TELECOM ARGENTINA STET-FRANCE TELECOM S.A.

ANNOUNCES CONSOLIDATED FIRST QUARTER RESULTS

FOR FISCAL YEAR 2003 *

MAJOR EVENTS AND DEVELOPMENTS

- Net revenues for 1Q03 amounted to P\$851MM (-P\$522 MM or 38% vs 1Q02).
- EBITDA** totaled to P\$453 MM (-P\$158 MM or -26% vs. 1Q02).
- Operating Loss for 1Q03 amounted to P\$24 MM compared with an Operating Profit of P\$69 MM in 1Q02.
- Net Profit of P\$907 MM was due to the appreciation of the Argentine Peso.

In 1Q03 the appreciation of the Argentine Peso resulted in gains from net currency exchange differences of P\$1,134MM.

- In spite of the Net Profit registered in 1Q03, the accumulated Net Loss for the last 15 months (since the devaluation of the Argentine Peso) amounted to P\$ 3,479 MM
- Shareholders equity amounted to P\$1,724MM
- Net financial debt as of March 31, 2002 reached P\$8,398MM.

The Financial Indebtedness Ratio (Net Financial Debt / Shareholders equity) reached 4.77.

- The operations of the Company are still being impacted by:
The pesification and freeze of regulated tariffs.

The recession and general macroeconomic crisis in Argentina.

- The Company announced the commencement of the cash tender offers for a portion of its financial debt instruments and the partial interest payments as the first steps of the Company's plans to restructure its outstanding financial indebtedness.
- The Argentine CNV has suspended the inflationary adjustment method as of March 1, 2003.

Buenos Aires, May 9, 2003 Telecom Argentina STET-France Telecom S.A. (BASE: TECO2, NYSE: TEO), one of Argentina's largest telecommunications companies, announced today a **consolidated net profit of P\$907 million**, under Argentine GAAP, for the first quarter of fiscal year 2003 (1Q03). Comparatively, consolidated net loss for the first quarter of fiscal year 2002 (1Q02) was **P\$3,734 million**.

Earning/(loss) per share and ADR for 1Q03 amounted to **P\$0.92** and **P\$4.60**, respectively. Earnings/loss per share and ADR for 1Q02, were **P\$(3.79)** and **P\$(18.96)**.

EBITDA, gross profit/(loss), operating profit/(loss), and net income/(loss)** for 1Q03 represented **53%**, **25%**, **(3%)** and **107%** of net sales, respectively; compared with **45%**, **40%**, **5%** and **(272%)**, respectively, for 1Q02.

* Non-financial data unaudited.

** EBITDA (Earnings Before Interest, Taxes, Depreciation & Amortization) = OPERATING PROFIT + DEPRECIATION + AMORTIZATION. Telecom has included EBITDA data in this press release because such data is used by certain investors to measure a company's ability to service debt and fund capital expenditures and is included herein for convenience only. EBITDA is not a measure of financial performance under either Argentine GAAP or US GAAP and should not be considered as an alternative to net income as a measure of liquidity. EBITDA as it is used by Telecom may differ from similarly titled measures reported by other companies.

Table of Contents

The Company has accounted for the effects of inflation adjustment adopted by Resolution 415/02 of the Comisión Nacional de Valores (CNV) following the method adopted by Resolution N°6 and modified by Resolution N°19, to restate the figures using the wholesale rate of inflation as from January 1, 2002 according to Decree N°1,269/02.

However, the Government through Decree N°664/03 stated that regulatory entities are not allowed to receive financial statements adjusted by inflation. Accordingly, the CNV through resolution N°441/03 decided to discontinue, as of March 1, 2003, the inflation adjustment method stated by Resolution N°6 and complementary regulations. Therefore, the Company has restated the figures corresponding to March 31, 2002 presented herein for comparative purposes in current pesos as of February 28, 2003 using the adjustment factor of 1.6647 which represents the wholesale rate of inflation for the period March 2002 to February 2003. Accordingly, the figures corresponding to 1Q03 include the effects of the adoption of inflationary accounting until February 28, 2003.

Moreover, in Point 9 of the financial tables included herein, the Company is providing additional information for a better understanding of the business including figures that have not been adjusted by inflation and which were used as the base for the information presented in constant pesos. This information, that is not required by the current accounting professional rules, can be found in note to the Consolidated Financial Statements as of March 31, 2003 as Relevant Additional Information . Comments related to variations in revenues and cost for the different activities correspond to figures non-adjusted by inflation or current pesos and are related to the mentioned note and tables.

Company Activities

Consolidated Net Revenues

Consolidated net revenues for 1Q03 totaled **P\$851 million**, a decrease of **P\$522 million** or **38%**, compared with **P\$1,373 million** for 1Q02 as a result of the inflation adjustment of the figures as of March 31, 2002 and that the regulated rates were frozen after the pesification enforced by the Government. Revenues for 1Q03, without adjustment for inflation, would have reached **P\$850 million**, an increase of **P\$104 million** or **14%** compared to 1Q02 (**P\$746 million**). This increase is mainly as a consequence of the increases in non-regulated services, as explained below.

In the **basic telephony** business, the main component of revenues, **measured service**, decreased by **P\$144 million** or **41%** to **P\$204 million** during 1Q03 as compared to 1Q02 (**P\$348 million**). Non-adjusted figures would have shown an increase of **P\$16 million** or **9%**. Revenues from domestic long distance increased as a consequence of higher average rates prompted by

Table of Contents

the reduction in promotional discounts while revenues from local telephony decreased slightly mainly due to the fact that the lower number of lines had a negative impact on this segment. Lines in services as of March 31, 2003 reached approximately 3,560,000 compared with approximately 3,746,000 as of March 31, 2002.

Total traffic volume (Local and DLD) measured in minutes decreased by **3%** for 1Q03 when compared to 1Q02. Additionally, the outgoing international long distance traffic, measured in minutes, decreased by **20%**, compared to 1Q02.

Monthly basic charges decreased by **P\$119 million** or **49%**, to **P\$124 million** for 1Q03 when compared to 1Q02. Non-adjusted figures would have shown a decrease of **P\$8 million** or **6%** reaching **P\$123 million** mainly due to the fact that rates were frozen after the pesification enforced by the Government and due to a lower average number of lines in service of approximately 225,000 lines.

Revenues from **supplementary services** decreased by **P\$18 million** or **38%** to **P\$29 million** for 1Q03 when compared to 1Q02. Non-adjusted figures would have shown an increase of **P\$4 million** or **16%** mainly due to lower discounts and a higher number of subscribers to some of these services, partially compensated by the pesification of rates enforced by the Government.

Revenues from **installation fees** paid by new customers remained at the same level of **P\$5 million** for both 1Q03 and 1Q02. Non-adjusted figures would have shown an increase of **P\$3 million** or **150%**, largely due to a higher number of lines connected (approximately **32,000** lines connected in 1Q03 as compared to **28,000** lines connected during 1Q02) and a higher average installation price (**P\$146** to **P\$86** per line, denominated in current pesos).

Table of Contents

Revenues from **public telephony** decreased by **P\$25 million** or **37%** to **P\$43 million** for 1Q03 when compared to 1Q02. Non-adjusted figures would have shown an increase of **P\$7 million** or **19%**. The increase was a consequence of the higher traffic generated by public telephony telecommunication centers (Telecentros) and higher revenues received from public payphones and telephone cards.

Revenues generated by fixed **interconnection services** during 1Q03 decreased by **P\$19 million** or **42%** to **P\$26 million**. Non-adjusted figures would have shown an increase of **P\$2 million** or **8%**. Meanwhile, revenues generated by interconnection services provided to cellular operators decreased by **P\$4 million** or **31%** to **P\$9 million**. Non-adjusted figures would have shown an increase of **P\$2 million** or **29%**.

Regarding the **international telephony** business, during 1Q03 revenues decreased by **P\$36 million** or **40%** to **P\$53 million** when compared to 1Q02. Non-adjusted figures would have shown an increase of **P\$4 million** or **8%**, mainly due to the revenues generated by Telecom's subsidiary Telecom USA, lower discounts and higher revenues derived from higher incoming traffic. These effects were partially offset by the freeze of regulated rates and lower outgoing traffic.

Revenues generated by the **data transmission business** totaled **P\$83 million**, representing a decrease of **P\$29 million** or **26%**. Non-adjusted figures would have shown an increase of **P\$22 million** or **36%**, as a consequence of higher revenues generated by the ground networks and lease of data circuits. Additionally, Internet dial-up measured services increased as a consequence of the higher number of Internet subscribers of other ISPs that use the special prefix 0610 and local numbers with 4004 numbering or similar to access Telecom's network. As of March 31, 2003 Internet minutes represented **31%** of total traffic measured in minutes transported over the fixed-line network.

4

Table of Contents

Internet revenues decreased by **P\$3 million** or **18%** to **P\$14 million** during 1Q03. Non-adjusted figures would have shown an increase of **P\$5 million** or **56%**, mainly due to the increase in ADSL high-speed access and dial-up monthly fees. As of March 31, 2003, the number of ADSL subscribers reached approximately **32,000**. Furthermore, Internet dial-up customers reached approximately **148,000**.

The revenues generated by the **cellular business** during 1Q03, decreased by **P\$120 million** or **34%** to **P\$237 million** when compared to 1Q02. Non-adjusted figures would have shown an increase of **P\$39 million** or **20%**.

Non-adjusted revenues of Telecom Personal in Argentina would have increased by **P\$49 million** or **32%** to **P\$201 million** when compared to 1Q02. The increase was due to the higher number of subscribers, higher levels of traffic and higher sales of pre-paid cards. Furthermore, the average revenue per user increased by **27%** (to **P\$28 per customer per month** for 1Q03, denominated in current pesos). Total cellular subscribers of Telecom Personal in Argentina reached approximately **2,235,000**, representing an increase of approximately **127,000** customers, or **6%**, as compared to March 31, 2002. The customer base as of March 31, 2003, amounted to approximately **1,809,000** prepaid subscribers or **81%** and approximately **426,000** post-paid subscribers or **19%**.

5

Table of Contents

Núcleo, the subsidiary that provides cellular and PCS services in Paraguay, generated **P\$36 million** in revenues during 1Q03, which are consolidated into the revenues of Telecom Personal. This represented a decrease of **P\$41 million**, or **53%**, as compared to 1Q02. Non-adjusted figures would have shown a decrease of **P\$10 million** or **22%**. The decrease can be mainly attributed to the slight decrease in the customer base and the lower average revenue per user. As of March 31, 2003, Núcleo had approximately **517,000** cellular and PCS customers, a decrease of

approximately **25,000** customers, or **5%**, as compared to March 31, 2002.

In the **telephone directories publishing** business, revenues from our affiliated company **Publicom** increased by **P\$1 million**, reaching **P\$2 million**. Non-adjusted figures would have increased by **P\$2million** due to the publication of more important directories in 1Q03 compared with 1Q02.

Operating Costs

The cost of **services provided, administrative expenses, and selling expenses** for 1Q03 decreased by **P\$429 million** or **33%** to **P\$875 million** when compared to 1Q02 mainly as a result of the adjustment by inflation of figures as of March 31, 2002 and to cost reduction plans implemented by the Company.

6

Table of Contents

Salaries and social security contributions decreased by **P\$88 million** or **44%** to **P\$112 million** for 1Q03. Non-adjusted figures would have shown a slight increase of **P\$3 million** or **3%**, primarily due to the increase in social security contributions since March 1, 2003 and higher salaries for unionized employees mandated by the Government. These increases were partially offset by the reduction in labor costs of unionized and non-unionized employees, which was part of the cost reduction plan launched during the FY 2001 and reductions in headcount. As of March 31, 2003, the headcount totaled 13,377 as compared to 14,387 as of March 31, 2002.

Expenses related to **taxes** decreased by **P\$32 million** or **34%** to **P\$62 million** for 1Q03. Non-adjusted figures would have shown an increase in taxes of **P\$10 million** or **19%**, mainly due to the increase in the applicable rate in the turnover tax in the cellular activity.

Materials and supplies charges decreased by **P\$11 million** or **26%** to **P\$32 million** for 1Q03. Non-adjusted figures would have shown an increase of **P\$7 million** or **30%** reaching **P\$32 million** mainly due to higher expenses associated with higher costs for the maintenance of the network, hardware and software due to the high imported materials content.

The **allowance for doubtful accounts** decreased by **P\$109 million** or **94%** to **P\$7 million** for 1Q03. Non-adjusted figures would have shown a decrease of **P\$55 million** or **89%**. The decrease was largely related to residential segments as a result of the decrease in customer lines.

Commissions paid to vendors and card sales decreased by **P\$1 million** or **7%** to **P\$13 million** for 1Q03. Non-adjusted figures would have shown an increase of **P\$6 million** or **86%**, as a consequence of higher commissions paid for new cellular customers due to higher additions of

subscribers to the customer base compared with 1Q02, and higher costs for distribution and prepaid cards sales.

Interconnection costs decreased by **P\$20 million** or **42%** to **P\$28 million** for 1Q03. Non-adjusted figures would have shown an increase of **P\$4 million** or **15%** reaching **P\$30 million** mostly as a result of higher charges paid for local and long distance access, circuits rentals and termination charges for traffic related to 4004 services in the Internet business.

Service fees decreased by **P\$6 million**, or **19%**, to **P\$26 million** for 1Q03. Non-adjusted figures would have shown an increase of **P\$8 million** or **44%**, principally due to higher fees related to information systems and advisory services.

Management fees decreased by **P\$21 million**, or **95%**, to **P\$1 million** for 1Q03. Non-adjusted figures would have shown a decrease of **P\$10 million** or **91%**, as the Company and the Operators agreed to suspend certain provisions of both parties of the management contract, starting April 1^o, 2002. As a consequence the accrual and the payment of the management fee

7

Table of Contents

have been suspended from such day and until the termination of the contract provided in its point 7.2. (October 2004).

Costs related to **advertising** decreased by **P\$8 million** or **62%** to **P\$5 million** for 1Q03. Non-adjusted figures would have shown a decrease of **P\$2 million** or **29%**. This is mainly due to lower media advertising and promotional and institutional campaigns expenses resulting from the cost control initiatives taken by the Company in line with the lower market requirements.

Cost of cellular handsets decreased by **P\$3 million** or **60%** to **P\$2 million** for 1Q03. Non-adjusted figures would have shown a decrease of **P\$2 million** or **67%** reaching **P\$1 million** mainly due to the lower number of cellular handsets sold.

Other expenses decreased by **P\$51 million** or **40%** for 1Q03, reaching P\$78 million. Non-adjusted figures would have shown an increase of **P\$5 million** or **7%** reaching **P\$76 million**, mainly due to higher costs related to insurance policies as a consequence of the impact of the increase of the foreign exchange rate in this cost item.

Depreciation of fixed assets decreased by **P\$68 million** or **13%**, to **P\$449 million** during 1Q03, as a consequence of lower depreciation of capitalized foreign currency exchange differences originated by financial debt and results from translation, compared with 1Q02. These effects were partially offset by the depreciation of new assets incorporated into cellular and data transmission activities during FY 2002.

Finally, **amortization of intangible assets** increased by **P\$3 million** or **12%** to **P\$28 million** for 1Q03, mainly due to higher charges related to exclusivity rights and systems development in the cellular business, partially offset by the suspension of the amortization of PCS licenses.

Financial and Holding Results

The gains resulting from **financial and holding results** reached **P\$961 million** for 1Q03 as compared to the loss of **P\$5,474 million** in 1Q02. The improvement can be largely attributed to the **\$1,134 million** gain arising from currency exchange differences derived from the appreciation of the Peso during the quarter, which affected the company's net foreign currency monetary position. Additionally, as a consequence of the lower exchange rate, the interest on foreign currency liabilities decreased by **\$78 million**.

Other Expenses

Other expenses, (net) decreased **P\$25 million** or **52%** to **P\$23 million** 1Q03 compared with 1Q02 as a result of the inflation adjustment of figures of March 31, 2002, higher reserves for lawsuits and contingencies and higher severance and termination charges. These variations were

8

Table of Contents

partially offset by the decrease in the write-off of cellular handsets leased without charge (comodato).

Statements of Cash Flow (non-adjusted figures)

Cash flow from operating activities for 1Q03 decreased by **P\$122 million**, mainly due to the exchange differences (P\$399 million), partially offset by higher collections (P\$128 million) and lower payments (P\$21 million).

Meanwhile, cash flow applied to investing activities for 1Q03 decreased by **P\$178 million** as compared to 1Q02 as a result of lower incorporation of fixed and intangible assets.

Funds allocated to financing activities decreased by **P\$99 million** for the 1Q03 as a result of lower debt proceeds and payments due to Telecom's suspension of principal and interests on its debt obligations in 2Q02.

Net Financial Debt

Net Financial Debt decreased by **P\$432 million** or **5%** to **P\$8,398 million** for 1Q03 compared with 1Q02 (**P\$8,830 million** in current pesos), mainly due to an increase in financial assets resulting from the higher level of cash being generated, but partially offset by the increased in financial debt due variations in the exchange rate Euro/US\$, compared with 1Q02.

Investment Plan

Telecom has made investments in fixed assets of **P\$20,810 million**, since the start of operations on November 8, 1990, of which **P\$13 million** corresponds to 1Q03. As of March 31, 2003, the net book value of fixed assets totaled **P\$9,222 million**.

Of the total amount invested during 1Q03, **P\$7 million** or **54%** corresponds to **basic telephony, data transmission and Internet** (public telephony **14%**, transmission **43%** and outside plant **43%**) and **P\$6 million** or **46%** to **cellular telephony**.

Other Matters

Debt Restructuring Process

Table of Contents

On April 14, 2003, Telecom Argentina and its subsidiary Telecom Personal, announced the commencement of cash tender offers for a portion of their financial debt instruments. The tender offers will be open to the holders of the notes and credit facility debt of Telecom Argentina and the credit facility debt of Telecom Personal.

The tender offers commenced on Wednesday, April 16, 2003 and will expire on Friday, May 16, 2003 at 5:00 PM Buenos Aires time, 4:00 PM New York City time and 5:00 PM Italian time. Telecom Argentina and Telecom Personal will conduct the tender offers pursuant to a modified Dutch auction using cash of up to the equivalent of US\$260 million and US\$45 million, respectively, with a price range of 43.5% to 50.0% of the outstanding principal amount of Telecom Argentina's and Telecom Personal's financial debt instruments, without giving effect to any accrued but unpaid interest. Offers may be submitted in price increments of 0.25%.

The purchase price for debt instruments accepted for purchase by Telecom pursuant to the terms and conditions set forth in the tender offer materials will be paid in the respective currency of such debt instruments. All holders whose debt instruments are accepted for purchase will receive the same purchase price (expressed as a percentage of principal amount of the tendered debt instruments), upon the terms and subject to the conditions described in the tender offer materials.

The closing of the tender offers will be subject to a number of conditions which are described in the tender offer materials. The tender offer materials also provide certain information relating to the status of the Companies' financial debt restructuring process.

Edgar Filing: TELECOM ARGENTINA STET FRANCE TELECOM SA - Form 6-K

The Companies have also announced they will each make interest payments on their financial debt obligations at the contractual rates, without giving effect to penalties or default rates, for the period through and including June 24, 2002. The Companies will also each make partial interest payments equivalent to 30% of the contractual rates, without giving effect to penalties or default rates, on their financial debt obligations for the period from June 25, 2002 through December 31, 2002. The partial interest payments would be paid on all financial debt obligations, independent of noteholders or creditors participation in the tender offers. The record date for the partial interest payments was April 30, 2003 and the payment date will be the expiration date of the tender offers. The Company reserves rights to make the interest payment if the tender offer is terminated prior to the expiration date.

The tender offers and the partial interest payments are the first steps of the Companies plans to restructure their outstanding financial indebtedness and their ongoing debt service obligations.

Morgan Stanley & Co. Incorporated and MBA Banco de Inversiones S.A. are acting as dealer managers for the tender offers. MBA Banco de Inversiones S.A. will act as dealer manager in Argentina only.

This information regarding the cash tender offers will not be provided and the cash tender offers will not be made in any jurisdiction in which, or to any person to whom, it is unlawful to make such announcement and / or cash tender offers under applicable securities laws.

Summary of the resolutions passed by the General Ordinary and Extraordinary Meeting of Shareholders held on April 30, 2003

Resolutions relating to the following matters were passed at General Ordinary and Extraordinary Meeting of Shareholders held on April 30, 2003

Approval of the financial documentation corresponding to the 14th fiscal year ended December 31, 2002.

10

Table of Contents

Approval of the allocation to a new fiscal year of the entire loss in Unappropriated Retained Earnings as of December 31, 2002.

Consideration of the performance and the remuneration of the Board of Directors and the Surveillance Committee, holding office during the 14th fiscal year.

Determination and appointment of six, regular and alternate, directors to hold office during the 15th fiscal year.

Appointment of the regular and alternate members of the Surveillance Committee.

The appointment of Pistrelli, Henry Martin y Asociados SRL (a member of Ernst & Young Global) jointly with Price Waterhouse & Co, as the External Auditors of the financial statements corresponding to the 15th fiscal year.

Edgar Filing: TELECOM ARGENTINA STET FRANCE TELECOM SA - Form 6-K

The Board of Directors was granted ample powers to provide, whenever necessary or whenever the Board of Directors deems convenient, the Change of Ratio of the ADRs that represent shares of the Company, enabling it to determine the amount of shares that will represent each ADR and to determine all the terms and conditions of such change of ratio.

The NON ADHESION of Telecom Argentina STET-France Telecom S.A. to the Optional Statutory Regime of Compulsory Public Purchase Offer (Régimen Estatutario Optativo de Oferta Pública de Adquisición Obligatoria) as well as the consequent amendment of article 1 of the Corporate Bylaws.

Telecom is the parent company of a leading telecommunications group in Argentina, where it offers by itself or through its controlled subsidiaries local and long distance basic telephony, cellular, PCS, data transmission, and Internet services, among other services. Additionally, through a controlled subsidiary the Telecom Group offers cellular and PCS services in Paraguay. The Company commenced operations on November 8, 1990, upon the Argentine Government's transfer of the telecommunications system in the northern region.

11

Table of Contents

Nortel Inversora S.A. (Nortel), which acquired the majority of the Company from the Argentine government, holds 54.74% of Telecom's common stock. Nortel is a holding company where the common stock (aprox. 68% of capital stock) is owned in equal parts by the Groups Telecom Italia and France Telecom. Additionally, the capital stock of Nortel is comprised of preferred shares that are in hands of minority shareholders.

On March 31, 2003, Telecom had 984,380,978 shares outstanding.

Disclaimer

This document may contain statements that could constitute forward-looking statements, including, but not limited to the Company's expectations for its future performance, revenues, income, earnings per share, capital expenditures, dividends, liquidity and capital structure; the impact of recent emergency laws enacted by the Argentine Government; and the impact of rate changes and competition on the Company's future financial performance. Forward looking statements may be identified by words such as believes, expects, anticipates, projects, intends, should, seeks, estimates, future or other similar expressions. Forward-looking statements involve risks and uncertainties that could significantly affect the Company's expected results. The risks and uncertainties include, but are not limited to, uncertainties concerning the impact of recent emergency laws enacted by the Argentine Government which have resulted in the repeal of Argentina's Convertibility law, the devaluation of the peso, restrictions on the ability to exchange pesos into foreign currencies, the adoption of a restrictive currency transfer policy, the pesofication of tariffs charged for public services, the elimination of indexes to adjust rates charged for public services and the Executive branch announcement to renegotiate the terms of the concessions granted to public service providers, including Telecom. Due to extensive and rapid changes in laws and economic and business conditions in Argentina, it is difficult to predict the impact of these changes on the Company's financial condition. Other factors may include, but are not limited to, the current and on-going recession in Argentina, growing inflationary pressure and reduction in consumer spending and the outcome of certain legal proceedings. Readers are cautioned not to place undue reliance on forward looking statements, which speak only as the date of this document. The Company undertakes no obligation to release publicly the results of any revisions to forward looking statements which may be made to reflect events and circumstances after the date of this press release, including, without limitation, changes in the Company's business or to reflect the occurrence of unanticipated events. As a % of Net Revenues	53%	45%		

(*) EBITDA (Earnings Before Interest, Taxes, Depreciation & Amortization) = OPERATING PROFIT + DEPRECIATION + AMORTIZATION. Telecom has included EBITDA data in this press release because such data is used by certain investors to measure a company's ability to service debt and fund capital expenditure and is included herein for convenience only. EBITDA is not a measure of financial performance under either Argentine GAAP or US GAAP and should not be considered as an alternative to net income as a measure of liquidity. EBITDA as it is used by Telecom may differ from similarly titled measures reported by other companies.
