2014 FULL YEAR AND FOURTH QUARTER RESULTS

PROFITABLE GROWTH IN TOUGHER MARKETS

[Full year highlights](#)

- Underlying sales growth up 2.9%, ahead of our markets, with volume 1.0% and price 1.9%
- Turnover declined (2.7)% to €48.4 billion including a negative currency impact of (4.6)%
- Core operating margin up 40bps at current exchange rates
- Free cash flow of €3.1billion after €0.8 billion of tax on disposal profits
- Core earnings per share up 11% at constant exchange rates, up 2% at current exchange rates to €1.61

[Fourth quarter highlights](#)

- Underlying sales growth up 2.1% with volume (0.4)% and price 2.5%
- Turnover increased 2.4% including a positive currency impact of 1.6% and net acquisitions & disposals (1.3)%

Paul Polman: Chief Executive Officer statement

"Despite a challenging year for our industry with significant economic headwinds and weak markets we have delivered another year of competitive underlying sales growth and margin expansion. This consistency, now established over the last six years, has been achieved during a period of high volatility as we have built a more resilient company.

We have increasingly focussed on our core business and have sharpened the strategy across each of our four categories. In today's low growth environment we are driving efficiency and simplification initiatives to make the organisation more agile and more capable of responding to the unexpected. We have continued to remove cost and to streamline processes to provide fuel for growth. Our innovation programmes have further accelerated and we have exported our iconic brands into new markets. We have continued to use acquisitions and disposals to strengthen the portfolio.

The Unilever Sustainable Living Plan continues to underpin all aspects of our business model from the way we source materials through to our product innovations. Our activities enhance our reputation and corporate brand. They are well-recognised and an important way of reducing cost and risk in increasingly well-informed and challenging societies.

We do not plan on a significant improvement in market conditions in 2015. Against this background, we expect our full year performance to be similar to 2014 with the first quarter being softer but growth improving during the year. We remain focussed on competitive, profitable, consistent and responsible growth."

FULL YEAR OPERATIONAL REVIEW: CATEGORIES

(unaudited)	Fourth Quarter 2014			Full Year 2014			Change in core operating margin
	Turnover	USG	UVG	UPG	Turnover	USG	

Edgar Filing: UNILEVER PLC - Form 6-K

	€bn	%	%	%	€bn	%	%	%	bps
Unilever Total	12.1	2.1	(0.4)	2.5	48.4	2.9	1.0	1.9	40
Personal Care	4.7	2.1	(0.9)	3.1	17.7	3.5	1.2	2.3	90
Foods	3.3	(0.7)	(1.7)	1.0	12.4	(0.6)	(1.1)	0.6	90
Refreshment	1.7	5.3	3.1	2.1	9.2	3.8	2.0	1.8	(30)
Home Care	2.3	4.0	0.1	3.9	9.2	5.8	2.4	3.4	(10)

Our markets: Growth was weak in emerging markets as economic pressures impacted consumer demand. Developed markets were flat, with a modest pick-up in North America partly offsetting market contraction in Europe. Globally, our markets grew by around 2.5% with flat volumes.

Unilever overall performance: In 2014 we grew ahead of our markets, both in volume and value. With weaker consumer demand, underlying sales growth in emerging markets slowed to 5.7% whilst developed markets declined by (0.8)%. Home Care, Personal Care and Refreshment all grew but Foods was adversely impacted by spreads.

In the fourth quarter underlying sales grew 2.1% with a higher contribution from price but volumes remained weak. As expected, the trade de-stocking in China continued and led to a sales decline of around 20%. This particularly impacted Personal Care and Home Care. In many regions, competitive intensity remains high in all categories, and notably in Personal Care and Home Care.

For the full year core operating margin improved 40bps to 14.5% at current exchange rates. Gross margin declined by 20bps to 41.4%. This was largely driven by currency related cost increases in emerging markets, partly offset by pricing, savings and mix such as margin-accretive innovation. Significant efficiencies in the cost of producing advertising allowed us to increase our share of spend whilst maintaining brand and marketing investment at 14.8%. Overheads were reduced by 60bps, benefiting from stepped up savings efforts behind project Half.

Personal Care

Personal Care grew ahead of weaker markets helped by a strong set of new product launches. Deodorants benefited from the success of the compressed aerosol range in Europe, continued growth from Dove innovations and most recently from the cross-brand launch of dry sprays in North America. Skin cleansing growth was driven by strong performances from Lifebuoy and the improved Dove Nutrium Moisture body wash. The launch of Baby Dove in Brazil has been well received by consumers. In December we announced the acquisition of the Camay and Zest brands which will strengthen our portfolio in emerging markets, particularly in Mexico.

In hair, the Dove Advanced Hair series successfully established the premium Oxygen Moisture range in North America and this has now been extended to Europe. Hair growth was also underpinned by strong performances from Sunsilk Naturals in Asia, the TRESemmé 7 Day Keratin Smooth range and the successful introduction of Clear in Japan.

Full year core operating margin was up 90bps driven by reduced overheads and also helped by brand and marketing efficiencies.

Foods

Savoury and dressings both grew but spreads declined due to lower consumer demand for margarine in Europe and North America. Savoury growth was backed by successful market development campaigns for cooking ingredients in emerging markets. In India and Pakistan, Knorr built further scale driven by good performances in stock cubes, soups and noodles. Indonesia saw strong growth of Royco and Bango, both of which are well adapted to meet local needs. Dressings continued to grow helped by the launch of Hellmann's in the Netherlands and Portugal.

In spreads we launched blends of vegetable oil and butter such as Gold from Flora. We gained market share in margarine but this was insufficient to offset the decline of the category which also saw price deflation in a benign

commodity cost environment. In the fourth quarter we announced our intention to set up a separate business unit for the European and North American spreads business. This will be fully operational by the middle of this year. We continued the pruning of our Foods portfolio in 2014 with a number of disposals, including Ragu and Bertolli pasta sauces in North America and the meat snacks business under the Bifi and Peperami brands in Europe.

Full year core operating margin was up 90bps supported by increased gross margins and lower overheads partially offset by higher brand and marketing investments.

Refreshment

Good growth in ice cream was driven by a strong innovation programme. The United States returned to growth and gained market leadership with good contributions from Ben & Jerry's Cores and Breyer's Gelato. This will be enhanced with the recent acquisition of Talenti gelatos and sorbettos. Magnum celebrated its 25th anniversary with activities that reinforced the chocolate credentials of the brand.

Leaf tea grew although performance was mixed. We saw growth in the United States driven by the success of Lipton K-Cups® and new liquid concentrate but weaker sales in Russia and Poland. In the United Kingdom we launched a range of fruit and green teas under the PG Tips brand to target this growing segment.

Full year core operating margin was down 30bps with lower gross margins impacted by higher dairy and chocolate costs, not fully recovered by pricing and savings.

Home Care

Laundry had another year of broad-based growth, driven by sustained investment in innovation, market development and white spaces expansion. We have successfully extended the Omo brand into Saudi Arabia and the Gulf, and we have launched a range of Omo stain removers and pre-treaters in Brazil. Fabric conditioners grew well through super-sensorial variants like Comfort Aromatherapy in South East Asia and Latin America.

Household cleaning growth continued to outpace the market. Cif, Domestos and Sunlight delivered strong growth and innovations such as Sunlight Nature landed well in South East Asia. The expansion into new geographies and formats continued in 2014 as we launched Domestos in several countries in Africa.

Full year core operating margin was down 10bps as gross margins were impacted by cost increases from weaker currencies in emerging markets which were not fully offset by pricing and savings. Strong margin improvement in the second half, as we roll out low cost business models, was helped by gains on property sales in India.

FULL YEAR OPERATIONAL REVIEW: GEOGRAPHICAL AREA

(unaudited)	Fourth Quarter 2014				Full Year 2014				Change in core operating margin bps
	Turnover	USG	UVG	UPG	Turnover	USG	UVG	UPG	
	€bn	%	%	%	€bn	%	%	%	
Unilever Total	12.1	2.1	(0.4)	2.5	48.4	2.9	1.0	1.9	40
Asia/AMET/RUB	4.9	2.1	0.1	2.1	19.7	4.3	2.0	2.3	-
The Americas	4.1	6.2	-	6.3	15.5	5.4	0.7	4.7	40
Europe	3.1	(3.1)	(1.5)	(1.6)	13.2	(2.1)	(0.2)	(1.8)	130

Asia/AMET/RUB

Growth was mixed across countries. Indonesia, India, Turkey and the Philippines delivered a year of double-digit growth, supported by extending the distribution of our products. However overall growth was held back by softer markets and a high level of competitive intensity. As a result growth in Africa and countries such as China and Thailand was below historical run rates.

Full year core operating margin was flat as lower overheads primarily offset an adverse gross margin movement that was impacted by cost increases from weaker currencies.

The Americas

Latin America delivered double-digit underlying sales growth underpinned by strong pricing but also modest volume growth. We grew ahead of our markets, which faced substantial currency devaluation and high inflation. In North America economic conditions improved through the year but the promotional environment remained intense. We returned to growth, driven by ice cream and deodorants, helped by a new range of aerosols towards the end of the year.

Full year core operating margin was up 40bps primarily driven by lower overheads only partially offset by lower gross margins in a challenging commodity cost and currency environment.

Europe

Our markets in Europe remained challenging with high competitive intensity in many countries and continued price deflation. This led to a decline in prices which is broad-based across countries and categories. Laundry grew well ahead of our market with strong volume growth, but spreads weighed on our overall performance.

Europe continued to be a strong contributor to Unilever's margin accretion. Full year core operating margin was up 130bps driven by higher gross margin and lower overheads which reflect savings from the extensive restructuring and simplification programmes of recent years.

ADDITIONAL COMMENTARY ON THE FINANCIAL STATEMENTS - FULL YEAR

Finance costs and tax

The cost of financing net borrowings in 2014 was €383 million versus €397 million in 2013. The average interest rate on borrowings was 3.5% and the average return on cash deposits was 3.8%. Pensions financing was a charge of €94 million versus a charge of €133 million in the prior year.

The effective tax rate was 28.2%, higher than 26.4% in 2013 mainly due to the tax impact of business disposals. The tax rate on core earnings was 25.9%, in line with our longer term expectation of around 26%.

Joint ventures, associates and other income from non-current investments

Net profit from joint ventures and associates, together with other income from non-current investments, contributed €143 million versus €127 million in 2013.

Earnings per share

Core earnings per share increased by 2% to €1.61 for the full year, despite an adverse currency impact of (9)%. At constant exchange rates, core earnings per share increased by 11%, driven by higher revenue, improved core operating margin, the increased shareholding in non-controlling interests and the impact from purchasing the Estate shares left in trust by the first Viscount Leverhulme which was announced in May 2014. This measure excludes the impact of business disposals, acquisition and disposal related costs, impairments and other one-off items.

Fully diluted earnings per share for the full year was up 8% at €1.79.

Pensions

Whilst we made a cash contribution of €652 million to pensions, the net pension deficit increased to €3.6 billion at the end of December 2014 versus €2.0 billion as at 31 December 2013. The increase primarily reflects the impact of higher liabilities due to lower discount rates.

Disposals

Business disposals contributed €1,392 million to non-core profits versus €733 million for the full year 2013. This primarily related to the disposal of the Ragu and Bertolli pasta sauces and the Bifi / Pepperami brands. We sold the Slim.Fast business and recognised an impairment charge of €305 million on the related assets within non-core items.

Acquisitions and disposal related costs amounted to €97 million against €112 million in 2013.

Free cash flow

We had another strong year of cash delivery similar to 2013 despite currency headwinds. Free cash flow was €3.1 billion in 2014. This measure excludes the cash proceeds from disposals but includes tax on disposal profits which was €0.8 billion. Adjusting for that, free cash flow would be €3.9 billion. Year-end working capital and net capital expenditure were in line with the prior year.

Net debt

Closing net debt was €9.9 billion versus €8.5 billion as at 31 December 2013. The increase included the €0.9 billion cash outflow for purchasing the Leverhulme Estate shares mentioned above.

Finance and liquidity

During the year the following bonds matured and were repaid: (i) US \$750 million 3.65%, (ii) Renminbi 300 million 1.15%, and (iii) £350 million 4.00%.

On 20 February 2014, we issued Renminbi 300 million 2.95% fixed rate notes due February 2017. On 19 March 2014 we issued our first green sustainability bond. The £250 million 2% fixed rate notes are due 19 December 2018. The proceeds were deployed on projects supporting the goals of the Unilever Sustainable Living Plan.

COMPETITION INVESTIGATIONS

As previously disclosed, along with other consumer products companies and retail customers, Unilever is involved in a number of ongoing investigations by national competition authorities. These proceedings and investigations are at various stages and concern a variety of product markets. In the second half of 2013 Unilever recognised provisions of €120 million related to these cases, disclosed within non-core items. In the second half of 2014 these provisions were increased by a further €30 million.

Ongoing compliance with competition laws is of key importance to Unilever. It is Unilever's policy to co-operate fully with competition authorities whenever questions or issues arise. In addition the Group continues to reinforce and enhance its internal competition law compliance programme on an ongoing basis.

NON-GAAP MEASURES

In our financial reporting we use certain measures that are not recognised under IFRS or other generally accepted accounting principles (GAAP). We do this because we believe that these measures are useful to investors and other users of our financial statements in helping them to understand underlying business performance. Wherever we use such measures, we make clear that these are not intended as a substitute for recognised GAAP measures. Wherever appropriate and practical, we provide reconciliations to relevant GAAP measures. Unilever uses 'constant rate' 'underlying' and 'core' measures primarily for internal performance analysis and targeting purposes. The non-GAAP measures which we apply in our reporting are set out below.

Underlying sales growth (USG)

Underlying Sales Growth or "USG" refers to the increase in turnover for the period, excluding any change in turnover resulting from acquisitions, disposals and changes in currency. The impact of acquisitions and disposals is excluded from USG for a period of 12 calendar months from the applicable closing date. Turnover from acquired brands that are launched in countries where they were not previously sold is included in USG as such turnover is more attributable to our existing sales and distribution network than the acquisition itself. The reconciliation of USG to changes in the GAAP measure turnover is provided in notes 3 and 4.

Underlying volume growth (UVG)

"Underlying Volume Growth" or "UVG" is part of USG and means, for the applicable period, the increase in turnover in such period calculated as the sum of (1) the increase in turnover attributable to the volume of products sold; and (2) the increase in turnover attributable to the composition of products sold during such period. UVG therefore excludes any impact to USG due to changes in prices. The relationship between the two measures is set out in notes 3 and 4.

Free cash flow (FCF)

Within the Unilever Group, free cash flow (FCF) is defined as cash flow from operating activities, less income taxes paid, net capital expenditures and net interest payments and preference dividends paid. It does not represent residual cash flows entirely available for discretionary purposes; for example, the repayment of principal amounts borrowed is not deducted from FCF. Free cash flow reflects an additional way of viewing our liquidity that we believe is useful to investors because it represents cash flows that could be used for distribution of dividends, repayment of debt or to fund our strategic initiatives, including acquisitions, if any.

The reconciliation of FCF to net profit is as follows:

€ million (unaudited)	Full Year	
	2014	2013
Net profit	5,515	5,263
Taxation	2,131	1,851
Share of net profit of joint ventures/associates and other income from non-current investments	(143)	(127)
Net finance costs	477	530
Operating profit	7,980	7,517
Depreciation, amortisation and impairment	1,432	1,151
Changes in working capital	8	200
Pensions and similar obligations less payments	(364)	(383)
Provisions less payments	32	126
Elimination of (profits)/losses on disposals	(1,460)	(725)
Non-cash charge for share-based compensation	188	228
Other adjustments	38	(15)
Cash flow from operating activities	7,854	8,099
Income tax paid	(2,311)	(1,805)
Net capital expenditure	(2,045)	(2,027)
Net interest and preference dividends paid	(398)	(411)
Free cash flow	3,100	3,856
Net cash flow (used in)/from investing activities	(341)	(1,161)
Net cash flow (used in)/from financing activities	(5,190)	(5,390)

Core operating profit (COP), core operating margin (COM) and non-core items

COP and COM means operating profit and operating margin, respectively, before the impact of business disposals, acquisition and disposal related costs, impairments and other one-off items, which we collectively term non-core items, due to their nature and frequency of occurrence. The reconciliation of core operating profit to operating profit is as follows:

€ million (unaudited)	Full Year	
	2014	2013
Operating profit	7,980	7,517
Non-core items (see note 2)	(960)	(501)
Core operating profit	7,020	7,016
Turnover	48,436	49,797
Operating margin (%)	16.5	15.1
Core operating margin (%)	14.5	14.1

Core EPS

The Group also refers to core earnings per share (core EPS). In calculating core earnings, net profit attributable to shareholders' equity is adjusted to eliminate the post tax impact of non-core items. Refer to note 2 on page 12 for reconciliation of core earnings to net profit attributable to shareholders' equity.

Net debt

Net debt is defined as the excess of total financial liabilities, excluding trade payables and other current liabilities, over cash, cash equivalents and other current financial assets, excluding trade and other current receivables. It is a measure that provides valuable additional information on the summary presentation of the Group's net financial liabilities and is a measure in common use elsewhere.

The reconciliation of net debt to the GAAP measure total financial liabilities is as follows:

€ million (unaudited)	As at	As at
	31 December 2014	31 December 2013
Total financial liabilities	(12,722)	(11,501)
Current financial liabilities	(5,536)	(4,010)
Non-current financial liabilities	(7,186)	(7,491)
Cash and cash equivalents as per balance sheet	2,151	2,285
Cash and cash equivalents as per cash flow statement	1,910	2,044
Add bank overdrafts deducted therein	241	241
Other current financial assets	671	760
Net debt	(9,900)	(8,456)

CAUTIONARY STATEMENT

This announcement may contain forward-looking statements, including 'forward-looking statements' within the meaning of the United States Private Securities Litigation Reform Act of 1995. Words such as 'will', 'aim', 'expects',

'anticipates', 'intends', 'looks', 'believes', 'vision', or the negative of these terms and other similar expressions of future performance or results, and their negatives, are intended to identify such forward-looking statements. These forward-looking statements are based upon current expectations and assumptions regarding anticipated developments and other factors affecting the Unilever group (the "Group"). They are not historical facts, nor are they guarantees of future performance.

Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by these forward-looking statements. Among other risks and uncertainties, the material or principal factors which could cause actual results to differ materially are: Unilever's global brands not meeting consumer preferences; Unilever's ability to innovate and remain competitive; Unilever's investment choices in its portfolio management; inability to find sustainable solutions to support long-term growth; customer relationships; the recruitment and retention of talented employees; disruptions in our supply chain; the cost of raw materials and commodities; the production of safe and high quality products; secure and reliable IT infrastructure; successful execution of acquisitions, divestitures and business transformation projects; economic and political risks and natural disasters; financial risks; failure to meet high ethical standards; and managing regulatory, tax and legal matters. Further details of potential risks and uncertainties affecting the Group are described in the Group's filings with the London Stock Exchange, NYSE Euronext in Amsterdam and the US Securities and Exchange Commission, including the Group's Annual Report on Form 20-F for the year ended 31 December 2013 and Annual Report and Accounts 2013. These forward-looking statements speak only as of the date of this announcement. Except as required by any applicable law or regulation, the Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Group's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

31 December 2014	484	145	(7,538)	20,560	13,651	612	14,263

(a) Includes purchases and sales of treasury stock, and transfer from treasury stock to retained profit of share-settled schemes arising from prior years and differences between exercise and grant price of share options.

(b) The share-based payment credit relates to the non-cash charge recorded against operating profit in respect of the fair value of share options and awards granted to employees.

(c) 2014 includes the impact of the purchase of Estate shares (see note 10). 2013 includes the impact of the acquisition of non-controlling interests.
