		339.5	%
Consolidated	\$3,234	5.7	% \$1,528	3.0	% \$1,706		111.6	%

Operating profitability increased for the fiscal 2014 first quarter as compared to the same prior-year period, both as a percentage of net sales and in absolute terms due to the factors discussed above.

Other (expense) income, net

	May 5, 2013		Thirteen weeks ended April 29, 2012				\$ Change	% Change
		% Net Sales		% Net Sales				
Consolidated	\$(32)	0.0	% \$44	0.1	% \$(76)		-172.7	%

Other (expense) income, net decreased due to lower interest income on past-due customer accounts.

Income taxes

	May 5, 2013		Thirteen weeks ended April 29, 2012				\$ Change	% Change
		% Net Sales		% Net Sales				
Consolidated income tax expense	\$1,076	1.9	% \$552	1.1	% \$524		94.9	%
Effective Tax Rate	33.6	%	35.1	%				

We recorded income tax expense of \$1.1 million for the fiscal 2014 first quarter compared to \$552,000 for the comparable prior year period. The effective tax rates for the fiscal 2014 and 2013 first quarters were 33.6% and 35.1%, respectively. Our effective tax rate was slightly lower in the fiscal 2014 first quarter primarily due to larger anticipated rate benefits from earnings on company-owned life insurance policies and distributions from our former captive insurance arrangement.

Net Income

Outlook

Given recent positive news on housing and consumer confidence, we are optimistic about our future, both with our core business and our new ventures. We believe we are well positioned to capitalize on the improving economy as we ramp up our manufacturing facilities, maintain good inventory position on our best-selling products and promote what we believe to be our strongest product line in several years. As we move through the beginning of our fiscal 2014 second quarter, we have seen much stronger demand for our products than a year ago, which we attribute to the vitality of our freshened line up and better retail conditions. Although we are entering what is traditionally the slowest season of the year for furniture during the summer months, we believe that we have considerable momentum.

We have seen significant improvement in our upholstery segment results since early in the 2013 fiscal year thanks to higher sales volume and to a number of cost control initiatives. The upholstery segment has higher fixed costs than our casegoods segment, due to the upholstery segment's domestic manufacturing operations. To mitigate the impact of sales declines in recent years, we streamlined our upholstery operations by improving efficiency, reducing overhead and evaluating our operating costs and capacity to better match costs to current and expected sales volume levels. Further significant cost reductions in our upholstery segment will be challenging. Future profitability increases will require us to increase sales while maintaining gross margins at, or close to, current levels.

Our H Contract product line officially launched early in the fiscal 2014 second quarter. We expect our Homeware product line to officially launch in August 2013 on two major home furnishings e-commerce websites. Startup costs associated with both new product lines were approximately \$440,000 before tax, and \$294,000 after-tax, or \$0.03 per share in the fiscal 2014 first quarter. We expect startup costs for these product lines will account for approximately \$0.12 to \$0.15 per share for the 2014 fiscal year.

As we progress through the remainder of the year, we will continue to focus on:

- § pursuing additional distribution channels, including through our new H Contract and Homeware initiatives;
- § controlling costs;
- § adjusting our product pricing on our main-line products in order to mitigate inflation and improve margins;
- § achieving proper inventory levels, while optimizing product availability on best-selling items;
- § sourcing product from more competitive locations and from more quality conscious sourcing partners;
- § offering an array of new products and designs, which we believe will help generate additional sales; and
- § upgrading and refining our information systems capabilities to support our business.

Table of Contents

Financial Condition, Liquidity and Capital Resources

Balance Sheet and Working Capital

The following chart shows changes in our total assets, current assets, current liabilities, net working capital and working capital ratio during the first quarter of fiscal 2014:

	Balance Sheet and Working Capital		
	May 5, 2013	February 3, 2013	\$ Change
Total Assets	\$ 152,760	\$ 155,823	\$(3,063)
Cash	\$ 28,728	\$ 26,342	\$ 2,386
Trade Receivables	26,435	28,272	(1,837)
Inventories	46,506	49,872	(3,366)
Prepaid Expenses & Other	4,224	5,181	(957)
Total Current Assets	\$ 105,893	\$ 109,667	\$(3,774)
Trade accounts payable	\$ 9,224	\$ 11,620	\$(2,396)
Accrued salaries, wages and benefits	2,604	3,316	(712)
Other accrued expenses	1,241	2,531	(1,290)
Total current liabilities	\$ 13,069	\$ 17,467	\$(4,398)
Net working capital	\$ 92,824	\$ 92,200	\$ 624
Working capital ratio	8.1 to 1	6.3 to 1	

As of May 5, 2013, total assets decreased compared to February 3, 2013, primarily due to decreased inventories and trade receivables, partially offset by increased cash and cash equivalents. Cash increased due primarily to the reduction of inventories and accounts receivable. Inventory receipts were lower than cost of goods sold for the first quarter, resulting in a decrease in inventory from the end of fiscal 2013. Trade receivables decreased due to cash collections in excess of net sales during the first quarter.

The increase in net working capital (current assets less current liabilities) reflects a smaller decrease in current assets than in current liabilities. Current assets decreased primarily due to decreased inventories and trade receivables. Current liabilities decreased primarily due to decreases in trade accounts payable and other accrued expenses. Trade accounts payable decreased due to lower import purchases during the fiscal 2014 first quarter. Other accrued expenses decreased from year end levels due to the payment of accrued income taxes payable during the fiscal 2014 first quarter.

Cash Flows – Operating, Investing and Financing Activities

Thirteen Weeks Ended	
May 5, 2013	April 29, 2012

Edgar Filing: HOOKER FURNITURE CORP - Form 10-Q

Net cash provided by operating activities	\$ 3,993	\$ 11,061
Net cash used in investing activities	(532)	(2,359)
Net cash used in financing activities	(1,075)	(1,079)
Net increase in cash and cash equivalents	\$ 2,386	\$ 7,623

Table of Contents

During the three months ended May 5, 2013, cash generated from operations of \$4.0 million and \$516,000 in proceeds received from Company-owned life insurance policies helped to fund an increase in cash and cash equivalents of \$2.4 million, cash dividends of \$1.1 million, capital expenditures of \$880,000 to enhance our business systems and facilities and to pay premiums of \$190,000 on Company-owned life insurance policies.

In comparison, during the three months ended April 29, 2012, cash generated from operations of \$11.1 million helped to fund an increase in cash and cash equivalents of \$7.6 million, cash dividends of \$1.1 million, capital expenditures of \$2.2 million related to our business operating systems and facilities and to pay premiums on Company-owned life insurance of \$187,000.

Liquidity, Financial Resources and Capital Expenditures

Our loan agreement with Bank of America, N.A., which is scheduled to expire on July 31, 2013, includes the following terms:

§ A \$15.0 million unsecured revolving credit facility, up to \$3.0 million of which can be used to support letters of credit;

§ A floating interest rate, adjusted monthly, based on LIBOR, plus an applicable margin based on the ratio of our funded debt to our EBITDA (each as defined in the agreement);

§ A quarterly unused commitment fee, based on our ratio of funded debt to EBITDA; and

§ No pre-payment penalty.

The loan agreement includes customary representations and warranties and requires us to comply with customary covenants, including, among other things, the following financial covenants:

§ Maintain a tangible net worth of at least \$95.0 million;

§ Limit capital expenditures to no more than \$15.0 million during any fiscal year; and

§ Maintain a ratio of funded debt to EBITDA not exceeding 2.0:1.0.

We were in compliance with each of these financial covenants at May 5, 2013 and expect to remain in compliance with existing covenants for the foreseeable future.

As of May 5, 2013, we had an aggregate \$13.2 million available under our revolving credit facility to fund working capital needs. Standby letters of credit in the aggregate amount of \$1.8 million, used to collateralize certain insurance arrangements and for imported product purchases, were outstanding under the revolving credit facility as of May 5, 2013. There were no additional borrowings outstanding under the revolving credit facility on May 5, 2013.

We are currently in negotiations to extend or replace our credit facility and expect to have a new agreement in place before the expiration of our current loan agreement on July 31, 2013.

We factor substantially all of our domestic upholstery accounts receivable, in most cases without recourse to us. We factor these receivables because factoring:

§ allows us to outsource the administrative burden of the credit and collections functions for our upholstery operations;

§ allows us to transfer the collection risk associated with the majority of our domestic upholstery receivables to the factor; and

§ provides us with an additional, potential source of short-term liquidity.

Table of Contents

We believe that we have the financial resources (including available cash and cash equivalents, expected cash flow from operations, lines of credit and the cash surrender value of Company-owned life insurance) needed to meet business requirements for the foreseeable future, including capital expenditures, and working capital, as well as to pay dividends on our common stock. Cash flow from operations is highly dependent on incoming order rates and our operating performance.

We expect to spend between \$1.5 million to \$3.5 million in capital expenditures during the remainder of the 2014 fiscal year to maintain and enhance our operating systems and facilities. Of these estimated amounts, we expect to spend between \$1.3 million and \$1.8 million on the implementation of our ERP system in our upholstery segment.

Enterprise Resource Planning

Conversion efforts began for our domestic upholstery units early in the fiscal 2014 first quarter, with full implementation scheduled to be completed during fiscal 2015. Once both segments are fully operational on the ERP platform, we expect to realize operational efficiencies and cost savings by presenting a single face to our customers and leveraging best practices across the organization.

Cost savings are difficult to quantify until the ERP system becomes fully operational company-wide. We expect to be able to reduce administrative functions which are presently duplicated across our segments and improve our purchasing power and economies of scale.

To complete the ERP system implementation as anticipated, we expect to expend significant financial and human resources. We anticipate spending approximately \$4.3 million in additional funds over the remainder of this project, with a significant amount of time invested by our associates.

We refer you to Item “1A. Risk Factors” included in our 2013 Annual Report for a more complete discussion of the risks involved in our ERP system conversion and implementation.

Share Repurchase Authorization

During the fiscal 2013 first quarter, our board of directors authorized the repurchase of up to \$12.5 million of the Company’s common shares. The authorization does not obligate us to acquire a specific number of shares during any period and does not have an expiration date. The authorization may be modified, suspended or discontinued at any time at the discretion of our board of directors. During fiscal 2013, we used approximately \$671,000 of the authorization to purchase 57,700 of our common shares (at an average price of \$11.63 per share). The Company made no share purchases during the fiscal 2014 first quarter. Approximately \$11.8 million remained available for future purchases under the authorization as of the end of the fiscal 2014 first quarter.

New Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board issued Accounting Standards Update No. 2011-12, “Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05,” which deferred the requirement to present on the face of the financial statements items that are reclassified from other comprehensive income to net income. In February 2013, the Financial Accounting Standards Board issued Accounting Standard Update No. 2013-02, which finalized the reporting requirements of reclassifications out of accumulated other comprehensive income. We adopted this guidance beginning in the first quarter of fiscal year 2014 when it was required. The adoption of this update did not have a material effect on our condensed consolidated statements of income, financial position or cash flows.

Table of Contents

In December 2011, the Financial Accounting Standards Board issued Accounting Standards Update No. 2011-11, “Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities,” which requires disclosure of both gross information and net information about both instruments and transactions eligible for offset in the statement of financial position and instruments and transactions subject to agreements similar to a master netting arrangements. In January 2013, the Financial Accounting Standards Board issued Accounting Standards Update No. 2013-01, “Balance Sheet (Topic 210): Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities,” which clarified the scope of Accounting Standards Update No. 2011-11. We adopted this guidance beginning in the first quarter of fiscal year 2014 when it was required. The adoption of this update did not have a material effect on our condensed consolidated statements of income, financial position or cash flows.

Critical Accounting Policies

There have been no material changes to our critical accounting policies and estimates from the information provided in Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” included in our fiscal 2013 annual report on Form 10-K filed with the SEC on April 19, 2013.

Forward-Looking Statements

Certain statements made in this report, including under Part 1, Item 2 – “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” and in the notes to the condensed consolidated financial statements included in this report, are not based on historical facts, but are forward-looking statements. These statements reflect our reasonable judgment with respect to future events and typically can be identified by the use of forward-looking terminology such as “believes,” “expects,” “projects,” “intends,” “plans,” “may,” “will,” “should,” “would,” “could” or “ant negative thereof, or other variations thereon, or comparable terminology, or by discussions of strategy. Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. Those risks and uncertainties include but are not limited to:

§ general economic or business conditions, both domestically and internationally, and instability in the financial and credit markets, including their potential impact on our (i) sales and operating costs and access to financing or (ii) customers and suppliers and their ability to obtain financing or generate the cash necessary to conduct their respective businesses;

§ disruptions involving our vendors or the transportation and handling industries, particularly those affecting imported products, including customs issues, labor stoppages, strikes or slowdowns and the availability of shipping containers and cargo ships;

§ disruptions affecting our Henry County, Virginia warehouses and corporate headquarters facilities;

§ price competition in the furniture industry;

§ changes in domestic and international monetary policies and fluctuations in foreign currency exchange rates affecting the price of our imported products and raw materials;

§ the cyclical nature of the furniture industry, which is particularly sensitive to changes in consumer confidence, the amount of consumers’ income available for discretionary purchases, and the availability and terms of consumer credit;

§ risks associated with the cost of imported goods, including fluctuation in the prices of purchased finished goods and transportation and warehousing costs;

§ adverse political acts or developments in, or affecting, the international markets from which we import products, including duties or tariffs imposed on those products;

21

Table of Contents

§ risks associated with domestic manufacturing operations, including fluctuations in capacity utilization and the prices and availability of key raw materials, as well as changes in transportation, warehousing and domestic labor costs and environmental compliance and remediation costs;

§ our ability to successfully implement our business plan to increase sales and improve financial performance;

§ the direct and indirect costs associated with the implementation of our Enterprise Resource Planning system, including costs resulting from unanticipated disruptions to our business;

§ achieving and managing growth and change, and the risks associated with new business lines, acquisitions, restructurings, strategic alliances and international operations

§ risks associated with distribution through third-party retailers, such as non-binding dealership arrangements;

§ capital requirements and costs;

§ competition from non-traditional outlets, such as catalog and internet retailers and home improvement centers;

§ changes in consumer preferences, including increased demand for lower-quality, lower-priced furniture due to declines in consumer confidence and/or discretionary income available for furniture purchases and the availability of consumer credit; and

§ higher than expected costs associated with product quality and safety, including regulatory compliance costs related to the sale of consumer products and costs related to defective or non-compliant products.

Any forward-looking statement that we make speaks only as of the date of that statement, and we undertake no obligation, except as required by law, to update any forward-looking statements whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk from changes in foreign currency exchange rates, which could impact our results of operations or financial condition. We manage our exposure to this risk through our normal operating activities.

For imported products, we generally negotiate firm pricing denominated in U.S. Dollars with our foreign suppliers, typically for periods of at least six months. We accept the exposure to exchange rate movements beyond these negotiated periods. We do not use derivative financial instruments to manage this risk, but could choose to do so in the future. Most of our imports are purchased from suppliers located in China. The Chinese currency floats within a limited range in relation to the U.S. Dollar, resulting in exposure to foreign currency exchange rate fluctuations.

Since we transact our imported product purchases in U.S. Dollars, a relative decline in the value of the U.S. Dollar could increase the price we pay for imported products beyond the negotiated periods. We generally expect to reflect substantially all of the effect of any price increases from suppliers in the prices we charge for imported products. However, these changes could adversely impact sales volume or profit margins during affected periods.

Amounts outstanding under our revolving credit facility would bear interest at variable rates. In the past, we have entered into swap agreements to hedge against the potential impact of increases in interest rates on our floating-rate debt instruments. There was no outstanding balance under our revolving credit facility as of May 5, 2013, other than standby letters of credit in the amount of \$1.8 million. Therefore, a fluctuation in market interest rates of one

percentage point (or 100 basis points) would not have a material impact on our results of operations or financial condition.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended May 5, 2013. Based on this evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to the Company's management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the fiscal quarter ended May 5, 2013, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
