Edgar Filing: ABN AMRO HOLDING N V - Form 425

"2006 was another year of excellent performance by our Group with customer satisfaction high and

"The Group has continued to perform well in the first few months of this year in line with the company year results presentation on 28 February.

"When your Company is capable of producing this kind of performance, some of you may be wondering about a possible transaction with ABN AMRO. When Barclays and ABN AMRO announced their intention to merge, it was our fiduciary duty to consider what the possible implications of such a move might be for our Company.

"After careful consideration, we made an announcement earlier today outlining the proposals we and Santander have collectively made to ABN AMRO. These proposals, which are subject to a number of conditions, are in the best interests of ABN AMRO's shareholders and are straightforward from a shareholder, regulatory and execution perspective. We believe that a transaction based on these proposals would create value for our own shareholders and enhance our businesses.

"We have not rushed lightly into this, but an opportunity that fits so closely with our strategic objectives and it would have been irresponsible of us not to explore such an opportunity to the full. You can be assured that any decision made, will have been carefully evaluated. The Board will act prudently but with great determination in the best interests of our shareholders to do so."
