## Letter From the Chairman

**R. Jay Gerken, CFA**

*Chairman and Chief Executive Officer*

**Dear Shareholder,**

The bond markets generated positive returns over the six-month period ended November 30, 2004. Although prices declined early in the period, they stabilized over recent months. The pullback in bond prices, which tend to move opposite anticipated interest rate movements, was triggered by heightened concern about resurgent inflation and rising interest rates. Rising interest rates can act as a brake on robust economic growth, helping to maintain a balance between steady growth and the inflation that generally can accompany it.

For the first time in four years, the Federal Reserve Board ( Fed ) raised short-term interest rates during the six months ended November 30, 2004. The Fed raised its target for the closely watched federal funds rate<sup>ii</sup> by 0.25% on several occasions, increasing it from a four-decade low of 1.00% in June to 2.00% in November, and then again to 2.25% on December 14<sup>th</sup>, after the fund s reporting period had ended.

After declining in April and May, among significant U.S. Treasury volatility, the high-yield market benefited during the period due to a strong rally in U.S. Treasuries as the economy showed signs of slowing. Recent improvement in the U.S. economy has proved favorable for corporate earnings and the corporate bond credit environment. While markets will fluctuate, the high-yield market has remained healthy from a fundamental perspective, as many companies generated better-than-expected earnings and default rates continued to decline.

Emerging markets debt performed positively through the six months ended November 30, 2004, returning 13.82% as represented by the JP Morgan Emerging Markets Bond Index Plus ( EMBI+<sup>iii</sup> ). Markets rallied over the summer taking back losses in April and May and performed strongly through the end of the period. Investors focused their attention on favorable country fundamentals and strength in commodity prices, such as metals, agriculture and oil. Despite concerns that high-energy prices might dampen a global recovery, the markets benefited from higher-than-expected global economic growth. Furthermore, continued progress on political and economic reforms and a generally positive macroeconomic environment led to a spate of bond rating upgrades or improved outlooks from credit rating services, which encouraged broader investor participation in emerging markets.

For the six months ended November 30, 2004, the Salomon Brothers Global High Income Fund Inc. returned 9.82%, based on its New York Stock Exchange ( NYSE ) market price and 8.46% based on its net asset value ( NAV ) per share. The fund outperformed its unmanaged benchmark, the Lehman Brothers Aggregate Bond Index,<sup>v</sup> which returned 3.82% for the same time frame. In comparison, the fund s Lipper global income closed-end funds category average<sup>vi</sup> was 11.44% over the six months ended November 30, 2004. Please note that Lipper performance returns are based on each fund s NAV.

During this six-month period, the fund distributed dividends to shareholders totaling \$0.6375 per share. The performance table on the next page shows the fund s 30-day SEC yield as well as its six-month total return based on its NAV and market price as of November 30, 2004. **Past performance is no guarantee of future results. The fund s yields will vary.**

**FUND PERFORMANCE AS OF NOVEMBER 30, 2004**

(unaudited)

<b>Price Per Share</b>	<b>30-Day SEC Yield</b>	<b>Six-Month Total Return</b>
\$15.06 (NAV)	6.51%	8.46%
\$14.44 (NYSE)	6.79%	9.82%

**All figures represent past performance and are not a guarantee of future results. The fund's yields will vary.**

Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all dividends and/or capital gains distributions, if any, in additional shares. The SEC yield is a return figure often quoted by bond and other fixed-income mutual funds. This quotation is based on the most recent 30-day (or one-month) period covered by the fund's filings with the SEC. The yield figure reflects the dividends and interest earned during the period after deduction of the fund's expenses for the period. These yields are as of November 30, 2004 and are subject to change.

**Information About Your Fund**

As you may be aware several issues in the mutual fund industry have recently come under the scrutiny of federal and state regulators. The fund's Adviser and some of its affiliates have received requests for information from various government regulators regarding market timing, late trading, fees, and other mutual fund issues in connection with various investigations. The fund has been informed that the Adviser and its affiliates are responding to those information requests, but are not in a position to predict the outcome of these requests and investigations.

As previously disclosed by Citigroup, the Staff of the Securities and Exchange Commission (SEC) has notified Citigroup Asset Management (CAM) and Citicorp Trust Bank (CTB), an affiliate of CAM, that the Staff is considering recommending a civil injunctive action and/or an administrative proceeding against CAM, CTB, the former CEO of CAM, two former employees and a current employee of CAM, relating to the creation, operation and fees of an internal transfer agent unit that serves various CAM-managed funds. Citigroup is cooperating with the SEC and will seek to resolve this matter in discussion with the SEC Staff. Although there can be no assurance, Citigroup does not believe that this matter will have a material adverse effect on the fund. For further information, please see the Additional Information note in the Notes to the Financial Statements included in this report.

The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

**RISKS:** An investment in the fund is subject to investment risk, including the possible loss of the entire principal amount that you invest. The fund may use derivatives, such as options and futures, which can be illiquid, may disproportionately increase losses, and have a potentially large impact on fund performance. Investing in foreign securities is subject to certain risks not associated with domestic investing, such as currency fluctuations, and changes in political and economic conditions. These risks are magnified in emerging or developing markets. High yield bonds involve greater credit and liquidity risks than investment grade bonds. Investments in small capitalization companies may involve a higher degree of risk and volatility than investments in larger, more established companies. Leverage may magnify gains and increase losses in the fund's portfolio.

All index performance reflects no deduction for fees, expenses or taxes. Please note that an investor cannot invest directly in an index.

- <sup>i</sup> The Fed is responsible for the formulation of a policy designed to promote economic growth, full employment, stable prices, and a sustainable pattern of international trade and payments.
- <sup>ii</sup> The federal funds rate is the interest rate that banks with excess reserves at a Federal Reserve district bank charge other banks that need overnight loans.
- <sup>iii</sup> The JP Morgan Emerging Markets Bond Index Plus is a total-return index that tracks the traded market for U.S. dollar-denominated Brady and other similar sovereign restructured bonds traded in the emerging markets.
- <sup>iv</sup> NAV is calculated by subtracting total liabilities from the closing value of all securities held by the fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the fund has invested. However, the price at which an investor may buy or sell shares of the fund is at the fund's market price as determined by supply of and demand for the fund's shares.
- <sup>v</sup> The Lehman Brothers Aggregate Bond Index is a broad-based bond index comprised of Government, Corporate, Mortgage and Asset-backed issues, rated investment grade or higher, and having at least one year to maturity.
- <sup>vi</sup> Lipper, Inc. is a major independent mutual-fund tracking organization. Returns are based on the six-month period ended November 30, 2004, including the reinvestment of dividends and capital gains, if any, calculated among the 8 funds in the fund's Lipper category, and excluding sales charges.

## Notes to Financial Statements (unaudited)

### Note 1. Significant Accounting Policies

Salomon Brothers Global High Income Fund Inc. ( Fund ) was incorporated in Maryland and is registered as a non-diversified, closed-end, management investment company under the Investment Company Act of 1940, as amended. The Fund seeks to maintain a high level of current income by investing primarily in a portfolio of high-yield fixed income securities issued by corporate issuers, emerging market fixed income securities and investment grade fixed income securities. As a secondary objective, the Fund seeks total return.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles ( GAAP ). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

(a) SECURITIES VALUATION. In valuing the Fund 's assets, all securities for which market quotations are readily available are valued (i) at the last sale price prior to the time of determination if there were a sale on the date of determination, (ii) at the mean between the last current bid and asked prices if there were no sales on such date and bid and asked quotations are available, and (iii) at the bid price if there were no sales price on such date and only bid quotations are available. Publicly traded foreign government debt securities are typically traded internationally in the over-the-counter market, and are valued at the mean between the last current bid and asked price as of the close of business of that market. Securities may also be valued by independent pricing services which use prices provided by market-makers or estimates of market values obtained from yield data relating to instruments or securities with similar characteristics. When market quotations are not readily available, or are determined not to reflect accurately fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded (for example, a foreign exchange or market), but before the Fund calculates its net asset value, the Fund may value these investments at fair value as determined in accordance with the procedures approved by the Fund 's Board of Directors. Short-term investments having a maturity of 60 days or less are valued at amortized cost, which approximates market value.

(b) REPURCHASE AGREEMENTS. When entering into repurchase agreements, it is the Fund 's policy that a custodian take possession of the underlying collateral securities, the value of which at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults

SALOMON BROTHERS GLOBAL HIGH INCOME FUND INC .

## Notes to Financial Statements (unaudited) (continued)

and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

(c) **FUTURES CONTRACTS.** The Fund may enter into futures contracts to the extent permitted by its investment policies and objectives. Upon entering into a futures contract, the Fund is required to deposit cash or securities as initial margin. Additional securities are also segregated up to the current market value of the futures contracts. Subsequent payments, which are dependent on the daily fluctuations in the value of the underlying financial instrument, are made or received by the Fund each day (daily variation margin) and are recorded as unrealized gains or losses until the contracts are closed. When the contracts are closed, the Fund records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contracts. The Fund enters into such contracts typically to hedge a portion of the portfolio. The risks associated with entering into futures contracts include the possibility that a change in the value of the contract may not correlate with the changes in the value of the underlying instruments. In addition, investing in futures contracts involves the risk that the Fund could lose more than the original margin deposit and subsequent payments required for a futures transaction.

(d) **FORWARD FOREIGN CURRENCY CONTRACTS.** A forward foreign currency contract is an agreement between two parties to buy and sell a currency at a set price on a future date. The contract is marked-to-market daily and the change in value is recorded by the Fund as an unrealized gain or loss. When a forward foreign currency contract is extinguished, through either delivery or offset by entering into another forward foreign currency contract, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value of the contract at the time it was extinguished or offset. The Fund bears the market risk that arises from changes in foreign currency exchange rates and the credit risk should a counterparty fail to meet the terms of such contracts.

(e) **MORTGAGE DOLLAR ROLLS.** The Fund enters into dollar rolls in which the Fund sells mortgage-backed securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (same type, coupon and maturity) securities to settle on a specified future date. During the roll period, the Fund forgoes principal and interest paid on the securities. The Fund is compensated by a fee paid by the counterparty. Dollar rolls are accounted for as financing arrangements; the fee is accrued into interest income ratably over the term of the dollar roll and any gain or loss on the roll is deferred and realized upon disposition of the rolled security. Dollar roll transactions involve the risk that the market value of the securities sold by the Fund may decline below the repurchase price of the similar securities.

(f) **LOAN PARTICIPATIONS.** The Fund invests in fixed and floating rate loans arranged through private negotiations between a foreign sovereign entity and one or more financial institutions (lenders). The Fund's investment in any such loan may be in the form of a participation in or

SALOMON BROTHERS GLOBAL HIGH INCOME FUND INC .

## Notes to Financial Statements (unaudited) (continued)

an assignment of the loan. In connection with purchasing loan participations, the Fund generally will have no right to enforce compliance by the borrower with the terms of the loan agreement relating to the loan, nor any rights of set-off against the borrower, and the Fund may not benefit directly from any collateral supporting the loan in which it has purchased the participation. As a result, the Fund will assume the credit risk of both the borrower and the lender that is selling the participation. In the event of the insolvency of the lender selling the participation, the Fund may be treated as a general creditor of the lender and may not benefit from any set-off between the lender and the borrower. When the Fund purchases assignments from lenders, the Fund will acquire direct rights against the borrower on the loan, except that under certain circumstances such rights may be more limited than those held by the assigning lender. The Fund may have difficulty disposing of participations/assignments because the market for certain instruments may not be highly liquid.

(g) CASH FLOW INFORMATION. The Fund invests in securities and distributes dividends from net investment income and net realized gains from investment transactions which are paid in cash and may be reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows.

(h) SECURITY TRANSACTIONS AND INVESTMENT INCOME. Security transactions are accounted for on a trade date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The cost of investments sold is determined by use of the specific identification method for both financial reporting and income tax purposes.

(i) FOREIGN CURRENCY TRANSLATION. The books and records of the Fund are maintained in U.S. dollars. Transactions denominated in foreign currencies are recorded at the current prevailing exchange rates. All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the current exchange rate at the end of the period. Translation gains or losses resulting from changes in the exchange rate during the reporting period and realized gains and losses on the settlement of foreign currency transactions are reported in the statement of operations for the current period. The Fund does not isolate that portion of realized gains and losses on investments in securities, which are due to changes in the foreign exchange rate from that which is due to changes in market prices of equity securities.

(j) DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS. Dividends from net investment income for the Fund, if any, are declared and paid on a monthly basis. Distributions of net realized gains to shareholders of the Fund, if any, are declared at least annually. Dividends and distributions to shareholders of the Fund are recorded on the ex-dividend date and are determined in accordance with income tax regulations which may differ from GAAP due primarily to differences in the treatment of foreign currency gains/losses, deferral of wash sales, and post-October losses incurred by the Fund.

SALOMON BROTHERS GLOBAL HIGH INCOME FUND INC .

**Notes to Financial Statements** (unaudited) (continued)**Note 2. Management Fee and Other Transactions**

Salomon Brothers Asset Management Inc ( SBAM ), an indirect wholly-owned subsidiary of Citigroup Inc. ( Citigroup ), acts as investment manager and administrator to the Fund. SBAM is responsible on a day-to-day basis for the management of the Fund's portfolio in accordance with the Fund's investment objectives and policies and for making decisions to buy, sell or hold particular securities of the Fund. The fee for these services is payable monthly at an annual rate of 0.85% of the Fund's average daily net assets plus the proceeds of any outstanding borrowings.

In connection with SBAM's service as investment manager to the Fund, Citigroup Asset Management Ltd. ( CAM Ltd. ), an indirect wholly-owned subsidiary of Citigroup, may provide certain advisory services to SBAM relating to currency transactions and investments in non-dollar-denominated debt securities for the benefit of the Fund pursuant to a sub-advisory consulting agreement. SBAM pays CAM Ltd. a fee for its services at no additional expense to the Fund.

During periods in which the Fund is utilizing financial leverage, the fee which is payable to SBAM as a percentage of the Fund's assets will be higher than if the Fund did not utilize leverage because the fee is calculated as a percentage of the Fund's assets, including those investments purchased with leverage.

At November 30, 2004, Citigroup Financial Products Inc., an affiliate of SBAM and an indirect wholly-owned subsidiary of Citigroup, held 7,982 shares of the Fund.

Certain officers and/or directors of the Company are also officers and/or directors of SBAM and do not receive compensation from the Company.

## Edgar Filing: SALOMON BROTHERS GLOBAL HIGH INCOME FUND INC - Form N-CSRS

At November 30, 2004, the Fund had outstanding a \$100,000,000 loan pursuant to a revolving credit and security agreement with Three Pillars Funding Corp. and Citicorp North America Inc. ( CNA ), an affiliate of SBAM. In addition, CNA acts as administrative agent. The loans generally bear interest at a variable rate based on the weighted average interest rates of the underlying commercial paper or LIBOR, plus any applicable margin. Securities held by the Fund are subject to a lien, granted to the lenders, to the extent of the borrowing outstanding

and any additional expenses. For the six months ended November 30, 2004, the Fund paid interest expense on this loan of \$1,023,772.

### Note 5. Dividends Subsequent to November 30, 2004

On October 22, 2004, the Board of Directors ( Board ) of the Fund declared three dividends from net investment income, each in the amount of \$0.10625 per share, payable on December 17, 2004, January 28, 2004 and February 25, 2005 to shareholders of record on December 7, 2004, January 19, 2004 and February 15, 2005, respectively.

### Note 6. Capital Shares

On October 22, 2003, the Fund's Board authorized the Fund to repurchase from time to time in the open market up to 3,000,000 shares of the Fund's common stock. The Board directed the management of the Fund to repurchase shares of the Fund's common stock at such times and in such amounts as management believes will enhance shareholder value, subject to review by the Fund's Board. As of November 30, 2004 the Fund had not repurchased any shares since the inception of the repurchase plan.

### Note 7. Additional Information

In connection with an investigation previously disclosed by Citigroup, the Staff of the Securities and Exchange Commission ( SEC ) has notified Citigroup Asset Management ( CAM ), the Citigroup business unit that includes the funds' investment manager and other investment advisory companies; Citicorp Trust Bank ( CTB ), an affiliate of CAM; Thomas W. Jones, the former CEO of CAM; and three other individuals, one of whom is an employee and two of whom are former employees of CAM, that the SEC Staff is considering recommending a civil injunctive action and/or an administrative proceeding against each of them relating to the creation and operation of an internal transfer agent unit to serve various CAM-managed funds.

In 1999, CTB entered the transfer agent business. CTB hired an unaffiliated subcontractor to perform some of the transfer agent services. The subcontractor, in exchange, had signed a separate agreement with CAM in 1998 that guaranteed investment management revenue to CAM and investment banking revenue to a CAM affiliate. The subcontractor's business was later taken over by PFPC Inc., and at that time the revenue guarantee was eliminated and a one-time payment was made by the subcontractor to a CAM affiliate.

CAM did not disclose the revenue guarantee when the boards of various CAM-managed funds hired CTB as transfer agent. Nor did CAM disclose to the boards of the various CAM-managed funds the one-time payment received by the CAM affiliate when it was made. As previously disclosed, CAM has already paid the applicable funds, primarily through fee waivers, a total of approximately \$17 million (plus interest), which is the amount of the revenue received by Citigroup relating to the revenue guarantee.

## Notes to Financial Statements (unaudited) (continued)

In addition, the SEC Staff has indicated that it is considering recommending action based on the adequacy of the disclosures made to the fund boards that approved the transfer agency arrangement, CAM's initiation and operation of, and compensation for, the transfer agent business and CAM's retention of, and agreements with, the subcontractor.

Citigroup is cooperating fully in the SEC's investigation and is seeking to resolve the matter in discussions with the SEC Staff. On January 20, 2005, Citigroup stated that it had established an aggregate reserve of \$196 million (\$25 million in the third quarter of 2004 and \$171 million in the fourth quarter of 2004) related to its discussions with the SEC Staff. Settlement negotiations are on going and any settlement of this matter with the SEC will require approval by the Citigroup Board and acceptance by the Commission.

Unless and until any settlement is consummated, there can be no assurance that any amount reserved by Citigroup will be distributed. Nor is there at this time any certainty as to how the proceeds of any settlement would be distributed, to whom any such distribution would be made, the methodology by which such distribution would be allocated, and when such distribution would be made.

Although there can be no assurance, Citigroup does not believe that this matter will have a material adverse effect on the funds. The Fund did not implement the contractual arrangement described above and will not receive any payments.

## Dividend Reinvestment Plan (unaudited)

Unless you elect to receive distributions in cash, all dividends, including any capital gain dividends, on your Common Shares will be automatically reinvested by PFPC, as agent for the Common Shareholders (the Plan Agent), in additional Common Shares under the Dividend Reinvestment Plan (the Plan). You may elect not to participate in the Plan by contacting the Plan Agent. If you do not participate, you will receive all cash distributions paid by check mailed directly to you by PFPC as dividend paying agent.

If you participate in the Plan, the number of Common Shares you will receive will be determined as follows:

(1) If the market price of the Common Shares on the record date (or, if the record date is not a New York Stock Exchange trading day, the immediately preceding trading day) for determining shareholders eligible to receive the relevant dividend or distribution (the determination date) is equal to or exceeds 98% of the net asset value per share of the Common Shares, the Fund will issue new Common Shares at a price equal to the greater of (a) 98% of the net asset value per share at the close of trading on the Exchange on the determination date or (b) 95% of the market price per share of the Common Shares on the determination date.

(2) If 98% of the net asset value per share of the Common Shares exceeds the market price of the Common Shares on the determination date, the Plan Agent will receive the dividend or distribution in cash and will buy Common Shares in the open market, on the Exchange or elsewhere, for your account as soon as practicable commencing on the trading day following the determination date and terminating no later than the earlier of (a) 30 days after the dividend or distribution payment date, or (b) the record date for the next succeeding dividend or distribution to be made to the Common Shareholders; except when necessary to comply with applicable provisions of the federal securities laws. If during this period: (i) the market price rises so that it equals or exceeds 98% of the net asset value per share of the Common Shares at the close of trading on the Exchange on the determination date before the Plan Agent has completed the open market purchases or (ii) if the Plan Agent is unable to invest the full amount eligible to be reinvested in open market purchases, the Plan Agent will cease purchasing Common Shares in the open market and the Fund shall issue the remaining Common Shares at a price per share equal to the greater of (a) 98% of the net asset value per share at the close of trading on the Exchange on the determination date or (b) 95% of the then current market price per share.

The Plan Agent maintains all participants' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. Any proxy you receive will include all Common Shares you have received under the Plan.

## **Dividend Reinvestment Plan** (unaudited) (continued)

You may withdraw from the Plan by notifying the Plan Agent in writing at P.O. Box 43027, Boston, Massachusetts 02266-3027 or by calling the Plan Agent at 1-800-331-1710. Such withdrawal will be effective immediately if notice is received by the Plan Agent not less than ten business days prior to any dividend or distribution record date; otherwise such withdrawal will be effective as soon as practicable after the Plan Agent's investment of the most recently declared dividend or distribution on the Common Shares. The Plan may be terminated by the Fund upon notice in writing mailed to Common Shareholders at least 30 days prior to the record date for the payment of any dividend or distribution by the Fund for which the termination is to be effective. Upon any termination, you will be sent a certificate or certificates for the full Common Shares held for you under the Plan and cash for any fractional Common Shares. You may elect to notify the Plan Agent in advance of such termination to have the Plan Agent sell part or all of your shares on your behalf. You will be charged \$5.00 plus a \$0.05 per Common Share service charge and the Plan Agent is authorized to deduct brokerage charges actually incurred for this transaction from the proceeds.

There is no service charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases. Because all dividends and distributions will be automatically reinvested in additional Common Shares, this allows you to add to your investment through dollar cost averaging, which may lower the average cost of your Common Shares over time.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions.

The Fund reserves the right to amend or terminate the Plan if, in the judgment of the Board of Directors, the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan and your account may be obtained from the Plan Agent at 1-800-331-1710.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Board of Directors of the Fund has delegated the authority to develop policies and procedures relating to proxy voting to the Manager. The Manager is part of Citigroup Asset Management ( CAM ), a group of investment adviser affiliates of Citigroup, Inc. ( Citigroup ). Along with the other investment advisers that comprise CAM, the Manager has adopted a set of proxy voting policies and procedures (the Policies ) to ensure that the Manager votes proxies relating to equity securities in the best interest of clients.

In voting proxies, the Manager is guided by general fiduciary principles and seeks to act prudently and solely in the best interest of clients. The Manager attempts to consider all factors that could affect the value of the investment and will vote proxies in the manner that it believes will be consistent with efforts to maximize shareholder values. The Manager may utilize an external service provider to provide it with information and/or a recommendation with regard to proxy votes. However, such recommendations do not relieve the Manager of its responsibility for the proxy vote.

In the case of a proxy issue for which there is a stated position in the Policies, CAM generally votes in accordance with such stated position. In the case of a proxy issue for which there is a list of factors set forth in the Policies that CAM considers in voting on such issue, CAM votes on a case-by-case basis in accordance with the general principles set forth above and considering such enumerated factors. In the case of a proxy issue for which there is no stated position or list of factors that CAM considers in voting on such issue, CAM votes on a case-by-case basis in accordance with the general principles set forth above. Issues for which there is a stated position set forth in the Policies or for which there is a list of factors set forth in the Policies that CAM considers in voting on such issues fall into a variety of categories, including election of directors, ratification of auditors, proxy and tender offer defenses, capital structure issues, executive and director compensation, mergers and corporate restructurings, and social and environmental issues. The stated position on an issue set forth in

the Policies can always be superseded, subject to the duty to act solely in the best interest of the beneficial owners of accounts, by the investment management professionals responsible for the account whose shares are being voted. Issues applicable to a particular industry may cause CAM to abandon a policy that would have otherwise applied to issuers generally. As a result of the independent investment advisory services provided by distinct CAM business units, there may be occasions when different business units or different portfolio managers within the same business unit vote differently on the same issue.

In furtherance of the Manager's goal to vote proxies in the best interest of clients, the Manager follows procedures designed to identify and address material conflicts that may arise between the Manager's interests and those of its clients before voting proxies on behalf of such clients. To seek to identify conflicts of interest, CAM periodically notifies CAM employees (including employees of the Manager) in writing that they are under an obligation (i) to be aware of the potential for conflicts of interest with respect to voting proxies on behalf of client accounts both as a result of their personal relationships and due to special circumstances that may arise during the conduct of CAM's and the Manager's business, and (ii) to bring conflicts of interest of which they become aware to the attention of compliance personnel. The Manager also maintains and considers a list of significant relationships that could present a conflict of interest for the Manager in voting proxies. The Manager is also sensitive to the fact that a significant, publicized relationship between an issuer and a non-CAM affiliate might appear to the public to influence the manner in which the Manager decides to vote a proxy with respect to such issuer. Absent special circumstances or a significant, publicized non-CAM affiliate relationship that CAM or the Manager for prudential reasons treats as a potential conflict of interest because such relationship might appear to the public to influence the manner in which the Manager decides to vote a proxy, the Manager generally takes the position that non-CAM relationships between Citigroup and an issuer (e.g. investment banking or banking) do not present a conflict of interest for the Manager in voting proxies with respect to such issuer. Such position is based on the fact that the Manager is operated as an independent business unit from other Citigroup business units as well as on the existence of information barriers between the Manager and certain other Citigroup business units.

CAM maintains a Proxy Voting Committee, of which the Manager personnel are members, to review and address conflicts of interest brought to its attention by compliance personnel. A proxy issue that will be voted in accordance with a stated position on an issue or in accordance with the recommendation of an independent third party is not brought to the attention of the Proxy Voting Committee for a conflict of interest review because the Manager's position is that to the extent a conflict of interest issue exists, it is resolved by voting in accordance with a pre-determined policy or in accordance with the recommendation of an independent third party. With respect to a conflict of interest brought to its attention, the Proxy Voting Committee first determines whether such conflict of interest is material. A conflict of interest is considered material to the extent that it is determined that such conflict is likely to influence, or appear to influence, the Manager's decision-making in voting proxies.

If it is determined by the Proxy Voting Committee that a conflict of interest is not material, the Manager may vote proxies notwithstanding the existence of the conflict.

If it is determined by the Proxy Voting Committee that a conflict of interest is material, the Proxy Voting Committee is responsible for determining an appropriate method to resolve such conflict of interest before the proxy affected by the conflict of interest is voted. Such determination is based on the particular facts and circumstances, including the importance of the proxy issue and the nature of the conflict of interest. Methods of resolving a material conflict of interest may include, but are not limited to, disclosing the conflict to clients and obtaining their consent before voting, or suggesting to clients that they engage another party to vote the proxy on their behalf.
