Report of Independent Auditors

To the Board of Directors and Shareholders of

Kookmin Bank

We have audited the accompanying non-consolidated balance sheets of Kookmin Bank (the Bank) as of December 31, 2004 and 2003, and the related non-consolidated statements of operations, appropriations of retained earnings (dispositions of accumulated deficit) and cash flows for the years then ended, expressed in Korean Won. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of Korea. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the non-consolidated financial statements referred to above present fairly, in all material respects, the financial position of Kookmin Bank as of December 31, 2004 and 2003, and the results of its operations, the changes in its retained earnings (accumulated deficit), and its cash flows for the years then ended in conformity with accounting principles generally accepted in the Republic of Korea.

Without qualifying our opinion, we draw your attention to the following matters.

As discussed in Note 38 to the non-consolidated financial statements, the Bank restated its non-consolidated financial statements as of and for the year ended December 31, 2003 to correct, as instructed by the Securities and Futures Commission, the overstatement of unrealized loss on investment in associates amounting to (Won)27,159 million, the understatement of provision for other allowances amounting to (Won)213,157 million and the overstatement of income tax expenses amounting to (Won)63,308 million. Accordingly, the financial statements as of and for the year ended December 31, 2003 included in the audit report dated March 3, 2004, are no longer effective, as they do not reflect the above restatements.

Edgar Filing: KOOKMIN BANK - Form 6-K

Samil PricewaterhouseCoopers is the Korean member firm of the PricewaterhouseCoopers. PricewaterhouseCoopers refers to the network of member firms of PricewaterhouseCoopers international Limited, each of which is a separate and independent legal entity.

As discussed in Note 33 to the non-consolidated financial statements, on May 30, 2003, the Bank obtained approval from the Board of Directors to enter into a merger agreement with Kookmin Credit Card Co., Ltd. (the Subsidiary), its majority-owned subsidiary. According to the resolution of the Board of Directors, the Bank merged with the Subsidiary on September 30, 2003. The merger was effected through an exchange of shares with the minority shareholders of the Subsidiary as of July 24, 2003 receiving 0.442983 share of the Bank's common stock for each share of the Subsidiary.

As discussed in Note 20 to the non-consolidated financial statements, in accordance with the resolution made by the Board of Directors on December 17, 2003, the Bank acquired 27,423,761 of its own shares previously owned by the Korean government at (Won)43,700 per share through public bidding and intends to sell these shares of treasury stock depending on certain market conditions.

As discussed in Note 4 and Note 38 to the non-consolidated financial statements, on April 29, 2004, as a means to venture into the insurance business for diversification of revenues, the Bank invested (Won)30,246 million (including acquisition costs) to acquire a 100% ownership of KB Life Insurance Co., Ltd., which was founded to acquire the assets and the liabilities of Hanil Life Insurance Co., Ltd. On January 25, 2005, the Bank sold 49% of its ownership of KB Life Insurance Co., Ltd. to ING Insurance International B.V. at (Won)14,821 million.

As discussed in Note 2 to the non-consolidated financial statements, the Bank changed its accounting on its sale of loans. Previously, the sale proceed of written-off loans was recorded as an adjustment to related allowances and the gain or loss on sale of loans was recognized for non written-off loans for the difference of the book value at the date of sale and the proceeds of the sale. Currently, the sale proceed of written-off loans is not recorded as an adjustment to related allowances but is recorded as the gain or loss on sale of loans and the all gain or loss on sale of loans is calculated by comparing the sale proceeds against its book value on the year end immediately preceding the date of sale. Due to this change, loss on sale of loans increased by (Won)1,183,119 million and gain on sale of loans and allowance for loan losses decreased by (Won)142,531 million and (Won)1,325,650 million, respectively, for the year ended December 31, 2004. The financial statements as of and for the year ended December 31, 2003, presented herein for comparative purposes, were restated to reflect the above changes resulting in an increase in loss on sale of loans by (Won)2,586,725 million, a decrease in gain on sale of loans by (Won)55,216 million and a decrease in allowance for loans losses by (Won)2,641,941 million. Such restatement has no effect on the net assets and the net income (loss) as of and for the year ended December 31, 2003.

Accounting principles and auditing standards and their application in practice vary among countries. The accompanying financial statements are not intended to present the financial position, results of operations and cash flows in conformity with accounting principles and practices generally accepted in countries and jurisdictions other than the Republic of Korea. In addition, the procedures and practices used in the Republic of Korea to audit such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying non-consolidated financial statements are for use by those who are knowledgeable about Korean accounting principles or auditing standards and their application in practice.

This report is effective as of February 4, 2005, the audit report date. Certain subsequent events or circumstances, which may occur between the audit report date and the time of reading this report, could have a material impact on the accompanying non-consolidated financial statements and notes thereto. Accordingly, the readers of the audit report should understand that there is a possibility that the above audit report may have to be revised to reflect the impact of such subsequent events or circumstances, if any.

Kookmin Bank

Notes to Non-Consolidated Financial Statements

December 31, 2004 and 2003

1. The Bank

Kookmin Bank (the Bank) was established in 1963 under the Citizens National Bank Act to provide and administer funds for financing the general public and small businesses. Pursuant to the repeal of the Citizens National Bank Act, effective January 5, 1995, the Bank has conducted its operations in accordance with the provisions of the General Banking Act.

The Bank merged with Korea Long Term Credit Bank (KLB) on December 31, 1998 and with Daegu, Busan, Jeonnam Kookmin Mutual Savings & Finance Co., Ltd. on August 22, 1999. Also, under the decision of the Financial Supervisory Commission in accordance with the Structural Improvement of the Financial Industry Act, the Bank purchased certain assets, including loans classified as normal or precautionary, and assumed most of the liabilities of Daedong Bank as of June 29, 1998. Also, the Bank completed the legal consolidation with Housing and Commercial Bank (H&CB) as of October 31, 2001 (Note 32) and merged with Kookmin Credit Card Co., Ltd. (the Subsidiary), its majority-owned subsidiary, on September 30, 2003 (Note 33).

The Bank has its shares listed on the Korea Stock Exchange since September 1994. As a result of the business combination with H&CB, the former shareholders of the Bank and H&CB received new common shares of the Bank on the basis of a pre-determined ratio. The new common shares of the Bank were relisted on the Korea Stock Exchange on November 9, 2001. As of December 31, 2004, the Bank's paid-in capital amounts to (Won)1,681,896 million and its 47,503,730 shares are listed on the New York Stock Exchange as American Depositary Shares (ADSs).

The Bank engages in the banking and trust businesses according to the provisions of the General Banking Act and the Trust Business Act, and operates through 1,124 domestic branches and offices (excluding automated teller machines of 204) and three overseas branches as of December 31, 2004.

2. Summary of Significant Accounting Policies

The significant accounting policies followed by the Bank in the preparation of its non-consolidated financial statements are summarized below.

Basis of Financial Statement Presentation

The Bank maintains its accounting records in Korean won and prepares statutory financial statements in the Korean language in conformity with accounting principles generally accepted in the Republic of Korea. Certain accounting principles applied by the Bank that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with generally accepted accounting principles in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting

Edgar Filing: KOOKMIN BANK - Form 6-K

principles and practices. The accompanying financial statements have been condensed, restructured and translated into English from the Korean language non-consolidated financial statements. Certain information attached to the Korean language financial statements, but not required for a fair presentation of the Company's financial position, results of operations, or cash flows, is not presented in the accompanying non-consolidated financial statements.

Application of the Statements of Korean Financial Accounting Standards

The Bank has adopted Statements of Korean Financial Accounting Standards (SKFAS) Nos. 1~10, 12 and 13 (SKFAS Nos.10, 12 and 13 have been effective as of January 1, 2004) in the preparation of its financial statements. Except for the adoption of these SKFAS, the same accounting policies are applied for the financial statements as of and for the year ended December 31, 2004 and as of and for the year ended December 31, 2003.

Recognition of Interest Income

The Bank recognizes interest income on loans and debt securities on an accrual basis. However, interest income on delinquent and dishonored loans and debt securities, other than those collateralized with security deposits or guaranteed by financial institutions, is recognized on a cash basis. As of December 31, 2004, the Bank has non-accrual loans and securities of (Won)8,067,271 million and (Won)532,904 million, respectively, with related foregone interest of (Won)469,089 million and (Won)82,594 million, respectively.

Securities

Securities that are bought and held principally for the purpose of generating profits on short-term differences in price, and which are actively and frequently bought and sold, are classified as trading securities. Debt securities with fixed or determinable payments and fixed maturity, and which the Bank has the positive intent and ability to hold to maturity are classified as held-to-maturity securities. Investments neither classified as trading securities nor held-to-maturity securities are classified as available-for-sale securities.

Securities are recognized initially at their fair value plus transaction costs that are directly attributable to the acquisition. The Bank uses the moving average method and specific identification method for determining the carrying value of equity securities and debt securities, respectively.

Trading and available-for-sale debt securities are carried at fair value using the average of quoted prices provided by bond pricing service institutions. Held-to-maturity debt securities are carried at amortized cost.

Marketable equity securities are carried at market prices and beneficiary certificates are carried at quoted prices provided by the beneficiary certificate dealers. However, non-marketable equity securities are carried at fair value only if the fair value is reasonably measurable. Otherwise, they are carried at cost.

Unrealized gains or losses on trading securities are charged to current operations and those resulting from available-for-sale securities are recorded as capital adjustments. Premiums and discounts on debt securities are amortized over the maturity period of the debt securities using the effective interest method. Impairment losses are recognized in the current operations when there is evidence of impairment and recoverable amounts of available-for-sale securities or held-to-maturity securities are less than either the acquisition cost of equity securities or the amortized cost of debt securities. Unrealized gains or losses on available-for-sale or held-to-maturity securities that had not been recognized through income are realized when the related securities are disposed of.

The assets of the wholly owned beneficiary certificates are classified based on the Bank's intention on the balance sheet. The fund assets of these wholly owned beneficiary certificates are comprised of deposits, call loans and securities, and the fund income is comprised of interest income, realized gains and losses, and valuation gains and losses. The Bank recorded all gains and losses from these wholly owned beneficiary certificates as income from beneficiary certificates.

Investments in Associates

Edgar Filing: KOOKMIN BANK - Form 6-K

Investments in associates, over which the Bank exercises significant control or influence, are accounted for using the equity method. Under the equity method, the Bank records changes in its proportionate ownership of the associate in the current operations either as capital adjustments, adjustments to retained earnings or charges to net income(loss), depending on the nature of the underlying change in the book value of the investment in associate.

The Bank discontinues the equity method of accounting for investments in associates when the Bank's share of accumulated losses of the associates equals the costs of the investments and until the subsequent cumulative changes in its proportionate net income of the associate equal its cumulative proportionate net losses not recognized during the periods when the equity method was suspended.

Differences between the initial purchase price and the Bank's initial proportionate ownership of the net book value of the associate are amortized or accreted using an appropriate method and the resulting amortization is charged to current operations.

Gains and losses recorded by the Bank from inter-company transactions with associates are fully eliminated. Gains and losses recorded by the associates from these transactions are proportionately eliminated, based on the Bank's percentage of ownership.

Deferred Loan Origination Fees and Costs

The Bank defers loan origination fees associated with originating loans and loan origination costs that have future economic benefits. Loan balances are reported net of these loan origination fees and costs. The deferred loan origination fees and costs are amortized using the effective interest method with the amortization recognized as adjustments to other interest income.

Allowances for Loan Losses

The Bank provides allowance for loan losses based on the minimum reserve level provided by Financial Supervisory Service Guidelines if the amounts are larger than allowances for loan losses based on historical loss rate of the Bank's lending portfolios.

As of December 31, 2004, the Bank provided allowance for loan losses based on the minimum reserve level provided by Financial Supervisory Service Guidelines.

- Allowance for loan losses based on the minimum reserve level provided by Financial Supervisory Service Guidelines

The Bank determines the credit risk classification of corporate loans using a certain scale based on the Bank's internal credit rating system, the Forward Looking Criteria (FLC), and other factors such as days in arrears, insolvency and result of financial transactions. Allowances are determined by applying the rates of each credit risk classification. The FLC credit rating criteria are divided into 12 categories (AAA, AA, A, BBB, BB, BB-, B, B-, CCC, CC, C, D) and credit risk classification are as follows:

<u>Credit Risk Classification</u>	<u>Credit Ratings</u>
Normal	AAA ~ B
Precautionary	B- ~ CCC
Sub-standard	CC
Doubtful	C
Estimated loss	D

However, the Bank classifies corporate loans, consumer loans, and credit card loans by considering the recoverable amounts of loans including delinquencies, bankruptcies. The rates used for determining the allowances for losses from corporate loans, consumer loans and credit card loans are as follows:

<u>Credit Risk Classification</u>	<u>Allowance Rates</u>		
	<u>Consumer</u>	<u>Credit Card</u>	<u>Corporate</u>
Normal	0.75%	1.00%	0.50%
Precautionary	8.00%	12.00%	2.00%
Sub-standard	20.00%	20.00%	20.00%
Doubtful	55.00%	60.00%	50.00%

Edgar Filing: KOOKMIN BANK - Form 6-K

Estimated loss	100.00%	100.00%	100.00%
----------------	---------	---------	---------

Also, the Bank provides additional allowance for relatively high-risk borrowers and their assets based on estimated recovery amount, liquidation amount, within the maximum allowance rate for each classification.

-Allowance for loan losses based historical loss rate

The rates used for determining the allowances for losses based on historical loss rate by Bank's lending portfolios is determined as follows:

Lending Portfolios	Methodology	Period of Historical	Period of Recovery
		Loss Rate	Ratio
Impaired corporate loans	Discounted Cash Flows	N/A	N/A
Non-impaired corporate loans	Migration Analysis	1-year	5-year
Consumer loans	Migration Analysis	2-year	5-year
Credit card loans	Roll-rate Analysis	1-year	5-year

Based on Bank's lending portfolios' nature, loan period, referrer period and other economic factors, the Bank determined the appropriate data period to be used in assessing its historical loss rate and recovery ratio.

Guarantees and Acceptances

The Bank applies the credit risk classification used for loans to outstanding guarantees and acceptances, and provides allowances for losses of 20 %, 50 % and 100 % of the outstanding guarantees and acceptances classified as sub-standard, doubtful, and estimated loss, respectively.

Troubled Debt Structuring

The equity interest in the debtors, net of real estates and/or other assets received as full or partial satisfaction of the Bank's loans, collected through reorganization proceedings, court mediation, or debt restructuring agreements of parties concerned, are recorded at their fair value at the time of the restructuring. In cases where the fair value of the assets received are less than the book value of the loan (book value before allowances), the Bank offsets the book value against allowances for loans first and then recognizes provisions for loans. Impairment losses for loans, that were restructured in a troubled debt restructuring involving a modification of terms, are computed by getting the difference between the present value of future cash flows under debt restructuring agreements discounted at effective interest rates at the time when loans are originated, and the book value before allowances for loans. If the amount of allowances already established is less than the impairment losses under the workout plans, the Bank establishes additional allowances for the difference. Otherwise, the Bank reverses the allowances for loan losses.

Edgar Filing: KOOKMIN BANK - Form 6-K

After the above adjustments to loans from troubled debt structuring, the Bank separately establishes additional allowances for its loans on related present value, based on the credit status of the borrower.

Before the adoption of SKFAS No. 13, *Troubled Debt Structuring*, the difference between the nominal value and the present value of loan under troubled debt structuring agreements was recorded as present value discounts and was presented separately as a deduction from the loan nominal value. However, in accordance with the Bank's adoption of SKFAS No. 13, unamortized present value discounts as of the beginning of the current period are classified as allowances for loan losses.

Fixed Assets and Related Depreciation

Tangible assets are recorded at cost, except for upward revaluation of certain assets in accordance with the Korean Asset Revaluation Law. Depreciation is calculated based on the estimated average useful lives of the assets and the accumulated depreciation is presented as a contra account of tangible assets in the financial statements. In addition, impairment loss is recognized based on the difference between the recoverable amount and the book value. The accumulated impairment loss is presented as a contra account of tangible assets in the financial statements.

The estimated useful lives and depreciation methods of the tangible assets are as follows:

<u>Tangible Assets</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Buildings and structures	Straight-line	40 years
Leasehold improvements	Declining balance	4-5 years
Equipment and vehicles	Declining balance	4-5 years

Kookmin Bank

Notes to Non-Consolidated Financial Statements

December 31, 2004 and 2003

Expenditures that enhance the value or extend the useful life of the related assets are capitalized as additions to tangible assets. Routine maintenance and repairs are recognized as expenses when incurred.

Foreclosed assets acquired through, or in lieu of, loan redemption are stated at cost and are not depreciated. A valuation allowance is recorded when the latest bidding price at a public auction is below the book value, and is presented as a contra account of foreclosed assets in the financial statements.

Intangible assets are amortized based on the following estimated average useful lives and are presented in the financial statements net of accumulated amortization:

<u>Intangible assets</u>	<u>Amortization Method</u>	<u>Estimated Useful Life</u>
Goodwill	Straight-line	9 years
Development costs	Straight-line	5 years
Trademarks	Straight-line	1-10 years
Others	Straight-line	5-30 years

The Bank estimates the useful life of endowment assets, that are beneficial upon usage and are classified under other intangible assets, to be 30 years based on the term of the contract. The Bank records goodwill as a result of the merger with H&CB as the cost of the merger exceeded the fair value of the net assets acquired.

Development costs directly related to new technology or new products, including costs related to software development, are capitalized as intangible assets to the extent that the estimated future benefits are probable.

The Bank adjusts the book value of a fixed asset to its recoverable amount and recognizes the difference as an impairment loss when the recoverable amount is significantly below the book value due to obsolescence or decline in market value. The subsequent increase in recoverable amount in excess of the impaired book value is recognized, to the extent of the original book value before impairment, as a reversal of fixed asset impairment losses.

Stock Issuance Costs and Debenture Issuance Costs

Stock issuance costs are deducted from paid-in capital in excess of par value. Debenture issuance costs are recorded as discounts on debentures and amortized over the maturity period of the debentures using the effective interest method.

Accrued Retirement Benefits

Employees and directors with at least one year of service and temporary employees with at least a one-year contract, as of December 31, 2004, are entitled to receive a lump-sum payment upon termination of their employment with the Bank, based on their length of service and rate of pay at the time of termination.

Additionally, the Bank records the contributions to pension funds, which grant the payment rights to its employees, as contra accounts of accrued retirement benefits.

Deferred Income Taxes

The Bank recognizes deferred income taxes for anticipated future tax consequences resulting from temporary differences between amounts reported for financial reporting and income tax purposes. By directly adjusting of retained earnings, the Bank records the tax effects of temporary differences arising from the cumulative effects of accounting changes or that arising from adjusting losses and profits on prior period to prior year's unappropriated retained earnings. Deferred tax assets are recognized when it is more likely that such deferred tax assets will be realized.

Bonds under Repurchase/Resale Agreements

Securities bought under resale agreements are recorded under loans as bonds purchased under resale agreements. Securities sold under repurchase agreements are recorded under borrowings as bonds sold under repurchase agreements. Interest from bonds purchased under resale agreements and bonds sold under repurchase agreements are recognized as interest income on loans and interest expense on borrowings, respectively.

Derivative Instruments

Derivative instruments for trading or hedging purpose are recorded at fair value and the resulting unrealized gains and losses are recognized in the current operations, except for the effective portion of derivative transactions entered into for the purpose of cash-flow hedges, which is recorded as an adjustment to shareholders' equity.

Fair value hedge accounting is applied to a derivative instrument with the purpose of hedging the exposure to changes in the fair value of an asset or a liability or a firm commitment that is attributable to a particular risk. The gain or loss, both on the hedging derivative instrument and on the hedged item attributable to the hedged risk, is reflected in the current operations.

Cash flow hedge accounting is applied to a derivative instrument with the purpose of hedging the exposure to variability in expected future cash flows of an asset or a liability or a forecasted transaction that is attributable to a particular risk. The effective portion of the gain or loss on a derivative instrument designated as a cash flow hedge is recorded as a capital adjustment and the ineffective portion is recognized in the current operations. The effective portion of the gain or loss recorded as a capital adjustment is reclassified to current operations in the same period during which the hedged forecasted transaction affects earnings. If the hedged transaction results in the acquisition of an asset or the incurrence of a liability, the gain or loss recognized as a capital adjustment is added to or deducted from the asset or the liability.

Stock Options

Compensation costs for stock options granted to employees and executives are recognized using the fair value method. Under the fair value method, compensation costs for stock option plans are determined using an option-pricing model and are recognized over the vesting period.

National Housing Fund

The Bank, as designated by the Korean Government under the Housing Law (former Housing Construction Promotion Law), manages the sources and uses of funds of the National Housing Fund (the NHF) and records the related NHF account in other liabilities. In addition, the Bank pays NHF the interest, which is computed by multiplying the average balance of the NHF account by the passbook deposit interest rate.

Transactions with the Trust Accounts

Edgar Filing: KOOKMIN BANK - Form 6-K

Under the Trust Business Act, the Bank recognize trust accounts (the Trust Accounts) as a separate one. The borrowings from trust accounts represent transfer of funds in trust accounts into banking accounts. Such borrowings from trust accounts are recorded as receivables from the banking accounts in the trust accounts and as borrowings from trust accounts in the banking accounts. The Bank s banking accounts receive trust fees from the trust accounts for its management of trust assets and operations.

The reserves for future losses are set up in the trust accounts for losses related to those trust funds with a guarantee of the principal or of a certain minimum rate of return in accordance with the relevant laws and regulations applicable to trust operations. The reserves are used to provide for the losses on such trust funds and, if the losses incurred are in excess of the reserves for future losses, the excess losses are compensated by the Bank. Accordingly, the banking accounts recognize the compensation paid as a loss on trust management in other operating expenses and the trust accounts recognize the corresponding compensation as compensation from banking accounts. No compensation was recorded for the years ended December 31, 2004 and 2003.

Foreign Currency Translation

All assets and liabilities denominated in foreign currencies are translated into Korean Won at the rates in effect at the balance sheet date (2004: (Won)1,043.8:US\$1, 2003: (Won)1,197.8:US\$1), and resulting translation gains and losses are recognized in the current period.

Accounting records of the overseas branches are maintained in the foreign currency prevailing in their respective countries. For the purpose of presentation in the accompanying financial statements, the financial statements of the branches have been translated into Korean Won, using exchange rates published by Seoul Money Brokerage Services, Ltd. as of the balance sheet dates.

Statement of Cash Flows

In the preparation of the statement of cash flows, the Bank has presented net amounts of cash inflows and cash outflows for items where the turnover is quick and the amounts are large

Restatement of Prior Period Financial Statements

During the year ended December 31, 2004, the Bank changed its accounting on its sale of loans. Previously, the gain or loss on sale of written-off loans is computed by adjusting the loan's related allowance. The gain or loss on sale of loans other than written-off loans is computed by comparing the book value at the date of sale against the proceeds of the sale. Currently, the gain or loss on sale of both kinds of loans is now computed by comparing the sale proceeds against its book value on the year end immediately preceding the date of sale. Due to this change, loss on sale of loans increased by (Won)1,183,119 million and gain on sale of loans and allowance for loan losses decreased by (Won)142,531 million and (Won)1,325,650 million, respectively, for the year ended December 31, 2004. The income statement for the year December 31, 2003, presented herein for comparative purposes, were restated to reflect the changes in calculation of gain or loss on sales of loans loss resulting in an increase in loss on sale of loans (Won)2,586,725 million and decrease in gain on sale of loans and allowance for loans losses by (Won)55,216 million and (Won)2,641,941 million, respectively. Such restatement has no effect on the current period's net income (loss) and net assets.

The Bank reclassified the subordinated retained interests received from securitization transactions from available-for-sale securities to loans. Such reclassification has no effect on prior year's net loss and net assets. The prior year financial statements presented herein for comparative purposes were also reclassified to conform to the current year financial statement presentation.

As explained in Note 38, the Bank restated its financial statements as of and for the year ended December 31, 2003 to comply with Securities and Futures Commission's instructions.

Kookmin Bank**Notes to Non-Consolidated Financial Statements****December 31, 2004 and 2003**

KLB Securities Co., Ltd., Joeeun Industrial Co., Ltd., KICO No. 2 Venture Investment Partnership, KICO No.3 Venture Investment Partnership, Kookmin Singapore, Ltd. and Kookmin Finance Asia, Ltd. (HK) are all in the process of liquidation. Consequently, accounting under the equity method is no longer applied to investments in KLB Securities Co., Ltd. and Joeeun Industrial Co., Ltd. due to accumulated deficits resulting to a decrease of the investment value below zero . Accordingly, the total accumulated estimated loss that has not been recognized by the Bank arising from the securities amounts to (Won)58,875 million.

Differences between the initial purchase price and the Bank's initial proportionate ownership of the net book value of KB Credit Information amounting to (Won)1,128 million, for the 342,844 shares which the Bank acquired on October 22, 2004, are accreted for 5 years to unrealized gain or loss on investment in associates.

The Bank applies the equity method accounting to subsidiaries based on unaudited financial statements as of December 31, 2004. In the case of Sorak Financial Holdings PTE Ltd. and ING Life Korea Co., Ltd., the Bank applies the equity method based on the most recent available unaudited financial statements that are adjusted for changes in net assets for the period ended December 31, 2004.

On April 29, 2004, as a means to venture into the insurance business for diversification of revenues, the Bank invested (Won)30,246 million (including acquisition costs) to acquire a 100% ownership of KB Life Insurance Co., Ltd., which was founded to acquire the assets and the liabilities of Hanil Life Insurance Co., Ltd. The Bank eliminated unrealized gain for inter-company transactions with KB Life Insurance Co., Ltd amounting to (Won)15,816 million.

The maturities of the available-for-sale and held-to-maturity debt securities, excluding equity investments, as of December 31, 2004 are summarized as follows:

15. Derivatives

The Bank's derivative instruments are divided into hedge derivatives and trading derivatives, based on the nature of the transaction. The Bank enters into hedge transactions mainly for purposes of hedging fair value risks related to its assets and liabilities. Some hedging transactions do not qualify for hedge accounting and are thus accounted for as trading derivatives. These transactions include the hedge relationships where the hedged item is an asset or liability that is re-measured with the changes in fair value attributable to the hedged risk reported in the current operations, or where the hedged item cannot be specifically identified.

Trading derivatives include future contracts, forward contracts, swaps, and options entered into by the Bank to meet the financing needs of its customers and to gain profit from arbitrage transactions between customers and other banks. The Bank also uses derivative instruments in managing its own trading and asset-liability management exposures to fluctuations in interest rates and foreign exchange risks.

Hedge derivatives mainly consist of interest rate swaps to hedge the fair value changes of debentures arising from the interest rate fluctuations.

The notional amounts outstanding for derivative contracts as of December 31, 2004 and 2003 are as follows:

16. Commitments and Contingencies

As of December 31, 2004, the Bank faces 192 pending legal actions involving aggregate amount of damages of (Won)423,013million. On the other hand, the Bank also filed 237 lawsuits, which are still pending, with an aggregate amount of claims of (Won)129,598 million. Management believes that the actions against the Bank are without merit and that the ultimate liability, if any, will not materially affect the Bank's financial position.

Details of the pending material legal actions charged against the Bank are as follows:

Edgar Filing: KOOKMIN BANK - Form 6-K

<i>(in millions of Korean Won)</i>	Exposure to possible loss	Results

As of December 31, 2004, the Bank has entered into commitments to provide a credit line of (Won)5,226,756 million, and to purchase commercial papers amounting to (Won)1,073,300 million, with several special purpose companies. Commitments to provide a credit line and to purchase commercial paper with a one year term amounted to (Won)123,500 million and (Won)972,000 million, respectively. Under these commitments, the Bank provides money, in case of a temporary fund shortage, for the principal and interest repayment of these companies senior bonds and subordinated bonds within the contracted term and amounts.

As of December 31, 2004, loans outstanding under the credit line commitment amounted to (Won)196,858 million, and there is no outstanding balance for commercial papers under the purchase commitment. The Bank has arranged various methods to compensate for losses on these credit line commitments including payment guarantees, repurchase contracts, surety certificate guarantees, and cash reserves. As of December 31, 2004, the Bank provided (Won)438,343 million in other allowances for its expected losses related to these commitments.

Kookmin Bank

Notes to Non-Consolidated Financial Statements

December 31, 2004 and 2003

As of December 31, 2004, post settlements on the loan sales transactions with Korea Asset Management Corporation (KAMCO) have been completed. Accordingly, the Bank provided allowances of (Won)217million for losses from possible future repurchase of loans from KAMCO under the repurchase agreement on loans amounting (Won)692 million.

As of December 31, 2003, the Bank provided (Won)142,021 million as allowances for tax deficiencies resulting from the tax investigations by the National Tax Administration (NTA) for the fiscal years 1998 to 2001. In the current period, the NTA assessed the Bank (Won)123,310 million in tax deficiencies, wherein the Bank actually paid (Won)122,852 million and subsequently recording the difference between the accrued assessment and the actual assessment paid of (Won)18,711 million as non-operating income. As of December 31, 2004, the unpaid tax deficiencies of (Won)458 million still remain under other allowances.

As of December 31, 2004, the Bank still holds (Won)6,629,858 million in unexpired rights to claim from borrowers or guarantors for loans in accordance with the relevant law. This amount, however, has been written off.

As of December 31, 2004, the Bank recorded receivables amounting to (Won)1,162,161 million, and payables amounting to (Won)1,468,528 million for unsettled foreign currency spot transactions.

The Bank entered into an alliance with Woori Credit Card, Citibank and Nonghyup for the operation of a credit card business. Accordingly, the Bank shares the related revenue from such business operation.

As of December 31, 2004, the Bank has provided one blank promissory note and one promissory note with face value of (Won) 2,000,000 million to Korea Securities Finance Corporation as collateral for borrowings and other obligations. Also, as of December 31, 2004, the Bank transferred endorsed bills amounting to (Won)9,396 million.

In accordance with the November 24, 2003 agreement with the creditors' committee of LG Card Company, Limited(LG Card), which is experiencing a financial crisis, the Bank provided the said company loans totaling (Won)437,000 million. And on January 9, 2004, the Bank agreed to also provide additional loans of (Won) 205,900 million, a debt-equity swap of (Won) 518,600 million, and an extension of maturities of loans maturing in 2004. On February 13, 2004, the Bank executed first debt-equity swap with LG Card for (Won)156,350 million for loans amounting to (Won)145,950 million and corporate debt securities amounting to (Won)10,400 million. After the capital reduction in May 2004 at a rate of 43.4:1, a second debt-equity swap was executed in July 28, 2004 amounting to (Won)362,250 million for loans of (Won)348,364 million and corporate debt securities of (Won)13,886 million. As of December 31, 2004, the Bank's total exposure related to LG Card includes loans and debt-equity swapped equity securities amounting to (Won)237,900 million and (Won)291,072 million, respectively. Also, in accordance with the agreement with the creditors' committee, the Bank participated in capital increase of LG Card by providing paid-in-capital of (Won)75,800 million on January 28, 2005. Furthermore, as of December 31, 2004, asset backed debt securities amounting to (Won)241,434 million, related with domestic credit card companies and capital companies, is included in the Bank's investment securities. The ultimate effect of these circumstances on the financial position of the Bank as of the balance sheet date cannot be presently determined, and accordingly, no adjustments related to such uncertainties have been recorded in the accompanying non-consolidated financial statements.

17. Capital Stock

As of December 31, 2004, the Bank has 1 billion common shares authorized with a par value per share of (Won)5,000 and 336,379,116 shares issued. EURO-PACIFIC GROWTH FUND owns 4.26% of the total issued shares. As of December 31, 2004, 47,503,730 common shares, equivalent to 14.12% of the total issued shares, are listed on the New York Stock Exchange as ADSs and are managed by the Bank of New York, the trustee of the Bank.

As a result of the legal consolidation with H&CB, the registered shareholders of both the Bank and H&CB, as of October 31, 2001, received 179,775,233 shares and 119,922,229 shares, respectively. The new shares were distributed based on an exchange ratio of one new Bank share each for 1.688346 old Bank shares, and one new Bank share for an H&CB share. The new shares were listed on the

Korea Stock Exchange as of November 9, 2001. Further, as a result of the merger with Kookmin Credit Co., Ltd., the Bank issued 8,120,431 shares.

Under the General Banking Act, if a single entity, other than the government or a foreign investor, owns more than 4% of total outstanding voting shares, that entity's voting rights are limited to 4% shareholding.

The Bank is authorized to issue to non-shareholders convertible bonds and bonds with stock purchase warrants up to total par value amounts of (Won)2,500 billion and (Won)500 billion, respectively by an appropriate resolution of the Bank's Board of Directors.

18. Capital Surplus

The movements in capital surplus for the year ended December 31, 2004 are as follows:

(in millions of Korean won)

	<u>Beginning Balance</u>	<u>Changes</u>	<u>Ending Balance</u>
Paid-in capital in excess of par value	(Won) 5,655,840	(Won)	(Won) 5,655,840
Gain on business combination	397,669		397,669
Revaluation increment	177,229		177,229
	<u>(Won) 6,230,738</u>	<u>(Won)</u>	<u>(Won) 6,230,738</u>

The gain on business combination is due to the difference between the business combination consideration and the net asset value acquired from the merger with KLB on December 31, 1998.

19. Retained Earnings

The General Banking Act requires the Bank to appropriate as a legal reserve a minimum of 10% of annual net income until the legal reserve equals paid in capital. This reserve is only available for being transferred to capital stock or used to reduce accumulated deficit.

Edgar Filing: KOOKMIN BANK - Form 6-K

Under the guidance provided by Financial Supervisory Services, the Bank is required to appropriate, as a reserve for improvement of financial structure, a minimum of 10% of its annual income less carried over accumulated deficit, until its capital adequacy ratio equals 5.5%. This reserve is only available for being transferred to capital stock or used to reduce accumulated deficit.

Pursuant to the Tax Exemption and Reduction Control Law, the Bank was previously required to appropriate, as a reserve for business rationalization, amounts equal to tax reductions arising from tax exemptions and tax credits up to December 31, 2001. However, as of January 1, 2002, the requirement was no longer effective.

The Bank, at its own option, also appropriated a portion of retained earnings as other reserves for the operations of overseas branches.

There were no dividends declared for the year ended December 31, 2003. For the year ended December 31, 2004, cash dividends were declared as follows:

	2004
Shares outstanding	336,379,116
Treasury stock	(29,881,209)
	306,497,907
Shares entitled to dividends	306,497,907
Dividend rate(%)	11.00
Dividend amount (in millions of Won)	(Won) 168,574
Dividend payout ratio(%)	30.36
Dividend profit ratio(%)	1.36

As approved by the shareholders on March 23, 2004, the Bank offset the discretionary reserves of (Won)754,900 million against the prior year's undisposed deficit of (Won)754,855 million (which is the amount before reflecting restatement of prior period financial statements referred at Note 38).

- 1 The stock options excluded the 200,000 shares, which were to be additionally granted if the three-month weighted average stock price of the Bank prior to the exercise period is higher than that of any other listed banks and the Bank achieves total market value and ROE target, due to failure of target achievement.
- 2 The exercise prices are based on the increase rate of the stock price index in the banking industry. The exercise price of series 7, which was granted on November 16, 2001, is fixed at (Won)51,200 based on the beginning exercise date.
- 3 The number of shares to be granted will be determined by the results of the evaluation of the grantees after 3 years from grant date. The number of shares is calculated under the assumption that the performance-based stock options have been fully granted.
- 4 The Bank took over the stock options granted by Kookmin Credit Card Co., Ltd. of which the exercise prices and number of shares have been adjusted in proportion to the merger ratio.

37. Reclassification of Prior year Financial Statement Presentation

Certain accounts of prior year financial statements have been reclassified to conform to the current year financial statements presentation. These reclassifications have no effect on previously reported net income or shareholders' equity.

38. Results of Securities and Futures Commission (SFC)'s investigation and Restatement of prior periods' financial statements

On August 25, 2004, the Securities and Futures Commission (SFC) announced the results of the investigation on Kookmin Bank's accounting treatments related to acquisition of Kookmin Credit Card and other transactions.

(1) Results of Securities and Futures Commission's investigation**Accounting treatment in relation to the acquisition of Kookmin Credit Card (KCC)**

As discussed earlier, the Bank merged with KCC in September 2003. Relative to the merger, for the year ended September 30, 2003, KCC failed to recognize an allowance on loan loss of (Won)1,266,405 million, which included other allowances of (Won)15,442 million, resulting in the overstatement of its net income. Consequently, the Bank recognized unrealized gain on investment in associates of (Won)211,202 million in proportion to its 74.2692% interest in KCC which recorded a net income of (Won)284,373 million for the same period. Regarding KCC's under-recording of the allowance of loan loss of (Won)1,266,405 million and the additional allowance on loan losses due to the difference in

Edgar Filing: KOOKMIN BANK - Form 6-K

accounting treatments on the Bank's consolidated financial statements of (Won)389,980 million, both of which total (Won)1,656,385 million, these were subsequently recorded by the Bank as allowance on loan loss due to merger of (Won)1,652,264 million and impairment loss on investments available-for-sale of (Won)4,121 million. To comply with the SFC's instructions, the Bank recorded unrealized loss on investment in associates of (Won)1,018,982 million, proportionate to its 74.2692% interest in the sum of (Won)1,372,012, which is the total of KCC's net loss of (Won)982,032 million and the additional allowance on loan loss due to merger of (Won)389,980 million; and deducted the minority interest of (Won)309,559 million from additional paid in capital.

Accounting treatment in relation to asset securitization

The Bank is currently offering credit lines to the KCC 16th Special Purpose Co., Ltd (SPC) and FN Star 3rd SPC amounting to (Won)757,000 million (transferred value of (Won)1,243,000 million, transfer gain of (Won)488,000 million). However, the recovery rate of the assets transferred to the SPCs decreased dramatically between September 2003 and January 2004, before actual issuance of year-end financial status. As the present value of the underlying assets dropped below the SPC's liability amount, there is a high probability that the Bank would be liable to cover the difference up to the credit line limit. Even though the Bank could have reflected the probable contingency loss amount by estimating future cash flows based on the recovery rates available to the latest month and the fair valuation models used at the point of asset securitization, the Bank appropriated only (Won)133,376 million for the estimable contingency loss of (Won)346,533 million, understating other allowances (allowance for acceptances and guarantees outstanding) by (Won)213,157 million and overstating net assets (understating net income) by the same amount.

Kookmin Bank**Notes to Non-Consolidated Financial Statements****December 31, 2004 and 2003****Accounting treatment in relation to Special Purpose Co., Ltd. currency swap**

In relation to the early redemption of asset-backed securities (ABS) by KCC 10th Special Purpose Co., Ltd on September 18, 2003, a settlement loss of (Won)27,159 million was paid to ING Bank due to a decline in currency swap interest rate. Therefore, since KCC, the holder of the ABS, guaranteed the payment of the loss, KCC should have recognized the settlement payment as loss and the Bank should have recognized its equity share portion of (Won)20,171 million and the excess amount over minority interest of (Won)6,988 million as unrealized loss on investment in associates. However, KCC recognized the swap settlement payment as asset, ABS advance payment, and the Bank accounted for the amount as contra account amount of liabilities, agency fee. As a result, the Bank understated the liability by (Won)27,159 million and overstated net assets by the same amount.

(2) Restatement of Prior periods financial statements

To comply with SFC's instructions, the Bank restated its financial statements as of and for the year ended December 31, 2003 regarding the understatement of other allowance and overstatement of unrealized gain on investment in associates for the amount of (Won)213,157 million and (Won)27,159 million, respectively, by reversing the understatement of other allowance by (Won)213,157 million in income statement for the year ended in December 31, 2003 and overstatement of unrealized gain on investment in associates by (Won)27,159 million in income statement for the year ended in September 30, 2003. Therefore, the net income and retained earning before appropriation in the financial statements for the year ended in December 31, 2003 in the audit report dated March 3, 2004, were understated by (Won)177,008 million due to tax effect of the understatement of other allowance by (Won)213,157 million and the overstatement of unrealized gain on investment in associates by (Won)27,159 million.

The balance sheet as December 31, 2003 and income statement for the year ended December 31, 2003, presented herein for comparative purposes, has been restated in accordance with above.

The following summarizes the adjustments made by the Bank and the effects on financial statements of December 31, 2003 are as follows:
